THINK SHE WILL YIELD.

Terms of Peace Not Likely to Be Rejected by Spain.

Heavier Penalty For Not Accepting Them.

French Ambassador Concerned Over Spanish Debts.

Washington, Aug. 1.—An extremely optimistic feeling prevails in administration circles. Considerable doubt has been expressed by some members of the cabinet whether Spain would accept our terms of peace. The fear was entertained that after wasting time in talk and quibbling the Europeans would find the conditions too hard and determine that honor would not permit of their acceptance. This would result in an indefinite prolongation of the war, as we should be compelled to march against Havana in the fall. Today that feeling has disappeared. It is now generally believed that Spain will accept our proposals and that peace is in sight.

The statement is distinctly made by a member of the cabinet that no intimation has been received from Europe that Spain is willing to throw up her hands and end the war at any price, but the administration believes Spain will agree to the terms proposed by this government simply because she has no alternative. If she grows stubborn now and stands out, she must now know that when peace is concluded some time in the future we shall ask a heavier price than we are now exacting. The impression is very general in White House circles that in a very few days formal peace negotiations will be under way.

Cambon's Plea For Spain.

Since his first call on the president Ambassador Cambon has had his powers enlarged by the Spanish government, and in accordance with the greater authority vested in him felt justified at the conference Saturday to discuss the details of the proposed terms of peace, pointing out clauses which he considered should be modified, and asking explanations in regard to other terms. The phraseology of one paragraph, the ambassador suggested, might be open to a double interpretation, and the president agreed to have it changed, so as to make it perfectly clear. The change in no way altered the sense, but merely the wording.

The bulk of the Cuban debt is held in France, and the future of that debt is really a matter of more concern to the people of France than it is to those of Spain. Mr. Cambon discussed the disposition to be made of the debt, part of the time arguing as the representative of Spain, and then showing how vitally interested France was in the subject and how necessary it was some arrangement should be made whereby French creditors would not lose their investments. The president, however, would listen to no suggestion of any kind. He adhered to his position that the terms accepted by the members of his cabinet could not be modified without their consent. These terms, besides naming Manila as the place for the coaling station in the Philippines, do not deal specially with the debt, but provide it shall be settled by the peace commissioners. The administration has resolved that the debts of the two colonies will not be assumed by this country and that foreign creditors must look to Spain and not to the United States for payment of their securities.

Olney a Peace Commissioner.

So well satisfied is the president that peace is measurably in sight that he has already devoted some time to the consideration of commissioners to negotiate a treaty of peace. If three commissioners are selected the president already has made his choice, provided the men will accept the appointments. The men selected for this very important work are ex-Senator George F. Edmunds of Vermont, General Woodford, at present minister to Spain on leave, and ex-Secretary of State Richard Olney. The president, it is said, is particularly anxious that Mr. Olney shall accept the appointment, as he realizes that his diplomatic skill, force of character and knowledge of the methods of Spanish diplomacy will be most useful in the negotiations.

Meanwhile, as an earnest sign that our government has not interrupted the execution of its campaigns, an order has been issued for the dispatch of an entire army division to reinforce General Miles and General Brooke in Porto Rico. This will be known as the provisional division and will be commanded by Major General Wade, at present in command at Camp Thomas. He is ordered to turn over that command to Major General Breckinridge, inspector general of the army, and to report to Secretary Alger in Washington for instructions before departing for Porto Rico, bringing with him his adjutant general and his aides. The provisional division will consist of 15 full regiments, and General Wade will select them, not from the troops under his old command alone, but with particular reference to an equitable representation in the Porto Rican campaign of all the states.

GeneralMiles sent the following dispatch to Secretary Alger Sunday from Ponce, Porto Rico: "Volunteers are surrendering themselves with arms and ammunition. Four-fifths of the people are over-joyed at the arrival of the army. Two thousand from one place have volunteered to serve with it. They are bringing in transportation, beef and other needed supplies. The custom house has already yielded $14,000. As soon as all the troops are disembarked they will be in readiness to move. Please send any national colors that can be spared to be given to the different municipalities. I request that the question of tariff rates to be charged in the ports of Porto Rico occupied by our forces be submitted to the president for his action, the previous existing tariff meanwhile remaining in force. As to the government and military occupation, I have already given instructions based upon the instructions issued to me by the president in the case of the Philippine islands and similar to those issued at Santiago de Cuba."

DESIRE FOR REVENGE.

Natives In Ponce Acted Like Savages Toward Spanish Volunteers.

Ponce, Aug. 1.—General Miles will move upon San Juan when he is satisfied of the strength of the attacking force. Proof of that will be afforded in a few days. Meanwhile the soldiers landed are taking life easy here and on the highway to the Mecca of all hopes. The commander of the Spanish forces in the vicinity is not aggressive, owing to the realization of the hopelessness of his situation. Furthermore, his strength is depleted daily by the desertions of the volunteers.

General Garcia, who is in immediate command of the Spanish regulars—not believed to number more than 500—was deserted by most of the Spanish volunteers in his command during Thursday night, and they began straggling back to the city with the dawn. They immediately presented themselves to the provost marshal and surrendered their arms.

The appearance of the volunteers aroused in the breast of the natives who had suffered at their hands in the past, especially the political prisoners who were released when we took the city, a desire for revenge, and they began to ferret out all the Spaniards in the city who had ever been in the volunteer service, and drag them to the plaza. Bloodhounds could not have been more savage. Most of the Spaniards in hiding upon being discovered were hauled in triumph by hooting, jeering mobs to General Wilson's headquarters, or to the provost marshal's office in the municipal building. Some of the natives even began looting the residences of the Spaniards. They mistook liberty for license and were crazed with a thirst for vengeance. General Wilson, however, soon taught them that revenge could not be wreaked under the protection of our flag, and peremptorily ordered that the arrest of Spanish suspects should cease. Such volunteers as presented themselves, however, were received and released after their arms and names had been taken. Many of them had been forced into the service of Spain to escape persecution.

Without seeing or hearing anything of the enemy the advance guard of General Henry's division which landed at Guanica Tuesday, arrived here Friday, taking en route the cities of Yauco, Tallaboa, Sabana, Grande and Penuclas. Attempts by the Spanish to blow up bridges and otherwise destroy the railroad between Yauco and Ponce failed, only a few flat cars being burned. Our troops fired up the locomotives, and are now operating the road from end to end, carrying supplies, messages and men. At Yauco the Americans were welcomed in an address made by the alcade.

American gold is at a premium of 100 percent. Yesterday prices were cheap; today they are enormous. The newspaper correspondents have difficulty in obtaining horses even at $200 in gold. The natives imagine that the pockets of the Americans can emit a ceaseless flow of eagles and double eagles. There is a plenty of provisions in the city, except rice, one of the staples, which is quoted at a very high figure for this country.

Our army will not lack for fresh meat in the march across the island. The broad savannahs which lie between the undulating hills swarm with cattle, at reasonable prices and of excellent quality. General Garetson's brigade is massed at Yauco, the terminus of the railway, 15 miles off, and will probably remain there until the army is ready to move; but it is thought that the artillery will be brought here immediately. The railroad is in good order, but much of the rolling stock has been destroyed. General Stone yesterday found several engines wrecked. The machinery had been dismembered by Spanish sympathizers at the roundhouse and hidden. General Stone gave them two hours to get the engines into working order under penalty of imprisonment, and in less than that time the engines had steam up and were ready to move.

The Spaniards will probably retire as far back as Aibonite, about 35 miles on the road to San Juan, where they are likely to make a stand if they receive reinforcements. They left here entirely without artillery, which makes it appear that an attack at this point was never dreamed of by them. Not a gun was mounted. The garrison was small and poorly armed. All the guns, with one exception, that were burned in the arsenal when they retreated Wednesday night were remingtons, not mausers.

There was not a mine in the harbor of Ponce, although two ancient affairs, covered with barnacles, were found at Guanica. These had been placed there years ago and resisted every effort to explode them.

It is evident from the wholesale desertions on the part of the Spanish volunteers that Captain General Macias must depend in last resort upon the regulars. These do not number over 8000 in the whole island, and everything thus far indicates an easy conquest. General Wilson thinks he could take the

(*Continued on page 4.*)

HIS DEATH STRUGGLE.

Bismarck's Last Moments Attended With Much Suffering.

Fearful Spasms In Trying to Get Breath.

Statesman's Order to Be Buried Within Sight of Home.

Berlin, Aug. 1.—The death of Prince Bismarck just before midnight Saturday night was without any premonition in the forenoon, when everything favored the theory of recovery as advanced by his physician owing to the symptoms. Prince Bismarck's condition was comparatively satisfactory throughout Friday and Saturday. He read and conversed on politics, particularly referring to Russian affairs. In the forenoon he took luncheon, grumbling jocularly at the small proportion of spirits in his drinking water. Then a sudden change for the worse occurred in consequence of an acute attack of pulmonary odema, and in the course of the afternoon he frequently became unconscious.

Recently, besides periods of unusual clearness of mind, the prince had had intervals of drowsiness, falling into long, sound and beneficial sleep, on awakening from which he would be completely refreshed. Saturday evening grave symptoms appeared. Dr. Schweinger was able to some extent to lighten the last moments by wiping the mucus from the patient's mouth and enabling him to breathe more freely. The last words Bismarck uttered were addressed to his daughter, Countess Von Rantzau, who wiped the perspiration from his forehead. They were: "Thanks, my child."

According to an unofficial account the death agony was prolonged. The prince died without taking leave of the family. For fully an hour he suffered terrible difficulty in breathing, and his groans were fearful to hear during the death struggle. He had been placed in a sitting position and propped up with cushions in order to relieve the frightful spasm in breathing. His powerful constitution fought to the last.

The family, gathered in an adjoining room, was plunged into the very anguish of grief by the moans from the death chamber. The despair of all was intensified by Dr. Schweninger's absence, although medical art was unavailing. The only consolation was that the prince was unconscious during the last two hours. Dr. Schweninger was only in time to afford some relief in the final moments. During the agony of dying the prince repeatedly pressed his hands to his eyes.

His appearance in death is said to recall strikingly that of the first Emperor William, the smallness of skull as compared with a large body being especially remarkable. The strongly contracted, small, pale features, greatly emaciated, suggest how long and severely he suffered, though the expression was calm.

It is reported that Emperor William telegraphed his desire to have a worthy funeral at Berlin, and that Count Herbert, after thanking the emperor, declined the offer on the ground that his father long ago expressed a distinct wish to be buried at Friedrichsruhe. The emperor also wired Professor Begas to take a mask of Prince Bismarck's face. As the professor was absent, Mrs. Begas sent an assistant to take a mask in gypsum. Over 500 telegrams of condolence and many beautiful wreaths have already arrived. It may be recalled that Bismarck once expressed his wish to be buried at Friedrichsruhe in as nearly as possible in the following words: "I like best to think of my coffin under the tops of the German oaks on this height, whence the eye surveys the green woods in which Friedrichsruhe is embosomed."

It is admitted that several times during recent months the prince had attacks rendering the family extremely anxious, but his wonderfully recuperative power always asserted itself, and it was quite believed on Friday that all immediate danger was past. It turns out, however, that a regiment stationed at Hamburg had received warning to be ready to supply a guard of honor at any moment.

Sorrowful sympathy over Prince Bismarck's death is manifested in many ways. The news is constantly discussed in public places, and a feeling of sadness prevails among all classes of the people.

United States Ambassador White sent the following dispatch to Count Herbert Bismarck at Friedrichsruhe: "On behalf of the whole American people, whether official or unofficial and of whatever birth or descent, I tender congratulations upon the mighty career now ended and the most sincere sympathy for yourself and your mourning family."

Man of the Century.

London, Aug. 1.—The space the morning papers today devote to Prince Bismarck alone is ample testimony that the man of the century has disappeared. "He was greater than Napoleon," says The Daily Graphic, "for his work endures. He was the greatest personality of his century, the pivot on which everything of importance in the history of Europe has turned."

The obituary in The Times occupies 13 columns. "His death," says the paper, "removes the greatest personality in Europe. His career was altogether a romance. With all his faults he has remained for most of his countrymen more of a demigod than an ordinary mortal."

The Chronicle, contrasting Gladstone and Bismarck, says: "Gladstone left a national legacy of enlightened, generous and democratic legislation, and the name loved and revered by other people hardly less than by his own. Bismarck's monument is a forest of bayonets; and he goes to his grave without the homage of a tear beyond the borders of his own land." Proceeding in a savage attack upon the deceased German statesman, The Chronicle remarks: "To him more than to another man is due the fact that Europe resounds today with the tramp of armed millions. His huge strength, his capacious mind, his unvarying purpose and his colossal triumphs are a proof forever of what man can be. Nobody but a German will ever look to him for an example of what man ought to be."

SKETCH OF BISMARCK.

"Everything in this world is, after all, a question of time. Men and nations, folly and wisdom, peace and war, all come and go like waves, but the sea remains. There is nothing on earth but hypocrisy and jugglery, and, whether it be fever or grapeshot that tears away this mask of flesh, fall it must sooner or later. The bones of the wise man and the fool look just alike."

BISMARCK.

Otto von Bismarck penned this gloomy lament. It was not wrung from the bitterness of his later years, it came from him in the prime of manhood when William of Prussia, just called to the throne, invited him to Berlin to become the head of the ministry. This was a supreme moment in the history of Prussia, for Bismarck was to usher in his famous policy of blood and iron and set the pegs for Germany's regeneration. Yet at the very threshold of this great work he was filled with a morbid apprehension of the vanities and vexations of the world. One can hardly imagine Bismarck, whose daring statesmanship was to change the map of Europe and keep kings and potentates in awe, pausing on the brink of his wonderful achievements to lament the folly of nations and of men.

But Bismarck had several sides to his nature. In diplomacy artful and audacious, in battle grim and relentless, gruff and stern in his treatment of political rivals, he had nevertheless softer moods, in which humor, philosophy and religion blended curiously to lighten up the general sternness and determination of his character. He was an affectionate, faithful husband, a kind and indulgent father and a generous neighbor and friend. He could, however, brook no opposition to his ideas of policy and resented the slightest interference with his power in the empire, but his deep, absorbing patriotism, his unbounded faith in the glorious future of his country, as well as his profound reverence of its past, covered a multitude of faults and toned down the sharp, jutting edges of his unique personality.

BISMARCK'S EARLY CAREER.

Daredevil Student, Court Reporter, Legislator, Embassador.

There was little promise of a brilliant career in the youth of Otto von Bismarck. By a strange irony of fate he was born on April Fool's day at Schoenhausen, the home of his ancestors, in 1815. At the age of 6 he was sent to a boarding school at Berlin, and when 12 years old he was removed to the gymnasium, or public classical school, and remained five years in such institutions.

At Gottingen university, whither he was sent from the Berlin schools, young Bismarck was a typical specimen of the reckless, daredevil student. He was then a tall, slim, pale faced youth, active and healthy enough, but with little sign of the broad shouldered, stalwart man he afterward became.

From Gottingen university Bismarck went to the University of Berlin, where he soon passed an examination in law and was appointed auscultator, or official reporter, at one of the courts. A year of court reporting and law was enough for Bismarck. He resigned his position, and after traveling several months he settled down to the life of a practical farmer on the family estates.

In 1847 he was wedded to the Fraulein Johanna Frederica Charlotte Puttkamer. The marriage proved a union without a flaw. It steadied the impetuous young German, brought him for the first time face to face with the serious business of life and was the turning point of his great career.

Soon after his marriage Bismarck was made a member of the Frankfort diet. At that time Germany was composed of loosely organized states and had little influence in European affairs. The revolution of 1848 infused new hopes into the hearts of the people. Radical ideas were spreading and the occupants of thrones trembled for their safety. It did not take Bismarck long to

Good Afternoon.

The noon temperature of Quincy for July went higher and lower than in 1896 or 1897. In 1896 the extremes were 96 and 64; in 1897, they were 94 and 65; and this year 101 was the highest and 60 the lowest. The August extremes of 1896 were 95 and 69, and in 1897 they were 89 and 61. We have probably had our hottest weather.

Brockton's tax rate continues very high. It is $20.20 this year. A reduction of fifty cents was effected by taking $28,000 from the treasury, which has caused some adverse criticism. The increase in taxable property was but $454,111, and in polls 385. High tax rates are in order this year, and that of Quincy will be small compared with many.

The captivating trolley car trip from from Boston to Newport, R. I., via of Quincy, described in the Sunday Herald, would please the people along the route much better, if the sketch was nearer correct. To give Braintree fame for granite quarries, and Wollaston for possession of the Peter Butler house, rather robs Quincy of her own. The Presidents Adams houses, the Adams Academy and the Peter Butler house are illustrated. It is certainly a pleasant trip.

In His 86th Year.

Mr. John Federhen of Quincy Point, for thirty years a resident of Quincy and one of our well known citizens, died on Sunday in his 86th year.

He was born in Boston, Aug. 31, 1812. He established himself in business there at the age of 18 years by opening a shell and comb store on Washington street near the site of the Adams House. He afterwards removed to Court street, where he conducted a jewelry business for half a century, taking his sons into the firm of John Federhen & Sons.

The business thriving, the firm also opened branch stores under the old Tremont Temple and at Washington and Bromfield streets. Mr. Federhen was also largely interested in Boston realty, and about a year ago he closed out his jewelry business that he might devote his time to caring for his real estate, and opened an office at 23 Court street.

He was endowed with a remarkably vigorous constitution, and up to last October he was a daily visitor to the Boston office, and it was his boast that he had never lost a day's time from his business by sickness.

At the time of Lafayette's visit in 1825, as a Beston schoolboy Mr. Federhen was one of those who was present to welcome the distinguished Frenchman.

Mr. Federhen was one of the few left of the old-time Boston business men, and was probably one of the best known of the old-timers.

He leaves five children—former Representative Herbert M. Federhen, Henry D. Federhen, John Federhen, Mrs. F. S. Barry and Mrs. M. L. Reed.

The funeral will be held Tuesday from his residence, 226 Washington street, Quincy Point.

—The electric service of the N. Y., N. H. & H. R. R., to Nantasket was tied up for an hour or more Saturday afternoon because Engineer Gage and the two firemen at the Weir river power plant were all overcome by the heat.

GRAND FISH DINNER.

Served at the Opening of the New Squantum Inn.

It is on such a sultry day as Saturday that the attractions of Squantum are appreciated. Therefore it was not surprising that those receiving invitations to the opening of Squantum Inn were all on hand early in the afternoon. They found it a delightful retreat with sea views in all directions, and they admired the house itself for its newness and attractiveness; its spacious dining room, the large stone fireplace in the hall, the broad verandas which nearly surrounded the house, and its genial proprietor and obliging help.

The name of Joseph Lee is far famed as a caterer, he being at one time at the Woodland Park Hotel at Auburndale. It was the privilge of some to inspect the kitchen and the ice chest, and the arrangements were such that the most fastidious parties can have a dinner to their liking. The larder was well stocked and it is the intention of Mr. Lee to allow his guests to select their own fish and game and then cook it to order. While several transient guests were served in the main dining-room, the guests at the opening were given a grand fish dinner in one of the private dining rooms on the second floor. At the head of the table sat Mr. Nelson V. Titus, whose enterprise has established the Squantum Inn and opened up to the public the attractions of Squantum. At his right was Mayor Sears, and at his left President Graham of the Quincy & Boston street railway. Other guests were: City Treasurer Gray, Clarence Burgin, John H. Dinegan, Roger H. Wilde, T. H. McDonnell, W. T. Shea, T. J. Collins and Frank F. Prescott.

From Boston were City Engineer Jackson, Chief Engineer Jackson and T. Callahan of the Sewer department, Charles S. Parson, G. Decock and son, James H. Lake, Arthur T. Leland, M. H. Dutch, Fred L. Norton and others.

The dinner was somewhat delayed by the thunder storm, but it was worth waiting for. It was served in courses, fish and clam chowder, bluefish and halibut, etc., etc., and the gentlemen were satisfied that they could recommend the Squantum Inn for fish dinners.

The electric car service was disarranged by the thunder storm so that there were no cars to Squantum for two hours, but it permitted the guests to tarry and witness a most beautiful sunset. Teel's band of Boston discoursed popular music during the afternoon.

Band Did Not Come.

Although it was not pleasant Saturday night, there was quite a large crowd gathered in City Square to hear the band concert by the East Boston Cadet band, but they had to return home disappointed, although through no fault of the street railway. As late as 6.30, a telephone was received from the band stating that they would be in Quincy at 7.30, and the band stand was made ready. For some unknown reason, probably because it may have rained in Boston, the band did not come out. The same band has been engaged for next Saturday night and will be well worth hearing, as this is the organization that was engaged to go to Ireland last year.

TODAY'S COURT.

James Sullivan was fined $10, Dennis Mahoney and William H. Walsh $5 each for drunkenness at Quincy, and William J. Townsend for drunkenness at Holbrook.

Albert T. Hollingshead was arraigned for lewd cohabitation with Lizzie Mulligan at Braintree. Case continued for two weeks.

The continued case of John P. Sullivan and Frank Perry for assault on the cook at the Fensmere Pavilion, Houghs Neck, was heard and they were fined $10 each.

Walter Scott was fined $15 for keeping an unlicensed dog at Quincy.

The continued case of Albert De Blue of a gold watch from Florence Edwards at Wollaston, was heard, and he was discharged.

W. M. Holbrook was fined $15 for keeping an unlicensed dog at Weymouth.

—Miss Ella Belcher of Randolph died on Thursday last at Winthrop, Me.

An old Roman tub well has been discovered at Silchester. It is in a comparatively perfect state of preservation, though nearly 200 years have elapsed since it was made.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so we mapped out. tf

The racing season at Saratoga opened on July 28th, and the Fitchburg Railroad will place on sale August 1st to 6th, inclusive, round trip tickets good returning until August 17th at one fare for the round trip.

DISSOLUTION OF PARTNERSHIP.

THE Co-partnership heretofore existing by and between Andrew Milne and George Chalmers, under the firm name of Milne & Chalmers, is this day dissolved by mutual consent.

The business will be conducted by Andrew Milne under the same firm name, and he will collect all debts payable to and pay all bills outstanding against said firm.

ANDREW MILNE.
GEORGE CHALMERS.

Quincy, Mass., July 30, 1898. 1-3t

TERRIFIC STORM.

Several Strikes in Quincy and Vicinity on Saturday.

The storm Saturday afternoon was a most severe one, and for a time the sharp flashes of lightning and the deafening roar of thunder was enough to make the faint hearted quake with fear.

It was a little before 4 o'clock when the clouds began to thicken and the hot oppressive air began to be cooled by an easterly breeze. It looked threatening and as the sky became blacker and blacker, everybody made haste to get in out of the wet, for it looked as though the shower would break at any minute.

It was nearly 4.30 before the rain descended, first lightly and then with increased violence, until it came down in torrents, flooding the streets and washing out deep gullies. Accompaning this came the thunder and lightning, giving one an idea of how it must have seemed during the destruction of the Spanish fleet at Manila and Santiago. This was kept up for half an hour, when the storm began to abate and at a little after 6 o'clock it almost cleared, although it was not until after the moon made its appearance that the sky had fully cleared.

Considerable damage was done by the storm, but fortunately there were none injured, although there were some narrow escapes.

A tall willow tree on the estate of Henry T. Brown of Chestnut street was struck, and the bolt ran down the tree, following one of the roots into the ground. The tree was set on fire and the combination wagon at the central fire station was summoned. Some of the ladies in the neighborhood were shocked.

On Copeland street the force of the water washed down Smith and Buckley streets, carrying a good part of these two streets down into Copeland street, burying up the street railway tracks so that it was necessary to shovel them off before the cars could pass.

On Adams street the house of Joseph Robertson was struck by lightening. Mr. Robertson sat at the back door and the bolt struck the bell wire near him, the shock knocking him over. The bolt then ran around the room and went out through the side of the building, leaving a small hole. The walls of the roof were blackened along the course of the bolt which did no further damage.

The house of T. A. Whicher on Adams street was struck but the damage will not be over $5. Here the bolt struck the gable end of the building tearing off a few shingles and clapboards.

At Quincy Point the bolt struck the ground, and running along the grass killed twenty chickens belonging to Mr. Fisher.

At Houghs Neck the house of William Hudson near the corner of Sea street and Manet avenue was struck.

The bolt struck the side of the roof and passed into the building and followed the nails in the floor to the back part of the building, where it went out knocking a post from beneath the building. During the course of the bolt it set a mattress on fire which was extinguished by Messrs. Taylor and Dolan, ex-members of the fire department, before much damage had been done. There were several children in the building at the time and they were considerably frightened, although they were not injured.

At Norfolk Downs lightning struck the chimney on the dwelling of Mr. Maxwell on Hamden circle, but little damage was done, however.

At Atlantic a bolt struck a chimney on house of Mr. W. F. Cummings on Clive street and entered the house, passing out the front door. The family are away.

At Squantum the fury of the storm was watched with interest. It did not strike in the vicinity but bolts descended all around. Some yachtsmen were caught out, and also the Steamer Ella of the Boston Park line with several passengers. The boat behaved splendidly and the passengers escaped with a drenching.

At Braintree a trolley wire on Elm street on the line of the Boston & Weymouth Co. was struck and it fell in the street causing lively fireworks for awhile.

Golf Victory.

The Concord golf club team was no match for the Wollaston club at the Wollaston links on Saturday, the home club winning 21 to 1 as follows:

Wollaston—Tilton, 6; Bremer, 6; Freeman, 5; Porter, 4; Cracknell, 0. Total—21.

Concord—R. Jones, 1; B. Jones, 0; Todd, 0; Keyes, 0; Rolfe, 0. Total—1.

One fare for the round trip to Saratoga during the week August 1st to 6th, inclusive, via the Fitchburg Railroad. Full particulars at 260 Washington St.

DIED.

FEDERHEN—At his late residence, Quincy Point, on Saturday, July 30, Mr. John Federhen, aged 85 years and 11 months. Funeral private on Tuesday, August 2.

HOLLORAN—In Quincy, July 29, Margaret, daughter of Mr. Thomas F. and Mrs. Nellie Holloran, aged 5 days.

BICYCLIST KILLED.

Norfolk Downs Man Run Into by Unknown Bicyclist.

Mr. John F. McCarty who lives on Tyler street, Norfolk Downs, while out on his wheel Friday night, of last week, came into collision with an unknown bicyclist on Newport avenue, Wollaston and was so severely injured that he died from the effects at 2.45 A. M., Sunday

Mr. McCarty, in company with his brother Albert and Mr. Geo. Murch of Dorchester, went to the Point early Friday evening on their wheels, returning about 9 o'clock. Their route from Hancock street took them through Adams street and Newport avenue. When about half way between President's bridge and Beale street and riding a little to the left of the center of the street, Mr. McCarty met another cyclist coming down the hill from Wollaston at a high rate of speed. Their approach toward each other in the semi-darkness was not noticed by either member of the party thus giving no warning to avoid each other. They came together with force such that both were knocked from their wheels.

The stranger remounted quickly and rode away apparently unhurt. He returned however in about ten minutes and recovered his cap which was blue and of a pattern worn by yachtsmen. He was a large man but there appears to be no further description obtainable. He expressed no regret and only said it's his own fault he was on the wrong side of the street. Then rode away in the direction of Quincy Mr. McCarty was found to be unconscious, Dr. Record was quickly summoned and after working over the unfortunate man for more than an hour he regained consciousness and was taken to his home in an ambulance by Mr. Fay. It was found beside a badly bruised shoulder that he had received a bad wound in the forehead cutting two deep gashes. It was thought by the doctor that his injuries were not of a serious nature and he seemed to rest fairly well until Saturday night. About 6 o'clock he complained of a severe headache. Quieting medicine was given as directed but gave little relief. Soon after nine o'clock Dr. F. J. Pierce was called and gave a medicine which also relieved the pain for a short time. Later the patient grew worse when Drs. Record and Pierce consulted. It was decided to pierce the skull and remove the blood which was supposed to have settled there. A Boston expert in surgery was sent for but at this writing it was not learned whether he responded. After 12 o'clock Mr. McCarty became more restless and died at 2.45 Sunday morning.

Mr. McCarty was about 27 years old and leaves a widow and two bright little boys, Vivian and Elliot, age 6 and 3 years respectively, who with their mother are visiting Mrs. McCarty's parents at Newton Cross, near Charlottetown, P. E. I. She was telegraphed the sad news Sunday morning, and will hasten home at once.

The deceased was born in Foxboro and was the son of Mr. and Mrs. Dennis F. McCarty. Besides his father and one brother in Foxboro, he had three brothers in Boston and a sister in Marlboro.

He was a member of Merrymount Lodge, No. 127, A. O. U. W. and funeral and interment will take place at Foxboro.

"Jack," as he was known among his shopmates was a machinist employed at T. R. & S. Co.'s works at Wollaston, where he had been about seven years. He was a of sunny disposition and made friends easily and retained them. His shopmates and acquaintances will deeply regret his loss, for by his death they have lost a pleasant companion and one whose ready wit and droll sayings have so often shown to them the bright side of this life.

Castle Square Theatre.

The attraction at the Castle Square Theatre this week will be Arthur Law's very laughable comedy "The New Boy." When this comedy was originally brought out at Terry's Theatre, London, about four years ago, it was unanimously accepted with high favor by the most captious critics, and Weedon Grossmith, who created the title character, made one of his most prominent successes in it. It is a farce, but so admirably constructed that it never flags in interest from first to last. The troubles of a somewhat undersized married man, arising from his being mistaken for "The new boy," make the foundation for the fun of the comedy. Mr. Walter Perkins rejoins the Castle Square Company to play the title character. On Monday, August 8, the Castle Square Company is to make a production of Martha Morton's comedy "His Wife's Father," which was played by Mr. W. H. Crane at Hollis Street Theatre two seasons ago. The souvenir on Tuesday afternoon will be a character portrait of Miss Marian A. Chapman as Mrs. Capt. Mathews in "Sheridan."

Quincy Post Office.

Letters remaining uncalled for August 1:

Malcomb Darrah, O. N. Olotson, Emerson Shaw.

Miss Bessie Anderson, Miss Mina Erikson, Mrs. Jennie Felker, Miss Maggie McNeil, Mrs. Adelaide L. Smith, Miss Carrie Underwood, Miss M. Williams.

—When using vanilla for flavoring, add one half teaspoon of peach extract.

EXTRA!

FATAL HOTEL FIRE.

Chicago, Aug. 1.—In a fire at a hotel this morning three were killed and fifteen injured. The fire escape was burned off and the deaths and injuries were caused by the guests jumping.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

August.

Delightfully cool today.

About half of the school vacation has gone.

Open race of the Burgess Yacht club at Marblehead tomorrow.

Judge Cook was on the bench at the District court this morning.

Have the Daily Ledger sent to you while away on your vacation.

P. G. D. Hersey will visit Wollaston lodge, K. of H., this evening.

A new boat made her appearance down the bay Sunday, called the "Say When."

Mr. and Mrs. Clarence W. Packard of Wollaston have become residents of Roslindale.

Mr. and Mrs. Charles S. Comins of Wollaston are at Concord, N. H., for a couple of weeks.

Gilbert M. Wight, superintendent of the fire alarm service, is enjoying his vacation this week.

Miss Pearl and Lessie Terry from Richmond, Va., are visiting Mrs. Arnold, Howard avenue.

Open race of the Wollaston yacht club, and handicap race of the Quincy yacht club on Saturday.

Mr. B. F. Nay is building a large lookout platform in one of his trees on his lawn, Howard avenue.

The three days of races by the Corinthian club of Marblehead will be inaugurated on Wednesday.

C. F. Adams Chinook took first place in a large class at the Corinthian race off Marblehead on Saturday.

Merrymount lodge, I. O. G. T., will receive a visit Thursday evening from Grand Chief Templar Simonds.

Mr. Edwin W. Newcomb of the Quincy Yacht club has bought a 25-foot catboat of Marblehead parties.

R. R. Freeman was the winner of the July cup of the Wollaston golf club with a gross score of 84, and net of 76.

Mr. Joel Young and family of Quincy avenue, Newcomb Square, have gone today for a summer trip down in Maine.

The court found no evidence this morning to hold Albert LeBleu of Wollaston for larceny and he was discharged.

The storm Sunday did little damage in Quincy as far as known but did considerable damage in the vicinity of Providence.

The Little Peter won first prize in the Marblehead race on Saturday, defeating the Harbinger over ten minutes by actual time.

There is a large cave-in on the sidewalk on Howard street, caused by the shower Saturday, a pole and lantern protruded from the opening Sunday night.

The second Burgess cup race scheduled to be sailed off the club house at Wollaston on Saturday was postponed on account of the storm. The date will be given later.

The long established granite firm of Milne & Chalmers has been dissolved, and Andrew Milne will continue the business. George Chalmers, the junior member, will return this month with his family to Scotland.

Mrs. Joseph Hayden of Howard avenue had a carrier pigeon come in from the coast; being fatigued and tired it lit on top of the horse's head while he stood in the yard. It was taken in charge and nursed and fed, but it died Sunday morning, on its leg was a small silver band marked W. L. No. 3, 1898. The carrier is to be carried to a taxedermist and is to be stuffed and have a handsome glass case.

—A nation's flag represents its soveignty and is prominently displayed in all army and navy battles.

—Sharpen all kinds of fish sauce with lemon juice.

The so-called "father of cats" is one of the most important personages in a Mahometan caravan. This cat shiek carries on his camel about a dozen baskets filled with the ugliest specimens of the feline race.

A shepherd at Chambery, Savoy, employs a horse instead of a dog to keep the herd together. The horse understands the orders given him and carries them out as intelligently as the best trained dog.

WEYMOUTH.

Little Items of Interest About Town.

A son was born to Mr. and Mrs Harry Silver on Tuesday.

Commercial street is to be widened and straightened by a decree of the county commissioners. Hewes and Mason have $1,256 damages, and Mrs. Rhoda Hill $2,144 damages, awarded for premises affected by the change. Several other persons received smaller sums. One house must be removed and others set back from the street.

The Union Congregational society will have no services during the month of August. The place of meeting, Pythian hall, is sometimes uncomfortably warm in the second story. The church building is progressing rapidly, and some hope to enter it in November.

Rev. Oliver Huckel of Baltimore preached here on July 24. This was his first parish. His sermon was fine in language and inspiration. Unfortunately he has been sick for the last three days at Mr. Granville Bowditch's.

The Rev. B. F. Eaton occupied the pulpit of the Universalist church on Sunday.

Rev. H. S. Snyder spoke for the last time before his vacation on the subject: "Spirituality of mind, a measure of the man."

Since the third rail electric has run through to Braintree, travel is more dangerous. The cars run several times in an hour. One dog stepped on the third rail and died. Ernest Emunds was terribly cut on his forehead, face and chest one day recently.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

Notice to Contractors.

CITY OF QUINCY.

QUINCY, MASS., July 26, 1898.

SEALED Proposals for paving and curbing Hancock street in accordance with form of specification to be furnished by the Commissioner of Public Works of the City of Quincy, will be received at the office of said Commissioner, City Hall, until 4 o'clock P. M. of the first day of August, 1898, at which time and place they will be publicly opened and read.

Each proposal must be endorsed, "Proposals for paving and curbing Hancock street," and to be accompanied by a properly certified check for the sum of Five Hundred Dollars ($500) payable to City of Quincy, which will be returned to the bidder unless forfeited as hereinafter provided.

A bond will be required for the faithful performance of the contract in such sum as the Commissioner of Public Works shall determine; such sum to be not more than one-third the amount of the contract; the sureties to be residents of Massachusetts and satisfactory to the Commissioner.

The contract must be signed and bond furnished within six days after the notification of acceptance of the proposal, and in case of the failure of the bidder to sign contract and furnish bond within said time, the contract and certified check accompanying the proposal shall be forfeited to the City of Quincy.

The proposals will be compared on the basis of the following quantities:

Furnishing and laying 4,000 square yards granite block paving.

Relaying 500 square yards granite block paving.

Furnishing and setting 5,400 linear feet straight edgestones.

Furnishing and setting 100 linear feet curved edgestones.

These quantities are to be considered approximate only and the Commissioner of Public Works expressly reserves the right of increasing or diminishing the same, as he may deem necessary.

The right is reserved to reject any or all proposals or to accept the proposal deemed best for the City.

CHARLES F. KNOWLTON,
Commissioner of Public Works.

LATEST!

ARE OVERJOYED

To Surrender to the United States.

Washington, Aug. 1—Gen. Miles telegraphs: "Volunteers are surrendering themselves with arms and ammunition. Four-fifths of the people are overjoyed at the arrival of the army. Two thousand from one place have volunteered to serve with it. They are bringing in transportation, beef, and other needed supplies. The custom house has already yielded $14,000. As soon as all the troops are disembarked they will be in readiness to move.

Terms of Peace.

Madrid, August 1—It is understood that the terms of Peace from the United States have been sent to Paris and will be telegraphed from Paris to Madrid today.

Yale at New York.

New York, Aug. 1—The auxillary cruiser Yale arrived at this port this morning.

AT CAMP DALTON.

Camp Dalton,
Monday, Aug. 1, 1898.

Saturday was another scorcher. The regular Saturday inspection was held as usual but no drills were given, as the drill hour was used for the exchange of guns. All old pattern guns were exchanged for new ones. The 5th regiment is now the most complete regiment in the United States.

The heat was something terrible. It was impossible to find a cool spot. At two-thirty a cool breeze came up and a good shower finished the job. There was enough heat in the ground to dry the grass so a pleasant evening was the consequence. No dress parade was given but an undress parade was held in its stead. During this parade the prisoners on whom the court martial had set were marched out in front of the regiment, in charge of a guard and their sentences were given them. Sergt. Perkins of Co. E., was reduced to the ranks for quitting his post without leave, seven others received sentences of from 4 to 6 days at hard labor and fines of five to six dollars for being absent without leave.

The band serenaded Capt. Landy at the arsenal on Saturday.

Sunday was an ideal day with the exception of a slight shower in the afternoon. There were not as many visitors as usual on the grounds.

Services were held as usual in the westerly mess house in the morning. A Catholic service was held also. Evangelist Hunt of Minneapolis talked to the men in the afternoon.

Private Alfred Trudell of Co. K was given an honorable discharge, as he was, in the opinion of the surgeons, not fitted for military service.

Captain Kincaide was in Quincy over Sunday.

A band concert was given in the field in the evening.

The regular monthly inspection was held today. The whole regiment appeared on the field in heavy marching order, and the inspection by Col. Whitney and his staff was thorough and complete.

It is cool and cloudy today.

There are no indications of a move.

Privates Gunderson, Thunstrom and Carlson of K company have been the orderlies the last three days, making 16 from the company.

Mr. and Mrs. C. H. Bearce of East Milton were among the visitors Sunday.

MACK.

The Secret

of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.

This is only one of the many good qualities of a gasoline stove. Prices from $3.50 upwards.

DEATH STRUGGLE.

Continued from page 1.

decide which side he should take. He was a firm believer in the divine right of kings, he inherited intense contempt for the people as a factor of governmental power.

The swift rising current of democracy threatened to engulf his beloved Prussia. Frederick William granted a constitution, and a deputation from the new national parliament offered him the imperial crown of Germany. But with the traditional disdain of his race the king was not disposed to accept honor at the hands of the people Empire derived from that source was despised by a man who claimed his authority direct from God. The offer was rejected, and a jealous hatred arose between Prussia and Austria which was soon to ripen into a war for the humiliation of the latter.

Bismarck threw himself heart and soul into the cause of the king as against the people. He upheld the royal prerogatives, fiercely opposed anything in the nature of liberalism and gave way with bad grace to the concessions which Frederick William even was ill deemed wise to grant to popular sentiment.

As a reward for his loyalty Bismarck was appointed envoy to the diet at Frankfort in 1851. This body did not represent the people, but was in reality an assemblage of princes and their proxies, who kept a tight hold on individual rights while resisting solidly everything like encroachment on the part of foreign powers.

From the bund of Frankfort, where he had shown marked ability as a diplomat, Bismarck was sent as embassador to St. Petersburg, where he was retained until 1861. Then William I succeeded to the throne of Prussia, and he returned to Berlin as the head of the ministry, filled with misgivings as to the vanities and vexations of the world, with the great plan of German unification taking shape in his massive brain.

A MAN OF BLOOD AND IRON.

The Career of Bismarck, the Prime Minister and Real Ruler of Europe.

It was in 1861 when William I of Prussia recalled Otto von Bismarck from the court of St. Petersburg to fill the post of premier at Berlin that he was made a count. He was at that time the best hated man in the kingdom, and the Liberals regarded his appointment as a direct menace to their aims. People used to spit upon the ground as he passed to show their dislike; he was hissed and hooted on the streets. But he persevered in his stern policy, and those who hooted and hissed and spat in his tracks were loudest in his praise when the triumph of the Prussian arms gave material evidence of his farseeing sagacity and genius.

The Schleswig-Holstein war was the first serious test of his policy. It was a six months' campaign undertaken by Austria and Prussia to wrest the two duchies from Denmark on the pretense of broken engagements. Denmark was beaten easily enough, and the allies were soon haggling over the spoils. There was no alternative but to fight one another, and then commenced that fierce struggle, ending with Sadowa on July 2, 1866, which blotted out the military glory of Austria and added imperishable fame to the Prussian eagles.

In his great plans for German unity Bismarck had a strong coadjutor in Von Moltke. Bismarck pulled the strings of continental politics, arranging the puppets to suit his imperious fancy; Von Moltke, with the same stern eye to Prussian aggrandizement, mapped out future campaigns and drilled and disciplined the army until it was the most perfect death dealing machine of the age. For several years Bismarck devoted himself to the consolidation of the North German confederation.

Napoleon looked on with a jealous eye. The Austrian campaign had raised Prussia to one of the mighty powers of Europe. He had failed in his projected role of arbitrator and was filled with anxiety as to the future. Not only was his personal pride hurt by Bismarck's refusal to let him in at the death, but he persuaded himself that France had been insulted and that her prestige was threatened by Prussia's success. His mortification spread to the people, and a bitter hatred sprang up between the nations. The public journals gave voice to his sentiment, and when the question of the Spanish succession was cunningly contrived by Bismarck to give mortal offense to France Napoleon had the nation at his back, and the hasty declaration of war was greeted with wild acclaim.

With the result of the memorable conflict between France and Prussia all the world is familiar. Paris was besieged and fell after a prolonged struggle, and the German empire, of which William of Prussia was declared emperor, was proclaimed in the palace of Versailles. The title of Prince Bismarck Schoenhausen, chancellor of the German empire, was conferred upon him at the close of the Franco-Prussian war.

Bismarck's fame was now at its zenith. Recognized everywhere as the diplomatic giant of the century, he was really the mainspring and ruler of united Germany. The emperor was as clay in his hands. While protesting the utmost loyalty and obedience, Bismarck coolly regulated William's conduct in the affairs of state for the general good and consolidation of the empire. It seemed meet that it should be so. With all his virtues, the kaiser's hand was not steady enough nor his mind strong or broad enough to direct the ship of state in safety through the political breakers. Bismarck, who mapped out its course toward unification, was needed to keep a firm hold on the helm and steer it amid the rocks and shoals which at times threatened danger and destruction.

For 20 years he ruled the empire with a rod of iron. He was the same forceful character that kept the Prussian parliament in hot water when William ascended the throne. He roared and bullied and blustered till the nation reverberated in sympathy. Now he was fighting the ultramontanes with all his noisy vigor; again he would force rough measures down the throats of clamorous socialists. Amid all the opposition at home he kept a watchful eye on the rest of Europe, cementing the various interests of the new empire together and developing the commercial and military resources of the fatherland. His second great object was to preserve the peace of Europe, which he did by increasing the efficiency of the German army and forming the famous triple alliance between Germany, Austria and Italy as a safeguard against French aggression and Russian encroachment.

But as the years went by the despised people began to make themselves felt. The excessive militarism which Bismarck's policy rendered necessary laid immense burdens upon the workmen. Socialism took a firmer root among the disaffected, mutterings of discontent became prevalent, and the Iron Chancellor found his power on the wane. He was loath to admit the fact and preserved a bold front. The death of Kaiser William brought him face to face with the stern truth that unless something unusual occurred his influence in the empire would speedily end.

BISMARCK'S HOUSE.

The measures he adopted to preserve his authority were not such as to commend themselves to mankind. Crown Prince Frederick and Bismarck had been at swords' points for years. Bismarck had opposed Frederick's marriage to Victoria, eldest daughter of the queen of England. After the marriage he lost no opportunity to annoy the princess. He seemed inspired with unreasoning hatred toward her, and he took an especial delight in turning the heart of her eldest son away from her. It was on this boy, afterward Emperor William II, that Bismarck depended for a continuance of his power. Frederick had an incurable malady, and when he succeeded to the throne in March, 1888, his death was only a question of a very short time.

The people expected a great deal from Frederick, who was liberal and progressive in his ideas. They viewed with dismay the rapid progress of his fatal malady. They witnessed with anger which could scarce be repressed the evil influence of Bismarck upon the crown prince. As soon as the breath was out of Frederick's body Bismarck had the palace surrounded with troops and orders issued that no one should be allowed to leave until search was made for the dead man's diary.

What followed is fresh in the minds of all readers of current history. The empress, although badgered and bullied to the limit of endurance, managed to secure her husband's papers. "We shall have no more petticoats meddling in politics now!" was the triumphant cry of the Iron Chancellor as the marks of estrangement between the emperor and his mother became more and more apparent. Bismarck foresaw a new lease of power for himself. He believed he had the unnatural young kaiser completely under his thumb, but he was destined to be rudely awakened from his fond dream.

For a time everything seemed to favor him. The English government, cowed by the overmastering influence of the domineering prince, was afraid to resent the insults to the daughter of the queen. William himself was hated and despised by the British public for his unnatural conduct. But the young man was not altogether bad. Bismarck's methods and manner palled upon him. He was as little inclined to submit to dictation as the chancellor was to forego it. The weight of the crown inflated his self esteem. He felt his own importance as the ruler of the great German empire and quietly intimated to Bismarck that much of his advice and meddling was too officious to suit his imperial pleasure. The chancellor was astonished and for the first time in his career found himself a pleader for favor. William was obdurate and persisted in having his own way, and Bismarck submitted to the inevitable with as much grace as he could summon.

At this juncture grave doubts were thrown upon Bismarck's real part in organizing the new empire. Extracts from Frederick's diary, which Bismarck had tried in vain to secure, were published and caused a profound sensation in Europe. They flatly declared that Bismarck was opposed to the founding of the empire; that at the close of the Franco-Prussian war William, who was then 73 years old, insisted that the title of king of Prussia was infinitely superior to emperor, and that the crown prince really carried the imperial project through, laboriously persuading his father and almost bullying the chancellor into a reluctant support of it. Of course Bismarck could not stand idly by and see the laurels he had worn so long ruthlessly torn from his brow. He entered a vigorous denial and impeached the authenticity of the diary. He wanted William to order the prosecution of the publishers for treason and tampering with state secrets.

But the young kaiser was not in a compliant mood. It seemed to have dawned upon him that he owed something to the memory of his father, and that he should modify his treatment of his royal mother. He was, moreover, in the thick of his labor reform movement, which Bismarck had opposed tooth and nail. Consequently, when the old chancellor got angry at noncompliance with his wishes and made one of his bluffs at resigning, William promptly took him at his word, and on March 18, 1890, Europe was shocked by the news that the great Bismarck, the diplomatic giant of the century, had severed his official relations with the empire he founded.

Every possible rumor followed him into retirement. It was said that he never expected the emperor to allow him to resign; that he was in a state of panic the day after he made his fatal bluff and humbly begged the Empress Frederick to intercede with her son to retain him in office. One can hardly imagine the bold, implacable Bismarck, the terror of Europe, on his knees before a woman whom he sought so often to humiliate, but the story has elements of truth and has never been contradicted.

Bismarck's downfall was thus almost as complete and pathetic as that of Wolsey. But his temper, unlike that of the ambitious cardinal, was not broken by the storms of state. His retirement was marked by severe criticism of the young emperor's policy and imprudent outbreaks of wrath against old time rivals.

BISMARCK'S HOME LIFE.

As a Husband He Was a Model—His Singular Courtship.

The domestic life of Bismarck was a strong contrast to his stormy political career. He was devotedly attached to his wife and children. The princess, a perfect picture of the German hausfrau, exerted a wonderful influence over the great chancellor. "She it is who made me what I am," was the testimony he bore to her noble qualities on more than one occasion.

During his periods of illness, which were frequent of late years, the princess nursed him with untiring care. "As for the prince," writes one of his biographers, "he has during his life given constant proofs not only of true and honest love for the wife he has chosen and the children she has borne him, but also of delicate and chivalrous tenderness toward them. Years have made no change in this. Every one who has been admitted into the intimacy of the Bismarck family is able to judge of the affectionate and at the same time dignified character of the relations between the prince and the princess."

His courtship was a singular one. He was very intimate with the Blanckenburg family, who were, in a way, relatives, and one summer made with them a long journey for pleasure through some of the most picturesque portions of Germany. M. Fraulein Puttkamer was of the party, and the young couple fell in love, though Bismarck seems not to have found it out until after the journey was finished. Then he wrote a characteristic letter to his sister, of which this is an extract:

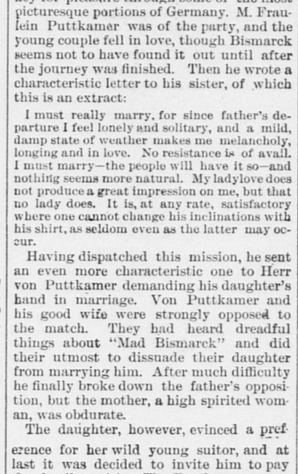

I must really marry, for since father's departure I feel lonely and solitary, and a mild, damp state of weather makes me melancholy, longing and in love. No resistance is of avail. I must marry—the people will have it so—and nothing seems more natural. My ladylove does not produce a great impression on me, but that no lady does. It is, at any rate, satisfactory where one cannot change his inclinations with his shirt, as seldom even as the latter may occur.

Having dispatched this mission, he sent an even more characteristic one to Herr von Puttkamer demanding his daughter's hand in marriage. Von Puttkamer and his good wife were strongly opposed to the match. They had heard dreadful things about "Mad Bismarck" and did their utmost to dissuade their daughter from marrying him. After much difficulty he finally broke down the father's opposition, but the mother, a high spirited woman, was obdurate.

The daughter, however, evinced a preference for her wild young suitor, and at last it was decided to invite him to pay the family a visit. The Puttkamers were staid, simple folk, and determined that since they must have this strange fellow for a son-in-law they would receive him well. So they invited a company to be present when he arrived. He was tired and travel stained as he alighted from his carriage and was escorted to the house, where a formal reception was prepared. But he had eyes only for his sweetheart, and disdaining to regard her parents or their guests he rushed up to her as she stood at one side with downcast eyes, and throwing his arms about her neck nearly smothered her with kisses. This of course broke up all formality and probably had much to do with the final overcoming of all traces of opposition.

The marriage took place in 1847, and the young couple made a short wedding tour through Switzerland and Italy. At Venice Bismarck accidentally met King Frederick William IV of Prussia. He was commanded to attend the royal dinner table, and a long conversation ensued between him and the king on German politics. The foundation of his political fortune was made in this conversation.

Bismarck was taken unawares by the royal invitation. He was totally unprepared for such a contingency and had no court dress with him. He was obliged to borrow one, but the suit was not made for a man of his proportions and fitted him so badly that he cut a poor figure. He had

BISMARCK'S WIFE.

been for some months previously a member of the Frankfort diet. This meeting with the king eventually led to his appointment as Prussian embassador to that body.

Few who knew the wild life Bismarck had led expected he would make a success of this mission. But he had seen a great deal of the world and had bidden adieu to the follies of his youth. He described the change himself by simply saying, "I have learned something."

Three children were born to the Bismarcks—Marie, born at Schoenhausen Aug. 21, 1848; Herbert, born at Berlin Dec. 28, 1849, and William, born at Frankfort Aug. 1, 1852.

During all his life Bismarck used to write long and affectionate letters to his wife whenever he was away from her. Some most charming thoughts were sometimes expressed in these missives. When in Frankfort, where the Thurn and Taxis postal system was in vogue, he had to write to her cautioning her to be careful what she said. "Do not forget when you write to me," he wrote, "that your letters are not only read by me, but by all sorts of postoffice spies."

Of Bismarck's daily life at Vargin Dr. Busch wrote a few years before the prince's death:

"The prince rises late and sits down to breakfast at 10. He usually begins by taking a glass of milk, one or two cups of coffee, toast and two soft boiled eggs. During breakfast all official letters and telegrams are read and disposed of. Then he transacts business with farmers, bailiffs and woodmen. Between 1 and 2 he drives or rides over his estate to look at a new farm building, a young plantation or the progress of field work; to look at the fishing in one of the ponds or to visit his paper mills. The dinner hour is 5:30, when the chancellor always feeds his two dogs with his own hands. After dinner a cup of coffee is taken in the billiard room, where the prince usually sits smoking a pipe in front of the fire. Tea is served in the princess' boudoir, and at 11:30 the family retire to bed. All the food on the chancellor's table is furnished from his own property."

A WILD STUDENT'S LIFE.

Bismarck's Turbulent Existence While at Gottingen.

During his student days at Gottingen Bismarck was one of the wildest of the wild. He drank and fought and roistered, and he smoked incessantly. Still he was not an idle student. Thanks to his iron constitution, he was able, with all his dissipation, to give some attention to the lectures. He rose with the lark, for he had to be at the lecture room before 7 o'clock in the morning to listen to Heeren on history and ethnography. An hour later he gave ear to Wendt on logic and metaphysics. After that came an hour with a fencing master, and then Hugo on jurisprudence and Goschen on some other intricate topic. Dinner followed, and then mathematics under Thibaut. An hour or two of hard reading concluded the work of the day, and then came play—and such play!

The recreations of the Gottingen students in those days were not gentle. Duels were frequent, and the college fraternities were in fact little else than drinking and duelling societies. Bismarck in his second term was the leading member of the Hannovera, the leading fraternity of the time in Gottingen, though it may be said to his credit that his sagacity and acuteness had as much to do with his leadership as his capacity as a drinker and his power as a swordsman.

It is stated that he fought at least 30 duels, though there are detailed records of only four. One of them, singularly enough, was with Windthorst, who, in the stormy days of Bismarck's power as a politician, was one of his strongest opponents. Apparently the authorities did not learn of any of Bismarck's contests, for, though the official records show that he was punished four times, none of these punishments was for fighting.

His first punishment was for officiating in a secondary capacity in a duel between an Englishman named Knight and a certain Baron von Grabow. There had been trouble between these two at a ball, and a fight with pistols was arranged for the following morning. Bismarck seconded Grabow. The two principals arrived on the ground in the most bloodthirsty temper, and Bismarck with the greatest difficulty persuaded them to substitute 12 paces for the three on which they had already determined.

When he came to take the measure, however, he cunningly lengthened the 12 into 14, and the result was that no one was injured. For his part in this affair the rector sentenced Bismarck to solitary confinement for 10 days. The old council house in which he was incarcerated is no longer in existence, but the door of his cell, on which he carved his name with his penknife, has happily been preserved. The English students Knight and Wright, his second in this duel, were incorrigible revelers, and together with Bismarck and John Lothrop Motley, the noted historian of later days, were responsible for half the mischief perpetrated by the Gottingen students.

EMPEROR WILLIAM I.

A serious difference between two of the dueling societies, which developed into a feud involving the entire university, brought the attention of the authorities to the nature of the societies, and a shower of punishments followed. Of course Bismarck, who led one of the two factions into which the students had become divided, came in for his share. He was imprisoned for three days for having been present at a duel, and four for being a member of an illegal organization. Notwithstanding Bismarck's many duels he carried away from the university but one scar as the result of a wound. In this he was more fortunate than most of Gottingen's students in those days. It was not at all unusual for their faces to be frightfully and permanently disfigured by sword cuts.

The giant cuttlefish is a native of the coast of Newfoundland and the north Pacific waters, and they are able by their immense strength to seize a fishing boat and drag it to the bottom of the sea.

It has been calculated by Robert Ball that the whole coal supply of our planet would barely suffice to produce heat equal to that which the sun dissipates in one tenth of a second.

Helmets in the 14th century were surmounted by extravagant ornaments; feathers, flowers, images of dragons, birds, beasts, the figures of women, and ocasionally the bust of the knight i mself adorned the crest.

TO ARREST JERNEGAN.

Ministerial Operator May Become a Prisoner.

Nearly a Million Paid In by the Gudgeons.

Inventor and His Allies In Possession of About Half the Amount.

Boston, Aug. 1.—The case of the missing Rev. P. F. Jernegan of the Electrolytic Marine Salts company has been put into the hands of Chief Inspector Watts of the bureau of criminal investigation, and Melvin O. Adams has been retained as counsel by the stockholders. The government at Washington has been asked to request the French government to detain Jernegan pending extradition papers.

Now that the works at Lubec has been closed and the help have been paid off and discharged, the stockholders are beginning to figure what they will get out of the amount paid in. Dr. A. P. Sawyer of Newburyport, assistant treasurer, says that about $900,000 has been paid in. He believes that the company can pay all its bills and return about $400,000 to the stockholders. This will be from 40 to 45 cents a share, which will give the original stockholders, who paid 33 1-3 cents a share, their money back and leave quite a dividend for those who came in at $1 a share. The company has recovered $23,000 in cash and securities from Marcus W. Jernegan, who is now in the custody of detectives. The Rev. P. F. Jernegan's sum of $30,000 in a local bank has been attached.

Meeting of the Directors.

Newburyport, Aug. 1.—The directors of the Electrolytic Marine Salts company held a meeting at the cottage of the treasurer at Salisbury Beach last evening and issued the following statement to the stockholders: "The story printed in the New York Herald of July 31 is, in the minds of the directors, conclusive evidence of a conspiracy on the part of P. F. Jernegan, the general manager, and C. E. Fisher, assistant general manager, to defraud the stockholders. They have undoubtedly left the country and disabled the electrical apparatus at plant 1. As soon as our suspicions were aroused we took most active means to apprehend the criminals and to protect the interests of the stockholders. Touching the secret process of the company, it should be said that it is yet to be ascertained that it is fully lacking in merit. It is the wish of the directors to meet the stockholders, and a call for such a meeting will soon be issued."

Baneful to Germany.

Paris, Aug. 1.—All the papers contain long obituaries of Bismarck. One of them declares: "Bismarck was less baneful to France than to Germany. He stopped the forward march of civilization and inaugurated an era of hatred which sooner or later must cause rivers of blood to flow."

NEWS IN BRIEF.

Fire in Escanaba, Mich., caused a loss of $200,000.

Lightning caused the destruction of the house of John Heckman, and the barn of Royal Peck in Attleboro.

Five persons attending the picnic of the Chicago Cloakmakers' union were drowned through a collision of rowboats.

William O. Woodbury of Cambridge was drowned near Hull, Mass., while trying to rescue a bather who had gone beyond his depth.

Joseph Kaller of Scranton, Pa., instantly killed Peter Meyers. They had quarreled about the shooting of some pigeons by Kaller.

All the Carlist newspapers in Spain have been suspended since Friday. It is asserted, however, on good authority that all reports of serious Carlist movements are quite unfounded.

Paul Whitcomb and Roswell Griswold were drowned in the Housatonic river two miles north of Great Barrington, Mass., Saturday night. They were bathing and went beyond their depth.

Rev. John Walsh, Roman Catholic archbishop of Toronto, died suddenly Sunday night of heart failure. He was apparently well, although he was confined to his room with a sprained ankle.

The London Times announces this morning that the Royal Ulster Yacht club has arranged to challenge for the America cup. The New York Yacht club will be notified of the decision immediately.

Frank X. Turcott, a socialist agitator, was arrested at Crescent Beach, Mass., Sunday afternoon while addressing a large crowd. He had been warned not to violate the law by making an address on a public thoroughfare without a permit.

Malarial fever continues unabated among the soldiers in Santiago. The men are getting second attacks and are much depressed by their inaction and the uncertainty as to their future movements. With nothing to do except to nurse the sick, they more readily get sick themselves.

All Kinds in Their Season

L. M. PRATT & CO.,
25 School Street.

Always a good assortment at our branch store, 105 Water street.

Quincy, June 18.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

THINK SHE WILL YIELD.

island with his own troops, unaided, and he predicts that Porto Rico will be ours in less than three weeks.

Private Arthur Draper of company M, Sixth Massachusetts, has been promoted to a lieutenancy for gallantry in action. On Tuesday he led the final charge and drove back the Spaniards. He is the son of General Draper, the American ambassador to Italy.

The news that Spain has consented to sue for peace was at once taken to General Miles. The general wrinkled his grave brow when he read it and said he did not know what effect it would have on his expedition, but he proposed to push on ahead and take San Juan pending orders from the president.

The Texas In Brooklyn.

New York, Aug. 1.—Back from the coast of Cuba, battle-scarred, powder-stained and punctured in spots, with her formidable guns bristling in the sunlight and her officers and crew laughing and cheering like boys on a holiday trip, the Texas, Captain J. W. Philip in command, steamed slowly up the lower bay from Sandy Hook Sunday. Salutations of welcome came from all sides. Every vessel that boasted of a whistle let it shriek for all it was worth.

The general outward appearance of the floating fort showed that the Texas had had a rough time of it since she left the yard bound for southern waters five months ago, and a close inspection revealed the places where the shells of the Spaniards had penetrated the port bow and starboard superstructure. On the 22nd of June while the Texas was bombarding the castle at the entrance of Santiago harbor a six-inch shell tore through the port side under the anchor about 20 feet from the bow. This shell exploded on the opposite side of the gun deck and on its way instantly killed Frank Blakeley, a first-class apprentice. This was the only death dealing missile which struck the Texas during her fighting term, as none of the other men who were wounded succumbed to their injuries.

The firing of the port turret gun across the upper deck shook the vessel considerably, and she will need a general overhauling, as her decks and supports have been loosened. If occasion required, however, the Texas could fight at a moment's notice as effectively as ever, her batteries being in excellent order. All the sailors who were seen yesterday said that the craft is a wonderful ship and her record off the Cuban coast had laid at rest the stories which had been circulated as to her being an unlucky vessel.

Burned by the Spanish.

Key West, Aug. 1.—Reports have reached here that Nuevitas, on the north coast of Peurto Principe, has been bombarded by the ships of the blockading squadron, evacuated by the Spanish and subsequently burned.

The Nashville reached Gibara on Tuesday, when she captured the schooners Gibara and Express. On entering the harbor she was met by the former United States consular agent and the president of the railroad to Holguin. He told the Americans of the evacuation of Gibara two days before by General Luque and his 1800 Spanish soldiers, who feared a concerted attack by Americans and Cubans. They fled to Holguin by rail and afterwards tore up the tracks. General Luque left in the Gibara hospital 56 sick and wounded soldiers with a request to Admiral Sampson to see that they were properly cared for. The next day the Cuban forces made a triumphal entry into the town. They were received with acclamations by the Cubans, and the town held a festival that day and night.

The steamship Tabasqueno, flying the French flag, was captured by the Hawk at Sagua La Grande and brought here. She is a Mexican ship of 800 tons and was bound from Vera Cruz for Sagua loaded to the hatches with coal and provisions, and also carried a number of mules. Captain Androoka was in command, with a crew of 29 men.

Checked Aguinaldo.

Hong Kong, Aug. 1.—Matters with reference to Aguinaldo, the leader of the insurgents, are assuming a more definite and satisfactory shape. He had instructed the Filipinos not to sell or to furnish transportation facilities to the Americans except at his order, aiming, doubtless, to delay the Americans, in order that he might be the one to capture Manila.

Hearing this General Anderson served notice upon him that he would make requisition on the people direct. He had the notice printed in the native language and published broadcast. Thereupon Aguinaldo promptly replied that he would honor General Anderson's requisitions for military necessaries upon four days' notice.

Hopeless Situation.

Madrid, Aug. 1.—The governor general of Manila, telegraphing under date of July 25, says that aid is indispensable to resist the imminent attack of the American forces under General Merritt. The foreign warships in the bay, the dispatch says, answered the salute in honor of the queen's saint day, and the American vessels displayed the Spanish flag.

Terms Considered Hard.

London, Aug. 1.—The Madrid correspondent of The Times says: "The conflicting accounts of the American peace terms and a suspicion that the Washington government was temporizing in order to confront Spain with the occupation of Porto Rico and the capitulation of Manila originally caused irritation and provoked strong language, but it is now seen that the suspicion was unfounded. The terms, however, are regarded as very hard, and the annexation of Porto Rico and the repudiation of the colonial debts are characterized as flagrantly unjust. Happily the question of the Philippines is reserved, and I am confident that the more it is considered the less will America be inclined to annexation."

Axe and Razor Used.

Augusta, Me., Aug. 1.—D. K. Freeman of North Wayne, about 20 miles east of this city, is alleged to have attacked his wife with an axe Saturday, throwing the weapon at her while she was in bed. The first attempt resulted in no injury, and after the second she secured the axe. Freeman is said to have then made an attack upon her with a razor, and in defending herself his wife cut him badly about the head with the axehandle, rendering him unconscious.

Aim Was Accurate.

Lynn, Mass., Aug. 1.—Patrick Joyce was shot by Reserve Police Officer Barry while the latter was attempting to serve a warrant on him for assault upon a Hebrew. When Joyce saw Barry near his home, just before midnight, he took to his heels. Barry called to him to stop, and fired two shots in the air to enforce his demand. As Joyce did not obey, a third shot was fired which struck him in the hip. Joyce was taken to the hospital, but his condition is not serious.

Electric Cars Collide.

Worcester, Aug. 1.—Two electric cars on the Worcester and Suburban road met in a headon collision about a mile and a half east of Spencer Sunday morning. Among the injured were F. S. Taylor of Worcester, left collar bone and one rib broken; Mrs. C. A. Allen, Worcester, right ankle fractured; Mrs. Girouard of East Brookfield, head cut.

ELECTROCUTED.

Thorn, the New York Monster, Expiated His Fearful Crime.

Sing Sing, Aug. 1.—Martin Thorn, the murderer of William Guldensuppe, was electrocuted in the prison at 11 o'clock this forenoon in the presence of the usual number of witnesses. The execution was successful, the electric form of carrying out the death penalty being no longer experimental.

MARTIN THORN.

Sunday morning he received the sacrament from Father Hanselman of Brooklyn, his spiritual adviser and his only visitor during his incarceration. The only relief in the monotony of his prison life was afforded by standard works, in which he developed a strong interest and from which he appeared to extract much satisfaction. After breakfast he discarded his old clothes and donned those which were to serve him for burial. Then he was transferred from the cell from which he emerged to go to his death.

The killing of William Guldensuppe, a bath-rubber, and the subsequent mutilation and distribution of the dismembered body by Thorn, a barber, and Augusta Nack, a midwife and his paramour, were so cunningly planned and accomplished that the crime stands alone as the most fiendish murder in the criminal history of this or any other section of the United States. Mrs. Nack was the cause, Guldensuppe and Thorn being rivals for her affections. The rubber was lured to a cottage and killed, his body being cut up afterwards and distributed in a manner which, it was thought, would prevent identification. Thorn made a confidant of a compatriot, and through him the arrest was made.

ENDED IN A ROW.

Partisan Umpires Make a Mess During a Game In Syracuse.

Syracuse, Aug. 1.—The game between the Syracuses and the Buffalos Sunday broke up in a row in the ninth inning on account of there failing to be a regular umpire on hand. Pitcher Malarkey of the Syracuses, who, with "Farmer" Brown of Buffalo, officiated, gave the game to his team by the score of 9 to 0. The trouble began in the fourth, when Brown called 'fair" a hit of Shannon's that looked to be foul by two feet. It broke out again in the ninth, when the Syracuses were at the bat and only one run behind. Smith took his base on balls, and while Gray, Shannon and Wise were holding a conference, went to second base. Gray threw the ball to Shannon, who attempted to cover the base, but Smith was safe without question.

Griffin came up from centerfield and had a conference with Brown, who was judging base decisions. Brown then called Smith out. The field was instantly covered with players, and there was a long and lively kick. The game was finally resumed, and the next two men were sent to their bases on called balls. The Buffaloes evidently were afraid that Malarkey would force a run in in this way, and refused to continue the game. Malarkey thereupon gave it to the Syracuses.

The Brooklyns go on losing, yet President Ebbets believes that it was for the best interests of the team when he let Tucker go and kept the lumbering Lachance.

Lajoie made 30 doubles in 79 games.

Keeler failed once in 34 games to bat safely.

Manager Buckenberger of the Syracuses is interested in getting a more compact circuit, thereby dropping the New England cities of Providence and Springfield. The Springfield Union says of the idea: "It would please the fans of this city immensely to get out of the schedule-juggling, dollar-chasing, Eastern league into one where clean sport and fair play would be the first consideration and the profits a secondary matter."

J. Earl Wagner says he will be out $30,000, which, he claims, he has spent in an effort to strengthen the Washingtons. He admits that the deal by which he got Doyle from the Baltimores was disastrous.

Saturday's winners in the National league were the Bostons, Cincinnatis, New Yorks, Chicagoes and Philadelphias, the Clevelands and Baltimores breaking even in two games.

The Providences won yesterday through poor play by the Montreals. Braunn was hit hard and often, but not opportunely. Payette, a Montreal pitcher, was tried by the Canadians, but was wild and was replaced by McFarland in the second.

The Louisvilles held their own Sunday until the last two innings, when the New Yorks opened up on Cunningham and batted out a victory, 7 to 3.

The Cincinnatis hit Kennedy very hard yesterday, making it four straight from the Brooklyns. The game was called on account of rain while the Ohioans were at the bat in the eighth. Score: 9 to 5.

Two passes, four singles and a double in the second inning scored six runs and gave the Chicagoes their ninth victory Sunday, over the Washingtons. The game throughout was replete with sharp fielding on both sides. Fielder Selbach was put out of the game in the fifth for sarcastic laughter at Snyder's decisions.

The Montreals lead in the Eastern league. Toronto, Buffalo, Wilkesberre and Syracuse are having a fine struggle for second place, while the two New England clubs—Providence and Springfield—bring up the rear.

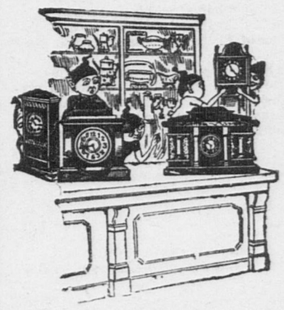

Freedman should umpire all his own games.—Philadelphia Record.

HEAD STILL SWELLING.

Conceit of Aguinaldo Passes Limit of Forbearance.

Complications With the Insurgents Possible.

Spanish Commander About Ready to Capitulate to Dewey.

London, Aug. 2.—A dispatch to The Times from Cavite dated July 25 says: "It is becoming more apparent daily that there are serious complications ahead. The Americans never made a greater mistake than in bringing Aguinaldo and the insurgent leaders here and giving them arms and ammunition. Aguinaldo, fearing annexation by the Americans, openly opposes them. Either he has been corrupted by some foreign power, or he has a false notion of the strength of the Philippine revolutionists, failing to recognize that their recent successes are due to the concentration of Spanish strength at Manila consequent upon the presence of the Americans. He dictates to the American authorities in absurdly inflated terms. He compelled the natives at the southern approaches to Manila to register their bullocks, ponies and conveyances, instructing the owners not to supply them to the Americans without his sanction. General Anderson warned Aguinaldo that force would be used to impress the means of transport, which were ultimately forthcoming. Aguinaldo's attitude makes future operations against Manila problematic.

"In my opinion, with the aid of the fleet, the city might have already been American. Nothing but the complications with the natives prevented an advance. Now the violent rains have set in, making operations arduous and threaten the health of the men. Aguinaldo's forces encircle the city, making daily and nightly attacks. The Spaniards still hold the whole of the suburbs. Occasional sorties are made, in which the loss of life is slight. Two miles behind Aguinaldo's lines, south of Manila, 5000 American troops are encamped. The remainder are at Cavite. Aguinaldo is understood to have objected to the advance of the Americans to ground captured by the insurgents.

"I am convinced that the Philippinos will never capture Manila unaided, and that, if the Americans withdraw, the fate of the natives under Spanish rule will be worse than before. The best solution of the political situation would be that America should administer the affairs of the islands, disarming the natives. Five half-breeds, taken by Aguinaldo, with Spanish passes rolled into cigarets, have been condemned to be shot. The United States gunboat McCulloch now patrols between the neutral fleets and Manila to prevent communication.

"The Americans have not yet returned a single shot although they are constantly under fire. The situation at the front is most extraordinary. Each force is guarding its own lines, but the insurgents are little better than an armed rabble. I am reluctant to believe the report that a certain prominent American official assured Aguinaldo that the Americans came simply to support the insurgent cause and establish a republic, yet the attitude of the insurgents seems ample confirmation. The insurgent leaders are aggressively arrogant, and make no move toward recognizing American authority.

"It is another open secret—and I have information confirming the report from the highest possible sources—that Manila is willing to surrender and may do so provided assurance is given that the inhabitants will be protected from the insurgents, who declare their intention of killing every Spaniard. The only incentive the insurgents have to continue the conflict is revenge and plunder. It is evident that the Americans must settle with the insurgents first."

AWAITING THE DECISION.

Special Session of the Congress to Be Called If Spain Accepts.

Washington, Aug. 2.—The Spanish cabinet apparently is having greater difficulty in coming to a decision with regard to the American terms of peace than our cabinet had in framing them. The reports lead members of the administration to believe that it will be several days at least before any reply is received from Madrid. It cannot be said that the delay has increased the expectation of a favorable response and with two exceptions the members of the cabinet look for an equivocal message which will leave negotiations no farther advanced than now. At the same time there is confidence that out of the present correspondence will come the conclusion of a peace, although it may be longer in coming than some seem to think.

The president will call an extra session of congress just as soon as Spain accepts the conditions contained in the diplomatic note sent by the United States. A request came Monday from Madrid for more definite information on "difficult points." The program is, if Spain accepts, to proceed immediately to draw up a treaty, which shall be adopted by the representatives of the United States and Spain. This document would, of course, have to be carefully drawn, and that would be a matter of some days. But as soon as it is completed ratifications can be exchanged and a special session of congress will be at once called.

This treaty will not settle the question of the disposition of the future of the Philippines, but will provide for negotiations which will lead up to a determination of the question. This settlement of the Philippine question would, of course, come up for subsequent ratification, and would really be a part of one continuous negotiation.

"Fighting Bob's" Christianity.

Williamsport, Pa., Aug. 2.—The Index of this place having drawn an invidious contrast between the alleged profanity of Captain Evans and the religious fervor of Captain Philip after the contest in Santiago, "Fighting Bob" sent a reply in which he says: "Shortly after the Spanish cruiser Vizcaya had struck her colors and my crew had secured the guns, the chaplain of the ship, an excellent man, came to me and said: "Captain, shall I say a few words of thanks to almighty God for our victory?" I said: "By all means do so; I will have the men sent aft for that purpose," and was on the point of doing so when it was reported to me that a Spanish battleship was standing towards us from the eastward. My first duty to God and my country was to sink this Spanish battleship, and I immediately made preparations to do so. When it was discovered that this ship was an Austrian I found my ship surrounded by boats carrying dying and wounded prisoners, and others of the crew of the Vizcaya to the number of 250. To leave these men to suffer for want of food and clothing while I called my men aft to offer prayer was not my idea of either christianity or religion. I preferred to clothe the naked, feed the hungry and succor the sick, and I am strongly of the opinion that almighty God has not put a black mark against me on account of it. I do not know whether I shall stand with Captain Philip among the first chosen in the hereafter, but I have this to say in conclusion, that every drop of blood in my body on the afternoon of the 3rd of July was singing thanks and praise to almighty God for the victory we had won.

Yours respectfully,
Robley D. Evans.

Schley's Sweetest Thought.

Indianapolis, Aug. 2.—In a letter to a cousin, a resident of this city, Commodore Schley says anent the destruction of Cervera's fleet: "Surely it was large enough to win laurels for all and I assume no other pride in it than the lucky place of this ship on the line where the first heavy assault was made and afterward by her speed and her direction to keep in the scrap. The sweetest thought and the greatest satisfaction come from the fact that the conduct that day has won the people's love and earned the nation's admiration. It is this which encourages us in the public defense no matter at what risk to ourselves. If it secures peace to our beloved land and permits us to return soon to our loved ones and to our people, our efforts were well directed."

Food Scarce and Water Rank.

New York, Aug. 2.—Dr. A. M. Lesser, who arrived from Santiago on the Concho with 172 sick and wounded soldiers, speaking regarding conditions on board the transport, said: "Orders were received to supply the Concho with 1000 rations for 175 persons who were ordered on board of her. In order to secure a return home the men will frequently affect illness to such a degree that it may be often hard to determine whether one is sick or not. This was particularly so in the case of the Concho's sick.

"Medicines were supplied therefore in quantities thought to be sufficient, but on the eve of departure I found the entire ship's laod, excepting possibly 25 persons, suffering from fevers and bowel troubles, for which there proved to be an insufficient supply of medicines on board the ship. The rations put on were therefore unfit to be served to the sick men. The supply of water was also impure and unfit for use, having been taken aboard at Tampa in May. The Concho has but 58 stateroom berths. Bunks were provided for the men between decks, but being devoid of mattresses, and owing to the intense heat, were practically useless. The men could not live below, many being compelled to sleep on deck under awnings.

Added to the List of Prizes.

Key West, Aug. 2.—The Spanish schooner Dolores, 60 tons, loaded with corn and provisions, and bound from Progreso, Mex., for Batabano, has been added to the list of war prizes. She was captured by the Eagle near Corrientes bay.

The Badger, which took her prizes to Tortugas a few days ago, is there awaiting orders. Her prizes are a barge, a brig and a towboat, which were trying to get from Nuevitas to Havana.

Three hundred and eighty-two sick and wounded Spanish soldiers, some of whom have lost legs and arms, are aboard prizes which are held in quarantine.

Famine In Havana.

London, Aug. 2.—The Havana correspondent of The Times in a letter dated July 5 describes a condition of growing indignation. He says: "Though Havana is still very quiet, extraordinarily, ominously quiet, it is a calm before the storm. There is an ever-increasing feeling against the government's deceit in hiding the truth and spreading false news, apparently with the intention of leaving the people to the mercy of their enemies.

"Famine is slowly tightening its bands. The bulk of the population would already have starved but for the supplies of mangoes, pineapples and bananas. The death rate is extraordinarily high here, and still worse in other parts of the island. In some settlements half the reconcentrados have died since war was declared."

Will Save the Teresa.

Santiago, Aug. 2.—Before leaving this vicinity, Commodore Schley visited the wrecks of the Infanta Maria Teresa and the Admirante Oquendo. The latter was unbearable because of the stench of the dead bodies which it contains. The ship is broken in two and could not possibly be saved. The Maria Teresa is in better shape. It is said by the wreckers that they have pumped her out once, but something is open, for she filled again. They are looking for the hole and expect to plug it, and then get the vessel afloat. Some of her big guns are all right. The wreckers found that the magazines o fall calibre were full, thus contradicting the story that the squadron left Spain without ammunition.

Wanted to Be a Benedict.

Des Moines, Aug. 2. — Lieutenant Buidair Hartung is under military arrest, charged with obtaining a furlough under false pretenses to marry Bessie Coddington. The bride and groom are are residents of Des Moines. Hartung is a member of the Twelfth signal company in Chickamauga, and Miss Coddington, now Mrs. Hartung, is a popular member of the most select Des Moines society. A week or more ago the lieutenant appeared in Des Moines on leave of absence, and his friends were surprised shortly afterwards by an announcement of his marriage. Upon his return to Chickamauga he was promptly taken into custody. It is alleged he assigned as a reason for obtaining a furlough his father's serious injury. The senior Hartung was but slightly bruised.

LOST IN ST. LOUIS.

Timothy Hurst's Nine Beat the Beaneating Club of Ball Tossers.

St. Louis, Aug. 2.—The champions and the browns played two games at Sportsman's park before a small crowd and broke even. There was considerable dissatisfaction over O'Day's decisions in the first. Score:

Boston.	AB	R	1B	PO	A	E
Long, s. s.	4	0	0	0	2	0

Bostons ..... 1 0 0 0 0 0 0 0 0—1
St. Louis ..... 1 0 0 0 1 0 0 1 —3

Earned runs—St. Louis, 2. Two-base hits—Stafford, Quinn, Cross, Sugden. Double play—Crooks and Tucker. Base on balls—Off Hughey, 1; off Hickman, 4. Passed ball—Clements. Sacrifice hit—Cross. Struck out—By Hughey, 2; by Hickman, 1. Stolen base—Sugden. Time—1:50. Umpires—McDonald and O'Day.

In the eighth inning yesterday the score stood 6 to 2 in the Springfields' favor. In the ninth, through hits, the Torontos scored six runs and won, 8 to 6.

The Philadelphias shut out the Clevelands in a fast and finely played game, 1 to 0. Both pitchers were very effective.

The National League standing is as follows: Cincinnatis, 681; Bostons, 648; Clevelands, 614; Baltimores, 595; Chicagoes, 556; New Yorks, 540; Pittsburgs, 506; Philadelphias, 494; Brooklyns, 383; Washingtons, 356; Louisvilles, 356; St. Louises, 272.

Chang In a Muddle.

London, Aug. 2.—The Pekin correspondent of the Standard says: "Monday the empress dowager openly relieved the emperor of all real power. The ministers take their instructions directly from her, and Li Hung Chang

LI HUNG CHANG.

practically supersedes the foreign office. It is rumored that Sir Claude MacDonald, the British minister, has accused Chang of betraying China to Russia, and it is said that Chang has threatened to demand the recall of MacDonald.

PARASITES IN LONDON.

Tremendous Sensation Caused by Tooley's Disclosures.

Exodus of Aristocrats Considered Very Probable.

The Confidence of British Investors Nearly Overthrown.

London, Aug. 2.—Promoter Hooley's revelations of the rottenness of London financiering have thrown into a panic all who have invested their savings in the stocks of companies. It was matter of common notoriety that the small, promoting, journalistic parasites fattened on company operations, but the gigantic fabric of bribery and blackmailing by which boards of directors are organized with purchased names and backed by a subsidized press—some lords even being paid to quit the companies when no longer needed—was unsuspected. The only question asked is: "Who will be the next?" and the chorus of denials, some merely technical, is received with cynical skepticism.

An exodus of aristocrats on foreign tours is expected, and a crop of investigations is sure to result. Proposals of legislation to regulate and purify companies are already broached. In the meantime the promoting Napoleon, turned informer, mounts the pedestal as a popular hero. People are forgetting his share of the responsibility for the system he exposed, the crowd in court applauding every time he scores off a nobleman.

Monday's proceedings were filled with dramatic episodes, and especially the revelations of attempts to bribe Mr. Hooley to perjure himself by withdrawing the statements he made at the last examination. These efforts drew from the registrar the remark: "It is a most scandalous thing." The testimony implicated many Londoners whose names would not be recognized in America, smirching some in the business world hitherto untarnished by suspicion. One of the gravest charges was the story of the dealings with Lloyd's bank, where were deposited 86,000 shares of the Singer company. The day Hooley went bankrupt these shares were transferred. He swore Monday afternoon that he never transferred them and that the certificates used were signed in blank for another transaction.

Among his alleged dealings with the Earl of Delawarr, Mr. Hooley asserted that the earl tried to sell his estate at Haslingdon, representing that it contained 4000 acres. Hooley said: "I promised to take it, but when I sent my agent to see the property he found there were only 1700 acres. I had to pay Delawarr 10,000 shares of the Trent Cycle company to get him to let me off the bargain."

When, replying to an interruption, he denounced the speaker, exclaiming, "Dean, Harrison Davis and Beall are three of the greatest blackmailers in London," he was tremendously applauded for this retort.

Later Mr. Hooley testified that Earl Delawarr offered him £1000 to say that the £25,000 paid him by the witness was a gift made after the flotation of the company in which the earl figured. Mr. Hooley further testified that certain directors of the Humber company offered him £1000 and £2000 to say that the £50,000 which he had paid them was profit from other business.

Still later, during the course of his testimoney, Mr. Hooley said that while out driving Sunday, a little man in a hansom cab stopped him and said: "There are 1000 sovereigns in the hansom for you."

Mr. Hooley said he replied: "What have I to do for that?"

Thereupon the little man is alleged to have answered: "If you will say the money you gave Lord Albemarle was a present made after the company was floated, I am to leave you the sovereigns and take your word of honor."

Mr. Hooley remarked: "I told him I would punch his head if he did not go away."

Mr. Hooley told of the payments which he claimed to have made to the financial editors of the Pall Mall Gazette and the Westminster Gazette, alleging that he paid the former in order to "keep him quiet." At another point of his testimony, Mr. Hooley said he promised Lord March £1000 and £2000 yearly for joining the Schwepps' board, and asserted that he paid Adolphus Drucker, a conservative member of parliament for Northampton, £2500 and Sir Blundel Maisle £1800 by repurchasing their shares at enhanced prices.

The witness afterwards said he paid Lord Walter Lennox for introducing Lord March to Lord Templeton and promised him £500 and £500 yearly for serving on the board of directors who, however, refused to sanction it, so he paid Lord Templeton £700 for withdrawing.

Counsel for Lords Delawarr and Albemarle denied the imputations made against their clients. The legal representative of Lord Albemarle also said that his client, without admitting that the £9000 were received for a corrupt consideration was willing to return the money to whoever is entitled to receive it.

When Lord Delawarr's counsel had finished his denial, Mr. Hooley shouted: "Then I will show you what I have in my pocket, a telegram from Lord Delawarr and the draft of a document setting forth what I was to say today." Mr. Hooley flourished some papers towards Lord Delawarr, who was present, and an exciting scene was ended abruptly by the adjournment of the court.

Household goods and piano at auction.

Cleopatra Won.

The postponed open race of the Manchester yacht club was sailed Monday in a light breeze, the leaders of their classes being the Meemer, Hermes, Fancy, Cleopatra of Quincy, Duchess and Stilletto.

The Boston Advertiser says. The sporty race of the afternoon was in the 21-foot class, where Small's schooner Bud, the Cleopatra and Snipe, were pitted one against the other. On the reach the Bud had a little the best of it. On spanker work she gave way to the Cleopatra and they had it nip and tuck. On the beat the liveliest work of the day was carried out, but it all ended in the defeat of Small's boat, and a victory for ex-Commodore Faxon's flyer.

The Beatrice took a second prize, and the Little Peter was third in the same class.

In One Day.

Mrs. A. M. C. Allen of Worcester accomplished her great feat on Monday, riding on a bicycle from New York to Boston within 24 consecutive hours. She started at midnight on Sunday and had just 46 minutes to spare on the Boston end, arriving at the City Hall at 11.59.14.

The route was through New Haven, Meridan, New Britain, Hartford, Springfield, Worcester and South Framingham, and measured 290 miles so that it will be seen that the woman averaged over twelve miles an hour including stops. The roads were very heavy, and the riding was hard. All this time rain had been threatening and at times actually falling. From Springfield to Worcester was the worst stretch the plucky rider had to face, and the condition of the riding can be better imagined than told. Not till eight o'clock in the evening did Mrs. Allen reach her home town.

Crowds greeted her as she sped on through South Framingham and the other towns, and a larger number were on School street, Boston, when she arrived just before midnight.

UNKNOWN CALLS.

The Bicyclist Who Collided With McCarty Explains.

The bicyclist who collided with Mr. John F. McCarty on Friday night called at the Ledger office this morning relative to some of the statements in the report of the accident. He willingly gave his name and address as Walter Blair of 44 Quincy street, South Quincy. He regretted the accident and the unfortunate ending but felt that he was in no wise to blame.

He says he was coming from Wollaston at a moderate pace not at a high rate of speed as reported. That he saw bicycles coming in the opposite direction and rang his bell. He was away over on the right but was forced to the plank walk so that there was no opportunity to get by, McCarty being way over on the wrong side of the street and not turning to allow him to pass. The path was good on this side of the street.

Blair thinks he must have been bewildered by the collision and exhibits a wound near the right temple, for he rode toward Wollaston after the accident. When he discovered this he turned. He then missed his hat. When he reached the scene of the accident he recovered his hat. He felt that McCarty was entirely to blame as he was way over on the wrong side of the street and so remarked to his companions. As McCarty had two with him he did not stop. Saturday he visited the scene of the accident and recovered one of the rings which he had lost. It was plain he said that I was way over on my right hand. He regretted very much the death of McCarty.

Paving Bids Opened.

Commissioner Knowlton opened bids Monday afternoon for the paving of Hancock street. The several bids received were as follows:

John Fallon & Son,	$9,895.50.
John Turner & Co.,	9,902.00
H. Gore & Co.,	9,981.00
D. F. Griffin & Bros.,	10,309.00
Albert A. Libby & Co.,	10,640.00
Soule Dillingham & Co.,	10,671.80
Edward J. Sandberg,	11,967.50

The bids were taken under advisement.

TODAY'S COURT.

Michael McDonough was fined $5 for drunkenness at Quincy.

Edward J. Jacobs was fined $5 for drunkenness at Quincy.

John Cronin was fined $5 for drunkenness at Weymouth.

The continued case of Frank E. Wilder of Randolph for embezzlement was called and continued until Friday.

Catherine McCan was arraigned for cruelty to a cat at Quincy. She was fined $10.

The complaint in this case was made by N. B. Furnald, agent for the cruelty to animals society. The hearing developed the fact that the cat which was owned by a neighbor came into Mrs. McCan's yard and the latter beat the cat with a broom stick so hard that the cat died some days later. When the owner went for her pet Mrs. McCan turned upon her with the same broomstick.

Notes of National Banks.

Washington, Aug. 2.—In answer to inquiries received from national banks as to whether after allotment of new bonds to purchasers the receipts of the treasurer of the United States for deposits made on account thereof would be considered as a proper basis for deposit as security for circulating notes of national banks, C. G. Dawes, comptroller of the currency, has ruled in the negative. The law relative to the issue of circulating notes is definite and strict in its definition of the security which shall be used as a basis for circulation. Under the provisions of law it would not be legal to issue circulation even upon unregistered bonds of the United States.

NEWS IN BRIEF.

The James P. Lewis company's strawboard pulp mill at Beaver Falls, N. Y., has been burned. The loss is $50,000.

George Thompson was hanged in St. Louis Monday. He protested innocence to the last. Thompson's crime was the poisoning of Joseph Cunningham, sexton of St. Peter's Episcopal church.

Two children, Ethel Freidman and Jacob Stearns, were carried out to sea from Swampscott, Mass., yesterday. They were rescued six miles off shore at dark by a fisherman, who noticed the drifting boat. The little ones were asleep when rescued.

A train wreck in which two men were killed and four or five injured occurred on the Central railroad at Fort McPherson, Ga., Monday. A train bearing soldiers bound for the camp at Lithia Springs was run into by a freight train. Both engines and trains were badly wrecked.

The commissioner of internal revenue has held that a traveling company playing dramas "without exhibiting feats of horsemanship or acrobatic sports" in towns of 25,000 inhabitants or less is liable to a tax of $10 for the year. It had previously been held that this class of performances required a tax of $100.

Reports from Unalaska says that Dutch harbor is crowded with a forlorn lot of steamers. Of the fleet of 20 which left Seattle to ply on the Yukon, 12 were wrecked at or near Dutch harbor, four are on the rocks, two are ashore and six others are laid up with broken backs. In each case the machinery is practically all that can be utilized.

Lobsters cannot be persuaded to grow up together peaceably. If a dozen newly hatched specimens are put into an aquarium, within a few days there will be only one—a large, fat and promising youngster.

BEST APPEARANCE.

Co. K Carried off Palm at the Inspection.

Camp Dalton,
Tuesday, August 2, 1898.

My brief report of the inspection in yesterday's Ledger may well be supplemented by the opinions of an outsider. The Herald puts it thus: The monthly inspection of the 5th regiment took place Monday morning, regimental line being formed at 9 o'clock. It was the first time since its muster into the United States service that the regiment has turned out as a whole in its complete service equipment, and its appearance was certainly superb.

The men had all their earthly possessions rolled and slung over their shoulders, with the woolen blanket outside, the rubber poncho hanging from the bight of the roll. The uniforms were new and clean the brasses of every man bright as hard work could make them, as were the rifles, while the haversacks and canteens were also in excellent condition. The inspection was most complete and thorough, and it was some time after noon before the last company had been looked over and was dismissed to quarters.

Following the field inspection, came inspection of quarters. Every tent was carefully examined, and their interiors in most every instance were found perfect. Just here Col. Whitney sprung a surprise on the men, and one they will benefit by when inspection comes around again.

Every tent floor was lifted for a look at what might be underneath. Old soldiers can readily imagine that then there was trouble.

It is a custom for soldiers in keeping things clean about their tents to make the work as easy as possible, and store a good many odds and ends under the floors. These odds and ends were found in quantities today, but this will be the last time the men will be caught; hereafter the ground beneath the tent floors will be as clean as the floors themselves. Following the inspection of tents came inspection of hospital, mess halls, cook-houses and lastly the guard and the guardhouse, and lockup. It was 6 o'clock before Col. Whitney finished his day's work.

The Post says: The determination of the inspection party, as to the relative standard of the men and companies, is not publicly announced, but to satisfy the curiosity of the men, the Post reporter gathered the following expressed opinions.

The company having the best general appearance on the parade ground was Company K of Braintree, Captain Kincaide. Second place accorded to Company A of Charlestown, Captain Stover, and next Company G of Woburn, Captain Hanson.

The best appearing private in the regiment was Private Jones of Company H of Charlestown. Private Jones was formerly in the Second Artillery, U. S. A.

The cleanest and best rifles were carried by Privates Hines and Vigneau of Company F Waltham.

Company A of Charlestown took the palm for the finest appearing and cleanest streets. Company G of Woburn was credited with second place in this particular. Companies L of Malden and H of Charlestown had the cleanest and best arranged mess houses and kitchens.

The cooks of the first batttalion made a fine appearance.

Officer Used His Revolver.

Blackstone, Mass., Aug. 2.—Matthew H. Burns, a member of the firm of Andrew Burns & Son, was shot by Officer Corcoran yesterday afternoon, but is not thought to be fatally wounded. Two shots were fired through the window of a saloon, one shot going wild and the other hitting Burns in the back about three inches below the kidney on the right side. The bullet finally lodged in the fleshy part of the thigh.

The officer went to the saloon to serve a warrant on John Burns, and bitter words were exchanged with Matthew Burns. It is claimed the men fought and were separated. The shooting occurred after this incident, but stories differ as to what brought on the use of the weapon. Corcoran telephoned to Deputy Sheriff Bacon of the affair and later surrendered himself.

Corcoran says he arrested Burns on the charge of obstructing an officer and fired one shot to scare the prisoner and another as he went upstairs.

Epitaph For Bismarck.

Berlin, Aug. 2.—It has been definitely decided that the remains of Prince Bismarck are to be interred at the spot selected by himself, where a simple mausoleum will be built and to which the remains of his wife will be transferred from Varzin. The funeral rites today were confined to the simple ceremony of blessing the remains, which was performed by the local pastor of the village of Brunstorf.

Bismarck's final instructions, signed by himself, expressed his desire to be buried in a selected spot in the Sachsenwold, and concluded: "For an epitaph, I wish 'Prince von Bismarck, born April 1, 1816, died ——,' with the addition of 'a faithful German servant of Emperor William first.' "

Alabama Democratic.

Birmingham, Aug. 2.—Joseph F. Johnston (Dem.) was re-elected governor of Alabama yesterday. Unofficial returns from 60 of 66 counties indicate a Democratic majority for the state ticket of 55,000. Indications are that the Populists carried not exceeding six counties for their state ticket. The lower house of the legislature will consist of 90 Democratic members out of a total of 100. The Populists elected but two senators.

PIE FIEND ARRESTED.

May Know Something About Recent Store Breaks.

Another break was made between Saturday night and Sunday morning. The place entered was Boynton & Russell's store at Wollaston, and the young man who is believed by the police to have done this and other jobs is now in a cell at the police station.

The break at Boynton & Russell's store was made through a rear window and but little was taken, that little being cigars, cigarettes and pie.

It will be remembered that in all of the recent breaks in Quincy the party or parties had a fondness for pie and he might be called the pie fiend. The police have had a young man who they have been watching. This morning Officer Ferguson started out in one direction for him and Officer Lyons in the other. The latter went up Granite street and about 11 o'clcok returned having in his custody Robert Bessett a young man about 20 years of age, who lives at 8 Nelson street. When searched at the police station his pockets gave forth a lot of nickles, six boxes of cigarettes, a box of matches, note book and half a dozon pocket knives. The point of the large blade of one of the knives was broken, and looked as though it hasd been used to pry with. Of the blades of the other knives, several looked as though they had been used to cut a pie, as there were remnants of pie crust on them.

Bissett refused to give his name or say anything, and shortly after being locked up he jammed his head in the cell bucket, evidently with the intention of committing suicide. He was however, discovered and the bucket was taken out and he was relieved of any surplus clothing that he might use for this purpose.

The charge upon which Bissett was arrested was vagrancy, but when brought into court he will be confronted with more serious charges. It is not the young man's first view of the interior of a cell. Some time ago he was arrested for being a stubborn child and was sent away, and has but recently been released.

WEYMOUTH.

Miss Maud and Ada Townsend of Lovell's corner are spending a week at Silver Lake.

Miss Marie Hawes, Emma Rea, Florence Pratt and Rachel Hawes are spending two weeks at Bristol, Maine.

Mrs. Ellen Pratt is making a visit with her daughter, Mrs John Long at Belchertown.

Mrs. Sloan of Cambridgeport has been visiting her sister, Mrs. Everett Pratt.

Pansies For Early Bloom.

If you have a hotbed, sow pansy seed there in August. Transplant until they are five or six inches apart. Protect with mats on outside and paper on inside during cold weather, or instead of paper give a light covering of leaves, which, to be an ideal covering, should not be packed closely. Give air and light on warm, sunny days. Very early in spring the protection may be removed, and if carefully watered and sheltered from the noontide sun the pansies will soon be blooming. As soon as the frost is out of the ground they may be transplanted to the garden. Make the bed rich with old, fine stable manure (preferably from the cow stable). Give them a sunny situation, I say, with all deference to writers who say pansies need a shady position. Mulch the pansy bed with chip dirt, chopped hay, lawn clippings, fine manure from the bottom of the heap, or, better than anything else, if you can get it, is wood's earth or leaf mold. A good mulch and plenty of water, and we have no sunshine that will hurt the pansies. They bloom earlier in spring and remain in bloom later in fall in a sunny situation, but possibly a sheltered bed would give more and larger blooms in midsummer.—Vick's Magazine.

Root Suffocation.

It is difficult to get people to understand that trees can die from drowning just as animals can, says Meehan's Monthly. Trees feed primarily by the roots, but there must be a certain amount of oxygen in the soil to enable them to make use of the food. Standing water prevents the action of the life giving oxygen. A Boston correspondent refers to two large horse chestnuts which were moved last spring with the greatest skill, but they died. In the fall an examination was made, and the holes found to be full of water within one foot of the surface of the ground. The holes were really flowerpots without the necessary holes in the bottom to allow the water to escape. There can be no better lesson in gardening than to be continually remembering why it is necessary to have a hole in a flowerpot.

Money Makers.

In the last annual report of the New Jersey Horticultural society it is stated that the trend of testimony shows the best money producers of fruits in that state to be the Kieffer of pears, the Gandy of strawberries and the Cuthbert of raspberries.

Wollaston Post Office.

Letters remaining uncalled for July 30:

Arthur H. Brook, Esq., Mr. Ned Fitzgibbon, Hector Robertson, Mrs. Geo. A. Stewart, Mrs. S. G. Burnap, Mrs. Frank Cobby, Mrs. Melisa J. Tibbetts, Miss Higman.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

E. J. Colbert has gone to Springfield for a week.

Have the Daily Ledger sent to you while away on your vacation.

Work has been commenced laying the lateral sewer on Gay street.

The sewer pipes is being laid to President's hill via Depot street.

It will take until about Friday to place the sewer in Temple street.

The Misses Bassett of Walker street are spending the summer at Rockport.

David Gordon, clerk at Guys' furniture store is enjoying a brief vacation.

Miss Gertrude Hall of Newbury avenue has returned from her vacation.

Mrs. B. J. Weeks and children have returned from their visit to Exeter, N. H.

Carpenters are at work at the Central fire station putting in additional horse stalls.

Mr. John H. Bent left Saturday on a two weeks' fishing trip to Milton, N. H.

"Ed." Langley is at Nantasket this summer as cashier at the Hotel Nantasket.

J. S. Swingle and family of Canal street are enjoying the sea breezes at Houghs Neck.

Mrs. Joseph T. French and Mrs. G. W. Prescott are guests of Miss Vining at Hull today.

Henry T. Brown, driver of the steamer, returned today from a two weeks' vacation.

H. S. Weymouth and family of Norfolk Downs have gone to New Hampshire on their vacation.

Rev. J. O. Paisley of Cambridge will occupy the pulpit of the United Presbyterian church on Sunday.

Mrs. A. L. Litchfield of Quincy street has gone to Centre Sandwich, N. H., for a three weeks' visit.

Winthrop J. Fearebay of Billings street left Monday morning on a fortnight's vacation to Eastport.

Mrs. Eunice Wrisley and family go Saturday to Falmouth Heights on the Cape to remain for two weeks.

Mrs. M. J. King and Miss Maude King of Oneida, N. Y., are visiting relatives in Quincy for a few weeks.

Auctioneer Johnson will sell the household furniture of George Chalmers, at 10 Quincy street, next Tuesday afternoon.

Mrs. J. E. Dozier and daughter of Lynn and Mrs. Singer and children of Georgia, are the guests of Mrs. C. H. Penniman.

Mrs. Chris. Oliver and children of Howard street, Quincy Neck, have gone to Elizabeth, N. J., until the 1st of September.

The large farm barn of J. Merrill Brown of Milton, together with its contents of hay, was destroyed by fire Monday afternoon about 2 o'clock.

The convention of the Christian Union of the United Presbyterian church of North America, held at Saratoga, N. Y., will be attended by Miss Gillis, Miss Blue, Miss Harper, Mrs. McPherson and Rev. W. W. Dornan of this city.

The Duchess, owned by Mr. C. Hayden, won the Crowhurst cup at Manchester, Monday. The order by corrected time was: Duchess, Bud, Snipe, Coroce, Vamoose, Eleanor, Typhoon, Hermes, Cleopatra, Little Peter, Beatrce and Mongoose.

A good many regret in Atlantic the closing of Larrabee's drug store, as he was well liked and accommodating, but business fell off a good deal this summer and the break into his store and the theft of the bicycle was a sad blow, which Mr. Larrabee could not appreciate.

That was a bad accident at Varnum's Landing, between Lowell and Lawrence. The cars were going at the rate of 35 miles per hour and 40 people were injured. Mr. J. H. Geeson, a Quincy merchant, of the Greenleaf was sitting on the front seat and was the last passenger who got off the car before the accident.

The Rev. Mark Trafton, D. D., who lived at Wollaston in the 70s, and for a time supplied the Methodist church, passed his 88th birthday quietly Monday at his home, 20 Chester street, West Somerville. He received a number of visitors during the day and a large number of congratulatory letters. He was for many years recognized as one of the most brilliant ministers in the Methodist Episcopal church.

—The cause of temperance in Boston will receive a big boom next month, when the national convention of the Catholic total abstinence union of American is held in New England's metropolis. About 10,000 delegates, clerical and lay, are expected, coming from all parts of the country.

OUR AIM: To give full value for every dollar expended at our store.

Sleep For Sale

A remedy for all ills is a good night's rest. What is more conducive to sleep than a comfortable bed? What is so pleasant to sleep on as a fine hair mattress? It is both cool and healthful.

A hair mattress is a cheap luxury when one considers the comfort it affords It is also a good investment when one considers the return which it will bring.

Prices from $6 to $18.

TROUBLE AT MANILA.

Gen. Merritt Asks for Reinforcements.

San Francisco, Aug. 2—A dispatch has been received here saying that General Merritt called for reinforcements, enough to bring his army up to 50,000 men, as he anticipates trouble from the insurgents.

The Columbia Stranded.

Galveston, Tex., Aug. 2—A cable from Ponce, Porto Rico, reports the protected cruiser Columbia, which, when entering Ponce Harbor, ran on an uncharted reef, is being lightered of 1200 tons of coal today, and there is every reason to believe that she will be got off uninjured. The lighthouses in the harbor and on the outlying islands had been extinguished. No blame is attached to any of the officers of the cruiser for the accident.

NOTE—It was the Columbia which performed scout duty on the New England coast early in the war. William S. Moore, whose brother is at the Quincy Mutual Fire Insurance office, is chief engineer of the Columbia.

Cup Challenger.

London, Aug. 2.—There is now no question but what the American cup held by the New York Yacht club will be challenged for. The yacht that will challenge is the Shamrock.

In Their Country's Service.

Quincy now has over 100 men enlisted as soldiers and sailors in the war, the following being in addition to those enrolled with Co. K, 5th Mass Regiment U. S. Volunteers :

Edward A. Bumpus, commissioned 2d lieut. U. S. A.
Henry W. Sprague, commissioned 2d lieut. Signal Corps, U. S. A.
Harry H. Sheen, commissioned captain of Co. A, 4th Regt., Virginia Vols.
Howard D. Hunt, Co. H, 1st Colorado Vol. at Philippines.
Charles Rinn, 8th U. S. Cavalry at Cuba.

BILLHEADS
AT PATRIOT OFFICE.

CANAL TRACTION.

An Ohio Canal to Be Operated by a Trolley.

In accordance with an act passed by the Ohio legislature, says the Cincinnati Commercial Tribune, W. G. Wagenhals, general manager of the Cincinnati and Miami Valley Traction company, operating an electric line between Dayton and Hamilton, has been granted the privilege by the state board of public works of experimenting on the Miami and Erie canal with an apparatus for driving boats by electricity. If the experiment proves a success, the agreement is that he is to have a franchise granting him the right to operate a line of boats for a term of years, paying to the state the tolls as are now paid by the owners of boats drawn by mules.

Mr. Wagenhals entertains no doubt as to the result of the experiment and is so thoroughly convinced of its success that he will, without delay, proceed to equip the Miami and Erie canal with a line of boats which will be drawn by an electric motor of special design. He says that four months and an expenditure of $850,000 will be required to put the enterprise in operation and that he is already backed by an abundance of capital with which to push the work to an early completion.

Mr. Wagenhals' scheme in brief is to lay an ordinary standard gage track along the towpath of the canal, and by means of an electric motor, designed for this especial work, and for which he has applied for a patent, to draw his boats in about the same manner as they are now slowly and tediously drawn by mules. The motor will be about four feet in height and will weigh in the

CANAL TROLLEY.

neighborhood of 30 tons. It will be geared to five different speeds, ranging from a quarter of a mile an hour to ten miles an hour, the lowest speed being necessary to give an easy start. The motor will have a trolley pole, the same as the electric street car, but in addition it will be provided with an electric shoe, which will take up the current from the conduit when it becomes impracticable to run the trolley, as in cases of passing beneath bridges and culverts along the line of the canal. The trolley wire will be suspended about 12 feet above the track, which will be ballasted and graveled to an even surface, so as not to interfere with the drawing of boats by mules. This will necessitate the widening of the towpath to at least ten feet.

Mr. Wagenhals says that it will require about 100 boats to equip the line between Dayton and Cincinnati. These boats will be constructed of steel, and so designed as to draw not more than one foot of water. Three power stations will be erected at equal distances between the two points named.

The motor which Mr. Wagenhals has designed to do the work will be of 100 horsepower, and will, he says, pull with ease a train of at least five heavily laden boats, or more tonnage than a 300 horsepower engine can pull on rails, there being so much less friction to counteract the pulling strength.

German Experience With the Grip.

An extensive investigation as to the spread of the grip in the German army, assuming, as it did, the form of an epidemic, has given definiteness to medical opinion as to its being a disease that owes its origin to certain miasmatic external causes, while, on the other hand, there is not assumed to be any sure evidence of the influence of weather, climate, wind or soil or the season of the year. To the contrary, indeed, the number of those cases in which the spread and the mode of spreading of the ailment is attributable to human intercourse was considerably increased by the experience of the last epidemic. But authorities are still in a state of doubt as to whether the infection is carried directly from person to person or whether the infectious material is carried by the intervention of inanimate objects through the air. Of the real germ that causes the disease there is no precise knowledge. Reasons are given, however, for believing that inanimate substances may house the real germs of the disease and convey them far away, and if, therefore, dead substances can thus contribute to the spread of the disease germs such a fact may perhaps explain the appearance of the disease upon ships on the high seas.

Valuable Worms.

It is an old saying that we do not appreciate the worth of a thing until we have lost it. Possibly the worthy English farmers who own the large tract of land in Essex which was in November last flooded by salt water, owing to the break down of a sea wall, think of this adage when they ruefully look at their sodden ground. The despised worms, by their constant burrowings, kept the land well drained, but when the sea flood came they were all killed, and the birds had a great feast. That land, measuring about 50,000 acres, is still in a spongy state, and is likely to remain so until the farmers' friends—the worms—have time to recover their lost position.—New York Times.

GATLING'S GRIT.

The Famous Inventor Passed Through Many Hardships to Final Success.

In spite of a trade with an unhappy name there is a kind of humane second thought in the ingenuity of the death instrument maker. He may invent something so terrible as to make war impossible. This view lends an interest to the work of Dr. R. J. Gatling, the creator of the famous gun that fires 200 shots a minute. Our surprise to be told that he is really a tender hearted man grows less when we know how he was led to contrive his murderous weapon.

Seeing the trainloads of wounded and wrecks of regiments return from the front during the great war for the Union, he thought of the waste of industry and time and life in sending so many men into a deadly service. If war must slay, what a saving would be a single firearm that would shorten the slaughter from months to minutes, and finally appall contending armies so that they would refuse to face it!

Dr. Gatling was a man in middle life then, but from the age of 21 he had shown skill as an inventor. The first fruit of his genius was a steamboat propeller wheel. He had also originated several labor saving devices for use in cotton culture, made a furrow drill that brought him a fortune from the western wheat farmers, and patented a hemp breaking machine and a steam plow. He is 80 years old now, and still inventing. Lately congress voted him $40,000 for his proof experiments in a new method of casting cannon.

When he invented his propeller and took it to Washington, he found that Ericsson had just secured a patent for a similar design—and all his labor was thrown away. A few years later he lost two-thirds of the money he had realized—and invested—from the sale of his wheat drill. After he completed the "Gatling gun" a fire destroyed all his work and his patterns. When, a year or two later, he had duplicated his patterns and placed an instrument before the public, a rascally agent ran off with every cent of the sales. It is a robust quality of soul that can fight disappointment repeatedly and try again.—Chicago Tribune.

Malaria and Mosquitoes.

Professor Koch's discovery of the active agency of the mosquito in the propagation of malaria may lead to important changes in the administration of quinine for malarial affections. The disovery was made almost accidentally. Professor Koch was studying Texas fever in cattle, which he found was transferred from one herd to another solely by the bite of a tick. He infected sound cattle with ticks from diseased ones and succeeded in immunizing cattle inoculated with the ova of ticks from cattle suffering from the disease. Extending his investigations to malaria, he arrived at the conclusion that in the case of the human disease mosquitoes play the part which ticks play in the cattle disease. It was found that wherever there are mosquitoes there is malaria. Conversely, where there are no mosquitoes there is no malaria. Treating cases without quinine, Professor Koch ascertained that in malaria, as in other fevers, the temperature follows a definite course. By examining the blood of a patient under the microscope he was able to tell from the nature of the microbes the precise stage of the development of the disease. This ability is of the greatest importance in determining the most advantageous time at which to administer quinine. Dr. Koch believes that ultimately it will be possible to administer quinine in such a rational and scientific manner as to avoid the injurious consequences of the quinine treatment. This and the establishment of health resorts in the mountains will rob tropical fever of many of its terrors.

Water Curtains.

The idea of protecting buildings against fire from without by means of a water curtain, to be made to fall all around the structure, appears to be gaining favor, having the indorsement of some of the most experienced professional experts in this line, and the plan is exciting special attention in Chicago, where it is being applied to the great public library building. The arrangement is extremely simple. A seven inch steel water main is laid around the top of the structure upon the broad stone table formed by the top of the coping, this pipe having connection with force pumps situated in the basement, and, through perforations properly arranged, insures the introduction of a substantial sheet of water from cornice to pavement around the whole or any imperilled portion of the building. The arrangement of the system of piping is such as to enable operating in prescribed sections. Additional relays of smaller pipe are also placed in position above windows and doors in order to complete the curtaining of those points in the most serviceable manner should the curtain in the main be broken by wind impingement against the building.

Cost of Stoppages.

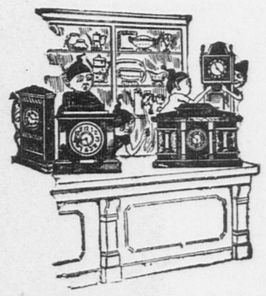

In an article in a recent issue of The American Electrician Mr. H. S. Hering states that as the result of tests he finds the difference between making a stop and a start at a station and running past it varies from 75 to 100 watt hours, depending upon the gradient and load. The average value under ordinary conditions for a partially loaded 7½ ton car is 85 watt hours. Assuming the cost of electrical energy to be 1 cent per kilowatt hour, one stop would cost .085 cent, and the cost of making one unnecessary stop on each trip for 15 trips daily would amount to $4.67 per car per year, and for 100 cars $467 per year for the one extra stop per trip. About 74 per cent of the total energy required for propulsion is expended in accelerating and lifting a car, showing that if only one-half of the energy stored in a moving car could be saved the saving would be very large. By careful driving a saving of from 10 to 20 per cent might be effected.

CANAL IN NICARAGUA.

President Said to Favor Ownership by the Nation.

Its Strategic Importance of Inestimable Value.

Next Message to Congress Likely to Contain a Recommendation.

Washington, Aug. 2.—Ex-Senator Warner Miller of New York, the president of the Nicaraguan canal commission, and Senator Morgan of Alabama, the leading advocate of that project in congress, had a short conference on the canal question with President McKinley yesterday. The president, it is said, expressed his acquiescence in the belief that government possession of the Nicaraguan canal is now necessary, and that the war and its results make the canal indispensable to the United States. The president, his callers say, intends to make strong recommendations to congress for legislation making immediate provision for completing the canal as the property of the government.

WARNER MILLER

Mr. Miller, discussing the future of the canal after the conference, said: "Congress at its next session will be asked to provide for completing the canal and its acquirement as the property of the United States. It has been necessary to us all along; it is now imperative, and there is no doubt as to what action will be taken by congress. The effect of the war on the project is a complete demonstration of its immense significance to us, and with what the war has brought in it train in adding to our interests in the Pacific there will be speedy action. The canal can be completed in five years, and put in operation as the valuable link between the Atlantic and the Pacific."

Senator Morgan had a final word to say to the president about the Hawaiian commission's work. He said that he and other members of the committee would sail Aug. 1 from San Francisco.

In Using Revenue Stamps.

Washington, Aug. 2.—The commissioner of internal revenue has issued the following circular in regard to the cancellation of internal revenue stamps: "In any and all cases where an adhesive stamp shall be used for denoting any tax imposed by the act of June 13, 1898, the person using or affixing the same shall write thereon with ink the initials of his name and the date (year) in which the same shall be attached or used, or shall, by cutting and cancelling said stamp with a machine or punch which will affix the initials and date as aforesaid, so deface the stamp as to render it unfit ofr use. The cancellation by either method should not so deface the stamp as to prevent its denomination and genuineness from being readily determined.

"Stamps imprinted upon the face of checks, drafts, or other similar instruments may be cancelled by dating, signing and filling out the blank lines in writing across the face and stamp in the usual manner of drawing checks and drafts. Stamps on checks and drafts may also be cancelled by perforating through said stamp and the paper to which it is attached the amount in figures for which said check or draft is drawn.

"Where proprietary stamps printed from private dies are used for the payment of tax upon proprietary articles instead of cancellation by initials and date, such stamps shall be so affixed on the box, bottle or package that in opening the same or using the contents thereof, the said stamp shall be effectually destroyed."

Watchdogs of the Treasury.

Detroit, Aug. 2.—A preliminary injunction was served yesterday upon City Treasurer Thompson and Comptroller Blades, restraining payment of any portion of the sum of $5000 recently appropriated by the city council for entertainment of the League of American Municipalities. The complainants are a dozen citizens. The city charter permits an appropriation of $2000 as an entertainment fund. The $5000 which are enjoined are a balance received from a lighting debt owed to the city by the county. The complainants aver that the use of this money for such purposes is unauthorized.

A similar injunction was recently served upon the school authorities. The circuit judge decided that the entertainment appropriation by the school board is illegal, but the question whether private citizens may bring such a suit is still pending with the court.

G. B. BATES,

THE PLUMBER,

HANCOCK STREET, - - QUINCY.

The Secret

of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.

This is only one of the many good qualities of a gasoline stove. Prices from $3 50 upwards.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

Riot In Hell's Kitchen.

New York, Aug. 2.—Carsey Bates, colored, shot and seriously wounded two men on West Thirty-ninth street in the "hell's kitchen" district yesterday and incidentally started a riot among the natives of that locality which smouldered until last night, when it broke loose in all its fury and several people were injured, one of whom will die. Ten negroes and three white men were arrested.

Fitz Issues a Challenge.

New York, Aug. 2.—In a statement issued over his signature, Bob Fitzsimmons, the heavyweight pugilist, announces that he has posted a forfeit of $2500 with the sporting editor of a local newspaper for a fight with Jim Jeffries of California, the contest to occur before Oct. 1.

One fare for the round trip to Saratoga during the week August 1st to 6th, inclusive, via the Fitchburg Railroad. Full particulars at 260 Washington St.

REMAINS BLESSED.

German Court Ordered in Mourning for Bismarck.

Berlin, Aug. 2.—The ceremony of blessing Prince Bismarck's remains was performed today, only the near relatives attending. The coffin was then closed and will remain in the castle until the mausoleum is completed, which will be in October next. The emperor has ordered the court to go into mourning for 10 days and the army for eight days. The flags on all the imperial and state buildings will be half masted until after the funeral.

The Reichsanzeiger has a leading article extolling Bismarck's immortal services and declaring the fatherland has lost her greatest son. After remarking that the prince was not only the unifier but also the educator of his people, the paper remarks,: "If it is true that the states are maintained by the spirit and power in which they are created, then the name of Bismarck will remain for us as a device and a revelation at all times. As Bismarck once declared at Frankfort: 'A Prussia which could renounce the inheritance of the great Frederick does not exist in Europe.' In the same way the German empire could not exist at any future time unless it holds fast to the legacy of its founders, the first Holenzollern kaiser and his great chancellor."

The emperor had announced his intention of attending the funeral, but Count Herbert Bismarck informed his majesty that the service was to be strictly private and without ceremony. Condolences and wreaths poured in by the thousands from all quarters, from all the courts, governments and foremost statesmen in the world. The death chamber, draped in black, was impressive in its simplicity. Until the remains were placed in the coffin the counterpane of the bed was strewn with roses and rose leaves.

BISMARCK AS A SPEAKER.

Not an Orator In the Ordinary Sense—His Appearance In the Reichstag.

Bismarck was not at all a smooth, graceful orator, but when it was announced in his days of power that he was about to make an important speech all Europe held its breath. His voice was peculiar, high pitched and not very powerful. It was by some spoken of as a thin voice, but that expresses only one of its qualities. It was the voice of a young man, and one hearing it for the first time without seeing the speaker could hardly believe that a person long past middle age was talking. A poetically inclined writer once likened his speech to a forest stream running over stones and roots. A more scientific observer described it in this way:

"I think I know a better though a rather technical comparison—namely, his speech is like quicksilver drawn out. Take a drop of quicksilver containing some lead or zinc, put it on a pane of glass and hold it slantingly. The drop swells and rolls, but presently it stops, becomes thinner and longer, remains immovable for a moment, gathers new strength to flow, becomes thin once again, and so forth. Thus it was with the chancellor's words—first, if a sentence came out, then he hesitated, stopped or uttered a short, inarticulate sound and went on again. It was always evident that to speak was a physical exertion, but even when in first rate form he did not talk fluently."

Close observation disclosed the fact that the reason for all this was that the form of his speech was always improvised on the spur of the moment; that, unlike many extemporaneous speakers, he did not use the first expression coming into his mind, but while uttering the first half of a sentence he was thinking how to shape the second half in order to exactly express his meaning. When making a joke or some lighter remark, there was no hesitation, but when he turned to more serious subjects the halting form of speech always returned.

It follows that it was no easy task to report his words. Even the official stenographers used often to trip on his words, and before their work was passed Bismarck always personally revised it.

During a debate he used to make frequent notes in a coarse, scrawling hand. When attacked by some keen opponents, he grew nervous and shifted in his seat, his pen shook between his fingers, and very often his hand went menacingly to his sword hilt, for Bismarck, while the first civil officer in the empire, was at the same time a general of cavalry and always wore his undress uniform in the reichstag.

When aroused, his ebullitions of passion were frequently terrible. He was merciless in retort, unsparing of persons, no matter their age, their personal services to himself or to the empire. He possessed a caustic humor which he used with great effect. A master of invective, his coarseness of speech very often defeated his own object. One of his countrymen speaking on this point described him as "an Achilles in courage, he is a Thersite in debate as often as the candid censure of friends or the vicious taunts of foes goad him into the loss of his temper."

HOW HE RETIRED.

Bismarck's Last Interview With the Emperor Was Most Dramatic.

It was at 8 a. m. on Saturday, March 15, 1890, before he was yet out of bed, that Bismarck was notified that the emperor was waiting to see him in Count Herbert Bismarck's apartments in the office of the secretary of state. As soon as the prince entered there was an outburst of imperial wrath. Bismarck was upbraided because the ministers were not allowed to report direct to the emperor and because of opposition to his majesty's policy regarding the labor problem. In vain did the chancellor defend himself on the score that it was law that the ministers should not report direct, and that concerning the labor problem it would be well not to be too precipitate—that certain modifications of the imperial programme might be wise.

"No, no; no modifications," interrupted the emperor. "I wish my orders to be carried out just as I give them."

The severity of this expression of his will at last exhausted the prince's calmness. "I think I can perceive that my services are not fortunate enough to please your majesty," he said, "and that some thoughts exist of getting rid of me." The emperor here made an assenting gesture.

Then Bismarck pleaded—think of Bismarck pleading!—to be allowed to remain in office until May in order to be able to defend that year's military bill, but to no avail. "No, no," was the emperor's constant and only reply, and when Bismarck ceased speaking and stood with bowed head his master began again and took him to task for holding conferences with Windthorst. This angered Bismarck greatly, and he replied with much heat, charging the emperor with putting spies on his track. "It is my right," said Bismarck "to have communication with skilled politicians, whether they be members of parliament or not, and nobody, not even your majesty, will be able to prevent me from doing so." After these words, spoken in the greatest excitement, the emperor dismissed the chancellor with a simple movement of the head.

A few days later—March 30—the ex-chancellor made his exit from the scene of his triumphs, little doubting probably that he would soon be recalled. He had already taken leave of all the royal princes, but there remained one member of the Hohenzollern family to whom he owed a farewell—Emperor-King William I, now lying in marble state beside his royal parents in the mausoleum at Charlottenburg. Thither Bismarck drove, and alone he entered the tomb. By the side of the sarcophagus he knelt, and on its lid he laid a few roses. Then he went away as silently as he had come. There still remained the leavetaking with the Berlin populace. It was a most impressive one. A correspondent says of his progress through the streets to the railway station, where he was to take the train for Friedrichsruhe:

"As if the funeral of some great and deeply mourned man were afoot, Berlin had poured out all the best elements in its population to weep and wildly wave their hats and handkerchiefs, to scatter flowers and to struggle to shake and kiss the hand of the man who was about to pass from their midst and be lost to them."

It was only with the greatest difficulty that way could be made by the police for the prince's passage through the crowd. Many pressed forward to give the retiring minister flowers, and the crowds cheered vociferously. The emperor sent his personal aids-de-camp and equerries with a magnificent and suggestive floral offering and final adieus. It is small wonder if the prince was affected, and when in the intervals of the cheering the crowds struck up "The Watch on the Rhine" he really looked as if for the first time in his well polsed life he had lost his head. When at last the train departed with a shriek, the cheering was frantic.

Then the crowd melted away, and Bismarck, as the central figure of Europe, was no more.

BISMARCKIANA.

His Summing Up of His Life—A Few "Winged Words."

Bismarck became very bitter toward the young emperor who accepted his resignation. "I pity the young man," he said. "He is like a young hound that barks at everything, that smells everything, that touches everything and that ends by causing complete disaster in the room in which he is, no matter how large it may be."

The prince was frequently disposed to sum up his life work in a sorrowful strain. "How many nations have I rendered unhappy!" he once said. "But for me three great wars would never have taken place; 80,000 men would not have been killed in battle; fathers, mothers, brothers, sisters and wives would not have been plunged into misery. I have settled all that with my conscience and my Creator, but I have reaped very little if any happiness from all that I have done. The only things it has yielded me are various anxieties and griefs."

Great as he was, masterful and resistless, even cruel in his methods, Bismarck had withal a keen human sympathy and hid beneath his grim exterior a heart susceptible to the common pangs of mankind.

Bismarck was very fond of animals. When his favorite dog Sultan was poisoned in 1877, he watched beside the poor brute with the greatest solicitude. His son Herbert endeavored in vain to lead him away. When the dog was dead, the prince said:

"Those old German forefathers of ours had a kind religion. They believed they would meet again in the celestial hunting grounds all the good dogs that had been their faithful companions in life. * * * I wish I could believe that."

The Germans like to quote many of Bismarck's best sentences as "winged words." Here are some of them, and in one sentence occurs the famous phrase that gave him the title of "the man of blood and iron:"

The gift of eloquence has done a great deal of mischief in parliamentary life. Eloquent speakers are like a good many gentlemen with small feet who always wear shoes too small for them and stick out their feet to be looked at.

My ideal is Robert Bruce, in the story of the spider, who was steadfast in courage to do his best for the fatherland in spite of the gloomiest prospects.

The great questions of the day are not settled by speeches and decisions of majorities—that was the mistake of 1848 and 1849—but by blood and iron. (1882.)

Much harm may be done in a year and a half, but in so short a time how little of good can be accomplished! (1871.)

EMPEROR WILLIAM II.

Bismarck was a man of many superstitions. Of the number 13 he is said to have stood in mortal terror, and many were the signs and portents by which he regulated his daily conduct, both as to his official and his private affairs.

Although, thanks to his excessive consumption of beer and his hearty eating, he was for many years extremely stout—even to obesity—during his later life he is reported to have been slender almost to gauntness. This he owed to Dr. Schweninger and the rigid self denial this physician induced him to practice.

Far Seeing People . .

Are the most successful. They advertise in the Quincy Daily Ledger, the only daily in Norfolk County; and the Quincy Patriot, the only weekly in the city.

CROP BULLETIN.

Vermont and New Hampshire Farmers Complain of the Drought.

Boston, Aug. 2.—Owing to the protracted drought in New Hampshire and Vermont, it is reported that all crops in those states are suffering for want of rain. Early potatoes are a short crop on account of the dry weather, and corn and late potatoes are in danger. There is still considerable grass to cut. Apples are light; in some sections there are none.

In remaining portions of the district the weather of the past week was excellent for growing crops. Showers were frequent, in some sections of daily occurrence. Lincoln and Oxford counties are the only ones in Maine where the need of rain is felt; the others report "growing weather." The rainfall and the high temperature have been productive of rapid, in many instances phenomenal, growth. All crops have advanced rapidly. Corn is very promising. The sweet variety is now being marketed in parts of Massachusetts, Rhode Island and Connecticut, and fodder corn is nearly ready to cut. Potatoes promise a good crop, though there is some complaint of blight and rust, due to the excessive moisture, especially in Rhode Island and Connecticut.

The showers and the atmosphere have caused a standstill in haying. Considerable of the crop is yet to be secured. The reports of the tobacco crop are favorable; it is in good condition and growing rapidly. The prospect for cranberries seems fairly encouraging, and the general opinion favors an average crop. The season is a week to 10 days late.

Early apples are plentiful in parts of Massachusetts, Rhode Island and Connecticut, and are now ripe. Winter varieties are an average crop in some parts of these states and in parts of Maine, but taking the district as a whole the crop will be light—not sufficient for local consumption.

Out on the water in the moonlight. A more beautiful or romantic situation for a young man to tell the story of his love and ask the young woman of his choice to share his life cannot be imagined.

The courtship of a young couple may be ever so romantic and their married life be very unhappy. There are common sense considerations outside of love that have a world to do with the making of married happiness. One of the most important of these considerations is the good health of both parties to the sacred tie. The young man who is in the incipient stages of consumption commits a crime if he marries before he is restored to health. He condemns his wife to the life of a nurse and his children to early death, or lives of sickness and suffering. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption if taken in its earlier stages. This is its record established during the past thirty years. It is the great blood-maker, flesh-builder, nerve-tonic and general restorative.

The young woman who suffers from weakness and disease of the delicate and important organs that make wifehood and motherhood possible has no right to answer "Yes" to a young man's proposal until she is thoroughly restored to health in a womanly way. Dr. Pierce's Favorite Prescription prepares a woman for wifehood and motherhood. It makes her strong, healthy and vigorous where a woman most needs health, strength and vigor. Thousands of women have testified to its merits.

"My daughter," writes Mrs. N. A. Thomas, of Little Rock, Ark., "had been under a doctor's care for four years. Dr. Pierce's Favorite Prescription, which cured me, also cured her."

Mortgagee's Sale of Real Estate.

BY Virtue of the pow r of sale contained in a certain mortgage deed given by Frank A. Noyes to Ella Sheldon Rogers of Boston, in the County of Suffolk and Commonwealth of Massachusetts, dated February 18th, 1897, and recorded with Norfolk Deeds, Libro 779, Folio 516, and by said Ella Sheldon Rogers assigned to Charles C. Barton, Jr. by assignment dated July 14th, 1898, and recorded in said Norfolk Deeds, for breach of the conditions thereof and for the purpose of foreclosing the same, will be sold at Public Auction on or near the premises on THURSDAY, August 11th, 1898, at two o'clock P. M., all and singular the following premises as described in said mortgage d ed, viz:—

"A certain parcel of land with the building thereon in that part of Quincy in said County of Norfolk called "Montclair" and being lot numbered forty-five (45) as shown on a plan made by H. T. Whitman, Surveyor, dated March 16, 1892, and recorded with Norfolk Deeds at the end of Book 664. Said lot of land is bounded and described as follows, viz: Northerly by part of lot numbered forty-four (44), forty-five (45) feet; easterly by land of owners unknown, seventy-five (75) feet; southerly by Squantum street, forty-five (45) feet; westerly by lot numbered forty-six (46), seventy-five (75) feet; and containing three thousand three hundred and seventy-five (3,375) square feet of land."

Two hundred ($200.) dollars to be paid at the time and place of sale, the balance within ten (10) days at the office of Charles C. Barton, Jr., 82 Devonshire street, Boston, Mass.

C. C. BARTON, Jr., Assignee
and present holder of said mortgage.

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.35 A.M. and every half hour until 10.35 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.10 A. M. and every half hour until 10.10 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

QUINCY DAILY LEDGER.

VOL. 10. No. 179. QUINCY, MASS., WEDNESDAY, AUGUST 3, 1898. PRICE 2 CENTS.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

QUINCY CLOTHING CO.,

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

END IS NEAR.

First Stage In Peace Plans Passed.

Spain's Acceptance of Conditions Reported.

No Abatement In the War Arrangements.

Such Action Believed to Be a Measure of Caution.

Washington, Aug. 3.—A prominent official said this morning: "The end is near in my opinion. The information thus far received is unofficial and meager, but that it is accurate, in the main, we have no reason to doubt. In fact, we have reason to believe it is correct."

It is understood that the reason referred to is contained in the private advices received by the president and dispatches received by representatives of foreign governments at this capital; still the president is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations were in progress. At a conference participated in by the president, Secretary Alger and Adjutant General Corbin at the executive mansion last night a decision was reached as to the constitution of the provisional corps for Porto Rico to be commanded by General Wade. Secretary Alger said that the corps might be en route to Porto Rico

GENERAL JAMES F. WADE.

within a week. Notwithstanding these preparations, however, the belief in official circles amounts almost to a conviction that active hostilities practically have been concluded.

The first step following Spain's acceptance of the terms proposed by this country probably will be towards an agreement to close active hostilities, pending the drafting of a treaty of peace along the lines of the accepted terms. According to precedents ordinarily regarded, an armistice would be proclaimed, and in the circumstances this would mean the practical close of the war. It is pointed out, however, that several precedents have been set aside by this government in the conduct of the war and in the treatment of events which led up to it. One notable instance in which recognized precedents were swept away was the personal demand made by Secretary Day upon Minister DeLome to know whether the Spanish minister was the author of the letter reflecting upon the president. Another precedent was relegated to the past when the government decided to return to Spain the prisoners taken with the surrender of Santiago. Precedents have been disregarded in other instances by this government. In view of this fact, therefore, precedent may not govern absolutely in the conduct of the peace negotiations.

After the proclamation of an armistice, diplomatically the next step would be the designation by the president of the commissioners to represent the United States in the conduct of final negotiations of peace. The terms proposed by this government provide for a joint commission to draft a peace treaty and to solve the difficulty relative to the future government of the Philippines. Again, according to the best accepted precedents, this joint commission would meet upon neutral ground. It has been suggested that the commission may assemble in Paris, but as yet that is the merest conjecture. The commission might meet in either of the belligerent countries.

Pending the conclusion of the work of the commission the probability is that the armies of both Spain and the United States will be kept in the field, their relative positions remaining unchanged during the negotiations. Here again, however, precedent may be put aside by the United States, but it is regarded as likely that this country will not withdraw any of the troops from the field until a determination shall have been reached of all questions in issue before the commissioners.

Special Legislation Unnecessary.

The military occupation of the territorial acquisitions of this government will not necessitate further legislation expressly authorizing the continuance of a large military force, according to the views of the president. Persons who conferred with the president positively assert that there is no necessity for special legislation to authorize the keeping together of the great volunteer army. The president, it is understood, takes the ground that the requirement in the volunteer act for disbandment of volunteers at the termination of war does not contemplate disbandment until the emergencies that are incident to the war are over, and does not prevent the maintenance of a large body of troops in our territorial accessions until order is restored. A well-known public man, who was in conference with the president, suggested that the necessary military occupation of our conquered territory would involve maintenance for two years of an army of about 100,000 men.

Conciliatory Spirit Shown.

Madrid, Aug. 3.—Indications are not wanting that President McKinley's proposals have been considered in a conciliatory spirit, with a view of arriving, if possible, at an immediate and pacific solution. All oracular declarations by official personages point in this direction. The latest of these declarations is the explanation given for maintaining unusual reticence, namely the danger of compromising the success of the negotiations and the desire to give proof of a sincere wish to arrive at a perfect understanding.

Here and at Washington the original assumption was that Mr. Cambon was to act merely as a "transmitting agency," but now he is frequently spoken of as if he were a sort of mediator between the two powers, using his good offices in favor of Spain. Whether this proceeds simply from a popular misapprehension of the procedure actually adopted and a natural desire to obtain extraneous support, or whether it indicates a real change of procedure so far as Cambon is concerned, the events of the next few days will probably show. At the present moment disinterested support cannot fail to be welcomed.

Disposition to Assent.

London, Aug. 3.—The Madrid correspondent of The Standard says: "The government's reply to the American terms was forwarded yesterday evening through Mr. Cambon, and there is a strong prospect that peace will be concluded. It is not to be supposed that the United States government will object to representations being made on the Philippines question and upon some pecuniary claims which were mooted by the United States in the West Indies. On all the remaining main issues Spain shows a disposition to assent to the American demands.

"With regard to the part played in the negotiations by Mr. Cambon there is now a marked tendency both here and in Paris to attribute to it considerable importance. Directly the final arrangement is made it is supposed that the press will be allowed more liberty of comment. The general impression is that both governments are disposed to put an end to the war as honorably as possible for Spain, which would have been easier had the United States not imposed such hard conditions with regard to the Philippines."

"No practical suggestion was made at the council yesterday for continuing the war or averting the penalties, already so painful and heavy, and all sections of the opposition will have to acquiesce in what the government negotiates with the United States."

Mails For Porto Rico.

Washington, Aug. 3.—Postmaster General Smith has issued an order modifying a former one prohibiting the dispatch of mail to Spain or her dependencies so as to permit postal communication with Ponce, Porto Rico. The order is similar to the one opening communication with Santiago, and provides that all classes of mail allowable in the domestic mails of the United States may be sent to and from Ponce. All articles included in the mails are to be subject to military inspection. The postage rates are similar to those provided for Santiago, namely: First-class matter, 5 cents per half ounce; postal cards, single, 2 cents, and double, 4 cents; second and third-class matter, 1 cent for each two ounces; fourth-class matter, 1 cent for each ounce; registration fee, 8 cents.

CHARLES EMORY SMITH.

Orders have also been issued directing that all mails for the army and navy at Porto Rico be dispatched from the Washington, D. C., postoffice. Mail for the army should be addressed "Military station, No. 1, Porto Rico, via Washington, D. C.," and the address should include the company and regiment.

To Go to Manassas.

Washington, Aug. 3.—Camp Alger is to be abandoned, and the 20,000 men there are to be moved to a more healthful location near Manassas, Va. This determination was reached by Secretary Alger as a result of recommendations made to him by the surgeon general, who believes in frequent changes in camping grounds of large bodies of men, and because of the rapid spread of and constantly increasing mortality from typhoid fever.

Manassas is about 10 miles south from Washington, is near a mountainous country, and the town proper is in the line of direct communication with the capital city. The troops will be scattered over a wide area, and as far as practicable will be kept in brigades. The start from Camp Alger is to be made as soon as possible, and the trip will be in light marching order, giving the troops practical experience in army movements.

The understanding now is that the camp is to be but a temporary one, but just how long the troops are to remain there is not stated. Some of the Camp Alger regiments will be selected for Porto Rico, but the expectation is that all will first go to Manassas. The following regiments and organizations are now in command of Major General Graham: First New Jersey, Seventh Ohio, Sixty-fifth New York, battalion of the Ninth Ohio, Third Virginia, Twelfth Pennsylvania, Thirteenth Pennsylvania, One Hundred and Fifty-ninth Indiana, Twenty-second Kansas, Third New York, Sixth Pennsylvania, Fourth Missouri, Seventh Illinois, First Rhode Island, Third Missouri and Second Tennessee.

No Sign of the Enemy.

Ponce, Aug. 3.—An outpost of the American army is halted at Coamo, about two-thirds of the way to Aibonito, on the road to San Juan. A detail sent out to reconnoitre reported that there was no sign of the enemy. The latter, it was said, had retreated to Aibonito.

A delegation of the citizens of Coamo came out, and Colonel Hulings was tendered the freedom of the city as an American soldier. The citizens reported that the Spanish had carried away all the money that was not secreted. The stories of barbarities have been greatly exaggerated. There is no authentic case of destruction of private property or outrage upon women.

Boston Opinion.

Boston, Aug. 3.—To The Advertiser "it does not seem likely that the concessions made by the administration in any case will be of much real importance, but they may have such apparent significance to the Spanish people that the latter will cheerfully accept peace when the terms are finally settled."

The Post says: "It is a farce which circumstances compel the Spanish ministry to play, and we can afford to give them a few days in which to play it, certain as to what the denouement will be."

Women Without Food.

Boston, Aug. 3.—Two women were found nearly starved to death, lying on two beds in stifling and ill-smelling rooms on the second story of a house in Charlestown last night—Mary Patterson, 42 years old, and her widowed mother, Bridget Burke, 70 years old. John Patterson, the husband, disappeared about three weeks ago, and has not been heard from since.

The wife and mother-in-law were left penniless, and were compelled to sell household effects to secure food during the first week of the husband's absence. For the last two weeks they have practically been without food. The neighbors saw nothing of them since last Saturday, and notified the police last night.

Sergeant Thayer and Patrolman Acton found Mrs. Patterson and her mother in a semi-conscious condition. Dr. Gunter was called and after making an examination declared that the women were very nearly starved to death. It was his opinion that they had been without food for several days. Medicine and nourishment were at once procured. Both women were so weak that it was with difficulty that relief was administered.

Postmaster General's Excuse.

Washington, Aug. 3.—The postoffice department has filed a demurrer to the bill asking that the postmaster general be restrained from annulling a contract for supplying envelopes awarded to the Purcell Envelope company of Holyoke and giving it to another company. It is contended that the Purcell company has no standing in a court of equity, and that its remedy, if it has one, is to be found in a suit for damages in a court of law.

The department admits that the Purcell company was awarded the contract, and that it was duly executed. The department, however, did not complete the instrument by having the signature of the postmaster general attached. After careful inquiry and consideration the present postmaster general, the demurrer says, found that the Purcell company was unable to fulfil the terms of the contract, and decided to annul it and readvertise.

MUNICIPAL PROBLEMS.

Boston Professor's Ideas on the Subject of Selfgovernment.

Best Policy For Regulating the Saloons.

Working of Prohibition and South Carolina's Dispensary System.

Detroit, Aug. 3.—Some 500 city fathers and officials attended Tuesday's session of the League of American Municipalities. The feature of the session was an address upon selfgovernment for cities by Frank Parsons of Boston university, president of a league for promoting public ownership of monopolies. Professor Parsons held that the principle of self-government as applied through our present laws is deficient in four respects—in area, because while the state is self-governed the municipality is the creature of the state's enactments, and consequently every other city in a state is obliged to be consulted about what any particular city chooses to do; deficient as to class distinction, since women, although a part of the people, are not yet permitted to participate in the people's selfgovernment; that the principle of selfgovernment is not applied to industrial as it is to political life, the speaker urging that workmen ought to have a part in the government of their own respective groups in industrial lines; that the selfgovernment principle is not complete as to method, since the people are masters only during election times, while their public servants hold the sovereignty for the balance of their terms.

The remedies, according to Mr. Parsons, are the initiative and referendum, woman suffrage, co-operative industries instead of monopolies, and entire self-government for cities free from state control.

Questions of policy concerning regulation of saloons developed an interesting discussion. The principal address on this topic was by Mayor George R. Perry of Grand Rapids. He favored permitting saloons only in the business part of a city, and the taxing and regulation of clubs and saloons alike.

Mayor F. B. Farnsworth of New Haven stated that his experiences had absolutely convinced him that prohibition never did prohibit. Concerning the agitated question of drinking of Yale students, he assured the fathers present that a boy who would go to the devil by way of New Haven would probably go anyway.

Mayor Smythe of Charleston outlined the workings of the dispensary system. He claimed there was more drunkenness in South Carolina under said system than formerly.

Professor Parsons gave the following as a sort of formula for annulling the evils of the liquor traffic without interfering with personal liberty: Education of children along temperance lines; industrial reforms to enable all men to have comfortable homes; local option for cities; enact the South Carolina dispensary or a similar law which should cut out the element of private investment and profit in liquor dealings.

NEWS IN BRIEF.

A private dispatch in Madrid from San Juan says that 2000 volunteers have surrendered to the Americans.

The reception at the governor's mansion to Lieutenant Hobson was one of the most remarkable demonstrations ever witnessed in Atlanta.

The patrons of the Southern Express company in Georgia will not in the future be required to pay for the revenue stamps affixed to the bills of lading issued by the company.

The James A. Garfield arrived at Gloucester yesterday with her flag at half mast for Harry Goodwin and Thomas Hackett, two of her crew, who went astray in the fog.

A terrible fire broke out yesterday in the reservoirs of the Dunkirk, France, petroleum factory. There were three explosions, by which one person was killed and three were seriously injured.

Five men were badly burned by an explosion of gas in the Parrish colliery at Plymouth, Pa. It is thought all will recover with the exception of one, who is seriously burned about the face and body.

There is nothing new in the curtailment situation in Fall River. The prospect for the success of the movement is less than at this time last week. The print cloth market is unchanged at 2 cents.

Adjutant General Corbin, at the direction of the secretary of war, has issued an order granting sick and wounded soldiers at hospitals, when able to travel, one month's furlough and transportation to go to their homes.

A heavy rain did serious damage to property and crops in Sullivan county, N. Y. Many bridges were carried away. The Methodist church at Mountaindale was struck by lightning and burned to the ground.

The Fifth Illinois infantry, which has heretofore been twice ordered to the front and as many times ordered back into camp, received final orders from the war department yesterday afternoon to proceed to Newport News, there to report to Brigadier General Grant for embarkation with his brigade for Porto Rico.

A sensation was created yesterday in Berlin by the emperor, who telegraphed countermanding the Bismarck obsequies which were to take place in front of the parliamentary building, and ordering instead that mourning services be held in the Emperor William Memorial church. The tradespeople and artists who had taken orders in connection with the former were disappointed.

C. B. Underwood—Dentist.

Good Afternoon.

We have no doubt but everyone who has had a chance to use the Shawmut Spring water, has found it the best water ever sold. It is not only cold and pure, but it is so attractive that one delights to drink two or three tumblerfuls at a time and the more he uses, the more healthful and buoyant he is. Good pure water costs much less than medicine and is much more pleasant to the taste. See the notice of Mr. Marr of Boston, in another column, who has been using the Shawmut Spring water the past year.

Curfew Law.

The curfew ordinance has gone into effect in Cambridge and Chief Cloyes has instructed the members of the force to pay particular attention to the enforcing of this law, but has cautioned them to be careful not to overstep their authority in any case. The first step that the police will take toward any children found disobeying this law will be to warn their parents. If the warning is not heeded, and the children are again found on the streets after 9.30, the matter will be brought before the court, and they will be obliged to suffer the penalty provided by the law.

Inspection of Hospital Ship.

The many contributors, both of money and supplies, to the fitting out of the hospital ship Bay State, will be glad to know that an opportunity will be given them to visit the ship for a few days before she starts for the South. It has been decided, on account of the interest manifested by the public in all that pertains to the vessel, to allow visitors on board of her between 5 and 6 P. M. today and tomorrow. The time for permitting this public inspection is short, as the committee in charge do not wish to delay the work in the least, and the hour set is the only time when the workmen would not be interfered with. The Bay State is still at the Atlantic Works in East Boston.

Gas Report.

The Citizen Gas Light Company has recently filed at the State House the following returns:

Assets: land, water power and buildings, $9,500; street mains, etc., $53,861; cash and debts receivable, $2,381; manufactures, merchandise, etc., $1,568; balance profit and loss, $6,147; total, $73,457.

Liabilities—Capital stock, $33,000; debts, $40,457; total, $73,457.

—Rev. Joseph Osgood, one of the oldest Unitarian clergymen in the country, died on Tuesday at his home in Cohasset. He was in his 83d year and had been minister over one parish for 57 years but had not preached for three years.

DISSOLUTION OF PARTNERSHIP.

THE Co-partnership heretofore existing by and between Andrew Milne and George Chalmers, under the firm name of Milne & Chalmers, is this day dissolved by mutual consent.

The business will be conducted by Andrew Milne under the same firm name, and he will collect all debts payable to and pay all bills outstanding against said firm.

ANDREW MILNE.
GEORGE CHALMERS.

Quincy, Mass., July 30, 1898. 1-3t

PLEAD GUILTY.

Robert Bissett Confesses to Five Burglaries.

Robert Bissett, the young fellow arrested Tuesday on suspicion of being the party who has been making the numerous breaks in Quincy, was brought into court this morning, when he was confronted and arraigned upon five complaints charging him with breaking and entering.

As one complaint after another was read the young man began to turn pale and cried out "If I have to serve two years on each I shall be gray haired before I get out." He then sat down in the cage and refused to stand up and hear the remaining warrants read, and it was necessary for Officer Ferguson to enter the cage and hold him up.

Bissett pleaded guilty to all of the complaints and was held for the grand jury, the aggregate amount of the bonds being $700. As he was unable to get bonds he was committed.

The several complaints were as follows: Breaking and entering the store of Frost Bros., and the larceny of $5; store of L. M. Pratt & Co., and the larceny of $5; the store of G. F. Wilson and the larceny of five pies and five cakes valued at $1, the store of Boynton & Russell and the larceny of $2 and the store of F. H. Crane & Sons and the larceny of a revolver valued at $5.

Quincy High School.

The varied nature of the work done at our Quincy High School may be understood from the fact that one pupil Mr. George R. Lewis is to enter Harvard in the autumn; four pupils, Miss Bemis, Miss Durgin, Miss Forrest, and Miss Williams, are to enter Boston University, one pupil, Miss Florence M. Osborne, is going to Wellesley; Miss Caroline Brown is going to Vassar; Mr. A. H. Briggs and Mr. Nathaniel A. Thayer are to enter the Institute of Technology, Mr. C. L. Baker is to go to Tufts College, and several pupils are to attend normal schools. Others will engage in business.

One explanation of the unexampled popularity of the High School is the fact that it is not restricted to one kind of work but affords excellent opportunities for pupils desiring very different courses of study.

A Strong Endorsement.

The following letter has been received by Mr. F. J. Fuller, proprietor of the celebrated Shawmut spring water. It is but one of many such letters:

Boston, July 15, 1898.

Mr. F. J. Fuller:

Dear Sir—I wish to let you know what effect the liberal use of your Shawmut Spring Water has had on me. Some 15 months ago I was troubled with dispepsia and indigestion. I took but little notice of it at first, thinking it would be better soon, but I found I was growing worse I had lost my appetite and could eat no solid food without distress and a deathly sickness in my stomach. I was obliged to confine my eating to cereals and extracts. I was under medical treatment all the time, with no good results. I lost 40 pounds of flesh, became very weak, and had about given up life when I met you and decided to try your Shawmut Spring Water. I have used it freely now for six weeks and there is a wonderful change in my condition. I am eating all kinds of food with a good appetite and relish and without the slightest distess. I must attribute the change wholly to the use of Shawmut Spring Water as I have taken no kind of medicine since I commenced to drink it. It has done for me what the best of medical advice and treatment has failed to do, and I shall continue to use it in my family as a table water as I consider it superior to all others.

I give you permission to use this letter as you like as a testimonial, and I would say that it is wholly unsolicited on your part.

I remain yours with respect,
L. M. MARR.

Burgess street, Boston, Roxbury District.

—It is said that the Boston, Milton & Brockton street railway will be begun at once, and that it will probably be ready for operation in a few weeks. If it proves true that the line is to be completed and running, the route will be over the old Brush Hill turnpike once the most direct road to Boston before the railroads retired the stage coaches. It is more than fifty years since public travel sought this road to the Hub but it will take the traveler over a most charming and somewhat romantic country which by reason of its isolated situation has remained nearly unknown to the traveling public.—Rockland Standard.

DIED.

Adams snare drum Chelsea; Joseph Kelly bass drum, Newton; William Purcell, Jamaica Plain.

Some cook houses are complaining at the non arrival of rations.

An incident which many of the regiment regret is well put by the Herald correspondent who writes: The regiment has achieved fame among the people of South Framingham for the gentlemanly actions and appearance of its men on the street of the town. It is hoped this good impression won't be disturbed by the action of a member of one of the companies Monday night. Being down town on leave, he paid a visit to the armory of the provisional company of the militia recently formed here. Tiring of this amusement, after a while, his eye alighted on a wheel belonging to one of the members and not wanting to walk back to camp he took the machine and rode home, Tuesday afternoon he was arrested and will be tried by the civil authorities for theft.

Corp. Joseph H. Hall of Co. I is now on duty at the post exchange.

The request of Gen. Merritt for 30,000 more men for the Philippines has revived the hope of some that the regiment may be ordered to the island in the Pacific.

Quincy friends are always welcome at camp. We hope to see more from the "City of Presidents."

TODAY'S COURT.

Robert Bissett of Quincy, for breaking and entering and larceny, pleaded guilty on five complaints, and was held for the grand jury.

Thomas F. Lonergan was arraigned for assault on Margaret F. Ford at Weymouth and was fined $20.

James Raymand was arraigned for bastardy at Quincy and was held in $500 until August 17.

BARROWS AGAIN.

A Contest Probable For Congressional Nomination.

The Globe is trying to create a feeling against Congressman Barrows of this district to prevent his renomination. It says, The tenth district is one of the few in this state which are doubtful. Not only is the strength of the two parties nearly equal, but the district contains a large number of independent voters who are not absolutely bound by party ties and who may be in control at any particular moment.

The Globe admits that the principal thing against Congressman Barrows is the fact that he appointed Charles L. Hammond as postmaster of Quincy. If this is all, the Congressman is sure of a re-nomination. The appointment has united the Republicans of the city, as shown at the election last fall, and Mr. Hammond is giving excellent satisfaction as postmaster. Mr. Hammond was an earnest worker for Mr. Barrows after the nomination, and his friends will undoubtedly support him this year. As between Barrows and Atwood, Quincy is for the former, but some Quincy man may be preferred to either.

The Globe says, "The democrats are almost as badly off as the republicans when it comes to the selection of a candidate. Ex-Alderman Bordman Hall who was Mr Barrows' opponent two years ago, would like the nomination again, but he will have to make a fight for it.

"Torrey Wardner a well known newspaper man, has been brought forward and it is said that the city machine has promised him its support in return for favors done in the past and expected in the future. At any rate Mr. Wardner is a candidate.

"Charles F. Adams 2d, ex-mayor of Quincy, has also been talked of as a possible candidate. In his own city Mr. Adams has shown great strength as a vote-getter, and his ability and reputation command him to the independent voters of the district. It is said also that his nomination would be unobjectionable to the silver men, who appreciated the fact that he has not been an extremist on the financial question. Mr. Adams has just been elected treasurer of Harvard college, and it is doubtful whether he would care to give up that responsible position for the chance of going to congress.

"Hon. John B. Martin of South Boston may be a candidate. The McNary-McEttrick feud seems to be at an end so far as its influence on politics is concerned. Mr. McNary says that under no circumstances would he take a nomination for congress, and ex-Congressman McEttrick absolutely refuses to discuss politics.

HUMOR OF THE HOUR.

"Before I went west," remarked the man who had just returned, "I had heard a good deal about western hospitality. It is there all right enough, although at one time I came near thinking otherwise.

"While I was there I had occasion to visit a former friend, and while driving out where he lived I noticed that a bolt on my wagon had become loose. While I was examining it a native came along. The horses I was driving were spirited ones, and not daring to leave them and seeing I would need a monkey wrench I asked the newcomer if he would go to the house near by and see if he could borrow one for me. As a further inducement I exhibited a 25 cent piece.

"'I'd like ter oblige ye, stranger,' replied the native earnestly as he looked longingly at the money I held out, 'I really would. But, ye see, I've gone out of the accommodation bizness.'

"'Why?' I asked bluntly.

"'Waal,' he answered as he shifted uneasily on his feet, 'last week I wuz comin along this yere road when I met a neighbor of mine. "Bill," said he, "I wish ye would go up ter my house an see if my wife is thar." Waal, I like ter be accommodatin an all thet, so I went. Right thar wuz whar I made a mistake, fer no sooner wuz I at the door than I wuz hit with a mop handle, a skillet, three iron pans an a few other things thet I didn't hev time ter take any notice of. Of course she 'pologized when it wuz all over, sayin thet she thought I wuz her husband, but I can't see how thet made matters any better fer me. Thet's how things stand, stranger. I'd really like ter accommodate ye, I really would. Maybe it's jes' as ye say it is an it ain't nothin but a monkey wrench thet ye want, an then maybe yer wife lives up thar an ye wish ter find out whether she is on the warpath or not. I can't afford ter take any chances. I'm a married man myself. But if ye want ter go up thar I'll go with ye an stand out in the middle of the road an lend my moral support.'

"I concluded to risk the loose bolt and rode on."—Detroit Free Press.

—John McCann has been arrested at Dedham for incendiarism. He is reported to having confessed to setting fire to a barn on the Curtis Chamberlain estate.

☞ Don't wait for paint and whitewash, those are to be put on by the landlord, but come right in and secure some of our unheard of bargains before they are all gone. People are talking about peace with Spain. That will come anyway but the bargains at Gus Bates' store are going—going.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Sultry weather is predicted.

First of the Corinthian races at Marblehead today.

A patent was issued to Joseph Lizotte of this city this week.

Mr. Chandler W. Smith of Wollaston is at North Falmouth bluefishing.

Among the bequests of the late John Federhen, is $250 to the Point church.

The court room entrance to Adams building is having a new set of swing doors.

Miss Florence Emery of Quincy is visiting friends at South Harpswell Maine.

Lack of wind prevented a race of the Burgess yacht club at Marblehead Tuesday.

W. W. Jenness, Esq., was admitted to practice Tuesday in the United States courts of Massachusetts.

The District Court room has been a busy place since Saturday. The mill has ground out in the past few days more than twenty-two cases.

The members of Merry Mount Lodge are requested to attend the funeral services of their brother, John F. McCarty, at the Sacred Heart church, Atlantic, tomorrow, at 8 A. M.

Col. Mansfield caused the explosion Tuesday morning of three mines off Castle island in the harbor. It was about 1.30 o'clock and water was thrown nearly 100 feet into the air.

It would be impossible, we think, to find the sidewalk in some places on South street. It was built this spring, but the weeds have grown through the soft sand so thick, that the sidewalk is out of sight.

Rev. George Benedict, a former pastor at Quincy Point officiated Tuesday at the funeral services of John Federhen at his late residence on Washington street, which were private. There were several floral tributes. The interment was at Forest Hills.

A. G. Coffin, ticket agent at the depot, has a brother in Dawson city up the Yukon river. He had a letter from him a few days ago, and he says that a man must be physically strong to go there, and he has seen 75 people killed in a snow slide since he has been there.

Central Passenger Association lines will make a rate of one fare for the round trip for the meeting of the sovereign grand lodge, Independent Order of Odd Fellows to be held at Boston, Sept. 19 to 24. Tickets will be sold Sept. 16, 17 and 18, with return limit to Sept. 30.

J. D. Howe, M. D., of Wollaston, left today to assume charge of the Y. M. C. A. tent in the Eighth Massachusetts at Chickamauga. W. J. B. Oliver of Dorchester and James McBlean of Hyde Park, who were previously in charge, are in the hospital with malaria fever.

Mr. Frank F. Crane has sold the catboat, "Dorothy," which he has owned for some time, to Mr. J. F. Sholes of South Weymouth, and has bought a Hanley boat which will also be christened "Dorothy" The new Dorothy is 20 feet 3 in., overall; 19 feet 5 in., l.w.l.; and 9 feet, 6 in., beam.

Mr. E. B. Glover has recently bought a large cat boat, the "Say When" of Boston. She is 29 feet, 6 in., overall; 24 feet, 6 in., l. w. l; 11 feet beam, and draws 3 feet, 6 in. She was built by Prior of South Boston in 1894 and is elegantly fitted out. Her interior furnishings are way beyond anything seen in the average yacht.

The Dedham Base Ball club visited Fort Warren on Saturday and played the Fort Warrens, consisting of the best players of the artillery boys stationed there. The visitors were entertaind in the best of shape. The Dedhams will give the soldier boys a return game on Stone park, Dedham, Saturday, and entertain them after the game.

It was a delightful evening last night, and hundreds were out on their lawns, on the steps, and on the stone walls. It was quite amusing as we rode along on our quiet bicycle to see eight or ten couples cooing on the stone wall from Elm street to the new road on South street. They were leaning against one another and looking intent at the man in the moon.

Mayor Quincy of Boston is opposed to the ringing of bells at sunrise on holidays and vetoed an order passed by the city council. The order has been passed over the veto. Mayor Quincy evidently likes a morning nap for he stated in his message that he had no objection to the ringing of bells at noon and sunset, but it seemed to him that the ringing of bells at sunrise was a relic of barbarism, and that there could not be any sufficient public demand for it to justify the disturbance which it causes.

3 O'Clock.

NOT OFFICIAL.

Government Not Notified of Acceptance.

Washington, Aug. 3—Secretary Day stated at 10 o'clock this morning that no official acceptance of the peace terms had been received from Spain.

News Expected.

Washington, Aug. 3, 2 P. M.—President McKinley and Secretary Day both state that no official news has been received from Spain, but they are expecting some. The feeling in administration circles is that Spain will accept the terms of peace.

In Their Country's Service.

Quincy now has over 100 men enlisted as soldiers and sailors in the war, the following being in addition to those enrolled with Co. K, 5th Mass Regiment U. S. Volunteers :

Edward A. Bumpus, commissioned 2d lieut. U. S. A.
Henry W. Sprague, commissioned 2d lieut. Signal Corps, U. S. A.
Harry H. Sheen, commissioned captain of Co. A, 4th Regt., Virginia Vols.
Howard D. Hunt, Co. H, 1st Colorado Vol. at Philippines.
Charles Rinn, 8th U. S. Cavalry at Cuba.
John S. Odom, Co. M. 8th Mass. Vols.
William S. Moore, U. S. S. Columbia.
John W. Westfall, Navy.
John Boyd, 9th Mass. Vols.
John Berry with Springfield company in 6th Mass. Vols.
James P. Clarke, sergeant 9th Mass. Vols.
Edward S. Ago, 9th Mass. Vols.
Edward Bowlen, 9th Mass. Vols.
Patrick Quill, 9th Mass. Vols.
Frank O. Dean, Mass. Heavy Artillery.
Joseph J. White, H. A., at Portsmouth, N. H.

Who will add to the list? The Ledger hopes to hear often from the Quincy soldiers and sailors, and will gladly pay postage on receipt of letters.

Sig. Crispi when in Rome has an escort of 29 police officials, for which Italy pays $12,500 a year. Whenever he leaves the city, the cost of guarding him is increased three or four fold.

In one Kansas town a citizen is campaigning against Sunday evening church services on the ground that the heat and bugs will damn more souls than the religious exercises will save.

The Austrian empress Elizabeth, amused herself while in Naples recently by buying up the entire stock of a toy store and distributing it among a crowd of delighted children.

Put sugar in water used for basting meats of all kinds; it adds a flavor especially to veal.

Dipping the flag is lowering it slightly and then hoisting it again to salute either a vessel or a fort.

A flag of truce is a white flag displayed to the enemy to indicate a desire for a parley or consultation.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

TIE GAME.

Darkness Stopped the Boston-Louisville Game In the Twelfth.

Louisville, Aug. 3.—The Louisvilles, by a combination of good luck and superb work in the field, converted what might have been a victory for the Bostons into one of the most stubbornly fought and best played games ever seen in Louisville at League park yesterday afternoon. Replete with plays of the sensational kind, in which the players of both teams participated, and characterized by an exhibition of pitching almost unsurpassed, to say nothing of a display of temper on the part of Harry Davis, Louisville's first baseman, the spectators were furnished all the excitement incident to the national game with a few extras thrown into the bargain.

It was Nichols against Magee, and right royally did both men attend to the work on the slab. Both runs were scored on a base on balls, but in Louisville's case, it looked as if Dexter should have been retired on strikes, but Bostons' protests availed nothing, and the right fielder got around to the home plate with the run that prolonged the game almost into darkness. Then it had to be called after 12 innings with each club having a run to its credit. Score:

Louisvilles.	AB	R	1B	PO	A	E
Clarke, l. f.	5	0	1	4	0	0
Hoy, c. f.	5	0	1	1	1	0
Dexter, r. f.	4	1	0	0	0	0

Nichols, p.	2	0	1	1	3	0
Totals	36	1	6	*35	17	2

Louisvilles .....0 0 0 0 0 0 0 0 1 0 0 0—1
Bostons .....1 0 0 0 0 0 0 0 0 0 0 0—1

Stolen bases—Clingman, Duffy, Dexter. First base on balls—Off Magee, 4; off Nichols, 1. Struck out—By Nichols, 3. Sacrifice hits—Tenney, Nichols. Double plays—Wagner, Ritchey and Davis; Clingman, Davis and Kittridge. Hit by pitched ball—Collins. Time—2:20. Umpires—Gaffney and Brown. Attendance—1200.

Tuesday's game in Montreal was a pitchers' battle. Souders was more effective at critical moments. The Providences lost whatever opportunities they had of scoring by reckless running. Score: 2 to 0.

But for two misjudges of fly balls by Steinfeldt the Cincinnatis would have won from the New Yorks yesterday, for Rusie was hit hard. Score: 7 to 5.

The Clevelands easily defeated the Philadelphias, 9 to 1. Cuppy pitched great ball, and the Clevelands fielded brilliantly. The Phillies played poorly.

The Pittsburgs errorless game shut the Washingtons out. Wrigley's wild throw was responsible for one tally, and two hits brought in others.

Mike Tiernan has made only three errors out of 107 chances, and Mike Griffin has made only four out of 293, and of these only one has been made in the last 61 games.

Brooklyn entered the league in 1890, and since that year the Pittsburgs have played 68 games in that city and won only 15. They lost 51 games, and two games, one in 1894 and the other in 1896, ended in ties. In the last four years the Pittsburgs have won only five games in Brooklyn and lost 19.

Pitcher Carrick, who jumped the Newark club to join the New Yorks, has been suspended by President Barrows of the Atlantic league. As Carrick is under contract with the Newark club he will be prevented from playing with Freedman's team.

Not content with pugilists as attractions the Atlantic league clubs are using some of the famous female ball players. Lizzie Arlington pitched four innings

Want the Agreement Carried Out.

Pittsburg, Aug. 3.—If the coal operators of the Pittsburg district do not conform with the terms of the Chicago agreement by Aug. 10, 5000 miners will be ordered to strike. This is the decision of the convention of United Miners of this district now in session. A series of strikes is to be inaugurated in the Youghiogheny district, the third pool, and if it is at all possible the New York and Cleveland Gas Coal company will be compelled to pay a penalty for mining coal at a rate lower than that provided for in the agreement.

"We are not anarchists nor chronic disturbers, but our organization is determined to see the terms of the Chicago agreement enforced," said National President Ratchford. "By a strike I do not mean that there will be bloodshed and all that sort of thing, but a peaceable fight for the enforcement of the agreement."

A 5 percent levy to pay the expenses of the strike was ordered.

Kicking That Paid.

New Bedford, Mass., Aug. 3.—A meeting of the telephone subscribers was held at the city hall last evening to protest against a proposed increase in rates from $36 and $48 for unlimited service in houses and stores respectively to $48 and $60. It was announced that the Southern Massachusetts Telephone company had decided not to make the advance which had been announced. It is reported here that the New England Telephone company is to buy the Southern company.

Corbett Still Asking.

New York, Aug. 3.—James J. Corbett has posted $2500 at the office of a morning paper for a match with Bob Fitzsimmons or Jim Jeffries. In his letter authorizing the deposit of the money Corbett says: "If I defeat McCoy at Buffalo I shall expect Fitzsimmons to show a disposition to make a match. If he is unwilling the $2500 goes for Jeffries, and if I defeat Jeffries I do not see how Fitzsimmons can decline to meet me."

ALMANAC, THURSDAY, AUG. 4.
Sun rises—4:40; sets, 7.
Moon rises—8:08 p. m.
High water—12:45 noon; 12:45 night.

Partly cloudy to cloudy, warmer weather, with moist, oppressive atmosphere, is indicated for New England. Local showers and thunderstorms prevail in sections west of here and are likely in New England Thursday; variable winds.

NORTHEASTERN NEWS.

Drunken Brute Maltreats His Employer's Wife.

Turned Savagely Upon Her Aged Rescuer.

From a Bridge to Oblivion---Little Lives Crushed Out.

Lowell, Aug. 3.—Patrick Eagan is in a hospital suffering from terrible wounds on his head and body. When first brought to the hospital from Dracut it was thought he had but little chance of recovery; today the house surgeon said Eagan will not die. One of Eagan's wounds opened the skull. He has a bad cut on the left arm near the elbow, one of his fingers is broken and he has serious lacerations upon the head from the bites of a bulldog.

Patrick Davis, a farmhand, is under arrest charged with inflicting the wounds upon Eagan's head and arm and with setting the bulldog upon him. Davis is 31 years old and has been employed by a family by the name of Chase in Dracut for about 14 months. Davis had an altercation with Mrs. Chase and assaulted her. Eagan was attracted by the noise and ran to Mrs. Chase's assistance.

Davis is alleged to have used a hoe upon Eagan and urged a bulldog to bite him. The breast of the former appears as if he had been dragged on the ground, as blood and dirt are ground into his skin. The left side of Davis' head was injured by a blow and the skin is torn from his left hand. He says he resented Mrs. Chase growling at him, until struck with a hoe. He then caught the hoe and defended himself. Davis made no attempt to escape arrest.

Suicide of a Shoemaker.

Pawtucket, Aug. 3.—Edward Chalk, 40 years of age, jumped from a bridge into the Blackstone river Monday night. His body was found last evening. There was considerable speculation as to whether the man jumped off the bridge or not, as several persons reported. The police dragged the river, and found the body. Chalk was a shoemaker, and had been in ill health.

Little Ones Slain.

Bridgeport, Aug. 3.—Two trolley fatalities took place in this city last evening. The 4-year-old son of Otto Monkes ran directly in front of a car while playing and was instantly killed. Marguerite Korwin, aged 5 years, was also killed in the same manner.

Says Process Is a Fraud.

Lubec, Me., Aug. 3.—No attempt has yet been made by the directors of the Electrolytic Marine Salts company to make a test of the Jernegan secret process, and Director Pierson said he saw no reason why any should be made. He is convinced that the process is a fraud. Pierson made an examination of the safe and found a small quantity of metallic particles which he believes are gold and others which are apparently silver. There was only a little of it left, and in the same safe there were several larger pieces of metal which appeared to be a concentration of gold, silver and alloy. If Mr. Fisher had not left so quickly this metal would no doubt have issued from the laboratory here as the product of the combination of pipes known as accumulators. It undoubtedly came here labeled platinum wire, as twice within the last five months two boxes have been delivered to Fisher by express which he said contained wire.

News Pickings In Boston.

Boston, Aug. 3.—John McCann, who had worked for Curtis Chamberlain of Dedham as a farmhand, has confessed to Fire Marshal Whitcomb that he set a fire which destroyed Mr. Chamberlain's barn on June 15. He did it out of revenge, claiming that Chamberlain owed him money.

The quarterly meeting of the New England Veteran Firemen's league yesterday was devoted to completing the necessary arrangements for its annual muster of hand engines at Portland Aug. 18. Assistant Chief Cheswell of Boston, Chief Cushing of Hingham, ex-Chief Green of Boston, Chiefs Moody of Woodford, Morse of Bath and Drake of Gardiner, Me., were selected as judges.

Five hundred shares of the Electrolytic Marine Salts company stock were sold in the office of the company yesterday at 10 cents per share. They were transferred from an outside shareholder to an employe of the company.

The first arrest in connection with the Marine Salts company case was made in North Lubec, Me., when William F. Arrington, the chemist employed by the company, was taken into custody charged with being implicated in fraud.

Grace M. Vincent, 24 years old, attempted to commit suicide at her home last evening by drinking carbolic acid. Mrs. Vincent and her husband, it is said, have not lived together for sometime, and the woman has had lately a hard struggle for existence.

Andy Hill, known as "Muldoon's pickaninny," knocked out John Butler of Lynn at a South Boston boxing match.

The curfew ordinance was put in force in Cambridge last night by the police, and its first enforcement was a success.

Dubbed a Juggler of Words.

Springfield, Aug. 3.—The second day's session of the annual meeting of the state branch of the American Federation of Labor was so full of business that a special meeting was held today for the election of officers. A feature of yesterday was the declination of Samuel Gompers of Washington, president of the American Federation, to accept a challenge from the socialist labor party to speak in debate. The challenge grew out of the disturbance at the mass meeting at which the socialists completely broke up Compers' address. He was bitterly attacked by socialists present and dubbed a "mere juggler of words."

An effort will be made to have a bill passed by which no minors may be employed in the breweries of the state, nor in any place where they would have to handle intoxicating liquors.

CURRENT MISCELLANY.

The flag of our country is generally conceded to be one of the most beautiful banners in the world, and the fact that there is something inherently attractive in its assemblage of stars and stripes is shown by the frequency with which it has been copied in the standards of other nations. The flag of Uruguay has white and blue stripes with white field and gilt sun for an emblem, that of Salvador the same number of stripes, white and blue, with red field and nine white stars. Nicaragua has five stripes, the two outer at the top and bottom of the flag being blue, the two inner white and the middle one red. The flags of Liberia and the Hawaiian islands are exactly alike, each having 11 alternate red and white stripes, with a blue field and single white star. The Greek naval flag has nine white and blue stripes, with blue field and white cross. The Orange Free State has seven alternate white and yellow stripes with a field of red, white and blue, and several of the Spanish-American states have banners which bear a resemblance more or less close to our national ensign. The first Cuban flag had three stripes, the top and bottom being blue and the middle stripe white, the field being red with a white star. The authorized Cuban flag at present has five alternate blue and white stripes with a red field and white star.—St. Louis Globe-Democrat.

Warning to Bachelors and Widows.

The literature of population and depopulation is one of the signs of the time in France, and only recently the backward looking man has discovered in a book dated the year 11 of the republic that the same burning question burned a century ago. It is a certain M. Robert, doctor and agriculturist, who, in his work entitled "L'Influence de la Revolution Francaise sur la Population," deals with the hardened celibate and proposes his state applied remedy. The bachelor of the year 11 is to wear a livery, "a special dress, marking him out for the contempt of his contemporaries." The color is to be that of "the dead leaf," or, in the words of our university statutes, "garments of a subfusc hue." M. Robert has no sumptuary law for the young daughters, but the widow who refuses a second chance is to wear mourning during a term of years and to be cut off from attendance at spectacles, dances and fetes. This till she has attained the age of 50 years, when she recovers her liberty. Rather late to begin, but the subfusc bachelor might out of fellow feeling take pity on her even then.—Pall Mall Gazette.

Education In Finland.

Consul Smith at Moscow has made a report to the state department in regard to the education of children in Finland. "About 38 per cent of the population of Finland," he says, "can read and write. There are 1,400 schools, supported in part by the government. Twenty-one of these are intermediate schools. Each of the 466 districts has an inspector besides a board of directors. Children commence school at the age of 10. From 7 to 10 they receive instruction at home from the parish priest. Co-education has been most successful in these schools. In Finland women share in all industries, and are especially capable as teachers. Both men and women teachers receive careful instruction and preparation. They are treated with the greatest deference, nor are their duties confined to the schoolroom. They exercise a supervision over the selection of books for home reading, and during the summer vacations they acccompany the children on excursions, giving them lessons from nature."

A Remarkable Name.

A Washington woman who has just returned from Omaha says that she heard of a remarkable name out there. It belongs in the Estabrook family, and when one says Estabrook in Nebraska it is as if one said Lee in Virginia or Adams in Massachusetts. The owner of the name is a grandson of old General Estabrook, the family's pioneer across the Missouri. When the child was born, his parents desired to give him the names of his two grandfathers. General Estabrook's name was Experience—General Experience Estabrook. The other grandfather's name was Asad. It was the intention to give General Estabrook's name as the first name, but at his particular request the other grandfather's name led off, and the luckless boy was actually christened Asad Experience Estabrook.

"Regeneration" of China.

A Chinese correspondent draws our attention to performances in which Chinese actresses are engaged that are to be seen at a Chinese theater in the settlement. The appearance of actresses on the stage is illegal in China, and this rule was formerly enforced in Shanghai, but it is understood that the present mixed court magistrate has no objection to the innovation, and the police therefore have not interfered. It is very distasteful, however, to the better class of the Chinese residents here, and it is surely undesirable that a lower standard of morality should be enforced in the foreign settlement than in the adjoining territory, which is exclusively under Chinese control.—North China Herald.

Shines Cost More Than the Boots.

New York bootblacks have reduced the price for "blacking" russet shoes from 10 cents to a nickel. Patent leathers will probably come next. The fact is that the old fashioned 5 cent plain shine is the hardest job of the lot to tackle and worth the most money. And it is curious to see how the shoe shining business has developed. Let it. The whole street looks better for clean shoes. But when you come to think of it the shining costs more than the shoes. You can buy a pair good enough for anybody for $6. If they last only six months, they will cost you $9 just for their blacking!—Hartford Courant.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

A story is printed on the fourth page today.

A large party from Stoughton is at Mears hotel today.

The interior of the First church is receiving its summer cleaning.

Tax rate of Fitchburg will be $18.60 this year, a reduction of sixty cents from 1897.

Bro. Albert's Cadet band should draw a crowd in City Square Saturday night.

Judge Humphrey of the District court is taking his vacation and Judge Cook is officiating.

Miss Eva Phillips is visiting Rev. Herbert Youtz at Middlefield in the western part of this State.

A large hay rack party from Milton way passed through town this morning on its way to Houghs Neck.

The Assessors have not given us our tax rate as yet, but it is understood that $18 will be the figure.

Relatives of Quincy members of arm and navy have called upon the city clerk in reference to State aid.

The contract for paving Hancock street has been awarded to John Turner & Co., whose bid was $9,902.

It will be a sore disappointment to the boys of Co. K, if after all they do not get a chance to smell powder in battle.

The Quincy Granite Manufacturers Association at a meeting Tuesday evening voted $100 for the Volunteer Aid Associaiton work.

The funeral of Mr. John F. McCarty, the victim of the bicycle accident, will be held Thursday morning from the church of the Sacred Heart at Atlantic.

Commissioner Knowlton receives verbal application for house connections with the sewer every day which indicates that the sewer will be popular with the citizens.

People who early in the season were complaining because warm weather was a little backward ought to be satisfied, for it has been hot enough for several days to satisfy anybody.

There is a rumor that Mr. Charles Colby has sold his handsome boat, the Gismonda, to Mr. John W. Sanborn, the optician. Mr. Colby has a foundation already laid for a nice thirty-foot cat.

Holbrook will have a scientific observation station, which is being erected on land of Daniel G. Belcher on Plymouth street by George H. Grindell and Walter C. Belcher. It will be well equipped with apparatus.

The annual choir picnic of the Congregational church choir and friends being held today, August 3d. The company will take Brittons' barge for Braintree Pond for breakfast and go thence to Houghs Neck, Quincy, for dinner. About 24 people will make up the party for this red letter day for the season to participants.—Stoughton Sentinel.

—John G. Pattee, of Randolph, president, presided Monday evening at the meeting of the East Norfolk Christian Endeavor Union at Holbrook, and there was a patriotic address by Dr. James L. Hill of Salem on work in the army.

—The Brockton aldermen levied assessments this week for sewers and sidewalks. One sewer assessment was as low as $6.45, and another $449.64.

Another Engagement Broken.

"She told me I was not a hero like Hobson."

"What did you say to that?"

"I told her Hobson hadn't paid for her ice cream for two years."—Chicago Record.

Princely Generosity.

First Tramp (on bicycle)—Say, Bill, got anything to mend a punctured tire?

Second Tramp (loftily)—Take my wheel. I can get another in the next town.—Town Topics.

Discouraging.

When Zola started out to write
He shocked the public mind.
They called his stories impolite
And very unrefined,
And yet their eager minds he wrought
To an uncommon pitch,
And everything he wrote was bought.
They straightway made him rich.

But as the years came on he tired
Of all his naughty ways.
A little share he now desired
Of honest, thoughtful praise.
For justice and his fellow men,
With strength that did not fail,
All fearlessly he strove, and then
They put him into jail.
—Washington Star.

The Secret

of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.

This is only one of the many good qualities of a gasoline stove. Prices from $3.50 upwards.

Cause of a Deficit.

Washington, Aug. 3.—The receipts of the government during the last fiscal year, including Pacific railroad items, were $405,321,335. Expenditures, including Pacific railroad items, $443,368,582, leaving a deficit of $38,047,247. Excluding the receipts from Pacific railroads, amounting to $64,751,223 and the expenditures on this account of $4,549,368, the account would stand as follows: Receipts, $340,570,111; expenditures, $438,819,214, leaving a deficit of $98,249,103.

This large deficit is accounted for in part by the extraordinary demands upon the treasury department to carry on the war. A conservative estimate of the war expenses during March, April, May and June is $56,000,000. If we deduct from this the $98,249,103, the deficit would be $42,249,103.

In other words, the deficit would not have exceeded this amount on a close basis. At the end of the first seven months of the fiscal year the deficit was $51,901,823. Deduct from this $42,249,103, and we find that the deficit has been reduced during the last five months of the fiscal year $9,652,719. It thus appears that during the last five months of the year our receipts exceeded our expenses on a peace basis by over $9,500,000.

Hounded and Blackmailed.

Boston, Aug. 3.—The Herald says: "The officers of the Electrolytic Marine Salts company and the detectives employed on the case now believe that Jernegan has been hounded and blackmailed for months past by a gang of shrewd criminals, and finally forced to leave the country for fear of exposure. One of the officers of the company said last night that he was of the opinion that they could name every man of the gang who originated the swindling scheme, induced Jernegan to come in with them, to go to the front and do the work, while they remained under cover and directed him in his movements. They had nothing to lose, so the detectives say, while Jernegan had everything at stake. His reputation as a minister of the gospel, and his past good character were in the balance, besides the awful fear of the prison cell. Some of the other men, in the opinion of the police, have done 'their bit' in penal institutions, and had no fears of a new experience of a like nature. It is the general opinion among the officers of the company that there were nearly a half dozen men in the deal beside Jernegan."

Taken With a Cramp.

Lincoln, R. I., Aug. 3.—Michael H. Hayden, a laborer, was drowned while bathing last night. He was with a companion who could not swim, and when taken with cramps sank in seven feet of water and about 20 feet from the shore.

One fare for the round trip to Saratoga during the week August 1st to 6th, inclusive, via the Fitchburg Railroad. Full particulars at 260 Washington St.

THEY WERE WED.

Pretty Miss Polly declared she'd not wed.
She'd "rather, yes, rather, far rather, be dead.
'Twere better to lie in the cold, cold grave
Than be some horrid man's humble slave,
For what is a wife but a slave?" she said,
"A slave when once she is wed!"

Handsome young Harry, too, said he'd not wed,
For a wife must be petted and pampered and fed.
'Twere better to live your life all alone,
That your nose may escape the proverbial grindstone,
"For a husband is naught but a slave!" he said,
"A slave when once he is wed."

As might be expected, this perverse young pair
Fell in love at first sight and did straightway declare,
'Twere better, far better, they twain should be one
Than lonely to sigh and true happiness shun,
"For love is a slave, yes, a slave!" so they said,
"Forever a slave," and they wed.
—Anne H. Woodruff in Chicago Times-Herald.

LOVE IN TWO WARS.

"Well, now!" said Lieutenant Colonel Bascome, standing with one hand on his hip in front of the regimental headquarters tent. "Well, now! This thing is getting more and more to be a sort of resurrection of the dead and the life of the world to come."

Here an orderly arrived, keeping step in very creditable style with a tall, rather slim, light haired youth for whom Lieutenant Colonel Bascome had sent, whose square jaws had only just begun to take on the brown of a first week in camp. Both the enlisted men saluted.

"Lee Shepherd, sir; Company F."

"H'm! I thought it was something else. Lee Shepherd!" Lieutenant Colonel Bascome ruminated.

Nelly looked at her father with a decidedly quizzical veiling of her pretty eyebrows, as if to ask why it should be funny that a young man enlisted in the local regiment of the national guard lived in that neighborhood.

"I suppose I haven't seen you before, eh?" her father went on, still addressing Shepherd. "You belong to Company F. How long have you been in the regiment?"

"Two years, sir."

"Well, I haven't seen much of Company F, have I? That's so. Are most of them as fine fellows as you, eh?"

Shepherd blushed to the tips of his ears, and the orderly grinned. The embarrassed young man had no words for a reply.

"Well, that's all. Thank you," said the commanding officer.

And the two enlisted men saluted and went their several ways.

"What made you do that, papa?" Nelly asked as soon as they were out of hearing.

"What? Ask that youngster his name? I don't know, my child, exactly. I had some sort of notion that I had seen his face before. But—Lee Shepherd—I never knew anybody of the name of Shepherd—Shepherd. His face and his whole look are certainly familiar to me. But I am getting old, daughter. That's the whole of it."

The girl's trim blue serge was seen to move leisurely down the line of tents and disappear around the corner. Nelly Bascome had taken an idea into her head, and the idea was taking her for a walk. She took the turning which she thought would lead her to the quarters of Company F, and she was very nearly right in her guess.

She was looking for Lee Shepherd and was soon face to face with him.

Lee smiled at the girl with an expression of perfect understanding. She was a little surprised that he showed no surprise at her visit.

"Mr. Shepherd," she said, "I don't know whether I ought to apologize for troubling you"—

"You ought not, Miss Bascome," said Lee. "There is no call for an apology—hardly even for an explanation."

"Oh!"

"No. I know what you want to ask me."

"You do?" said Nelly, in some surprise.

"You want to know if I know why the lieutenant colonel called me back just now. He doesn't know any one of the name of Shepherd, does he?"

"No, he doesn't. Why did he call you back? Why did he ask your name?"

"Well, Miss Bascome, if you ask me, and if you promise not to spoil my plan"—

"What plan?"

"My plan is to see whether your father's memory will go on troubling him about me until he finds out. Will you promise not to tell him until I give you leave?"

"I promise," said Nelly, delighted at being able to solve the mystery so soon.

"Well, then, here's the whole thing in a nutshell. I'm very like my grandfather. Everybody tells me that. Then, you see, this hat, I suppose, brings out the likeness. They used to wear hats like these, you know."

"Who used to?" said Nelly. "Who was your grandfather?"

"Why, my grandfather was a Johnny Reb. Both my grandfathers were. But your father is thinking about my mother's father, old General Goodlowe."

"Oh, that's it, is it? I remember now."

"Ever hear the lieutenant colonel speak of the time he was a prisoner of war on parole in North Carolina?"

"Of course I have, and Colonel Goodlowe had him there at the old place."

"That's right, and my mother used to play cribbage with him when he couldn't walk on account of his sprained knee. Did he ever tell you that?"

Nelly shook her head, smiling. "But is your mother still living?" she asked. "I should so much like to meet her."

"Yes," said Lee. "She would like to meet you."

"How do you know?"

"Well, to be quite candid about it, I've been disobeying orders from home. I came north three years ago to go into the cotton spinning business. Then I joined the regiment, Company F. But I never wrote your father's name home until we were called out for this war. As soon as I told mother—she still lives on the old place—who the lieutenant colonel was, she wrote back. Here, I've got her letter in my pocket. She says: 'You are going to serve under a Yank who was your grandfather's prisoner of war in 1863. Thank God that it can be so.' Then she tells me a perfect little romance and wants me to go and introduce myself."

"Why didn't you?"

"It isn't good discipline for an enlisted man, you know."

"I think it's lovely. Come to tea tomorrow afternoon, will you?"

"How about military discipline, Miss Bascome?"

"Obey my orders," said Nelly severely. And with that she marched away.

But she said not one word to her father about her discovery, although she knew what was puzzling him when he sat pulling his mustache in the tent after evening parade.

Next afternoon, as Nelly and one or two girl friends whom she had invited out to camp were arranging things for her afternoon tea, the lieutenant colonel's daughter remarked to her father, "Dad, I've invited only one man to tea this afternoon—an enlisted man."

"The deuce you have!"

"Just so. Private Lee Shepherd, Company F."

"That lad I spoke to yesterday?"

"The same."

And just at that moment the orderly reported Private Shepherd, Company F.

"I'm here by order, sir," said Lee, saluting.

The lieutenant colonel looked hard at the enlisted man for a moment or two, and then burst out: "By jingo! It was no hallucination after all. Didn't you tell me you lived in this state?"

"Yes, sir. But you didn't ask me where I was born. I'm from North Carolina, and they say I look very much like my grandfather, General Goodlowe."

But Nelly didn't hint to her father that she knew anything of his civil war romance until a week later, when the regiment was on the eve of its departure for the front.

Then she said, taking his arm affectionately: "Dad, I'm glad you married my mamma! I'm glad you didn't marry General Goodlowe's daughter."

"Tut, tut, child! What are you talking about?"

"Well, you know, all that cribbage and all might have ended in that way." She was laughing, as the lieutenant colonel thought, very impertinently. Then she went on: "I mean it would—it's better that Lee Shepherd isn't my brother. I mean to say if he were I should have both a father and a brother leaving me to go and fight those Spaniards. That would be quite too much."

But the fact that Lee Shepherd was not her brother did not seem to alleviate Nelly's sadness in the least degree when the regiment started for the front next morning.

The end of the story, in fact, cannot be told until the present war ends and Company F gets home.—Ewen Macpherson in New York World.

Sheridan at the Milliner's.

General Sheridan as he became older conquered his shyness. At the time of the commune he was in Paris with his aid-de-camp. There was also stopping at the same hotel a charming American woman with whom he was slightly acquainted. The prisoners had been liberated and were rushing madly through the streets. The order had also been given that all windows and shutters must be kept closed. Shut up in her dark room and hearing the noisy rabble below, the woman became greatly alarmed.

"There is but one thing for me to do," she cried, "to insure safety. I will put myself under the care of the American general."

She therefore sent her card to Sheridan, who at once called and offered his services. He also advised that she should join his party in the morning and get away to London. Still she appeared distressed. Finally she cried: "It is my bonnets at Virot's. They were to have been down today. How can I go and leave them?"

The general grasped the situation and offered his arm to escort her to the milliner's. Happily it was not far off. Ever afterward he delighted to tell of his pleasure at seeing such an array of dainty headgear. He had never been at a milliner's before.—New York Sun.

Maps of Valley Forge.

It is somewhat remarkable that the only known maps of the Valley Forge encampment during the winter of 1777-8 were made known to an American as late as last summer, when Judge Pennypacker discovered them in Amsterdam, and that, presented before the Sons of the Revolution on their visit to Valley Forge Saturday, they will only become known to the American public when published in the society's yearbook. The series of maps now in Judge Pennypacker's possession and made originally by a French engineer with the American army include not only careful drawings of the Valley Forge encampment, but plans also of the battlefields of Pennsylvania and New Jersey.

It is understood that the plot of the Valley Forge encampment modifies materially the traditions concerning the camp, showing the location of troops where heretofore no troops have been supposed to have had their encampment. The careful Hollander who contributed so heartily to the American cause appears to have contributed the last chapter to the history of the cause by preserving these maps until they fell into the right hands.—Philadelphia Inquirer.

The Secret

of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.

This is only one of the many good qualities of a gasoline stove. Prices from $3 50 upwards.

HENRY L. KINCAIDE & CO.,
HOUSE FURNISHERS,
Hancock Street, - Quincy,

TRY AN "AD." IN THE LEDGER.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

ONLY A LITTLE PARLEY

Inconclusive Conference on the Terms of Peace.

Spain Desires an Amplification of Details.

Conditions Attached to the Acceptance of Peace Proposals.

Washington, Aug. 4.—The Spanish government, having been informed in unmistakable terms that it would be a waste of time to ask us to modify our demands, has hit upon the clever dodge of asking us to "amplify" or define them more clearly. The Sagasta ministers were told by Ambassador Cambon that he could not approach the president with a proposition to change our terms, and they get around this by requesting him to ascertain from the president exactly what is meant by certain demands, at the same time authorizing him to say that they "accept the principle" of our conditions, whatever that may mean.

The French ambassador talked with the president for an hour. The message he bore was not a brief, but it is believed to have covered many details. Whatever it was, the president regarded it as covering so many delicate questions that he requested the ambassador not to make public the purport of the note, and Secretary Day said that it would not be advisable to give it out at present. The president and the members of the cabinet went down the river, on an evening trip, and took occasion to talk the message over.

It is hardly profitable to discuss the Spanish position without further information in regard to the character of the note, but the impression conveyed by the proceedings of the day is that Spain has entered on a policy of parley, which may delay for some days an arrival at a definite understanding. It is believed that Spain is anxious to learn whether the Spanish army in Cuba will be permitted to carry home its arms and other property, and is said to have intimated that if she was to be held accountable for the Cuban bonds, she should be permitted to retain some of those things to obtain which the debt was created. It is believed that the queries of the government at Madrid related principally to questions of this kind, which can hardly be ignored and which may require a great deal of care and diplomatic skill in the response. While this message of the Spanish government may make for delay, it is believed to indicate that the Sagasta ministry is sincere in its efforts to secure peace, so that ultimately the two governments must come together.

As for the Philippines the administration could hardly consent to a modification of terms, although it might agree to discuss a proposition to cede to us the island of Luzon as a return for a joint occupancy of the rest of the islands or the retention of Spanish sovereignty. It would be quite in order, too, for Spain to inquire what is to be done with the Spanish forces at Manila, while we hold the city, pending the negotiations of a treaty. It is believed by some that the conference may have had to do with the form of a preliminary protocol, looking to the appointment of a peace commission. If this be so, it will be a long strife in advance.

Meantime, in consonance with the declared purpose of the president at the beginning of the overtures, this conference is not operating to restrain military operations in any degree. Orders went out for a conference of leaders of the regiments to accompny Gen. Wade to Porto Rico. It is felt that even should an armistice be decired before these troops see active service at the front, it will be beneficial for them to make the trip, for otherwise there is danger of the morale of the troops being destroyed through their craving to get away from the big concentration camps, and at least see the shores of Cuba or Porto Rico.

Profiting by the last experience, General Wade's expdition is going to be the most complete detail of any that have left our shores and the soldiers will be protected in their health and comfort to the utmost degree. Secretary Alger has himself conducted an inquiry into the conditions that led up to the fearful experiences of the wounded soldiers who returned to the United States on the Concho, and has taken the necessary steps to prevent a repetition of the bad management exhibited in that case. Thus there may be some delay in getting the troops away with General Wade in view of the determination to have everything shipshape before the men are on board; and the transportation department was taken somewhat by surprise by the sudden announced decision of the secretary of war to start this expedition, some days must elapse before the necessary transports can be gathered at the ports of transportation.

It is expected here that the Spanish pledge to accept the broad conditions laid down by the United States will take the form of a written agreement, something in the nature of a protocol. The negotiations have not progressed sufficiently to indicate who shall represent the United States and Spain. The protocol, if it may be so called in either case would not take the place in any manner of a treaty of peace which would be drawn up later by commissioners to be appointed for this purpose. Under the terms of the president's note the Spanish government is bound to evacuate Cuba and Porto Rico immediately. This action is not to wait upon the work of the peace commissioners, but is to precede it and to follow immediately upon the signature of the memorandum accepting the president's conditions.

On the whole it is a rather fortunate circumstance that this evacuation cannot take place en masse and immediately, for it has been determined that the Spanish troops withdrawn must be replaced by United States troops. This is deemed to be absolutely necessary to guard against anarchy and to secure the establishment of a stable form of government in Cuba under constitutional guarantees.

Views of a Michigan Senator.

Washington, Aug. 4.—Senator Burrows of Michigan when questioned Wednesday regarding terms of peace said: "We must have absolute possession of Porto Rico, and Spain must relinquish completely her sovereignty over Cuba. Towards Cuba we will act in good faith and with perfect justice, giving to the people of the island a free and independent government as soon as it can be esablished.

"As to the Philippines, I do not believe that we want the entire group of islands with its several millions of semi-barbarous people. In my opinion we should retain one entire island—the best in the

CONGRESSMAN BURROWS

whole group for our purpose—absolutely as our own, for a naval station and commercial base. This would give us all we want for the development and protection of our commerce.

"The rest of the group of islands might go back to Spain, or the people might be left to work out their own destiny. The question of just how far this government should exert itself in the matter of securing good government for the islands which we do not retain is a matter of detail for the future. I don't think this government should retain control of or interest in the rest of the islands after having taken possession of the one we want."

Must Deal With the Insurgents.

Washington, Aug. 4.—An interesting question and one of vital importance to the administration is the attitude to be assumed by the United States towards the Philippine insurgents in the event that we reach an agreement for the suspension of hostilities. It is stipulated in our peace terms that the United States military forces shall occupy and establish a military form of government over the city of Manila and the bay with the surrounding territory. This involves an immediate surrender of the Spanish forces, not to Aguinaldo, but to Gen. Merritt, and there is some apprehension that the insurgents will resent this very bitterly, and that it will be necessary to expel them forcibly from the territory described.

Beyond this, it is said in some quarters that pending the decision of the peace commissioners as to the future of the Philippines, the United States will be morally bound to maintain the status quo in the islands at large. In other words, having deprived Spain of the means of resisting the onslaughts of the insurgents, it has been urged that the United States would be bound to prevent the latter from continuing their warfare.

Credit Due Officers.

Washington, Aug. 4.—General Kent, in his report of the battle in Santiago July 1, 2 and 3, says: "The greatest credit is due to the officers of my command, whether company, battalion, regiment or brigade commanders, who so admirably directed the formation of their troops, unavoidably intermixed in the dense thicket, and made the desperate rush for the distant and strongly defended crest. I have already mentioned the circumstances of my Third brigade's advance across the ford, where in the brief space of 10 minutes it lost its brave commander (killed) and the next two ranking officers by disabling wounds. Yet, in spite of these confusing conditions the formations were effected without hesitation, although under a stinging fire, companies acting singly in some circumstances and by battalions and regiments in others rushing through the jungle, across the stream, waist deep, and over the wide bottom thickly set with barbed-wire entanglements."

Bay State Boys Recovering.

Washington, Aug. 4.—The list of the convalescent on the Santiago and Yucatan includes the following:

Second Massachusetts—Privates W. G. Conwell and William White.

Sixth Massachusetts—First Sergeant F. T. Jackson.

Ninth Massachusetts—Privates E. F. Sullivan, T. F. Dimmond, P. J. Sullivan, John Casey, W. McCready, F. Johnstone, G. W. Broman, Dennis J. Doyle, Corporal P. P. Crimm, Sergeant W. A. McCormack.

Forty Were Drowned.

London, Aug. 4.—A special dispatch from Madrid says that 40 persons were drowned by the bursting of a waterspout at Villa Mediana on Tuesday.

HUNGER AND DISEASE.

Awful Distress of Inhabitants of Isle of Pines.

Dying In the Street For Lack of Necessaries.

Spanish Garrison Reduced by Drafts For Defence of Havana.

Key West, Aug. 4.—The report that the Isle of Pines is furnishing food supplies to Cuba is emphatically denied. It can be asserted, on the strength of unquestionable authority, that the island itself was denuded of its food resources a month ago, and its own people are now starving.

Nueva Gerona, its capital, noted for its salubrious climate, especially as a consumptive cure, is now used by the Spaniards for a military hospital camp, and only wounded soldiers are there. Rich and poor from Havana have been flocking thither, and as a natural consequence, yellow fever and smallpox have followed, and rage to an alarming extent. This is because the poor cannot procure medicines, and the government supplies neither medicine nor food. The unfortunate people die in the streets, the authorities being virtually compelled to bury them. The entire island is under Captain General Blanco's government.

The residents declare they have never seen a steamer pass in since the war began; only a few sloops and schooners. This statement has been verified by information which came by the Bancroft and the Eagle, from an insurgent camp visited by their commander near by. The Americans were told that nothing had attempted to get in since the Eagle sank the Santo Domingo. There is reason to believe, however, that the Villa Verde managed to elude the blockade sometime ago.

The insurgents in the province of Pinar Del Rio are well supplied with arms and ammunition, thanks to many successful filibustering expeditions. They are now little troubled by the Spanish forces, which are being called rapidly to Havana from every quarter. Where two months ago there were large Spanish garrisons now there are only a few men and these make no attempt to pursue the insurgents as they formerly did, contenting themselves with simply remaining at their posts.

The blockade of the ports west of the Isle of Pines is so well maintained that not even a smack could get through. The Eagle reports that on leaving the Isle of Pines the Bancroft's launch had apparently scored another victory, as it was then towing out a schooner from shore about eight miles away. Captain Sutherland of the Eagle is confident that the two 12-inch guns which were in the hold of the Santo Domingo when she was struck by his little yacht can be saved, and he thinks wreckers should be sent down for them. When the Spanish steamer sank these guns dropped to the bottom, and so long as the air does not reach them, they can be saved. One of our blockading ships sights the wreck of the Santo Domingo every 12 hours to prevent any attempt on the part of the enemy to get the guns.

There is much interest here as to the decision the prize court will reach in the case of the Santo Domingo, which with her guns and her enormous cargo of food, was valued at close upon $1,000,000. Had the Eagle succeeded in taking her unharmed, there would have been no question as to the legality of making her a prize; but the Santo Domingo had on board two 5-inch guns, mounted, primed and trained, and 144 men, while the Eagle, with a battery of only 6-pounders and only about a score of men, could not afford to take the desperate chance of the big ship escaping and getting her guns to Havana. So, for what are called "military reasons," the Santo Domingo was destroyed. After her destruction, however, the Eagle's men boarded her, and took formal possession of her as a prize of war. Herein lies a nice question for the determination of the courts.

Drawn Around a Shaft.

Bennington, Aug. 4.—James H. Eldreth, an elderly and prominent resident of Petersburg, N. Y., was instantly killed there by a train yesterday. The head was severed and thrown about 200 feet. Twice before in his life Mr. Eldreth had been struck by trains.

HUMOROUS IF NOT MEANT.

Objections to Having Bismarck's Body Lie Near a Railroad.

Berlin, Aug. 4.—Peculiar dissatisfaction is expressed because of the selection leum of Bismarck. The North Ger- of a site for the proposed mausoman Gazette in a curious note says: "Our attention has been directed to the fact that the site chosen is in a potato field and close to a railway, where trains pass almost without intermission. One would think the noise of traffic must be a disturbing element in the vicinity of the Bismarck mausoleum. In the words of the poet, Uhland, 'the resting place of the dead is wont to be the abode of silence.' "

The Frankfort Gazette says: "We do not think it could have been in accordance with the desire of the departed that his remains should be withdrawn from the presence of sympathetic mourning and respect, and also from the intended tributes of the highest officials of the empire which he founded and of the state which he served."

When Prince Herbert declined a second time the emperor's proffer of a grave in the Berlin cathedral, his majesty indicated a plan for a national monument. It is understood that he proposes to place in the cathedral an immense marble sarcophagus, with the the figure of Bismarck in the uniform of a cuirassier.

Emperor William's rescript, which is believed to have been written by Professor Kochser, director of the secret archives, gives universal satisfaction as a fitting expression of the national sentiment and a tribute doing his majesty the highest credit in face of rumors of friction between the Bismarck family and the imperial court.

Rather an unseemly wrangle has arisen in the press concerning the exact cause and circumstances of the prince's death. Doubtless such acrimony would have been avoided if more courtesy had been shown the journalists at Bismarck's home; and the fact that no autopsy was held makes it impossible to silence scandal-loving tongues. Professor Virchew, interviewed on the subject, declined to express an opinion on the vague information available, but said he was disposed to think that the death of the prince was painless.

Alger Makes Promises.

Washington, Aug. 4.—Concerning the unfortunate occurrence on the ships Concho and Seneca, that brought home sick and wounded from Santiago, the secretary of war gives out the following statement: "At the time they left Santiago the general desire of convalescents to come home doubtless overcrowded both ships. From the commencement of the Santiago campaign until within a few days the terrible conditions of that coast, where our ships had no shelter and always with a high surf, made the landing of troops, supplies, ammunition, artillery and medical stores very difficult; and there is no doubt much inconvenience and suffering was thereby caused that was unavoidable. The lighters that went with General Shafter's fleet were lost on the way. Two tows of lighters were subsequently sent, which were also lost, and it was impossible to get supplies ashore except with the boats from the ships and those supplied by the navy. Later on a lighter was supplied by the navy, which was the only one there for many days.

"The captains of the Seneca and Concha did not report to General Shafter nor to Quartermaster Humphrey that they needed water. Had they done so, of course, it would have been provided. Then also a large number of civilians rushd aboard to get away, and they occupied many staterooms that should have been given over to the soldiers.

"No recurrence of such conditions will be possible hereafter, and no one regrets more than the secretary of war that anything of the kind should have happened. The general commanding the army, the surgeon general, and the quartermaster's and commissary departments have done the best they could, but unforeseen circumstances prevented the conveniences being provided that otherwise would have been furnished."

Didn't Know They Had Subscribed.

Washington, Aug. 4.—Assistant Secretary Vanderlip is now sending to subscribers about 5000 bonds a day, and this number will be increased later on. Recently notices of allotment have been sent to a number of people who subscribed and forwarded the required cash, but who now deny all knowledge of the transaction. The indications are that their names were used by interested parties without authority with a view of getting possession of the bonds in violation of the spirit of the law. These cases are under investigation. There are also a large number of subscriptions under suspicion from other causes, aggregating several million dollars, so that it will be impossible to state the maximum amount which eventually will be allotted until all of these cases are decided. The indications, however, are that the amount will fall between $4500 and $5000.

Wish They Hadn't Cut Wages.

Fall River, Aug. 4.—Some of the local mill men wish they had adopted curtailment rather than a reduction of wages early in the year. If wages were up they think prices would recover more quickly. The curtailing scheme does not meet with favor. There are apathy on the part of the successful managers and distrust among the others. While it is still contended that the plan to shut down will be put in operation sooner or later, many believe the movement is dying out. The successful manufacturers are in a trying position. To attempt a further reduction of wages would doubtless be futile, and if it were successful a permanent benefit would not be gained.

On a Charge of Forgery.

Providence, Aug. 4.—Arthur R. Darling of this city, 26 years of age, was arrested here yesterday on the charge of forgery. It is alleged that for the last five years Darling, who is of good family, has been engaged in swindling operations in Philadelphia as well as in this city. He is also wanted in Fall River and other places.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

Progressing.

The Volunteer Aid Association sewing meetings are held every Tuesday and Friday afternoons in G. A. R. hall to make shirts and bandages for the sick and wounded boys, that have been in battle.

Only a few have responded to our appeal for money, to carry on the good work.

A good many think because the W. R. C. started the association, it was for them alone. Not so, any one that is a friend to the soldier is invited to contribute towards the fund and also to meet at the hall to make up the materials. Since the last acknowledgement through your paper of money for this object, $20 have been received: $10 from Bay View Lodge, L. O. L., $5 from Mrs Frank Faxon and $5 from Mrs. Wm. B. Rice.

We have made and sent in to headquarters of the Volunteer Association, 11 Mt. Vernon street, Boston, thence it will be sent to the Hospital ship, and wherever needed: 51 towels, 26 hospital shirts, 1 pair stockings, 26 handkerchiefs, 114 abdominal bands, and 1 netting. Besides we have made about 75 comforts bags, of which some remain to be filled.

Now the ladies are making mosquito net protectors for the sick and wounded. It all takes time and, money, of which the last is pretty essential. We intend to send off another box by the first of the week.

Contributions of canned goods such as milk, jellies, etc., will be thankfully received at their hall on Friday of this week, or Tuesday next. I hope the good work will not have to stop on account of funds.

Enjoyable Lawn Tea.

The grounds at the residence of Mr. and Mrs. H. B. Brown on Putnam street presented a scene of gayety Wednesday evening from 6 to 9.30 o'clock, the occasion being a lawn tea given to the young people of Greenleaf and Putnam street, in honor of Harry G. and Esther L. Brown, grandchildren of Mr. and Mrs. Brown.

Promptly at 6 o'clock the young people took seats at a long table, which had been arranged upon the lawn, where they had tea. Then came games and other amusements until dark when the grounds were illuminated by many Japanese lanterns. From this time until 9.30, the young people were amused with charades, tableaux, music and dancing. Among the guests were Miss Beatrice A. Greenleaf, of Waltham.

The favors given at the table were lace aprons made by Miss Esther L. Brown, and minature knapsacks filled with candy.

Reunion.

The annual summer reunion of the Veteran Association of the 32d Massachusetts Volunteer Infantry will take place at Hotel Nantasket, Nantasket Beach, on Saturday, August 13th.

The executive Committee has selected Nantasket beach as the place of meeting this year, believing that most of the comrades prefer this seashore for the summer reunion, particularly as everything in the way of refreshments and amusement can be had here, and hope to see a large attendance at this reunion, the first the Association has ever held during war time.

Q. Y. C. CUP RACES.

Challenger Here and Some of Details Arranged.

The Executive Committee of the Quincy Yacht club held a meeting at the Adams building on Wednesday evening. Mr. Charles D. Mower, the Lynn Yacht club's representative was present. A conference was held to formulate a few rules for the guidance of the judges of the cup races, also to signify how the judge shall be chosen and to lay out the courses. It was agreed that the starting time shall be as follows:—August 22 at one o'clock, Aug. 23, at two o'clock, Aug. 24, and each succeeding race day thereafter at three o'clock. The time limit was placed at 3 1-2 hours.

It was also agreed that these races shall be sailed on consecutive days, unless in the opinion of the judges a competing yacht is so disabled as to prevent it sailing in which case one day shall intervene before the next race.

The judges shall be chosen as follws:—The first challenge to name a judge, the defender to name a judge, and those two to name a third, who shall constitute the board of judges.

Subsequently the committee elected James S. Whiting to act as the judge on behalf of the Quincy yacht club at the cup races. The secretary was authorized to charter a launch for the use of the judges on the race days

Union Chapel.

The services at the Houghs Neck Union Chapel last Sunday, was most pleasing, both in preaching and singing. The preacher was Mr. White of Roxbury. He preached a very practical sermon his text being: "Bear ye one another's burdens, and so fulfil the law of Christ."

The singing was composed of a solo by Mr. Thayer of Great Hill, a duet by Miss Johnson and Mr. Thayer, also of Great Hill, and a solo by a lady from Roxbury all of which were rendered in a pleasing manner.

Next Sunday Rev. Edward Norton of Quincy will preach at 3 o'clock, to which all are welcome.

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Heavy rain this morning.

Grand showers are frequent.

The Brockton Street Railway are to run through cars to Neponset.

Although quite warm in the city yesterday, residents of Houghs Neck claim a cool day, and a cool breeze was enjoyed.

Mrs. Warren Dunbar and daughter attended the funeral at Whitman on Tuesday of Mr. Henry J. Luzarder, who resided on Beulah street.

Arthur T. Brasee and Miss Ada L. Goodrich of Wollaston are to be married on Wednesday, Aug. 17, at the home of the bride's parents, West Berkshire, Vt.

Miss Helen Fagan, Miss Anna Burns, Miss Margaret Burns and Miss Elizabeth J. McNeil, four of the teachers at the Willard school, are at Derry, N. H. for a few weeks' outing.

During the coming week the vestry of the Wollaston Unitarian church will be closed. There are a number of comfort bags to be made up if any person desires to take them home.

J. B. Morgan of this city has filed a petition in insolvency under the new bankruptcy laws, accompanies it with an affidavit certifying that he has not means sufficient to pay the fee required by the court.

There was a slight fire in the house of James McCauley on Liberty street Tuesday afternoon, caused by an oil stove taking fire. The blaze was extinguished without an alarm after burning some clothing.

Among the first boats which will be seen at the Wollaston Yacht club's open regatta on Saturday afternoon will be the Quincy Yacht club cup defender "Recruit," Henry M. Faxon's "Cleopatra" and Clinton H. Crane's "Elsa."

Several parties of late have visited Quincy who have their own tents and furnishings for a company, and are looking for a vacant land to camp out near the sea shore. Six young men started with a load Wednesday for Houghs Neck.

You can ride from Quincy to Providence, R. I., for the small sum of 65 cents. Mr. Rogers of Edwards Hill and a friend rode Tuesday on electric cars from Quincy to Newport, R. I., and reached there at about 1.30 P. M. The fare was 85 cents.

Boston papers report the Granite Shoe store of Quincy to have assigned to Charles W. Lavers of the shoe and leather exchange. Also, that Brainard T. Dyer, boots and shoes, Concord, N H., and two other firms have assigned to the same gentleman.

The old bridge on the Miller stile, used so any years asa short cut from Elm to Canal streethas been removed and a new one placed further down the brook opposite the house of Dr. Everetts. Workmen have also been cleaning out the brook and repairing the stone wall.

The Beatrice and Cleoparta were among the Quincy yachts entered on Wednesday's race ofthe Corinthian at Marblehead, but it was not their day. First places were taken by the Ashumet, Hermes, Duchess, Koorah, Schartz, Jilt and Hobo. Another race today.

Fire Inspector Waren Adams did a good piece of dectective work in catching John McCann the Dedham fire bug, tracing him to Providence, Rhode Island, and having him shadowed all the while he was ther. On his return to Dedham he arrestd him and the sequel was his confesson. Mr. Adams is also working on the Brockton case and thinks he has a clue.

The members of Division 5, A. O. H., of Brockton are to hold an outing next Sunday at Quincy, arrangements for which have been prfected. They will leave home at 10.30 Sunday morning for Quincy where a shore dinner will be served. A Brockton paper reports that sports will be enjoyed during the day.

Merry Mount lodge, A. O. U. W., escorted the remains of John F. McCarty from the church of Sacred Heart this morning at 8 o'clock. The order was present in large numbers and marched from the house to the church. A floral piece representing a broken column was given by the lodge. A number from the factory were present and gave a pillow. The services were impressive.

C. H. Johnson has in his possession the door of a pew of the old Ship church in Hingham once owned by the Damon family of that town. It is in good state of preservation and it measures 2 feet in width and 7 1-2 feet in length. The hinges are over 7 inches long and when the old church was remodelled inside the doors were sold as high as $75 each. The number of the pew was 47 and the figures are on the door.

HOUGHS NECK.

Harris Lincoln and family of Boston are at Rockland Island.

Dr. Bodge and family have returned to Boston.

Mrs. Henry Alden of Quincy is in the French cottage.

There was a large crowd at the beach Wednesday, including two picnic parties.

J. Watson and family of Boston are at the Bodge cottage.

Dr. Taylor of Great Hill has returned to Boston.

S. Webster and family of East Milton are in a cottage at Rock Island.

Lewis Serbert and family of Boston are in a cottage on the plains.

W. K. Lewis of Brockton is in a cottage on Mears' avenue.

Patrick Donahue of Boston is in a cottage on Mears' avenue.

George H. Ferguson and family of Quincy are in a cottage on Manet avenue.

Picnic parties make their headquarters at Quincy woods nearly every day.

Recent arrivals at Pierce's: Mrs. E. Ross and Mrs. Drake, Stoughton; Mr. and Mrs. J. W. Higgins, Boston; Miss J. C. Bennett, Dorchester; Mr. and Mrs. A. B. Aldrich, Edward C. Pierce, H. A. Hutchingson, Miss Laura E. Howard, Mr. and Mrs. W. L. Doty, Brockton; Edward F. Burrell, Avon; Mr. and Mrs. Edward Howard and children, Brookville.

Jon Daly and family of Roxbury are in the Grapevine cottage.

Shakespere Opera House is the name of the hall in the old Casino building.

Mr. M. Crowley and family of Dorchester are at the Cavanagh cottage.

E. O. Sullivan, John Cavanagh, Owen McCaffery, John Clarkson, Robert Tracy and Frank Tracy of Dedham are at the Waverly cottage.

Mr. Rober and family of Needham are at the Irene cottage.

Mr. Johnson and family of Campello are at the Magnolio cottage.

John Murphy and family of Cambridge are at the Homestead cottage.

Miss Sarah Shoughrow and Miss Alice Shoughrow are guests at the Bay View cottage.

Mr. W. H. Mayport and family of Springfield are in a cottage on the Plains.

Mr. Jacobs and family and Miss Julia Taylor are at the Bay View cottage.

Miss Mamie Murphy and Miss Murphy are at the Loretta.

Miss Farley of Farley is a guest at Great Hill.

Mrs. G. P. Brown and daughter are at the Newton cottage.

☞ Don't wait for paint and whitewash, those are to be put on by the landlord, but come right in and secure some of our unheard of bargains before they are all gone. People are talking about peace with Spain. That will come anyway but the bargains at Gus Bates' store are going—going.

A Granite Cement.

A cement for repairing granite is made by reducing to an impalpable powder, equal parts of black feldspar and marble dust, and mixing in powdered gum dammar. Heat the mixture until the gum melts, mix the whole by stirring, and then apply to the fractured parts of the granite like putty is used.—Stone.

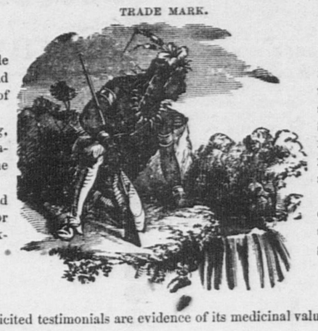

WORMS
Hundreds of Children and adults have worms but are treated for other diseases. The symptoms are:—Indigestion, with a variable appetite; foul tongue; offensive breath; hard and full belly, with occasional grippings and pains about the navel; heat and itching sensation in the rectum and about the anus; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; starting during sleep; slow fever; and often in children, convulsions.

SOME OPPOSITION.

Gen. Stone, However, Reports Advance At Porto Rico.

Ponce, Aug. 4 — General Stone who made an advance to the north has sent back a message saying that he met with some opposition, but that he would advance aided by some insurgents and attempt to carry out his orders.

Healthier Camp.

Santiago, Aug. 4—General Shafter held a meeting of the commanding officers yesterday at headquarters, and read to them a cable from Secretary Alger ordering him to move his army into the interior at San Luis where it is healthier. As a result of these instructions General Shafter will insist that the army be moved inside of two weeks.

Should Be Sent Home.

Santiago, Aug. 4—Following the consultation held yesterday by the Commanding officers with General Shafter a letter was read from General Rosevelt saying that the troops should be sent home for if they remained one half would die. A petition was drawn up saying that the troops were too feeble to move back to the mountains and that they should be sent home as soon as possible as the heat and rain was killing them. This was signed by all the commanding Generals and sent to Washington.

AT CAMP DALTON.

Camp Dalton
Thursday Aug. 4

The officers of Co. K are in demand for camp officers. Today Lieutenant Whitney of Co. K is officer of the guard. Capt. Clarke of Co. M officer of the day and Lieut. Tolman of Co. A commander of guard.

The Post pays the regiment a compliment. It says, If ever a volunteer regiment was in condition to be used by its government the Fifth Massachusetts Infantry is surely the one. The regiment has been developed from recruits to seasoned men until today it is ready for business at a moment's notice wherever sent.

Some of these punishments for petty offences may occur in other streets but K street is very free from such exhibitions.

The Framingham Evening News says: In some instances the culprits are paraded dressed in heavy marching order while the band is playing just beyond the street and their comrades are enjoying the evening concerts.

Another mode of chastisement is the keeping of rule breakers in their quarters.

Men thus sentenced are not allowed to take their meals with the rest of the company but have to wait until the regular mess is over.

Another mode of punishment is usually given in squads. It is five minutes double quick, five minutes run and five minutes rest and this kept up for such a time as the officers deem best.

Another punishment is to march up and down the company street shouldering a big birch stick in place of a rifle.

Accident to Bicyclist.

A young man named Nichols who is stopping at Rock Island for the summer met with quite a serious accident Tuesday night while riding down on a wheel. He had one hand on the handle bar of his wheel and in the other he carried a bundle. He was riding in the car track and while going down the hill just beyond the Adams farm he attempted to turn out into the street. In doing so his wheel caught and he was thrown beneath the horse of one of B. Johnson's teams that was coming in the opposite direction. The horse jumped and probably stepped on Nichol's head for he had a deep cut over the right eye. The horse started on the run but was soon stopped. Nichols was rendered unconscious and it was some time before he was brought to and carried to his home.

TODAY'S COURT.

Dennis Coughlin was fined $5 for drunkenness at Quincy.

MARRIED.

PARRY—HUGHES—In Quincy, August 3, by Rev. Edward Norton, Mr. William H. Parry to Miss Annie E. Hughes, both of Quincy.

DIED.

HOWE—In South Weymouth, August 2, Mrs. Clarissa Totman, wife of Mr. Avery Howe, aged 66 years.

WITHERELL—In Duxbury, August 2, Sarah J. Witherell of Neponset.

LOUISVILLES' STRENGTH.

One of the Tallenders Secures a Game From the Bostons.

Louisville, Aug. 4.—Following right after yesterday's 12-inning draw there was another battle royal between Boston and Louisville, but this time Louisville managed to take the game with just one run to spare. Jupiter Pluvius sided with the colonels, and n farmer ever rejoiced more at the sight of rain in the middle f a dry spell than did the Kentucky fans when the driving sheets chased the teams to shelter at the end of the seventh inning and ended the game with the score in Louisville's favor.

Willis and Dowling, both youngsters, were in the box, and gave a splendid exhibition of how to keep batsmen guessing. The Boston twirler yielded four hits, three of which came in the third inning and yielded one of Louisville's two runs. Dowling's delivery was found safely only three times, and not twice in one inning. Score:

Earned run—Louisville, 1. Stolen base—Dexter. Base on balls—Off Dowling, 4; off Willis, 1. Struck out—By Dowling, 1; by Willis, 3. Double plays—Clingman, Ritchey and Davis; Dowling, Clingman and Davis; Wagner and Davis. Hit by pitched ball—Hoy, Dexter. Passed ball—Bergen. Left on bases—Louisvilles, 6; Bostons, 3. Time—1:30. Umpires—Gaffney and Brown. Attendance—1000.

A good close game of ball was played in Ottawa Wednesday. The Ottawas hit safer than the Providences, and won, 3 to 1.

The St. Louises won the first game with the Brooklyns by a brilliant finish in the ninth inning. The second game went to the Brooklyns through loose fielding.

The Washingtons' hits in Pittsburg were made in the fifth and sixth innings. Hoffer was too much for them, the balance of the time, and they lost, 4 to 1; rain stopped the second game in the second inning.

Looking Up Antecedents.

Pawtucket, Aug. 4.—Detective Haberlin of the local police arrested two men who are detained as suspicious characters until their antecedents could be looked up. They give the names of W. Davey of Boston and Charles H. Copeland of Somerville. On their persons were found letters from many parts of the country relating to business plans. One gave them the tip to keep away from Philadelphia, New York and Boston until "H" communicated with them; another note informed one of them that his note had been protested at a Philadelphia bank. In their possession also were notes and checks from banks in widely separated cities.

The only charge against the men at present is that of giving a check drawn on the Broadway National bank of Boston in payment for a board bill which check was afterwards protested. In Providence Davey was known as Elliott and Copeland as George H. Burnham. The Providence police took the men to that city.

NEWS IN BRIEF.

Such of the men at Camp Alger as are too ill to be removed with safety on the breaking up of camp will be taken to the general hospital at Fort Meyer, Va., for treatment. Those only slightly sick will accompany the command.

The Porto Rican junta of New York has disbanded. In its stead an advisory committee will look after the affairs of the island and the interest of the Porto Rican emigrants, exiled because of their political affiliations.

The congress of Colombia has unanimously resolved to deposit a sum equal to £60,000 as security for the amount due the heirs of the Italian subject whose claims against Colombia were decided in his favor by President Cleveland as arbitrator.

One thousand delegates, including professors, superintendents of education and school inspectors from all provinces of Canada, and a number from the United States, are attending the convention of the Dominion Educational association in Halifax.

The Norwegian steamer Franklin, of about 500 tons, bound from Vera Cruz with a cargo of food supplies, was captured Monday near Caibarien, and was brought to Key West by a prize crew. She had already landed a portion of her cargo when caught.

Five of the six big sash and door plants in Oshkosh, Wis., which have been closed for the past five weeks on account of the woodworkers' strike, started up yesterday under police protection with small non-union crews. Less than a dozen of the union strikers returned to work. The strike has lasted nearly 12 weeks.

It has been finally determined that the Yale and Harvard, chartered by the navy from the American steamship company for auxiliary naval purposes, shall remain in the possession of that department for the present. The naval branch has no further necessity for these vessels, but they will be loaned to the war department.

The Weather Forecast.

ALMANAC, FRIDAY, AUG. 5.
Sun rises—4:41; sets, 6:59.
Moon rises—8:32 p. m.
High water—1:15 a. m.; 1:30 p. m.

The area of low barometric pressure, with attending showers, will pass to the northwest today. Friday in New England promises fair weather, with somewhat cooler temperatures during the morning. The winds will be westerly. The temperature will rise Saturday, with unsettled but generally fair weather.

WELL DEFINED POLICY

What Nick Young Is Doing In the Freedman Incident.

Affirms His Intention to Act Decisively.

Considering Conditions of Fact and Law Before Adjudicating.

Washington, Aug. 4.—The following signed statement has been issued by President Young in regard to the New York vs. Baltimore forfeited game of July 25: "The recent unpleasant incident in New York resulting in the forfeiting of the game to the Baltimore club in the fourth inning on July 25 is the subject of much misunderstanding on the outside of official base ball circles, and even among some of our officials its status is not understood, and the league and myself have been subjected to criticism for apparent apathy. My silence might indicate that I am drifting and

PRESIDENT N. E. YOUNG OF THE NATIONAL LEAGUE.

awaiting developments, but on the contrary I have the matter well in hand with a well defined policy which I am convinced is in accordance with the law and the circumstances of the case.

"On July 25 Umpire Lynch reported to me the forfeiture of the game to Baltimore on account of the refusal of the New York club to continue play, and recited the circumstances about as published in the papers, asserting that he did not hear anything said by Player Holmes insulting to the audinece to justify his removel from the game. On July 26 the New York club protested to the board of directors against the decision of the umpire and the result of the game, claiming that the fact and the law do not justify his action, and form no basis for the forfeiture of the game.

"Here the question of fact is raised as to whether the New York club did withdraw its team from the game as comprehended in the league constitution and present legislation of the National league. The appeal was immediately transmitted to the Baltimore club for answer, and up to date no reply has been received.

"This case, of course, is entirely separate and distinct from any claim for the penalty imposed for the withdrawal of a team from a game before its completion, but it, at the same time, forms the basis of any further action that might be taken under the provisions of section 54 of the constitution.

"After a delay of several days, during which the payment on the check for Baltimore's share of the gate receipts was stopped on July 29, the Baltimore club appealed to the board of directors for the enforcement of the penalty of $1000 for the withdrawel of the New York team before the completion of the game. A copy of this appeal was immediately mailed to Mr. Freedman for answer, and likewise no reply has been received. In the consideration of these contentions I have two conditions to bear in mind, one of fact and one of law."

Wants to Meet Sharkey.

Boston, Aug. 4.—Jeffries has joined the journalistic pugilists, as will be seen by the following letter to The Post, dated at Oceanic, N. J., Aug. 1: "I want to meet that blowhard Sharkey again. He claims that he was robbed of his decision in his contest with me. The idea of Sharkey being robbed will make everyone who saw the contest smile. Sharkey must meet me after all his blowing or leaving the country. However, the rest of the 'heavies' don't want anything to do with him, but, although I defeated him once, I am stuck on his game. If I get him in a small ring where he will have to fight and not run, as he did before, I will demonstrate beyond a doubt that I am his match. I will insist on the smallest ring the club people will stand for, and we must go 25 rounds.

"In regard to Fitzsimmons, I will be pleased to make a match with him as soon as I get through with Sharkey, and I feel obliged to him for offering me a chance. I never challenged any man, but the public can rest assured I will give all the big fellows a chance to meet me. I think Fitz and myself will surely meet this fall or winter, and should we, I will go in the ring and do the best I can to win the championship of the world. Should I lose, 30 days later will find me back in the old werks, working away at boiler making, just as if nothing had happened."

No Prisoners Die.

Portsmouth, Aug. 4.—Not a single death has occurred for three days among the Spanish prisoners, and there are but two cases now that are considered at all dangerous. The bracing air has worked wonders among the sufferers.

A number of men who speak good English have been discussing the peace prospects with apparent satisfaction, and are much pleased to think that they are likely soon to be free. The officers have been received on the street, since peace negotiations were opened, with great friendliness on the part of the citizens, and the possibilities are that a grand jubilation will follow the formal declaration of the termination of hostilities.

FACTS IN A FEW LINES.

Germany prints twice as many books as France.

Rarely indeed is a blue eyed person found to be color blind.

In China horses are mounted on the right side and ships are launched sideways.

It is said that women criminals have larger hands and feet than average women.

Between the ticks of a watch a ray of light could move eight times around the globe.

The wall around the city of Babylon at the height of its prosperity was 56 miles in length.

The Chinese fiddle, in the shape of an ordinary hammer, has two strings and is played with a bow.

The custom of keeping birthdays is many thousand years old. Pharaoh's birthday festivities are mentioned in the Pentateuch.

Spurious coins are legally made in China. They are used to put in the coffins of the dead, and the superstition prevails that they make the dead happy.

The lantern fly of Surinam, South America, has two sets of eyes, so as to catch the light from all directions. Its light is like that of the ordinary firefly, but it is much more brilliant.

A prize for an essay on "The Duty of Kindness to Animals," offered by the S. P. C. A. to be competed for by London public school children, brought the society 136,465 essays this year.

Bank notes were forged to such an extent after the introduction of £1 notes that in 1802 no fewer than 70 extra clerks were employed at the Bank of England merely to detect them.

There are two great walls in China. One is 40 feet thick and 50 feet high and surrounds Peking. It is 16 miles in circumference. The other—the great wall of China—is nearly 1,300 miles long and was built 2,115 years ago—217 years B. C.

One thousand dollars was paid in Boston for a single sermon. The document is known as the "Plymouth Sermon," by Robert Cushman, and only five copies of it are in existence. The volume which contains it was printed in London in 1662.

Diamonds are cut in three different forms—the rose, the brilliant and the table, of which the second is the prettiest. It is a double pyramid or cone, of which the top is cut off to form a large plane, and at the bottom directly opposite to a small plane.

The origin of the word sirloin of beef is variously stated. One account tells us that King James I, of witch hunting memory, knighted a loin of beef at a banquet, which joint was ever after called sirloin. Another story ascribed the freak to Charles II.

An extension of the definition of assault has been devised by some London low churchmen. They attended an "asperges" service in a spiritualistic church and later asked for a summons for assault against the vicar, who had sprinkled holy water on them.

Samarkand has a cab service, but the Samarkanders are obliged to go on foot on Saturdays, as all the drivers are strictly orthodox Hebrews. The town authorities tried to force them to work on their Sabbath, but the appeal court has upheld the religious rights of the drivers.

The authorities of Vienna have decreed that if the owners of 1,263 specified houses will replace them with new structures they will be guaranteed a release from the payment of taxes for 18 years. This offer has been made to encourage the removal of tumble down buildings.

Of 35 flags shown in a flags of all nations supplemnt to a London weekly in 1858, barely 40 years ago, 11 have disappeared, among them those of the East India company, of the Ionian islands, of Tuscany, Naples and the States of the Church, of the Russian-American company and of Sardinia.

Large portions of the old royal castle in Berlin are to be remodeled to make it habitable. The emperor's desire is to be able to offer a comfortable abode to his guests on great festival occasions, who have previously been quartered in various Berlin hotels at great expense to the imperial exchequer.

The conditions under which British sailors and soldiers live are far more sanitary now than in the past. In 1865 more than 11 deaths occurred in every 1,000 men afloat, while ten years later the number fell to 6.8, in 1885 to 5.4 and in 1895 to 4.4. In the army the figures are not quite so satisfactory.

Scott put no great value on his manuscript, which was probably the most perfect and least erased and altered that any author of high rank can show. The copy of "Old Mortality" was sold the first time for £33; last year it fetched £600. "The Lady of the Lake" has brought £1,290. Lockhart gave the manuscript of "Rob Roy" to Cadell, and it sold for £600.

The old time names of flowers are said to be coming into use again. It is now more fashionable to say "daffadown dillies" than jonquils, and "johnny jumpups" than pansies. Instead of bouquets we hear of "nosegays" and "posies." A writer on social usages says that we may yet carry sprigs of lavender and bergamot or a handful of caraway to "meetin" in imitation of our grandmothers.

An important musical discovery is reported from Vienna in the shape of manuscript compositions by Schubert and Beethoven, which have come to light in the archives of the Peterskirche. These consist of nine songs, a complete mass, a fantasia for four hands and a rondo, all in good condition, by Schubert, and a choral work, with full orchestral parts, by Beethoven. The manuscripts will be transferred to one of the public collections in Vienna.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Miss Annie Hall is visiting in Hartford, Conn.

The public schools will open four weeks from next Tuesday.

The Board of Health went on another tour of inspection Wednesday.

Sewer pipes are being laid on Presidents avenue off Water street.

Miss Mary Mullen of Church street, East Milton, is at Beverly Farms.

What's become of gunner Allie Williams? His letters are missed.

The managers of Public Burial Places hold their monthly meeting tonight.

There will be a meeting of the City Council committee on Sewer assessments tonight.

A large barge party from Atlantic went to Egypt, Wednesday, and spent the day in blueberring.

The recent spell of damp weather has thrown the partitions between the several offices at City Hall out of shape.

Supt. H. W. Lull of this city and ex-Supt. Aldrich are among the instructors at the Caledonia County, Vt., normal training school which opened at St. Johnsbury this week.

It looks as if Representative Newcome might have a walkover for the Republican Senatorial nomination. A worthy man and faithful to his constituency.

Commencing today cars on the Braintree and Holbrook line of the street railway run through to Campello. Seven cars are required to give half hour service, half of which are furnished by the Brockton street railway.

Peace on the Pacific.

London, Aug. 4.—A despatch to The Mail from Singapore says: "President McKinley's proposal that a commission should decide the future government of the Philippines is considered here as giving Spain a chance of recovering partial authority over her revolted subjects. This state of things, it is thought, might afford an opening for intrigues on the part of foreign powers unfriendly to America, Great Britain and Japan, and might prove dangerous to the cause of permanent peace in the Pacific."

Resignation of Officers.

Boston, Aug. 4.—The Journal has a special from Ponce as follows: "A tremendous sensation has ccurred in the Sixth Massachusetts regiment, which is in Gen. Garrettson's brigade. The friction between the line officers of the regiment and the officers of the brigade, which has been growing ever since the command left Cuba, reached its climax today, when Colonel Woodward, Lieutenant Colonel Chaffin, Major Taylor, Chaplain Dusseault and Captain Goodell of Company K resigned their commissions. The exact reason which prmpted them to take this action is not at present known. The cause must have been serious indeed. The resignation leaves Major Charles S. Darling in command of the regiment."

One fare for the round trip to Saratoga during the week August 1st to 6th, inclusive, via the Fitchburg Railroad. Full particulars at 260 Washington St.

—Rev. R. R. Kendall of the Old North church at Weymouth starts this week on a bicycle trip through western Massachusetts and into Connecticut.

Many a husband imagines that his wife is happy, healthy and strong, when she is really enduring in silence almost unbearable tortures. She meets him at the door on his return from work or business with a smile and a kiss. To be sure, she looks a little white and pallid, but she is vivacious and cheerful in his presence, and he does not realize that anything is wrong. If he had but come home during the middle of the day, he would have found, instead of the cheerful wife, a weak, sickly, nervous invalid, with headache, pains in the back, "stitches" in the side, burning and dragging down sensations and utter despondency and melancholy.

In almost every case of this kind the woman is really suffering from weakness and disease of the distinctly feminine organism. Frequently she does not realize her own condition. If she does, she shrinks from undergoing the "examinations" and "local treatments" insisted upon by the average physician. Dr. Pierce's Favorite Prescription is the medicine needed by women who suffer in this way. It acts directly on the sensitive organs concerned and makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the shattered nerves. It transforms weak, sickly, nervous, despondent invalids into happy, healthy wives and competent mothers. It fits for wifehood and motherhood. It makes "examinations" unnecessary. Honest dealers do not suggest substitutes for a little added profit to be realized thereon.

"I had suffered untold misery for years with ovarian trouble, an exhausting drain, constipation, painful periods and other annoying troubles," writes Mrs. Annie James, of No. 27 Seventh Street, Memphis, Shelby Co., Tenn. "Thank God, my health has been fully restored and I can gladly say I am a well woman to-day. I used six bottles of Dr. Pierce's Favorite Prescription and was completely cured."

Dr. Pierce's Pleasant Pellets cure constipation and biliousness. They never gripe. All good dealers have them.

THE LATEST THING OUT IN STRIPES.
—New York World.

Bank Thief Helped Himself.

Sedalia, Mo., Aug. 4.—The Bank of Commerce of this city was the victim of a sneak at the noon hour yesterday, and it is thought a rich haul was made. President Yeater and Cashier Ittel refused to divulge the amount of the loss. While either Mr. Yeater or Mr. Ittel was at the cashier's window the thief made his way through a side door into the directors' room in the rear of the bank proper and then inside of the railing, from where he stepped into the bank's vault and helped himself.

John Maines, an advertising solicitor of Terre Haute, Ind., who had been in the bank about the noon hour Monday soliciting an advertisement for a railway publication, has been arrested. Maines bears good credentials. He is, however, being held pending an investigation. The bank officials declare that whoever got the money had an accomplice, the latter engaging the attention of the cashier, while the other robbed the vault.

Street Franchises and Water.

Detroit, Aug. 4.—After listening to exhaustive essays upon water supply, the members of the League of American Municipalities spent yesterday afternoon on the lake. The question of remuneration to cities for franchisrights in streets was discussed in a paper by Mayor McMurray of Denver, who believed that ownership of all public utilities must come, but must be arrived at gradually. Mayor McGuire of Syracuse spoke upon public water supplies and the advantages which had accrued to his city from being naturally in a position to furnish water more cheaply than any other city.

Killed a Scoundrel.

Wichita, Aug. 4.—At Anardaka, Oklahoma, a negro named Barnet was killed while trying to enter the room of Phoebe Stokes, a school teacher at that place. Miss Stokes heard him poking at the window and fired six shots into his body, killing him instantly.

Seeking Comparative Peace.

"Where are you going?"

"To the recruiting office."

"But I thought you said the other day that you couldn't afford to go to war—that your business would suffer if you did."

"I've decided to let it suffer. My wife's mother writes that she is coming here to spend the summer."—Cleveland Leader.

WOMAN'S WORLD.

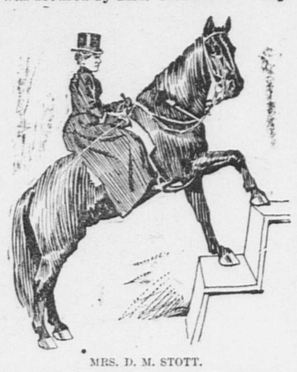

THE GARFIELD EQUESTRIAN CLUB OF CHICAGO.

The Stout Woman's Stays—A New Field For Clubwomen—Ultra Fashionable Girls—To Keep Off the Dust of Travel. Care of the Finger Nails.

There is only one equestrian club in Chicago composed exclusively of women, and so far as the members of the Garfield Equestrian club know their organization is the only one of the kind in the United States, with the exception of a club in Kansas City, which also admits only women to membership.

The Garfield Equestrian club is a flourishing and prosperous organization whose membership includes 38 of the best horsewomen in town. Each and every one of them is devoted to the sport and scorns the bicycle. "Our sport is the grandest exercise known," declares Mrs. H. E. Argo, the president of the club, and then she added, to show the superiority of the equestrienne over her less fortunate sister who rides a bicycle, "We never have to return home on account of a puncture."

The club was organized in June, 1895, although a charter was not obtained until Jan. 14, 1896. This charter was secured by Mrs. Clotilda F. Chapman, Mrs. Josephine A. Fitzpatrick and Mrs. Sadie E. Argo. The object of the organization was stated therein to be for the purpose of promoting equestrianism in the west division of Chicago and for other social purposes. In each of these the club has been successful. It is estimated that the number of women who ride horseback is now three times greater than it was three years ago, the example of the club members having awakened a desire in other women to indulge in the fascinating exercise. There are others who would like to ride, but they are deterred by the expense. The bicycle has one advantage over the horse, it doesn't cost as much to feed, and there is no expensive board bill.

MRS. D. M. STOTT.

As for the social feature upon which the members of the club laid stress in their application for a charter, that has been constantly kept in view. The West Side has probably not a body of women who enjoy themselves more than do these horsewomen. When the club was organized, it was predicted that the women would not be able to manage or control such an organization without friction. This prediction has not been verified. Indeed it would be strange if women who were able to control their spirited horses, and that is not an easy matter, were unable to control themselves.

Men are not barred from association with the members of the club. They ride with them and attend the socials, for, as Mrs. Argo frankly confesses, "We would find it monotonous without them at times." Indeed the captain of the club is a man, Congressman Mills. He has held the proud post for three years, it being believed that a man would be of great advantage to the club on their long rides. But Congressman Mills has really held this position only in theory, for most of the time he has been in Washington, and the command of the organization upon its trips has fallen upon the shoulders of Mrs. D. M. Scott, the lieutenant.—Chicago Times-Herald.

The Stout Woman's Stays.

Here is another boon for the stout women who suffer from a surplus of hips, etc., and who have too much conscience or too hearty appetites to lace. Let them give ear to the new theory of lacing their corsets by which too solid flesh may be held in abeyance and yet no harm done physically.

The dressmakers have got this new device from a physician who says to pull out your corset laces as you now have them, lay the eyelet sides of the corsets vis-a-vis, as though to begin a fresh orthodox lacing, and then, taking one lacer, put it from beneath through an eyelet at the waist line on that side of the corset lying at your left.

Draw the lacer through as far as the top eyelet, run through this one and let an end four or five inches long project. Now take the other lacer and pass it through that eyelet next below the one where the other lacer first went through and draw it down to the bottom eyelet, run through and let a five inch end hang. Pick up the great length of the first lacer and begin zizagging it back and forth through eyelets on both sides of the two sections of the corset until an end hangs out opposite the first end mentioned.

With the long portion of the second lacer zigzag through the holes of both pieces of corset to the bottom, where an end must hang out opposite the second end mentioned.

When so laced up, put on the corsets, hook them and see what will happen. Simply pull on the top and bottom ends of the laces that are not zigzagged through, and the corset will first draw in to fit about the waist and ribs comfortably and without pressure. At top and bottom, though, where, over the bust and hips, the edges of stays always project and add greatly to girth, these edges will draw in perfectly tight and flat.

No discomfort will be felt, and, so lacing her stays, a woman can reduce her hip and bust measure a matter of three to five inches. In doing this the flesh is not rolled up under her chin or thrust out in ungainly lumps, because the stay is easy at waist line and over ribs.—Philadelphia Ledger.

A New Field For Clubwomen.

Every woman who crossed those treeless prairies west of the Missouri by daylight on her journey to Denver or from it realized as she had never done before the work that many western clubs are doing in attempting to provide these isolated homes with reading matter. The monotony of life in those stock farms to the wife and mother, who has not even the variety of riding over the plains that falls to the men of the family, must be little short of the insanity line. In one low house which a traveler noticed from her car window, which was made of sod—as many of these were before it became possible to get timber moved easily—there was at its tiny front window a pair of lace curtains. There was something strangely pathetic in those draperies in that rude earth made dwelling. It seemed an effort on the part of the mistress of the place to live up to the teachings of her childhood home, where the parlor and lace curtains meant company and festive occasions. The little house stood alone, a tiny island in a sea of limitless prairie, unbroken as far as the eye could reach by any other sign of human life.

To such homes one can fancy the relief which books and magazines must bring, and it is suggested to city clubs, whose members find their residences actually cumbered with reading matter in various forms, to communicate with some western club that is undertaking to distribute books and magazines to the prairie dwellers. One such organization is the Woman's club of Olympia, Washington, whose philanthropy in this regard for several years past has been noteworthy, and another is the Woman's club of Denver.—Harper's Bazar.

Ultra Fashionable Girls.

The latest fad, and one scarcely to be imitated with any profit whatever, is left hand shaking. Indeed in this fad the life of the initiated is not wholly free from carping care, for the knowledge of the fad is not widespread, and it is a puzzling situation for the ultra fashionable girl when she advances to meet a girl friend or foe with her left hand raised at a proper angle of greeting only to encounter a right hand all out of focus with her own, accompanied by a most bewildered expression of countenance. It is a trying moment for all hands, and the girl who has the consciousness of being very much up to date is really not much more comfortable in mind than is the girl who is oppressed with a sudden fear of her friend's sanity. But the very eccentricity of this fad will help it to be a go. The busy world will not spare the time to acquire the trick; hence its exclusiveness and popularity will remain for some time unmarred.

It is the correct thing this summer for women to walk with their arms hanging at their sides, and not with the elbows pointed out and swinging the arms about as heretofore. This is a good piece of news, for certainly the young women have not looked graceful, to say the least, as they walked along the city streets imitating the loose arm swing of the men. But now, when the dress has not to be held up, and when no parcels or bundles are being carried, every girl who wants to be thoroughly up to date lets her arms dangle at her side in the most ladylike and demure of fashions.—Brooklyn Citizen.

To Keep Off the Dust of Travel.

In traveling, and particularly for summer journeys, when dust is most plentiful, bonnet bags will be found very useful. Even on short journeys to keep a hat protected from cinders and dust for a few hours adds much to its appearance upon arrival. For a long overland journey such are almost indispensable. Some women buy very large sized sponge bags, their rubber linings having special excellence. For very large hats, however, it is impossible to get one of sufficient size, and a bag of any closely woven fabric is equally useful. Occasionally careful wives provide these coverings for their husband's hats as well, though this seems almost unnecessary, as men's head coverings can be readily rid of dust.

A traveler was seen recently slipping the jacket of her traveling suit into a long, light bag provided for the purpose, which, when drawn together at its mouth by the shirr string and hung in a sleeping car section, kept the jacket as perfectly as if it were lying at home on a closet shelf. This same woman had over her expensive seal and gold mounted hand bag a handsome cover of black cloth. It fitted neatly with flaps conveniently arranged for the opening of the bag. When the latter was closed, the cover strapped down so as to cover it completely with the exception of the handle. A large monogram was embroidered on the side of the cover in gold floss.—New York Post.

Minnie Cornelius, an Oneida Indian girl and a direct descendant of a long line of chiefs, is a recent graduate from Grafton Hall, a girls' school in Fond du Lac, Wis. She is a good Latin and Greek scholar, and has compiled a grammar of the Oneida language.

Round crystal watches, showing on one side the face and on the other the works, are a fad of the hour. They are worn attached to a silver watch pin or to the chatelaine and look swell with outing suits.

Miss Leonora Jackson, an American, won the Mendelssohn stipendium, a highly esteemed musical prize in Berlin recently.

Five Thousand Dollars' Worth of
Crockery and Kitchen Furnishing Goods.
Neither war nor hard times need prevent you from having all the goods you want when they can be had almost for the asking.
Come and see the greatest inducements in the history of Quincy. You want the goods and I need the room for new stock.
G. B. BATES,
THE PLUMBER,
HANCOCK STREET, - - QUINCY.

The Secret
of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.
This is only one of the many good qualities of a gasoline stove. Prices from $3 50 upwards.
HENRY L. KINCAIDE & CO.,
HOUSE FURNISHERS,
Hancock Street, - Quincy.

BEAR IN MIND
That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.
We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

WILL NOT BE HUSTLED

Premier Sagasta Proceeding In a Leisurely Manner.

Minding the Exigencies of Home Politics.

Spanish Admiring Apparent Hesitancy and Deliberateness.

Madrid, Aug. 5.—Though peace is regarded as assured, it may not be attained so quickly as generally expected. Premier Sagasta objects to being hustled, and insists upon everything being done in a quiet, orderly and dignified manner. He considers it necessary to have full and satisfactory explanations as to all doubtful points in order to enable him best to protect the national interests against the aggressive tendencies of the Washington cabinet. He has also to examine very minutely the exigencies of the internal situation and home politics, so as to avoid popular dissatisfaction and political unrest.

The Spanish people, though sincerely desirous of peace, are disposed to admire this hesitancy, and tenacious holding out till the last, although aware that it implies greater sacrifices. As an illustration of this feeling, while General Toral is blamed for capitulating at Santiago, Captain General Augustin, for continuing a hopeless resistance at Manila, bids fair to be a popular hero.

It would be premature to suppose that the political consultation now proceeding foreshadows the resignation of the liberal cabinet when peace is concluded. The conservatives have so constantly and loyally supported Sagasta throughout the war that no factious opposition need be feared for them.

Early Next Week.

London, Aug. 5.—The Madrid correspondent of The Mail says: "The government has not yet answered the American note, nor received President McKinley's reply to the explanations asked for by Sagasta. The premier said yesterday that the government would reply to the American demands early next week.

"In consulting the party leaders Sagasta is following the precedent of Castelar when the Virginius affair threatened war with the United States. It is not probable that he will resign as a result of the conferences. The premier is inclined to rush the treaty through without convoking the cortes, trusting to get a bill of indemnity next month, but the party leaders are not likely to consent to this course."

YELLOW FEVER.

Communication From Colonel Roosevelt That Stirred War Department.

Washington, Aug. 5.—Spain no longer causes the administration anxiety, but Spain's dread ally is regarded with the greatest apprehension. In the early days of the war Spain boasted that she must be triumphant, because even if the Yankees were able to defeat her forces on land and sea, they could not defeat her invincible ally, yellow fever.

It has waited for an army officer to tell the public the true state of affairs. A great many good things are to be put down to the credit of Teddy Roosevelt. He has before this made trouble fr himself by talking, but his talk is always honest and it accomplishes the purpose. Roosevelt, a man of intelligence and accustomed to prompt action, being on the ground, saw what was going on and what the inevitable result must be. With him to see was to act. He promptly addressed a communication to General Shafter, and then recognizing that an official communication would in all probability be suffocated in the red tape of the surgeon general's office, or get lost in the mazes of official communication, took the surest way of attracting national attention to the horrible condition of affairs by making his views public through the press.

Among other things Mr. Roosevelt said: "If we are kept here, it will in all human possibility mean an appalling disaster, for the surgeons here estimate that over half of the army, if kept here during the sickly season, will die. This is not only terrible from the standpoint of the individual lives lost, but it means ruin from the standpoint of the military efficiency of the flower of the American army, for the great bulk of the regulars are here with you. The sick list, large as it is, exceeding 4000, affords but a faint index of the debilitation of the army. Not 10 percent are fit for active service. Six weeks on the north Maine coast, for instance, or elsewhere where the yellow fever germ cannot possibly propagate, would make us all as fit as fighting cocks, able as we are and eager to take a leading part in the great campaign against Havana in the fall, even if we are not allowed to try Porto Rico."

When the war department learned that Colonel Roosevelt's letter to General Shafter had been made public, the officials from the secretary down were thrown into a state of semipanic. At first they attempted to minimize the serious state of affairs by suggesting Colonel Roosevelt had been betrayed into exaggeration in his communication to General Shafter, then they explained with some elaboration that Colonel Roosevelt's request for the return of the troops to the United States had already been anticipated and arrangments were now being made to bring the troops back to this country with the least possible delay.

Roosevelt's communication also directs attention to the condition of the home army. The health of the troops in the camps in Virginia, Chickamauga and further south is said to be a good deal worse than the public suspects. A great many of the facts are suppressed, and every effort is being used to prevent the knowledge of the actual state of affairs from becoming public.

All that the medical department had to say on this subject was that if the troops must remain near Santiago an effort should be made to remove them at once to healthier ground.

Surgeon General Sternberg agrees thoroughly with the opinion expressed by the signers of the "round robin" at Santiago, that men who had suffered from the malarial fevers of the south Cuban coast, so far from being immune against attack of yellow fever, as has been asserted in some quarters, are actually in very much greater danger than those who have escaped the malaria. Malarial fever, it is stated, is no more protection against a subsequent attack of yellow fever than would be a case of measles against small-pox, while the fearful debility resulting from the malarial fever would certainly tend to make the victim an especial mark for yellow fever.

The department gave out a statement of its resources in the way of transports at Santiago, and also as an incident directed attention to the fact that the troops cannot be withdrawn, as a whole, until the Spanish prisoners are disposed of. Otherwise there is no certainty that, finding themselves able to do so, the Spaniards would not overpower their captors, re-possess themselves of Santiago, and thus lose to the American army the foothold in Cuba which it has cost so much blood and money to secure. It is, however, the expectation that all of the American troops will have been removed from Santiago to the United States by the end of this month, and that is probably the very best that can be done under the circumstances.

The president is reported as being extremely dissatisfied with the conduct of the medical corps, but the head of the corps cannot be removed except by court-martial proceedings. If the surgeon general were not protected by his commission he would undoubtedly have been removed before this.

Spain has not yet signified whether she intends to accept or reject our peace terms, but the administration feels confident Spain will accept, and that the matter will be closed by the end of the week.

Letters For the Soldiers.

Washington, Aug. 5.—Mail matter intended for the men with Shafter's army should be sent to Santiago, while that intended for the army with Gen. Miles shoul bear the superscription, "Portto Rico expedition, via Washington," whence it will go forward as rapidly as possible o its destination. If money is to be sent the soldiers in Santiago or Poro Rico the best means would be a draft on New York, as the presumption now is that business will be opened promptly between financial institutions in the city of New York and those cities taken possession of by our army.

As to supplies other than that for hospital purposes, the government has no fund available for such shipment, and they should be sent by express or freight according to their character. In the matter of hospital necessities the government will undertake to see that they reach the army, but it does not promise to deliver them to the organization to which they are consigned.

Rather Nettled Alger.

Washington, Aug. 5.—The following correspondence has passed between Colonel Roosevelt and Secretary Alger:

"Santiago, July 23.

My dear secretary—I am writing with the knowledge and approval of General Wheeler. We earnestly hope that you will send most of the regulars, and at any rate the cavalry division, including the rough riders, who are as good as any regulars, and three times as good as any state troops, to Porto Rico. There are 1800 effective men in this division; if those who were left behind were joined to them, we could land at Porto Rico, in this cavalry division, close to 4000 men, who would be worth, easily, any 10,000 national guards armed with black-powder springfields or other archaic weapons.

Very respectfully,
Theodore Roosevelt."

The following reply was cabled to Colonel Roosevelt by Mr. Alger:

"Yours of the 23rd is received. The regular army, the volunteer army and the rough riders have done well, but I suggest that unless you want to spoil the effect and glory of your victory, you make no invidious comparisons. The rough riders are no better than other volunteers. They had an advantage in their arms, for which they ought to be very grateful."

Killed For Not Resisting.

Madrid, Aug. 5.—An official dispatch from San Juan says that Colonel Martin, who was in command of the Spanish garrison at Ponce, has been courtmartialed and shot for abandoning the place without resistance. Lieutenant Colonel Puiz, the second in command, committed suicide.

The Saboya battalion has defeated a large band of insurgents near Monte Verde, province of Matanzas. The enemy abandoned their positions and were pursued at the point of the bayonet. They lost heavily, including their commander, Jovel.

Agunaldo's Two Requests.

Hong Kong, Aug. 5.—Aguinaldo, the insurgent chief, is becoming more friendly to the Americans. He has made two propositions to General Merritt which may solve the insurgent problem in a manner highly advantageous to the United States. In the first place he asks the commander-in-chief of the American land forces to permit the rebel troops to march through the streets of Manila when the city surrenders.

In the second place. Aguinaldo suggests the formation of Philippine regiments with American officers. This is considered a highly important proposition, a probable key to the whole situation throughout the whole island.

We Have Grown Big.

London, Aug. 5.—The News publishes this morning an interview with General Grosvenor, member of the house of representatives for the Eleventh district of Ohio, who is now in London, in the course of which he is represented as having said: "I do not believe that the United States is prepared to enter upon a permanent alliance with any European power; neither would America accept any European dictation. We have grown that big already."

Chain Has Too Many Links.

Washington, Aug. 5.—Dimes have been pouring into the navy department upon Secretary Long, contributed by patriotic Americans who want to build a battleship to replace the Maine. Somebody, the secretary does not know who, started an endless chain to this end, and the secretary is doing his best to break the chain. To such of the contributors as give their address he is returning the money with a note informing them that he has no authority under the law to receive it, and that the object seems to be otherwise provided for, as congress has specifically appropriated money for the construction of another battleship to be known as the Maine.

Lemons For Hospitals.

New York, Aug. 5.—Lieutenant Colonel Brown, the head of the medical supply depot, received a communication from Helen Gould saying that Ira Belnet of San Diego, Cal., had telegraphed to her offering a carload of lemons for distribution among the army hospitals. Colonel Brown replied that the gift would be most acceptable.

Major William H. Arthur, in charge of the hospital ship, Missouri, received a letter from Helen Gould as follows: "Is there anything in the way of supplies or apparatus that would contribute to the comfort of the sick and wounded on board the Missouri? This association would gladly contribute to the equipment of the ship under your direction and on receipt of instructions from you."

The association meant is the Woman's National War Relief association. Major Arthur answered that he would like the association to furnish at once four electric ward kitchens. Miss Gould later asked him to forward an estimate of the cost of the kitchens and stated that the association would gladly supply them. It is estimated that they will cost $500 apiece.

Postmasters Who Blunder.

Washington, Aug. 5.—The revenue act prescribes a tax of two cents on each postal order. Instructions were issued in advance to all money order postoffices that this tax was to be collected, not by affixing stamps to the orders, but by charging 2 cents to the buyers of orders in addition to the regular fee. The 2 cents are to be accounted for separately by postmasters to the auditor of the postoffice department, and the gross amount of the collections, estimated at half a million dollars per annum, will be transferred from the postal revenue to the internal revenue fund quarterly.

In spite of the plain instructions, orders are now coming in to the auditor's office with revenue stamps affixed. Some of them have evidently been affixed and cancelled by postmasters, others by purchasers of money orders; still others, and most numerously, by payees when they receipt for the money. All this is a double payment of tax, for the selling postmaster will in every case be required to account for 2 cents on each order sold. No revenue stamps are in any case to be attached to United States orders.

Ceremony Was Disappointing.

Berlin, Aug. 5.—As a spectacular display, the Bismarck funeral ceremony impressed those who beheld it, but in other respects it was disappointing. It bore traces of haste and half-heartedness. The church was inadequately decorated, and the public displayed no enthusiasm. So far from having the exceptional character of national mourning for a nation's greatest statesman, the event differed hardly any from hundreds of similar functions that may be witnessed here any time.

Perhaps the most disappointing feature, though it was known beforehand, was the fact that not a single member of the Bismarck family attended. The royal pew, set apart for their accommodation remained conspicuously and significantly empty. It may be admitted that the deceased statesman was not altogether popular with the masses in Berlin, but on such an occasion, this alone could hardly account for the sparseness and nondescript character of the public attracted to the scene. The bitterness of the old chancellor toward the young kaiser seems to reach beyond death. Yesterday's incident was emphasized by the fact that Prince Herbert Bismarck came to Berlin during the afternoon on private business.

DECOY DIDN'T DECEIVE

Red Cross Flags on Vessels Containing Soldiers.

Investigation Discovers Cunning of the Spanish.

Then the Yellow Fever Scare Started, With Poor Effect.

Key West, Aug. 5.—No confirmation has been received here of the report that Neuvitas, the chief port of the province of Puerto Principe, had been evacuated by the Spaniards after a bombardment by American warships. The auxiliary cruiser Badger, which captured three prizes at Nuevitas July 26, and left with them that day for Dry Tortugas, arrived here yesterday. Captain Snow said that at the time of his departure all but about 1800 Spanish troops had left the city, and a general evacuation was expected, but to all intents and purposes the place was still held by the enemy, and there had been nothing in the nature of an attack.

The Badger was covering the blockade station at Nuevitas on July 26 when one of the Spanish boats slipped stern foremost to the mouth of the harbor and took a peep at her. The enormous hull of the American ship, bristling with Nordenfeldt guns, scared her captain, and she scurried back to shelter. A little while later, however, three vessels were observed coming out in excellent formation, and Captain Snow thought a good fight was coming. He brought his ship up to the mouth of the harbor and prepared to give the Spaniards a greeting, when it was discovered that instead of gunboats the advancing ships were a tug, a brigantine and a barge, the last two in tow, all flying Spanish and Red Cross flags. A couple of shots from a six-pounder were fired in their direction, and they promptly surrendered. The tug was the Humbert Rodriguez, fine and new and worth about $70,000. The brigantine was the Safis, and the barge was the San Fernando. A party from the Badger boarded the prizes and found distributed over them about 400 Spanish soldiers, who, it was said, had been ordered to Havana by General Salcedo. The surgeon in charge asserted that there were six cases of yellow fever among the troops, but a careful examination by the Badger's doctor, and afterwards by other physicians at Tortugas, showed there was no infection among the men, and that the Red Cross flags were used as a decoy.

At Nuevitas the Badger also took aboard eight deserters from the Spanish army, who are still on board the ship. They are all of the Twenty-second Cadiz battalion. They were marching from the town of Puerto Principe to Nuevitas, and when near the latter place the sergeant reported four men missing, and asked for a detail of three men to find them. This was granted, but the detail also deserted, and, with the other men, made their way to Martinillo light. Here they took the lightkeeper's boat and rowed out to the Badger, surrendering themselves, with their rifles and ammunition. They said they did not want to serve under Spanish rule. In Nuevitas and, in fact, throughout the entire province, they said, the inhabitants are starving.

The Badger with her prizes reported to Commodore Rowell, off Havana, who ordered them to the Tortugas. At that place Captain Snow communicated with the Washington authorities and was instructed to send all the prisoners to Havana, if one ship could carry them; if not, to put some of them on a second ship and send them to New York.

Paragraphs About Boston.

Boston Aug. 5.—President Sherwin of the New England Telephone and Telegraph company says that there is no truth in the story that that company is negotiating the purchase of the Southern Massachusetts Telephone company. He also denies that any trade or new alliance is on foot.

The leading stockholders of the Electrolytic Marine Salts company held an informal meeting yesterday, and authorized the officials to pay all bills of the company and settle up its affairs. Officials of the company have not given up the idea that there is some merit to Mr. Jernegan's sea water gold process.

John T. Moran, 54, living in South Hingham, admitted to the state fire marshal that in the early morning of July 30 he attempted to fire the house of George Simpson, a neighbor. He ascribes his act to frenzy, and says that mischievous children who visited Simpson were the cause of this frenzy.

David Plutchek, a Bridgeport newsboy, aged 13 years, was run over and killed by a trolley car.

Maurice Conlan, a switchman, was truck and killed last evening by a train which he did not see, as he was flagging one from an opposite direction. About two hours later John Sullivan, a brakeman on the road, while going to his work, slipped near the same place in front of a train, all of the cars of which passed over his body.

Mrs. Logan, wife of the lieutenant colonel of the Ninth regiment, received a cable dispatch yesterday that her husband was very ill of yellow fever, and that he was on a transport. The dispatch also says that Captain Dunn and Sergeant Sullivan, both of South Boston, are both striken with the fever.

Died of His Injuries.

Providence, Aug. 5.—James North, who was assaulted and had his skull fractured in Olneyville, died yesterday in the Rhode Island hospital. The police have been informed that North was struck on the head with a billiard cue by a man named Harry Hur. The latter has not been found. North leaves a widow. Hur is unmarried.

City ordinance in relation to sewers.
Half a house to let.

Funeral of Mr. McCarty.

The remains of the late John F. McCarty of Norfolk Downs who died last Sunday from the effects of a bicycle accident received on the Friday night before on Newport avenue, was laid to rest in the family lot at Foxboro, Thursday.

At 7.30 o'clock a large delegation of members from Merrymount Lodge, No. 127, A. O. U. W., Quincy, of which body the diseased was a member, augmented by seventy-five shopmates formed in line on Hancock street and marched to the late residence when they viewed the body. They escorted the remains to the church of the Sacred Heart in Atlanic where mass was sung by the Rev. Father Johnstone of Quincy.

The ceremony was very impressive and was solemnly listened to by an assemblage filling the church to the doors.

The body was then taken to Foxboro, accompanied by relatives and a number of friends in carriages. The pall bearers were Mr. Thomas Raiche, Mr. Frank Finnigan, Mr. Leonard Addison, Mr. Wm. Flemming, Mr. Geo. Murch, Mr. George Turner.

Mrs. McCarty was unable to leave her home, being completely prostrated with grief and fatigue from the long journey from Charlottetown, P.E.I., where she was summoned from so suddenly.

Mr. McCarty leaves a heart-broken widow and two bright little boys, beside many relatives and friends to mourn his loss.

Day's Outing at Hampstead.

The clerks of E. H. Doble & Co. had a jolly time on Grocers' Day. The party, thirteen in number, left Quincy at 6.45 in the morning and journeyed to Haverhill by train. Upon arriving there a four-horse drag was in waiting and the jolly party were soon spinning along toward Hampstead, their objective point. The object of the trip was to make a wedding call upon Mr. and Mrs. Joseph R. Frost, Mrs. Frost (nee Nutting), having for many years been employed as cashier at the store of E. H. Doble & Co.

The call was not unexpected and upon their arrival they were made welcome and the remainder of the day was passed in a pleasant manner.

The start for home was made at 5.50, and the late train brought them from Boston to Quincy.

The Sewer Ordinance.

The ordinance concerning house connection with the sewer system is published in this issue as required by law, and many will have their first opportunity to read it. As there is a penalty of $20 for each violation, householders should read it carefully. Applications for entrance must be made in writing to the Commissioner of Public Works, and an advance deposit of the estimated cost must be made before the work is begun.

Funeral of Father Osgood.

The funeral of Rev. Joseph Osgood, pastor emeritus of the First Unitarian church at Cohasset, was held Thursday, being largely attended by people of all denominations. Rev. John W. Day of Hingham, Rev. E. Victor Bigelow of Cohasset, Rev. Charles T. Billings of Lowell, Rev. Mr. De Normandie of Kingston, and Rev. W. R. Cole, the active pastor of the church, all took part. Other clergymen were present.

—The new Frederic C. Adams public library at Kingston was dedicated Thursday. It is of brick with white marble trimmings, of colonial style, and the dimensions are 50 by 30. The bequests also allows a fund of about 15,000 for books, etc.

A SMALLER TAX RATE.

It is But $18 This Year and a Surprise to Many.

The Increase in Valuation Over a Million Dollars.

The City's Valuation is Now $19,236,832.—A Big Gain.

Just before two o'clock this afternoon the Assessors of Quincy announced their figures for 1898, and the tax rate will be $18 per $1000. This is a drop of eighty cents from last year and very good news, for it will go lower still next year.

The Assessors figures of valuation are as follows:

Personal estate,	$2,254,675
Real estate,	16,812,825
Resident Bank Tax,	169,332
City,	$19,236,832

Tax rate for 1898, $18 per $1,000.

LEVY OF 1898.

City tax, (levy voted by the City Council,)	$205,000 00
City tax, (notes maturing during the year,)	121,873 30
Metropolitan water tax,	3,206 51
County tax, (less $1 per poll,)	8,762 39
State tax, (less $1 per poll,)	3,879 00
Polls, (6,626,)	12,252 00
Overlayings,	3,541 77
Total,	$358,514 97

LEVY OF 1897.

City tax, (levy voted by the City Council,)	$195,000 00
City tax, (notes maturing during the year.)	98,220 00
City tax, (interest to be paid during the year,)	26,011 21
County tax, (less $1 per poll,)	10,476 92
State tax, (less $1 per poll,)	5,746 50
Polls, (6,031,)	12,062 00
Overlayings,	8,173 71
Total,	$350,690 30

WARD VALUATION—1898.

	PERSONAL.	REAL.	TOTAL.
Ward 1,	$1,078,700	$5,143,900	$6,222,600
Ward 2,	300,700	1,652,700	1,953,400
Ward 3,	329,150	2,084,700	2,413,850
Ward 4,	280,700	2,141,525	2,422,225
Ward 5,	209,900	3,402,350	3,612,250
Ward 6,	55,525	2,387,650	2,443,175
City,	$2,254,675	$16,812,825	$19,067,500

WARD VALUATIONS—1897.

1880,	15 00	1897,	18 80
1881,	12 50	1898,	18 00

Comments and further comparisons of the Assessors' figures will be made in Saturday's Ledger.

—E. B. Bowers of Hingham, aged 36 years, took poison Wednesday evening when officers were about to arrest him for larceny, and died immediately. He has been bookkeeper for S. L. Ward & Co., of Boston, and was said to be short $15,000 in his accounts.

—The hotel men of Nantasket are arranging for four days of sports about the middle of the month, including sports of all kinds, fireworks, etc.

—An arrest has been made for the Brockton incendiaries, C. W. Pratt of Taunton.

INCREASE IN POLLS.

An Indication that the City of Quincy is Growing.

The Assessors' returns for this year show that there is quite an increase in the number of assessed polls over the year 1897, the exact increase being 95, which in face of the fact that many cities are reporting a loss in the number of polls, shows that Quincy is steadily marching on.

The largest gain was in Ward Five, where the increase was 61; Ward One comes next with a gain of 31; Ward Three with a gain of 2 in precinct one and 17 in the precinct two, while Ward Six gained 9.

Ward Four as a Ward shows a loss of 4, although precinct two shows a gain of 14; precinct one shows a loss of 18. The greatest loss was in Ward Two, the loss being 20.

The following table shows the number by wards and precincts for 1897 and 1898.

	1898.	1897.
Ward One,	1,044	1,013
Ward Two,	776	796
Ward Three, Pre. 1,	635	633
Ward Three, Pre. 2,	759	742
Ward Four, Pre. 1,	625	643
Ward Four, Pre. 2,	758	744
Ward Five,	895	834
Ward Six,	634	625
	6,126	6,031

The steady growth of Quincy is further illustrated by a comparison of polls for ten years, the increase being just about fifty per cent. for this period. Quincy is gaining despite the times:

In 1888,	4,096 polls.
In 1889,	4,500 "
In 1890,	4,763 "
In 1891,	5,160 "
In 1892,	5,351 "
In 1893,	5,533 "
In 1894,	5,920 "
In 1895,	5,833 "
In 1896,	5,856 "
In 1897,	6,031 "
In 1898,	6,126 "

—John T. Moran of Hingham has been arrested for incendiarism, it being alleged that he set fire to the house of George Simpson near by last Saturday night.

—Winthrop assessors report a valuation of $6,376,450; including $2,974,875 land, $3,253,275 buildings, $148,300 personal property. The tax rate is $15.60, an increase of 30 cents.

—Winthrop purchased this week a lot of 45,000 square feet for the new Frost public library and proposed town hall.

AT CAMP DALTON.

Camp Dalton,
Friday, Aug., 5.

There was a very heavy rain all the morning and the drills were held in the mess halls. Shortly after noon the sun appeared.

The Quincy members of the company were surprised to receive this week their poll tax bills, and are considerably exercised because thereof.

While there has been some anxiety in the regiment at the non arrival of rations Co. K has its larder replenished frequently from Quincy friends, and the boys think they are living high.

George H. Wilson and others from Quincy brought another generous supply of good bread and butter this week. It is appreciated here. But yesterday Co. K was the envy of neighboring companies, for it was served with a grand old fashioned boiled dinner.

Private Frank I. Curtiss of Co. A of Charlestown is missing, since Wednesday evening and there has been some anxiety for his whereabouts, as he has been despondent. He has a brother in the same company.

More sentences by the court martial were pronounced.

The camp now has one extra mail a day. It will hereafter be carried by a member of the regiment, as Carrier Gould of Framingham who was receiving $2 per day struck for an advance of $1.

The canteens report for July shows a profit of $1,200. It takes in about $150 a day. The men are served at about cost and the profit is made off visitors. A dividend of $361 has been given to the band for instruments, and each compnay receives $40, while a surplus of $500 is kept by the Exchange.

The drill today was in extended order, outport and formation for attack.

The opinion of Lieut. Col. Weaver has again rallied the hopes of the boys, and now it is the belief that the War Department will yet call upon the Fifth Regiment for more active service and that the regiment will probably serve the full two years. Lieutenant-Colonel Weaver is of the opinon that the regiment will receive marching orders. Just when or for what service he does not attempt to state; "but," says he, "I have a strong impression that the government will have use for the Fifth. My impression further is that we will go to one of the three places, Porto Rico, Cuba or Manila. I have not the slightest idea to what service the government will call us, whether actual warfare or garrison duty."

Whatever the government's purposes concerning this regiment are, it is sure that it is continually making its outfit more and more complete. Thursday there arrived a big stock of company and regimental books, together with copies of all general orders issued since the opening of the war.

Cement Walks.

In reply to a correspondent's inquiry regarding the method of putting down cements walks and if there is a patent on the method. It may be said that there is no patent on it and that any mason who knows how to handle concrete and cement should be able to construct a cement walk. It should be laid of sufficient thickness to prevent disruption by frost, which, in this part of the country, is from 5 to 6 inches. Sidewalks are usually made about 5 feet in width. If the ground is above grade, an excavation must be made the bottom being left solid and firm, that there may be no chance of settlement. If the ground is below grade, a solid foundation must be prepared on the ground. On this a five-inch layer of concrete, made of Portland cement and broken stone, say stone that would go through an inch meash, the upper part being concrete of a finn grade, or of crushed stone and cement, is carefully and properly laid. This is then covered with a finishing coat of Portland cement, laid on carefully smoothed and finished. An inspectioe of any well made cement sidewalk will demonstrate the care with which the work must be carried out to insure a good job. The prices charged for this sidewalk in reasonable quantities is for street walks, 5 feet wide, from 65 to 75 cents per running foot, or generally from 13 to 15 cents per square foot.—Monumental News.

TODAY'S COURT.

Frank E. Wilder of Randolph was arraigned for the embezzlement of $10.80 from Frank W. Harris. This was a case where Harris purchased a lot of berries and gave them to Wilder to sell, the agreement being that Wilder should receive half the profits. Harris claimed that Wilder sold the berries but returned no money. The claim of counsel for the defence was that Harris and Wilder were partners and therefore Wilder could not embezzle from himself. The court found him not guilty and he was discharged.

Walter Floyd was arraigned for assault at Weymouth. Case continued until next Monday.

A black flag is a sign of piracy. The yellow flag shows a vessel to be in quarantine, or is the sign of a contagious disease.

Add a cup of date vinegar to the water in which you boil fish, especially salt fish.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Rain every day.

Doble's store at West Quincy is being shingled.

Hose for lawn sprinkling is not much needed of late.

The heavy rains recently will give the watering carts a rest.

Master Robert Nelson is visiting friends in cottage City.

The clerks of E. H. Doble & Co., went to Highland Park Thursday night.

John Danehy, clerk at Timberlake & Small's, is enjoying a fortnight's vacation.

These rains assure an abundant supply of water for the city this summer and fall.

Miss Nellie Foote of Boston is the guest of her sister, Mrs. H. W. Campbell, of Copelaiul street.

There are about forty children at the summer kindergarten school at the Gridley Bryant building.

John A. Duggan, who is spending the summer months in cottage City, has been in town a few days.

Miss McWilliams of Red Beach, Me., is the guest of her brother, Alex McWilliams of Copeland street.

The Quincy Clerks' Association is arranging for a dance to be held at an early date at Houghs Neck.

The Quincy & Boston street railway paid $2,250 for the site of the old Union church at East Braintree.

Miss Lizzie Walsh one of the operators at the Quincy telephone exchange is enjoying a brief vacation.

The Managers of Public Burial Places held its monthly meeting Thursday evening. Routine business only was transacted.

Alice W. Jones has returned from Nahant where she spent a very pleasant week enjoying all the pleasures usually found at the sea shore.

Master Carl O. Carlson, the young son of Mr. C. F. Carlson, has returned to Quincy from a year's visit to his grandparents in Sweden.

Miss Minnie K. Macdonald of McLean Hospital, Waverley, was among the invited nurses to visit the government Hospital ship on Thursday.

Mrs. Grace E. Whiting purchased at auction Thursday at Germantown for $1,040, 106,240 square feet of land on Town river sold by C. H. Johnson.

The programme for the City Square band concert on Saturday evening will be the one announced for last week. It will be by the East Boston Cadet band.

The new residence of Mr. Lloyd Jones on Verchild street is nearing completion and adds to the beauty of the many others on the hill overlooking the city.

Word has been received from Springfield that John Berry, formerly of West Quincy, who was reported as killed at Santiago, did not enlist and is now in Springfield.

There will be plenty of excitement at Norfolk Downs Saturday afternoon for both the Wollaston and Squantum yacht clubs hold events. The former its open regatta and water sports and the latter its annual Ladies' day.

The Cleopatra pushed the Koorli hard at Marblehead on Thursday for the first place in the fourth class of the second race of the Corinthian yacht club, and finished only two seconds later. The Ashumet won in the first class, Sally IV in second, Snipe II in third, Sintram in raceabouts, Polly in handicap knockabouts, and Lynx in half raters.

Perhaps the greatest game that has ever been played at Merry Mount park will take place tomorrow afternoon at 3.30 P. M., between Wayside Park A. A. and the Q. & B. The management of the Q. & B. have secured Curran of Tufts University to pitch, and the opposing battery will be Dowd and Coolidge of Georgetown University. It is for the benefit of Harvey Smith.

On Wednesday evening Mr. and Mrs. J. I. Condon of Nash were at home to their friends, many being present from Quincy. The choir of the Universalist church of which Mrs. Condon, (Miss Grace Kane) was a member until she removed from this city to Weymouth, went in a body and presented them with a parlor lamp. Refreshments were served during the evening and a delightful time was the verdict of all who were fortunate enough to go.

Civil Trial List.

The following cases are marked for trial at the civil session of the District Court next Tuesday:

106—Smith vs. Clare et al, adm.
138—Ceith et al vs. Bates and Briggs dbt.
141—Lagerstrom vs. Baker and Merrill dbt.
149—Thomas et al vs. Vogel.
152—Shipman vs. Wright.
166—J. C. Delaney Moulding Co. vs. Rine et al.

BILLHEADS PRINTED

NO. 33.

AN ORDINANCE

In Relation to House Connections with the Common Sewer and Regulating the Same.

CITY OF QUINCY.

Be it ordained by the City Council of Quincy, as follows:

ALL Applications for the construction of particular sewers and their entrance into common sewers, shall be made upon blank forms, to be obtained at the office of the Commissioner of Public Works, and shall be signed by the owner or by the accredited agent of the premises to be sewered.

The applicant must deposit the amount of the estimated cost of his particular sewer from the centre of the street upon which he abuts, as determined by the Commissioner of Public Works, with the City Treasurer, whose receipt therefor must accompany each application. Said amount shall be a credit on the cost of the sewer applied for.

The size and materials of particular sewers and appurtenances shall be such as the Commissioner of Public Works shall prescribe, and in conformity with the requirements of the Board of Health.

Said sewers shall be laid accurately to straight lines and grades. If angles along the lines thereof are unavoidable, man-holes or other approved means of access shall be provided.

The materials and labor required in the construction of particular sewers and appurtenances thereof, shall be provided and the work done by the Commissioner of Public Works, or his duly authorized agents, and by no other person or persons; excepting that the applicant may make all of the excavation and back fill outside the street lines, excepting so much as will affect the proper bedding and securing of the pipe or other structure.

All such materials furnished and labor performed by the City shall be charged to and paid for by the applicant. In cases where the sewer is not located in the centre of the street the applicant shall be charged from the centre of the street. Additional charges or deductions will be based on actual cost per linear foot of that portion constructed, an exhibit of which will be furnished each applicant upon the completion of the work. The difference between the estimated cost and cost shown in the exhibit shall be made good by the party debtor, and the use of any particular sewer will not be allowed until the cost thereof to the city has been fully paid to the city.

The plumbing of any building shall not be connected with a particular sewer until the applicant shall file with the Commissioner of Public Works a certificate by the Inspector of Plumbing, that the said plumbing work is in accordance with the City Ordinances.

No person shall be allowed to make any alteration in or make any connection with any particular sewer, except as stated in the original permit. Leave to depart therefrom must be obtained from the Commissioner of Public Works on further application therefor to said Commissioner.

The Commissioner of Public Works may at any time require such grease traps to be introduced along the line of any particular sewer, or on the discharge of any fixture connected therewith as he may deem necessary for the proper maintenance of said particular sewer, or of the common sewers.

No person shall throw or discharge into a public sewer or any of its connections, any steam or other matter or thing which may tend to, or cause, an obstruction thereof or a deposit therein, or any injury thereto.

No person shall cause or allow any roof water or surface water, by pipe or otherwise, to be conducted or to flow or discharge into any pipe or drain connecting with, or which indirectly through any other pipe or drain or directly discharges its contents into any main drain or common sewer.

All particular sewers shall be under the control of, and be maintained and kept clean by the city. The expense in cleaning and repairing any particular sewer shall be paid by the owner of the premises connected by said particular sewer, and pre-payment or security for the said expense may be required by the Commissioner of Public Works, provided, however, that any labor on particular sewers occasioned by defects or obstructions in the common sewers shall be paid for by the city.

The term "particular sewers" used in this ordinance is intended to mean the house connection of the abuttor with the main or common sewer,

Any person who shall violate any of the provisions of these rules and regulations shall be liable to a penalty not exceeding Twenty Dollars ($20.00) for each violation.

Passed to be ordained July 25, 1898.

Attest: CHRISTOPHER A. SPEAR, Clerk of Council.

Approved July 29, 1898.

RUSSELL A. SEARS, Mayor.

A true copy. Attest:

EDGAR G. CLEAVES, City Clerk.

GREAT REJOICING.

Troops at Santiago Ordered to Return.

Santiago, Thursday Aug. 4, P. M.,—General Shafter received a message from the War department this morning ordering him to return with his entire army with the exception of the immunes. General Shafter immediately issued orders to move, and it is expected that the first expedition homeward bound will start tomorrow (Friday) and the others on the following day. Among those who will probably start Friday are the 2d, and 9th Massachusetts. There was great rejoicing among the troops when the news was made known.

Letters May Cause Trouble.

Washington, August 5, 1898, 2 P. M.—The cabinet is now in session but nothing has been given out. It is said the government officials are very much excercised at the publication of the Shafter and Rosenvelt letters and that they have been criticised by cable for giving them out. It is feared that their publication in foreign papers will show our condition and delay Spain's acceptance of our terms of peace.

A flag at half-mast means mourning. Vessels come into a harbor with a flag at half-mast to announce the loss or death of some of the crew.

Kentuckey stands first in tobacco having 274,587 acres producing 221,880,303 pounds; Virginia is second with 110,579 acres and 220,650 pounds and North Carolina is third with 97,77 acres, producing 3,375,583 pounds.

The cod fisheries of Newfoundland have been followed for nearly 4010 years. They greatly exceed those of any other country in the world. The average export of cod is about 13,5000 hundred per annum.

A New York photographer announces "comic pictures taken while you wait." These pictures are rendered coime by placing the head of the subject upon a ludicrous little body and then mounting the whole upon a fractious donkey.

In Texas at the last election, the constitutional amendment requiring six months residencle after declaartion of citizenship before foreigners can become voterss was adopted by a vote of 268,262 to 51,648.

YOU

WRONG

YOURSELF

If you think you are making the most of your opportunities and do not advertise liberally in the Quincy Daily Ledger, which reaches most of the families of Quincy, Wollaston, Atlantic, Norfolk Downs, Quincy Point, Quincy Neck, South and West Quincy. It also circulates in Weymouth, Braintree and Milton.

JOHN

WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

KINDERCARTENS.

Two Supported This Year in This City.

By the Quincy Home Science Association.

A Visit to Either as Good as a Theatre.

One morning a day or two ago I suddenly remembered a promise to visit the Summer Kindergartens established by the Quincy Home Science Association in the John Hancock and Gridley Bryant school houses and both being on the West Quincy electric car route I found it easy as well as pleasant to spend an hour at each school before closing time at noon.

Surely no theatre could have provided a programme more entertaining than the kindergarten games and exercises which I saw or a sight more attractive than the sweet intelligent faces of the teachers and their young assistants and the happy interested children. Each school has some forty children between the ages of five and three years—and is managed by an experienced kindergarten teacher assisted by two or three young ladies who give their services free of charge both because they are glad to help on the Home Science Kindergarten work and for the sake of practice in the Kindergarten methods of managing children.

Shortly before nine o'clock every week day morning except Saturday the children begin to collect, brought by older sisters or brothers, sometimes by their mothers. At nine the doors open and the little ones leaving hats in the dressing room gather in the school room with "shining morning faces." A song of greeting is sung then comes the kindergarten prayer repeated with folded hands and eyes reverently downcast and the little hymn beginning:

"Father, I thank thee for the night
And for the pleasant morning light."

Then the good morning song is sung and each child in turn shakes hands with the teacher and bids her "Good-morning." Now is the time for the valued word of praise to some little boy or girl from the teacher commending clean hands and nails smooth hair or neat dress and the bright smiles and ready answer of most of the little ones in striking contrast to their shy silence or unwilling greeting when school first opened five weeks ago are pleasant to see. It is pleasant too to see how, although the majority come from homes where means are very small, the busy mothers yet take pride in sending their children to kindergartens neatly and tastefully dressed.

After the "good mornings" are said come more songs—songs whose words the children are learning rapidly by heart, about the sun and the moon, birds and flowers and other bright and beautiful things. Then perhaps all are ranged in line for marching exercises. One school has a supply of flags which are used in marching and during the singing of "America" and the "Red, White and Blue" with striking effect, and the three cheers which terminate this part of the proceeding are given with a vigor which suggests the victory at Manila, the destruction of Admiral Cervera's fleet and the fall of Santiago at one and the same time.

A recess of twenty minutes gives the children time to exercise their restless little limbs. Georgie and Johnnie can punch each other which they are longing to do, and Annie and Mary can play "tag," or laugh over those wonderful secrets which little kindergarten girls have as well as older girls.

Recess over, half the children are seated in one room half in another, at their little tables, busy and happy, stringing wooden beads, working with bright worsteds or card board, and using the various kindergarten material which while they are the prettiest of playthings, at the same time train the eye to distinguish color and form, and the hand to work with care and accuracy.

The schools close shortly before noon, sometimes with more marching, sometimes with a little talk or story from the teachers, most often with a good bye song from the children—from two and a half to three hours even of work so easy and pleasant as kindergarten work, being as long a session as is healthful for very little children.

Aside from the mental development, the training of eye and hand and musical perception, no visitor privileged to watch a well conducted kindergarten can fail to appreciate the value of the lessons taught the children in neatness, courtesy and obedience, by their teachers—themselves always gentle and smiling, yet firm and watchful to repress noise or restlessness, to encourage the backward child, and comfort those who are shy or timid. The spoilt and disobedient child becomes docile and thoughtful of others, the stupid one interested and attentive, and the timid little ones, of whom there are always several in every kindergarten who cry for their mothers or to be taken home, after a day or two forget their fear in the pretty games and songs and the kind faces around them.

An enterprise whose work is done in the months of July and August needs "hot weather friends" even more than the traditional "rainy day friend"—and the ladies who have come each week during this trying summer weather to play the piano accompaniment for the kindergarten songs and marches have been appreciated as "warm friends" in every sense of the word.

The kindergartens continue until September, when the public schools open, and the rooms and school furniture loaned to the Home Science Association for its kindergarten work, will be in use in the regular schools, and so no longer available. The Association supported one summer kindergarten last year, this year two have been possible and it is hoped next year to double the latter number.

The suggestion has been made (and it will probably be closely followed another year) to have in the summer kindergarten only children old enough to attend the public schools in the autumn—thus the eight weeks of kindergarten training during the summer will be a direct preparation for the Primary schools making entrance into them and regular school work a happier and more natural transition for the children and the work of the Primary teachers less elementary.

Quincy, August 5, 1898.

Under Advisement.

Quincy August 4, 1898.

Editors of the Daily Ledger:

Gentlemen: A judgment was obtained a few months ago against a local granite dealer for causing the name of a customer who did not pay his bills, for reasons which appeared to be that he claimed that the terms of the contract had not been lived up to in some particulars, to be placed upon list, known as the "black list," for confidential circulation among the members of a local association of granite dealers, with members in about all the granite localities.

To a layman like the writer, the objections to this system of protection among any class of tradesmen is not apparent. The full bench of the Supreme Court have taken the case under advisement and it seems to the writer that the decision will be set aside. There seems to be a good deal of common sense in the view that this method of mutual protection among tradesmen is not lawful. As the members of these trade associations have mutual interests, it would seem to be their privilege to notify one another in a confidential manner of their opinion (if honest, and not maliciously made) that certain people, with whom they have had dealings, are not, in their opinion, people with whom the other membrs of the association could deal with profit or satisfaction.

It can hardly be denied that an individual trader would have the right, if requested by a trader in the same business, who contemplated dealing with someone, to state honestly his experiences with such person in prior dealings, or to write an estimate of his reputation if this was done honestly, and with no ulterior improper motive.

The fact that an association of individuals traders in the same line of business do this on a larger scale apparently ought not to change the rulings of law on this point.

It would seem to be a fair rule on this point for the court to hold that statements honestly and fairly made, confidentially and privately, to their members, in the same business, who have all like interest, are privileged, and not actionable. The decision of the full bench will be awaited with interest not only by the granite dealers, but by all trade associations.

The constitutionality of the act which declared trading stamps illegal will soon be passed upon by the Courts, and there are a great many people, both laymen and lawyers, who fail to see the illegality of the scheme, as it is not a lottery or cheating device nor a game of chance in any sense of the word.

Yours truly,
READER.

Incendiary Confesses.

James Moran confessed to Fire Marshall Whitman Thursday that he set fire to the house of George Simpson at West Hingham last Friday night. Simpson and Moran had had some trouble over the former taking state children to board, and Moran made the threat that if Simpson took any more he would make it hot for him. This did not frighten Simpson and he had fourteen in the house last Friday. Moran according to his confession visited Simpson's house at 2 o'clock that morning and set fire to the L of the house. Fortunately the fire was discovered, and the fire department promptly extinguished it before much damage had been done. Inspector W. W. Adams of Quincy investigated and took Moran to Boston, where he made a confession.

—Tax rate in Brockton $20.20 on a thousand. Cities' numerous expenses make high taxes

MILTON.

A chimney fire in the "Bee Hive" on Pierce street called out the fire department Wednesday night.

The game of ball Saturday will be between the East Milton A. A. and St. Thomas Y. M. C. A.

Mr. and Mrs. B. J. Brown of Edge Hill road have gone to Europe.

Robert Sweeney has had a brick sidewalk built in front of his store, and one is also being built in front of the postoffice.

Samuel Curtis has retired from business.

The East Milton ladies are hard at work making comfort bags for the soldiers.

James McKay has gone to Cottage City for a brief visit.

Mr. and Mrs. Elijah Freethy are receiving congratulations on the birth of a little daughter on Monday.

Rev. T. A. Reese is to give a course of Sunday evening lectures at the East Milton Episcopal mission church during the month of August. Everybody is invited.

Work has been commenced laying the rails of the street railway line from Randolph to Milton Lower Mills.

Miss Sadie Graham has returned from her vacation.

Miss Sadie Easua has gone to Portland, Me., on a visit.

The Sunday School of the East Milton Episcopal Mission church will probably hold its picnic next Thursday.

WEYMOUTH.

At Trinity church, Weymouth, on Sunday there will be a special service in commemoration of the "Transfiguration of Christ," and the "Name Jesus." The service and music will be appropriate to these two festivals and Rev. William Hyde will preach on "Jesus and the Transfiguration." The hour of service is 10.30 A. M.

Miss Agnes Hyde, the popular Weymouth reader and impersonator, read at Townsend, Mass., Monday evening.

Real Estate Sales.

As usual Quincy led Norfolk county last week in number of conveyances recorded, also the city of Brockton.

It was a very good week, there being eighteen transfers:

Henry H. Savage et al, trs. to Gustave M. Curtis, $1.

Albt. D. S. Bell et al, trs. to Elizth. Kelly et al, $1.

Chas. F. Adams et al, trs. to Carl H. Hendricks, $560.

E. W. A. Bass to Robt. R. Smith, $1.

John Swithin to John Ferriter, $1.

Henry H. Savage et al, trs. to Ellen Thayer, $1.

Thos. Swithin to Chas. T. Crooker, $1.

Wm H. Baxter to Andrew S. Odom, $1.

Stars at San Souci.

The third week at the Sans Souci began last Monday night, and a glance at the character of the audiences and the crowded houses the past week make any remarks about the success of the new amusement venture entirely superfluous. The big features are headed by no less an important London music hall artist than Bessie Bonehill, who has not only an American, but an enviable European reputation for her individual style of work. Her most recent starring tour was in "Little Christopher." A close rival for popular favor is John Kernell, the favorite Irish comedian. He is known in the vaudeville world as presenting the most genuinely funny and clever Irish character act on the stage today. The management was very fortunate in securing Al Leach and the Three Rosebuds to remain just one week more, while another positive "hit" was Kittie Mitchell, the Sans Souci favorite, appearing this week in some of her celebrated character imitations with costume changes.

Cruelty to Cats.

Editor of the Daily Ledger:

I noticed in your last issue in the court records a person was fined for cruelty to a cat. I do not know what the person could have done to the animal, but certainly it could not have been worse than is done almost every day by people moving away or going to the mountains, or the seashore, and leaving their cats to starve, or be an annoyance to sympathetic neighbors. I had pity for one this week, and put it out of the way, and there are still more in my neighborhood that have been left by families moving away. There should be a law or ordinance or action by the agent of the Society with the long name, to punish people who go away and leave their animals behind to starve. I know of no more cruel act. It should be so considered by the courts and punished.

ALBERT KEATING.

TO LEAD ALL NATIONS.

That the Destiny of This Country, Senator Morgan Says.

Hawaiian Commission Banqueted In Chicago.

Members Say the Nicaraguan Canal Will Be Constructed.

Chicago, Aug. 5.—The Hawaiian commissioners—Senator Cullom of Illinois, Senator Morgan of Alabama and Representative Hitt of Illinois—met here and had informal talks with a number of business men. They were given a luncheon by A. H. Revell, president of the Union league club, in the rooms of which they met a number of prominent Chicagoans. There were 40 guests, including Comptroller Dawes, ex-Senator Reagan of Texas, George E. Adams, Thomas D. Bryan, H. H. Kohlsaat and General John McNulta. After the coffee the members of the commission and others made brief speeches.

Senator Morgan said the annexation of Hawaii would result in the construction of the Nicaragua canal. Cuba was free. Porto Rico belonged to the United States, Hawaii was annexed, and the canal was unavoidable. Our flag had been raised in the Philippines, and no man in America would permit it to be hauled down. Not only would the Nicaragua canal be constructed, but there would be a ship canal connecting Lake Michigan, the Mississippi and the gulf of Mexico, and one between New York and Albermarle sound. He was of the firm belief that in the next century the United States would be, by common consent, the leader of the nations of the earth.

Senator Cullom said the commission would ascertain what legislation should be enacted by congress for the government of the people of the islands, and he expected to examine the conditions of the people, their industries, the land question, labor, etc., and to see what ought to be done to mke it a great harbor. He also said the Nicarauga canal would be built. Referring to the war, he

MR. REAGAN.

remarked that the people of the country did not want war, but did have a heart for humanity, and humanity would be benefitted by the results. In conducting the war President McKinley had shown an ability, a quietness, a degree of wisdom and prudence that had won the esteem and admiration of every patriotic citizen. Mason and Dixon's line had been blotted, and we were one people.

Representtative Hitt also spoke of the certainty of the Nicaraguan canal as one of the results of the war, as was a cable to Hawaii. He, too, referred to the vigor, firmness and judicious energy of President McKinley, saying that his action "was indorsed by every sensible and thoughtful man in every political party." A better appreciation of the true majesty of the American people permeated the whole world.

Ex-Senator Reagan, when called on, said that it might as well be written down that Cuba would soon be a part of the United States. The American people were interested in the construction of the Nicaraguan canal and he believed we ought to have coaling stations in Samoa, in the Ladrone islands and at Manila. It was now within our raech to become the greatest commercial nation in the world. Acquisition of territory, he said, was spoken of as being "imperialism." It has been said that Jefferson was the great apostle of civil liberty and democratic principles, yet if the acquisition of territory was imperialism, Jefferson was the greatest imperialist this country had ever produced. When the authority of the union was extended over other lands our citizens would go there and take with them the principles of our government, and the enterprises and progress of the country, and elevate the people and give them to civil and religious liberty, the peace and prosperity we enjoy. Referring to the civil war he said the result was accepted in good faith and honer, and the south had stood by it.

The following resolution offered by George R. Peck was unanimously adopted:

"That we rejoice in the assured prospect of an early and honorable peace, and in the unpararalleled triumph of our brave sailors and soldiers in the existing war. We hereby express our hearty admiration for and confidence in the wise, patriotic and able administration of President McKinley. He has been equal to every need, and has shown the entire world how worthy he is to lead a great people in a great cause."

The commissioners left last evening for San Francisco, whence they will sail on the 10th inst for Hawaii.

Spilled His Lifeblood.

Manchester, N. H., Aug. 5.—Ernest Smith, an employe in the Manchester mill, was found in bed with his throat cut last evening, having committed suicide. He had not been seen since Wednesday evening, and did not go to work yesterday. He had a sister at Tewkesbury, Mass.

WON AND LOST.

Who Responsible for the Defeat of the Bostons in Louisville.

Louisville, Aug. 5.—Once defeated and once victorious was the record of the champions Thursday. In the first game the Louisvilles did not have the slightest difficulty in hammering Lewis' curves all over the park in such a style that the game was very one-sided, while in the second the Bostons had just as little trouble in making an even break on the day.

The Louisvilles played an errorless game, and rolled up hits in appalling style. A home run, four 3-baggers and a 2-bagger are included among those made off Lewis, and they came close together. Frazer, on the other hand, was in fine form, and did not permit a run until the last two innings, when the Bostons pulled out four runs, which made seven behind the enemy. Score of the second game:

Bostons.	AB	R	1B	PO	A	E

*Batted for Altrock in the ninth.

Bostons ..... 4 0 0 4 0 0 0 0 0—8
Louisvilles ....0 0 0 0 1 2 0 1 0—4

Earned runs—Bostons, 3; Louisvilles, 2. Two-base hits—Tenney, Long. Home run—Hoy. Sacrifice hits—Tenney, Pickett. First base on balls—Off Todd, 1; off Altrock, 2. Struck out—By Altrock, 1; by Nichols, 4. Double plays—Todd and Davis; Long and Tenney. Left on bases—Bostons, 6; Louisvilles, 5. Time—1:45. Umpires—McDonald and O'Day.

The St. Louis team won in the ninth inning yesterday by a great batting rally. The Brooklyns went in the air, trying three pitchers.

The New Yorks had all the luck in the first game in Cincinnati. Stupid base running prevented the Cincinnatis from winning the second in a gallop, and it was called on account of darkness at the end of the ninth inning with the score a tie.

Poor pitching on the part of Horton of the Ottawas and costly errors by Bean won the game for the Providences, 3 to 2.

The Buffalos won a finely played game from the Springfields. Both Gray and Pappalau were effective. The feature was the home run of Gray of the Buffalo club over the left-field fence with two men on the bases in the eighth inning.

The Clevelands won two games yesterday in Philadelphia. The Phillies could not hit when hits meant runs, and their pitchers were batted freely.

The Chicago and Baltimore teams split on a double-header yesterday. McJames pitched the first in great form, holding the Chicagoes down to four singles, and giving them their first shutout of the season. In the second Griffith of the Illinois club was hit safely by nearly everyone, but the hits were kept scattered. Nops was invincible until the eighth, when he was found for four hits and three runs.

NEWS IN BRIEF.

The saw mill and lumber yard of C. A. Grier & Co. and the premises of the Montreal cement company in Montreal were damaged by fire to the extent of $70,000.

John Rowe of New Bedford, a marine on the United States gunboat, Governor Russell, was drowned yesterday afternoon during target practice in Beaufort, N. C., by a boat capsizing.

William Rockefeller of New York city has purchased 25,000 acres of forest land from a lumberman of Franklin county, N. Y., for $50,000. Mr. Rockefeller has arranged to make the property into a private park.

The telegraph operator at Tilt cove, the most northern office of New Foundland, wires that a report has reached there of the loss of a large trans-atlantic steamer in the vicinity of Belle Isle with all on board. The particulars obtainable are very meagre.

Lieutenant Hobson presided last night over a meeting in New York for the benefit of the New York Soldiers 'and Sailors' Families Protective association. The meeting proved to be more of a reception to Hobson, Captain Phflip of the Texas and Minister .Woodford than a benefit The opera house was crowded with people, almost 5000 being present.

The Indians of Indian territory are in an ugly mood over the open avowal of Chief May, in his message to the Indian council, favoring allotment. Full bloods are sullen and threaten the lives of progressive Indinas if they vote on a measure favoring the acceptance of the Curtis bill. They say they will leave the country, and before going will give evidence of their opposition to the white people's invasion of their land.

The boys' assembly, now in session at Good Will Pines, in East Fairfield, Me., is one of the most unique assemblages ever held. It might be described as a summer school for boys, with some of the characteristics of a campmeeting with an afternoon holiday every day. There are 300 boys there, and they are under semi-military discipline as regards hours of exercise, instruction and recitation.

Tomorrow's Almanac and Forecast.

The fair weather in New England promises to continue through Saturday. The temperature will be slightly lower, with less humidity, followed by gradually warmer during Saturday; winds generally westerly. Sunday will continue warm, with weather becoming unsettled. Possibly showers Saturday night or Sunday morning.

Sun rises—4:42; sets, 6:58.
Moon rises—8:58 p. m.
High water—2 a. m.; 2:30 p. m.

Envy.

"Gee! Chimmy, wot a mout' for yellin 'extrys' wid!"—New York Journal.

Swept by a Cyclone.

Jacksonville, Aug. 5.—A hurricane of unusual severity swept the gulf coast of Florida Wednesday. The storm had all the characteristics of a West Indian cyclone. At Apalachicola the wind reached a velocity of 80 miles. Four tugs and many craft were sunk. Houses were unroofed and almost every tree in the town levelled. At Chipley a negro church and other buildings were blown down, and thousands of acres of turpentine forests levelled. At Tallahassee, St. Teresa, Marianna and Caryville considerable damage was done to houses, fences and trees as well as to corn and cotton. A deluge of rain fell. Telegraph wires are all down, and details are meagre; but so far as learned there were no casualties.

An Anti-Carlist Encyclical.

London, Aug. 5.—The Rome correspondent of The Mail says: "The pope is preparing an encyclical ordering the Spanish clergy to avoid political strifes and praising the virtues and religious fervor of the queen regent. His holiness will also send a letter to the Spanish people to be read in all the churches, praising the present dynasty and counselling the preservation of internal peace. Both documents are intended to be anti-Carlist in their influence.

Williams Democrats Regular.

Boston, Aug. 5.—Much interest attached to the renomination of H. V. Cunningham as the democratic member of the ballot commission by the governor yesterday. He sits on the board hereafter as the representative of the party that cast nearly 80,000 votes for George F. Williams last November. The governor has thus been compelled by law to recognize the silver wing of the democratic party, and Mr. Cunningham, in turn, has been obliged first to say that he was never affiliated in any way with the national democratic party. The gold democrat is thus dethroned—the democrat of the law is the silver democrat who voted for Williams last fall. Thus has Attorney General Hosea M. Knowlton decided, and thus has Governor Wolcott acted.

While the opinion of the attorney seems at first to clash with the famous decision of the supreme court in the case of Jaquith vs. the town of Wellesley, the opinion of the state's legal adviser endeavors to deny any clash. Conditions have changed, he practically says, and the supreme court's decision in the present instance would not result in victory for the gold democrat, as it did in the Jaquith incident.

"In that case," Mr. Knowlton said, "the incumbent had been regularly and lawfully appointed, and his removal was sought because of his alleged change of political faith. A new appointment is to be made now, and, in my opinion, it is the plain duty of the executive to recognize the organization which cast the next to the largest number of votes in 1897 as entitled to representation upon the ballot commission."

NO FRIEND LIKE THE OLD FRIEND.

There is no friend like the old friend to make
the fond heart bleed
When he meets you with a supercilious air
And his glancing eye assures you that he
knows you're gone to seed
And 'tis no more use for him to treat you
fair.
Oh, his fine affected tone
As he talks with you alone
And the patronizing cadence of his voice,
For the fool can scarce construe
The subjective strength in you
Or he would not so pretentiously rejoice.

There is no friend like the old friend to make
the fond heart sad
As he turns away his head to see you not,
Forgetting all the favors from your hands that
he has had—
'Tis so rich to cut you dead upon the spot.
Oh, his blank and stony glare,
Shot straight up into the air
And the dignified demeanor of his back!
Ah, fool, beyond the days
Of his hypocritic praise,
Now dark Nemesis to call upon his track!

There is no friend like the old friend to make
the heart rejoice
When he grabs your toil hard hand and hugs
it tight,
The old ring and the true ring in his well remembered voice,
While his eyes are filled with manifest delight,
For he greets you with a shout,
Simulation all left out,
A hearty friend, a lifelong friend, pure
gold,
And he holds you long and late
With a force as strong as fate—
The bond of faithful friendship grand and
old.

There is no friend like the old friend to drive
dull care away,
To lift the laden breast and make it stout.
Like a burst of summer sunshine his presence
glads the day
And puts the devil's blue to utter rout,
For what's the odds to him
If your prospects yet are dim
And the binding of your vest is worn and
frayed?
Like a rock he stands by you
With a friendship warm and true
And a faithful sense of honor unbetrayed.
—William Walstein Gordak in New York Home Journal.

FINDING A LOVER.

"Ladybug, ladybug, fly away!
Bring me a beau without delay."

St. Andrew's night had come around just 18 times in the brief existence of Martha McClintock, and for years at the midnight hour of the fateful day the girl had said her little speech to the ladybug.

It is an old superstition that he or she who desires to be happily mated must find a ladybug on St. Andrew's day. The tiny black beetle must be imprisoned all day and be given its liberty in the witching hour of ghosts and goblins. Then within a year will come a beau to marry the lady fair.

In Honiton township every boy and girl, since they were old enough to know anything of beaus and sweethearts, followed the old time superstitious custom on St. Andrew's night. If any of them married within the year, they extolled the efficacy of the charm of the ladybug, and the young folk of Honiton believed all the more faithfully in it. Martha McClintock began to try the charm at the age of 14, not because she lacked schoolboy beaus, for she was a pretty girl, but because marriage meant to her more than a lover and a protector. It meant a deliverer from an unkind fate.

The McClintocks belonged to some of the oldest families of Virginia. They had been well to do once upon a time, but had become impoverished. Grief carried away Martha's mother, and then her father died, leaving the poor girl alone in the world, save for the kinship of an old aunt, who had become estranged from the family many years ago. She was the sister of Martha's father, who had forever incurred the displeasure of his family by marrying the prettiest girl in an adjoining township rather than the bride they had chosen for him.

To this aunt, who was well off in worldly goods, Martha was sent by the town authorities. The girl was not a welcome gift from the township, but in view of her close relation to Martha's father and her ability to house and feed and clothe her she could not well refuse to receive her. To tie the sensitive, tender, young creature, who had been loved to idolatry by two doting parents to a sour old maid, who looked with affection upon no one but a half dozen cats, was like imprisoning a lark in a dismal cage.

In this loveless atmosphere the child grew into a maiden. She was given as good an education as the place afforded, for her spinster aunt shunned the criticism of her neighbors, which would have been poured out upon her had she neglected to give so bright a girl the necessary schooling. Martha learned rapidly. She took advantage of every opportunity to enrich her mind, and as all the teachers were fond of her and sought to bring as much brightness as possible into the young girl's life her school days were among the happiest of her existence. At the age of 16 her guardian took her from school, believing that she had done enough so far as her niece's mental development was concerned.

A life of drudgery began with that day for Martha McClintock. The servant was dismissed, and she was installed as maid of all work. The tedium and hardship of menial labor might have been borne in patience had she not been cut off from all companionship with the young people of the place. She met them only on Sunday at church, and even then the ogre eye of the spinster confined the intercourse to a mere greeting or a friendly handshake from the more courageous youths of the village.

The monotony of her lonely life made Martha despondent, and her daily prayer was one for deliverance from the serfdom. Thus St. Andrew's day came for the eighteenth time in the young girl's life, and in accordance with the custom of the young folks of her acquaintance she searched high and low for a ladybug among the shrubs of her aunt's garden. The season was late, and the bugs and beetles had not come out as early as formerly. Ladybugs were unusually scarce that year, and Martha was sorely disappointed when her search availed her nothing.

In bitter tears over her hard lot the girl retired for the first time since she could remember, unable to carry out the charm with the ladybug.

Her sleep was restless and frequently broken by the sobs she could not control. At midnight she arose. Perhaps she would find a ladybug, after all, if she went out now in the moonlight and renewed her search among the grapevines that trailed around the fence at the far end of the garden. Softly she crept down stairs and out of the rear door. Her aunt was a sound sleeper, and the girl felt safe from her molestations. She hurried down to the fence, the moon guiding her footsteps as it peeped out from underneath a cloud. Soon it shone full and white over the entire landscape, bringing into bold relief every object in the garden. The big wine leaves were silhouetted against the darker background. The dewdrops sparkled like diamonds, and busy ants that crawled over them were distinctly visible. Suddenly Martha stopped. There, a-way up near the top of the fence, she saw a ladybug perched on a leaf which stood out straight and firm like a tray. It was asleep, sound asleep, and Martha had no trouble in breaking the leaf from the stem and securing the coveted prize.

"Ladybug, ladybug, fly away!
Bring me a beau without delay."

cried the girl, hope, longing, anguish, expressed in her voice.

A loud groan answered in the distance. The girl trembled. "Help, help!" cried the voice of a man.

Martha's first impulse was to fly to the house, but her better nature asserted itself. A human being was in distress; that was clear. She must go to him; that was also clear.

"Where are you?" shouted Martha at the top of her voice.

"Here, under this clump of cottonwood trees. Help, for heaven's sake!"

"I am coming," answered Martha, this time not so loud, for the cottonwood trees were not far off. She climbed over the fence and ran as fast as she could to the spot indicated, which was about a hundred yards away. There in the moonlight she saw lying in the grass a man. He was young and handsome, and he wore the garb of a huntsman. His face was pale and distorted with pain, but a look of gratitude shot from his feverish eyes as they glanced up at the tall, graceful girl bending over him.

"Where are you hurt?" asked Martha.

"I was thrown from my horse," said the injured man, "while hunting this afternoon. In the fall I broke my leg. The horse ran away, and at first I was glad of this, because I hoped that the riderless animal would tell the story of some one's injury and that help would come to me. For hours I waited for the sound of a human voice without avail. Then I dragged myself to the edge of this field. I must have fainted, for when I recovered my senses it was night. I tried to sleep, but the pain was so intense that I could not do so. Then came your voice. It was like the voice of an angel."

It did not take Martha long to debate what she must do for the injured man. Her father's most intimate friend was Dr. Godlove, the town physician. It was a mile to his house, but she was young and agile, and she knew the doctor would come with her instantly. In less than an hour she returned, bringing with her Dr. Godlove, followed by a light spring wagon, into which a mattress had been laid. The doctor and the driver placed the injured man on the mattress and lifted him to the wagon bed. Then the drive back to town began.

It was slow, because the least jar caused the patient to groan with pain. The doctor took him to his house even before the young man was able to give him his card, which he did as soon as he was comfortably laid on the bed in the guest chamber. The operation of setting the broken limb began, and when that was over the young man dropped into a sound sleep brought about by opiates given by the doctor. Martha learned from her old friend that the injured man whom she had found under the cottonwood trees was the son of one of the richest merchants of Philadelphia. He had come to the Virginia mountains on a hunting trip and was about to return to his home when misfortune overtook him.

The six weeks which followed were the happiest in Martha's life. Dr. Godlove insisted that he needed her to help him nurse his patient, and thus obtained permission from Martha's aunt to keep her at his house. The request was made at the instigation of the young Philadelphian, who had fallen in love with the girl as she bent over him in the moonlight and brought him the succor that had been denied him so long.

It is needless to say that Martha loved him in return, and before he departed for his home they were married in the doctor's parlor. The young wife confided her romance of St. Andrew's night to one of her schoolgirl friends, and ever since the charm of the ladybug is held in high regard by the young folk of Honiton.—St. Louis Republic.

Man of Sensitive Nerves.

"That climate of Cuba is hard on our boys at first," said the passenger with the skullcap, "but it won't be so bad when they become"—

"Acclimated," said the passenger with the spectacles. "Excuse me for interrupting, but I feared you might pronounce it with the accent on the first syllable. '—Chicago Tribune.

What He Got For Asking Questions.

Fat Citizen—You're a pretty small chap to be running an elevator, ain't you, bub?

The Small Chap—Yes, I guess I be. They hired me 'cause the darned rope broke so many times with the heavier elevator boys.

And the fat man walked.—Cleveland Plain Dealer.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made In 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

Crockery and Kitchen Furnishing Goods.

Neither war nor hard times need prevent you from having all the goods you want when they can be had almost for the asking.

Come and see the greatest inducements in the history of Quincy. You want the goods and I need the room for new stock.

G. B. BATES,
THE PLUMBER,
HANCOCK STREET, - - QUINCY.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

QUINCY CLOTHING CO.,
Cut Price Clothiers and Furnishers,
MUSIC HALL BLOCK, - - - QUINCY.

The Social Realm.

The sun is set, the day is o'er,
And labor's voice is heard no more;
On high the silver moon is hung;
The birds their vesper hymns have sung,
Save one who oft breaks forth anew,
To chant another sweet adieu
To all the glories of the day,
And all its pleasures past away.
Her twilight robe all nature wears,
And evening sheds her fragrant tears,
Which every thirsty plant receives,
While silence trembles on its leaves.
—E. L. FOLLEN.

* * *

Mrs. Frank N. Bates and family of Wollaston are at Lake Winnepesaukee, N. H. Mr. Bates will join them later.

* * *

Rev. and Mrs. Warren F. Low of the Winthrop Congregational church at Holbrook are spending the month of August in the White Mountains.

* * *

The marriage of Mr. Charles Mackay of the Castle Square theatre company and Miss Georgie Porter, daughter of Mr. L. B. Porter of Cambridge is announced for Monday, Aug. 9.

* * *

Rev. Daniel Evans of Weymouth is at Southwest Harbor, Mount Desert.

* * *

Mr. and Mrs. Henry L. Spear and Mrs. Annie Stetson of Randolph, are in Brooklyn, N. Y., guests of Mr. and Mrs. George L. Pierce.

* * *

Mr. and Mrs. O. W. Allen of Braintree are at Falmouth Heights.

* * *

We had a pleasant call yesterday from Mr. Charles H. Rogers of Buffalo, N. Y. When a boy his father resided in West Quincy, but for many years he has lived in that beautiful city where he is the secretary of the Homestead Savings and Loan Association; a prosperous company, much similar to the cooperative banks of Massachusetts.

* * *

Hon. and Mrs. F. W. Darling of Hyde Park left this week for Maine where they will spend the season.

* * *

Miss Margaret Thompson of Wollaston has been entertaining Miss Sarah T. Holbrook of Holbrook.

* * *

Mr. and Mrs. Winslow Warren of Dedham are at Campello.

* * *

Mr. and Mrs. Rogers and their daughter have been visiting his sister in this city, Mrs. Henry T. Rogers, but he and his daughter will return today after having enjoyed a very pleasant vacation in his native town.

* * *

Mr. Horace Drinkwater has been enjoying the breezes at Marblehead.

* * *

Miss Lulu M. Pratt of Kingston, a daughter of Mr. Robert J. Pratt, has entered the naval hospital at Norfolk, Va., as a nurse.

* * *

Mr. Nelson C. Smith of Wollaston has been passing his vacation at Holderness, N. H. and also at South Duxbury.

* * *

The engagement is announced of Miss Beatrice Hart of Passair, N. J., to Mr. Perley Bladgett of McKeesport, Pa., son of Mr. and Mrs. S. P. Bladgett of Hyde Park, Mass.

* * *

Mr. and Mrs. George E. Perry and daughter of South Weymouth are visiting Prof. E. C. Perry at Plymouth.

* * *

Mr. Lewis Totman of Bath, Maine, for many years a resident of Hyde Park, was married July 27 at Wellesley to Miss Flora Hearn of Portland, Maine.

* * *

Miss Edna M. Goullaud of Braintree has gone to Orrs' Island for a few days.

* * *

Miss Amy Fairbanks of Milton has returned from a visit at Dover.

* * *

Miss Carrie A. Carroll and Mr. George F. Joyce, Jr., of Dedham, will be married Thursday, Aug. 5. Mr. Joyce is principal of the High school of Dedham.

* * *

Dr. and Mrs. John A. Soule of Hyde Park returned this week from Colorado, where they have been for a year.

* * *

Mrs. George R. Prescott of Wollaston has returned from an extended tour through the west.

* * *

Jonathsan Cobb of Dedham, the register of probate Norfolk county, is stopping at Provincetown.

* * *

Prof. Fred F. Lincoln and family of Holbrook will spend the remainder of the season in a cottage at Scituate.

Mr. and Mrs. George E. Pfaffmann went to Nantucket on Wednesday to join the Quincy colony at Siasconset.

* * *

Mr. and Mrs. Paul R. Blackmur and children of Elm sreet are at 'Sconset, Nantucket, for the month of August.

* * *

The engagement is announce of Miss May Martin, formerly of Quincy, now of Litchfield, Maine, to Mr. Albertine Greenwood Buker of that town.

* * *

Miss Mary Marden of Quincy Point is at North Marshfield for the remainder of the vacation.

* * *

Mrs. Levi Berry and family left Tuesday for Prospect Ferry, Maine, for the remainder of the summer.

* * *

Miss J. M. Wright of Elm street is enjoying her vacation at Westminister, Mass.

* * *

Mr. and Mrs. A. H. Doble are at The Belmont, West Harwich, Mass.

* * *

Mr. A. E. Linnell of Davis street, Wollaston Park, started for South Orleans, on Wednesday. Mr. Linnell is looking forward for a pleasant time. He left home by carriage, taking the family bicyles as companions, all packed away as snug as those vehicles can be packed. He intends to stop at Brockton, Onset and Falmouth, arriving in South Orleans Saturday. Mrs. Linnell with her two daughters, the Misses Millie and and Lizzie followed by train this morning. They will be away for three weeks.

* * *

Mr. Walter Hersey is visiting in Dennisport on the Cape for a few days.

* * *

Miss McClellan and Miss Melcher of Bigelow street went this week to Brunswick, Maine, to enjoy a few weeks' with relatives.

* * *

Miss Rose M. Bills and Miss Isabelle J. Bills leave today for North Conway, N. H., where they will enjoy a part of their vacation.

* * *

Mr. J. H. Emery and family are stopping at The Ridge, Kearsarge, N. H., for the month of August.

* * *

Capt. E. H. Snow has been on a flying visit to his family at Wollaston Park, but goes to join the yacht Alert at New London, Ct. The captain regrets that he will be unable to remain at home and compete in the Wollaston Yacht club's open regatta with his smart little cat boat Gwendoline.

* * *

O. M. Rogers and family of Braintree are enjoying their vacation at Orleans Mass.

* * *

As a centre from which to start on a trolley trip or short ride, Quincy has no equal. From City Square cars can be taken in almost any direction to cool beaches along the South Shore or into the country, to some of the numerous attractive parks and groves or even into Boston on a shopping excursion.

* * *

Miss Edith Baker has gone to New Hampshire to spend a month.

* * *

Mrs. E. A. Snow of Wollaston will spend a week with friends at Yosmouth.

* * *

Cards are out for the wedding of Miss Ada L. Goodrich of West Berkshire, Vt., and Mr. Arthur T. Brasee of this city to take place at the brides' home, Wednesday, Aug. 17.

* * *

Mr and Mrs. W. S. Woodward of Braintree are at Camden Me. for two weeks.

SPAIN'S REPLY.

Completed and Submitted to the Queen.

The Spanish Cabinet are Considering It This Afternoon.

Madrid, Aug. 6.—The Associated Press learns upon the highest authority that the Spanish reply to the United States, accepting the terms of peace, has been completed and will be submitted to the Queen Regent this morning, and will come before a meeting of the Spanish cabinet this afternoon.

AT CAMP DALTON.

Camp Dalton,
Saturday, Aug. 6.

Clear and pleasant again, and more agreeable temperature.

The regiment drilled in battalions on the parade ground yesterday afternoon, the officers being mounted.

Dr. Bateman, the assistant surgeon of the regiment, is now a patient at camp. While riding a horse yesterday in South Framingham, he was thrown and his leg fractured above the ankle. The horse was frightened at a railroad crossing. The officers now exercise their horses considerable out of the grounds and several were with Dr. Bateman at the time.

Another squad of men received sentence from the court martial last evening, one was given a month at hard work and a fine of $10.

The Plymouth company wishing to perpetuate the landing of the Pilgrims put out a sign on its street "Company D, Plymouth, 1620. Our Company however, dates back to Columbus and its sign reads: "Company K, Braintree, 1492."

It is reported that the officers will have a social hop next Wednesday evening in one of the mess halls.

Hereafter taps will be sounded at 9.30 P. M., instead of 10.

Allie Williams Letters.

It seems that the reason Allie Williams has not been heard from for several weeks is that he is off the Cuban coast in the U. S. S. Oneida, assisting in the Havana blockade. Then there is another reason, and a rather peculiar one, too, and that is the petty officer of his boat, who acted as mail clerk, tampered with the mails, stealing scores of letters, some containing money, thus preventing them from reaching their destination, and incidentally depriving the Ledger readers of the now famous "Allie Williams Letters." The clerk was caught by a decoy letter and placed under arrest.

All of this was gathered from a dispatch and not from Allie. A letter is expected from him in a few days. He is probably a full-fledged quartermaster by this time. Promotion with him was rapid.

Stoughton Musical.

The third annual outing of the Old Stoughton Musical Society will be held at Highland Park, Avon on Tuesday, August 30th and it is expected that the attendance will be larger than the 12,000 of previous years.

President Daniel H. Huxford of Randolph has already made arrangements whereby the great concourse of people may participate in the whole of the exercises assisted by Chorister Nelson Mann of Randolph and Leader Edwin A. Jones of the orchestra.

The programme of the day will be as follows:

10.30 A. M.,—Greeting old friends.
12 M.—Dinner—basket, or at cafe.
1 P. M.—Singing till 3 P. M.
3.00—Entertainment on the stage.
5.00—Promenading and sight-seeing.
6.00—Supper—basket, or at cafe.
7.30—Concert by Martland's Band.
8.15—Entertainment on the stage.
10—Electric fountain.

The day provides for all the old singers and their friends a grand reunion of oldtime friends and an outing of pleasure and song that will do the soul and body good.

—The more there is known of the situation that confronted him, the more Shafter's conduct of the Santiago campaign challenges our admiration.

WHEREFORE HE SENT NOT ROSES.

[Adaptation from Greek prose of Philostratus.]

Thou blamest me because I sent
No roses unto thee,
But never slight to thee was meant,
Nor lack of love in me.

Nay, but I thought thine auburn hair
A garland more divine,
And crowned with thy roses fair,
Thou hadst no need of mine.

In Homer Meleager claims
No wreath but tresses bright.
Roses were flame upon the flames
Or light adorning light.

The rose is jealous, know it well,
And soon it falls and dies,
And legend saith its birth befell
In melancholy wise,

For Cypris, hasting on her way,
Was pierced by a thorn,
And from her blood, the Cyprians say,
The cruel rose was born.

Wouldst thou be crowned? Oh, beware
Those blossoms pitiless!
They spared not Cypris. Would they spare
Thy fragrant loveliness?

Then blame me not because I sent
No roses unto thee,
For never slight to thee was meant,
Nor lack of love in me!
—Percy Osborn in Fortnightly Review.

A DASH FOR NEWS.

I was the only American operator in eastern Cuba in February and March, 1898, which were very busy months in the cable office at Santiago, where I had been for four years. In the early part of 1895 we seldom handled more than 30 messages a day, but after the insurrection began the number rose to 90 and 100 daily, increasing a little every month.

The cable from Santiago to Spain goes under sea first to Kingston, Jamaica, thence to Porto Rico, thence to St. Croix, and from there to Paramaribo and Pernambuco in Brazil. Cables from Pernambuco cross the south Atlantic to St. Vincent, Cape Verde islands, and from St. Vincent other cables extend to Madeira, thence to Lisbon, and overland to Madrid. There is also a less direct cable from Pernambuco to St. Louis, in Senegal, Africa, and thence to the Canary islands and Cadiz.

Beside myself there was but one other operator in the Santiago office, Laurin Merode, a young Spaniard, who had learned cable work at Lisbon. We thought that 100 messages daily made work enough, but over 800 passed the day after the Maine was blown up in Havana harbor. Four more operators were needed, and we called to Havana for help, but no notice was taken of our appeal, and rather than desert our posts and leave the company's business undone we slaved night and day, always hoping the pressure would moderate.

One day we sent 13,742 words in over 1,100 dispatches, yet we were two hours "back" at midnight, with Havana fuming at us over the land wire, and still hurrying messages through the Cienfuegos cable. There were Spanish government cipher messages from Sagasta to Blanco, and Blanco cipher to Sagasta; reams of bombast from the Cuban correspondents of the Imparcial and Correo for Madrid, followed by more cipher to Weyler at Barcelona from his brother officers at Havana, and then the bankers and merchants quoting, selling and ordering!

To add to our vexations the "mouse mill" of the siphon recorder gave trouble constantly, and the clockwork that carries the record tape broke down every day or two. Now, a Spaniard is utterly without native ingenuity. Merode was a tolerably good operator, but when it came to rectifying faults of the instrument he was an infant, and all such tasks fell on me.

Anything like clockwork I can "tinker," but the mouse mill that works the siphon pen is a very delicate bit of mechanism, which assists the faint electric impulses that come great distances through the cable to move the ink point of the recorder to and fro on the tape.

I suppose I had taken the record tape clockwork and mouse mill apart 20 different times, and on the evening of the 2d of April, after Merode relieved me, I set to work to wind a new motor coil for the mouse mill, which had worked so very badly all day that rather than struggle with it longer I had determined to sit up all night and build a new mill.

The cable house at Santiago is a most lonesome place, particularly at night, but a Spanish sentinel was supposed to pass the door every three minutes. These poor fellows were rarely paid, and often looked in at the door to beg a cigarette. So when the outside door opened behind us that evening I supposed the incomer was the sentinel, and I did not even look around till an amused voice exclaimed, "Aha, senors, buenos noches!"

A Spanish sentinel begging a cigarette does not speak in that tone, so Merode and I faced round with a jump. There stood a rather tall, good looking young fellow, in a white duck suit and white cap, regarding us keenly, and a step behind him was a typical Cuban rebel—sombrero, long mustachios, broad belt, long boots, revolver and machete.

In an instant Merode was on his feet and shouted, "Sentinela!" at which our unexpected visitors laughed good humoredly, and the Cuban said, "I must beg the senor telegrafero not to distress himself concerning the worthy sentinel, for that watchful soldier is now lying comfortably on his back outside, with a gag in his mouth, and his hands are tied to his feet."

"Well, who are you and what do you want here?" I exclaimed in Spanish.

"The young man in white duck laughed. "You are an American; anybody could tell that by your Spanish. Oh, I know about you. Speak English."

"Certainly," I replied. "What do you want here?"

"The news."

"What news?"

"Are the Spanish warships, Vizcaya and Oquendo, still at Porto Rico? Has the torpedo flotilla arrived there, or has it gone to St. Vincent, at Cape Verde?"

"It is contrary to the rules of the cable company for me to give such information," I replied. "Besides, all these Spanish government messages are in cipher, which I am not supposed to know anything about."

"Don't let the cipher trouble you," he replied laughing. "I have the key to their cipher all right."

"As to who I am," he continued, "my name's Macomber. I am the correspondent of the ——." He named an American journal. "News as to the whereabouts of the Spanish torpedo boats and those cruisers would be valuable just now, not only to my paper, but to the American navy at Key West. Now, you are an American, and a good patriot, I dare say. Will you help us out?"

"I'm a good patriot," said I. "And I am also an honest man, employed here to do a certain duty, which I will not betray."

"You will not help me, then? Very well, I shall examine your tapes by force."

"It is not my business to fight for Spain," said I. "I have no force to resist you, but I will not help you."

"Thanks. That's all I ask. Just you sit quiet."

"Do you think you can read our tapes?" I asked incredulously.

"Sure. I was a cable operator three years."

"But where did you get your cipher key?"

"That's a matter that was arranged in Havana three months ago. Your tape bobbins for the current week are in the table drawer, I presume?"

"Look for yourself," I said. "But my fellow operator here is a Spaniard. I do not speak for him. Senor Merode," I said in Spanish, "these gentlemen wish to see the record tapes."

Merode had stood listening, making out what we said with difficulty. "Nunca!" (never) he exclaimed excitedly and made a jump for the big table drawer, with some notion, I think, of destroying the tapes. He was a plucky fellow. But the Cuban seized him by the collar before he could open the drawer, flung him violently backward on the floor and drew his machete.

"Don't hurt him, Luiz," shouted Macomber, and then, after a steady glance at me, he stepped to the drawer himself and took out the rolls of tape.

"This will be a somewhat long and tedious business," he remarked, beginning to unroll one of them. "You might help me if you would, but at least oblige me by turning up the lamp a little and placing it on the table here."

"Thanks," he went on when I had complied, and he began rapidly unrolling the tape through his fingers. He read well and fast, and his running comment amused me.

"Oh, this is a dandy siphon of yours, isn't it?" "What ails your mouse mill?" "Say, friend, your record here looks like the teeth of an old, dull buck saw." "Your ink's coagulated."

I sat back and quietly looked on. Merode still lay on the floor. The Cuban stood watching us both. If Merode stirred, he shook his machete at him. Thus fully an hour passed. It seemed much more than an hour indeed before our American visitor found what he sought.

"Ah!" he exclaimed at last. "Here we are. So the Vizcaya and Oquendo left Porto Rico for St. Vincent last Sunday. Good. Blanco is informed that the torpedo flotilla is going to St. Vincent, too, instead of coming to Havana. That's all I wanted to know," he continued, turning to me. "Sorry to leave your tapes in such a mess, but I really cannot stop to roll them up again, for I must be well out to sea before daylight. Oblige us now, both of you, by remaining quiet here after we bid you good night."

But just then there was a new noise outside. The door opening to the street was flung back, and there stood a Spanish lieutenant from the fort, with half a dozen soldiers at his back, for the Spanish sentry—a boy of 18—whom they had gagged and tied up outside of the house, had proved more nimble than they had thought him. He had worked himself loose and had run to the fort for aid.

The Cuban turned instantly, killed the lieutenant with a swing of his machete and was at once shot down by a soldier who fired over the shoulder of his falling officer.

Macomber showed better judgment if less courage. He dashed the lamp out and grasped me by the arm. "Help me out," he said.

It would be difficult for any one to resist the appeal of a fellow countryman at such a time. While the soldiers rushed in, tramping and falling over the slain men and Merode, I pulled the American after me through a door, back of the tables, which opened into our battery room. In this back room was a window looking out on the harbor side, from which Macomber swung in an instant and decamped without a word. I had time to get forward into the cable room before Merode, who had regained his feet, struck a match and relighted the lamp. Of the grewsome spectacle which the light revealed I will not speak.

After the manner of Spanish justice, both Merode and myself were put under arrest pending an investigation, which showed that neither of us knew anything about the affair. Yet the commandant at Santiago suspected that I had planned it and sent me under arrest to Havana by steamer the following evening.

I expected to remain in Las Cabanas for the rest of my days, but was dismissed without trial the second day after arriving there and left Havana along with 180 other Americans on the following Sunday.—Youth's Companion.

VALUABLE INFORMATION.

Some Things It Will Pay You to Fix In Your Minds For Future Use.

Here are a few things everybody should know—children especially, for such facts once fixed in the growing child never fades away:

A mile is 320 rods.
A mile is 1,760 yards.
A mile is 5,280 feet.
A rod is 16 1-5 feet, or 5½ yards.
A square rod is 272¼ square feet.
An acre contains 160 square rods.
An acre contains 43,560 square feet.
An acre is about 208¼ feet square.
A pint of water weighs one pound.
A solid foot contains 7.48 solid pints.
A square foot is 144 square inches.
An acre contains 4,840 square yards.
A quarter section contains 160 acres.
A square yard contains 9 square feet.
A solid foot contains 1,728 solid inches.
A pint of water holds 28⅞ solid inches.
A gallon of water holds 231 solid inches.
An acre is 8 rods wide by 20 rods long.
A solid foot of water weighs 62½ pounds.
A barrel (31½ gallons) holds 4⅛ solid feet.
A section, or square mile, contains 640 acres.
A bushel (struck) contains 2,150 solid inches.
A gallon of milk weighs 8 pounds 10 ounces.
A struck bushel contains about 1¼ solid feet.
A bushel (heaping) contains 1¼ struck bushels.
A hairbreadth is one-forty-eighths of an inch.
Space has a temperature of 200 degrees below zero.
A grain of magnesia will color 50,000,000 grains of water.
An inch of rainfall is equal to 14,500,000 gallons per square mile.

The Nearsighted Old Man.

"That's right, little girl,"
Said the very wise man;
"Just study away
As hard as you can,
And when you have learnt
Your 'A' and your 'B'
You'll find very easy

Your 'C' and your 'D.'
I am glad to observe
That so smiling you look,
Though you stay in the house
And study your book!"
He patted her head,
And great was his fall:
He'd been talking away
To his little girl's doll!
—G. D. in Brooklyn Eagle.

Little Alice's Stratagem.

There is a bright little girl over in Oakland. In fact, all the little girls over there are bright. Her father thinks that his Alice is very nice. He has told her several times that she was sweet. Last Saturday she went out to a candy store with her mother, and she was treated to ice cream soda, which was so nice that she determined to scheme for some more. Sly little puss! She knew that she could get anything she wanted from her father. Perhaps her mother is a mind reader. At any rate she told Alice that she could not ask her father to take her to the candy store that day. "One drink of soda water was enough."

Now, Alice has a mind of her own, and she made up her mind to get the soda water that very night at all hazards. So, when it came supper time and her father was at the table, she waited her chance.

"You are so sweet, Alice, I could eat you up," said papa.

"Speaking of sweet things," answered sly little Alice, "they have a nice new soda water fountain in the candy store around the corner."

Alice's mother had to laugh, and Alice had the soda, and her mother made No. 3 in the soda water party.—San Francisco Call.

His Pyjamas.

"Nurse, nurse, Bobby's out of bed and running about in his bananas!"—Punch.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 7. Comment by Rev. S. H. Doyle.

TOPIC.—Lessons from the life of Elijah.—I Kings xviii, 20-39.

Elijah is the most unique character in Biblical history. He has been well called "the grandest and most romantic character that Israel ever produced." He lived in an age when fearlessness and courage were greatly demanded and was always found equal to the great occasions in which he was such a prominent figure. From such a striking and heroic life we could not but learn many lessons, but Elijah's life is pre-eminently a lesson on prayer. Of all the Old Testament worthies who prevailed with God in prayer Elijah is selected by the apostle James to illustrate the fact that the "effectual, fervent prayer of a righteous man availeth much." He teaches us lessons on courage, on faith, on God's faithfulness, but above everything else his life illustrates the power of prayer, and this characteristic alone we will emphasize.

1. Elijah was a righteous man at prayer. Elijah was right with God in an age when most men were not so. He was on good terms with God at all times, and when critical moments came, in which all depended upon God's favor and help, he could go to God with assurance that God would hear him. God does not hear sinners. Sin paralyzes many a prayer. "If I regard iniquity in my heart," says the psalmist, "the Lord will not hear me." It is well to be on good terms with God at all times, to live in such a way that when we greatly need His help and favor we may seek it with earnestness and assurance.

2. Elijah's prayers were definite and specific. He prayed for drought, for fire to descend upon his altars, for rain. He illustrates definiteness in prayer. Too many of our prayers are glittering generalities. We ramble heedlessly and thoughtlessly over the whole creation without giving definiteness to our desires before God. We should know what we want and then ask for it. Then our prayers would not be so long and so meaningless.

3. Elijah illustrates faith in prayer. He had such sublime faith in God that he boldly declared that there should be no dew or rain but according to His word. Afterward, when he prayed for rain, he at once sent his servant out to see if the clouds had appeared. He believed that his prayer would be answered. How many Christians today in praying for rain leave their knees to go and look for the clouds? Many of us would be surprised to see them. There is much lack of faith in prayer. We pray and then we are surprised if the answer comes, which proves conclusively that we did not expect an answer. Our faith in God should be real and strong.

Elijah's whole life proves that our God is a prayer hearing and prayer answering God. Let us ask that we may receive, seek that we may find, knock that it may be opened unto us.

Bible Readings.—I Kings xvii, 1-7, 17-24; xix, 1-6, 11-21; xxi, 17-29; II Kings i, 3, 16, 17; ii, 8-15; ix, 30-37; Ps. cix, 4; Math. xvii, 1-8; xxi, 22; Luke iv, 25, 26; Acts vi, 4; Jas. v, 16-19.

Idle Words.

Gossip, tale bearing, slander, flattery, untruthfulness, useless words, words conducive of neither instruction nor to innocent entertainment, thrown out to while away the time in a spare five minutes, words that are not consecrated by any seriousness of purpose whatever—these are the idle words of which our blessed Lord says an account must be given at the day of judgment. And how many idle words are uttered every day! When we consider seriously how much unnecessary tittle tattle there is in the world, we may well be startled at its magnitude.—Monthly Bulletin, Church of the Advocate.

The Apostolic Way.

The question that confronts the church today is not how to awaken an interest in missions, but how to get men profoundly interested in Christ. Nothing but living, personal union with Him will make the church missionaries—her bishops, her ministers and her people. Christ was the great missionary. "He came," He said, "not to be ministered unto, but to minister." Interest in the mission work of the church can be sustained only as union with Christ, the strength and inspiration of the great missionary movement, is sustained.—Churchman.

Antagonism to the Bicycle.

Christian ministers are not alone in their antagonism to the bicycle. It affects also the attendance at Jewish Sunday services, or at least is claimed to. We seriously doubt it, however. If the young men who go off on their wheels would otherwise go to temple on Sunday mornings, they would attend at least on rainy days and during the winter months when wheels are laid aside, but careful inquiry fails to prove this to be the case. No, it is not the wheel that keeps the young men away.—American Hebrew.

All It Means.

Any one can carry his burden, however heavy, till nightfall. Any one can do his work, however hard, for one day. Any one can live sweetly, patiently, lovingly, purely, till the sun goes down. And this is all that life ever really means.—British Weekly.

Past and Present.

Look thoughtfully at the present, look forward to the future, look backward at the past—at the present with firm and holy resolution, at the past with humble and penitent gratitude, to the future with calm and earnest hope.—Canon Farrar.

Then Be Thankful.

No lot has been so hard this year but that it might possibly have been a little harder. Is it not so? Then be thankful in due degree.—Michigan Christian Advocate.

SWINDLER CAPTURED.

Successful Worker of Confidence Game In the Toils.

Had Registered Forged Deeds to a House.

People In Different Cities Victimized by His Plausibility.

Boston, Aug. 6.—Detectives from police headquarters have arrested a crook whose success in swindling merchants and others lately has been phenomenal. The prisoner has been doing business on false pretences in this city for two weeks under the name of Frank M. Vining. In one transaction last Tuesday he pretended to be one Benjamin E. Brewster.

Not for a long time has Chief Watts been so anxious to find out a man's real name. The only charge brought against him at the time of his arrest was that of obtaining nine gold watches from the Morrill Brothers company. Besides confessing to this transaction he also confesses to scores of others of a like nature, by which he swindled business people out of thousands of dollars.

Brewster represented himself as a general trader, a stranger in the city who wanted to buy jewelry to sell at retail. He could give no reference, but claimed to own property in East Boston, and would give a mortgage on it to cover his purchase. The firm, after inquiry and finding that property worth $2,500 belonged to Benjamin E. Brewster, took a mortgage on it for $500, enough to cover the amount of the customer's possible purchases. Thus "Brewster" walked away with nine watches, the value of which at wholesale is placed at $154.

Later the Morrills got suspicious and found that the mortgage was worthless, the deeds alleging a transfer of ownership having been forged, though recorded properly. A decoy letter was sent to the swindler saying that the firm had just received a large number of the sort of watches Vining had been looking at, and if he wished to complete the number he had at first wished for, the firm would be glad to serve him. This letter was signed by George E. Fletcher, a clerk. The letter was not answered. Fletcher spied Vining yesterday on the street, and the fellow's arrest followed.

Vining says he is from Providence, and is a well known man there. He says he was treasurer of the publishers of the Gospel Mission, a religious paper published in Providence, and president of the firm of Smith & Vining Gold Mining and Transportation company of Providence.

About two months ago he opened a store at 83 Avon street, Providence, in which he intended to sell candies, soda water and ice cream. He bought a soda fountain of A. D. Puffer of Boston for $625, to be paid for on instalments, but on this no payment has yet been received. From A. & L. W. Puffer he bought $40 worth of soda fountain supplies, and for these no payment has as yet been received. From Smith & Aldrich $140 worth of confectionery was bought, and to this the firm has received no compensation. Holmes & Blanchard were given a check for $106 for machinery, which they tried in vain to cash, and F. S. Snyder had a similar experience with a check for $100.

Among the statements found in Vining's room were bills from the following firms, where he had obtained articles: Puffer Manufacturing company, Pawtucket Nut company, Pawtucket; J. H. Roberts company, Providence; Huntoon & Gorham, Providence; Congdon & Carpenter company, Providence; Charles W. Jencks & Brothers, Providence, and Bassett & Mitchell, Providence.

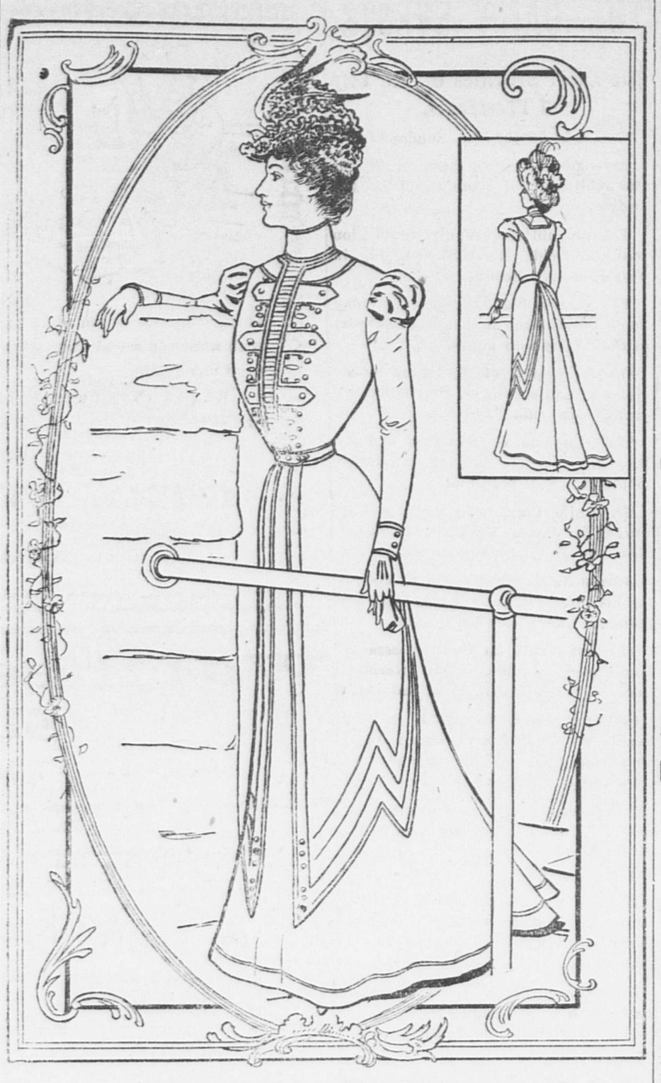

In Vining's pockets were found check books on the International Trust company and the Industrial company of Providence, and a book on another bank with a small amount of money to Vining's credit. In his room were found a mortgage and conveyance, in which it was set forth that Mary E. Dunbar of East Providence gave $300 to Vining for a mortgage on a cottage on Hanover street, Yarmouth camp grounds, known as Harmony cottage. A memorandum, which seems to be a list of money owed by Vining, was also found. It reads: O. H. Tilley, $141.50; Henry Evans, $80.75; Flint, $108.91; Smith & Aldrich, $140.10; A. D. Puffer, $650; total, $1121.26.

More Rulings on Stamps.

Washington, Aug. 6.—The commissioner of internal revenue has rendered a decision in which he holds that contracts of reinsurance, with certain stated exceptions, are not subject to the stamp tax. Reinsurance is understood to be an assumption by one insurance company of some portion of a risk which has been taken in full by another company and a policy duly issued therefor. This is not done by the issuance of another policy, but by an entry made by the insuring company in a register belonging to the reinsuring company. The effect is the same as if each company originally had issued a policy for the portion of the total risks which it respectively assumes, and the total tax paid would be the same as is paid by the one company assuming the entire risk. The exception is that if the risk should become extra hazardous and the reinsurance should be obtained only upon the payment of an extra premium, this extra premium is taxable, and the stamp covering it may be affixed to the page in the register opposite the entry.

In the case of receipts for rent and where there are no recitals, no stamp is required; but if the receipt contains any phrase or clause that can be construed as a contract for the hire, use or rent, then in such cases the receipt is held to become something more than a bare receipt and should be stamped according to its tenor or effect. The insertion of the words in a rent receipt "as leased for August, 1898," is held to render it subject to the tax.

OUR WEEKLY FASHION PLATE.

SEA-SIDE COSTUME FROM HARPER'S BAZAR

The Parisian fad this year is to go to extremes in watering place costumes, some of which are made in the most elaborate style, beflounced and befrilled to a degree that none but an eye-witness would credit, while on the other hand there are walking costumes simple to the verge of austerity. The seaside costume illustrated herewith—taken from Harper's Bazar—is of the latter character. It is made of dark blue veiling mounted over black silk. The skirt is of the attached flounce variety, with tiny folds of black satin outlining the front and the top of the flounce. The waist is smoothly fitted with no trace of a blouse. The narrow cross-tucked vest of white taffetta is bordered with buttoned tabs and small black satin scrolls. The band collar, which is of the highest choker type, and the narrow belt are both msde of the dress material with tiny black satin border lines.

Old Law Still Operative.

Amesbury Mass., Aug. 6.—Colonial law was quoted as the defense in a peculiar case in the district court yesterday, and its provisions brought acquittal to the defendants. The case was one of general interest to fishermen in New England states.

Morris H. Bagley and Abel E. Souther were arraigned on complaints of Deputy Wardens Chadwick and Hersey, who claimed that the men were citizens of New Hampshire and engaged in lobster fishing in Massachusett's waters n violation of the Massachusetts laws.

Attorney Goodall of Seabrook, N. H., who appeared for the men, cited the constitution of the original states, which granted the right of a citizen of one state to fish in the waters of any of the original states. He also claimed that Mr. Souther had been engaged in the lobster business in Massachusettts for 28 years, and, although having a house in New Hampshire, he had resided in Massachusetts the greater part of the time. Mr. Bagley, he claimed, was in the employ of a resident of Massachusetts in the fishing business. Judge Cate held Mr. Goodall's view of the law and discharged the defendants.

Lifted Off His Feet

San Francisco, Aug. 6.—Tom Tracy of Australia and Frank McConnell of Oakland met last night before the Olympic Athletic club of this city in the presence of 300 persons. Tracy landed a lightning right-hand swing on the point of the jaw in the seventeenth round which fairly lifted McConnell off his feet. The Oakland man failing to arise within the prescribed 10 seconds, the Australian was awarded the decision. The blow was a clean knockout.

McConnell was a 10 to 6 favorite. The fight, prior to its sudden termination, was much in favor of the local lad. Tracy was very elusive and clever, which stood him well in need at critical junctures.

Tale of Terrible Suffering.

Halifax, Aug. 6.—A schooner brings a tale of terrible suffering on the coasts of Newfoundland and Labrador. The party was on a prospecting expedition and included a physician, whose services were required at Lewis inlet night and day to give relief to persons sick and dying from starvation. Large quantities of provisions were distributed from the vessel. The same condition of affairs exists along the coast. There are 1,600 persons similarly situated, and immediate relief is necessary. The failure of the fisheries will tend to further increase the sufferings.

Killed For an Insinuation.

Detroit, Aug. 6.—John W. Battishill of Ecorse shot and killed James St. James of St. Ignace, a corporal in company I, Thirty-fifth Michigan infantry, which is in camp at Island lake. Thursday St. James married Bertha May Welsh, Battishill's sister-in-law. He insinuated that he wished to leave his bride at Battishill's house so that she could be watched. This resulted in a quarrel, which ended in Battishill's firing a shotgun charge into St. James' neck. Battishill was arrested.

Cup Challenger's Large Gift.

London, Aug. 6.—An interesting piece of news has just transpired. Ten days ago Sir Thomas Lipton visited Marlboro house and presented the Princess of Wales with a check for £100,000 to start dining rooms in London at which working people may secure substantial meals for from two to eight cents. There will be a central dining room capable of accommodating 2,000 people simultaneously. It is expected that from 8,000 to 10,000 dinniers will be served there daily. The trustees, of which the Princess of Wales will be one, will shortly be appointed to manage the project, which will be known as the "Alexandra trust."

Tomorrow's Almanac and Forecast.

The cloudy, showery weather prevailing in the western lakes and the upper valleys, is moving east. It may be felt in New England tonight and Sunday, with increasing cloudiness.
Sun rises—4:43; sets, 6:56.
Moon rises—9:26 p. m.
High water—2:45 a. m.; 3: 15 p. m.

NEWS IN BRIEF.

Advices from St. Michael of July 25 state that the Del Norte, with 350 tons of government reindeer, supplies and a number of Laplanders, is long overdue at St. Michael's. She left San Francisco June 21 with four tows, all flimsy river vessels.

While facts do not justify a statement that the curtailment movemene begun by a number of Fall River manufacturers is dead, no progress has been made for a week. Many manufacturers think that unless a definite announcement is forthcoming the plan to stop the machinery will fail.

It is reported, in connection with the Anglo-American movement, that strong endeavors are being made to get the Prince of Wales to visit the United States and Canada next summer, and it is added that encouragement has been given the idea in responsible quarters.

The elections held in the various counties of Tennessee for county officers were generally marked by a small vote. The Democrats elected a few officers in some Republican counties. In most of the counties the Democrats elected their tickets by safe majorities.

The Hamburg police are proceeding, at the instance of Prince Herbert Bismarck, against two photographers, Wilecke and Priester, for entering the castle of Friederichsruhe to photograph the remains of Prince Bismarck shortly after his death. The proceedings are based on the criminal code dealing with "breaches of domestic peace."

W. Rankin Good and Harry J. Price of Cincinnati, the young men who originated the idea of starting a fund among school children for the purpose of raising money to build a battleship to be called the American Boy, are in Washington forwarding their plans. They have had an interview with President McKinley, who endorses their idea.

General Morales, the Guatemala revolutionist, is represented to have little means of his own, but he is supported by wealthy men in the liberal party. There is believed to be an understanding between Joseph Castillo and Morales, both of whom are candidates for the presidency, that the one who has the strongest following shall receive the other's support. What they are bent on is the defeat of Gareira.

SAGASTA'S CAUTION.

Finding Our Public Sentiment Before Answering McKinley.

London, Aug. 6.—The Madrid correspondent of The Daily Mail says: "A majority of the politicians who conferred with Sagasta counselled peace; but Nocedal, leader of the ultramontanes, urged war to the end, even if the Yankees, he said, were to capture Spanish ports, as possibly then an international conflagration would avenge Spain by placing her in a position to gain more than by making a shameful peace now.

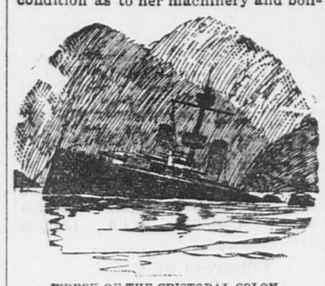

"Mr. Romero, in the course of an interview, said: 'Mr. Sagasta informed me as to the contents of the American note. In addition to the demands already known the American government asks the occupation and possession of Manila and Subig bay. Mr. Cambon obtained from President McKinley the substitution for the word, 'possession,' of another word meaning practically the same thing.'"

General Chinchilla, captain general of Madrid, said:

"We have a brave and well disciplined army, and it is ready to go wherever it is sent."

Raising Sunken Craft.

Norfolk, Va., Aug. 6.—The Merritt Wrecking Company has received advices from Santiago that makes it certain that the Infanta Maria Teresa is now floated, and found to be in fairly good condition as to her machinery and boil-

WRECK OF THE CRISTOBAL COLON.

ers. Another expedition on a wrecking steamer will be sent south next Monday or Tuesday, taking along four immense pontoons, especially intended for the raising of the Cristobal Colon.

As Colonel of the Sixth.

Boston, Aug. 6.—Cablegrams from Porto Rico and Santiago brought the governor to the state house yesterday afternoon in haste. General Miles urges the governor, in the Porto Rican cablegram, to designate Lieutenant Colonel Edmund Rice as colonel to succeed Colonel Woodward of the Sixth. Governor Wolcott will do so, but wants to know first where Rice is stationed at present. Rice has the honor, never denied him, of having the best regiment in the army of the Potomac. Miles urges this as a reason for his appointment.

Macias Lies Like Blanco.

St. Thomas, Aug. 6.—The Americans have taken peaceful possession of the eastern portion of Porto Rico. Small parties of marines have been landed who have lighted the lamps in the lighthouse at Cape San Juan and in other lighthouses along the coast. They met with no resistance. Indeed, at Cape San Juan deputations of citizens went out to meet them.

Captain General Macias has issued a proclamation, in the course of which he says: "Spain has not sued for peace; and I can drive off the American boats now as I did Sampson's attempt before." The daughter of the captain general is helping to drill the gunners in the forts. Altogether there are 9500 Spanish soldiers in the city. The troops of the enemy who are retreating from Ponce

GENERAL MACIAS.

and the other towns on the south coast occupied by the Americans have not yet arrived. The German steamer Polynesia, with a cargo of rum, canned meats and tobacco, tried to run the blockade Thursday morning, but was stopped by the New Orleans.

General Miles is proceeding entirely without regard to peace negotiations. Colonel Huling has captured 5,000 pounds of rice. Thus far the enemy has not molested him. General Brooke's landing at Arroyo is successful.

Bradstreet's Review of Trade.

New York, Aug. 6.—The stimulating influences of the apparently near approach of peace, coupled with the beneficial effects it is hoped will flow from the opening of new markets in lands added to the national domain, seem to increase, in the opinion of Bradstreet's. That the improvement is not wholly one of sentiment is proven by the reports of a still further increased distribution of staple goods in the west, northwest and southwest, where the excellent crop situation has rendered harmless the supposed benumbing effects of war.

Encouraging export demand for our cereals, great steadiness of prices, largest recorded midsummer bank clearings and fairly encouraging railroad earnings are encouraging features of trade at the present time. Business failures in the United States are at a minimum, numbering 189, identical in number with those of last week, but comparing with 214 in this week a year ago, 269 in 1896, 209 in 1895, and 197 in 1894.

Improvement in the middle states and New England is still more a matter of tone than of distribution, but more is doing in cotton goods, and prices of these staples are steady. Pittsburg reports a gradual improvement in the iron trade. More is doing in cotton goods, and prices of these staples are steady.

Care of the Finger Nails.

A few minutes given every day, once the nails are proper treated, will keep them firm and exquisite in color. After the hands are washed each morning use the nailbrush thoroughly, and then when they are quite dry push back, very gently, the skin that is inclined to grow up around the edges of the nails. Under no circumstances use a steel point to push back this skin, and do not cut it away as the professional manicures are apt to do. While the nail is still moist use the point of a file to remove any dust or specks that the brush has neglected, and then, with nail scissors, sharp, curved and kept for this purpose only, cut the nails in a shape that suits your finger tips. The ridiculously long nail, which looks like a claw, is entirely out of fashion. Use the file to make smooth the rough edges left by the scissors, and then take the least little bit of red nail paste and smear the tiniest morsel on each of the nails. Don't let it get into the edges or roots, for it is only intended as a sort of oil to keep the nails soft and to prevent their growing horny; then sprinkle a pinch of powder on the polisher and rub each nail with a quick, even stroke that will result in giving it a brightness that is refined looking, but not a brilliancy that suggests that one only shines at her finger tips. After this give the hands another bath, using hot water and a delicate soap; then close them and rub one set of nails against the other, achieving in this way a proper finish.—Ladies' Home Journal.

John's View of It.

That the crafty Chinaman may be in some measure responsible for an additional step toward mannishness may be inferred from a recent incident in the experience of a good looking young woman who walked into a laundry the other day.

"I should like this shirt waist done up in your very best style," said she in a dignified tone.

"Velly well," replied the Chinaman, with a smile. "Likee little booz on?"

The young woman looked shocked at this familiarity and said, "No, I thank you," but the Chinaman persisted:

"Missee best have little booz on. Allee ladies have little booz on now. He look so nice and stickee out. See," and he produced a waist with a stiff front, "this have little booz. That have no booz—not nice. Missee have um allee samee this one," and then she understood, and told him he might starch the front.

The stiff front has some advantages over the unstarched article. It does not soil so quickly, and is somewhat cooler, because it stands out and admits of a freer circulation of air.—Philadelphia Press.

A Power In the Land.

The woman's clubs have long since passed beyond the stage to be ridiculed or held in light esteem. They have become a power in the land, and a power for good. By their means women are everywhere taking a more earnest view not only of their duties to society and the state, but of their domestic duties as well, and are preparing themselves for that not distant day when they will everywhere in the United States, as they do in Colorado, enjoy the privileges and responsibilities of full citizenship and the elective franchise. It is both fortunate and appropriate at this time that the convention should meet in Colorado, where women from every state in the Union in which impartial suffrage has not been bestowed can become acquainted with the methods, principles and advantages of the franchise, through their own sex, in a state where it is exercised and prized by all.—Greeley (Colo.) Tribune.

General Wheeler and His Daughter.

"I haven't seen anything in years," says a woman who was down in Tampa just before the troops left to open the Santiago campaign to a Washington Post reporter, "that was so pretty as the great friendship between General Wheeler and his eldest daughter. They are more like comrades than father and daughter, and neither seems quite happy with the other out of sight. Miss Wheeler accompanied her father whenever possible and was often to be seen riding with him about Tampa and the camp. She was ready to go at a moment's notice, and several times I saw her riding along contentedly, wearing a muslin frock and riding sideways on a man's saddle. She wanted to go to the front as a nurse in order to be near her father, and I think she would have been perfectly happy if she could have ridden with him into the fight."

The New Superintendent.

Miss Estelle Reel, the newly appointed superintendent of Indian schools for the United States, resigned her position as state superintendent of public instruction of Wyoming some weeks ago and went to Washington. She has just started to attend the summer institutes of the Indian schools throughout the far west, and after that will visit all the agencies where schools are established. These visits will probably keep her in the field, continuously traveling and reporting on the schools, until Dec. 1. The methods of teaching in the Indian schools form an interesting study and cover ground not included in the usual school curriculum.—Woman's Journal.

The number of actresses who are developing inventive genius is growing. Rose Coghlan has invented an umbrella and guarantees that it will stick upright in the sand and keep the rain off anybody who happens to sit under it more effectually than any other arrangement of the same nature ever devised.

The polka dot seems to be right in the ring again. It has come to life with renewed vigor. The very newest ribbons for neckwear, belts and trimmings and the latest sashes are all in polka dot patterns. The dots so far are quite small, but everywhere striking contrasts in color are the order of the day.

The man who breaks in the wild, vicious bronchos on the western plains must have superb physical endurance, nerves of steel, unconquerable vim, determination and persistency. The city or town bred man who has all his life humped his back over a desk, living an unhealthy, sedentary life and failed to take any care of his health, could not stay on the back of one of these vicious brutes for more than three jumps.

It takes a whole man to conquer a vicious animal. People may talk about intellectual superiority and refinement and good breeding, but every man takes off his hat to physical strength and endurance. While the man who leads a sedentary life cannot hope, in this respect, to rival these sturdy men of the plains, they can be sound, vigorous, healthy men if they will. It is a matter of care of health while one has it, and the proper measures to restore it when it is lost. Most diseases begin with some trouble of the digestive organs or of the liver. Troubles of this nature starve the body, because they prevent it from receiving its proper supply of nourishment. Dr. Pierce's Golden Medical Discovery gives a man an appetite like a cow-boy's and the digestion of an ostrich. Its great work is upon the stomach, large intestines and liver. These are the organs that nourish a man's body. This medicine makes them strong, vigorous and healthy. It fills the blood with the nourishment that builds new, solid and healthy flesh, muscle and nerves.

"I am now enjoying magnificent health, after having suffered for years with chronic catarrh," writes Ramon Sanchez, Esq., of Penasco, Taos Co., New Mexico. "By the use of your 'Golden Medical Discovery' I have recovered my health, and am now, physically a *sound man*, attending to my business and enjoying life."

SOMETHING YOU WANT.

Fresh Vegetables.

We Receive Them Every Day.

All Kinds in Their Season

L. M. PRATT & CO.,

25 School Street.

Always a good assortment at our branch store, 105 Water street.

Quincy, June 18.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

Good Afternoon.

Upon the whole, the peace situation wears a very hopeful outlook. On our side, it presents no conditions which can fairly be considered unduly harsh; on the side of Spain, it admits of no alternative which she could regard as preferable to accepting our terms. Fortunately, we now hear nothing about the intervention of foreign powers, all of whom seem desirous that a settlement should be made between the two nations directly concerned. I look therefor to an early armistice of the disbandment of the Spanish forces and the conclusion of a treaty of peace that will only need the ratification of the final authorities in each country. When that comes, we may look for an era of the greatest prosperity ever experienced in the history of the United States.

THE SEWER SYSTEM.

May Be in Operation September 1, but There Are Ifs.

Work in the sewer construction department is being rushed along, and as far as the mechanical part is concerned, it will be ready for house connection by September 1. Before it can be operated, however, the City Council will have to make an appropriation for maintenance, as there is now no money available for that purpose.

At the pumping station the machinery has arrived and men are at work setting it up ready to perform its part of the work. The main brick sewer is nearly completed and a large amount of the lateral sewer pipe has been laid, and much more will be before the above date.

As yet the connection has not been made with the Metropolitan sewer at Squantum. The force main of the Quincy system is practically completed, and all that remains is to build a brick connecting chamber and lay about fifteen feet of the force main. This will take but a few days at most.

The arrangement with the city of Boston was that when Quincy was ready to make the connection Boston should be notified. This has been complied with, the city of Boston receiving its notice some few weeks ago. The machinery and red tape of the city of Boston is slow and up to the present time no reply has been received from the notice sent them. As soon as this is received the connection will be made immediately.

Typhoid Fever.

Five cases of typhoid fever have been reported to the Board of Health in one boarding house on Centre street. The cases are all among men, some of whom have been removed to the City Hospital. The Inspector of the board has been investigating the cases, with a view of ascertaining their cause, and as the milk, water and drainage appears to be all right, they probably originated from purely local causes.

THE INCREASED VALUATION.

The Big Gain of 1898 Comes Largely on the Land of the City.

The Value of Buildings is, However, $680,800 Larger Than Last Year.

In Gain of Real Estate the Wards Ranked: One, Five, Six, Four, Three, Two.

While the taxpayers generally rejoice in the reduction of the tax rate, many are doubtless waiting anxiously to learn where the increase in valuation has been made. These figures will explain in part:

LAND.

Value, 1898,	$8,450,525
Value, 1897,	7,681,500
Increase on land,	$769,025

BUILDINGS.

Value, 1898,	$8,362,300
Value, 1897,	$7,681,500
Increase,	$680,800

In 1897 the buildings of the city were assessed for more than the land of the city, viz: $195,500. But this year the land is assessed for $88,225 more than the buildings.

It is evident that the assessed value of old buildings has been increased some, as the value of the new buildings is less than $680,800.

But the jump has come mostly on land. In view of the fact that considerably of the land of the city has been assessed for more than its market value, the increase of $769,025 in a year like this is surprisingly large.

The land value is not known by wards but the increase of valuation of real estate was as follows:

Ward One,	$427,650
Ward Two,	59,425
Ward Three,	78,375
Ward Four,	103,600
Ward Five,	354,400
Ward Six,	231,875
The City,	$1,255,325

The increase in valuation by wards, both of the real and personal, and total valuation, is summarized below. It affords interesting comparisons for one, two or nine years ago.

WARD ONE.

	Real Estate.	Personal Property.	Total Valuation.
1898,	$5,143,900	$1,078,700	$6,222,600
1897,	4,716,250	1,130,100	5,846,350
1896,	4,553,050	1,199,625	5,752,675
1895,	4,490,075	1,236,975	5,727,050
1894,	4,433,050	1,205,050	5,638,100
1893,	4,271,880	1,527,290	5,799,270
1892,	3,824,050	1,682,825	5,506,875
1891,	3,542,625	1,595,375	5,138,000
1890,	3,366,675	1,747,750	5,113,425
1889,	3,316,900	1,229,875	4,446,775

WARD TWO.

1898,	$1,652,700	$300,700	$1,953,400
1897,	1,593,275	281,800	1,875,075
1896,	1,574,675	317,650	1,892,325
1895,	1,546,125	300,825	1,846,950
1894,	1,539,700	309,925	1,849,625
1893,	1,517,350	323,760	1,841,110
1892,	1,436,800	356,626	1,793,425
1891,	1,241,775	400,575	1,742,350
1890,	1,285,800	383,725	1,669,525
1889,	1,217,100	392,100	1,600,200

WARD THREE.

1898,	$2,084,700	$329,150	$2,413,850
1897,	2,006,325	295,075	2,301,400
1896,	1,970,900	318,500	3,289,400
1895,	1,921,850	337,525	2,259,475
1894,	1,884,425	356,950	2,241,375
1893,	1,840,760	363,245	2,204,005
1892,	1,674,125	339,075	2,013,200
1891,	1,500,050	338,725	1,838,775
1890,	1,722,825	315,250	1,757,450

Congress at Onset.

A Woman's Congress will be held at Onset Bay, on Thursday, Friday and Saturday, August 11, 12 and 13. The platform to be wholly under the management of the ladies.

Thursday, Aug. 11, has been set apart as Grand Army day when the following talent will speak:

Mr. W. H. Bartlett of Worcester, Mrs. Josephine A. Burdick of North Adams, Mrs. Mabel MacGill of Cambridgeport, Mrs. C. Faunie Allyn of Stoneham. All Grand Army posts, Woman's Relief Corps, Sons and Daughters of Veterans are cordially invited to be present.

Friday, Aug. 12, the following speakers: Mrs. Helen L. Russegue of Hartford, Conn., and Rev. Anna H. Shaw of Cape Cod. Subject: "The New Man."

Saturday, Aug. 13th, the audience will be addressed by Mrs. Kate G. Pope of Leominister, and Mrs. Mary Elizabeth Lease of Wichita, Kansas. Subject: "The Signs of the Times."

There will be forenoon and afternoon sessions. Excursion tickets to Onset Junction for sale at all stations of N. Y., N. H. & H. R. R.

Wollaston Red Men.

Hodenosaunee tribe held its regular council Thursday evening, and after the routine business was transacted, Brother Frank Bassick entertained the members with several selections on banjo and mandolin, accompanied by the pianist of the tribe, Brother H. A. Corbett. Brother Corbett also rendered several solos, which were greatly enjoyed. After the entertainment several tables were made up for whist and euchre. The hot weather seemed to have no effect on the attendance, there being a large number of members and visiting brothers present. The tribe has recently been presented with some elegant new scenery which will be used in the degree work, of which there will probably be a great deal this fall, as several brothers have promised applications at an early date. The entertainment committee has planned to give the members and friends of the tribe a good time in September.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

By C. H. JOHNSON, - - Auctioneer. Office, Adams Building, Quincy, Mass.

TEETH EXTRACTED.

No Pain or Danger.

Safer than vapor. Money paid for extracting goes towards teeth to be inserted. I am the only dentist in the city using the Painless Preparation for Extraction.

DR. C. B. UNDERWOOD,

Spear St. Rear of Public Library.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Will it be another hot Sunday?

Arrangements have been made for the publication of more music in the Ledger.

The Republican county convention will be held Monday, Oct. 10, in Wesleyan hall, Boston.

The weather bureau reports yesterday noon to have been in the coolest part of the twenty-four hours.

Open regatta of Wollaston yacht club and Ladies' Day of the Squantum yacht club this afternoon.

The Prospects of Brockton and T. R. & S. A. A. are playing at Merrymount park this afternoon.

Mr. Eddie Carr, who has recently worked for James McConnell is at the Massachusetts General Hospital.

Warren Nelson of Atlantic is spending his three weeks' vacation viewing points of interest around Quincy.

The first yachts in their classes at Marblehead were the Ashumet, Hermes, Duchess, Koorali, Jilt, Polly and Jay.

Collector Baker publishes in this week's Patriot a list of estate for sale for unpaid taxes. There are some in each ward.

A. A. Linscott will sell souvenir tiles below cost during the coming week. Attention is also called to his oil paintings.

Thomas E. Grover of Canton is mentioned as a rival of Representative Newcomb of this city as a candidate for senator.

The Quincy Yacht club entertainment which was scheduled for Aug. 11, has been postponed to Tuesday evening, Aug. 23.

George Leslie Tupper, the popular soda clerk at H. B. Kittredge's, has been sick for the past few days, but is improving and will be out soon.

Charles L. Hammond has resigned as a member of the Norfolk county Republican committee, and Thomas F. Burke has been elected to the vacancy.

Tax Collector Baker has sent out summons on the unpaid poll tax bills and consequently there is the usual amount of kicking on the part of delinquents.

Horace F. Spear, cashier of the Mt Wollaston bank, leaves for a brief vacation. During his absence Mr. Horace B. Spear and Mr. Walter Holden will be behind the rail.

Mr. Walter B. Burrell and Mr. Joseph Lauzotte left on Wednesday for a ten days' trip to the Provinces. They will visit Montreal, Quebec and Charlottetown, P. E. Island.

Mr. William T. Pinkham, administrator of the estate of the late Horace A. Pinkham of Wollaston, has brought a suit for $10,000 damages against the N. Y., N. H. & H. R. R.

In the Norfolk superior court the case of Dinah Dawson, administratrix, vs. Charles L. Badger et al has been settled by agreement. The plaintiff is to receive $1000 and costs.

Mr. Michael Coyle of Brackett street, who has been on the sick list for some weeks past, has so far recovered as to be about, and it will not be long before he will regain his old-time strength.

Rev. David Keer from Scotland will preach at Calvary Baptist church, Franklin street on Sunday, Aug. 7th. He comes as a candidate for the pastorate of this church, and a cordial invitation is extended to all who are interested in this work to give their earnest support by their presence, Mr. Keer comes highly recommended by those who have known him and his work in the land across the sea.

—Brookline's increase in valuation was $2,220,220, making the total $66,498,968. Brookline has many elegant residences and values them at $19,840,700, but values the land much higher, viz $3,106,600. The tax rate is $11.80.

—The little Gloucester, with Commander Wainright on deck, is wining additional laurels in Porto Rico. It is strange to think of the pleasure yacht Corsair as a warship, but such she is, and a valiant one, too, as her effective work in sinking the Spanish torpedo boat destroyers, Pluton and Furor, outside of Santiago harbor attests.—Brockton Times.

Grand Opening.

The new dance hall at the Nantasket chutes will be opened free to the public next Wednesday night; dancing from 8 to 11. At nine o'clock there will be a fine display of fireworks. Through cars on the electric street line from Nantasket beach to Neponset will be run at the close of the dance. Billy Gilbert, the champion bicylist will shoot the chute at 9 P. M.

Chocolate is greatly improved by adding a teaspoonful of strong coffee just before serving; a teaspoonful of sherry also helps.

Comparison

Is the true test of real difference. Compare our $3.00 SHOE with what you see elsewhere marked at $3.50 and $4.00 and see what you think.

We give the best value to be had for your money in these SHOES.

C. PATCH & SON.

Coal and Wood.

The Secret

of good bread is as much in the baking as in the mixing. Bread baked in a gasoline stove should be good, because it is possible to get just the right temperature in the oven for the bread until it has risen to its height and the crust formed, and then to turn off the heat and finish the baking gradually.

This is only one of the many good qualities of a gasoline stove. Prices from $3.50 upwards.

TENTING OUT.

An Experience on the Shore at Rock Island.

A Northeast Gale Which Lasted All Day.

Flapping of Tent Reminded Campers of Santiago.

Rock Island, Quincy,
August, 1898.

Editors of the Daily Ledger:

We pitched our tent on a hillside, which reminded us of the Arabarian days of tenting, we have read of, only we are not on a sandy desert. Our tent is roomy, and while old Borealas soothes us to repose at night on one side, we enjoy good clam chowders on the other, our dining room. The door opens out on the bay and we regale freely in the salient breezes of old ocean. Boats, yachts with numerous white sails, grace the waters especially, of an afternoon boat races, which is frequent while the evenings are entertained by band music from across Houghs Neck, and brilliant lights flash across from Nantasket Beach. Tenting is delightful, yes, it is unique; and yet notall things beautiful await us here, some times we experience a wild time, one of which visited us a short time ago. The gentle falling of the rain towards morning on the roof reminded one forcibly of the old time song, "Of when the hurried shadows gather," and its sweet refrain of "The pattering on the roof." Later daylight developed another side. "Going to have a gale, Mr. B?" I should say so, wind just northwest.

The storm increased, sixty knots per hour, and "the hurried shadows" and our poetry vanished and we stood amidst the stern realities of a good rousing northeaster. The tent sides kept up a constant flapping while a loose corner of the covers flapped hard against the end as the wind swept unceasingly past, which was like an old fashioned improvised fly-trap made up of two pieces of boards tied and hung from the ceiling of the kitchen, enticing the flys with a generous share of spread sugar and soap. When full, a member of the family would bang them hard. Only our noise was loud enough for a bombardment. Might be Santiago, if near enough to be heard.

We had breakfast on hot coffee, hot potatoes, and hot clams, of which a generous supply had been laid in the day before not anticipating a storm, but Yankee forethought for a good appetite. Well satisfied we rolled up in wraps and blankets and sat contentedly to let the howling go on.

Suddenly aroused, "Is there any danger of this tent blowing down, Mr. B?"

"Not in the least, we are tied to the earth as strong as forty guys can hold us, and each one held by a fifteen inch pin driven into the ground, and four more at the ends, and two ropes over head.

So saying he tossed an old fashioned leather bound book into our lap printed in 1820, "There, read that, —Profound Meditations, — that will settle your fears for any gale we may chance to have here on Rock Island, and also prepare you for the other life, my dear. "Where did you get it? "One of the cottagers sent it on board the yacht. Thought I'd need meditation then if ever, I suppose.

We read, and read and withal heartily enjoyed the wildness of the day. "Dinner time," "What shall we have?" "Why just what we had for breakfast, warmed over, only begin with hot clams first." "When is this storm going to end anyhow?" "Can't tell, its one of the invincibles, may last forty-eight hours." "Hadn't you better cut it off a piece, say, call it just half?" "I don't care, just suit yourself; anything more?" as we shoved back from the table. "Well, no, only one won't be very likely to become dyspeptic on this fare."

"Hardly, no more possible than for this tent to blow over."

Soon after dinner Neighbor Edison appeared at the tent fly for admission, and thought to bring a supply of Boston and Quincy news, and others, which was like receiving an old friend. Night brought a change. "There, I told you to call it about half." While the gale sang in a subdued tone the clapping of the tent ceased so much, so, that the roaring of the waves on Nantasket beach could be distinctly heard. We looked out on rain washed hills and Pemberton stood out in bold relief.

The next morning sun smiled on a world washed cleaned and sweet and the bay was as calm as "an infant's sleep." M. M. B.

Rock Island Quincy.

—The tax rate in Stoughton this year is $20 on 1000. Last year it was $17.50.

CO. K's SUCCESOR.

I. O. G. T. Entertainment.

Merry Mount Lodge, No. 55, I. O. G. T., held its usual quarterly entertainment, Thursday evening, in Doble's hall. Although the weather proved unfavorable, it did not keep away those who had intended participating in the evening's enjoyment. When the curtain was rung up at 8 o'clock there was not a vacant seat in the hall. The best local talent had been engaged, and it is needless to say that each number of the programme was carried out to perfection. It included:

"Star Spangled Banner," Miss Ida V. Chisholm.

Vocal duet, Misses Gould and McIntosh.

Flute solo, Mr. Edwin Wood.

Reading, Miss Ruby Neil.

Dialogue, "A Precious Pickle," Mrs. Howe and Mrs. Tenny, Misses Gould, McIntosh, Neil, Chisholm and Tenny.

Piano solo, Miss Edith Chick.

Coon song, Miss Bella McIntosh.

Solo (auto harp), Miss Gladys Chubbuck.

Drama, "The Siamese Twins," Mr. Gomez, Chas. Hobart, J. Bigelow, A. Howie, and Warren Mitchell.

"Hail Columbia," Miss I. V. Chisholm.

Wollastons Defeated.

The Wollaston Golf team met defeat yesterday at Brookline, in a match with the County club, 10 to 4.

Country club—Rice, 0; Blanchard, 4; Parsons, 4; Dalton, 0; Bennett, 2; Francis, 0. Total, 10.

Wollaston—Freeman, 1; Tilton, 0; Cracknell, 0; Brewer, 3; Swan, 0; Brock, 0. Total, 4.

DIED.

UNDERWOOD—In Quincy, Aug. 4, Mrs. Elizabeth Underwood, formerly of Boston, aged 36 years.

WESTGATE—In Quincy, Aug. 4, Albert, son of Mr. John and Mrs. Bella Westgate, aged 7 months and 21 days.

CARROLL—In Randolph, Aug. 3, Thomas F., son of Mrs. Margaret and the late William Carroll, aged 18 years and 8 months.

KNIGHT—In Randolph, July 31, Mrs. Rachel Jane, widow of Nelson Knight, aged 79 years, 3 months and 24 days.

FOR TWO FAMILIES.

Design For a Home That Will Also Help to Pay For Itself.

[Copyright, 1898, by George Palliser, 32 Park place, New York.]

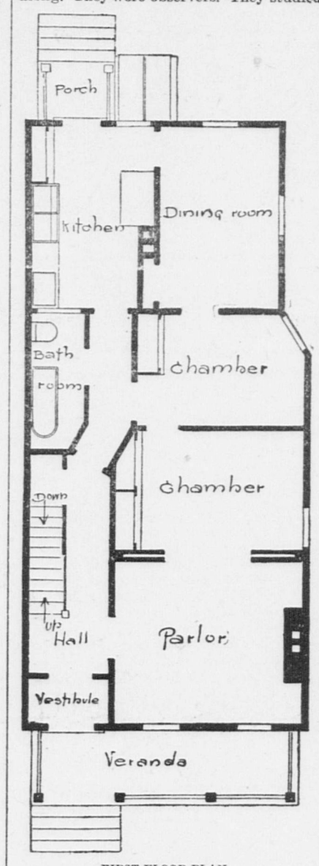

It is not an unusual thing for an architect's services to be overlooked. The owner will say: "Well, I do not see why I should employ an architect when I know

PERSPECTIVE VIEW.

absolutely what I desire. I have also studied all of my ideas very carefully. As they seem to fulfill all my requirements, I can't see why I should consult an architect to do practically what I have already accomplished."

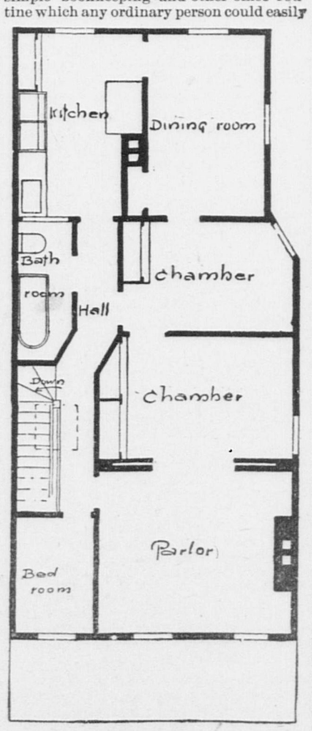

You will always note that all the great men of the world have had practical experience and in many cases have had to rough it, so to speak, very severely. They invariably earned the money for their studies by hard, honest work, and push and perseverance were bound to carry them along. They were observers. They studied

FIRST FLOOR PLAN.

while they worked, and thus what education they could grasp was well taken care of, carefully placed where it would do the most good.

This is the way nine-tenths of the great men of the world have become great. They have fought life's battle from the foundation up. The boys of today in many of our colleges are taught many things theoretically which become impossible for lack of practicability. In many cases the young student's ambitions are stunted by too much learning, and as a natural result he comes from college ready to accept a business situation, which very often is one of simple bookkeeping and other office routine which any ordinary person could easily

SECOND FLOOR PLAN.

take care of, and he seems perfectly satisfied to keep this position and appears to take no interest whatever in lifting himself out of this level. It is very similar to the case of the man building his home who does not employ an architect. We ask him to consult two of his neighbors, one who has employed an architect and one who built his house himself without the aid of an architect.

The design here illustrated is a small country house suited to two families, each family having kitchen, dining room, parlor and two chambers, all improvements, hot and cold water in bathroom on each floor. This is a good investment for a man who wishes to own his home and rent part of it to help pay off his debt.

THE SOCIAL REALM.

(*Continued from page 4.*)

Miss Cora A. Polk a teacher in the Towanda, Penn., high school who has been visiting her brothers and friends in this vicinity for about six weeks returned to her home this week.

* * *

Mr. John Barbour and family of Braintree will return from Hummerock beach about September first.

* * *

Mr. and Mrs. Herbert W. Pratt of Randolph have been touring the White Mountains.

* * *

Mrs. E. E. Abbott of Hyde Park and Mrs. A. A. Wheeler of Oakdale are at Houghs Neck

* * *

Mrs. N. G. Nickerson and family of Wollaston are at South Dennis.

* * *

Mr. and Mrs. Asa P. French of Randolph are at Little Campton, R. I., for the season.

* * *

Mrs. Herbert Polk of Beach street, Wollaston Park, has returned from a visit to Cumberland, R. I.

* * *

Rev. and Mrs. T. H. Vincent of North Weymouth have returned from Orleans, Mass.

* * *

The Misses May and Rose Coyle and sister Edith are spending the month of August at Sunset, Maine.

* * *

Mr. John C. McGuane, of North street, will spend the next two weeks in Maine and New Hampshire.

Open Cars in Wet Weather.

To Editor of the Daily Ledger:

A good deal of dissatisfaction among the daily patrons of the Quincy and Boston street railway is made manifest by one thing which should be avoided. Who but the public should have a voice in this inconvenience? On most every rainy day some of the box cars are housed up in different car houses along the routes, some in Quincy, Holbrook and other places, the open cars are run out in a drenching rain.

Passengers have to hunt around the car for a seat, and then there is not a dry place in a car, only in the centre.

Let the Editor of the Ledger start from any given point along the routes on a wet morning, and he will see how disagreeable it is. It is not the voice of one, Mr. Editor, but many, who think a little judgment used by the officials of the road would stop this nuisance. People don't like to ride in a wet car on a rainy morning.

They say that there are but few box cars, but even so why keep them in the car houses on rainy days. Give the patrons the benefit of dry seats if possible, for it is the public who pays the road and keeps it going, and then why not accommodate the passengers.

Commonwealth of Massachusetts.

NORFOLK, ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, and all other persons interested in the estate of

JOHN FEDERHEN,

late of Quincy in said County, deceased.

Whereas, a certain instrument, purporting to be the last will and testament of said deceased has been presented to said Court for probate by Herbert M. Federhen of Quincy, who prays that letters testamentary may be issued to him the executor therein named without giving a surety on his official bond.

You are hereby cited to appear at a Probate Court to be held at Dedham in said County of Norfolk, on the seventh day of September, A. D., 1898, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week for three successive weeks, in the QUINCY DAILY LEDGER, a newspaper published in Quincy, the last publication to be one day, at least, before said Court, and by mailing, postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, George White, Esquire, Judge of said Court, this third day of August, in the year one thousand eight hundred and ninety-eight.

JONATHAN COBB, Register.

PEACE NEAR AT HAND

President's Confidence Not Abated by the Delay.

Ministry Trying to Preserve the Dynasty.

Sagasta Proceeding With a View to Preserving Domestic Tranquility.

Washington, Aug. 6.—The situation has in no sense changed since the last visit of the French ambassador to the white house. All the trustworthy signs and indications upon which President McKinley bases his hopefulness for a termination of the war continue in force, and nothing has occurred to abate the belief that peace is near at hand.

The European dispatches continue to indicate that the Spanish ministry is endeavoring to conclude peace and at the same time preserve the reigning dynasty in Spain. It was pointed out that Sagasta was displaying great finesse in the conduct of the negotiations, especially with reference to the home effect of concluding peace. He is uniting the principal men of all parties, so far as he can do so, in anagree ment that each faction shall shoulder a portion of the responsibility for ending the war.

It is well known here that one of the plans for handling any uprising of the people against the young king was for the queen regent to leave Spain and allow Marshal Campos to establish a military dictatorship, to continue until the uprising had been suppressed, when Campos was to end the dictatorship and the young king was to be put back on the throne. Campos' great military prestige and popularity with the army and the military party was relied upon to carry the plan through, but now General Campos has been called in by Sagasta to assume part of the responsibility for accepting peace terms at this time, and the dispatches show that Campos has agreed to this. Indeed, it is significant that, of all the leading statesmen of Spain, representing all the political faiths, called in by Sagasta, all, with one exception, agreed to join Sagasta in his effort to bring about an honorable peace.

The best informed persons fix next Monday as the time when the United States government is likely to receive Spain's final answer, but this is simply conjecture, for there is not the slightest means of knowing the tendencies at Madrid. There is a confident belief among officials as there has been from the first that the answer will be a reluctant but none the less conclusive acceptance. At the same time it is suggested in some quarters that there is a possibility that the disclosures made by the American general at Santiago concerning the serious condition of our troops might be a straw at which the Spanish cabinet would grasp. This is quite doubtful, however, as there is a question whether the statement of the American general ever got outside the borders of the United States, owing to the strict censorship. Moreover, all the evidence indicates that Spain is weary of the conflict and is convinced beyond the slightest question of the hopelessness of further opposition.

Officers' Round Robin.

Friday would have been remarkably dull at the war department, considering the existence of a state of war, had it not been for the round-robin signed by the military commanders at Santiago, and the short, but sharp, correspondence between Colonel Roosevelt and Secretary Alger. These afforded food for much discussion among all classes of officials, and the belief was general that there are to be further chapters in the correspondence providing it is deemed harmless to the best interests of the army to allow further publications.

In proof of the allegations that the war department had bestirred itself to succor the unfortunate army in Santiago before the united protest was made, the following statement is given out by the secretary of war regarding the shipment of troops north from Santiago: "Until quite recently it was supposed that yellow fever was epidemic in Santiago, and it was not believed that it would be safe to send shiploads north of men largely infected with yellow fever. The disease, it was believed, would spread rapidly on board ship and result in the death and burial of many at sea. On the 28th ultimo, the secretary of war telegraphed to General Shafter that as soon as the fever subsided the men of his command would be moved north to the camp that had been selected for them at Montauk Point. On the 30th of July General Shafter telegraphed: 'Made known secretary of war's telegram that troops would be moved north as soon as fever subsided, and it had a very good effect on the men.' When, however, the true condition was made known, an order was issued to General Shafter to move his command north as rapidly as possible, and all ships in the quartermaster's service, possible to get to Santiago, were sent there, and the liners, St. Paul and St. Louis, were also ordered there. All this was done before the communication signed by General Shafter and his generals was received, and before Colonel Roosevelt's letter was published. Over 150 surgeons are at Santiago, and 176 immune nurses have been sent there, besides the usual hospital corps that always attends such an army. There have been less deaths in Santiago by yellow fever than by typhoid fever in any camp of the same size in the United States."

Trouble In the Sixth.

Two messages were received at the war department from Ponce, the first announcing the death of a young officer, and the second, from General Miles himself, touching the trouble in the Sixth Massachusetts regiment, which was the subject of official inquiry by Secretary Alger. Details of the latter telegram are not obtainable, but it is apparent that General Miles is determined to repress sternly at the very beginning any departure from military discipline even among the volunteer element in his command. As near as can be learned the officers of the Sixth declined to submit to an examination which was prescribed by the brigade officers, the proper authority, and upon the insistence of the latter they sought to resign their commissions. General Miles is dealing with the case, and if he should decide to allow these officers to resign or discharge them from the service of the United States, and the latter is possible, the governor of Massachusetts will be called upon to appoint their successors. It can be said that up to this time the officials are thoroughly satisfied with General Miles' conduct of the Porto Rican campaign, and they do not hesitate to admit that the events that have occurred since his landing at Guanica fully justify the arbitrary change made by him in the carefully laid plans of the department for the conduct of the campaign.

More Honors For Sampson.

The selection of Rear Admiral Sampson to command the eastern squadron was decided on Friday. It is said, upon was decided on Friday. It is said to be Long to put in command of the fleet an officer of tried judgment and discretion. While having every confidence in Commodore Watson, it was deemed proper to place him second in command. Commodore Watson is regarded as one of the coolest and ablest officers in the government service, and he will undoubtedly be able to assist Sampson in the operations which will occur, if Spain does not accept the president's terms.

Friends of Commodore Schley regret the president's action, and in assigning the president's action in assigning his participation in the work of the eastern squadron, but it is explained that Commodore Cchley will be useful in Cuban waters in keeping the reserve fleet in condition to engage any ships of the enemy which may attempt an attack on our coast.

Places For Convalescents.

Washington, Aug. 6.—No yellow fever cases will be brought to this country, as such cases can be best handled without removel. Surgeon General Sternberg has in view several points for patients and convalescents. The hospital station will probably be located at Montauk Point, where a field hospital for 500 patients is being prepared, in addition to hospital equipment which Gen. Shafter's forces will bring along with them. In addition to this eneral Sternberg has in view two fine locations where the bracing mountain and lake air will help convalescents to recover. These points are Fort Ethan Allen in Vermont and the army post at Plattsburg, N. Y. General Sternberg has, however, no purpose of establishing hospital camps at these points. The idea is to send there convalescents already well on the way to recovery, who need good air and surroundings to bring them completely back to health. Each post will accommodate some 500 or 800 men.

There is no difference of opinion between the medical officers at Santiago and those at Washington on the question of removing the troops of Shafter's army. Surgeon General Sternberg's office has maintained from the first that the army should be removed as fast as the military situation would permit.

An Ice Making Plant.

Washington, Aug. 6.—Nathan Straus of New York offered to furnish the war department with an artificial ice plant capable of producing 13 tons of ice a day and the apparatus necessary for the filtering of 20,000 gallons of water.

NATHAN STRAUS.

Mr. Straus' offer included the salaries of the men to operate it. The offer has been accepted by the department. Those associated with Mr. Straus in making the offer are J. Pierpont Morgan, Perry Belmont and President Stewart of the United States Trust company.

Capt. Clarke Invalided

Washington, Aug. 6.—Captain Charles E. Clarke, commander of the Oregon, has been invalided home. The news of the captain's illness came as a shock to his Washington friends in and out of the navy who followed with intense interest his trip from San Francisco around the horn to Florida, and noted with added interest his conduct of the Oregon in the battle with Cervera's squadron.

Definie information concerning his illness is not obtainable at the navy department. Secretary Long said that Captain Clarke had been granted leave of absence on account of sickness, but that he had no knowledge of how sick he was or from what disease he was suffering. It is believed at the navy department that Clarke is suffering from a climatic affection, induced probably by the tremendous strain under which he has been for months.

Mishap to a Surgeon.

South Framingham, Aug. 6.—Dr. Bateman of Charlestown, assistant surgeon of the Fifth regiment, was thrown from his horse Friday, breaking his left leg just above the ankle. The horse caught his foot between the railing and planking, tripped and fell with his whole weight on the doctor's leg.

Sergeant Frank I. Curtis of Company H has been missing from Camp Dalton fer several days. Considerable anxiety is felt for his safety, as for some days he has not been himself. He complained of illness Wednesday to Captain Stover, who sent him to the surgeon.

BOB FLAT ON HIS BACK

Dusky Boxer Armstrong No Match For Jeffries.

In One Round Only Was He Superior.

Californian Unable to Use His Right Hand at the Close.

New York, Aug. 6.—A large number of the followers and supporters of boxing in the east assembled at the Lenox Athletic club Friday night to get a line on Jim Jeffries, the California pugilist, who had agreed to fight Bob Armstrong, the big colored fighter, and teve O'Donnell, a clever and scientific boxer, 10 rounds each, with a brief intermission between the bouts. Among those present was Pugilist Jim Corbett.

Jeffries for the first contest selected Armstrong, who was considered by many to be stronger than O'Donnell. Jeffries was in splendid condition. He weighed 207 pounds. But little was done in the first round. In the second round Armtrong had the better of it. In the third round Jeffries planted a straight left on the face, bringing blood form Armstrong's nose.

Tom Sharkey sat in a box in Armstrong's corner during the next intermission, and began coaching the dusky boxer. In the fourth round Jeffries got in more blows than Armstrong. In the fifth round, with a left swing, Jeffries cut Bob's eye and then jabbed his left to the face and hooked his right to the ribs twice. Armstrong clinched, but Jeffries threw him off and repeated the dose.

In the sixth round Jeffries made Bob run, and Bob slipped to the floor. Jeffries, in the sixth, later sent his left to the head twice, stunning Armstrong. Jeffries landed hard blows in the seventh round and got only ont in return. The eighth round Jim rushed, and got Bob on the run. In the ninth round Bob was weak, and did not land a blow, although he was struck several times.

In the tenth round Jeffries put Bob flat on his back with a left swing on the head. Bob took eight seconds of rest, and when he came up Jeffries kept pounding him, and Armstrong ran to the ropes without making an attempt to strike back.

Although Bob stayed the limit, he did so by running away from the big fellow. The referee declared Jeffries the winner. Armstrong was far outclassed.

After an intermission it was announced that the bout between O'Donnell and Jeffries would not take place, as Jeffries had injured his right hand in the fight with Armstrong, and his physician would not permit him to go on. The crowd hooted, but there was no further disturbance. Those who were near the ringside looked at Jeffries' injured hand, and it was certainly in very bad shape.

The preliminary bout was between Jack Root of Chicago and Jim Wattts, colored, of Louisville, Ky. They met for what was to have been a ten-round go, but in the second round Root knocked his opponent down three times, and the referee stopped the fight.

ON THE DECLIVITY.

Champions Not Keeping Up Their Reputation as Ball Players.

Louisville, Aug. 6.—Louisville took the fourth game of the series from the Bostons in a game as interesting as any of the five they have played. The champions lost because they could not hit Magee, the New England youngster, who proved his mettle against Nichols in the 12-inning draw on Tuesday. In the field their work was faultless, while the colonels, on the contrary, started the game in a slip-shod manner, which, if advantage could have been taken, would have given Boston an even break in the series.

Hickman, Boston's new twirler, was given a trial, and proved himself all right if he did not win his game. Only seven hits were made off him, and in but one inning were hits bunched. Captain Duffy thinks he is a comer, and his good opinion appears to be well founded. Score:

The Cincinnatis and the New Yorks broke even yesterday. Breitenstein was pounded in the first by the giants. Hill was invincible in the second game, which was called at the end of the seventh on account of darkness, with the Cincinnatis ahead.

Wood's clever pitching and perfect support shut the Baltimores out in Chicago in the first game. Isbell was wild and was hit rather freely in the second, while Maul was a puzzle, and the Baltimores won.

Sudhoff of the St. Louis team was in fine form yesterday. Dowd's muff of Griffin's fly in the fourth gave the Brooklyns their only run.

HER MEN FOLKS SOLDIERS.

The Widow of Colonel Bartlett Has Three Sons Now Fighting For the Flag.

Among the brave and self sacrificing women who have sent their sons to battle for the honor of their country is Mrs. Frank A. Bartlett of New Orleans. It is not the first time that she has been called upon to see her loved ones go forth to encounter the perils of war. In the war between the north and south her husband, the late Colonel Frank A. Bartlett, a well known journalist of this city, was in command of the dis-

MRS. FRANK A. BARTLETT.

trict of north Louisiana on the Confederate side, having his headquarters at different times at Monroe, Homer and Harrisonburg, La. Colonel Bartlett was a brother of the late Washington Bartlett, ex-governor of California. Mrs. Bartlett was married in 1853. During the war, with several children to care for, she exhibited that devotion and fortitude for which southern women are noted in undergoing the privations and trials only known to those who experienced the hardships of that terrible struggle.

After the war the family, ruined in fortune, but rich in that indomitable pluck for which the people of the south are noted, re-established itself in New Orleans. Mrs. Bartlett reared to be useful citizens and ornaments of society seven children, five boys and two girls. The sons she has sent to the present war are Major C. Julian Bartlett, who is senior major of the First Louisiana volunteer infantry. Major Bartlett is recognized to be one of the best informed and best drilled officers in the volunteer service in the south, and he long ago won his spurs for faithful and able service in the state national guard of Louisiana. Another son is Lewis W. Bartlett, lieutenant commander on board the United States monitor Passaic. He is a splendid officer and disciplinarian. The youngest child, Aubrey Bartlett, is an ensign on board the United States monitor Passaic.

Mrs. Bartlett is young for her years, and her amiability and loving disposition make her a favorite in all social circles. She enjoys the best of health, and, although filled with grief, as is natural, at parting with her three sons, she bears the trial with that Christian fortitude which marks the real mother. —New Orleans Times-Democrat.

Mrs. J. F. Dillon.

A great many people are mourning sincerely for Mrs. J. F. Dillon of New York, who, with her wonderfully beautiful and gifted daughter, was lost on La Bourgogne. A writer in the Washington Post says that Mrs. Dillon was a woman who made friends everywhere, and she had many friends in Washington. She was always especially kind to newcomers in New York, for she remembered the time when she herself came from the west, and was politely snubbed by certain pretentious New Yorkers because of her provincial origin. I remember with what delight she used to tell of her first visit to the seashore. She had learned to swim extremely well as a girl, in the west, and, much to the surprise of a haughty New York dame who was with her, she plunged into the surf and swam about boldly.

"Why, Mrs. Dillon," said the New York dame, as the swimmer reached shore again, "where in the world did you learn to swim?"

The tone was just a little too much for Mrs. Dillon's patience.

"In water, ma'am, in water. Where did you suppose?" she made answer.

Boarding House Plants.

House plants are corporate parts of the family which leave home to recuperate in the summer. All the first class florists have plant boarders during the summer. Palms and expensive foliage plants of different kinds are a part of almost every well arranged household. They are expensive plants, which may cost $10, $25, $100 or more each, and they cannot be left to die when the house is closed for the summer, so my lady sends them to her florist. It is not a profitable business. The plants take up valuable room and require some care. The florist does not make an effort to get it and will only take the plants of his regular customers. It is all in the way of business, and he does it to accommodate them. The charge is according to the number and size of the plants, usually about 50 cents a month for a plant. It is a benefit to the plants, for they are kept under better conditions than in an ordinary house, where they form a decorative feature.—New York Times.

A Clever College Girl.

A clever Radcliffe girl, Miss Nettie Fiske of Cambridge, has won the special prize of the Dante society, $25, in a competition open to members of all the universities and colleges in the country for an essay upon "Dante's Obligations to Old French and Provencal Poetry." The contest was open not only to college students, but graduates of not more than three years' standing. Miss Fiske was graduated from Radcliffe in 1894 and pursued a graduate course for the following three years. The essay was written a year ago.

SHORT NEWS STORIES.

The Art of Log Rolling—Commodore Schley's Quickness—Queen Milked a Cow.

The gentle art of log rolling is frequently made manifest in the works of the literary gentlemen who write about one another's productions, but the manner in which the matter is arranged in advance has never been made clear to the public. Only the outward and visible effects of some previous understanding are to be seen. The methods by which the thing is accomplished were revealed accidentally the other evening to several persons. Two men whose names are known in a small way, not so much for what they have written as for the way they have acted, were discussing two books recently written. They were, of course, the authors of the books, otherwise the books would never have been mentioned. Both men are comparative strangers in New York, one having come here recently from the far west and the other from England. Nearly every point in the two books had been discussed, when the Englishman leaned toward his companion.

"Now I'll tell you," he said to him, "what would be a very good plan for us to follow. You write something about me and my book out west and I will write something about you and your book in England."

The plan seemed to recommend itself to the other author and they both fell to discussing the best means of carrying into execution this agreeable task of log rolling.—New York Sun.

Commodore Schley's Quickness.

"Commodore Schley is about the quickest thinker I was ever shipmates with," said an old ex-man-o'-war's man, now a messenger in the navy department. "I was a bos'n's mate with him when he was the commander of one of the old wind jammers. We were on the south Atlantic station. We pulled into the harbor of Montevideo for fresh provisions one morning, and Commander Schley's gig was dropped to take him off to the beach to see the American consul on some business. Schley, when the gig's crew pulled her alongside the gangway, stepped into the boat with a good deal of difficulty,

for Montevideo is the roughest harbor in the world, and with the motion of the ship and the rocking of the gig it required some seamanship to get aboard of the running boat. The cox'un of the gig gave the order to shove off a bit ahead of time before Schley had got aft to his seat. Just then a big wave struck the ship on the port side, and she keeled over, while the gig rose almost level with the starboard gun'ls. A big gun was hanging with her snout directly above Schley's head when this happened, and if he hadn't done a bit of rapid thinking his skull would have been crushed like an eggshell. He just happened to take in the situation out of the tail of his eye, however, and he dropped into the bottom of the gig on all fours in the nick of time to save his life."

Queen Milked a Cow.

The queen of the Belgians and the princess during one summer resided at Spa and daily took long drives in a pony cart.

One of their adventures took place at a farmhouse where they called to buy a glass of milk.

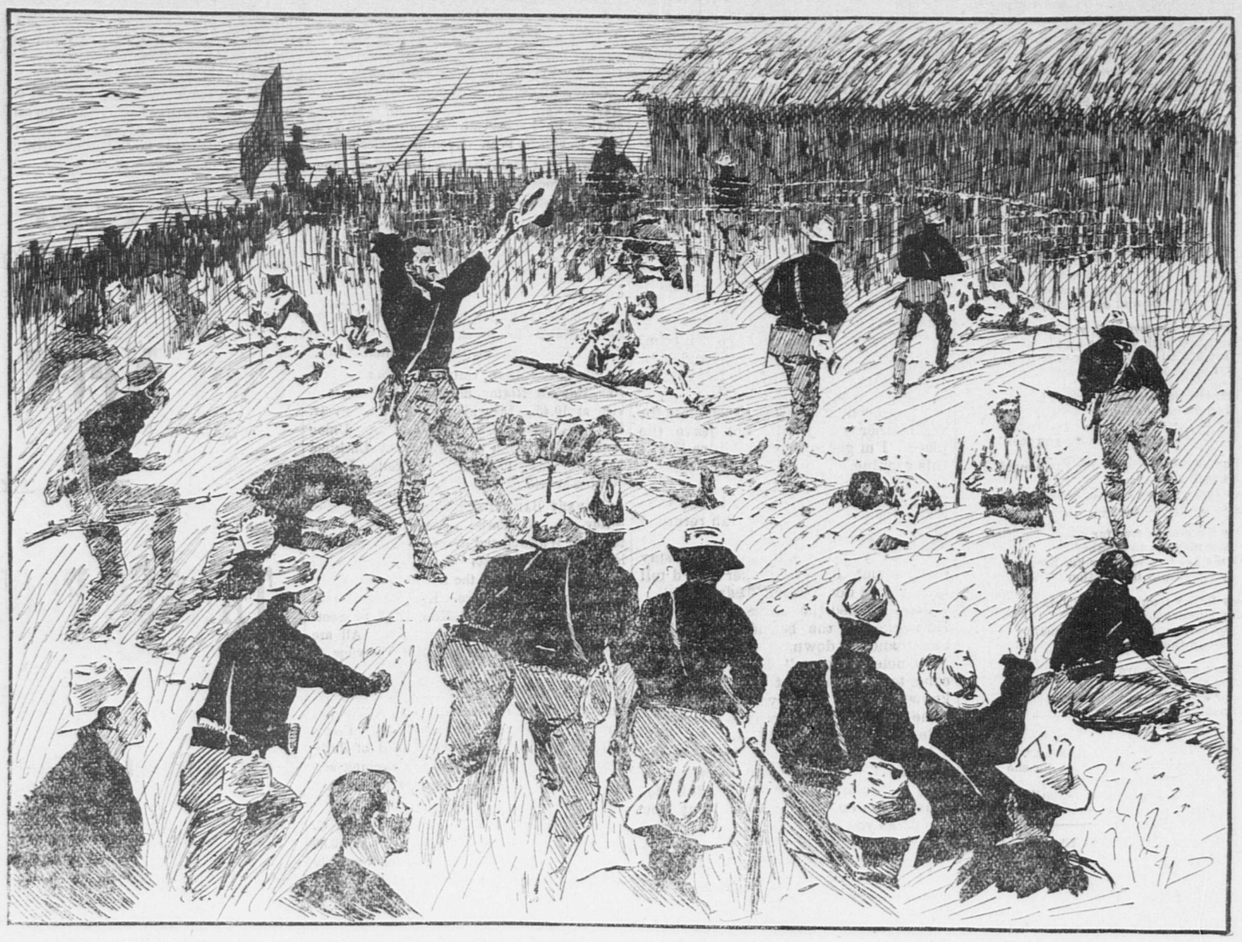

Nobody but an old, paralyzed woman was in the house, and she replied that no milk was left in the jugs and that she was unable to go to milk a cow. "Never mind," said the queen. "If you will allow me, I will go to the pasture. Just tell me where the jugs are." "But, my dear lady, you are from the town, and you will never be able to milk a cow!" objected the old woman. She was, however, mistaken, for a little later her majesty returned with a half filled jug. Meantime the princess had laid on the table three bowls, a loaf and the needful knives and plates. The old farmer's wife was served by the princess, who, it appears, greatly enjoyed the adventure.

Mary Anderson's Singing.

I had another American pupil last year whom I distinctly preferred—that is, my next door neighbor, Mme. De Navarro, Mary Anderson that was. After a few lessons, she sang my song "The Throstle" as well as I ever wish to hear it sung. There is one phrase in the song which I shall always connect with her, firstly, because she sang it really beautifully, and, secondly, because once, when I suggested that she wasn't singing it lightly enough for the English throstle, she said I was quite right, it certainly was a good deal more like the American eagle!—Maud Valerie White in Cornhill Magazine.

Will Beat the Men.

An expedition consisting entirely of women has been formed in Australia to explore the Solomon islands, the home of the fiercest cannibals known. Hitherto white men have been able to penetrate only a few miles inland.

THE STORMING OF SAN JUAN HILL, NEAR SANTIAGO, JULY 1. THE HEAD OF THE CHARGE. From HARPER'S WEEKLY.

After a Drawing by Frederic Remington. Reproduced from *Harper's Weekly* By Permission. Copyright, 1898, by Harper & Brothers.

As Stephen Crane says, in his account of the action at San Juan on July 1, "It was like Inkerman, where the English fought half-leaderless all day in a fog, only the Cuban forest was worse than any fog. In these woods, unknown to some, including the Spaniards, was fulminated the gorgeous plan of taking an impregnable position. One saw a thin line of black figures moving across a field. They disappeared in the forest. The enemy was keeping up a terrific fire. Then suddenly somebody yelled, "By God, there go our boys up the hill."

"And up the hill they went, straight into as pitiless a hail of lead as ever penetrated. Through the tangled barb-wire fences, over the trenches, some with grimly set lips, others cursing and muttering and shouting; up, up they went while their comrades fell around them. The Spaniards did not understand such charges, and wondered in a vague way, while shooting with their terrible Mausers, when the Americans would retreat. They did not know the American soldier as well then as they do now. With a roar the regulars reached the block-house, and San Juan was ours." Frederic Remington's picture in Harper's Weekly, from which our illustration is made, is a stirring portrait of the last moments of this charge.

There is nothing that daunts the American soldier—defective organization, deficient equipment, hen-coop life on board of transport, heat and fever of tropics, insufficient transportation, lack of food, lack of protection by artillery fire—nothing that daunts the American soldier. He is full of patience, cheerfulness, kindness, and affection for his stanch and dauntless friend, the officer of the line. There will be others to sing the deeds of the superiors, and always deeds a plenty to be sung, but a voice should be lifted for the plain soldier and the officer of the line.

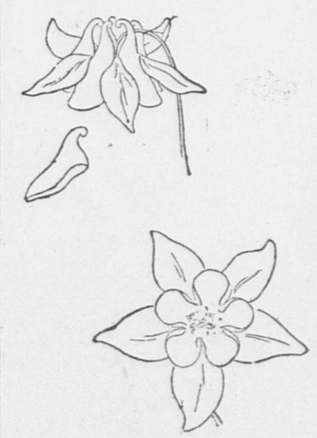

FRUIT AND FLOWERS

THE COLUMBINE.

One View of Its Qualifications to Be the National Flower.

It is not intended to enter here into a consideration of the merits of the various flowers proposed for the national floral emblem, but merely to mention some claims for one of the rival candidates, which Professor F. L. Sargent of Cambridge, Mass., has presented in Up to Date Farming and Gardening in such a manner as to entertain and interest even those whose allegiance may be given elsewhere. Among other things he tells that few of our native plants are so widely distributed as the columbine in its various forms. With the exception of a comparatively small region about the lower Mississippi columbines are known to occur wild in every state of the Union. Even in the region excepted this plant grows readily from seed in any garden.

The special associations which the plant has with our country are, according to Mr. Sargent, as happy as they are unique. The flower's very name suggests our beloved Columbia. Nor have we here any trivial play upon words, but, on the contrary, a similarity of remarkable significance. It is well known

SIDE AND FRONT VIEWS OF COLUMBINE

that the name of Columbus in his native language means a dove—a circumstance seen to be full of poetic significance when we recall how he, like Noah's messenger, brought back tidings of a new found world. It is moreover a familiar fact that the columbine received its name on account of the resemblance which one form of the flower (side view) bears to a group of doves. This form grows wild in our Rocky mountain states.

Equally fortunate and remarkable are the associations which cluster about the flower's other name, aquilegia, by which it is commonly known to botanists. It has been generally understood by those who used it to be connected with the Latin aquila, an eagle, because they saw in the flower, when reversed, what looked like an eagle's talons, where others found a semblance to the graceful necks of doves. Thus associated with the type of inoffensiveness, the harmless dove, we have the thought of our American eagle, emblematic of fearless power.

Nor is this all the symbolism we can trace in this flower. A front view shows the outline to be a beautiful five rayed star. A single petal of one of the long spurred forms is the very shape of a horn of plenty (significantly characteristic of this land of ours), while in a short spurred variety the semblance to a miniature Liberty cap is equally striking.

In point of durability columbines compare favorably with roses. As to color, there is wonderful range and variety. Brilliant red, pure white and exquisite cerulean blue occur among the strictly American sort, and besides these national colors we have pale and golden yellows, orange, scarlet and purple. Particularly easy of cultivation, columbines are within the reach of all, however humble. Our wild forms are for the most part in full bloom by Memorial day and have not all disappeared by the Fourth of July.

Best Selling Peaches.

After early peaches from Georgia are out of the way the best selling varieties are easily determined, according to Orange Judd Farmer, there being much uniformity of opinion among dealers in the large cities. The Elberta, so extensively grown in Georgia, is also considered about the finest peach raised in Kansas and Missouri and one of the most salable ever offered. Troth's Early is shown considerable favor, and so with Early Rivers, York, Mountain Rose and Early Crawford. Old Mixon is a good selling peach, and so with Stump, Reeves and Late Crawford.

Fruit Notes.

It is said that it takes about three years of "peach curl" to make an end of a tree.

The favorite winter apple for Massachusetts is probably the Baldwin.

A whale oil soap solution, one pound to seven gallons of water, will destroy lice on currant bushes.

To set none but healthy plants and practice a short rotation of crops is said by good authority to be the best way to prevent raspberry anthracnose.

The Geneva station has concluded that single stem training is clearly superior to three stem training in forcing tomatoes.

Meehan's Monthly says Osband's summer pear is believed to be the earliest that commands attention by its size and good flavor, although not the earliest to ripen. Few early pears are considered first class in size or flavor.

WASHINGTON LETTER.

"Remember the Maine!"—Pingree Goes to the Front—The Education of Young Indians.

[Special Correspondence.]

Not a few persons who were opposed to any reference to the destruction of the Maine as having been caused by Spanish deviltry rather than by accident have protested against the motto "Remember the Maine!" Still, the men of the navy have used it, the troops have not avoided it altogether, the press has repeated the phrase from time to time as occasion suggested, and even the government has employed a way of keeping it before the public. Every person who has to use a proprietary or documentary stamp to pay taxes to support the war will "remember the Maine." There may not have been anything malevolent or bloodthirsty in it, but the internal revenue bureau has decorated the stamps with pictures of the battleship that was blown up in Havana harbor. This picture is on the stamps of all denominations below $1, the differences being only in designations of amount and in colors. The little picture at first glance is simply a warship, but those who are familiar with the features and peculiarities of the Maine will see at once that the warship is none other than the Maine. So every time a druggist gets a package of medicine upon which he must affix the stamp he will undoubtedly "remember the Maine" and wish the war was over. The use of the picture, when it costs, makes for peace and not for blood, and the treasurer estimates that before the people are allowed to forget the Maine there will be collected some $60,000,000 a year by the stamp act to pay for war expenses.

Pingree Fights For His Boys.

Governor Hazen Pingree of Michigan was in Washington the other day to see Secretary Alger in the interest of the soldier boys of his state. The interview was very satisfactory to the governor. This was not his first visit to the capital on war business. Recently he came here and had a seance with General Miles. The governor discovered that some of the Michigan troops had been sent to Cuba clothed in heavy blue woolen uniforms. It made him mad, and he did not hesitate to express his views to General Miles. He said the Michigan boys were entitled to the best of everything the government could but did not supply. If the government would not provide light canvas uniforms for the soldiers, the governor told General Miles, he would do it himself and charge it up to the war department.

General Miles reminded Governor Pingree that the uniforms must be of the regulation style, but the governor is quoted as having replied that style did not cut much of a figure as long as the Michigan boys were provided with something cool and serviceable in the way of uniforms. Governor Pingree went back to Michigan and ordered a lot of drab colored serge uniforms for the Thirty-fifth regiment, encamped at Island Lake, Mich. The uniforms were of his own design and were made under his supervision. "What is good enough for the boys is good enough for me," said the governor when he jumped off the train at the Pennsylvania depot. It was true, too, for the governor was attired in a soldier's uniform and called particular attention to it when he presented his claim to Secretary Alger.

Indian School Children From Carson.

Mr. Eugene Dean, superintendent of the Indian school at Carson City, Nev., is in the city. He brought with him 13 young Indians, 12 lads and one girl, whom he turned over to Captain Pratt, superintendent of the school at Carlisle, Pa. The boys were all members of their school band, and among them, Mr. Dean says, are several of fine musical talents.

"At Carson we have about 150 Indian boys and girls of the Piute, Shoshone and Washoe tribes. In the four years of my connection with the school I have witnessed an improvement among them that is simply wonderful. They all speak the English tongue habitually. I haven't heard an Indian word uttered in over a year. We have a kindergarten for the little ones and industrial training for the older pupils. The girls take ready hold of such practical arts as sewing, cooking and housekeeping, and their brothers are taught farming and the use of tools.

"A good many of the girls, after a course of training at the school, are taken by the white residents as domestics, and give very good satisfaction. The larger boys command very good wages as farmhands. Schooling to a great extent removes the inborn shyness of the Indian, and some of my older students will sit and converse with strangers in an easy way like white children. There is a certain per cent, however, that seem never able to overcome their native reserve."

He Saved His Leg.

"If the science of surgery had been advanced as far in 1861-5 as it is today, we would not see so many veterans of the civil war going about with stumps of legs and arms," said Dr. Hayden to a party of friends with whom he was talking about the war.

"Surgeons nowadays resort to amputation as seldom as possible, and by treatment preserve the injured member, where 30 years ago the first thought would have been to operate. A cousin of mine in the Confederate army got a bad wound in the leg, and when the surgeon proposed to amputate the sufferer stoutly resisted. Pulling a pistol from beneath his pillow, he swore a dreadful oath that he would shoot dead the first doctor that undertook to saw off his leg. They took him at his word and made no further efforts at operating. Today he is traveling about the world, a successful business man, with a pair of as good legs as anybody."

The use of the X ray has contributed largely to the advance made in surgery, and as the methods of its employment are improved it will become still a greater factor. Carl Schofield.

—The plans of the Boston elevated company have been approved. Now the question is: How long will it be before Bostonians will be riding in elevated railway cars?

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

Quincy and Boston
Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.35 A.M. and every half hour until 10.35 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.10 A. M. and every half hour until 10.10 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

BRAINTREE.

Coal for the school buildings has been put in this week.

Rev. and Mrs. Ordway returned Wednesday from a visit to friends in the western part of the state.

Rev. C. H. Williams, pastor of the South M. E. church is spending his vacation in Cincinnati, Ohio.

Herbert Porter received both prizes at the Kenwood alleys Monday, with a string of 101 and 100 candle pins.

Dr. T. Haven Dearing has made arrangments to build a very handsome house on Washington street between his own residence and that of his son, Dr. H. L. Dearing.

The Quincy avenue street car line is growing more and more popular.

The investigating committee met Wednesday evening for the first time.

The thirteenth annual reunion of Company A First Battalion of Mass. Volunteer Heavy Artilery, will be held at the Anderson House, Fort Point, Thursday, August 25. Comrades are invited to be there and bring as many friends as they wish.

Rev. A. A. Ellsworth is enjoying his vacation this month.

A Sea View—Quincy.

O! the yachts go sailing by,
The tide is in today,
Beautiful the waters lie,
Smooth as glass in the bay;
Scarcely a ripple where the waters lay,
Scarcely a sound comes over the bay,
This delightful August day.

A long reach of rocky shore
Slopes down against the west,
And tangled sea weed hangs o'er,
Swaying like a brown-green crest;
Not a ripple disturbs its silvery rest,
No sight exceeds its glossy breast,
Lovely and calm; a place to rest.

The rounded isles of russet hue,
Are bathed in a golden light,
Lending grace to this enchanting view,
While on and on, through dimming light,
These scenes are lost in gathering night,
There still remains with fond delight,
This charming ocean view tonight.

MARY M. BRYANT.
Rock Island, Quincy.

From the present outlook the racing season at Saratoga will be better than at any time during the last ten years. The Fitchburg Railroad Saratoga Limited, leaving Boston at 9.30 A. M. is the train to take.

WE ARE SEVEN.

[A modern complication.]

I met a little girl one day.
She was eight years old, she said;
A hat that was made in a wonderful way
Rose high above her head.

She had a fin de siecle air,
And she was richly clad.
Her eyes were black, her face was fair,
Her beauty made me glad.

"Sisters and brothers, little maid,
How many may you be?"
"How many? Seven in all," she said,
And, wondering, looked at me.

"And where are they? I pray you, tell."
She answered: "Seven are we,
And two of us with mother dwell,
And two with pa and me.

"And two came into the family
Along with my second mother;
A boy and girl, so they, you see,
Are my sister and my brother."

"You say that two with your mother dwell
And two with your pa and you.
So far it's all as clear as a bell,
But what of the other two?"

Then did the little maid reply:
"Seven boys and girls are we;
Four and two are six, and I
Make the seventh. Don't you see?"

"You've got it wrong, my little maid,
As sure as you're alive.
Subtract your new stepmother's two
And ye are only five."

"My ma and pa live far apart,
Each married to another.
My ma has two to cheer her heart,
My sister and my brother.

"My father took my sister Jane,
My brother John and me.
If you can count, it must be plain
Enough that he has three.

"Three and two are five, you know,
And then those other two
Make seven in all. Now I must go,
Since I've made it plain to you."

"Those two your stepma brought will not
Have seats with you in heaven."
'Twas throwing words away, for she
With pitying looks regarded me
And answered, "We are seven!"

—Chicago News.

SAVED THE FARM.

John Smith had a hobby, an unconquerable aversion to old maids. And yet, as in very mockery of his pet antipathy, his only child, Sarah, had developed into the hated object, right in his own household.

Sarah was tall and angular, like her father, but her face was pleasing and her disposition mild and amiable. She had never revolted against anything in her life—not even against the injustice of spending her youth in making preserves, apple butter or piecing quilts while other girls were making merry.

One day Jackson Smith received a hurt, and when Dr. Brown was called in he told Jackson his days were numbered. Then it was that his hatred for old maids proved itself.

"I'll never leave this place to a woman that can't get a husband," he said fiercely.

"But, father, Sarah's never had no chance; we've always kept her down," remonstrated his weeping wife.

He waved his hand to silence her. "Woman, no old maid shall inherit my place. I've sent by the doctor for Lawyer Clarke, and he'll come tomorrow. There's money enough in bank for you, but I'll fix it so that at your death it will go with the farm. Jackson Goggan, my namesake, shall get it all."

Tearfully Mrs. Smith imparted the facts to Sarah.

"Mother, would he turn you out of the old place just because he hates me?" and Sarah looked incredulous.

The elder woman nodded; then Sarah kissed the round, sunburned face and said: "Mother, I never have revolted against father, but I'm going to save the place for you. I wouldn't mind so much, but you shall never leave your home. I'm going out now to think it over," and putting on her pink sunbonnet she went out the back door. When some distance from the house, she sat down in the shade of a tree, and while her heart beat loudly over her father's contemplated injustice she resolved to outwit him.

"There's Josh Mullin, he might—but I can't bear Josh; he chews tobacco, and his mouth always looks dirty." She cast her eyes over the landscape, and on the next farm she saw the figure of a man in the field. "Yes, there's John Howard, but"—and her face grew pink—"I hate somehow to ask it of him." Then the tear stained face of her mother passed before her mental vision, and, giving a jerk to her sunbonnet, she started down the path across the meadow.

John Howard was hoeing corn. When he saw Sarah approaching, he stopped and leaned on his hoe, a look of concern on his face.

"Is the old man worse, Sarah?" he asked.

"Yes. Dr. Brown says he can't live more than two or three days, and—oh, John, it's awful the way he is!"

"Yes, but you have been a good, sacrificing daughter, Sarah, and you can't blame yourself for anything, you"—

"Oh, you don't understand, John! He's going to leave everything to—to Jackson Goggan, and mother'll have to leave the place," she half sobbed.

"You can't mean it, Sarah! Why—why, that would be outrageous. What makes him talk of such a thing?"

"Because — because — I am an old maid; he hates all old maids," and her face grew pinker than the sunbonnet. John Howard shifted the hoe to the other arm and looked down.

"John, I've come to ask you—oh, John, don't think me brazen; it's for mother's sake. I can't stand to see her turned out, and for my fault, and if you will only help me and—and—come up to the house and pretend that we are to be married—just until after the will is made—it wouldn't be so very wrong, John—not so bad as letting mother be put out of her home." She caught her breath in short gasps, but when John was silent her pink face suddenly paled. "I reckon it's asking a heap too much of you, John, but don't hold it against me I couldn't see any other way. Goodby, John" She was turning away.

"Don t go yet, Sarah. I—I think your idea is good, but it might not work. Jackson Smith is sharp. He'd see right through it, but—if—if you would be willing we could drive over to Squire Hall's this afternoon and get married. I wouldn't trouble you any, Sarah. We could go on just the same, and I'll never want to marry any one else, and if you should you could get a divorce, you know."

"Oh, you're sure it makes no difference—you don't mind, John?" Her tone was eager.

"No, I don't mind. I'd help you any way I could, Sarah. It's nigh noon now. I'll drive over for you in the buggy right after dinner."

"I'll be ready, and—I wouldn't have asked you, John, only—only—you understand how it is, don't you?" Her face was red again.

"Why, Sarah, where have you been? You look as rosy as a poppy," and Mrs. Smith wiped the tears from her eyes as she gazed at her daughter's face.

"I've been attending to business for us, mother. You will not leave the place. I'm going over to Squire Hall's this evening. John Howard is coming to take me in the buggy."

The sun was sinking low in the west when John Howard and Sarah returned from the squire's.

"Will you come in, John, and stay about some? I'd—I'd rather you'd tell him, if you don't mind," Sarah said.

John hitched the horse and went in. He walked to the bedside of Jackson Smith and sat down.

"Uncle Jackson," he began, "I've come to tell you what I've done. You know that I've often warned you that some day you would lose the most valuable possession you had"—

"It's the brindle heifer," interrupted Jackson Smith, his eyes snapping angrily. "John Howard, you think because I am on my deathbed that you can do as you please, but I'll show you. It's just like you to shoot a neighbor's heifer just because she jumped into your wheat. I don't expect anything better of you—the whole party is made up of thieves and cutthroats—but I'll leave it in my will. Jackson Goggan shall law and law until"— He sank back exhausted from his outburst.

"If you get that angry over that brindle heifer, Uncle Jackson, I don't know what you will say when I tell you that I have not touched the heifer, but I have married Sarah."

"Married — Sarah!" and Jackson Smith's eyes dilated. "Married Sarah!" he said, under his breath. "John, give me your hand. I knew Sarah was a Smith. Why, there never was an old maid in the Smith family, but it did seem she meant to take after the Walkers—her mother was a Walker. Sarah—married! I can go in peace, John, now that you have lifted the disgrace from the Smith family. Call Sarah. I want to give her the brindle heifer."

When the lawyer came the next day, he wrote a will bequeathing all, save a life interest to Mrs. Smith, to his beloved daughter, Sarah, who had gladdened the last hours of his life.

A few days later, with all due ceremony, Jackson Smith was laid away by the side of other Smiths. John Howard went home with his wife and her mother. At the porch he halted awkwardly, seeing which Sarah turned.

"Will you come in, John?" she asked.

"I'm afraid it would only pester you if I did. I—reckon I ought to go home, but I hate to leave you—you women folks alone—and you'll be kind of lonesome now."

"You might stay. We would fix up father's room real comfortable if you would just as soon," said Sarah, beginning to realize the awkwardness of her position.

"I'd like to, Sarah. I could tend the crop just as well, but I'd feel as if I was living off of you women, and—and you might get to hate me if I hung around."

"You needn't be afraid of that, John," said Sarah, tapping her foot nervously on the porch floor. "It would be the easiest way out of our—our—dilemma, but, if you'd rather not stay we could explain to folks how it was that you just married me to save the farm."

"But, Sarah, if we told that, it would be a lie. I took advantage of your trouble to get you married to me, and you didn't suspect me, but now I feel mean and as if you will not respect me when I tell you the truth." Sarah gazed at him in wonder. What could he mean, she thought, but no sound came from her lips, and he continued: "I've been trying for ten years to ask you to marry me, but I never could do it, and when you came to me in your trouble I jumped at the chance, Sarah, because I wanted you—I've always wanted you, but now I feel I can't stay—unless you can take me for your husband in earnest." His eyes did not lift to her face.

"John!" Her eyes were open wide in amaze, and the face so lately tear stained became radiant with unexpected joy. "You love me?" she questioned in glad unbelief. "Why, I have loved you all this time, too," she whispered.—Cincinnati Commercial Tribune.

The Worrying Habit.

A prime necessity of our permanent freedom from worrying is the possession of the personal quality commonly known as sand. If a man has not been endowed with sand by nature, he must pick it up for himself. Nobody is going to give him any, but he can do this easier than he thinks.

Most of the things we worry over are only bugbears that fade and disappear upon the first attack. Herein lies the first secret of success—in attack—and the great secret lies in persistence, in keeping always at work. The man who actually does this, wasting no time, will find the first thing he knows that he's stopped worrying, and he laughs a little as he says to himself that he's got no time to worry, and the next thing he knows he finds his sandbox is no longer empty, he's actually got some sand of his own, and then he is somebody and begins to find some solid satisfaction in life.—New York Sun.

SUNDAY SERVICES.

9th SUNDAY AFTER TRINITY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when possible. Let all churches be represented—Eds.]

CONGREGATIONAL CHURCH, WOLLASTON—Rev. Edward Norton will preach. Morning service, 10.45. Sabbath School. 12 M. Y. P. S. C. E. at 6.30. P. M. Evening service at 7.30.

BETHANY CONGREGATIONAL CHURCH, junction Hancock and Chestnut streets—Rev. E. N. Hardy, pastor. Morning service at 10.30. Bible School at 12 M. Y. P. S. C. E. at 6.15 P. M. Evening preaching and praise service at 7.30. Rev. Frank N. Merriam, Turners Falls, Mass. will preach both morning and evening.

CHRISTADELPHIAN CHURCH, 86 Washington street.—Bible lecture at 7.30 P. M. Subject: "Hell; is there such a place, and where is it?"

CONGREGATIONAL CHURCH, WOLLASTON—Rev. Edward Norton, minister. Morning service at 10.45. Preaching by Rev. C. F. H. Crathern. Sabbath School at 12 M. Union meeting of Church and Society of Christian Endeavor at 7 P. M. Prayer meeting Friday evening at 7.45.

CALVARY BAPTIST CHURCH, Franklin street—Rev. C. A. Parker, pastor. Residence, corner of Whitwell and Klondike streets. Morning service at 10.30. Sunday School at 12 M. The ordinance of the Lord's Supper at the close of preaching service. Evening service at 7 o'clock. Rev. David Kerr, D. D. of Scotland will conduct both services. All are cordially invited to hear Mr. Kerr in view to settling as pastor.

PARK AND DOWNS UNION CONGREGATIONAL CHURCH, Rawson Road—Rev. F. T. Knight, pastor. Morning service at 10.45. Pastor will preach. Subject: "The reward of devotion." Sunday School at 12 M. Evening service at 7. 30. Prayer and praise meeting on Thursday evenings at 7. 45.

WEST QUINCY M. E. CHURCH—Rev. C. W. Wilder, pastor. Preaching service at 10.30 A. M. Sermon by pastor, followed by Holy Communion. Sunday School at 11.45. Praise and preaching service at 7 P. M. Prayer meeting Friday at 7.30 P. M.

TODAY'S COURT.

William Thompson and Archie Ross were fined $5 each for drunkenness at Quincy.

James Adams was arraigned for drunkenness at Quincy. Case continued two weeks.

John Wren was arraigned for drunkennes at Quincy. Case continued until Monday.

Timothy J. Sheahan was fined $5 for drunkenness at Quincy.

Sheahan and Wren are inmates of the poor farm and according to Keeper Jacobs, Sheahan went away without permission Friday and returned drunk, so much so that he had hard work to get up stairs to bed. Wren, better known as "Jacko," was at the farm all day and was sober when he retired. He occupies a room near Sheahan's and for some unexplainable reason this morning Sheahan had sobered up somewhat and Jacko was gloriously drunk. It was apparent that Sheahan must have had some liquid refreshments secreted about him with which he made it pleasant for Jacko. The police were notified and Officer Murray went down and took the two men in charge.

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

Castle Square Theatre.

The attraction at the Castle Square Theatre the coming week will be the clever comedy written by Martha Morten a few years ago "His Wife's Father." This play made the success of Mr. W. H. Crane's season of '95 and '96 and was greatly praised when it was given at the Hollis Street Theatre in April '96. The action of the comedy passes in New York of the present day and there is a pleasant entertaining story which interests by its naturalness while it conveys a good lesson. The offenses of the traditional mother-in-law are lost sight of in the prominence given those of the "wife's Father," whose love for his daughter leads him to be constantly in evidence after her marriage until the new wedded husband kindly but firmly makes the father realize the changed relations of his daughter by the marriage ceremony. The cast will include: Mr. Horace Lewis, Mr. Charles MacKay, Mr. J. L. Seeley, Mr. Wm. Chas. Masson, Miss Frances Drake, Miss Rose Morison, Miss Lizzie Morgan, Miss Mary Sanders, Miss Marion A. Chapman, Miss Evelyn Hatfield, Mr. Lindsay Morison, Mr. N. H. Fowler, Mr. John J. Geary, Miss Margaret Dunn. On Tuesday afternoon the souvenir will be a character picture of Mr. Charles MacKay as Montignac in "An Enemy to the King".

Keith's Theatre.

A most wonderful summer business is being done at Keith's this season, due to the fact that it is the coolest and purest indoor resort in the country and gives the the best entertainment that money can procure. For the week of Aug. 8 the attractions booked are among the best offered for many months, including Edward J. Heron, Claude Gillingwater and Susie Willis, in one of the funniest sketches ever offered in the varieties, entitled, "My Husband's Mother"; Isabelle Urquhart, Sydney Wilmer and Walter Vincent, a trio of clever ex-dramatic players, in an amnsing comedy sketch; Arthur Dunn, the diminutive comedian, and Mamie Gilroy of farce comedy fame, in a dancing and singing sketch, which cannot be otherwise than entertaining with two such clever people; Albertus and Bartram, the club-swinging marvels, and the Olympia quartet, comedians and vocalists. The petite concerts by the Symphony Orchestra players continue to be the big musical feature of each week's show.

QUINCY DAILY LEDGER.

VOL. 10. No. 183. QUINCY, MASS., MONDAY, AUGUST 8, 1898. PRICE 2 CENTS.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

ACCEPTANCE CABLED.

Favorable Answer to Terms of Peace Agreed On.

Spanish Cabinet's Action Approved by the Queen.

Submission Said to Be Due to Force of Circumstances.

Public Opinion In Madrid Favorable to the War's Termination.

Madrid, Aug. 8.—The council of cabinet ministers called Sunday forenoon to draw up a reply to the American peace terms adjourned after a brief sitting until 6 o'clock last evening, Premier Sagasta wanting to confer with the queen regent to secure her approbation to the proposed reply to the United States as approved by the cabinet.

Shortly after noon the premier emerged from the royal palace and announced that the queen had given her assent to the draft. When his colleagues met Sunday night, Sagasta reported the result, whereupon the cabinet decided to forward the acceptance to Ambassador Castillo in Paris, whence it was to be transmitted by cable to Ambassador Cambon in Washington. The government is convinced that there will be no dissatisfaction with the language of the note, and that hostilities will end without delay.

It is understood that both Sagasta and Duke Almodavor, the foreign minister, told the queen regent that they felt deeply the painful duty circumstances imposed upon them.

Apparently the public is little concerned about the progress of the peace negotiations. There were bull fights as usual Sunday, and the customary amusements proceeded with the wonted gayety.

The Imparcial admits that the United States cannot be asked to assume the burden of about £32,000,000 of debt existing when the rebellion began in 1895 and the £90,000,000 spent since, and it suggests that Spain should undertake to pay interest and redemption on the Cuban debt until the new West Indian republic is in a position to do so, which the paper affects to believe that Cuba could soon do when its vast resources were developed under an American protectorate. The same paper goes on to say that Spanish finances will be very seriously compromised and the interests of Spaniards and foreign holders of Cuban stock also if the United States does nothing for the Cuban debt. The Madrid press insists that this matter will yet be mooted in the negotiations.

The papers comment on Sagasta's astuteness in consulting the political leaders. This act has greatly strengthened his position because nearly all approve his policy, and none had any feasible plan to propose for prolonging the war or getting better peace terms. The comments on the conditions of peace are very reserved. If the United States insists upon an immediate evacuation of the Antilles, the cortes will be convened forthwith.

What the Answer Declares.

London, Aug. 8.—The Madrid correspondent of The Mail says: "The answer of the Spanish government declares that Spain cannot discuss the American proposals, but only accepts them because they are imposed on her by force. Only a few unessential changes in the American demands were asked for, and it is not expected that President McKinley will refuse them.

"A commission composed of Spaniards and Americans will decide the questions of the Cuban debt, the dates and manner of evacuating Cuba and Porto Rico, and the protection of Spaniards and Spanish interests in these places. The commissioners will also decide whether Spain is to be allowed to withdraw her artillery and the remainder of her arms and ammunition from the colonies, while the question of the future of the Philippines will be settled by the same body.

"The treaty will be signed subject to approval by the cortes, which will be convoked immediately."

WAR MAY CLOSE TOMORROW.

Spain's Answer Said to Be a Complete Acceptance of the Terms.

Washington, Aug. 8.—The war with Spain, which began on the 21st day of April, seems in a fair way to close practically on the 9th day of August. President McKinley received a cablegram Sunday from a government agent in Europe stating that the queen regent of Spain would affix her signature to Spain's answer accepting the United States' peace terms. The European dispatches show that this has been done, and that a meeting of the Spanish cabinet was held subsequently to arrange for sending the reply to President McKinley.

Spain's reply is thoroughly understood here to be a complete acceptance of the terms of the United States, without condition, and when this fact is disclosed to President McKinley he will take immediate steps for a suspension of hostilities. If Spain's acceptance is unconditional, General Miles and Captain General Macias in Porto Rico will be immediately ordered to arrange an armistice. It will be more difficult to get the news to Admiral Dewey, General Merritt and Captain General Augustin at Manila, and General Blanco will have to receive the news from this country. Of course, his instructions will come from Madrid, but they will have to go by the way of the cable through Key West.

President McKinley will cause the orders for an armistice to be carried out with dispatch, as he is desirous of opening the blockaded ports of Cuba and Porto Rico, so that commerce may again be carried on with those islands. It is expected that there will be very quickly opened up a considerable trade, especially with Porto Rico, by enterprising citizens of the United States.

Two Ways Open.

Should the Spanish answer be an unconditional acceptance of our terms some negotiation may be necessary to agree upon the steps to be taken to give effect to the agreement. So far as can be learned it has not yet been determined how this shall be done. There are two ways open. The first is a military capitulation by the captain generals of Cuba and Porto Rico, which will immediately place the American military or naval commanders in technical occupation of the islands, and enable them to carry out, in their own way and in their own time, the embarkation of the Spanish armies in the islands. The question as to whether they shall be permitted to carry off their arms is not now as material as it was in the case of the surrender of General Toral's forces at Santiago, where, occurring in the midst of the campaign, there was a necessity for securing the moral effect of compelling the Spanish soldiers to lay down their arms. Spain having succumbed, it might be urged that the United States might grant a concession on this point to Spanish pride. This would not apply, however, to the volunteers who might elect to remain in Cuba, as it would not be prudent to allow so large a body of men to carry arms without restraint in the days of reconstruction, when delicate and difficult matters of internal policy are to be settled and new methods applied to the government of the islands.

The second method by which the preliminary peace agreement might be formally effected would be by a protocol to be signed by a representative of the president, probably Secretary Day in this case and by Mr. Cambon in behalf of the Spanish government. It was by just such an agreement as this, known as the Cushing protocol, that war with Spain was averted as a result of the Virginius affair. This course, having the weight of precedent, might be adopted in this cause. It is probable that in the Philippines the greatest difficulty will be met in putting the agreement into effect on account of the attitude of the insurgents, but General Merritt is now gaining in strength daily, and probably will be in position to meet at any time an emergency.

Alger Continues to Plan.

General Wade's reinforcements for General Miles are going forward regardless of the progress of peace negotiations. The agreement to negotiate a treaty of peace does not necessarily carry with it a cessation of hostilities. In the case of the Mexican war it was a month after the peace negotiations began before hostilities were declared to be closed, and if it is desirable these reinforcements may be intercepted and returned to the United States after they sail. The present plans of Secretary Alger all contemplate that they shall leave the United States, especially as it is felt that with the practical field experience they will acquire in Porto Rico under climatic conditions they will make good material to use both there and in Cuba in carrying out the government's reconstruction policies.

Secretary Alger is apprehensive that the small wharfage resources of Santiago will seriously retard the execution of the department's orders for the speedy return to the United States of Shafter's army corps. With the Spanish steamers coming in to take away the surrendered army of General Toral, which must be first removed before it will be safe to withdraw the whole of the American force, it is going to be difficult to embark the latter without incurring danger of a severe congestion in the unhealthy town. General Shafter has been called upon by cable to describe the state of affairs.

Plotting by Spanish Anarchists.

Madrid, Aug. 8.—It is stated that the police are investigating an anarchist plot against the life of a high official personage which was to have been carried out today upon the occasion of the anniversary of the assassination of Canovas.

PRESSED BY INDIANS.

Clevelands Right on the Heels of the Boston Champions.

Boston, Aug. 8.—The Boston champions have played a dozen games on the western excursion, of which six were won and five lost and one tied. In view of the hospital list, it is a fair break, but the next three with Cincinnati must be scooped to insure the holding of second place from the on-coming Indians or Clevelands, now known as the "Philadelphia second team." The Quakers themselves are forgotten near Camden when the natives think of the great work being done by the nomads of Cleveland. They are now tied with Boston for second place, and nothing on earth will stop Tebeau and his wonders from climbing to the top of the ladder but herculean endeavors by the Boston champions. If the pride of the hub fall, the chief obstruction for years to the final success of the ex-lake frontiers is swept aside.

Baltimore leads the league in batting, Cleveland in fielding and Chicago in stolen bases.

The Baltimore club has lost almost as many games as it did last season.

Heavy batting was the feature of yesterday's game on the Hull, Ont., grounds. Herndon of the Ottawas was batted all over the field, the Providences scoring four home runs and winning by 12 runs to 9.

The St. Louis team lost both games to the New Yorks yesterday. In the first, which was very one-sided, they were unable to hit Seymour. Both Carrick and Sudhoff were hit hard in the second.

The Baltimores were unable to hit Damman opportunely yesterday, and the Cincinnatis won an exciting game, 4 to 1.

The Pittsburgs played the best ball in Chicago yesterday, fielding nearly perfectly and hitting just at the right time. Score: 4 to 2.

The Louisvilles lost two games Sunday to the Brooklyns.

The National league clubs stand as follows: Cincinnatis, 670; Bostons, 624; Clevelands, 624; Baltimores, 578; New Yorks, 559; Chicagoes, 552; Pittsburgs, 532; Philadelphias, 467; Brooklyns, 391; Louisvilles, 371; Washingtons, 352; St. Louises, 286.

The Clevelands and Baltimores are both making a fine struggle, but their work has not been of the even, consistent nature of the two leading clubs on account of the inferiority of their pitchers, compared with those of the clubs ahead of them in the race.

Chicago will find it hard to keep ahead of New York. The New York pitchers have struck their gate and are doing splendid work.

The Pittsburg club has failed to maintain the rapid pace it set two weeks ago, and this is due to the fact that it was going beyond its speed. The club is not of the high class of the clubs of the first division, though it is capable of playing very good ball.

Philadelphia has improved greatly in its work, and bids fair to beat the Pittsburgs out.

Brooklyn, Washington, Louisville and St. Louis have made a woeful record. The Washington manager has expressed his willingness to expend big sums for players. He has good men on his team, but unsteadiness in the infield has been in a great measure responsible for the low standing of the club.

Nash is still in Philadelphia waiting for something to turn up. He can get plenty of places in the minor league, but is not yet ready to step out of the highest class.

"Buck" Freeman of the Torontos has made 15 home runs with one bat.

Some Ship Sunk.

St. John's, Aug. 8.—Captain Major of the Virginia Lake from Labrador expresses the belief that some ship has been sunk in the straits of Belle Isle. Reports to that effect, he says, are current along the whole northern coast of the island, beside which a quantity of deals, cheese boxes and other wreckage has drifted ashore at Flower's cove, near the scene of the reported disaster.

Captain Major is surprised that more wrecks are not reported, because the fog in that region has been the heaviest known for 30 years, continuing for 14 days, during which time not a sight of the sun has been obtained. On July 30 an Allan line steamer with 500 passengers aboard was almost ashore at Battle harbor, and on Tuesday last two others liners were in great danger off Chateau.

NEWS IN BRIEF.

A youth named Collins, 17 years old, was drowned in Richford, Vt., while bathing.

The body of an unknown man, who had shot himself in the head, was found Sunday in a field in Lawrence.

The drowned body of Lizzie McCahy, a middle aged woman, was found in Providence. She had apparently walked into the water.

Hugh Cobnay of Manchester, aged 22, was drowned in Lake Massabesic yesterday. He was crossing the lake on his return home, when, by a sudden lurch of the boat, he was thrown into the water and sank immediately.

The porte on Friday replied to the American demand for compensation for losses sustained by American subjects during the Armenian massacres. The reply was the same as that given to other powers—repudiating all responsibility for the losses.

All connected with Lipton's challenge for a race for the America's cup show the keenest interest and will allow nothing to debar them from competing for the coveted trophy except a definite refusal on the part of the New York Yacht club. There is every disposition to meet the wishes of the club, and in the event of the latter finding difficulties in arranging for a race in 1899 owing to possible disorganization caused by the Hispano-American war the challengers will ask that the matter be postponed for a year and that no other challenge be accepted.

China May Be the Cause of War With England.

British Bank's Right to Construct a Railroad a Mooted Question.

London, Aug. 8.—Political meteorologists are agreed that the crisis between England and Russia over China is very real, and unless the wind speedily changes the tempest will soon break. The czar's government has strained every nerve to prevent the construction of the Newchwang railroad by the British Hong Kong and Shanghai bank. At first Mr. Pavloff threatened that unless the contract was withdrawn Russia would seize the Chinese province of Kuldja, bordering Russian territory in central Asia. This act of aggression failed of its object, and the threat was ostensibly withdrawn. Then Russia's acting minister in Pekin offered to sanction the railroad on condition that the line should not be mortgaged to the British bank or alienated to any foreign power. He hoped thus that the concession would be rendered worthless to the bank and abandoned, so he intimated that if the capital was not found by a British company the Russo-Chinese bank would supply it. In other words, Russia unhesitatingly makes this issue a supreme test of her commanding influence and prestige at Pekin.

Lord Salisbury's friends, the press and public unanimously declare that the stake is of most momentous importance, and it is difficult to believe that the premier will care to risk the effects of another retreat before Russian aggression upon his supporters at home. He had been openly warned on all sides, within the past three or four days, that any surrender or failure vigorously to assert British interests will speedily result in the disintegration of the Conservative party with a revolt from his leadership.

Paris is more excited over the assumed imminence of an Anglo-Russian war than London; and it may be added that Frenchmen are quite delighted with the prospect. Meantime the reports of Russian preparations for all eventualities become daily more numerous. Today's most authentic report is that Russia has really secured a naval base in the Red sea from one of King Menelek's dependencies, the sultan of Raheita. From a Sebastopol correspondent comes the interesting information that the Russian admiralty has given notice of the removal of the autumn naval headquarters in the Black sea from Sebastopol back to Nikolaieff, northwest of that place. It is thus explained that in case of a rupture England would be presumed to strike quickly at Russia's nearest and most vulnerable points. It is also assumed that she would find means of coercing the porte to open the Dardanelles and Bosporus for the passage of her Mediterranean fleet. Lacking permission, such an armada as England could send would easily be able to force the passage of both straits and at the same time destroy the Turkish batteries. The likelihood is that Turkey would make a formal protest and concede the passage in order to save Constantinople from bombardment.

Once a British admiral were in the Black sea the Russian fleet would be at his mercy. It would be suicidal for the Russians to steam out of Sebastopol and offer battle to such an invader. The Russian fleet would have but one alternative—hugging the shelter of the inner or landlocked bay. No hostile fleet could pass between the enormously powerful batteries which protect the entrance to Sebastopol. The view taken by the Russians is that the British fleet would not attempt to run the gauntlet, but with long-range guns that would throw shells over the city slopes into the inner harbor, the destruction of the fleet inside would involve the ruin of the city. If the Russian flotilla, however, is not within the port the city would probably be spared.

Here, then, is the avowed explanation of the impending transfer of the Russian fleet to Nikolaieff. It would be safe from destruction at that port, which is 40 miles beyond Otchakoff, and the deep water channel is intricately zigzag and dangerous. Few believe that Russia's latest defiance of Great Britain is intended to precipitate war. More probably it is Russia's rash belief that it is possible once more to bluff Lord Salisbury into withdrawal; and this belief is not without justification in recent experience.

Transpired In Boston.

Boston, Aug. 8.—By the breaking of a water main on Tremont street, near the Boston museum, Sunday morning, much damage was caused to abutters, several cellars being flooded to the depth of three or four feet.

John Grady and L. J. Martell, workmen, had occasion to go down a darkened pit on a ladder Sunday. Gas from a leaky joint at the bottom was ignited by a torch that Grady carried, and an explosion resulted. Grady was badly burned about the face, arms and legs, while Martell was burned about the head, arms and face.

Major Michael J. O'Connor of the Ninth Massachusetts infantry, United States volunteers, whose death from pernicious malarial fever is reported by General Shafter from Santiago, was born in this city June 31, 1861, was educated in the city schools and was graduated from the Boston dental college in 1888.

—The Brockton aldermen levied assessments last week for sewers and sidewalks. One sewer assessment was as low as $6.45, and another $449.64.

Great Day for Yachtsmen.

W. Y. C. OPEN RACE.

Eleanor, Bud, Privateer, Vamoose and Katydid Win.

The first open race of the Wollaston Yacht club was sailed Saturday afternoon off the club house, Norfolk Downs and the club has every reason to feel proud. It was an ideal day for yachting, with a strong wind from a quarter a little north of west, which at time was squally so that the boats went over the course in reefs. The course was twice around a three and one-half mile triangle, a distance of seven miles, and a change of wind after the start gave the boats but little windward work.

The 25-foot class was sent away at 1.55, the Little Peter leading the way followed by the Premier, Eleanor and Rambler. The Eleanor overhauled the Little Peter in the reach to Squantum rock. One of her crew got his hand hurt with the main sheet and the Peter went by her. The Eleanor, however, proved the faster boat and turned the line first and held the lead for the balance of the race. The Rambler pulled out of the race to tow the Elsa home, the latter having became dismasted.

In the 21-footers there were six starters. The Clara Lou crossed first, followed by the Bud, Elsa, Burgess, Cleopatra and the cup defender Recruit. For some reason the latter boat got a bad start being two minutes late in crossing. The Elsa was fast overhauling the Bud when she snapped her mast and was out of it. Then the Cleoptra took a hand and tried her best to overhaul the Bud, but was unable to do so although she gained a little on the last leg. The Recruit did not do so well. Too much sail, according to old salts. She would spurt at times and would spin along like a locomotive, only to lose when a flaw struck her.

In the 21-foot class there were two starters, the Privateer and Autocrat. It was just the day for the Privateer and she spun around the course like a race horse and caught up with the class that had five minutes start of her and passed all but the Bud, making the best time of any boat over the course.

There were also but two starters in the 18-foot class, the Hector and Vamoose. The latter boat however, took the lead and held it through the race, beating her competitor by nearly nine minutes. In the 15-foot class the three starters were Katydid, Vitesse and Muriel.

The Katydid held her lead throughout the race and finished with a minute's lead of the Vitesse. The Muriel did not finish. The summary:

25 FOOTERS.

Name and owner.	Time. h. m. s.
Eleanor, D. B. Clapp,	1 09 23
Little Peter, H. Moebs,	1 10 55
Premier, E. A. Hayden,	1 14 08
Rambler, J. A. Tower, did not finish.	

21 FOOTERS.

Bud, S. U. Small,	1 09 52
Cleopartra, H. M. Faxon,	1 11 50
Recruit, F. B. Rice,	1 17 23
Clara Lou, W. J. Coombs,	1 18 31
Burgess, Frank Burgess,	1 21 13
Elsa, H. M. Crane, dismasted.	

21 FOOT CABIN.

Privateer, A. E. Schaff,	1 06 43
Autocrat, J. W. Nightingale,	1 14 21

18 FOOT CLASS.

Vamoose, B. M. Benner,	1 17 27
Hector, E. L. Hurd,	1 26 24

15 FOOT CLASS.

Katydid, J. F. Small,	1 18 19
Vitesse, E. H. Clapp,	1 19 40
Muriel, J. L. Smith, did not finish.	

WATER SPORTS.

While the race was in progress there was a series of water sports near shore, which were watched by a large crowd. They resulted as follows:

100 yards swimming race—Fenton Fowler first, A. H. Briggs, second; time, 1 minute, 42 seconds.

Tender or dory race, one-half mile—A. H. Briggs, first, Edward Brown, second; time, 5 minutes, 55 2-5 seconds.

Greased pole contest—This required the contestant to walk out on a horizontal greased pole and secure a flag at the end.

Every contestant was sure of a ducking and the event caused much sport. The prize was secured by Lowell Baker and George Stebbens.

Sculling match, one-fourth mile—won by A. H. Briggs, and E. F. Brown; time, 3 minutes, 50 seconds.

Blindfolded rowing race one fourth mile—won by Lyon Chase.

This race also made great sport one man got twisted and in turning about landed at the Squantum yacht club float. Another got his boat caught in the line in her stern, but as the rower did not know it he pulled away as though going ahead all the time.

In the evening there was a social dance at the club house, and while some of the old salts talked over the race on the broad veranda others entertained he ladies in the merry dance.

The judges were Charles W. Page, Arthur W. C. Gardner, William M. Chase, James Bertram and Henry E. Nelson and they were comfortably situated in the steam launch Winnona.

The prizes were $12 and $5 in class D, $10 and $5 in classes L, S, and T; and $8, $5 and $3, in class X. Association pennants were also awarded with the cash prizes.

S. Y. C. LADIES' DAY.

Many Fair Skippers Enjoy a Sail —Refreshments and Dance.

The Squantum Yacht club held its annual Ladies' Day at Wollaston beach on Saturday and the club members stowed their oil skins in the lockers and brought out their white ducks and jaunty yachting caps, and with their sails close reefed turned their yachts over to the ladies. This is the one day in the year among yachting men when the ladies rule, and Saturday was no exception, for early in the afternoon they began to arrive and when the time for the sail arrived the long wharf and float in front of the club house was thronged with becomingly gowned ladies.

The officers and members of the club had constituted themselves a committee to make the day an enjoyable one, and in this they were fully successful.

First came the review and sail in which the following yachts participated: Maud, Commodore Locke; Wild Duck, Capt. H. Flood; Agilis, Capt. F. E. Badger; Emma C., Capt. Johnson; Emily, Capt. Stover; Yolande, Capt. Emerson; Alberta, Capt. Varney; You No Me, Capt. Blanchard; Petrel, Capt. Crocker; Juanita, Capt. Swain; Rambler, Capt. Sanborn; J. Jay, Capt. Ball, and Thrasher, Capt. Stewart.

While the sail was in progress those on shore were entertained by an orchestra, and at the conclusion of the sail refreshments were served.

In the evening the clubhouse and float was illuminated with Japanese lanterns and there was a social dance.

Quincy Woman's Success.

Max Eliot in his London chat to the Herald writes: Another American who is of considerable prominence in the London Literary world, who is to summer at Cowes this year, is Mrs. Cragie, otherwise "John Oliver Hobbes" whose successful play "The Ambassador," finished its run for the present at the St. James' Theatre last week. It was at Mrs. Craigie's invitation, and in her box, that I saw "The Ambassador" for the first time the last night of its performance (for the present.) I thought it a delightful performance and a charming play. It is to be done in America not by Mr. Frohman as was intended, but by Mr. George Alexander himself, when he takes his company to the United States some time next year. "Can women write plays?" was the topic of a discussion at the Playgoers club not very long ago. Can they? Well, rather! was my conclusion after seeing Mrs. Craigie's play "The Ambassador" the other night.

Entertained at Hartford.

The Hartford Daily Times of Aug. 4 reports Miss Estella Root of Albany avenue, to have given a musical party in honor of her friend, Miss Annie P. Hall of Atlantic, Mass., last evening. The affair was very pleasant being marred however by the absence of Miss Root who was confined to her room by illness.

Miss Hall sang a lullaby in a very pleasing voice. Miss Hattie Hinkley, mandolin; Messrs. Eugene Young, violin; Theodore Coe mandolin and Fred Smith, piano, rendered several selections together. Mr. Martin Stokes and Miss Stocks played mandolin and piano duets. Mr. Rob. Johnson sang several times, David Case and James Lockwood played on the banjo and Little Edward Flagg sang "Ben Bolt," and "On the Banks of the Wabash." The lawn leading to the house was decorated with lanterns also Long avenue. The summer house and piazza presented an unusually attractive appearance. After the music refreshments were served on the lawn. Mrs. Flagg, sister of Miss Root acted as hostess.

JOHN WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

Q. Y. C. HANDICAP.

Frank Crane's New Dorothy Wins the First Place.

One of the snappiest races which has been sailed for the Quincy Yacht club's handicap cup was the one which took place on Saturday afternoon. The conditions for a good race, although not exactly ideal, filled the bill. The wind was far from the west and in such quantities with a chunk thrown in here and there, that some of the boats stuck in single reefs.

At 3.30 o'clock, they were off on the reserve triangular course of seven miles—to Jackknife first, then the buoy off Sheep's island and then a beat home.

The Chatham was over the line first and looked quite gay as she trailed the red marking flag which she had accidently caught up on her trailing sheet. Frank White held the stick. She put up a good race.

The "Say When" had her mast carried away early in the race.

The "Arbutus" made the fastest actual time over the course, with the Chatham second and the Hustler a close third. The "Dorothy" Frank Crane's new Hanley boat was around and gave a good account of herself, and pulled out first on time allowance, making 100 points and pushing her up for the cup.

The Vexer carried away her leaders but stuck it out and won the 25 points. The judges were Secretary Whiting, Mr. Athur B. Holden and Dr. Frederick E. Jones.

The summary:

Yacht.	Owner.	Act. Time. h. m. s.	Cor. Time. h. m. s.
Dorothy,	F. F. Crane,	1 26 37	1 31 37
Hustler,	C. C. Collins,	1 22 45	1 31 45
Chatham,	G. H. Cary,	1 22 30	1 32 30
Arbutus,	Hall & Merritt,	1 21 53	1 35 53
Thisbe,	H. W. Robbins,	1 29 13	1 36 13
Alice,	T. A. Walter,	1 36 38	1 36 38
Tantrum,	Whittemore & Johnson,	1 40 52	1 40 52
Supero,	C. H. Alden,	1 41 35	1 41 35
Vexer,	W. H. Shaw,	1 30 12	1 43 12
Kitty,	J. A. Evans,	1 46 28	1 46 28
Say When,	E. B. Glover,		Dismasted.
Evelyn,	Dr. H. A. Jones,		Withdrew.

Q. Y. C. Percentages.

The Quincy Yacht club handicap percentage to date are as follows:—Hustler, 250; Chatham, 200; Thisbe, 125; Vexer, 75; Arbutus, 50; Moondyne 50; Jeannette, 25; Supero, 75; Kitty, 75; Tantrum, 50; Dorothy, 125; Alice, 25.

By Trolley to Newport.

A Bostonian writes as follows of the trolly trip to Newport, R. I., one day last week:

We boarded the 7 o'clock Field's Corner car, and changed for Neponset Bridge at which place we found a Quincy car waiting; arrived at Quincy at 8.20; here we made our longest wait of 20 minutes, taking a Brockton car at 8.40; took a Taunton car at 10; leaving Taunton for Fall River at 11; arriving at 12.30, there was a wait here of 15 minutes, leaving at 12.45, arriving at Newport at 2.30, after a most delightful ride of about 75 miles in seven hours and 35 minutes at a cost of 93 cents each. We were able to get only one transfer ticket, and that was at Neponset bridge. We had good seats in every car and found the Brockton & Taunton line one of the finest in the country.

The return trip was made over the same route, the next day in the afternoon and evening, and part of the ride being by moonlight, was more enjoyable even than in going.

TODAY'S COURT.

John Burke was fined $5 for drunkenness at Quincy.

Henry Hasker was fined $5 and John Gilmore $7 for drunkenness at Weymouth.

Thomas Dillon was arraigned for drunkenness at Quincy. Case placed on file.

Edwin Wood was fined $5 for drunkenness at Braintree.

The continued case of John Wren for drunkenness at Quincy was called and he was sent to the House of Correction for thirty days.

William R. Lynch was arraigned for drunkenness and assault on Frank E. Lynch at Randolph. Case continued until Aug. 17.

The continued case of William H. Walsh was called and he was defaulted.

The continued case of Walter Floyd for assault on Mrs. Henry Kenney at Weymouth was called, and was again continued until Aug. 20.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

—Capt. Ira Wallace of Dorchester was drowned off City Point, Boston, Sunday morning.

DIED.

BRODBECK—In Dedham, Aug. 6, Mrs. Susan Boyd Brodbeck, widow of Rev. William Nast Brodbeck.

GALIANO—In Hull, Aug. 6, Mrs. Emily, wife of Mr. Andrew A. Galiano, aged 62 years and 7 months.

HALLIGAN—In Scituate, Aug. 6, Mr. Thos. Halligan, aged 70 years.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Miss Josephine Kelley is visiting at Green Harbor.

Mr. Francis P. Loud is taking a two weeks' vacation.

Furniture auction tomorrow at George Chalmers.

Miss Eva Clare of Newbury avenue is visiting in Wakefield.

Mr. R. D. Gordon is summering at Young's hotel, Winthrop.

The electric cars on the Squantum line did a big business Sunday.

Mrs. C. B. Tilton and Miss Irma Tilton are at North Scituate beach.

Mr. William Brandau of New York is spending his vacation in this city.

Miss Eva Marden has gone to Pottersville, Fall River, for a six weeks' visit.

Mr. W. W. Ewell of Foster street is having an addition put onto his house.

Mr. C. H. Burgess of Russell Park is rusticating from work for two weeks.

Mrs. Jennie Gordon is spending the month of August at Jonestown, Maine.

P. J. Barry leaves today for a three months' trip in the interests of the Putnam Nail Co.

The "Say When" was in the lead Saturday when the mast broke, at the race at Houghs Neck.

George Briggs of Appleton street, left today for a fortnights' visit to Chicago and St. Louis.

Mrs. G. O. Langley and daughter, May, have gone to Durham, N. H., for the month of August.

A. F. Macleod, clerk at J. W. Nash store, left this morning for a vacation trip to Poland Springs, Me.

Mr. and Mrs. George Warren Glover of Wollaston leave home today for a short pleasure trip in Maine.

Herbert J. Butler of the Tremont Theatre orchestra, is spending two weeks with Mr. George Monk.

Miss Elise Downes, daughter of Lieut. Downes, is a guest of Mrs. Prescott Bigelow, Jr., at Magnolia.

The heavy rain this morning served the purpose of watering the streets, but did not serve to cool the air much.

The engagement is announced of Miss Lucy Seward Eaton of Milton and Mr. George R. Wendall of this city.

Mrs. James Tower and Miss Mary Kent of Newton are soon to move to their new house on Washington street, this city.

This was the hot week of August 1896 when the mercury was in the 90's for four successive days, but the highest was only 95.

The many friends of Walter E. Loud, the violinist, will be sorry to learn that he has been confined to the bed by sickness the past week.

The old pump at Newcomb square was visited Sunday by many thirsty bicycle riders who found the clear cool spring water very tempting to drink.

About 1000 people attended the picnic of St. Jerome and the Immaculate Conception parishes of Weymouth at New Downer Landing on Saturday.

The open air band concert Saturday night by the East Boston Cadet band drew the largest crowd thus far this year. The concert was an excellent one.

Miss Emma D. Conklin of New York city, who has been spending the month of July with Mr. and Mrs. W. M. Marden, leaves today for a month's visit at Fall River.

Mr. and Mrs. William Holmes of Everett, Mr. and Mrs. George G. Tirrell of Dorchester and Mr. and Mrs. H. W. Tirrell of Quincy are at the Magnolia, Houghs Neck.

Mrs. H. F. Alley and son, Walter, of Beverly, formerly of this city, have been spending a week with Mr. and Mrs. T. E. Furnald of Edwards street. They return home today.

A special relief assessment of 50 cents upon each member of the A. O. U. W., in good standing on the 1st of Auugst is to be called for a war relief fund. It is for benefit of sick soldiers or widows of soldiers killed in this war.

Miss Martha J. Brooks announces the opening of manicure parlors in the Savings Bank building. She is assisted by Miss Larkin and both have studied with Mme. May and are enthusiastic over their work, so that success will probably attend them.

One of the morning cars bringing the workmen to Squantum jumped the track at the Atlantic depot this morning and plunged directly across the street. Through the help of the men on the car and the ones following it was replaced on the track after a delay of only about half an hour.

Household Advice:

When in doubt as to how to furnish your bed room, select a White Iron Bed, and then buy the other furnishings to correspond with it, and you will be sure of a pretty bed room. A white iron bed will harmonize with any furniture. . . . . We sell loads of white iron beds because they are "the style." They are popular because they are ornamental, as well as healthful. Prices range from $2.75 to $35.

AN ORDINANCE

In Relation to House Connections with the Common Sewer and Regulating the Same.

CITY OF QUINCY.

Be it ordained by the City Council of Quincy, as follows:

ALL Applications for the construction of particular sewers and their entrance into common sewers, shall be made upon blank forms, to be obtained at the office of the Commissioner of Public Works, and shall be signed by the owner or by the accredited agent of the premises to be sewered.

The applicant must deposit the amount of the estimated cost of his particular sewer from the centre of the street upon which he abuts, as determined by the Commissioner of Public Works, with the City Treasurer, whose receipt therefor must accompany each application. Said amount shall be a credit on the cost of the sewer applied for.

The size and materials of particular sewers and appurtenances shall be such as the Commissioner of Public Works shall prescribe, and in conformity with the requirements of the Board of Health.

Said sewers shall be laid accurately to straight lines and grades. If angles along the lines thereof are unavoidable, man-holes or other approved means of access shall be provided.

The materials and labor required in the construction of particular sewers and appurtenances thereof, shall be provided and the work done by the Commissioner of Public Works, or his duly authorized agents, and by no other person or persons; excepting that the applicant may make all of the excavation and back fill outside the street lines, excepting so much as will affect the proper bedding and securing of the pipe or other structure.

All such materials furnished and labor performed by the City shall be charged to and paid for by the applicant. In cases where the sewer is not located in the centre of the street the applicant shall be charged from the centre of the street. Additional charges or deductions will be based on actual cost per linear foot of that portion constructed, an exhibit of which will be furnished each applicant upon the completion of the work. The difference between the estimated cost and cost shown in the exhibit shall be made good by the party debtor, and the use of any particular sewer will not be allowed until the cost thereof to the city has been fully paid to the city.

The plumbing of any building shall not be connected with a particular sewer until the applicant shall file with the Commissioner of Public Works a certificate by the Inspector of Plumbing, that the said plumbing work is in accordance with the City Ordinances.

No person shall be allowed to make any alteration in or make any connection with any particular sewer, except as stated in the original permit. Leave to depart therefrom must be obtained from the Commissioner of Public Works on further application therefor to said Commissioner.

The Commissioner of Public Works may at any time require such grease traps to be introduced along the line of any particular sewer, or on the discharge of any fixture connected therewith as he may deem necessary for the proper maintenance of said particular sewer, or of the common sewers.

No person shall throw or discharge into a public sewer or any of its connections, any steam or other matter or thing which may tend to, or cause, an obstruction thereof or a deposit therein, or any injury thereto.

No person shall cause or allow any roof water or surface water, by pipe or otherwise, to be conducted or to flow or discharge into any pipe or drain connecting with, or which indirectly through any other pipe or drain or directly discharges its contents into any main drain or common sewer.

All particular sewers shall be under the control of, and be maintained and kept clean by the city. The expense in cleaning and repairing any particular sewer shall be paid by the owner of the premises connected by said particular sewer, and pre-payment or security for the said expense may be required by the Commissioner of Public Works, provided, however, that any labor on particular sewers occasioned by defects or obstructions in the common sewers shall be paid for by the city.

The term "particular sewers" used in this ordinance is intended to mean the house connection of the abuttor with the main or common sewer,

Any person who shall violate any of the provisions of these rules and regulations shall be liable to a penalty not exceeding Twenty Dollars ($20.00) for each violation.

Passed to be ordained July 25, 1898.

Attest: CHRISTOPHER A. SPEAR, Clerk of Council.

Approved July 29, 1898.

RUSSELL A. SEARS, Mayor.

A REFERENDUM

Cortes Must Act Upon Spains Reply—Fight Expected.

Madrid, Aug. 8—The Liberal, the official organ says the Spanish answer is complete, but of necessity there is a referendum attached, as no territory can be ceded without the authority of cortes which must pass upon it. It is expected that there will be a hard fight, but is believed that Sagasta will win.

Must Be Translated.

Washington, Aug. 8 — The Spanish reply to the American proposition for peace had not been received at the French Ambassy at 9.30 this morning. There is a feeling that the time required in translation will prevent its being received by our government until late this afternoon.

Has Been Sent.

Paris, Aug. 8.—The Spanish reply was cabled from this place to Washington this morning.

Not Received.

Washington, Aug. 8.—No reply from Spain had been received up to 1 o'clock.

AT CAMP DALTON.

Camp Dalton,
Monday, Aug. 8, 1898.

The visitors to camp on Sunday were not as numerous as anticipated, but there were a large number.

Chaplain House conducted religious service in the morning and prayed for the recovery of the boys stricken with fever at the front. Chaplain and Mrs. House sang.

Mass at South Framingham was attended by about 200.

Again at sunset there was a praise service conducted by Secretary Collins of the Christian Commission.

Rifle practice commenced today. A detail of two corporals and six privaets will detail each day as markers.

Col. Parsons formerly of the Sixth Regiment, was a guest Sunday.

Uncle Sam's paymaster has not yet made his appearance.

The men appreciate the new order allowing them to go outside the grounds to obtain drinking water.

"Locking the Barn."

Chickamauga Military Park, Aug. 8.—The improvement of the sanitary condition of the regimental camps is the one absorbing matter at the park. Definite plans will have been formulated within a day or two, after which time the management of the camp will be under new and very rigid regulations as regards the disposition of garbage and refuse matter and the preparation and serving of food. All drinking water will be boiled, and the regulation is one which will not be deviated from in the future. Another condition, it is hoped to bring about as early as possible, is that of having the tents of the men provided with board floors.

With the still further purpose of adding to the health conditions, practice marches are being arranged. Thursday the engineer officers of all the divisions will go out to locate the most practical routes for these marches, and the regiments will be sent later by brigades in heavy marching order for a four days' absence from the park.

Deplore the Deaths.

Washington, Aug. 8.—Secretary Alger visited Fort Myer yesterday afternoon with a view of ascertaining whether everything possible was being done for the soldiers of Camp Alger who were in the hospital at the fort. He found the sick men as comfortable as could be expected under the circumstances. Each one has a good bed, and all are receiving medical attention and nursing. At present there are about 375 men in the hospital. Some of them are seriously ill, and a few are not expected to recover. Thus far the fatalities among the troops have numbered 39. This is not considered a great loss in an army of nearly 30,000 men during the three months the men have been in the service. The army authorities deplore the death of every one of the 39 whose lives have gone out, but some losses are to be expected in an army so large as General Graham's in view of the changed conditions encountered by the men when they entered the service.

Sampson Has a Grievance.

Washington, Aug. 8.—Secretary Long has received the following letter from Admiral Sampson:

Guantanamo, Cuba, July 27.

My dear Mr. Secretary—I am led to write at the present time on account of the publication of an article which appeared in the papers of the 19th instant, in which Commodore Schley is made to say that he had stated, apparently to the writer, that he had over and over again declared it was possible to enter the harbor of Santiago notwithstanding the mines. Commodore Schley called upon me yesterday and voluntarily stated that the publication of the article on the 19th was false in every particle; that he not only had not stated anything of the kind, but that he had never even thought of it; that he had always entirely agreed with me on this question, and that he did not know a single officer whose opinion differed from mine. As I have reason to believe that Commodore Schley has been misrepresented, I have taken the liberty to address to you a telegram upon this subject this morning; and as I am about to sail for the east, I trust that it will receive your attention at an early date.

The telegram contains a request that the manager of the Associated Press be "called upon to name the sourse and authority for this statement."

In a note to Secretary Long, who asked for the information desired by Sampson, the southern manager explained that the article was penned by a person temporarily on the dispatch boat.

Plain Views of "The Thunderer."

London, Aug. 8.—The Times says editorially this morning: "It is a hard nut the negotiators have to crack regarding Cuba. The Americans cannot garrison the island, and it would be rather absurd to be compelled to ask the Spanish troops to remain to keep order there. There is such a thing as victory so complete and easy as to be more embarrassing than a struggle upon something like equal terms. Had the Spanish army in Cuba been beaten in the field the situation would have been much less complicated, as the administration of the island would simply be taken over by the victorious army.

"The American war office is the subject of severe criticism from men of all parties, and Secretary Alger, as our New York correspondent caustically observes, is regarded seriously as a candidate for retirement into private life. There undoubtedly has been most serious mismanagement in connection with the Santiago forces, and had not public opinion intervened upon the manifesto of the generals, it is not improbable that the war office would have gone on covering up its own mistakes until the Santiago force had succumbed entirely to disease and privation.

"Now that the troops are being shipped from the island as rapidly as possible, with them goes every trace of American power to deal with a possession of which Spain is to be deprived. No native government is possible. No American government is ready or likely to be ready for a long time to come. In the meantime the Spanish army is starving with the civil population. Events seem to have moved so quickly as to leave the American war office absolutely unprepared to deal with problems much greater than the provisioning of the field force at Santiago."

Spaniards Forced to Withdraw.

Madrid, Aug. 8.—An official dispatch from Porto Rico says the Americans had seized the customs house in the village of Fajardo, which place was without a garrison. An American column, supported by artillery, advanced on Guayama. The Spaniards made a brave defense, but were forced to withdraw to Aluras. Seventeen of the Spaniards were killed.

A general advance of the American force began yesterday morning.

Rough Riders Afloat.

Santiago, Aug. 8.—The First regular cavalry and the First volunteer cavalry, rough riders, sailed yesterday afternoon on the Miami and Matteawan. All the men looked fit, but worn out. They presented a picturesque appearance. Some wore new khaki uniforms, while others were attired in heavy blue flannel shirts, with their old equipment. All expressed regret at leaving their sick companions behind, but were wild with joy at so soon returning home. They take no tents or baggage with them. The work of embarkation was very easy and was quickly performed. The men are ready and eager to return for the Havana campaign in the fall.

National Guard Eulogized.

Newport, Aug. 8.—Before the members of the Forty-seventh New York volunteers, encamped at Fort Adams, and under the auspices of the Newport branch of the Y. M. C. A., Chauncey M. Depew gave an interesting address Sunday night in which he said: Peace seems assured, and you may not realize your desire to go to the front and face the enemy on the battlefield; but when a citizen has left behind him his home, his family and his business he has done his duty to his country. This war has demonstrated the inestimable value of the national guard of the several states. In this emergency the citizen regiments of the national guard, with their discipline, their equipment and their fitness to break every tie and drop every interest at the order to march, placed the government in a stronger position for offensive or defensive operations in 30 days than the arduous processes of enlistment, drill and education of the volunteers could have done in six months.

"In Europe men resort to every device to escape the army. During this war with Spain we have witnessed the fiercest rivalry among the national guard regiments to be called into service. The spirit makes the men behind the guns. These guns think as well as shoot. The Spanish soldier is brave; he fights and dies well; but he cannot take the initiative. The overwhelming thought of the hour and place is that by every manifestation by which this will can be known God is on our side. It seems as if providence has not so much opened up for us a destiny as imposed upon us a duty."

Weak Spot In a Bridge.

Utica, Aug. 8.—Two cars on the Belt line trolley road went through Bradley's bridge, near Whitesboro, and 17 passengers were precipitated into the Erie canal. Mary Brady of this city was the only person killed. She was caught between the seats of the car and crushed to death. There were 30 passengers on the cars and all were rescued, but several were injured. The accident was due to a weak spot.

Five Were Drowned.

Portsmouth, Aug. 8.—Mrs. Wolfsang Geiger, her two children and the two children of Alexander Green were drowned last night in the river, their boat being crushed by being swept against the piling of the Dover point bridge by the high tide. Mr. and Mrs. Green and Geiger were rescued by the drawtender and assistants.

The Quincy Patriot continues to lead all other Norfolk County papers in circulation.

BAZAAR DAMAGED.

Wollaston's Most Disastrous Fire This Year.

A Good Stop However by the Fire Department.

The Loss May Be Upwards of Five Thousand Dollars.

The fire department showed its efficiency again this morning in making a good stop on what at first looked as though it might be a disastrous fire in the Brasee block on Newport avenue, Wollaston. An alarm was sounded from box 56 at 9.53.

The building is occupied in the basement by J. S. Todd, plumber, and by C. R. Sherman's Boston Bazaar store, which also occupies the entire street floor, while the upper story is occupied by the Knights of Honor. The Wollaston Co-operative bank also has an office on the upper floor. The rear L is occupied by Litchfield's grain store.

The fire started from some unknown cause in the basement occupied by the Bazaar and rushed up the stairs into the main store, and the first the clerks knew of the fire was the dense smoke that suddenly filled the store.

Hose 2 was the first to arrive after the alarm and soon had two streams of water on the building, one through the back entrance to the store and the other in the rear basement. When the Central station apparatus arrived a thick, black smoke was pouring out from the doors and windows of the Bazaar.

The quantity of dry goods and small wares made good food for the flames, which were working havoc. Powerful streams were however thrown into the building from every vantage point, and while from the outside the water made no visible effect it was apparent to those inside that they were gaining on it.

Slowly the smoke began to thin out, and in half an hour every spark of fire had been extinguished. During the early moments of the fire the large plate glass windows burst with a loud report which caused the bystanders to jump and scatter.

An inspection of the building after the fire showed what a hot one it had been and how much water had been used, for in the basement the water was two feet deep. Todd, the plumber, was not touched by fire, but his stock of supplies were given the water test.

In the Bazaar was where the most damage was done, for here is where the fire was the hottest, and the large stock of goods was almost ruined by smoke and water, the only evidence of fire being on the outside roll of the dry goods and boxes, and on the stairway leading to the basement.

The fire was confined to this store. Up stairs in the Knights of Honor room and the Wollaston Co-operative bank the damage was entirely by smoke.

It was impossible to form any estimate of Mr. Sherman's loss as he was out of town. It was learned, however, that he carried a large stock of goods upon which there was an insurance of something like $10,000. A rough estimate of his loss would possibly be $3,000.

J. S. Todd, the plumber, had a stock valued at $1,000 but carried no insurance, and his loss may reach several hundred dollars.

The loss to the upper floor was by smoke and is hard to estimate.

The building is owned by W. H. Brasee and was insured for $8,500, and his loss may amount to $1,000.

The loss to Litchfield who occupied the L, was nothing as neither fire, smoke or water reached him.

We will be pleased to mail the Daily Ledger to your vacation address.

VICTORY FOR Q. & B.

Wayside Parks In Good Form, But It Was Not Their Day.

The champion Q. & B. base ball team achieved another grand victory Saturday afternoon at Merry Mount park by defeating the Wayside Parks of South Framingham, one of the strongest amateur teams in the state, in the presence of about 400 spectators.

It is marvelous, does not express the way the Q. & B. boys play ball with the small amount of practice they have together, and they are ready to play any amateur ball team in the state.

Hayes, the Q. & B. catcher, is a wonder. He had had no practice, nor had he played a game before this season, but went into the game and caught like a national league player. Henry Faircloth, the only real first baseman in Quincy, deserves special mention for his fielding and stick work and Murphy, a new short stop of South Boston Reds, played a perfect game. Sammy Curran, the Tufts college pitcher, was in fine form and puzzled the Wayside Parks with his broad curves.

Special mention should be made of the all round playing of Dunn, Galvin, D Murphy, J. Faircloth and Guston, who caught some very difficult flies.

On the other hand the Wayside Parks played a strong game, but the famous Dowd of Georgetown college was nearly batted out of the box, although he was in fine form and his curves were like cannon balls.

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

BLOODLESS CAPTURE

Ladrone Islands Taken Without a Drop of Blood.

American Assurance Overcame Spanish Timidity.

Breaking of a Sealed Letter the Keynote to the Situation.

Wheeling, Aug. 8.—The details of the bloodless capture of the principal of the Ladrone Islands reached Wheeling in a letter from the naval officer who figured in the leading role of the exploit, Lieutenant Braunerzruther, executive officer of the Charleston. The letter is as follows:

At Sea and 1000 Miles from Manila.

We have just carried out our orders to capture the Spanish authorities at the capital of the Ladrone islands, Agana. I was selected by the captain to undertake this and given 160 men to land with as a starter. I went ashore to have a talk with the governor about affairs, and the results were that I did not lose even a single man. The matter was all settled in one day, and we are carrying with us 54 soldiers (Spanish) and six officers, besides a lot of Mauser rifles and nearly 10,000 rounds of ammunition.

I had the whole to handle and did it quickly. The captain's instructions were to wait a half hour for his answer to our ultimatum, and then use my troops. I waited, and in just 29 minutes the governor handed me his sealed reply addressed to the captain of our ship out in the harbor about four or five miles off. I knew this was sealed with the sole object of gaining time and hence I broke the seal, read the contents, the governor protesting and saying that was a letter for my captain. I replied: "I represent him here. You are now my prisoners, and will have to come on board ship with me." They protested and pleaded, and finally the governor said: "You came on shore to talk over matters, and you make us prisoners instead." I replied: "I came on shore to hand you a letter and to get your reply; in this reply now in my hand you agree to surrender all under your jurisdiction. If this means anything at all, it means that you will accede to any demands I may deem proper to make. You will at once write an order to your military man at Agana [this place was five miles distant] directing him to deliver at this place at 4 p. m. all ammunition and flags on the island, each soldier to bring his own rifle and ammunition, and all the soldiers, native and Spanish, with their officers must witness this." They protested and demurred, saying there was not time enough to do it, but I said: "It must be done."

The letter was written, read by me and sent. I took all the officers with me in a boat, and at 4 p. m. went ashore again and rounded in the whole outfit. I was three miles away from my troops, and I had only four men with me. At 4 p. m. when I disarmed 108 men and two officers, I had 46 men and three officers with me. The keynote to the whole business was my breaking the seal of that letter and acting at once. They had no time to delay or prepare any treacherous tricks, and I got the "drop" on the whole outfit, as they say out west. The native troops I released and allowed to return to their homes unrestricted; they had manifested great joy in being relieved from Spanish rule.

While it was harsh, it was war, and in connection with the Spanish treachery it was all that could be done. Twenty-four hours would have—yes, I believe even four hours with a leader such as the governor was, a lieutenant colonel in the Spanish army—given them a chance to hide along the road at Agana, and at intervals in the dense tropical foliage they could have almost annihilated any force we could land. The approaches to the landing over shallow coral reefs would have made a landing without a terrible loss of life almost an impossibility; but all is well that ends well.

We have increased by conquest the population of the United States by nearly 12,000 people. The capital has a population of 6000 people. This harbor in which we were is beautiful, easy of access, plenty of deep water, admitting of the presence of a large number of vessels at the same time, and is an ideal place for a coaling station. If our government decides to hold the Philippines it would then come in so well—San Francisco to Honolulu, 2100 miles; Honolulu to island of Guam, 3300, and thence to Manila, 1600 miles. With a chain of supply stations like this, we could send troops the whole year round if necessary, and any vessel with a steaming capacity of 3500 miles could reach a base of supplies. The details I have scarcely touched upon, but had the officers and soldiers dreamed for one moment that they were to be torn from their homes, there would, I feel sure, have been another story to tell, and I am firmly convinced this letter would never have been written.

McDuffee's Protest Sustained.

Philadelphia, Aug. 8.—The 25 miles paced race between McDuffee and Michael Saturday has been awarded to McDuffee by Referee Uhler. Michael led at the end of the 25 miles, but the referee withheld his decision, McDeffee's manager having lodged a protest at the end of the third mile, that Michael had more pacemakers than were specified in the contract. The contract called for 32 pacemakers to a side, and after an investigation it was found that Michael had 39. Under these circumstances McDuffee was given the race.

Farmhouse Robbed by a Trio.

West Newbury, Mass., Aug. 8.—Three men went to the farmhouse of Samuel Moody Sunday, and, while one pointed a pistol at Mrs. Daniel Leary, who was alone in the house, the others ransacked the rooms for whatever valuables were available. They took among other things two pocketbooks containing a small sum of money, but offered no violence to Mrs. Leary. The latter and her husband are the caretakers of the farm. Mrs. Leary quickly told the neighbors of her experience and a searching party started after the men.

THE LAPAGERIA.

One of the Most Beautiful of Cool Greenhouse Climbers.

Those who have never seen the lapageria in flower have but a poor conception of its beauty, as a writer in Gardening remarks in presenting a fine illustration of a cluster of red and white lapagerias, with information, as follows, about the plant: The individual flower is as rich as the most lovely orchid. In these days, when all flowers used either in vases or in bouquets must be long stemmed, or at least on their own stem, the lapageria will not readily find a place, but in the very choicest and richest of decorations, to grace a mirror or picture, it has no equal.

It is a cool greenhouse plant, even standing a few degrees of frost without harm, and likes a rather moist atmosphere. A temperature of 40 degrees to 50 degrees in winter and as cool as possible with plenty of shade in summer will do very well.

LAPAGERIA ROSEA AND ALBA.

Lapagerias can be grown in large pots or tubs and trained on a wire frame, but planted out in a border is their proper place and trained to a trellis on the wall. Their flowering season is from end of July till November. The soil used by European gardeners for growing lapagerias is three parts fibrous peat to one of loam, with about a tenth of the whole sharp sand or broken up charcoal. It is almost impossible to get the same quality of peat as they have in many parts of Europe, so in place of peat use loam, but let it be as fibry as possible and don't be afraid to add plenty of sand and charcoal.

When growing, the lapageria likes plenty of water at the roots, and at all times except when in flower should be daily syringed. There is no more important part of the culture than perfect drainage of the soil. If in a 12 inch pot, at least one-fourth should be drainage of broken brick or crocks. If in a border, say, 2 by 4 feet and 2 feet deep, 6 inches at the bottom should be of some material to let the water pass freely away.

It May Be.

An American who boasted that he had his clothes made in London had just passed, and the observant citizen stood looking after him.

"I wonder," said the observant citizen thoughtfully, "whether this war will bring England and America close enough together so that— But, no; that is too much to expect."

"What is?" asked his unobservant companion.

"I was merely wondering," explained the observant citizen, "whether our present and ever increasing cordial relations would have a sufficient effect upon the English to induce London tailors to make clothes fit."—Chicago Post.

COMMERCE OF SANTIAGO

Principal Capabilities of the Eastern End of Cuba.

CAUTION IN INVESTMENTS ADVISED

Iron Ore and Sugar Are the Chief Exports. Manganese and Copper Are Also Found. Scientific Machinery Must Be Employed In Sugar Mills to Yield Good Returns. Rich Forests of Mahogany, Cedar and Ebony Abound — Santiago's Important Fruit Supplies.

As the first part of Cuba to come under the stars and stripes, Santiago and the region tributary to it are now of interest from the commercial point of view. The isolation of the eastern end of the island from the rest is almost complete. Virtually the only connection with the populous centers of Havana, Matanzas and Cienfuegos is by water, and the distances are much greater than those from Jamaica, Haiti and other islands of the Antilles. By land the trip is almost out of the question. Commercially Santiago de Cuba is a country by itself.

Baracoa, on the north shore, the oldest settlement in the new world, landing place of Columbus, was included in the military district surrendered by General Toral to General Shafter. Fruit is its great staple, and large quantities are exported from there. In good times there is a daily sailing of fruiters. Guantanamo, east of Santiago, is also a port of some consequence, but Santiago is, of course, the chief city of the territory, ranking normally after Havana and Matanzas in population.

As the war of 1895-8 went on Santiago suffered with the rest of the island. A large production of sugar had been attained, the growth being gradual after the Ten Years' war and finally taking a spurt. But the devastation of the plantations by one side or the other cut down the exportation to almost nothing. This has always been the most considerable agricultural product. The commerce of the city got to be almost one sided. There are no manufactures, so clothing and food supplies had to be shipped in constantly. Little or nothing went out except iron ore. Of course trade of this sort could not go on forever.

It seems likely that the mineral wealth of the province will become its chief resource, although sugar should under present conditions remain important. There are many stories of the inexhaustible wealth of the mountains that stretch along the backbone of the island to its eastern end. Cubans believe it to be a veritable El Dorado. The fact is clear that its iron mines can be worked with profit. American capital has demonstrated that. The Juragua Iron company, with eight or ten mines near Fermeza, back of Siboney, and the Spanish-American Iron company, with a large shaft a few miles back of Baiquiri, have made large shipments of ore to the United States. It goes chiefly to Bethlehem, Pa., to be mixed with the native product, but is used by other big steel companies.

Some of the most important iron and steel interests of the east are joined in this Cuban venture. They have their own vessels to transport the ore. At Baiquiri is a large pier from which the ore shoots directly from the car to the hold of the ship. The Juragua company has a railroad running to Santiago harbor, its pier being in the outskirts of the city. Here its ships are loaded. Labor in the mines is $1 a day Spanish money. The distance from tidewater is small, so that conditions favor the cheap production of the ore. The men who are conducting these mines are of such wealth and of such ability that they will certainly make the most of the opportunities of peace and a stable, fair government.

Manganese also promises well. Arrangements had all been made to work a mine of this when the war began. The preliminary tests gave indications of excellent returns. Doubtless it will need only the settlement of political uncertainties to set the machinery going. The mine is north of Santiago and is connected with it by rail. Copper, too, is known to exist in the mountains. Indeed a long range is known as the El Cobre. In the present high price of the metal and the large profits from the mines of it in the United States it is certain that capital will seek investment in this industry if half the reports about the deposits of it in Santiago province are true.

But sugar will engage the widest attention when business is again able to raise its head unafraid of war. It is this that had come to be the richest of Cuban crops. The big percentage of gain from it led to a large extension of the area under cultivation. It was found that the new lands were wonderfully fertile, and a still further increase in the production may be looked for if prices warrant it. There are fields on the island which have yielded cane for 20 years without replanting. You cut them down, and they grow up again of themselves.

Just now the subject of sugar production is complicated by various elements. Jamaica has suffered much from the decline in this industry, and there are opinions that beet sugar will seriously cripple even Cuba's trade, Crœsus-like as it has been. However, there are also careful students of the situation who do not believe that the beet can ever yield sugar so economically as Cuban cane. They point to the richness of the growth and to the little care and cultivation required as advantages which must make the Cuban article profitable for an indefinite period.

This industry thrived under the ruinous taxation of the Spaniards and was partly able to meet even the added tributes demanded by the insurgents. Certainly a relief from both of these ought to compensate to a greater or less degree for the competition of the beet.

One thing is certain—sugar must be produced on a large scale, with the most improved machinery and under intelligent, energetic management to yield good returns. Old methods were wasteful to a degree, but had given way in good part to new ones more appropriate to the last decade of the nineteenth century. Scientific machinery was imported from Germany and the United States. All the best mills had electric light plants, so that they could be kept running night and day. Various economies were introduced which in large establishments made a considerable difference in the receipts of a year.

Native farmers customarily supply the cane, the business of extracting a low grade of sugar being in the hands of both foreign and domestic capitalists. These improvements had not been carried far in all the mills. The big concerns found it cheap to pay a German or other chemist $5,000 a year to superintend the process. Some of the Cuban manufacturers had not reached this stage of enlightenment and continued to employ ignorant men as overseers. They were likely to get a quarter less sugar out of the cane than their more skillful and intelligent competitors.

Men familiar with the situation warn Americans who are going into the sugar business in Cuba to do so with all possible circumspection and only under the most favorable conditions. Many factories are now in the hands of extremely able men, native and foreign, who get the best possible returns out of them. If there is a rush into this industry, only those who can turn out the product most economically will make money. The soil seems capable of growing many additional acres of cane, and unless beet sugar proves too formidable a rival there will be a great stimulus to the trade in Cuba. The tendency has been there, when sugar yielded the heaviest returns to capital, to give up everything else for it, just as in the southern part of the United States farmers raised little but cotton. This singleness of crops has its obvious disadvantages, and business men here who know the circumstances advise caution in putting up new sugar mills. At the same time they are confident that, run on first class business and scientific principles, such ventures will prove successful.

Valuable woods grow on the mountain sides of Santiago province. At present, for all commercial purposes, they might as well be situated on the mountains of the moon. All the mahogany, cedar, ebony and other trees that command good prices have been cut from the lands that are near the avenues of transportation. The rivers are not more than creeks. After unusually heavy rains they become torrents, but the pitch of the watershed is so great that they soon subside. Of course the heavy woods could not be floated even if the waterways were of adequate depth. All the mahogany has been stripped from the hills near the coast or near the few small lines of railroad. Any that is secured now has to be hauled five or six days over bad roads by bullocks. Naturally the expense makes this wood too costly for export.

Mahogany and similar woods grow so slowly that it is hardly worth while talking about the new forests of them which may spring up to replace the old. Railroads and good highways will make available large supplies of these products, which now bring high prices. There are plans for a railroad along the length of the island, and the extension of the mining industry will involve the building of spurs.

Beef has come to be such a rarity in Santiago that cattle raising will command the attention of men with money as soon as peaceful possession of stock is assured. Although most of the country is thickly overgrown, there are stretches and fields of good grazing land. Much of this had been fenced in with barbed wire. The grass grows rich and tall; there is a good deal of guinea grass, which the horses and mules of the army found exceedingly palatable. While Cuba can raise sufficient beef for home consumption, the industry will hardly prove profitable enough to warrant competition with the United States and Mexico in export trade.

Rice may be raised in Sanitago province, but is less important than several other staples. Coffee grows back on the highlands, but has not been produced in sufficient quantities to supply the consumption here. There are large imports of it from Porto Rico and even New York. One may hear confident assertions of the possibilities of this crop, but the several years required to bring the plant to maturity will always be an important factor. Sugar and other crops may be gathered the first year, and investors will prefer such to coffee, with its long deferred returns.

Fruit should be one of the most important and permanent of the exports from Cuba to the United States. Baracoa, as already said, has been a center of this traffic. Santiago city is more distant but not sufficiently so to be removed from competition. It is about as near the Atlantic ports as Port Antonio, Jamaica, from which enormous shipments of fruit are made to Baltimore, Boston, New York and other cities. With these commodities of course the time element is important, not so much on account of the expense of running the ship as on account of the deterioration of the cargo.

About Santiago are numerous cocoanut groves. The tree grows readily and speedily. Its nuts may be gathered cheaply, for skilled Cubans clamber up the long, smooth stems like monkeys and strip the tree in a little while. Bananas, pineapples, oranges, alligator pears and mangoes grow in profusion, or did before war ravaged the groves. To the inhabitants of cities increased imports of tropical fruits, especially bananas and pineapples, will be a great boon. Cheapness and greater freshness of the articles will result, together with a familiarity with the ways of cooking them.—Staff Cor. New York Tribune.

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.35 A.M. and every half hour until 10.35 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.10 A. M. and every half hour until 10.10 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

IS SHAFTER TO BLAME?

Why the Medical Department Was Inefficient In Santiago.

Supplies Were on Transports Miles From the Port.

Chief Surgeon's Adjutant Accuses the General of Callous Indifference.

Washington, Aug. 9.—The most valuable contribution to the discussion as to the causes of and the responsibility for the hardships undergone by the sick and wounded in and on the way from Santiago has been supplied by Surgeon General Sternberg. It consists of a report by a member of the ambulance corps, and, unless confuted, the statement relieves the medical department of the sweeping charge of gross inefficiency. The document reads as follows:

Sir—In view of recent charges made affecting the efficiency of the army medical department at Santiago, and especially with reference to the conditions prevailing on the hospital transports sent north with wounded, I have the honor to submit the following facts, believing that my position as adjutant to the chief surgeon, Fifth corps, and as the officer in charge of the outfitting of the hospital transports, Iroquois, Cherokee and Breakwater, may possibly give value to such report.

Drugs, medicines, dressings, instruments, hospital tentage and supplies were loaded on the transports at Tampa in quantities to meet the needs of the Santiago expedition. These supplies were divided up on the various vessels, each organization having its own equipment. While the bulk of the supplies was in the organized hospitals, the regimental equipment was largely in excess of its needs and was intended to be called in to supply, if necessary, the equipment of the hospitals.

The landing on Cuban soil was made as rapidly as possible, each organization accompanied by the medical attendants assigned to it, and troops were pushed forward with no other equipment and supplies than could be carried by the soldiers. Having no means of transportation for even their field chests, the regimental medical officers had absolutely no resources at their command except such as were provided by the orderly and ship corps pouches, and the first-aid packets carried by the soldiers.

Having only left their ships, the latter were promptly ordered out of the small bay at Siboney and Balquiri to permit the unloading of other ships. These partially unloaded ships, in obedience to their orders, then proceeded to sea from five to fifteen miles, where they remained hove-to indefinitely. Such orders were given the transports carrying the reserve and the first divisional hospitals. The one carrying the reserve hospital, in obedience to its orders, proceeded to join the naval blockading squadron off Morro castle, where it remained five days and nights, the other transports disappearing, if I was correctly informed, for an entire week.

During the time the fight at Guasima had occurred and large numbers of sick and wounded were requiring treatment. In the meantime a report of the conditions prevailing on shore was made to the chief surgeon, who promptly laid the case before the commanding general, requesting that a launch be placed under the control of the medical department for the collection of medical supplies from the various transports. It was also requested that a pack train be organized, in the proportion of one pack mule to each regiment, to transport supplies, especially the field chests, to the front for proper distribution, and it was suggested by the chief surgeon as available for the performance of these duties.

The exigency of the situation did not apparently appeal to the commanding general, and for two days the medical department was unable to get transportation of any kind to the other ships or to the shore, although there were a large number of naval launches and boats employed on various other duties. On the third day, by order of the adjutant general, one rowboat was turned over to the medical department for the purposes above named, and at the same time an order was issued for land transportation to carry medical supplies to the front "not to exceed one six-mule team." On getting into this boat with supplies from the headquarters' transport, I was directed by sundry staff officers to take them on various errands. On my refusal to recognize their authority, the commanding general, who had appeared on the scene, personally revoked the previous order and directed, after the landing of the supplies already in the boat, that it should return without delay.

Presenting the order for land transportation to the quartermaster on shore, I was informed that only pack mules had as yet been landed, that neither wagons nor harness had been brought ashore, and, finally, that the road was impassable for wagons. After this boat had been taken away the chief surgeon was without any means of communication with the medical officers on shore or still on transports, of finding out their wants, or of remedying the many already known to him. This condition of things remained until after the fight at Las Guasima, at which time there were absolutely no dressings, hospital tentage or supplies of any kind on shore within reach of the surgeons already landed.

The news of the Guasima fight being reported to the chief surgeon, he was finally able to get on board the Olivette and send her to Siboney, where she received the wounded. Within the following day or so the transports carrying the reserve and first divisional hospitals were found and unloaded of their hospital contents, the latter hospital finally obtaining limited transportation to the front. After a couple of days' duty on board the Olivette, I was directed to put the Iroquois in condition to receive patients and to take the full capacity of the ship on board. While doing this, I was able to set ashore considerable hospital tentage and supplies found aboard of her, and, having control of her boats, I was able to visit other transports in the harbor and land medical supplies from them. While subsequently outfitting the Cherokee and Breakwater this work was continued as well as opportunity and limited facilities permitted, getting supplies from perhaps a third of the transports composing the fleet. Outside of this it is believed that no other regimental medical property was ever unloaded up to the time of my departure with wounded on July 10.

Appealing on several occasions for the use of a lighter or small steamer to collect and land medical supplies, I was informed by the quartermaster's department that they could render no assistance in that way, and the medical department was compelled to rely entirely upon its own energies and improvise its own transportation. I feel justified in saying that at the time of my departure large quantities of medical supplies urgently needed on shore still remained on transports, a number of which were under orders to return to the United States. Had the medical department carried along double the amount of supplies, it is difficult to see how, with the totally inadequate land and water transportation provided by the quartermaster's department, the lamentable conditions on shore could have been in any way improved.

General Shafter emphatically denies that he is responsible for the condition of affairs. In a report to the war department concerning the Seneca and Concho he says that the sick and wounded who were taken aboard had only the clothing on that they wore in battle, and of course that was ragged and worn out by the time they reached home. There was none to issue to them at the time they left, and their own extra clothing they could not get at. There has never been a case of suffering here that could be remedied by the means at hand that was not attended to. The surgeons have worked as well as any men that ever lived, and their complaint has been universal of lack of means and facilities.

"I do not complain of this, for no one could have foreseen all that would be required, but I will not quietly submit to having the onus laid on me for the lack of these hospital facilities."

General Shafter speaks in high terms of Dr. Lagarde, and says that he has worked under the most disadvantageous circumstances. "From the day the forces left Tampa until the present time," he says, "there has never been sufficient medical attendance or medicines for the daily wants of the command. Three times since reaching Cuba the command has been almost entirely without medicines." This statement was made to him by the medical directors, and on one occasion they suggested taking medicines away from the Spanish hospitals.

Last evening General Shafter sent a dispatch as follows: "In connection with my telegram of the 3rd inst. and the letter of the general officers to me of same date, I have the honor to say that since then I have talked with the division commanders, and they join me in saying that the first report was made so strong because of the weakened and exhausted condition of the command, more than 75 percent of which have been ill with a very weakening malarial fever, lasting from four to six days and which leaves every man too much broken down to be of any service and in no condition to withstand an epidemic of yellow fever. For strong and healthy regiments coming here now and a little later, with plenty of tentage to cover them and not subject to any hardships and with plenty of nourishing food, the danger, in my opinion and that of the division commanders, would be reduced to a minimum."

Battle In Philippines.

Hong Kong, Aug. 9.—News reaches here of an engagement July 31 between Americans and Spanish at Malate. The Spanish made an attack, attempting to turn our right. After three hours of hard fighting they were repulsed.

The troops engaged were the Tenth Pennsylvania, first battalion; First California, third artillery regulars, battery A, of Utah. Our loss was nine killed and 44 wounded. The Spanish loss was upward of 200 killed and 300 wounded.

General Poland Dies.

Washington, Aug. 9.—The war department received notification of the death of Brigadier General John S. Poland of typhoid fever at Asheville, N. C., yesterday. He was born at Princeton, Ind., Oct. 14, 1836, and was graduated from West Point in 1861 and assigned to the Second infantry. He was promoted to first lieutenant July 6, 1861; to captain June 27, 1862, and rose to his present grade of colonel of the Seventeenth United States infantry Aug. 1, 1891. He was appointed brigadier general of volunteers May 4, 1898.

At the outbreak of the present war General Poland was in command at Columbus barracks, Ohio, and promptly offered his services. At the time of his death he was brigadier general commanding the second division, First army corps, at Chickamauga park, Ga. General Poland was a very able and zealous officer and conscientious in the discharge of every duty. His standing in the army was of the highest, his fellow officers considering him possessed of a high order of ability and discretion, specially adapting him to perform important duties requiring capacity, professional zeal and good judgment.

Spanish Prisoners Leaving.

Santiago, Aug. 9.—General Shafter and General Toral held a consultation at the palace yesterday afternoon with regard to the embarkation of the Spanish prisoners of war. As a result of the conference 1000 of the sick and wounded were taken on board the Alicante this morning. There is to be no bunching or waiting of transports; each will sail as soon as it can be loaded after arrival here.

Death of Colonel Bogan.

Boston, Aug. 9.—Colonel F. B. Bogan of the Ninth regiment died this morning at 2:30 o'clock at his home in Charlestown. He passed a fairly comfortable day and evening and was sleeping quietly when at 2:15 his physician noticed a change in his breathing and told the family that he found a change for the worse.

At his suggestion a clergyman was sent for and in a few minutes Father Cronin was at his bedside and administered extreme unction to the dying man. Colonel Bogan did not recover consciousness, and passed quietly away at 2:30 o'clock.

No more gallant commander of a fine body of men ever arrived at his own fireside from the battlefield than Colonel Bogan, whose last words as he relapsed into semi-consciousness on his own bed were: "My God, bring those brave men of my regiment home from that place or they will die before Sunday." He was a native of Boston and 47 years old.

CONFLAGRATION.

Best Portion of Bismarck Wiped Out Last Night by Fire.

Bismarck, N. D., Aug. 9.—Fire destroyed the best portion of the city of Bismarck last night, licking up hundreds of thousands of dollars' worth of property. The flames originated in the agent's office of the Northern Pacific depot. Almost before they were discovered the entire building and the immense warehouse of the company were in flames. Oils and powder contributed fuel, and before the flames could be checked they had spread to the block of brick buildings across the alley, destroying The Tribune office and an entire row of buildings.

The flames then leaped the street to the magnificent First National bank building, which melted away in a few minutes. The Central block followed, and the flames spread to the postoffice, sweeping over the entire block and carrying down the postoffice, Merchants' bank block, Griffin block and all the intermediate frame and brick structures. The fire then spread across and devoured Kupitz's store and the greater part of the block. The flames also spread north into a residence block and completely destroyed it. Every drug store in the city is burned, and all the groceries but two or three; also two newspaper offices and the great bulk of the business portion of the city, with several blocks of residences. Many people are homeless. The Sheridan House had a narrow escape, but was saved.

In Boston Yesterday.

Boston, Aug. 9.—Delegates representing the Firemen's union of this state met in this city yesterday for the purpose of devising ways and means of forming unions in their craft in every town and city. The cities represented were: Lowell, Lynn, Boston, Worcester, Lawrence, New Bedford, Fall River, Springfield, Haverhill and Newburyport. Resolutions were adopted in favor of strict enforcement of the law governing the inspection of boilers. Bernard Geland of Fall River was chosen president.

The division of the Amalgamated Association of Street Railway Employes of America, which includes the motormen and employes of the Boston Elevated Railway company, through its chairman, has presented General Manager Sergeant of the railway with an agreement under which the men would like to work beginning Nov. 1, and asked for its adoption.

Charles McCullen, 22 years of age, has been arrested on the charge of assaulting Kate A. Hughes with intent to kill. McCullen, it is said, while enraged, fired at Mrs. Hughes, and the bullet struck her on the back of the neck, but as it was a glancing one she escaped with only a slight wound. The affair took place in the store of the husband of the woman in Charlestown.

Lucette Evans of Somerville, Mass., 21 years old, was fearfully burned by the sudden igniting of naphtha which she was using in cleaning furniture. Her recovery is not expected.

RECEIVED BY CAMBON.

Spain's Answer Deciphered at a Late Hour.

President Told of Acceptance of Conditions.

Surrender of Sovereignty Over Territory Must Be Ratified.

Washington, Aug. 9.—Spain has resorted to the unusual course of sending in addition to the full and formal reply accepting our peace terms a summary of her answer. This summary preceded the answer proper and was first translated for the benefit of Ambassador Cambon.

The president was told last night Spain accepts the conditions which we have imposed, explaining that under the constitution of Spain only the cortes can cede territory, and, therefore, the action of the cabinet in relinquishing Spanish sovereignty over Porto Rico, Cuba and one of the Ladrone islands must be ratified by the cortes to become valid.

The concluding portion of the Spanish reply was received during the evening, but it was not until a late hour that it was deciphered as a whole and gone over by the ambassador. No effort was made to communicate it to the United States government beyond a note to Secretary Day advising its contents. There is reason to believe it is not an unqualified acceptance of the American terms, but it is framed on accepting the essentials and trusting to a hope for conciliatory spirit on the part of this government to moderate to some extent features which the Spanish government seems to regard as non-essentials.

The administration has not yet given serious consideration to the personnel of the peace commission, but it can be stated that no one not in accordance with the president's present views as to the disposition of the Philippines will be appointed. Mr. McKinley favors keeping at least Manila harbor and bay and sufficient territory around it for its support and protection, if not the whole of Luzon island. As to members of the cabinet as members of the commission, there are precedents for their appointment, notably in the case of the treaty of Ghent.

An Old Man's Crime.

West Newton, Pa., Aug. 9.—John Evans, an old man, shot and killed his wife at her home yesterday and then attempted suicide by cutting his throat with a razor. When the officers were notified Evans fled to the cellar, where he fortified himself, and all efforts to dislodge him have been fruitless. Evans has been separated from his wife for a year, and was intoxicated when he committed the murder.

Tomorrow's Almanac and Forecast.

Sun rises—4:46; sets, 6:52.
Moon rises—11:16 p. m.
High water—5:30 a. m.; 6 p. m.

The area of cloudiness and showers drifted over New England yesterday, and, as it is moving slowly, it may pass off today, to be followed by partly cloudy, fair weather Wednesday. While it may be slightly cooler tonight or Wednesday morning, it is most likely to continue warm, with rather high humidity and light westerly winds.

NEWS IN BRIEF.

The pallium was conferred upon Archbishop Bruchesi in Montreal Monday in the presence of Archbishop Corrigan of New York.

The following fourth-class postmasters were appointed yesterday: In Meadows, Me., Emery Haley; East Elmore, Vt., E. Ellen Morse.

The mine and towers of the great naphtha works at Wischau, Russia, have been destroyed by fire. Fourteen people were badly burned.

The postoffice at Fort Monroe, Va., was robbed of about $2400 in stamps and $50 in cash, together with several registered letters. The thieves blew open the safe.

Guiseppe Gardini, who was sentenced last April to be hanged at Wethersfield, Conn., Sept. 29, having been convicted of the murder of a fellow-countryman, had his sentence commuted to life imprisonment.

John Stahl and Antone Frates of Edgartown, Mass., were drowned by the capsizing of their boat while returning from a mackereling trip. Both men leave widows and large families. Mrs. Frates lost her first husband in the same way five years ago.

A Great Northern construction train became derailed near Cass Lake, Minn. Two laborers were killed outright and Bridge Constructor Mathews had his right leg crushed, Brakeman Berry had his left foot crushed and a number of others were injured.

Henrietta Weiss of Lawrence, aged 59, was struck by a train a mile from the North Andover depot and instantly killed. She was returning from a pasture, where she had been berry picking, and while walking on the track was unable to get out of the way of the train.

Three men were killed outright, four were seriously injured, and a locomotive and four mail cars were almost totally destroyed, as the result of the accidental wrecking of the Boston mail train on the New York, New Haven and Hartford railroad at Canton Junction, Mass.

Advices received from Cocos, Guatemala, show that the revolutionary movement has assumed a phase which, while not jeopardizing the existing government, promises to involve foreign residents in great difficulty. The insurgents under Morales are believed to have received considerable support from the Mexicans on the frontier, who are said to be chargeable at least with failing to observe neutrality.

Good Afternoon.

The war with Spain which began on the 21st day of April, seems in a fair way to close during the month of August. August has no holiday and should peace be reached early in August, why not proclaim a National holiday to be celebrated each year. Cuba libre.

The fire at Wollaston on Monday forenoon again emphasizes the fact that the ward which has had the largest fire losses for the past ten years has the poorest fire protection. It would seem as though it was about time for the council to stop dilly-dallying on this matter and erect the contemplated fire station and abolish the two companies which cover Wollaston and Atlantic. Procrastination with such a public necessity deserves the severest condemnation.

While the city of Quincy with a population of 25,000 reports an increase of a million and a quarter in valuation, the city of New Bedford with a population of over 55,000 reports a loss in valuation of $819,672. New Bedford's tax rate is $19.20, the hightest in the history of the city. New Bedford's tax levy of 1898 was $1,132,856.82, against $973,137.13 last year. The Standard says, "The announcement that the tax rate for the present year will be $19.20 per thousand was immediately followed by a perfect storm of popular indignation and protest. On all sides there is a strong demand, stated in the most emphatic terms, that a policy of retrenchment shall be immediately entered upon by the various departments. The citizens generally were prepared for the worst, many expecting the rate to be $20, but now that the announcement is formally made, pent-up criticism and complaint have burst forth in full strength. This year's tax is an increase of $3 over last year's rate, and is the largest in the city's history. The nearest approach to it was in 1877, when the rate was $18.60.

Wollaston Man in Wreck.

W. A. Seymour of Wollaston was one of the railway mail clerks in the mail train from New York which was wrecked Monday morning at Canton Junction. He had his arm broken and was sent home. Mr. Seymour was in the last or letter car, with six others and was the most severely injured of the seven.

The road from Mansfield to Canton Junction is largely a down grade, and according to the mail clerks they were travelling at a pretty fast rate, estimated at from perhaps forty to fifty miles an hour. At the bottom of the slope was a switch, and the failure of this to properly work is given as the cause of the wreck. As the engine and cars let the track there was the usual jostling noticed in such cases and in another moment the worst had happened. The engine and forward cars were turned over on their sides and the other three cars were torn from their trucks. The locomotive was completely demolished and the forward car was telescoped; the road bed was torn up for a considerable distance.

STRUCK CAMP.

Fifth Regiment at Camp Dalton Take a March.

Five Miles Over Country in Heavy Marching Order.

It Was a Pretty Sight When Tents Were Dropped.

Camp Dalton,
Tuesday August 9.

Yesterday was the most eventful of all for the members of the 5th Regiment. Little stories circulated through the camp all day Sunday and Monday morning, of tent drills, practice marches and camp moving. Nothing official however, was known until 11 o'clock. The order then come to roll packs and blankets and to get into heavy marching order. This had been done twice before so that no confusion was noticeable. The men were still in ignorance of the meaning of it all. After everything had been packed up in the line of military equipment and all other goods stored away, they marched to the drill ground and stacked arms. Dinner was then in order.

Directly after dinner the grandest sight ever witnessed on a camp ground was seen. What before had looked like meaningless confusion settled down to one point, the breaking of a soldier's camp. Everything was put in readiness and at the beat of a drum, the guy ropes of all tents were loosened. These were stationed at the corners and at another beat amid a mighty din the tents were all lowered to the ground in an instant.

The scene from a distance reminded one of a large ant-hill which had been opened. It was a sight never to be forgotten. The assembly was sounded in the field and a rush was made to load up with blanket rolls, mess kits, canteens, guns, etc. Then it dawned upon the boys what was expected of them.

Headed by the band, and in a column of fours the regiment was headed for the rear of the grounds. A line of march by easy stages was taken up toward the north. A round about course was taken which led through Saxonville, returning by way of Wayside Park. The line of march led through farms and orchards and under other circumstances would have been considered a beautiful trip. Rests of from five to ten minutes were given every half mile, but still there were a number who fell out. The day was hot and muggy. The weather and 40 lbs. on a man's back who is unused to such things will make him give up sometimes. It is to the credit of Co. K that not a man fell by the way. A part of Co. K's chorus will tell all.

"When the boys go marching
And the band begins to play,
You can hear the people shouting
Not a man in Co. K fell out today."

The men who fell and were unable to travel were sent back to camp by street cars. The start was made at two o'clock and camp was reached again at a little after four. The distance traveled was five miles. The majority of the men stood the march remarkably well, and as this is a part of the hardening process another one will no doubt be given soon.

At one time during the march the sky clouded up and it looked rather serious for a while, and many a one thought of a march through mud, but after a few sprinkles, the sky cleared and the sun came out again.

The route or go-as-you-please step was given for most of the way with the right shoulder arms in and out of camp and through Saxonville.

The apple trees were a great temptation along the line and although the officers were on the alert a few would make a raid once in a while. No damage was done, and perhaps good foragers could be selected out of the lot if a good eye was kept.

Upon return to camp a line of battalion front was formed, arms were stacked and rolls were unstrung.

Then came the setting up of tents. This was done almost as quickly as the lowering, and in a short space of time Camp Dalton was itself again.

When the troops arrived on the field, Co. K was immediately served with iced oatmeal water through the thoughtfulness of Capt. Kincaide.

In a half hour it could hardly have been told that the regiment had been away.

There were a great many tired bodies in camp last night, and in the words of Santiago the mascot, "I guess that will hold 'em for a while."

It did the men good if only for the change, and after a few more, a little march of five miles will not be noticed.

A good supper and plenty of it was supplied, consisting of steak, boiled onions, potatoes, coffee and bread.

A rain started in at 6.30, which prevented the usual dress parade, but perhaps the men needed the rest.

There were a large number of visitors on the grounds during the day including several Quincy people.

Every one is ready for any kind of a move now.

Squad No. 10, consisting of Corporal Wardwell, Privates T. E. Clapp, Geo. Clapp, F. T. Morallis, Arthur Seaverns Jerome Sullivan, Randall Faxon and Harry A. McLaughlin were the recipients on Saturday of a box containing a dozen bottles of witch hazel, a dozen cakes of soap and a dozen boxes of brass polish. The box was given by Chief Packard of Quincy and the members of Squad 10 wish to thank him for his kindness. He is always thinking of the welfare of Co. K, and seldom comes to camp empty handed.

Baker Clark of Co. K is still turning out a little the best bread in the regiment.

Sergt. Colbert was home on furlough Sunday and Monday. He was wise enough to get to camp in time to miss the march.

Commissary Sergt. Crane declares he lost ten pounds in the five miles.

MACK.

WOLLASTON FIRE.

Mr. Sherman's Loss Greatly Underestimated.

All day Monday the Brasee block at Wollaston, the scene of the fire, was an object of curiosity. The wonder to Chief Packard and others was how it obtained such a start. Before the first round on the Wollaston whistle was completed, Hose 2 of Wollaston, driven by G. H. Nicholson was on the scene, and every body said it was a remarkably quick hitch. The apparatus from Quincy and Atlantic also made quick runs.

During the afternoon the show windows were boarded up, and as the glass fell out many people obtained a souvenir. The fire had been so hot that it melted the glass on the inside to quite a depth and it was later thoroughly smoked, so that it was very pretty from the outside.

The hasty estimate of Mr. Sherman's loss, made almost before the recall, undoubtedly set the figures too small. Mr. Sherman is said to have had a stock of $20,000 and it looks like a complete wreck. His insurance aggregated $10,000 and it is doubtful if it will cover the loss. Mr. Sherman was very much broken up when he arrived on the noon train, having heard the news in Boston. Friends helped him into a carriage at the depot and he was driven home without visiting the scene of the fire.

POOR SERVICE.

Houghs Neck People are Remonstrating against Q. & B.

The feeling against the Q. & B. at Houghs Neck, as developed at the citizens' meeting held a few evenings ago, is extremely bitter. To a certain extent there may be ground for this feeling against the road, as the accommodation on certain days, especially on Sunday afternoons is wholly inadequate to handle the heavy traffic, and also that the connections with the Boston rains are of a very uncertain character. The residents of that section feel that these grievances should be attended to.

On the other hand the road, it is so understood, realizing its weakness in handling the traffic at that place, will next season entirely rebuild the road from the centre to the Neck, putting heavier rails and of course a larger feed wire, thus allowing larger cars to be run down there. This year the road has been put to heavy expense in building the Weymouth Landing line and also double tracking Hancock street when the sewer is laid.

The returns from the Houghs Neck line are small in comparison to the mileage, the road being open but a few months in the year and doing practically but three months of good business.

Quincy Post Office.

Does the purchasing for the family She reads the local paper religiously. Many in Quincy read only the Patriot, which has been a weekly visitor to their house for upwards of fifty years.

SUED FOR $200,000.

Legal Action Taken Against Litchfield Directors

Of The Bay State Beneficiary Association.

Mismanagement Charged by Receivers—$100,000 Missing.

The Boston Journal of today reports that the receivers of the Bay State Beneficiary association have attached the ex-directors formerly prominent at Wollaston, and filed a bill of discovery calling upon them to make an accounting for missing amounts of more than $100,000.

There are three suits, the first against Westfield people, the second suit, brought against persons mostly of Boston, or against the "Litchfield crowd," as these manipulators are called, includes the following defendants: F. E. Litcheld, G. A. Litchfield, E. S. Litchfield, C. H. Bacall, S. T. Hibbard, W. G. Corthell, George E. Curtiss, S. F. Eliott, T. W. Parks and M. Mick, who were directors from Jan. 2, 1892, to Sept. 12, 1896.

The other bill is brought against Westfield men, whose names are not given out.

The "Litchfield crowd," says the Journal is alleged to have played the biggest part in the mismanagement, and that set of ex-Directors is sued for $200,000, each of the other two being sued for $100,000. The case is returnable at the September term of the Superior Court and at that time Receiver H. C. Bliss, ex-Assistant Attorney General, is to conduct the case for the members.

The recovery of the missing $100,000 would mean to claim holders a much increased dividend. A small per cent. is to be paid members in a few weeks, and at present a total dividend of 20 per cent. only is in sight.

Commenting on the bill in equity the Journal says: "In fact, the Receivers charge ex-Directors with having carried on business in a manner which if true, reveals to the public the facts that for several years past the men who have managed this big corporation have been guilty of the most unholy practices of insurance cunning.

The Directors are charged with having bought and sold the rights of the big corporation as if it had been, as it were, a huge financial plaything, a thing for illegal revenue to the managers, and a source of loss and disfranchisement to members.

THE BILL IN EQUITY.

The bill in equity outlines the findings of the Receivers as follows: The Receivers allege that the corporation is a charitable association, organized under the liberal provisions of the laws of the State for benevolent purposes, and is in no wise a speculative concern, and was to be conducted solely for benefit of members.

It is charged that early in the history of the concern a Director entered into, contract with officers of the association, himself an officer, R. W. Parks of Westfield, under which Parks was to receive all expense money of the concern and out of it to pay officers and to have the balance for his services and profits.

At the beginning of the concern the annual dues for instance on a $10,000 policy was $5.50 for five years only. After the contracts had been entered into, those dues were increased so that a ten thousand dollar policy paid an annual due of $60. The expense of the concern, which it was stipulated should be paid by the contractor out of expense funds, which were assigned as aforesaid to the contractor, came at last by manipulation to be paid very largely out of the mortuary fund, which of course, increased very largely the profits to the man who had the contract.

From the bill in equity it appears that this was carried so far, that in 1893 this contract made by Directors with one of their number, became so valuable that it was sold to the Litchfield (Boston) crowd for $90,000 and it is said that as a part of the sale and agreement, the Litchfield people were made Directors and managers of the concern.

This sale was made very soon after annual dues were once increased to a considerable extent. Later, in September, 1896, the management was again sold to another combination of Westfield people who are defendants in the third suit, and immediately thereafter an extended contract was made as to the funds of the association with the defendant Parks, who, it is said, represented other members of the Board of Directors in the arrangement. A large sum of money was paid to Parks under his alleged rights during the last years of the company's experience.

It is said something like $35,000 was paid under the entry of renewals. The

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Mr. Harry Slade is at home for a short vacation.

Miss C. S. Hubbard is at Northfield, attending camp meeting.

City Treasurer Gray has paid out $13,532.21 this year of the highway appropriation.

Miss Winnifred F. Howard of Wollaston is enjoying her vacation at Lakeside House, Lake Sunapee, N. H.

John Moir of Hall place, West Quincy, is enjoying a weeks' vacation at the Lake Shore House, Wolfboro, N. H.

Miss Annie Mitchell of South Quincy has returned to her home after spending a part of her vacation with friends at Quincy Point.

Mr. John C. Randall of Quincy was elected on Monday, treasurer, also one of the trustees of the Emergency Hospital, Boston.

H. T. Whitman has sold the Richard Polson place at the corner of Warren and Prospect avenue, Wollaston to Mr. Elwell of Quincy.

Quincy is not the only place where they arrest bicycle riders. Chief Ray of Chelsea, had eleven riders in court on Monday morning.

Mrs. R. McKeen and family of Liberty street, South Quincy, have gone to spend their vacation with relatives in St. Johns, New Brunswick.

Commissioner Knowlton is to make some alterations to his office, made necessary by the sewer house connection work of which he is to have charge.

An interesting letter from W. W. Dunn of the U. S. S. Cincinnati under date of July 31, at Port Ponce, Porto Rico, has been received and will appear in the Ledger tomorrow.

Mr. Fred Thayer, of South street, lost a valuable cow last night. The family heard the cow groaning and on going out, found her dying. This makes the second one Mr. Thayer has lost.

The North Shore got the thunder shower in full force which passed around Quincy Monday afternoon. It was severe and fatal in Lynn and Lexington and struck in Malden, Melrose and elsewhere.

Rev. Quincy Whitney, a pastor of the Universalist church of Quincy 1858—1860 died at North Cambridge Monday, aged 75 years. Mr. Whitney succeeded Rev. Luther Rice, a most good and godly man, and his successor was Rev. Albert Tyler.

Word has been received that Mr. Oliver, who has charge of the Christan Commission tent at Chicamauga is sick with typhoid fever. Mr. Oliver is a relative of Miss C. S. Hubbard and will be remembered by people of the Bethany church. The last telegram received from him reports that he is better.

A new light known as the enclosed arc lamp which burns one hundred hours and is supplied by electricity from an alternating current, has been placed on exhibition in the store of C. C. Hearn. The light is suspended from the centre of the store and takes the place of the incandescent lights. The new lamp burns a hollow carbon and although it is an arc light, it burns as steadily as an incandscent lamp.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

BATTLE AT MANILA.

Spaniards Charge the Americans Several Times.

They Are Repulsed With Heavy Loss Each Time.

The Rebels Remained Neutral and Gave No Assistance.

Hong Kong, Aug. 9—A German steamer which left Manila Saturday, Aug. 6 has arrived and reports that the Spanish forces made an attack on the American camp at Manila Sunday, July 31.

The Spaniards numbering 3000, charged the American line several times. At the first charge the Americans broke the Spanish centre and they retreated. Later the Spanish made another charge but were driven back. They finally retired to the bushes keeping up an incessant fire.

Eleven Americans were killed and thirty-seven wounded. The Spanish loss is said to have been heavy. The rebels remained neutral during the battle.

Spain's Answer.

Washington, Aug. 9.—Noon—The Spanish answer to the American peace proposition will be given the government this afternoon al hough no time for its delivery has been fixed. The French ambassador, who has it, is busy making a careful study of it. It is possible that it may be given Secretary Day and not the President.

Still Waiting.

Washington, Aug 9, 1 30 P. M.—The Spanish reply had not been received up to this hour. It is expected that it will be received sometime this afternoon but not in time for the cabinet meeting.

Remenyi Found a "Gaynioos."

The late Edouard Remenyi appears to have been the "discoverer" of Johannes Brahms, who was a boy of 19 when the Hungarian violinist found him in Hamburg in 1853. They went on a concert tour, so the story goes, and fetched up at Weimar almost penniless. Liszt invited Remenyi to stay at the Altenburg.

"I have plenty of room for you," he said. "You have perhaps a servant with you?"

"Oh, no! I have a gaynioos" (genius).

"A what?"

"Master, I have here with me the greatest composer since Beethoven, and I have come to solicit your protection for him."

"Very well. Bring along your gaynioos, and we will see."

Liszt saw, and after him others also found their vision cleared.

The Eagle and the Stars and Stripes.

I should like to call attention to one of our London churches. Little Trinity, in the Minories, though very interesting both to English and Americans, is not, I think, so generally known as it deserves. The church in question has been the burial place of the Dartmouths. Before the Washingtons left England these two families were united by marriage. On the wall of Little Trinity church may be seen the stars and stripes as the coat of arms or banner of the Dartsmouths, and the eagle as the coat of arms of the Washingtons, afterward to become the flag and the emblem of the great nation across the Atlantic.—Spectator.

His Mistake.

Gallyer—What mistakes men do make! I was just reading that Columbus thought he had discovered the Indies!

Aspley—There are worse mistakes than that. When I married first, I thought I had discovered paradise!—Brooklyn Life.

Medical science has made little progress in Turkey Missionaries have frequently found people ill from smallpox neglected in order that the Divine will should have its own way.

An injury to the tongue is repaired by nature with more rapidity than is the case with any other part of the system.

WORMS IN CHILDREN.

Hundreds of children have worms, but their parents doctor them for nearly everything else. The best Worm Remedy made, and likewise the best Remedy for all the complaints of children, such as Feverishness, Costiveness, Indigestion, Sour Stomach, etc., is

TRUE'S Pin Worm ELIXIR

Its efficacy in such troubles—and likewise for all stomach troubles of adults—has never been equalled. It has been a household remedy for 46 years. Purely vegetable and harmless. Price 35 cents. Ask your Druggist for it. DR. J. F. TRUE & CO., Auburn, Me.

Book on "Children" free to mothers. For Tape Worm we have a special treatment. Write for book.

SUED FOR $200,000.

Continued from page 2.

Receivers say that the profits of the contractor do not appear in the accounts, but whatever they were was covered under some other designation, so that a further accounting and discovery is necessary for understanding of the situation. The receivers claim that the situation of a contract being made between members of a Board of Directors, so unfavorable to the corporation that it can be sold for $90,000 with the opportunity of increasing the imposition, is so extraordinary that at least a formal and judicial investigation should be had.

The bill further stated: A bad feature was the rewriting of polices. Under the orignal by-laws every member of the association was entitled to a share in the management of the corperation as mutual concern. In the first policies persons were described simply as members. About 1892 the Directors of the association proceeded to amend the by-laws and to provide that none but the subscribers to the original articles of the association and those designated as "Active members" should participate in the management of the concern. It is set forth in the bill that officers of the association then issued a circular letter to the members inviting them to surrender original policies and to receive in turn others, which would give them advantages such as the emergency fund.

In the new policies the insured are designated as "benefit" members, who under the amended by-laws, were disfranchised from all management of the affairs of the corporation. No mention was made in the letter as to any change in this particular. Again, parties were requested to surrender policies and get in exchange others.

In a large number of instances these were regarded as new cases of insurance and the expense fund was increased often to the extent of a full year's premium.

A great many thousands of dollars, says the bill, in this way came to be converted from the mortuary fund.

Again it is charged in the bill that commissions for collection of assessments were paid largely out of the mortuary fund, and that amounts so expended are not accounted for on the books.

The Hawaiian Alphabet.

There are but 12 letters in the Hawaiian alphabet. These, with their pronunciations, are: A (ah), e (a), o (o as in ho), u (oo), h (hay), k (kay), l (la), m (moo), n (noo), p (pay), and w (vay). The missionaries added a thirteenth, t, but the natives won't have it, and continue to pronounce, for instance, the name of the root from which poi is made "kara," although the missionaries have it "tara.' Every vowel in a word is distinctly sounded, except that the vowels "ai" are sounded "i," as in English. Waikiki, the beach in Honolulu, is properly pronounced "Vikeekee." There is a great difference in the speech of the high and low caste natives. The first call their island group "Ha-va-ee-ee," and the latter begin it all right with "Ha," but conclude with a guttural grunt, and the word heard most, "Aloha," sounds soft and beautiful on the lips of the first, but is a lazy, good natured grunt as the latter speak it.

Aloha is in their limited vocabulary at once a greeting and farewell, a formal expression of regard and of deep love. In the latter case it is increased in warmth and depth of meaning by modifying adjectives annexed instead of prefixed, as "Aloha nui," "Aloha nui loa," or even "Aloha nui loa kea!"—and then it is time to speak to papa.—New York Herald.

How She Won Over the Judge.

A woman resident of Detroit relates an interesting tale of Kansas justice years ago. It was after her wedding trip that her husband was called to Kansas on business and a real estate dealer, out of spite, had him arrested. The prisoner was taken before a local justice of the peace. The incensed bride insisted upon attending the trial, and while it was in progress she so far forgot herself as to deliberately level her opera glasses upon the justice, who dashed under the table and shouted:

"Deperty, disarm that woman!"

The officer secured the glasses and cautiously laid them before the magistrate, who promptly fined the woman $1,000 for contempt of court. With gracious dignity she asked the right to defend herself, and, going up to the bench, she explained that the glasses were not harmful, and had the justice look through them, and after a few pretty words of apology she presented them to him. He hit the table a mighty blow to reconvene court, and fined the prosecuting witness $25 "fur insultin a visitin lady and gent in contrariety ter law and eterket."—New York Tribune.

—The scheme to extract gold in paying quantities from sea water is looked on by many as analogous to that of extracting sunshine from cucumbers. About the only Maine corporations that are looked upon as stable are horse barns.—Dorchester Beacon.

—From official figures it is stated that half the Spanish population is unemployed. There have lately been additions to this list—sailors out of jobs owing to circumstances beyond their control.—Brockton Enterprise.

THE DAILY EVENTS.

Miss Etta Hanson has gone to Sharon for a brief visit.

"Not much increase of sultriness" is predicted for Wednesday.

Mrs. Catherine Pratt has returned from her visit at Belchertown.

Mrs. Osborne Rogers and sons have gone to Maine on a brief visit.

Work has been commenced putting in the sewer on Summer street.

Edward J. Colbert has returned from a week's vacation in Springfield.

A sociable will be held in the Porter M. E. church Wednesday evening.

Miss Alice Apollino is the guest of Miss Corinna Wilde of Billings street.

Dr. and Mrs. T. J. Dion have returned from a month's visit to Canada.

Miss Carrie Heald and Miss Eunice Doble left Monday for a trip to Solon, Me.

Mrs. Isabel Barker advertises the estate at No. 18 Greenleaf street for sale.

The city has received thus far this year $32,527.90 on account of water rates.

Arthur Craig advertises apartments and two large stores in Craig building today.

Miss Georgia and Miss Cassie Thayer of Crescent street have gone to Munson, Maine.

Miss May Smith of Lowell is the guest of Mrs. Arthur C. Roberts on Crescent street.

Lowell's tax rate is just the same as Quincy—$18 per $1000. Its gain in valuations was not as large.

George A. Dary has applied for letters of administration on the estate of James F. Gay, late of Atlantic.

Miss Belle Mosely, clerk at Timberlake & Small's grocery store, Atlantic, is enjoying a two week's vacation.

An open race will be given by the Cohasset yacht club on Saturday. Prizes are offered for six classes.

The first boats of their classes in the Newburyport open race Monday were: Ashumet, Hermes, Arab IV, Circe, Fly and Orontus.

Misses Marguerite and Josephine Keeney of New London, Conn., are the guests of their aunt, Mrs. L. A. Pratt of Squantum.

Misses Bertha and Elsie and Master Robert Scharnagel of Atlantic have departed for New Hampshire where they will spend a few weeks.

A party of young ladies and gentlemen went down to Mr H. T. Poole's cottage at North Weymouth for an outing Saturday afternoon, Aug. 6.

Mrs. C. A. Peck and children of Taunton and Miss Ethel Staten of New York city are the guests of Mrs. W S. Russell of Billings street, Atlantic.

Mrs. A. V. Cole and her granddaughter Miss Corabel Cole of South Portland, Me., are the guests of Mrs. Cole's mother, Mrs. Martha P. Hall of Crescent street.

According to the novels of Richardson and his contemporaries, in the olden days men used to admire women who screamed upon the least provocation and fainted on all opportunities. Richardson's heroines were always toppling out of their chairs, falling in a "dead faint" in their lovers' arms, having their stays cut and their hands slapped, their temples bathed and their noses smelling-salted.

Both the women and the men have changed radically since those days. The modern man does not admire the fainting woman, neither does he marry her. If by chance he does, he is only a man, and lives to regret it. There is no reason why any woman should be a fainting woman. General bodily weakness and nervousness in women are due to weakness or disease of the delicate, special organs of the sex. Dr. Pierce's Favorite Prescription is a scientific and unfailing remedy for all disorders of this description. It imparts health and strength to the sensitive and susceptible organs upon which a woman's general health is largely dependent. It quiets and tones up the nerves, restores the vigor of youth, rounds out the emaciated form, imparts the glow of health to the complexion and transforms weak, sickly, nervous invalids into new, healthy, happy women. It fits for wifehood and motherhood.

"Words fail to describe my suffering before using Dr. Pierce's Favorite Prescription," writes Mrs. Sallie Key, of Tampico, Granger Co., Tenn. "I had inflammation, irritation and profuse flowing and was very nervous and suffered terribly at all times. My feet and limbs were cold. I had palpitation of the heart, and my back was so weak that I could not turn myself in bed. The thought of food sickened me. My kidneys were very badly affected. I had been down six months. I could not sleep night or day and had given up all hope. My husband got me some of Dr. Pierce's Favorite Prescription. I took it for five months and at the end of that time could walk a mile and do all my own housework. I am sure I would be in my grave if it had not been for the 'Favorite Prescription.'"

Send to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of the "People's Common Sense Medical Adviser." For paper-covered copy enclose 21 one-cent stamps to cover mailing only. Cloth-bound, 31 stamps.

THE GREAT FAMILY PAPER, INTO THE HOMES IT GOES.

The Quincy Patriot continues to lead all other Norfolk County papers in circulation.

AT MONTAUK POINT.

IDEAL SPOT FOR THE ENCAMPMENT OF TROOPS.

Just the Place For Our Fever Stricken Santiago Heroes to Get Back Health—Perfect Accommodation For Troops—Spanish Treasures Hidden There.

General Frank, formerly commanding the department of the east, and Surgeon General Sternberg have both paid official visits to Montauk point recently, and both have reported it as being an ideal spot for the encampment of troops. It is particularly adapted to the rest and recuperation of the worn out, fever stricken men who are now suffering at Santiago.

The war department, in selecting a site, requfred three qualifications: First, a railroad connection whereby troops might be moved with ease and dispatch; second, a water frontage on the sea of sufficient depth to permit of the landing or embarkation of troops on deep draft vessels; third, plenty of fresh water and good facilities for bathing. General Frank has reported that all these requirements are found at Montauk point. It is the eastern terminus of the Long Island railroad and within 2½ hours by train from Long Island City. Fort Pond bay, which makes in from the sound side of the point, has 29 feet of water at low tide and could harbor the largest fleet of transports that ever sailed. A small pier has already been built along the southern shore of the bay, and there is room for a much larger one. Fresh water lakes and wells abound, and the supply of pure drinking water is unlimited. There are miles of fine beaches where the soldier boys may disport themselves in the surf to their hearts' content.

In addition the temperature in warm weather is always about 20 degrees lower than that of New York, and the long, narrow arm reaching out into the sea catches every breath of wind from whatever direction it may come. After going over the ground thoroughly General Frank decided that the best location for the camp would be the extreme eastern end of the point, which is bounded by Fort Pond bay, the ocean and Block Island sound. Block Island sound is the broad stretch of water that lies between Montauk point and Block island.

President Baldwin of the Long Island Railroad company is already at Montauk point studying the situation with a view to furnishing whatever transportation may be required. "The Long Island railroad," he said, "can, in case of emergency, on two hours' notice provide transportation facilities for carrying 10,000 troops. We have 450 passenger coaches and 500 freight cars, with a plentiful supply of powerful engines, at our disposal. We could run trains on ten minute headway. Upon reaching the point the trains would be along the track, one behind the other, until all the troops were landed. Those in the rear cars would have about a mile to walk after leaving the cars."

Geographically Montauk point is about 115 miles from New York. It is the extreme eastern end of Long Island, and its tall, white lighthouse tower is familiar to many yachtsmen that cruise from the sound to the open sea. Beyond the village is the point proper, a narrow peninsula 10 miles long by 1½ miles wide, rising to a height above the sea of from 50 to 100 feet. Its surface is rolling, and back from the sand dunes are many quiet, shady ponds. Toward the ocean, however, the hills become cliffs of gravel and rise abruptly from the sea. It has been in former times a famous place for shipwrecks. Until a few years ago there were but three houses on the long stretch of the point, but the number has increased rapidly until there is now quite a fair sized settlement.

Montauk point has much of historical interest and a wealth of legends concerning real pirates and Indians. Captain Kidd, after his engagement with the same old Spanish that our fleet met at Santiago and Manila, came to Montauk point—at least there is a pool there called Money pond, so named because the old pirate is believed to have hidden Spanish gold and treasure there. It was here also that Wyandance, the famous old chief of the Montauk Indians, had his seat of government. What is left of his settlement is still to be seen, as well as the ancient burial ground of the tribe, with its odd collection of queerly inscribed stones. Searchers for relics find bone and stone implements.

With such abundance of tradition, always an alluring field of exploration, combined with wealth of scenery and an atmosphere that is a blending of salt and balm, the tired out heroes of Santiago will find an opportunity for rest and recuperation that will be little short of a paradise. There will be plenty of chance for fun too. There are good fishing and boating in addition to the bathing, and within a radius of a few miles are a score or more of big hotels crowded with lovely summer girls.

A naval militia detachment is already on duty at Montauk. Its business now is to look out for messages from vessels patrolling the ocean and Block island sound. Formerly it was cautioned to be ever on the lookout for the phantom Spanish fleet that threatened our coast, but since the Cervera incident at Santiago this detail has been dropped. The militia is quartered in a building on the high ground near the lighthouse formerly used as an engine house. The officer in charge is Chief Quartermaster G. F. Sever, with Signalmen G. M. Crosby and Edmund Clark, quartermasters of the second class. Surgeon General Sternberg has ordered that a hospital be established at Montauk. Thousands of tents are to be rushed to Montauk point by order of the war department from St. Louis and Chicago for the reception of the troops.—New York World.

Removing Rust From Iron.

The accumulation of rust on iron articles is so annoying that any simple process of removing it will be received with great satisfaction by a large number of persons. The following directions are given: Attach a piece of ordinary zinc to the articles and then let them lie in water to which a little sulphuric acid is added. They should be left immersed for several days or a week, until the rust has entirely disappeared, the time depending on how deeply they were rusted. If there is much rust, a little sulphuric acid should be added occasionally. The essential part of the process is that the zinc must be in good electrical contact with the iron. A good way is to twist an iron wire tightly around the object and connect this with the zinc, for which a remnant of a battery zinc is suitable, as it has a binding post.

Besides the simplicity of this process, it has the great advantage that the iron itself is not attacked in the least as long as the zinc is in good electrical contact with it. Delicate pieces of mechanism which have become badly rusted can be cleaned by wrapping a galvanized wire around them instead of the zinc, in which case the acid should not be too strong. When the rust is all cut off, the articles will appear dark gray or black. They must then be thoroughly washed and oiled. It is well to warm them slightly when dry so that the oil may the more easily sink into the surface. Where there are sharp edges and fine work this process is said to be eminently satisfactory.—New York Ledger.

Grant's Court Suit.

"Just before Grant started on his famous trip around the world—in fact, just three days before he left—he walked into a store in Philadelphia and very quietly, just as if he was asking nothing unusual, said that he wanted a full dress uniform of the general's grade finished for him before he left. As he expressed it, he couldn't appear in civilian's dress at the various courts which he would visit, and he didn't like the idea of the knickerbockers and silk stockings of the regulation court costume.

"It was a rush order," said the merchant who received it, "and we had to furnish everything except the sword, but we managed to finish it in time and made what Grant considered the best fitting uniform he ever wore. The epaulets hadn't arrived when the day for trying on occurred, and our fitter told Grant, adding that he was sorry, but that he would have to come in again. Then Grant made a remark which showed his great good sense, one of his predominant characteristics. 'There must be somebody here,' he said, 'who is about my build. Just put the coat on him and fit the epaulets that way.' And so it was done."—New York Times.

Big Bets.

The late Mr. Davis, the biggest bookmaker of his time in England, probably laid the largest bet ever recorded when he wagered $500,000 to $5,000 against three horses owned by a Mr. Clark and entered in the Derby of 1896.

There is also a bet recorded of $450,000 to $150,000, the big amount being laid by Lord Glasgow and the smaller by Lord George Bentinck, who lost.

In 1885 a young lordling bet $15,000 to $150 that St. Simon, a very celebrated race horse, would win a race in which but one other animal was to start. St. Simon was so hot a favorite that 100 to 1 was laid on his chance, such odds, of course, being very unusual and meaning that there is hardly any betting being done. That lord, however, actually bet his $15,000 against a bookmaker's $150 as coolly as if he had been accepting and not laying tremendous odds. St. Simon won in a canter.

A Finished Rebuke.

Hon. George Russell, in his "Recollections and Collections," tells the following story of Jewett, the famous master of Balliol college:

"The scene was the master's own dining room, and the moment that the ladies had left the room one of the guests began a most outrageous conversation. Every one sat flabbergasted. The master winced with annoyance, and then, bending down the table toward the offender, said in his shrillest tone, 'Shall we continue this conversation in the drawing room?' and rose from his chair. It was really a stroke of genius thus both to terminate and to rebuke the impropriety without violating the decorum due from host to guest."

Gladstone and Ireland.

Only a stern sense of duty induced Mr. Gladstone in his seventy-seventh year to endeavor to bring about the pacification of Ireland. "I shall win," he said when he appealed to the country, "or be hunted out of public life." "What do you think of Mr. Gladstone now?" asked a Liberal M. P. of Mr. Healy at the close of Mr. Gladstone's speech introducing home rule. "I think," repliëd Mr. Healy, "that he has elected to be crucified for Ireland."—Birmingham (England) Post.

The Age of Niagara.

The truth of the adage about constant dripping wearing away a stone is strikingly illustrated in the fact that the Niagara river has been 36,000 years cutting its channel 200 feet deep, 2,000 feet wide and 7 miles long through solid rock. Evidence is conclusive that the falls were formerly at Queenstone, seven miles below the present situation. It has been proved that they have not receded more than one foot a year for the last half a century.

Egoism.

Synnex—So you love Miss Sugarknice?

Sweese—I do.

Synnex—You love her because she loves you, and she loves you because you love her. Bah! That amounts to the same thing as each of you being in love with yourself.—Boston Transcript.

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

ROGERS BROS.,

Groceries and Provisions. Adams Building, Quincy

Household Advice:

When in doubt as to how to furnish your bed room, select a White Iron Bed, and then buy the other furnishings to correspond with it, and you will be sure of a pretty bed room. A white iron bed will harmonize with any furniture. . . . . We sell loads of white iron beds because they are "the style." They are popular because they are ornamental, as well as healthful. Prices range from $2.75 to $35.

Duet—"Oh, I would be a pirate bold
To win bright gold!"
—Pick Me Up.

Gans the Better Boxer.

New York, Aug. 9.—At the Greater New York Athletic club Joe Gans of Baltimore defeated Billy Ernst of Brooklyn in the 11th round of what was to have been a 25-round fight at the lightweight limit. Gans proved his superiority from the opening of the fight and outfought and outgeneralled his opponent all through. Ernst at times was very wild and resorted to roughing tactics which were anything but fair. His elbow work brought a mild caution from the referee, although Gans made no complaint. He simply waited for an opportunity and always took advantage of it when it came along. The Baltimore people bet freely on Gans and took up every bet in sight, laying odds of 2 to 1.

In the 11th round Gans swung his right to the head. Ernst staggered, and Gans swung three lefts to the face, sending Billy down on his back. Gans went at his opponent as soon as Billy got to his feet again, and rained blow after blow on the head, finally sending Ernst down in a neutral corner with a fearful right on the head. Ernst was unable to get up until after the referee had counted 10 seconds. The referee awarded the fight to Gans.

Killed by Electric Bolts.

Lexington, Mass., Aug. 9.—During a terrific shower yesterday afternoon, Hiram Russell, 32 years old, and employed as a farmhand, was struck by lightning and instantly killed. He was going in from the hayfield with his scythe, and the latter apparently attracted the bolt.

Arlington, Mass., Aug. 9.—During a heavy storm yesterday afternoon lightning struck the barn of John Parker and set it afire. While the firemen were at work, another bolt struck a tree nearby, the shock prostrating a fireman named Schumather.

Melrose, Aug. 9.—Cora M. Maynard of Lynn, 24 years of age, was struck by lightning and killed while standing under a tree in Middlesex fells during the shower yesterday afternoon. Miss Maynard had been walking in the woods with Rev. A. W. Moore, also of Lynn, when they were overtaken by the storm.

Killed Three Women.

St. Petersburg, Aug. 9.—It is reported that a band of thieves entered the residence of Princess Chunkaloff, near Simferopol, capital of the government of Taurida, in the Crimea, murdered the princess and two companions, strangling them in their sleep and, after pillaging the house of valuables, decamped.

Boxed to a Draw.

Chicago, Aug. 9.—Gus Andrews of Chicago and Tom Moriarity of Holyoke, Mass., boxed six rounds to a draw last night at Hanlon's handball court.

SETTLED OFFICIALLY.

Mooted Question as to the Santiago Honor Answered.

Secretary Long Bestows It Upon Sampson.

Says That the Admiral Is Modest and Has High Attainments.

Washington, Aug. 9.—The mooted question, Who should be credited with the honor of the naval victory that was attended by the destruction of Cervera's fleet? has been officially answered. To one of several correspondents who have depreciated the work of Admiral Sampson on that occasion, Secretary Long took the pains to answer at length as follows:

Navy Department, Wash., Aug. 8.

My dear sir—I am in receipt of your letter, and hasten to assure you that what you say about Admiral Sampson is so unjust that it can only be pardoned on the ground of your ignorance of the whole matter. You have no appreciation of the responsibilities that have been upon Admiral Sampson; of his very superior attainments as an officer, and the splendid work he has done preparing for the naval victory which was the crowning accomplishment of his efforts for weeks and weeks before Santiago. Justice is always done in the long run; but when you indulge in such unfounded criticism, I cannot forbear to protest, as I should feel bound to do if you had referred in similar terms to any other of our deserving officers.

First—Admiral Sampson was selected for the command of the North Atlantic squadron because the department, in the exercise of its best judgment, with an eye single to the public interests, believed that he was especially fitted for the place. Admiral Sicard, who held the command, having become incapacitated for duty by reason of sickness, was necessarily withdrawn by order of the department, and Sampson was next in command. The two are especially accomplished ordnance officers, having been each at the head of the ordnance bureau and having devoted themselves to that branch of naval science. Sampson is a man of the very highest professional attainments, solely devoted to his duty. He never pushes himself forward, and when you accuse him of anything of that sort you do most cruel injustice to a man who has never sought favor or applause in any other way than by the simple discharge of his duty.

Second—The movement on Porto Rico was not a movement for its capture. The department, which has very rarely interfered with the movements of admirals commanding squadrons, did, however, make one express order, and that was that our battleships should not be exposed to the risk of serious injury from the fire of any fort. At that time the Spanish fleet was strong. Its whereabouts and destination were unknown. The primal necessity was to meet and crush its ships, and to secure for us the domination of the sea. The Oregon had not arrived, the Maine was destroyed, and no naval authority would justify the unnecessary risk of the destruction of any of our battleships except in battle with the enemy's ships.

The movement to Porto Rico was to meet if possible the fleet of Cervera, which was then expected. Cervera, undoubtedly learning that our fleet was at San Juan, changed his destination to Santiago. Our movement to Porto Rico thus became a reconnoissance and fulfilled its purpose. There was no intention at the time of taking Porto Rico, as the army was not there to co-operate.

Third—With regard to sending our ships into the harbor of Santiago, Admiral Sampson was acting under the explicit orders of the department not to expose his armored ships to the risk of sinking by mines, and the wisdom of this course, I believe, is universally acknowledged by naval authorities. He waited, as he should have done, the co-operation of the army. How effectually under this co-operation the result was accomplished is now a matter of history. There are few more graphic scenes than must have been presented at 4 o'clock on the afternoon of the 14th of July when Shafter, with his troops ready to assault Santiago, awaited the reply of the Spanish commander to the demand for surrender. Sampson's fleet was at the mouth of the harbor, drawn up in line and ready to bombard, as it had been for days previous, and the signal officer stood on the heights ready to wigwag the signal for firing. Happily, instead of this signal came the good word that the Spanish had surrendered to this combined readiness for attack.

Fourth—Please bear in mind the variety and weight of the responsibility which were upon Admiral Sampson for the month prior to the great battle which destroyed Cervera's fleet. He was commanding officer of the whole squadron; charged with the blockade of the whole Cuban coast; charged with the detail of all the movements of ships; charged with clerical correspondence with the department and other officers, especially charged with preventing the escape of Cervera. Remember that this man, whom you so sweepingly accuse, was devoting his days and nights to those duties. If you will read the orders issued by him, beginning with June 1, you will find that the most thorough precautions had been taken to prevent the escape of Cervera; that our fleet was kept constantly in line, so far from the entrance at night and so far by day; that the most rigid care with searchlights and every other appliance was taken every night, that the commanding officer of every vessel knew his post and his duty in case of an attempt to escape, so that when the attempt came, the movement to prevent it, by the attack of our vessels upon the outcoming Spaniards, went on like clockwork. As at Chattanooga, every movement of that great battle was carried out, although General Grant was neither at Missionary ridge or Lookout mountain.

I can well understand why the friends of other officers should be so enthusiastic and earnest, as I am, in giving them the credit they so richly—everyone of them deserves for his glorious work; I cannot conceive of anybody so mean as to detract by a single hair from their merit—but I cannot understand why such a bitter feeling is manifested in many quarters toward Admiral Sampson, when all these officers, subordinate to him, in their reports, clearly and cordially recognize the fact that, although at the beginning he was, by orders from Washington, going to confer with General Shafter, yet the battle was fought under his orders, and that the victory was the consummation of his thorough preparations. For myself, I know no predilection for any one of these gallant men. I would crown everyone of them with laurels. I want them all to have their just deserts. Every one of them deserves unstinted praise; not one of them deserves any less than a full measure for that day's work, and therefore, I can think of nothing more cruel than a depreciation of the merit of the faithful, devoted, patriotic commander-in-chief, physically frail, worn with sleepless vigil, weighed with measureless responsibilities and details, letting no duty go undone; for weeks with ceaseless precaution blockading the Spanish squadron; at last, by the untiring fulfillment of his plans, crushing it under the fleet which executed his command, yet now compelled in dignified silence to be assailed as vindictively as if he were an enemy. I am sure that no one deprecates such an attack more than the officers of the fleet, commodore, captains and all. Among them is peace; whatever disquiet there may be elsewhere, the navy is serene. I am reminded of Mrs. Beecher Stowe's beautiful verse:

"Far, far beneath, the noise of tempests dieth,
And silver waves shine ever peacefully;
And no rude storm, how fierce so'er it flieth,
Disturbs the Sabbath of that deeper sea."

ALL HAD RAIN.

Showers Last Week of Great Benefit to Drought Suffering Regions.

Boston, Aug. 9.—Rain, generally in the form of showers, fell in all sections of the district, relieving the drought. In Massachusetts, Rhode Island and Connecticut showers were frequent, in some parts of daily occurrence; they were often attended by high winds and hail, injuring grain, tobacco and fruit. Rain is much needed in Maine. The showery weather and little sunshine have been unfavorable to haying, and the unsecured portion of the crop has suffered accordingly. Harvesting, and farm work generally have been delayed by cloudy weather and showers.

Grain, with few exceptions, is in a satisfactory condition. Oats and barley are in process of harvesting in parts of all the states; the quality and yield are up to the average. Corn promises a good crop; it is mentioned that it is a week to 10 days late in many sections; in others local storms with high winds damaged the crop. As a whole the crop is good and practically assured.

There are orchards in parts of all states with good crops of apples, but the majority are poor. In not a few instances there is no fruit at all. Pears are fairly plentiful. The reports from Connecticut are favorable to grapes Berries are good and fairly plentiful The general opinion favors an average crop of cranberries, though the season is hardly sufficiently advanced to express a positive opinion.

Garden vegetables of fine quality are plentiful without exception. Early potatoes suffered more or less from dry weather. This portion of the crop is probably less than the average, though the tubers are generally large and of excellent quality. The late crop is with very few exceptions in good condition. In parts of New Hampshire and Vermont, and some of the southern sections of the district where drought in the earlier part of the season injured the crop, the recent rains have been of great benefit, improving the crop and saving many fields, so that a fair yield may yet result. Rust and blight prevail to some extent, especially in the southern half of the district, but there seems little likelihood of serious or extensive damage. The vine crops are good. In the vicinity of Brattleboro the cucumber crop, which is of much value for pickling at the factories, is large.

Will Honor Parnell First.

Dublin, Aug. 9.—The municipal council of Dublin has refused to comply with a request of the Gladstone Memorial society for its co-operation in erecting in Dublin a statue commemorative of the life and services of Mr. Gladstone similar to those which the society will erect in London and Edinburg. Mr. Sherlock a member of the council, moved the following resolution negativing the request: "That the corporation of Dublin is strongly of opinion that no statues should be erected in Dublin in honor of any Englishman until the Irish people have erected a fitting one in memory of Charles Stewart Parnell."

After several speeches, among them one by Councillor Thornton, who said it could not be forgotten that Gladstone "laid a heavy hand upon the nationalists," the resolution was adopted unanimously amid cheering.

The Adroit Turk.

Washington, Aug. 9.—Relative to the statement from Constantinople that the Turkish government has declined to recognize the American demands for indemnity for outrages committed upon American mission establishments in Turkey during the Armenian troubles, it is learned that this answer was returned sometime ago, and in fact has been consistently rendered by Turkey whenever approached on the subject. The Turkish answer has adroitly cited the attitude of the United States in cases where claims were proffered by foreign governments for damages sustained by their citizens in riots,

Lynched a Fiend.

Griffin, Ga., Aug. 9.—John Meadows, a negro, who attempted to assault the 7-year-old daughter of Benson Camp at Carmel, was hanged by a mob and the body riddled with bullets. He was arrested in Merriwether county, but escaped. He was rearrested, and while on the way to jail here the officers were overpowered by a mob of 150 men.

Drank, Then Quarrelled.

West Stockbridge, Mass., Aug. 9.—Last evening George Webster killed his brother, Frederick, with a gun during a drunken quarrel, and then committed suicide with the same weapon.

REPLY SUBTLY FRAMED

Acceptance by the Spanish, With Conditions.

President Not Satisfied With the Situation.

Protocol to Be Forwarded as Our Ultimatum.

Unequivocal Presentation to Be Made of the American Case.

Washington, Aug. 10.—Spain has accepted our terms of peace, but with qualifications. It is not a frank acceptance. There is the usual Spanish jugglery, the usual desire to protract and prolong the negotiations with the hope of gaining something better in the end.

As Spain's reply now stands, it is not perfectly satisfactory to the president. Spain will be made to understand she must cease to juggle and act in a straightforward fashion. It is believed she will. Otherwise there will be an end of the talk of peace.

What Spain has done is to accept our terms and then endeavor to modify them. It is an eminently characteristic Spanish performance. While assuming a dignified air, she pleads for us to be lenient, to grant concessions, to make terms which were not in the original bond.

Somewhat subtly, but quite transparently, Spain has so framed her answer that it might lead up to protracted diplomatic negotiations and a prolonged diplomatic correspondence were the president so foolish as to fall into the trap. Nothing would please Sagasta better than that. He would like nothing better than to engage in a diplomatic battle. There is to be no reopening of the case, no exchange of "notes" and "instructions" and other things which form the ammunition of the diplomats. The president will have none of it. He sees the trap which has been set for him, and he has kicked it to one side.

Spain in her reply in accepting our terms of peace sets forth what she thinks the United States ought to concede, and her reasons. Hence the note is a long one. It traverses the entire case. The principal concessions sought are an admission that the American occupation of Manila is temporary only; a stipulation as to the debt of Cuba; the protection of Spanish interests in Cuba; the right of Spanish troops in Cuba, Porto Rico and elsewhere to withdraw bearing arms, and the expense of returning troops to Spain to be borne by this government.

It was felt by the observers that had the answer been a complete acceptance of our terms the result would have been made public. On the other hand it would be a strained inference to conclude that the answer was unsatisfactory entirely, for in that case, according to the president's statement heretofore made, his offer would have been definitely withdrawn and the war resumed with greater energy than before. It would seem that there could scarcely be a good reason in that case for withholding the result of the conference. On the whole, it is rather to be concluded that a middle result was obtained; that Spain was found to have attached certain conditions to her acceptance of the president's terms, but that the latter was not disposed to regard the injection of the new matter as sufficient in itself to warrant an immediate termination of the peace negotiations. According to this view, the president has taken exception to some of the Spanish conditions, but has allowed a last opportunity for them to be withdrawn or modified.

Frankly, the president is not satisfied with the situation. As a matter of policy he proposes to look upon Spain's reply as an acceptance of our terms, and yet he knows it was not so intended. Last evening nearly every member of the cabinet called at the white house and until nearly midnight the situation was discussed in all its bearings.

The program which the president has decided upon and which will be followed out is this: Proceeding on the assumption that Spain has accepted our terms a protocol embodying the conditions of peace will be drawn up. This protocol will pledge Spain to withdraw from Cuba and Porto Rico, cede one of the Ladrone islands, to be selected hereafter, and recognize the right of the United States to occupy the city of Manila until the peace commission decides the ultimate disposition of the Philippine islands. This part of the protocol will stipulate what Spain must do.

Then will be set forth what the United States will do. The United States will not recognize the debt of Cuba, nor permit it to be charged upon the island or its revenues; the United States will not permit Spain to remove from Cuba, Porto Rico, etc. field or heavy artillery or ammunition or other munitions of war; pending the final evacuation of Havana by Spain the United States will not allow an import duty to be charged on food products.

There will be some other prohibitions The object in incorporating these inhibitory clauses is to nail Spain down, to leave nothing open to discussion afterwards. Certain things Spain must do; certain things the United States will regard as settled beyond dispute, and Spain must admit that they are settled.

The Spanish reply is divided into five points, or heads, namely: Cuba, Porto Rico, Ladrone islands, occupation of Manila and appointment of a commission, which are treated in the order named. So far as could be learned no mention is made of the Cuban debt. The retention of arms and ammunition by the Spanish troops comes in for indirect reference under the head of Cuba. In the absence of an official statement it is impossible to give the Spanish position on the several American conditions, but the following is from the best information obtainable: In treating each subject an acceptance in some cases is understood to relate to conditions somewhat different from those laid down by the American government. As to Cuba the American terms demanded the evacuation of the island, without specifying the future form of government. The Spanish reply is said to accept the principle that Spanish sovereignty over Cuba will terminate, but it is understood to take up the future government of the island and, because of the extent of Spanish interests there, is said to take the view, either expressed or implied, that the United States should administer the affairs of the island. The time evacuating Cuba is a detail which the Spanish reply is said to regard as among many which can be left to the commission for final determination.

Indulging In Illusions.

London, Aug. 10.—The Madrid correspondent of The Standard says: "It is an open secret that the government is to postpone the assembling of the cortes as long as possible so as to delay the settlement of the questions with the United States and to give the country breathing time to prepare for peace conditions which are not yet fully grasped. The people are still indulging in illusions as to the success of Spanish diplomacy regarding both the Philippines and the Cuban debt. All the extreme parties are anxious for an early meeting of the cortes with a view of embarrassing the government and fanning the smouldering discontent."

Proposals Accepted Conditionally.

London, Aug. 10.—The Madrid correspondent of The Times says: 'There is no longer any doubt that the American proposals have only been accepted ad referendum. There was some difference of opinion, but a majority of the cabinet decided that the government would be exceeding its powers if it consented unreservedly to a cession of territory, and that therefore it would be better to state this fact clearly and avoid any misunderstanding with the United States.

"The decision now rests with President McKinley. If he is willing to negotiate on this conditional basis, much valuable time will be saved, but if he insists upon the consent of the cortes a considerable delay would be inevitable. The ultimate sanction of the cortes is certain; but the debate might be protracted, since the procedure of the Spanish parliament does not provide for closuring of obstruction.

"The note to the United States, it is said, suggests that in any case the non-consent of the cortes need not prevent a suspension of hostilities. It is to be hoped that Washington will take this view and thus avoid bloodshed, as there is no doubt that the garrison at San Juan will resist as obstinately as did the garrison at Santiago."

Proclamation of Armistice.

Bayonne, France, Aug. 10.—Dispatches received here from Madrid announce that the form of the Spanish government's acceptance of the American peace conditions involves the proclamation of an armistice. This, it is added must be first agreed to by the United States, and if the United States insists upon the immediate evacuation of Cuba and Porto Rico the cortes will be convoked within 15 days.

Continuing, the Madrid dispatch says: "The most rigorous military censorship is exercised. The newspapers are not allowed to refer to the plot against Sagasta's life, nor to the appearance of revolutionary bands in the Castellar province. Concerning the plot, it is said the conspirators have drawn lots to decide which of them shall carry out its purpose, and that the task has fallen upon a man named Disbal, who has suffered imprisonment in the fortress of Montjuich for participation in one of the Barcelona outrages, and whose sentence was recently commuted by the supreme court to expulsion from Castellon. The band consists of 20 men. According to some accounts, they are Republicans and others say they are Carlists. Their first move was to attack a customs post and capture all the arms. Next they cut the telegraph and telephone wires.'

WATERSON WAS ORATOR.

Kentucky Editor at the Unveiling of the Monument to Key.

Frederick, Md., Aug. 10.—Henry Waterson of Louisville was the orator on the occasion of the unveiling of the monument to Francis Key, who wrote the "Star Spangled Banner." The speaker said in part: 'Since the 'Star Spangled Banner' was written nearly a century has come and gone. The drums and tramplings of more than half its years have passed over the grave of Francis Scott Key. Here at last he rests forever. Here at last his tomb is fitly made. When his eyes closed upon the scenes of this life their last gaze beheld the ensign of the republic 'full-high advanced, its arms and trophies streaming in their original lustre, not a stirpe erased or polluted nor a single star obscured. If happily they were spared the spectacle of a severed union and 'a land rent by civil feud and drenched in fraternal blood,' it may be that somewhere beyond the stars his gentle spirit now looks down upon a nation awakened from its sleep of death and restored to its greater and its better self, and known and honored as never before throughout the world.

"While Key lived there was a paramount issue, about which all other issues circled—the constitution and the Union. The problems of the constitution and the Union solved, the past secure, turn we to the future; no longer a huddle of petty sovereignties, held together by a rope of sand, no longer a body of mercenary shopkeepers, worshiping rather the brand upon the dollar than the eagle on the shield; no longer a brood of provincial laggards, hanging with bated breath upon the movements of mankind, afraid to trust themselves away from home, or to put their principles to the test of progress and of arms; but a nation, and a leader of nations; a world power, which durst face imperialism upon its own ground with republicanism, and with it dispute the future of civilization. It is the will of God; let no man gainsay."

The monument was unveiled by Julia Howard, daughter of Henry Howard of Baltimore and great grand-daughter of Francis Scott Key. As the veil fell, exposing to view the magnificent piece of sculpture, the assemblage broke into enthusiastic applause, augmented a minute later by the unfurling of the flag from the tall staff at the side of the monument.

No Threat of Aggression.

London, Aug. 10.—Answering a question in the house of commons yesterday, George N. Curzon, said the British minister at Pekin had reported that the Chinese government, replying to Great Britain's message saying she would support China against any power committing an act of aggression in China because China had granted a British subject permission to aid or build a railroad or other public works, as announced in the house of commons on Aug. 1, had expressed gratitude at the promise of support, and had asserted that no threat of aggression had been made.

Mr. Curzon also stated that Baron Von Bulow, the German minister for foreign affairs, had sent a memorandum to her majesty's government saying Germany had never claimed exclusive privileges in China, had made no attempt to exclude other nations from free competition in the Shang-Tung peninsula, and had merely informed China that if she desired or required foreign assistance in the Shang-Tung peninsula she should first offer the work to Germany.

May Claim Her Dower.

Providence, Aug. 10.—Since the contents of Joseph Banigan's will were made known there have been rumors of a contest against its probate by Mrs. Banigan. The widow is given an annuity of $15,000; and the use of the homestead during her lifetime, with all its furnishings, the taxes and repairs to be paid out of the trust estate. This was in lieu of her dower rights. Under the law of the state the dower rights of a widow constitute one-third of the real estate. The claim is that Mrs. Banigan will insist upon her dower. This, it is believed, would yield an income far in excess of the annuity allowed.

A Swing on the Jaw.

Louisville, Aug. 10.—In one of the cleanest glove contests ever pulled off here "Australian Jimmy" Ryan disposed of John McDonough of St. Paul in the eighth round of what was to have been a 20-round contest. Ryan gave away weight and reach. In condition the Australian was as fine as a fiddle, and the northwesterner was not far in the rear. Ryan had the better of the battle throughout, landing five blows to one for McDonough. The blow that gave McDonough his quietus was a terrific swing on the jaw. Ryan weighed 152½ and his opponent 168 pounds.

NEWS IN BRIEF.

The large tannery of W. R. Bennett & Co. in Stroudsburg, Pa., was destroyed by fire. Loss, $50,000; insurance, $32,000.

A tornado at Cologne on Sunday wrought serious damage. Many people were seriously injured.

Patrick Welsh, a farmer of North Stamford, Conn., was thrown from his wagon, owing to his horse running away, and died instantly from a broken neck.

Michael Cion, aged 33, a well known tobacco dealer of Hartford, was instantly killed in a runaway accident. He was thrown from his wagon, and his head struck heavily against a tree.

The officials of the geological survey are of the opinion that the Philippine islands may be rich in coal and petroleum deposits, and say that it is known that gold is to be found there. It has been decided to make an examination of the mineral deposits of the islands.

Argument was concluded yesterday in the district supreme court in Washington in the case of the Purcell Envelope company of Holyoke, Mass., against the postmaster general. Decision was withheld. Judge Cole stated just before the conclusion of argument that he was perfectly satisfied that the action of the postmaster general in ordering the contract cancelled was void.

DOLE TO BE A HOLDOVER

Will Continue to Serve Hawaii as Chief Executive.

No Change Is Contemplated Until Congress Acts.

Needless Disturbance of Governmental Functions Avoided.

Washington, Aug. 10.—President Sanford B. Dole is to continue to exercise the functions of chief executive of Hawaii until such time as congress shall receive the report of the commission appointed to devise a form of government for the islands and shall have enacted a statute for its government. There is to be no governor of Hawaii appointed by the president for an indefinite time, if at all.

PRESIDENT DOLE.

It has been stated that Dole was to be appointed governor, and that United States Minister Harold Sewall was to be named for the place. The annexation act passed by the last congress provides that "until congress shall provide for the government of such islands all the civil, judicial and military powers exercised by the officers of the existing government in said islands shall be vested in such person or persons, and shall be exercised in such manner as the president of the United States shall direct; and the president shall have power to remove said officers and to fill the vacancies so occasioned." It is said at the state department that acting within the spirit of this section the president will continue in office the present officials of the Hawaiian government, regarding it as a needless disturbance of governmental functions there to make any changes in office until congress has provided for a permanent form of government for the islands.

Two New Rulings.

Washington, Aug. 10.—Information having reached the internal revenue bureau that express companies are shipping packages of money without affixing a revenue stamp thereto, the commissioner has made a ruling that money shall be regarded as "goods" for the purposes of the act, and therefore a stamp must be affixed to the bill of lading or other evidence of receipt given therefor.

The ruling heretofore made that "each bundle of newspapers having a different destination should have a different bill of lading and be stamped," is modified in view of opinions of senators and members of congress that such was not the intention of the law. Therefore, when the tax of 1 cent is paid on the general bundle each package which is taken therefrom and delivered at intermediate points does not require a separate receipt and stamp.

Day's News About the Hub.

Boston, Aug. 10.—As an habitual criminal, John A. McDonald was sentenced to 25 years in the state prison yesterday. After the sentence had been pronounced McDonald said "Thank you" in a pleasant tone to the court.

At the instance of the insurance commissioner, the attorney general has petitioned the supreme judicial court for an injunction and receivership against the Equitable Accident Insurance association of this city. The officers of the association have assented in advance to this disposition of the company, although they are not aware of the full grounds upon which the commissioner bases his action.

The down-town section of this city, or practically the section north of Dover street, had a singular experience last night until a late hour through an accident at one of the generating stations of the Boston Electric Light company, were in total darkness, made all the more so by an overcast sky. The police exercised vigilance and no serious mishaps, or molestations to pedestrians were reported.

Sentenced to Be Hanged.

Ossipee, N. H., Aug. 10.—Dr. John Ralph Hatch of this place has been sentenced to be hanged on Aug. 11, 1899, in the state prison at Concord. The crime for which he was convicted was the murder of his wife, Sept. 11, 1897, by poisoning.

The condemned man appeared indifferent while hearing the sentence, and hardly changed expression when it was finished. On the adjournment of the court, Hatch was taken to the hotel across the street and sat in the office until the preliminaries for his commitment to the county jail were concluded. He said that he was glad the suspense was over, for while he knew what the result would be on the verdict found, the anticipation of the ordeal had worn upon him.

FLAG RAISING.

Co. K Boys and Mayor Sears Will Assist.

The South Quincy Social Club has planned for a grand flag raising this evening. Last night they erected a tall flag pole near their headquarters and a beautiful flag has been secured. The City Band will give a band concert, and Mayor Sears, ex-Councilmen Bigelow and others will speak from a platform which has been erected.

Six of the members of Co. K are members of the South Quincy Social Club, and they obtained a furlough this morning, so that they will be present this evening. These soldiers are David G. Smith, J. L. Piravano, L. J. Savoie, M. M. Clark, W. A. Malcolm and A. F. Capaccioli. These boys will doubtless receive a warm welcome from members of the club and friends. The weather is threatening but it may clear before 7.30, the hour for the band concert.

Milton Woman's Club.

The regular meeting of the Milton Woman's club was held on the afternoon of August 6. This meeting took the form of a field excursion to the top of Great Blue Hill. The members with their friends, making in all a party of about fifty, drove to the foot of the hill where they dismounted and walked to the summit. Then the party were much entertained in seeing the arrangements, and details for the kite flying all of which were explained by Mr. Ferguson who is in charge.

When the top was reached there were five kites out the furtherest one being at the end of five miles of wire and at a height of two miles sea level.

Among other things the club was shown the instruments which are attached to the kite which is fartherest away and records the humidity, temperature, velocity of the wind and its own lattitude. After this was enjoyed the fine view spread out in every direction and finally at the end, of about two hours' stay, the club returned home, having had a very delightful excursion.

EN ROUTE SANTIAGO.

Interesting Letter from Lieut. Sprague of This City.

A batch of very interesting letters were received this morning by Mrs. Henry W. Sprague of Maple place from her husband, Henry W. Sprague, who is Lieutenant of the Signal corps mustered in Boston. The Ledger reported his arrival at Tampa, Fla., in July, and the letter which follows was written en route to Santiago. Other letters will follow and will be descriptive of Santiago and vicinity. The last letter reports Lieut. Sprague well but detained at quarantine at Tampa.

Shortly after I mailed my letter to you on Saturday July 23, we finished loading and sailed out of Tampa. The boat we are on was formerly called the Port Victor (she still is called that,) but is now Transport No. 2, Quartermaster Department, U. S. A. She is frequently spoken of as the Port Victor. She is almost as long as Maple Place (say about two-thirds,) and is laden with fresh meat, etc., for the troops at Santiago. She can travel from 12 to 14 knots per hour, but as she has a condenser for keeping the meat cool, the steam required to run the condenser reduces her speed to about 10 knots.

Beside the Massachusetts Signal Corps there are thirty-four immune nurses (ones who have had the yellow fever,) also a major on General Miles' staff, a surgeon who goes direct to General Shafter, a lieutenant in the 3d U. S. Cavalry, seven doctors who are specialists in yellow fever and southern complaints, one of whom is a Cuban and speaks no English. There are also 5,000 tons of Red Cross supplies with forty mules and wagons, and our own supplies with twelve mules and wagons.

The officers are somewhat crowded, as we have only four state rooms capable of accommodating three each, but as the state rooms are hot and the deck is cool with a fine awning, I have followed the example of most the others and spread out my cot on the deck and slept there.

I had a raging headache Saturday about the time we sailed and had to go to the doctor who said I had vaccine fever. Well, I had rather an unpleasant time for a spell and slept nearly all the time, until Sunday night, but since then have been all right, and am on hand at every meal. I am the only officer in the Massachusetts Company who is, as they all are sick and lying down or asleep all the time.

It took us all day Saturday before we got out of Tampa Bay and into the ocean. Since then we have sighted land twice, once on Monday and again yesterday. I had hoped that we would go in rather close to the shore, as you know I never was very fond of the water, but after yesterday's experience which I will relate further on, the further out to sea they went the better I liked it.

The sea has been remarkably smooth to what I expected. Up to Monday morning you could hardly detect any motion to the boat, but quite early in the morning we entered the Carribean Sea over which a strong east wind continually blows. It is not a cold wind such as we have at home, as you can see when I say that we strip down to our undershirts and pants (and on a boat at that) and even then are warm if we have any work to do.

The boat with rare exceptions has pitched steadily ever since. At first I felt a little dizzy but it wore off and I look after the company while the others are sick. Lots of the boys are sick and are only hoping for the time to come to land I must confess that now I am used to it I rather like it and shall be sorry to land; of course it is rather monotonous not seeing anything but water but even that is a great improvement over Tampa.

Yesterday just as I sat down to write to you I saw in the distance the first waterspout. It looked very much as you see them in pictures. Within a few minutes two more formed and we were glad we were not very near them. Showers, etc., kept forming all around us, this being the cyclone season here, and finally we ran into a small cyclone. Well the way we picked up our traps and the crew pulled in the canvas awnings was a caution. It blew and rained like everything for a few moments and then we passed through it without getting the full blunt of it and as far as I can judge the water was not much rougher.

(To be continued tomorrow.)

TODAY'S COURT.

Horace Notingham was arraigned for being an unlicensed victualler at Weymouth. Case continued until Aug. 20.

Joseph Medlin was arraigned for assault on James McVey, Jr., at Quincy. Case continued until Saturday.

The continued case of Martin T. Mullen for being an idle person at Randolph was called and he was defaulted.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

FIFTH AS ESCORT.

Will March at the Funeral of Col. Bogan.

Camp Dalton,
Wednesday, Aug. 10.

The weather in camp yesterday was fair. It looked like rain in the early morning, but the sun cleared its way through. The men were rather stiff and sore from their march of the day before but after an hour or so were themselves again.

There have been a few changes in camp brought about by the condemning of several article used by the men. The old gun rack and clothes hangers were not allowed to be put in when the tents were put in place Monday night.

A strip of board was nailed across the rear pole of the tent instead. The guns are hung on nails by the stacking swivel and in some respects it is a better idea as they take less room. But for the extra clothing there is little space. In some companies they are obliged to roll their blue suits in their packs when not in use, but as this wrinkles and damages the articles it will probaly not be done in Co. K. A crumpled up uniform does not make a very good appearance.

A new drill on which the regiment has worked for a few days was given in the morning. It is the forming of an advance guard on the protection of a marching column. Small parties are deployed forward and obliquely to the right and left of the main body with the men stationed at regular intervals to transmit orders and to sound alarms. This drill is quite interesting and the men go into it with a vim.

In the afternoon battalion drills were given. Several difficult movement were gone through and a person seeing the Fifth at drill would have no doubt of its proficiency. A member of the Sixth visiting Camp last week, declared the Fifth was the best drilled volunteer regiment he had seen anywhere and that is saying a great deal.

The members of Co. K are anxiously waiting the paymaster and he cannot come a bit too soon. He is expected some time next week.

Dame Rumor is again visiting among the companies. This time it is for a camp near the centre of Pennsylvania. This will probably prove as false as the past ones.

The death of Col. Bogan of the Ninth will probably bring the regiment to Boston on Friday as a Colonel's rank entitles him to an escort of a full regiment at his funeral. Col. Whitney was busy yesterday making arrangements to attend.

Col. Bogan began his military career in the Fifth Massachusetts, enlisting July 7, 1866, in Co. D. He became captain in 1872, so that he was well known to many in this regiment. Col. Whitney was a personal friend. At a meeting of the officers Tuesday a committee consisting of Capt. Stover of Charlestown, Capt. Kincaide of Quuicy and Capt. Facey of Cambridge was appointed to draft a set of resolutions. It was voted that a floral emblem, of the Fifth Regiment, be sent at once to the home of Col. Bogan.

Co. K street has been very quiet for the last few days. The novelty of the situation has fallen off and the monotony of camp life and discipline has set in. Still the boys are quite happy. They are all anxious to get away somewhere.

Smooth faces seem to be the fad in K street. There are not over half a dozen bearded faces left. Lieut. Spear is the latest victim. In the opinion of a great many it is an improvement. He presents a very youthful appearance with his smooth upper lip.

Evidences of the company fund are frequent, especially at meal times. Capt. Kincaide has assured the men that no one in his company shall go hungry, but when Uncle Sam runs short the fund is to be drawn on. Several pair of shoes were purchased yesterday.

There is a detail of five men and a corporal sent to the shooting range every morning and afternoon for target practice. No one can say that the Fifth never fired a gun. Some good scores were made. MACK.

LATER.

A special from the Ledger correspondent, reports that six members of Co. K left this morning to attend the flag raising of the South Quincy Social Club this evening.

The Fifth takes another march this afternoon in light accoutrements.

At noon it was very cloudy, and looked like rain. MACK.

The Woman Of the Home

Does the purchasing for the family She reads the local paper religiously. Many in Quincy read only the Patriot, which has been a weekly visitor to their house for upwards of fifty years.

A DENVER LETTER.

A Quincy Man Writes of Attractions of Colorado.

Amos G. Bennett of this city who is in the State of Colorado for his health, writes an interesting letter concerning Denver, which he describes as an ideal residence and business city. In part he says: The city struck me at first as rather slow and quiet. But I got used to it and the wide streets furnish an explanation. Denver is roomy in its public highways and most of them are perfectly level and excellently asphalted. The business blocks are of remarkable size and solidity and impresss one greatly. They are not sky scrapers by any means—in fact, they rarely exceed seven or eight stories, and are so wide and large that this does not appear more than a due height.

But the building material is stone, generally in rough hewn, large blocks, and the style of architecture is massive. Hence despite many graces of ornament the effect is that of strength and solidity. Here and there a club like that of the Denver club on Seventeenth street unites beauty and unique character with massiveness, and then indeed the result is highly artistic. The city is full of banks and railroad offices and mining headquarters, and institutions for agricultural industries. The many offices give to some parts of the streets a leisurely and dignified aspect. But others are devoted to business, and enormous establishments and of all branches are housed there in stately and impressive buildings.

At City Park I passed one of the evenings with much pleasure. Behind and below lay the city sparkling with electrics under the full light of the moon. Further on stretched flat and endless the vast Colorado plain fenced in by mighty mountains. Around was the merry stir of many people, the sound of music, and the cooling breath of the breeze. For, whatever the day the Denver afternoon is always breezy, the Denver evening cool.

Another day I went to one of the great smelting works that convert the ore sent from the mines into precious metal. It was the Argo. I stumbled into the place where the ore is reduced to powder and gazed at the glistening chunks of rock before and after the process, and saw the pay dirt shoveled out. Then I asked my way to where ten immense ovens of brick receive the reduced ore and kept it astir with automatic shovels, while a constant fierce blaze of fire passed over and roasted it. Finally there were ovens where it was walled up with fire and melted down, and the metals separated from earth and rock, were eventually drawn off at the bottom in a white hot stream, gold, silver and copper all combined. How these are gotten apart I did not see, but was admitted into the refining room. Here lay frosted silver in heaps like shoveled snow, and as soft as wool. This is soaked out as sulphate of silver and then precipitated. I lifted several silver bricks. Then they gave me a gold brick, in shape like a square loaf of bread, and immensely heavy. It was worth about $22,000. I could lift it, but would not have carried it far. It looked good.

"The country all around is leafy and green and plentifully irrigated It is literally blossoming with market garden stuff. Far and wide stretch the truck farms with their tow[illegible] of irrigation streams brawling through the board-lined trenches. Fruit trees of small size are in abunance and between them sparkle the rills conducted from the trenches. The pastures are green and rich in alfalfa. One meets long lines of Lombardy poplars, which are set close, and form a verdant wall to keep out the wind, and these are sometimes on both sides of the fields, and prove very effective. After driving with the doctor for some miles over this farming country, which showed immense fields of strawberry and other small fruit, we reached the free, green, plain, treeless level and extending to the horizon—or rather to the mountain ranges that wall it out The occasional tree or little house is too insignificant to make a break, and one had an unimpeded view."

INSURANCE,
Durgin & Merrill's Block, Quincy

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

J. W. Pratt has sold one of his new houses on Independence avenue to Sarah M. Hart.

A shirt factory is in the Graham building recently occupied by the Hobart wrapper works on Washington street.

Temple street now looks natural again after the sewer work. The roller has been at work this morning leveling it.

The store recently occupied by the Trading stamp firm is to be used by the hotel for a lunch and billiard room and office at the Greenleaf.

Work has been commenced laying a large sewer pipe from Hancock street just south of Merrymount park across the field to the main brick sewer.

The funeral of Rev. Quincy Whitney who died at North Cambridge on Monday will be held Thursday at 9.30 A. M. at late residence 42 Mt. Pleasant street.

F. Craig & Co. are cutting a handsome all polished canopy urn monument. Beneath the canopy there is to be a large vase of roses all carved in granite.

The corner stone of the First United Presbyterian church building on Fort square will be laid Saturday at 3 P. M. An invitation is extended to all to witness the ceremonies.

The electric light pole that has stood in the street in front of the Bethany church and has been a menace to passing teams was moved today to the outside line of the sidewalk.

Lawrence Pratt a son of J. W. Pratt while riding a bicycle Tuesday morning was run into by a carriage at the corner of Savil street and his wheel smashed. He escaped unhurt.

A boy at Quincy Neck set a hen three weeks ago on four bantam eggs one duck egg and four leghorns. This morning he has four little black chickens but no bantums or ducks.

The Quincy & Boston street railway has created the office of Inspector and now has a man on duty all of the time in that capacity. His business is to be on the move all the time and see that the employes obey the rules.

It is not perhaps generally understood that the provisional military companies organized are only temporary organizations. Therefore within thirty days after Company K is mustered out of the United States service the Braintree provisional company will go out of existence and the present Co. K, U. S. V., will again become Co. K, M. V. M.

JOHN WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

MANICURE PARLORS.

MISS MARTHA J. BROOKS,
Pupil of Mme. May,

Has opened a Manicure Parlor for Ladies and Gentlemen at Room 5, Savings Bank Building.

Manicure, 50c.; Shampooing, 50c. and 75c.; Pedicure, Ladies, 50c.; Gentlemen, $1.00; Corns, 25c.; Bunions, 50c.; Ingrowing Nails, 50c.

Shampooing, 50c. and 75c.; Singeing, 50c.; Bangs Cut and Curled, 25c.; Waving and Curling Hair, 35c. and 50c. Moles and Warts removed safely and permanently, $1.00 each. Superfluous hair removed by Depilatory Facial Massage, $1.00, $1.25, $1.50.

Will go to residence by appointment. Agent for Mme. May's Toilet Articles.

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

GEO. W. JONES,

Adams Building, Quincy.

A Dining Room Set.....

A handsome Sideboard with German glass; a solid Oak Dining Table, beautifully carved; heavy Brace-arm Chairs to match the table and sideboard. Just furniture enough to make the daintiest dining room imaginable,—and the price? Only . . .

$25.00.

Who would be without one?

HENRY L. KINCAIDE & CO.,
House Furnishers,
Hancock Street, - Quincy, Mass.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

PEACE PROTOCOL.

Agreement Reported This Afternoon at Washington.

Washington, Aug. 10.—The reply of Spain to the peace proposition is not quite satisfactory and as a result the French ambassador had an interview this morning with Secretary Day and later with President McKinley. The subject of the meeting was several conditions made by Spain.

A definite result is not looked for before late tonight or possibly tomorrow. The points of difference are not made known as the authorities refuse to give the public the answer in full.

Later. 1.30 P. M. An ageeement is said to have been reached embodying the terms of peace protocol.

Not Made Public

Washington, Aug. 10.—President is considering Spain's answer to the peace proposition, but refuses to make it public.

DIED IN SERVICE.

A Quincy Boy in Assault on Santiago Passes Away.

Private Charles E. W. Rinn was mustered out of service by death on Monday afternoon, August 8, 1898. He was born in New York city, August, 6, 1877, but lived nearly all of his young life in Quincy, graduating from the Atlantic school.

In August, 1897, he enlisted as private in Troop H, 3d Cavalry, and he was at the assault before Santiago. Dysentery and lack of food followed, and a week ago he was brought to New York in the Leona. His mother went

directly to him, but he was so weak he could scarcely whisper. On Monday in the New Brighton Infirmary, he gently passed away and his native state will shelter his weary body, while Quincy can claim the manly sacrifice of his brave young life.

His father, Councilman Louis Rinn, died almost in the discharge of duty, being taken in a carriage, just before he died, to City Hall to vote upon some impending measure. Three brother, two sisters and his widowed mother survive him at Atlantic.

Most Pitiful Sight.

Santiago, Aug. 10.—The St. Louis arrived yesterday morning, but owing to her great length she was unable to enter the harbor. The Ninth and Tenth infantry were lightered out to her this morning, and she left this afternoon with both regiments.

The shipment of troops, American and Spanish, is being pushed with the great est activity. The embarkation of the sick Spaniards on the Alicante was a most pitiful sight. They were brought from the hospitals on stretchers, in wagons, and upon the backs of their comrades, often scarcely stronger than the sick men they bore. The wharves were lined with officers and soldiers, who supported or carried their wives and daughters. The American wagons and ambulances brought cartloads of miserable, colorless skeletons. It was a heart-rendering spectacle. The steam lighters were literally covered with the stretchers and litters, and the sick and dying presented a ghastly scene. The embarkation was partly effected in the midst of a drenching rain.

Inhuman Treatment of Soldiers.

Boston, Aug. 10.—Rev. L. M. Powers pastor of the First Universalist church of Somerville, returns from Santiago with a firm conviction that only an immediate removal of the army to the north will save the lives of half the United States troops. "The appearance of the Second Massachusetts was a shocking revelation," he said. "Men and officers had been for 30 days without a change of clothing, without tents and without blankets. Most of the time they had only a tomato can to cook in. Nearly all the men had lost from 20 to 30 pounds in weight. The condition of the sick was what stirred me most. Nearly 200 were on the sick list, those unable to sit up lying on the ground without any adequate care. The condition of the Ninth I found to be almost as bad as the Second. The superior officers were nearly all incapacitated for service. I visited the regulars and the rough riders, and in camp after camp I found from one-fourth to one-third of the men on the sick list, and in no place hospitals or medicine or proper food."

Had Been Occupied by Americans.

Madrid, Aug. 10.—An official dispatch from San Juan has been received by the minister of war, saying that a Spanish force under Colonel Pinte has entered the town of Fajardo, previously occupied by the Americans, who, on retiring, took their flag with them. According to the same dispatch a force of insurgents attempted to surprise the Spanish outposts at Arecibe, on the north coast of Porto Rico, but were repulsed, several insurgents being taken prisoners.

SETBACK FOR LEADERS.

Lost the First of Their Home Games to the Bostons.

Cincinnati, Aug. 10.—The Cincinnatis struck a snag Tuesday in their progress pennantward, and struck it good and hard. The obstacle in question was Pitcher Nichols. Nichols let them down with five scattered hits and no run.

Not a red leg touched second base. The five that reached first hit the ball, as Nichols did not give a single base on balls. Nichols' support was errorless, strictly of the championship order. The Cincinnatis fielded fairly well, but not quite up to their standard. Elmer Smith was forced out of the game in the fourth inning by a bad leg, Woods taking his place. This leaves the outfield in bad condition, with only one regular in it. Score:

Cincinnatis.	AB	R	1B	PO	A	E

First base on balls—By Hawley, 2. Hit by pitched ball—By Hawley, 2. Struck out—By Hawley, 1; by Nichols, 2. Time—2 hours. Umpires—Gaffney and Brown.

The St. Louis club will be sold at auction Sept. 1. The club and its assets will be sold to the highest bidder to pay creditors. Von Der Ahe has preferred claims amounting to $87,000, and it is said that he will buy the club.

The Providences batted Gray of the Buffaloes all over the lot and won with ridiculous ease. Evans was invincible. Score: 11 to 1.

Robbery on a Liner.

New York, Aug. 10.—Further evidence of the conspiracy among some of the officers of the White Star liner, Britannic, to steal and smuggle was reported to Chief of Police Murphy of Jersey City yesterday. A detective visited the steamer and searched the rooms of Third Officer Knyaston, who is under arrest, and First Officer Jago, who disappeared after the arrest of Knyaston. He found in Jago's room three receipts for registered packages mailed in New York. These packages, it is stated, were sent by Jago to London on the steamer Etruria and are due in London Friday. The London postal authorities have been told to hold the packages.

Chief Murphy has learned that the lace, which it is said the accused tried to smuggle from the Britannic to the dock, was part of the cargo of the vessel, and that the shippers were not in the plot to defraud the government. The British representative in New York will be asked to take action against Knyaston and the others accused of rifling the mails on the ocean. As the White Star line is a British corporation and as English mail was opened, the British authorities have jurisdiction in the matter.

The bonds found in the possession of Knyaston were identified by F. R. Sparks of this city as part of a number forwarded to him by George Page of London.

Fire Today In Boston.

Boston, Aug. 10.—A fire on Merchants row within a short distance of historic Faneuil hall at an early hour this morning caused a loss of $25,000, while in subduing it several firemen were overcome by the sulphur fumes, and others badly injured by falling glass and slate. The principal losers were B. O. & G. C. Wilson, chemical druggists, who occupied the top floor, while Hovey & Co., seed dealers, suffered heavily from water.

The fire started in a small restaurant of Jones & Marshall on the street floor, and the flames shot straight to the roof, through an air shaft, leaving the restaurant comparatively uninjured. The fire baffled the department for nearly an hour, as it came through a portion of the roof that was difficult to reach. Three alarms were rung in, and with the city's two horseless engines a fierce attack was made from all sides.

The top floors being filled with chemicals and sulphur, the smoke was stifling and seven men were overcome, reviving after being taken to the street. Three other firemen while on the ladders received ugly gashes from falling glass and slate and had to be removed to the hospital. The fire was under control within an hour and a half.

Tomorrow's Almanac and Forecast.

Sun rises—4:47; sets, 6:51.
Moon rises—12:04 night.
High tide—6:30 a. m.; 7 p. m.

While it will probably continue partly cloudy to cloudy Thursday over New England, there is little promise of rain more than scattered showers; while the temperature is not likely to rise but little above 80 degrees at the highest, the humidity will probably cause it to continue oppressive, with light variable winds.

COLUMBIA FLOATED.

W. W. Dunn Writes Home From Porto Rico.

U. S. S. Cincinnati,
Port Ponce, Porto Rico,
July 31, 1898.

The cities of Ponce and Playa surrendered to Commander Davis July 28, at 12.50 A. M., without any resistence, and the American flag was hoisted over the city at 6 A. M.

The Spanish garrison of 400 evacuated according to Provisional Articles of Surrender.

The Massachusetts with the Cincinnati, Generals Miles and Wilson, and their transports arrived at 6.40 A. M, on the 28th.

The captured lighters were put along side the transports by the Gloucester, and with the assistance of the launches and boats of the fleet, the troops were landed.

The inhabitants welcomed our forces with great enthusiasm.

Captain Chester of the Cincinnati was appointed captain of the port to supervise the operation of landing the troops.

A quarantine was established and measures were taken to relight the lighthouses at Cardona and Caja de Minetos Islands.

Two transports arrived on the 29th. There were about 3500 troops ashore, the force consists of the 3d and 4th Wisconsin and the 16th Pennsylvania volunteers.

Lieut. Hoogerwerff of the Cincinnati is beach master and the landing of stores is progressing well.

The shipping captured consisted of 16 sailing vessels, (3 being Spanish brigantines,) 60 sugar lighters, and 70 tons of coal.

The army is in possession of the English cable but as the enemy destroyed all the instruments it can not be worked until new ones are got.

The army advanced from Guana as far as Yanco about four miles from Guana. Very feeble resistance was made by the Spanish. Our loss was four wounded.

Saturday evening the Columbia on entering the harbor, ran aground near the lighthouse. The Cincinnati and Gloucester at once went to her assistance. We worked all night trying to move her but failed. We broke five or six eight-inch hawsers during the night.

Sunday morning the Massachusetts took hold of her but we could not do anything as the lines parted as soon as we would start. At 11.30 the Cincinnati, Massachusetts, transport City of Macon and paper tugs Cynthia and Hancock tried it and the hawsers again gave way. Everything was fixed again and the Cincinnati and Massachusetts started with her and finally got her off. The crews of the Cincinnati, Massachusetts, Columbia, Gloucester and others gave three cheers when they saw we got her off. I should think the St. Louis coming into the harbor must have thought we had captured a Spanish prize.

We do not know whether the Columbia is damaged much yet, but divers from the ship will go down in the morning to investigate. We do not think she is damaged a great deal as it was a sandy bottom she was on.

St. Louis arrived this evening, July 29 at 7 o'clock.

The troops ashore and men on ships are mostly all in good health. Very little fever reported.

Hope you and all the boys are well.

W. W. DUNN.

Address: U. S. S. Cincinnati, Key West, Florida.

New President.

The Granite Manufacturers' Association of Quincy at its annual meeting on Tuesday elected these officers:

President,—Alexander Marnock.
Vice President,—Harry Nicoll.
Treasurer,—Walter R. Fegan.
Secretary,—T. J. Dunphy.

Executive Committee,—President, Vice President and Treasurer ex-officiis, William Deacon, James N. White, Tobias H. Burke, William T. Spargo, George McFarlane, P. T. Fitzgerald.

Figuring Committee,—James McGillvray, Thomas McDonnell, Thomas F. Burke.

Membership Committee,—Thomas W. Smith, Jonn A. McDonnell, P. W. Driscoll, Robert Mavers, Fred Barnicoat.

We will be pleased to mail the Daily Ledger to your vacation address.

EXTRA!

MURDER---LYNCHING.

Also a Suicide in Connection Therewith.

Little Rock, Ark., Aug. 10—This place is considerably stirred up over the murder of John P. Our. Tuesday five negroes—three men and two women—and Mrs. Our, were arrested for the murder and the coroner's jury found that the negroes had been hired by Mrs. Our to murder her husband. The negroes were taken from jail and lynched and Mrs. Our committed suicide, thus ending the tragedy.

WEYMOUTH.

Little Items of Interest About Town.

Miss Ida Lovell of East Weymouth has been the guest of friends at Provincetown during the past week.

Master Arther Wolf of North Weymouth is the guest of his aunt, Mrs. Chas. R. Maybury of Neponset this week.

The dwelling house of Mr. I. I. Randall, Jr., of East Weymouth is rapidly nearing completion.

Miss Stella Lovell of East Weymouth is seriously ill with tyhoid fever.

Today the Sunday Schools of the Third Universalist and Pilgrim churches of North Weymouth are holding their annual union picnic at Nantasket. Special cars were run for the party.

Mrs. J. A. Roarity of Brockton is visiting old acquaintances at East Weymouth.

Miss Louisa M. Humphrey of Weymouth Heights is entertaining as her guests this week, Miss Aura Hamilton, a former teacher at the Weymouth North High School now a member of the staff at Pennsylvania College for girls at Philadelphia.

Miss Humphrey entertained the members of classes '96 and '97 of the High School Tuesday evenng at her home at the Heights. Miss Hamilton being the guest of honor. Former friendships were renewed and the evening was pleasantly passed socially and the old class songs having been sung the company departed at 10 o'clock for their homes, having enjoyed a most happy reunion.

North Weymouth is suffering from a diphtheria scare. A number of cases have appeared with several deaths.

Miss Clara Graves of North Weymouth is the guest of old friends at Salem.

The Sunday School Old North church, Weymouth Height, hold their annual outing today at Highland Park.

The Reynolds Relief Corps held a meeting in G. A. R. hall, Tuesday afternoon. An excellent entertainment was given in the evening under the direction of Mrs. Andrew Culley of North Weymouth for the benefit of an emergency fund to assist soldiers or sailors or their families in the present war.

Mr. and Mrs. George French and son are the guests of Mrs. D. Ryan at Weymouth Centre.

Miss Maidie Stoddard of Weymouth Heights is enjoying a merited vacation.

The services at the Third Universalist church, North Weymouth, are suspended during the month of August. The Y. P. S. C. U. will hold its meetings as usual at 7 o'clock.

The Misses Grace and Lura Thompson of Hingham are the guests of Mr. and Mrs. G. H. Hunt of East Weymouth for a few days.

Board of Health Active.

The Board of Health has adopted heroic measures to stamp out and prevent the spread of typhoid fever, several cases of which were reported last week in one boarding house on Centre street. The well pump was taken out and the use of the well prohibited, the cesspool and vault were cleaned and the place otherwise made clean, and as no new cases have appeared it is believed that they have been successful. Besides these cases of typhoid fever, the board have had two light cases of diphtheria on Nelson street, and two cases of scarlet fever, one on Smith street and one on Arthur street. All of these cases were in light form and the patients are recovering, and the Board of Health have taken precautions to prevent the spread.

News From Porto Rico.

Ponce, Aug. 10.—General Miles will probably leave on the Adjuntas road in a day or two with a troop of the Second cavalry. The reports show that all is quiet. General Wilson's headquarter is at the Descalabrade river. General Wilson in person has made a reconnoissance within sight of the Spanish outposts entrenched a mile this side of Coamo, and he estimates that the Spaniards are 400 strong at that point.

—Bismark left a fortune of $7,000,000, but this is because he was a brewer as well as a statesman. The latter paid more extensively in glory than in gold.

WOMAN AND FASHION.

The Desire For Novelty In Bodices—Canvas Golf Vests—A Fancy Summer Hat.

The desire for novelty has resulted in many bodices curiously slashed or cut to show an underbodice of contrasting fabric. Our picture shows a combination of cashmere of a shade of green more nearly classed as sage than any other tone, with a fancy silk in which black scrolls almost cover a white ground. The skirt is of the cashmere made perfectly plain.

The bodice is of the cashmere cut out around the arm size in the back and in the front to give the effect of a shallow bolero of the silk. The edges of the cash-

A NOVEL BODICE.

mere are bound with black taffeta. The waist is slashed, being cut at the top and turned back to form revers. These and the V shaped opening are covered with white taffeta with motifs of black lace applique.

A belt of the fancy silk is pointed at the top, both back and front, where the waist is gathered. The underbodice fastens in the center front, the overwaist of the cashmere fastening at the shoulder and underarm.

The sleeves are of the fancy silk. The hat is black and white.—Brooklyn Citizen.

Canvas Golf Vests.

According to the Philadelphia Inquirer, piazza girls at Bryn Mawr and Wissahickon, and later at Cape May and Bar Harbor, are making their summer canvas work golf vests for pet brothers or favored swains. It is an English fancy and by no means inexpensive. The worsteds cost several dollars and the amount of work on one is considerable. There are several stitches employed, a Russian cross stitch being the most popular. The imported ones show a backing of yellow, but that, here and now, is entirely tabooed, because for golf it goes without saying—the main color is red. The effect is considered undeniably stunning. If you want to spare yourself trouble, you can get them through the Woman's Exchange, but they cost $14, and there is no doubt that the favored recipient appreciates the gift far more when he has seen it growing through long, lazy mornings, under his lady's fair fingers. They have to be sent to the tailor to be made up, with satin linings and back, which costs another $10; but they are effective enough to fully warrant the expense, and there is no danger of their becoming common.

Fancy Summer Hat.

Of the many newly designed hats destined for wear during the height of the summer season, one of the most attractive is shown in the picture. The body of the hat is of black chipped straw. The brim is round and flat, and the

ONE OF THE NEW ONES.

crown is of medium proportions. The trimming consists of a light drapery of maize taffeta, the loops and ends edged with a ruching of black gauze. The hat is further trimmed at the left side and near the back with several black plumes and tall black aigrets.—New York Telegram.

Fad of the Hour.

Among the fads that catch the public taste is the one of buttoning the lowest button of the coat and leaving the rest unbuttoned. This gives the proper look to the figure and prevents the fullness of the gown from being crushed. Another is the dotted green chiffon veil. This is worn pinned around the hat, the two lower ends loose and flying.

The English Smart Set.

To what a condition has "smart society" fallen! Any one may become a leading light in it, provided that he or she is ready to pay the footing. He or she can at any moment find a person to bid guests to their feasts and any number of guests, guaranteed to be "smart people," will accept the invitations. A year or two ago an American lady intent on fashion took a large house, and an introducer sent out her invitations. At her first party there were many of her own friends present. The introducer explained to her that the right set of people would not come if they were exposed to this promiscuity with those who were not in it. Finally it was agreed that the hostess might invite ten friends to each party, but not more.

What I have never understood is where the pleasure comes in of going to several parties the same evening. Yet there are many apparently sane persons who do this every evening during the season. At each party they probably have to wait at least half an hour before getting out of their carriage and getting back into it when they want to go away. They struggle up stairs, show themselves, stay perhaps half an hour and then hurry off to the next party. Why they should like this mode of spending their evenings no on except themselves can imagine. There is no costermonger's donkey so overworked as a woman bent on society.—London Truth.

Sung Them to Liberty.

In Marchesi and Music, the famous singing teacher tells this anecdote to illustrate the nobility of heart of a Russian woman, one of her pupils, and a native of Nijni-Novgorod, where the great fair is held every year.

Mlle. Nadine Boulitchoff created a great sensation with her beautiful voice and dramatic power, at Moscow, St. Petersburg and Madrid. In the summer of 1880 she sang at Rio Janeiro. Brazil was then the entrepot for the cruel slave trade. At her benefit, Nadine learned that she was to be presented with valuable gifts. She begged that the money, instead of being spent on her, should be used to buy the liberty of several female slaves.

Her deed of charity released seven poor slaves, one of whom had been recently whipped in public by order of her mistress.

On the benefit night, after Nadine had sung, the seven negresses went upon the stage to thank the artiste for their freedom. The crowded house applauded for several minutes; the national hymn was played; the emperor, Dom Pedro, rose, and with him the whole audience, and the songstress knew a moment of thrilling joy such as seldom comes to women.

Usually the Case.

There was once a poor boy who while walking along saw a pin on the pavement before him. Quickly the little lad staid his steps and picking up the pin stuck it carefully and securely in his coat.

A rich man chancing to pass at that time saw the action, and was much impressed by it, so much so that he took the boy into his bank and finally adopted him.

Thirty years have passed and the erstwhile poor boy is a South African millionaire. The other day he drew a check for £2,000 and gave it to a former schoolmate who had not prospered in the race of life.

"All that I am now I owe to you, John," said the millionaire.

"But I don't understand," stammered the beneficiary.

"Simple enough. If I hadn't hated you so at school, I should never have picked up that pin to put on your seat."—Pearson's Weekly.

Wanted—A Patent.

Among the strange applications which reach the patent office one, filed some years ago, was most extraordinary, it being a petition for a patent for an ant guard which consisted in merely drawing a chalk mark around a table or other place by which it was claimed the approach of ants was stopped. It seems that chalk makes an ant's legs slip as soaping a track prevents a railway engine from starting. The petition was novel and caused considerable amusement. The application, however, was refused on the ground that there was nothing new in the invention, that chalk had been used for such purposes before and that such ideas were not patentable.

A Welsh Name.

A correspondent of a London paper says:

"I met recently with a translation into English of the name of the village in Anglesey which boasts the longest name in the United Kingdom. I send you a copy below, thinking it may interest your readers: 'Llan-fair-pwll-gwyn-gyll-goger-y-Church | Mary | a hollow | white | hazel | near to | the chwyrn-drobwll-Llan-Disilio-gogogoch rapid | whirlpool | church | (saint's name) | cave | red'—that is, the Church of St. Mary in a hollow of white hazel near to the rapid whirlpool, and to St. Disilio church near to a red cave."

A Peculiar Paper.

The Ostrich, an English paper that aims to say nothing disagreeable in speaking of a building that burns down in which out of 400 persons 277 perish, does not mention them, but says, "Not less than 123 were saved." Very sad news is printed in the smallest type, so the experienced reader is warned. No unpleasant details are given. After a mere statement the paragraph ends with "Continuation on page 13." There is no thirteenth page.

A Matter of Fees.

Blunders In Songs and Programmes.

I suppose all composers have had a laugh over the extraordinary mistakes which sometimes occur in the first proofs of their songs. I remember, years ago, writing a very sentimental love song in which the line occurred:

I've never once regretted the vow I made that day.

My feelings may be imagined when I found they had printed

I've never once regretted the row I made that day.

And once the following amusing mistake occurred in the programme of one of my own concerts. A well known singer and very good friend of mine was down to sing my two songs, "To Mary" and "Crabbed Age and Youth." But the newspaper announced something very different. Not content with drawing up a programme of my concert, it drew up a programme of my future, for I read as follows:

Mr. Blank
To Marry Maude Valerie White.
Crabbed Age and Youth.

—Cornhill Magazine.

Credulous.

Gobang—Unless you keep your dog still at night I shall complain to the authorities.

Ukerdek—How do you know he barks?

Gobang—Thunderation! I hear him.

Ukerdek—Are you one of those blamed fools who believes everything he hears?—Vim.

War News.

Mrs. Wallace—What do they want to cut all those cables for?

Mr. Wallace—Don't you understand? As soon as the cables that hold the island are all cut it can be towed over against the United States and fastened on to Florida.—Cincinnati Enquirer.

Organizing a Polo League.

New Haven, Aug. 10.—A conference between representatives of the National Polo league and the Southern New England league was held yesterday afternoon, which it is believed will result in the formation of an eight-club circuit to include Providence, Springfield, Hartford, New Haven, Bridgeport, Waterbury and New Britain.

Monday morning a mob tried to rescue three teamsters of the regular army incarcerated in the Tampa jail. An armed guard ordered the rioters to desist, but the mob opened fire on the jail. A volley was poured into the crowd from the upper story of the building, and several shots took effect. The raid was unsuccessful.

An invitation has been sent to Lord Herschell, former lord chancellor of England, to attend the meeting of the American Bar association in Saratoga Aug. 17. He is one of the members of the commission which meets next week to adjust all matters in dispute between the United States and Canada. Lord Aberdeen, governor general of Canada, has also been invited to attend the meeting.

DESPERATE FIGHTING.

Spanish Make Assault on American Trenches In Malate.

Pennsylvania Companies In Great Peril.

Enemy Forced to Retreat, With Many Killed and Woundod.

Hong Kong, Aug. 11.—Dispatches from Cavite under date of Aug. 5 report that Manila was then "still Spanish." The dispatch says: At 11:30 p. m. on Sunday 3000 Spaniards attacked the American camp near Malate, assaulting the trenches occupied by the Tenth Pennsylvania regiment, battery K, and battery A, Utah, and two other companies of Pennsylvania troops. They charged the Americans' right and nearly succeeded in cutting off the Pennsylvania companies; but the Americans rallied and repulsed the Spaniards after desperate fighting, the Americans' fire breaking the Spanish center. The Spaniards charged again, but were forced to retreat to the jungle, where they kept up a heavy fire on one of the roads leading to the American trenches in order to prevent reinforcements from arriving.

A California regiment and a Utah battery went to the rescue through a withering fire, and never wavered, although several were wounded and Captain Richter was killed. The Spaniards charged several times, but they were met by a steady fire from the infantry and by shrapnel from the Utah battery, so that eventually they retreated to Malate fort, with a loss, it is said, of 300 killed and 1000 wounded, though the report is probably exaggerated. The insurgents rendered no assistance, but retreated on the first shot. It is believed that General Aguinaldo, aware of the Spanish intentions, moved his men away.

Although the engagement scarcely attained the importance of a battle, it thoroughly tested the quality of the United States troops, and had an excellent effect, stimulating their zeal and enthusiasm, and inspiring them with confidence. The Spaniards, whose losses in the engagement are not known, are adopting tactics intended to irritate the Americans. Every night they maintain an annoying fire. They have now got the true range of the earthworks, and their shells and shrapnel fire are very accurate.

On Aug. 1 the Spaniards made two weak attacks, but were easily repulsed. On Aug. 2 they made another attack, when one man was killed and 11 were wounded. On the 3rd there was a cannonade all day. The electric lights are extinguished in Manila at night. The Americans, though under arms, do not attack the city. The Spanish loss in the minor attacks is not known.

While I was in camp information was received that the California volunteers engaged in felling timber had been arrested by the insurgents. Colonel Smith ordered out an armed detachment, which released the prisoners and brought the insurgents into Camp Dewey. General Greene notified Aguinaldo that if the Americans were further molested he would disarm all the Fillipinos.

There are many new cases of typhoid fever and measles. During a sudden storm the City of Para drifted under the guns of Manila. The Charleston rescued her and towed her to a safe anchorage.

The British vice consul, supported by the French consul, who is the dean of the foreign representatives here, took the initiative in unofficial "feelers" looking to an armistice pending peace; but the Americans are not authorized to accept anything except surrender, and the Spaniards will never surrender. The latter hope to endure until peace is declared between Washington and Madrid. The hardships of the situation are chiefly pressing upon the natives and the foreigners, and not upon the Spaniards, because the bulk of the priests, the officials and the military can monopolize the food supplies; and though a quarter of a million of the population starve, the fact goes practically unheeded.

The 10,000 Spaniards in Manila are confident of their safety. They believe that the strong walls of the city will resist for three months; and they are resolved, regardless of the fate of women and children, finally to sell their lives dearly in wreaking their hatred upon the English, the Americans and the Filipinos. This correspondent has seen natives eating rats and mice; and it is reported that they are stealing food and murdering.

The scarcity of food now affects even the richest class in Manila. There is no meat, bread or flour, except very small reserves, chiefly laid under requisition for the Spanish troops. The newspapers, though rigidly censored, admit that the famine and the unprecedented rains are causing an epidemic. They pretend that the disorders are trivial, intestinal ailments, but believe most of them are dysentery, due to wretched food and the dangerous character of the water. A number of important persons are ill.

An abattoir has been established for slaughtering horses and dogs. The newspapers admit that the military bakers are reduced to the necessity of using rice, the stock of which will shortly be exhausted. The stock of fuel too is exhausted, and the bakers are burning doors and window frames. It is impossible to eat uncooked rice.

A decree has been issued authorizing the entry of private premises and the seizure of cattle and horses there for a nominal payment, made in practice in worthless drafts. Several animals belonging to British owners have been taken, though there are plenty belonging to Spanish owners that had not been seized. An attempt was made to seize the indispensable pony of the consular physician, and considerable indignation has been expressed. There may possibly be some trouble over it.

ROOSEVELT AND HIS DUDES.

Milwaukee Rough Rider Says They May Be Swells, but They Are Fighters.

"There is one thing Colonel Roosevelt did that we wounded men are not apt to forget in a hurry," said a Milwaukee rough rider recently. "When we were lying in the hospital at Siboney, he came to see us. He visited each soldier, and as he went he said, 'Boys, if there is a man in the United States who wouldn't be proud to exchange places with you he is not worth his salt, and he is not a true American.' And I tell you after one's commanding officer says that it makes the bullet wound smart less and gives you that lumpy feeling in the throat that comes sometimes when you are not sad.

"And I want to say a word about the dudes who are in the rough riders. They may be swells and dawdle about clubs and attend afternoon teas in New York, but they are fighters. And there is nothing of the aristocrat about them. They enlisted as privates, and one man is as good as another in the ranks as long as he behaves himself. Of course many of them have advantages that their money procures for them, but they are as generous as they are democratic. Previous to boarding the troopship a coterie of wealthy young fellows bought a lot of stuff that the commissary department does not furnish. Of course they were under no obligations to parcel it out among all the members of the troops, and they did not. But to the men they knew and those who were a bit under the weather they gave of their stores, and easily half of their stock was exhausted in that way. There is no foppery about them in the matter of uniforms. They wear the regulation clothes, and they look as slouchy and disreputable on them as they do on the toughened cowboy of the wild and woolly west."—New York World.

BISMARCK'S PHYSICIAN.

How the Famous Dr. Schweninger Became the Prince's Best Friend.

The late Prince Bismarck's physician, the famous Dr. Schweninger, was said to be the only man who had any real influence over Bismarck. For years the chancellor had been troubled with facial neuralgia, and after several specialists had tried in vain to cure him Count Herbert Bismarck suggested that Dr. Schweninger be consulted. His father assented, and the doctor came and straightway began to question and examine his patient. Unaccustomed to restraint of any kind, Bismarck could not contain himself under this ordeal and exclaimed impatiently: "Oh, have done with your long winded questions! I don't see their use, and they are tiring me to death."

"They tire you, eh?" said Schweninger coolly. "So you want me to cure you, and yet you won't take the trouble to answer my questions? It seems to me that you ought to have called in a veterinary surgeon, for these gentlemen cure their patients without asking them any questions."

Bismarck could hardly believe his ears. Clinching his fists, he rose from his chair and glared at Schweninger in speechless rage. Schweninger smiled imperturbably at him, and gradually the chancellor cooled, and finally he resumed his seat and said: "If you cannot cure me without all this formality, go ahead with your questions. It will certainly be a great relief to me if I find that your medical skill is on a par with your ability to make impertinent remarks." After that day this "impertinent" physician was Bismarck's best friend.—St. Louis Post-Dispatch.

ENGLAND'S FRIENDSHIP.

American Tourist Writes of His Experiences In Belfast and Other Cities.

In a letter from Belfast W. B. Boyd of New Brunswick, N. J., who is now traveling in Europe, tells of the strong pro-American sentiment which is manifested in the British isles. The letter is as follows:

"It was our privilege during our stay in Belfast to have an introduction to the mayor, Mr. William Henderson. His honor manifested a keen interest in American affairs and questioned us closely about many things, particularly as to the later phases of the war, a struggle in which Irishmen and Englishmen take the keenest interest.

"The sympathy of the people in Ireland and England anent the war is easy to gauge. It is overwhelmingly pro-American. In traveling the natives mark an American quickly, and if chance leads to a conversation they invariably hasten to express their sympathy with the American cause and bespeak for us an early and complete success. The feeling here for an Anglo-American alliance is strong—not that I have been interviewing the statesmen, but I mean among the men one meets in the shops, the trains and the public places. The enthusiasm which the average Englishman frankly professes for his American cousin is impressive and evidently sincere."—New York Sun.

Plums For Yellow Fever.

The Gulfport (Miss.) Southward respectfully informs The Forest Register and others of the state press who are congratulating themselves and the state board of health that a wonderful discovery in medical science was made at McHenry this summer, and that is nothing less than a new cure for yellow fever. A married lady living in McHenry during the epidemic of quarantine became unwell, the result of natural conditions. The physicians declared her case one of yellow fever and prescribed medicine. The lady was yearning for plums. Relatives sent four miles in the country and secured a supply, of which the lady ate, say, two quarts and in a couple of days was entirely well. She did not touch the doctor's medicine. The state board who so valiantly stamped out the fever at McHenry should make claim for the discovery of the plum cure.

DR. RALPH M. FOGG,

DENTIST.

Teeth extracted absolutely without pain by the use of the

"BOSTON VEGETABLE VAPOR."

It is claimed that, while it has the required properties of ether, chloroform, nitrous oxide gas, it lacks the disagreeable and dangerous qualities of these drugs. It is certainly a boon to suffering humanity to be relieved of the nausea too often following the administering of sedatives of the old school.—Boston Transcript.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

DOUBTFUL NO LONGER.

Only Flat Repudiation Will Prevent Peace.

French Ambassador Asked to Sign a Protocol.

Document Practically Embodies Old Terms.

Both Schley and Sampson Are to Be Made Rear Admirals.

Washington, Aug. 11.—The negotiations for peace advanced to a point yesterday where nothing but a flat repudiation by Spain of the action of the French ambassador can prevent an immediate suspension of the war. For the first time since peace was suggested, Mr. Cambon appeared at the state department prepared to act as the special envoy of Spain, empowered with authority to act in her behalf. Hitherto he has been merely a messenger of good will, conveying the communications between the two governments and explaining to each as best he could the attitude of the other. Wednesday he presented credentials authorizing him to act for Spain, and with this authority he proceeded to examine closely the draft of a protocol which Secretary Day presented, embodying the terms of peace, and assured the secretary that it was satisfactory and would receive his signature.

The meeting between the secretary and the ambassador, therefore, was by far the most important which has taken place. In giving his approval to the protocol the French ambassador morally binds the Spanish government, and, from a diplomatic point of view, it would be out of the question for Spain to go back on what he has done. He has not affixed his signature to the protocol, but he has done everything short of this, and has cabled to Madrid for confirmation of his action, which alone precedes the signing of the document. If, after his assurances, Spain should not allow the document to be completed, she would offer an affront to the French ambassador and through him to his government, which no nation would do.

In just how far the Spanish response failed of the full requirements of the administration is not known, for members of the cabinet and all others have been pledged to secrecy in all matters of detail. It is sufficient to know that it was evasive and quibbling, and that if the president had not seized it heroically and turned it to his own purpose, it might have been made the entering wedge for a diplomatic correspondence as fruitless as our previous negotiations with Spain.

There must be a delay—possibly from 24 to 48 hours—before the next step can be taken and the protocol made binding upon both the United States and Spain by the attachment of the signatures of the plenipotentiaries, Secretary Day for the United States and Mr. Cambon for Spain. The delay will be largely attributable to physical causes. The protocol is long; it must be translated and turned back and forth into code and simple language no less than five times before it reaches Madrid through the French foreign officers. This work was not begun until late Wednesday afternoon, after the best energies of Assistant Secretary Adee of the state department and Mr. Thiebaut, secretary of the French embassy, had been exerted in the preparation of two copies of the protocol, one in English and one in French. These were prepared very carefully, the idiomatic variance in the two languages necessitating the greatest caution in order that the essential character of the two copies should be preserved. The length of the protocol imposed a great amount of labor upon the cipher clerks, or whoever is charged with the work of rendering the original into cipher, so that altogether it is apparent that the consumption of time involved in purely mechanical functions will be so considerable as to make the rendition of a very early answer improbable.

Character of the Protocol.

As to the character of the protocol it can be stated on authority that the terms are in all practical points those set out in the abstract of the president's conditions, published from the White House a week ago. From this fact it is deduced that the extra conditions or qualifications sought to be imposed by the Spanish government were abandoned, at least in large part, by the French ambassador. This deduction is supported by the circumstances that in the early morning, and before the conference between Secretary Day and Mr. Cambon which resulted in the agreement, there was a prevalent impression, based upon the utterances of public men who had talked with the president, that the Spanish answer was unsatisfactory, and that the negotiations looked as if they might terminate suddenly. As this situation changed so suddenly after the conference, it may be fairly assumed that the ambassador abandoned the conditions which the president was reputed to have regarded as unsatisfactory.

It is believed the protocol carries within itself provisions for the cessation of hostilities. On this point the naval contingent is urgent that our government adopt the napoleonic policy of refusing to enter into an armistice without acquiring a substantial pledge to secure the consummation of peace. What they particularly desire is that our government shall demand as a condition of the cessation of hostilities the surrender to the United States military forces of Morro castle at the entrance of Havana harbor and points of vantage at other ports in the territory soon to fall under our control.

The naval officers have made up their minds that peace is at hand and are planning for a reduction of the naval establishment to a peace basis. The first step to be taken will be the retirement of the monitors from active service. They are uncomfortable craft to live in, and afford the men little opportunity for general training. Another matter that received attention is the promotions to be accorded officers who have distinguished themselves during the hostilities. A step was made in this direction yesterday by the submission to the president of recommendations by the secretary of the navy for the advancement of all of the officers of Sampson's fleet who distinguished themselves. It was announced sometime ago that a board would be appointed to decide on all promotions to be recommended, but for some reason this plan seems to have been abandoned so far as some of the chief officers were concerned.

To Seize Isle of Pines.

Even up to the last minute the administration continues offensive military operations. The battalion of marines at Guantanamo set sail yesterday for the Isle of Pines, with orders to seize and occupy it. This is the largest of the outlying islands belonging to Spain, and it has been used for years as a penal colony. It is an important base to secure, if for no other reason than because it has been used since the beginning of the war by Spain as a base for smuggling food and supplies to Blanco's beleagured forces in Havana.

Secretary of the Navy Long has recommended to President McKinley that Acting Rear Admiral Sampson and Commodore Schley be advanced to the rank of real admirals. Schley will be advanced six numbers and Sampson eight. This places both officers at the bottom of the list, Schley retaining seniority over Sampson. Congress will have to make provision for extra compensation before the officers can be raised in rank.

Thanks In Unstinted Measure.

Atlanta, Aug. 11.—Congressman Livingston of Georgia has received the following letter from Admiral Dewey:

"Flagship Olympia, off Cavite, Philippine Islands.

"My dear sir—I have just learned from the last papers that I am indebted to you for the introduction in the house of representatives of the resolution extending to me the thanks of congress for the naval engagement of Manila bay, May 1. I need hardly tell you that I am most sincerely grateful to you as the author of that resolution, bringing as it does the highest honor that can come to an American naval officer in his professional career; but it is a great pleasure to acknowledge my debt of gratitude and to thank you in unstinted measure for the part you took in obtaining for me that greatest distinction.

"It is a source of additional pleasure to me, a Vermonter, that the mover of the resolution was not a man from the north, but one from the far south. This is one of the good signs of the times. In the hour of danger there is no south, no north, but one united country. May we never hear of sectionalism again. There are no lines drawn in the navy. I need not say it may interest you to know that my flag lieutenant, Lieutenant Brumby, is a Georgian by birth and appointment."

Porto Rico Advices.

Coamo, Porto Rico, Aug. 11.—Troop C of New York pursued a party of fleeing Spanish engineers after the capture of Coamo a distance of four miles along the road to Aibonito. The Americans were checked at the Cuyon river, where the Spaniards had blown up the bridge and were shelled from a Spanish battery on the crest of Asoniante mountain. The dismounted cavalry returned the fire, receiving no damage and holding the position.

General Wilson's column is resting, repairing the bridge and reconnoitering the enemy's position. There is a formidable gorge on either side, and the Spanish works are on the crests of mountains commanding the road. The Spaniards have several guns mounted.

Interests of Religious Orders.

Paris, Aug. 11.—A Madrid correspondent, telegraphing from the Spanish capital, says: "The papal nuncio has had a long conference with Sagasta in behalf of the religious orders in the Philippines. Sagasta replied that the vatican had nothing to fear while the islands remained under the sovereignty of Spain, but he could not answer for the treatment of the religious orders in the territories occupied by the natives or Americans, and could not give any engagements for the future, as the fate of those communities depended on the outcome of the peace negotiations and the decisions of the commission which would be appointed to deal with the regime of the archipelago."

Good, If Credible.

Santiago, Aug. 11.—Lieutenant Colonel Jane, of General Calixto Garcia's staff, has just arrived from the front with dispatches announcing the occupation of Gibara on the north coast of the province of Santiago by General Garcia's troops. Gibara was evacuated by the Spaniards. They left 1000 sick and wounded who are being taken care of by the Cuban commander.

General Garcia, with 8000 troops, is besieging Holguin, now occupied by General Luque, whose surrender has been demanded.

LYNCHING IN ARKANSAS.

Three Men and a Woman Implicated In a Murder.

Clarendon, Ark., Aug. 11.—Two hundred residents of this town visited the county jail, seized four negroes who were implicated in the assassination of John T. Orr on the night of July 30, and hanged them to the tramway of the Halpern sawmill, which stands about 100 yards in the rear of the jail. The four hanged were Will Sanders, the one who fired the shot that killed Mr. Orr; Rilla Weaver, the mother of Sanders and cook in the Orr household; Dennis Record, the "hoodoo" doctor and conjurer, who tried to poison Orr with boiled snake heads, and Manse Castle, who volunteered to do the job and transferred it to Sanders. Rachael Morris, accused of being an accessory before the fact, and Susie Jacobs, a colored woman, accessory after the fact, have skipped out and their whereabouts are unknown to the officers. Had they been in jail they would have undoubtedly gone with the rest.

Mrs. Orr, wife of the murdered man, was in the corridor of the jail when the mob entered. She had taken poison with suicidal intentions, and Dr. P. E. Thomas, who was called to attend her, says she will die. The leaders of the mob examined Mrs. Orr critically, but passed her. Many of the mob favored taking her with the rest. Her death seems to be but a matter of a few hours. If she recovers it is stated that the mob will hang her.

After the arrest of Mrs. Orr and the negroes, Mrs. Orr made a confession. She admitted that she had said to her cook that she wished her husband was dead and that she would give $200 to anybody to kill him. But she said that this was uttered while in a fit of anger and that she was innocent of any criminal intention. Her husband abused her, she said, and once he struck her, and she being of high temper herself, sometimes said things in anger that she did not mean.

John Orr was several years ago a theatrical man, and in 1890 was manager of a theatre in a small Wisconsin town. There he met and married his wife. The wedding was clandestine and the bride's parents were bitterly opposed to it. They lived happily but a short time. Both were hot tempered, and quarrels were frequent. A few years ago the Orrs settled in Clarendon, where the husband engaged in business. He prospered, and was considered wealthy at the time of his death. A 3-year-old daughter, the only issue of the unhappy marriage, is left an orphan.

Mrs. Orr was admitted to the first homes of the town, given a prominent place in church work, and showed every consideration generally accorded good people. The people are sorry so fearful a crime was enacted here and that such violent measures were adopted to avenge it, but all are agreed that the guilty have been found.

Woman Roused to Frenzy.

New York, Aug. 11.—There were sensational developments yesterday during the examination of Amelia Cornell on the charge of perjury. Mrs. Cornell was arrested in Saratoga on Friday last on complaint of Guy H. Reynolds, who is a Fayerweather heir, charging her with perjury in the suit of Lillian Klaupman against Reynolds for the annulment of their alleged marriage. Mrs. Cornell then testified that she was a witness to the marriage ceremony between Reynolds and Lillian Allen in Saratoga May 21, 1888.

Mrs. Crocker, mother of Mrs. Klaupman, was the first witness. Lawyer Brooke, attorney for Reynolds, asked her if Mrs. Cornell knew of the relationship between her daughter and Klaupman before her marriage to the latter. At this Mrs. Klaupman dropped her child into the arms of her husband, sprang up and ran the length of the table separating her from Lawyer Brooke, and, exclaiming, "You beast," slapped him full in the face. Then turning toward her mother she screamed: "How dare you," and, seizing her by the throat, swayed her head from side to side as if to strangle her.

Officers seized Mrs. Klaupman and tore her away from her mother. The magistrate then ordered Mrs. Klaupman placed under arrest for contempt of court in assaulting the lawyer and her mother.

The skin on Mrs. Crocker's throat was torn by the violent grip of Mrs. Klaupman. She was led from the stand to a chair, bleeding and weeping hysterically. As soon as order had been restored the magistrate ordered the examination to proceed.

Tomorrow's Almanac and Forecast.

Sun rises—4:48; sets, 6:49.
Moon rises—12:59 night.
High water—7:45 a. m.; 7:45 p. m.

The unsettled conditions over the eastern portions of the country continue unchanged, with no indication of passing off, making little chance of settled pleasant weather for several days yet. Friday now promises to be partly cloudy or cloudy, and occasional showers are probable; it will probably be slightly warmer, with winds light and variable.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

IDOL OF HER PARENTS.

Young Woman's Death at the Hands of a Boston "Doctor."

Left Home Ostensibly to Visit In New Hampshire.

Her Lover at Her Bedside When the Police Entered the House.

Boston, Aug. 11.—"I don't care what you do with me. Charlotte's dead; my life's not worth anything now. You can take me." As the officers placed hands on his shoulders, Henry Blanchard was kneeling by the dead body of his sweetheart, moaning pitifully, with his face buried in his hands. Charlotte Reed, a teacher in Whitman, died yesterday at 1054 Washington street from the effects, it is alleged, of a criminal operation, performed by a woman who went under the name of Dr. Thompson. When the police arrived at her rooms, on complaint of a reputable physician, who was called at the last moment, Blanchard was the only one to be found. He before the fact.

Only 22 years of age, Miss Reed, was, in a way, the belle of the town and the idol of her parents. She was born in Whitman, and when she graduated from its high school four years ago, she was valedictorian. In Bridgewater, where she attended the normal school, she met Henry Blanchard, and love at first sight followed. Henry is also 22, and the son of a prosperous farmer of East Bridgewater. They continued in each other's company during her school course at Bridgewater, and became engaged. They were to have been married sometime ago, but the girl's mother wanted Charlotte to teach school in Whitman at least one year longer.

The young woman had been spending her vacation at home, and a few days ago she told her parents she was going to Portsmouth. It was understood that she was to be accompanied by Blanchard, whom the parents trusted implicitly. The sweethearts did not go to New Hampshire. They came to Boston, and, Blanchard says, drove directly to the home of Mrs. Dr. Charles Thompson. As Blanchard tells it: "We made our purpose known to the woman, and agreed to pay her for her assistance $60. This was Sunday afternoon. Charlotte hoped to get well soon, but Tuesday afternoon she had a bad spell, and I was sent for. I arrived about 10 o'clock and came in time to hear her cry painfully and then lapse into unconsciousness. She became worse."

A physician was summoned, but the victim of the alleged abortion was beyond medical aid, and the caller reported the case to the police. Meanwhile Mrs. Thompson had made tracks.

Records Were Broken.

Indianapolis, Aug. 11.—Broken records, two in number, and surprises in every contest marked the races of the first day of the national meet of the L. A. W. The results were a complete turn-around of all the fondest predictions, although an outsider did not win the championship. The circuit men held their own, but met defeat at the hand of a man who has steadily been among the "also rans" at the circuit, and who has piled up only eight points in a season's work in the championship. Owen Kimble proved the 2-mile champion of America, and his win of the great contest was of the cleanest order and just beyond the slightest shade of a doubt. "Major" Taylor, Bald, Cooper and Mertens ran in the order named at the rear of the man from Louisville.

The finish of the championship was a shifting race. Two pacemakers pulled the men around and Cooper, Kimble and Bald held the pace in the order named.

NEWS IN BRIEF.

J. W. Bellow of Arlington, Mass., committed suicide by taking paris green.

Fire in a Turkish bath in New Orleans spread to several retail stores, doing $200,000 damage.

The factory of the Sprague Umbrella company in Norway, O., was burned. Loss, $60,000; insurance, $40,000.

Joseph Lane of the Sixth Massachusetts and William Green of the Second died of typhoid fever in Santiago.

Two New York laborers were killed by the breaking of a beam at one end of the scaffold on which they were working.

There were serious riots in Shanghai. The French authorities took vigorous action and killed 20 natives, which quieted the rest.

The Spanish hospital ship, Alicante, sailed from Santiago for Spain yesterday with 1000 Spanish sick and wounded soldiers on board.

Five privates, all volunteers, died yesterday of typhoid fever in the general hospital at Fort McPherson, Ga. There are 618 patients in the hospital.

The leaders of the clothing makers in New York announce that the strike of 18,000 tailors is scheduled for Aug. 15. The number of striking children's jacket makers was increased to 3700 yesterday.

Deputy United States Marshal Norton arrived in Portland yesterday with George Nadeau of St. Francis, Aroostook county, who shot Deputy Marshal McNally six years ago, wounding him in the leg. For some time after the shooting Nadeau lived in a barricaded house.

The Colombian congress has authorized the president to settle the Cerutti claim. The matter is, therefore, practically settled, only the manner and details of payment remaining to be fixed. It is understood that the good offices of the British, French and German ministers at Bogota helped to effect the settlement.

IT IS NOT
What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the
Quincy Second Hand Variety Co.'s
store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

BOYS ARRESTED.

Were Caught Plundering House During Absence of Family.

Arthur J. O'Neil and John White, aged 14 and 13 years, were brought up with a round turn Wednesday afternoon by Chief Litchfield and Officer Murray, and the chances are that they will see the inside of the reformatory for the balance of their minority. The charge against the youths is that of breaking and entering the house of William Edwards on Savil street, and the larceny of goods valued at $12.90.

The Edwards family are away for the month, but Wednesday Mrs. Edwards made a trip home. She rode from the depot to her home and as soon as she arrived discovered that something was wrong and immediately sent the carriage back for an officer.

She entered the house and not only found things in a rather mixed condition, but found the two youths above mentioned in possession.

The White boy jumped out of a window and got away, but O'Neil was not so smart and Mrs. Edwards held him prisoner until the officer arrived. While awaiting the arrival of the officer O'Neil said the house belonged to his uncle and he was looking out for it.

Investigation showed that the boys had gained entrance through a window that had been broken, and had then unlocked the back door. Once inside the boys had opened every trunk and drawer in the house and turned their contents upside down, and they had tied up a miscellaneous assortment of articles ready to carry away, consisting of two pairs of shoes, a knife, key, bicycle saddle, and nine novels valued at $12.90.

O'Neil was locked up and White was later arrested and also locked up. In court this morning they were held in $400 each for next Thursday. White was bailed but O'Neil went to Dedham jail.

A CONTRIBUTION

And Letter From Henry H. Faxon to the C. T. A. Union.

Quincy, August 9, 1898.

Rev. Thomas Scully, President of the Archidiocesan Union of Boston.

Respected sir:—I am pleased to note the extensive preparations which are being made for the 28th Annual Convention of the Catholic Total Abtsinence Union of America to be held in Boston, August 10-12.

For the grand work which has characterized your organization, and for the persistent and successful efforts of many of its individual member in their own municipal anti-saloon campaigns, I hereby tender my warmest praise and approbation.

Words fail to express the honor which is due you personally, for your important, arduous and effective labors in helping redeem the City of Cambridge from the thraldom of the saloon, as well as valiant service rendered the cause elsewhere.

All the leaders of your branch of the reform must fully realize that intoxicating liquors have exercised a more potent influence in the oppression of the Irish race than all other evils combined. I therefore hope that the cold water wave which your assembled hosts will turn upon Boston, may so we aken and demoralize the saloon forces there intrenched that the liquor interests all over this land will tremble because of the existence of the Catholic Total Abstinence Union of America.

I enclose a check for thirty dollars towards the expenses of the convention and remain

Cordially yours,

HENRY H. FAXON.

FLAG RAISING.

South Quincy Social Club Unfurl Old Glory.

Mayor Sears Speaks and Is Applauded.

Remarks by Messrs. Marnock, Lennon, Gustafson, Bigelow.

The members of the South Quincy Social club held a grand flag raising Wednesday evening in front of their rooms on Liberty street and although th storm prevented many from being present it in no way interfered with the success of the affair. It was at first thought desirable to postpone it, but as the members who belong to Co. K could not be present any other evening and as a large crowd had gathered, it was determined to go ahead with the programme.

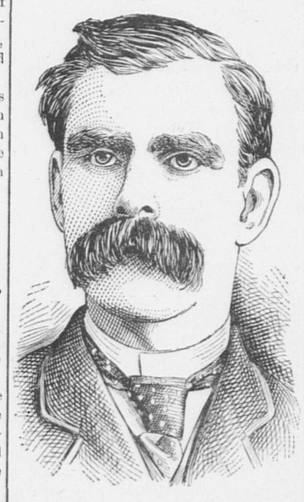

A little after 8 o'clock the Co. K boys and speakers took seats on the raised platform in front of the rooms and while the City band played the Star Spangled Banner, a large handsome flag was raised to the mast head.

Miss Mamie Kennedy who was dressed to represent the Goddess of Liberty, pulled the string which unfurled the flag, and as it was thrown to the breeze all uncovered and three rousing cheers were given.

Alexander Marnock presided and in opening said that the South Quincy Social Club was organized some time ago for literary and social purposes. They had progressed but a short time when there came a foreign war with Spain. The President called for volunteers and this club responded nobly sending five members. It is in honor of these members that we meet here tonight at flag raising.

Mr. Marnock further said that there were several who were unable to be present, among whom was Representative Thompson, who desired him to express his regrets, business having called him away.

MAYOR SEARS.

was then introduced and spoke as follows:

He said that he believed he could truthfully say that this was one of the pleasantest flag raisings that it had been his privilege to attend because now that the blessings of peace are about to come to us we all adore the flag more than ever.

"The old flag," he said, has come from the conflict more glorious than ever, because in its latest achievment it had again triumphed in the cause of humanity."

"Now that the war is about to end our minds turn to peaceful thoughts, and we ask ourselves what has been the cost? What are the lessons that it brings to us?"

He then referred to the popular feeling during the period of reconstruction after the Civil war, drawing a comparison with the questions of today.

"Our forefathers," he said, "never intended that our flag should stand as the emblem of a nation that sought war nor the accession of territory by conquest; and it is well that we should follow the precepts and politics laid down by them. The proposition of annexing distant territory is to many of us so enticing so alluring—that we sometimes forget the well formed

policy of our government. But let us not forget that among ourselves we are large and grand enough to be contented. (Applause.)

"So I say may Old Glory again peacefully wave over a prosperous nation—a prosperous and happy people—a people that seek no contention with the other nations of the earth but are satisfied with their own great country. (Applause.)

Ex-Councilman Lennon was the next speaker and was introduced as a veteran of the Civil war. Mr. Lennon said he could not talk much but if there was any kicking to be done he could do it. He said that he had been invited to tell his experience in the Civil war which he did briefly outlining some of the engagements in which he participated. One of the sights he witnessed was the famous battle between the Merrimac and the Monitor.

While he was speaking it began to rain hard and an umbrella was raised over him. This he put aside with the remark that he was no more afraid of the rain now than then.

The next speaker was Mr. Selma V. Gustafson another veteran, who also

related some of his experiences in the Civil war.

Ex-Coucilman John P. Bigelow was the last speaker and as it was now raining hard his remarks were cut short somewhat. He made one of his characteristic fiery speeches, speaking of the two Adamses, the spot upon which he now stood being once a part of their property.

Manager Robinson of the Dewey Victory Co., impersonating Uncle Sam, was present early in the evening and sang patriotic songs which were heartily cheered.

Cheers were then given for the flag, the Mayor, the veterans, and the members of Co. K. It was also announced that the band concert arranged for the evening would be given Friday evening.

TODAY'S COURT.

Arthur J. O'Neil and John White were arraigned for breaking and entering the house of William Edwards on Saville street, Quincy, and the larceny of goods valued at $12.90. Case continued until next Thursday.

—Young men should remember that it is never too soon to begin the business of making a man of one's self.

—Not a single whale has been taken in Cape Cod waters this year.

The derelict, James N. Seaman, which was towed into Halifax several weeks ago, was righted yesterday. No bodies were found. The hatches, rails, etc. were torn away, and from the appearance of the stern there is scarcely any doubt that the vessel was sunk in a collision.

MANICURE PARLORS.

MISS MARTHA J. BROOKS,

Pupil of Mme. May,

Shampooing, 50c. and 75c.; Singeing, 50c.; Bangs Cut and Curled, 25c.; Waving and Curling Hair, 25c. and 50c. Moles and Warts removed safely and permanently, $1.00 each. Superfluous hair removed by Depilatory Facial Massage, $1.00, $1.25, $1.50.

Will go to residence by appointment. Agent for Mme. May's Toilet Articles.

Hours—8 A. M. to 6 P. M.

Aug. 8.—6t Aug. 13 tf

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Cool today.

And still it rains.

A large water main has been laid on Whitney road.

Mrs. B. Porterfield is passing the month of August at Milford, N. H.

A steady rain all night lasting until morning. It continues dubious.

And the stepping stone in front of the Bethany church on Hancock street has also been removed.

Mr. Henry Wilson and family of Granite street have gone to Philadelphia for a brief visit.

The Uxbridge soldiers' monument, cut by Prout Bros. Co., is being set up for inspection at their yards.

That dog cart with Uncle Sam and the Goddess of Liberty driving around the streets is quite attractive.

Mr. M. C. Holmes has just returned from Bangor and today goes to Newport, R I., on a vacation trip.

Miss Annie S. Keenan of South street has fully recovered from her recent serious attack of appendicitis.

Your lawn will not require any sprinkling from the hose this week. Of course you'll pay the water tax just the same.

Henry Baker of Rockland has recently purchased a Onawa colt which J. B. Benson is training for the Marshfield races.

The Misses Powers of Cranch street go to Boothbay Harbor, Me., Monday, where they will remain for the rest of their vacation.

Fred Barnicoat has just completed a handsome model representing a woman holding a key. The statue is six feet six inches tall.

Did you ever notice that when the fire alarm strikes on the First church that it will be some seconds before the whistle blows?

Fishermen say that smelts should not be caught this warm weather for they are apt to be soft and wormy after being out of the water a short time.

It is rumored that Swingle & Falconer have purchased the lot of land at corner of Water and Pleasant streets and will commence immediately to erect a large business block upon it.

The contractors of the new city stable have commenced work on the foundation which is well along. The only regret is that this stable could not be located in some better place.

The yacht "Meemer" owned by R. C. Nickerson, made the run this morning from Brant Rock to Hanley's boat yard in the remarkably short space of time of two hours. From three to four hours is usually considered good time between these points.

Some young men who go to New Downer Landing expect that young ladies will be there anxious to dance with Tom, Dick and Harry. Some of the girls decline to dance with these young fellows, who never ask a girl to accompany them to the grove.

A concrete sidewalk, which greatly improves the estates, has been built under the betterment act on Elm street in front of the residence of Mayor Sears and on Bigelow street from the corner of Elm street to the brook, in front of the residences of Clarence Bugin, S. A. Miller and H. E. Ricker.

Comparison

Is the true test of real difference. Compare our $3.00 SHOE with what you see elsewhere marked at $3.50 and $4.00 and see what you think.

We give the best value to be had for your money in these SHOES.

BEAR IN MIND

That we do not claim the goods we sell to be in any respect different from what other people sell, except in price. All our goods are new goods (1898 goods) and amongst them is nothing that we are selling for 25 cts. on the dollar. Our expenses are small and we sell our goods for all they are worth, but do not sometimes have to sell them for more than they are worth, like some merchants do to help pay the enormous expense they are under.

We have about 200 Negligee Shirts, which we will sell this week and next week, too, if we do not sell them all for 69c. We have them in all styles, with attached and detached collars. We would not have you believe they are the $1.00 kind. Although some are woolen madras goods, which are usually sold for that price. Some others sell some of them for 75c. and claim they are worth $1.00. We guarantee everything we sell, and will always pay your money back if goods purchased are not satisfactory.

AUTHORITY DENIED.

French Ambassador Not Permitted to Change Peace Terms.

Madrid, Aug. 11— It is stated in official circles that the reply of the United States to Spain in relation to the peace negotations is considered satisfactory. Premier Sagasta denies that the French Ambassador had any authority to make any changes and if any are made they must be made by the government.

The Mass. Second.

Springfield, Aug. 11—The committee of three hundred telegraphed President McKinley today urging him to return the Second Mass. regiment north. The telegram sets forth that this regiment was one of the first to go into service, and that they had seen hard service and should be returned. The Mayor also telegraphed Secretary Alger to the same effect.

Off for Honolulu.

San Francisco, Aug. 11. — The Hawaii commission sailed today for Honolulu. They took a body of troops with them.

Spains Reply.

Washington, Aug. 11—Up to noon nothing important had been received in regard to the Spanish reply. It is not expected that it will be received in time to be given out today.

EN ROUTE SANTIAGO.

The continuation of Lieut. Sprague's Santiago letter, in type for this issue was unavoidably crowded out at the last moment and will appear tomorrow.

Lawton Given a Command.

Washington, Aug. 11.—A department of the army to be known as the department of Santiago was created yesterday. Major General H. W. Lawton is assigned to its command. Brigadier General Wood will continue in command of Santiago city. General Shafter returns to this country with the Fifth army corps. He will be in command until he departs.

Carranza Didn't Depart.

Montreal, Aug. 11.—Lieutenant Raymond Carranza, who was supposed to have sailed for England three weeks ago, in accordance with an order from the Canadian government to leave the country, appeared here again yesterday. His lawyer states that the lieutenant had been on a visit to St. Pierre, Miq., where he superintended the sending of blockade runners to Cuba. His work being over now and peace at hand, he has come back to bid farewell to his friends before leaving for Spain.

Boston Opinion.

Boston, Aug. 11.—"As a simple matter of justice," The Advertiser argues, "it is right that the people of Spain should begin to reap some portion of the harvest which the Spanish government for many generations has sown in Cuba. If the bread tastes bitter it must be remembered that the wheat was watered for centuries with the tears of an oppressed and plundered people."

The Post says: "Whether the formal signatures take place today, or tomorrow, or in a week's time, it really makes no difference. The United States can wait, in generous pity, while Spain struggles to gulp down the unpleasant but wholesome draught which her own foolish hands have prepared."

WEYMOUTH.

Little Items of Interest About Town.

Mr. and Mrs. Chester Newcomb of Providence, R. I., are visiting at Mr. Frank Prentice at North Weymouth.

The Wessagussett club of North Weymouth, hold meeting and supper next Tuesday at the New Pacific house, Nantasket.

--Secretary Long arrived at Hingham today, for a vacation of ten days.

For Hatching Out Business Is the Daily Ledger.

ANOTHER MARCH.

5th Regiment Enjoyed It Though It Rained.

Camp Dalton
Thursday, Aug. 11.

Yesterday in camp was another eventful day. In the morning the usual drill was held but towards noon it leaked out that another march was in order.

This time tents were not struck and kits and rolls were left behind. Canteens were filled with cold coffee. The regiment formed into columns at two o'clock amid a shower of rain. Some thought the march order would be countermanded but the Fifth stops for nothing.

This time another route was taken. It led through well populated roads, through Framingham Centre, South Framingham and then home, a distance of six miles. It rained hard for half the way and before home was reached the mud was ankle deep and the footing was rather slippery. Until the men were wet through, they were quite uncomfortable but after a time they enjoyed the march immensely.

The residents along the way showed their patriotism by raising and waving flags. These were greeted by cheers from each company as they marched past.

In both South Framingham and Framingam Centre large crowds of citizens lined the streets to greet the soldier boys. They did not mind the rain any more than the soldiers themselves.

The order for route step was given for most of the way. The singing of patriotic songs was frequent in the ranks. The Fifth put up a firm and rugged appearance as they marched along with their swinging stride and bespattered with mud.

The ambulance followed in the rear but it was not needed as no one fell out.

The camp was reached at 4.30. A change to dry clothing was at once made. Through Capt. Kincaide's forethought hot coffee was served to Co. K as soon as possible. The boys appreciated this very much. Co. K's appearance took the bun and a better and stronger lot of men would be hard to find.

No parade was given in the evening.

A party of Quincy business men—consisting of Mr. Remick, F. C. Packard, F. W. Tirrell, M. Lynch, Joseph Prout, C. L. Hammond, Fred Goss, G. H. Wilson and Master Willie Hodges arranged to call at camp yesterday but for various reasons some of them were unable to come. They remembered the boys of Co. K with 40 loaves of bread and 25 pounds of butter. This went very well after the march and the wetting. These gentlemen deserve all the thanks it is possible to give them. Co. K appreciates their kindness very much. Mr. G. H. Wilson left a pound of fine smoking tobacco in your correspondent's tent. It won't be wasted.

Mr. Wilson's interest has won for him a great many friends in Co. K. Through his untiring efforts a great deal has been done for the boys. He is a constant visitor and always has a smile and a good word for every one. He does a great many things in a quiet way which are not known outside. A pipe here, a package of tobacco there, a parcel, a box, etc., scattered through the street, explains why he is a favorite. There are a great many others working in the same way, among them being Chief Packard, Fred Tirrell, C. F. Pettengill, Charles C. Hearn and ex-Mayor Hodges.

Private Randall Faxon received as a present Monday, a very fine wrist watch. He is kept very busy telling the time of day. Almost everything runs on Randall's time now.

Mrs. Gray of Taunton, sister of Sergt. Colbert, paid him a short visit yesterday.

Only five passes are issued to one company a day, but through the efforts of Capt. Kincaide, Privates W. A Malcolm, John G. Clark, L. J. Savoie, W. G. Smith, A. F. Cappacciola and J. F. Piravano, members of the South Quincy Social club, were allowed to go home in a body to attend a flag raising of the club.

Tomorrow the Fifth will show their mettle on a march through Boston, at the funeral of Col. Bogan. There will be a vast difference between the march of June 28, and Aug. 12.

MACK.

LATER.

The Fifth Regiment will reach Boston tomorrow about 10 A. M. probably on a special train, being due at Charlestown at 11 o'clock. Lieut. Col. Oakes, fomerly of the Fifth Massachusetts, will be chief marshal at the funeral of Col. Bogan. The burial will be at Malden.

—The Ninth Massachusetts regiment is still at Santiago and will be one of the last to leave, says Gen. Shafter.

—Middleboro's tax rate is $19 per $1000 as compared with $18.50 last year.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

THE DAILY EVENTS.

Miss Marjorie Young of Prospect street spent a few days at Winthrop.

The coolest noon temperature today since July 13 and with that exception since June 6.

Prof. Oldreve gives at New Downer Landing this week exhibitions which will be interesting to all, including fall of Manila and the destruction of the Maine.

Miss Dorthy Young of Prospect street returned Wednesday from a fortnight's visit at Roxbury and Houghs Neck.

Mr. and Mrs. John A. Barbour with their little daughter Corrine, of Wollaston, are enjoying the summer at Hammarock, Marshfield.

Harry R. Osgood of Wollaston, who is now at the Philippines as a private Co. E, 18th Infantry, wrote home when at Honolulu, and his letter will appear in tomorrow's Ledger.

The electrics leaving Quincy at 12.50 for East Weymouth ran off the track in front of the Universalist church, this noon. The Nantasket car which was directly behind it pulled it into position again after about seven minutes' delay.

The Voluteer Aid Association formed by the W. R. C. 103, is working earnestly for the sick and wounded soldiers, and have this day sent off another box of needed articls for the Hospital Ship, consisting of 44 mosquito canopies, 8 hospital shirts, 8 handkerchiefs, 16 towels, 3 cans of condensed milk, 1 jar quince, 1 jar pear and 2 tumblers of jelly.

Mr. Joseph Alden of Quincy, entertained a number of his friends from Boston and surrounding towns at the Klondike Cottage, Houghs Neck, Wednesday evening. The evening was very enjoyably spent at whist and dancing. The hurdy gurdy did not show up on account of the rain, but Mr. Arthur Peverly favored them with some very nice selections on the violin. Miss Beatrice Ashton sang and read some very nice selections. The prizes for whist were carried off by Miss Upton, Woodstown, N. J., a solid silver bon bon dish and the booby prize by Mr. George Hardwick of Quincy, a rag doll. Those present were Mr. Arthur Peverly of Quincy; Miss Beatrice Ashton, Newton Centre; Miss Katie Ashton, Woodstow n, N.J.; Mr. Frank Walsh, Quincy; Mr. Edwin McBain, Boston; Mr. George Hardwick, Quincy; Miss Grace Cushman, Chelsea; Miss Bertha Richards, and Joseph Alden, Quincy.

HOUGHS NECK.

Mr. Johnson and family of Campello are at the Magnolia cottage.

W. H. Mayport and family of Springfield are in a cottage on the plains.

W. K. Lewis of Brockton is in a cottage on Mears avenue.

Patrick Donahue of Boston is in a cottage on Mears avenue.

Frank Ryder, an ex-policeman of Boston, who has been stopping at the beach, left Wednesday, having enlisted in the regular army.

Lewis Serbert and family of Boston are in a cottage on the plains.

A party from Dedham was at Pierce's Wednesday. The party came in a large barge.

Rumor says that there will be no illumination at Houghs Neck this year.

Mrs. G. P. Brown and daughter are at the Newton cottage.

Sumner Division, 199, Sons of Temperance, of North Abington, held an outing at Pierce's on Wednesday. There were twenty-eight in the party.

Harris Lincoln and family of Boston are at Rock Island.

J. Watson and family of Boston are at the Bodge cottage.

S. Webster and family of East Milton are at Rock Island.

The annual ball of Hose Co., No. 5, will be held next Wednesday evening at Fensmere hall. Young's orchestra will furnish music.

A Hyde Park Sunday School picnic made its headquarters at Richardson's on Wednesday.

Frank Lohman, who has been managing Hotel Fensmere, gave it up Tuesday and left town. Mr. Meyers is now in charge.

The Fensmere advertises a band concert and vocal soloists for Sunday afternoon and evening.

Recent arrivals at Pierce's are Mrs. Olive E. Morris, Mr. Elegar Cole, Brockton; Mr. and Mrs. Charles H. Cleveland, Mrs. C. C. Cleveland, Mrs. B. L. Bacon, Barre plains, Worcester; Mr. and Mrs. Henry C. Achorn, Mr. Arthur Gray, East Walpole, Mrs. Bennett, Miss J. C. Bennett, Mr. Blaisdell, Dorchester; Mr. and Mrs. James P. Hicks, Walter E. Hicks, Lawriston G. Chamberlain, Mrs. Chamberlain, Miss Lizzie J. French, Mr. and Mrs. W. L. Doly, Brockton; Mr. and Mrs. William L. Durant, Hyde Park.

HAS AN AMERICAN WIFE.

Young Englishman Selected For One of the Best of His Country's Honors.

London, Aug. 11.—The foreign office last evening formally announced the appointment of George N. Curzon, until now the parliamentary secretary of the foreign office, as viceroy of India in succession to the Earl of Elgin. The appointment excites quite unusual interest. All the morning papers publish, in addition to editorials, special articles reviewing his strikingly brilliant career, wishing him success and generally expressing approval over the appointment, though some doubts are suggested on the score of his comparative youth as a statesman and the fact that he is supposed to advocate a "forward policy" regarding the northwestern frontier of India.

HON. GEORGE CURZON AND WIFE.

The Times says: "It is a striking appointment and a great experiment. At 39 Mr. Curzon obtains what may be truly called the most splendid position under the crown; the position which, to most men, would be the crowning reward of a life's ambition, but which, to this favored child of fortune, may prove to be but a step. We sincerely trust for the sake of both Mr. Curzon and the empire that Lord Salisbury's very interesting experiment will succeed. The first requisite must be Mr. Curzon's restoration to health. Fortunately he has always enjoyed robust health in eastern lands. He has youth, wealth and cleverness, and, as the society of Calcutta and Simla will soon discover, he has a charming wife. These are no common endowments, which ought to assure success on the social side of his career. His friends say that his present indisposition is the result of overwork, and they are confident that India will prove his salvation. He finds the late hours of parliament, combined with his official duties at the foreign office, extremely trying."

The Chronicle says: "Mr. Curzon risks his whole career on this shining peak. Unless he makes a great success he will make a very great failure. Many American ladies have graced the society of the old country as the wives of prominent men; but to none of them has it been given to play such a part in the British empire as Mrs. Curzon will enjoy."

THREE STRAIGHT.

Leaders In the National League Defeated Twice at Home Wednesday.

Cincinnati, Aug. 11.—Three out of four is the record of the Bostons against the reds in the series of four games that closed with the double-header Wednesday. As a result of this double-header the town is sore on the reds, for it gave two of the most reliable players in the team an opportunity of demonstrating how easily a game may be thrown.

Boston has helped to win the first game by Hill's wildness and Steinfeldt's misjudging of a long fly, which gave Boston three runs where they should have had none. In the second game, which was the heartbreaker, Dwyer pitched a shut-out game, and the errors of Corcoran and McPhee on the easiest of plays allowed the Bostons to win. Score of the second:

Cincinnatis.	AB	R	1B	PO	A	E
Miller, r. f.	5	1	2	1	0	0
Smith, l. f.	5	2	2	3	0	0

Earned runs—Cincinnatis, 3; Bostons, 2. Two-base hits—Smith, Corcoran. Three-base hit—Nichols. Stolen bases—Beckley, Peitz. Double play—Lowe, Long to Tenney. First base on balls—By Willis, 5; by Dwyer, 2. Hit by pitched ball—By Dwyer, 1. Struck out—By Willis, 1; by Dwyer, 1; by Nichols, 1. Wild pitch—Willis. Time—1:40. Umpires—Brown and Gaffney.

The Buffaloes had the Providences beaten up to the fifth inning, when the visitors had a batting streak and rolled up four runs and won, 5 to 3.

Convention of Butchers.

New Haven, Aug. 11.—The National Retail Butchers' association concluded a two days' convention in this city last night. Apart from the election of officers, the chief business of yesterday was the establishment of eastern and western associations, under the jurisdiction of the national association. The eastern association goes west to and including Ohio, and the southern states on that line. All the rest of the country will be included in the western division.

The next meeting will be held in St. Louis the second Tuesday of August next. The eastern association chose officers as follows: President, Joseph F. Callanan, Springfield; vice presidents, Charles E. Hart, New Haven; E. F. Hopton, Binghamton, N. Y.; treasurer, F. J. Wallace, Meriden; secretary, Daniel J. Haley, Troy; inside guard, Louis P. Zent, Buffalo; outside guard, George F. Kellogg, Hartford; trustees, Ira W. Steelman, Danbury, Conn.; Maurice O'Brien, Meriden; Robert T. Milleman, Brooklyn. The eastern association adjourned to meet in New York city the second Tuesday of August, 1899.

William G. Wagner of New York was elected president of the National association, and the president, secretary and treasurer of the eastern and western associations constituted the remainder of the board. John H. Schofield of St. Louis was chosen national organizer.

A Journalistic Freak.

The newest freak in journalism is The Bloomer Gazette, a magazine to be written and published by women of social position in England. It is to be devoted wholly to the discussion of knickerbockers and other garments once upon a time considered the exclusive property of the voting sex. However "women of social position" will manage to grind out four pages a week about bloomers is a mystery as yet unsolved. Perhaps they will publish paper patterns of different kinds of Chinese and Zouave trousers, Louis XVI breeches and midshipmite pantaloons. Women will not submit to be tied down to one or two styles. If the magazine is to be a success, it must whet and then appease her appetite for change and variety. There may be plenty of women who would willingly wear knickerbockers forever and for aye, but they would surely demand more cuts and styles in those garments than men are accustomed to or contented with. It remains to be seen how The Bloomer Gazette will meet the demand.—New York Commercial Advertiser.

The Shirt Waist's Revenge.

The recent Utah delegation of women's clubs enjoyed a joke on their president, Mrs. Martha Burgess Jennings. Mrs. Jennings has for some weeks been organizing a crusade against the shirt waist. She did not want her command to appear at Denver in any such undressy affairs. After much working of her persuasive tongue she induced her forces to discard the shirt waist, except for traveling. In the face of all this Mrs. Jennings attended several sessions in the tabooed articles of wearing apparel, the only woman in the delegation so attired. It was a transportation contretemps. All her swell gowns went by express to Denver; two shirt waists and a black skirt traveled with her. Mrs. Jennings arrived on time, but her trunks did not materialize for four days. Hence the shirt waist and an amused delegation.—Exchange.

A Woman Surgeon.

There is a woman surgeon in the Third Wisconsin. She was appointed by the government, and the men at the camp say that she bestrides her horse at dress parade with excellent grace. She wears bloomers and comes from La Crosse. She is Mrs. Mary Lewis, and she has two sons in the regiment—one, Guy, in Company M, and the other, George, in Company L.—Pittsburg Dispatch.

Doing Good Work.

The Colonial Dames of New York, Mrs. Howard Townsend, president, have undertaken the care of the families of a number of the men at Manila. In addition to the gifts of $1,000 each to the Solace, the Relief and the hospital at Tampa, the society has given $100 to Camp Alger and $300 to Chickamauga, besides private donations from its members.

The News of Beantown.

Boston, Aug. 11.—Frank Elmer Dearborn of Haverhill, 17 years of age, suspected of having set fire to two buildings in that city within a short time, has confessed that he set one fire to get out the engines. He is reported as being a crank on the subject of fires, and has a fireman's badge and rubber coat, going to all the fires.

The arrangements for the funeral of Colonel F. B. Bogan are practically completed except for the formation of the escort. Governor Wolcott and staff will attend the funeral.

The carriage repair shop and blacksmithy of Cyrus Chase, Jamaica Plain, was badly damaged by fire at an early hour this morning. J. M. Hughes, who used the upper floor of the building for the storage of carriages, also suffered loss. The loss to both occupants was about $6000.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

SILVER DOLLAR BLAND

Financial Question Considered the Paramount Issue.

Would Make Our Own People Free First.

Statesman Opposes Lowering of Principles to Those of Landgrabbers.

Springfield, Mo., Aug. 11.—It became evident early yesterday that Congressman Bland and his followers had broken away from Governor Stone on the question of territorial expansion and had declared against such a policy. Before the Democratic state convention met the delegates from Bland's congressional district adopted resolutions favoring the Bland foreign policy.

Congressman Bland, as temporary chairman, referred to the Chicago platform, recalling the financial plank and declaring anew the arguments with which the people are familiar. "This domestic issue," he said, "must remain paramount until it is settled and settled right. We propose to make the campaign upon this issue. We do not propose that plutocrats shall entangle and confuse our minds with foreign issues. We propose first to make free and independent the people of the United States. We have been drawn into a war which has already cost millions of dollars and put upon the common people the burden of a tax which congress refused to put upon the wealth of the country. The sentiments expressed in the declaration of war were unparalleled in the history of the world. No party ought to survive which would undertake to lower the standard of universal freedom of manhood. We deserve the good opinion of the world," he exclaimed, "but we must also deserve the good opinion of ourselves. I have observed a tendency in some directions to lower our principles to those of a land-grabbing nation. The Democratic party has always been the party of progress in the annexation of territory, but it was territory bought and paid for."

RICHARD P. BLAND.

Reciting the history of past acquisitions of territory, Mr. Bland said: "But we are asked today to acquire not only land, but people. We are asked to connect ourselves with a foreign population unknown to our interests and purposes. If I could express my personal opinion in the platform I would declare against the annexation of Cuba, Porto Rico or the Philippine islands, and that when we shall have wrested these islands from the Spanish government they should be allowed to govern themselves."

Mr. Bland declared his belief that eventually Porto Rico and Cuba would come into our country, but he desired no declaration on that question until these territories were prepared to come in of their own will and under Democratic principles.

Governor Stone, in referring to the foreign situation, said: "I would annex Porto Rico to the American union." He declared that every Democratic president from Jefferson to Buchanan favored territorial annexation, and that Jefferson advised the annexation of Cuba repeatedly. Governor Stone also favored building the Nicaraguan canal, a greater navy and an increase in the merchant marine.

Platform of Nebraska Republicans.

Lincoln, Aug. 11.—A platform was adopted at the Republican convention yesterday which goes to extremes in conservatism, dismissing the subject of territorial expansion with an endorsement of President McKinley's proposed terms of peace. The platform reiterates the declarations at St. Louis and continues: "We reaffirm unswerving allegiance to the principles enunciated in the Republican national platform of 1896. We are in favor of the maintenance of the present gold standard and unalterably opposed to the free and unlimited coinage of silver. We favor the payment of our sailors and soldiers in the same money as is paid the bondholders. We congratulate the nation upon the successful issue of the war with Spain, prosecuted under the direction of William McKinley, commander-in-chief of the army and navy of the United States, with the loyal support of brave volunteers on both land and sea. We emphasize our hearty approval of the wise foreign policy of President McKinley and of the terms demanded of Spain as the conditions of restored peace."

Ardent For Silver.

Albany, Aug. 11.—Members of various free silver organizations throughout the state met yesterday. Resolutions endorsing the platform of the Chicago convention were adopted, as also were others condemning the election of any person as a delegate to the state convention who is not in accord with the lines laid down by that platform.

A committee was appointed to wait on the Democratic leaders of the state to present them with copies of the resolutions, and to tell them that they intended to electioneer against the nomination of anyone who did not stand openly on the Chicago platform.

BLUEBIRD.

Cheerily, earth! Be glad and sing—
Love is above; the year's at the spring.

Face of the sky on his azure wings,
The warm brown earth on his homely breast,
And, springing between them, in double birth
Of the changeless sky and the changing earth,
This voice of the spring's first herald blest!

O earth, be glad! The brown breast heaves,
For God is above! The wings upstart.
Is this thy message, by mortals heard?
Since heaven and earth can touch in a bird,
Perhaps they are never so far apart?

Cheerily, earth! Be glad and sing—
Love is above; the year's at the spring.
—William J. Long in Youth's Companion.

A DAREDEVIL DEED.

There was no moon. The night was a perfect one. The vaulted heavens were studded with stars, which scintillated with faultless brilliancy.

"It is strange they do not come," muttered Lawton, as he impatiently paced the beach. "If he keeps monkeying around with those pigtails, we'll be nabbed yet."

Joe McAllister, ostensibly a fisherman, was the only confidant and fellow worker Lawton had. A sharp, shrewd Scotchman, hard headed and as cool as ice in times of danger, Joe had more than once acquitted himself to his companion's full satisfaction. Of medium height, with a scrubby, sandy beard, covering nearly his entire face, he presented a somewhat ludicrous appearance, but a glance at the small, sharp, gray eyes, which gleamed from beneath his heavy eyebrows, would convince the beholder Joe was no fool. His sunburned countenance was surmounted by a shock of coarse, rebellious, red hair, which had a fashion of peeping out from under the rim of his hat with impudence characteristic of the wearer.

Light footsteps were heard jogging along the road, and, while satisfied it was McAllister with the contraband Chinamen, Lawton, with his usual caution, stepped into the shadow of a tree until reassured by a short, low whistle, which he answered.

"How many?" was Lawton's salutation.

"Four."

"Humph! You'll get us caught yet, Joe, with your lagging back."

"Hoot, mon! Ye dinna ken the twirls and twists of these jibberin divils. They're like a lot of old women with their chatter."

"Well, be quick," said Lawton, with the imperious air of command natural to him. "And the pay?"

"I've got it, mon, $200, right in my pocket. D'ye suppose I'd be a-foolin wid thim if not? Indeed no."

At a signal from Joe four shadowy forms glided out of the darkness, and with chattering teeth took the places indicated for them in the stern of the boat.

Joe and Lawton silently divested themselves of their coats, and shoving out into the stream pulled swiftly toward the shadow of the island, hugging its protecting gloom until they cleared the point. Here they rested upon their oars, listening intently for sounds of pursuit.

The smuggling of Chinamen had gone on to such an extent that the United States government was making extra efforts to put a stop to it.

A system of patrol had been inaugurated extending along the line, and it was a hazardous undertaking to run the gantlet.

The current of the river as it struck off the American shore set in toward the island which divided it, causing it to recoil with much swiftness, quickly sending them down stream.

Their destination being a point below, where their cargo would be met by a conveyance and then driven inland to catch an early train for the west, Lawton and his companion lost no time in pulling for the Michigan shore. The oars were muffled, so there was complete silence.

Suddenly the regular dip of oars was heard, the length of the stroke designating to the quick ear of the smugglers the presence of trained sailors pulling in man-of-war style.

With set teeth the fugitives—for such they had become—shot their boat back into the shadow and breathlessly rested on their oars, listening to the regular click of the oars of their pursuers.

These seemed to be rounding the point of the island from the Canadian shore.

"Are you sure of what you say?" came a deep, stern voice dancing over the water.

"Perfectly, sir," came the reply. "There were four of them in company with a short, thickset man, but they drove like the devil down the river road and thus eluded me. They must have embarked somewhere in this vicinity, and that's why I shot the signal."

"You did right. Confound it, it's getting as black as your hat, and you might as well look for a needle in a haystack as for these venturesome devils. Starboard! We'll pull for the cutter and make a running chase with the searchlight."

With this the click of the oars grew fainter, and for a moment the two men and their now thoroughly frightened companions breathed easier.

"By —, we've got to pull for it now, Joe," said Lawton in an undertone. "If they get that infernal electricity on us, it's all up."

Prudence was thrown to the winds. The mufflers on the oars were removed, and the two men set themselves down to their work in earnest. Their muscles, standing out like whipcords, plied back and forth under the skin with clocklike regularity, while their light draft, narrow boat shot forward at marvelous speed.

As the commander had said, it was indeed dark. Clouds of inky blackness now obscured the firmament, from out of which lightning shot with vivid brilliancy. The roll of distant thunder and low soughing of the wind, the advance guard of the storm, told the smugglers of a new danger in their path.

Between the roar of the now increasing peals of thunder there came down to the perspiring men the "clank, clank, clank," of the windlass, accompanied by the "Heave, aho!" of the sailors as the anchor was being raised.

A flash of blinding brilliancy from the searchlight illuminated the darkness, then settled down to a steady glare, as it was slowly turned up and down the river.

By this time the waters were being churned into foam by the wind and the sea was rapidly rising. Presently came the patter, patter, patter, of the big drops as skirmishers. Then came the downpour.

The floodgates of heaven seemed open, while peal after peal of thunder followed the incessant flashes of the lightning. Lawton and Joe kept steadily at their oars, but the great strain was beginning to tell on them, when to their joy the shore loomed up on their starboard bow.

The searchlight, however, was also coming, and so was the cutter.

Nearer and nearer came the glare across the water until first one arm, then the body, of one of the terrified Chinamen was within its focus. Presently the entire boat was in the broad path of light.

"Boat ahoy!" came from the cutter.

"Pull, Joe, pull!" growled Lawton. "We'll make it yet."

"Boat ahoy!" came down the breeze.

The only reply was a blinding flash, which came simultaneously with a deafening crash, followed immediately by the rending of timber and a cry of agony.

The cutter's mainmast had been struck.

For a moment all was confusion. Then the commander's stern voice was heard: "Take him below. To the light! Don't let those men escape."

The brief interval of confusion had given the tired rowers an advantage of which they were not slow to avail themselves.

"Give 'em a shot across their bows, Tom. Easy, man, easy! Aim close, but don't shatter them this time."

Scarcely were the words out of the captain's mouth when the small gun belched forth a fiery order to stop.

Whistling through the atmosphere the leaden messenger, true to the gunner's aim, buried itself with a thud in the seething water about ten feet ahead of the boat.

"Egad, they're a nervy set!" said the commander as the smugglers only redoubled their efforts to gain the shore.

"Hard a-starboard, there! Quick!" he roared. "Run inside of them and shut them out. Bear down close, but watch out and don't run them down."

The last hope of the fugitives had fled. Lawton turned in his seat and said calmly to Joe, "It's all up, partner; we're caught like rats in a trap."

Suddenly, like one seized with the frenzy of despair, the desperate speaker gave a quick, vigorous stroke with his right oar, thus throwing the frail craft directly in the steamer's path.

The captain saw the move and rang the backing bell, but too late; the sharp prow of the vessel cut through the boat like a knife, cleaving her in two.

A wild shriek of despair rang out on the night air and was borne away on the wings of the storm. The turbulent waters embraced six struggling forms. Life preservers were quickly thrown into the stream, while the pinnace was lowered in a hurry. The crew went vigorously about the work of rescue and succeeded in getting four out of the six.

One Chinaman and Lawton were missing. Nothing could be seen of the former, while the latter's head could be discerned bobbing up and down on the waves as he struck out for shore. The cutter's boat at once gave chase, when suddenly the swimmer threw up his hands, and, with one wild cry, disappeared from view and was seen no more.

He deliberately sought death rather than be captured. So the officers thought.

In a small cabin nestling amid the timber on a back road some miles from Windsor sat a woman. Her once handsome face showed the lines of care. While rocking the baby to and fro her dark eyes kept wandering to the door with an anxious expression as she listened to the storm without. From her faithful heart a prayer went up for the safety of her husband, the daring smuggler.

Lawton was a lawbreaker, an enemy of society, and should be suppressed, but he was all in all to this woman in the woods, who watched for his coming so eagerly. It was to be his last trip and they would again seek their home in Virginia. His father had forgiven the marriage against his wishes. Wealth and comfort awaited the pair.

"Will he never come?" she said as she laid her sleeping infant on the bed. The wind sang mournfully around the corner of the cabin. Hark, there were the snapping of twigs and a heavy footfall on the doorstep.

The flood of light from within shone on the dripping figure of the smuggler as his wife opened the door. The expression of savage triumph gave way to love light in his eyes, as unheeding his dripping garments she clasped her arms around him with a murmured, "Thank God, you are safe."

"You will stop now, won't you?" she continued, gazing at him with her soul in her eyes.

Softly he stroked the brown hair, thinly streaked with gray, and whispered in her ear.

A bright light spread over her face as she led the drenched man inside and closed the door.

The storm was over. The rising sun caressingly touched the top of the humble home. A squirrel scurried out of the open door. The hut was empty. A new day had also dawned for the daring lawbreaker, now on his way to his southern home.—Detroit Tribune.

In many part of France the coffin of a peasant woman is borne to the grave upon the shoulders of women.

A Wise Answer.

It takes but an ordinary man to return an angry answer to an insult. The extraordinary man is he who, under such circumstances, holds himself so well under control that he controls his adversary also.

Persia once possessed such a man and was clear sighted enough to make him a judge. He was the chief judge of Bagdad in the reign of Caliph Hadee, and his name was Aboo Yusuph. He was a very wise man, for he knew his own deficiencies and was actually sometimes in doubt as to whether he possessed sufficient wisdom to give a just decision in cases peculiarly shrouded in mystery.

It is related of him that on one occasion, after patient investigation of facts, he decided that he had not sufficient knowledge to pronounce on the case before him. There was in his presence a pert courtier, one of those men who take long to learn that wisdom and impudence are not closely related.

"Pray, do you expect that the caliph is to pay you for ignorance?" he asked, hoping to place the judge at a disadvantage.

"I do not," was the mild reply. "The caliph pays me—and pays me well—for what I do know. Were he to attempt to pay me for what I do not know the treasures of his empire would not suffice."—Youth's Companion.

A Fascinating Stranger.

"A Worcester man," says the Worcester Gazette, "who makes frequent trips to Europe fell in with a fascinating stranger the last time he was across. The stranger, who may be designated as Ferguson because that does not sound at all like his real name, was an American, his manners were those of a gentleman, and he seemed to be well supplied with money and to know a great many people worth knowing. In conversation with the Worcester man one day Ferguson said: 'Worcester is a charming city, and I have some very dear friends there. I presume you know Colonel E. J. Russell? He is an old and highly esteemed friend, to whom I am deeply indebted for many favors.'

"When the Worcester man returned home, he met Colonel Russell one day and in course of conversation remarked that he had met a man in Europe who said that he was an old friend. Colonel Russell thought for a moment, and then he replied: 'Oh, yes, I remember Ferguson very well! I ought to, for he lived with me for seven years once. It was when I was warden of the state prison at Charlestown, and I will say that Ferguson was one of the quietest and best behaved prisoners that I ever had.'"

A Lost Opportunity.

The Chicago Record says that some time ago a young organist secured permission to practice on the big organ in the Auditorium. An elderly man walked in and took a seat a few rows away from the musician. The young organist noticed him, and was encouraged to "show off" and do a few tricks of playing for his audience. He rambled on for an hour, and the elderly man sat there, apparently impressed. The young man tired at last and was about to lock the organ when the elderly man approached him and said in broken English that he wished to play for a few minutes.

"They don't allow any one but an experienced organist to touch the instrument," said the young man loftily.

With a little gesture, suggestive of meekness and humility, the stranger presented his card, "Alexandre Guilmant, Paris."

Then it was time for the young organist to swoon. He had missed the chance of his life. For an hour he had been entertaining the great master with homemade drivel.

Where to Carry Stamps.

"Business men have various ways of carrying their postage stamps," said the stamp clerk the other morning while sitting in his chair at the stamp window in the general postoffice. "A good many men who post their letters here always have one or more stamps about them. Some of them carry their stamps in stamp cases, but the economical man carries his stamps under the band of his hat or in his pockets.

"The other day a young man called for 'five twos,' and, putting one on a letter which he had to mail, he took out his watch and opening the back of it slipped the remaining stamps into the case. They don't stick to the cover, and that is about the best way one can carry stamps if he has a watch."—New York Sun.

Vindication.

"Are you not ashamed to look your children in the face?" hissed the unhappy girl.

Her father bit his lips; that done, he cut loose.

"I will no longer endure to be unjustly reproached!" he cried. "You kids get your pug noses from your mother's folks!"

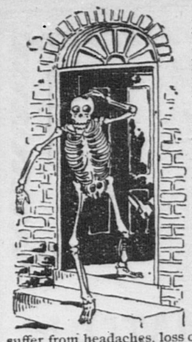

Sinking into a chair, he wept weak tears, not strong enough, indeed to phase the colors in the upholstering.—Detroit Journal.

Poisons In Food.

Decomposition in animal products often develops poisonous alkaloids, and cases of illness from eating canned goods are usually traced to this source. There is also an element of danger in salts that may be formed by the action of the contents of the can. Both these sources of danger have been reduced to a minimum by improved methods of canning, but it is idle to deny that they exist, and they demand reasonable precaution in purchasing and using canned goods.

A French physician has apparently proved to a certainty that the contagious period in whooping cough comes previous to the appearance of the "whoop."

Utah has the only deposit of pure pumice stone in the United States.

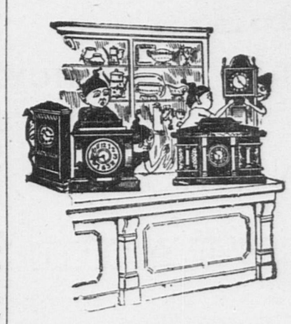

Unless the proper precautions are taken, death will lurk in every home. It dogs the footsteps of husband, wife and children alike. If the husband is an ambitious man, the chances are that he will overwork and overworry and take insufficient time to rest, eat and sleep. At first he may feel but trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It cures 98 per cent. of all cases of chronic or lingering, bronchial, throat and lung affections.

All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of wifehood and maternity. There is an unfailing cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It fits for wifehood and motherhood.

They are sold at all medicine stores.

During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babes by acquiring some practical medical knowledge. Dr. Pierce's Common Sense Medical Adviser imparts this knowledge. For a paper-covered copy send 21 one-cent stamps, *to cover cost of mailing only*, to Dr R. V. Pierce, Buffalo, N. Y. Cloth binding 31 stamps.

DR. RALPH M. FOGG,

DENTIST.

Teeth extracted absolutely without pain by the use of the

"BOSTON VEGETABLE VAPOR."

It is claimed that, while it has the required properties of ether, chloroform, nitrous oxide gas, it lacks the disagreeable and dangerous qualities of these drugs. It is certainly a boon to suffering humanity to be relieved of the nausea too often following the administering of sedatives of the old school.—Boston Transcript.

Teeth made and repaired on Gold or Rubber base. Teeth Filling a specialty.

Office in French's Building, five doors south of Post Office, Quincy, Wednesdays. Hours, 9 A. M. to 5 P. M. July18-1y Nov8-1yo

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston to Neponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.15 A. M. and every half hour until 10.15 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

CLOSE OF WAR

Generals Are Told of Spain's Acceptance.

Directed to Suspend All Hostilities.

Diplomacy to Take the Place of Arms.

Washington, Aug. 12.—The war is ended. Spain has agreed to the protocol submitted by the United States, and Ambassador Cambon is authorized to sign in behalf of the government of Spain. Hostilities have been suspended by direction of the secretary of war. So confident was the administration of favorable action by the Spanish cabinet that a dispatch was sent to General Miles directing him to suspend hostilities and inform the Spanish commanders. Similar instructions were sent to all generals in the field.

These instructions may not reach Admiral Dewey and General Merritt for several days, and it may be that Manila will be taken before the signing of the preliminary treaty, but aside from this possibility it is safe to say that the last hostile shot has been fired.

Nothing remains now but the formal signing of the protocol, the appointment and meeting of the peace commission, the negotiations and the ratification of the treaty. All this is the work of diplomacy and not war. The peace committee will be appointed at once, and it is said in administration circles that the American commission after coming to Washington to study correspondence and receive instructions ought to be able to set sail for Paris within a fortnight. The commission will be formally in session by the middle of September, and it is estimated that the deliberations will continue for at least six weeks, so that it will be November before the treaty is finally drawn. In the meantime another commission will be in session to determine upon the disposition of the troops occupying Spain's conquered provinces.

Although hostilities are at an end the American army will not be disbanded for a long time to come. Indeed it is said at the war department that a year will elapse before the volunteer troops are mustered out of service. Garrisons must be established in Cuba, Porto Rico and the Philippines, and camps will be maintained for months to come.

The regiments that are to form the army of occupation in Cuba, for no extensive army of occupation will be necessary in Porto Rico, will be selected and organized for their work out of the troops which have not seen service, but as not more than 50,000 troops could possibly be needed, the larger part of the volunteer army will be gradually disbanded. General Merritt will get the whole of the regiments he selected, to the number of 20,000 men, and more will be sent if necessary. The navy will be reorganized, and the old stations equipped with ships again, while there will be a general release of many of the auxiliary vessels taken for the war. Admiral Sampson, with the crack ships of the navy, is expected to make an exhibition visit to Europe, and ships may be sent to relieve Admiral Dewey's vessels. There will be almost as much labor for the departments in undoing their work of organization as in doing it.

Provision For Prisoners.

Washington, Aug. 12.—The settlement of the details of the evacuation of Cuba and Porto Rico is receiving the earnest attention of the officials. Some provision is to be made for the treatment of the Spanish prisoners and for the disposition of the small arms and the artillery and war stores. There is also some property of value in Cuban and Porto Rican ports, and it is a question whether or not this should be demanded by us, or be allowed to remain in Spanish possession.

The conclusion has been reached by Secretary Alger to refer these matters to a military commission, and Adjutant General Corbin is looking up precedents for the guidance of such a commission. Possibly this commission would meet the question raised by the naval war board as to the propriety of holding the castle as a pledge until the formal signature of a treaty of peace.

The Montauk Camp.

Washington, Aug. 12.—War department officials deny generally the assertions of discomfort and ill usage of troops reported from Montauk Point. The quartermaster's department, which has had charge of opening the camp, says that good progress has been made in the four days since the order was issued establishing it. Four wells have been dug 12 feet deep and one 30 feet deep, the latter furnishing a large supply and all below hard-pan. A tank is being erected which will hold 30,000 gallons, and pipes are being laid throughout the camp. All soldiers who have arrived have tents. The men found sleeping on the sand arrived on the midnight train and left it of their own volition. The commissary general's departments has reports from its officers at Montauk which state that there is plenty of food.

After Their Furloughs.

Washington, Aug. 12.—A general order has been issued at the adjutant general's office granting one month's furlough to the sick and wounded soldiers and transportation to their homes. At the expiration of their furloughs, if fit for duty, the soldiers must report to the nearest army post, camp or hospital for the purpose of being sent to their regiments. Those not fit for duty are required to report to the adjutant general of the army, forwarding their furlough, accompanied by the certificate of a physician stating their condition and probable time of recovery. Neither the cost of transportation nor the commutation of rations while travelling will be charged against the soldiers, and sleeping car accommodations by rail and staterooms by boat will be furnished them. In lieu of rations, the soldier will be paid $1.50 per day for the necessary number of days travel.

Soldiers, regulars and volunteers, whose regiments are in the United States will be sent by surgeons in charge of hospitals to join their proper regiments. Those belonging to volunteer organizations which are not in the United States will be sent by surgeons to the nearest military post or camp if able to do full duty.

Sorry He Bolted.

Santiago, Aug. 12.—General Garcia, who is angry because this city after its surrender was not turned over to the Cubans, severed all relations with the United States army and withdrew his troops, indicates a desire to reconsider his action in a letter that was received yesterday by General Shafter.

The letter is dated at Gibara, Aug. 5. It is in response to a request made by General Miles July 19, when he was planning his expedition to Porto Rico, that General Garcia detail 50 Cubans from his army to accompany the expedition as guides and scouts. In his reply, General Garcia said that, as he understood General Miles had already sailed, he supposed it would be too late to comply with the request. He stated, however, that he is willing to furnish the 50 men, if they are still wanted, and inclosed an order for them.

Prepared For a Drought.

New York, Aug. 12.—When the Yale started yesterday for Santiago, many of the Eighth Illinois (colored) volunteers were not aboard of her. During the five hours the regiment spent at the Communipaw depot many of the men got an over-sufficiency of liquor. When they reached the American line pier, the desire for more liquor led to the running of the guard, and in consequence many of them were left behind. Besides the rank and file, captains and lieutenants straggled down to the pier long after the Yale had passed the battery. All that appeared were sent on a tug after the cruiser. After the Yale had started six sick and wounded members of the Eighth Illinois were found by the police on pier 15, North river. They were removed to a hospital. One of the injured was hurt by falling from a train.

"I Did My Duty," Says Cervera.

New York, Aug. 12.—A special to The Press from Washington says: Admiral Cervera was interviewed at Annapolis. When informed of the alleged telegrams which Blanco was said to have sent to Madrid, before and after the defeat of the Spanish fleet, asking for Cervera's removal and pronouncing him incapable, the admiral expressed great surprise and indignation. "I have heard nothing of it," he said. "If General Blanco occupies his time in traducing me, I will pay no more attention to him. I will have nothing to do with that kind of a man."

"Why do you not justify yourself now before the people of this country and Spain?" he was asked. "Do you fear it might affect your reception on your return?"

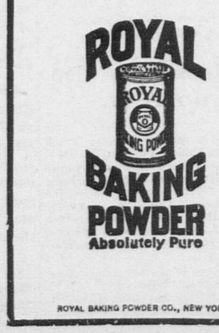

"I have no fears as to my reception in Spain," replied the admiral. "After all this is over there will be a concert which will clear up everything. I did my duty up to the last moment, and have no fears as to what the verdict of my people will be."

Policeman's Bloody Deeds.

New York, Aug. 12.—Policeman Hawley in a drunken rage yesterday shot and mortally wounded his wife, aged 25, mortally wounded his wife and mother; Maddie, aged 3, and then, turning the revolver upon himself, blew out his brains.

Just what the motive for the shooting was is a matter of conjecture. The police believe that Hawley's wife had taken him to task for his unsteady habits.

Royal makes the food pure, wholesome and delicious.

RECKLESS OF DANGER.

Incidents of Life on the Gunboats Off the Cuban Coast.

Venturesome Undertaking In an Armed Launch.

Brush With the Enemy, During Which a Coal Passer Was Killed.

Key West, Aug. 12.—On the morning of Aug. 2 the Bancroft was cruising about Cortes bay on blockade duty when a sail was seen close to the land, about 10 miles to the northward. The gunboat's steam launch was armed with a one-pounder, and Lieutenant Henry B. Wilson, with 14 men, all carrying rifles, was sent in to intercept the stranger. She turned out to be a Spanish schooner. When first observed the Spaniard lay near the wreck of the Santo Domingo, recently sunk by the Eagle. By the time the steam launch reached that point she had worked into a port and Spanish soldiers were attempting to haul her ashore. The launch stood boldly in, and a brisk fire from her one pounder speedily scattered the crowd. In spite of the fact that the party in the launch was ignorant of the enemy's strength, the Americans went on with their work with admirable coolness.

James Munroe, a first-class apprentice, swam to the schooner and made a line fast to her in order to pull her out. At the same time Valdemar Hohengreen, an ordinary seaman, dropped over the side of the launch and made for a pier where a small sloop-rigged boat was moored. The launch then commenced to haul off the schooner, but the line parted, and while another was being run to her the Spaniards, who had sought shelter in the woods, poured in a murderous rifle fire. A coal passer named Koulouris, who was leaning over the side of the launch, was shot through the breast and fell dead. No one else was injured.

Instantly the men in the launch began a rapid return fire with their rifles, while Lieutenant Wilson maneuvered the launch so as to take a line thrown by Hohengreen from the small boat, which he had shoved off from the pier. Her bow was pulled out and the one pounder was opened on the ambuscade with such aim that the Spaniards were routed without a chance to return the American fire. The schooner had in the meantime gone hard aground and, being so damaged as to be almost useless, enough shells were sent into her to finish her destruction. She was loaded with green corn, grain and rum. The launch then returned with the small sloop to the Bancroft.

Commander Clover warmly praised the gallantry of the launch party, which did not falter under heavy fire, but directed all its energies to rescuing Hohengreen, who, alone on the wharf, was in a perilous situation. Koulouris was buried at sea the same afternoon. Among his effects was found a letter to his father addressed to the Isle of Siphanto, care of the United States minister at Athens, Greece. The next morning the Bancroft started for Siguenca bay, where the Maple had gone to blockade and sound out a passage.

On Aug. 4 Commander Clover, who was senior officer there, transferred his flag to the Maple while the Bancroft's boilers were undergoing repairs. He took the launch with him, under Ensign Vogelsang, still armed with her one pounder. They proceeded to the northwest extremity of the Isle of Pines, and there saw a sloop and a large schooner anchored in shore. The launch went in after them, but as soon as she was observed approaching, the crews of the Spanish vessels took to their small boats. The sloop was aground, and towards this vessel Vogelsang headed the launch. As the latter drew near to the sloop, a party of Spaniards on shore opened fire on the Americans. Then the launch's one pounder again opened on the enemy; but before she had fired many shells the Maple opened fire with her six-pounder and swept the brush-lined beach. While the dense foliage ashore gave the enemy a decided advantage, no Americans were hit. The sloop turned out to be a trading vessel with no cargo on board and, not being worth the trouble of sending to an American port, a few shots from the Maple put her under water. The schooner, however, proved to be of value. She was the Carmita, loaded with wood and charcoal. She was hauled out and anchored until the next morning, when the Maple, towing the schooner and the launch, resumed her journey to Siguenca bay.

Commander Clover says that an extensive trade in wood, charcoal and sponges, with some chickens and fruit, is being carried on between Batabano, on the south coast of Cuba, from which port there is a railroad running into Havana, and Nueva Gerona, capital of the Isle of Pines. There are, however, no signs of foreign products getting into any of the ports between Batabano and Coloma, and the commander thinks such products have not entered on the west side of the island. The Bancroft took 16 tons of charcoal from the Carmita, and the Maple took a large lot of wood.

Capture of a Horse Thief.

Bennington, Vt., Aug. 12.—Simeon Neivman, who claims to reside in Rhode Island, and who was arrested here on a charge of horse stealing, was taken to Worcester today on the charge of stealing a horse and carriage from D. A. Brown of Webster. It is alleged that he is wanted at Keene, N. H., but he would not go there without requisition papers for the reason that he would get 10 years in prison in New Hampshire while only a short sentence would be given him in Massachusetts. He has confessed to stealing two horses and three carriages, which is believed by the officers to be only a small part of his operations.

Convention of Abstainers.

Boston, Aug. 12.—At the convention of the Catholic Total Abstinence union yesterday afternoon Mary Hunt of the W. C. T. union made a short address indorsing the temperance movement. She said that the forces used for driving the Spaniards out of Cuba should be utilized in driving the liquor evil from America.

Mary C. Firestone of Litonia, O., read a paper entitled "A Plan to Solve the Liquor Problem." Mrs. Firestone's idea was to use the idle hands in this country in building roads and to place the control of the liquor business in the hands of the government.

Father McErloin of St. Bernard's church, Mt. Hope, N. J., proposed establishing a free home for inebriates, somewhat on the plan of Keeley.

A communication was read from the Young People's Christian Temperance union of Boston, extending greeting to the convention and closing with these words: "Last evening demonstrated the material which you are made of. You mean business."

One of the resolutions reads: "The union, recognizing the efforts of the church, through her councils, in endeavoring to have Catholics withdraw from the liquor traffic, trusts that her appeal will be heeded and that all Catholics so engaged will withdraw from the sale of intoxicating drinks."

Mrs. Orr's Last Request.

Clarendon, Ark., Aug. 12.—This little city has assumed its usually quiet condition. The bodies of the four negroes, victims of Tuesday night's mob, will be buried across the river. The body of Mrs. John T. Orr, who killed herself in jail, has been removed to her residence for preparation for burial.

S. W. Boardman has given out a written statement prepared by Mrs. Orr on Monday just before she took the fatal dose. It reads: "I want my baby, Neva, to stay with Mr. Faifer, with his children, while I live, then Mr. Graham to have full control of her until my father comes for her, which I want him to do. I want my father to have my baby and to raise her. I want my baby, Neva, to have all my personal effects. My body is to be shipped to my father and be buried where he resides. I want to say to Steve Boardman, Wallace Graham, Mr. Morehead and Mr. Faifer that for the kind manner in which they have treated me, I hope that God will bless them. I hope God will forgive Rachel (Miss Morris) for the way she has treated me. I want all of my property and home to go to my baby, Neva, and I hope that his favorite lodge, Knights of Pythias, will see that this, my last will, is carried out."

Accepted the Irishman's Challenge.

New York, Aug. 12.—The New York Yacht club, at a special meeting last night, unanimously voted to accept the challenge of the Royal Ulster Yacht club to race for the America's cup. A committee was appointed to select the yacht which will represent the club, to arrange the date and place of the race, and all the other details.

Word was received that Charles Russell, representing Sir Thomas Lipton, had sailed from London for Canada, whence he will proceed to New York in connection with the challenge.

The following cable was prepared and sent to Hugh C. Kelly, secretary of the Irish club: "Committee appointed with full power to act on challenge and arrange all details. Challenge is to be binding and to carry precedence. Must be accompanied by name of owner and certificate, name, rig and dimensions of challenging yacht as specified in deed of gift. Your committee will be warmly welcomed. Vice Commodore Ledyard sailed on the Etruria Saturday. Will gladly confer with your committee on his arrival in Liverpool if you desire."

Below June's Figures.

Washington, Aug. 12.—The July exports of breadstuffs, provisions, cotton and mineral oil from the principal customs districts of the United States are reported by the bureau of statistics at $37,183,721. Of this sum breadstuffs alone amounted to $160,737,128; provisions, $9,973,607; cattle and hogs, $2,922,244; cotton, $2,828,669, and mineral oil, $4,722,073. While these figures for July fall $20,000,000 below those of June they equal those of July, 1894, and are $2,000,000 greater than the average July exportation of these articles since 1890. The exportation of breadstuffs in July, 1898, is in value 20 percent larger than in July, 1897; 25 percent larger than in July, 1896, and practically double of July, 1895.

The July exportation of provisions is less in value than in the corresponding months of 1897, 1896 and 1895, and this is true of mineral oils, though in the latter case the reduction is evidently due to the lower prices, the number of gallons exported during the month being slightly in excess of July, 1897.

Michael Won Easily.

Baltimore, Aug. 12.—Jimmy Michael, the Welsh champion, and Fred Titus of New York met last night in the presence of 4000 persons in their 15-mile paced bicycle race. Michael won easily by about 700 yards.

Titus was paced badly, but he rode hard and made strong bids for the race. On several occasions his pacemakers lost him entirely, and Titus was compelled to take hold behind his opponent's workers. On the other hand, Michael's men were as smooth and even as clockwork.

Tomorrow's Almanac and Forecast.

Sun rises—4:49; sets, 6:48.
Moon rises—12:59 night.
High water—8:30 a. m.; 8:45 p. m.

The weather will probably continue unsettled during the remainder of the week, thought at this time generally fair weather, excepting possible scattered local showers, with but partly cloudy skies seems most probable Saturday; it will probably be warmer, with winds shifting to the southwest. Sunday now promises to be fair and pleasant, with moderate summer temperatures and westerly winds.

New Advertisements Today.

Quincy Clothing Co.
C. H. Johnson—Auction.

Good Afternoon.

The Henrys or Harrys write interesting war letters. There are three in this issue, all from Quincy soldiers: Lieut. Henry W. Sprague with the Signal Corps at Santiago; Harry R. Osgood who is with the Philippine expedition; and the third from Harry McLaughlin, better known as "Mack," who writes from Camp Dalton.

Referring to the President's proclamation regarding civil government in Santiago, and the rights to private property therein, the New York Sun says: "The guarantee of this, so far as it is possible that it should be personified, is William McKinley, President of the United States; and we don't know of an insurance policy anywhere in the whole world that can hold a candle to it."

Bids for eight room school buildings in Boston varied this week from $34-900 to $43,259. This is more than Quincy paid for nine-room buildings with a large hall, which were built within the appropriation, too.

There is still a large balance of the appropriation of $3000 for edgestone and sidewalks. Only $398.89 had been expended up to August 1. Now is a good time to put in edgestone and a concrete sidewalk while the contractors are in town.

The City Council has been a little slow in making appropriations for operation of the sewer system, and even for the house connections, and it is probable that nothing can be done until the money is provided. Although an advance deposit is required from house holders before connection is made, a small appropriation will be necessary to be used over and over again, and for connections with public buildings. It is probable that few connections will be made before connection has been made at Squantum and the pumps are ready to start, but as many are anxious to connect before cold weather there should be no delay.

The method of sewer asssesment should also be determined, so that the city may receive a revenue. It is provided in Section 13 of the Sewer Act that assessments shall first be applied to the maintenence of and operation of the system. These assessments even at the start, if the abutters pay only one half, will be more than sufficient to meet the cost of maintenance, so that if the necessary sum is authorized this year and borrowed on a one-year loan, it can be paid next year from the assessments without expense to the taxpayers.

It does not seem advisable to assess the abutters more than one-half of the cost, to be paid within ten years, particularly as the sewer bonds run for forty years and it is provided that only one-fortieth of the cost will mature each year, or one-fourth in ten years. It looks as if the abutters were to pay the whole cost of the sewer,—maintenance, interest and bonds—for the first ten years even if they are assessed but one-half the cost. It would therefore be wrong to assess two-thirds and accumulate a fund.

The most difficult part of the assessment is the ratio on frontage, depth, area, or valuation.

The Woman

Of the Home

Does the purchasing for the family She reads the local paper religiously. Many in Quincy read only the Patriot which has been a weekly visitor to their house for upwards of fifty years.

FIFTH AS ESCORT

At the Funeral Today of Col. Bogan of the Ninth.

Left Camp Dalton About 7 O'Clock This Morning.

A Busy Day Yesterday Drying Clothing at Camp.

Camp Dalton,
Friday, Aug. 12.

Wednesday night in camp was very disagreeable. After the boys had returned to camp from the practice march, wet to the skin, another rain storm set in and continued hard all night, and all day yesterday with very few let ups. There are very few that carry more than one extra change of underclothing and some of these had everything on the line to dry as they were wet through by the rain. There was a chance to dry clothing at the kitchens but the space is limited. In a short time the streets were deep with mud, and to add to this in some instances the tents leaked badly. In some case the men slept in the mess halls. As there was no stopping of the rain. On such a day camp life was not what it is cracked up to be. The boys have become accustomed to hard knocks by this time, so there was no grumbling. A soldier expects most everything, and a little wetting does him no harm. Co. K made the best of it and remained inside as much as possible. Its officers did all in their power for the comfort of the men under them.

Yesterday morning no drills were held but the time was devoted to removing mud and drying clothing. Several drains were put in for the removal of surface water. The guards were the worst sufferers as most of them were obliged to remain out in the storm, there being very little shelter.

No ill effects of the march or wetting have come to light as yet, with the exception of a few slight colds.

In the afternon a drill was held by the regiment on the work to be done today at the burial services of Col. Bogan. Three rounds of blank cartridges were fired by the Regiment in a body. The first volley was irregular and premature, caused by some one firing before the command was given, but the last two went like clock work. The men enjoyed this as it is the first time they have smelled powder together.

The regiment left this morning for Boston on two special trains at 7.57 and 8.10. The march will be from Huntington avenue station to Charlestown From there to Malden, returning at 1.30 to camp. The regiment will march by platoons and will present a fine appearance.

They will prove themselves worthy of the respect they have already gained.

On Wednesday, Private Morrissey of Squad 9, and Corporal Matthews of Squad 5 received boxes of witch hazel, shaving soap, toilet soap, brass polish and other articles for distribution, sent by Chief Packard of the Quincy fire department. The boys want to thank the gentleman for his kindness.

Privates Thrumstrum and Gunderson are the last two lucky ones to be selected for Colonel's orderlies.

Co. K's number swells almost every day.

Through the efforts of Adjutant Bancroft special rates have been secured for round trip tickets to Boston via the Boston & Albany. Anything that means a saving is welcomed here, as money is conspicuous by its absence. Some think the paymaster will never come.

A first class shoe maker has been discovered in the ranks of Co. K. He is kept busy repairing shoes, and is paid from the Co. fund. This discovery will prevent a great many wet feet and will save not a few dollars, as shoes are worn in the army until the good is all out of them, and little provision is made for repairs.

Randall's watch still keeps him busy. He refuses to remove his moustache according to the popular fad in vogue here, but it would not suprise some if it were missing some fine morning when he wakes up. Strange things happen in camp.

Captains Kincaide, Stover and Facey, the committee appointed to draft resolutions on the death of Colonel Bogan, reported the following draft, which was adopted and a copy sent to the family:

"The officers of the Fifth Regiment of Massachusetts Infantry, United States Volunteers, shocked at the sudden death of Colonel Fred B. Bogan of the Ninth Regiment of Massachusetts Infantry, United States Volunteers, at a moment when he was apparently on the path to recovery from an illness resulting from brave and unselfish service, desire to record their respect for the man, their high esteem for the brother officer, their profound sorrow for his decease, and their sense of personal loss in the passing away of a courteous and genial comrade.

"Gifted by nature with all the qualities which go to make up the good soldier, he entered the service of his Commonwealth early in life, enrolling himself in our own beloved regiment, and rose from grade to grade until he attained the command of one of its companies. Transferred by the reorganization of the State force, he continued to advance, until he stood at the head of a sister regiment, yet ever retaining his affection for his first command, and giving it a place in his heart second only to his own organization. When preparing for the campaign, which unfortunately proved his last, he often expressed the hope that his old mother regiment might be near him, and we feel that we can justly claim him as a comrade, and as a comrade mourn his loss.

"True to the spirit which led him through three decades of peace to devote his best energies to the training and instruction of a generation of militiamen, his soldier heart would not permit him to rest while another led the volunteers to battle, but prompted him to make the extreme sacrifice—that of life itself—to the dictates of duty. With full consciousness of that sacrifice, he went, calmly as to a drill ground, into the field, where hostile bullets and the deadly pestilence claimed their ample harvest. Let all honor be to the man who shrank not in the face of death, but remained constant to his profession.

"To his family we extend our profoundest sympathy, with the assurance that his memory will be ever cherished by those who have been privileged to associate with him."

MACK.

FINE MARCHING.

Co. K. Friends Visit Boston in Large Numbers.

Those who take a kindly interest in the soldier boys visited Boston this morning to witness the march of the Fifth Regiment, United States Volunteers, across the city. Of course the interest of Quincy people was largely in Co. K, and they were pleased to note the improvement in marching.

When Co. K went to camp the old members, some forty in number, marched in one body, while at the end of the processions came the recruits very much like the Mulligan Guards, without uniforms or guns, with their extra clothing tied up in newspapers, etc.

Today they marched over 100 strong by platoons as good as soldiers of the regular army, making a fine appearance.

Two special trains from South Framingham brought the regiment which embarked near the Mechanics' Building on Huntington avenue. In a short time the line of march was taken up via of Huntington avenue, Boylston, Arlington, Beacon, School, Washington and Charlestown streets to St. Catherine church in Charlestown. The route was passed the State House and City Hall, and through Newspaper row and Adams square, and there was some cheering by the crowd of bystanders, although the regiment was out to attend a funeral.

Arriving at Charlestown the escort formed on Vine street, right resting on Chelsea street under the direction of Lieut. Col. Oakes. At the close of the service in the church the cortege moved toward the Holy Cross cemetery through Chelsea street, City Square, Main street and over the Malden bridge. The Fifth had the right of the line, a platoon of mounted police leading the way. In the procession were also 1st corps of Cadets, a detail from the Ninth Massachusetts, millitary officers, representatives of the state, the legislature and the city, the Grand Army and several societies. Following the hearse was the horse presented to Col. Bogan when at camp at South Framingham, led by a private of the Ninth. Such a display of floral offerings has seldom been seen at a funeral and included from the Fifth, a badge of the regiment, composed of asters resting on a base of ivy leaves, tied with red, white and blue ribbons.

The Fifth took a train at the Broadway depot directly after the services at the cemetery to return to camp.

A salute by the entire Fifth regiment was fired at the grave.

The steamer New Brunswick which is hauled along side of the old fertilizer wharf, on the Neponset river at Atlantic, attracts a great deal of attention. The New Brunswick was built at New York in 1860 for the International Line of steamers plying between Boston, Eastport and St. Johns. She was hauled off a few years ago and eventually sold to Thomas Butler & Co., the junk dealers, who desire to sell her instead of breaking her up at Nut Island, as they usually do with the boats they purchase.

At Plougastel, a small town in Britany, all the weddings of the year are celebrated on one day. In February last 34 couples were married simultaneously.

Bath, Eng, now boasts of three canary birds hatched out of one egg. The little fellows were about the size of bumble bees, but are alive and growing.

In the fords on the Norwegian coast the clearness of the water is wonderful Objects the size of a half dollar may be seen at a depth of 25 or 30 fathoms.

All birds when perched on trees or bushes serve a weathercocks, as they invariably arrange themselves with their heads to the wind.

HONOLULU LETTER.

From Harry Osgood with the Philippine Expedition.

The following is a letter received by Mrs. H. A. Lowe from her nephew, Private Harry R. Osgood of Wollaston:

Honolulu H. I.,
July 4, 1898.

I cannot leave this beautiful place without describing it while it is fresh in my memory.

We left San Francisco Monday afternoon, June 25. We were most awful sea sick, and as there were about 1000 soldiers on board, you can imagine how things were for a couple of days. I was pretty sick at the time, but if you could see me eat here at Honolulu you would be afraid I would be more so. Never ate so much in my life as everything tastes so good after living on salt pork, hard tack and black coffee, for that is about all I had to eat.

We came into the harbor yesterday at daylight and at nine o'clock my two chums and I got a pass for two days and started on our touring. This is the most beautiful spot I ever saw. It is a perfect Garden of Eden. Every yard is filled with flowers of all colors, and most of the trees have blossoms of red. Palm trees, bananna and orange trees grow right in the front lawn, and the air is filled with the music of mocking birds. The people are very hospitable and they can not seem to do enough for the American soldiers as they hope some day to belong to America, and it will be a big mistake if the United States does not take the entire group of Hawaiian Islands. There are a lot of Americans here, and many of the business streets look just as Boston streets do. The buildings are all decorated with "Old Glory," and the windows are filled with pictures of Washington and Dewey.

This noon the 18th regiment marched up to the government grounds and had a fine dinner. It was given on the finest lawn I ever saw, and as we had music all through the meal, it couldn't have been much better; and perhaps we didn't give the ladies some good old American cheers when we got up from the table.

We get fee rides on the "electrics;" no, I mean tramway cars. They are drawn by mules, and I don't think you would call it "rapid transit." There is one thing I am glad of, and that is the soldiers are behaving themselves like gentlemen, and I hear the people telling each other what a difference from one of the other expeditions.

I went to a ball game yesterday between the home team and the 13th Minn. The Honolulus won 13 to 5.

The 13th Minnesota has the best drilled companies in this expedition, and they get lots of praise. Even the old regulars admit that they do pretty well and that is a good deal, for they haven't much use for volunteers.

Gen. Merritt arrived today on the Newport, and we have got to sail tomorrow afternoon at 2 o'clock. I dread the three weeks' trip but it will soon be over, and then for some excitement for I hear that Spain has started a big fleet for Manila. I have got to be on board tonight at 11 o'clock, and as it is nearly 10 now, I must close.

HARRY.

Co. E, 18th Infantry.

Sudden Death.

The death of Edward H. Dewson of Adams street last night comes as a surprise to many. However, he has not enjoyed good health of late. He was a leather merchant of Boston, and has been prominently connected with the First church, the Adams Academy, and the Quincy Historical Society. His history of Hancock Street and the Training Field; Past and Present," read before the Historical Society and published in the Patriot and in phamphlet form in 1896, was a valuable contribution to local history covering a period of 257 years. Mr. Dewson leaves a widow, four sons and two daughters. One of the sons, Edward H. Dewson, Jr., is in Germany.

DIED.

DEWSON—In Quincy, Aug. 11, Mr. Edward H. Dewson, aged 65 years and 8 months. Services private.

By C. H. JOHNSON, - - Auctioneer. Office, Adams Building, Quincy.

Household Goods

And 30 Hens

Aug. 12. 4t

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Miss Gertrude Davis has returned from an extended visit in Lowell.

Band concert tonight by the City band at Liberty square, South Quincy.

Work paving Hancock street has been commenced, beginning at the southerly end.

The band concert in City Square Saturday night will be by the National Guard band.

Mrs. Albert McCurdy of Norfolk Downs is spending her vacation at Sharon Springs, N. Y.

Commissioner Knowlton has commenced resurfacing Hancock street near the High school building.

The annual clam bake of the employes of the Water department will be held at Rock Island Saturday afternoon.

Another interesting letter tomorrow from Lieut. Henry W. Sprague of the Signal Corps. It will report his arrival at Santiago.

Auctioneer Johnson will have a sale of household goods next Wednesday at the residence of Andrew Hanson on Parker street.

Copies of the city charter and ordinances corrected to date have been printed and are now ready for distribution at City Hall.

Officers Barry and Holloran returned from their vacation Saturday and Officers Ferguson and McKay go off duty for two weeks.

The cars for Weymouth Landing now leave at City Square at 5 and 35 minutes past the hour and connect with the third rail electrics.

The Quincy Clothing Co. don't sell overalls for 25 cents, but they have 50-cent ones for 39 cents and guarantee them; also other bargains.

Chief Enigneer Packard of the Fire department placed his flag at half mast in respect to Col. Bogan. Most of the Quincy flags fly at the mast head.

On Saturday at 3 o'clock the T. R. & S. nine will play the Prospects of Brockton at Merrymount park and the Roxburys will be here next Saturday.

Members of the Ladies' Aid Society of Wollaston, to the number of 29, chartered an electric car and went to Nantasket on Wednesday, where they had a delightful time.

The curbing for the new permanent sidewalks on Crescent and Willard streets is in position, but the stormy weather has interfered somewhat with the completion of the job.

The August 1 report of Auditor Hall showed that none of the $100,000 appropriated this year for sewer construction had been expended, and there was a balance of $19,375.11 from 1897. There has been expended this year 66,226.98.

Mr. W. P. Stephens, the famous New York yachting authority, and who is also one of the editor of the Forest and Stream, writes to the secretary of the Quincy Yacht club that he is coming down from Montreal to attend the cup races.

The entertainment at the Quinc Yacht club house on Thursday evening, Aug. 23, will be by the Oxford Musical club of Salem. It will be remembered that this club was one of the star organizations at the People's course last winter.

Mr. and Mrs. Frank E. Darling and son of Arlington are the guests of their uncle, Mr. Stuart N. Sanford a Norfolk Downs for a few weeks. As they have their horse and carriage with them they expect to have some pleasant drives through our city.

A great improvement is underway at the residence of Dr. William Everett on Miller Stile road during his absence abroad, so that he will hardly recognize it upon his return. It is under the direction of Perry Lawton, the civil engineer, who is doing a good job.

The Recruit's rudder which was bent into the shape of the letter S on the morning of the Wollason Yacht club's open race by being accidentally run on to a mud bank by the boat keeper, has been repaired. The accident was not discovered until a couple of days after the race.

The City Clerk has received a number of verbal applications from veterans of the Civil war for bounty from the State, the payment of which was authorized by chapter 525 of the Acts of 1898. All claims for bounty under this act must be made before the first day of November.

Chief Packard has received this week the equipment for throwing a life line at fires which is required by public statues. It all comes in a box about the size of a croquet set box, and incudes a breech loading gun, arrow, cord, cartridges, caps, powder horn, etc. The gun shoots the arrow to which the cord is attached.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

Household Advice:

When in doubt as to how to furnish your bed room, select a White Iron Bed, and then buy the other furnishings to correspond with it, and you will be sure of a pretty bed room. A white iron bed will harmonize with any furniture. . . . . We sell loads of white iron beds because they are "the style." They are popular because they are ornamental, as well as healthful. Prices range from $2.75 to $35.

LATEST!

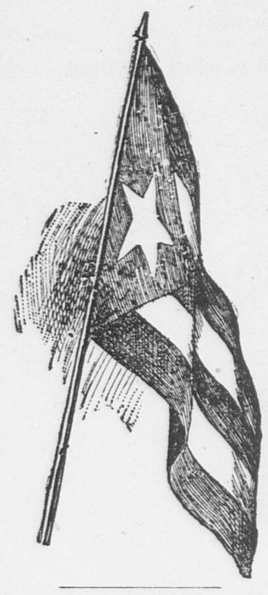

3 O'Clock.

SPAIN AGREES

Authorizes the Signing of the Protocal.

Will Be Executed Today at Washington.

Madrid, Aug. 12— The Spanish government this morning notified the French Minister of Foreign Affairs of its acceptance of the Protocol and requested him to transmit to M Cambon the French Ambassador at Washington such power as will enable him to sign the Protocol.

Will be Executed Today.

Washington, Aug. 12—The Protocol will not be signed prior to the cabinet meeting, but will be sometime this afternoon. Up to 10 o'clock the French Ambassador had not received authority to sign it No doubt is entertained but what the formal execution of the document will take place today.

WILLIAM M'KINLEY.

Waiting Authority to Sign.

Washington, Aug. 12, 1 P. M.—The Cabinet has been in session all the morning. Secretary Day in leaving the meeting stated to the reporters that he had received no official notice of Spain's acceptance of the Protocol other than that in the newspapers. Official circles, however, say that there is no question but what it will be signed this afternoon. The delay is caused by the French ambassor not having received the authority to sign.

In Their Country's Service.

Quincy now has over 100 men enlisted as soldiers and sailors in the war, the following being in addition to those enrolled with Co. K, 5th Mass. Regiment U. S. Volunteers:

Edward A. Bumpus, commissioned 2d lieut. U. S. A.
Henry W. Sprague, commissioned 2d lieut. Signal Corps, U. S. A.
Harry H. Sheen, commissioned captain of Co. A, 4th Regt., Virginia Vols.
Howard D. Hunt, Co. H, 1st Colorado Vol. at Philippines.
John S. Odom, Co. M. 8th Mass. Vols.
William S. Moore, U. S. S. Columbia.
John W. Westfall, Navy.
John Boyd, 9th Mass. Vols.
James P. Clarke, sergeant 9th Mass. Vols.
Edward S. Ago, 9th Mass. Vols.
Edward Bowlen, 9th Mass. Vols.
Patrick Quill, 9th Mass. Vols.
Frank O. Dean, Mass. Heavy Artillery.
Joseph J. White, H. A., at Portsmouth, N. H.
James Duane, 8th N. Y Vols.
Demanic Stanton, 69th N. Y. Vols.
Barney Malarkey.
Francis L. Clark, Battery B, 2d U. S. Art.
Corp. John Malone, 69th N. Y. Vols.
Sargt. Thomas Finnigan, 69th N. Y. Vols.
Joseph White, 2d Heavy Artillery.

William H. Ditson, U. S. S. Prairie.
Thomas Hughes, Co. G, 7th H. A.

Who will add to the list? The Ledger hopes to hear often from the Quincy soldiers and sailors, and will gladly pay postage on receipt of letters.

Died in Service.

Private Charles E. W. Rinn of Atlantic, who was in expedition against Santiago, died at New York, Aug. 8, 1898.

Drove the Enemy.

Washington, Aug. 12.—The war department yesterday afternoon received the following from Ponce, being a report to General Miles from General Schwan: "Advance guard, including cavalry of this command, while reconnoitering northwest of the Rosario river, near Mermigueres, developed a strong Spanish force which lay concealed in the hills north of Mayaguez. In a general engagement that followed Lieutenant Byron, Eighth cavalry, my aide-de-camp, was wounded in the foot, and Private Fermberger, company D, Eleventh Illinois, and one other private were killed and 14 enlisted men were wounded. It is reported that the most if not the entire Spanish garrison of Mayaguez and the surrounding country, consisting of 1000 regulars and 200 volunteers, took part in the engagement. We drove the enemy from his position, and it is believed inflicted heavy loss. A wounded Spanish lieutenant was found in the field and brought to our lines."

Smokeless Powder For Springfields.

Washington, Aug. 12.—The ordnance department of the army has succeeded at last in securing a smokeless powder adapted for use in the Springfield rifle with which nearly all the volunteer troops are armed. The powder used with the small bore repeating rifles was too powerful, and a special powder had to be procured. This is now coming in from the manufacturers and being turned into fixed ammunition in such quantities as to warrant the belief that even should the war continue our soldiers would not be again exposed to the danger encountered at the battle of El Caney.

Sternberg Not to Blame.

Washington, Aug. 12.—In view of the complaints against the medical branch of the army the statement is given out that Surgeon General Sternberg on April 15 made the following recommendation to the adjutant general as to medical supplies to accompany the army. Each regiment to take two ambulances, four extra litters, a field hospital for 10 men, medical and surgical chests, field supplies for three months; infantry regiments to have a steward or acting steward, and 10 privates of hospital corps; cavalry regiments to have two stewards or acting stewards, and 15 hospital corps men; a light battery to have one ambulance, field hospital for five men (one hospital tent), an acting steward, and five privates of the hospital corps.

On April 20 the surgeon general sent instructions to Major B. F. Pope, chief surgeon in Tampa, directing him to inspect the medical department of each regiment upon its arrival and report to him the deficiencies in medical supplies. The surgeon general also furnished a long list of the more important articles of medicine that were sent to Tampa and Santiago with the army. The regular regiments had each a medical and surgical chest, litters and other field supplies before the above articles were issued.

MILTON.

The second lecture in the series on "The Christian Life of the First Four Centuries," will be given by Rev. T. I. Reese of the East Milton Episcopal Mission Sunday evening at Ellsworth hall, when the subject will be "The Foes without Persecutions."

Richard Folsom and family have gone to Boothbay, Me.

The game of ball at East Milton park, Saturday, between the Milton A. A. and Beacons of Boston.

John Kendrick and family have gone to Boothbay, Me.

Mrs. Joseph Pearce and children have gone to New Hampshire.

The superintendent of streets is doing a good job on Adams street between the Quincy line and the railroad crossing.

George Merrill has purchased a team and is going into the provision business.

Mr. N. C. Buck, who had a shock of paralysis some weeks ago, is reported as improving.

Paul Eaton is spending a two weeks' vacation in Maine.

THE GREAT FAMILY PAPER, INTO THE HOMES IT GOES.

The Quincy Patriot continues to lead all other Norfolk County papers in circulation.

EN ROUTE SANTIAGO.

Lieut. Sprague Writes of a Chase by Gunboat.

[Continued from Wednesday.]

On Board Transport No. 2,
En Route Santiago, July '98.

Just as we ran out of the storm the isle of Pines (El Pino) loomed up into view and the most exciting part of our voyage took place. We were all looking at the land when Swab called our attention to a small craft heading directly toward us. We all knew that there were several Spanish gunboats still there and we got every pair of glasses turned on her. The black smoke was pouring in enormous quantities out of her and we could see that she was gaining on us. As we were under a full head of steam we were doing all we could and as our armament consists of a single old fashioned brass cannon such as is used in 4th of July celebrations you can imagine what kind of a defence we could make. You can imagine how we felt. (that is why the further out to sea we go the better I like it.) But there was no help for it, all we could do was to await the results. All of a sudden she fired a solid shot which fell short of us and threw up the water in a perfect torrent. The Captain immediately hove to and for a few moments we pitched and rolled without making any headway. Then we headed towards the gun boat and put up an enormous American flag at our stern but not a sign of recognition did the gun boat show. She was painted such a dark drab that it looked like black and her flag was small and so discolored that we could not even guess what it was. Even the major in the U. S. A. came to the conclusion that she was Spanish.

Well, as she showed no signs of answering we sent a squad to flag her up to the bow. She answered which somewhat reassured us, although we did not know whether the acknowledgment was the same in the Spanish navy or not, but she had ceased to come toward us and was slowly drifting astern, by that time we could see that she was a U. S. converted cruiser and you can imagine the sigh of relief when we really knew that she was our friend.

She proved to be the gun boat Eagle, armed with four 6 pound rapid firing guns. She was not very large; we could easily have taken her on our deck, (that is it looked so.) She was formerly a steam yacht belonging to Galloup of New York, and the coincidence about it was, that our Captain, (Brickley) was formely her captain and had been around the world in her.

As soon as they drifted around our stern, they put on steam and pulled up abreast of us and hailed us with the megaphone. They asked us who we were and where we were bound. Said they thought we were the converted Spanish cruiser, the Montevidio, which had been running the blockade. They told us that the day before they had run down and captured a Spanish bark with 1000 pounds of flour and two 12-inch guns, that were to be mounted in Havana. They also told us Spanish boats kept near the shore, etc. We gave each other three cheers and each went our separate ways.

Of course it does not sound like much, but when you don't know whether you are about to be captured or not it is an entirely different matter and the strain is severe while it lasts. Since then we have not sighted land and as far as I am concerned I am not sorry.

My ideas of the south, the gulf stream and everthing else have undergone a decided change. I could not tell when we were in the gulf stream or when we left it. The water is of an intense indigo blue and apparently quite smooth. It is not clear or at least does not look so, the color seems to come entirely from the sky, as I notice it changes with the clouds. Some flying fish can be seen once in awhile, two or three dozen at once, while occasionally a piece of light green seaweed floats by, but that is all. In Tampa bay we saw quite a number of porpoises but everything I expected has failed to be, even to the wonderful sunsets I had read about. As a matter of fact, I have come to the conclusion that what we have in New England is better in every way than what they have anywhere else, and I extend this to everything including the weather.

Last night we looked for the Southern cross but either it was too hazy or else we were not far enough south, as we could not find it. This morning we were off Cienfuegos and expect tomorrow we shall be at Santiago. Outside of three gun boat, we have sighted just three ships and they must have been at least twenty miles away, so you see I have not had any chance to get a word to you. If you receive a letter that is finshed in a hurry you will know that I found an opportunity to mail it, and took advantage of it.

This morning (July 27th) when I awoke a long line of mountains appeared on our port side. We were seven or eight miles away so could distinguish nothing; We are still passing by the mountains (the chain runs as far as Santiago) but had gone in much closer to the shore. I have seen five wrecks of the Spanish fleet but they were so far away that they resemble only the hulks that you see at Houghs Nec. But in looking at them through the glass I should think that they could be saved. All we can see is a continuous line of mountains covered with trees at the present moment we are rapidly approaching Santiago but as far as I can see it looks like an uninhabited country. However it maybe that we have to go into the harbor before we can see anything. H. W. S.

(To be continued).

City Square Band Concert.

The programme for the band concert in City Square Saturday night by the National Guard band, as will be seen by the following programme, includes two vocal selections by Mr. W. R. Adams. Mr. Adams has a fine tenor voice and his selections "Holy City" and "Up with the Flag" cannot fail to please.

1. March, "Stars and Stripes Forever," Sousa
2. Overture, "America," Catlin
3. Rag Time, "Georgia Campmeeting," Mills
4. Song, "Holy City," W. R. Adams
5. Selection, "Milk White Flag," Kerker
6. Waltz, "Love Knots," Wormser
7. Song, "Up With The Flag," W. R. Adams
8. Fantasia, "Way Down South," Lavrendeau
9. Selection, "Cluster of Peaches," Beyer
10. Finale, March, Reeves

Real Estate Sales.

Twenty-one Quincy sales were recorded at the registry at Dedham last week, a rate of over 1,000 a year.

John Swithin et al, trs. to Herman Hultin, $1.
John Federhen to Herbert M. Federhen, $1.
John Federhen to John Federhen, 3d, $1.
Charles C. Barton et al, trs. to George F. Elcock, $1.
John H. Dinegan to Mary A. Bowen, $1.
Eliza M. Soulis to Herbert T. Whitman et al, trs., $1.
Lora C. Merrill by mtgee. to Ettie M. Morrill, $1,000.
Thomas B. Morrill to Ettie M. Morrill, $550.
Edwin W. Marsh to Orissa B. Beals, $150.
Andrew M. Deane to William H. Deacon, $2,350.

Henry H. Savage et al, trs. to Jennie F. Fenn, $1.
Edwin W. Marsh to James Craig, $314.
John T. Pope by mtgee. to Arthur H. Brooks, $32,700.

San Souci.

The Sans Souci is making a distinctly favorable impression, and is winning great success on its merits in catering to the very best class of patrons. The vaudeville programme for the past week proved more enticing than any presented thus far, though the coming week's bill excels all the previous ones at this place. Heading the list was Lottie Gilson, who made her first Boston appearance since her tour of the leading European music halls. She is known as "The Little Magnet." A sensational novelty was the appearance of Adele Purvis Onri, in her famous and original spherical serpentine dances and posings. The elaborateness of her performance may be realized when it is said she carried with her special electrical apparatus for lighting effects, and several operators. For the coming week, commencing Aug. 15, the list of favorites is greater than ever, being headed by Maggie Cline, and including Ward and Curran, Burt Haverly, the Stewart Sisters and Imogene Comer.

TODAY'S COURT.

William Best was arraigned for cruelty to a horse at Randolph. Case continued until August 19.

Anna Wald was arraigned for the malicious breaking of window glass in the house of Jones Howe at Wollaston, and was fined $5.

James M. Briggs was arraigned for threatening to assault Franklin C. Briggs at Braintree. He was ordered to give bonds to keep the peace for six months.

—The electric car mail service is to be extended so as to include the Landing. This is done in order to avoid confusion at Quincy, many Weymouth letters coming to the former city by mistake.—Weymouth Gazette.

Hotel Fensmere

Fensmere Beach.

Have a Fensmere Clambake.

DIET FOR TYPHOID FEVER.

How to Care For a Patient Suffering From This Disease.

Hippocrates and other Greek physicians employed a cereal preparation which they termed ptisan as an excellent diet in fevers, says Dr. J. H. Kellogg in New York Voice. Ptisan consisted of a thin gruel, prepared from barley meal, and boiled a long time. The Arabic and other physicians of the middle ages, as well as Galen and Roman physicians of the early centuries of the Christian era, also made use of ptisan. Modern physicians have depended largely upon milk, but extended observations have convinced the writer that milk in its ordinary state is not the most wholesome food for use in typhoid and other fevers. Milk requires an abundant supply of active gastric juice for its digestion. This is lacking in fever.

Well cooked cereals, and especially predigested cereal foods, fruits and prepared nuts are especially valuable as constituents of a fever dietary. Among the predigested foods are zwieback, granola and granose, which, taken either dry or softened with water or fruit juice, are exceedingly wholesome, the starch being largely converted into acroodextrin, which by a single added step is quickly and easily converted into sugar. Malted nuts dissolved in water and maltol are also highly valuable for use in fevers.

Fruit juices without cane sugar, and such fruits as peaches, baked apples, ripe grapes (rejecting seeds and skins), are also suitable for fever patients. In the early stages of the disease the diet may, for a few days, consist of fruit juice alone, as the patient cannot appropriate food to any extent and fasting is of real advantage. After the first week the farinaceous preparations mentioned may be added. The nut preparations are most appropriate for the beginning of convalescence and onward, and are superior to anything else for rapidly rebuilding the wasted body.

How to Make Potato Dumplings.

One quart of grated cold boiled potatoes, measured after they are grated, two eggs, two tablespoonfuls of flour, half a teaspoonful of salt, an eighth of a teaspoonful of pepper. Mix the potatoes, flour and seasoning together, beat the eggs until light, add to the potatoes; mix all together. Divide the preparation into 12 parts. Roll each part into a round ball, drop it into boiling salted water and boil 15 minutes. Remove them with a skimmer and serve.

How to Clean the Skin With Oil.

From the druggist get two ounces of oil of sweet almonds, four drops of oil of bitter almonds, one tablespoonful of camphor water and four ounces of white wax. Put this in a dish set in a basin of boiling water and stir until the wax is melted. Add one-fourth of a teaspoonful of salt. Then beat it until it becomes cold. It will take about an hour and should be smooth like salve. If not beaten, it has a grain and is not so good. Sponge off the face with clear, warm watr. Then apply this oil, rubbing it in with the tips of the fingers. Then with a moderately coarse towel proceed to rub it off. If you do it hard enough, the towel will be quite black. This oil may be used at any time, but it is better to use it at night, following with the hot water without soap. This cleaning oil does what the soap cannot do.

How to Cook Artichokes.

A rather common way of cooking artichokes is to bake them. They should be peeled and trimmed as for boiling, then put in a baking tin, with two ounces of butter (melted) and salt and pepper. Bake for half an hour, when they should be a nice brown, but they must be well basted to achieve the latter result. Artichokes are good fried in chips, the chips being quite thin and the frying medium butter.

How to Diet For Gastric Catarrh.

Avoid all foods which readily undergo decomposition, such as cheese, meats, milk, butter and animal fats. Adopt the plan of eating twice daily, and make the diet exceedingly simple. If you can go to bed for a couple of weeks and live wholly upon buttermilk, koumiss or kumyzoon, this will give you a good start. Or you might adopt a fruit diet for a few days. In the use of fruit, you must be careful to avoid seeds and skins. Grapes, cooked apples, stewed peaches and fruit juices are the best fruits for you to take. You might take in addition a small amount of some well prepared cereal food, such as granose, and may also be able to digest moderate quantities of maltol and bromose.

How to Cream Beef.

Scrape perfectly lean beef to a pulp, mince, put in a pan with salt, pepper, one tablespoonful of water, two tablespoonfuls of rich cream, butter the size of an egg. Cook two minutes, stirring constantly. Add one tablespoonful of cracker dust and one teaspoonful of made mustard.

How to Care For Goldfish.

Little ones that have goldfish and wish to keep them well should allow them as large a glass bowl as possible. Renew the water every day by means of a siphon, so that the fish may not be frightened by being caught in a net. In giving fresh water one gives fresh food of the most wholesome kind. Never give them bread. Ants' eggs dried can be procured at any drug store. Every other day give three or four of them to each fish. The bowl should be in a bright place, but not in the direct rays of the sun.

How to Make Chili Sauce.

To make chili sauce, take 24 medium sized tomatoes, four green peppers, four onions, chop all fine together, add two tablespoons of salt, four tablespoons of sugar, four cups of vinegar and boil two hours.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

Some Know Them.

Marvelous scenery, exhilarating air, and delightful surroundings have made the White Mountains famous and popular as a region for summer tourists. Every part and parcel of the mountains are gorgeously arrayed in surroundings beautiful to behold, and so numerous are the resorts that only brief allusions to them can be made.

For a full half century the vicinity of North Conway has been an abiding place for summer tourists and few places can boast of so many scenic features. There is the White Horse Ledge for one to discern, while many singular natural characteristics like Diana's Baths, Artists' Falls, Cathedral and Enchanted Woods ought to be visited. Intervale is a most charming locality, and its landscape views, delight every visitor. In Jackson one is at once satisfied, for their is no end to the rambles that can be made to Glen Ellis, Carter's Notch, or to any one of a score of mountains that are close at hand.

Over at Faybans and Mt. Pleasant one finds many interesting places to visit. There is the ride to and through the Crawford Notch and the trip up Mt. Washington to the Summit of Mt. Washington where over 6000 feet above the sea level one has an unobstructed view covering many miles in every direction.

In the vicinity of Bethlehem there is an atmosphere so clear and pure that hay fever sufferers find immediate relief; but all who visit Bethlehem are by no means invalids, for there is a most remarkable assemblage of pleasure seekers to to be found there each season. It is a gem locality and pretty landscaps are everywhere.

Littleton is in the very heart of the White Mountains, and it is needless to say that its superb scenic surroundings are unparalleled. Likewise Sugar Hill, a popular outing resort. Its situation nearly two thousand feet above the sea level gives it a most expansive outlook, and the mountains of Vermont and Canada are plainly visible while not far away are the Mountains known as Twin, Starr King, Cannon, Dixville, the Presidential Range and a dozen others. Below in the valley is Franconia and not a great way off is the Franconia Notch, which travelers say is the most beautiful mountain pass in the country, a region of extraordinary beauty. It it is here that the famous "Old Man of the Mountain" holds forth. Then there is in this same region several very uncommon, yet interesting, nature wonders like the Flume, the pool, the basin and Echo Lake. At Jefferson, at Dixville, at Whitfield, at North Woodstock and at half a hundred fully as noted resorts the tourist can find much to interest and entertain him, while no region in the country has such finely appointed hotels as the White Mountains of New Hampshire.

The whole region is traversed by the Boston and Maine Railroad and its Mountain Book, which is issued by the General Passenger Department at Boston, describes in an entertaining manner every inch of the White Mountains. Send a 2 cent stamp for it.

—The first patent medicine is said to have been called "Tuscarora Rice" sold as a "consumption cure" by Mrs. Masters in 1711. She erected a large factory in New Jersey, and probably inaugurated the patent medicine trade in the United States.—Lippincott's.

ACTIVITY OF CARLISTS

Armed Bands In Regions Favorable to the Pretender.

Arrest of Soldiers Opposed to the Dynasty.

Rising Announced to Occur After the Conclusion of Peace.

Madrid, Aug. 12.—Although strongly denied by the government, it is said that there is a Carlist armed band near See de Urgel, among the Pyrenees, and that there are three others in the region of Maorztrazge. All are small parties, but large enough to cause considerable agitation in the regions named, which are largely Carlist in their sympathies.

Sixteen soldiers of the Barcelona garrison have been arrested in a Carlist clubroom, and an infantry colonel has been nominated to initiate proceedings against them. It is known to the police that many other soldiers have secretly visited the club. Carlist agents are actively working in Barcelona and other places, enrolling the military, and a number of persons have been arrested on suspicion of being agents.

The chief Carlists in Barcelona disappeared three days ago, their destination being unknown. The remainder lead an irregular existence, rarely sleeping at home. The few leading Carlists who are still in Madrid say that they do not recognize as Carlists the armed bands which have appeared in the country, the pretender having given the most stringent orders against a rising until peace with America is concluded.

Baron Sacarrat said: "These bands are paid either by stock exchange jobbers, or by the government, which is anxious to justify its drastic measures. I doubt very much that they are composed of fanatical Carlists who have become impatient. Believe me, our rising will not occur until after peace has been declared. It will be preceded by a declaration of war, solemnly formulated by our deputies in congress, in order that the country may knew well the reasons for our risings. We expect much advantage from the effect this declaration will have upon the country, and the government cannot complain of being taken unawares."

Attitude of Army Leaders.

The burning question on everyone's lips concerns the attitude of the army leaders, among whom General Polavieja stands forth as the sole out and out champion of the dynasty. General Weyler remains the sphinx of the dynastic opposition, trying to group under his banner all discontented spirits, whether Carlist, republicans or socialists. Careful investigation shows that the real partisans of this Spanish Boulanger, although noisy, are few; and scandals connected with his accumulating a princely fortune, while soldiers under his command were unpaid, have, fortunately for Spain, greatly diminished General Weyler's prestige. The remaining marshals and generals, nearly all of whom owe their advancement to service in the Philippines or Cuba, carefully abstain from committing themselves to any political party. This is the case even with such Alphonsists as Amicarraga and Chinchilla, the present captain general of Madrid, who, like the rest, are awaiting events.

Meanwhile it is evident that the first result of peace will be not to diminish but to increase the permanent military establishment of the country, because Sagasta recognizes the necessity of offering scope to the army by providing posts for several thousand officers who must soon return home. This involves the creating of new regiments and costly staff appointments, which the ministry of war has already taken in hand.

The drift of public opinion is aptly illustrated by the following remark made by the premier to one of his friends: "We have at least the consolation, amid our misfortunes, of knowing that we have in Cuba and the Philippines bequeathed to the United States almost insurmountable obstacles which for many years to come it will be in our power to render still more formidable should it be our policy to do so."

NEWS IN BRIEF.

R. D. Stewart, a slater, fell from a roof in Bristol, Vt., and broke his neck.

Among the deaths in Santiago yesterday was that of Private Vesper of the Second Massachusetts.

The recent fire in Skagway was not as disastrous as reported. Only a few deserted cabins in the outskirts of the town were burned.

According to a dispatch from Madrid serious distress has been caused in the leather trade at Port Mahon, capital of Minorca, one of the Baleric islands, owing to the loss of the Antilles market.

The sloop yacht, Wayward of Boston, with a party of 11 members of the Mosquito Yacht club was dismasted off Plumb island, Newburyport, and all the men were rescued with difficulty by the crew of the life-saving station and a tug.

The feature of the day's racing in Toronto yesterday was the defeat of the Wachusetts club of Worcester in the senior doubles owing to its boat shipping large quantities of water. Ten Eyck never pulled harder in his life, and the Wachusetts' shell just got over before sinking.

At the conference of state and provincial boards of health in Detroit, William Bailey of Kentucky declared that 1,200,000 people died annually from tuberculosis, and that if sanitarians were given the opportunities to fight the disease the saving would easily pay the country's pensions.

General Merriam, commanding the department of the Columbia, has been given full power in the matter of military affairs in Alaska. He telegraphed to the department stating that the last boats were about to leave for the Yukon, and it might be necessary to send some portion of the army there to insure the public peace.

TRAIN ROBBERS.

Six of Them Secure Possession of a Small Safe.

St. Joseph, Mo., Aug. 12.—The incoming Omaha flyer on the Burlington road was held up at Dog hill, two miles north of here, at 9 o'clock last night by five or six well-armed men. After securing possession of the express car the robbers rolled the Adams Express company's small safe out of the car door into a wagon and endeavored to haul it away. They abandoned their task, however, and soon dumped the safe out upon the highway. The safe was recovered two hours after the holdup and had not been opened. Though several shots were fired to intimidate the trainmen none of the passengers was molested.

The robbers stopped the train by swinging a red lantern across the track. The engineer obeyed the signal amidst a fusilade from both sides of the track. One of the robbers cut the engine loose and compelled the engineer to run it down the road 200 yards. The conductor came out when the train stopped, but was ordered back into the "smoker," where he remained. Express Messenger Hogue offered no resistance. The robbers were but a few minutes in rolling out the small safe and quitting the scene of their robbery.

It is stated by the railroad officials in Kansas City that the robbers secured $8280 from the safe.

Games Played Thursday.

One of the closest and hardest games ever seen in Ottawa was witnessed yesterday. Both Korwan and Horton pitched good ball. Dolan was put out of the game in the third inning for talking to the umpire. The Canadians won, 3 to 2.

The Providences won the third straight game from the Buffaloes yesterday by scoring three runs in the ninth inning.

The Washingtons and the New Yorks broke even yesterday. The pitchers won both games.

The Brooklyns and Chicagoes were scheduled to play two games yesterday, but as the first game was continued for 14 innings, and as it rained during the last four innings, the second game was called off. The westerners won, 3 to 2.

The Baltimores and Clevelands played another transferred game in Philadelphia yesterday, the orioles winning, 7 to 1. Maul pitched excellent ball.

Democracy of Missouri.

Springfield, Mo., Aug. 12.—The Democratic state convention came to an end shortly after 11 o'clock last night. A platform was adopted which demands the free and unlimited coinage of silver and gold at the ratio of 16 to 1; expresses confidence in W. J. Bryan as the leading exponent of the party's principles; demands that Porto Rico and all Spanish territory in the West Indies, except Cuba, shall be held under the sovereignty of this country; favors aiding the Cubans to establish an independent government, and the peaceful annexation of Cuba whenever it can be done with the consent of the people; opposes the acquisition of the Philippines or other territory in the eastern hemisphere, but favors acquisition of all necessary harbors and coaling stations; holds that the Nicaraguan canal should be constructed and controlled by the United States, and opposes a large army.

Attacking British Premier.

London, Aug. 12.—All the morning papers, including the supporters of the government, attack Lord Salisbury for weakness in dealing with the Chinese question. The Chronicle says: "There is room for the gloomiest forebodings. Does the country realize that for want of a little foresight and firmness Great Britain may ere long be plunged into a colossal war? Such, without the least doubt or exaggeration, is the appalling possibility."

The Mail says: "The door is closed. The proudly boasted British lion does not exist in the Yangtse valley. Looking to what Lord Salisbury has done in Egypt, his failure in China is inexplicable."

The Standard says: "These repeated humiliations are becoming intolerable."

Opposed by Politicians.

St. John's, N. F., Aug. 12.—A bitter controversy is raging here over a petition being circulated by friends of the governor, Sir Herbert Murray, praying the imperial ministry to permit him to withdraw his resignation and continue in the governorship. The petition is promoted by the parties favorable to giving Newfoundland the status of a crown colony, and it is opposed by politicians on both sides who regard it as an insult to them and the thin edge of a wedge working toward a revocation of the colony's charter. The government party is especially opposed to the movement, regarding the petition as an unwarrantable interference.

Are For Sound Money.

Douglass, Wyo., Aug. 12.—The Republican convention adopted resolutions which reaffirm the national declarations made at St. Louis in 1896, and particularly the financial plank of the St. Louis platform. They endorse the "twin measures of the Republican party, protection and prosperity;" approve the Dingley tariff law, support the administration in its prosecution of the war against Spain, praise the country's heroes, approve Hawaiian annexation and favor construction of the Nicaraguan canal. Upon territorial aggrandizement the platform says: "We congratulate the country that President McKinley is fully able to pursue a policy upon the declaration of peace with Spain which will at once maintain the dignity and honor of our nation and bring prosperity to the islands which will come under our control or protection."

F. W. Mondell was nominated for congress and DeForest Richards for governor.

DR. RALPH M. FOGG,
DENTIST.

Teeth extracted absolutely without pain by the use of the

"BOSTON VEGETABLE VAPOR."

It is claimed that, while it has the required properties of ether, chloroform, nitrous oxide gas, it lacks the disagreeable and dangerous qualities of these drugs. It is certainly a boon to suffering humanity to be relieved of the nausea too often following the administering of sedatives of the old school.—Boston Transcript.

Teeth made and repaired on Gold or Rubber base. Teeth Filling a specialty.

OUR FILIPINO ALLY.

CHARACTERISTICS OF GENERAL EMILIO AGUINALDO, THE INSURGENT.

Quiet and Ambitious, He Is Unruffled Alike In Victory and Defeat—His Headquarters at Cavite — Aguinaldo's Simple Reception of Visitors.

If General Emilio Aguinaldo, who has declared himself dictator of all the Philippines, were to walk the streets of an American city, the casual observer would take him for a Japanese student or artisan. He is short, but well knit, has the Japanese cast of face and form of head, and the casual observation would be strengthened by a bristly black pompadour of the kind so common among the mikado's subjects. There are no outward or visible marks of genius except that the general is slow and deliberate, and that may be a sign of depth and breadth of mental caliber. Aguinaldo is unruffled alike in victory and defeat. In the privacy of his state chamber he may execute a double shuffle or survey himself in a mirror when his trusted lieutenants bring tidings of a fresh victory or he may toss on his cot at night when the Spanish occasionally have the advantage, but the visitor searches in vain for the play of emotion, sentiment, hope or despair when he is presented.

The correspondent at Cavite of the New York Tribune brought Aguinaldo the tidings from Hongkong of the seizure of the cargo of the Pasig. The interpreter was a little slow in breaking the news, but when it was told the chieftain simply said it was "too bad" and extended the warmest thanks for the unwelcome advices.

Aguinaldo's chief concern now is the preservation of his precious head. Japanese heads are cheap enough nowadays, but the Spanish have bid this one up to $25,000. When he first landed here, Aguinaldo fought with his men, but there soon came a need for more executive work and an increasing fear of assassination, and the leader sought safety in Cavite. There he is surrounded by a corps of his trusted followers. The safeguards which surround him there are such that he is protected from everything save the treachery of those in high place.

He has established headquarters in the former home of a rich native, situated on Calle de Arsenal, Cavite's main avenue. The house is broad, low, roomy and typically Spanish. It was in old Cavite that Aguinaldo was born 26 years ago, and he has established his aged mother and several of his relatives in his headquarters. There is a paved court at the street entrance, and a guard of insurgents line it on either side. They come to a present for Americans, and good form calls for a salute in return. A stairway leads from the court, and the landing at the top is large and makes a good antechamber. Here stand guards in uniforms of a material suspiciously like blue gingham marked down to 9 cents.

There is little delay for the American visitor, and the summons to enter the reception room comes quickly. The presentations are simple. Aguinaldo comes in, extends his hand for a short shake and then motions the visitors to seats. He wears a spotless suit of white linen, a white shirt with well polished front, a high collar and a black cravat tied in a bow and red velvet slippers embroidered in gold.

When questioned as to his troops at a recent interview, General Aguinaldo examined a small map showing the provinces heading on Manila bay and traced the movements of his troops, the distribution of his garrisons, the locations of his lines and the prospective advances with a deliberation and mastery of details that at least carried the conviction of triumph. He smiled over the capture of Batangas without the loss of a man, but that was the only change in his countenance in a long interview. It took a long stretch of the imagination to fully appreciate that the quiet little man in spotless linen was the leader of an active rebellion and the ally of an invading force. Aguinaldo is quite comfortable in the looted town of Cavite. In his office he has a modern desk, backed with a bevel edged mirror that came from some European mart; a couple of large, strong iron boxes for the dictatorial treasury, an abundance of easy chairs, an old grand piano several feet taller than the modern make and a large hatrack of fanciful design. The only signs of war were the ends of sword chains that peeped through holes in the gingham coats of the officers in attendance, and a metallic standard holder that leaned against the hatrack.

The court of the dictator is not impressive. A chamberlain was identified as a boatman who had worked for some days for the newspaper correspondents, and there were other touches of opera bouffe. Aguinaldo's present concern is the defeat of Augusti, and he will not discuss the future of the islands. He and his followers, however, hope for a republic under a limited American protectorate. Aguinaldo seems to possess real ability, but none of his followers shine in the estimate of the Americans here. They are of a rather low order, as a rule, and generally ignorant and illiterate, and Aguinaldo himself has not completely proved his strength of character, but he has fought long and hard, success is in sight, and he is ambitious. So are his followers.

Will Not Be Accepted.

The suggestion made in certain quarters that we should give back the Philippines to Spain, keeping only one or two coaling stations as the beggarly fruits of Dewey's victory, will not be accepted by the American people.—New York Sun.

When Spain's Ships Get on Top.

Future upheavals of nature may cause scientists to marvel at the submarine scrap piles accumulated by this generation.—Washington Star.

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

Cervera in Boston.

Boston, Aug. 13.—Admiral Cervera passed through Boston this morning on his way to Portsmouth, N. H. He was received at the depot by a large crowd of spectators, who cheered as he left the station.

The Last Battle.

Washington, Aug. 13.—Word having been received of an engagement at Manzanillo, efforts were made on the part of the Americn and Spanish governments to get word to the commanding officers that hostilities had been suspended. Later advices were received that General Blanco had succeeded in getting word to Manzanillo.

Gen. Logan Arrives.

New York, Aug. 13.—The transport Seguranca having on board Lieut. Col. Logan of the 9th Mass., and 331 sick soldiers, including many Massachusetts men arrived at quarantine last night. After being inspected and found all right, she proceeded to New York. Gen. Logan was met by his wife and Fr. O'Connor of Boston.

IT WAS A HARD DAY

But the Fifth Felt It Had Much at Stake.

Camp Dalton,
Saturday, Aug. 13.

It is pleasant to see the sun once more, and we hope to see many Quincy friends at camp on Sunday.

It was a long tour of duty yesterday and rather a hard one too, but all felt repaid for the efforts put forth by the compliments expressed. Col. Whitney was indeed proud, and he did not fail to let the boys know it, as immediately the men were formed on the line, prior to being dismissed, the colonel rode up and thanked the officers and men for the exemplary way in which they had done their duty.

There is possibly no more tedious duty for a soldier to perform than that of escort. Halts and waits are frequent and become monotonous, but there was no breaking away. If it was necessary for a man to leave the ranks he left under the escort of a sergeant, and as a result every man who left the camp returned with the regiment. There were no "missing."

We returned to camp about seven, and supper was promptly served to a hungry crowd.

Alfred Trudell, a private in Co. K was discharged Thursday at the recommendation of the regimental surgeon on account of physical disability.

Annual Picnic.

The annual reunion of the Quincy Catholic parish will be held at New Downer Landing next Wednesday. All arrangements have been completed and the day promises to be of rare enjoyment.

A series of sports have been arranged which are as follows: Tug of war, prize $25.00; potato race, three legged race, sack race for boys under 16 years; 100 yards dash, half mile run, running high jump, three standing jumps, five mile bicycle race, and a bicycle race for boys under 16 years. There will also be dancing.

The following are the committees in charge: Sports,—John Harkins, John A. Avery, John Vogel, William Burns Thomas Slavin, Daniel J. Nyhan and Edward J. McKeon, Dancing,—Adam S. Vogel, P. H. Sullivan, M. J. Daley, John A. Avery, Edward J. McKeon, Thomas M. Elcock.

TODAY'S COURT.

Elizabeth Mulligan was arraigned for lewd cohabitation at Quincy. Case continued until Monday.

Maurice J. Sheahan was sent to the house of correction at Dedham for drunkenness at Weymouth.

Frederick S. Huntington was arraigned for drunkenness and for assault on Daniel O'Brien at Quincy. He was discharged upon both complaints.

Maurice Goldfine was arraigned for larceny at Milton and was discharged.

—Immigration is at a low ebb. It is nearly 20 years since the monthly arrivals at the port of New York fell so low as last month.

—The hospital ship Bay State, which sailed from Boston last Saturday, is described as a beautiful craft fitted out with every convenience imaginable. The ventilation is perfect, there are machines for making ice, sterilizing instruments, and machinery for performing laundry work. Berths are provided and there are hammocks on deck under awnings, for use of the wounded men when first taken on board.

COLUMBIA TO UNCLE SAM: "YOU MUST FIX THE RESPONSIBILITY, OR THE COUNTRY WILL."
WAR CARTOON FROM HARPER'S WEEKLY.

Reproduced from *Harper's Weekly*. By Permission. Copyright, 1898, by Harper & Brothers

WHO is responsible for the medical and sanitary conditions prevailng at Santiago de Cuba? The stories that come to us from the field of battle and from the transports coming North with the sick men of the army are heartrending. We know that the lack of medical appliances, of medicines, of ordinary comforts, of doctors and nurses, was criminal. We know that if it had not been for the Red Cross Society, conditions would have been more murderous than they actually have been. But who is responsible? At the very outset of the expedition from Tampa the wrong began. Whether sufficient medical supplies for the army were taken or not, nearly enough reached the front. We are told that a sufficient supply was forwarded, and that a sufficient supply of good and nourishing food, including canned soups, fresh meat, was actually shipped on the transports to Santiago, but we know that the soldiers never had them. In war cartoon taken from Harper's Weekly Columbia cries to Uncle Sam, "You fix the responsibility, or the country will"—and this will surely come about. There is nothing more sickening than the story of the Concho, except it be that of the other transports. It is the story of men, sick with fever, crowded into noisome holes, drinking foul water without necessary medicines. And these sick men are the soldiers who have fought our battle, the soldiers of the richest and most resourceful nation of the world. There is another story, too, that of wounded soldiers on the field of battle without surgical aid, and that of other wounded men walking miles and miles to the rear for doctors and hospital, some of them surviving and all of them displaying heroism of martyrs. The campaign of Santiago illustrated the magnificent virtues of the American soldier, but it gave an opportunity to some careless criminal to whom justice should be done. Who is he?

MARCH OF THE FIFTH

Many Compliments and a Proud Day for the Regiment.

It was a proud day for the Fifth Massachusetts regiment, United States Volunteers, yesterday, and the Boston dailies, one and all, had little of criticism, but a great deal of praise for the soldiery bearing, fine marching and exemplary conduct.

The Transcript commented as follows: "For the first time since the Civil war the people of this city were given a chance to see what a thoroughly drilled, thoroughly equipped regiment, recruited to the full war strength, looked like, the opportunity being given by the presence of the Fifth Massachusetts Infantry, to take part in the funeral of Colonel Bogan. They certainly appreciated it, for thousands lined the route all the way from the Huntington-avenue station to Charlestown, and cheered and applauded as the finest-looking regiment that Massachusetts has turned out marched through. The regiment looked like a brigade, and each battalion like a regiment, on the ordinary military footing. In columns of fours it stretched out from Washington street up School, over Beacon hill and well down on the other side, while the platoons filled Arlington or Beacon streets from curb to curb in their widest parts."

The Advertiser man at the State House said: "When the soldiers swung by the State House their thoroughly martial bearing was too much for the crowd, which here had congregated in large numbers, and they burst forth into cheers and applause, while the women waved their handkerchiefs. The weeks spent in camp, the daily drill, and above all the spirit of the times have resulted in turning out a regiment of which we may indeed be proud. It was not alone that the alignment was so near perfection, the orders sharply and excellently executed, distances preserved, and arms, accoutrements and general equipment in exquisite order, but it was the esprit du corps which so thoroughly permeated and inspired every soldier." The Journal reporter was on Huntington avenue when the Fifth came from the depot and he commented as follows: "As soon as the column was fairly out on Huntington Avenue it was swung into platoon formation, being equalized at 22 files front, which gave it an appearance of great weight and solidity as one glanced back along the advancing mass of rifles. Even with the great width, however, the long platoons were as steady and straight as could possibly be desired, and the constantly growing crowds cheered and applauded as the maneouvre was executed, and again when the regiment went back into marching column, to allow for a narrow place in the street, the movements being executed with the smoothness that can only come from long and hard work."

The Globe says, The Fifth Massachusetts was called upon to perform its first public duty today and although that duty was a sad one, every officer and man of the command performed it with credit to himself and honor to the state which he represented. It was a twelve hours' tour of duty but every man returned to camp as fresh as when he left it early in the morning. The regiment never looked better. Every buckle had been given an extra polish, and the brush had not been spared on the blue uniforms. The steadiness and distances were particularly noticeable, and it is not the slightest exaggeration to say that no regiment ever made the fine showing in the streets of Boston as that made by the 5th.

TO A MAIDEN OF SIXTEEN.

I do not fondly ask from you
  The qualities of a noble heart,
A mind whose thoughts are pure and true,
  A tongue that speeds no venomed dart,
A temper sweet or gentle mood,
  Unselfishness or high endeavor—
I do not ask you to "be good,
  Sweet maid," or even to be "clever!"

I do not ask for poet's song,
  For dreamer's tale, high gifts of mind,
For orator's eloquence righting wrong—
  Gifts all, no doubt, to you assigned;
I do not ask for theories new,
  One's powers of comprehension tasking,
For wisdom or for wit from you
  (There would not be much use in asking).

I do not ask you for the gift
  All other gifts so far above.
I will be brave and make a shift
  To live my life without your love—
Not mine to play a lover's part,
  So, though the omission is distressing,
I do not ask you for your heart.
  I only ask a minor blessing.

I do not ask you when we meet
  To condescend to notice me,
But when kind fate affords that treat
  Pray bear in mind this modest plea:
I do not ask you to sit still,
  Though in your chair you always wriggle,
I'd have you do whate'er you will.
  I only ask you—not to giggle!

—Punch.

THE REAL REASON.

I had arrived at Monte Carlo about 2 o'clock and after a late lunch set out in search of my friends the Verneys. I found Master Arthur, a serious minded young politician of 22, in his room at the hotel. He was completing an elaborate toilet and drinking champagne.

"Aynsley!" he cried in surprise. "I thought you were in London."

"The spirit of restlessness," I explained. My eye dwelt for a moment on the champagne. "A little low, Arthur?"

He blushed. Arthur was the highly respectable son of an eminently respectable father, who was M. P. and other things.

He glanced at the clock, then rose and picked up his hat and gloves.

"A stroll!" I finished, with a grin.

He laughed nervously.

"Look here, Aynsley," he said, "you'll find the governor and Evelyn on the terrace. Do you mind if I run away now?"

I got up and laid a hand on his shoulder in a paternal fashion. "She is a woman in a thousand, Arthur. Au revoir and good luck!"

He blushed again—he was really a most nervous young man—and hurried away. I followed him out of the hotel, then strolled leisurely through the gardens and round to the terrace. I espied Mr. Verney and his daughter sitting almost immediately in the rear of the casino. I walked up to them.

"Well, 'pon my word!" cried Mr. Varney. A smile dimpled round Miss Verney's mouth as she took my hand. I explained lucidly how it was I came to leave London in so unexpected a fashion.

"It enslaves us all," I finished, with a graceful wave of my hand toward the casino.

"Indeed," said Miss Verney politely.

After a few minutes' conversation Mr. Verney pulled out his watch.

"I'm very glad you came, Aynsley," he said, "as I left off last night in the midst of a little mathematical experiment with trente et quarante, and I thought that if you would kindly look after Evelyn I'd"—

"Delighted!" I said quickly. "I trust the experiment will be brought to a satisfactory conclusion."

As soon as he had taken his departure I glanced at Miss Verney. She was examining the handle of her parasol with some intentness. I made a mental note that white suited her admirably—in fact, better than any other girl of my acquaintance.

"Perfect weather," I remarked at length. She nodded in a preoccupied manner.

"I have been wondering," she said after a moment, "why you came here."

"Did you not hear me explain?" I began.

She smiled.

"Oh, yes, but"—

"Surely nothing further is needed. The attraction of Monte Carlo is world famed."

"I do not believe, Mr. Aynsley," she said deliberately, "that you have ever gambled in your life."

I tried another tack.

"Well, then, I'm rather delicate, and the chill, damp fogs of London are rather trying to an invalid."

Again Miss Verney laughed.

"How unsympathetic you are!"

"The deep sea fishing last winter must have been rather bad for you. No, Mr. Aynsley, I'm a clear sighted young person, and I can quite see what has brought you so suddenly to Monte Carlo."

"Well?" I said, with an air of indifference.

She played with the tassel on her parasol for a moment. Then she smiled.

"Mrs. Fairfax," she said at length. I laughed outright.

"How amusing! Nothing of the sort. The usual attraction, I assure you."

"Mrs. Fairfax."

"Gambling—or invalid's natural aversion to chill, damp fogs!"

"Mrs. Fairfax!" repeated Miss Verney once again, with just a shade of emphasis.

I gave it up.

"A very charming person," I said.

"You admit it?" and her voice held a tiny note of triumph.

"Don't you?" I replied wonderingly. "She is talented, pretty, agreeable and"—

"A widow," put in Miss Verney.

"Yes, but her husband was hardly more than an acquaintance. He went to India, you know, shortly after their marriage, and was killed. Do you not think her fascinating?"

"Yes, undoubtedly she is a pleasant companion."

"And I'm a lonely bachelor man!" I remarked apologetically.

She turned to me with a smile. "Forgive me," she said kindly, "for reminding you of your pitiful condition. I only meant to show you that I guessed the reason for your sudden change of plans."

"Your intelligence is beyond reproach. But what made you think of Mrs. Fairfax?"

"My dear Mr. Aynsley," she laughed, "you forget last season."

I tried to recollect.

"The episode at the Cartons; the Melba night at Covent Garden," she reminded gently.

"You take great interest in my welfare," I said with a laugh. "I am very glad to notice it," I added with a glance at her.

"By the way," I continued after a pause, "where is Arthur?"

"I never trouble about Arthur," she replied quickly, "he is so wrapped up in his books and studies that even here at Monte Carlo I see very little of him."

I was amused.

"You have nothing against Mrs. Fairfax?" I suggested.

"Nothing whatever," she replied frankly. "I like her immensely."

This helped matters, I thought.

"You think she will make a good wife?"

"Admirable," said Miss Verney, calmly surveying the bay. "Her experience will be invaluable."

I caught sight of a couple that had just appeared on the farther end of the terrace.

"You will come to the wedding?"

A slight tinge of color appeared on Miss Verney's cheeks as she turned to me.

"Has it reached that stage?"

I glanced at the couple and noticed they were arm in arm.

"I believe so."

There was a slight pause. Miss Verney played with the tassel again.

"Then I suppose I must tender my congratulations?" she said at length.

"I believe it is customary among friends," I replied, with a glance at her. She had allowed her eyes to fall on the ground.

"You know she is very wealthy?" I added.

"You have been most fortunate in your endeavors," she replied in deliberate tones. "I trust you'll be very happy."

The couple were now opposite to where we were sitting. So engrossed were they in conversation that they had not noticed us. I felt an anticipatory shiver of enjoyment.

"I do not enter into the question," I said. "Look!"

She glanced up in surprise.

"Arthur and Mrs. Fairfax," she whispered.

"He is wrapped up in his studies again," I remarked. "I fancy he has taken the lady's eyes as his subject."

Miss Verney looked at me reproachfully.

"And you knew this all the time?"

"I'm afraid so. Arthur confided in me some months ago in London, and I have occasionally amused myself by helping him. Take the Melba night, for instance.

"Was that on Arthur's behalf?" she asked wonderingly.

I nodded. It occurred to me once again how extremely charming Miss Verney looked in white.

There was a silence for a minute or so. Arthur and Mrs. Fairfax passed out of sight.

"It wasn't the gambling," I remarked at length.

Miss Verney made no reply.

"Nor an invalid's aversion to the chill, damp fogs," I went on after a pause.

"Nor Mrs. Fairfax," she put in.

"No," I said slowly. "I came because I thought it just possible you might be pleased to see me."

There was another pause, and then I added:

"Are you?"

A smile crept round the corners of Miss Verney's mouth.

"Well, yes, I think I am," she said.

We see a good deal of one another now.—Gilbert Dayle in London Weekly Sun.

McCoy Had Enough.

Here is a story told by Parson Davies on Kid McCoy, the pugilist, as given in the Wilmington Sun:

"Kid McCoy attracted the attention of a crowd of sportsmen at the Gilsey House," says Parson, "and it was decided to introduce Lavenia Charmion, a trapeze performer and a muscular phenomenon, to him as a woman who wished to learn boxing. McCoy was delighted.

"The meeting took place, and the Kid told Charmion to take a position, in which of course she was very awkward. 'That is picturesque, but not pugilistically correct,' he remarked, with a smile of superior knowledge. 'Now,' he said, as she adjusted her arms, 'let go with your left.'

"It was a chop blow and made the air whiz, as the first attempt narrowly missed the Kid's face. He looked apprehensive and remarked: 'You have steam enough, but your execution is faulty. Now, hit out straight and let your body go with the blow.'

"The fist brought up suddenly at about the third button of McCoy's waistcoat. 'That is better,' gasped the Kid. 'That will do for the first lesson. Come again tomorrow, and we'll try the big gloves.'

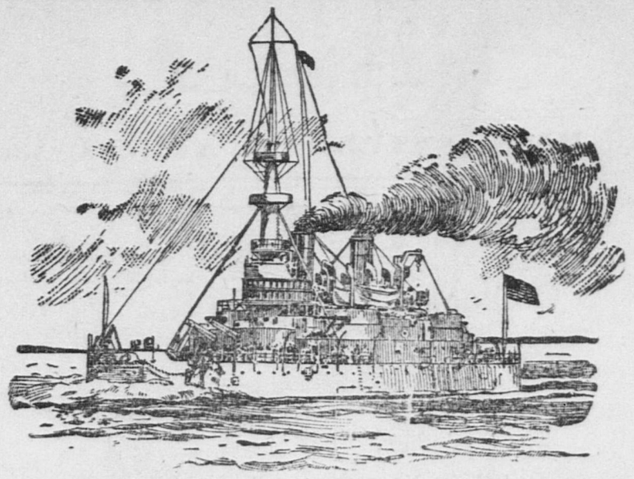

"'Oh, how nice,' said Charmion. 'Do you know, I never had but one chance to box with a man. That was when a fellow tried to kiss me, and I knocked him down and broke his jaw with my boot heel. I'—

"'Excuse me,' interrupted McCoy. 'come to think of it, I have an engagement for tomorrow. Ah, yes, I leave town Sunday, but—but I'll see you again.'"

He Knew.

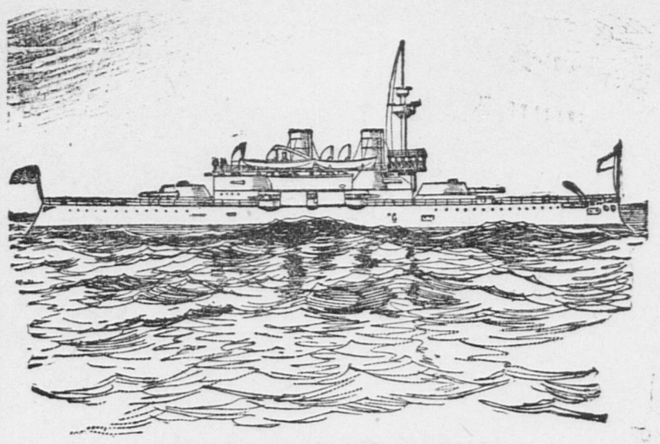

Pedagogue (severely)—Now, sir, for the last time, what's the square of the hypotenuse of a right angled triangle equivalent to?

Boy (desperately)—It's equivalent to a lickin fer me, sir. Go ahead.—London Fun.

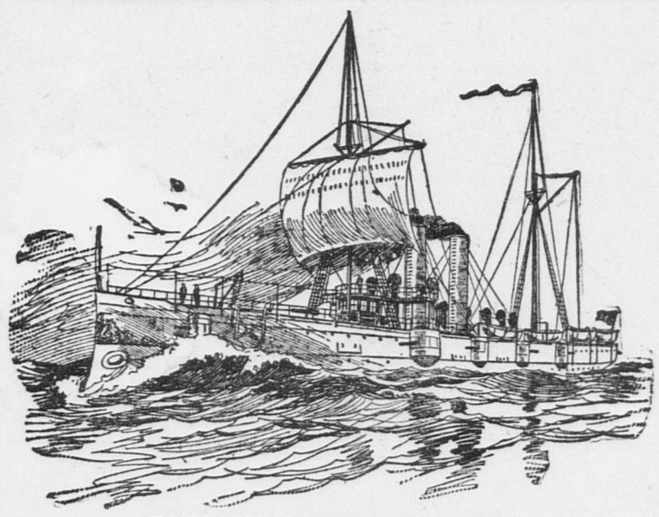

SEAGOING BATTLESHIP MASSACHUSETTS.

The Massachusetts is a 15 knot ship [illegible] $3,020,000. She displaces 10,288 tons of water, has 9,000 horsepower, and carries four 13 inch, eight 8 inch, four 6 inch and 30 guns of smaller size.

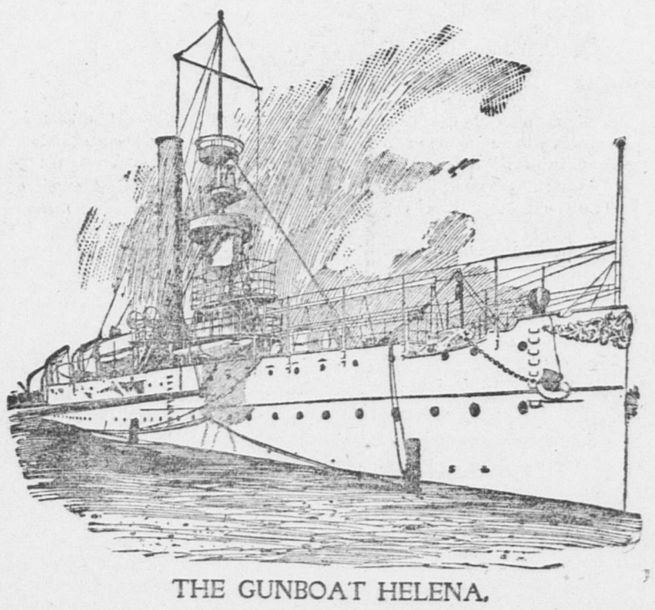

THE BATTLESHIP OREGON.

The Oregon is 348 feet long and has a displacement of 10,288 tons. She cost $3,180,000 and steams 15 knots an hour. Her crew consists of 424 men. Four 13 inch, eight 8 inch, four 6 inch and 30 smaller guns compose her armament.

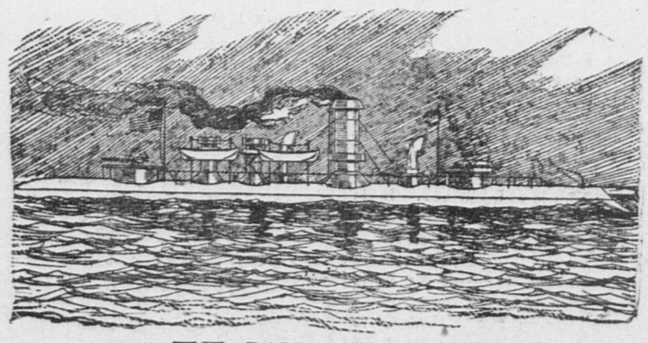

THE CRUISER MONTGOMERY.

The Montgomery is an unprotected cruiser of 2,080 tons displacement. She cost $612,500 and has a speed of 19.5 knots. She carries nine 5 inch rapid fire guns and ten smaller guns.

THE GUNBOAT HELENA.

The Helena is a 13 knot gunboat. She has 1,600 horsepower, and her displacement is 1,392 tons. She cost $280,000. Eight 4 inch rapid fire guns and ten guns of lesser caliber compose her armament.

THE RAM KATAHDIN.

The Katahdin is a naval novelty. She is simply designed to ram a hole in an enemy's ship. She is 250 feet long, has a speed of 15 knots and is protected by six inches of armor. Her bow is a great ram of steel. She carries 30 officers and 91 men and cost $930,000.

OUR WEEKLY FASHION PLATE.

OUTDOOR COSTUME, WITH BLACK SURAH CLOAK FROM HARPER'S BAZAR

Long cloaks are very much used now, not only for traveling, but for general wear and driving. They are useful garments, but require to be well made and of good material. Our illustration, taken from Harper's Bazar, shows one of the latest styles made of black surah, and long enough to cover the gown it is worn over. There is a round yoke made of tucked black surah, and trimmed around the shoulders with a full double rucha of surah. Around the neck is another double ruche of the surah, forming a wide ruff.

The body of the cloak is made of brocaded surah, so transparent that it shows the lining through it, and the lining of salmon-pink satin is very effective under the black. There are no buttons, the cloak being fastened with hooks under the full folds.

One of the odd features is seen in the sleeves, made of plain black surah in accordion pleats that hang straight from the shoulders, full and wide and long enough to completly cover the sleeves of the waist. The belt also is of black surah, fastened in front with a large rosette.

To wear with this cloak is a round hat of black straw, with the brim turned up at the back, and trimmed with plaid ribbons, white silk quills, and a large blackbird.

FRUIT AND FLOWERS

PLUM AND CHERRY ROT.

Bordeaux and Copper Sulphate Used Except on Japanese Varieties of Plum.

There is complaint each year about cherries and plums rotting on the trees. A writer in New England Homestead, who has had great loss with cherries rotting, nevertheless does not fear the rot nearly so much as the black aphis, which he has found unmanageable and the cause of the death of more cherry trees than all other causes put together. His course with cherries and plums has been as follows:

My treatment for cherries is to spray with sulphate of copper a pound to 25 gallons of water once just before the buds open and once with bordeaux when the cherries are one-third or one-half grown, then pick the cherries a day or two before they are fully ripe. If the weather is not persistently bad, this will be successful, at least it has been with me for several years.

As to plums, I have never sprayed the Japanese varieties except in a small way as a test, but have depended on picking off the decayed fruit by hand. They might be sprayed with bordeaux or sulphate of copper mixture while dormant, which would kill spores of rot then existing on the bark, but I have found the foliage of the Japanese varieties uniformly too sensitive to admit of spraying with bordeaux while in leaf. The European varieties, however, seem to like the bordeaux. They should be sprayed at least twice with it, the first time when the new growth is three to five inches long and the second when the fruit is half grown. Applied at this time it will not show when fruit is ripe.

Spraying in winter or early spring with sulphate of copper is also desirable. All the spraying should be done thoroughly from both sides. In my cherry trees I have a man climb the tree carrying the nozzle with him. Even after spraying the plums will need to be followed and hand picked, burying or burning to stop those spores. It may seem of no use to fuss so much, but is of use just the same, and this same spray on the plums will kill off spores of shot hole fungus and black knot.

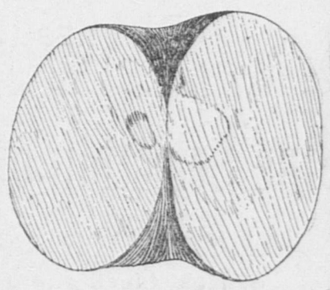

A Hardy Productive Apple.

The excellent York Imperial, according to American Agriculturist, is hardy anywhere, except possibly in the northern row of states or in New England and the west, where it has been but little tested. It reaches perfection in the elevated sections of Virginia and ... similar regions. The quality while not of the best is reasonably good; color red, shipping qualities good; shape inclined to be lopsided. This apple is likely to take high rank as a market variety.

Colorado Apples.

The Rural New York illustrates the Fulton, a western apple having a smooth yellow skin, with a slight blush, and says it has a fine grained flesh with mild, subacid flavor and is very highly valued in Colorado, being of good size and keeping late in the spring.

The same journal quotes a Colorado correspondent as follows: "In the com-

THE FULTON APPLE.

mercial orchards of Delta county the Ben Davis apple is no longer a leader, and is not now planted in any quantity, because its commercial value is not equal to Jonathan, Rome Beauty, Winesap, Arkansas Black, Grimes' Golden, Mammoth Black Twig and other first class apples. We can grow Ben Davis to perfection, but for dollars and high quality it is no favorite here; neither is Missouri Pippin or Jennetting. The Winesap, as kept in our orchard cellars and storage cellars, is a fine long keeper; the tree is hardy and bears abundantly."

Horticultural Brevities.

American Gardening tells of the production of a remarkable new race of hardy evergreen roses by W. A. Manda of New Jersey. The seed parent is Rosa wichuriana.

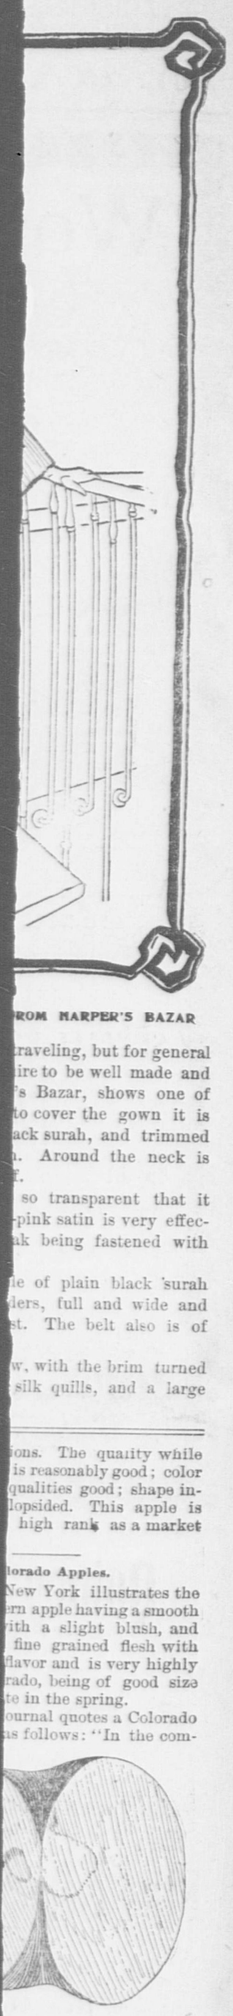

There is nothing worse in the cultivation of fine specimens of chrysanthemum than to let a potted plant get thoroughly dry.

Palms, some of the ferns and some grasses are now treated in such a way with chemicals that they retain their natural texture, shape and color indefinitely. They are prepared by dealers for decorative use in houses in place of the living plants.

A gardener advises in American Gardening that in growing calceolarias the little seedlings should be pricked off as soon as they are large enough to handle, especially if damping off should make its appearance.

AN EPOCH MAKING DAY

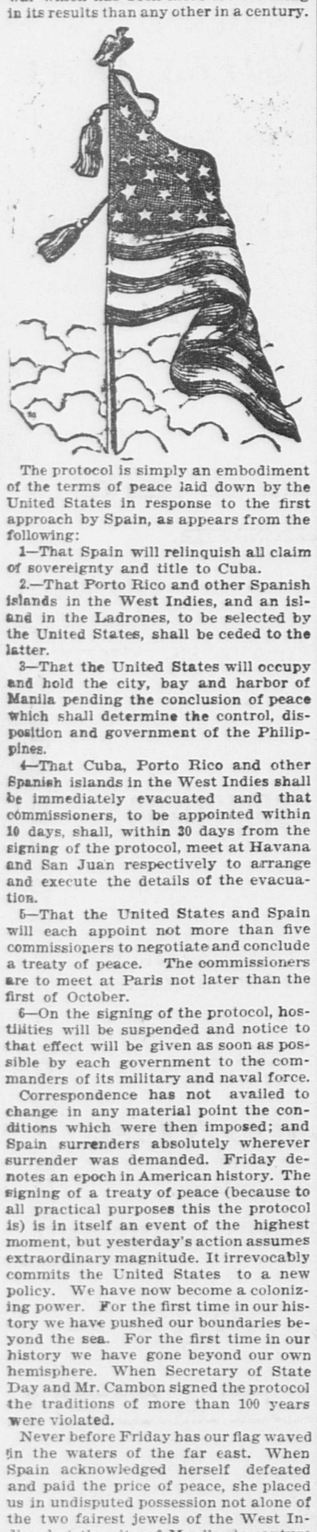

Simple Ceremony Fraught With Significance.

Two Warring Nations Agree to Forbear From Strife.

Preliminary Action to Arranging a Treaty.

Proclamation of the Signing of the Peace Making Paper.

Washington, Aug. 13.—Secretary Day and Ambassador Cambon put their names to the protocol, preliminary to a treaty of peace, yesterday afternoon, and President McKinley issued a formal proclamation announcing a suspension of hostilities. The events of the day, historic though they may be in significance, were devoid of sensational features, and had little in them to call for a descriptive pen. The official routine was hardly interrupted to permit of transactions which mark the close of a war which has been more far reaching in its results than any other in a century.

The protocol is simply an embodiment of the terms of peace laid down by the United States in response to the first approach by Spain, as appears from the following:

1—That Spain will relinquish all claim of sovereignty and title to Cuba.

2.—That Porto Rico and other Spanish islands in the West Indies, and an island in the Ladrones, to be selected by the United States, shall be ceded to the latter.

3—That the United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of peace which shall determine the control, disposition and government of the Philippines.

4—That Cuba, Porto Rico and other Spanish islands in the West Indies shall be immediately evacuated and that commissioners, to be appointed within 10 days, shall, within 30 days from the signing of the protocol, meet at Havana and San Juan respectively to arrange and execute the details of the evacuation.

5—That the United States and Spain will each appoint not more than five commissioners to negotiate and conclude a treaty of peace. The commissioners are to meet at Paris not later than the first of October.

6—On the signing of the protocol, hostilities will be suspended and notice to that effect will be given as soon as possible by each government to the commanders of its military and naval force.

Correspondence has not availed to change in any material point the conditions which were then imposed; and Spain surrenders absolutely wherever surrender was demanded. Friday denotes an epoch in American history. The signing of a treaty of peace (because to all practical purposes this the protocol is) is in itself an event of the highest moment, but yesterday's action assumes extraordinary magnitude. It irrevocably commits the United States to a new policy. We have now become a colonizing power. For the first time in our history we have pushed our boundaries beyond the sea. For the first time in our history we have gone beyond our own hemisphere. When Secretary of State Day and Mr. Cambon signed the protocol the traditions of more than 100 years were violated.

Never before Friday has our flag waved in the waters of the far east. When Spain acknowledged herself defeated and paid the price of peace, she placed us in undisputed possession not alone of the two fairest jewels of the West Indies, but the city of Manila, to capture which we had sent our army and navy more than half way around the world. Today we have colonies, colonies which it does not require a prophet to predict we shall never give up until, like Spain, we become degenerate and forget what it means to fight in defense of our own.

The formalities by which this great change was brought about were simple in the extreme. Earlier in the day there was the same feeling of expectancy in the state department which has been so apparent there during the past two days.

It is but simple justice to France to record the fact that through her good offices this speedy termination of a war that might have run on indefinitely was brought about, and the president himself deemed the action on the part of the French government as worthy of his special praise.

The closing chapter of events that led up to the signature of the protocol and the cessation of hostilities was full of interest. There were rumors in the early morning that over night the French embassy had received final instructions from Madrid, but these upon inquiry proved groundless, and it was not until 12:30 that the note began to come from Madrid in small lots. At 2:45 o'clock Secretary Thiebaut of the French embassy appeared at the state department to inform Secretary Day that the ambassador was in full possession of the note; was fully empowered to sign the protocol for Spain and only awaited the pleasure of the state department. He intimated that the ambassador would be pleased to have the final ceremony conducted in the presence of President McKinley, where the negotiations were begun. Leaving the secretary of embassy in his own office, Secretary Day made a short visit to the White House to learn the president's wishes in the matter. The latter immediately consented to accept the suggestion, and Mr. Thiebaut hastened to inform his principal that the president would receive him at the White House at 4 o'clock.

Examined the Protocol.

At 4:05 the ambassador and his secretary were announced to the waiting party in the cabinet room and were ushered into their presence. After an exchange of diplomatic courtesies, no unnecessary loss of time occurred, and Assistant Secretary of State Cridler and Secretary Thiebaut retired to a window, where there was a formal examination of the protocol. This inspection had all the formalities due a document of this importance. It was prepared in duplicate at the state department, one copy to be retained by the United States government and the other to become the property of Spain. The text is handsomely engrossed in old English script. Each copy of the protocol is arranged in double column, French and English standing alongside for easy comparison as to the exactness of translation. The two copies are alike, except that the one held by this government has the English text in the first column and the signature of Secretary Day ahead of that of Mr. Cambon, while the copy transmitted to Spain has French in the first column and the signature of Mr. Cambon ahead of that of Secretary Day. The protocol to be sent to Spain was accompanied by the credentials, issued by President McKinley, specially empowering the secretary of state to affix his signature to this document. The authorization was brief and in type-writing save for the president's signature. Later the American copy of the protocol will be accompanied by the written credentials of the Spanish government sent to Mr. Cambon and bearing the signature of Queen Christina. The cable dispatch received by him conferred full authority to sign the protocol, and stated that the written authorization would follow signed by the queen regent in the name of the king. Prior to the ceremony of yesterday Mr. Thiebaut showed the cable dispatch to Secretary Day, and it was accepted as sufficient to enable the ambassador to sign in behalf of Spain. When the written authorization arrives it will be presented to the state department to accompany the protocol.

The examination of the protocol was satisfactory, and the document was handed to Mr. Cambon first and then to Secretary Day, who affixed signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Cridler, in charge of the chancery work, who attached the seal of the United States. Throughout the ceremony all but the two signers remained standing. No credentials were produced, the president accepting Secretary Day's assurance that this had been settled to his satisfaction at the state department. It was 4:23 o'clock when the final signatures were attached to the protocol, and, within the knowledge of all the officials present, this was the first time that a protocol or treaty had been signed at the White House. As this ceremony concluded, Acting Secretary Allen of the navy department, Secretary Alger and Adjutant General Corbin appeared, having been summoned by the president, and they were admitted into the cabinet room just in season to witness one of the most impressive features of the ceremony, when the president requested the hand of the ambassador and through him returned thanks to the sister republic of France for the exercise of her good offices in bringing about peace. He also thanked the ambassador personally for the important part he had played in this matter, and the latter replied in suitable terms.

Proclamation by the President.

President McKinley then called for the proclamation which he had caused to be drawn up suspending hostilities and signed it in the presence of Mr. Cambon, who expressed his appreciation of the action. It reads as follows:

"Whereas by a protocol concluded and signed Aug. 12, 1898, by William R. Day, secretary of state of the United States, and his excellency, Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington, respectively representing for this purpose the government of the United States and the government of Spain, the governments of the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken; and,

"Whereas, it is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces;

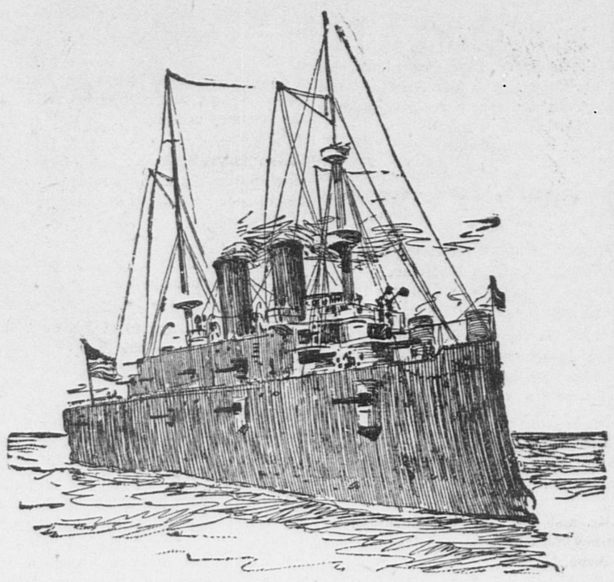

"Now, therefore, I, William McKinley, president of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation."

Disbandment of Volunteers.

Washington, Aug. 13.—Thus far the question of the disbandment of the volunteer army has not been given serious consideration by the officials of the war department. A considerable force necessarily will have to be maintained for several months, perhaps a year. In the opinion of the war department officials this force will be about 15,000 men. It will be kept in Cuba, Porto Rico and the Philippines principally, although a few troops will be stationed in Hawaii.

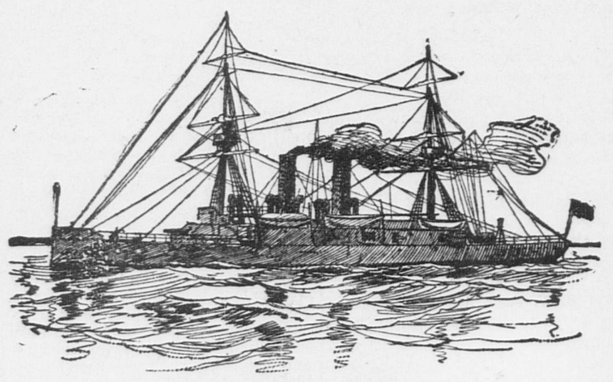

How the army will be disbanded has not been determined. It is likely that the volunteer troops now in Porto Rico, or so many of them as may not be needed there will be brought back to the United States and then furloughed from the camps of mobilization pending their actual discharge. It is probable that this method of disbanding the army will be followed in the case of all the volunteer troops.

At present it seems unlikely that the strength of the United States forces will be materially weakened pending the result of the labors of the peace commission. Orders have been issued for the departure of troops from San Francisco to the Philippines, and it is said that these orders will not be revoked. At present, however, no troops additional to those now under orders will be sent to General Merritt.

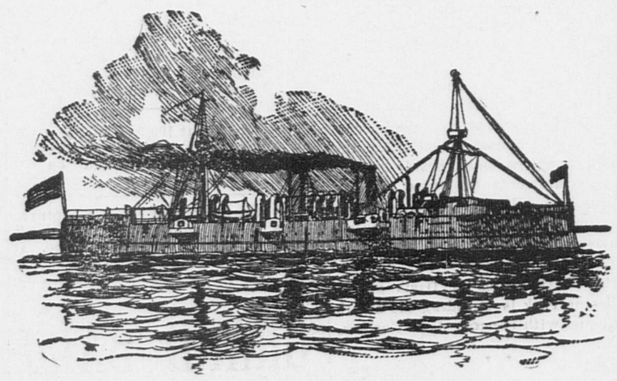

THE FLAGSHIP OLYMPIA.

The Olympia, the flagship of the Asiatic squadron, was built in 1891. Her displacement is 5,870; horsepower, 17,313; speed, 21.6 knots. She has four 8 inch breechloading rifles, ten 5 inch rapid fire guns, fourteen 6 pound and six 1 pound rapid fire guns and four Gatlings. She is a modern protected cruiser.

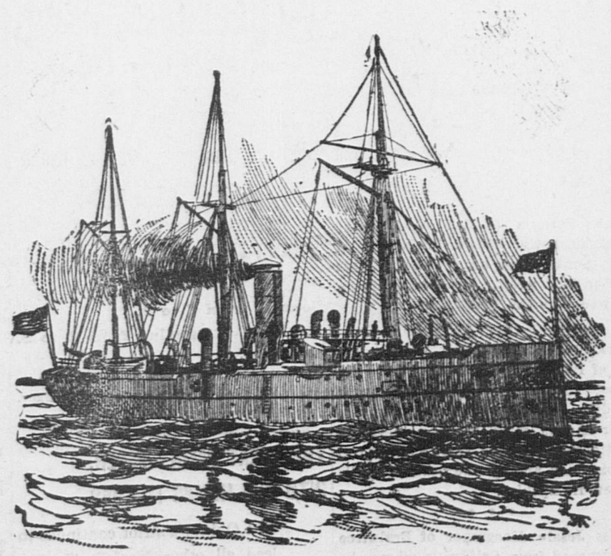

THE CRUISER BOSTON.

The Boston is a protected cruiser and was built in 1883. She displaces 3,000 tons of water. Her horsepower is 4,030 and her speed 15.6 knots. She has six 6 inch and two 8 inch breechloading rifles, two 6 pound, two 3 pound and two 1 pound rapid fire guns, two Hotchkiss revolving cannon and two Gatlings.

THE CRUISER BALTIMORE.

The Baltimore is a protected cruiser and was built in 1887. Her displacement is 4,413 tons; horsepower, 10,064; speed, 20.9 knots. She has four 6 pound and two 3 pound rapid fire guns, two 1 pound rapid fire cannon, four Hotchkiss revolving cannon and two Gatlings.

THE GUNBOAT CONCORD.

The Concord was built in 1888. She has six 6 inch breechloading rifles, two 6 pound and two 3 pound rapid fire guns, two Hotchkiss revolving cannon and two Gatlings. Her displacement is 1,710, her horsepower 8,045 and her

Stubborn Resistance.

Ponce, Aug. 13.—It has developed that 11 Spaniards were killed and 60 wounded in the fight at Coamo. General Schwan encountered 2000 or 3000 of the enemy near Hermigueros. The latter made a stubborn resistance. All the American forces engaged fought well and drove the Spaniards ahead of them. Private Fernberg and one other were killed and Lieutenant Bryon and 14 others wounded. The Spanish loss is believed to have been heavy.

Shoes of Brown Paper.

Washington, Aug. 13.—A special to The Star says that the camp at Thoroughfare Gap will not be broken until Monday, one-third of the men being badly in need of footwear. The troops must wait until a requisition for nearly 4000 pairs of shoes is filled. The rain developed the fact that a few of the shoes were made of pressed scraps and brown paper.

Further Improvement In Trade.

New York, Aug. 13.—Changes in general trade and business this week have been toward further improvement, as noted by Bradstreet's. Notable in this respect has been the iron and steel trade. From the leading concerns east and west come reports of more or less improvement in tone, demand or prices. Further encouraging features have been the accenuated demand on foreign account for wheat and corn, which is reflected in advance for those cereals in spite of a rather more favorable than expected government report of possible yield.

Price strength is also a feature. Oats, lard, beef, coffee, lead, rubber, copper and cotton are advancing. Signs that eastern markets are about to experience some of the improved demand reported at the west are among additional favorable features. Bank clearings reflect a maximum business for this period of the year in a total aggregating $1,221,391,000, 2.8 percent larger than last week.

The "hold-your-wheat" policy of the farmer was responsible for the falling off of from 25 percent to 40 percent in the movement of cereals to and from primary markets and the seaboard in July, and this, coupled with the fact that comparisons are now making with much improved returns one year ago, has resulted in a smaller gain in railroad earnings than has been reported for more than one year past. The total earnings of 104 roads, operating 90,000 miles of track, aggregate $38,898256, a gain of 1 percent over July a year ago.

Revenue Receipts From All Sources.

Washington, Aug. 13.—The preliminary report of the commissioner of internal revenue shows that the receipts from all sources during the fiscal year ended June 30 amounted to $170,869,519, an increase as compared with the previous fiscal year of $24,249,925. The receipts from the several sources of revenue during the year are given as follows: Spirits, $92,546,899, increase of $10,538,356; tobacco, $36,230,622, increase of $5,420,324; fermented liquors, $39,515,421, increase of $7,043,250; oleomargarine, $1,315,780, increase of $281,650; filled cheese, $16,518, decrease of $2473; banks and bankers, $1180, increase of $1094; miscellaneous, $1,243,096, increase of $867,713.

The quantities of distilled spirits, fermented liquors, tobacco, cigarets and cigars on which tax was paid during the year are stated as follows: Spirits, distilled from fruit, 1,411,448 gallons, an increase of 265,317; whisky and other spirits distilled from materials other than fruit, 78,353,210 gallons, an increase of 9,519,979; fermented liquors or beer, 37,486,156 barrels, an increase of 3,063,062; cigars, 4,910,881,541, an increase of 847,712,444; cigarets, 3,753,539,534, a net decrease of nearly 400,000,000; tobacco, 288,160,074 pounds, an increase of 27,425,262; oleomargarine, 55,388,727 pounds, an increase of 12,854,168.

The expenses incident to the collection of the internal revenue tax during the year were approximately $3,885,262. The states paying the larger amounts of internal revenue tax are: Illinois, $39,658,686; New York, $21,058,569; Kentucky, $18,220,918; Ohio, $16,436,908; Pennsylvania, $13,846,790; Indiana, $10,022,274.

Gruesome Mixup of Corpses.

St. Louis, Aug. 13.—The error of a railroad baggageman has caused a gruesome mixup of corpses. Four bodies figure in the strange story—perhaps a fifth. Thursday the sister of Elizabeth Winkleman of Cincinnati came near burying the body of Captain W. D. Sherman instead of that of Mrs. Winkleman, and the error was only discovered at the last moment. Miss Wyer, a young woman of Kansas, is on her way home, believing that a corpse in the baggage car of the train that carries her is that of her dead fiancee, Captain W. D. Sherman, a volunteer, who died in Washington from bullet wounds received in Santiago. When Mrs. J. O. Janes of Persons Kan., arrived in St. Louis she discovered that the body of her husband, shipped from Boston, had not arrived. Word was sent out along the line, and a telegram came to the effect that the body of Mr. Janes would be forwarded at once. A corpse did come, but it was not that of Mr. Janes. The box bore the inscription, "W. P. Leahy, 2021 Madison street, New York city." This was returned. Then a sealed casket bearing no inscription was received. The railroad officials assured Mrs. Janes that it contained the body of her husband, but she is not certain that such is the case, and it is thought the casket may contain the remains of Captain Sherman.

Tomorrow's Almanac and Forecast.

Sun rises—4:50; sets, 6:47.
Moon rises—1:57 a. m.
High water—9:30 a. m.; 9:30 p. m.

Clearing weather is probable tonight, and fair, generally clear and pleasant Sunday, with westerly winds and highest temperatures between 70 and 80 degrees. From present indications fair and pleasant weather seems probable for several days, beginning with Sunday.

Hidden Weakness.

Just as we sometimes see a tree or pole apparently strong and sound come rushing down with a sudden crash because of some undetected process of decay, so no matter how good an appearance a woman may present, if she is subject to any hidden weakness, gradually sapping away and undermining her vitality, some day her entire constitution will give way and leave her a prostrate physical wreck.

The average doctor gives a little something for the headache and a little something else for the backache and still another thing for the nerves and so on, never once reaching the *hidden* weakness in the distinctly feminine organism.

The vast experience and special practice of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., in treating women's diseases, enables him to understand and cope successfully with these particular ailments. Any woman may feel the utmost confidence in consulting him by mail. She will receive, free of cost, sound professional advice whereby her health may, in ninety-nine cases out of a hundred, be promptly and permanently restored. All correspondence is held to be *sacredly* confidential.

A lady living in Coshocton Co., Ohio, Mrs. W. T. Stanton, of Blissfield, writes: "I had female weakness very bad for nearly three years. Had dragging down pains in and above my hips and such dreadful pains in the back and top of my head (just as though someone was lifting me by the hair). Had no ambition, would try to work a few days then would have to lie in bed for a long time. No tongue can express the suffering I endured. I had much pain at monthly periods. I doctored most of the time with as good a physician as there is in the state, but had no ease only when I was quiet and off my feet and then I had more or less pain in my head. When I began taking Dr. Pierce's medicines I weighed 102 pounds, and was very pale and weak. I took twelve bottles of his 'Favorite Prescription' and seven of the 'Golden Medical Discovery.' Now I feel like a different person. Have no pain in my head, can do all the work for myself, husband and one child; am gaining in flesh. I feel it is through God's mercy and your wonderful medicines that I am cured."

NORFOLK, ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, and all other persons interested in the estate of JOHN FEDERHEN,

late of Quincy in said County, deceased.

Whereas, a certain instrument, purporting to be the last will and testament of said deceased has been presented to said Court for probate by Herbert M. Federhen of Quincy, who prays that letters testamentary may be issued to him the executor therein named without giving a surety on his official bond.

You are hereby cited to appear at a Probate Court to be held at Dedham in said County of Norfolk, on the seventh day of September, A. D., 1898, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week for three successive weeks, in the QUINCY DAILY LEDGER, a newspaper published in Quincy, the last publication to be one day, at least, before said Court, and by mailing, postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, George White, Esquire, Judge of said Court, this third day of August, in the year one thousand eight hundred and ninety-eight.

JONATHAN COBB, Register.

Values on the Stock Exchange are strong and advancing. Peace developments were an important stimulus to the upward movement; but cheap money and excellent business prospects have been much more potent influences, and their effects have been but partially realized. At the moment, there is a great plethora of idle funds seeking investment, and money is phenomenally easy in all parts of the country.

A point has been reached in our negotiations with Spain which places the final conclusion of a peace among the certainties. Spain has consented to conditions which put all the West Indian colonies under the control of our arms and provide for the return home of her troops. The arrangement for the disposal of the Pilippines is less absolute and leaves much to be determined by the Joint Commission of the two nations; but as the city and bay of Manila and the contiguous territory are to remain in the occupation of our force, that fact will give us a large influence in enforcing such terms as our Government may consider it necessary to demand. This is confessedly the most difficult question to be disposed of in the peace negotiations. It is not easy to say what is the opinion of a majority of our own people,—a matter to which the President must pay respect. Being largely dependent upon strategic considerations, it is important to ascertain from our military and naval officers what arrangements of that nature call for; but such advice needs to be well deliberated and cannot be had in a day.

Lieut. Bumpus Gets Orders.

Lieut. Edward A. Bumpus left Quincy Thursday to join his regiment, the twenty First Infantry, at Atlanta, Ga. He is a son of Judge Everett C. Bumpus of this city who was an officer in the Civil war, and was recently commissioned by President McKinley. Lieut. Bumpus has studied military science at Harvard college.

Brother Sam Moseley will please accept our congratulations upon his nomination as postmaster at Hyde Park. He made a good postmaster and he runs a good paper. He does his work well and that's how he gets there.

Horatio Davies, Lord Mayor of London, is coming to New York with his favorite daughter and they may come to Boston; Mayor Quincy will entertain and Mayor Quincy is a bachelor. O, Lord Mayor you may be happy yet.

* * *

Mr. and Mrs. Frank H. Dearing of Braintree will return about September first.

* * *

Miss Agnes M. Deasy is spending a few weeks at Cottage City.

* * *

Mr. G. W. Bailey of Wollaston is a guest at the Pendexter, Intervale, N. H.

* * *

Miss Eva Snow of Braintree is at Duxbury for a week.

An Ideal Country Wedding.

It was to have been an ideal country wedding, with a flowery church, a breakfast on the lawn and all the other accompaniments of truly rural nuptials. The bride's parents had given orders to the local florist to decorate the chancel of the parish church with the choicest blossoms they could procure, and the woods and the hothouses were to be called upon to furnish the special and favorite flowers of the bride and bridegroom. When the wedding party arrived, at 2 o'clock, not a blossom was to be seen. Inquiries—after the ceremony—were instituted, and it was then discovered that the fashionable wedding at 2 o'clock had been preceded by the marriage of some rustic swain and his best beloved soon after noon. Messrs. Blank's men had arrived shortly before the earlier wedding and sumptuously adorned the chancel with costly blooms and plants. They waited until the couple were made one, under the impression that it was the ceremony for which they had been ordered to decorate, and as soon as the late bride maiden and wedding guest had left the church they promptly set to work dismantling and had carried off every leaf and petal a good half hour before the genuine company arrived. So the local people had the benefit of a beautifully decorated church, while the would be rustics were married without a blossom to redeem its native ugliness, and it happens to be a particularly ugly edifice.—New York Commercial Advertiser.

There are about 100,000 islands large and small scattered over the ocean. America alone has 5500 round on its coasts.

The mite mentioned in the Scriptures was a Greek coin which circulated freely in Rome and in Palestine. It weighed about 18 grains.

ANNUAL DINNER.

Quincy Granite Manufacturers' Association at Nantasket.

No body of gentlemen in Quincy enjoy a good "square meal" as well as our Granite Manufactures, but hard work requires recreation and stimulating food, and the granite men get little of the former, and therefore relish all of the latter. They generally live well at home, but they feel that they need an extra bracer at least twice a year, and the winter meet is at a Boston hotel and the shore dinner in the summer are usually attended by most of them.

Nine-twenty was the time set for the departure this morning by electrics for Nantasket, but here we saw how difficult it is for business men to give up a whole day to pleasure. Many were unable to go until later and not more than half left on this car. Each succeeding car carried a few and some went down from Boston by boat so that all "showed up" at one o'clock for the grand dinner at Hotel Nantasket.

Mr. Alexander Marnock is the new president this year, and he was ably assisted by Secretary Dunphy and the committee of arrangements, and a good time is assured

The invited guests include Mayor Sears, President Pinkham of the City Council, R. F. Claflin, cashier of the National Granite bank; Horace F. Spear, cashier of the National Mount Wollaston bank; the veteran granite manufacturers Amos Churchill and Charles L. Badger, Freight Agent Carter, at Quincy Adams; Freight Agent Robidon, at West Quincy; L. S. Anderson, superintendent of the Quincy Quarry railroad; officers of the Barre association, Representative T. H. Newcomb, and representatives of the trade journals, and local press.

Monday's Ledger will publish the menu, and a report of the dinner.

Kindergartens.

With this present week the regular teachers, Miss Weston and Miss Trask close their season's work at the Home Science Summer Kindergarten. The kindergartens will, however, be continued for two weeks more, until the end of August by the young ladies who have been acting as assistants. Miss Ward and Miss Perry at the Gridley Bryant, and Miss Gordon, Miss Dinnie, Miss Martin and Miss Johnson at the John Hancock, and during these last two weeks as discipline of children is more difficult when visitors are present, it is felt advisable to close the school to visitors, except in cases of previous arrangements with the young ladies in charge.

The Home Science Association feels that special thanks are due Miss Trask and Miss Weston for their efficient work during these particularly trying summer weeks. The children have shown their appreciation by increasing eagerness to attend kindergartens and by increasing interest in their work, when there and the courteous and heartfelt thanks of the mothers have been in themselves a sufficient reward for any trouble involved in organizing the schools and carrying them on. A mothers' afternoon was arranged last Wednesday; the piano and tables were charmingly decorated with flowers, in white, yellow and green, and some thirty-five mothers came with their little ones to enjoy the kindergarten games and songs, and a bit of ice cream and social chat afterward.

People sometimes say, why take the trouble and go to the expense of carrying on the Home Science Kindergartens—and some who have taken least trouble to examine into it as a whole have even called the summer kindergartens scheme "silly." It would be possible to retaliate, as some one once retaliated upon Carlyle when he condemned Titean as an artist that this proved nothing with regard to the great Titian's deficiencies, but only something with regard to Carlyle himself.

Retaliations, however, is not only unprofitable but, when it is a question of the merits of something of each widely recognized value as kindergarten training for litle children, quite unnecessary.

The Home Science Kindergartens will be open again next summer, and a special invitation is extended to all hard hearted critics to visit them and be converted.

We will be pleased to mail the Daily Ledger to your vacation address.

SANTIAGO LETTER.

Lieut. Sprague of Signal Corps Writes of His Arrival.

[Continued from Wednesday.]

Santiago de Cuba,
July 29, 1898.

We arrived at Santiago late in the afternoon day before yesterday. We passed all the wrecks and finally arrived off Morro Castle. It was not such an imposing affair as I had expected. It is a structure built of brick and masonry on solid rock high up on a hill which make a pricipice down to the water. You could see where the shots from the fleet struck (it must have been a beautiful target it is so prominent, being light colored while everything around it is dark and you can see it as a light colored spot for miles.) From the outside it does not look as if it were injured to any great extent but then I have not seen the inside. It is situated at the entrance to the harbor with another fort just beyond it and as the entrance channel and all would only allow of about four ships abreast, you can see that it ought to be practically impossible for anything to get by it. Just beyond Morro and within 200 feet, much nearer the water is another fort while on all the hills are concealed batteries.

Directly uder the guns of the second fort lies the wreck of one of the Spanish gunboats, the Reine Mercede I think. She lies on her side and most of her deck is above water, she has some holes in her smoke stacks, but unless she is all gone under water I don't see any reason why she could not be floated. as she is in such shallow water that with her keel on the bottom she is still partly out of water.

Just beyond her, sticking up out of the water, is the smoke stack and mast of the Merrimac just as she was sunk by Hobson. She does not fill the channel by any means as we came through the channel directly by her. The entrance harbor is the most crooked I ever saw, but when you get in there is quite a large harbor.

We are anchored something like a mile and a half from the shore and somewhat nearer the city are fourteen transports for troops. The harbor is completely surrounded by a range of mountains, while the city occupies one end. All I can see is a lot of low houses, some painted blue with roofs covered with palm leaves and with the exception of a flat brick building on the hill I would not give $1 for any building in sight.

Just think we came aboard this boat a week ago tonight and with the exception of the time I went ashore at Tampa to mail a letter I have not set my foot on land, and now we are not wanted here. General Shafter has refused to allow us to land and has ordered us back to Tampa. We thought perhaps we would go to Porto Rico but so far as I can find out we are liable to go back to Tampa at any time, in fact just as soon as a boat goes that way.

I have hoped and still hope that I may be able to go ashore, even if only for a few moments but I don't know, they do things in such peculiar manner here. We brought along with us Lieut. Petlow who was ordered to report to Capt. Butler. When he landed they refused to allow him to go to Butler and as he had left the vessel he could not come back so I don't know what he can do.

I understood that there is a lot of sickness in the city (Santiago) just what it is I don't know but the doctors say keeping your bowels open, keep clean by daily bath, never worry and you are bound to be all right.

My vaccination is just beginning to go down and consequently I feel much better. The climate is the most remarkable I ever saw. From about eight or nine A. M. to 1.30 P. M., it is insufferably warm; then we have a very heavy rain with thunder and lightning how heavy you can imagine when we get rain enough off the awnings to water (twice) over forty mules.

(To be continued).

Castle Square Theatre.

The management of the Castle Square Theatre has arranged a most interesting attraction for the coming week the selection made being the three-act comedy by Tom Taylor, "Still Waters Run Deep." This play has held its popularity in England and America for over forty years, its origional production having occurred at the Royal Olympia Theatre, London May 14,'55. The plot is most interesting the characters are strongly drawn and the dialogue is written in the style for which its author is famous. Mr. James Barrows joins the company for this production and the cast will be as follows, Mr. Potter, James Barrows; Capt. Hawksley William Humphrey; John Mildmay, J. H. Gilmour; Dunbilk, J. H. Seeley; Langford, N. H. Fowler; Markham, W. C. Masson; Gimlet, Lindsay Morison; Jessop, John J. Geary; Thomas, Louis Lytton; Mrs. Mildmay, Miss Francis Drake; Mrs. Sternhold, Miss Maude Odell. Following "Still Waters Run Deep" on Monday, August 22, comes a double bill consisting of Mr. E. H. Clement's minature melodrama "Princess Matilda" and Robertson's comedy "Home."

DIED.

KLAUS—In Braintree, Aug. 8, Frank B., son of Mr. Frank and Mrs. Sophia Klaus, aged 9 months and 29 days.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Sunshine.

Another lovely shower last night.

Dr. Dow is the new proprietor of the stable at the depot.

Fair and warmer and more sultry on Sunday.

The sun tried to break through the clouds this morning.

Anyone in want of apartments or stores should visit Craig building, West Quincy.

Mrs. Keenan has bought the Thaxter place on South street, Hingham, owned by Bishop Williams.

Many wish today they were granite manufacturers, that they might enjoy the good fellowship and shore dinner.

The concrete walk in Ward Six from the depot to Gurney's store is very much appreciated and all pronounce it a good job.

The catch basin at the foot of Prospect street should be put in at once as the street is a veritable pond at that point every time it rains.

Commissioner Knowlton reports that he continues to receive verbal applications for house connections with the sewer and that over thirty have thus far applied.

The employes the of Water department have their annual half holiday this afternoon and went to Rock Island where Pawsey will serve one of his famous bakes.

A large gang has been kept at work paving Hancock street and with pavers as cheap as they are today the city would do well to pave one-half of this street its entire length.

The brick sewer on Hancock street Wollaston, is moving along at about the rate of two feet per day and there is nearly one hundred feet more to build. The city is assured a law suit on this section in the end.

The contractors who are building the sewer on President's avenue struck an unusually large amount of water and it has been necessary to keep a steam pump at work night and day. This section was always low and from appearances it is full of springs.

Hose Co., No. 5, will have a grand ball at Fensmere Hall, Houghs Neck, on Wednesday evening next. Young's orchestra from Boston will furnish the music and a grand time is expected. Special cars will leave after the dance for Quincy.

The City band gave a postponed open air concert in Liberty square last evening. This was the concert arranged by the South Quincy Social club for their flag raising but was postponed on account of the rain. The concert was largely attended and the programme was an excellent one.

Manet encampment has decided to participate in the grand Odd Fellows' paarde in Boston in September and will go in the battalion from south eastern Massachusetts, including Shalom encampment of Dorchester, Wampatuck of Weymouth and the encampments at Fall River, New Bedford and elsewhere.

YOUTHS' DEPARTMENT.

The Boat Dwellers of Japan—Many Kinds of Swords—Gives the Fog Signal.

Young people who live in London or New York may fancy that our cities are crowded and that many families must live without very much air to breathe or space for the boys and girls to play in. What would they say to the boat dwellers of Japan? In that crowded country hundreds of families spend their lives and bring up their children upon the water and know nothing of the land, except as they make an occasional visit to it when obliged to purchase supplies or attend to some unusual business.

In every bay along the coast are found hundreds if not thousands of small craft called "junks." These are small, flat bottomed boats and are owned and inhabited by a man and his family, just as houses are in other parts of the world. Their business is the transportation of goods and merchandise of all kinds, and their navigation is a sort of family affair. One traveler says:

"I have seen a boat 20 feet long most adroitly managed by three children, all under 7 years of age. I am told that notwithstanding their aptness at swimming many boatmen get drowned, for no boat ever goes to another's aid, nor will any boatman save another from drowning, because, as he says, it is all fate, and he who interferes with fate will be severely punished in some way."

Among these wonderful aquatic families children of 3 years old will sometimes swim like little fish, and if one is backward in learning he will be thrown overboard and teased and tormented until he is obliged to learn the art in self defense.

Ah, it is in reading and learning about the people of other lands that we find how much we have to love and be thankful for in the broad, free life of our own. But even here there are children who would be the better for such frequent baths, and perhaps you would have great difficulty in persuading the little Japs that life in the hot and crowded streets of our great cities was to be preferred to that of the junkmen on the rivers and harbors of their own country.—Detroit Free Press.

Swords.

These are some of the different names for swords: Scimeter, claymore, yataghan, cutlass, machete, rapier. At present maybe we hear more of the machete than any other, as it is the distinctive weapon of the Cuban, and in the hand of a strong man is deadly, in spite of its short, clumsy appearance. In length it is about two feet, and six inches of that are required for the handle. The blade is three inches broad. In fact, the machete is more like an awkward butcher's knife than anything else.

The rapier has figured largely in France, Spain and Italy. For a long time the English ridiculed it as being too slight for effective warfare. The cutlass was a favorite weapon of pirates, its blade being broad and flat, with both edges sharpened. The scimeter and yataghan were eastern weapons, and the claymore the sword of the Scottish highlanders.

The most important implement of this sort nowadays is the saber. It has but one edge of its blade sharpened, but a thicket of sabers assaulting the enemy is something to be dreaded.

It will be a good thing for the world when swords and all kindred death dealing implements shall be entirely abolished and instead just, courteous arbitration be substituted.—Baltimore Herald.

Gives the Fog Signal.

At the Portland (Me.) head lighthouse is a government servant whose name is not on the pay roll, but who is as faithful as any lighthouse keeper in the country. This interesting member of the service is a large gray parrot that has learned to mock the signals of the lighthouse man. It was brought from Africa a short time ago and soon learned that the keeper would cry, "Fog coming; blow the horn!" when the fog began to blow in from the ocean. Ever after that the parrot gave the warning whenever the fog began to appear, and recently it gave the signal before the lighthouse man noticed that the fog was upon them.

Left Alone.

It's the lonesomest house you ever saw,
This big gray house where I stay.
I don't call it livin at all, at all,
Since my mother went away.

Four long weeks ago, an it seems a year.
"Gone home," so the preacher said,
An I ache in my breast with wantin her,
An my eyes are always red.

I stay out of doors till I'm almost froze,
'Cause every corner an room
Seems empty enough to frighten a boy
An filled to the doors with gloom.

I hate them to call me in to my meals.
Sometimes I think I can't bear
To swallow a mouthful of anything,
An her not sittin up there.

A-pourin the tea an passin the things
An laughin to see me take
Two big lumps of sugar instead of one
An more than my share of cake.

I'm too big to be kissed, I used to say,
But somehow I don't feel right,
Crawlin into bed as still as a mouse,
Nobody saying "Good night."

An tuckin the clothes up under my chin
An pushin my hair back so—
Things a boy makes fun of before his chums,
But things that he likes, you know.

There's no one to go to when things go wrong—
She was always so safe an sure.
Why, not a trouble could tackle a boy
That she couldn't up an cure!

There are lots of women, it seems to me,
That wouldn't be missed so much—
Women whose boys are about all grown up
An old maid aunties an such.

I can't make it out for the life of me
Why she should have to go,
An her boy left here in this old gray house,
A-needin an wantin her so.

I tell you, the very lonesomest thing
In this great big world today
Is a boy of ten whose heart is broke
'Cause his mother is gone away.
—Toronto Globe.

CANNON BALD FASTER.

Hair Raising Finish With Cooper In Indianapolis.

Bostons Defeated Tebeau's Team of Indians.

Detroit Boxer Made Helpless In the Thirteenth Round of a Bout.

Indianapolis, Aug. 13.—The first night races of the national meet of the L. A. W. were held last night. Eddie "Cannon" Bald won the mile match with Cooper in straight heats. The race was unsatisfactory to the immense concourse of people. In the second heat snails could have gone over the course faster. This mile was completed in 7:57 3-5. It was a loaf pure and simple. The sprints at the finishes were magnificent, Bald's headwork winning for him the long looked for event.

EDDIE BALD.

Bald's victory increased the feeling between the two, especially as Cooper claimed a foul in the second heat because after Bald forced him to take the lead he had stopped at a post in the ampitheatre. Bald touched him and held to the post. Referee Mott refused to allow the claim and awarded Bald the race. Had not the referee forced them on by threats of suspension, the men might have made the race an all-night affair. Bald won on his merits when they did race.

The first heat was scheduled for the French style of racing. Cooper forced Bald to take the pace,and for a lap the speed was fair. Bald then rode to the top of the bank and Cooper trailed. They rode at a snail's pace for the next two laps and until within a furlong of the tape. Cooper then made a jump and Bald was immediately after him. It was a hair-raising finish, Bald crossing the tape first on the outside, a foot in advance.

In the second heat Bald had the pole. Acker was put in as pacemaker. The gun was fired for a start, but neither man moved. The second time it was fired, and they stood still. Then they moved away and made as pretty a slow race as has been seen anywhere. Cooper went to the top of the bank immediately, Bald followed and both clung to the fence of the ampitheatre. Cooper was first to hold the fence. Referee Mott gave him a minute to get awey after a wrangle, and the referee's bluff won. The men then rode slowly around the track, Bald trailing until a point was reached about five yards further on from that where Cooper had made his jump in the previous heat. Bald shot out like a flash, and Cooper took up the chase on the instant. It was a marvellous sprint, and Bald's front wheel crossed the tape six inches in front of Cooper's. The time was 7:57 3-5. The crowd hissed both racers.

WON AT HOME.

Klobedanz Pitched Good Ball and the Indians Were Defeated.

Boston, Aug. 13.—Klobedanz was pitted against the Cleveland's old stand-by, Cy Young, Friday, and the Boston southpaw pitched all around the herculean wonder. The work of Kloby after the first inning was of the finest kind, and for eight successive tries the Clevelands were shut out.

Only a few of the Bostons were left on bases, and none struck out. Young was not far behind Klobedanz in control of the ball, and his fielding in the box was notably good. His star play was on Duffy's pretty bunt, only four feet from the plate, whereby the Boston captain was thrown out at first.

Other star plays of the game were Long's one-hand stop of Child's hard one; that by Wallace at third, when he grasped Bergen's base-hit ground shot with his mailed hand, and threw Martin out at first; Child's running catches way out in center; McKean's fielding at short, and Captain Tebeau's first-base playing.

Bostons .....3 0 0 1 2 0 2 —8
Clevelands .....2 0 0 0 0 0 0 0—2

Earned runs—Clevelands, 1; Bostons, 2. Two-base hits—Collins, Long. Home run—McKean. Double play—Lowe, Long and Tenney. First base on balls—By Klobedanz, 2; by Young, 2. Hit by pitched ball—Collins. Struck out—By Klobedanz, 1. Passed ball—Bergen, 1. Time—1:37. Umpires—Snyder and Connolly. Attendance—3500.

The Philadelphias defeated the St. Louises, 5 to 2, by timely hitting. Platt was more effective than Taylor when men were on the bases.

Loose fielding behind Callahan was responsible for the downfall of the Chicagoes in New York. Rusie was batted hard, but in no inning were the hits bunched.

The baseball muddle in St. Louis took another turn yesterday, when William A. Kinnerk filed a motion to set aside the receivership and restore the club to Von Der Ahe, trustee under the second deed of trust. A day or two ago the Missouri Trust company secured a receiver on the ground that $20,000 worth of bonds was in default in both principal and interest, and that the bondholders wanted their money.

Because they could not hit Breitenstein of the Cincinnatis at the right time the Brooklyns suffered defeat yesterday. They fielded poorely.

Evans' wildness in the first inning lost the game for the Providences yesterday. Then he settled, and the remainder of the game was a superb exhibition. Score: 4 to 3.

Broderick the Victor.

New York, Aug. 13.—The attendance at the Lenox Athletic club's boxing exhibition last night was not up to the usual standard, although good bouts were on the program. The star event, a 20-round bout between Otto Sieloff of Detroit and Tom Broderick of Yonkers, served to reintroduce the western boxer, who gained a victory over Tim Kearns of Boston on his initial appearance at this club a few weeks ago.

In the fifth round Sieloff's quick change from right to left-hand work puzzled Broderick somewhat, but honors were even. There was fast fighting in the seventh, and it was Broderick's round. Clinches were frequent in the eighth, with Broderick doing the better work. Both landed good blows in the ninth. In the 10th Broderick hooked his right heavily on the head, and with a left-hand jab landed on Sieloff's nose.

Sieloff forced the fighting in the 12th. Tom, in a hot mixup, outfought Sieloff four to one. In the 13th round, Sieloff was weak and swung wildly. Broderick swung left to the head and staggered Sieloff, and sent a straight right flush on the mouth, sending Sieloff down and out. Broderick was declared the winner.

A Sure Indication.

New York, Aug. 13.—The news that Sir Thomas Lipton had received the cable message from the New York Yacht club and had expressed his pleasure at its tenor is regarded by New York yachtsmen as a sure indication that he intends to take no part in the objections which have for many years been made in England to the requisites of the last deed of gift. His cable statement that Fife, the designer, will start for New York in a few days with the dimensions of the Shamdock to hand to the New York Yacht club committee is regarded as an indication that both Fife and Sir Thomas are willing to meet the New York Yacht club without raising any objections.

The Tennis Championship.

Newport, Aug. 13.—The drawings for the 18th annual tournament of the National Lawn Tennis association were made yesterday by the president of the association. The entries are about half as many as last year, and include but few of the players who in former years have reached the semi-final rounds of previous tournaments.

The winner of the singles will have the privilege of playing R. D. Wrenn, the present national champion, but as the latter is now among Roosevelt's rough riders, it is barely likely that he will appear to defend his title, so that the winner of the tournament will probably be the champion this year.

HOLDUP IN A HOTEL.

Robbers Forced to Flee Before Getting a Decent Return.

Breckinridge, Col., Aug. 13.—A well planned holdup took place here in the Denver hotel, but owing to the alarm caused by the accidental discharge of a shotgun held by one of the three robbers, they did not go through the safe or cash register, and secured only about $50 in money from a till, several gold watches and other jewelry.

Sheriff Delwiller and a posse encountered the robbers near Kokomo, and a running fight took place. One of the robbers, Steve Ryan, is reported killed, and another, Mantry, badly wounded. Charles Ryan was captured and another man, named Ryan, suspected of being implicated in the robbery, is being pursued. Ex-Deputy Sheriff M. E. Conrad, one of the posse, was killed in the fight, and Sumner Whitney, another member, was seriously wounded.

Claim to Be Stewart Heirs.

New York, Aug. 13.—Application has been made to Judge Smith of Brooklyn on behalf of Mary A. Carroll, 19 years, and James J. Carroll, 17 years, to allow them to sue as poor persons. The Carrolls want to bring an action against Henry Hilton, who, they claim, has possession of property of Alexander T. Stewart, the millionaire dry goods merchant, which belongs to them. They also want to sue various beneficiaries under the Stewart will of property to which they claim they are the rightful heirs. There is nothing in the papers which would show the relationship of the proposed litigants to the Stewart family.

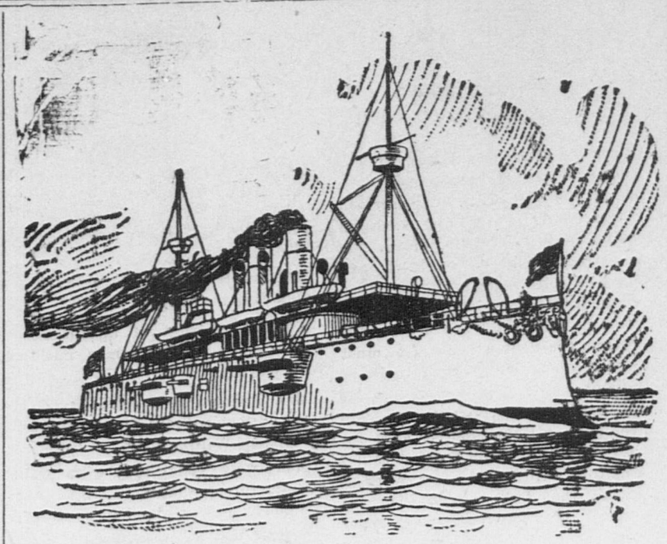

The News of Beantown.

Boston, Aug. 13.—Judge Allen of the supreme court has handed his resignation to Judge Wolcott. While he is in his 72nd year and is eligible for retirement on half pay under the recent law for more than a year past, still he has enjoyed activity and vigor in body and mind. The bar regarded him as one of the best lawyers on the bench.

The attorney general has asked for receivership against the Berkshire Health and Accident association of this city. A recent examination by the insurance department shows that the company has assets of $3525.05 and liabilities of $8458.63.

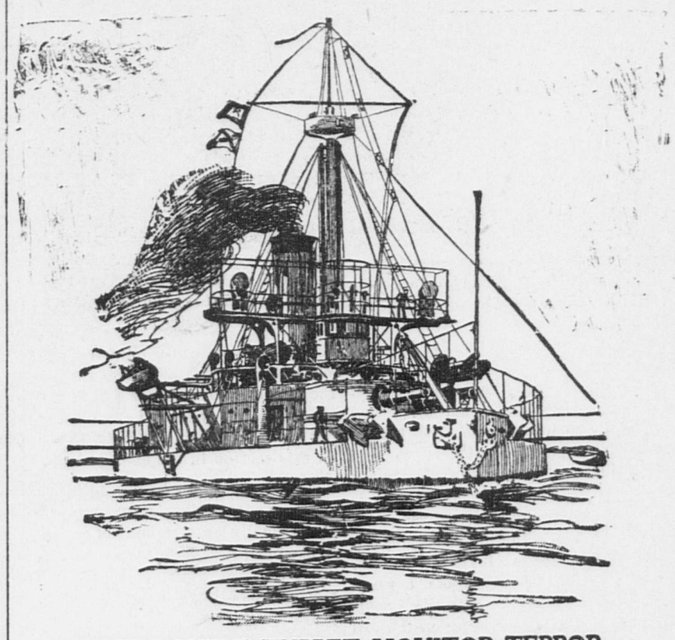

Suicide of a Woman.

Littleton, N. H., Aug. 13.—Mattie Eastman, one of the best known residents of this town, committed suicide by jumping from a bridge into the river, a distance of about 40 feet. As there are but two feet of water at this point, she was probably killed by striking the rocks. It is supposed the act was caused by illness, which had extended over two years.

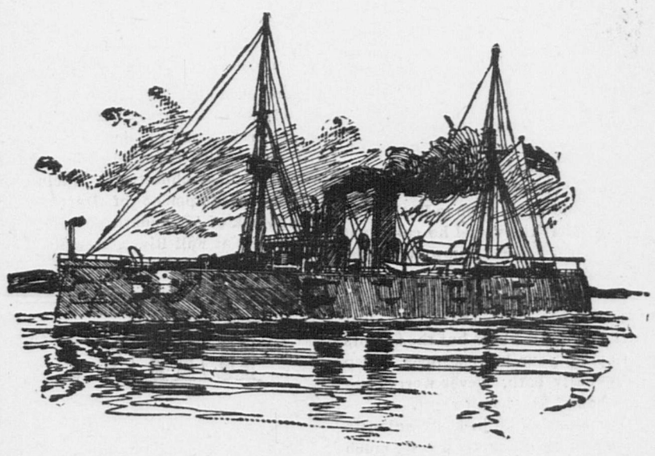

THE BATTLESHIP TEXAS.

The Texas can steam 17 knots an hour when doing her best work. She displaces 6,315 tons of water, develops 9,000 horsepower, and she cost $2,500,000. Her main battery is composed of two 12 inch and six 6 inch guns. Her secondary battery consists of a dozen smaller guns.

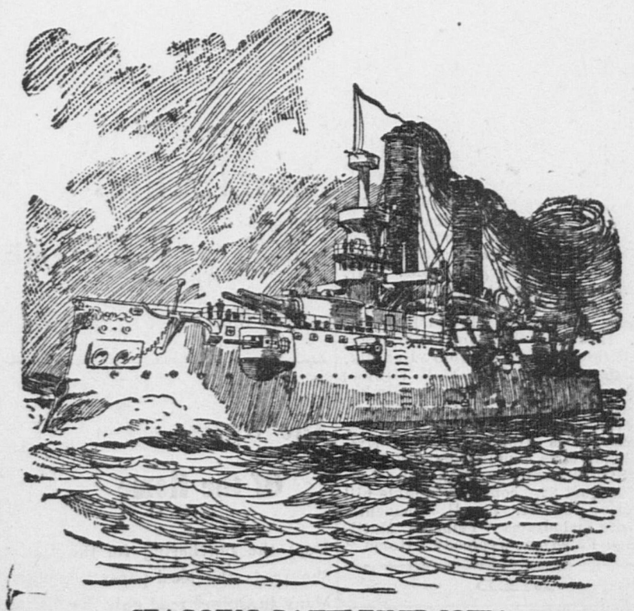

THE DOUBLE TURRET MONITOR TERROR.

The Terror is a modern coast defense vessel of 3,990 tons displacement. Her speed is 12 knots, and she cost Uncle Sam $3,178,046. Her four big 10 inch guns are carried two in each turret. She also has eight smaller guns. In action she can sink so that her upper deck is flush with the water and her curved deck and revolving turrets are alone presented as a target. She carries a crew of 200 men.

THE CRUISER RALEIGH.

The Raleigh is a protected cruiser. She was built in 1889, and her statistics are the following: Displacement, 3,213; horsepower, 10,000; speed, 19 knots. She has ten 5 inch and one 6 inch rapid fire guns, eight 6 pound and four 1 pound rapid fire cannon and two Gatlings.

SEAGOING BATTLESHIP IOWA.

The Iowa is the navy's most formidable battleship. Her statistics are: Displacement, 11,410 tons; speed, 16 knots; horsepower, 11,000; cost, $8,010,000; armament, four 12 inch, eight 8 inch, six 4 inch guns and 28 guns of smaller caliber.

BRITISH DISGUSTED.

Russian Intriguing In China and Salisbury's Supineness.

"The Guns Will Go Off of Themselves."

Text of a Secret Treaty That Makes Dark Things Clear.

London, Aug. 13.—The morning papers express the growing indignation of the country over the position of affairs in China. The Graphic says: "If this state of thing continues, the guns will go off of themselves."

The Shanghai correspondent of The Mail, who professes to divulge the terms of a long existing treaty between China and Russia, says: "It is nothing less than an offensive alliance. China undertakes to regard Russia as having a preponderating influence in all questions of commercial and internal politics, while Russia will support China against all 'open door' demands. Russia finances China in internal developments; and China grants Russia preferential rates in certain areas, and railways built in the joint interests of the two countries will be under Russia's practical control. Russia will assist China in developing her military and naval forces, and China will co-operate with Russia as an ally. This treaty has been in abeyance since Li Hung Chang visited the czar. That it has become operative at the present moment in respect to the Pekin-Han Kow and Niu Chwang contracts is significant."

If The Daily Mail's version may be trusted it will explain much that had hitherto been inexplicable in the development of the question. The manager of the Hong Kong and Shanghai bank in London, in the course of an interview, said: "I believe the Pekin-Han Kow line, owing to natural obstructions and its costliness, will never be built, Russia merely wishing to keep England out."

The French press comments gleefully upon the situation; and the newspapers in Berlin and Vienna are at no pains to hide their satisfaction at the discomfiture of England. The continental press regards the project of an Anglo-American alliance as chimerical. These journals consider that the United States have had enough of war for the present and will not care to give Great Britain anything more than moral support in China. Therefore, they argue, England is not likely to pick a quarrel with Russia, but will content herself with seeRing compensation elsewhere.

A special dispatch from Shanghai says: "Russian agents are again intriguing to obtain control of the Chinese maritime customs department."

The Pekin correspondent of The Times, telegraphing with reference to the Pekin-Han Kow contract, says: "The rebuff is all the more serious because the foreign office gave assurances that the deeree confirming the contract would not be issued until after a further conference with Sir Claude MacDonald, the British minister."

The Chronicle, in an editorial which reflects the general opinion of the London morning press, comments upon the fact that the Marquis of Salisbury and all the responsible officials are leaving London at such a critical moment. It says: "The curtain is deliberately dropped upon a scene of national humiliation and national indignation."

Brother and Sister Dead.

Lockport, N. Y., Aug. 13.—Belle Rowen of Newfane was found dead in bed Wednesday. Her brother was taken ill at the same time with vomiting and cramps. Friday morning he died. The coroner is investigating the case, as it is feared poison led to the deaths. The brother and sister lived together on a little farm in Newfane. Both were nearly 60 years of age.

NEWS IN BRIEF.

The pope has recovered his usual health.

R. W. Macomber has been appointed postmaster at Pearl, Vt.

Moses W. Heath, aged 22, was drowned while bathing near Lunenburg, Mass.

Admiral Cervera and several officers of his staff left Annapolis under special permission from Washington to visit the Spanish prisoners at Portsmouth.

Mount Vesuvius is now in a state of eruption from a new crater. The eruption is supposed to be connected with the seismic disturbances felt in southern Italy.

A cablegram from Kobe, Japan, says that the ship Baring Brothers of Thomaston, Me., had been burned and is a total loss. She was in charge of Captain Smalley of Thomaston.

An earthquake shock was felt in Messina, Sicily, yesterday afternoon and at various points in the island and the southern part of the peninsula. No damage resulted from the disturbance.

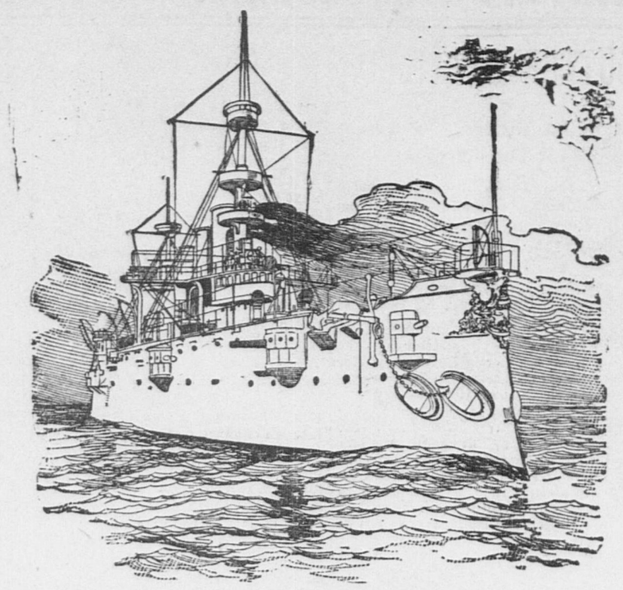

While six young persons were returning from bathing on Crooked lake, Ind., the boat capsized and Leonard Robey, stepson of Judge Robey of Auburn, and Lena Rempis of Waterloo were drowned.

The manufacturing plant of the American Cutlery company in Chicago was damaged to the extent of $75,000 yesterday. Five hundred employes were in the building, but all were rescued. One man was badly burned.

Arthur Beers, who was shot by Henry Kierney last Friday night, after an attempt to gain admission into the house of Handford Fairchild of Great Plains, Conn., where he supposed his abducted child was, died last night.

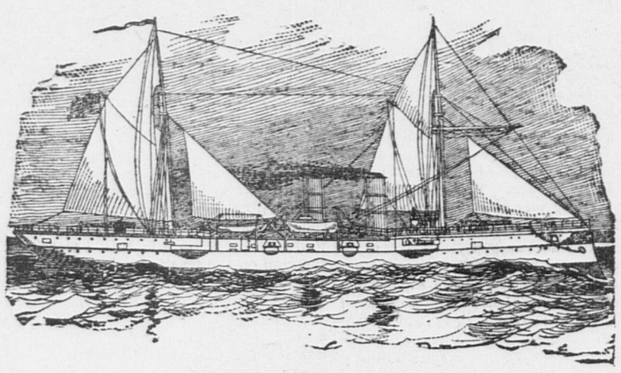

Secretary of State Day will be appointed United States judge for the sixth circuit in Tennessee as soon as he resigns from the cabinet at the close of the war. It is learned from reliable authority that President McKinley said he intended to appoint Mr. Day to the place.

Lieutenant Colonel Maccallum, governor of Lagos, West Africa, will succeed Sir Henry Murray as governor of Newfoundland. The British government, it is believed, acted so promptly because of the conditions created by the petition for the retention of Murray in the governorship.

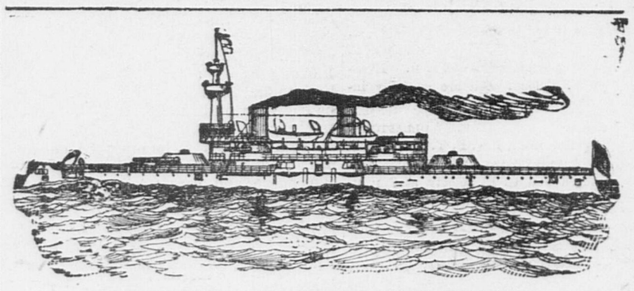

ARMORED CRUISER NEW YORK.

The New York is smaller but faster than the Brooklyn. Her speed is 21 knots, her displacement 8,200 tons, and she cost $3,000,000. She carries six 8 inch and twelve 4 inch guns and 16 guns of smaller caliber.

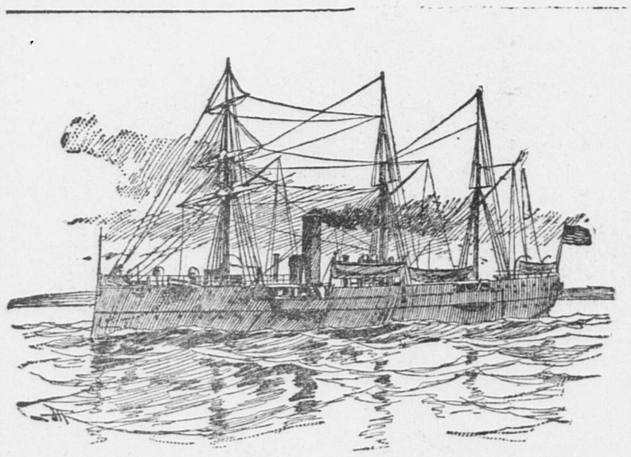

THE CRUISER DETROIT.

The Detroit carries nine 5 inch rapid fire guns, six 6 pounders, two 1 pounders and one gatling gun. She develops 5,227 horsepower and has a speed of 18.7 knots. Her displacement is 2,089 tons, and she cost $612,500.

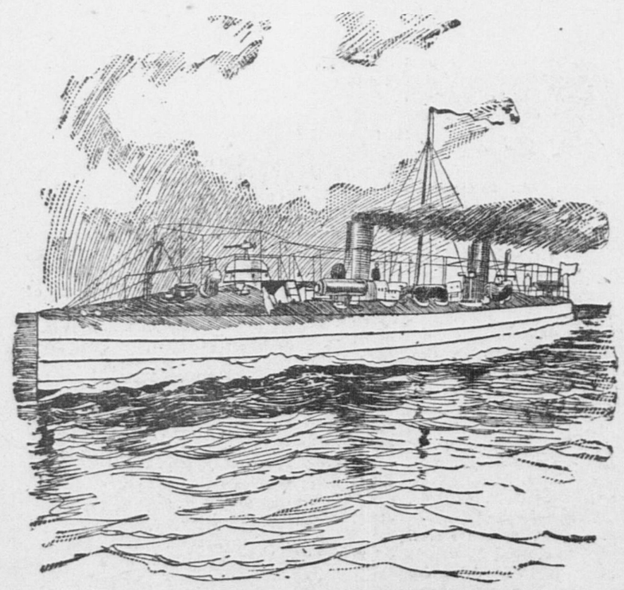

SEAGOING BATTLESHIP INDIANA.

The Indiana has a displacement of 10,288 tons, cost $3,020,000 and has a speed of 15.54 knots. She carries four 13 inch, eight 8 inch, four 6 inch guns and 30 smaller guns. Her mammoth 13 inch guns are mounted in turrets, two forward and two aft.

THE GUNBOAT PETREL.

The Petrel was built in 1887. Her displacement is 892 tons, her horsepower 1,095, her speed 11.7 knots. She has four 6 inch breechloading rifles, one 1 pound rapid fire gun, two Hotchkiss revolving cannon and two Gatlings.

TORPEDO BOAT FOOTE.

The Foote is swift as the wind. She can do 24.5 knots an hour and has 2,000 horsepower. Her displacement is only 142 tons, and she cost $97,500. Numerous torpedoes and six small guns are her weapons of offense and defense.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 14. Comment by Rev. S. H. Doyle.

TOPIC.—Exalt Christ.—Math. xxi, 1-11.

This passage in Matthew tells us the familiar story of Christ's triumphant entry into Jerusalem a few days before His crucifixion. It is the one solitary instance in the life of Christ where He allowed Himself to receive the homage and adoration due Him. It was a magnificent, spontaneous demonstration, showing the estimation in which He was held by the multitudes of His countrymen, but the fact that perhaps a few days later the voices that cried, "Hosanna!" then cried "Crucify Him!" makes it stand forever as an illustration of the fickleness of the human heart and of the ease with which the minds of the masses of the people may be swayed by artful and designing men. But it was an exaltation of Christ at the time and suggests to us a study in the exaltation of Christ.

1. The triumphal entry was an enthusiastic exaltation of Christ. Enthusiasm characterized the demonstration throughout. The multitudes were wildly enthusiastic. They stripped the trees of branches and spread them before Him; they took off their cloaks and with these made paths for Him; they cheered and cried "Hosanna!" Christ is worthy of enthusiastic exaltation. Enthusiasm is a good thing when there is anything to be enthusiastic over. What is worthier of our greatest enthusiasm than the life and work of Christ?

2. The triumphant entry was a public exaltation of Christ. In a sense it was national as well as local. People from various parts of the nation participated in it. Christ should be exalted publicly, in the community, in the state, in the nation. Every Endeavorer should throw all the influence of his public life strongly in favor of the exaltation of Christ.

3. The triumphant entry was an exaltation of the real Christ. Christ was there before the people. He was a real Christ. To many Christians Christ is not as real as He ought to be. Many have some sort of a hazy idea that away back in the centuries such a person lived, but their ideas about Him are very unsatisfactory and indistinct. We should study more thoroughly the life of Christ, live more closely to Him in prayer, so that He may become as real as an earthly friend standing beside us. Then we will present a real Christ to the world, and this is what the world needs.

4. The triumphant entry was an exaltation of Christ that produced results. When He came into Jerusalem, "all the city was moved, saying, 'Who is this?'" One great object of our exaltation of Christ should be to lead men to inquire about Him and to learn to admire Him. If we exalted Christ more in our daily walk and conversation, in all our private and public actions, men would more often say, "Who is this?" And this would give us the opportunity to tell them who our Christ is and to urge them to believe in, profess and exalt Him.

Bible Readings. — Ps. xxiv, 1-10; xxxiv, 3; Isa. xlv, 22-25; Math. xvi, 13-20; xxviii, 18-20; John xiii, 31, 32; Acts i, 1-11; iv, 10-12; xv, 25, 26; Rom. xiv, 7-12; Gal. ii, 20, 21; Phil. ii, 1-12; Col. iii, 1-4, 16, 17; Rev. v, 1-14.

The True Church.

The note of the true church is not correctness, but catholicity. We long for a church that shall indeed be "the mother of us all." She is not the mother of the saints and of the confessors only; she is also the mother of heretics and reformers. She has room for all. Her children must not only have food and discipline, but they must also have freedom and light. She does not cast them off when they make mistakes. They must have room to grow; they must have opportunity for experiment and adventure. The great thing, after all, is not a well kept house, but a healthy, happy household.—Christian Register.

Friendship.

Friendship is the nearest thing we know to what religion is. God is love, and to make religion akin to friendship is simply to give it the highest expression conceivable by man.—Ruskin.

Into the Life.

To be "without natural affection" is to lack that element of character upon which the Holy Spirit lays His hand in lifting us out of the life of sin and into the life of holiness.—American Friend.

The Blackest Misery.

A closed heaven represents the blackest misery that humanity is capable of suffering.—Rev. W. S. Cassmore.

Resist Its Arrogance.

Try to cultivate the moral courage that will resist the arrogance of fashion.—Philadelphia Methodist.

Dwell With Me.

Gracious Spirit, dwell with me!
I myself would gracious be,
And with words that help and heal
Would Thy life in mine reveal,
And with actions bold and meek
Would for Christ my Saviour speak.

Truthful Spirit, dwell with me!
I myself would truthful be,
And with wisdom kind and clear
Let Thy life in mine appear,
And with actions brotherly
Speak my Lord's sincerity.

Tender Spirit, dwell with me!
I myself would tender be.
Shut my heart up like a flower
At temptation's darksome hour.
Open it when shines the sun,
And His love by fragrance own.

Mighty Spirit, dwell with me!
I myself would mighty be—
Mighty so as to prevail
Where, unaided, man must fail,
Ever by a mighty hope
Pressing on and bearing up.

Holy Spirit, dwell with me!
I myself would holy be.
Separate from sin, I would
Choose and cherish all things good
And, whatever I can be,
Give to him who gave me Thee.
—Thomas T. Lynch.

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSE T for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE, (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.05 A. M. and every half hour until 10.05 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

BENJ. J. WEEKS, Superintendent.

New York, New Haven and Hartford R. R.

Eastern District.

On and after July 1st, 1898, trains will run as follows: (See note of explanation at bottom.

HOUGHS NECK.

Hotel Fensmere reports business steadily improving. Among the recent arrivals: Mr. and Mrs. W. H. London of Boston, Mr. Kincaide of Milton and boy, Mr. A. R. Coolidge of East Somerville and daughter, Mr. and Mrs. J. J. Crowley and son of Boston, Mr. Clarence E. Prince of Portsmouth, Miss A. E. Gilker of Boston, Mr. Geo. W. Chesley of Boston, Mr. E. Gately of Boston, Miss May Farley of Chicago.

The Braintree W. R. C. was entertained this week at Hotel Fensmere.

The Houghs Neck Improvement society held a meeting last evening at which it was voted not to hold the annual illumination this year.

The meeting also roasted the street railway because it did not give better service. The speakers claimed that the track was in poor condition, which the committee said the railroad admitted, but claimed they could not get permission to build another turnout and it was uncertain when the city would change their location. The speakers also kicked because cars frequently missed their train because the cars were late.

Keith's Theatre.

The weekly show at Keiths' continues to grow in attractiveness as the summer advances, and during the next few weeks some of the strongest and most popular attractions in the vaudeville are scheduled to appear. For the week of Aug. 15 some of the attractions will be: The Two Paolis and their trick dog, a European act of big reputation; Williard Simms, the celebrated character comedian; Ed. Latell, blackface comedian and instrumentalist, one of the funniest and cleverest fellows in the varieties; the Folly Trio, in an amusing comedy sketch; the Anglo-American male voice quartet, a high class vocal organization, and Hiatt and Pearl, musical comedians. The Symphony Orchestra players, under the direction of Max Zach, will continue their delightful concerts of popular high class music, and Thomas E. Clifford, Boston's favorite baritone singer, will,be the soloist. The biograph pictures have taken on a new interest since they have been exhibiting scenes scenes and incidents connected with the war in Cuba, and two of the most realistic and touching views that have so far been shown are the landof the troops at Siboney, and the transporting of wounded soldiers in row boats from the shore at Santiago to the hospital ships.

DR. RALPH M. FOGG,
DENTIST.

Teeth extracted absolutely without pain by the use of the

"BOSTON VEGETABLE VAPOR."

It is claimed that, while it has the required properties of ether, chloroform, nitrous oxide gas, it lacks the disagreeable and dangerous qualities of these drugs. It is certainly a boon to suffering humanity to be relieved of the nausea too often following the administering of sedatives of the old school.—Boston Transcript.

Teeth made and repaired on Gold or Rubber base. Teeth Filling a specialty.

BRAINTREE.

Rev. G. Benedict of North Abington will preach in the First church tomorrow.

Mr. E. B. Hayden of River street was taken suddenly ill Sunday and his case is considered critical.

There was a physical examination of the members of the new provisional company yesterday afternoon.

A Boston paper announces that Mr. Henry Gardner of East Braintree has gone into bankruptcy under the new law.

The Sunday morning and evening service at the South church have been suspended during the month of August.

Private Frank Darby of Battery I, stationed at Fort Warren, has been the guest of his friend, Henry Atwood on Washington street.

The First church Sunday School will give a grand concert about September 18. At that time it is expected that the church will be lighted by electricty.

Officer Qualey recovered on Tuesday, the bicycle recently stolen from the Thompson boy on Washington street. The wheel was found in a house off Common street.

The members of Monatiquot lodge K. of P., are organizing a base ball nine that will punish the Weymouth nine at the picnic, to be held Labor day. Those "down easters" will find that those Bent curves will be given in Ernest. He has been in training lately and has them down fine.

The members of the Braintree Veteran fire association held a meeting in their hall on Thursday evening. They will probably attend the firemen's muster to be held in South Weymouth the first day of the fair. The first prize is $300. It is hoped that a large crowd will go and help bring home the prize.

It is reported that a suit is to be brought against the Braintree and Weymouth railroad company by the father of the boy who recently died from the effects of an accident on Adams street.

It is said that the young man who has been working up the case got a little mixed and was enquiring for a "Henry V. Binton, a colored man, who sells papers, etc., and the genial real estate man is paying for sodas."

The topic for the prayer meeting Sunday evening, August 14 will be "Exalt Christ." Matthew 21:1-11. Leader Miss Annie Shaw.

Improvements and additions are still going on at the Fore River Engine works.

Mr. L. J. Hart and family of Weymouth have moved to Orient Heights, East Braintree.

Miss Mary J. Downs and Miss Ida Ratcliffe are spending two weeks' in Wolfboro, N. H.

Mrs. A. A. Ellsworth has received the sad news of the death of her brother in Chicago.

Report says that the Quincy and Boston people are to build a waiting station on the old church lot at East Braintree.

Mr. Peterson has resigned his position with the Jenkins Manufacturing Company and accepted a place as engineer at the electric light station.

Mrs. Frank Perry has just receievd two handsome parrots from her husband who is in Brazil. The birds have not yet mastered the English language but they have talked a great deal in their native tongue since their arrival.

Capt. Shaws' yacht, Moondyne has returned from Provincetown.

K. of P. Field day will be observed at Houghs Neck on Labor day.

Ground was broken for Dr. T. H. Dearings' new houuse on Washington street on Tuesday.

A large delegation will go to Rockland to witness the five mile pursuit race between the South Braintree bicycle club and the Campello club.

The concert to have been given by the Braintree Brass band on Thursday evening was postponed on account of the weather, until Thursday evening next.

Harold, son of Harry C. Stone and Walter, son of Walter H. Howland, fell from a stone wall the first of the week. The former breaking his wrist and the latter his arm. Both were attended by Dr. Granger.

J. B. Whitney has been advanced a step in railroading, as assistant roadmaster from Boston to Middleboro. W. C. Cole, formerly of the Grand Trunk road has been appointed to fill his position as yard master in the South Braintree yard.

—The young Napoleon of wheat speculation has gone into the real estate business which he will probably find to be a more royal road to success than wheat speculation.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

CUTTER DETAILED.

The Dallas Ordered to Quincy for Cup Races.

The Quincy Yacht club is in receipt of the following communication from the Hon. W. B. Howell, Assistant Secretary of the Treasury:—

Treasury Dep't.,
Washington D. C.
Aug. 11, 1898.

Secretary of the Quincy Yacht club:

Sir: In reply to your letter of the 8th inst. asking that a Revenue Cutter be detailed to be present at the races to take place in Boston Harbor on the 22d inst., you are informed that Captain Robert M. Clark, R. C. S., commanding the Revenue Steamer "Dallas," stationed at that port, has been directed to be present with his command at said race, and to assist in enforcingthe rules and regulations that may be adopted for the government of the same.

He has further been directed to communicate with you upon the subject.

Respectfully yours,
W. B. Howell,
Assistant Secretary.

SUNDAY SERVICES.

9th SUNDAY AFTER TRINITY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when possible. Let all churches be represented—Eds.]

AN ACCIDENT.

"Wait till you've handled the throttle of an engine and struck a person on the track and killed or injured 'em, and you'll know something of the feelin that comes over a man when the next time somebody gets in your way."

So spoke Uncle Bill Grimes to a number of his young friends who gathered at his pleasant little home on the south side of town the other evening.

"You know," he continued, "there's somethin about ridin in the cab of an engine that makes a man feel important, but for once I had the pride taken out of me. It was when I was runnin the 376, a big freight mogul. I had a heavy train of 35 cars, and as she did not steam well I was afraid we'd be late in makin our meetin point with No. 2, the passenger comin east. I had her movin along pretty well and was makin a run for Hooker's hill, which, as you've heard the boys say, is the hardest pull on the division. I've never had very bad luck in hittin people on the track, though once I had to set the emergency air on a stock train to keep from runnin into a wagon on a road crossin. I made up my mind when I first began runnin an engine that I would never take any chances, and a good many times have I had my hair raised by foolhardy people who'd stand on the track until the last minute before steppin off.

"At the time when the kids had so much fun we had just left Wilmet. It was in the early evenin, and a big moon was shinin in the sky, makin a beautiful night. We'd just left Wilmet, and I got her to wheelin in good shape when, about five miles the other side, on the run down a little grade, I saw a man on the track. There were some farmhouses on both sides at that place, so I didn't think it queer to see people there at most any time. As the old 376 went chasin down the hill I watched the man on the track closely, and as he didn't look around or move off I reached for the whistle. I blowed the stock alarm—a lot of quick, little jerks—for a minute and still the man made no move to get out of the way. By that time we were almost up to him, and I shut her off, threw her over and set the air, but it was too late. I shut my eyes as we rushed on, for I realized that the man was either deaf or drunk and would be killed.

"The horrors of that moment I can't tell. It was the first man I'd ever run down, and I almost feared to stop the engine. A feeling of terror seized me as I swung out off the gangway and went back to find him. I expected to find that he had been pushed to one side of the track by the pilot, and when I did not see him I knew that he must be cut to a thousand pieces beneath the wheels of the engine and cars. A death of that kind, where blood and bruised flesh are scattered over the track, leaves anything but a pleasant impression upon the trainmen, who have to pick up the remains and store them carefully in the caboose. When I went back, the hind brakeman came runnin up front over the tops of the cars, and when he saw me he yelled out: 'What's the trouble? What did you shut her off for?' 'Run down a man!' I shouted, to which he climbed down the ladder on the side of the car and dropped to the ground. I was glad that he had joined me before I had found anything, and as he poked about between the cars with his lantern he said, 'Where 'bouts was it?' I told him that he couldn't be more than a few car lengths from the engine, for we hadn't run by very far. Just then the conductor came runnin up alongside the train, and when the brakeman told him we had killed a man he got white in the face and lost his nerve right away.

"While we were huntin up and down the track I saw some boys run out from behind a straw stack in a field, and as they ran through the moonlight I heard 'em laugh. I began to think that they knew somethin about the affair, when the brakeman shouted: 'Here's somethin. It ain't no man. It's just a lot of old rags,' and he reached in between the cars and pulled out into the light of his lantern a very badly torn coat and a pair of pants which were all cut up. Along the track was scattered a lot of straw and rubbish, and it soon dawned on me that the little shavers had made a dummy and set it on the track. As there didn't seem to be any man with the clothes I felt considerably relieved, although I must confess I was considerably humiliated. When I told the brakeman that I had seen some kids chase out from behind yonder haystack he laughed and gave a shout at them, which was answered by the little fellers. I was pretty mad, although the joke was on me, and the conductor, who was a kind of a surly fellow, when he see the laugh was on me said all sorts of things. He didn't like it very well, for he was afraid we couldn't get up the hill and might lay out No. 2. The boys had lots of fun out of it, and several times when I've passed there since I have seen the lads playin along the side of the track.

"The men on the division heard of it some way, and it was a long time before they got over joshin me about it."
—Minneapolis Tribune.

A Drunken Fish.

Skates, too, came up at intervals. The first one captured was taken charge of by one of the crew, who promptly demanded a pocket flask. He freed the skate from the hook, turned it upon its back, then calmly poured a few drops of whisky into the convulsively working mouth. In a few moments he tossed the skate overboard, whereupon the gyrations it described were simply amazing. "He's drunk as a fool," laughed the sailor, as he watched his unfortunate victim. The skate certainly acted as though it had taken a nip or two too much, but if its actions are what are referred to by the slang term "skate," as applied to the inebriated human, I desire no such experience in mine. It was good whisky too!—Outing.

You Need It

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

UNTIL PEACE IS A FACT.

Strength of American Forces to Be Kept Intact.

Problems Engaging the President's Attention.

Hardest of Solution Pertains to the Islands In the Pacific.

Washington, Aug. 15.—While every branch of the government has been relieved from the tremendous pressure of war preparations and execution, it has been decided that until lasting peace is secured there cannot be a complete reversion to a peace basis. While nobody expects a rupture, there is always the possibility of a resumption of hostilities. Until peace is actually realized, the forces of the army and navy will be kept intact, and a resumption of hostilities would find the American army in full force and infinitely stronger than at any time during the progress of the fighting just ended.

The immediate evacuation provided for in the protocol will, it is thought, not be realized for weeks to come, owing to the difficulties attending their return to Spain. The commissary department has prescribed a daily ration for 70,000 Spanish regulars. The distress in Cuba is so great that the aid of the relief associations will be welcome and every facility furnished by the government for the transportation of supplies.

All of the troops that were with General Shafter in the Santiago campaign will be out of Cuba by Friday of this week. General Shafter will accompany them to Montauk point. There will remain at Santiago five regiments of immunes to do garrison duty. It is yet possible that a battery will be sent to Santiago to take the place of the batteries which are to be removed. General Miles has about 15,000 men in Porto Rico. They will be sufficient for the occupation of the island, and perhaps more than are needed after the Spanish evacuate. The remainder of the troops will remain in the various camps to which they have been assigned for the present, though something may be done towards diminishing the number when it becomes apparent that they are no longer needed.

The government will dispose of the transports that have been in use as fast as they can be released and are no longer required for service. All vessels of the navy that can be spared from service in the West Indies will be ordered to ports in the states, where the men will be given brief holidays. The big battleships of the fleet will be put in drydock as soon as possible and undergo such repairs as may be necessary. There is scarcely a vessel of the navy that does not need docking. It is expected that the large dock in the New York yard will be ready to receive the ships in about two weeks. The auxiliary vessels which will not be used for the permanent navy will be disposed of as soon as they go out of commission, probably being sold at auction.

The fact that the Philippines will present the difficult problem in the peace negotiations has caused the administration to give it a great deal of careful attention. Several suggestions have been made as to what shall be done, one being the retention of the bay, city and harbor of Manila—just what the protocol gives temporarily. Another is that Subig bay and a sufficient amount of territory for a naval and coaling station be secured and the building up of an American city at that place begun. Still another idea which is being considered is the retention of the island of Luzon, the advocates of that plan believing that there would be trouble between the governments which occupy a portion of the island with a line of demarcation such as would exist in case Manila and the bay only were retained. The island of Luzon is the largest of the group and contains about 3,000,000 people, which are said to be the better class in the Philippines. It is believed, however, that the administration and the commission will be greatly influenced by the reports which Admiral Dewey and General Merritt will make on the subject. Their reports are expected before the commission meets.

The final determination as to the government of Porto Rico and the settlement of the government of Cuba are problems for settlement, but the impression prevails that these islands will become quite rapidly Americanized, and every encouragement for them to do so will be given. Porto Rico will be under military control for the present. Cuba also will be similarly governed, but it is probable that American reforms in the matter of government will be such that the people of Cuba will see the advantage of becoming annexed to the United States. It is thought that the sanitary improvement of Havana and other cities, the management of the municipalities and the liberty offered will soon convince the inhabitants that the changed conditions are for their good.

Porto Rico will be treated at once as an American possession. The first movement in this direction will be the sending of a delegation of officials from the postoffice department to investigate and report upon the mail facilities there, and to make such recommendations as they determine upon. Mail routes, methods of transportation and the condition of postoffices generally in the island will be examined. Military postoffices will be established at once where troops are stationed, and at such other points as may be demanded by the interests of Americans and the people of the islands, if the present offices are not available. A similar course will be taken in Cuba, but this is likely to be delayed, as immediate removal of the Spanish and occupation by the United States are not expected.

No more troops will be sent to General Merritt unless he asks for them. It is believed at the war department that 16,000 men now there are sufficient to garrison Manila and the ground which the United States for the present will occupy.

Economizing Space.

Washington, Aug. 15.—It is evident from a dispatch received from General Shafter that the Spanish Transatlantic company, in transporting the Spanish prisoners from Santiago to Spain, is economizing space in its ships. The dispatch reads: "Luzon sailed for Spain with 2056 soldiers, four priests, 16 women, 34 children and 137 officers; total, 2237.

"All of the cavalry division, Kent's division, Lawton's division, except the Seventh and First infantry and sick and suspects of those commands, have already sailed, leaving Bates' division, Eighth Ohio infantry, batteries of light artillery, one battery of heavy artillery, four troops of Second cavalry, and two companies of engineers yet to go.

KEEN DISAPPOINTMENT.

Protocol's Reference to the Philippines Not Pleasing to Spanish Public.

Madrid, Aug. 15.—The city was patrolled by police Saturday night, but perfect tranquility prevails. The publication of the protocol produced keen disappointment so far as it refers to the Philippines, where it had been hoped Spain would preserve her sovereignty intact. Clause three of the protocol dispels this illusion. Echoing public feeling, the independent and opposition papers bitterly criticise the clause as affording a pretext for curtailing Spanish sovereignty in an archipelago, where control or interference of a foreign power would make the natives ungovernable. The Herald wants to know how America proposes to make the Cuban and Philippine insurgents submit to a suspension of hostilities and keep them in leash until evacuation of the islands by the Spaniards is completed. The National says: "We would rather lose the Philippines altogether than submit to American tutelage." The other papers discuss the probability of the abolition of the colonial office, declaring that the total loss of the Philippines would be "preferable to American partnership or control."

Fault is found with clause four because it limits the action of the mixed commissions to the West Indies in reference to the details of the evacuation, whereas most Spaniards expected that most of them would be decided upon before the sailing of the commissioners.

The adversaries of the present cabinet find fault with the protocol because the fifth clause allows until October for the meeting of the peace commissioners and stipulates that when a definite treaty is concluded it shall be ratified according to the constitutional rules of each country, thus furnishing Sagasta with a plausible pretext for adjourning the convocation of the cortes until he has a treaty of peace to put before them. The ministerial organ suggests that America herself, from motives of internal policy or international considerations, has not yet formed a definite conclusion on the Philippines question.

Public opinion attaches great importance to the Spanish commission in Paris making a resolute stand in defense of Spain's territorial rights in the Philippines. The government, therefore, wants to send a strongly competent body of delegates.

The meeting on Saturday of a cabinet council was chiefly devoted to the consideration of means for restoring commercial, postal and telegraphic communication with the colonies. French diplomats are requested to sound the disposition of the United States government on these matters and also to ascertain whether the United States, until the evacuation of the West Indies is completed, will allow the Spanish authorities and Spanish administrative tribunals to continue to act. The French conduct of the negotiations for peace is regarded as a clever stroke of French diplomacy, considering the immense French interests in Spanish financial and commercial undertakings. It is understood that high Spanish decorations will be conferred upon those concerned.

The press advocates dividing the national war subscription among the repatriated troops.

Change In Public Opinion.

London, Aug. 15.—A Madrid correspondent says "The publication of the protocol has not made much impression because the contents were already known. The only doubtful point referred to the time of the convocation of the cortes. Although there is a strong cabinet dissension on this point, some apprehending a crisis, little importance need be attached to it, because it is unlikely that in the event of one or two ministers resigning the course of the peace negotiations will be seriously affected, because, in the long run, Sagasta is certain to have his own way. Meanwhile, he allows his colleagues to discuss the subject freely, and wisely keeps his own counsel. There is no conceivable doubt that the cortes will approve of peace; and the date of the convocation of the cortes can only affect personal party interests.

"It is too soon to speak confidently of the impression the preliminary conditions of peace, when examined closely, will make on the Spanish generally, but there is no doubt the news of the termination of hostilities will be received by a great majority with satisfaction. During the last few weeks there has been a great change in public opinion. Though it was universally recognized from the beginning that, in the long run, America would prove herself stronger than Spain, it was generally expected that the bravery, dash and tenacity of the Spanish army and navy would in some measure counterbalance the superiority of the United States in population and resources, and that, consequently, the conditions of peace would not be very onerous. This illusion was dispelled by the destruction of Cervera's squadron, the capitulation of Santiago and other well-known incidents of the campaign; and gradually the conviction spread that as Spain was evidently incapable of defending herself, the sooner she made peace the better. It may pretty safely be assumed therefore that the decision of the governmnt will be generally approved. Whether the government will subsequently be called to account for negligence in its preparation for war and for the manner in which the campaign was conducted is another question."

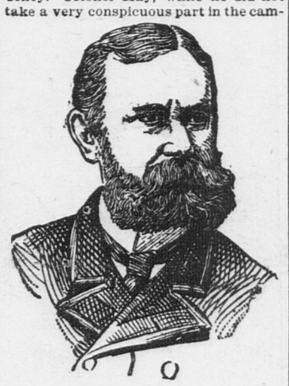

Don't Like the Cubans.

New York, Aug. 15.—Sailors from the Texas and the Winslow paid a visit to South beach, Staten island, Sunday morning. There they fell in with men of the Fifth artillery and members of the two companies of the third New Jersey volunteers. As the sailors were parading the board walk with 30 or 40 soldiers they saw Cuban flags in front of a merry-go-round. These were quickly torn down. The raiders were offended by a large Cuban flag floating above the roof of a ticket box in front of a Ferris wheel. It was 12 feet to the flagstaff, but soldiers were raised to the shoulders of others. The flag came down and only six inches of the staff were left. At a large dancing pavilion there was a profuse decoration of flags of all nations. Here the Cuban flags were also removed.

Judge Day's Resignation.

Washington, Aug. 15.—Just when Judge Day's resignation will take effect nobody appears to know. It is certain, however, that he will cease to be secretary of state before the American peace commissioners sail for Europe. Almost coincident with his resignation will come that of John Bassett Moore, who succeeded Mr. Day as assistant secretary when the latter went into the cabinet.

The president has decided to appoint Colonel John Hay, ambassador in London, as the successor of Mr. Day. President McKinley's great friendship and admiration for Colonel Hay are well known, and in deciding to appoint him secretary of state he has gratified a desire that dates from the time he began to consider the composition of the cabinet, just after the election to the presidency. Colonel Hay, while he did not take a very conspicuous part in the campaign of 1896, was an enthusiastic worker in a quiet way for the election of the Republican ticket. He spent a great deal of money for campaign purposes, and used all the influence at his command to further the success of his party. Long before the St. Louis convention he was a McKinley man.

EMBASSADOR HAY.

Pope Leo's Illness.

Rome, Aug. 15.—The pope's extreme weakness has produced a great commotion among the members of the sacred college. It is reported that France, Germany and Austria, as being chiefly concerned in the accession to the papacy, have ordered their representatives not to leave Rome. Dr. Lapponi, the pope's physician, thinks there is no danger if the pope is able to pull through the hot weather. All the members of the family have hurried to Rome.

His holiness on Friday insisted upon getting up, but soon had to be carried to bed again in a state of partial collapse. He does not suffer from a specific affection, but only from debility.

Tomorrow's Almanac and Forecast.

Sun rises—4:42; sets, 6:44.
Moon rises—4 p. m.
High tide—10:40 a. m.; 10:45 p. m.

Fair and pleasant weather is promised for Tuesday, though possibly with more cloudiness during the afternoon or evening. While it is likely to be somewhat warmer, the winds will probably be easterly during the day, preventing any oppressive heat.

Cervera at Church.

Portsmouth, Aug. 15.—Admiral Cervera, with his officers, attended the church of the Immaculate Conception Sunday morning, and after dinner at the hotel the entire party went over to the navy yard. The stay there consumed three hours. Today was also spent at the yard. Tomorrow the visitors will leave for Annapolis.

THE LION AND THE BEAR

Strained Relations Stirring the People of England.

Queen's Determination Not to Sign a War Edict.

Limit to Humiliation of Submission Almost Reached.

London, Aug. 15.—Russia's course in heaping humiliation after humiliation upon England is relentless and apparently regardless of consequences. It is not true, however, that Russia is deliberately inciting Great Britain into war. It is believed in St. Petersburg, and throughout Europe, for that matter, that nothing which may happen in China will force Lord Salisbury to draw the sword. The chief reason for this belief is the well-known fact of the queen's determination never, under any circumstances, to sign another declaration of war.

The question is how far it will be safe for England's rivals to trust to this assumption. There is a point beyond which the queen herself would be powerless. There have been indications in the past few days that this point is almost within sight. Public sentiment throughout England is very deeply stirred. Lord Salisbury's critics today number the great majority of Englishmen. His own party almost unanimously condemns him. There is not a newspaper of consequence in Great Britain which has not attacked and criticised the eastern policy of the government during the week. Public opinion in England is undemonstrative until it can bear no more. Then it is insistent and coercive. The limits of passive submission to repeated humiliation have well-nigh been reached. According to all indications there is already open rebellion against Lord Salisbury, and public opinion will even override the wishes of the queen herself if it is once convinced that the national honor and national interests both are at stake.

This condition of the public mind will probably force the government before long to do one of two things: Either forcibly to intervene alone or in conjunction with the United States to keep open the markets of China, or to accept the dismemberment of the Chinese empire, toward which events are obviously hastening, and secure whatever is possible for the British share.

There is reason to believe that Russia, France and Germany hope that Lord Salisbury will resort to the latter policy. It is almost certain that these powers are so far agreed that they expect to restrict the British share in such a division of the prize to very narrow limits. The United States, of course, would get nothing, as it wants nothing territorially, but it would be inevitably shut out of markets which it does want, except such as Great Britain might kindly consent to share with it in the British section. There is one course open which not even Russian diplomatists deny would prove effective. If the United States and Great Britain should deliver a joint declaration that they will not permit the markets of China to be closed by any power, no country or combination of countries will care to accept that challenge.

The News of Beantown.

Boston, Aug. 15.—Two unknown men were suffocated by illuminating gas Sunday morning in a lodging house on Friend street. Both men were about 35 years of age, and hired the room Saturday night. It is supposed the gas was turned on by accident.

Albert Nordell, aged 23, and Charles Sellman, aged 38, were drowned and Gustave Casperson, aged 23, was killed in a collision of a barge with a yacht that was anchored off Boston light Sunday morning. The drowned men and three others were swept overboard by the towline, which caught Casperson by the neck and strangled him. It is not settled who is at fault.

Joseph B. Keene, Jr., 20 years old, of Somerville, was drowned last evening while bathing. The body was recovered.

Lieutenant Colonel L. J. Logan of the Ninth regiment arrived last night from New York. Accompanying him were his wife, his sister and the latter's husband. There has been little change in the officer's condition except, perhaps, for the better, since he arrived at Governor island last Saturday. A warm reception was given him when he made his appearance from the car.

She Fought Successfully.

Watch Hill, R. I., Aug. 15.—The excitement here over the death of Mary Flynn, the laundress who gave up her life in defense of her honor, has not abated. An examination of the girl's body showed that she had not done all the fighting. The man retaliated. The girl's face was scratched about the mouth, on the nose and on the forehead. There were marks on her gums as if her lips had been pressed hard against her teeth. There were also marks on the left leg. Further examination showed that the girl had fought her assailant successfully though it cost her her life. An earring of plain gold was found on the pier. The man's necktie and crumpled cigar were found close by with a bag of candy.

Postoffice Safe Blown Open.

Richford, Vt., Aug. 15.—The postoffice in this town was burglarized Sunday morning, an entrance being effected through a side window. A hole was drilled in the side of the safe, which was then blown open. The contents was taken, consisting of stamps, registered letters, money, and private papers of Postmaster McGregor.

Ten days ago a burglary occurred at Sutton, Que., eight miles from here, and it is supposed the same parties took part in the break.

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

CLARENCE BURGIN,
Treasurer.

Good Afternoon.

The military editor of the Globe says the excellent showing that continues to be made by the 5th regiment at Camp Dalton is winning the highest enconiums from everyone. The discipline and drill of the organization was never equalled by any command in this state, and both officers and men are to be heartily congratulated.

Lieut. Sprague Mustered Out.

Lieut. Henry W. Sprague of this city and 29 members of the Signal Corps from Massachusetts, reached New York from Santiago on Saturday.

They were on board the Seguranca and were landed at Governor's island. Today these volunteers will be mustered out of service, being the first volunteers to be formally released from duty.

Another of Lieut. Sprague's interesting letters appears in this issue of the Ledger.

Liquor Raids.

The police put on their war paint Saturday night and went out after parties whom they had reason to believe were doing a liquid refreshment business in violation of the law. In the raiding party were Chief Litchfield, Officers Ferguson, Bradley, Murray, Curtain, Newcomb, O'Brien and Denwood.

Two places were visited, both being raided simultaneously as the officers were divided into two squads. At Bent S. Wallin's place on Granite street three pints of whiskey were secured and twelve empty whiskey bottles. Wallin was also arrested for maintaining a liquor nuisance.

At Charles A. W. Ehrenhein's place, also on Granite street, no liquor was secured, but the officers took a box of empty whiskey bottles. Ehrenhein was not at home, but he was latter arrested at the depot on his arrival from Boston, with two quarts of whiskey, for illegal transportation. While under arrest he said that Wallin sold the whiskey and that he brought it out from Boston for him.

Serious Assault.

The men employed by Messrs. Sheahan on the Wollaston section of the brick sewer have given the police no end of trouble, for as soon as they get a little money there is a drunk which usually ends in a free fight. The men board with Fred Huntington, whose house is off Standish avenue, and Sunday afternoon the police received another call from this place, a drunken row being in progress. Officer Murray, Lyons and Denward went down and brought back John Harding, Charles Bogan and Patrick Scully. Scully was in bad shape and when the officers arrived they found a physician working over him. It seems that during the row some one had used his head for a base ball and an axe handle for a bat, and as a result he had a deep gash in the back of his head which had to be sewed up. He claims to know the man who hit him, and his arrest will probably follow.

The Hydraulic Construction Company of New York are probably saying to themselves, Well, who is doing this business, anyway?''

LODGE AND SHAW.

Appreciated by the Quincy Granite Manufacturers.

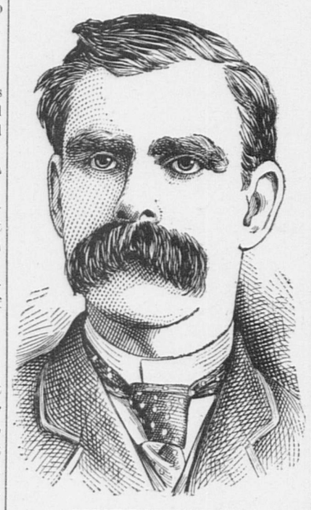

Resolutions Favor Reelection of the Senator.

Mr. Shaw Elected an Honorary Member of Association.

The annual dinner of the Granite Manufacturers' Association of Quincy on Saturday at Hotel Nantasket was one the most successful ever held by our granite men. It was also a representative gathering of the trade, as over 125 closely identified with Quincy granite, were around the festive boards to enjoy one of Landlord Sturgis' best. The menu was as follows:

Steamed Clams.
Clam Chowder.
Olives. Radishes.
Baked Stuffed Bluefish, Wine Sauce.
Sliced Cucumbers. Sliced Tomatoes.
Boiled Potatoes.
Fried Perch a l' Tartar.
Fried Clams. Clam Fritters.
French Fried Potatoes. String Beans.
Green Corn.
Plain Lobster. Potato Salad. Cold Tongue.
Cold Roast Beef.
Assorted Cake. Ice Cream.
Crackers. Cheese.
Watermelon.
Coffee.

At the head table sat Alexander Marnock, the new president, with Mayor Sears on his right and Hon. John Shaw, the granite men's friend, on the left. At this table were also Representative Thompson, the retiring President of the Association; his colleague in the Legislature, Thaddeus H. Newcomb, City Solicitor McAnarney, William

PRESIDENT MARNOCK.

Spargo and Louis Bendinger, Esq. At the other tables were:

Harry Nicol, John Robbie, Andrew McIntosh, Wellington W. Mitchell, Frederick L. Jones, William Callahan, William McInnis, A. McIntosh, Jr., E. McIntosh, John Igo, Fred Barnicoat, Charles Bash.

William W. Craig, James Craig, M. F. O'Brien, J. A. McDonnell, W. J. McDonnell, S. S. Ballard, Montpelier, Vt.; A. M. Hunt, "Granite;" Forbes Craig, Alfred Bishop, George Clark, W. T. Cummings, George S. Murray, Arthur Knight, Thomas Bishop.

Geo. L. Badger, Richard Prout, John R. Richards, Alfred A. Dell, Richard Gordon, John Johnston, J. E. McDonald, H. W. Adrian, Charles H. Hardwick.

Lewis Adrian, William H. Deacon, John Cole, J. P. Sears, B. Johnson Jr., Horace E. Spear, Kavanagh Bros. & Co. Field & Wild, Brown & Clark, J. G. Kennedy, Henry McGrath, Thos. F. Burke, Rev. John H. Watson, Representative C. A. Hayes, Ernest Bizzozero, Henry N. Hughes.

Andrew Milne, George McFarlane, Frank F. Prescott. J. H. Elcock, E. J. Sandberg, James P. Denward, Philip Cook, Thomas McDonnell, Joseph J. Kelly, James F. Kelly, Edward Baker.

John Vogel, Charles H. Owen, Jacob A. Turner, Robert A. Robertson, Charles L. Badger, Walter R. Fegan, William Saunders, H. L. Dell, John R. Walters, E. R. Allen, J. R. Qualey, Joseph F. Costello, "Monumental News; Fred F. Green.

J. T. McNeil, James N. White, Thos. T. McNeil, W. Prout, J. P. Galvin, J. S. McDonnell, T. W. Smith, W. T. Shea, W. D. Lonie, Benj. J. Weeks, G. C. Morse, P. W. Driscoll, John Swithin, Wm. F. Barrett, Joliet Ill. Philip Garrity, West Quincy; Wm. J. Spargo, Joseph Malnati.

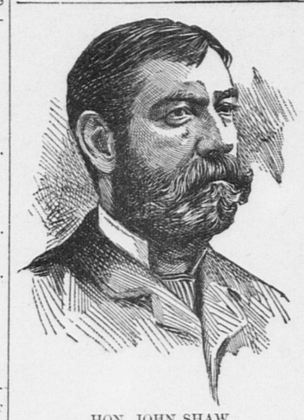

George L. Badger, Richard Prout, Joseph Walker, George Prout, Robert R. Smith, T. J. Dunphy, William R. Thomas, Arthur W. Loud, David Grese, John P. Minihan, John Lawrey, M. A. MacDonald, Richard Masson, Edward D. Marnock, John D. Monahan, Commodore P. Garrity, John Smith, John Masson.

W. W. Robertson, J. Albert Simpson, T. F. Manuex, W. J. Robertson, B. R. Fuller, J. L. Fennessy, J. H. Vogel, W. K. Carter, W. F. Loud, W. C. Rabidan, J. W. Northcott, John Lavers.

Nearly two hours were required to satisfy the inner man, although some were of the opinion that if they were as long at dinner every day, that some other fellow would get all the monumental work.

President Marnock presided at the brief business meeting which followed.

James Thompson spoke in eulogistic terms of the work done by Hon. John

HON. JOHN SHAW.

Shaw before Congress relative to an increased duty on imported granite, which has been very successful, and moved that Mr. Shaw be elected an honorary member of the association

President Marnock put the motion and the vote was unanimous upon a rising vote.

Mr. Shaw was introduced. He said the election came as a surprise, as he felt well repaid before by the appreciation shown by members of his feeble efforts. However, he was grateful for the esteem, and said if he could do anything further for the association it had but to command. He congratulated his neighbors upon the success of the country at arms and industrially. He felt that the thanks of the association were more especially due to Senator Lodge of this Commonwealth, and he offered the following resolution:

At our annual dinner, recalling the sturdy efforts in the past of the Hon. Henry Cabot Lodge, in favor of the adequate protection of American industries, and more especially his efforts in behalf of ample protection on finished granite during the pendency of the Dingley tariff act in Congress, hereby declare ourselves heartily in favor of his reelection as United States Senator by the Legislature of 1899.

Without debate the question was put upon adoption, and carried.

President Marnock said he would like to call upon some of the guests for speeches, but the large public dining-room was not a suitable place and he would therefore declare an adjournment to the beach.

It was a grand day at the beach and

SENATOR HENRY CABOT LODGE.

the sea breezes were enjoyed for a few hours. There was a little sprinting at which George Clark and William Farquharson developed greatest speed, and John R. Walters, William Craig, James Kelly showed up well, but should train a little. The manufacturers returned home at pleasure, well repaid for their outing.

—The Boston Transcript recalls the fact that at the time when General Boulanger was the hero of the French people, and the ladies of Paris were contributing large sums to maintain him in state, a Pole made his appearance in the city, a very polite and prepossessing young man, and broached a scheme for obtaining gold from sea water, a la Jerenegan. He claimed that it would yield enormous profits of which half were to be devoted to patriotic purposes, and the other half was to go to the shareholders. The people bit eagerly at the bait, and the Pole secured 2,000,000 francs, when he disappeared suddenly, went to America, and was not heard of afterwards. Again it appears that there is nothing new under the sun.

TO LET.

If you have a vacant tenement, advertise the fact in the Daily Ledger. We are confident it will be let within two months, and to substantiate the claim, we will advertise it

FREE

after two months. To take advantage of this offer payment must be made before the expiration of the two months. A four-line space until your house is let will cost only $5 at the outside. You cannot afford on these terms to let the house continue vacant.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Another nice day

A. A. Linscott is agent for graphophones.

The Beacons defeated the Milton A. A. nine Saturday, 6 to 5.

Miss Margaret Sibley of Wollaston has been visiting friends at Lynn.

Another handicap race of the Quincy Yacht club on Saturday of this week.

Mrs. William S. Keyes of Wollaston is enjoying herself at Harpswell, Maine.

The Misses Sullivan of Linden street spent Sunday with friends in Brockton.

Miss Theresa McGrath of Brackett street is spending a few days at Portsmouth, N. H.

Winthrop J. Fearabey of Atlantic has returned from a very pleasant vacation in Maine and New Brunswick.

Judge Humphrey returned from his vacation this morning and occupied the bench at the District Court.

Judge E. C. Bumpus sailed for England last week on the same boat with Mr. Charles A. Howland and his daughter.

Open races are held on the South Shore this week: at Plymouth Thursday, at Kingston on Friday, and at Duxbury on Saturday.

Mr. Charles W. Hall, the genial secretary of the house committee of the Quincy Yacht club, is at the City Hospital quite ill with typhoid fever.

Superintendent Wight of fire alarm returns from his vacation tonight, and George Faircloth, driver of the Hook and Ladder, starts on a two weeks' trip.

A trip from Quincy to Revere Beach by electrics requires a little over two hours and by purchasing a transfer check in Boston costs but thirteen cent.

The Cleopatra leads Class L in average percentage, and the Privateer leads Class S. The best yachts in the other classes are: Meemer, Eleanor, Duchess, Vitesse and Jilt.

The street railway company did a large business Sunday and it was necessary to run two and three cars on every trip to accommodate the thousands of people who wanted to ride.

In the Cohasset open race Saturday there was a lack of wind. The Meemer defeated the Ashumet in the 30-footer class; among the 25-footers the order was Beatrice, Hermes and Little Peter; and the Bee won from the Jap in the half raters.

There was a large crowd in City Square Saturday night and an excellent concert was given by the National band. There were two vocalists with the band and their selections were very enjoyable. The street railway deserves the thanks of the citizens in general for furnishing these weekly concerts.

Quincy Court 76, M. C. O. Foresters, had its annual outing and picnic Sunday in Quincy woods, attended by Deputy High Chief Ranger, D. H. Dinegan of Court St. Gregory 24 and T. J. Foley, First Chief Ranger of Court St. Francis 25. All agreed that it was the best day's outing they ever enjoyed and the catering of Mr. Clark could be no better.

Sunday's Globe in referring to the detailing by the government of the Revenue Cutter "Dallas" to attend the Quincy Yacht club cup races says "This official recognition of the cup for 21 footers lifts the contests to the dignity of international races, and undoubtedly the boats will sail faster with the course cleared by Uncle Sam's blue-jackets and rapid-firers."

A Boston paper prints the following as the racing crew selected to sail the Recruit in defence of the Quincy Yacht club cup; H. M. Faxon, skipper; Frank F. Crane, chief; Fred C. Howe, jib; Joseph L. Whiton, Jr., board, and Commodore Rice. Commodore Rice wishes the Ledger to say that the publication of the list was premature, and that the crew has not yet been chosen.

Mr. Charles M. Bryant entertained in royal style the Sportsman's club of Wollaston at his shooting box on Whitman's pond, Weymouth, on Saturday afternoon. Some of the members drove down, while others took the special electric which left Wollaston on the arrival of the outward 2.30 train. The afternoon was pleasantly passed in boating and initiating the new members. An appetizing lunch was served.

—The chief of police of Muskogee (Mich.) has been found guilty of murder in Chicago. There is not so much surprise that a man holding such a position should be convicted of mankilling as there is that the Chicago police were able to apprehend him.—Charlestown Enterprise.

—Railroad building is very active in the southern states. Over 1000 miles have been built the present year.

MALICIOUS REPORT.

Spaniards Continue at Their Old Tricks.

Hong Kong, Aug. 15—A report from Manila says that the Spanish have made public that the American resources are exhausted and that President McKinley is therefore suing for peace. This report has aroused the spirits of the Spaniards.

Germans Mum.

Hong Kong, Aug. 15—A steamer just arrived from Manila reports that the condition of affairs there are unchanged. The steamer is a German and the officers refuse to talk much.

Calamity In California.

Fresno, Cal., Aug. 15.—In a little more than an hour Saturday $500,000 worth of property went up in smoke. Some of the buildings burned were packing houses, and their destruction will throw about 500 people out of work. The fire started in the immense establishment of the Forsythe Seeded Raisin company, which was erected in 1896.

The railroad company suffered considerable loss, about 20 cars, some loaded and some empty, being consumed. Considerable damage was done to the trackage, and the section house was burned. The depot hotel and the depot itself, which are opposite Forsythe's, were on fire several times, and were saved only by the most strenuous efforts of the employes. The freight depot, a block further south, owes its escape to being slightly out of the path of the shower of sparks.

Night Watchman Harper slept in the tower of the Forsythe packing house, and it is not likely that any trace of him will ever be found. The fire spread so rapidly that he could not have escaped. Three Chinese were so severely injured that all are expected to die. One was injured by stepping on a live wire; another fell from a burning roof while trying to catch a rope thrown to him by a fireman, and the third was run over by a hose wagon.

The fire is little short of a calamity for Fresno. While the market for ordinary raisins was not very good, the establishments had many orders and would have employed larger forces. The fire, occurring so late in the season, makes it impossible to rebuild in time to handle this year's crop; hence a large market is closed to the growers.

Many believe that the fire at the Forsythe's was of incendiary origin. The loss of the Forsythe company is $100,000; Phoenix Packing company, $75,000; farmers' warehouse, $25,000; Einstein, $25,000; National Ice company, $15,000; Hobbs & Parsons, $10,000. This includes merely buildings and plants. The loss on stock and the loss of the Southern Pacific make up the remainder of the $500,000.

Stampede of Gold Hunters.

Victoria, B. C., Aug. 15.—The Cottage City, which has arrived from Skaguay, brings a report that a rich gold strike has been made 70 miles below Lake Tagish. There has been a stampede from Dyea and Skaguay to the discovery. The Canadian troops at Hudson bay post beyond Glenora are reported to be on one-third rations, owing to the difficulty of getting supplies through.

A syndicate has established a town named Blair, five miles from the mouth of the Unalaklik river, where there is already a mission and reindeer station. From this town it is proposed to build a railroad to a point on the Yukon about where the river opens to navigation from four to six weeks earlier than at the mouth. Seven hundred miles of travel will be saved.

Bicycle Race at Wollaston.

Jim Tab, one of Wollaston's sporting young men, got up and managed a six-mile boys' road race at that place Saturday afternoon, which was quite a success, and created considerable excitement for about an hour and a half. Twelve entries were received and it was announced to start at two o'clock, but when that hour arrived only four riders had appeared. After some little delay these four were started at about a quarter of three. "Billy" Chute of Neponset won in 19 minutes and 30 seconds, actual time. His elapsed time was 21 minutes. The other riders were Davy, Anderson and Bugby. Anderson had a handicap of 1 minute and 30 seconds, the others were scratch men. The course was twice around the triangle formed by Beale and Adams streets, and Newport avenue.

CORNER STONE LAID.

United Presbyterians to Have a Church December 1.

The corner stone of the new church of the First United Presbyterian church to be erected on School street was laid Saturday afternoon in the presence of a large gathering of the people of the church, the programme of the exercises being as follows:

Singing.
Prayer, Rev. J. A. Cosby of Amory, Ill.
Reading of Scriptures, Rev. W. W. Dornan.
Singing.
Reading contents of box, by M. A. Campbell.
Placing box in corner stone, by Mr. McDonald.
Laying corner stone, Rev. J. P. Paisley of Cambridge.
Singing.
Address, Rev. J. A. Cosby.
Address, Rev. W. W. Dornan.
Singing.
Benediction, Rev. J. O. Paisley.

The corner stone is a large block of Quincy granite with a polished face upon which is the following: "First United Presbyterian church, A. D., 1898."

The adresses by Rev.'s Cosby and Dornan were brief and had a bearing on the laying of the corner stone and its meaning.

The stone is placed in the traditional northeast corner of the foundation. The box which was of copper was cemented in its place and no one knows when its contents will again be seen. Its contents as read by Mr. Campbell were as follows:

History of the land from Sept. 4th, 1667.

History of the organization of the church; of its incorporation as a society; the call and installation of its first pastor.

Names of the Building Committee and Trustees of the society; together with the name of the builder, cost of the building and the supposed date of finish.

Papers—Quincy Patriot of June 11, 1898, containing a description of the church. Quincy Daily Ledger and Advertiser of Aug 12, 1898.

Several coins of the country.

Lastly—The Confession of Faith and Testimony of the United Presbyterian church of North America.

The contract for building the edifice has been awarded to W. R. Lofgren and it is expected it will be completed by Dec. 1.

The new edifice is to be of an attractive style of architecture and when complete will cost about $10,000. At first however, the tower will not be built thereby, reducing the first cost about $2,000.

The interior is unique for Quincy. The auditorium and Bible School room are side by side, so arranged that the platforms may be united into one in a semi-circular form or used separately. Additional room in the rear of the platform is used for a pastor's study and an infant room while the organ and choir are located at the right of the platform. There are entrances to the auditorium through vestibules. The auditorium has a bold floor, the rear seats being raised. The seats run diagonally so that there are two main aisles, also outer aisles and half an aisle.

The Bible school room, 20x40, with a seating capacity of 175, may be connected with the auditorium by rolling door. The auditorium itself is 40 by 50 and has a seating capacity of 375.

The infant room and pastor's study also connect and will seat more. A. Lawrence Valk was the architect.

WEYMOUTH.

Little Items of Interest About Town.

Owing to the vacation of the pastor, Rev. D. Evans of the Congregational church at East Weymouth, a very large attendance was at the M. E. church, A. W. Kingsley, pastor, on Sunday.

Mr. and Mrs. Patrick Terry of East Weymouth are receiving congratulations on the birth of a daughter.

Master Arthur Wolfe of North Weymouth is at home from a visit at Neponset.

Miss Ida Lovell of East Weymouth has returned from Provincetown.

The Third Universalist society will hold their annual parish meeting Monday evening, Aug. 15, at the church, North Weymouth.

Mr. J. A. Cushing of East Weymouth is rapidly convalescing from a recent attack of illness.

Mr. W. J. Fitzsimmons of East Weymouth is enjoying a vacation from his clerkship duties.

Miss Lura Oldham of North Weymouth is the guest of friends at Chatham for a few days.

East Weymouth is represented at Gorham, N. H., by Misses Martha J. Hawes, Clara Reamy and Brit Harlow.

Mrs. S. A. Pratt is at New London, N. H., for the summer.

DIED.

CUNNIFF—In Quincy, August 13, Mrs. Maria A., wife of Mr. Michael Cunniff of Liberty street, aged 36 years and 1 month.

SANTIAGO LETTER.

Lieut. Sprague Says It Is a Fever Stricken City.

[Continued from Saturday.]

Aug. 1, 1898.
On board transport (No. 12)
Securanca.

After we left Santiago Sunday morning, July 31, 1898, passing Morro Castle at 8 A. M., bound for Tampa Florida. Friday afternoon we received orders to take all our effects except the mule train and wagons off the Port Victor (Transport No. 2.) and load it aboard the Securanca, (Sec-uran-sar,) which was to sail at 8 A. M., Saturday.

Well, we loaded all our equipments and rations aboard the tug Underwriter of New Orleans and then again from the tug to the transport and it was pitch dark before we finished, you know we have no twilight here and it grows dark almost as soon as the sun sets.

After everything was loaded Capt. Clark and myself together with Capt. McMillan (son of Gov. McMillan of Michigan) of the Quartermasters' department, went ashore. I found that Capt. McMillan previous to his entering the service was an attorney in Detroit, so we exchanged cards.

After getting ashore we went with the Captan to the Quartermasters department and there leaving McMillan, Captain Clark and myself went to the Palace for orders.

The Palace formerly occupied by the Governor General of Santiago is at the top of a hill reached through the principal street of the city "Calle Marina," the street is perhaps forty feet wide and is lined on both sides by one to two story buildings with piazzas in front. They are for the most part built of adobe (sun dried mud,) stone or tiles, and are very much alike.

There did not seem to be any one on the piazzas, but people were lying and sitting all over the sidewalks, some seemed to be soldiers (Spanish I think.) I walked around one that was dead, rather than step over him. The average number of men found dead on one the street in that section each morning is five. A cart goes around and collects them. They are examined to see whether or not there are any signs of yellow fever, otherwise no attention is paid to them.

The street is simply a dirt road with a strip of paving like a crossing about every fifty feet that acts as a rest for teams going up the hill. The sidewalks are about a foot higher than the street and barely wide enough for two to walk abreast, are simply flat stones of various sizes laid on the ground. Remember this is the principal street, the others are as a rule about ten feet wide and not in such good shape.

At the top and to the left of the hill is the Palace, the rooms are in much the same shape as when occpied by the Governor General. All the rooms are very high studded and about twenty feet I should think. The furniture in even in the reception hall, (which is about fifty feet long and occupied by Colonel Green, Chief Signal officer of the 5th Army Corps, to whom we reported), is quite ordinary cane seated affair. On the wall of the telephone room is an enormous picture of Isabella, Queen of Spain. The windows run from the floor almost to the ceiling and an iron grating, similar to a jail with the old fashioned wooden shutters inside, there is not a pane of glass in the entire city of Santiago.

I enclose a plan kindly drawn by Mr. D'Azevedo (daz-e-ved-o,) who is a travelling man on this boat.

The Cathedral (Catholic,) is reported to be enormously wealthy with gold plate and service worth millions. The plaza is a park in which are various tropical plants, it is perhaps 300 by 100 feet, lighted by lamp posts with the ordinary round tops but holding kerosine lamps, there are a few electric lights in the Palace but they are very few for the most part the most part the city appears to be without lights the only ones I saw being at the Plaza.

While there, Capt. Clark called up the camp of the 9th regiment (Mass.,) and learned of the death of Major Grady who died of Malaria fever that afternoon. I felt quite sorry, as he was an exceedingly genial officer but still was not greatly surprised, as I expressed the opinion before that big men, high livers, etc. and probably fifty years of age would be not be able to stand the campaign and I was only surprised that the others pulled through. Capt. Clark and Col. Green went to the cable office and sent a message to the Boston Post announcing the death of Major Grady. As the cost for a cable message is $1.02 per word (I think including address) we have not used the cable to any great extent.

While calling up the 9th regiment we asked who was at the other end of the telephone and learned that it was Captain Butler of the Maine Signal Corps but that he had just left and gone to his tent sick and that his 1st Sergeant was there at the telephone. I agreed to meet him in the morning with Captain Butler if he was able to move and we made our way back to the wharf.

As there were no row boats in sight and it was getting late we had to hunt one up and as we could not speak Spanish we had quite a time. Finally with the aid of what Spanish I have picked up we succeeded in getting a Cuban to pilot us to an American and we borrowed a boat and set out for the ship. Capt. Clark and Sergt. Cary did the rowing the Capt. caught a crab and lost the oar. I tried to get it but missed it so we took out the seats and paddled after the oar and recovering same rowed to the ship, as she is not loaded and stands very high out of the water forty feet I think, you can imagine we had quite a time climbing up the Jacob's ladder in the dark—but we got there.

(To be continued).

ALL THE YACHTS OUT

The Bay as Lively as on a Race Day.

Sunday was an ideal day for the yachtsmen. What was lacking for wind in the forenoon was amply made up for in the afternoon when a light steady wind set in from the eastward. Among the Quincy Yacht Club boats noticed down the bay with guests aboard, were the "Vexer," Capt. Wm. H. Shaw; the Freyja, Capt. George D. Follett; Alice, Capt. T. A. Walter; Autocrat, Capt. J. Warren Nightingale; Anne, Capt. Ed. W. Newcomb's new Marblehead cat; Beatrice, Capt. Arthur J. Cavanagh, who won the race at Cohasset on Saturday, defeating the Hermes sailed by his brother "John T." by about four minutes; Brynhild, Capt. O. M. Higgins of Hyde Park; the Brant, Capt. J. A. Fenno's new yawl; the Claytonia, Capt. Chas. H. Alden's new Crosby boat, which did some friendly scrapping; the Electra, Capt. J. W. Johnson; the Enigma, Capt. George F. Maybury; the Evelyn, Messrs. H. A. Jones and C. H. Hayward, who left on Sunday evening for an extended cruise along the North Shore; the Gloriana, Capt. D. J. Ring; Helmi, Capt. Wm. C. Harrison's new jib and mainsail boat; the Hustler, Capt. C. C. Collins, who at present leads in the scrub race percentage; and also the Ida J., Collin's second boat, which was skippered by Capt. Frank Perry; the Jeannette, Capt. Charles E. White; the Kayoshk, with Charles A. Price at the stick; Kitty, John A. Evans of Newton and party; the launch Maud Alice, Capt. Peter Besse of Boston; Moondyne, Capt. A. J. Shaw; the Omeme, Capt. Herbert W. Parker; the sloop Pauline, Capt. Geo. H. Wilkins of Brockton; the P. D. Q. Capt. C. Fred. Howe; the famous old sloop Posy, Capt. R. G. Hunt; the Redskin, Messrs. J. L. and L. H. Sturtevant; Silene, Dr. H. L. Dearing of Braintree; Sunbeam, Capt. Harold B. Faxon; the little cat Supero, Capt. William Alden; Surprise, Capt. Geo. W. Newcomb; the Tantrum, Capt. Ira M. Whittemore; the Thisbe, Capt. H. W. Robbins; the Trump, Capt. A. T. Reed; and the cup defender Recruit, with Mr. H. M. Faxon her racing skipper at the helm, tuning the boat up.

TODAY'S COURT.

James F. Belcher and Frank Phillips were fined $5 each for drunkenness at Weymouth.

John Harding and Charles Bogan were arraigned for drunkenness at Quincy. Cases continued until Wednesday.

Patrick Scully was arraigned for threatening assault on Fred Huntington at Quincy. Case continued until Wednesday.

Martin Flynn was fined $7 for drunkenness at Weymouth.

Victor Nicholson was fined $5 for drunkenness at Quincy.

B. Wallen was arraigned for keeping a liquor nuisance at Quincy. Case continued for two weeks.

Charles A. W. Chimkein was arraigned for exposing intoxicating liquor for sale at Quincy. Case continued two weeks.

James F. Cometon was arraigned for assault on William Carpenter at Braintree. Case continued until August 24.

Thomas Murphy was arraigned for cruelty to a calf at Holbrook. Case continued until Tuesday.

The continued case of Albert T. Hollingshead and Elizabeth Mulligan for lewd cohabitation was heard. Hollingshead was held for the grand jury and the Mulligan girl was discharged.

In some parts of England when you haul a drowning man out of the water you get nothing but if you let him drown and then haul him out you get $1.

JOHN WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

BROWN BREAD TREAT

Enjoyed by Co. K at Camp; Also a Barrel of Corn.

Camp Dalton,
Monday, Aug. 15.

The men of the Fifth were a little stiff and a little the worse for wear after their hard march of Friday, but nevertheless each and every individual felt a sense of satisfaction at the work performed. They knew they had done their best and did not need to be told. Praises have come in from all sides. A body of regulars could have done no better, and in fact they were taken for regulars by a great many people. Thirteen hundred men in the prime of life with bronzed faces, spick and span uniforms, with their long stride and heads held high, were a sight seldom witnessed. Whether the Fifth is disbanded, used for garrison duty or sent to the front, they will be an honor to the Commonwealth of Massachusetts. If they are disbanded they will have shown their loyalty to their flag. It is not their fault or wish that they were not in front of Santiago or Porto Rico.

There is little doubt in the minds of the high officials connected with the service that the Fifth Regiment will see the most of their term of enlistment in some of the acquired territory, doing garrison duty. It would seem very queer if a regiment equipped and drilled as the Fifth should go home, and other depleted and worn out regiments should go back. There is not a man connected with the Fifth who would not give a great deal before being deprived of seeing actual service. Those who left good paying positions and homes are not quite satisfied with the idea of simply putting in the time.

Saturday was the usual winding up of the week. The inspection of arms and accoutrements was quite severe. The week preceeding being so wet that it was impossible to get things in perfect shape. After inspection in the morning a short drill with arms was held.

The afternoon was a half holiday and was devoted to athletic sports. Two fine games of ball were played by Co. K, they as usual being victorious. The first game was with the combined players of Co.'s B. and M. The score was Co. K, 25; B and M, 3. The second game was with Co. C. The boys were a little tired by this time, but were able to do them up to the tune of 13 to 11.

Co. K's postions were filled as follows: c., McCarthy; p., Pirorvano and Studley; 1b., Livindale; 2b., Dunleavy; 3 b., Morralles; s. s., Malcolm; r.f., Buckley; center, Gilfeather; l. f., Collins.

The features of the game were the catching and pitching and base running. In the second game up to the last inning, Co. C was five runs ahead, but with a bit of fine work with the stick the K boys landed on top of the heap. They are hard to beat.

Several more tents were condemned Saturday and were replaced Sunday with new ones. Last week's rain found the weak spots. An unusually fine parade wound up Saturday.

Sunday was a very quite day in camp. There were very few visitors, the most of them being women. Church services were held in the mess halls. Chaplain House took for his text the novel "Romola." Band concert was given at Brigade headquarters in the afternoon. The rest of the day was spent in resting.

The paymaster is expected the early part of this week as he is in this vicinity somewhere.

The detail of the Ninth from Camp Alger who are quartered here say there is no camp like Camp Dalton.

Mr. G. H. Wilson, or George as he is called in camp, and other interested ones were heard from Saturday, when a generous supply of brown bread and catsup arrived. These went very well indeed with baked beans for supper.

A barrel of sweet corn was also received from Mr. Fred W. Tirrell. This was relished very much, as green goods are few and far between. Mr. Hayden of the New York & Boston Express Co., shipped the barrel through free of charge. The Company wish to thank the givers for their kindness. They are glad to know they are so well thought of at home.

Co. K's mascot says if he stays here much longer he will be so tanned that no one will know him. He says this thing will be his "Spinooch." If any one knows what that means please inform us.

The weather has been fair for the last two days and promises to continue so for a time.

Private Alexander McClellan of Co. D, who was transferred from Co. K a short time ago, was given an honorable discharge yesterday on surgeon's certificate of disability. MACK.

Shoes For Women.

Common sense shoes with exaggeratedly square toes may be very comfortable, but are so ugly and give the foot such a clumsy appearance that many women decline to wear them. Pointed toes are not as injurious as they look if the would be wearer will in buying her footgear allow for the point in naming the size she needs. The woman who wears a No. 4 square toed boot should purchase a No. 5 with a pointed toe. High heels are always an abomination, and while making the foot look short often increase its apparent width. Such heels are only permissible upon a kid or satin slipper designed exclusively for evening wear and should never be put on tender or sensitive feet.

One fruitful source of soft corns and tender feet is the constant wearing of rubber overshoes. They overheat the feet and keep them in a state of unnatural perspiration. Many women now recognize this fact, and instead of rubbers wear stout waterproof shoes. She who once has a well made, well fitting pair of these boots will never again submit to the discomfort of overshoes. A good waterproof shoe is absolutely impervious to dampness and possesses the added merit of keeping the ankle as well as the foot dry. A cork sole or an intersole of wool is an added protection against cold. These shoes are not of necessity very heavy, and one soon becomes accustomed to them. When the first stiffness wears off, the leather is soft and flexible.—Harper's Bazar.

Gardening says the easiest way to catch the blister beetle that devours asters and some varieties of clematis is to take a tin pan eight or ten inches in diameter, pour in an inch or so of water and then a little kerosene oil. Hold the pan under the plants and shake them, and Mr. Beetle will drop into the oil.

It is said that the clematis as a bedding plant, pegged down as are verbenas, will in light soil give a mass of the richest bloom from July until frosts make an end to it.

MAKERS OF THE QUEER.

Important Capture of a Trio of Rascals In Detroit.

Long a Source of Trouble to Secret Service.

Inspection of Their Headquarters Discloses Many Bills.

Washington, Aug. 15.—Information has been received by Chief Wilkie of the treasury secret service of the arrest Friday and Saturday in Detroit of a gang of counterfeiters whose operations have given the government considerable trouble. They are Charles, Edward and David Johnson. Charles and Edward were arrested on Friday on the charge of passing counterfeit quarters, and this was followed by the arrest of David and a search of the prisoners' apartments, where the counterfeiters' outfit was secured. Wilkie regards the arrest as a most important one, as he identifies the men with the issues of the Hancock and Windom $2 counterfeits which have been circulated freely during the last eight years.

At the headquarters of the gang the officials recovered the face and back plates from which the Hancock counterfeit was made, and also the plates for making the large and small seals on these bills. There were also taken 50 $2 Hancock and 500 $2 Windom bills, the latter being regarded as the best, all-around counterfeit which appeared up to the discovery of the $100 silver certificate in the spring of last year. The men treated these notes with glycerine before they were put out, which gave them the appearance of having been in use for some time and made their detection almost an impossibility.

The Hancock $2 counterfeit appeared first in the west in 1890 and later in the east. The discovery of it caused the government to recall the issue and replace it with the Windom note of similar denomination in December, 1890. A counterfeit of this issue was discovered in 1894, and its appearance is chargeable to the gang which has just been apprehended.

Charles Johnson, who is said to be at the head of the gang, is about 63 years of age, and secret service officials say that he has spent considerable time in prison for counterfeiting. The officials connect the Johnson family with the issue of a number of counterfeits that have appeared from time to time, including the $5 Jackson legal tender, the $20 legal tender of 1862 and the $5 Grant silver certificate in 1888, besides the counterfeit of some issues of Canadian notes. The officials believe they have a clear case against the older brother and strong suspicions regarding the guilt of the younger ones.

Hidden In a Cabinet.

Detroit, Aug. 15.—A fourth member of the Johnson family, John, is serving a long sentence in the Kingston penitentiary in Canada.

After the arrest the officers made fruitless searches for the plates. Finally a crack was noticed in the floor near the baseboard, and on inserting a knife blade a spring was touched which caused the baseboard to move, revealing a small cabinet in which the plates for the Hancock and Windom counterfeits were found. The officers claim to have secured between $7000 and $10,000 of the counterfeit bills.

NEWS IN BRIEF.

The reports of starvation at St. Michaels are without foundation.

The 9-year-old son of Alexander Betz of Peterboro, N. H., was drowned while bathing.

A train on a railway to Liscux, 34 miles east of Caon, France, was derailed. Seven persons were killed and 41 injured.

Fire gutted the Pasteur-Chamberlin Filter company's plant in Dayton, O., yesterday. Loss, $50,000; insured in local companies.

A rowboat was upset in the Potomac at Washington by the frolics of two of its passengers, and three young men were drowned. Four others were rescued.

James Nicholson and John Torill were drowned in Ottawa, Ills. They missed the road and drove off the bank of the ravine, landing in the water 25 feet below. They were pinned in the water by the horse and buggy, which fell upon them.

James Rewark, a pugilist, died in Idaho Springs, Col., Sunday from injuries received in a 20-round contest Saturday night with Robert Watkins, a colored fighter. Rewark claimed to have been the champion of New Mexico at one time. Watkins is under arrest.

A special from Sarahsville, O., says that a terrible storm passed over that part of Noble county, accompanied by heavy hail, which largely destroyed the tobacco crop. Streams were flooded and other crops destroyed. Lightning set fire to many hay stacks, and over half of the wheat is spoiled.

Advices from Melbourne report that the American bark, C. C. Funk, which sailed from Tacoma, May 22, for Melbourne, has been wrecked on Flanders' island, Tasmania. Eleven of those on board the bark, including Captain Nisson, his wife and two children, were drowned.

Reports from Havana state that the bombardment of Manzanillo Friday lasted from 3 o'clock until 9 in the evening and that attacks were made by the insurgents at various points. During the engagement 15 Spaniards were killed. The American commander summoned the town to surrender, giving the authorities three hours in which to capitulate.

In the officers' rifle contest in Chickamauga Saturday, in which a team of six officers from each regiment of the third division, First corps, participated, the officers of the Twelfth New York infantry won, their regiment's score being 249, against 239 for the Eighth Massachusetts, which came second. The two foremost teams will contest for the division championship Wednesday next.

AN IMPORTANT WEEK.

Three Strong Clubs to Be Met by the Bostons at Home.

Boston, Aug. 15.—This will be an important week for the Bostons, as they meet the Clevelands for two games, the Chicagoes for three and then the Cincinnati group for three. On the splendid form shown by the champions in the first two games since returning, the Chicagoes and Cincinnatis should receive a greeting that will put Cincinnati back to second place.

"We found the Cincinnatis easy last time, and had no trouble in beating them three straight," says Captain Duffy, "and they had pretty good luck in winning the first game. They are not the pennant winners this season, I think, and the race will end with Boston, Cleveland and Baltimore in the stretch. Baltimore is in it all right, as Hanlon has a good team that is apt to make us all hustle to win. It's likely to be a warmer finish than last year, as there are three or four likely claimants this year, but our chances are excellent with everything in good working order. Jim Stafford is as good a player as we could get in the emergency call, and Pickett proved a good worker, playing well and batting strongly. I'd like to see Dave catch on in the league, as he is a reliable and earnest young player. With Hamilton and Stahl in the game and our pitchers doing such fine work we have nothing to fear from any of them, and you know we want that flag again."

Becker pitched great ball for the Syracuses, and although the Springfields had luck in making four runs, the hits were not bunched. The "stars" won through Korwan's wildness and a few bunched hits, 6 to 4.

The National league winners Saturday were the Bostons, New Yorks, Brooklyns, Louisvilles, Washingtons, Philadelphias and Baltimores.

In the Eastern league a splendid fight is on between the Montreals, Wilkesbarres, Torontos and Buffalos. The New England clubs, Springfield and Providence, have not made very rapid progress, and are at the foot of the list.

Buck Ewing says that the Cincinnatis have not struck the "toboggan," as has been asserted in some quarters, but are prepared to make a game finish. "We have a stretch of 34 straight games on our own grounds to play yet," says Buck, "and will keep the leaders in hot water from now until the wire is reached. Our pitchers are in good trim and will hold their end up, I'm sure."

After winning a double-header from Pittsburg Saturday, Hanlon ventured the prediction that the Baltimores would be in the hunt for the flag. "Just wait three weeks," he said, "and I am greatly mistaken if by that time the Baltimore club has not proved itself very much in the race. You do not see the orioles talked of much at present, but I know that the men were never in better shape to make a gain; and, what's more, they have the opportunity."

The National league clubs stand in this order: Cincinnatis, 647; Bostons, 643; Clevelands, 608; Baltimores, 591; New Yorks, 561; Chicagos, 545; Pittsburgs, 521; Philadelphias, 479; Brooklyns, 389; Louisvilles, 374; Washingtons, 354; St. Louises, 287.

Trouble In the Choctaw Nation.

South McAllister, I. T., Aug. 15.—There promises to be serious trouble in the Choctaw nation over a proclamation by Governor McCurtin, disfranchising several hundred freedmen at the election Aug. 24. On that date the question of the ratification or rejection of the agreement made and entered into at Atkena, April 23, 1897, by the commissioners on the part of the Choctaws and Chickasawas and the United States is to be decided.

The real question to be decided, the proclamation says, is what is to be done with the annuities, money and public domain of the two nations. The freedmen have voted at every election, and it is said, aided by members of the Union party, they will force the judges to accept their votes. Their feeling is intense, and it is believed that a detachment of soldiers will be required to prevent an uprising.

Two Extremes of Weather.

London, Aug. 15.—A great wave of heat has prevailed throughout England and France during the last three days, the thermometers in London registering 85 degrees in the shade and 127 degrees in the sun. Saturday a large number of persons suffering from sunstroke were admitted to the hospitals. In addition to the intense heat a dense fog in the English channel has caused much inconvenience.

Paris is still hotter. A colonel fell from his horse and died from the effects of a sunstroke during the manoeuvers at Beziers.

In the mountain districts of Austria extreme cold prevails, the thermometer registering within a few hours a fall from 10° to 50 degrees. Heavy falls of snow have occurred at Innsbruck, Gratz and elsewhere.

Five Negroes Killed.

Moultrie, Ga., Aug. 15.—Sheriff Fisher and a posse of 13 men made a raid on a crowd of negro gamblers at Bayboro, 13 miles east of Moultrie. There were 75 or 100 negroes in the house, and as the sheriff walked in some of the negroes began shooting, one ball hitting Fisher in the hand. Two others of the posse were hit. The posse returned a vigorous fire, and as a result five negroes were killed outright, three others mortally wounded, and three more painfully hurt. The negroes made a determined resistance, and 200 or 300 shots were fired.

Murdered For His Money.

Lincoln, Neb., Aug. 15.—The coroner of Frontier county in Stockville, Neb., tells of finding the dead body of Thomas Jensen in a well on the farm of Andrew Hawkins, near that place. Jansen was a money lender from Beatrice, who made a trip to Frontier county many weeks ago, and had since been missing. At the time of his disappearance he was known to have had $1000 in cash and negotiable securities. The coroner wires that the inquest depelops that Jansen was murdered for his money. Hawkins has been held, and other arrests will be made.

Machine Shop Burned.

Sherbrooke, Que., Aug. 15.—The works of the Jenckes Machine company, the largest industry of the kind in Canada, was burned Saturday night. The fire is supposed to have originated in the forge room of the Rand Drill company. Loss, $225,000.

An Erratic Writer.

When Thomas Bailey Aldrich was a small salaried clerk in George W. Carleton's book store on Broadway, Fitz James O'Brien was in the habit of dropping in to see him, and one day came in rather more than half seas over. Aldrich decided to take him across the street to a hotel and put him to bed. Cautiously and carefully he led O'Brien, but before he had got half way across a friend stopped him and asked: "Why do you want to bother with the fellow. Let him go." "I will not," replied Aldrich. "He borrowed a dollar from me a few days ago, and I can't afford to let anything happen to him."

At another time, when he was not strictly sober, O'Brien found himself out of funds. He wandered into a publisher's office and asked for $25. This was refused him. Angrily seizing a placard O'Brien reversed it and made in big letters on the blank side: "One of ——'s authors. I am starving." Tying a string to the card, O'Brien placed it around his neck and paraded up and down the street, to the great amusement of a large crowd. He was of course requested to desist, but nothing stopped his mad course until a $5 bill was presented to him as a compromise. —San Francisco Argonaut.

The Devil Tree.

The devil, dragon or octopus tree, as it is variously called in the different stories told of it, is one of those travelers' myths which by dint of repetition have worked their way into public belief. The man eating or devil tree is, according to the story, a huge plant somewhat resembling a palm, save that the central fronds are provided with sharp teeth, which, when the leaves are folded over toward the center, grasp with a death grip the man or animal unfortunate enough to be inclosed within. In some of the stories this tree is also provided with long arms, which reach out and seize unwary travelers, raise their bodies in the air and drop them into the center of the circle of devouring leaves.

It is hardly necessary to say that there is no such tree and that the story has its origin in the dangers of traversing a tropical thicket, where travelers have received serious injuries from falling over vines and among thorny plants, where men are frequently attacked and killed by serpents. The devil tree is located by various story tellers in Borneo, in Sumatra and in the forest recesses of other tropical islands, and whenever inquiry is made for it it is to be found somewhere else.—St. Louis Globe-Democrat.

A Panama Hat.

"The life of a panama hat—that is, if it is a good one to start with," remarked an admirer of that style of headgear, "compares somewhat with the life of the owner of it. One can run through either in a hurry or hang on for a long time if it is desired. If carefully kept, a panama hat should last all the way from 10 to 40 years. I know a gentleman who resides in east Washington who has owned and steadily worn during the summer months a panama hat for nearly 40 years. It has been bleached every couple of years since and retrimmed and relined, and it is today to all intents and purposes as good as when I first saw it 30 years ago.

"I know of another panama hat, now worn by a physician in this city, which has had almost as long a life. Long before he got it his father wore it. I know dozens of them which have been in use from 10 to 20 years. The lining wears out, but the body of the hat keeps good. Of course care has to be used to keep them such a long time, but the panama itself is almost indestructible. The original cost of the hats that I refer to was not exorbitant, none of them costing over $14."—Washington Star.

Stronger Than Oak.

Foot bridges in Morocco that are used for heavy traffic have been the subject of much concern to the engineers. Elm planks on oak stringpieces were the materials employed, but these wore out so rapidly that a return to the old style of building was proposed. This consisted of cables made from the fiber of the aloe. These cables are plaited and twisted from fiber and are nearly two inches thick and 8½ inches wide. They are saturated with tar and firmly nailed to oak planking. The ends are fastened by iron straps. These cables make most admirable footpaths. They are sufficiently elastic to be pleasant under the feet, and experience has demonstrated that they are far more durable than any material heretofore applied for this purpose.

Held Up.

Miss Greener—And so you were in the train that was held up by robbers? Wasn't you just frightened to death?

Miss Whiting—You'll hardly believe it, but I wasn't frightened a bit. The fact is, when they came into the car and ordered us to hold up our hands, I thought it was going to be a lecture on palmistry, and I didn't find out different until it was all over.—Boston Transcript.

Frenchmen Fond of Bread.

European nations vary very greatly in their consumption of bread. The greatest flour eater in the world is the Frenchman, who consumes nearly two pounds a day, or 705 pounds a year. This enormous quantity, compared with the seeming niggardly 55 pounds a year eaten by the Scandinavian, marks the influence of climatic conditions on food.—St. Louis Post-Dispatch.

An English paper tells of a clergyman who had two curates, with the older of whom he was at swords' points. On being appointed to another living he decided to take with him the younger curate, whom he liked, and when he came to preach his farewell sermon he chose as his text, "Abide ye here with the ass, and I and the lad will go yonder and worship."

GOLD DUST

THE BEST WASHING POWDER

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

MANILA OURS

Surrendered When the Assault Opened.

Captain General Escaped In a German Vessel.

Was Taken to Hong Kong With His Family.

Washington, Aug. 16.—The following was received at the state department last night from Consul Wildman, Hong Kong: "Augustin says Dewey bombarded Manila Saturday; city surrendered unconditionally. Augustin was taken by the Germans in launch to Kaiserin Auguste and brought to Hong Kong. I credit report."

The information contained in Consul Wildman's brief message aroused intense interest, but created no surprise among those officers who received it. For two or three days news of the fall of Manila has been expected. The last dispatches received from Admiral Dewey and General Merritt indicated that it was their purpose to force a surrender of the city as soon as possible. It is believed that they joined in a note to General Augustin demanding the surrender, threatening to make a combined sea and land attack upon the city unless the demand was acceded to.

GENERAL AUGUSTI.

While no further information than that contained in Consul Wildman's dispatch was received by the administration, it was in a measure confirmed by a brief dispatch from Madrid.

As soon as the protocol was signed last Friday afternoon dispatches were sent to both Dewey and Merritt via Hong Kong. On Saturday a British steamer left Hong Kong for Manila bearing the dispatches from this government. It was expected that they would hardly reach Manila before decisive measures against the city had been taken by the American commanders, but every possible effort was made to insure their speedy delivery.

If the report of General Augustin be true, and its accuracy is not questioned here, the probabilities are that official dispatches will be received by the government in a day or two at least. The flight of General Augustin from Manila created some amusing comment here. As one official expressed it: "Had he maintained his position, hard as it was, until the arrival of the news of peace, he would have been a hero; but he fled and he will now be branded as a coward."

Fled From Manila.

Hong Kong, Aug. 16.—General Augustin, captain general of the Philippines, arrived by the Kaiserin Auguste. He refused to be interviewed and will say nothing more than that he is going to Spain with his family at the first opportunity. It is a significant fact that while the fastest German cruiser has brought General Augustin she brings only a small package of mail for the German consul. The consul is now in Canton, and his mail matter remains unopened. The precise facts are not known, but it is supposed that Augustin fled from the Philippines.

The Spanish consul here has not yet sent to Manila the news that the protocol has been signed, and probably the Spaniards at Manila will discredit the account to be brought them by the Australian, as she was chartered by the Americans. The opinion here is that the Germans have arranged matters with Captain General Augustin. The insurgents now at Hong Kong are not satisfied with the terms of peace proposed by the Americans.

Gallantry of Lawton's Division.

Santiago, Aug. 16.—In an address to his staff, General Lawton said: "Being ordered to other duty, the undersigned hereby relinquishes the command of the second division of the Fifth army corps, and in so doing wishes to express to the officers and enlisted men of his command his thanks for and appreciation of the gallant and soldierly manner in which the duties and labors required of them have been performed, the character of which is almost unparalleled in severity, danger and importance.

GENERAL HENRY W. LAWTON.

"The second division, established a little more than two months ago, proceeded almost immediately to embark for the expedition to Santiago. Arriving off that coast it was the first to disembark and the first American military force to land on Cuban soil. Without delay or waiting to secure rations, baggage or other necessaries and conveniencies of any kind, the division proceeded to Siboney, compelling the garrison there to retire and capturing the town. The division then resumed its advance of the army its progress toward Santiago, laboring day and night amid trying conditions, in marches, reconnoissances and scouting, and while covering the advance, fighting the decisive battle of El Caney. Unique in the character of its defenses and importance of its situation, Caney was defended with a stubborn resistance permitting of no surrender, and was carried by a charge such as is made only by American soldiers, killing, wounding or capturing almost every Spaniard.

"When overtaken by the dreaded fever, your courage, cheerfulness and fortitude did not forsake you. When the history of the war for Cuban independence is written the second division will deserve and receive a full page on every important occurrence that led up to its successful termination."

Blanco Gets Out.

Havana, Aug. 16.—General Blanco has published the following address to the inhabitants of Cuba: "It having been resolved by the Madrid government to conclude peace with the United States, I consider my mission in this country ended, and have solicited my relief from duty. I could not urge upon you a pacific solution of the existing struggle when not long ago I advised you to maintain the war in any event.

"We had to accept the struggle at a moment when it was least expected and under most unfavorable conditions. Nevertheless we sustained the campaign with vigor, and our army has already let the invaders feel the weight of our arms. I was willing, at the head of the army, to continue disputing inch by inch the land which with such valor and at the cost of so mush blood we were defending.

"Since the nation's government, which is surely inspired by the great interests of patriotism and a desire also to assure your proper interests and those of the other colony, believes the moment has arrived to make peace, it is our duty faithfully to second her in her purposes; but it cannot be that I am the one called upon to perform a political duty which does not agree with my former declarations, with my acts and with my convictions.

"I see myself obliged to leave you at the present painful and difficult moment. Nevertheless I will not do it without advising you to maintain the calmness and prudence so necessary to save the legitimate interests of Spain and Cuba, which represent the fruit of your labors; and thus I think I have rendered my last and most disinterested service to Cuba, to her inhabitants and especially to the city of Havana."

Agitators In Santiago.

Santiago, Aug. 16.—There is a class of agitators and selfseekers here which urges the recognition of Cuba for Cubans and spurns all offers or suggestions tending to prosperity under an American protectorate, and excites popular discontent. This is exactly the class that pushes itself most into evidence and whose views and opinions are most overheard and published. Cubans are advised to repudiate all offers of peace or cessation of hostilities, and to look upon the armistice as an agreement between the United States and Spain on their own account and not binding upon the free and independent state of Cuba, whose liberating army not only repudiates pacification, but will ignore the armistice to the point of continuing to wage war and shooting every Spaniard in the field.

A wild rumor is afloat that the Cuban army will attack Santiago and capture it, to the glory of the Cuban army, as soon as the American garrison is weakened. This is directly traceable to the same source. The influence exerted by such a body of men against law and order is formidable. This hysterical people demands suppression with an iron hand. While still in embryo, this influence is already felt among certain classes, who refuse to work or serve the government until a clear statement of the freedom and independence of their country is made clear. A knowledge of this condition is imperative to the moulding of future policy, and to explain whatever harsh steps may be rendered necessary in dealing with the insurgents.

Plenty of Supplies Ready.

Washington, Aug. 16.—The subsistence department of the army will have plenty of supplies ready to forward to Cuba in case it is found that the people there must be supplied from the United States. There are supplies in Tampa and many other points near enough to the seaboard to load available transports when they will be needed. Since hostilities began no information has reached this government concerning the reconcentrados or any other portion of the people of Cuba within the Spanish lines. That they are destitute is inferred from the conditions which existed previous to the war and which could not have been relieved to a great extent since the war began.

Burning the Dead.

Santiago, Aug. 16.—The Isla de Luzon sailed yesterday morning for Spain, having on board 2136 Spanish soldiers. The embarkation of the prisoners is being pushed with great activity. This is rendered imperative by their horrible condition. The mortality is so great in the Spanish camp, where disease is rampant, that no longer are the dead buried. A funeral pile of 10 or 12 bodies is made, saturated with kerosene and set fire to, cremating the bodies in the open air.

Military Measure Adopted.

Washington, Aug. 16.—The secretary of the treasury has sent the following telegrams to all collectors of customs: "Vessels may clear to ports in Cuba and Porto Rico subject to the laws and regulations in force relating to clearances, except that vessels of the United States only will be cleared for the transportation of merchandise in the trade between the United States and Porto Rico."

Although this order had the effect of making our coastwise trade laws applicable to Porto Rico, as American merchant vessels only are permitted to clear for the island, the fact is that Porto Rico is not yet regarded as a part of the United States, and the order is a military measure which may be modified or revoked by the president at will. The constitution provides that "all duties, imports and excises, shall be uniform throughout the United States," and therefore when Porto Rico becomes a recognized part of the United States our customs laws must apply to that country; hence the distinction.

A question which may become troublesome hereafter has arisen as to coffee. Porto Rico has a large export trade in that article, which under Spanish rule was protected by a high tariff. Under our present laws coffee is admitted to the United States free of duty, and if that particular feature should be made applicable to Porto Rico, it is asserted that the practical destruction of the coffee plantations on the island would be the inevitable result. What may be done hereafter for the relief of this situation cannot now be foretold.

The News of Beantown.

Boston, Aug. 16.—George W. Tucker, 40 years old, is under arrest for an alleged assault with a loaded revolver on James Preston. Tucker shot once at Preston, but the bullet went wide.

The colonelcy of the Ninth Massachusetts infantry is interesting many candidates, but the appointment is in abeyance.

It is practically settled that Bram will be tried again for the murder of Second Mate Blomberg. The details of the trial will not be decided on until October, and the probabilities are that the trial will not be begun until after the first of the year.

Weavers on Strike.

Fall River, Aug. 16.—About 130 weavers in the Borden City mill, No. 2, struck yesterday. They want 1 cent more per cut on diamond s. g. goods. The weavers claim that the cuts were recently increased in width, and say that they are being paid the lowest wages in the city for this kind of work. The wide-loom weavers struck practically out of sympathy for their co-workers. Probably 80 percent of the weavers is affiliated with the union. Treasurer Anthony says he cannot afford to pay more.

Tomorrow's Almanac and Forecast.

The storm in the upper lake region, which gave some promise of showers, is now dying out, and from present indications fair weather seems likely to continue for several days longer, excepting possibly light local thunder showers in northern parts of New England. It will be warmer the next two or three days, probably with higher temperatures, with light and fresh southerly winds.

Sun rises—4:53; sets, 6:42.
Moon sets—6:34 p. m.
High water—11:15 a. m.; 11:30 p. m.

SPAIN'S EVIL GENIUS.

Christopher Columbus So Considered by an Editor.

Blunder In Getting a Foothold In New World.

Repatriated Army Regarded as a Cause For Some Alarm.

Madrid, Aug. 16.—The dominant note of the press comment is philosophical resignation. The educated classes are not making any attempt to find a scapegoat, or to console themselves with vituperation of the victorious enemy. While severely criticising the shortsightedness and incompetence of the government, they recognize that no one statesman or cabinet, but the nation itself is to blame. The colonies, instead of enriching, have impoverished the country. Columbus, in discovering the new world, was not Spain's benefactor, but her evil genius. Therefore one leading paper opposes the suggestion that his remains should be brought home from Havana. Magellan ought logically to be put in the same category as Columbus, but his evil influence on Spanish history is not yet generally recognized, for Seville is initiating a monument to him. It is argued that Spain ought to have concentrated her energies in developing her European possessions and, if an outlet was required elsewhere, that she ought to have chosen northern Africa, where she is now no longer free to extend her political influence.

The lower classes seem animated by a corresponding spirit of fatalistic resignation. Nowhere are there symptoms of popular excitement that are dangerous. Madrid was never more quiet or orderly. Last night one of the poorest and most populous quarters of the city celebrated an annual nocturnal fete. The people enjoyed themselves as usual in a joyous, light-hearted fashion. Similar tranquility prevails in the provinces. The alarmists now point to the dangers which will arise from the return of the repatriated army; but the government has taken ample precautions.

It is expected that the evacuation of Cuba will not be completed until December. Press telegrams from Havana state that despite the disappointment in military circles, the news of peace was, on the whole, well received.

The Cuban autonomist government has resigned. It is believed that the Spanish government will refuse to accept the resignations of Captain General Blanco and Governor General Augustin. Havana telegrams represent the Spanish element in the colony as favoring American annexation as the best means to insure prosperity and avert anarchy. Mr. Cambon, the French ambassador to the United States, has been decorated with the grand cross of the order of Charles III.

PLENTY OF MOISTURE.

Drought Ended, and Luxuriant Growth of Vegetation Follows.

Boston, Aug. 16.—General cloudiness, excessively moist atmosphere and frequent showers, with uniform temperature, near the average, prevailed last week in about all sections of the district. The moisture and the showers, together with seasonable temperature, have been favorable to luxuriant growth of all vegetation. They have, however, retarded all farm work. Haying has remained at a standstill, and grain has become overripe for want of suitable weather for harvesting. The warm, moist weather, in a few instances, has injured grass, grain, potatoes and fruit.

From all sections the reports are favorable to corn. In the vicinity of Northfield, Vt., sweet corn will be ready for canning a week to 10 days earlier than usual. Winter wheat in some fields of New Hampshire will yield as much as 20 bushels to the acre. In many sections of all the states grain is now overripe, and there is danger of loss. In a few cases where oats and barley have been cut and are standing in shocks the grain is sprouting.

Much grass remains to be cut in the northern portion. As there is still hope of suitable weather for completing the harvest, it is not considered that much loss will occur. Rowen is generally reported as good.

Apples have improved; the quality will make up in many instances for the loss in quantity. The wet weather favored berries, which are plentiful. Peaches in some orchards are ripening prematurely and rotting. Grapes are not reported as very good. Cranberries are generally reported an average crop.

Vegetables continue abundant, especially in gardens. As there is much rust and blight reported generally, the potato crop for the district will not be large. Early varieties are being dug, especially in the south. Tomatoes are abundant, but need sunshine. Vines, cucumbers, squash, pumpkins, etc., promise good crops. It is too wet for beans, though little damage is reported.

Tobacco is reported in good condition and is promising. Cutting is at full height in numerous sections.

Murdered and Robbed.

Waverly, N. Y., Aug. 16.—A young man whose dead body was found with a bullet wound over the left eye near the Pennsylvania railroad tracks has been identified as Frederick Woods of Baltimore. There appears to be no doubt that Woods was murdered, as his pockets were turned inside out. It is the opinion of the police that he was not killed where his body was found, but that the body was carried there from a distance.

The Wollaston Lights.

The expense of maintaining the signal lights on the Wollaston flag-staff is considerable. It requires fifteen gallons of oil a month, and three or four lantern globes. Mr. Williams up to the present time has assumed the expense. Not feeling able to any longer it is hoped that a few public spirited citizens will contribute small sums of money to have these lights continued. They have become famous for miles around The car conductors say that it is amusing on dark nights to hear the conjectures of the passengers as to what those lights are and what they are for. Questions innumerable are asked about them. It does seem a little odd to see this row of colored lights suspended apparently in mid air.

Experience With Deer.

A dispatch to the Herald from Lakeport, N. H., reports that last Saturday, while Emerson Bates and Fred Mitchell of Wollaston, Mass., were fishing for bass in Lake Winnepesaukee, near buoy 12, their attention was attracted to the shouting of Mr. Elliot Burwell and his sister, who were sailing near them. On looking around, they discovered a large deer in the water, making for a nearby island. They at once gave chase, and had the deer by the ear several times, but, knowing it was close season and unlawful to capture him, they allowed him to land on the beach, whence he quickly disappeared in the woods. Several deer have been seen in that locality recently.

—The time for the sea serpent's inning has come, so many newspaper men being released from writing Cuban war stories.

—The Spanish privateers did not come over, despite all the stories about them that reached the public ears.

COSY HOME RUINED.

Water Soaked by Bursting Pipe During Vacation.

It was a hard sight that greeted those who opened up the house of Mr. F. A. Tupper on Linden place on Monday for the homecoming of Mr. and Mrs. Tupper, for the interior of their once cosy attractive home was nearly ruined.

Mr. and Mrs. Tupper have been at Shelburne Falls during the summer months, and their home has been closed. The key was left with Richard Talbot who has charge of the Comey property on Greenleaf street, but he had no occasion to enter the house until Sunday, when he heard the running water and went in and found the house flooded with water.

He immediately shut the water off, but the damage had been done. How long the water had been running is not known, but it had been long enough to ruin practically everything in the house. Down stairs on the street floor the carpets were soaked through and through, and the water stood an inch or two deep, while in other places where the water had soaked through, it was covered thick with mould. Tables had been so thoroughly soaked that they had warped and fallen apart. Walls were streaked and discolored where water had run down, and on the ceilings water stood dripping and in places the ceiling was about ready to drop.

Valuable pictures on the walls were covered with mould, as was also the upholstered furniture on the floor. Mr. Tupper had a collection of rare and costly books and these had been so thoroughly wet that the covers were twisted out of shape and were thick with mould. The street floor suffered the most, for the thick carpets prevented the water from readily running off, and thus created a dampness causing mould to form in places that water had failed to reach.

Upstairs, clothing and beds were badly soaked, and it is doubtful if they can ever be put in condition to use again. It is hard to estimate the amount of damage done. It must be heavy, for even if dried out, it is doubtful if much of the furniture can again be used.

Plumber Keniley, who has made an investigation, says the trouble was caused by the bursting of the pipe that supplies the tank in the attic, and was probably caused by a changing of the water pressure which will frequently burst pipes.

Mr. and Mrs. Tupper arrived home Monday and the sight of their beautiful home in ruins made them feel heart sick. It will be many weeks before the house can be occupied again, for it will have to be thoroughly dried, and much of the furnishings will have to be replaced with new.

Birthday Party.

Carleton McNeil, eight years old, living at 3 Wharf street, Quincy Point, was given a birthday party last Saturday. The following mates were present to enjoy the occasion:

Roy Smith, Emma Hayden, Gertrude Bernnan, Willie Thayer, Florence Bryant, Louis French, Elmore Thurber, Charlie French, Forrest Hayden, Danie McQueen, Etta Thurber Etta French, Willie Small, Josie French, Julia Hayden, Willie Hayden, Willie Cain Harold Cain, Edith Small, Gertrude Small, Tommy Conrad, Mary Doyle, Willie French.

After enjoying many games, the children were treated to a fine collation of ice cream, cake, and fruit; and before leaving, Carleton received numerous presents to remind him of the eventful occasion.

TODAY'S COURT.

George Prince and William Donovan were fined $5 each for drunkenness at Quincy.

William Carpenter was arraigned for keeping a common liquor nuisance at Braintree. Case continued until next Tuesday.

Frederick C. and Jane Dwyer were arraigned for assault on Annie Dwyer at Quincy. Case continued until August 30.

In the report of Monday's court doings it was inadvertently stated that Albert Hollingshead of Braintree was held for the grand jury. It should have read that he was discharged for want of probable cause.

The continued case of Thomas Murphy of Holbrook for cruelty to a cow was heard, and he was fined $2.

Wollaston Post Office.

Letters remaining uncalled for August 13:

Mr. G. M. Moore, Mr. Rea Elder, Harold B. Bayley, Mrs. S. F. Smith, Mrs. Edgar O. Haddock, Miss Jennie Hardwick.

—The Georgia chaplain who went to the wharf with his regiment and then backed out is expected to explain that when he signed the muster roll it was a clerical error.

—Immune regiments are immune from fighting, but not from pensioning.

—Now that peace has come we have the war reminiscences to endure.

FIFTH PAID OFF.

The Government Paymaster Arrives at Last.

Camp Dalton,
Tuesday, Aug. 16.

Uncle Sam's paymaster arrived yesterday and completed the payment of the 1st battalion last night. At 9.30 this morning all the 2d and 3d battalion had been paid. Now that the boys have ceased to worry over their pay and have replenished the depleted exchequer, they will probably grow fat if they do not have too many long marches. The men were paid in full from June 25, the date they were mustered in up to Aug. 1, the amount being $18.72 per private, the officers receiving more. It required over $20,000 for the payment.

A money order office has been established at camp, so that some of the money will be sent home.

Monday was one day of rumors. The paymaster arrived in camp about forty times. Every team or military man that arrived on the grounds was welcomed as the money bearers.

The usual drills took place. Some fine work was done in the afternoon in battalion drill.

Capt. Kincaide and Major Morrison arrived today from a trip to Portsmouth. They left Saturday evening to visit friends but were surprised all around. Admiral Cervera arrived at Portsmouth at about the same time and Capt. Kincaide and Major Morrison were favored with an introduction.

A reception was given the Admiral and our frends were extended an invitation. The Admiral they found to be very gentlemanly appearing. He seeemed to be very unassuming and his expression denoted anything but a fighter. He spoke in very broken English but understood everything.

On Sunday a visit was made to the prisoners confined on the island. These they found to be happy and as comfortable as bugs in a rug. Those without proper clothing on arrival, have been supplied by the U. S. Government. Most of them are attired in white duck trousers and jackets. The rest of their equipment consists of an enameled plate, bowl, knife, fork and spoon. They are fed and taken care of better than most of our own soldiers when at the front. Great precaution has been used to prevent their escape, but anyone who has seen them will say that they could not be driven away.

In the afternoon an imitation bull fight was given by a few of the prisoners. The bull was made up of a barrel and two men ingeniously covered to represent the bull. The other actors were mostly arrayed in their native costumes and they were very picturesque indeed. Some of those with white ducks had decorated themselves with tinsel tobacco wrapper, etc., after the gaudy fashion of Spaniards. The visitors enjoyed the show very much, and the participants were warmly applauded. Take them all together they are a happy and contented lot and will hate to leave our fair shores. The Major and Captain returned very much pleased with their trip.

Another practice march will be given today in heavy marching order. No one knows where. The start will be made at about 10 o'clock. While the regiment is away several changes will take place in the arrangements of the several company streets. Co. K will take its proper place as first company in the 2d battalion. The streets will be widened and the tents will be faced half one way and half the other instead of one way as at present A very wide street will be the division line. It is understood that uncooked rations will be carried on the march. MACK.

—Isaac A. Morton of Avon died Saturday aged 65 years.

—Protocoling will now be fashionable.

AT QUARANTINE.

Lieut. Sprague's Experience on Arrival at Tampa.

Aug. 1, 1898.
On board transport (No. 12) Securanca.

There is not a house in Santiago where there are less than three of the inmates sick while from sixty to seventy of the natives die every day of what they call "pernicious" malaria. This in a city of 60,000 inhabitants. The children collect in a bottle the water that runs through the streets and carry it home for drinking purposes and you can imagine what it must be when you remember there is not a sewer in the place.

I do not know whether I wrote you or not that General Shafter absolutely refused to allow the corps to land and ordered it back to Tampa. Do you wonder I was glad to get out of the place even to Tampa.

Through various delays we remained on board the transport all day Saturday in Santiago expecting to sail every hour, and finally sailed as I before said, Sunday morning.

I have described the wrecks in my other letters. I will not describe them again, we returned by exactly the same route and so have seen Cervera's fleet (the remains) twice.

The boat we are on is the Securanca and belongs to the Ward line and is a U. S. and Brazil Mail Steamer and was used as the Headquarters of Gen. Shafter and all the Foreign Attaches laying outside of Morro Castle since early last June. She saw the whole of the sea fight and the destruction of Cervera's fleet and was the 2d vessel to enter the harbor. The bottom is covered with barnacles, etc., which retards her speed to quite an extent. She has a limited crew the greater portion being sick, and as the last time she took on provisions was May 13, 1898, you can imagine we are down to hard pan. We have no butter or ice aboard and yet we pay $1.50 a day board. With two schooners loaded with ice within hailing distance who offered us ice they would not let us get it, which was a shame, as we have sick people aboard to whom it is almost a necessity.

Saturday night a red cross nurse (Mrs. Bull) who is aboard thought one of the men on board had yellow fever, and I tell you we had about as exciting a time for a while as if it had been a Spaniard. We sent a boat ashore for a doctor, who said it was not yellow fever. The captain of the boat was so mad he wanted the nurse sent ashore, but the senior officer aboard Major Foote, notified the captain of the boat that if he did so he should take the command of the ship away from him (which is allowable on Government transports) and place the mate in command. That settled it, but as it is we practically have no medicine aboard and no doctor while we have a sick list of about twenty. The most serious case being, a Mr. Ray, correspondent for the New York World. He has been delirious several times and was brought aboard while in a high fever and we did not know whether he would pull through all right or not, but I guess he is all right now; all the sick are improving. We expect to be held up at the quarantine station which is about twenty miles outside of Tampa Bay.

Have just arrived at the quarantine station and raised the yellow flag, which means, I believe that we want a doctor or something. All the sick are doing nicely and we have hoped to be able to present what is called a clean bill of health, as there is nothing worse than malaria aboard.

All the officers of the Signal Corps are in good health none of as having been sick since we left Santigo. My appetite is good, which is what you want here. I have not missed a meal.

What is worrying us most is as to how long we are to stay here. There are nine vessels (transports) in sight and they say some of them left a week before we did. Some say we are to be here five days, including time since we left Santiago, others say fourteen days in all. The worst of it is we have not seen a paper or letter or heard any news whatever since July 23, 1898. I don't know whether we will get any mail here or whether we can send any.

Aug. 4, 1898, 2 P. M. The quarantine boat has just come along and refuses to allow us to land; they also say that orders from the Adjutant General require all troops to go to New York, and that this boat will take on more passengers and sail there. So I suppose we are to go to New York. I should telegraph you, but I understand it costs $5.00. This mail has to be taken to the station and fumigated before it goes. H. W. S.

Under date of Aug. 6, Lieut. Sprague writes that a doctor had been secured and a cake of ice. The corps was notified to proceed to Porto Rico, but this required landing at Egmont Key, the yellow fever station, and a general kick was made. The plans were changed by a telegraphic dispatch. Capt. Clark was instructed to take two officers and 25 men and go to Porto Rico, and the others were to go to New York. Lieut Sprague preferred to be sent to New York and was glad to sail a few days later. He arrived Aug. 13, and has now been ordered to Alabama.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

August is half gone.

Beautiful weather for three days.

Three weeks more of the school vacation.

Mrs. Walter M. Packard and children are at Scituate.

A new mast for the yacht 'Say When" was put in Saturday.

Mr. Charles H. Penniman is suffering with sciatic rheumatism.

Mrs. Edwin N. Willett is enjoying a week's rest at Marshfield Hills.

Mrs. M. E. Leines has returned from her summer visit to North Easton.

Mrs. John McKnight is confined to her home from the effects of a bad cold.

The fine weather this week is making up for the disagreeable weather last week.

Ex-Chief Hayden, who has been laid up with a lame foot, is able to be about again.

Alexander C. Smith and family of Franklin street have moved to 104 Granite street.

You can ride from Quincy to Forest Hills for ten cents if you get transfer checks in Boston.

The Wollaston Unitarian vestry is now open to those ladies who are doing work for the soldiers.

M. J. Lynch of Hancock street will favor the public tonight with a concert on his gramaphone.

A large number of windows have been broken at the Willard school building during the summer months.

Mrs. C. H. Johnson has been sick at home or the past week or so, but today is improved somewhat.

Mrs. Sylvester Brown and family, and Mr. Lawrence Loring are spending part of the vacation season at Provincetown.

An act which will help the grocer to collect small bills was passed by the Legislature this year. It will go into effect Sept. 1.

An interesting letter from Allie Williams, now a quartermaster, has been received and will appear in tomorrow's Ledger.

Mrs. Alexander Marnock, with her daughter Emma, and Miss Spargo, are at the Fairview House, Brant Rock, Marshfield, for a week.

The game of ball at the annual picnic of the Catholic societies Wednesday, will be between the St. Mary's and St. John's for a purse of $50.

A sewer pipe is being laid from the brick sewer just south of Merrymount park in a westerly direction to Newport avenue being a part of the Wollaston system.

Mr. T. B. Thomas, Quincy Point, has a large collection and a fancy breed of ducks, and when the brood of clear white waddlers are all together it is quite a sight.

Mr. and Mrs. William Brandau who have been spending the summer with her parents, Mr. and Mrs. F. P. Loud, have returned to their home in New York city.

Mr. Charles O. Dyer of Needham is visiting friends in Quincy and on Monday went to Houghs Neck for a day's fishing. Mr. Dyer is connected with the Merchant's club of Boston.

The house at Wollaston where Sunday afternoon's murderous assault took place has often been the scene of disgraceful rows. It is a pity that such a pest-hole cannot be wiped out permanently.

The Quincy Yacht club's cup races will start as follows: Monday, Aug. 22, at two o'clock. Tuesday Aug. 23, at two o'clock. Wednesday, Aug. 24, and each succeeding race at three o'clock.

It is annoying in passing on our sidewalks for pedestrians to be spit on from windows above, and people occupying offices overhead of stores should be careful when they spit out the window.

Mr. and Mrs. Walter F. Nichols of Wollaston are now driving through New Hampshire, having driven 160 miles so far. When last heard from they had reached Hanover, N. H. where Mrs. Nichols will remain for some time.

Mr. and Mrs. L. F. R. Langelier have returned from St. Johnsbury, Vermont, after a two weeks' sojourn. They were accompanied home by Misses Maude and Mary Lane, twin sisters, who will be their guests for about two weeks.

The funeral of the late E. H. Dewson was held Sunday morning at 10.30 o'clock., from his late residence on Adams street, and at the request of the family was private and quiet. Rev. Charles T. Billings of Lowell formerly of Hingham, conducted the services, after which the remains were taken to the crematory at Forest Hills.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead."

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

Screens

Do not wait until the mosquitoes have commenced to sing their night and morning songs with that persistent manner of theirs. The best way for you to enjoy life is for you to do the sleeping on the inside and let them do the singing on the outside. This can be made possible by having us equip your house with screens. The cost will be light but the satisfaction will be great. . . . . .

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

ROGERS BROS.,

Groceries and Provisions. Adams Building, Quincy

LEDGER---LATEST.

TWO HOURS FIGHTING.

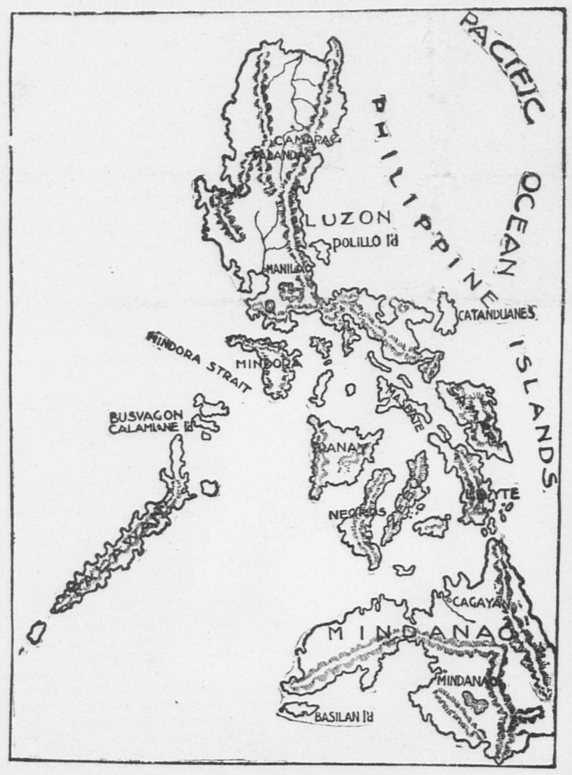

Then Manila Surrendered to Dewey and Merritt.

London, August 16—Advices from Madrid confirm the surrender of Manila. The Spanish were called upon to surrender and upon their refusal the war ships began a bombardment and the troops made an attack. After two-hours fighting the Spanish flag was lowered and the white flag raised.

COMMODORE GEORGE DEWEY.

The Asiatic squadron of the United States navy is commanded by Commodore George Dewey, a veteran of the civil war. He is 60 years old and an officer of ripe experience. He took part in the capture of New Orleans, the engagements at Port Hudson and Donaldsonville, and he fought in the two attacks on Fort Fisher, being on the steam gunboat Agawan. He came out of the war with the rank of lieutenant commander.

MAP OF THE PHILIPPINE ISLANDS.

There are so many islands in the Philippines that the exact number is unknown. There are nine very large ones—Luzon, Panay, Zebu, Leyte, Bohol, Negros, Samar, Mindanao and Mindoro—with more than 1,200 smaller ones. They have an entire area of over 120,000 square miles and a population of about 7,500,000. And here again is found the old story—Spanish officials have ruled with a rod of iron, and the worm has turned. Manilla, the capital of the Philippines and the chief city of Luzon, contains a population of 330,000, principally Spanish creoles, Chinese half breeds and the original natives. The bay of Manilla, the largest and finest in the world, could offer anchorage to the united fleets of Europe.

To Dismiss Volunteers.

Washington, Aug. 16—A bulletin announces that President McKinley will, after approval by the cabinet, issue an order dismissing 50,000 volunteers.

To Army Post.

Co. K may see service at an army post. A dispach from Washington says the War Department officials are considering the question of sending the volunteer troops to the army posts throughout the country, and keeping the regulars in the camps. It is pointed out by Secretary Alger's advisers that the quarters at these posts offer the best advantages for taking care of the troops who are apt to suffer in the camps. The regulars know how to look after themselves, and can be depended upon to overcome the discomforts of life under tents.

The proposal to send the volunteers to the military posts promises to solve many questions which constantly present themselves.

Still in Service.

The report that the Massachusetts Signal corps men had been discharged from service was erroneous. They were simply discharged from quarantine at Governor's island, New York.

Lieut. Sprague of Quincy who is now in command of the detail of twenty-five men who came north, telegraphs to Mrs. Sprague that he has now been ordered to Alabama, and he does not know what is in store for him and his men.

☞ Job printing at Ledger office.

EXTRA!

MRS. CORBETT.

Mother of Prize Fighter Killed by Husband.

San Francisco, Aug. 16—The father of James J. Corbett the prize fighter shot and killed his wife this morning. He then turned and shot himself inflicting probably fatal wounds.

Echoes of the War.

Capt. Clark and 25 men of the Massachusetts signal corps who were detailed to Porto Rico on their return from Santiago, are still in quarantine at Tampa. The captain telegraphs he does not know where he will be sent.

C. H. Allen of Massachusetts, Acting Secretary of the Navy, has arranged for a grand naval review at New York. The Oregon, New York, Massachusetts, Indiana, Iowa and Brooklyn are expected at the port Saturday.

The Rough Riders are at Camp Wickoff, Long Island.

Brig. Gen. William A. Bancroft of Massachusetts has resigned his commission, as he desires to get back to business.

Madrid learns of the resignation of Gen. Blanco at Havana, and Gen. Augusti at Manila.

Gen. Shafter expects to leave Cuba by Saturday.

The Second Massachusetts regiment is expected at Montauk Point, Friday or Saturday.

The Journal's list of heroes is a valuable compilation of the dead and wounded from Massachusetts. The Ledger has set the Journal right on the death of Charles E. W. Rinn of Quincy, who enlisted in August, 1897, in Troop H, 3d Calvary, was in the charge at Santiago, and died in New York August 8, of dysentery. He was a son of Louis Rinn. The Journal reports 55 Massachusetts soldiers to have died, and a large number to have been wounded.

It is expected that Col. Woodward and other officers of the Sixth Massachusetts who resigned at Porto Rico will reach New York today.

Lieut. Col. Logan of the Ninth Massachusetts is reported very weak at his home in South Boston.

Trouble with the Cubans is on the increase.

The Medical Record urges an investigation of the neglect of sick and wounded.

It is believed that San Juan has not heard of the suspension of hostilities.

Peace News Welcomed.

Madrid, Aug. 16.—Numerous vessels are being prepared in Spanish ports to take provisions to Cuba.

The next cabinet council will consider the question of summoning the cortes. The premier is hopeful that the ministers will be agreed upon this point.

The news of peace was heartily welcomed in the Spanish coast towns, and the families that fled, fearing an attack by Commodore Watson, are returning.

Wanted the Admiral's Signature.

Portsmouth, Aug. 16.—Thousands of people were in town yesterday and thronged into the hotel, sending requests to Admiral Cervera for his autograph. He was, however, obliged to decline their importunities, stating that he did not wish to disappoint anyone and did not feel able to write his name so many times. He said that since his arrival in this country he had signed his name nearly 30,000 times. The admiral left this afternoon for Annapolis, taking the Fall River line to New York.

At Camp Long one of the prisoners is still in double irons for writing a letter to Admiral Cervera, upbraiding the Spanish officers at Camp Long for the treatment received there.

Regiment of Crackajacks.

New York, Aug. 16.—After the rough riders had all been landed and started for the detention camp in Montauk, Colonel Roosevelt was met by the newspaper men. They endeavored to get him to tell about his experiences. He refused to talk about his own achievements, but gladly spoke of the work of his men. He said they were all brave and went into danger without hesitation.

Colonel Roosevelt was asked about his reported wounding and replied: "The wound on my right wrist was from a shell, but was only a scratch anyway." He said he was in the best of health, and he looked it. "We had a bully time all the way through. My regiment is one of crackajacks." Mr. Roosevelt added that the men were glad to return, as there was no more fighting to do.

Boston Opinion.

Boston, Aug. 16.—"It is an unerring instinct," remarks The Journal, "which leads the American people who talked first of a naval station in the Philippines to speak now of a naval and commercial station, and to insist that one of the final terms of peace shall guanantee the establishment of an American Hong Kong at Manila."

The Globe observes: "Moltke's task was easy as compared with Shafter's, yet within three weeks the latter had forced the surrender of a larger number of the enemy's troops than was comprised in his own."

The Advertiser thinks it noteworthy that "so far from regarding the terms of peace as despicable and obnoxious, the democratic conventions seem to approve of the terms in a hearty and nearly unanimous spirit."

BABIES THRIVE ON IT { GAIL BORDEN EAGLE BRAND CONDENSED MILK.

OUR ILLUSTRATED PAMPHLET ENTITLED "BABIES" SHOULD BE IN EVERY HOUSEHOLD. SENT ON APPLICATION.
NEW YORK CONDENSED MILK CO. NEW YORK.

THE DAILY EVENTS.

Joseph Whiton, Jr., has sold his yacht.

Mrs. John W. Hersey is spending a week at Hyannis.

Everybody who can find the necessary funds buys a graphopone.

Mrs. C. Alice Litchfield is rusticating at Duxbury for a few days.

Auctioneer Johnson will sell household goods at No. 6 Canal street, next Tuesday.

Mrs. William Davis and Mrs. Evans of Granite street spent Sunday at Nahant, near the Lodge estate.

The cannonade at the grove last night was so powerful that it shook many of the houses around Quincy Point and the Neck.

The report that A. T. Hollingshead of Braintree was held for the grand jury was an error. He was discharged.

Miss Marie and Miss Agnes Rirn of New York city were the guests of Dr. Vogel for a few days, during their eastern trip.

Mr. and Mrs. H.E. Barclay entertained as their guests Sunday, Miss Ora Pindar and Miss Ethel M. Munroe of Lowell, Mass.

It is announced that the annual clam bake of the Water Department to have been held last Saturday afternoon, will be held next Saturday.

Master Joseph and Wendell Prout, sons of Harry Prout are spending three weeks with their grandfather, George Prout, of Granite street.

Mr. Charles Colby has the keel laid for a new 35-foot yacht, 25 feet water line, jib and mainsail, and judging from the model she will be a handsome boat. It will have all improvements.

The grounds of the Merry Mount Tennis club on Safford street, have been put in excellent condition again, and it is hoped all the members will avail themselves of the opportunity to play.

The four-wheel pneumatic tired machine, known as Spear's folly, which he has long been waiting for, has arrived and now we may expect to see Frank spinning along at a ten-mile gait.

Laura E. Holt, treasurer of the Quincy Branch of the Volunteer Aid Association, received today, a check for one hundred dollars, from the Granite Manufacturers' Association of Quincy.

The water pumped from the sewer trench on President's avenue, flows down Water street toward Franklin street, and as the land at this point is low, there is now a pond there several inches deep.

Boy Injured.

This noon Russell Parker, a young son of Warren S. Parker of Hancock court, had his hand badly shattered and received a cut in the head by the explosion of a cartridge with which he was playing. He is now under a physician's care.

Mrs. Bass Dead.

Mrs. Harriet E. Bass of Granite street died last night in her eightieth year. She was thrice married, and out-lived all her husbands. She leaves a daughter, Miss Henrietta Marsh, by her first husband; a son George T. Waldron, by her second husband. Mr. Lewis Bass was a Selectman of the town for ten or more years, his first year of service being in 1835, sixty-three years ago. Mrs. Bass when health permitted was a regular worshipper at the First church, and many enjoyed her friendship.

Cup on Exhibition.

The $500 solid silver challenge cup for 21-footers offered by the Quincy Yacht club, and to be sailed for on August 22, 23, and 24, was placed on exhibition this morning at the Quincy Savings bank, and is attracting universal attention. The cup stands nearly two feet high and is highly engraved. A full description of the cup has already been published in these columns. It is a beauty.

DIED.

BASS—In Quincy, August 15, Mrs. Harriet E. widow of Capt. Lewis Bass, aged 79 years and 6 months.

STOCKMAN—In Atlantic, August 15, Mr. John A. Stockman, aged 61 years and 4 months.

ELMS—In North Scituate, Aug. 14, Miss Esther G., daughter of Mr. Joel L. and Mrs. Emeline F. Elms, aged 8 months.

HOUGHS NECK.

Hose 5 ball tomorrow evening.

Sunday was a big day at the beach, and the Fensmere Hotel reports the best business of the season.

Luminosity In Plants.

Many instances have been recorded of flowers being luminous at night. They only seem to do this on rare occasions, hence they are to be envied who have the good fortune to witness the phenomena. Though the writer has often endeavored to get fortune's favor, she has never smiled on him but once, when he saw the phosphorescent glow from fungi in a hollow tree, just like the glow of a match when rubbed in the dark. A German naturalist, Herr Haggren, seems to have met with a number of instances in his country—or, rather, the night watchman he employed did. He concludes the phenomena are more likely to occur when it is dark, after rain, following a sunny day. July and August gave the most instances. Occurrences began soon after sunset, and there were none after dawn. He could not decide on the cause of the luminosity.—Meehan's Monthly.

"Doubtful Characters."

When Mr. Gladstone and Lord Tennyson paid a visit to Kirkwall and wished to see St. Magnus' cathedral, they had to get the assistance of the United Presbyterian minister to show it to them.

"I was," Mr. Gladstone said, "such a doubtful character that even in the company of Tennyson I was not sufficiently respectable to be conducted over it by the proper authority." The story is told by Mr. Patrick Campbell, for so many years Mr. Gladstone's election agent in Midlothian.—Westminster Gazette.

Queer Reckoning.

Indian street peddlers throughout Mexico sell bananas for 12 cents a dozen, but when offered 24 cents on payment for two dozen bananas the peddlers refused it and demanded 25 cents. The course of reasoning is that 1 real is 12 cents; 2 reals, 25 cents; 8 reals make a dollar. So the traveler must pay a real for one dozen bananas, but 25 cents for two dozen, and no amount of argument will convince the peddler that this is not right.

Why She Could Smile.

"Your wife always wears such a happy expression, Mr. Willikins. She always seems to be smiling."

"Yes, she didn't have to earn the $47 worth of gold that she wears in her front teeth."—Cleveland Leader.

NEGRO CAUSED A RIOT.

Assault on a Volunteer Nearly Results In a Lynching.

Southern Soldiers Restrained With Difficulty.

Major Protects the Offender by a Threat of Shooting.

San Francisco, Aug. 16.—Dan Thomas, a negro, was wounded and narrowly escaped lynching at the hands of 500 Tennessee soldiers yesterday. Two men of troop B of the regular cavalry, which attempted to quell the riot, were dragged from their horses by the volunteers and slightly injured. The negro's house was wrecked. Officers of the Tennessee regiment finally sent the men back to quarters and took the bleeding negro to the guardhouse for protection.

The trouble began in a saloon, where Will Davis, a private of company L, First Tennessee regiment, was drinking. Five or six other soldiers from different regiments and the negro were in the place. According to the story told by Davis the negro asked for a drink. Davis replied that he had no money, whereupon the negro struck Davis in the eye with brass nuckles. The two closed in a struggle until they were separated by an Iowa private.

The negro left the saloon and went home. Thither he was followed by the soldiers, who wrecked the negro's house. But for the arrival of Major Cheatham, the negro might have fared worse. Major Cheatham covered the leaders with his pistol and said he would kill the first man who injured the negro. This action saved the negro from immediate violence, but on the way to the guardhouse the negro was struck by Private Scruggs a terrible blow over the head with a bludgeon. The soldiers were quieted with much difficulty. All the men engaged in the riot were volunteers. Most of them were Tennesseeans, but there were a number also from the Kansas and Iowa regiments.

Striking Miners Shot.

Pana, Ills., Aug. 16.—A shooting affray occurred on the highway near the city limits leading to the Springside coal mine Monday. This is the only one of the four large coal mines in Pana that is attempting to do any mining, and but seven non-union miners are working here.

Several hundred union miners were congregated on the principal highway leading to the mine when Edward Jones and James Palmer, non-union men, rode up on horseback into the miners' lines, and without any provocation, it is said, other than the miners asking to talk with them, began firing into the crowd, at the same time retreating as fast as their horses would carry them, but not until they had emptied their revolvers into the miners' ranks. Andrew Toomey had his right hand shattered by a ball and Michael Yermacavich was shot in the thigh. One other miner is said to have been seriously injured.

The union miners quickly rallied and headed by William Baker with a shotgun, which he secured at his home, pursued Palmer to his home, where he had surrounded himself in his doorway by his female relatives to prevent Baker shooting. Later Palmer and Jones were taken to the city jail.

NEWS IN BRIEF.

The Portugal ministry has resigned.

There are 110 patients in the hospital at Camp Alger, about 40 of whom are suffering from typhoid fever.

Arthur Hughes, 14 years old, was drowned in the Salmon Falls, N. H., river while bathing with a companion.

Gladys Osmore of Newport, Vt., 14 years old, had her clothes take fire from a stove yesterday, and three hours later she died.

The attorney general of Ohio has decided to bring an action against the American Steel and Wire company under the anti-trust law.

The Japanese government has consented to settle the Hawaiian dispute by the payment of £15,000 to compensate for the rejection of emigrants.

A San Francisco paper says that the $3,000,000 estate of Adolph Sutro is insolvent and that unless the creditors agree to withdraw their claims for the time being the property will be hopelessly swamped.

Robert P. Porter, the superintendent of the last general census of the United States, has been appointed a commissioner to examine and report upon the finances, banking systems and customs laws of Cuba and Porto Rico.

After a successful ascent in a balloon at Clarendon, N. Y., yesterday, Professor Litchfield descended with a parachute which fell into the lake near Fluvanna. Litchfield's head struck the rail of a rowboat, and his recovery is doubtful.

Persistent rumors are current that a meeting will take place between Emperor William and the czar in the first week in September, Emperor William desiring to remove the suspicions with which his eastern tour is regarded in Russia and France.

The Flint company of Providence, the largest furniture concern in the state, made an assignment yesterday. A member of the firm expects the concern will pay 100 cents on the dollar. He fixed the liabilities at $94,000, and said the assets would be somewhat larger.

Brigadier General William A. Bancroft of the Seventh army corps at Jacksonville has tendered his resignation to the adjutant general and requested permission to return to his home in Cambridge, Mass., to resume his business occupation. His resignation has been accepted, as there is no longer any need of his services.

At the annual meeting of the New England Spiritualist Campmeeting association in Lake Pleasant, Mass., the following were elected officers: Clerk, Albert P. Blinn of Boston; vice presidents, H. A. Rudding of Springfield. J. B. Hatch, Jr., of Boston and S. Waterhouse of Somerville; treasurer, Frederick Haslam of Brooklyn.

TWO VICTORIES.

Bostons Are Only a Few Points Behind the Leaders.

Boston, Aug. 16.—In the presence of 7500 people, the Bostons twice defeated the Clevelands yesterday, thus winning a majority of the series, and all but reaching first place, which Cincinnati, which won its game from the Brooklyns, now holds by a hair, the relative standing this morning being: Cincinnatis, .6505; Bostons, .6500. The Baltimores, by defeating the Pittsburgs twice yesterday, pushed the Clevelands back to fourth place.

It required 10 innings to decide the first game, in which Lewis pitched well, and was admirably supported. The Clevelands played well with Powell in the box, and they were dangerous at all times. The peculiar feature of the game was that Boston's three first runs were all homers, and twice these circuit hits tied the score.

The Clevelands went out in order in the first of the tenth, and Boston, with one man out, won on Lewis' single, which hit third base, Hamilton's sacrifice bunt, and Long's single past Wallace. In the second game Willis pitched fine ball, giving the Clevelands not a run. Jones held the Bostons to seven singles.

The games were replete with feature plays. In the first inning of the afternoon Herman Long made a phenomenal jumping catch of Child's line drive to left center and doubled Burkett at first base. Score of second game:

Bostons.	AB	R	1B	PO	A	E
Hamilton, c. f.	3	1	2	0	0	0

Bostons .....0 1 2 2 0 1 0 0 —6

Earned runs—Bostons, 2. Stolen bases—Hamilton, 2; Tenney. First base on balls—By Willis, 1; by Jones, 5. Hit by pitched ball—Lowe. Struck out—By Willis, 6; by Jones, 2. Passed balls—Creiger, 2. Time—1:40. Umpires—Snyder and Connolly. Attendance—7500.

The Brooklyns and Cincinnatis brought their season series to a close with the Ohioans whitewashing the New York team in the easiest fashion. McKenna was wild at times.

The Baltimores won both games from the Pittsburgs yesterday. In the first contest they batted out a victory. Hart's support in the last game was miserable. Scores: 9 to 3; 6 to 1.

The St. Louis team defeated the Philadelphias by good stick work, aided by the poor fielding of the Quakers. Foultz made costly bulls at short. Score: 7 to 4.

Altrock's good work won the Washington game for the Louisvilles. The senators played a listless game, with the exception of a double play. Score: 3 to 1.

But for some stupid running and a slight ascension by Seymour, the New Yorks would have won from the Chicagoes. Emslie called the game in the tenth on account of darkness, with the score tied at 2.

The Wilkesbarres fell a prey to Eagan's curves yesterday. Jimeson held the Providences down to eight hits, but he had poor support. Score: 5 to 2.

Less than 200 spectators saw the last game of the season in Syracuse. Moriarity was knocked out in the second inning and Villiman did no better, the Springfields winning, 16 to 6.

Parental Heartlessness.

Brooklyn, Aug. 16.—Walter H. Wilson and wife, who went to New Haven, Vt., 10 days ago and left their three children scantily provided with food, arrived yesterday morning. They found the children at the shelter of the Society for the Prevention of Cruelty to Children, but were informed that they could not get them until they explained matters to a magistrate.

When they arrived at the courtroom a warrant for their arrest, issued at the instance of the Children's society, was served upon them.

"My wife's mother was 81 years old," Wilson said, "and very feeble. She was reported to be in a precarious condition. My wife wanted to see her before she died. The trip was too expensive for the entire family, so we left the children at home. We left them food for their immediate wants, and they were instructed to get anything they needed at the grocery where we have credit."

Justice Brenner took the Wilsons' plea of not guilty to the charge of deserting their children. They were released in $300 bail.

Old Man's Fury.

Atlanta, Aug. 16.—In Justice Landrum's court yesterday William Bain, aged 71 years, cut the throat of James Phillips, aged 30, who Bain claims seduced his daughter. Phillips' wound is dangerous and the doctors say he may not recover.

A case of seduction against Phillips by Bain's daughter, Mrs. Mary Scafe, was on trial. As soon as the hearing opened Phillips' attorneys secured a continuance. Phillips was sitting near a window when Bain started out of the room. As the old man reached his side he suddenly sprang upon Phillips and cut his throat. Phillips grappled with the old man and attempted to disarm him. Bailiffs caught Bain and he was handcuffed.

"He disgraced my family," Bain said, as tears ran down his cheeks, "and I did my best to kill him. I wish I had cut his head off." Bain is a Confederate veteran.

Killed His Wife.

New York, Aug. 16.—Albert Munz, living in East New York, yesterday shot and killed his wife, Bertha, and then committed suicide. Yesterday Munz called to see his wife at the house where she was employed as a domestic, and soon afterwards the shooting took place. The cause assigned for the tragedy is that Munz wished his wife to become reconciled with him, which she refused to do.

Politics In Washington's Time.

But, even worse than official incompetency, those who provided the supplies were tainted with peculation and fraud, says Charles Kendall Adams in The Atlantic. The historical student, as he gives up the idea that the legislation of the time was supremely wise, must also, however reluctantly, abandon the idea that the Revolutionary period was an age of spotless political virtue.

Again and again Washington pleaded with congress and with the chief officers of the individual states. In appealing to President Reed of Pennsylvania on the 12th of December, 1778, to bring those whom he calls the "murderers of our cause" "to condign punishment," he unbridled his passion and sent these energetic words: "I would to God that one of the most atrocious in each state were hung on a gallows five times as high as the one prepared by Haman."

The situation seemed so desperate that only six days later he wrote to Benjamin Harrison, the speaker of the house of delegates of Virginia, "As there can be no harm in a pious wish for the good of one's country I shall offer it as mine that each state will not only choose but compel its ablest men to attend congress."

Quaint Fitz-James O'Brien.

Mrs. M. E. W. Sherwood relates in the New York Times some amusing sayings of Fitz-James O'Brien. On visiting a very patriotic lady on New Year's day, after the civil war was declared, he said, "She had flags on the mantel and cold roast eagle on the sideboard." When asked if he partook of the latter, he said no, as "an Irishman he was drawn by a patriotic instinct to the potato salad," and demanded Scotch whisky to show cosmopolitan breath. Lest he should become too bellicose, he "felt even afraid to handle a drumstick."

Asked if women had inspired men to drink as well as to heroic actions, he said, "Yes! Often when one is Mumm, and the other extra dry."

And speaking of the heroic intoxication that has sent so many men to war, he said it is what "makes the puppies fight well, and then, we feel such a delicious egotism. Why, when I am marching down Broadway, I do not know whether I am a part of the universe or whether the universe is a part of me."

Diamond Studded Streets.

Perhaps the most interesting fact in connection with Kimberly, the Diamond City, is the "street washing," and some of the debris washers have done very well. The "washing" consists of overhauling the earth for diamonds.

At nearly every meeting of the borough council applications for permission to wash streets, or portions of streets, are received. The would be washer has to obtain the consent of persons resident in the street or road, to put the latter into sound repair again and pay tithe to the municipality in the shape of 10 per cent on his gross finds. Last year £960 was paid to the municipality in this way.

In the early days of the diamond fields the ground was washed in a very primitive style, many diamonds being thrown away in the debris, as it is called. This debris was subsequently used for street making purposes, and now, years after, with better machinery at their disposal, people find it pays to "wash the streets."—Cape Times.

He Settled It.

An amusing story is told at Stratford-on-Avon. In the smoking room of a hotel there an Englishman and a Scotchman engaged in a heated argument. John Bull was declaring William Shakespeare to be the only poet of the world, and Donald McPherson was standing up for his Robert Burns.

Words ran high and blows seemed imminent when a self confident little commercial traveler determined to throw oil on the troubled waters.

"Gentlemen," he said, stepping between the heated disputants, "let me settle this amicably. Who is this Shakespeare-Burns?"—London Telegraph.

Flight of the Butterflies.

One of the most beautiful sights in the world is the annual migration of butterflies across the isthmus of Panama. Where they come from or whither they go no one knows, and though many distinguished naturalists have attempted to solve the problem it is still as strange a mystery as it was to the first European traveler who observed it. Toward the end of June a few scattered specimens are discovered flitting out to sea and as the days go by the number increase, until about July 14 or 15 the sky is occasionally almost obscured by myriads of these frail insects.

Not His Legs.

A Russian peasant having gone to the town to buy himself a pair of new boots, fell asleep by the roadside on his way home and was stripped of his cherished boots by a light fingered tramp, but his sleep remained unbroken till a passing wagoner, seeing him lying half across the track, shouted to him to "take his legs out of the way."

"My legs?" echoed the half aroused sleeper, rubbing his eyes. "Those legs ain't mine. Mine had boots on!"—Paris Figaro.

"The Smallpox Devil."

The natives of the west coast of Sumatra object to be vaccinated. They still make offerings to the smallpox devil. The heart and liver of fowls and buffaloes are mixed with yellow rice and other ingredients, placed in the model of a full rigged ship, carried in procession and finally launched into the sea.—Singapore Free Press.

On a parade ground at Calcutta are several adjutants, or argalas. These birds, which belong to the stork tribe, walk up and down the ground, and they look so much like soldiers that at a distance strangers often mistake them for grenadiers.

Disease is a great and treacherous ocean. Man ever stands upon its shore and gazes out over its calm surface without a thought of danger. It licks his feet—it advances and recedes almost playfully—but all the same it will crack his bones and eat him, and wipe the crimson foam from its jaws as if nothing had happend, as it has been doing ever since the world began.

A man who carelessly saunters along the shore of the insatiate sea of disease, will some day encounter a great storm in the form of some fatal malady and will be engulfed. Because a man does not have to go to bed when he suffers from a trivial indigestion, because he does not have to give up work when he gets nervous and cannot sleep at night, because he can still force down an unsatisfactory meal when he is suffering from loss of appetite, because by strong effort he can add a column of figures with aching head—is no reason that these disorders are trifling or to be neglected. They are the warnings of serious sickness. A man who promptly heeds them, and resorts to the right remedy, will speedily recover his usual health. The man who neglects them will find that he is in the grip of consumption, some nervous disorder, or some other dread malady, due to improper or insufficient nutrition. Dr. Pierce's Golden Medical Discovery is the best of all medicines for men and women who suffer in this way. It restores the lost appetite, facilitates the flow of digestive juices, invigorates the liver, purifies and enriches the blood and tones and builds up the nerves. It cures 98 per cent. of all chronic, bronchial, throat and lung affections, and is an unfailing remedy for nervous prostration. Medicine dealers sell it.

INSURANCE,

Durgin & Merrill's Block, Quincy

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.05 A. M. and every half hour until 10.05 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

Summer Furniture.

The piazza is the summer sitting room, and in-door chairs are not just right for out-of-door use. You need comfortable, weather-proof chairs for the porch.

Some of these summer chairs are so cheap that one season's use repays their cost. Some are so handsome that they can be carried into an elegantly furnished room.

PORTO RICAN NATIVES

Happy In the Realization of a Cherished Aspiration.

Freed at Last From the Yoke of Oppression.

Better Class of Spaniards Also Generally Glad at Result.

Ponce, Aug. 17.—A most enthusiastic welcome has been given the American conquerors by the natives of Porto Rico. For many years they had dreamed of the happy time, now arrived, when the hand of the oppressors would be removed from their throats; and now it has come. With the exception of a few of the rich, they seem to care little about the independence of the island. The other revolutionists, ambitious for political power, inquired anxiously if we would retain possession of the island and shouted enthusiastically for "free Porto Rico," but the great majority cares but little for independence, perfectly satisfied with the conviction that we have come to drive out the Spaniards.

The writer accompanied a reconnoitering expedition under General Stone into the mountains north of Ponce. It was remarkable in more ways than one. General Miles had ascertained that the enemy's position at Abonito was almost impregnable, and he had decided to turn the left flank of the Spanish position by landing Brooke's forces at Arroyo and thence moving his column to Cayey, in the rear of the Spanish position at Abonito. The advisability of a movement by our left flank was also discussed. This could be done if the road across the mountains to Arecibo, on the north coast, was passable. The reports were that there was a fine carriage road from Utuado to Arecibo. The only question was as to the character of the road as far as the former point. General Stone volunteered to make the reconnaisance. He took with him several men of the signal corps, four newspaper correspondents in carriages, armed with Remingtons, and a company of the Second Wisconsin. The start was made at noon. Word of our approach had preceded us, and as we drove in women and children lining the streets bombarded us with bouquets, while the men who formed the background cheered the Americans and cried, "Down with Spain." We were hailed as deliverers. This quaint town up in the mountains has a picturesque square, where the people congregated to cheer and welcome us. They had American flags which they had made themselves, and these they waved aloft.

Every citizen constituted himself a reception committee, besieging the members of our party with invitations to dinner. General Stone finally accepted the invitation of a rich Englishman who had lived there 54 years. His children spoke nothing but Spanish and French, and the old gentleman was so delighted that he could himself still speak English that he would not take no for an answer. "I was afraid I had forgotten my native language," said he, speaking slowly and as if groping for his words. "Of course I read English books; but no one here speaks English, and the words sound strange to me. It is like a memory of a former existence to hear you talk; but, oh, so pleasant to the ear. I thank God an English speaking people has come at last."

The correspondents insisted upon going to the hotel, taking with them half a dozen natives who had been particularly pressing in their invitations, and we had dinner with half the town at the little doors and windows. Our guests wanted to drink our healths at every pause in the conversation and several times during each of the courses. They appeared intensely grieved when we declined to sample all the different kinds of wine they offered.

In this island we will possess one of the garden spots of the globe. Columbus spoke truly when he said in 1493 that it was an earthly paradise. From the ocean, the island looks like a sea of hills. A mountainous country is in the center, the main chain, the Cayey mountains, extending across it from east to west. Another chain, the Yuguilla mountains, runs from Cape San Juan to Arecibo, but the foot-hills are all laced with little streams running through broad savannahs that would make the heart of an American farmer throb with pleasure. The soil is a rich, deep loam, and the mountain rocks are mostly limestone. Sugar plantations in the bottom lands and cocoanut and coffee plantations on the hills greet the eye everywhere.

Considering the force at his command, Colonel Hulings disposed his men admirably; but the Spaniards, who at first considerably outnumbered Colonel Hulings' force, could at any time have flanked him. The broad fields which stretch away on each side of the military road are covered with growing sugar cane, from six to 10 feet high, and would afford shelter to an army corps, but the Spaniards did not attempt to molest the invading forces, although they must have had plenty of information regarding our location and numbers. They did not even attempt to waylay the little detachments which Hulings sent out on the various roads for reconnoitering purposes. Occasionally these parties would run into a Spanish outpost and retire, but the next day when a reconnaisance in force would reach the spot, the Spaniards would have disappeared.

Evidences were continually found between Juan Diaz and Coama, 14 miles beyond, of contemplated resistance, which had been abandoned at the sight of our uniforms. Bridges were found ready for mining; trenches were begun and abandoned. The Spaniard seems to fight best when his back is against the wall. It was so at Santiago. He seems to dread the first onset, but once the fighting is begun, he shows an utter indifference to death. Thus, without striking a blow, the main Spanish force which had been stationed here retreated all the way to Abonito, while the small garrisons in the towns and villages, after committing all sorts of depredations and terrorizing the inhabitants, were all drawn in at that point. Perhaps it is no small wonder that they grew faint-hearted when confronted with the Americans who had dealt them such blows by land and sea; but it must also be said in their defense that San Martin, their commander here, was considered a rank coward for evacuating Ponce, and it took the Spanish troops some time to rally after the demoralizing example set by him. When Otega, his superior, took command, San Martin was sent to San Juan under arrest.

The wholesale desertion of the volunteers doubtless contributed also to the early demoralization of the regiments. It is a tribute to the soldiers of Spain, nowever, that not one of them deserted. The volunteers are a poor lot. Most of them are natives, or Spaniards anxious to get into the public service. They joined the volunteers because no man can live on the public in any capacity in Porto Rico unless he is enrolled as a volunteer. With the prospect of immediate American control over the island, these people took the first opportunity of deserting. A French ship captain, who was at Guanica when the first landing was made there, says he heard volunteers denouncing the "American pigs" that day with abundant Spanish profanity who two days later were greeting our soldiers at Ponce with profuse protestations of friendship for us and maledictions upon Spain and everything Spanish. These two-faced wretches are simply time-servers.

Many of the Spaniards of the better class make no such protestations, although they are genuinely glad that the end of Spanish rule, with its exactions and oppressions, is at hand. They do not forget that they are Spaniards, proud of a race whose achievements were so many and so great; and they view with grief the final ruin of Spain's military glory. The writer lodged one night at the hacienda of a rich planter, just outside of Juan Diaz. The planter was a Spaniard. His wife and children were born in Spain. They were rather frigid at first, but when they ascertained that the writer and his companion were correspondents, not officers, they gradually became more genial, and, after disposing of a bottle of old Madeira, the old gentleman actually wept. It was not, he said, because the Americans were to possess the fair island of Porto Rico. He had been in America and fully realized that with our conquest would come progress and many advantages to the inhabitants. He wept, he said, because the Spanish soldiers had basely deserted their flag and dishonored their country. To be defeated, to yield to superior forces—that was honorable; but to flee—that was disgraceful. Then, as his eyes lighted up, he said: "But Otega and Macias will retrieve the national honor; they will fight. They may die, but they will fight." It was strange to hear this Spaniard, who honestly rejoiced because of the prospective American conquest, bewail the fact that thus far the invasion had been bloodless. He desired to see the island conquered, but not surrendered.

A Conciliatory Spirit.

London, Aug. 17.—The Daily Graphic understands that an exchange of views is occurring between the governments of Great Britain and Russia, and that negotiations started on Friday last are proceeding in a conciliatory spirit on both sides. Russia declares that she has no interest, financial or otherwise, in the Pekin-Hankow railway nor any desire to acquire any.

Paid Respects to Long.

Hingham, Mass., Aug. 17.—The Wampatuck club of this town tendered a reception to John L. Long, secretary of the navy, at the clubhouse last night, that eclipsed any effort of the club. A general invitation was extended from the pulpits of the local churches last Sunday, and hundreds availed themselves of the opportunity of paying respect to their townsman, who is at his country home for a few days.

The secretary, accompanied by his two daughters, arrived at the clubhouse shortly before 8 o'clock, when a salute of 17 guns was fired by Cushing's battery. The house was lavishly trimmed with bunting and flowers, while the grounds were profusely illuminated by lanterns. From 8 until 10 o'clock a continual line of men, women and children passed through the parlor and grasped the hand of the distinguished guest, who had a pleasant word for all. There were a large number in attendance from Boston, Hull, Cohasset, Weymouth, and neighboring towns.

Immense Funeral Pile.

Santiago, Aug. 17.—The bodies of the dead Spaniards continue to be cremated. Over 70 have been burned so far. Yesterday afternoon 70 were to be burned. Over two rails a dozen bodies are stretched, across them another dozen, and then about 30 corpses are stacked in an immense funeral pile ten high. The pile is then saturated with kerosene and the torch applied. A fall of rain put out the fire, causing the bodies to be only half burned. Around the pile lay 22 coffins containing corpses in a state of decomposition. Several naked bodies were strewn upon the ground in a state of putrefication. Altogether about 70 unburied and unconsumed bodies lay around. The stench was terrible. This happened at a cemetery within the city limits.

The authorities and the cemetery officials say it is impossible to get men to work at the cremation. Wages of $1 a day prove no inducement to the natives to work at this gruesome toil. The unconsumed bodies will be left upon the earth until fine weather may help the cremation.

These 70 corpses represent two days dead from the Spanish camp. The danger to the population from the stench, the presence of the buzzards, vultures and flies is incalculable.

In Favor of Annexation.

Havana, Aug. 17.—Everywhere in the cafes and on the streets the conditions of peace are the subject of anxious inquiry, as thus far nothing definite is known. The various reports are made the subject of a thousand comments, each man suiting his own desire or whim. It is noticeable, however, that the former roughness of tone that characterized the Havana press in all allusions to America and Americans has disappeared, although these journals still protest their dignity and reassert their love toward the mother country.

The Spanish residents in Cuba have conducted themselves with exemplary discretion since the report was received of the signing of the protocol. Havana is tranquil and its people are turning their attentions to their daily vocations in the hope of retrieving partly the losses sustained during the period of the insurrection and war. Their present temper is a guarantee that public order will be observed. Thus far there has been no symptom of fanatical disturbance. It is safe to say that wherever the conditions of peace are discussed the opinion is freely expressed, at least by those who realize the importance of maintaining order, that under existing conditions annexation to any other government would be the best solution of the problem.

Must Accept the Situation.

Washington, Aug. 17.—Some of the Cubans encamped about Santiago do not seem disposed to accept the conditions imposed by the armistice. Some troubles have occurred. Secretary Alger, in speaking of the matter, said that it might as well be fully understood that the United States would control the surrendered territory, and manage the affairs of that territory. Those who remained within the jurisdiction would have to obey the laws and officers of the United States.

Corbett's Parents Dead.

San Francisco, Aug. 17.—Patrick J. Corbett, father of James J. Corbett, the pugilist, shot and killed his wife at an early hour Tuesday morning. He then turned the revolver upon himself and committed suicide. The hypothesis is accepted by the family and by the intimate acquaintances and friends of the household that Mr. Corbett was laboring under the effects of temporary insanity.

The terrible tragedy occurred at the Corbett home, over the livery stable occupied by the elder Corbett. As near as the time can be fixed, the shots rang out at 4:50 o'clock, Mrs. Corbett being killed as she lay asleep in her bed.

So far as can be ascertained, there was not the slightest reason why the husband should have sought to wreak such vengeance upon his wife, as for nearly half a century the couple had lived happily and in perfect contentment together. Indeed, during the evening they had chatted pleasantly about their fireside with two of their daughters, and at an early hour had retired without the slightest indication having been given of what was to follow within the next few hours. With Mr. and Mrs. Corbett resided their two unmarried daughters and a married daughter, Mrs. Charles A. King, with her husband.

When Mr. Corbett purchased the pistol nobody seems to know apparently, as he was never knewn to keep a weapon in the house. Whether during his temporary spell of insanity he had contemplated the deed no one can tell. There is little doubt but what Corbett was temporarily insane when he committed his deed, and he inherited the mania from his ancestors. His sister, Margaret Griffin, is now an inmate of the Napa Insane asylum, having been confined there six years. Like in the case of her brother, her insanity was periodic.

Both the old people were natives of Ireland, and Mr. Corbett was 66 years of age and his wife four years younger. The funeral ceremonies will not be delayed until Jim arrives from the east, but the bodies will be placed in vaults.

The News of Beantown.

Boston, Aug. 17.—An unknown woman was probably fatally assaulted this morning. She was taken to a hospital in an unconscious condition. Her skull was fractured and she sustained internal injuries. Robert Foley of Somerville is held on the charge of assaulting the woman.

Martha Walsh, a young married woman, was arraigned yesterday on a charge of vagrancy. The officers investigated her case, and found she was living in a comfortable flat, and supporting a husband and two children on the money she begged on the street. She was sent to the house of correction for one year.

WHY THEY RESIGNED.

Troubles In the Bay State Sixth Told by the Colonel.

Accused of Being Too Considerate of His Men.

Had Refused to Order a Courtmartial of the Weary Laggards.

Boston, Aug. 17.—The recent troubles in the Sixth Massachusetts infantry, which led to the resignation of Colonel Woodward and several other officers, are told to some extent in a letter received from The Journal's correspondent with that regiment. In an interview Colonel Woodward says: "For some time we have had signs that the Sixth was not popular. I was told that I was ordered to appear before a board. I was told also that the officers had for a long time had their eyes on the Sixth, with the knowledge that it was not a good regiment. They said that when we arrived at Camp Alger they doubled the guard, and that when we reached Charleston we were a mob.

"Probably you have heard about the difficulties at Charleston. They were discussed before we left the continent. discussed before we left the country. in the Sixth hurt us a great deal in the eyes of the people in that city. Well, this morning matters came to a head. The specific charges made by General Garretson, commander of our brigade, related to the straggling on the march between Guanica and here. Our men had been 18 days on the Yale when they went into that scrimage at Guanica. The food was not of the best and the heat weakened the men. When the march here began they were very tired, and I did not have the heart to be severe with those who were exhausted.

"General Henry said that the volunteers suffered from too much good feeling of this kind; that I had been among the men in my regiment too long, and that discipline suffered greatly. He said they shot men in the regulars when they fell out. I replied emphatically that perhaps that was his custom, but it was not mine. I even said that I did not have the heart to court-martial these boys for being exhausted. I said too that if I had been on foot I could not have stood the last day's march; and even as it was, that I was too tired to move when we reached the camp. I actually fell down here and did nothing until the men put up my tent, and I, you should remember, was on a horse all day.

"I said I had no desire to court-martial the stragglers. The general said I must. I said I would resign first, and he said my resignation would be accepted. Lieutenant Colonel Clafin said the same. Major Taylor said so too. Majors Darling and Presho are at Guanica and Yance. Captain Goodale, who is the senior captain, also resigned. Chaplain Dusseault said he could not stand by and see it done. So we all resigned, were told that our resignations would be accepted, and Captain Cook of I company of Concord, the next highest officer here at Ponce, is in command of the regiment.

"We were ordered before the board, and we resigned. You may say, if you wish, that I consider this is a reflection upon a good regiment. If it is not a disgrace to Massachusetts, what could be? There has been clashing always with brigade officers. Part of it grows out of the bad feeling that prevails almost everywhere between the regulars and volunteers. Some of it is personal. At Camp Alger our regiment was one to be proud of, and we were often picked out for our efficiency. Since then we have worked hard and faithfully under severe handicaps. You can say, too, that there has been treachery on the part of one of my staff officers. He has been out of touch with me from the start, and had repeatedly made complaints to officers in one way and another. You can see for yourself that the men are with us."

Orders Not Regarded.

New York, Aug. 17.—There was a head-on collision between an excursion train and the Boonton accommodation train on the Delaware, Lackawanna and Western railroad between Mt. Tabor and Denville, N. J. There is but a single track where the collision occurred. The excursion train was from Morristown, and was on its way to Lake Hopatcong with a party of 700 Odd Fellow excursionists. The Boonton train was coming toward Morristown. It is alleged that failure to regard signals caused the trains to come together. Both engines were wrecked. Sheriff Durling of Morris county, who was on the Morristown excursion train, was knocked down and badly hurt. Baggagemaster Hamilton of the Boonton train had three ribs broken. Many of the Morristown excursionists received slight cuts and bruises, but none was very seriously injured. The trains were running at a speed of about 25 miles per hour.

Voting In the Territory.

Washington, Aug. 17.—The secretary of the interior has promulgated a decision to the effect that the Choctaw freedmen may and the Chickasaw freedmen may not vote at the election on the 24th inst. in the Indian Territory for the ratification of an act for the protection of the people of the territory. It is held that the Choctaw nation adopted certain persons of African descent resident in the nation at the date of the treaty of Fort Smith and their descendants, and gave to them all the rights, including the right of suffrage, of said nation except in the annuities and public domain claimed or belonging to the nation. The Chickasaws, however, it is held, after offering to adopt these freedmen in a similar manner, later refused to do so.

Wollaston Depot Approaches.

Mayor Sears with President Pinkham, Councilmen Jameson, Willard and Freeman, ex-City Solicitor Hayes and Mr. George F. Pinkham held a conference, with Mr. C. P. Clark, general superintendent of the N. Y., N. H. & H. R. R., this morning at the Wollaston depot, in reference to that fence which has given Wollaston people so much trouble. There has been some delay in this matter, owing to the changes in the officials of the railroad. Just what the outcome of the conference will be is not known, but it looks as though the efforts of Mayor Sears would be rewarded by some changes.

Mr. Tupper's Loss.

The ruin at the residence of Mr. F. A. Tupper should be a warning to others not to forget to shut off the water in their house when going away for any length of time. It appears that breaks in the pipe such as occurred at Mr. Tupper's are not unusual, although this is the first time when serious damage has resulted, as the breaks have been discovered in time to prevent much damage.

According to Mr. Keniley, the pipe used to supply the water tanks is of heavy lead of sufficient strength to stand the pressure, and the only way he can account for the bursting of the pipe is the sudden changing of the pressure in the water mains.

For illustration, the water gates in a particular street are closed to make necessary repairs. This permits more or less water to remain in the water pipes in houses, unless the faucet happens to be opened, in which case the air would clear the pipes. The repairs being made the water gates are opened and the water rushes into the pipes at a pressure of 90 pounds to the square inch. When this takes place if there is a weak place in any pipe used, it will at once make itself known by bursting. This was probably the case at Mr. Tupper's, the water in the mains was shut off temporarily, and then suddenly let on, and the sudden pressure burst the pipe.

It is thought the damage at Mr Tupper's may amount to upwards of $2,000, and much sympathy has been expressed.

FOUND A BURGLAR.

Was in a House on Putnam Street But Escaped.

There was considerable excitement on Putnam and Greenleaf streets early this morning, and there was little sleep in one house, at least after 1 o'clock. The cause of all the excitemet was the discovery of a burglar in the house of Mrs. Harriet L. Hayes, In the house at the time was Mrs. Hayes, her daughter and a young man.

It was a little after 1 o'clock when Mrs. Hayes was awakened by hearing a noise, and while investigating, was surprised to see a man coming up stairs with a light in his hand. A woman's weapon in such cases is to scream, and this Mrs. Hayes did with such good result that she aroused the whole neighborhood. The man in the mean time had made himself scarce.

The police station was telephoned and Night Officer Hanson was soon on the scene. Mrs. Hayes was sure the man was still in the house and would not be quieted until the officer had looked in all the closets, under the beds and in every place where it was possible for a man to hide. The fellow, however, had evidently taken time by the forelock and was making tracks for a place of safety.

Investigation showed that the fellow had gained entrance by forcing a door in the rear of the house. Nothing in the house has been missed as the fellow was probably discovered by Mrs. Hayes before he had time to secure any valuables.

A Court Wedding.

The clerks office at the court room was the scene of a quiet, unostentatious wedding this morning. The contracting parties to the ceremony were Edmund Brodrow of Weymouth, and Mary E. Currey of Quincy. Chief of Police Litchfield officiated as master of ceremonies, and gave the bride away, and the oft repeated words that united the two palpitating hearts were said by Acting Clerk Marden in his most gracions manner, which owing to the financial condition of the pair he made gratuitous. For the reason the usual wedding reception was omitted.

—The Hooley investigation shows why England became tired of bicycle stocks.

POOR MARKMANSHIP

Allie Williams Says Spaniards Could Not Hit Row of Barns.

The following letter has just been received from Allie Williams, who, up to the close of the war was on the U. S. S. Oneida doing blockade duty off Havana. He is now a Quartermaster.

Off Morro Castle,
Havana, Aug. 5th, 1898.

Whoopee! Whoopee! Here we are back again on duty. We have been to Mobile for a new boiler and condenser. We were there four weeks and the devil was to pay with our mail. The Quartermaster was robbing it.

He was caught after having a money order cashed, which belonged to one of the crew. Detectives were put onto him. They put a silver and paper dollar in the mail, and then watched the postoffice. He came for the mail and opened the bait-box and put the bait into his pocket. There was a hook in that bait, with more barks than he ever dreamed of. The detectives followed him on board and found the money. They carried him ashore, and locked him up. I went up to the jail to see him. It is too bad. He is in a bad fix.

We left Mobile on Sunday, July 24, at 6.10 A. M., were to leave at 4 A. M. but were delayed. We steamed down the river as far as Fort Morgan and anchored. We weighed anchor at 5.30 A. M. on Monday. Then my duties started as quartermaster.

I was in the chains Sunday night coming down a very bad river if you don't know your business. We got to sea all right and then put for Key West. At 4.30 A. M., Thursday, sighted two fixed white lights, at 7.30 A. M. arrived at Key West and laid there two days to have a gatling gun put on board for the bridge.

On Friday morning we started out for the three masted schooner "Sagamore" for coal and loaded up. On Saturday we went to the wharf for water and knocked the flag staff down and stove up the stern. It is great luck, we can't seem to move any where without breaking something. We left Key West, 8 P M. Saturday for Cuba, arriving off Havana at 7 P. M., Sunday, July 31. We immediately steamed to the flagship "San Francisco' and got orders to patrol close in shore.

This ship is a regular work house now. The captain said that if he caught anyone sleeping in the day time he would turn them out. It is watch all night and day. I had eight hours out last night.

I was rated 3d class quartermaster July 1st.

Wednesday at 5.30 A. M. we sighted two three-masters. The "Castine" lays a half mile to the east of us. She wanted to catch some fishing boats off the forts, so she started first (we can't catch a row boat). A thick fog set in and I never saw it rain so in my life. This is no dream. You stand still and let John get up on a chair with a big pail of water, then have him turn the water all at once right on top of your head, and you will have a good imitation of what we have down here for rain. The boys in the trenches on shore must be soaked. We got back to our station and the "Castine" came back at 11.30 P. M.

On Thursday night the post watch was on from 12 to 4. At 2.30 A. M. they thought they saw a boat in shore, near a little town called Vigala. We started in for it. I got into the chains with the lead and a man was stationed in the crows nest. The thing turned out to be a little island of grass. We were within 50 yards of shore in five fathoms of water, and could plainly see some small lanterns moving round on land. There was a bugle call, then they opened fire on us. We got away and nobody was hurt. They should have sunk us we were so near, but they couldn't hit a flock of barns if they should float by. We don't steam around, just lay and drift along the coast.

At 4.30 A. M., Saturday, we had drifted quite near Morro Castle and could see the guns, but they never fired a shot. If they had every ship would have been in it in a short time. At 9.30 A. M. I went on deck. We steamed within 100 yards of shore, where there is a little bay. A Spanish block house stood there some time. All that remains now is a tower, twenty-five feet high. We could see the Spanish soldiers keeping guard. Two bullets whized over the boat but they are poor shooters. They have hit us only three times, and left three small holes, one on the bridge striking the signal chest, one in the smoke stack and one in the pilot house.

Yesterday a Spanish gun boat came out with flag of truce, and a French war ship. Don't know what's up, will find out when the "Woodbury" comes after the mail. They spoke her.

I have got to give the boys practice with the wig wag, the captain says, until some one teaches them.

Coal is getting short and we expect to go back to Key West in ten days.

The firemen say this ship is hoodooed from stern to stern. They have seen ghosts in the engine room. The former owner's wife died on board of this craft, so that settles it.

I have not met the lady. If I don't see something to make me scared pretty soon, I will have to tumble overboard with the sharks, and they are thicker than smelts round Peddock's Island in the fall.

Write me 10 yards of news so, that I will have something to read when I get back to Key West. Tell "Whoopee" Starrett that I will give him eight bulls eyes out of ten when I get home, and beat him out at that. I won't say anything about pool. Don't think I could get a ball in the pocket if it was as large as a bushel basket. Regards to Mr. Freeman and Mr. Lyman. Also all the members of the Sportsmen's club.

ALLIE WILLIAMS.

AT CAMP DALTON.

How the Men were Paid—Col. Whitney's Father Dead.

Camp Dalton,
Wednesday, Aug. 17.

Col. Whitney received word yesterday of the death of his father, and left camp in the evening to attend the funeral.

The officers hop has again been postponed until Saturday evening.

Yesterday was a pleasant day in more ways than one in camp. It was the long looked for pay day. The paymaster's arrival in camp Monday evening was greeted with a cheer all along the line. He made his headquarters at Brigade headquarters and began to pay off at once. The first Company to be paid was Co. A. He succeeded in paying the first battalion by 8.30 P. M. He then rested until 6 A. M.

During the night an armed guard paced in front of the box which contained the precious money the boys were looking for so long. Paying began again at 6 A. M. and all were paid by nine o'clock.

In all it took five hours to pay off nearly 1400 men. It took about $36,000, to do the work. The men in each Company were lined up in their turn in alphabetical order and were paid one by one.

Co. M made best record, their time being twelve and one-half minutes. Co. K was a close second. They using thirteen minutes. They would have done better but for a mistake of paymasters which consumed one minute in rectifying.

This money was badly needed as a great many were "strapped."

A post-office money order was at once established on the grounds, and during the day several thousands of dollars were sent home and elsewhere to the needy ones and to banks and safe places of keeping. This is greatly to the credit of the Fifth, as it shows what kind of men it contains.

The coming of the paymaster put off the intended march, and also the shifting of tents. The march and changes will probably take place on Monday. The line of march as marked out, will be to the town of Sherborn, a distance of six miles, making a total distance to travel twelve miles, which is a great deal longer than any before undertaken by the Fifth in heavy marching order. Rations will be carried.

A double crew was put into the canteen today. The boys are not all satisfied with the way in which this canteen is run, as they think they are being over charged for some things and that the quality is none too good. The profits go to the Regimental fund, but they prefer less profits and have goods sold to soldiers at cost and the profit made out of civilians. A good deal of money is spent here during this warm weather.

There were twenty-five applications for passes yesterday in Co. K, but the regular number of five was issued.

A. McFarland, a corporal of Co. M, 7th Regulars, arrived in camp on Monday from Cuba. He is here on a furlough and will receive treatment for a wound received at El Caney during an assault on a block house. He was before Santiago and he says the truth has only been half told of the suffering of the soldiers. He was struck by a mauser bullet in the shoulder, the bullet coming out of his back. He walked two miles in this condition. He says that it will be necessary to fight the Cubans, as they are a worthless set and not to be depended on. He will report at Fort McPherson as soon as he has regained his strength.

Major Morrison praised and thanked the second battalion of which Co. K is a part, for their work during the last two months.

Several regular army officers visiting camp yesterday, pronounced the Fifth to be the finest appearing body of soldiers they had ever seen.

It was very warm in camp yesterday, but a breeze in the afternoon made it quite comfortable.

Co. K will be street five after the changes. This will put them where they belong on the right of the second battalion, Capt. Kincaide being senior officer.

MACK.

On Sunday the Russell club of Brockton will hold a outing at Gun Rock farm, Quincy. The Only club of Whitman will also go on the outing, and outside friends have been invited. About 100 altogether are expected. The Brockton boys will go down in a barge. There will be a clambake and other attractions.—Times.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Over 90 degrees again.

They say the Ledger has lots of news every day.

Inclined to be showery—one shower this morning.

At Fensmere hall tonight, at Houghs Neck, is Hose 5 ball.

Mrs. F. E. Kimball is suffering from a severe attack of rheumatism.

Edward J. Parker was Tuesday admitted to practice in the United States courts.

Thomas B. Davenport, clerk at C. F. Pettengill's store, is enjoying a brief vacation.

Miss Beth Sackett of Springfield is the guest of Miss Lucie P. Newcomb of Gay street.

William Bassett, of E. H. Doble & Co., has returned from a two weeks' visit to Plymouth.

L. M. Pratt & Co. are making alterations at their store, putting in new windows in front.

Representative Newcomb goes today to Nahant by steamer, to attend the reunion of the 42d Massachusetts regiment.

The annual "Wheel around the Hub" by the old Boston Bicycle club will occur Sept. 9-11. Dr. W. G. Kendall of Atlantic is captain.

That old colonial house which stands on South street, foot of North, is under going thorough repairs and Mr. Faxon is putting a new coat of shingles and paint.

Don't be frightened at those strange noises after dark, now nights, which one hears on returning home. 'Tis nothing but the concerts of the bull frogs in the ditches.

John Cargill, monmuental designer, Woodlawn cemetery, Mt. Vernon, N. Y., in company with his family, visited Quincy this week. They were the guests of Mrs. Hiram W. Phillips.

Now that the Quincy avenue line of electrics make close connection with the third rail electrics at Weymouth Landing it is possible to make the trip from Quincy to Nantasket in less than 45 minutes.

Mr. and Mrs. Warren W. Adams were the guests Sunday, of Mr. and Mrs. William Edwards at their summer home in Sharon. Saturday night they attended a grand ball give at the Lake Massapoag House.

Dr. J. A. Dow, the well known veterinary, gives indication that the John Hancock stables opposite the depot, of which he has just become proprietor, will be conducted as a first class stable. Already some fine turnouts have arrived and he expects others.

The property of seven of the abutters on Billings and Walker street at Atlantic, who were assessed a betterment when Billings street was extended, is advertised for sale by the Tax Collector, because of the failure to pay the assessments which amount to over $1113.27.

Mr. Miller of Abbott & Miller's express is willing that rival express companies should receive praise if they ever do anything to deserve it but the barrel of corn sent from the Adams farm to Camp Dalton was forwarded by his company. Mr. Miller's all rigth.

Mr. A. R. Baxter of Quincy. is now located in Trenton, N. J., where he is manager of the Alexander McDonald monumental company. Mrs. Baxter continues her good work there and is trying to raise the debt of a needy little church. Her address is 663 Centre street.

Mr. John H. Wales will soon remove his ice cream depot to the building recently occupied by Austin & Winslow's Express Co. on Washington street. It is rumored that a kind of summer garden will be built to the sidewalk, affording a cool place to sit and enjoy a plate of cream.

A number of dead hens have been found in the woods at Quincy Neck lately, and yesterday some boys saw a skunk drinking out of a tub at Mrs. Minnie Bosworth's pump, and they stoned him and that stunned him and he was despatched with a hatchet. The perfume has filled the neighborhood for a long distance.

The John Hancock Stables,

Opposite Depot, Quincy, Mass.

Boarding, Baiting, Livery and Sale.

DR. J. A. DOW, Proprietor,

the well known Veterinary dentist and specialist in the treatment of lame horses. Sick horses treated at owner's risk.

The finest equipped and managed stable of its size in America.

Fine driving turnouts in light rigs; safe and good appearing. All horses let are perfectly safe for ladies to drive.

The choicest family, road and coach horses constantly on hand for sale. All horses guaranteed as represented.

☞ Will attend to veterinary practice as usual. aug18-1y

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead."

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

Screens

Do not wait until the mosquitoes have commenced to sing their night and morning songs with that persistent manner of theirs. The best way for you to enjoy life is for you to do the sleeping on the inside and let them do the singing on the outside. This can be made possible by having us equip your house with screens. The cost will be light but the satisfaction will be great. . . . . .

IT IS NOT

What we think or what we don't think, but what you want, and there are many times you can't find it; but if you will call at the

Quincy Second Hand Variety Co.'s

store, No. 20 Franklin St., you are very likely to find what you want, as it is truly a variety store. Some of the goods you will find there: Carpets, Rugs, Matting and Bedding, Furniture of all kinds, Tinware, Agate, Glass, China and Wooden Ware. If you are looking for a good second hand cook stove, this is the place to buy, as we repair them and make them as good as new. If you want a stove for beach purposes, we also keep them. We have some antique goods. We have a chair that is over a hundred years old, and a clock that was made in 1444, and many other things too numerous to mention. Call and see for yourself. If you have old carpets, furniture, etc., to sell, drop us a postal. Remember the place, 20 Franklin street.

WALTER P. PINEL, Manager.

LATEST!

3 O'Clock.

FALL OF MANILA.

Admiral Dewey Substantiates the Newspaper Accounts.

Washington, Aug. 17—The Navy department has received a dispatch from Admiral Dewey fully substantiating the newspaper accounts of the fall of Manila. The dispatch states that the city was taken and the United States flag hoisted. There were no casulties on the part of the navy.

Good Work by Land Forces.

New York, Aug. 17—A special to the New York Journal states that Manila was not taken without a struggle on the part of the land forces. Five men were killed and forty-five wounded. There is also a report that the followers of the Insurgent leader revolted and were quelled by force.

Government of the Islands.

Washington, Aug. 17.—Gradually the framework of a government for the civil administration of affairs in Cuba, Porto Rico and such portions of the Philippines as this government controls is being formed. At the outset the military authorities will be in charge of all administration affairs in Cuba, Porto Rico and other acquired possessions; but the military forces can do little more than direct their orderly execution. The carrying on of postal communication and the collection of customs are civil functions which will be taken in hand by the appropriate bureaus here, the entire work being under the protection of the military authorities. The Spanish government has been quite solicitous as to the method of administering affairs in the Antilles, owing to large Spanish interests remaining there. The French ambassador has received a number of inquiries in this line, and these have been laid before the state department.

Cervera Gone to Annapolis.

Portsmouth, Aug. 17.—After a sojourn of three days in this city, during which time he was almost constantly employed in looking after the interests of his sailor prisoners, Admiral Cervera, with his son, left yesterday for Annapolis. A tremendous crowd assembled in the station to bid the distinguished visitor goodbye, and the admiral had hard work in reaching the train.

Before he left, the admiral stated that upon his arrival at Annapolis he would continue his work of arranging for the transportation of his men to their native land, and he hoped their departure would be made within a month. He also said he expected to leave for Spain sometime before the first of September.

Had Yellow Fever.

Washington, Aug. 17.—According to reports received at the marine hospital service two of the six vessels which have arrived at Monatauk point, L. I., with troops from Shafter's army were infected. One of these, the Grand Duchess, had four cases of yellow fever aboard and a number of suspects.

To Be Mustered Out.

Boston, Aug. 17.—A Washington dispatch to The Herald states that while it is impossible to give a complete and accurate list of the New England regiments which will be mustered out it is very likely that the Second, Fifth and Ninth Massachusetts and the First Massachusetts artillery, batteries A, B, C and D of the Maine heavy artillery, the First New Hampshire infantry, the First Vermont infantry, batteries A and B, Rhode Island light battery, the Third Connecticut infantry and batteries A B and C, Connecticut heavy artillery, will be the ones selected.

Struck at a Crossing.

Newport, Vt., Aug. 16.—D. L. Hildreth, an elderly man, was probably fatally hurt on the railroad at Trow's crossing yesterday. He was driving from here to Newport Center, his wife and grandson being in the carriage with him, and did not notice a freight train at the crossing. The vehicle was demolished and the horse killed, but Mrs. Hildreth escaped serious injury, and the grandson was unhurt.

NEWS IN BRIEF.

Gershom Buckley, a flagman, was instantly killed in Bridgeport. He got mixed up between a passenger and a freight going in opposite directions.

The New York aldermen last night killed the Guggenheimer ordinance against swearing in public places by laying it on the table by an almost unanimous vote.

R. W. Colson, a St. Louis broker, was found lying across the graves of four of his children. He had committed suicide. Financial difficulties are thought to have been the cause.

Caleb B. Bowers, for many years one of the most prominent citizens in the public affairs of New Haven, died yesterday, aged 78 years. The deceased for the past 25 years was an ardent Democrat and served in the state senate from 1875 to 1879.

Are you a regular reader of the Ledger?

MARRIED.

McLEOD—BOLEN—In Quincy, Aug. 16, by the Rev. W. W. Dornan, Mr. Daniel F. McLeod to Miss Johanna Bolen, both of Quincy.

ELEY—RAMSEY—In Quincy, August 11, at the residence of William E. Ramsey, on Squantum street, by Rev. William Hyde of Trinity church, Weymouth, Mr. Archibald Horace Eley of Berlin, N. H, to Miss Jennie Mae Ramsey of Wollaston.

DIED.

BASS—In Quincy, August 15, Mrs. Harriet E. widow of Capt. Lewis Bass, aged 79 years and 6 months.

Fueral from late residence, 34 Granite street, Thursday, August 18, at 2.30 P. M. Relatives and friends invited. Burial private.

Echoes of the War.

It was a grand reception which the Wompatuck club of Hingham gave to Secretary of State Long last evening. Among those present were Councillor Lovell, Postmaster Thomas, Hon. John Shaw of Quincy, Capt. Bouve, Bank Commissioner Whiton, Col. Pope, town officials and many distinguished people. The Secretary was accompanied by his daughters, Misses Helen and Margaret Long, who received with Dr. T. H. Spaulding, the president of the club. A salute of 17 guns was given Secretary Long. Delightful music was furnished by an orchestra, and there were beautiful decorations in flowers and bunting. The Boston Journal says: "In the parlor where Secretary Long and party stood were clematis, hydrangeas and golden rod. A handsome floral anchor made of asters, roses, pinks and ferns stood in the corner of the room. This was from ex-commodore John Shaw of the Quincy Yacht Club, who was a member of the Electorial College with Secretary Long in 1892, when Harrison and Reid were the Republican Presidential candidates. Mrs. Shaw also sent Mrs. Long a basket of roses at her home, for Mrs. Long was unable to attend the reception.

JOHN D. LONG.

It is not expected that the 50,000 volunteers will be mustered out until the condition of affairs at Manila is known.

The fault found with Col. Woodward and other officers of the sixth Massachusetts regiment, was their refusal to court martial stragglers in the long march between Guanica and Ponce, after the 18 days on the Yale. Col. Woodward evidently had a heart, and only bad feeling of the regulars for the volunteers would have trumped up such a charge.

The report that it was the purpose of our government to pay the Cuban soldiers for services is denied by Secretary Alger.

The American version of the battle at Manila has not been received.

A good military review of 40,000 troops is being held today at Chickamauga park.

Admiral Cervera received another ovation when he passed through Boston, Tuesday afternoon.

It is reported that it was Admiral Deweys intention to send boats last Sunday to capture Iloilo and Port Royalist, the chief towns of Panay and Palawan.

It was the First Colorado volunteers who stormed the outer trenches at Manila Aug. 6, and caused the Spaniards to retreat into the city. Howard D. Hunt, a son of Capt. J. N. Hunt of this city, is in this regiment. Harry R. Osgood, who is in the 17th Army corps at the Philippines may also have been engaged.

TODAY'S COURT.

Henry M. Richards was fined $5 for drunkenness at Weymouth, and John Wilds was fined $5 for drunkenness at Holbrook.

William Lynch was arraigned for assault on Frank E. Lynch and for drunkenness at Randolph. He was found not guilty and was discharged.

The continued case of Patrick Scully for threatening assault on Fred S. Huntington at Quincy. Case again continued until next Wednesday. Patrick McCarthy, John Gormerly, Neil Cunniff and Patrick Donolon the witnesses summoned in the case were defaulted.

The continued case of John Harding for drunkenness at Quincy was called. He was found not guilty and was discharged.

James H. Cullen was arraigned for assault on Annie More at Weymouth and was fined $5.

—The remainder of the Boston subway as far as the Union station will be opened Sept. 1

We will be pleased to mail the Daily Ledger to your vacation address.

WEYMOUTH.

Little Items of Interest About Town.

Mr. and Mrs. Charles Harrington of East Weymouth are at Cottage City for the week.

Mrs. A. E. Bates of East Weymouth made a flying trip home from the Vineyard this week.

Miss Clara Howe of East Weymouth has been entertaining friends for a few days.

The Wessagussett club of North Weymouth observed their annual "ladies' night" at Nantasket last night. The Banquet was held at the New Pacific House.

Mr. Bert Humphrey of East Weymouth, the popular salesman at the Continental clothing house, Boston, is enjoying his vacation.

The Weymouth branch of the M. V. A. A. will hold a meeting at the M. E. Church, East Weymouth, this afternoon.

Rev. D. Evans is at home again after his vacation.

Tax Collector W. J. Dunbar and wife are visiting friends at New Bedford this week.

Mr. Robert Lincoln of East Weymouth has made considerable repairs on his fishing yacht.

Mrs. Herbert Burrell and son Harold of East Weymouth have been visiting at Walpole for a few days.

E. Loud of East Weymouth is driving a handsome new outfit.

Mr. Edwin Ford of East Weymouth is at home on his annual vacation.

A horse attached to a coal wagon of T. H. Emerson created some excitment at East Weymouth Tuesday, by running away.

The Weymouth A. and I. society will have a firemen's muster at the fair this year.

Tubular Rivets Won.

The Brockton Times has the following version of the game at Merrymount park last Saturday:

The Prospects went to Wollaston on Saturday afternoon and were defeated by the Tubular Rivets of that town, 11 to 5. The game was a good one after the second inning and was witnessed by nearly 900 people. The team which played against the Prospects is one of the strongest amateur nines in the state, and the players were much older than those who constitute the Prospect, as a general thing. The first two inning the rivet makers piled up seven runs. This was not on account of faulty pitching, but owing to a large bunch of errors, nearly all having one to account for. After the second inning the game was more interesting, and Magune's pitching excited the admiration of the Wollaston people. The heavy hitting "Breck," formerly first base on the Brockton team, went with the Prospects and played first base. His batting was one of the features of the game, two home runs being credited to him. One of the hits was the longest ever seen on the grounds. Rafferty and Childs also fielded and batted well. Magune and Regan were the battery for the Prospects, and McQueen and Mahoney for the Tubular Rivet team.

Annual Reunion.

The annual reunion of the Catholic parishes of Quincy is being held today at New Downer Landing, and is being largely attended. The little people began to arrived during the early morning hours, and special cars were run from West Quincy to the grove without change. This noon the older people began to go down, and every car went loaded, extra cars being necessary to accommodate them.

During the morning there were some sports for the boys and this afternoon the general sports are being held.

There is also dancing in the large dance hall for all who wish. Mr. James F. Burke is the chairman of general committee and with a large corps of assistants is doing all possible to make the day an enjoyable one for all.

—Before the war the European nations were a unit, in the declaration that the United States had no army or navy worthy of the name, and that our Nation knew nothing about fighting anyway. They were soon obliged to revise their opinions. They next declared we could not unite for a definite purpose and without the largest popular divisions. This position proved more untenable than the first; and was given up. Then they were sure that, though this Nation could unite and fight in the most skilful manner, it had no knowledge of or experience in diplomacy and the conduct of National interests in connection with other governments and Nationalities. This theory proved worse than al the rest—and now Europe has concluded that the American people can manage for themselves pretty well, after all.—Old Colony Memorial.

—A guardian has been appointed for Grace Stevenson, who has been among the missing for nearly a year.

WILL NOT TUNNEL.

Boynton Bicycle Railway Will Avoid Our Granite Hills.

It is reported that the company which proposes to build the E. Moody Boyton bicycle railroad between Montello and Mayflower park has contracted for building the line between those points with a Boston concern. The principals expect that the firm will get to work within three weeks. The section of the road mentioned is 5.2 miles long. It will be a part of the Boston, Quincy & Fall River bicycle railroad.

The company, however, does considerable bluffing as instanced by extracts from an interview of the Brockton Times:

As soon as the first section is completed our intention is to commence operating cars between Montello and Mayflower Park, and later to Quincy, where our station will be less than a stone's throw from the Old Colony station. This will give Brockton people a 10-cent fare to Quincy and allow convenient connections with the Old Colony until our road is completed to Boston. There is but one bridge, in passing under Union street, Holbrook, that has to be built on the first section.

"The principal reason for the delay in building the road was encountered in Braintree. The town voted unanimously to grant us a location there, and at two hearings before the selectmen their vote was also unanimous to grant us a location. But there is a hitch in connection with signing the franchise.

"In Quincy we have had no trouble at all, and shall apply for a location Tuesday. There is no difficulty on the Boston end, where our charter gives us a location seven miles out.

"The first section of the road to be built, as shown by the profiles, runs in a straight line from near Howard brook in Brockton to the Braintree line, and thence is straight to Quincy. At Montello there is a slight curve. Through Quincy several curves have had to be made to avoid the granite hills, the expense of tunneling which would be enormous."

It will be good news to learn that Quincy granite is not to be sacrificed in the march of improvements.

SOUP WITH DUMPLINGS.

How to Prepare an Inexpensive, Nutritious and Savory Dish.

Soup is a wholesome, light and stimulating food, agreeing with every one and is of untold value to children and old folk, but I am sorry to say that this important branch of cooking is sorely neglected in many households. There is no reason why this should be so. It is not necessary for soups to be expensive, nor need there be much trouble in preparing them. It seems to me that a dinner without soup is incomplete, and I am sure if all our housewives knew the value of soup at the opening of a meal there would be no dinner served without it. I will give a recipe for a simple, inexpensive soup well adapted for warm weather:

Procure a small veal knuckle, wash and place in saucepan; cover with cold water, place over the fire and when it boils add one teaspoonful salt, one leek, two onions, a tomato and two small carrots; cover and boil till the meat falls from the bone, then strain the broth.

Shell one quart green peas, wash the shells and place them in saucepan with the veal knuckle. Boil till the meat is done, then strain the broth. In the meantime place the peas in another saucepan, add one teaspoonful sugar, cover barely with boiling water and boil till done and nearly dry. Add one teaspoonful butter and little salt. Toss them for a few minutes, add them to the veal broth, return to the fire, taste, and, if necessary, add more salt. Melt half tablespoonful butter, add half tablespoonful flour, stir and cook a few minutes; add one tablespoonful fine chopped parsley, remove at once, not letting the soup boil after the parsley has been added, and serve.

Place a small saucepan with half cupful milk and half tablespoonful butter over the fire. When it boils, add half cupful flour, stir and cook till it forms into a smooth paste, then remove and when nearly cold add the yolks of two eggs, one-quarter teaspoonful salt, a little nutmeg and last the whites, beaten to a stiff froth. Stir until smooth; then cut with a teaspoon small portions from this mixture, drop them into the soup, boil six minutes, then serve, or boil the dumplings in salted water and when done remove them with a skimmer and add them to the soup. This soup may be prepared by taking in place of veal one pound lean parboiled bacon.

How to Make Pecan Tarts.

Beat the yolks of three eggs to a cream, add half a cupful of sugar and beat for five minutes. Pound half a pound of shelled pecans slightly. Add them to the eggs and sugar. Place the mixture in patty pans lined with paste and bake from eight to ten minutes. Beat the whites of the eggs stiff. Add two tablespoonfuls of sugar, distribute the eggs among the tarts, spreading on top, and brown nicely in the oven.

—Hand engines from all over New England will attend the fireman's muster at Portland, Thursday, including Hyde Park, Lynn, Waltham, Cambridge, Peabody and Salem companies.

HOLD THE PHILIPPINES.

Senator Chandler Says Humanity Would Prevent Us From Giving Them to Spain.

In a letter to the editor of the Boston Journal, dated at Concord, Mass., on Aug. 2, Senator William E. Chandler says:

"While as anxious for peace as any true American, I do not see how we can now or any time hereafter return the Philippines to Spain. It is not a question of empire, but of humanity and of civil and religious liberty. When Dewey three months ago annihilated Spanish power in Luzon after full conferences and arrangements with the Philippine insurgents, peace at any price men in Washington said he had done an awkward act and had embarrassed the administration. President McKinley did not so feel and is absolutely incapable of withdrawing the flags of Dewey and Merritt and allowing the Spanish soldiers captured by us in Cuba and transported to Spain to be sent thence to the Philippines to ravage the islands and to continue to commit cruelties far more enormous than any for which he has justly driven Spain out of the western hemisphere. The struggles of the Cuban heroes have been in a measure told. Those resulting from Spanish rule in the Philippines are untold, but will come to light to the everlasting dishonor of our great republic if we allow 7,000,000 of human beings, to whom our flag has once brought freedom and protection, to be again consigned to slavery and brutal slaughter.

"The president and Minister Woodford omitted to tell Spain that the American congress and people had determined that Cuba should be wholly free. If this had been said, the war might have been avoided. The president should not now make a second mistake of encouraging Spain to believe that the American people will consent to deliberately consign by their affirmative act 7,000,000 people, now, thank God, free under the flag of the American Union, to be again the victims of Spanish exactions, oppressions, cruelties and crimes. It may be that we do not want the islands as colonies, but we can certainly make them free and independent. To give them back to Spain would disgrace us in the eyes of England and all Europe and turn our battles of glory into victories of dishonor."

WHEN A MAUSER HITS.

Captain Ducat's Graphic Story of How He Was Wounded In Cuba.

Captain A. C. Ducat, Twenty-fourth infantry, severely wounded in the famous charge by American troops up San Juan hill, near Santiago, on July 1, is recuperating strength at the Ducat homestead in Downer's Grove, Ills. Captain Ducat looked pale and worn the other afternoon, but is improving. A Mauser bullet pierced through both hips and ranged down into the right leg, causing an injury that was at first reported fatal. Of the conduct of the American soldiers he tells glowing things. He said recently:

"We had been pursuing the Spaniards up the hill under heavy loss to both sides when I was struck. My men had been deployed and were making targets of the fleeing enemy when I felt what seemed to me to be a terribly hard rap, strong enough to whiz me about several times. Then I fell, and a dark mist came before my eyes, and I was seized with faintness. That is the way it feels to be struck by a Mauser bullet. Some of my men moved me back of the line of action, but the rain of lead was so severe that I was moved twice after that, and finally found myself in the dry bed of a river. I could still hear the shells whistle over me and witness the impact and shock caused by the bullets of the enemy as they hit the opposite bank. I left Siboney July 5 and embarked on the Cherokee. On the voyage we saw the burning and wrecked Spanish battleships and scores of dead Spaniards floating near them, as if unable to leave their ships even in death."—Chicago Times-Herald.

Praying and Fighting.

The captain of the Texas has attracted considerable attention because he is fervent in prayer as well as brave and zealous in battle. All men pray, but Captain Philip prefers the conventional way. Stonewall Jackson's colored servant used to say that when Marse Jackson got up twice in the night to pray he knew "the debble would be to pay next day."—Boston Transcript.

On a War Footing.

If we keep on picking out coaling stations all over the Pacific, we shall have enough to start another war.—Pittsburg Times.

El Emplazado.

El Emplazado, the summoned, the doomed one;
Spain, whom the nations denounce and abhor,
Robe thy dismay in the black sabenito,
Come to the frowning tribunal of war.

Curst are thy minions, their roster and scutcheon;
Alvas, Alfonsos, archarchons of hate;
Pillared on bigotry, pride and extortion,
Topples to ruin thy mansion of state.

Violence, cruelty, intrigue and treason—
These the false courtiers who flatter thy throne;
Empires, thy sisters, forebode thee disaster,
Even thy children their mother disown.

Beautiful Cuba, thy suffering daughter,
Famished and bleeding and buffeted sore,
Ghastly from gashes and stabs of thy rancor,
Binds up her wounds at an alien door.

Courts and corregidors erst at thy bidding
Banished or butchered Moresco and Jew;
Ghosts from all Christendom, shades of the martyrs,
Flock from the sepulcher thee to pursue.

Wrath of retribution, justice o'ertakes thee;
Brand of time's mallson blisters thy brow,
Armed caballeros and crowned things of Bourbon
All are unable to succor thee now.

El Emplazado, the summoned, the doomed one,
God's inquisition condemns thee today;
Earth shaking cannon bolt thunder thy sentence;
Heaven re-echoes the auto-da-fe.

—W. H. Venable in Cincinnati Commercial Tribune.

The Dog and the Law.

Once it is established that the nature of the species is gentle and that every dog is a law abiding and peaceable Bruno then it becomes necessary, before liability for the vulgar transgressions of a fierce Towser can be fastened on the owner, that he should have previous knowledge of the usual and not to be expected feature.

This is called scienter, and until an owner has this knowledge of his dog's viciousness he is not responsible, though in the error of its ways not acting as becomes a gentleman of the dog species or a lady, as the case may be. To be more accurate and exact, once a dog has departed from the narrow path of rectitude and demeaned itself in ways other than should obtain with a strictly proper and gentle animal, and the owner knows it, then it loses status and caste and must be put down as a vicious animal, and the owner keeps it at his peril. Lord Coleridge, it seems, was anxious to reduce the law on the subject to a nicety in the way of succinctness and brevity, and he succeeded by saying that "every dog is entitled to one bite," and the case has special reference to spring lamb or veal. The expression is varied by making it "every dog is entitled to one worry."—Green Bag.

Racial Repartee.

A Swede and an Irishman, both of them tolerably well known about town, got into an argument in front of the courthouse, and they began telling each other how it was too bad that their ancestors had ever happened to shed the wolf robes and take to living under cover. When things got a bit warm, the Swede remarked that there was no doubt in his mind that the Irishman would be entitled, by reason of his ancestry, to join some of the pedigree associations but for the unfortunate fact that most of those ancestors were hanged for stealing sheep.

"I suppose they did their sheep stealing with the understanding among themselves that they were all kings, and that it was all right to go over into the next county and steal whatever they could lay their hands on," said the Swede in conclusion.

"Yes, an be all accounts," said the Irishman, "your ancestors lived in kingdoms so very small that every time they smelled a stockfish in the yard of a neighbor they jumped over the fence an got it, an if they got back they made a national affair of it if there was any pursuit."—St. Paul Globe.

Grotesque Spanish Honor.

The Washington Times recalls a story about the Duke of Wellington that illustrates the fantastic idea of honor held by many Spaniards, contrasted with the practical common sense of Englishmen. When the duke was co-operating with the Spanish army in the peninsula against Napoleon, he was desirous on one occasion during a general engagement that the general commanding the Spanish contingent should execute a certain movement on the field. He communicated the wish to the Spaniard personally and was somewhat taken aback to be told that the honor of the king of Spain and his army would compel him to refuse the request unless Wellington, as a foreign officer graciously permitted to exist and fight on Spanish soil, should present the petition on his knees.

The old duke often used to tell the story afterward, and he would say, "Now, I was extremely anxious to have the movement executed, and I didn't care a 'twopenny damn' about getting on my knees, so down I pumped!"

A HOPELESS STRUGGLE.

Manila Spanish and Allies No Match For Opponents.

Intrenchments Stormed When Fort Was Silenced.

Little Gunboat's Shots Most Effective of the Entire Fleet.

London, Aug. 17.—The Manila correspondent of The Telegraph says: "Nothing could be more humane than the Americans' capture of the town. General Merritt and Admiral Dewey's plan was to spare every object but the armed defenses and the trenches. Apparently the American losses were extremely small. The Spanish trenches varied in distance from two to four miles from the center of Old Manila. Defending this long line of at least 10 miles were not over, and probably under, 5000 Spanish regulars, volunteers and natives. About half that number were in hospitals. The attacking force numbered from 10,000 to 20,000 natives and 10,000 Americans on shore and aboard the fleet. In every respect the advantage was on the side of the attack. The American field guns threw heavier metal and had longer range than the Spanish, the marksmanship of the American gunners was much superior to that of the Spaniards, and the men were stronger and in better condition. The Spaniards are a small force compared with their stalwart opponents, and worn out by a hundred days' siege and disappointed by the failure to arrive of the promised Spanish relief squadron they had lost heart. It was a hopeless struggle.

"Looking over the bay it was curious to notice the foreign fleets arrange themselves according to their sympathies—the English and Japanese near the Americans, and the German and French on the opposite side of the bay, north of the Pasig river. A British cruiser and her consorts kept fairly near the American line. The attacking squadron formed in line between Malate and old Manila, with the Concord watching the fort at the mouth of the Pasig. The American fleet lay outside the breakwater.

"The Olympia fired the first shot at 9:40, and a fairly continuous, but by no means furious cannonade was kept up until 11:20. By that time the Malate fort was silenced, and the American troops then stormed the entrenchments. Spaniards who were in the earthworks tell me that the quick-fire guns of the little gunboat, Rapido, which lay close to the shore, were far more terrible in their effects than was the raking fire of the ships.

"Resistance to the American attack was impossible. The First Colorado regiment was the earliest to charge the Spaniards, who retired to the second line; but soon outnumbered, they were forced into the old city. A part of Malate suffered severely from the bombardment. The vaunted intramural defenses were not tried. The Spanish commander, convinced that further resistance was hopeless, hoisted a white flag at 1:30, and the order to cease firing was immediately issued in the center of the town, but in the outskirts street fighting continued for sometime afterwards between the rebels and Spaniards. The only fear felt in the city is in regard to the conduct of the insurgents. As I write this in the house of the German consul, a brisk fusillade is going on between the combatants, and musketry fire is rattling all around."

VIEW OF MANILLA.

Much Wanted Scoundrel.

Westerly, Aug. 17.—Evidence is being accumulated by the state officers to show that C. H. Schooley, who is held for the murder of Maria F. Flynn at Watch Hill last week, has a questionable reputation. It is alleged that on July 2, 1894, he married a girl in Newcastle, Ind., and deserted her, and that in 1896, he was convicted of committing a felonious assault on a 13-year-old girl, and a reward of $100 is in effect there for his apprehension. It is also claimed that in July, 1897, he visited Stamford, Conn., and a young girl refusing his advances became frightened to such a degree that she attempted suicide by the use of paris green. He is also wanted in Willimantic for larceny.

Ryan Anxious For a Fight.

Syracuse, Aug. 17.—Tommy Ryan authorizes the statement that in event of James J. Corbett being unable to appear in the ring with McCoy in Buffalo, he will take his place and fight the "kid" at the middleweight limit, weighing in at the ringside. Ryan wants an immediate answer to this challenge, as it is but a short time for him to get into condition. Ryan has long entertained a desire to meet McCoy on neutral grounds and wipe out the sting of defeat that he met at Coney Island three years ago.

NATIVE INSURGENT SOLDIERS.

The natives of the Philippine islands, who have been for some time fighting for freedom from Spain, are a small, dark brown people and a branch of the Malay race. The features of the men are coarse and ugly, but they have fine, mild eyes. They are tractable and docile when well treated, but neither quality has been developed by the Spanish.

Killed a Banker.

Stanton, Ills., Aug. 17.—Ex-Senator H. W. Wall, a wealthy banker and real estate dealer, was shot and instantly killed yesterday afternoon. A coal miner named Schadleich, a tenant of Wall's, is charged with the crime, and a posse of citizens is pursuing him. Two other men are said to be implicated. The shooting arose over a trivial matter.

BOSTONS LEAD.

Take First Position From the Cincinnatis by Tuesday's Results.

Boston, Aug. 17.—Manager Tom Burns' disabled Chicago team, aided by the magnificent work of Callahan, the Fitchburg boy, and Catcher Donohue, the Whittenton wonder, came within an ace of winning yesterday afternoon. With Ryan and Lange, the regular left and center fielders, out of the game, young Chance, a catcher from San Francisco, and Thornton, a pitcher, were placed in their positions, and the visitors lost a game they should have won. The two runs made by the Bostons in the first inning were the direct outcome of muffed balls by Chance and Thornton, and again in the lucky seventh errors by Chance and Dahlen gave the champions runs.

Callahan held the Bostons to five clean hits and one scratch, and gave but one base on balls. He was the hero of a fine fielding play in the third on Duffy's hit to Everett. With Yeager on third and Lowe on first in the last of the seventh, Nichols came as the redeeming angel with a triple to deep left center, scoring both runners and coming in himself on Dahlen's wild throw to third. By winning yesterday, Boston took the lead, Cincinnati having lost its game with New York. Score:

Bostons.	AB	R	1B	UO	A	E

Bostons .....2 0 0 0 0 0 3 0 —5
Chicagoes .....0 0 0 1 0 2 1 0 0—4

Earned runs—Bostons, 1; Chicagoes, 1. Two-base hit—Connor. Three-base hit—Nichols. Double plays—Duffy and Yeager; Long, Lowe and Tenney. First base on balls—By Klobedanz, 1; by Callahan, 1. Hit by pitched ball—Chance. Struck out—By Klobedanz, 1; by Nichols, 3; by Callahan, 1. Time—1:42. Umpires—Snyder and Connolly.

While lavish with passes to first and rather unsteady, Magee of the Louisvilles blanked the Baltimores for six innings, but in the seventh they got three runs. In the following inning the entire Louisville team went to pieces, and the Baltimores tallied six runs on five hits, a base on balls and three errors. Score: 9 to 1.

The Pittsburgs defeated the Philadelphias in a well-played 10-inning game. The Phillies tied the score in the ninth inning by good hitting and on Gray's error. The Pittsburgs, however, won in the tenth on two singles and a sacrifice.

The New Yorks knocked the Cincinnatis off the tou of the pile yesterday. A base on balls and doubles by Grady and Joyce brought in two runs in the first, a three bagger and a single tallied one in the fourth, and a single and two men hit by pitched balls, followed by a base hit by Davis, brought in another in the seventh. The Cincinnatis did not get a man beyond second base.

The Springfields were the winners from the Syracuses by bunching hits. Pappalau was hit hard, but not at critical points. A foul tip split Nichols' finger in the fifth, and Massey had to go behind until Shea, who had been released, could don a uniform. Score: 8 to 6.

Dunn and Ryan, sometimes known as the Brooklyns' Irish battery, won yesterday's game from the Clevelands. Dunn had the visitors completely at his mercy, especially when men were on the bases. Wilson proved an easy mark for the Brooklyns. Score: 6 to 2.

The leather medal contestants met in Washington yesterday, and the St. Louis team, by inferior playing, secured the defeat, 10 to 2.

The Wilkesbarres and Providences played two games yesterday and the coal barons took both. The second game was called in the sixth inning on account of rain.

KILLED A WOMAN.

Found Dead In a Room Occupied With Her Paramour.

New York, Aug. 17.—Tuesday morning a chambermaid found a woman lying dead on the floor of a room in the Grand hotel. The man who had been with her was nowhere to be seen and apparently disappeared during the night. By the body of the woman was a blood-stained piece of lead pipe 16 inches long and one and one-half inches thick. One end of the piece of pipe had a piece of cloth wrapped around it as a handle.

Theodore Vail, chief of police of Atlanta, occupied a room adjoining that of the murdered woman. Chief Vail says that before retiring Monday night he pinned $180 in bills to the mattress under his pillow. When he awoke in the morning the money was gone.

An autopsy on the body showed that the woman's death had been caused by a dislocation of the spinal vertebrae. In searching the clothing of the woman a check for $13,000 was found, made out to "Emma Reynolds" and signed by "Dudley Johnson." It was drawn on the Garfield National bank. At the bank it was said that the check was not good. Nine dollars in bills were found under the woman's corset. One diamond ear-ring was found, but the right ear showed that the other ear-ring had been roughly torn away.

Samuel J. Kennedy, 25 years old, a dentist, has been arrested on suspicion. It is said that he has been identified by the elevator man, the bell boy and a waiter in the hotel as the man who was with the woman.

Miss Reynolds lived with her father, Edward Reynolds, a contractor and builder; her mother and sisters and brother. When Mrs. Reynolds was informed of her daughter's death she shrieked: "They have murdered my child for her money." She afterwards stated that her daughter had intended visiting a dentist and had gone to a bank and drawn not less than $500. Miss Reynolds, according to her mother's statement, was only 20 years old.

A Woman's Wish

for dishes that can be thrown away after every meal, to avoid the tiresome task of dish-washing, cannot be granted. Would she have the next best thing? Let her wash the dishes—so easily it's almost a pleasure—with

GOLD DUST Washing Powder.

It cuts the grease, and a good rinsing will leave the dishes delightfully clean.

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.05 A. M. and every half hour until 10.05 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

PLAYED NATIONAL AIR

Californians Fought In Manila to Their Band's Music.

Insurgents Got a Whack at the Spanish.

Terms Agreed Upon by Merritt With the Enemy's Commander.

London, Aug. 18.—The Manila correspondent of The Times telegraphs that the capture of the town was not without certain melodramatic elements. Notwithstanding the fact that the Spanish made a serious resistance against the advance of the right wing of the American force, it could not have been difficult to foresee that a surrender would follow a display by the land forces to satisfy Spanish honor; nor has it been a well-kept secret that the captain general practically suggested the manner in which the American troops should advance to prevent loss of life on both sides. At first it was not intended to attack the trenches, but quietly to advance after the bombardment had ceased. At the last moment, however, the program was changed and orders were issued for the land battery to open fire simultaneously with the fleet, and for an advance to be made as soon as it was considered practicable to assault the Spanish trenches. The reason for this change of plan is not yet apparent but considerable loss of life resulted.

"Less than half an hour after the bombardment began General Greene decided that it was possible to advance, although the signals to cease firing were disregarded by the fleet, being probably invisible on account of the rain. Thereupon six companies of the Colorado regiment leaped over their breastworks, dashed into the swamp and opened volley firing from the partial shelter of low hedges within 300 yards of the Spanish line. A few moments later the remaining six companies moved along the seashore somewhat covered by a sand ridge formed by an inlet under the outworks of the fort, and at 11 o'clock occupied this formidable stronghold without loss.

"As the Californians under Colonel Smith came up the beach their band played the national air, accompanied by the whistling of Mauser bullets, and during the sharp shooting continued to encourage the men with inspiriating music. Each regiment carried its colors into action. There was considerable street fighting in the suburbs of Malate and Ermita, but the battalion of Californians pushed into a popular promenade within 200 yards of the moat of the citadel. Then the white flag was hoisted at the southwest corner of the walled town. General Greene with a few members of his staff galloped along under scattering fire from the houses near the beach, and parleyed with an officer, who directed him along to the gate further east.

"At this moment the Spanish forces, retreating from Santa Ana, came into view, fully 2000 strong, followed by insurgents who had eluded General McArthur's troops and now opened fire for a brief period. The situation was awkward, if not critical, both sides being slightly suspicious of treachery. The Spanish troops lining the citadel ramparts, observing the insurgents' action, opened fire on the Californians, killing one and wounding three. The confusion, however, soon ceased by the advance of the retreating Spaniards to the esplanade, when General Greene ordered them to enter the citadel. Soon a letter was brought from the captain general requesting the commander of the troops to meet him for consultation.

"At 3 o'clock General Merritt had a conference with General Jaudenes. The terms agreed on were briefly as follows: A provision for disarming the men who remain organized under the command of their officers, no parole being exacted; necessary supplies to be furnished from the captured treasury funds, any possible deficiency being made good by the Americans; the safety of life and property of the Spanish soldiers and citizens to be guaranteed as far as possible; the question of transporting the troops to Spain to be referred to the decision of the Washington government, and that of returning their arms to the soldiers to be left to the discretion of General Merritt; banks and similar institutions to continue operations under existing regulations unless they are changed by the United States authorities.

"The latest returns show that six Americans were killed and 39 wounded. The Astor battery under Captain March did excellent service on the right of the line, shelling the blockhouse with its Hotchkiss mountain guns and then charging the position with revolvers. It lost three men killed."

Wheeler Defends the Cubans.

Washington, Aug. 18.—General Wheeler had a conference with the president yesterday over the conditions in Cuba. The president put numerous questions to the hero of the Santiago campaign, and received not only an account of his general experience in that campaign, but also his views on various issues incident to the adjustment of affairs on the island. One point that was uppermost was the possibility of a rupture with the Cuban insurgents.

General Wheeler's statements were very reassuring. "All the friction," he said, "between the Americans and Cubans will soon pass away, and there will be harmony and the best of feeling between them." He said there was a class of men in Cuba who had never been friendly to the Cubans, but on the contrary had been favorable to Spain, who likely would do all they could to keep up this misunderstanding, though he did not apprehend dangerous results.

General Wheeler suggested that the charges against the insurgents of taking articles in the field had extenuating circumstances, especially in view of the starving condition of many of them. He believed the Cubans in time, when freed from oppression and given a stable and humane government, would become law-abiding and useful people.

The president is very solicitous about the health of the Montauk Point camp and gave explicit instructions verbally to General Wheeler as to the conduct of the camp. He wanted everything possible and reasonable done for the interests of the men at the camp.

"Great Victory Over Dewey."

Santiago, Aug. 18.—Major Miley has just returned from Baracoa and Sagua de Tanamo. At the two places there were 1756 officers and men surrendered, 2321 stands of arms, 413,000 rounds of ammunition and five Krupp guns ranging in caliber from five inches down to two inches. The troops were very short of food, but 15 days rations were given them by Major Miley and a large amount of Red Cross supplies landed at the same time at both places. These troops knew nothing whatever of the destruction of Cervera's fleet, the fall of Santiago or any later events. They accepted the situation, however, and appeared to be glad of the opportunity of getting home. On the door of the commanding officer was posted a bulletin purporting to be a telegram from the naval commander in Manila informing Sagasta of his great victory over Dewey at Manila and Sagasta's thanks to him for the same.

The country in the vicinity of these towns is in the same condition as that here—utterly destroyed and grown up. The inhabitants say that in 18 months they will be able to harvest their crops of bananas, which is the principal product of Baracoa. A regiment of insurgents was found in the vicinity of each place, camped within a few hundred yards of Spanish troops, calmly observing each other.

Six or Eight Killed.

Hong Kong, Aug. 18.—The American loss during the attack on Manila is reported to be six or eight killed and 40 wounded. The Spanish loss was considerable, but the exact number is not obtainable. The trenches were filled with badly wounded Spaniards.

Manila is now under martial law, with General Merritt as military governor. The California Red Cross society rendered valuable aid to the sick and wounded. Perfect order prevailed in Manila on the evening of Aug. 13. As the Americans marched in guards were placed around the houses of all foreigners in order to prevent their being looted.

The insurgents were not allowed to take part in the attack upon the city, but were kept in the rear of the Americans. In order to prevent bloodshed they were forbidden to enter the city after the surrender unless they were unarmed.

Closed Military Clubs.

Madrid, Aug. 18.—Two Republican papers have been compelled to suspend publication. Rumors are current of a recrudescence of the Carlist agitation. The military authorities have closed all the military clubs in the province of Aragon. There are no signs, however, that the population would support a Carlist rising.

It is reported that Sagasta does not like the idea of the court leaving Madrid; but the doctors advise a change of air for the young king, and therefore the court is going to Sebastian.

The difficulty in selecting peace commissioners arises from the necessity of their being able to speak English.

How Cubans Feel.

Washington, Aug. 18.—T. E. Palma and other prominent members of the Cuban revolutionary party in this country have held several conferences on the situation in the island. Their meetings have given rise to a renewal of the reports that the Cubans are chafing under the present system of control. President McKinley and the members of his administration have paid no attention to these reports, and a member of the cabinet asserted that there was no expectation of any official protest against the system of administration put in force pending the establishment of a "stable" government in Cuba. "No representations from the Cubans on this subject," he said, "have been made to this government, nor is anything of the s looked for. The Cubans have expressed themselves as being satisfied with the present method of administration, and have full confidence, so far as we know, in the good faith and sincerity of the government, and will remain satisfied until the time is ripe for the establishment of a stable government."

Joint Occupation Opposed.

Washington, Aug. 18.—Wednesday Secretary Alger received a dispatch from General Merritt announcing the surrender of Manila and asking whether there should be a joint occupation of the city of Manila by the American and insurgent forces. The secretary of war, by direction of the president, has sent a dispatch to Merritt saying that there shall be no joint occupation whatever, and that the city, bay and harbor of Manila shall be held by the United States forces. General Merritt's dispatch contained no more information than had previously been sent by Admiral Dewey. No list of casualties was given.

Prejudiced Criticism.

London, Aug. 18.—The Times continues to print letters from Havana strongly anti-American. It is asserted that thousands of innocent women and children are being starved to death because the Americans are incapable of carrying into effect their boast that they would capture Havana in a fortnight. Although the reconcentrados are starving it is alleged the insurgents are well supplied with food by the Americans who, with the Cubans, are apparently content to pursue a safe and inglorious war with famine and dynamite bombs as weapons.

Opposed to Expansion.

Wooster, O., Aug. 18.—The survivors of the Sherman brigade are holding their 20th annual reunion here. Ex-Secretary of State John Sherman, who organized the brigade, delivered an address before a big audience. In the course of his remarks Mr. Sherman said: "The vast extent and compass of our country should satisfy our people and prevent them from extending their domain to distant lands, possessions difficult to control and impossible to defend. I regret to notice a disposition in congress to reach out for outside territory. This ambition for the occupation of territory has been the ruin of Greece, Rome and the great nations of Asia in ancient times, and of Spain, Austria and Italy in modern times. There is no room for the islands of the sea in our system of states. Friendly trade relations can easily be arranged, but American domination, if attempted, will lead to interminable evils."

Teddy to Resign.

Washington, Aug. 18.—It is reported that Colonel Roosevelt will resign his military commission in a few days, but that before doing so he will visit Washington to confer with the officials concerning the situation at Santiago which resoluted in forwarding the "round robin" petition for the transfer of the troops to the United States.

The News of Beantown.

Boston, Aug. 18.—Boston's tax rate for 1898 will be $13.60. This is the largest tax rate for 14 years. The rate was fixed by the board of assessors, basing it on a total valuation of taxable property of $1,036,063,094, of which $830,194,900 is real and $205,868,194 personal.

Anthony Kuzman, 21 years old and homeless, made two attempts to drown himself yesterday without succeeding.

Daniel Mullen, who escaped from the state prison in Charlestown with eight others through a sewer, July 8, 1892, has been located in an Iowa penitentiary. All but one of the men who went out with Mullen have been located and returned to prison. One is still in prison in Texas, while another was shot and killed while attempting to rob a building.

Extensive Fires Raging.

London, Aug. 18.—From various points on the continent, in addition to Nijini-Novgorod, Russia, reports have been received of serious conflagrations. Extensive forest fires are raging in the mountains near Ferrol, Spain. At Schaerbeck, not far from Brussels, the Saint Marie market place, a large building, and seven houses adjoining were burned, with an estimated loss of £10,000. The Estival military equipment factory at Lyons, France, was also destroyed by fire.

Advices from Skalat, in Galicia, Austria, report that 300 houses have been destroyed and 1800 persons made homeless by a fire there. A destructive fire is also reported to have occurred at Concarneau, in Brittany, near Quimper.

But One Syndicate.

New York, Aug. 18.—The varied rumors that have been current for the past two weeks relative to the formation of several syndicates to build as many yachts to participate in the trial races for the selection of a representative boat to defend the America's cup have dwindled to one, which will be owned by the Whitney-Duryea syndicate, in which it is reported that Commodore Morgan will be the largest owner. E. D. Morgan is also said to be interested in the new craft. Another boat which will participate in the trial races will be controlled by C. Oliver Iselin and will probably be the Defender, overhauled and improved by the Herreshoff company.

Dynamite Exploded.

Chicago, Aug. 18.—An attempt was made to take the lives of John Hill, Jr., his wife and two children by exploding a heavy charge of dynamite against Mr. Hill's residence in Belmont, a suburb of this city. None of the family suffered injury, although the frame and sash of the window where the explosive was placed were blown with great force into the bedroom where Mr. Hill was sleeping. The crime is believed to be inspired, if not executed, by race track men against whom Mr. Hill, as an officer of the Civic federation, has conducted a crusade.

Tomorrow's Almanac and Forecast.

Sun rises—4:55; sets, 6:39.
Moon sets—7:19 p. m.
High tide—12:15 a. m.; 12:45 p. m.

Friday now promises to be fair and cooler with winds becoming northwest and north, and the conditions also seem favorable for fair and pleasant weather Saturday.

Cloud of Inky Blackness Preceded a Storm.

Accompaniment of Hailstones an Inch In Diameter.

Much Glass Broken and Horse Caused to Run Away.

Boston, Aug. 18.—A severe thunder storm passed over this city yesterday afternoon, and while it was unattended in this section at least by any fatalities, it caused some damage.

Just before the storm struck the city was overshadowed by a cloud of intense blackness, and for some minutes it was difficult to distinguish objects at short range. Then came a downfall of hail that proved destructive to exposed windows, the stones being over an inch in diameter. The hail lasted over five minutes, and many horses became frantic, and some ran away.

The usual rain followed, accompanied by fierce lightning and heavy thunder, and a number of tall buildings throughout the city were struck. The principal damage was done to St. Stephen's church on Hanover street, the steeple being struck and partially destroyed by the fire which followed. The body of the church was not damaged. Other buildings which were struck escaped without serious damage. At Winthrop a heavy wind blew down telegraph and telephone wires, and for an hour the town was cut off from communication by wire.

Was Playing In a Shed.

Oakdale, Mass., Aug. 18.—During a thunder storm yesterday afternoon, Mary Thomas, 13 years of age, while playing in a shed with other children, was struck by lightning and instantly killed. Two other children were stunned, but not seriously injured.

Fires Set by Bolts.

Portland, Aug. 18.—There were destructive showers in the state Tuesday. Near West Paris the dwelling and farm buildings of a Mr. Bates were struck by lightning and burned with their contents, while a few miles away the barn of Hiram Bacon was destroyed by another bolt.

At East Brownfield, Bilbury Rogers' set of buildings was burned to the ground. At the home of William Spring, in the same town, a bolt entered and struck a bed by which Mrs. Goldthwaite, a boarder, was standing, shattering the headboard with no injury to the lady.

Ruling Satisfies Nobody.

New York, Aug. 18.—Last week the express companies had a meeting and agreed that Colonel John J. McCook, counsel of Wells, Fargo & Co., should go to Washington to see the attorney general and secure from him a ruling as to whether the shipper or the express company should bear the internal revenue expense. Colonel McCook has just received the following letter from Attorney General Griggs:

"I have the honor to advise you that the attitude taken by the department of justice with reference to the question as to which party, the shipper or the express company, under the war revenue bill is required to furnish and pay for the revenue stamp which is required to be placed upon the manifest or bill of lading is that this is a matter entirely between the shipper and the company. This office holds that so far as the government is concerned it is only interested to know that the lawful tax is paid. As between the shippers and the express company, I have decided that the matter is not within my province of consideration under any case that has as yet arisen. The United States district attorneys are instructed by this office that they may prosecute for the prescribed penalty any company which issues a manifest or bill of lading without the prescribed stamp, but that in controversies arising between shippers and express companies as to which one shall be required to bear the expense of the stamp, the government has no direct concern under the war revenue law."

Killed In Wedding Gown.

New York, Aug. 18.—Annie Jantzen's home life was happy, her husband was devoted, their home was a model of comfort and cleanliness and yet today the bride of seven weeks lies a corpse in the little parlor which bears so many evidences of her refinement and good taste. In her wedding finery she killed herself. She dearly loved children, yet the fear came over her and was ever present that she would never become a mother and live. Mrs. Jantzen was 25 years old.

Six Were Killed.

Victoria, B. C., Aug. 18.—News reached here yesterday of an accident on the Union Colliery railway line, resulting in the death of at least six persons. The wires to Union City are down, and full details have not been received. As far as can be learned a large work train with a passenger coach attached plunged through the trestle which spans the Trent river about midway between Whalen and Union City. The trestle is about 125 feet high and 500 feet long.

Chance For Wrestlers.

Detroit, Aug. 18.—John King of Houghton, champion mixed style wrestler of the world, has issued a sweeping challenge for a match anywhere, any time, for any amount, directed especially against Tom Jenkins of Cleveland, world's champion catch-as-catch-can wrestler. King easily defeated John Rowett, world's Cornish champion, in a five style match last Saturday.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL
is the Manager, and the store is right over here at number 20 Franklin street.

Good Afternoon.

Boston is another city which reports an increase in tax rate, Quincy with a decrease being one of the exceptions this year. The tax rate of Boston is not large, only $13.60 per $1000 under a tax limit law, but this is not large enough to pay running expenses, and is steadily advancing. There has been an increase each year since 1895, that of sixty cents this year being the largest.

Quincy people do not realize that our city is gaining faster in real estate valuation according to its size than Boston. The last census showed Boston to be over 24 times larger than Quincy, yet its gain in real estate valuation was less than 21 times larger.

But six of the 25 wards of Boston made as large a gain in valuation of real estate as the city of Quincy, yet all but ten are wealthier in real estate. These six were Ward 7 with a valuation of $189,147,100 in 1897, Ward 10 with a valuation of $47,272,400, Ward 20 with $25,802,300, Ward 6 with $108,017,500, Ward 11 with $95,828,800, and Ward 24 with $23,149,300. Quincy on a real estate valuation of $15,557,500 in 1897, gained $1,255,325. One ward of Boston lost $19,700 in value of real estate, two others gained less than $100,000, nine in all gained less than $500,000; and fifteen, less than a million. Ward 9 with a real estate valuation of $25,005,300 gained but $208,300, and the Dorchester ward, Ward 24, gained but $1,487,000. But for the fact that Boston State tax was $167,353.47 smaller this year than last, the tax rate would have been twenty cents higher.

City Wants Too Much.

Some complaint has been made because that pond of water at the junction of Prospect and Sagamore streets is not drained and to those who are complaining an explanation should be made. In order to drain this locality, it is necessary to build a catch basin and lay a drain through private property. The City Council recently passed an order making an appropriation for the purpose. But the order was conditional, that is, that the owners of property through which the drain must pass should sign a release to the city. While it is understood that the property owners are willing to allow the drain laid through their property they refuse to sign a release to the city, for the reason that the release would forever become a lien upon the property, and in case it was ever desired to sell, it would possibly depreciate the value. In the meantime Commissioner Knowlton is trying to find some other means of making the improvement desired.

CYCLONE AT WOLLASTON PARK.

A Strongly Built House Moved and Turned Around.

Other Experiences Graphically Told by a Ledger Man on the Spot.

Wollaston Park and Norfolk Downs have had their first cyclone experience since they become known on the map. Many interesting experiences were had which will never come to public notice. Some were funny and some were serious. One gentleman, Mr. A. Crawford, employed at the John Stuart Co. boat building shop, was on his way home up Beach street, when the wind took him off his feet and carried him bodily across the street and placed him not too gently against a bank of gravel where he laid for safety some minutes. Had it not been for the bank he said, he was certain he would have gone to Weymouth. As it was he sustained no other damage than a soiled suit of clothes and a few scratches from small stones, and fine gravel in his eyes and ears. He remarked that no one could accuse him of not having sand.

Mr. G. W. Jackson, the local milkman, seemed to have all of his property in the path of the elements. He was driving from Atlantic and when near his home he saw the disturbance in the air and hurried on as fast as possible. When near Beach street on Billings road he saw the labor of weeks in the shape of a stack of hay containing about 15 tons, fall and go scattering before the wind. That was discouraging enough, but more trouble for him was not far off, as the cyclone was making straight for his house on West Elm avenue. The ease with which his hay was turned over filled him with apprehension as to the safety of his buildings, and just as he entered the driveway on one side of has house the wind took a course on the other side. It lifted a hen house containing 35 hens and completely demolished it, some posts being carried more than 200 yards; the biddies flying in all directions and adding to the roar of wind with their wild cackling. At last accounts the hens had all returned to roost on a wire fence in the calm after the storm. Mr. Jackson had a heavy ove coat hanging in the yard, it disappeared during the disturbance, and unlike the proverbial cat it never came back.

Nearby on the same street lives Mr. C. W. Mead in a substantial summer house. A window was broken and what seems very singular, two heavy piazza chairs which were on the north east side of the house were lifted into the air and carried around in front of the house, at right angles to the direction of the wind, and found lodgment in the grass a hundred yards away.

The cyclone continued on in its path of ruin and found its next victim about a quarter of a mile up the beach, toward Quincy creek. Here it lifted a large cottage off its underpinning and raised it some two feet in the air and moored it ten feet away, where it now rests at an angle of ten degrees. This cottage is owned and was occupied by Mr. H. C. Kendall, principal of the Normal Writing Institute, No. 36 Bolyston street, Boston.

At the time of the approach of the cyclone, Mr. Kendall, his daughter Mrs. Minnie Kendall Hinkly, Mr. and Mrs. Edward E. Kendall of Fitchburg, and Miss Mary Treacy, domestic, were seated on the piazza. They rushed into the house, Mr. Kendall going upstairs to get a coat which contained money and other valuables, while the others went into the kitchen. Just as Mr. Kendall was descending the stairs, after getting his coat, the house was struck by the storm with the above result. While on the stairs a small statue fell and struck Mr. Kendall, cutting his ear, which bled freely. This was the only bodily harm received by any of the inmates. The others huddled together in the kithen on the floor.

The stove remained in its place but a large iron kettle filled with water, which stood on the stove, upset and the only damage resulting was its contents being emptied on to Miss Treacy who got a wetting. The house was strongly built, otherwise a different story would have to be told. In the chambers some damage was done by th upsetting of water pitchers washbowls and fancy article of bric-a-brac, also three windows. Mr. Kendall estimates the damage between three and four hundred dollars.

At the time of the above disaster, which was about 5.25 P. M., Mr. Cordosi, a fruit dealer from Charlestown, drove up, and was filling a basket with fruit to carry into the cottage.

The wind struck Cordosi's basket and wagon and made a bad mixup. Cordosi expecting a counter blow, with the help of Mr. Ralph Blake, turned his wagon right side up and left the scene as quickly as he could, leaving watermelons, lemons, plums, pears, cantalopes and other fruits in the sand, for the boys to feast on later.

One amusing incident happened while the fruit was still in existence. A young man who was sent to the damaged cottage, to learn who was injured, spying the fruit, stopped and filled his pockets and stood eating as fast as he could before making inquiry as to the loss of life which was feared by those who sent him.

During the storm Miss Nettie McLoud, a niece of Mr. Jackson was rendered insensible for about ten minutes by the lighting. The course of the cyclone was almost due east and covered not more than one hundred yards in width.

Literary Notes.

The September number of the Delineator is called the Autumn Announcement number, and describes accurately and in detail all the latest developments in the world of dress. The literary features are of the usual marked excellence, and the household subjects are practical timely. The article in the series on photography for amateurs, by Sharlot M. Hall, is on the dry plate, and will prove of value to every student who aims to obtain the best results. The dressmaker introduces a new department of practical instruction that will be much appreciated in the home. Fancy stitches and embroideries, the work-table for the children, lacemaking, knitting, crocheting, tatting, books, etc., comprise an attractive miscellany. Published by the Butterick Co., New York.

TODAY'S COURT.

Levi Bucheau, John Foster and August Peterson were fined $5 each for drunkenness at Quincy.

Humphrey Coakley was sent to the House of Correction for thirty days for drunkenness at Weymouth and sixty days for disturbing the peace.

The continued cases of Arthur O'Neil and John White, for breaking and entering the house of William Edwards, was heard in the Juvenile session and they were placed on probation for three months.

During the reavy shower and gale Wedensday evening, which was very severe at Hougs Neck, the roof of a shed at Pawsey's Rock Island farm was blown off. His garden and other gardens in the neigborhood suffered severely.

The Great Ink-ubator
For Hatching Out Business Is the Daily Ledger.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

The Quincy Shoe Co. factory is still closed.

Newcomb square people appreciate the electric cars.

H. H. Faxon advertises a new list of houses to let today.

E. R. Wade and family of Prospect street are in New Hampshire.

There is to be a band concert at South Braintree square tonight.

Miss Ada Harding of Botolph street returned Saturday, from a three weeks' visit at Beverly.

It being "Carnival week" at Nantasket the electric cars are carrying big freights every day.

The recent heavy rains have caused a number of small washouts in different parts of the city.

W. H. Baxter of New York, a son of the late Daniel Baxter, made a flying visit to Quincy friends today.

Rev. T. H. Vincent of North Weymouth will preach at the Wollaston Congregational church on Sunday.

Miss Collins, the popular milliner, is spending two weeks in Saratoga with an observant eye for the late styles.

Mrs. J. H. Pierce of Centre street, South Quincy, is visting her son, Sumner H. Pierce of Vinal Haven, Maine.

Rev. Mr. Wright, pastor of the Atlantic Methodist church, left Tuesday for his home in Ohio, where he will visit until September.

During the severe gale last evening the chimneys on both Mr. Hinkley's and Mr. Charles L. Coe's houses were demolished.

Mr. John Federhen is moving from his present home opposite South street, Quincy Point, to the house recently occupied by his father.

Robert Williams, who is a member of the Roxbury Veteran Firemen's Association, is attending the New England tournament at Portland, Me., today.

An immense turtle weighing about ten pounds was found near Wendall's quarry Wednesday by boys blackberrying near a swampy place in the vicinity.

Those who remained under cover until after the shower at the grove last night were lucky. Some waited until late in the evening, and avoided getting wet.

Mr. Everett Nash or Alex Nash is making some changes inside his hotel this week. He has put in new marble tables, six in number, and a separate room for ice cream parlor.

The local branch of the Massachusetts Volunteer Aid Association acknowledges the receipt of a check for one hundred dollars from the Quincy Granite Manufacturers' Association.

The street railway has arranged for a band concert Saturday night in City Square by the National Guard band, and a vocal soloist; also for a concert by the same band Sunday afternoon and evening at Houghs Neck.

The G. A. R hall is open every Tuesday and Friday afternoons to work for the sick and wounded boys. All contributions of canned goods will be thankfully received. Another box will be sent off next week, Wednesday.

It is reported that the government is to try the guns recently erected on Long Island. There are seven ten-inch and several rapid fire guns. The report when they are fired will furnish some idea of the racket at Manila and Santiago.

The Quincy Clothing Co. has coined a new word, and advertises a "grand emptying out sale." The prices are such as to command attention, and it is a good time to secure clothing, hats shirts, neckwear, etc., etc. The sale will continue but ten days, beginning tomorrow.

Quincy has another man enlisted in the service of Uncle Sam, Charles Bryant of Wollaston, who is a private in the First Massachusetts Heavy Artillery, Battery F, now located at Fort Warren. Mr. Bryant was formerly 1st lieutenant of this battery, but reenlisted April 26, and is doing good work.

Miss Mamie Kearney, who has been working at Mr. Burn's boarding house, on Washington street, lately, disappeared very mysteriously Monday night and nothing has been heard from her since. She left her clothes in her room and also left the light burning which was found in the morning. Her friends are very much worried for fear something has happened to her.

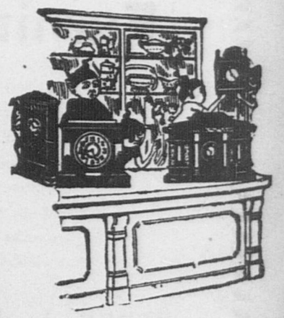

Mrs. William Pratt, Mrs. Eva Robinson and Mr. William T. Pratt of Revere, were the guests Wednesday of Mr. and Mrs. C. B. Tilton. They were more than pleased with the view of the scenery and improvement being made on the way between the Massachusetts Fields school, and did not even mind the warm sun that beat down upon their heads during the walk.

Good Vinegar
for Pickles. The high quality of my pure Cider Vinegar will keep your pickles perfectly. I buy only from reliable firms.
May be you know how much the flavor of your pickles depends on the quality of the Vinegar you use. My Cider Vinegar is fine flavored, clear and strong. It is nice for the table as well as for pickles.

CATHOLIC REUNION.

West Quincys Won the Base Ball Game —Other Sports.

The twentieth annual reunion of the Quincy Catholic churches was held Wednesday at New Downer Landing, and was attended by about one thousand people. The day was passed in a pleasant manner with games, music and dancing. Even the shower that usually greets the annual gathering not being omitted. Mr. James F. Burke was chairman of the general committee and he was assisted by a large and efficient corps of aids who left nothing undone that would add to the pleasure of the occasion.

The several sports held during the day resulted as follows:

Boys' ball game—St. Johns, 19; Quincy Juniors, 18.

Potato race, won by Peter Kearney, Thomas McLaughlin second.

Three legged race, won by William Sullivan and Charles Edwards.

100-yards dash, won by William Greenough, Peter Talbot second.

Running high jump, won by William Waish, Joseph Ryan second; distance, 5 feet 5 inches.

Three standing jumps, won by Joseph Ryan, William Walsh second; distance 38 feet.

One mile bicycle race, won by F. Coulter, Charles Thaxter second.

In the tug of war but one heat was pulled which was won by the West Quincys.

The sport to attract the most attention was the game of ball between the West Quincys and Quincys. The tempest, however, put a sudden stop to the game in the eighth innings, the score at that time being 17 to 10 in favor of the West Quincys.

Invititons are out for the annual clam baek of the Quincy Water Works employes at Pawsey's Rock Island farm, Saturday at 2 o'clock.

BILLHEADS PRINTED

AT PATRIOT OFFICE.

AT CAMP DALTON.

Camp Dalton,
Thursday, Aug. 18.

The Fifth took another march yesterday, this time through Natick, a distance of nearly ten miles. Again they got a wetting, too, for they were caught in the rain when about four miles from camp. The camp was flooded upon the return.

The fifth Battalion of cavalry are expected to go into camp here next Thursday August 25.

Among the visitors today are George H. Wilson, Capt. Doane, Chief Engineer Packard, Councilman Prout, Michael Lynch, Fred Goss and Fred W. Tirrell. These gentlemen brought a generous supply of bread and butter and other things.

Several ladies from Quincy are also visiting camp.

Col. Pew of the Eighth Massachusetts at Chickamauga, was in camp yesterday. He was disappointed not to be present at inspection, for he said he had heard much of the Fifth and therefore the visit.

A circus in the neighborhood was the attraction last night, and twenty men from each company were allowed to attend.

Col. Benyon formerly of the Fifth was also a visitor yesterday.

WORMS

Hundreds of Children and adults have worms but are treated for other diseases. The symptoms are:—indigestion, with a variable appetite; foul tongue; offensive breath; hard and full belly, with occasional gripings and pains about the navel; heat and itching sensation in the rectum and about the anus; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; starting during sleep; slow fever; and often in children, convulsions.

TRUE'S PIN WORM ELIXIR

TRADE MARK

is the best worm remedy made. It has been in use 46 years, is purely vegetable, harmless, and effectual. Where no worms are present it acts as a Tonic, and corrects the condition of the mucous membrane of the stomach and bowels. A positive cure for Constipation and Biliousness, and a valuable remedy in all the common complaints of children. Price 25c. Ask your druggist for it.

Dr. J. F. TRUE & CO., Auburn, Me.

Special treatment for Tape Worms. Write for free pamphlet

WEYMOUTH.

Little Items of Interest About Town.

The Parochial residence at East Weymouth is rapidly nearing completion and when the different artisans have finished, this residence will be one of the handsomest in this section.

Mr. B. B. Sylvester of the Citizens Market, East Weymouth, is enjoying a week's relaxation from business cares.

Mrs. B. J. Briggs and family of East Weymouth have moved to the house owned by George Burgess on Commercial street.

C. E. Cushing of East Weymouth, has sold his creamery business to John Hanly who will continue the former route.

Miss Mary E. Chubbuck of North Weymouth is the guest of Mr. and Mrs. Chas. R. Maybury at Neponset this week.

A large number from the Weymouths attended the "Fall of Manila" at the "Grove."

Miss Hazel Baker is visiting Mr. and Mrs. Bert Humphrey at East Weymouth.

Mr. and Mrs. W. T. Dizer of East Weymouth and Master George Cushing are the guests of friends at Winthrop beach.

H. S. Hathaway of the U. S. A. signal corps is on his way home from active operations in the field.

Miss Agnes Hyde, the popular reader and impersonator, read at Hubberstown, Mass., Tuesday evening.

Miss Alice Prentice of North Weymouth is at home on her vacation. She returns to Providence, R. I. to finish her studies as a teacher this fall and winter.

The Storm Elsewhere.

Miss Floretta Vining of Hull, was a sufferer by Wedneday's storm, nearly 200 panes of glass being broken in her cottages. At the Pemberton hotel the loss was even larger, and all houses suffered. The Catholic church at Abington was struck by lighting and the roof was damaged to the extent of $500.

LATEST!

3 O'Clock.

CAPTURE OF MANILA.

Gen. Merritt Notifies Washington to that Effect.

Washington, Aug. 18.—The War department has received a report from Gen. Merritt, announcing the capture of Manila. No particulars are given.

No Massachusetts Men.

San Francisco, Aug. 18—The San Francisco Examiner gives a list of the killed at Manila. They were all western or regulars, no Massachusetts men taking part in the battle.

Gen. Wheeler Arrives.

New York, Aug. 18—General Wheeler has arrived here and will leave tonight to assume command of the camp at Muntauk Point. Two yellow fever cases are reported there but no new cases are reported today.

Back From Jamaica.

Santiago de Cuba, Aug. 18.—Over 600 refugees from the province of Santiago have returned within two days from Jamaica. They are mostly planters and their families.

The authorities are finding great difficulty in maintaining discipline in the city. The immune soldiers are causing much trouble, and though the city is being patrolled by the Eighth Illinois regiment (colored), it will be necessary to supplement them with a special organized police force.

Captain Sharp of the Chapman-Merritt Wrecking company is working vigorously to float the Maria Teresa, and expects to get her afloat and in such condition as to make her able to come to Santiago within a fortnight. The Teresa has a hole 15 feet long in her bottom, very close to the keel. This is being closed and stopped with unriveted plates, soldered, and cement and bagging. Captain Sharp has no hope of saving the Christobal Colon. The Admirante Oquendo and the Viscaya are total wrecks and are not worth saving for junk.

Explained In Berlin.

Berlin, Aug. 18.—A local paper explains that the Kaiserin Augusta, which brought away General Augustin from Manila, left the harbor after the surrender of the city. The Spanish officers were allowed to go free, so that General Augustin was able to go whither he pleased. "When Admiral Von Diedrichs permitted him to go to Hong Kong on board the Kaiserin Augusta," says the journal, "it was by agreement with the American commander-in-chief, if indeed the German admiral considered such an agreement still necessary. Moreover, it is also to be observed that the Spanish troops at Manila may, by mutual consent, proceed to Spain or Hong Kong."

Grand Spectacle Saturday.

Washington, Aug. 18.—The naval review at New York will take place Saturday, the parade starting from Tompkinsville, S. I., at 10 o'clock in the morning. Each vessel of the navy in these waters will proceed to the Grant monument, there fire the national salute, and return. The president will be unable to go, but Postmaster General Smith, Attorney General Griggs and others of the cabinet will represent the administration. The plans were finally decided on at a conference last evening between President McKinley and the acting secretary of the navy.

On a Charge of Arson.

Lynn, Mass., Aug. 18.—Thomas Goff is charged with setting fire to the dwelling house owned by his mother and occupied by himself. Rags, saturated with kerosene, were placed and ignited in four places in the house, but the damage was small. Goff was seen leaving the house just previous to the discovery of the fire.

Echoes of the War.

Dewey again takes the front seat.

There are now about 8,000 troops in Camp Wikoff, Long Island.

Gen. Bancroft who was at Jacksonville, in an interview with the Journal, says in part: "The equipment of our men has been poor. Why, not all the men are equipped with rifles yet. Those who have received rifles have been given the old Springfields, not the latest model. You would think they might have given us enough tin plates to go around, but they did not. It was necessary in some cases for two or three men to eat their meals off of one plate, and with one knife and fork, or else use their hands, which they did do in some cases.

A committee of Springfield citizens have arrived at Camp Wickoff with provisions, clothing and delicacies for the Second Massachusetts upon its arrival.

Shirt Factory.

The well known firm of Jacob Dreyfus & Son, have started up the factory under the name of the Congress Manufacturing Co., formerly occupied by Hobart & Holmes, manufacturer of wrappers, as a first-class shirt factory. They have bought the machinery and intend to do a large business in the manufacturing line. This well known house has been in business over thirty years and at the present time employ nearly 800 people in the manufacturing of shirts. They have made during the recent war period 17,000 dozen blue flannel army shirts for Uncle Sam.

THE HOSE 5 BALL.

A Grand Time at Hotel Fensmere Last Night.

Music hall at Hotel Fensmere never looked better than it did Wednesday evening on the occasion of the grand ball given by the fire company at Houghs Neck, known as Hose Co., No. 5. The hall was very prettily trimmed with flags and bunting and brilliantly illuminated with electric lights, making a very pretty picture.

The attendance was large considering the unsettled condition of the weather, and while the hall was not crowded there was just room enough to make dancing comfortable and enjoyable. Everybody seemed to enter into the spirit of the occasion, and the members of the company were untiring in their efforts to please.

From 8 to 9 o'clock Young's orchestra gave a pleasing promenade concert which included popular airs and a cornet solo. Shortly after 9 o'clock the grand march was formed and was led by the Floor Director, Captain F. E. Morse and Mrs. Hattie Connors, followed by Assistant Floor Director, Charles F. Cook and Mrs. Cook. Then came the aids and other committees with their ladies.

At midnight, during a brief intermission, refreshments were served in the lower hall. Dancing was then continued until 2 o'clock when a special car in waiting took the Quincy people home.

Among the invited guests present were: Chief Packard, Assistant Engineers Ripley and Hardwick and Chief of Police Litchfield.

Those in charge of the affair were: Floor Director, Capt. F. E. Morse; Assistant, C. F. Cook; Aids, W. D. Littlefield, T. M. Alexander, William Faxon, John Boland, C. L. Horn, J. H. Hill, Patrick Now, G. A. Now; reception committee, T. M. Alexander, William Faxon, John Boland, Patrick Now; committee of arrangements, Capt. F. E. Morse, C. F. Cook, C. L. Horn and G. A. Now.

Many tickets were sold whose owners were not present, which assures the financial balance on the right side, which is well, considering the feeling against this company by the old company which resigned in a body before the new administration had taken hold of the reins of the fire department affairs.

How to Prepare Crown Roast of Lamb.

Have the rack of the lamb cut from the shoulder close to the loin on one side. Separate the ribs to within two inches and a half of the backbone, then scrape the meat off the ribs as for French chops. Make a ring of the rack by joining the two ends with a skewer, having the skin side of the lamb form the inside of the roast. Stand the lamb after it is skewered in a roasting pan, rib ends up. Season it with salt and pepper. Put the pan in the oven and roast the meat quickly until a rich brown. Remove it from the oven, place it carefully on a hot platter, fill the hollow inside the crown with green peas cooked dry. Then surround the roast with peas and serve.

How to Make Parsnip Balls.

Mash one pint of boiled parsnips. Add two tablespoonfuls of butter, one tablespoonful of salt, half a saltspoonful white pepper, two tablespoonfuls of milk and one beaten egg. Mix all the ingredients except the egg, stir on the fire until the mixture bubbles, add the egg; set away to cool. When cold make into balls and brown in lard or bacon drippings.

How to Cook Onions With Eggs.

Slice two quarts of silver or white or Spanish onions, put them on to boil in cold water, to which has been added salt and a little baking soda. When they come to a boil, throw this water off, then add hot water and a little more salt. Stew until tender. Turn in colander and drain in a warm place. When thoroughly drained, have ready in a pan a teaspoonful of melted butter. Put onions in pan, and when hot add a tablespoonful of butter and two or three beaten eggs. This will agree with the most delicate stomach.

How to Remove Grease From a Waxed Floor.

Pour spirits of turpentine on the spot and give it time to soak into the wood. Then cover with powdered talc and press with a warm but not very hot iron. The talc will absorb the grease. Brush off and polish the place anew with wax.

How to Make Russian Salad.

One quart shrimps, one pint crab (shredded), six thinly sliced radishes, four hard boiled eggs (minced), the tips of 12 large asparagus and two tablespoonfuls each of chopped celery and lettuce leaves. Mix well and moisten with one spoonful of vinegar, one of oil, a dash of paprika and salt. Mayonnaise dressing, French mustard instead of English. Garnish with hearts of lettuce, a few capers and olives and slices of hard boiled eggs.

How to Bake Onions.

Cook the onions in boiling salted water till tender. Drain them. Put them in a baking dish with a few bits of butter and salt and pepper, with enough water to prevent burning. Set them in a hot oven, brown quickly, and serve very hot.

—As a business investment the Boston postoffice is a big success. The net profits for the year ending June 30 were $1,575,836.01.

The Nagur and the Fiddle.

Here is a story that the late Frederick Douglass used to tell about himself, says the Buffalo Express. Once when he was in Dublin he felt very lonesome. He was wandering about the streets when he was attracted by two violins in the window of a secondhand dealer. Frederick entered and asked the price of one of the instruments.

"Five shillings, sor," said the Irish dealer.

Frederick tuned the violin and began to play "Rocky Road to Dublin." Soon the proprietor's wife heard the music and entered the rear door. Then Frederick started in on "The Irish Washerwoman," and the couple began to dance for dear life. When the music and dancing stopped, Frederick tendered the dealer 5 shillings, but his performance on the violin had greatly enhanced its value in the mind of the storekeeper, and as he hurried away to a place of security he exclaimed:

"If a black nagur can git sich chunes out of that fiddle, I'll never sell it at any price, begorrah!"

A Wonderful Time Divider.

The new pendulum chronoscope is said to be the most wonderful timing instrument in the world. It measures accurately down to the one-thousandth part of a second. It can be used with the quickness of a stop watch, and neither electrician nor mathematician is needed to operate the instrument, which is mechanical, with simple electrical attachments. The speed of a cannon ball can be determined by the new timer, and it will tell the lapse of time between the firing of a revolver and the starting of a runner, or determine how long it takes a boxer to deliver a blow.

Where She Got Them.

"But," said the inquisitive bachelor after the baby had been carefully placed in his arms, "where does she get her blue eyes? Yours are dark and so are her papa's."

"Oh," the fond young mother explained, "she inherits them from my side of the family. My brother Will's wife has just such eyes exactly."—Cleveland Leader.

ARMY OF VOLUNTEERS.

Mustering Out to Begin as Soon as Possible.

Men May Remain In the Service Who Desire.

Delicate Question to Designate the Regiments For Release.

Washington, Aug. 18.—The president proposes to muster out of the service from 75,000 to 100,000 of the volunteers. Those to be discharged will include infantry, artillery and cavalry. The question of the mustering out of volunteers has been under consideration for several days. It was evident that a considerable force would have to be retained. With only a part of the volunteer force to be mustered out, it became a delicate question to designate the organizations which should go.

From a prominent official of the administration it is understood to be the desire of the president to ascertain the wishes of the volunteer troops themselves as to remaining in the service. One or two organizations have already indicated a desire to leave the service as soon as the government can reasonably do without them. They are composed largely of business and workingmen, whose private interests are suffering by reason of their absence from home.

So far as the interests of the government will permit, it is believed that the president in the mustering out of volunteers will accommodate himself to the desires of the men themselves. Within obvious limitations, those troops who want to be mustered out will be, and those who desire to continue in the service will be retained so long as they may be needed. It may be some time before the organizations to be mustered out will be designated, but the reduction in the volunteer force will be made as soon as practical.

Gov. Grout's Barns Destroyed.

Newport, Vt., Aug. 18.—Gov. Josiah Grout's four mammoth barns, several head of cattle and swine and 200 tons of hay were destroyed by fire yesterday afternoon, entailing a loss of $7000. There

JOSIAH GROUT.

is an insurance of $4000. The fire brigade checked the flames before the residence was damaged to any extent. The fire was causd by a bolt of lightning during a terrific storm that raged in this vicinity for several hours.

NEWS IN BRIEF.

Dennis Fitzpatrick of Lawrence, Mass., aged 12, was drowned in the Merrimac river. He fell off a wharf.

The tropical heat continues in Germany, and many cases of apoplexy are reported. Many fires have broken out on account of the dryness.

The death is announced in London of Ferdinand Linke, a usurer, who was worth £2,000,000. His estate will go to his daughter, who is a domestic.

A Madrid correspondent says that Governor General Augustin was dismissed on account of differences between himself and General Correa, the minister of war.

Anthony Barney, engaged as a farm hand in the farming district of Waltham, Mass., was struck by lightning yesterday and instantly killed, while mowing in a field.

Captain John Carmichael of the commissary department committed suicide, by shooting, in Lakeland, Fla. His home was in Lexington, Va. When appointed he was with the Nicaragua canal commission. He had been ill for some time.

The president announces the appointment of Major Fred Brackett of Maryland as secretary of the United States commissioner to the Paris exposition. He is chief of the appointment division of the treasury department and a resident of Baltimore.

Many inquiries are received for copies of the new tariff regulations relating to our new possessions. Arrangements have been made by the war department so that the government printer will hereafter furnish copies of these tariffs at the cost price with 10 percent added.

All the Spanish officers at Annapolis expect to be released in a few days, but not all of them expect to return to Spain immediately. On of them intends to remain in this country permanently, and others will visit Baltimore, Washington and other places of interest before returning to their country.

Couriers report that when a flag of truce was taken to Arecibo, Porto Rico, Sunday, only 120 Spanish soldiers were there. The inhabitants cheered the Americans in the presence of the Spanish troops. The couriers say that had the suspension of hostilities been postponed two days General Henry would have had Arecibo.

The annual report of Commissioner of Pensions Evans will show that at the close of the fiscal year 1898 there were 993,714 pensioners on the rolls of the bureau. This was a net increase of 12,960 over the previous year. There were dropped from the rolls during the year on account of deaths 33,691, and for remarriage and other causes 12,960 pensions were discontinued.

Laughed Away the Danger.

Ben Cable of Illinois tells of an experience of his in midocean. The day was foggy, and most of the passengers were below listening to two evangelists who were holding a particularly fervid gospel meeting in the saloon. Suddenly and without the slightest warning there was a terrific crash and the engines stopped. Every one rushed on deck. The steamer had run into an iceberg.

Nobody knew what damage had been done, and everybody was ready to fly into a panic. The boats were lowered, and then for the first time the two evangelists, who had been forgotten in the saloon, appeared on deck. They wore their overcoats and their hats and they carried rugs and handbags. They elbowed their way rudely to the rail, with the evident intent of securing for themselves first places in the boat. It was just at a time when a breath would have sent the passengers panic stricken into the boats.

The sight of the two evangelists was about to undo the work of cool headed officers, when a pert little cockney stepped up to the gentlemen with the rugs and handbags.

"Beg pardon," said he, tipping his cap, "'ave a cab, sir?"

And in the general laugh the danger of panic was averted.—Washington Post.

The Horses of Manila.

Among the first things to impress a stranger are the horses. Descended from horses brought from Mexico, they have become much smaller, while they are also much more shapely. In fact, I have never seen a better looking breed. There is nothing of the pony in their shape, though in size they range between 48 and 52 inches. At first it looked absurd to see them ridden by big men whose stirrups hung down to the horses' knees, but I soon found out that they easily carried a rider weighing 200 pounds. The foreigners have a jockey club, which holds two meetings a year at the beautiful turf track at Santa Mesa. To avoid sharp practice members of the club only are eligible to ride. This necessitates a scale of weights starting at 132 pounds and rising to 154 pounds. It demonstrates the speed and strength of these miniature horses that a mile has been run in 2:10 by a pony carrying 150 pounds. Only stallions are used. Mares cannot even be brought into the city. Nobody walks; everybody rides, and on any special fiesta thousands of carriages fill the streets. I doubt if there is a city in the world that can turn out half the number of private vehicles in proportion to the population.

Faithful Unto Death.

On the point of courage we have not yet seen in print a very notable instance that is current in service circles. It relates to one of the numerous heroic but useless struggles on the northwest frontier of India when our men were sent forward to carry positions that had to be relinquished as soon as occupied. When the men were retiring, harassed by the fire of the hillsmen and bewildered by the growing darkness, a party of 13 went astray and found themselves in a position where resistance and retreat were alike hopeless. They were exposed without protection and were shot down one by one.

When their comrades retook the valley and discovered the bodies, they discovered also the evidences of a rare act of courage, devotion and cool judgment. Knowing that their end had come, and, knowing further that every Lee-Metford rifle that fell into the hands of the Afridis meant the loss of many English lives, the men had extracted the breech locks from the rifles and hurled them down the ravine, so that the rifles when taken should be useless to their captors. —London Saturday Review.

In the olden times it was no uncommon occurrence for sentitive, delicate women to be beheaded for trivial or imaginary offences. In this respect the world has made great strides. Nevertheless, women still suffer death in a slower and more torturesome form, and for no offence whatever, save a little ignorance, or possibly, a little neglect.

The woman who suffers from weakness and disease of the distinctly feminine organs, whether she realizes it or not, is being slowly but surely tortured to death. She suffers almost continually with sick headache. She has pains in the back, what she calls "stitches" in the side and shooting pains everywhere. She experiences burning and dragging down sensations. She becomes weak, nervous and despondent. She neglects her home, and is petulant with her husband. If she consults the average physician, there is not one chance in ten that he will hit upon the real cause of her trouble. He will attribute her bad feelings to stomach, liver, heart or nervous trouble. A woman in this condition should consult some eminent and skillful specialist who has had a wide experience. Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., has, with the assistance of a staff of able physicians, prescribed for many thousands of women. He has invented a wonderful medicine for ailing women, known as Dr. Pierce's Favorite Prescription. It has stood the test for thirty years. It acts directly on the delicate and important organs concerned in wifehood and motherhood, making them strong and well. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. It transforms weak, nervous women into healthy, happy wives and mothers.

"I was an invalid for over a year with change of life," writes Mrs. C. Smith, of Orr, Cascade Co., Mont. "Had pains across the pit of my stomach and such extreme weakness I could hardly walk. I took one bottle of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am entirely well."

SUCCESSION OF VICTORIES.

Undisputed Possession of First Place Secured by the Champions.

Boston, Aug. 18.—Captain Hugh Duffy and his Boston boys tightened their grip on first place by winning an easy victory from the Chicagoes yesterday with the king of pitchers, Nichols, in the box. It was Boston's ninth consecutive victory and the 11th for Nichols, who has won 24 this season. Kilroy was hit hard by Collins, Tenney, Lowe and Duffy, although five of Boston's six runs were scored after two men were out. Again Chicago's outfield gardeners were responsible for runs, all three in the fifth being gifts on a fumble by Isbell in right and Thornton's muff in left.

M. J. KILROY.

Boston's infield were on their mettle, and by fast work cut off possible run-getting by the colts. Green, the young Springfield left fielder, made his initial bow as a big league candidate in successful style and made two clean hits, besides accepting three chances in middle field Mertes was lame from his collision with Tenney at first base the day previous, and his position in right was taken by Isbell. Score:

Bostons.	AB	R	1B	UO	A	E
Hamilton, c. f.	4	0	1	1	0	0
Tenney, 1 b.	3	1	2	7	0	0
Long, s. s.	3	0	0	2	6	2

Bostons ..... 0 1 2 0 3 0 0—6
Chicagoes ..... 2 0 0 0 0 0 0—2

Earned runs—Bostons, 2. Home runs—Collins. Double play—Dahlen and Connor. First base on balls—By Nichols, 2; by Kilroy, 2. Struck out—By Nichols, 2; by Kilroy, 2. Passed balls—Yeager. Wild pitch—Nichols. Time—1:36. Umpires—Snyder and Connolly. Attendance—2400.

The senators found Carsey of the St. Louis team an easy proposition and won, 9 to 5.

The Baltimores defeated the Louisvilles by fine playing behind McJames' masterly pitching. Cunningham was in fine form and but for errors neither side would have scored.

The Cincinnatis were outplayed by the New Yorks. The game was called after the first half of the eighth inning on account of rain. Meekin outpitched Breitenstein. Score: 3 to 1.

The Phillies won from the Pittsburgs with ease. Tannehill, after five earned runs had been made off him, was relieved by Gardner, who was hit still harder. The Philadelphia club has released Catcher Boyle.

The Springfields and Syracuses played each other to a standstill in Springfield and the game was so long drawn out by wrangling over Rafferty's decisions that the 10th inning was played in twilight. Wiegand stole home from third on Becker in the eighth with the run that tied at 2.

The Right to Spar.

Buffalo, Aug. 18.—Counsel for the town board of Cheektowaga, where it is proposed to have the Corbett-McCoy encounter, has rendered this opinion: "I have examined the records of the Hawthorne club, and find that the club is a domestic membership corporation duly incorporated for athletic purposes I am informed that the club has a lease of the premises in your town where this proposed contest is advertised to take place, for a period of two years, and that it is erecting thereon a building to be used solely for its purpose. If this information be correct, the Hawthorne club, in my opinion, has the right to hold a sparring exhibition within that building, the gloves to be used to be of not less than five ounces in weight and the attendance to be limited to members of the club."

McCoy says in a letter to one of the officials of the club: "I am willing to grant a postponement of my bout with Corbett, scheduled for Sept. 10 at Cheektowaga. I shall not demand his forfeit, but will give him all the time he wants providing his demand is within reason. I will pay no attention to Tommy Ryan I'm out for bigger game, and will take on Fitzsimmons as soon as I get the chance."

The Date Changed.

New York, Aug. 18.—The Corbett-McCoy fight has been postponed until a date not later than Oct. 1 at Buffalo. This much was decided upon at a conference here between William Gray, representing McCoy and the Hawthorne Athletic club, and George Considine, Corbett's manager. Mr. Gray suggested that the meeting take place Sept. 25, forgetting for the moment that that date fell upon a Sunday. It was finally agreed that the fight should occur between Sept. 25 and Oct. 1, and not later than the latter date.

Damaged a Catholic Church.

Abington, Mass., Aug. 18.—The Catholic church in this town was struck by lightning during a terrific storm, causing a damage of about $500 to the roof. The bolt did not set fire to the church. The cross mounting the spire of the church was destroyed and fell to the ground.

Comparison

Is the true test of real difference. Compare our $3.00 SHOE with what you see elsewhere marked at $3.50 and $4.00 and see what you think.

We give the best value to be had for your money in these SHOES.

Screens
Do not wait until the mosquitoes have commenced to sing their night and morning songs with that persistent manner of theirs. The best way for you to enjoy life is for you to do the sleeping on the inside and let them do the singing on the outside. This can be made possible by having us equip your house with screens. The cost will be light but the satisfaction will be great. . . . . .

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

Believe That They Are Lost to the Spanish.

Russia's Attitude as a Factor In the Situation Looked Upon Seriously.

London, Aug. 19.—The Vienna correspondent of The Times says:" The development of the Philippines question will be watched here with the keenest interest. Circumstances appear to point to the retention of the islands by America. The fact that Senator Davis, who is a public advocate of complete annexation, and Secretary of State Day, a supporter of the Hawaiian policy, are appointed commissioners is regarded as indicating that President McKinley favors their retention. It was acknowledged that President McKinley has hitherto manifested exceptional diplomatic tact in his treatment both of the Spanish government and of public opinion in the United States. He conducted the negotiations with such foresight and consideration that the Madrid cabinet has been able gradually to accustom the population to the inevitable sacrifices imposed by the outcome of the war. For this reason the mere fact that absolute cessation of the Philippines was not expressly stated in the protocol must by no means be regarded as excluding that possibility, or at least some approximation to the growing demands of the American people.

"The prospect of a partition of China is likely to confirm the tendency of American opinion. The United States are deeply interested from a commercial and industrial standpoint in the future of east Asia. They have the most favorable geographical situation of all the great manufacturing countries competing there, and it is argued that such an enterprising, energetic people will not willingly forego the present opportunity of securing a footing in those seas which will enable them to establish large mercantile emporiums similar to those already established by the English on the mainland, and which other states are about to found. This consideration is expected to have weight in the final decision of the Philippine question.

"An evening paper expresses the belief that it is impossible that the Philippines shall ever again form a part of the Spanish possessions, and the question of how the derelict archipelago shall be ultimately divided is regarded as a serious problem. Other papers make ingenious suggestions which it is profitless to discuss, seeing that it is improbable that there will be any division.

"The papers generally expect that Russia's attitude will prove an important factor in the situation. The German press has raised the bogie of intervention —talk of the United States sounding the European powers on the question of annexation. Nothing is known here of such feelers, and it may be taken as granted that the United States has done and will do nothing of the kind. America has already given indications that she would unhesitatingly resent interference without waiting to count the cost. It is recognized that the American is a very different sort of a man from the Turk, for example, and might, if an attempt were made to intimidate, suddenly transfer the conflict from the diplomatic sphere to one in which it would be extremely difficult to maintain either a concert of the powers or an east Asian dreibund. Moreover, such interference would only hasten an Anglo-American alliance, which the powers are anxious to prevent, besides giving the United States Japanese sympathy. Therefore, it is probable that the powers, distracted by mutual jealousies, will hesitate to come to an open breach with what is described as a 'gigantic world power whose consciousness of innate strength is immensely increased by its present victory.' "

To Encamp at Home.

Washington, Aug. 19.—Orders have been issued by Adjutant General Corbin directing the Second New York, now at Fernandina, to proceed with all its equipment except wagon transportation to Troy, and there to go into camp; the Second Maine to proceed from Chickamauga to Augusta; the First Illinois cavalry to proceed from Chickamauga to Springfield, Ills., and the Twenty-third Kansas, now in camp at Topeka, to proceed at once to Santiago.

The movement of the first three regiments is believed to be preparatory to mustering them out of the service. It is said at the department, however, that the orders were issued because of a desire on the part of the people of the states to have the organizations in camp at home rather than in one of the large camps of mobilization. In their state camps the men would, it was argued, be less liable to illness. As the establishments of camps in the states would involve not much additional expense and would be of obvious advantage to the troops, the request for their movement was granted by the department. It is likely that other organizations will shortly be ordered to go into camp in their home states.

Spain Selects Commissioners.

London, Aug. 19.—The Madrid correspondent of The Daily News says that Generals Blanco, Castellanos and Leon and Admiral Materola have been appointed commissioners for Cuba and Generals Macias and Ortega and Admiral Vallarino for Porto Rico. It is probable that Leon Castillo, the Spanish ambassador to France, will preside at the sessions of the Paris commission. Moret's candidature is made impossible by the hostile attitude of the press."

He Courted Inquiry.

Washington, Aug. 19.—In reference to a report that Surgeon General Sternberg had asked the secretary of war for a court of inquiry, the secretary stated that on Aug. 4 the surgeon general made a full explanation with reference to the deficiency in medical supplies at Santiago, showing that ample supplies had been sent with the troops from Tampa, but owing to difficulties connected with the landing at Siboney a considerable proportion of the supplies had been left on the transports. In the same letter the surgenon general requested that if this statement was not considered satisfactory a court of inquiry should be appointed to ascertain if there was any responsibility on his part or that of the officers to whom the orders for supplies had been sent. There is no suggestion that a court is to be ordered.

Revolution Extended.

London, Aug. 19.—The Singapore correspondent of The Daily Mail says: "The native rebellion in the Philippines has extended to the hemp provinces in South Luzon. Heavy fighting occurred at Taglatuan, Pilar and Ponsol, the immediate cause being outrages committed by the Spaniards at Taglatuan. The Spanish also burned Pilar and massacred 500 natives. The insurgents are concentrating at Albay with the object of cutting off the retreat of numerous Spaniards in the Camarinas province.

"A German cruiser has been carrying dispatches from the captain general of the Vizayas islands to the district between Cebu and Iligan, and the Spanish military depot in Mindanao. The Rosario, flying the German flag, has also been transporting troops thence to Iloilo."

What Capitulation Includes.

London, Aug. 19.—The Hong Kong correspondent of the Mail says: "The terms of the capitulation of Manila as agreed upon Saturday between General Jaudenes and General Merritt include the cession of the Philippine archipelago to the United States.

"An American naval officer who arrived from Manila on the Zafiro tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops waded through the Malate river and walked up the beach as though going to lunch, meeting practically no opposition.

"I learn that when General Merritt went ashore after the capitulation of Manila he experienced some difficulty in finding General Jaudenes, who was ultimately found in a church among women and children."

Soldiers In Disgrace.

Washington, Aug. 19.—Many complaints have been received at the war department of depredations alleged to have been committed by soldiers of the second division of the Second army corps at various places in Virginia on their march from Camp Alger to Thoroughfare Gap. The secretary of war telegraphed Brigadier General Davis, commanding the second division, to convene a military board at once.

Blanco Still Grumpy.

Havana, Aug. 19.—Wednesday there arrived from Key West correspondents of the New York Post, Journal, the Chicago Record and another correspondent, none of whom was permitted to land by General Blanco, the governor general considering their arrival here inopportune and inconvenient, and believing that their presence here before the arrival of the American peace commission might cause difficulty. The correspondents returned to Key West.

Justifies His Act.

Boston, Aug. 19.—In an interview yesterday, regarding the resignations in the Sixth Massachusetts regiment, former Lieutenant Colonel Chaffin stated that he considered his act justifiable. Continuing, he said that there was undoubtedly great jealousy between the staff and field officers, and particularly was this shown against the officers of the Sixth Massachusetts. Captain Goodell of the same regiment, who also resigned, stated that at the time he thought his act was perfectly just, but had he the act to do over again, he would appear before the board of examiners rather than resign.

Jurisdiction In the Philippines.

Washington, Aug. 19.—A point on which officials are without definite information is the extent of our present authority in the Philippines. Under the protocol the United States was given the occupation of Manila, with the bay and harbor, until a permanent disposition of the Philippine question was reached, but according to press dispatches General Merritt and Admiral Dewey received the capitulation of the entire Philippine archipelago. There appears to be some doubt therefore as to whether our present authority and jurisdiction cover Manila only, or extend over all the Philippines as provided by the reported terms of capitulation. There is a disposition to await fuller information before laying down a policy as to the extent of our jurisdiction in the islands.

Yellow Fever Has Appeared.

Key West, Aug. 19.—The naval base has been transferred from Key West to Norfolk. The reason for this is the appearance of yellow fever here. There are now 10 cases in the marine barracks, all the victims being marines. Forty persons in all are in the building, which is an old cigar factory, and a most rigid quarantine is being maintained. Only one of the cases is said to be serious. Whether there are any scattered cases throughout the town is not known, but this will be determined by a house to house inspection.

The marine hospital and local physicians are confident that the disease will be confined to the barracks, and that there is no danger of an epidemic. The utmost precautions are being observed, however.

Had Been Misinformed.

Boston, Aug. 19.—A special from Southbridge gives another interview with Captain Goodell, formerly of the Sixth Massachusetts, in which he finally admits that he made a great mistake in resigning. He was led to believe, he said, that it was the intention of the board of inquiry to dishonorably discharge the officers summoned to appear, trumping up the charge of incompetency, and in order to save disgrace he resigned. After his resignation had been accepted he was told that the board simply wished to gain information, and if he had complied with the summons, like Captain Barrett of Milford, he would have passed successfully. Captain Goodell deeply feels his position. He pinned too much faith on what his superior officer told him, but the mistake was discovered too late. He speaks in the highest terms of General Garretson, and finds fault with no one but himself for not using better judgment and appearing before the board as instructed.

The same dispatch contains an interview with Lieutenant Colonel Chaffin, who looks at the trouble in a different light. He claims that his popularity with the Sixth regiment caused jealousy on the part of the regular officers. Owing to the illness of Colonel Woodward, he was practically in charge of the Sixth most of the time, and the regulars, his superiors in office, were bound that his head should come off, together with other officers. As dishonorable discharge would have been their portion anyway, court-martial or no court-martial, he was forced to resign. Regarding the report about shooting stragglers, both officers stated that they had never been officially notified to enforce such a rule, still that was the understanding all along the line.

Four Men Killed.

Philadelphia, Aug. 19.—Two men were instantly killed, four probably fatally injured and two others seriously injured by the collapse of the cornice on a new building. The dead are: Albert Green and Thomas Lyons. The fatally injured are: C. Schroder, fractured skull; Harry Evans, cut about the head and injured internally; Thomas Mundy, badly cut about the head and face; Frank McIntyre, fractured skull. The men who were killed were at work on the scaffold when the crash came. The heavy cornice carried them down, and the entire weight fell on the bricklayers who were at work on the pavement.

The accident is supposed to have been caused by the shortening of the purchase rods in the cornice supports. Schroder and Evans died after they had been taken to the hospital.

The News of Beantown.

Boston, Aug. 19.—Governor Wolcott has commissioned Lieutenant Colonel Lawrence J. Logan as colonel of the Ninth Massachusetts regiment, in place of Colonel Bogan, who died a few days after his return from the front. Colonel Logan has been confined to his house in South Boston with malarial fever ever since his arrival from Santiago. He rallied rapidly yesterday, and was much gratified at the action of the governor.

At a meeting of the council of the American Irish Historical society 110 candidates were admitted, including John P. Holland, inventor of the submarine boat. The American people were congratulated on the passing of "the Anglo-Saxon conspiracy" and upon the inauguration of a new era of sturdy Americanism.

Directum Kelly's Speed.

Buffalo, Aug. 19.—The boast of H. M. Hanna and other Cleveland friends of the western mare, Mattie Patterson, that nobody could tell how fast she could go, was short-lived yesterday, when Directum Kelly, a 4-year-old colt, took her measure in the $5000 queen city stake 2:16 trot. The Vilander mare had a heat in 2:14 to her credit before the rain on Wednesday, but Directum Kelly won a hard-fought heat in 2:08¼, following with two more heats in 2:10¼ and 2:10½, the second being a beautiful drive by Kelly and a great burst of speed by the colt after a disastrous break, putting him many lengths back. The Cleveland party lost a barrel of money. The pool boxes held about $50,000 on the race.

A Painter's Fatal Fall.

South Norwalk, Conn., Aug. 19.—Frederick Bouton, aged 50, a painter, was almost instantly killed by the scaffold on which he was at work collapsing and letting him to the ground. His neck was broken.

A number of petitions have been circulated among the troops at Camp Thomas, Chickamauga, by privates who desire to be mustered out of service, the purpose, it seems, being to secure a large number of signers and send the petitions to influential men to be used in securing a muster out. These petitions have resulted in arrests in two or three of the camps.

OUTBREAK OF CARLISM

Government Taking Precautions to Prevent Trouble.

Efforts Hampered by the People's Misery.

Nothing Like a General Uprising Apparent as Yet In Any Part of the Nation.

London, Aug. 19.—The Mail's Biarritz correspondent says: "A manifesto by Don Carlos is announced to appear shortly. The Spanish ministers assert that the pretender will not be able to find enough money to run a revolution and will be forced to postpone the rising until next spring. There are signs, however, that he will not wait so long. Meanwhile the Spanish government will increase its precautions to prevent any outbreak of Carlism.

"Small bands are appearing and disappearing daily in various parts of Spain. The work of fanatical Republicans and Carlists is helped by the general misery and the prevailing irritation against the government. Within the last few days a carabineer post near Sueza, in the province of Valencia, has been attacked by a band of armed men, and the corporal of carabineers and a civilian were seriously wounded. It is stated that the carabineers had opposed the landing of arms during the night from a barge near Tarragona. The civil guard arrested four men who were carrying 12 old guns.

"The Castillon bands still continues its progress, and has been largely increased in numbers during the last few days. From the beginning it was much larger than the authorities cared to avow, and it has now become important. In a field near Alganices, province of Zamora, the bodies of a corporal and two privates of carabineers who had been murdered, probably by men smuggling arms from Portugal, were found, and close by another carabineer, who was almost dead. Their weapons had disappeared. These incidents, however, are only sporadic and nothing like a general uprising is threatened yet awhile."

NEWS IN BRIEF.

General Shafter reports the death of Private E. A. McLaughlin, company A, Ninth Massachusetts, in Santiago.

Charles Adams of Corinth, Vt., slipped from a platform in a pulp mill, and received fatal injuries by falling on a rock.

Patrick Daly of New Bedford had both legs cut off in Middleboro, Mass., by falling from a freight train on which he was stealing a ride.

Attorney General Griggs notifies the express companies that the department cannot say which shall pay the stamp tax, the shipper or the company.

The Spanish prisoners at Camp Long, Portsmouth, were made happy by the receipt of $20,000 from their government for their services in the army and navy.

Professor John H. Duffy of New Orleans, one of the best known prize ring referees in the country, and who figured in many championship contests, is dead.

The residence of E. E. Smith of Cranston, R. I., together with all the furniture, was destroyed by fire, entailing a loss of $6000. The fire was caused by the overturning of a lamp.

John Pattala, who fractured the skull of John Rinki during a drunken row in Fitchburg four weeks ago, was given two years in the house of correction for manslaughter by the superior court justice.

Cooney Hitchu was killed and several others were injured in a trolley car wreck near Newcastle, Pa. As a trolley was rounding a curve it jumped the track in front of a train. Hitchu was horribly crushed.

The body of Emilda Ouilette, 5 years old, was found buried in a sandbank near her home in Lewiston, Me. It is thought that while she was playing the soil suddenly gave way and smothered her.

The heavy rains have flooded a large part of Trani, Italy. Many houses have fallen in, their occupants being obliged to take refuge in the public buildings. The authorities have ordered the troops to construct canals to drain the town.

A terrible thunderstorm, lasting 12 hours, occurred yesterday in Devonshire, Eng. Many sections were flooded, and two persons are reported to have been killed at Exbourne. Telegraph and railway communication is interrupted.

The body of Peter Yumans, a canal-boat captain in the employ of the Susquehanna Coal company of Nanticoke, Pa., was picked up in the river in Hudson, N. Y. His skull was fractured. It is believed that he was murdered, robbed and then thrown into the river.

The woodworkers' strike, which had been in progress in Oshkosh, Wis., for three months, was practically terminated yesterday, most of the strikers going back to work. The conditions of settlement are withheld, but it is believed the manufacturers promised a slight advance of wages.

Frank P. Sargent, grand master of the Brotherhood of Locomotive Firemen, has officially announced to the order that he will retire at the end of his term, having been appointed a member of the industrial commission by President McKinley. It is thought that John Hanrahan, first deputy grand master, will succeed him.

No orders have been prepared or are in contemplation at present looking to sending an army to Cuba. The war department is too busy with other matters to take up the question. In fact little or nothing will be done regarding troops for Cuba save what actual necessity demands until the committee has made a report.

☞ Job printing at Ledger office.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

New Advertisements Today.

Girls wanted.
Real estate at mortgagee's sale.
Geo. W. Jones—Shoes.

Good Afternoon.

The Lynn hand engine showed the New England tubs how to squirt at Portland Thursday, playing 212 feet, 8 inches. Twenty-eight engines were entered.

The city of Newton also has a larger tax rate, $16.60 per $1,000, an increase of forty cents. It is one of the few cities to report an increase of personal property, the gain being $1,109,650, nearly two-thirds of the increase in real estate.

That $13.60 tax rate is a sharp reminder to Boston taxpayers that "progressive" administrations come high, says the Journal; and the Herald adds: "But the tax rate of $13.60, high as it is in comparison with the rates of more than a decade, does not tell the whole story, for certain burdens have been shifted from the general tax levy to special assessments. These must be taken into account in an analysis of the city's financial exhibit for however equitable the new method of raising the money may be it comes out of the pockets of the real estate owners."

Sewer Assessments.

The sub-committee of the joint committee on Finance and Sewers met at City Hall Thursday evening, to consider the sewer assessment matter. When the matter was referred to the joint committee they found a committee of twelve a little large, and it was thought best to appoint a sub-committee to first consider the matter. This sub-committee is made up of the chairman of each committee and three other members appointed by the two chairmen making five in all. The sub-committee has made considerable headway and will report at the next regular meeting of the City Council in September.

It is understood that the committee are practically unanimous in favor of reporting that the assesment shall be divided; that is part on the frontage and part on the acreage. Just what portions shall be assessed upon the abutters is an open queston, for it is understood that the committee are not yet unanimous in the matter.

Some of the committee are in favor of assessing one-half upon the city and one-half upon the abutters, while others are in favor of assessing two-thirds upon the abutters and one-third upon the city, and it is probable that there will be majority and minority reports offered. The amount per foot cannot be determined until an agreement on the above questions is reached.

Damage at Atlantic.

The cyclone of Wednesday afternoon was fully as severe at Atlantic as at Norfolk Downs, although no houses are reported to have been moved. At least five chimneys were blown down, at Mr. Hinkley's, Mr. Coe's, Mr. Stocker's, Mr. Thorn's and at a house on Botolph street. At several houses the window glass was broken, W. P. Hill's and Mr. Hendrie's being among the number. Others lost fruit, and had their gardens ruined.

City Square Band Concert.

The National Guard programme for the band concert in City Square Saturday evening will be:

1. March, "2d Connecticut," Reeves
2. Overture, "Martha," Flotow
3. Selection, "Robin Hood," De Koven
4. Vocal solo, Selected, Mr. Wm. C. Adams
5. Concert waltz, Auf Weidersche
6. Vphonion solo, Selected, Sig. Paufilio Bailey
7. Overture, Medley, Beyer
8. Vocal solo, Selected, Mr. Wm. C. Adams
9. Song and dance, Rollinson
10. Finale, Sousa

WILL ILLUMINATE.

Houghs Neck Kickers May Be Out in the Cold.

That indignation meeting at Houghs Neck last week was not quite so one-sided as some papers reported, for there were some speakers upon the other side and there were many of the seventy-five present who desired that the annual illumination be held as usual. But the star kickers were out in force and overruled the others. The end is not yet, however, for there is an undercurrent at work which may make things unpleasant, and there are open cries of unfairness at last week's meeting.

The Houghs Neck Improvement society has several committees who look after the several branches of improvement. For instance, there is a High way committee, a Transportation committee, an Illumination committee, etc., each of which are supposed to handle and have charge of their individual work.

It seems that the meeting held last week was called by the Highway committee, and the posters announcing the fact bore the heading "Highway Indignation Meeting."

As stated above, there was about seventy-five present, which represents but a small portion of the number that would have been present if the illumination matter was supposed to come up. Several of the star kickers at the meeting roasted the street railway and the city in general, and then proposed that there should be no illumination. Mr. Macy objected and claimed this belonged to another committee, but he was downed on show of hands, and it is claimed by some present that some held up both hands, which were counted in opposition to the illumination.

The store keepers who furnish the larger part of the funds for the illumination were hardly represented at the meeting, supposing that nothing but highway matters were to be acted upon, and they are therefore somewhat wrathy. They claim unfairness and say that the illumination shall be held as usual. They have waited upon the street railway who have as usual contributed $50. Mr. Meyers has contributed $25, and a canvass is now being made among the store keepers, who will also contribute as usual, and the illumination will be held. The Illumination committee are to call a public meeting of the residents at an early date, and there will doubtless be a warm time, but the Illumination crowd will win out in spite of the Highway committee.

Father Cummins' Barbecue.

Rev. John F. Cummins of Roslindale, has just announced the completion of arrangements for his fifth annual monster barbecue, and this great outdoor festival will be held at Apollo Gardens the last Saturday of this month, the 27th inst.

The attendance at Father Cummin's barbecues the past four seasons has exceeded 60,000 persons, and this year's festival promises to ec ipse them all.

Charles W. Allen, the noted barbecue chef of Lexington, Va., has arrived together with his corps of assistants, and will superintendent the roasting of the huge ox. This splendid animal now fattening for the barbecue is an Illinois steer weighing over 1,400 pounds.

Horse Drowned.

Thursday, one of Sheppard's horses and tip carts, used in filling the breakwater at his wharf at Quincy Point, was accidentally backed overboard. Efforts were made to rescue the animal, but before he could be gotten out, the animal was drowned. The heavy tip cart to which the horse was attached, prevented the animal being readily taken from the water.

TODAY'S COURT.

Michael Conden was arraigned for drunkenness at Weymouth. Case placed on file.

Edward Fogg paid $5 for drunkenness Quincy.

The continued cases of William R. Best and William Best for cruelty to a horse at Randolph was heard. They were fined $15 each.

Eva Frost was arraigned for being a stubborn child at Weymouth. Case continued until next Thursday.

—While walking on the tracks of the New England Railroad, near Hyde Park, Wednesday, William Walker, a G. A. R. veteran, and a carpenter by trade, fell into the Neponset River and was drowned.

☞ Will attend to veterinary practice as usual. aug18-1y

BARROWS WILLING.

Dorchester Friends Inaugurate Campaign for Reelection.

It was the pleasure of a representative of the Leger to attend a reception at Dorchester last evening to Congressman Barrows of this district. It was held at the residence of John J. May and was necessarily limited in numbers, but their was enthusiasm for the renomiation of Mr. Barrows. The gentleman himself said in part: "I did not ask to assume these duties nor do I ask to be relieved of them. It is a great responsibility and it is a great honor to be a representative from Massachusetts and from Boston. I received my commission first from the Republican party and then from the voters of this district. It is for them to say whether that commission shall continued. If the voters of the Tenth District shall find in the relations with men and measures that I have established at Washington and in my record in Congress any reason for continuing me as their representative, it will be a grateful assurance to me that I have not misunderstood the sentiment of my district and that my district has not misunderstood me."

REV. S. J. BARROWS.

Mr. Barrows said "It is the Republican party that must shape the new issues that the war has opened. We are not going into the political graveyard to exhume dead issues; the issues before us are live ones; they are national and international. We must guide the destinies of Cuba into the larger freedom, must apply our forms of government to Porto Rico and Hawaii, must extend our laws over Alaska must settle the difficult question of the Philippines with justice to the insurgents and without adding too much to our own responsibilities. We must cut that ligament between North and South America in the interest of commerce and self protection.

Mr. May, Frank Wood, Capt. Edward P. Jackson, John K. Berry and John C. Cobb spoke and a tribute to the Congressman from Secretary Long was read.

Echoes of the War.

The Ninth Massachusetts is anxious to get home.

Mail communication will be resumed immediately with Spain. Letter received in Boston today will leave New York Saturday per steamer La Normandie.

Cervera has started for Spain. Wonder if he isn't sorry to go.

The Massachusetts Volunteer Aid Association is prepared to do good work at Camp Wikoff, especially for the Second and Ninth Massachusetts. Dr. William H. Prescott of Boston is now there with Hon. Sherman Hoar and will have charge of the kitchen.

Lawrence J. Logan, lieutenant colonel with Ninth Massachusetts at Saratoga was on Thursday appointed by Gov. Wolcott as colonel, to succeed the late Col. Bogan.

The President may muster out 75,000 to 100,000 volunteers.

Real Estate Sales.

Just a dozen Quincy conveyances were recorded at the Norfolk registry at Dedham last week, viz:

Robt. S. Hall by mtgee. to James A. Bailey, Jr., $3,200.

Granite Ry. Co. to Patk. Kelleher, $330.

Tarbell Lumber Co. to Alfd. Johnson, $1.

Winthrop J. Pratt to Sarah M. Hart, $1.

Herbt. T. Whitman to Ransom D. Wentworth, $1.

Ransom D. Wentworth to Albt. H. Rickford, $1.

Ella D. Tibbetts to Rebecca W. Tibbetts, $500.

Andrew Milne et al, to Thos. F. McAnarney, $1.

Thos. F. McAnarney to Jas. Thompson et al, $1.

Jas. Thompson et al, to John Swithin et al trs., $1.

Isadore P. Chisholm to Emma S. Larson, $1.

Chas. A. Arnold et al, to Com'lth of Mass., $25.

Near Pine Tree Brook in Milton on Tuesday Albert H. Harriman of Roxbury killed a large rattlesnake measuring 3 feet 7 1-4 inches and having eleven rattles.

A Brewer, Me. house owner makes his tenants subscribe to three rules: No children, regular church attendance and no Sunday callers.

THE CUP RACES.

The Probable Courses to be Sailed Next Week.

It is probable that for certain slants of wind some of the following nine knot courses will be sailed at the cup races next week:

Course 1 for east or west wind. Across the line between Judges' stand and flag-float off the Club house, leaving flag-float on the starboard; thence passing between Sheep and Grape islands to red spar bouy No. 2 in Hingham channel leaving it on the port; thence passing between Sheep and Grape islands to starting line, leaving flag-float on the starboard and repeat. Distance nine knots.

Course 2 for N. E. or S. W. winds. Across the line between Judges' stand and flag-float, leaving flag-float on the starboard; thence leaving Q. Y. C. barrel buoy off Sheep island on the starboard; thence to Red Dolphin on Seal Rocks leaving it on the starboard; thence leaving barrel off Sheep island on the port to and across the starting line leaving flag-float on the starboard and repeat. Distance nine knots.

Course for N. W. or S. E. winds to be started off Rose Cliff. Across the line between the Judges' stand and flag-float leaving flag-float on the starboard to wreck (red spar) No 4 midway between Nut and Hangman's islands leaving it on port; thence to and across the starting line leaving the flag-float on the starboard and repeat. Distance nine knots.

Course No. 4 for North or South winds to be started off Rose Cliff. Across to line between the Judges' stand and flag-float leaving the flag-float on the starboard leaving Q. Y. C. barrel off Sheep island on the starboard to Q. Y. C. barrel off the government wharf at Peddock's island leaving it on the starboard; thence leaving Q. Y. C. barrel bouy off Sheep island on the port to and across the starting line, leaving the flag-float on the starboard and repeat. Distance nine miles.

Course 5, the triangle, across the line between the Judges' stand and the flag-float, leaving the flag-float on the starboard passing between Sheep and Grape islands to red spar bouy No. 2, in Hingham channel, leaving it on the port; thence passing between sheep and Bumkin island to Q. Y. C. barrel bouy off goverment wharf at Peddock's island leaving it on the port; thence leaving Q. Y. C. barrel bouy on Harry's Rocks on the starboard to and across the starting line, leaving the flag-float on the port and repeat. Distance 12 knots.

Course No. 6,—reverse of Course No. 5.

A change of wind after the start shall not invalidate a race.

On the first two race days the preparatory gun will be fired at two o'clock, and the starting gun at 2.05 o'clock. On the succeeding race days the preparatory gun will be fired at three o'clock and the starting gun at 3.05 o'clock.

Skippers sailing between the red and black nun bouys which mark Spear's stand do so at their own risk.

Time limit, 3 1-2 hours.

In the open race at Plymouth Thursday, the Meemer outsailed the Eclipse; the Areyto led the Little Peter, Hermes, Eleanor and Beatrice; Arab IV defeated the Ishtar and Gersha; the Bud showed the way to the Roster formerly owned by the Adamses, and the Tacoma; the Bobolink outsailed the Naori, Maud, Yankee, Arme, Fedora and Dolphin and the order in the special class was Olympia, Quinet, Frolic, Kittiwake, Ventas, Attilla, No Name, Scrap, and Wabun.

OUR NEW YORK LETTER.

Mills House No. 2—Bouquet With a Shine—Volunteers May Discard Their Uniforms.

[Special Correspondence.]

Mills House No. 1, the nine story hotel erected by D. O. Mills at Bleecker and Thompson streets and opened last November, now has a companion in business. Mills House No. 2, a house built on the same lines and intended for the same general purposes, has just been opened for business in Rivington street at Chrystie. Like the older hotel, it is nine stories high, the general style of architecture is like the first house, but it will accommodate only 600 guests, while the Bleecker street hotel has room for nearly 1,600. The architect of the building is Ernest Flagg.

Mills House No. 1 was a success from the start, and three weeks after it was opened to the public every room was occupied, and since then there have been few days when one of its 1,560 little rooms, which are rented at 20 and 30 cents a night, has been unoccupied. In speaking of this Mr. Flagg said: "This eagerness to take advantage of the cheap accommodations cannot be wondered at when one considers the advantages of the house compared with anything at that price."

The same success is looked for at the new hotel, which is only about one-half as large as the first one. The exterior of the building is light brick and Indiana limestone, finished at the top with an ornamental copper work, and its bright, clean and artistic front has already improved the neighborhood, and in that respect the Mills hotel has accomplished a purpose.

A Bouquet With Each Shine.

An original gift enterprise which includes a free floral tribute with every 5 cent shine threatens to bring the Italian bootblack and the Italian flower venders of Brooklyn into a frightful head-on collision one of these days.

There are mutterings among the peddlers of bouquets since a progressive firm of shiners introduced the gift scheme. Their polish emporium is near the end of the bridge. Competition made business slack until the senior member of the firm was attacked by an idea. Here is how it works:

When the customer seats himself in the chair, the Italian politely intimates that the weather is very warm. During the operation the boss shiner gives expert opinion as to how long it will be before the bridge falls into the river. When the shine is completed, the customer pays his nickel and becomes eligible to the gift enterprise.

This novel innovation is conducted by a pretty Italian maid with a basket of buttonhole bouquets. Smiling demurely, she pins a fragrant posy on the lapel of the amazed patron and says, "Thank you, sir." There is no extra charge for this token of esteem. It is included with the 5 cent shine, and as a result the working force at this stand has been trebled.

Meanwhile the Italians who sell for 5 cents the same bouquet given away with a shine are emitting loud complaints. They say the gift enterprise, while a good thing in its way, is cutting into their flower trade and must be stopped. The peddlers have given out that unless the enterprise is called off they will open a crusade and make things interesting. The bootblacks who do not throw bouquets at their customers are also interested and may take a hand in the crusade.

May Discard Their Uniforms.

The Volunteers of America, of which organization Ballington Booth is the head, contemplate some radical changes. A meeting of the field officers has just been held in this city, at which there were present 13 executive members, representing as many states. The council was called for preliminary discussion of the proposed changes in order that they might be finally passed upon by the grand field council to be held the first week in October.

The striking change contemplated is in the abolition of the uniform. The Volunteers find themselves confused with the Salvation Army in the popular mind and have come to feel that they should not have uniforms that in any way lead the public to think they are doing work similar to that of the Salvation Army. Volunteers, they say, are unique and are filling a place in the religious world quite their own, and they want the public mind to assign them to that and not to another place and work.

The proposition is therefore for Volunteer workers to wear no uniform and no distinguishing marks, save perhaps a pin upon the coat lapel or sleeve or, in the case of a woman worker, a simple pin at the throat. Salvation Army officials have also complained of late that Volunteers are imitating their uniforms and methods.

What a Tammany Leader Must Be.

"There are few men of his age who could have followed Mr. Croker in the swim he made at Long Branch," said a lifetime friend of the Tammany leader. "Despite the occasional rumors of ailments which he is alleged to have he is physically the equal of any man of his size and age in this city. He is built from the ground up as a muscular man, and he has never injured his constitution by dissipation. He is very moderate in his use of stimulants, and, although he smokes a good deal, his nerves are unshaken. His most conspicuous characteristics are his coolness and repose. I have never known him to betray any sign of nervousness, although there have been times when he has been burdened with enough work to swamp two ordinary men. Mr. Croker's early training in politics was in the days when no man could be a ward leader unless he was physically a good man, and if such were the qualifications today Mr. Croker could still make good his claims. The muscles in his arms and legs are like iron, and apparently without any effort on his part he is always in good athletic training."

JOSEPH RUSSELL.

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,

Adams Building, Quincy.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Did anyone say that rain today was needed.

Capt. Kincaide was home for a few hours Thursday.

The coolest day of the week but an awfully disagreeable one.

Willard street is being scraped preparatory to some needed repairs.

J. P. O'Brien has decorated his store with some handsome signs.

Miss Vesta L. Pawsey is spending two weeks with friends at West Medford.

Chief Engineer Packard and Mr. George F. Wilson were visitors at camp Thursday.

The deep ruts on Hancock street are being filled with small stone and then rolled down.

Mrs. F. C. Packard, Miss Alice and Miss Rutha Packard go to Ashburnham today for a brief visit.

Mrs Fitzpatrick and son Norman of Manchester, N. H., are the guests of Mr. George M. Hobbs.

It is possible that Quincy tarins may be run into the new South Terminal station in Boston this year.

Everett Pollard, bookkeeper at E. H. Doble & Co.'s store, goes to Solon, Me., Saturday, on his vacation.

There was a picnic of colored people from Boston at New Downer Landing Thursday afternoon and evening.

It is eight years ago today that the Quincy accident occurred, although the day of the week was Tuesday.

Rev. Dr. Kerr, of Scotland, a candidate for pastor of the Calvary Baptist church, will preach at the church on Sunday.

The school janitors are busy clearing up the school buildings preparatory to the opening of the schools in September.

At the Sunday evening serivce at the Park and Downs church, Mr. H. C. Kendall will give an illustrated legend of Offero.

Eight pages tomorrow with story, social realm, war cut, fashion plate, Christian Endeavor, fruit and flower columns, etc.

Miss Lizzie Shepherd, secretary to City Clerk Cleaves, leaves Saturday for a two weeeks' vacation trip to Lake Winnepesaukee.

Ex-Commodore John Shaw will be the Quincy Yacht club's representative on board of the U. S. Revenue Cutter "Dallas" at the cup races.

Dr. Dow brought to the John Hancock stables on Thursday a handsome horse which he values at one thousand dollars. All lovers of fine horses should call and examine him.

Sevearl Scotchmen of Quincy attended the annual Caledonian picnic at West Roxbury, on Thursday, fully 6000 being present. Sports as usual were the feature of the day.

Although three of the five men of the Wollaston Golf team downed their opponent in the match with the Country club on Wednesday, Swan was ably done up by Blanchard, and the score was 10 to 9 in favor of the Country club.

The T. R. & S. team will cross bats with the Roxburys Saturday. The Roxburys are considered to be a very strong team, as they have defeated the Dorchesters, but the T. R. & S. consider themselves equal to them, having secured Curran to pitch for the rest of the season. The game promises to be interesting; let us hope that the public will give a little support and then we shall have some ineteresting games the rest of the season.

Mortgagee's Sale.

PURSUANT to the power of sale contained in a certain mortgage deed given by John Wolf of Quincy, in the county of Norfolk and Commonwealth of Massachusetts, dated January 1st, 1895, and recorded with Norfolk Deeds, libro 732, folio 543, and assigned to Charles P. Grimmer, by assignment dated July 30, 1896, recorded with said deeds, libro 766, folio 619, for breach of the conditions of said mortgage deed and for the purpose of foreclosing the same, will be sold at public auction on the premises, on WEDNESDAY, the fourteenth day of September, 1898, at two o'clock in the afternoon, all and singular the premises described in said mortgage deed, and thereby conveyed and therein described as follows:

"A certain lot of land containing 19,900 square feet, more or less, with all the buildings thereon, situated in said Quincy and bounded and described as follows, viz.: Northerly on West street, seventy (70) feet; easterly on land of Edward V. Trask, three hundred (300) feet; southerly on land of the same, seventy-five (75) feet; westerly partly on land of one Schneider and partly on land of said Trask, two hundred and fifty (250) feet. Being the same premises conveyed to me by Edward V. Trask, by his deed dated May 23, 1887, and recorded with Norfolk Deeds in Lib. 591, Fol. 551, and the same now subject to a mortgage given by me to A. E. Studley for sixteen hundred dollars, by my deed dated August 8, 1887, and recorded as above in Lib. 594, Fol. 477." Said premises will be sold subject to the above-named mortgage of sixteen hundred dollars and interest thereon, all unpaid taxes, assessments, liens and reservations thereon, if any.

Two hundred dollars ($200) will be required to be paid in cash by the purchaser at the time and place of sale. Other terms will be stated at sale.

GENERAL BANCROFT.

The Old Colonel of Fifth Praises the Boys.

Camp Dalton,
Friday, Aug. 19.

We have to report the sickness of Harry A. McLaughlin, the Ledger correspondent, who is at the hospital with a severe cold.

It is expected that the tents will be moved to their new locations today.

Gen. Bancroft, formerly colonel of the Fifth, was at the review last night and in an interivew he said: "There is as much difference between the Fifth Regiment and the other regiment which I saw during my tour of duty South since the war broke out, as there is between the resources of the United States and those of Spain." He was enthusiastic in praises of the Fifth.

But you should have seen the reception given to Gen. Bancroft when he came upon the field. Never have we heard more hearty cheers. Each of the line officers also had a warm welcome for him. SUBSTITUTE.

HOUGHS NECK.

Vacant cottages are a scarce article, for one cannot be hired for love or money. This means that there are more people than usual at the beach this year, but as one store keeper remarks they are a class of people who do not spend any money here but purchase all their groceries, etc., in Quincy and Boston.

Mr. Tileston and family of Boston are in the Bird's Nest cottage.

E. N. Morton and family of Campello are in a cottage on the plains.

Mr. Parsons and family of Campello are in a cottage on the plains.

Mr. Timothy Leatherbee, Mr. James Regan and Miss Gertie Regan of Boston are the guests of Mrs. O'Toole.

Thomas Fitts and family of Boston are in a cottage on Bay View avenue.

J. Nichols and family of Boston are at Rock Island.

A. Mensie of Brockton is in a cottage on Great Hill.

E. J. French and family of Dorchester are at Rock Island.

Frank Morgan and family of Roslindale are on Great Hill.

J. F. Tilton and family of Milton are at Rock Island

S. A. Rand and family of Roxbury are in a cottage on Manet avenue.

J. Weston and family of Boston are on Mears avenue.

Dr. Emerson and family of Milton are at Rock Island.

Mr. Holbrook and family of Brockton are in a cottage on Centre road.

A. Cummings and family of Lowell are on Manet avenue.

Far Seeing People . .

Are the most successful. They advertise in the Quincy Daily Ledger, the only daily in Norfolk County; and the Quincy Patriot, the only weekly in the city.

MILTON.

Tuesday an Italian with a hand-organ and a gaily dressed "monkey," made their appearance at East Milton and proceeded to pick up what stray pennies there were in the village. One of the places at which they stopped was at Richard McKay's. Mr. McKay owns, among other things, a bull dog. The dog lay very quiet while his monkship was dancing about. Suddenly however, the monk leaped upon the dog's back. The dog quickly turned and in less time than it takes to tell, there was a dead monkey. The Italian was almost heartbroken, and shed copious tears as he put the animal in his pocket and slowly walked away.

George Choate is building a house off Granite avenue.

Four new houses are being erected on Squantum street.

Rev. T. I. Reese took the boys of the Union club on an outing Thursday, to Revere beach.

Frank Kemp of John Curtis' store is enjoying a brief vacation.

A stone cross walk is being built on Adams street opposite the Rugby block.

The Codmans of Neponset will play the Milton A. A. nine Saturday.

The third lecture in the Sunday evening series of Rev. T. I. Reese's course on "The Christian Life of the First Four Centuries," at the Episcopal Mission church, will be given Sunday evening. Subject: "The Heretics and Foes within the Church."

Joseph Pearce has gone to New Hampshire on a visit.

The East Milton Episcopal Mission church holds its first annual picnic next Thursday at New Downer Landing.

MARRIED.

MEAD—DILLON—In Quincy, August 17, by Rev. Fr. Johnstone, Mr. John N. Mead to Mary T. Dillon, both of Quincy, Mass.

DIED.

PITTS—In Quincy, August 18, Joseph A., son of Mr. Joseph and Mrs. Agnes Pitts, aged 16 days.

FOLLANSBEE—In Boston, August 16, Mrs. Fannie, wife of Mr. Frank F. Follansbee of Adams street, Milton, aged 44 years and 10 months.

LATEST!

3 O'Clock.

HOMEWARD BOUND.

First Maine Regiment Passes Through Boston.

Chattanooga, Aug. 19—The 1st Vermont regiment of infantry left here for home this morning. They marched to the train which left immediately. They will go to Fort Ethan Allen where they will be mustered out of service. It is understood that the Eighth Massachusetts regiment will also go home to be mustered out of service.

Others Coming.

Washington, Aug. 19 —The 1st Illinois, 1st Maine and 2d New York regiments of infantry, which are in the South have been ordered home.

First Maine Reaches Home.

Boston, Aug. 19—A special hospital train from Chattanooga, having on board the worst fever cases of the 1st Maine regiment, passed through Boston this morning, bound for Augusta. The surgeon in charge said the men were better than when they left camp, and that none had died since the start was made. The deaths in the regiment while in camp averaged one a day.

Their Liberty Cut Short.

Fall River, Aug. 19.—Privates E. J. McCormack of company D, George McLane of company M, Michael Lowry of company D, Ed McKenna and George McCrea of company M, Forty-seventh New York, and James H. Jennings of the Fifth Massachusetts were arrested here last evening for overstaying leave, or disrespect to Lieutenant White of Fort Adams, who was on provost service. Jennings was arrested at the point of a pistol, and later released, his pass being all right. The others, together with Tom Mansfield, who is alleged to have a penitentiary record in several states, and who was taken for breaking from the guardhouse, were taken back to Newport. Privates Valentine, Roach and Nodine, who escaped with Mansfield, were not found. The troops were paid Wednesday and visited Fall River by the hundred, irrespective of permission.

Praises the Soldiers.

Binghamton, N. Y., Aug. 19.—In response to congratulations from the Women's Veteran Relief union of this city, General Shafter wrote from Santiago a letter in which he said: "I have seen something of hard service, but never during the Civil War was there 30 days that tried me as the 30 days beginning from the time we landed on the island of Cuba until the surrender of Santiago, and it is to the gallant soldiers who uncomplainingly bore every privation that the country is indebted for its victory."

"International Courtesy."

Berlin, Aug. 19.—Official and leading papers display anxiety to show that the removal of Governor General Augustin from Manila was in no way intended to offend America, but was a mere act of international courtesy. The Kolnische Zeitung and The Post follow the Nord Deutsche Allgemeine Zeitung in declaring that Admiral Dewey approved of General Augustin's departure; but all semi-official explanation fails to explain why so much secrecy was observed.

Fusion In California.

Sacramento, Aug. 19.—The Democratic state convention on assembling yesterday received the report of the committee on fusion. It recited that the People's party and silver-Republicans were in accord with the program of fusion and would support the Democratic ticket if it should proceed along the lines mapped out. It urged the adoption of the fusion plan, and the matter was put to a vote without debate. Fusion carried by less than a dozen votes.

W. H. Alford, chairman of the central committee, then nominated Congressman James C. Maguire for governor in a brief speech, in which he said that industrial freedom was the one fight the Democracy had in view. Senator White seconded the nomination in an eulogistic speech, wherein he reviewed Mr. Maguire's record in congress on the railroad question. Mr. Maguire was nominated by a rising vote.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

Slow Barcelona—Slower Madrid.

Barcelona is a great trading port, about on a level with Marseilles. It has grown very much within recent years. The Barcelonese consider themselves a model to all Spain in the matter of industry and in common sense, yet in this town, which is really a handsome place and rich, the head telegraph office is in the suburbs; there is only one branch office in town, and messages have to be sent from that by hand. The postoffice is well away from the port in a by-street. If you are there on business, you will find as likely as not that one clerk is in attendance out of an immense staff. He will probably be very polite, but he will put his hand to a pen or a bundle of letters as if he feared they would burn, and Barcelona is a model of smartness compared with Madrid.

One wonders what would happen to the dawdling officials one sees at these places if they were transported by some malignant fairy to St. Martin's-le-Grand. Madness would probably be their fate if they made an effort to meet the call. But then they would not. The hurry and drive would simply revolt their sense of what was due to a gentleman.—Pall Mall Magazine.

Mrs. Cleveland's Courtesy.

The following pretty story is told of Mrs. Grover Cleveland: At one of the public receptions given at the White House an old lady who was drawn up in the line that was pushing its way forward to shake hands with the president's wife dropped her handkerchief just before getting to Mrs. Cleveland. She was too old and rheumatic to stoop down and recover it, and those back of her in the line were too intent upon getting the one fleeting glimpse possible of the mistress of the White House to notice the old lady's loss, and the handkerchief was trampled upon roughly.

Just before the old lady reached her Mrs. Cleveland stepped out of her place and deftly picked up the handkerchief, tucked it in her dress and, taking her own fresh one, which was of the most delicate, dainty lace, smilingly handed it to the old lady with the sweet remark, "Please take mine, and when you get home send it back to me, will you?" And when the handkerchief came back to her Mrs. Cleveland returned that of the owner, freshly laundered, lying on the top of a beautiful box of rosebuds that came from the White House conservatory.

An Accommodating Neighbor.

Not long back Mr. X. moved into a new house, which had not before been occupied. The bell wires were rather stiff, and in consequence the bells gave no uncertain sound. This was particularly the case with the doorbell, whose clangor disturbed the whole house.

Mr. X. is a man of sensitive nerves. The tremendous jangle of the doorbell made him shudder, so he wrote in chalk above the handle of the doorpost, "Pull gently."

About 9 that evening there was a violent ringing. Somebody tugged at the bell as if he were going to pull it out by the roots. The noise was terrific. X. himself ran to the door in a rage and found his friend Z.

"What the dickens do you mean by ringing that way?" exclaimed X. indignantly. "Don't you see what's written there?"

"Yes," answered Z, "I do see—that's why I pulled so hard."

X. looked at the writing and saw, "Pull urgently." A passing wag had added the "ur." X. has now muffled the bell.—London Telegraph.

Artillery Terms.

All artillery may be divided into two main classes, heavy and light. Heavy artillery is called also garrison artillery. Heavy artillery guns are placed permanently in forts, and the men who handle them form foot artillery batteries and regiments. Light artillery refers to guns not permanently emplaced—that is, light enough to be taken from place to place by means of horses and maneuvered by hand. In our army the light artillery gunners ride on the caissons and gun carriages. In horse artillery the gunners ride horses, so that a horse artillery battery has a great many more horses than a light battery. We have no horse batteries in our army. A field battery is a light battery. A flying battery is a horse battery. Siege guns are between heavy and light artillery. They are intended to be placed permanently for the time being and are brought to their places by teams, but they are not maneuvered as light guns are.—New York Sun.

"Numny Dummy."

In his "Highways and Byways In Devon and Cornwall" Arthur H. Norway tells of a fragment of antiquity that still "lingers in the neighborhood of Redruth, where the country people, when they see a ghost, say, 'Numny dumny!'" and he adds, "I leave the riddle to be solved by any one who is curious enough to undertake a useful piece of practice in unraveling the corruption of language."

The phrase is probably a corruption of "In nomine Domini," the Latin for "In the name of the Lord," a phrase so familiar in the devotion of the middle ages.

Lost Time.

"Time is precious," remarked the minister.

"It is indeed," replied the man of business, "and I've wasted lots of it."

"By indulging in foolish pleasures, I suppose?" said the good man.

"No," replied the other. "I lost it by being punctual in keeping my appointments with others." — Chicago News.

A woman always credits another woman with having excellent judgment when they both dislike the same person. —Chicago News.

Tears were not sent to blind our eyes, but to wash them.—Sunday School Times.

How to Make Dewey Pudding.

Beat the yolks of four eggs well. Add one pint of milk, then 1½ cups of flour which has been sifted twice, with a teaspoonful of baking powder and a quarter teaspoonful of salt. Add the stiffly beaten whites of the eggs and bake in an earthen pudding dish half an hour in a rather hot oven. It will be very light and quite like a souffle if skillfully managed.

How to Make Pork Pies.

Well dry two pounds of flour, mince half a pound of "Albene" suet, and put both with half a pound of butter and a little salt into a saucepan to heat. When quite melted, turn these ingredients out of the vessel, mix them to a stiff paste and lay the dough before the fire, covered with a cloth, until required for use. Chop up four pounds of the neck of pork very finely, and season it with white pepper, salt and one dessertspoonful of powdered sage. Divide the paste into rather small pieces, raise them in oval shapes, fill each with the minced meat and bake the pies in a brisk, quick oven.

How to Broil a Chop In Paper.

Prepare a chop as for pan broiling. Wrap the chop in buttered paper. Place in a wire broiler and cook over a clear fire from four to six minutes.

How to Make Ox Eyes.

Cut five slices of bread into rounds with a large cutter and then cut out the center. Toast them an even golden brown. Butter a large pie plate. Put the rings of toast on the plate, break five eggs carefully and put one into each cavity. Sprinkle lightly with salt and pepper, pour a little cream in between the toast and set in the oven until the egg white is firm. If the oven is very hot, place the dish over boiling water, that the egg may not be overcooked.

How to Make Lemon Sherbet.

One quart milk, two cups sugar, two lemons, juice only. Stir all together and freeze. Don't mind the curdle—it will freeze out.

VERY DISCOURAGING.

Delay In Furnishing Supplies Demoralized Volunteers.

General Dilatoriness In Command Everywhere.

Many Requisitions From Which Nothing Was Heard Afterward.

Cambridge, Mass., Aug. 19.—Brigadier General William A. Bancroft thinks the regular army ought to be increased to 50,000 men. It ought to be reformed and reorganized, and the militia should be put on a better footing by both the national and state governments.

"What interests me particularly," said he, "is that no state in the Union came anywhere near Massachusetts in supplying troops. Three out of the six Massachusetts regiments went on foreign service. To show the difference between other states and Massachusetts, it is only necessary to point out that every Masachusetts man was fully equipped with two suits of clothing, and with rifle and plenty of ammunition and ordnance. A Mississippi regiment came there without uniforms and without rifles, and with very little knowledge of their duties. (I know that the Ninth regiment was all right in this regard.) The people I am speaking of did not even have one suit. When I went there there was not a regiment in the whole brigade that had a complement of anything, but they had their fists!

"It was very discouraging to wait week after week for the supplies. There was a general dilatoriness about everything. The red tape was important, of course, but if you are going to have red tape you ought to follow it out. There did not seem to be any head.

"Plenty of remedies suggest themselves to me. I thought I discovered a good many weak points, but I do not care to specify them. I will not state what the reasons are, but simply say that there was a failure to issue the men necessary supplies, equipment and ordnance. There seemed to be no directing head. Supplies were not forthcoming. We would make requisition after requisition and there would be no response—or not for a great many weeks after the mischief had been done. In some cases there have been no responses yet.

"It is my experience with green troops that they do not know how to keep themselves well, even in good surroundings, and the officers did not know enough to teach them, nor did the government supply them with proper conditions."

Why the Challenger Lost.

New York, Aug. 19.—The members of the racing committee of the Seawanhaka-Corinthian Yacht club and the other devotees of the sport who journeyed to Montreal and witnessed the unsuccessful attempts of Clinton H. Crane and his confreres to win back the challenge cup, held by the Royal St. Lawrence Yacht club, came back to the city Thursday. There is a great feeling of dissatisfaction because representatives of the Canadian club insisted upon taking advantage of the literal phrasing of the challenge and defending the cup with a catamaran.

Charles W. Wetmore, one of the members of the race committee that selected the Seawanhaka, said: "We consider it an unfair test of the relative merits of the two designers that a catamaran was selected and we were compelled to race against such a type of boat. Catamarans have always been a class by themselves, and as such the members of the Seawanhaka-Corinthian club will always regard them. The Royal St. Lawrence club has defeated our boat but few yachtsmen will consider the victory as other than gained by a clever evasion of the spirit of the challenge, and one which will go far toward injuring the future of the sport which we are all attached to."

Firemen's Muster In Portland.

Portland, Me., Aug. 19.—The contests at the firemen's muster between the handtubs began under weather conditions that could not have been much improved upon. There were 28 tubs in the playout, and it was supper time when the last one on the list had been made to do its best by the sturdy veterans at the brakes. The City of Lynn of Lynn won first prize by covering 212 feet, 8½ inches. The Deluge of Cambridge, City of Somerville of Somerville and City of Lowell of Lowell followed in the order named.

The visitors expressed pleasure at the way they were entertained, and all were elated over what is unanimously pronounced the most successful muster the association has held. All records were broken, including number in attendance, number of tubs in contest, the marks in the playout, and the felicity of the occasion.

Treasurers Hanging Back.

Fall River, Aug. 19. — Secretary Rounseville of the executive committee of the Manufacturers' association says that nothing had yet been decided concerning the latest curtailment. Work is going on in the direction of obtaining signatures, but it seems to be agreed among many treasurers that the required 1,500,000 spindles will not be secured. It is believed, however, that some form of curtailment will begin next week, or the week following.

One of Hobson's Pontoons.

Halifax, Aug. 19.—The Argus of Boston, which left here Tuesday for New York with wrecking pontoons for Santiago in tow, has arrived at Shelburne, 100 miles west of Halifax, in distress, having encountered heavy gales Tuesday night and lost one pontoon in the storm. The steamer has landed a man at Shelburne sick or injured. The missing pontoon is adrift or sunk.

Tomorrow's Almanac and Forecast.

The humidity will probably continue high, with little change from the present oppressive conditions. Except where effected by local disturbances, the winds will be light and variable.
Sun rises—4:56; sets, 6:38.
Moon sets—7:43 p. m.
High tide—12:30 a. m.; 1 p. m.

JUST ONE MORE.

Bostons Forging Ahead In the Race For the Pennant.

Boston, Aug. 19.—Boston made it three straight from the Chicagoes yesterday, and as the giants did likewise to Cincinnati, the new leaders received another upward boost for the flag. It was the greatest batting game seen on the home grounds this year. Isbel, the colts' subfielder of the day before, was taken out of the box by Burns after the home team had found him for 11 hits and nine runs in the first two innings. Woods, who relieved Isbel, pitched good ball, although seven hits were made off him. Stafford's hit over the left field fence in the seventh was the only run made by the home team while the Portsmouth boy was officiating.

After Lewis had shut out the Chicagoes for five innings with but one hit, Manager Selee put Hickman in the box. It was the first time he has pitched at home this season, and he had fine command of the ball, no runs and no hits being his record for the four last innings. He made a pretty double to deep left center the only time at bat also. It was Stafford's first big day with the bat since he made his debut here, and four hits, with a total of seven, with three runs scored, was his record. Score:

Bostons ..... 6 3 0 0 0 0 1 0 —10
Earned runs—Bostons, 9. Two base hits—Lowe and Hickman. Three base hit — Tenney. Home run—Stafford. Stolen bases—Hamilton and Stafford. Double plays—Lowe, Long and Bergen; Lewis, Lowe and Bergen; McCormick and Everitt; Dahlen and Everitt. First base on balls—By Lewis, 1; by Hickman, 2; by Isbel, 1. Struck out—By Isbel, 1. Time — 1:25. Attendance—2000. Umpires—Gaffney and Brown.

Altrock of the Louisvilles lost his game with the orioles yesterday in the first inning. He steadied in the second. Nops was hit freely, but had fine support.

Catcher Kinslow has signed with the St. Louis club.

The senators won in the ninth on three singles, a base on balls and Tucker's error in yesterday's game with the St Louis team.

Opportune hitting by the Phillies and loose fielding by the Pittsburgs enabled the Quakers to win, 8 to 4.

The New Yorks won a third time from the Cincinnatis. Damman lasted the first inning, five runs being made off him. Hawley succeeded him. Seymour pitched great ball. Score: 7 to 0.

After the Clevelands had won the first game yesterday from the New Yorks the second was started, but after two innings it was called on account of rain. No runs had been scored.

The Springfield team was whitewashed by Syracuse, being unable to hit Villiman at the proper time. It rained steadily during four innings in the middle of the game. Captain Bannon has been released.

The Providences opened the final home series with a victory over the Wilkesbarres in a magnificent game yesterday. It was a pitching battle, and a little streak of clever hitting in the fifth inning won the game. Egan's curves and generalship were too much for the hard hitting barons, and they were shut out.

Rough Ways of Moralists.

Parkersburg, W. Va., Aug. 19.—About 250 or 350 men disguised as "whitecaps" visited the house of Susie Colston, North Smithfield, Weetsell county, and dragged the inmates, six women and three men, out of bed. No time was given them to get their clothes, money or valuables. The house was then blown to pieces with three sticks of dynamite. The inmates were tarred and feathered, and then taken to the Shuman House and all locked in a room together till daylight. No effort was made to discover who did the act, and the popular sentiment is that nothing wrong was done.

Behind Stronger Bars.

Westerly, R. I., Aug. 19.—Acting on the suggestion of Governor Dyer, Sheriff Cundall has transferred H. C. Schooley, who is charged with the death of Maria Flynn of Watch Hill last week, from the Washington county jail at Kingston to the state prison at Cranston. The move was made to prevent any possibility of escape by the prisoner.

The police now believe that the girl was murdered instead of meeting death at her own hands by drowning in trying to escape from the prisoner.

Suicide of a Murderer.

Norristown, Pa., Aug. 19.—Charles O. Kaiser, who was under sentence to be hanged Sept. 6 for the murder of his wife, committed suicide in his cell in the county jail. He first cut an artery in his wrist with a watch spring and then hanged himself. James A. Clemmer is under sentence of death for complicity in the murder of Mrs. Kaiser, and Lizzie DeKalb is in jail awaiting sentence.

Thousands Saw the Race.

Nantasket Beach, Mass., Aug. 19.—Ten Eyck easily defeated Hosmer in a three-mile single scull race for a purse of $300 yesterday afternoon. The course was parallel to the shore, so that many thousands of people were able to see the race, which was one of the chief events of the summer carnival at this place. Owing to the difficulty in setting the buoys, no time was taken.

Safe Blown Open.

Littleton, N. H., Aug. 19.—The post-office at Franconia was broken into early Thursday morning, an entrance being effected through an adjoining library building. The safe was blown open and $250 in money and a large quantity of stamps were taken.

SORBETS AND ICES.

How to Prepare These Refreshing Dishes Without the Use of Liquor.

Sorbets and granites are ices that are properly served in the midst of the dinner, directly after the roast. They are an especially refreshing course at a summer dinner, and may be made of fruit juices without the addition of liquor.

Sorbets, like punch, are merely iced, or only partially frozen. They should be of a smooth, even, creamlike consistency. Granites, on the other hand, are frozen as firm as an ice cream, but are of a rough grained consistency. To obtain this effect they are packed in ice and salt from three to four hours and are stirred but little. Pineapple is a refreshing, cooling fruit and makes a delicious granite or sorbet.

To make a pineapple sorbet peel and cut up a sugar loaf pineapple in small pieces and let it stand overnight or for 12 hours in a cool place, with two cups of sugar added to it. Then strain off the juice and press the pulp to extract all the juice possible. Add to this the grated rind of a Valencia orange and a pint of water. Mix the ingredients and let them boil ten minutes. Remove the mixture from the fire, add the juice of one lemon and of two Valencia oranges; freeze for about 15 minutes and serve it.

If you desire a granite, set the mixture away, packed in ice, and let it remain there for from two to three hours. Scrape the frozen part occasionally from the sides of the can and stir the whole long enough to mix the ice thoroughly with the mass, but not enough to beat it to an even cream. A granite is always rough. Either of these ices is properly served in a cup made of the half skin of an orange, with the pulp scraped out.

For a raspberry sorbet boil together a pint of sugar and a pint of water for ten minutes. Put two quarts of raspberries, well mashed, in a pan and pour the hot sirup over them. Let them boil up once, then remove from the fire and strain. Add the juice of two lemons and freeze for eight or ten minutes. To make a raspberry granite pack and freeze in the same way in which the pineapple granite was prepared. Some of the whole berries may be stirred in just before it is served.

Orange sorbet is particularly delicious. Make a sirup of three cups of sugar and three cups of water. Add the grated peel of five Valencia oranges and let it boil quickly for 15 minutes. Add the strained juice of a dozen Valencia oranges and the juice of a lemon. Freeze immediately and serve at once. The sorbet should be a rich shade of yellow.

How to Make Corn Cakes.

Mix one cupful flour with half cupful Indian meal, 1½ teaspoonfuls baking powder, half teaspoonful salt, two tablespoonfuls sugar, and sift through a sieve. Melt one tablespoonful butter (two ounces), beat one egg in a bowl till light, add one cupful milk, add the milk to the flour, mix all together, add last the melted butter. Butter ten gem pans and fill them three-quarters full with the mixture. Bake in a moderate hot oven till done.

How to Care For Umbrellas.

It often happens that umbrellas get splashed with mud spots. Even occasionally they fall into a puddle and present a forlorn appearance. It is best not to touch this mud until it has quite dried, for to rub it when wet only insures its permanency in the fibers of the fabric. The mud should be allowed to dry first with the umbrella wide open; then the dust should be rubbed off with a piece of coarse flannel and the spots sponged with strong black tea or ammonia and water. Umbrella silk should never be brushed while wet, for it is liable to stretch out of shape. When an umbrella is dry, always wind it up, for that precaution preserves the shape better.

QUINCY DAILY LEDGER.

VOL. 10. No. 193. QUINCY, MASS., SATURDAY, AUGUST 20, 1898. PRICE 2 CENTS.

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,

Adams Building, Quincy.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

HANCOCK STREET, - - QUINCY.

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

ROGERS BROS.,

Groceries and Provisions. Adams Building, Quincy

Screens

Do not wait until the mosquitoes have commenced to sing their night and morning songs with that persistent manner of theirs. The best way for you to enjoy life is for you to do the sleeping on the inside and let them do the singing on the outside. This can be made possible by having us equip your house with screens. The cost will be light but the satisfaction will be great. . . . . .

* * *

Mr. and Mrs. S. A. Willis of Worcester are the guests of Mr. and Mrs. Elisha Thayer of Braintree.

* * *

Mrs. Frank Copp of Glencoe street has gone to Pittston, Penn., for a six weeks' visit.

* * *

Miss Ellen Hersey of Canal street has returned from Brant Rock.

* * *

During the absence of Mrs. Luther W. Glover at 'Sconset, Mr. Glover is stopping at Medford with his mother, Mrs M. A. Glover. Mr. Glover spent his vacation earlier in the season at 'Scoanset leaving Mrs. Glover there with the Quincy colony for the rest of the month.

* * *

Mrs. Augustus Beals and daughter, of North Weymouth, are at Cottage City for the summer.

* * *

Mr. and Mrs. George T. Magee left today for Enfield Centre, N. H., where they will spend a week or ten days.

* * *

Mr. George Higgins of Howard avenue, Quincy Neck, has returned from Alaska. Mr. Higgins had a bad fall while away which hastened his return home.

Royal makes the food pure, wholesome and delicious

ROYAL BAKING POWDER

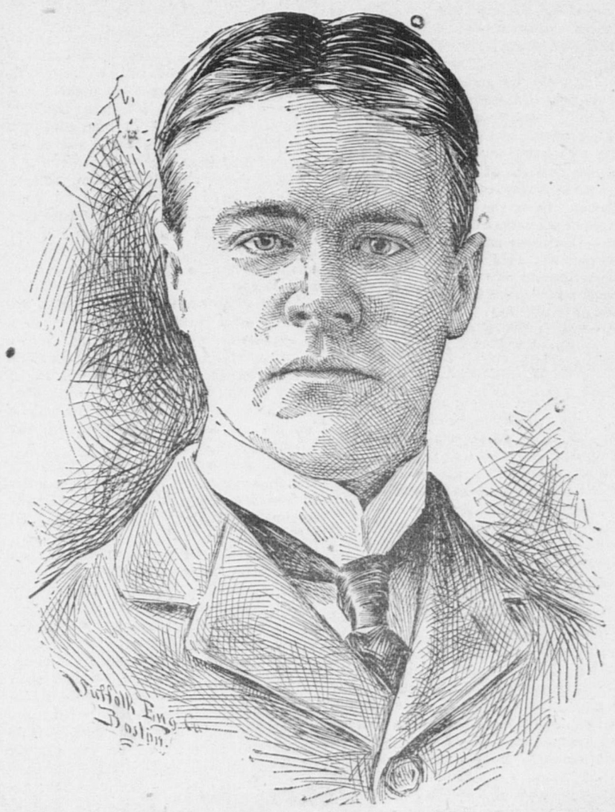

Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

IT BEATS THE RECORD.

Quincy's Best Year for Building---236 New Houses Erected Last Year.

Half the Houses in the City Erected Since May 1885--Thirteen Years.

MAYOR SEARS.

The secret is out!

A large portion of the increased valuation of the city is from new buildings.

There were erected in Quincy in 1897-98, from May 1 to May 1, 236 houses, which probably includes business blocks, etc.

This was a record breaker for the city, being 2 more than in 1892, the only previous year in which over 200 have been erected.

It was a gain of 60 over the increase of the previous year, or 34 per cent.

The gain was nearly as large as for the two years from May 1, 1894 to May 1, 1896.

It was larger than in any of the two years previous to 1886, and in some cases three years.

The increase in the valuation of buildings was $506 300, an average of over $21.00 per building, which is not an excessive valuation as it includes the Mu-ic Hall block and other large buildings.

We have 5,524 property taxpayers, 1074 more than five years ago, while the increase in those who pay a poll only was but 924.

The Assessors' report of the number of houses in the city for several years is given below, and also the gain each year, which makes a grand exhibit:

Year.	Houses.	Gain.
In 1880,	1,753 1-2	—
In 1881,	1,777 1-2	24
In 1882,	1,836 1-2	59
In 1883,	1,919 1-2	83
In 1884,	2,003 1-2	84
In 1885,	2,089 1-2	86
In 1886,	2,219 1-2	130
In 1887,	2,352 1-2	133
In 1888,	2,458 1-2	101
In 1889,	2,616 1-2	163
In 1890,	2,766 1-2	150
In 1891,	2,935 1-2	169
In 1892,	3,169 1-2	234
In 1893,	3,336 1-2	167
In 1894,	3,486 1-2	150
In 1895,	3,644 1-2	158
In 1896,	3,764 1-2	121
In 1897,	3,940 1-2	176
In 1898,	**4,176 1-2**	**236**

The A-sessors aggregates for 1898 also proves of considerable interest, especially when compared with 1897 and five years ago. They show Quincy to be a rapidly growing city, faster than many will admit, and it is not surprising that there are numerous wants.

Here are the figures for 1898, 1897 and 1893:

	1898.	1897.	1893.
Number of residents assessed on property:			
Individuals,	3,434	3,272	3,002
All others,	567	598	538
Total,	4,001	3,870	3,540
Number of non-residents assessed on property:			
Individuals,	1,383	1,233	789
All others,	140	140	116
Total,	1,523	1,373	905

A WINTRY LANDSCAPE.

Not summer's self was ever half so fair
As this white winter wrapped in ermine fleece,
A royal silence brooding everywhere
And all the world a voiceless dream of peace.

Amber and opal, faintest pearl and rose,
Orange and purple in the sunset sky;
In fiery hues the wide west flames and glows,
Nor fades till stars are shining out on high.

O'er steel blue lakes the sheen is bright like mail,
The trees in naked beauty lift their limbs,
The wind is hushed that erst did sob and wail—
Softer its tones than mother's cradle hymns.

Strange, silent winter, fair beyond belief,
White robed and fair and dreamy as the night,
Forgetting pain and care and joy and grief,
Creeps solemnly apace and shrouds the light.
—Harper's Bazar.

NUGGETS' LUCK.

How the spruce looking stranger got into the little, old, dilapidated town up in the Sierras none of its inhabitants appeared to know, but most of them were extremely anxious to ascertain. Seldom it was that any one went to the town. Apparently there was no particular reason why any one should. The surrounding scenery was grand, it is true, but the town could make no claim to being an essential part of the grandeur. Its one street straggled up the mountainside for a short distance and lost its way in the forest. A long, ramshackle "hotel," several despondent looking stores and a number of saloons made up what it was pleased to call the business portion of the town. On all sides and as far as the eye could see, however, were the imperishable evidences of what this little town once had been—the center of a natural wealth almost inconceivable. Vast areas of white and yellow and reddish clay, mountains seamed and gashed and cut in twain, miles of rusty and disjointed gigantic iron pipes, told of the days when the miners with hydraulic guns "held up" nature and forced it to deliver its treasure.

But all that was long ago and is only a pleasant memory with the little town now, and to the stranger's not unnatural inquiry as to how the people supported themselves came the cheerful and cannibalistic reply that they "lived on one another."

The stranger sat on a box outside one of the stores beside one of the citizens and soon found himself listening to a monologue offered for his entertainment. It would have been a dialogue between them, but the entertainer would not have it that way. An old man, with grizzled beard and weather beaten face, was he. The stranger noticed, with some surprise, that, although stained and rusty, his long frock coat and the trousers stuck into his boots were of good broadcloth. A very conspicuous watch chain, a huge diamond pin in a setting of tobacco stained shirt front and the entire absence of a collar made up a somewhat incongruous appearance.

"Yes, you're right," began the entertainer, starting the monologue with considerable energy, "this town ain't worth a whoop in hell today, but you oughter seen it onct. Ain't a forty-niner myself, and you got to make a good deal of allowance for what some o' these old has beens tell you, but they all do say it was a hummer before they stopped hydrauleekin.

"You oughter get old Nuggets to tell you somethin about it. Ain't you met Nuggets yet? Well, you should, for he's about the only sight we got in town—only thing the town brags about and p'ints out to strangers. Nuggets was here—or som'ers about here—before they ever did any hydrauleekin—when everything was placer and sluice minin. He'll tell you his story. He'll tell it without bein ast. I've heard it so often that I know it myself. He likes to hear himself talk.

"He was one o' the first to come acrost the plains—leastways that's what he says—and when he got here he just nacherally staid. He kem around by the old emigrant trail back o' Lake Tahoe and into Hangtown.

"Hangtown—you know, that's what they called Placerville in them days—was a great place then. Meals was $3, and so was beds; whisky was four bits and two bits a drink, accordin as how you wanted it, and flour was $10 for a small sack. Course, you know, most all supplies kem around the Horn to Frisco, was boated up to Sacramento and teamed out to the mines from there.

"Business was good in California in them days. Most every one had money, and it wasn't no trick to get it. The cricks and river bottoms was full o' gold, and any one could take a shovel, pick and rocker and wash out as much as he liked. Course that sort o' thing spoilt the Argonauts, as they call 'em, or a good many of 'em anyhow—would a-spoilt most any one.

"Kinder seemed to them that the supply would last forever, and they didn't worry much and wasn't particuler about savin it. They was all about alike, and after a fellow had worked purty hard for awhile and cleaned up a little pile he'd get to thinkin he needed relaxation, and down he'd go to Frisco and blow in his pile.

"Then he'd strike the trail for the goldfields for another stack o' blue chips.

"Course every one had a partner in them days, and this here Nuggets had one by the name o' Wilkins. One day they kem into this town with a nugget that was a corker. Was as big as your hat—red cinnabar, with chunks of pure gold stickin out of it all around.

"The jeweler offered 'em $1,500 for it, but they wouldn't sell it. Nuggets said there was more o' it where it kem from, but no one believed him.

"Everybody thought that Nuggets and Wilkins had found a small pocket, and that was all there was to it, but some o' these pockets are good enough for a pore man anyhow.

"That night there was an awful windstorm, and two days afterward Nuggets was found comin out o' Rattlesnake canyon over there plum crazy. They brought him into town, and all they could get out o' him was a string o' the d——dest, foolishest words you ever heard of. He didn't say much else for a good many years afterward—youster sit around the town here and get it off to himself. Went somethin like this:

" 'Changed all the trees in the Rattlesnake—moved 'em and mixed 'em all up. Might 'a' been a dream, but I don't think so. Ask Bill—he knows. Put a shot in her. Seen rock in my time, but to rock like that. Bill, d——d old fool, gits scared, and we kivered her up to come back to. Didn't blaze no tree, but my old knife's stickin on the moss side o' that tree. Might 'a' been a dream. Ask Bill.'

"Course you can bet your life that old canyon was prospected pretty well after that, but nothin was found. The specimen was sold and the money divided between Bill Wilkins and Nuggets' daughter, who had to take care o' him. Wilkins went over to Calaveras soon after that and fell down a shaft about 500 feet deep.

"Well, time went by, and the law stopped hydrauleeking, and purty much every one left the town that could git out o' it, and it ain't been worth a d—n sence.

"Nuggets' daughter she married Bob Hittel, who was a teamster and didn't have much o' it to do either. They was pore, but they managed to make a livin and keep old Nuggets besides. Course you know the old man couldn't do nothin but sit around and talk those words I told you of.

"Every one was kind to him, except, perhaps, Jake Openheimer, who kept the principal store then. He youster rile him a good deal and josh him and ask him when he was goin to open her up, but I reckon he didn't mean a great deal o' harm.

"Every now and then Nuggets 'ud wander over into Rattlesnake canyon and spend nigh on to a day there. When he'd come back, he'd be worse tuk than ever and go moonin around and sayin those words: 'Changed all the trees in the Rattlesnake—moved 'em and mixed 'em all up. Might a-been a dream, but I don't think so.'

" 'Bout this time his little gran'son was growin up, and Nuggets began for to take him along with him in his trips to the canyon. Mrs. Hittel, she objected at first, but when she seen the boy liked to go and her father was dead set on havin him with him she didn't make no more objections. The boy used to say that while they was in the canyon Nuggets spent most o' his time huntin for something he couldn't find.

"One evenin in the summer time, 'bout ten years ago—I was here then myself—Nuggets and the boy kem into town and gave it a surprise that it ain't got over sence. You can believe it or not as you want to, but he'd got back his mind all right and talked as sensibly as I'm talkin now. Don't believe he ever was crazy myself—just think he'd got his mind set on one thing and couldn't get it off.

"But he was purty near crazy with happiness. He'd an old rusty knife in his hand, and he kept sayin to us all the time, ' 'Twarn't no dream after all, 'twarn't no dream.' Seems when they was in the canyon the boy got to playin around and crawled under a big tree that 'ad been blown down and found the knife stickin in it underneath. Course you know what that meant.

"Well, Nuggets is all right now. So was his claim. He sold it for a purty nice sum to a couple o' big mining men down below. See those smokestacks in the trees over in the canyon? Well, there's a 14 stamp mill on the spot where that knife was found.

"Bob Hittel runs this store we're a-sittin in front of, and Bob's wife owns her own house. Nuggets has a mortgage on about everything Jake Openheimer's got left, and the boy—the gran'son, you know—he's down below in business for himself.

"That's about the story old Nuggets 'll tell you when you meet him. Some o' it's true I know myself for a fact, and I reckon, mebbe, some o' it's—well, you know, Nuggets is a Missourian and a purty good liar himself."

The stranger arose, stretched himself, and, striding up the street, encountered the one legged druggist standing in the doorway of his store.

"Great story I just heard," said the stranger.

"Been talking to the old pioneer?"

"Pioneer? Why he's not a forty-niner."

"No, but he's a forty-eighter."

"Who is he, anyhow?"

"Him? Oh, that's Nuggets."—William A. Taaffe in Argonaut.

Wasted.

A lad in one of the London board schools was found guilty of a serious infraction of discipline and was directed by his teacher to tell his mother when he got home what misdemeanor he had committed.

The next morning the schoolmistress called Johnnie to her desk, when the following dialogue ensued:

"Well, Master Johnnie, did you inform your mother what refraction of discipline you were guilty of yesterday and the reprimand and punishment you received?"

"Yes'm," was the sententious reply.

"Well, and what did your mother say?"

"She said she'd like to wring your neck for you."

No more discipline reports were sent home to that mother. — Pearson's Weekly.

His Clew.

Burbank—You say that you never saw that man before, and yet you think he has been married about 15 months. I'd like mighty well to know what there is about him to make you arrive at such a conclusion?

Sherlock Holmes, Jr.—Watch him closely, and you will notice that he starts at every sound as if he were afraid it would wake the baby.—Cleveland Leader.

PEOPLE OF THE DAY.

Brigadier General James H. Wilson, military governor of Porto Rico, has a splendid record as a soldier in the civil war. He has also an excellent reputation as a manager of affairs, having been, in recent years, at the head of large railroad enterprises.

General Wilson was born Sept. 2, 1837, near Shawneetown, Ills. His father was a captain in the Black Hawk war. His grandfather was among the early pioneers of Illinois. The family was originally from Virginia. James graduated from West Point in 1860, and after a brief service in Oregon was made first lieutenant of topographical engineers. In 1862 he was attached to the staff of General McClellan as aid and was present at Antietam and other battles. He was then transferred to the western army and served with distinc-

GENERAL JAMES H. WILSON.

tion around Chattanooga and Knoxville. In the summer of 1864 he commanded a brigade of cavalry under Sheridan and was highly commended for skill and courage in that commander's battles for that year. In the winter of 1864, with nearly 15,000 cavalrymen, he entered on that celebrated advance which resulted in the capture of Selma and Montgomery, Ala., and three other fortified places, capturing 288 guns and 6,820 prisoners, Jefferson Davis being one of the latter. He was brevetted major general in 1866, and on his own request retired from the service in 1870.

Since then he has, as stated, been engaged in the railroad business until again called to serve his country in the trouble with Spain.

Hobson's Mother.

Next in interest to a hero himself is a hero's mother. We feel always that a brave man must have had a good moth-

MRS. SALLIE C. HOBSON.

er. If we can't see the woman, we take pleasure in looking at her picture. Herewith is a reproduction of an excellent and recent photograph of Mrs. Sallie C. Hobson, mother of Lieutenant Hobson.

Mrs. Hobson comes of old North Carolina stock. Her father was Chief Justice Pearson of the Old North State. She is a woman of education and refinement. She is deeply religious and has always been greatly interested in church work. One can readily imagine the surroundings of the boy who has since, as a man, won the applause of a whole nation.

Rochefort as Satan.

A nasty joke has been played, perhaps unintentionally, says The Morning Post's Paris correspondent, on M. Henri Rochefort by one of the sculptors of the Basilica of the Sacred Heart, the Church of the National Vow, on the summit of Montmartre. In the Chapel of St. Genevieve is a bronze bas-relief representing the demon tempting the patron saint of Paris, while she is being protected by her guardian angel. The demon is an exact portrait of M. Henri Rochefort, whose singular beard, mustache and hair and characteristic profile cannot be mistaken.

A Lovely Duchess.

The Duchess of Portland is an untiring charity worker and her name has headed many a list of patronesses of bazaars and church social affairs. While she is seven duchesses behind the Duchess of Marlborough, she is said to be the greatest duchess in England. Her popularity is something tremendous. As most will remember, she was Miss Yorke, and her capture of the wealthy, good looking duke was one of the greatest catches ever recorded in the annals of gossip tattling London town. She is the devoted mother of two children.

A Lesson In Spanish.

Cashier D. H. Power of the Oakland County Savings bank of Pontiac, Mich., wrote to Admiral Cervera, inclosing a check for $1, asking the admiral to "have a good cigar on him" and to send the writer his autograph. Mr. Power has received this reply, written in Spanish:

MY DEAR SIR—The admiral, my father, desires me to tell you that he takes great pleasure in sending you his autograph, as he does. However much he would like to smoke a good cigar with you (if he smoked), you will understand that he cannot take the dollar for that and directs me to return the check. Yours,
ANGEL CERVERA.

FRUIT AND FLOWERS

KEROSENE SPRAYING.

Recommended as Summer Treatment For San Jose Scale.

Pure kerosene as a destructive agent to insects is just the thing, but results with its use have been so conflicting as to make many hesitate to use it. Careful investigation, however, has led Professor William B. Alwood of the Virginia station to the conclusion that pure kerosene can be safely used upon all our fruit trees in the dormant season and with proper precautions during the growing season also. The chief point to be observed in its application is the proper atomization of the kerosene. Unless it be applied in a finely atomized condition and in quantity so as to just moisten the parts of the plant there is danger. The skill and judgment necessary to insure safety in this work are not such as to preclude the use of kerosene by fruit growers; hence he recommends it as a summer treatment for San Jose scale.

The machinery which Professor Alwood has found best suited to this work, so far as safety to the plant is concerned, is a blast atomizer. There are several styles on the market, but the essential principle is the same—viz, the delivery by a bellows or a syringelike apparatus of a strong blast of air across a tube which extends to the bottom of a cistern or can, fastened at the outer extremity of the apparatus. By the action of this blast the air is rarefied in the tube, which extends into the oil receptacle, and this causes the oil to rise to the top of the tube, where it is blown into an extremely fine spray. The greatest obstacle to the use of this apparatus is its small capacity, but as it is yet true in most cases that the scale is confined to small trees and plants a better or safer device for the average orchardist and gardener to use is not known.

In the nature of large apparatus for the use of pure oil Professor Alwood recommends any of the well made force pumps, but they should be carefully fitted up for high pressure. The exit orifice in the cap of the nozzle should be small for the use of kerosene, not larger than one-twentieth of an inch in diameter and preferably a little smaller. With this small orifice and high pressure an excellent spray mist can be obtained, and by going over the plants lightly a couple of times at each treatment better results are secured with greater safety to the plants. Choose bright, warm weather for this work and go over the trees rapidly so as to just moisten the branches and trunks.

Mowing the Lawn.

The number of times the lawn should be cut will depend very much upon the character of the season or the amount of irrigation. Ordinarily, in parks at least, the lawn is mown every week or ten days, although in some sections where the soil is good and there is a continuous growth of grass the lawn mower is kept constantly going. According to the agrostologist of the department of agriculture, the oftener the lawn is mown and the more frequently it is rolled the better and finer the turf. The grass should not be allowed to attain such a growth that when cut there will be any decided change in color. The lawn should be kept close cut, and this can only be done by frequent mowings. During the dry summer months it is best not to cut so close as in the spring or fall. This applies to parks and lawns of large extent. Too close cutting in midsummer is apt to expose the roots to the burning influence of the summer sun. Mowing should begin as soon as growth starts in the spring and ought to be discontinued in the regions where the winters are severe by the 1st of September or October.

How to Use Emulsions.

The department of agriculture recommends: For summer applications for most plant lice and other soft bodied insects dilute with 15 to 20 parts of water; for the red spider and other plant mites, the same, with the addition of an ounce of powdered sulphur to the gallon; for scale insects, the larger plant bugs, larvæ and beetles, dilute with 7 to 9 parts water.

For subterranean insects, such as root lice, root maggots, "white grubs," etc., use either kerosene emulsion or rosin wash, wetting the soil to the depth of two to three inches, and follow with copious waterings, unless in rainy season.

A Fine Hardy Herbaceous Plant.

"One of the best hardy herbaceous plants of its class, yet not often seen in our gardens," is what American Gardening says of the chrysanthemum,

CHRYSANTHEMUM ULIGINOSUM.

Pyrethrum uliginosum, in depicting its flowers, of which the rays are pure white, the disk being yellow.

The flowers are produced late in the summer, when other flowers in the border are becoming scarce. The plant is, as just noted, perfectly hardy, very showy and excellent for cutting. The plant attains a height of two to three feet.

HARPER'S WEEKLY

will be remembered for its famous "War Numbers" of the Civil War. Its value during the war with Spain will be even greater because of vastly improved facilities. History is being rapidly made. The gravest questions of our time are coming to the front, and every American should have each week an accurate, concise

PICTORIAL HISTORY OF THIS WAR

from now until peace is assured. A brilliant staff of artists and correspondents are representing the WEEKLY at the front. **Rufus F. Zogbaum, Carlton T. Chapman, Frederic Remington, T. de Thulstrup, W. A. Rogers, Clyde, D. V. Hunt,** and others, with a large staff of photographers, are accurately portraying the movements of our army and navy and happenings at Washington and elsewhere. Among the WEEKLY'S correspondents are **Frank D. Millet, John F. Bass,** and **O. K. Davis,** in the Philippines, **John Fox, Jr.,** with General Shafter's army, **Harold Martin,** at St. Thomas, and others. By subscribing now for one year, you will obtain the WEEKLY during the most important engagements.

OWEN ZEIGLER BEATEN

He Contested With McPartland In Twenty-Five Rounds.

His Inferiority Plain From the Start.

Referee's Decision Received With Cheers, Hisses and Groans.

New York, Aug. 20.—"Kid" McPartland of this city and Owen Zeigler of Philadelphia fought 25 rounds last night before the Lenox club, and Charlie White, the referee, decidede the bout in favor of McPartland, who, with the exception of the last two rounds, had all the better of the bout.

OWEN ZIEGLER.

McPartland surprised many of those who watched the fight by using his right hand effectively, while his left was continually playing havoc with Zeigler's face. Zeigler fought desperately in the last two rounds, and had the better of the New Yorker in the work accomplished; but this was not enough to counterbalance the work which McPartland had done previously. Both men were in the best of condition. They met at catch weights.

Goo dblows were exchanged in the first two rounds. In the third round Mac rushed Zeigler in his corner. Later Zeigler rushed Mac to the ropes and the "kid" slipped to the floor, but got up quickly. In the next two rounds Zeigler rushed, but was well met.

In the sixth round Zeigler slipped to the floor, and there were several clinches. There were hard exchanges in the next seven rounds. In the 13th round Zeigler was bleeding from the nose when he went to his corner. In the 14th, 15th and 16th rounds good blows were landed by each man. After an exchange of lefts in the 16th round Mac's eye was bleeding. Brisk work was done in the following four rounds. In the 21st Zeigler rushed Mac to the ropes. The remaining four rounds were well contested.

White's decision in favor of McPartland was received with cheers, which were afterwards drowned with groans and hisses.

SILLINESS REBUKED.

Suspension of a Ball Player Arouses the Bostons' Indignation.

Boston, Aug. 20.—While rain prevented the Boston-Cincinnati game yesterday it did not prevent the members of the Boston team meeting and talking over the Holmes-Freedman case, and adopting resolutions, drawn up by Pitcher E. M. Lewis, calling ofr a fair trial for the player. The resolutions express the signers' disapproval of the action of the league directors in suspending the Baltimore player, and protest against what is called an illegitimate exercise of authority." Holmes is promised the co-operation of the Bostons if it be necessary in securing an honest hearing and a just trial.

The Baltimores did not win yesterday's game with the St. Louis team until the ninth inning, when Sudhoff let down after his previous masterly work. Score: 4 to 3.

Eight hits for 12 bases gave the smoky city boys the Washington game in the eighth. Score: 7 to 3.

The Wilkesbarres defeated the Providences Friday. It was a close and exciting game all the way until Odwell's homer with two on bases occurred in the eighth inning. The Providence team is crippled by the suspension of Cassidy. Score: 9 to 5.

Six hits, together with the inability of the New Yorks to hit "Cy" Young, gave the game to the Clevelands yesterday.

The Phillies went down yesterday before the superior playing of the Louisvilles. Magee pitched good ball and was suported in fine style.

Jimmy Bannon was released by the Springfields Thursday, and Tom Hernon will replace him in the field if the latter's surgeon allows him to play ball this year. Harry Dolan, the former Boston pitcher, will probably captain the ponies.

Nick Young has notified Manager Murray of Providence to suspend Third Baseman Pete Cassidy for jumping the Newark club. The Providence people think it an arbitrary notice, as the Atlantic league club was in arrears to the players, Manager Tom Burns telling Cassidy to sign where he could, and Pitcher Carrick of the same club, who went on strike, is still with the New York giants.

Win Mercer says he is tired of pitching and is anvious to shine as an infielder. He is covering short for the senators in the absence of Wrigley.

The New York state league has been reduced to six clubs, and a new schedule will be made for the rest of the season.

Tomorrow's Almanac and Forecast.

Sun rises—4:57; sets, 6:36.
Moon sets—8:09 p. m.
High tide—1:15 a. m.; 1:45 p. m.

For Sunday clear and pleasant weather seems certain, with light winds and moderate temperature. It also promises to be fair Monday, but warmer.

THE TRADE SITUATION.

Mercantile Community Confident of a Prosperous Fall.

New York, Aug. 20.—Perhaps the most interesting feature of the general business situation, as viewed by Bradstreet's, is the amount of confidence with which the mercantile community awaits the approach of the fall trade period. Reflection of the growth of fall trade is found in the steady expansion going on in bank clearings, the improving demand at higher prices for most makes of iron and steel, the generally favorable railway earnings, which, in default of a large movement of crops to market, point to a large return trade in manufactured goods to the agricultural sections, and the reports of continued activity in distributive trade west and south, with signs of a moderate increase in interest at leading eastern markets, which hitherto have not shared largely in the trade improvement.

Large supplies of raw cotton at home and abroad, and the prediction of a yield this year nearly equal to if not exceeding that grown a year ago, while naturally stimulating to business at the south, has a depressing effect upon the price of the raw staple, and quotations are a fraction lower for the week and 2 cents a pound lower than a year ago at this time. Reports as to collections the country over are very encouraging. From winter wheat sections especially reports are very good. Some slowness is noted in payments at the northwest, but this is expected to disappear when the spring wheat crop moves.

At Boston and New York a moderate improvement in business is noted. The depressed condition of the raw staple tends to discourage future business in cotton goods, but print cloths are firm. In wool and woolen goods business is only moderate, and manufacturers buy for present requirements. Orders for men's wear goods for the spring trade are coming in better.

Business failures aggregate 195, against 157 last week, but compared with 221 in this week a year ago, 264 in 1896, 192 in 1895 and 251 in 1894. Bank clearings for the week aggregate $1,273,622,000, a gain of 4 percent over last week and of 11 percent over this week a year ago.

What Dun & Co. Say.

New York, Aug. 20.—R. G. Dun & Co., in their Weekly Review of Trade, say that a war which brought no shrinkage of business while it lasted has brought with its ending a quite remarkable expansion. Orders and purchases have increased in nearly all branches, few as yet being of such nature that they can be attributed to the material enlargement of trade with the lately Spanish islands which came a little later. It is odd that the iron industry, while reporting a decline in products, shows more surprising gain in business than in any other. The demand for finished products expands remarkably, considering the enormous orders prior to July, which crowd some of the biggest works until December.

Ambitious Morales a Corpse.

Washington, Aug. 20.—General Morales, the conspirator, is dead. He was captured by Guatemalan troops in a cave and died on his way to prison. He was the leader of a revolutionary movement in furtherance of his insatiable desire to occupy the presidential chair of his country.

Prospero Morales was a conspicuous figure in Central American affairs during the last three years. He was minister of war in the cabinet of President Barrios, and it is said he used the war office to ferment the rebellion against Barrios. The latter detected the plot, and Morales fled to Mexico, where he organized his band. In the meantime Barrios was assassinated, being succeeded by President Cebrera. It was thought that the death of Barrios would ultimately lead to the success of Morales' revolutionary movement.

Among South American officials here it is said that Morales' death will restore a calm to Central American affairs which has not existed for many months, even years. Morales was about 45 years of age, a man of education and of marked force of character.

Charges Against a Marshal.

Biddeford, Aug. 20.—A document of remarkable contents was handed to the police commissioners yesterday afternoon, accompanied by affidavits and copies of sworn testimony in specific cases from Representative Benjamin F. Hamilton, Frank Irish, Frank Emerson, Oliver C. McIntire and Leonard Andrews, being in substance a copy of charges against City Marshal Charles B. Harmon. These charges have created a great sensation among the citizens, and it is expected that the commissioners will grant a hearing to the petitioners, although they declined to make a statement.

The allegations are that he has prostituted the police department for political ends to such an extent that strife and disorganization have followed, with disgrace to the Republican party; that caucuses are not respectable gatherings; that he has permitted liquor selling and neglected to enforce the prohibitory law so that "our good city has become a disgrace to every law-abiding citizen, a menace to good government, a reflection on the church, a corruption of good morals and a dishonor to the state."

New Scheme a Failure.

Fall River, Aug. 20.—Manufacturers admit that the concerted plan for curtailment of product has failed. The factories will act independently in the matter, and as an instance in point notices were posted in the Chace mill Friday for a two weeks' shut-down, beginning Monday. This mill produces 7000 pieces weekly, employs 700 hands, and has a weekly payroll of $4800. The indications point to the closing of the American, Merchants, Shove, Weetamoe, Wampanoag, Flint, Stafford, Richard Borden, Metacomet, Narragansett, Sagamore, Fall River, Mechanics and Bourne mills for varying periods in the next two months.

Barn Set on Fire.

Brockton, Aug. 20.—A barn belonging to H. G. Adams and situated behind his residence was burned shortly before 2 o'clock this morning, and the cause was incendiarism, two men having been seen running away when the fire was discovered. Two ponies and a large quantity of hay were burned. The fire was set by a lighted torch being thrown upon the hay through a window.

OUR WEEKLY FASHION PLATE.

FIGURED-MUSLIN GOWN FROM HARPER'S BAZAR

Plain colored muslins may be newer and smarter than the figured, but never have there been more figured muslins worn, and the variety of coloring and design is endless. A charming dainty gown, from Harper's Bazar, that is suitable for afternoon wear, is of pale yellow muslin with a flower of deep orange. The skirt is made so that it fits to perfection over the hips, and is full at the back. Over the hips and around the back breadths are lines of white lace entredeux, and around the foot of the skirt is a most effective flounce made of strips of lace and muslin; the skirt part is finished in points outlined with lace.

The waist is tight-fitting, with a vest of fine-tucked muslin of plain yellow—the tucks apparently fastened with flat pearl buttons—lines of white lace insertion are put on at either side of the vest, and there are lace ruffles over the puff at the top of the sleeve. This puff is of the plain muslin, while the lower part of the sleeve is of the figured design.

Worn with the costume is a hat with brim turned up at the left side, and trimmed with feathers and flowers.

The Feathered Hobo.

"Did you ever know that the English sparrow is a tramp," asked Depot Superintendent Sanford the other day. "Well, he is, and the worst kind of a 'hobo.' Recently I have seen a flock of them fly from under the pilot of one locomotive to the pilot of an outgoing locomotive, and in that way they travel over the country.

"Sharp? Well I should say so. It's the brightest bird I know of, as I have maintained for a long time."

Mr. Sanford was in dead earnest, and the reporter went out to look for himself at these "tramp" sparrows. As he stood under the sheds at the union depot a big Missouri Pacific engine came along pulling in slowly from its long trip from St. Louis. No sooner had the train come to a standstill until out from under the pilot of the locomotive hopped a dozen English sparrows. They looked around as if to get their bearings, and then made straight for the pilot of a Burlington engine. They disappeared, and remained there until the train pulled out.

Sure enough the English sparrow is a tramp. Evidently they are sharp enough to know they will be transported over the country without exertion. It may be that they enjoy the rapidly moving engine, at least it evidently pleases them to take a free ride.—Kansas City Times.

Burns Won the Dinner.

There is a story told of Robert Burns in his youth. Burns was living in the town of Ayr and, though still young, had attained more than a local reputation as a poet. One day he was passing through the main street of the town and saw two strangers sitting at one of the inn windows. With idle curiosity he stopped to look at them. Seeing him and thinking that the rustic might afford them some amusement while waiting, the strangers called him in and asked him to dine with them. Burns readily accepted the invitation and proved a merry, entertaining guest.

When dinner was nearly finished, the strangers suggested that each should try his hand at versemaking and that the one who failed to write a rhyme should pay for the dinner. They felt secure in the challenge, believing that their rustic guest would pay for the meal. The rhymes were written, and Burns read the following: "I, Johnny Peep, saw two sheep; two sheep saw me. Half a crown apiece will pay for their fleece, and I, Johnny Peep, go free." The strangers' astonishment was great, and they both exclaimed: "Who are you? You must be Robbie Burns!" —New Castle (England) Chronicle.

A Bismarck Reminiscence.

Professor Aegidi, who was for many years the chief of the press bureau, under Prince Bismarck, has published the following reminiscence of Prince Bismarck and the czar, Alexander II: "Before the outbreak of the Franco-German war the czar was with King William at Ems. They were together one evening, and Prince Bismarck was standing at the other end of the room anxiously watching the czar, whose more or less friendly attitude toward Prussia's policy was a matter of very great importance.

"Suddenly the czar's big dog, which had been lying silent under its master's chair, rose, prowled about the room, stopped before Prince Bismarck, looked at him, wagged its tail affectionately and licked the hand he held out toward it. The czar, who had attentively watched its movements, called out to Prince Bismarck at this moment, 'You see, the dog knows his master's friends.'"

Prince Bismarck, who told Aegidi this story, added: "I felt relieved. That was a historical moment for our policy."—Berlin Cor. London Standard.

The Russian Wolf Hound.

Faroff Russia, where winters are so severe that but for a few months in the entire year are the fields free from snow, is the home of a breed of dogs known there as the Borzoi, or Psovoi. The dogs are grand in aspect, with long, flowing coats of silken texture that defy the terrible cold, and they are built on lines that speak volumes for the antiquity of their origin. In this country they are known as Russian wolf hounds. England is the country that has perhaps done most for the breed. Some 15 years ago the Briton secured the best that Russia had and bred them with the exceeding judgment he displays in such matters. He today possesses beyond question some of the grandest living. Within the past few years, however, Germany has made most wonderful strides in breeding these dogs, and, together with the Briton, has brought them very rapidly to the fore.—Outing.

A Wonderful Map.

The ordnance survey map of England, which contains over 108,000 sheets, and which has cost $1,000,000 a year for 20 years to keep up to date, is said to be the largest map in the world. The scale varies from ten feet to one-eighth of an inch to the mile. The details are so minute that sheets having a scale of 25 inches show every hedge, fence, wall, building and even every isolated tree in the country.

One Definition.

"What is your idea of a political economist?"

"Well," replied Senator Sorghum reflectively, "there's lots of different kinds. But my idea of the genuine article is the man who manages to put by enough while he has an office to pay the expense of getting it for another term."—Washington Star.

—Two female frauds, soliciting funds for the Massachusetts Volunteers Aid association, have duped Westboro people. Look out for them.

VASSAR GIRL'S PLUCK.

Saved Three Men From Probable Death by Drowning.

Went to Their Assistance In a Rowboat.

Victims In a Perilous Situation When Timely Succor Reached Them.

Providence, Aug. 20.—Mary J. Bourne, daughter of Rev. Sheaarjshub Bourne of New York, who is spending the summer at the summer residence of the family in Barrington, probably saved Essex W. O'Neil, Arthur Dessault and Joseph McHenry from drowning Friday noon in the Warren river. The men were sailing in a 16-foot boat when the boom jibed and the boat was overturned, partially sinking almost immediately, although the afterpart remained out of water.

Miss Bourne had just landed at the wharf after having returned from Warren in a skiff. She saw the predicament of the men and coolly proceeded to their rescue. She instructed William Gatcher, an employe of her father's, to follow in another boat, while she jumped into her boat and rowed out to the men a quarter of a mile from the shore.

When she reached the boat, McHenry had sunk once and was nearly exhausted. Miss Bourne put an oar under him and aided him to secure a grasp on the boat. O'Neil and Dessault, who could swim, were nearly exhausted because of their efforts to aid McHenry. She plied one on either side of the boat, since the boat was too small to hold them all, and rowed toward the shore. Gatcher, the hired man, met her in another boat before she reached the wharf and took McHenry on board. John W. Donahue, who was in a sailboat, saw what was going on and went to Miss Bourne's assistance.

Miss Bourne, the heroine of the occasion, is 21 years old, and is a student at Vassar college. She is an expert oarswoman and equestrienne, and takes great interest in athletics of all kinds. She takes the whole affair very modestly.

Our Foreign Policy Discussed.

Saratoga, Aug. 20.—The colonial extension problem was taken up at the afternoon session of the national conference on the foreign policy of the United States. Carl Schurz of New York spoke at length, giving the views of the anti-expansionists, whose cause he advocated. He was opposed by Judge Grosscup of Chicago, who is an earnest expansionist, and who spoke at great length. A discussion followed between Messrs. Schurz and Grosscup. Among others who took part in the general discussion were Harry C. Garfield of Cleveland, F. B. Thurber of New York, J. W. Coughlin of Fall River, J. D. Duffield of Fall River, and F. Schack of New York.

Congressman Gillett of Massachusetts, in an address against prize money in wartime, said that the law has a tinge of savagery about it. It seemed like a relic of the old days when a prisoner belonged not to the government but to the individual captor, who would ransom him or dismiss him or keep him at his pleasure. "I am not a competent judge of the benefits of these laws to the service," he said. "Certainly our sailors have shown that they do not need the incentive of prize money to make them do their duty."

NEWS IN BRIEF.

Elmer Bucklin, 35 years of age, a Pawtucket laborer, was instantly killed yesterday by a train.

Walter Eichman of New Haven, aged 20, was seized with cramps while in bathing and drowned.

It is reported that at a series of bull fights at the village of Vicalvaro, four miles from Madrid, 28 persons were injured.

The Black Diamond Coal company, operating mines in the Jellico, Tenn., coal district, has been placed in the hands of a receiver. The liabilities are $165,000.

Another armed band of Carlists has appeared in the district of Ciudad Rodrigo, about 50 miles from Salamanca, and more Carlist agents have been arrested in Barcelona.

There have been shipped from Norfolk, in British bottoms, 17 cargoes of steam coal, aggregating 70,123 tons. These have gone to 11 different stations belonging to England, and it is believed that England is stocking such stations in the event of possible war.

In his last dispatch to the war department concerning the health conditions of his troops, General Shafter reports the death of 10 men, including J. D. Moriarty of company E, Ninth Massachusetts, and Arthur Burnham, company K, Second Massachusetts.

The Berlin newspapers exhibit almost childish glee at the statement that Admiral Dewey sanctioned Governor General Augustin's departure, and declare that "the English have nothing now on which to base machinations to disturb the relations between Germany and America."

Consul Mason at Frankfurt, Germany, reports that the German exports to the United States in 17 large mercantile towns in that district have fallen off heavily within the last year, the exports for the year up to June 30 being $31,026,501, as against $37,623,883 for the year previous, a decrease of $6,598,382.

At a special meeting of the directors of the national board of trade of cycle manufacturers yesterday, it was decided that there would be no bicycle show this year under its auspices. The stand taken was that the trade and manufacturers did not demand it, and that the enormous expense incurred was not returned.

Two freights jammed together near Chester, Mass., and a caboose and two coal cars were pitched across the tracks. The second wreck was caused by a freight running into an engine, and 15 cars containing livestock were wrecked. There are many cattle loose among the Berkshire hills as a result. No one was injured in either accident.

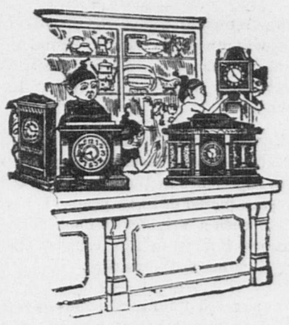

It is sad and disappointing for a father to rear a son, spend hard-earned money for his education, work to insure him an advantageous start in life, and build castles in the air about the boy's future, only to have him killed off in the early years of manhood by the dread disease consumption.

Until recent years consumption was considered an incurable disease. Now it is known to tens of thousands that Doctor Pierce's Golden Medical Discovery cures 98 per cent. of all cases if taken in the early stages of the disease. It also cures bronchitis, laryngitis, throat and nasal troubles and all allied diseases of the air-passages. It is the best blood-maker and flesh-builder, the best general tonic and nerve restorative. It gives a keen edge to the appetite, corrects the impaired digestion, promotes the flow of digestive juices, facilitates the production of chyle in the lower stomach, or intestines, invigorates the liver and purifies and enriches the blood. It tears down old and inert tissues and builds up new, firm, muscular tissues of health. It strengthens the heart's action, promotes the circulation of the blood to every part of the body and deepens the breathing, thus supplying the blood with vitalizing oxygen. Thousands have testified to its merits. The dealer who offers something else as "just as good" is dishonest.

"I never was very strong and then I had La Grippe," writes Mrs. Gracie G. Smith, of 480 15th St., Salem, Oregon. "I had a cough and felt tired all the time. I took three bottles of Dr. Pierce's Favorite Prescription and two of 'Golden Medical Discovery' and two vials of 'Pleasant Pellets.' I have better health now than for many years."

Twenty-one one-cent stamps cover the mailing of a paper-covered copy of Doctor Pierce's Common Sense Medical Adviser. Cloth-bound, 31 stamps. Send to Dr. R. V. Pierce, Buffalo, N. Y.

Good Afternoon.

The return of peace, the promise of business prosperity and an abundance of cheap money have been irresistible factors this week on the Stock Exchange.

Henry Clews of the great New York banking house writes: In all my business experience in Wall Street, which covers a period of forty years, I have never seen a brighter outlook for all business interest in this country than the situation now presents.

As a record of military achievements, the four months' war leaves behind it much of which the nation may well feel proud and much that will command the respect if not the admiration of other countries; but the matter for profoundest congratulation is that we should have made such conspicuous contributions to humane government and achieved for ourselves such large material results with so small a cost of life or treasure.

The appointment of Ambassador Hay as Secretary of State is an admirable one. It is one of President McKinley's best. Mr. Hay has of necessity acquired a large knowledge of foreign affairs, which is important in view of our new departures, and his tact and experience will serve to promote closer relation with Great Britain, our best customer for all that we have to sell, and our best friend in all that effects the welfare of the United States outside of its own territory.

It is only a matter of at most a very few weeks before Cuba and Porto Rico will be placed under our administration, upon conditions that will inspire confidence in the maintenance of public order and bring about an active resumption of trade operations. For some time at least, the reopening of the late blockaded ports will be attended with a return to more than the normal movement of merchandise; but the matter of chief interest will be the eager outlook for opportunities for American investment in plantation properties and in mercantile undertakings. Indeed the interest in such ventures has risen to such a pitch that it will not be surprising if this sort of enterprise is overdone. There can be no doubt, however, that under the Spanish dominations the rich resources of both islands have never received much more than a surface development, and a large and valuable trade with both islands must soon be forthcoming.

Literary Notes.

The Widow Eaton's dinner party, by Oakey Hall. A funny conversation on pie, capital articles on the onion and the complexion, mushrooms as food, and stories and poems beautifully illustrated in colors, make up the September number of "What to Eat," published in Chicago.

So old man Corbett shot his wife and then shot himself. Why couldn't he have waited till he had the whole family at home.

NOTICE!

I HEREBY Warn all persons against giving credit on my account to my minor son, ANDREW N. McKAY of Quincy, Massachusetts, for board, lodging, clothing or otherwise, and will not be responsible for the same because he has left his home without my consent.

Quincy, Aug. 19, 1898. Aug. 20 1t

BOYNTON RAILWAY.

Quincy Location Outlined and Petitioned Filed.

The Boston, Quincy and Fall River Bicycle Railway Co. has filed the following petition with City Clerk Cleaves for a location through Quincy. A plan of the location desired accompanies the petition:

For a right to cross with its railway, either above or below grade, Centre street at a point 600 feet from the line of Braintree,

Over and along said street, leading past the pumping station off said street, near and parallel with the N. Y., N. H. & H. R. R.,

Across Brooks avenue and Water street at the junction of said streets,

Over and along Marsh street from Quincy street to School street,

Across School street at its junction with Marsh street,

Across Granite street, 18 feet from Goffe street,

Across Goffe street, 20 feet from Granite street,

Over and along the street in front of the Quincy railroad station,

Across Saville street 75 feet from Goffe street,

Across Dimmock street 30 feet from Goffe street,

Across Adams street at its junction with Newport avenue,

Over and along Newport avenue to a point 50 feet south of Hobart street,

Across Hobart street 9 feet from Newport avenue,

Across Wilson street at its junction with the northerly portion of Newport avenue, over and along Newport avenue, from Wilson street to Squantum street,

Across Squantum street, opposite Newport avenue,

Across Myrtle street 178 feet from Hancock street,

Across Walnut street 160 feet from Hancock street,

Across Newbury street 58 feet from Hancock street,

Over and along Hancock street from a point 240 feet north of Newbury street to the Neponset line.

The petition is asked for by E. Moody Boynton, president of the company. It will be readily seen that the line for the most part passes over private land.

AT CAMP DALTON.

Camp Dalton,
Saturday, Aug 20.

Today is the most comfortable day in camp for many a day. The recent rains have made it very disagreeable at times.

The often-postponed officer's hop will probably be held this afternoon in one of the mess halls.

The stormy weather has prevented the change of location of tents.

Many regret the departure of T. V. Collins of the Army Christian Commission who has been ordered to Montauk Point. The Second Massachusetts is fortunate in securing such a man, and he will undoubtedy be able to do much good there.

The Fifth will give the Second and Ninth a warm welcome should they be ordered to Camp Dalton, as has been suggested.

A Peculiar Case.

An idea of the peculiar cases a veterinary surgeon is sometimes called to, is illustrated by one which Doctor Abele tells:

Some people went fishing. They had for hooks those with three single hooks bound by the stems and the barbed points spread in different directions. On one of the hooks was an imitation minnow to act as bait.

A big Newfoundland dog was with the party. His curiosity led him to investigate the bait. The bait worked; so too did the hooks. He got one stuck in his nose, another in his lip.

The owner and the doctor both tried, but could not remove them until ether was given. Then forceps had to be used to draw out the hooks. The dog did nor realize that they were being pulled out, but seemed quiet pleased when he came to, to find them gone.

Echoes of the War.

It is rumored that the Eighth Massachusetts will be sent home to be mustered out; many would not object now that the fighting is over.

Arrangements are being made to disband the Cuban army.

No more doctors or nurses are wanted at Santiago.

Gen. Shafter may leave Santiago on Saturday.

Col. Woodward and Lieut. Col. Chaffin reply to the charge of skulking, and say the Sixth Massachusetts was

Spain has appointed a Cuban commission.

Grand naval parade at New York today.

The Second Massachusetts Volunteers arrived at Montauk point, Long Island, yesterday. Seven of the regiment died on the voyage, and there was not a well soldier on the ship.

Gen. Bancroft will not resume his duties in the State militia for six months, having been granted leave of absence.

The weather during the last two weeks has been like Keith's theatre. Continual performance.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store, regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. We are bound to carry over no summer Suits, Hats nor Furnishings. That is why on Aug. 19 we open with what will always be remembered as the most bona fide bargain sale that Quincy has ever seen.

Read the following prices and ask yourself if you can afford to stay away and let others reap all the benefits:

Quincy Clothing Co.,

Quincy's Honest-Price Clothiers and Furnishers,

MUSIC HALL BLOCK.

WILL ILLUMINATE.

Houghs Neck People Reverse the Recent Decision.

Houghs Neck will hold its annual illumination this year as usual. This was settled at a largely attended meeting of the Improvement Association, held last evening.

Mr. Cavanagh presided, and read the article published in Friday's Ledger, to some parts of which he took exceptions. He said there was no desire to do any underhand business and the meetings were free for all to state their views. The meetings were for gentlemen and not rowdies, and anyone who was a gentleman would not vote with both hands.

The meeting then voted to hold the annual illumination and an executive committee—consisting of Arthur Dunham, Joseph Richardson, Andrew Meyers, William G. Shaw and William Wilson--was appointed to have entire charge. This committee will meet tonight to fix the date and to appoint sub-committees.

Little Peter Wins.

The order of finish in the open race at Kingston yesterday was:

30-Foot class, Meemer, Eclipse.

25-Footers, Little Peter, Areyto, Beatrice, Eleanor, Hermes.

21-Footers, Bud, Rooster, Tacoma.

21-Foot Class—Cabin Boats, Arab, Ishtar.

18-Foot Class, Circe, Yankee, Bobolink, Maori, Dolphin, Fedora, Mignon, Idone.

15-Foot Class—Vitesse, Atilla, Ray, Knockabouts, Tpyhoon, E. V. R. Thayer, Jr. Geisha, W. T. Whitman.

First special class, Olymphia, Veritas, Frolic, Kittiwake, Scrap, No Name.

—Prescott, Ar., claims that it furnishes he first volunteer in the present war, and that for that place the first company started to the front. The volunteers was Captain O'Neill of the Rough Rider, and a monument to his memory is to be erected on the Court House piaza of Prescott.

—Brookline, the richest town in the United States, has grown richer by $2,000,000 during the pas 1year.

WRECK UPON WRECK

Serious Railroad Accident at Chester.

John Lawrey of this city, who came from Chester today reports a serious railroad disaster in that town this morning. Chester is on the Boston & Albany Railroad some miles west of Springfield, about half way between Springfield and Pittsfield. Early this morning two trains came in collision, and before the express freight from the West with live stock could be stopped it also crashed into the wreck. The number killed and injured is not known.

—The new tower clocks on the subway stations in Scollay and Adams squares are found to be very convenient, not only to visitors to the city, but to Bostonians themselves.

"Pure Spices for Good Pickles."

Our Idea

is to make everything about this grocery store exactly right. We are particular about even the little things that are often overlooked on account of their littleness.

Our Spices for pickling are pure—we are ready to guarantee them so. You need the very best spices you can buy to ensure a good quality of pickles.

Stickney & Poor's Spices are absolutely pure.
Full weight always.

The Great Ink-ubator

For Hatching Out Business Is the Daily Ledger.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Mr. Teddy Galvin attended the races at Plymouth on Thursday.

Mr. John T. Hunt of Atlantic has been taken to the Quincy Hospital.

T. J. O'Brien has opened a new grocery store in the Craig building on Garfield street.

Mr. George W. Hayden has enlisted in the 7th infantry, U. S. Regulars, and is now in Florida.

Now is the time to buy a watch for little money at A. A. Linscott's. See ad. in another column.

The shrubbery overhanging the fence on Sagamore avenue from the depot to Hancock street is being trimmed.

Mr. and Mrs. Robert Melville Baker of Wellesley Hills are entertaining Mr. and Mrs. James F. Halrow of thiscity.

The Quincy Yacht club's entertainment next Tuesday evening, will be in the nature of a smoke concert thus necessarily barring out ladies. It will be free to members and their guests.

Rev H. C. Wright went Monday on a month's vacation to his home in Ohio Rev. M C. Beale of Roslindale will occupy the pulpit during his absence All services will be continued as usual.

One of the features of a new soldiers' monument at Pana, Ill., is a bronze baserlief, modelled by Herbert W. Beattie of Quincy, Mass., representing Company G of the Fourth United States Heavy Artillery in action at Gettysburg.

At last a man has been found who is making a success as proprietor of Hotel Greenleaf, Mr. Dexter Remick. This week he has opened a new cafe in what was formerly store of the Trading Stamp Co., and it is attractive, and bound to flourish.

Lieut. Henry W. Sprague of this city is laid up at Governor's island, New York, with malaria, and hopes to get a furlough that he may come home. The detachment of the signal corps which came north on the Seguranca are all willing to be mustered out, and do not take kindly to the idea to go to Huntsville, Ala.

Friday two Italian boys were pushing a fruit cart toward Houghs Neck when Charles Duncan came along in a team and run into the boys and upset their team. Duncan was later arrested and this morning he settled the case by paying the boys $8 for the damage he had done, and paying the court the costs in the case, amounting to $9.62.

—The bombardment of earthworks by ships off shore always proves waste of powder. Sampson's fleet fired $2,000,000 worth of big ammuniton at the batteries defended by the earthworks of Santiago harbor without dismantling a gun or doing more than knocking a few harmless holes in the earth. But it made the Spanish artillerymen take to subterranean shelter very rapidly. The Spanish defences were examined by the American naval officers after the surrender and found intact.—Brockton Enterprise.

—In Battery I, First Heavy Artillery, Massachusetts Volunteers, now at Fort Warren, from Brockton, there are five pairs of brothers, the Allens, Churchills, Foyes, Holmes and Marshalls.

DIED.

SMITH—In Braintree, August 17, Mr. Peter Smith, aged 56 years, 9 months and 10 days.
CHICK—In Braintree, August 13, Mrs. Flora E., wife of Mr. James W. Chick, aged 44 years, 1 month and 21 days.

ALSO A LAUNCH.

Quincy Yacht Club Expect a U. S. A. Life Saving Boat.

One of the U. S. Life Saving launches from the City Point Life Saving Station will probably patrol the waters in front of the Quincy Yacht club's house during the cup races, as is evinced by the following letter which General Superintendent Kimball has forwarded to the keeper of that station, a copy of which was forwarded to the Quincy Yacht club:

Treasury Department, Office of the General Superintendent Life-Saving Service

Washington D. C.
Aug. 18, 1898.

Keeper City Point L. S. Station,

Boston, Mass.

Sir:—This office is in receipt of a letter under date of the 15th inst. from the Secretary of the Quincy Yacht club, stating that beginning on Monday, Aug. 22d, and for three or possibly five days in sucession there will be races in Hull Bay, Boston Harbor, for the cup offered by the club for 21-footers; and that it is probable that a large number of craft of various kinds will be in attendance, necessarilly entailing danger to each other as well as to their own occupants in case of a sudden quall, etc.," and asking that one of the launches from your station be detail to be present off the club anchorage on the afternoon of the races.

If in your judgment such detail of one of the launches can be made without imparing the efficiency of the service within the station precincts you are authorized to make it.

In case of making the detail you will send only such portion of the crew as is necessary to take charge of the launch as will leave the home limits of your station under proper surveillance and protection.

I have informed Mr. Whiting of the contents of this letter.

Respectfully yours,
S. I. Kimball,
General Superintendent.

It now looks as if the Revenue Cutter "Dallas" would have her hands full in keeping the porgy steamers and their huge seines out the course of the cup races next week. When a porgy fisherman spreads a purse seines 1,200 feet long in a small harbor it come pretty near occupying a large slice of the available waters. These steamers have been scooping in porgies, to say nothing of smelts, another fish by the cart load on Weymouth Fore river and adjacent waters the past few days.

—All corporations are not soulless. The N. Y., N. H. & H. Company is still paying those of its help who enlisted in any of the regiments for war service regularly. A certain man comes under this head, and his family receives his pay envelope with something sustantial in it every pay day. The beauty of it is that the man did not know anything about it when he enlisted and expected not only to lose his job, but his pay.—Middleboro Gazette.

—The selectmen of Dedham demanded of the new street railroad company for the right to run their tracks through High street that it should be paved from Memorial square to "Connecticut corner," iron poles erected along that portion, and that the street be watered during hot weather.

—A Spanish newspaper, published in Barcelonia, says: "The average height among the Americans is five feet, two inches and they have never produced an athlete. This is due to their living almost entirely upon vegetables, as they ship all their beef out of the country, so eager are they to make money. There is no doubt that one full-grown Spaniard can defeat any three men in America." Perhaps they know better now.

—Samuel R. Moseley, publisher of the Norfolk County Gazette, has been appointed postmaster at Hyde Park, to succeed E. C. Jenney, whose term of office expires the latter part of this month. Bro. Moseley is the right man for the place, and having had four years' experience will be very popular with the citizens of that growing town.

—It is said the war taxes are being collected at the rate of a million a day, and who feels them. There is no country in the world that could do it so easily and so readily.

—Residents of South Weymouth have been swindled lately by itinerant potato peddlers using measures with false bottoms. Citizens will find it much better in a long run to buy their provisions of a reliable home merchant.

—There is cabinet authority for the statement that when Judge Day retires from the state department soon, Ambassador John Hay will succeed him as secretary of state.

—One of the most significant signs of the times is the outspoken endorsement of the gold standard by western conventions.

"BEST" CLEANING MIXTURE.

How to Make Fluid That Restores Cloth to Its Pristine Color and Freshness.

"Best" is the name given to a cleaning fluid that should be in the possession of every housewife, be she wife and mother or only aunt or housekeeper. The proportions are:

Four ounces alcohol, four ounces ether, eight ounces ammonia.

Let your druggist mix this for you and never take it near a fire. Next take a half pound of best castile soap, cut up, add a pint of hot water and dissolve. Then add a gallon of water and boil. Put into a demijohn with a very tight cork and add when cold a pint of the "Best" mixture. Shake them together and you have the most efficacious cleaning fluid that can be mixed. It removes grease, stains (except when the color is already destroyed) and it softens the goods.

Fill a washtub with warm water about four inches deep (not hot water), add to that about a teacupful of your "Best" mixture and then throw in your cloth, four or five breadths, and wash by squeezing the water through the fabric; do not rub. The suds will be very thick and the more the cleaning water is forced through the meshes of the goods the better.

From this tub take each piece and rinse in clear water of the same temperature as that at first used. This keeps the material from becoming harsh. Rinse until the water is not discolored, and then, if the goods be black, throw into a pan of blue water so dark that it is nearly black itself. Take out, fold in regular way and put through a wringer; do not twist. Then hang in the shade, but in the open air, if possible, to dry.

Next comes the pressing. If the material is black, it should be ironed upon a black ironing sheet always; if white is used, all your trouble is for nothing, as the lint will enter into it and never come entirely out.

In all cases where cloth is used the pieces before marked in pairs should be laid right to right side and pressed together slowly with heavy irons not hot enough to leave any mark either of yellow or of the shape of the iron upon the ironing sheet. A very hot iron kills the life of a wool material and also destroys the new nap effect that is produced by ironing two pieces face to face, as before suggested. The pressing of the cloth is as important as any part of the work. Do the ironing upon a broad table top, so that the pieces need not be ironed until finished, and then lay them, still together, somewhere where they may lie smooth until absolutely stone dry.

As for the lining, wash it in the water used for the stuff and press. If the material washed is of a light color, it is best to do only one piece at a time and not allow it to soak. The washing water must be changed as soon as discolored so that for economy very little water should be put in the tub at a time. Remember that the whole fiber of a fabric is dyed by the water in which it is washed or rinsed, and if light gray is to be washed, or white, the water must be absolutely pure. A little of the mixture on a sponge will clean spots from coat or waist.

How to Make Sweet Potato Croquettes.

Peel and boil six medium sized sweet potatoes, and when perfectly cold mash them fine and mix with one tablespoonful of butter and two eggs. Season with half a teaspoonful of salt and a quarter of a teaspoonful of white pepper. Mixing all together, form the potatoes into cork shaped croquettes or into small balls the size of a walnut. Dip them into beaten egg and roll in bread crumbs. Fry in hot fat to fine golden color.

How to Prevent Seasickness.

The best remedy for seasickness is to avoid the ordinary ship diet, taking dry food, consisting of dense water crackers, toasted granose cakes and fruits. Stay in bed, keep the eyes closed, keep the extremities warm, and, most important of all, keep an ice bag to the back of the neck. Avoid the use of brandy and stimulants of all sorts and the use of drugs. As soon as the nervous system has become somewhat accustomed to the movement of the ship, go on deck, but still keep horizontal and keep the eyes closed, and don't forget the ice bag for the back of the neck. If the weather permits, it is well to be on deck as much as possible from the very outset of the attack.

How to Polish Leather Furniture.

This polish, which is very suitable for dark leather, should be made by beating together the yolks of two eggs and the white of one. Mix separately a teaspoonful of sugar and a tablespoonful of gin. Thicken this with ivory black and add the mixture to the beaten eggs. Apply to the leather as an ordinary blacking and leave the seats unused for a day or two.

How to Make Peach Marmalade.

Peel the fruit and remove the pits, cutting the peaches in small pieces. Put over a slow fire and bring slowly to a boil, stirring frequently. When hot, boil rapidly for 45 minutes. Add the sugar, allowing three-fourths of a pound for each pound of fruit. Boil for five minutes, skimming well. Put in the juice of one lemon for every three pounds of fruit and the water in which one-fourth of the peach kernels have been steeped. Boil until thick and smooth, when it is ready to put in glass cans. A pineapple chopped or grated gives a fine flavor.

How to Get Rid of Flies.

London women have discovered a very agreeable way of ridding their homes of flies and mosquitoes. They burn sandalwood in the house. This is an oriental idea. In London it is possible to get the wood prepared for this purpose, but here it is not so easy, as American women have not yet taken to the practice.

Aug. 16. 6t

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

QUINCY MASS.

ANNEXATION FAVORED

Havanese Not Willing to Be Ruled by Rebels.

Tyranny Certain to Provoke Rebellion.

Disappointed Insurgents Reported as Threatening Their Deliverers.

London, Aug. 20.—The Times publishes a letter from Havana, in which the writer says: "The civil population have arrived at a deliberate opinion in favor of annexation to the United States, and probably the army will eventually follow their example, however reluctantly. While independence, which would signify the tyranny of the rebel party, would almost certainly be followed by the fiercest of civil wars, on the other hand, in the event of annexation the disappointed rebels would probably turn their arms against the Americans and, as one of the highest government officials told me, he would not be surprised to see the Spaniards, perhaps even the Spanish troops, assisting the Americans against the insurgents."

Declaring that the Cubans give open expression to suspicions of and threats against the Americans, the correspondent expresses the belief that the Americans could easily suppress a rebellion, and that therefore "annexation, which nine-tenths of the inhabitants desire because they dread independence above all things, seems to be the only solution that will bring peace to the war-wasted land."

Questions to Be Discussed.

The government has appointed a Spanish commission to consider a definite basis for a treaty of peace. The personnel of the commission, however, is not announced. It is reported that the questions to be discussed are as follows:

First—Cession of territory and the determination of conditions of indemnification by the United States against damage to public buildings, forts and the state lands.

Second—Indemnity for war and navy material mutually agreed on to come into possession of the United States.

Third—Conditions of and time for the evacuation by troops and volunteers, with the war material agreed on.

Fourth—Commercial and custom house advantages to be conceded.

Fifth—The recognition of property of all kinds of all Spanish citizens and the guarantees to be offered them during their stay in the island.

Sixth—The form of government to be established in Cuba.

A Landgrabbing Scheme.

Thursday the president and newly elected board of the Spanish casino paid their respects to General Blanco. The president, in the name of all the Spanish residents in the island, requested General Blanco to grant himself and his colleagues the lots given for the purpose of erecting quarters for the volunteers in order that they might build a sumptuous palace for the exclusive property of the Spanish colony, and in which the Spanish consulate, the casino and other establishments belonging to Spaniards might be established. He also requested General Blanco to authorize the collection of funds by popular subscription for the purpose of increasing the Spanish navy and erecting a statue in memory of Mr. Canovas and other works. General Blanco answered that he found the petition logical and practical, and promised to interest himself in furthering the desires of the petitioners.

Insurgents Plunder Stores.

At 9 o'clock on the night of Aug. 14, 100 insurgents entered a village between Forts Espana and Azcarraga and plundered a store without attracting the attention of the residents. While they were entering Cuevas, near Fort Alamanc, a sentinel fired at them. They were also fired upon from the forts, and a number of shots were discharged at them from the village. One sentinel was killed.

The invaders plundered stores and private houses, including the residences of the village mayor and judge, from which were stolen clothes and jewels, leaving the inhabitants with only the clothing they had on. The insurgents burned a store in revenge for the wounding of one of their officers. They carried away all the property which they could remove, driving off many horses and cattle, and carrying away large quantities of clothing and jewelry. Owing to the suspension of hostilities the attack was unexpected.

On the night of Aug. 17 there arrived at Cayo Frances an American steamer under command of Lieutenant Ern with provisions for the American army operating in that province. While distributing bread in the forts protecting the railroad between Caibarien and Placetas, a party of insurgents who were ambushed in the woods fired upon and wounded several firemen of Havana who were engaged in the work of distribution. The wounded were removed to the Red Cross hospital.

Interview With Sagasta.

London, Aug. 20.—The Mail's correspondent in Madrid gives the gist of an interview that was held with Premier Sagasta, who is quoted as saying that there are many problems to be discussed by the peace commissioners. He declared among other things: "Spain may abandon her sovereignty over the greater Antilles; but there will remain the question of edifices and all our properties. There are law suits before the tribunals affecting the interests of the Spaniards. Where and when will these be decided? In Havana, where a large number of criminals have been condemned by Spanish tribunals, what is to be done with them? Then there are other questions for which we have to fix a basis of discussion and agreement.

"Besides these and other problems of greater importance, there is a preliminary question to be discussed. According to international law, as a suspension of hostilities has been signed, the surrender of Manila ought to have no legal efficacy. How will that principle be understood by the United States? This causes us more anxiety, and we give it great attention; but we are still awaiting the information demanded from General Jaudenes, which has not yet reached us on account of the difficulties of communication between Manila and Hong Kong."

These remarks have all the appearance of being authentic, as they are in accord with information from other sources and in harmony with Sagasta's usual style. The public is still anxious for an explanation of Governor General Augustin's mysterious departure from Manila, but its curiosity is not likely to be satisfied for some time, the government declining to say anything.

Occupation of Cuba.

London, Aug. 20.—The Times foresees circumstances which may compel the United States to a permanent occupation of Cuba. It says: "If America is prepared to undertake the responsibility of governing the Philippine group it is hard to seen how any other power could legitimately interfere. If the United States repudiates such responsibility a very perilous state of things might ensue, because it would not be easy to dispute the right of other powers to terminate the state of anarchy. Therefore many difficulties will be avoided by American annexation. In any case no European power need reckon upon finding the United States as easy to coerce as Japan."

Some of Spain's Commissioners.

Madrid, Aug. 20.—The cabinet council has decided to appoint General Parrado, second in command in Cuba; Rear Admiral Landero, who succeeded Admiral Navarro, the Spanish commander in Cuban waters, and Marquis Montoro, minister of finance in the insular cabinet, as the commission of evacuation for Cuba. The Porto Rican commission has not yet been appointed, the government awaiting an expression of the views of Governor General Macias, but it has been decided that Admiral Vallarino shall be one of the commissioners.

The peace commissioners have not been nominated; but it is believed the composition of the commission has been decided upon, though the names of the members will not be published yet, as the government is resolved to take advantage of the delay granted by the protocol in order to avoid a cabinet crisis.

Sagasta Begins to Hesitate.

Madrid, Aug. 20.—All the indications are that the peace negotiations will be prolonged. The opposition factions are redoubling the agitation for convoking the cortes, and it is said that Sagasta begins to hesitate, although he shares the opinion of the foreign minister as to the inconvenience involved in a meeting of the cortes and a series of debates during the peace negotiations. It is possible that the cortes will meet after the elections to the councils, about the middle of September.

Good Sized Resting Place.

Washington, Aug. 20.—Senator Bacon of Georgia was in Washington yesterday, looking after the interests of Georgia troops. He said the Georgia boys do not want to be mustered out, and prefer to go to Cuba.

Senator Bacon does not believe in the retention of the Philippines, but says the United States ought to hold a good sized "resting place"—not merely a coaling station, but territory to meet all needs in the future. He does not think the United States ought to assume the management of a vast population which it will be difficult to govern, and to acquire islands which it would be impossible to defend.

The senator says that in Cuba and Porto Rico we have problems enough now, but he thinks that they will work out in a satisfactory manner.

It is unfortunate, in his judgment, that the Cubans come under our direct view at the worst possible time for them. Eighteen months ago they would have made a very much better appearance, for since that time they have undergone great hardships and been unable to procure either food or clothing; hence the condition in which they were found by our troops at Santiago. Senator Bacon believes that when the insurgents fully understand the purposes and beneficent effects of the United States intervention, all difficulties will be adjusted.

Aggregation of Warships.

Washington, Aug. 20.—One of the largest fleets of warships ever assembled in an American port will be brought together in the next few days at Fort Monroe. Already 57 warships are under orders to rendezvous there, and the orders still to be issued will raise the total to the neighborhood of 70. Naval officials say it is difficult to realize the extent of such a marine aggregation in one harbor. The movement of the ships northward is due to the close of hostilities, and more particularly to the desire to get the ships away from points of possible fever infection. They will now be put in thorough repair, and their crews will be gradually changed from naval militiamen to sailors of the regular navy.

The navy department has not yet determined what ships will go to Havana, San Juan and other points of Cuba and Porto Rico. There is felt to be no hurry about this until the authority of the United States is fully established throughout the islands. In the meantime the matter of policing the shore points is being considered, and in due time a number of the light draught auxiliary cruisers and some of the single turreted monitors will be used for this coast patrol. It is found, however, that only four of the old monitors are fit for this service in southern waters.

As many naval vessels will be centered about the West Indies from this time forward, the navy department will send the new floating dock, recently bought in New York, down the coast to Pensacola, where it will be kept for docking the warships. At that point also there are good naval workshops to be used in conjunction with the floating dock. The dock is now being inspected and will be towed to Pensacola as soon as the September gales are over.

New York's Big Event.

New York, Aug. 20.—Today's parade of warships did not equal that on the occasion of the Columbus celebration, but it was an impressive and beautiful spectacle. The occasion was made a holiday, and there was an immense throng of visitors in the city, steamboat and railroad lines running excursions. In the towns surrounding New York a full holiday was given by employers to their men for the purpose of enabling them to attend.

The ships first proceeded to the anchorage at Tompkinsville, and there awaited the arrival of Mayor Van Wyck, who, with a delegation of citizens, went aboard the flagship and delivered an address to Admiral Sampson and the men of his command. This ceremony over, salutes for Admiral Sampson and the fleet were fired from Forts Hancock, Wadsworth and Hamilton, and from the saluting station at Governor's island. The squadron sailed up the Hudson, discharged the national salute of 21 guns and returned.

Belong In Massachusetts.

New York, Aug. 20.—Among the 248 patients on board the Relief, which arrived yesterday, are the following: Charles F. Videts, company E, Sixth Massachusetts; John Brookshire, company C, Sixth Massachusetts; Frank C. Douglas, company C, Sixth Massachusetts; Patrick Connor, company E, Sixth Massachusetts; George H. Connell, company C, Sixth Massachusetts; James Fierse, company M, Sixth Massachusetts; Warren T. Hapgood, Sixth Massachusetts; Henry Taylor, company F, Sixth Massachusetts; John Donovan, company B, Second Massachusetts; Clarence Warren, Sixth Massachusetts; James Drummond, company K, Sixth Massachusetts; James A. Donohue, company G, Sixth Massachusetts; Thomas F. White, company E, Sixth Massachusetts.

Have Money In the Bank.

Portsmouth, Aug. 20.—The Spanish prisoners here are getting restive, now that they believe Admiral Cervera is going home, and knowing that peace has been declared. Each man received $20 in pay, and some of it was immediately invested in tobacco. Others have had the money deposited in Portsmouth banks until they leave for Spain. The prisoner in the guardhouse is of noble blood, named Diaz, and his punishment is for threatening the lives of Spanish officers. He served as secretary to the second admiral of the fleet. He came here on the Harvard in irons, and his vindictiveness is due in part to his seeing Spaniards pillage their countrymen. Diaz himself lost nearly all his personal belongings. He considers the other prisoners as thieves, and a strict guard has to be kept over him.

Food Caused a Strike.

San Antonio, Aug. 20.—The volunteer troops in garrison at Fort Sam Houston mutined yesterday at breakfast and marched out of the mess hall in regular order as a protest against the food furnished them. The matter is under investigation.

Lived by Roguery.

Boston, Aug. 20.—Requisition papers are being prepared for the return of Harry Kelley, a young man now serving out a sentence at Blackwell's island, New York, who is wanted in Boston to answer to a long series of forgeries. Kelley has been in jail nearly a year. He will be discharged Sept. 1.

He was a stranger to the business men of Boston, but he convinced them that the checks which he presented were all right by showing them a letter purporting to come from the president of the Quincy House company, and informing him that the enclosed check was sent in payment for an advertisement in a program. Kelley had no difficulty in "laying down" his checks. Being of clean and gentlemanly appearance, dressed neatly, but not flashily, he would make his purchase, get his check cashed and leave the store without being suspected.

At the end of his week's stay in Boston he had passed more than a score of checks. From here he went to Concord, N. H., "laid down" a number of checks there and then hurried to New York, where his rascality led to his apprehension.

Robbers Well Paid.

New York, Aug. 20.—A man and a woman, mounted on bicycles, held up and robbed Edward Shindler and wife of Paterson of $550 and then rode away as coolly as if nothing unusual had taken place. It was an up-to-date job in every detail.

Mr. Shindler attempted to drive around the bicyclists, but the man jumped from his wheel, and, pulling a revolver, called to Shindler to stop his horse and throw up his hands. Shindler and his wife were compelled to obey. Shindler told his wife she had better hand over the satchel, and the female robber took it and broke the lock with a stone to assure herself that the money was really in it.

Mrs. Shindler had $1560 in treasury notes sewed up in her skirt which the robbers failed to get. In the bottom of the carriage was a bag containing diamonds, a gold watch and other jewelry, which was also overlooked by the robbers.

The News of Beantown.

Boston, Aug. 20.—Captain Pritchard of the Carinthia reports passing on the 17th a quantity of wreckage and the bodies of five persons, on which were life belts, on the grand banks. One body was that of a man of unusual size. A life buoy of foreign make was near the bodies. The Turkish wrestler, Yousouff, familiarly called the "terrible Turk," was believed to have been lost in the Bourgogne disaster, and the body mentioned might have been his, as Yousouff was of large physique.

The Volunteer Aid association has appropriated $10,000 to establish a diet kitchen at Montauk point to cook proper food for the convalescents. Six cooks have been borrowed from Young's hotel. A gentleman who desires his name withheld has contributed to the association a towboat to ply between New London and Montauk point, and another has given a lighter, as it is hard to get supplies across.

Butler's Been Converted.

Houston, Aug. 20.—In a speech at a Populist encampment at Greenville yesterday, Senator Marion Butler of North Carolina, national chairman of the Populist party, surrendered to the middle of the roaders, or anti-fusionists. He declared that as national chairman he would promise that there would be no trades or combines with either of the old parties before the next national convention; that he would call that convention at least a month before the Democratic or Republican convention met, and thus prevent any opportunity of fusion.

THE SPORTING WORLD.

The accompanying sketch is from a photograph of the Cleopatra, a 40 foot Nantucket catboat, which carries an American flag for a mainsail. The Cleopatra is owned by A. O. Russell of Cincinnati, who summers at Nantucket. The sail was his idea and was made for

PATRIOTISM IN A MAINSAIL.

him regardless of cost. The sail is 41 feet 6 inches on the boom, 26 feet 2 inches on the gaff, 23 feet on the hoist and 53 feet on the leach. The red stripes and the blue union are dyed in colors which it is believed will be fast, and the duck is of a special weave. The effect of the sail is beautiful as well as novel and striking.

Joy In Century Runs.

Following is the reply of a man who wears a yard long string of century bars, to the question, "What fun is there in riding a century?"

"Well, it's the fun of doing something now and then that you don't do every day. It's the fun of doing something everybody else can't do, or does not do. There is a lot of satisfaction in being able to go out on a Sunday and reel off 100 miles and feel fresh and good and get up bright and ready for business the next day. Why do I ride centuries? I like it. All this talk about century riding being done solely for the sake of boasting about it and being done at the cost of a terrible strain is nonsonse. It is true, as I say, that there is satisfaction in doing it, but I mean doing it easily and enjoying it. The satisfaction of being somewhat a stronger rider than others is only a part of it. There is enjoyment all along the line. There is pleasure in a 50 mile ride if it doesn't use you up, and there is twice as much in a spin of 100 miles. I like to see the country and I do see it, nothwithstanding the talk about not being able to look around. What's a century! One hundred miles in 14 hours is not terrible riding. It doesn't call for any scorching or prolonged strain. Almost anybody can do it, and those who don't think they can would be surprised to find how easy it is."—New York Sun.

Cycle Ice Cream Freezer.

A confectioner in Manchester has discovered a very novel use for the bicycle. This is nothing more than converting his machine into an ice cream freezer. The bicycle, which is of course stationary, is mounted by a boy, who instantly pedals away for all he is worth. The chain is connected with the freezer, and thus causes it to turn very quickly. In this manner he can freeze a 17 gallon tin of ice cream in 20 minutes. There is no difficulty in getting the boy to work. He enjoys and thrives upon it and seems delighted to think that he can scorch—or should it not be freeze?—away to his heart's content, without any fear of incurring the displeasure of an enterprising policeman.

Evils of the Percentage System.

So many bouts are decided on the percentage basis nowadays that the system is responsible for many adverse comments. The clubs are disposed to offer clever men 50 per cent of the gross receipts and the two boxers take that portion and divide it on the basis of 75 per cent to the winner and 25 per cent to the loser of the bout. Clever men are willing under this plan to box for the "losing end," which usually amounts to a fairly good sum. Other men of indolent dispositions do not train carefully, and then go in the ring and box for "draw" decisions.

Women Golfers.

The number of women in this country who play golf is simply astonishing. It is estimated that if one could get a complete list it would aggregate a fair number of thousands. Of course, however, any such exhaustive statistics are out of the question in a matter of this sort. Very many women play who do not belong to any club, very many more belong nominally but not really to the club, the links of which they make use regularly, and very many others still belong to clubs, but could not for the reason of remoteness be reached.—Golfer.

Peculiar Baseball Incident.

A peculiar incident in the baseball career of Outfielder McCreery and one that may never be duplicated by any other player was reported last year. The player in question participated in more championship games than were contained in the National league schedule, and he was on the bench for the part of a week at that. The explanation is simple, for the ex-Giant took part in all the double headers at Louisville and later in the season did likewise for New York when the western clubs came east.

Duplicate Whist.

A salient feature in the new code of duplicate whist is that single table duplicate is entirely ignored. In other words, a game of that sort is not considered whist by the American Whist league. The following definition is given of duplicate whist: "Duplicate whist is that form of the game in which each deal is played once only by each player, but in which each is so overplayed as to bring the play of team pairs or individuals into comparison."

OUR STORE IS BRIM FULL OF BARGAINS.

Summer Furniture.

The piazza is the summer sitting room, and in-door chairs are not just right for out-of-door use. You need comfortable, weather-proof chairs for the porch.

Some of these summer chairs are so cheap that one season's use repays their cost. Some are so handsome that they can be carried into an elegantly furnished room.

HOW TO CURE CATARRH.

Information as to Diet, Drinks, Bathing, Clothing and General Care of the Body.

A pure diet of fruits, grains and nuts, and if milk is used let it be taken in the form of buttermilk or koumiss. Avoid animal fats and greasy dishes, condiments, meats and all indigestible food stuffs. A dry diet, which must be well chewed, is preferable, and the two meal a day plan of eating. Drink freely, but not at mealtime. Three pints a day is none too much in hot weather.

At bedtime take two or three times a week a warm full bath for cleanliness. On rising each morning take a cool or cold sponge or shower bath. Gradually lower the temperature. Rub the skin well, and in cold weather apply a little vaselin or cacao butter.

Take a sufficient amount of exercise daily to produce perspiration, and be very careful to avoid taking cold afterward, changing the clothing if necessary and cooling the skin by a cool sponging. There is no danger in a cool bath while perspiring unless there is considerable fatigue as well as free sweating.

The clothing must be carefully adjusted to the weather and season. It must not be too warm. Rather light clothing, both day and night, tends to health and vigor of the skin and the system at large. Wear linen underclothing next the body. Open, loose texture is best. Woolen clothing may be worn over the linen as may be needed for warmth.

The clothing of the feet is especially important. Warm shoes with thick soles are needed. The uppers may be of leather in summer and felt in winter, if needed for warmth. Avoid rubbers except for brief wear when exposed to moisture underfoot. When rubbers have been worn for an hour or two, the shoes and stockings as well as the rubbers must be removed, for the reason that they are damp from retained perspiration and the feet will be chilled by evaporation after the rubbers are removed if dry clothing is not supplied. The same principle applies to the wearing of mackintosh cloaks and other waterproof clothing. The skin of the whole body must be kept dry and warm. Special attention must be given to the feet and legs. Avoid too warm clothing of the neck by means of furs, etc.—Dr. J. H. Kellogg in New York Voice.

How to Make Chicken Stew.

Take two nice chickens about 10 months old, cut them in even sized pieces, wipe them very dry in clean towel or napkin, have some nice fat ready to fry them till they are a nice brown, chop one onion, a little garlic and parsley very fine, put it in and cover, but do not let it burn. About 15 minutes before it is cooked add one good glassful of white wine and one can of French mushrooms. Allow them to heat through, and it is ready to serve.

How to Cook Veal Hearts.

Veal hearts are much more tender than beef. They should be put on in cold water and cooked till tender, and should be boiled as soon as they come from the market. After boiling they will keep, and when wanted for lunch should be treated in the following way: Put a tablespoonful of butter in the pan and a slice of onion and a few shreds of carrots, then four hearts and a cupful of the water the hearts were boiled in and a heaping saltspoon of salt. Cover tightly and allow them to simmer half an hour. Turn them while cooking. Place on platter slices of toast; on them place the hearts, strain the gravy, season with three dashes of paprika and turn over the hearts.

How to Make Fire Lighters.

Melt one pint of tar with a pound and a half of resin, and as it cools add half a gill of spirits of turpentine and mix in as much charcoal and sawdust as will make a dry paste. Spread this in layers to cool, and when cold break into small portions, of which two or three laid at the bottom of a grate will burn brightly and rapidly ignite the wood and coal laid upon them.

How to Make German Cucumber Salad.

Pare three very ripe cucumbers and cut them in half inch slices. Then pare each slice as thinly as possible from the outside to the seed part, making a long, thin, curling strip. Cover the strips with plenty of cold water, in which three teaspoonfuls of salt have been dissolved. Let them soak for two hours, or until soft. Then drain off the water and squeeze them in a soft cloth until quite dry. Toss them up in a salad bowl, cover with a French dressing and serve very cold, with finger length brown bread spread with soft cheese.

How to Make Hair Tonic.

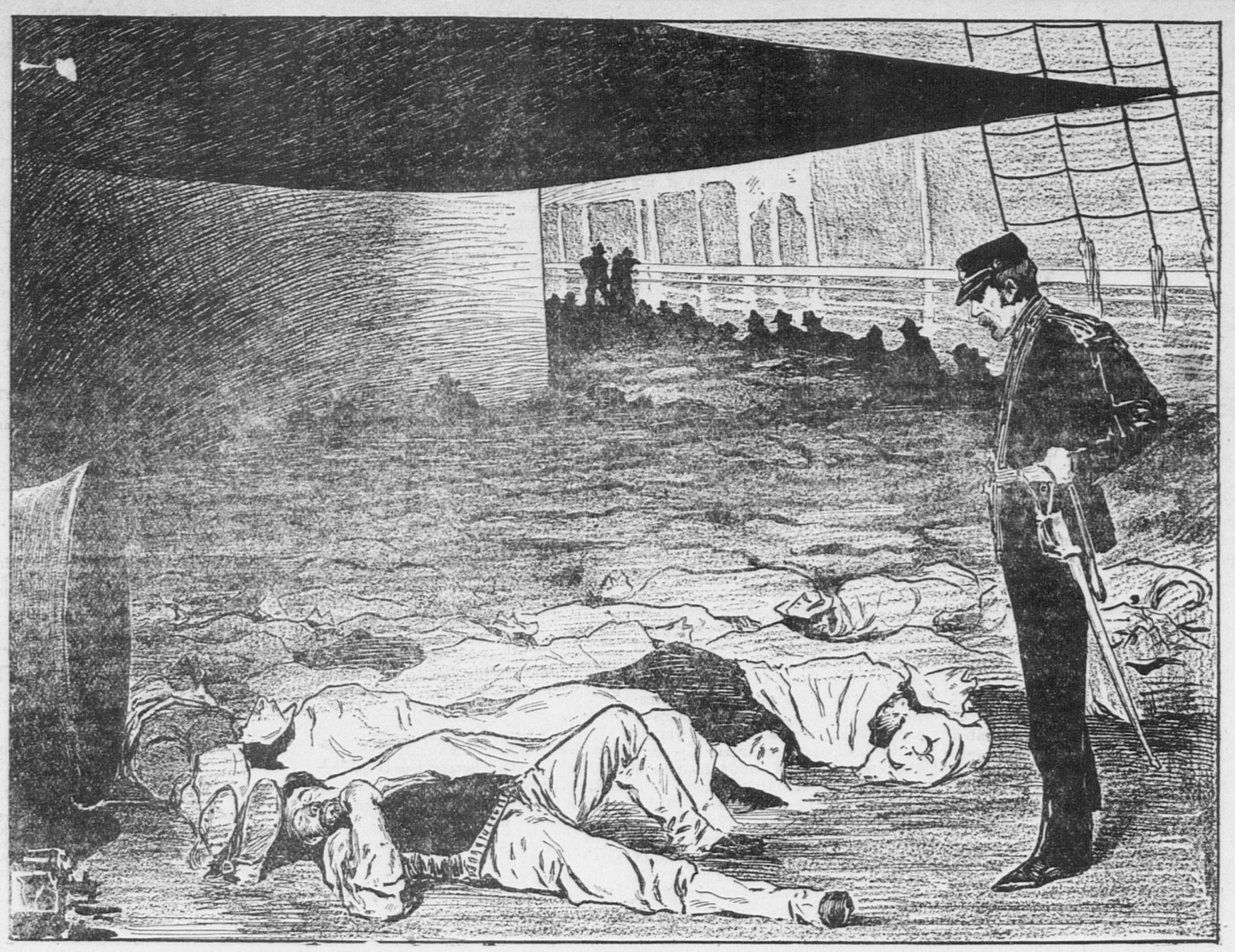

Phenic acid, 2 grams; tincture of nux vomica, 7½ grams; tincture of red chinchona, 30 grams; tincture of cantharides, 2 grams; cologne, 180 grams; sweet almond oil, 60 grams. Apply to the roots of the hair with a soft sponge once or twice a day. This lotion is especially good for very dry hair.

How to Hash Pork.

This is an excellent method of using up cold roast pork. Cut the meat into thin slices and season them with pepper and salt. Chop up two onions and fry them till nicely brown, add the slices of pork to them, together with one teaspoonful of flour, two blades of pounded mace, two cloves, a tablespoonful of vinegar, and half a pint of gravy. Stew the whole gently for about half an hour and serve upon slices of toast or simply garnished with sippets of toast.

How to Diet For Diabetes.

Gluten biscuit, granose, zwieback in moderation, koumiss, buttermilk, cottage cheese, kumyzoon and nuts of all kinds except chestnuts, sterilized nut butter, nuttose, nutmeal, lettuce, celery, spinach, greens. Acid fruits, such as sour apples, lemons, sour oranges, currants and tomatoes.

THE INVASION OF PUERTO RICO. TROOPS SLEEPING ON DECK OF THE U.S.S. "ST. LOUIS." FROM HARPER'S WEEKLY

AFTER A DRAWING BY T. DART WALKER. Reproduced from *Harper's Weekly*. By Permission. Copyright, 1898, by Harper & Brothers.

T. Dart Walker, the artist and war correspondent who accompanied Gen. Miles's expedition to Puerto Rico for Harper's Weekly writes of the scenes on the transports. He says:

"The rank and file were packed as closely as the horses. Their hammocks were new and comfortable. But how much room did they have in which to swing? Just eighteen inches. In the drill regulations of the army the width of a man is estimated at twenty-two inches. It is not pleasant to have four inches of your twenty-two cut off when you are trying to sleep in terrific heat, and the ship is rolling in the bargain. The troops on the Roumanian and the City of Washington were simply packed on board, and they suffered some. They didn't complain. Why should they? Weren't they going to war, or something resembling it—and why should they expect home or even sea comforts at such a time? The long delay and uncertainty as to starting were over, and discomfort could be endured because of that. The point of view makes a difference in the perspective.

"The men on the St. Louis and the St. Paul really had some sea comforts, however. They had room in which to sleep. Then, too, these ships were scrupulously clean—at least, the St. Louis was. Captain Goodrich of the St. Louis is not the kind of a man to tolerate even a suspicion of dirt. No troop-ship horrors for him! His complete forethought, in providing all requisite necessaries and in making his ship absolutely wholesome throughout, was much appreciated by all on board. The large deck space on the St. Louis and the St. Paul gave the soldiers comfort. One night proved its advantages. Sleep was impossible in the hot cabins and hotter bunks—well ventilated though the ships were. The second night found hundreds of men on the St. Louis, privates and officers, stretched out in a confused jumble on the spacious decks, all wrapped up in blankets. Mr. Walker's picture, taken from Harper's Weekly, faithfully portrays the scene. Here and there white-clad sailors picked their ways about silently. The soldiers heeded them not; their fatigue inducing the soundest kind of slumber. Nor did the troops move about much in the daytime. In fact, for three days and three nights each man seemed to lie in the same place. They were resting, simply resting; and the fact that they lay still indicated that indeed they needed rest.

"There was very little seasickness on the trip down—on this ship at least. Only about a dozen fever cases were developed, a fact which reveals the thorough work of Captain Goodrich in making careful preparation of the vessel for her human cargo. The days were hot, but the nights were delightfully cool; and there were no especial incidents, other than those which are common on all military transports, where the men laugh and sing and joke and speculate as to the future, and eat and sleep and write home.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 21. Comment by Rev. S. H. Doyle.

TOPIC.—Practical uses of the Bible.—Ps. cxix, 97-105.

The supreme purpose of the Bible is to teach us what we are to believe concerning God and what duty God requires of us in this life. It is our only infallible guide. It alone tells us how we can live so as to glorify God that we may enjoy Him forever. It is therefore worthy our highest admiration and love, our most earnest study and our deepest meditation. Would that all men could say with the psalmist:

Oh, how I love thy law!
It is my meditation all the day.

The Bible, to accomplish its high purpose, must necessarily be a practical book, and it is. Some of its practical purposes are pointed out in the topical reference.

1. The Bible gives wisdom and understanding. "Thou through Thy commandments hast made me wiser than my enemies. * * * I have more understanding than all my teachers; for Thy testimonies are my meditation." The Bible above all gives practical wisdom, moral wisdom. It tells us how we may wisely use the talents and opportunities of life that our lives may be a success for eternity as well as time. It teaches us how to number our days that we may apply our hearts to wisdom. It aims not so much to give intellectual wisdom, as heart wisdom, practical wisdom—such an understanding of life as will lead a man to practice virtue and shun vice, and after all this is the most desirable kind of wisdom.

2. The Bible refrains our feet from every evil way. "I have refrained my feet from every evil way, that I might keep Thy word." The Bible explains to us the true nature of evil, it warns us against its awful consequences, and in these ways it leads us to refrain from evil. It holds up before us the beauty and advantages of a holy, virtuous life and thus again gives us an incentive for avoiding the very appearance of evil. We cannot keep God's word and engage in evil, and therefore, if with the psalmist we wish to keep the commandments of God, like him also we must refrain our feet from every evil way.

3. The Bible is a guide—"a lamp unto my feet and a light unto my path." It is our best guide, our only true and sure guide. It guides us from sin to holiness, from selfishness and worldliness to God, from earth to heaven.

We should seek more and more to make the Bible a practical book, by putting into practice its commandments and precepts. It is not enough to know God's commandments; we must do them.

Bible Readings.—Deut. vi, 6-9; Joshua i, 7; Ps. i, 1-6; xix, 7-14; xc, 12; Prov. i, 1-16; iii, 1-12; vii, 1-3; Eccl. xii, 13, 14; Luke xxiv, 25-27; John v, 39; xv, 10-14; Acts xvii, 10, 11; Col. i, 9-17; II Tim. iii, 14-17.

Inspiration and Experience.

The Bible was written by inspired men, but it was also written largely out of the personal experiences of those men. This is a very instructive fact, and it will require a little thought to see the full force of it. The Bible is, in a very great degree, the record of the experiences of men under the influence of the spirit of God, and this is one central reason why it is so profitable for doctrine and reproof and edification. That which unites them is the intensely interesting fact that God uses them, with all their individual peculiarities, and yet with their common spiritual needs, as His special messengers of warning and mercy to the human race. —Commonwealth (Baptist).

Full of the Holy Ghost.

It was after Stephen had delivered a sermon that cut his hearers to the heart and made them gnash upon him with one accord and cast him out of the city and stone him to death that he, being full of the Holy Ghost, looked up steadfastly into heaven, saw the glory of God, saw Jesus standing at the right hand of God, prayed for his murderers, committed his spirit to God and fell asleep—the first Christian martyr.—Christian Standard.

The Church.

After all and before all churches are for religion. It is because men and women are children of God that the churches exist, that they may come nearer to each other and come nearer to God. They exist that every day they may go about their business more and more in accord with Him, and that life may be not petty and small, but infinite, in its relations.—Christian Register.

Economy is half the battle of life. It is not so hard to earn money as to spend it well.—Spurgeon.

Religious Notes.

Rev. Timothy Richards believes that China is on the eve of a great religious awakening.

A hotel for workingmen and plain people, where a warm room is provided for 15 cents, is conducted by the Salvation Army in Boston.

It is stated that in Presbyterian Scotland 60 years ago there were 76 Episcopal charges. Now there are 321.

The American relief committee propose to establish an orphanage at Kharput, Turkey, with contributions from young people's societies.

A shelter for the workingmen of Detroit will be built this winter by the Salvation Army.

There are reported to be 100 Christian Endeavor societies in the Belfast district, Ireland.

THE HOUSEHOLD.

How to Select Meals—Pretty Bed Draperies—How to Make Elderberry Wine.

Sallie Joy White in The Woman's Home Companion gives this practical advice to inexperienced cooks:

"The finest roasts and steaks are found in the hind quarter as well as the juiciest meats for making beef tea, meat pies, beef a la mode or potted beef. Sirloin, of course, gives the very choicest roasts and steaks, and next comes the rump, this being cut in three parts. The back, the middle and the face are good roasting pieces, but the most economical is the middle cut, as it is free from bone and has not a scrap of waste on it. Good steaks are cut from the top of the round. Some people go so far as to say that the flavor of a round steak is superior to that of any other. The lower portion of the round is used for braizing and for beef tea.

"The tenderloin has the most tender meat, but it is neither so juicy nor so well flavored as other portions that are not so tender, and it is not nearly so nutritious as portions that require much cooking. The sirloin comes next in tenderness and delicacy. These cost more than any other cuts, but there is less nutritive value than is found in the cheaper parts. Indeed the cost of the meat seems to be in inverse ratio to its real food value. Of course this is so because of the much smaller proportion of the so called choicer cuts. It is one of the wise economies of nature that it should be so. The harder working class of people, those who do a great deal of manual labor, and particularly those whose occupation takes them a great deal into the open air, need the nourishment and sustaining quality of the heavier meats, and these are found in the cheaper parts, particularly where there is a great deal of juice in the meat and rich marrow in the bone.

"Stews and braized meats or those that are steamed in their own juices over the fire, as pot boiled or roasted meats, give the most nutriment and add the physical strength that is needed, besides in cold weather supplying a great deal of warmth by furnishing carbon for the body."

Elderberry Wine.

One of the most medicinal of wines may be made from the common elderberry. To every quart of the berries add a quart of water and boil for half an hour. Bruise from the skin and strain, and to every gallon of juice add two pounds of granulated sugar, one-quarter ounce of cream of tartar and boil for half an hour. Put into a cask one pound of raisins to every three gallons of wine, and when slightly cooled add a slice of toasted bread, covered with good yeast.

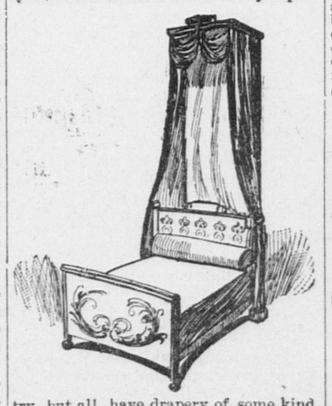

When the wine is cold, place in a room of event temperature to ferment. When this has fully ceased, put the bung in tight. Add no brandy or alcohol.—Josephine Detmar in Good Housekeeping.

Sandwiches Made From Cottage Cheese.

Cut slices of brown bread about half an inch thick. Do not remove the crusts. Rub half a pint of cottage cheese to a smooth paste, then press it through a fine sieve. Add slowly, beating all the while, two tablespoonfuls of melted butter, half a teaspoonful of salt and two tablespoonfuls of thick cream. Spread each slice of bread thickly with this cream mixture. Put on top a very thin slice of white bread, and on top of this another thin layer of cheese. Cover with a slice of brown bread and trim into shape.—Mrs. S. T. Rorer in Ladies' Home Journal.

Pretty Bed Draperies.

A tester with draperies adds so greatly to the attractive look of a bed that it is surprising they are so little used in this country. In France every bed is draped as a matter of course. Some with simple chintz or muslin, and some with silken folds and even heavy tapestry, but all have drapery of some kind to relieve the hard outlines of the bed. A pretty example of a French bed is shown in the accompanying sketch. The bedstead is of white enamel, with a rococo design in gold relief. The conventional French bolster and spread are of pale green satin, embroidered with pale pink wild roses. The tester is high and narrow and is draped with a couple of festoons in front, and long curtains of the pale green satin, the inside linings—back and sides—being of pale pink. —New York Tribune.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston toNeponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30, 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.05 A. M. and every half hour until 10.05 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

BENJ. J. WEEKS, Superintendent.

THE SOCIAL REALM.

(*Continued from page* 1.)

Mr. and Mrs. F. A. Hobart and John F. Hobart of Braintree are enjoying the mountain air at the Alpine, North Woodstock, and at a progressive whist arty on Monday evening, Mrs. Hobart carired off the first prize.

* * *

Miss Ethel Bradley of Gloucester spent several days this week with Miss Alice Keith Prescott of Spear street.

* * *

Mr. and Mrs. John D. Buckingham, who went to Europe on the same steamer with Rev. and Mrs. E. C. Butler, arrived home yesterday on the Canada.

* * *

Dr. H. S. Hayford went to New York Thursday to remain until Tuesday next. He will witness the naval review.

* * *

Mr. and Mrs. J. A. Ewart are expected to return to Braintree today, and they will go housekeeping in their new home on Mount Vernon avenue.

* * *

Miss Maud Allison Allen, a daughter of Major John Allen of Charlottetown, P. E. I., has returned to her home after spending nine months in this city.

* * *

Letter Carrier Thomas and Farrell are n a vacation, and James Copeland and James Mullen are substituting.

* * *

Mr. and Mrs. W. S. Woodward of Braintree returned from Maine on Wednesday. Mr. Woodward is much improved in health by the change and rest.

* * *

Peter Talbot, the obliging clerk at the Quincy post-office, is enjoying a two weeks' vacation.

* * *

George Faircloth, driver of the Hook & Ladder, and Joseph Bruce went to New York Friday night, to witness the naval review.

* * *

Miss Julia Lombard of Braintree did not return from Europe with her mother, but will continue her studies abroad.

* * *

Mr. and Mrs. D. H. Benson of North Weymouth are recuperating at Cottage City, for a few weeks.

* * *

* * *

Miss Alice G. White is missed from the public library his week. She is registered at the Winship house at Sharon.

* * *

Miss Inez L. Dunbar is visiting Major and Mrs. Benjamin F. Meservey at Hingham.

* * *

Mrs. Susie M. Page of Wollaston Park is visiting friends at Somerville.

TODAY'S COURT.

Robert P. Delorey was arraigned for larceny at Milton. Case continued until next Thursday.

Charles E. Duncan was fined $9.62 for assault at Quincy.

BRAINTREE.

Rev. Mr. Webb of Boston will preach in the M. E. church tomorrow.

The Investigating Committee held an informal protracted meeting on Monday evening.

The Ladies' Aid society connected with the South Braintree M. E. church held an ice cream party on Wednesday afternoon, at the home of Mrs. Arthur Hale.

The weather was the cause of the concert of the Braintree band being postponed from Thursday and Friday evening. The programme will be given as advertised on Thursday evening next.

The new time table on the Randolph branch of the Q. & B. R. R. went into effect Sunday. The cars now leave South Braintree for Randolph 15 minutes of and 15 minutes past the hour, and leave Randolph 12 minutes of and 18 minutes past the hour for South Braintree.

The Young People's meeting will be held at 6 o'clock Sunday night. Topic: "Practical uses of the Bible." Ps. 119: 97-105. Leader, Mr. Carlton L. Kennedy.

Mr. and Mrs Lewis Richards of Stedman avenue have just celebrated the 60th anniversary of their marriage.

Rev. and Mrs. C. F. H. Crathern have a little daughter. May she live to possess the grace and beauty of her mother, and the force and determination of her father.

The storm that was so severe in many places on Wednesday night, did but little damage at Braintree. At East Braintree a barn belonging to M. L. Webber was struck and partially burned.

The coming town meeting promises to be warm.

Rev. Samuel Morrison of Maple street will preach in the First church tomorrow.

A number of excellent tennis players from the Crescent club of Reading, are desirous of arranging a series of matches with Braintree players sometime next month.

The grand annual reunion of the Cary family took place at Highland Park last Wednesday. There were about one hundred present and among them were Mr. A. B. Keith and family.

All lovers of tennis will be glad to learn that the Hitormissit Tennis club has not been dead, but sleeping.

Miss Sarah Shaw has again very generously placed at the disposal of the club its old location on Shaw avenue and contractor Gage commenced clearing up the grounds yesterday. It is expected that the court will be in first rate condition by the early part of next week.

The annual All Comers' tournament for that Hitormissit cup, which is now held by Mr. William Withington Gallagher of Braintree, will be brought off the latter part of next month.

The Coming Mechanics' Fair.

The spirit of progress which has characterized the executive committee having in charge the 20th triennial exhibition of the time-honored Massachusetts Charitable Mechanic Association is again strikingly apparent in several important directions. Not only have the character and scope of the exhibits themselves been elevated and broadened, but the building with its immense floor area and exhibition resources, has been remodelled and greatly improved.

The executive offices, now arranged ensuite, are handsomely equipped, and bring exhibitors directly into communication with the officials, entirely dispensing with the long, narrow corridor which formerly confused and misled visitors having buiness with the management.

Talbot Hall, in its new dress, will scarcely be recognized, for here a complete transformation has been wrought by embossed steel panels and artistic frescoes, while countless clusters of incandescent lamps have been added to the lighting equipment of the entire building.

Latest reports from the several department point conclusively to the most interesting exhibition in the history of the association, rendered doubly so by the timely and up-to-date competitive exhibits covering the most recent scientific and utilitarian discoveries and developments, and presenting to the world, for the first time in history, a great fair entirely driven by electricity as a motive power.

Applications for space continue to pour in and the managers find themselves confronted by the necessity of selecting only those of the greatest public interest. This means that intending exhibitors should lose no time in inspecting the floor plans and filing early applications if they hope to be represented in the Mechanics' fair of 1898, which opens Oct. 10.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

Siberian Prisons.

The Rev. Dr. Lansdell publicly stated, after a thorough visit to Siberia, that should he ever have to change from clerical to convict life, he would choose Siberia and not Millbank or any other English prison, as the scene of labor. I have no hesitancy to say that personally I prefer prison life in Siberia to Sing Sing, and to set the stamp of my approval upon the prison, following the kindly invitations of the chief of police, I was about to transfer my baggage from the hotel of the rich Chinaman to the jail. However, though the prison tempted me by its superior comfort, better food and bathtubs, I had to give up the project. Interesting things were to be seen in the town and upon the great river every minute of the day, so I remained with Tai Phoon-Tai, only visiting the prison for my tub every day. As upon my first visit I was always allowed to walk about the place and visit all the prisoners, and I saw nothing to change my opinion of the cleanliness and the humane condition under which they lived.—Stephen Bonsal in Harper's Magazine.

A Marvelous Time Measurer.

As illustrating the triumphs of modern science in the construction of instruments of precision The Scientific American instances a chronograph for recording infinitesimal intervals of time, such as a millionth of a second or less, which is stated to have been used to record autographically the compression by a blow of a cylindrical piece of copper. In one case a 33 pound weight fell 15 inches and produced a permanent compression of .1658 inch in a copper cylinder, the time consumed in producing this compression being .0030317 of a second. The machine produces by means of photography a curve showing the precise progress of this compression. The chronograph which reaches such remarkable results consists of a rotating cylinder, with a surface velocity of 100 feet a second, on which is photographed a pencil of light, which is passed through a hole in the end of a rapidly vibrating tuning-fork. The delicacy of this instrument is far greater than that of the ordinary tuning fork chronograph recording on a surface blackened by smoke.

Hotel Clocks Always Truthful.

"When I am traveling, I never put the slightest confidence in a household clock," writes Robert J. Burdette of "Tongueless Liars," in The Ladies' Home Journal. "A hotel clock I can depend upon. There are too many watches in a hotel—good watches, watches whose absolute correctness means money to the commercial men who regulate the traveling life of this country. A lying clock would be spotted in a quarter of a second, and the unhappy clerk scourged with pitiless sarcasms therefor. In the course of my wanderings up and down this part of the globe I missed a few trains and lecture engagements by depending upon clocks in the homes of my friends. Having thus paid for my lesson, $15,000 or $20,000, I think, by my own computation of the value of my lectures (set ahead a little bit, you know, it may be a trifle fast. I haven't time to look up the exact figures,) I withdrew all my trust from mantel clocks, especially the highly ornamented marble and gilt variety with silver bells or cathedral chimes."

Nicely Caught.

A few evenings ago a gentleman stepped from a train at one of the London stations, when a young lady skipped up to him, threw her arms rapturously about his neck and kissed him many times, saying:

"Oh, papa, I'm so glad you have come!"

The old gentleman threw both arms around her and held her firmly to his breast.

Soon she looked up into his face, and horror stood in her eye.

"Oh, my, you're not my papa!" she said, trying to free herself from his embrace.

"Yes, I am," insisted the old gentleman, holding her tightly. "You are my long lost daughter, and I am going to keep you in my arms till I get a policeman."

When the officer came, he found the old gentleman's diamond pin in the girl's hand.—Pearson's Weekly.

Looking Backward.

The titles of the king of Spain suggest a large part of the history of the world. He is king of Jerusalem, which is Turkish; of Navarre, which is French; of Gibraltar, which is British, and of the East and West Indies, which are largely British; duke of Brabant and count of Flanders, now the two independent kingdoms of Holland and Belgium, and sovereign of numerous other lands long since independent or under the undisputed sway of other powers. He bears upon his person indeed an epitome of the glory and the fall of Spain.

The Scholar.

Dr. Evans, a witty member of the parliament at Melbourne, was an old man, and the other members jokingly spoke of him as belonging to the era of Queen Anne.

Once, while making a speech, he referred to Queen Anne and was greeted with cries of "Did you know her?" "What was she like?"

"Yes, sir," retorted the doctor, "I did know her. The scholar is contemporary with all time."

According to an old French saying, "A man's character is like his shadow, which sometimes follows and sometimes precedes him, and which is occasionally longer, occasionally shorter than he is."

Brazil produces on the average 360,000 tons of coffee per annum—that is, about four-fifths of the whole amount consumed in the world.

SUNDAY SERVICES.

11th SUNDAY AFTER TRINITY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when possible. Let all churches be represented—Eds.]

BETHANY CONGREGATIONAL CHURCH, junction Hancock and Chestnut streets—Rev. E. N. Hardy, pastor. Morning service at 10.30. Rev. Alfred L. Strouthers, South Gardiner, Maine, will preach. Bible School at 12 M. Y. P. S. C. E. at 6.15 P. M. Evening preaching and praise service at 7.30.

FIRST UNITED PRESBYTERIAN CHURCH, 110 Hancock street—Rev. W. W. Dornan, pastor. Preaching by the pastor at 10.30 A. M. Subject: "Under the Juniper tree." Sabbath School and Bible class at 11.45 A. M. Y. P. S. at 6.30 P. M. At 7.30 P. M. the report of the convention held at Saratoga will be given. Prayer meeting Thursday at 7.30 P. M. All are welcome.

CALVARY BAPTIST CHURCH, Franklin street. Morning service at 10.30. Preaching by the Rev. David Kerr, D. D., of Scotland and who comes as a candidate for the pastorate at this church. All are invited to hear him. Bible School at 12 M. Young People's meeting at 6 P. M. Evening service at 7 o'clock. Mr. Kerr will preach.

SWEDISH CONGREGATIONAL CHURCH, Garfield Street—Rev. C. A. Bjornbom, pastor. Service 10.30 A. M. Sunday School at 12 M Young ladies' prayer meeting at 6.30 P. M. Preaching at 7.30 P. M. The Scandinavians are invited.

WOLLASTON M. E. CHURCH—Rev. J. E. Waterhouse, pastor. Morning service at 10.45. Sermon by pastor. Sunday School at 12 M. Epworth League at 6.30 P. M. Service of song, followed by sermon by the pastor at 7.30. P. M. A cordial welcome to everyone.

CONGREGATIONAL CHURCH, WOLLASTON—Morning service, 10.45, Rev. T. H. Vincent of North Weymouth will preach. Sabbath School at 12 M. Union service of Church and C. E. Society at 7 P. M. Prayer meeting Friday evening at 7.45.

PARK AND DOWNS UNION CONGREGATIONAL CHURCH, Rawson Road—Rev. F. T. Knight pastor. Morning service at 10.45. Pastor will preach. Subject: "The Jewish Sabbath." Sunday School at 12 M. Praise and children's service in the evening at 7.30. Mr. Kendall will give the illustrated legend of Offero. Prayer and praise meeting on Thursday evenings at 7.45. All are welcome.

Keith's Theatre.

The leading attraction at Keith's the week of August 22 will be a petite company, headed by Barton Hill and Chas. Willard, presenting Milton Noble's latest farce comedy, "Belinda Bailey's Boarders." Mr. Hill is versatile and clever actor, who was last season the leading support of Lewis Morisson, and Mr. Willard is known from Maine to California as the rotund comedian. Other prominent entertainers will be McIntyre and Heath, in one of their amusing blackface sketches; Chas. T. Aldrich, tramp comedian and juggler; Bates and Bates, instrumentalists and vocalists; Leslie and Shirley, in a comedy sketch; Joe Gootz, the Mexican juggler, and the Two Paolis and their trick dog. The Symphony Orchestra will continue in a new programme and with a change of soloist, and there will be the usual new list of motion pictures and a change of stereoptican views by Prof. Gies. The summer patronage at Keith's has been the largest in the history of the house, especially large numbers of tourists visiting it as "One of the Sights of the city."

Castle Square Theatre.

The double bill arranged for the coming week at the Castle Square Theatre will afford a most attractive entertainment as it includes the "Miniature melodrama" by Mr. E. H. Clement, "Princess Matilda" and the comedy by T. W. Robertson. "Home." Mr. Clements' little play has its scenes in the Newport, R. I. of 1773, and its characters will be taken as follows:—Lieut. Trafford, R. N., Charles McKay; Capt. Wentworth, J. L. Seeley; Roderigues Riviera, W. C. Masson; William Duval, N. H. Fowler; Cicero, Lindsay Morison; Sarah Wilson, (the Princess) Maude Odell; Grace Wentworth, Marian A. Chapman. The comedy "Home" will have its first production in this city in fifteen years. The action of the play passes in Mr. Dorrison's "Home" villa in England—all within a few days. For the week beginning August 29th., the attraction at this theatre will be "Partners for Life," by Henry J. Byron.

—It will be easy to remember that this country exported last year twelve hundred million dollars worth of products and only imported $600,000,000 worth. For that reason we ought to have good times by and bye; but it is hard enough now.

TO LET.

If you have a vacant tenement, advertise the fact in the Daily Ledger. We are confident it will be let within two months, and to substantiate the claim, we will advertise it

FREE

after two months. To take advantage of this offer payment must be made before the expiration of the two months. A four-line space until your house is let will cost only $5 at the outside. You cannot afford on these terms to let the house continue vacant.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

NOT GUILTY!

Head of War Department to Critics.

He Disavows Responsibility For Conditions.

Everything Had Been Done to Succor the Army.

Washington, Aug. 22.—Under cover of a letter to C. M. Depew, ostensibly in answer to a request for information as to the responsibility for the conditions that hindered the work of the invaders of Santiago, Secretary Alger answers the charge of incompetency preferred against himself and others in connection with the prosecution of the war. The defense reads as follows:

My dear Mr. Depew—The great pressure of business has up to now prevented me from sending to you the statement you were kind enough to ask for, as to what had been accomplished in the way of outfitting the army for the field, the conduct of campaign, etc. Also the chiefs of divisions have been too much driven with work to compile the data required. One not in the midst of the work can hardly realize what an undertaking it is to call 125,000 men into the field at one time, coming from all the states, and to have them mustered and gathered in camps on so short notice; and this too when we had scarce any camp outfit for their accommodation, all having to be provided for by the war department.

As you know, when war was declared, there was no equipment whatever for the volunteers in store. That this was successfully accomplished with very few accidents is a matter of record. Subsequent calls, including the regular army (which numbered about 27,000 men when war was declared) made a total of 268,500 men. To accomplish all in so short a time has been a great work. Of course gathering this vast number of men together, in a large measure under untrained regimental and company commanders—I mean in actual field duty—the lack of knowledge as to sanitary conditions to be observed, the carelessness in not observing instructions which were furnished as to proper care of the men, has added greatly to the work of the medical department. Thus in the homes of 216,000 volunteers has been constant and great anxiety as to what might happen to their soldiers, and hundreds of inquiries made by letters and telegrams have been received every day concerning individual soldiers The feeling on the part of these individuals that the war department is responsible for the care of their men individually has naturally aroused sympathy in case of sickness and death, and has created much sorrow.

Orders on Sanitation.

There is nothing young men in robust health are as prodigal of as their health, until it is gone. Men go into camp, feeling that they can stand anything and everything, and cannot be made to believe to the contrary until stricken with disease. Every effort has been made from the beginning to furnish every camp with all appliances asked for, but of course the commanding officers in the field are the ones who have the direct charge of these men. For instance, one army corps commander has given orders and enforces them respecting sanitary affairs, and he has today but a fraction over 2 percent on the sick list. Others have been less successful, and the consequence is typhoid and other fevers have been spread, and spread to a considerable extent. One regiment in the Chickamauga camp has a colonel who enforces sanitary rules in his regiment, obliging the men to boil all the water they drink, keeping the camp cleanly, and the result—less than 25 sick, and his camp, too, in as unfavorable a place as any in the command. Others more favorably situated have 10 times that number on the sick lists. One of the regiments of the last call not yet removed from its state sends bitter complaints of typhoid fever.

The Santiago Campaign.

Concerning the Santiago campaign. When the ships left Tampa, they had on board three months' provisions and an abundance of hospital supplies. They had lighters sent to unload with at point of debarkation. These lighters were lost in severe storms on the way. As soon as we were notified of the fact two tows of lighters were sent from Mobile and New Orleans, which were also overtaken by storm and lost. The navy supplied us with lighters, and one of these was wrecked. The army disembarked, getting off a portion of its supplies and medical stores, and immediately marched to the front to fight the Spaniards. The great difficulty of landing supplies subsequently was that the wind sprang up every morning at 10 o'clock and made a high surf, rendering almost impossible the use of small boats with one lighter, which was all they had left for this purpose. Of the packers who were employed, 60 percent soon fell sick, and heavy rains falling every day, the roads (if they could be called such) became impassable for vehicles. Pack animals had to be employed to carry food to the army which, being extended to the right around Santiago, increased the distance from the coast every day and made the task more difficult.

However, the result and the subsequent sickness that has broken out in the army showed the great wisdom of General Shafter in moving forward to make the attack while his men were in vigor. It was a movement bordering on audacity, but it succeeded, and the persistence of the attack, I have no doubt, greatly disheartened the Spaniards. The result was one of the greatest victories for the men engaged of modern warfare. The number of prisoners taken exceeded the attacking force by nearly two to one.

When yellow fever broke out and the fever list increased into the thousands, it was for a time supposed that it was principally yellow fever. The bringing of troops north at once after the surrender, under such conditions, would have been certain death to a vast number, but upon inquiry it was ascertained that very few of these cases comparatively were yellow fever, when it was at once decided to bring the army home as speedily as possible. Everything that human ingenuity could devise has been done to succor that army—not the ingenuity of the secretary of war, but the result of the combined counsel of those who have had a lifelong experience in the field. That some men have been neglected on transports coming home is no doubt—all against positive orders—due perhaps to carelessness and negligence, but largely on account of not having the medical force to spare (many of whom were sick) from the camp at Santiago. Many medical officers sent with the transports were taken ill on the way home.

Work That Was Done.

To give you a little idea of the work that has been done, I append the following: The work of the adjutant general's department has been to muster and order to their station, to be precise, 216,400 volunteers and 24,900 for the regular army—this with a reduced force, as many staff officers from all of the departments had been promoted and ordered to the field.

The chief of engineers reports an expenditure of $5,030,000 for harbor defenses, building emplacements of heavy guns, mortar batteries and mines.

The surgeon general has had the enormous work of fitting up hospitals, organizing the medical corps, employing male and female nurses, contract surgeons, being surgeons who are employed from civil life, besides those commissioned as corps, division and brigade surgeons; furnishing medical supplies and answering the demands from all over the country and from camps at Santiago, Porto Rico and Manila. The work done in this line is almost beyond comprehension.

The commissary general had purchased and distributed up to Aug. 1 110,907,235 pounds of rations, which have been transported and distributed to all armies in the field here and at Santiago, Porto Rico and Manila, besides the large quantity distributed among the destitute Cubans.

The quartermaster general's report is too long to even give an approximate idea of his work. In the way of transportation to Honolulu, Manila, Santiago and Porto Rico, and return home, there have been sent 82,638 men, with artillery equipment and supplies. By rail in this country there have been transported 9700 officers, 233,962 enlisted men, also 40,582 animals, besides thousands of wagons, artillery and other quartermaster, commissary, ordnance, medical and signal service stores. The total number of articles of clothing and camp equipment distributed to the army by the quartermaster's department has been 6,274,483, of which I can only mention a few articles as follows: Blankets, 288,739; blouses, 283,762; trousers, 406,423; hats, 334,106; canvas field uniforms, 83,200; shoes (pairs), 511,378; undershirts, 736,965; tents, 179,142. The total weight of food and forage distributed daily to the army is approximately 900 tons.

Added to this is the large fleet of transports chartered and purchased, the management of the same in conveying troops, supplies and ammunition. The paymaster has promptly paid the army and is deserving of very great credit for his work. The signal corps has provided most efficent service, furnishing cable, telegraph, telephone and signal services to the different commands in the fields.

If you had a day or two to spare I would like to sandwich a little work for you. I would like to send you these statements in detail which I think would bewilder you if anything can.

Sincerely yours.

R. A. Alger.

The President's Congratulations.

Washington, Aug. 22.—President McKinley has cabled Admiral Dewey and General Merritt the nation's congratulations upon their capture of Manila. The text of the dispatch to Admiral Dewey is as follows: "Receive for yourself and the officers, sailors and marines of your command my thanks and congratulations, and those of the nation for the gallant conduct all have again so conspicuously displayed."

Following is the text of the dispatch to General Merritt: "In my own behalf and for the nation I extend to you and the officers and men of your command sincere thanks and congratulations for the conspicuously gallant conduct displayed in your campaigns."

TRAIN CARRIED DEATH.

Blunder of Somebody the Cause of a Railroad Disaster.

Express Crashed Against a Motionless Local.

The Lives of Six Persons Were Crushed Out In a Twinkling.

Boston, Aug. 22.—A terrible railroad accident occurred at Sharon on the Providence division of the New York, New Haven and Hartford railroad at 7:17 o'clock last night. Seven passengers were killed and over 40 injured, some of them fatally, and many of them seriously. The cause of the accident was the failure of a signal to work properly.

The train from New Bedford, consisting of engine 775 and five cars, ran into the rear of a train of five and engine from Providence. The New Bedford engine crashed completely through the last car of the Providence train, splitting the car in two pieces. It penetrated about four feet into the next car. The shock of the collision was felt throughout both trains. Passengers in the next to last car of the Providence train were thrown into a pile at the front of the car.

The collision occurred directly in front of the Sharon station. There was a terrific crash, followed by an awful rending and tearing sound and hiss of escaping steam, mingling with the heartrending shrieks of the dying passengers. Pushed onward by the irresistible force of the oncoming train the second car of the doomed train crunched into the end of the car in front of it, reducing it for several feet into an unrecognizable mass.

Flashing over the wires in both directions went the dread news with summons for assistance. Responses were immediate from surrounding towns, and soon doctors, surgeons and undertakers were at the station in large numbers, while the people living nearby hastened to bring simple restoratives and comforts, and to throw their homes open for the reception of the dead and injured.

The dead are: Franklin M. Waters of Somerville; Mrs. William Fitzpatrick of Boston, Mary Fitzpatrick, 10 years old, her grand-daughter and a grandson, five years old; a woman supposed to be Mrs. Watson of Westerly; Mrs. C. H. Briscoe of Revere; Charles H. Frye of Revere.

The injured are: James H. Fitzpatrick, 18 years old, of Boston; Mr. and Mrs. J. H. Whitcomb, Boston; Mrs. James Ray and her mother, Jamaica Plain; Mr. Crockett, Somerville; Mrs. Alice Braman, South Boston; Mr. and Mrs. Ericson and child; Daniel C. Cantor; D. C. McCann, South Boston; Fred Tudor, South Boston; Mr. and Mrs. J. Ogden, Lowell; Margaret O'Connor and two children, Boston; George Quinn, Providence; Miss Fitzpatrick, 8 years old, Boston; Mr. and Mrs. John Gordon, Boston; C. W. Dadman, Boston; Ida M. Walker, Waltham; J. A. Phillips, Boston; A. E. Newmark, Pittsburg; Joseph M. Mann, Providence; Mrs. Delia V. Brennan, South Boston; Marguerite M. Grimshaw, Somerville.

The first unidentified woman to be taken from the rear car was undoubtedly instantly killed, as her neck was broken between the sixth and seventh vertebrae. Besides this her left hand was scalded, the right leg was broken below the knee, and the left ankle broken. Her injuries were the most extensive of any. On her fingers were four rings, two of which were marked "Mattie" and bore the dates, "Dec. 25, 1879;" "Dec. 25, 1889." The rings were valuable, being two diamonds, three pearls and a plain ring. She was apparently about 30 years of age, of slight build, dark features and brown hair. She wore a bicycle costume, a dark blue waist lined with light colored silk, a divided skirt of grayish material, high leather bicycle boots, which were somewhat worn at the toes. Her underclothing was a tight-fitting black jersey, but no marks of positive identification could be found on her clothing.

The trains which were in the collision were usually combined into one long train, but as the traffic yesterday was so heavy it was divided, the first section running as a local accommodation, while the second, which started from Mansfield 15 minutes later than the first, ran as an express. The local train due at Sharon at 7:02 was 13 minutes late. It left Mansfield, making two stops, and had lost the 13 minutes between Mansfield and Sharon. It was due in Canton Junction, the next station beyond Sharon, two minutes ahead of the express train, which should pass it there. Sharon is situated on a curve, and both the outward and inward tracks are protected by electrical block signals.

After the accident it was found that the block signal protecting the inward track was set at danger, showing, as it was intended, that there was a train in the station. There was no warning given by the conductor of the Mansfield local to show the engineer of the approaching train that the track was not clear at the station, and it was not until he was within 400 feet of the station that he noticed anything wrong. He immediately set all brakes and whistled the warning, but it was too late to stop the express. It crashed into the rear car, splitting it asunder and completely demolishing it with the exception of the roof. Its speed was not slackened until the engine had penetrated fully five feet into the rear of the second car. The escaping steam entered the car and badly scalded a number of the occupants. The roof of the last car was forced on top of the engine of the express, and remained there as the only portion of the car intact.

Engineer Getchell and Fireman Holmes of the express jumped when they saw that a collision was unavoidable. Getchell being cut and bruised about the head. Engineer Getchell after the accident stated that he left Mansfield promptly on time, and there was no incident until he was within 400 feet of the Mansfield train. Then he saw the rear lights of that train and shut off all steam. Meanwhile he had whistled for brake and used every effort to stop his train.

All of the killed and injured were on the Mansfield train, and the only explanation of the fact that the number of fatalities is not larger is that the passengers were all in the forward end of the car in the act of alighting at the station. There were about 30 people in the last car, and most of them at the time of the accident were either upon the front platform, or standing by the door.

Mary Fitzpatrick, 10 years of age, was taken from the wreck alive, but unconscious, and died just as the special train bearing the injured started for Boston. Twenty-two of the injured were taken on this train and four others remained in Sharon.

Few Taken to Hospitals.

Boston, Aug. 22.—Only a few of the injured were removed to the hospitals, the greater number being taken direct to their homes. Pathetic scenes were enacted as the sufferers were removed from the cars. Daniel C. McCann, an express messenger, had his right hand and arm badly lacerated and his kneepan injured in extricating a man who was pinned between the engine's headplate and the flooring of the telescoped car. Charles H. Frye, cashier of the Central National bank of Boston, and one of the selectmen of Revere, was the most seriously injured of the four who were taken to the city hospital. He died shortly after reaching that institution. One of his legs was broken and his body and arms were terribly scalded. Edward Bristoe was taken to the Massachusetts general hospital, suffering from a compound fracture of the left leg and bruises about the body. James S. Murray of Boston had his face and hands badly cut and right ankle sprained.

THE TOBOGGAN.

Extraordinrry Luck of the Bostons In Avoiding the Drop.

Boston, Aug. 22.—The extraordinary manner in which the Bostons have bridged over the impending disaster, which was expected to start them on a toboggan, when Tenney, Hamilton and Stahl were out of the games on account of injuries, has compelled the admiration of the baseball world. There was a general feeling, when the team went west three weeks ago, that they had only a small chance of keeping in the race. They had the nerve that wins, however, and, in spite of their handicap, reached Cincinnati with half of their games won.

Here Tenney joined the team, and apparently his presence was an inspiration. One of the greatest winning streaks ever developed by a team against a succession of strong nines, next to the remarkable record made by the Bostons on the home grounds last season, was started by Captain Duffy's men in Cincinnati, and the end is not yet.

The National league percentages are as follows: Bostons, 663; Cincinnatis, 626; Baltimores, 623; Clevelands, 592; New Yorks, 573; Chicagoes, 542; Pittsburgs, 500; Philadelphias, 480; Washingtons, 379; Brooklyns, 376; Louisvilles, 371; St. Louises, 280.

Saturday's winners in the National league were the New Yorks, Chicagoes, Bostons, Baltimores, Philadelphias and Washingtons.

The Cleveland team suffered defeat yesterday at the hands of the West New York club in Weehawken, N. J., 3 to 6.

The double umpire system, the Boston Herald says, has come to stay. It is an improvement in every way upon the old order of things. To go back to the one umpire would be to go back in the game. There is not the least danger that it will occur.

Although the Wilkesbarres outbatted and outfielded the Providences they were lucky to win the game in Rocky Point by a single run. Dunklé and Egan both pitched great ball, but several punky ones dropped safe for the visitors.

The percentage of the Bostons, Baltimores, Cincinnatis, Philadelphias and Louisvilles at this time is lower than it was a year ago. The Clevelands, New Yorks, Chicagoes, Pittsburgs and Philadelphias show decided improvement. The Washingtons has both won and lost less than in 1897. The St. Louis team has won more and lost less.

DUCHESS ARRIVES.

Challange for Q. Y. C. Came from Lynn Sunday.

Elsa May Represent the Savin Hill Club.

A Lively Day Yesterday with the Yachtsmen.

There was a large fleet of yachts out on Sunday. The forenoon "breeze" was not propituous for good sailing. For a couple of hours a flat calm hung over the bay. By eleven o'clock a good breeze sprang up, which developed later in the day into a strong sou' wester.

A big fleet came down from City Point through the West Gut bound for Nantasket, as well as for Houghs Neck, Hull and Weymouth Fore and Back rives.

Several boats came over from Lynn to the Quincy Yacht club's anchorage. Among them was the Duchess, the cup challenger. She run in through the East Gut late in the afternoon. Her full crew was aboard. She kept on up to the Quincy Point anchorage where she will probably lay during the cup races.

The Recruit was off Hull in the afternoon putting on the finishing touches in tuning up. She looks odd in her coat of pot lead. But it is necesary, if it is ugly, as it diminishes the friction to a minimum. She had a friendly scrap with the Cleopatra, which was sailed by Frank F. Crane and J. L. Whiton, Jr., and also with the Vexer, Capt. H. W. Shaw.

The Savin Hill Yacht Club's Cup Challenger did not put in appearance on Sunday, but it is supposed to be Elsa, Mr. Crane's boat. She is a fast boat and can make it very interesting for the other two.

The large schooner Windwward, came down from the city early Sunday morning and lay off the Quincy Yacht club's house all day.

Among the other boats noticed out were the Freyja, Capt. G. D. Follett; Autocrat, Capt. J. Warren Nightingale; Arme, Capt. E. W. Newcomb; Brynbild, Capt. O. M. Higgins; Brant, Capt. J. A. Fenno; Claytonia, Capt. C. H. Alden; Chatham, Capt. George H. Carey; Dorothy with Mr. Howard D. Spear at the stick; Electra, Capt. J. W. Johnson; Gismonda, Ex-Commodore Sanborn; Hustler, Capt. C. C. Collins; Jeannette, Capt. Chas. E. White; Kitty, Capt. J. A. Evans; Lal, Capt. Frank L. Dunne; Moondyne, Capt. A. J. Shaw, who started for Proivncetown; J Pauline, Capt. G. H. Wilkins; Posy, R. G. Hunt; Redskin, Messrs. J. L., and L. H. Sturtevant; Silene, Dr. H. L. Dearing; Say When, Capt. E. B. Glover; Tantrum, Messrs. Whittemore & Johnson; and the Trump, Capt. A. T. Reed.

THE CHALLENGER.

The 18 footer Duches, challenger for the Quincy cup on behalf of the Lynn yacht club, was designed and mainly built by C. D. Mower, designer of Vitesse and others, and has proved her self to be the fastest of her class. She is practically an enlarged Vitesse, very lightly built, and covered with canvas. She is now owned by John F. Blanchard and Charles Hayden of the Nahant dory and the Lynn clubs. Her designer has been sailing on her all the season and will be on her in the races.

—There are 51,146 Odd Fellows in Massachusetts.

MARRIED.

BOUDROIT—CURNEY—In Quincy, Aug. 17, by William M. Marden, Esq., Mr. Edmund M. Boudroit of North Weymouth to Miss Mary E. Curney of Quincy.

Aug. 16. 6t

GRAND CLAMBAKE.

Water Department Entertains at a Feast.

The Water Department seems to include all the officials of the city, past and present and several prominent citizens if one may judge by ther representative gathering which assembled at Rock Island Saturday afternoon.

Among the guests were Mayor Sears, Commissioner Knowlton, City Clerk Cleaves Principal Assessor Perkins, Chief of Police Litchfield, ex-Congressman Atwood, and many others.

Pawsey's "bakes" are now famous and this was one of his best, including clam chowder, baked clams, lobsters, green corn, sweet potatoes, chickens, watermelon, etc.

An incident which lent variety was the descent of two of the fish and game officers C. N. Hunt and Otis Thayer upon the camp just as the bake was opened. They came by boat uninvited and unexpectedly and requested a stay in proceedings. Upon measurement of some of the lobsters in the bake, they found a few too short and will very likely summon Mr. Pawsey into court

The dinner then proceeded and it was necessary to set the tables twice to accommodate all the guests. But there was plenty even of the lobsters.

Sports followed and the event of the afternoon was a tug of war between teams of six men, captained by William Gillotte and Alex. Stewart. Team No. 1 was composed of John Costello, Richard Hennessy, Thomas ONeil, Daniel Kelliher, James O'Brien and William Gillotte and their combined weight was 1,050 pounds. Team No. 2 was the light-weights as they mustered but 950 pounds. Mayor Sears acted as referee and ex-Chief Engineer Ripley and ex-Chief Engineer Williams were the judges or rooters for the respective teams. It was the best two in three. No. 1 was a walkover for Gilotte's men, for they easily dragged their opponents over the line. In pull No. 2 both teams were on their muscle; they got to work together, and in getting braced Gillotte's men gained about three inches. Here the ribbon stayed until the close of the three minutes, giving the heavy weights the victory. Pipes were presented to the winning men by Mayor Sears.

A novelty in sports was an Indian wrestle between "Jed" Gleason and Walter H. Ripley, the two contestants laying upon the ground side by side with arms interlocked, but bodies reversed. Each man then threw up his leg nearest his rival, and the best man caught the others leg and threw him heels over head. Jed won two out of two. But he was promptly challenged by E. J. Sandberg, who became cock of walk.

Officer Sandberg then had stick pulls with Thomas, Cutter and Richard Hennessey, and came off victorious, but Mr. Gillote caught him napping on the neck pull.

The sports were interrupted at this point for brief speeches. Supt. Ewell of the Water Department presided, and with a few words of introductory introduced Mayor Sears. His Honor was pleased to find the Water Department such good fellows. He was told that they were just as faithful at work as they were good at play. In conclusion the Mayor told the story of the Jew who swallowed a $5 gold piece.

Foreman Gleason was called and introduced, but Jed was stage struck, and all he could say was, "We can lay pipe."

Ex-Congressman Atwood was called but had to be hunted up, and when he responded, some one suggested three cheers for the next Congressman. Mr. Atwood thought it was not speeches those assembled wanted, but nevertheless they listened attentively and showed frequent approval when he told modestly what he did in Congress to increase the duty on imported granite and help the Quincy industry.

Base ball was then in order until dark.

TODAY'S COURT.

Joseph W. Whitcomb, drunk at Quincy, was fined $5; continued.

Walter J. Sterritt, William P. Colpays, George L. Evinson, Henry A. Mathony, Edward V. O'Neill and Thomas Waldron, Jr., of South Boston, were arraigned for playing ball on the Lord's day in Atlantic. J. J. McAnarney, Esq., appeared for them. They waived the reading, plead guilty, and the cases were placed on file.

Joseph Murphy for drunkenness at Quincy, $5.

Francis Roach of Quincy for threatening assault, continued to August 29.

Mat Johnson of Quincy for drunkenness, fined $5.

John Sullivan of Avon for drunk at Quincy $5.

Alexander Petero for drunkenness at Quincy $5.

James H. Tracy and John J. Tracy, for drunkenness at Weymouth, plead guilty, case continued to Sept. 6.

Extra Ledger tonight before six o'clock with the cup race. For sale only at Souther's news stand, the Houghs Neck post-office and at the Ledger office.

—The tax rate of Cambridge is $16.40.

WON BY CLARA LOU.

Takes the 1898 Leg and Wins the Burgess Cup.

The third race for the Burgess prize cups for '98, given by the Wollaston Yacht club, was sailed Saturday afternoon, over the club's regular course of seven miles off the clubhouse with light easterly breeze.

The gun for the second class was given at 2.27 P. M. The Clara Lou's captain was only 15 seconds behind the gun in crossing the line, followed by the Burgess and Magnolia. The Clara Lou won out in handsome style, making the best time of any boat in the fleet, easily demonstrating her superiority over her competitors. The Clara Lou won a leg for the cup last year, and the result of this race gives her the leg this year, and the Burgess prize cup in the second class goes to her. Her owner Capt. W. J. Coombs may well feel proud of his achievement, for he has worked hard and honestly for it.

In the third class the Thelma, Capt. Merrill, had a cinch, the Elf being practically out of it.

For the fourth class it may be said that there is a doubt as to who won first place. On the face of the returns it appears that our tax collector's Dictator, won, but as her measurement is not at hand the Sea Gull is locally given the credit for first honors. A measurement will be necessary to determine the result.

An interesting coincident is the fact that the Beatrice, Gwendoline and Sea Elf finished respectively one second apart corrected time.

Following is the summary:

Name and Owner.	Sail'g length. ft. in.	Elapsed time. h.m.s.	Cor. time. h.m.s.
Clara Lou, W. J. Coombs,	20 00	1 37 33	1 10 39
Burgess, Com. F. Burgess,	21 00	1 47 48	1 21 55
Magnolia, Eben Hardy,	20 00	1 55 18	1 28 24
CLASS THREE.			
Thelma, E. A. Merrill,	17 00	1 48 50	1 18 30
Sea Elf, J. M. Green, Jr.,	17 00	2 12 24	1 42 04
CLASS FOUR.			
Sea Gull, H. A. Rideout,	16 02	2 00 11	1 28 44
Muriel, J. L. Smith,	15 00	2 02 09	1 29 02
Beatrice, W. D. Given,	16 00	2 13 43	1 42 02
Dictator, A L. Baker,	not meas'd	1 55 19	
Gwendoline, Snow and Linnell,	not measured	2 12 23	

The judges were: Henry A. Newman, J. S. Baker, G. A. Dickey, Henry Newman, Sr. and Linus Chase.

MUST BE GRANTED.

City Council Required to Give Boynton Railway a Location.

The general opinion seems to be that the Boston, Quincy and Fall River Bicycle Railway company has petitioned for a location in this city which has fewer objections than most any other that could have been selected, and yet it will go right through the heart of Quincy.

There is considerable doubt whether the railway will ever be built, but a showing must soon be made if the company means business, for the act was passed by the Legislature of 1897 and was approved June 11, and Section 16 provides that "all rights and privileges granted under this act for the purpose of building a railway between Boston and Fell River shall be forfeited if 20 miles of said railway are not built within two years from the passage of this act. At the expiration of said two years if the 20 miles of said railway have been built and operated, then all rights and privileges under this act shall extend for two years further as to the remainder of the route between Boston and Fall River."

From Boston to Brockton is 20 miles, and this is the part it is proposed to build first. If the company means business this 20 miles must be operated before the eleventh day of next June.

Application has been made in Quincy for a location and Section 4 says: "The Mayor and Aldermen of any city or Selectmen of any town SHALL, within sixty days after application for a location has been filed, make a location that will give a reasonably direct route between Boston and Fall River."

The same section provides that "If, in the opinion of the Mayor and Aldermen of any city or the Selectmen of any town named in the act the widening, strengthening or rebuilding of any bridge or the rebuilding of any street or highway in said city or town is at any time rendered necessary by reason of the location, cnostruction or operation of said railway upon said street, highway or bridge, the entire cost and expense of such widening, strengthening or rebuilding shall be borne by said corporation."

The company must pay damages for property taken along the route, and in case of a disagreement as to the amount it may be determined by a jury in the Superior court.

—There will be a firemens muster at Highland park, Sept 17.

—The tax rate of Plymouth is $17.20.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

First cup race today.

Sunday was a grand day.

Nurses are wanted at Camp Montauk.

Mrs. E. A. Snow has returned from a visit to the Cape.

It is reported that the Sewer department will also have a clambake

Mr. Lester W. Huntley of Brockton is visiting relatives at Wollaston Park.

Mrs. William Shaw of Brockton has been visiting relatives in Quincy for a week.

The fourth week of August last year was cool, the highest noon temperature being 77.

Many local yatchtsmen are taking their vacaction this week, and will attend the cup races.

The subject of the lecture at Christadelphian hall, on Sunday was "Everlasting Punishments."

Today the first race for the Quincy cup at 1 o'clock. If the wind is generous, a good day will be enjoyed.

A party of 60 or more Scandinavians of Campello came to Quincy by electrics Sunday and had an outing.

Mrs. George Phinney and family are guests of Mr. Phinney's parents, Capt. and Mrs. Eli Phinney, at Centreville

A district meeting of the Good Templars will be held at Doble's hall, South Quincy, on Thursday evening of next week.

Quincy looks like a large lively city on Saturday evenings, when thousands come out to enjoy the concerts in City Square.

Mr. E. A. Manseld is spending his vacation in Gorham, N. H. Look out for enlarged fish stories when "Ned" returns to the Park.

Mr. Harry Linnell of the schooner yacht Alert is home on a flying visit. He returns to duty at New London, Conn., on Wednesday.

Lieut Sprague of the Signal corps returned home Saturday night on a furlough, and it is a pleasure to hear him relate his experience at Santiago, and en route.

George Langley who works in Ames' hardware store came very near being in the accident at Sharon. Missing one train kept him from perhaps being killed.

Mr. Wilson Tisdale is at home again. He has a farm in Canton, Maine, which has 500 acres, with 45 cows and 10 horses, and poultry by the score. He returns again after a short stop.

Mosquito Woods on the road to Houghs Neck is getting to be quite a social spot. On Sunday behind the thick growth of shrubbery, a boy only about 16 years, was being led around drunk.

The open race at Duxbury Saturday was the largest of the season, and very successful. First prizes were won by the Ashumet Areyto, Bud, Typhon, Arab IV, Circe, Quinet, Katydid and Aiphrodite.

The officers at the Blue Hills reservation arrested three men Sunday for gunning on the Lord's Day. They gave up their guns for surety and were to appear at the Quincy court today, but did not come in.

There were ten starters in the Q. Y. C.'s handicap race on Saturday, but owing to the lack of wind, the boats could not finish within the time allowance The race will be sailed over on Saturday afternoon, Aug 27.

There have been rumors that Patrick Quill of this city, who enlisted with the Ninth Massachusetts was dead, but Secretary Cotter, Div. 18, A. O. H. has been notified by the authorities at Washington that Mr. Quill is alive and O. K.

Harold Faxon took a first prize with the Sunbeam on Saturday in the race of the Hull Mosquito fleet, out sailng the Mojave, Goblin, Tech, Oregon and Klea. The Hobo won in the first class and the Eficee, Firefly and Amy in the others.

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

CLARENCE BURGIN,
Treasurer.
Quincy June 13, 1898. tf to Sept. 1-MW.-1

Wall Paper And Moulding

Harmonious colors and artistic combinations, which cannot fail to be restful and pleasing to the eye. We offer for inspection a most satisfactory variety of wall paper.

HENRY L. KINCAIDE & CO.,
HOUSE FURNISHERS,
Hancock Street, - Quincy.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

WILLIAMS,
104 Hancock Street, . . Quincy.

AT CAMP DALTON.

The Officers Give a Sun-Light Hop and Reception.

Camp Dalton,
Monday, August 22.

The pleasant weather is appreciated.

Yesterday was another quiet Sunday, perhaps the quietest since the Fifth came to camp. However there were several visitors.

Whether on the field or in the ball room Co. K comes to the front. At the officers' reception and hop on Saturday afternoon Capt. Kincaide of Quincy was floor director, a position they say he has often filled gracefully and successfully at home. Some Quincy ladies were present.

The mess room where the reception was held was prettily decorated with flags and golden rod, and stacks of arms, etc., gave it a military appearance. The fair ladies dancing with the officers gave the appearance of a grand military ball.

Music for the occasion was furnished by the Fifth regiment band, and the reception lasted from 2 until 5 30

A dress parade of the regiment was held early in the evening, and was praised by the visitors who stopped to see it.

The men had their dance after the parade. The band played for them and refreshments were served.

There is talk of a hop by the sergeants to be held Thursday afternoon.

Lieut. Spear is officer of the guard today.

The Fifth regiment expects to see the First, Second and Ninth Massachusetts regiments mustered out first, and still believes it will be called upon for garrison duty.

The hop is said to have used up some of the officers more than the marches

WEYMOUTH.

Mr. Willis Raymond of Weymouth Centre, the popular clerk at Bates & Humphrey's, is enjoying his annual vacation.

ANOTHER VICTORY.

Effective Pitching and Good Fielding Counts.

The T. R. & S. A. A. nine won a signal victory at Merrymount park on Saturday, when they defeated the Roxburys 5 to 3. Neither side could place the ball safely, but the home nine played without error and the effective pitching of Curan, together with two fast double plays won the game.

Umpire—Mr. B. A. McLean.

Missing for Hours.

The alarms from Box 446 near the Willard school about 7.30 Saturday evening were for a lost child. Early in the afternoon Early Martin, a five-year old son of John Martin of Rustic place was sent on an errand but he failed to return. A search was made for him, but it was not until dark that it was decided to summon a body of searches. The alarm which was given aroused the boy who was sleeping under a bush near home, and the recall followed in a few minutes.

The Volunteer Aid Association has appropriated $10,000 for a diet kitchen at Montauk point.

MR. BUTLER WRITES

Was in Switzerland Friday, Aug. 12.

The many friends of Rev. E. C. Butler, pastor of the First church, will doubtless be interested in the following letter to one of his parishioners, which was received today:

Aug. 12th, 1898.

My dear Mr. Anderson:

I am writing this from Chamonix which is certainly the most picturesque place I ever saw in my life. It is simply a gorge between the hills, not more than a quarter of a mile in width and directly overhead the mountains rise to the height of fourteen thousand feet. The little village is bathed in splendid sunlight while overhead are the white and everlasting snows. Switzerland is the best place to come if one is either tired or worn from any cause. There is a fresh vigor in the climate that picks one up most wonderfully. London and Paris are well enough in their way, but cities soon weary one, and there is always something new about the mountains. They rest one almost like slumber. People never suffer from nervousness in this country. They take the easiest pace imaginable.

The railways fill me with laughter. Our street railways are gigantic beside them. They are more like playthings than anything else. They have no particular time for starting. The guard waits until everybody has arrived, then he goes around and looks in the windows and says "complet" in an inquiring tone and you reply "qui" or "non" as the case may be. Then he goes out and looks up and down the street to see if more are coming. There usually are several who do not hurry in the least. They take their seats leisurely and then he looks in again and says "complet" once more. After another interval, to be sure the last straggler has arrived, he blows a little tin whistle (hung about his neck), then another fellow takes a dinner bell from the platform and rings it, after which he blows his tin whistle again. Then the locomotive gives a little toot and the nursery concern goes trundling off to stop anywhere at any time, for no conceivable reason unless somebody's thirsty and wants a drink of beer.

I got off and picked flowers, the guard runs back after me and explains I must not stop too long, whereupon I give him the worst cigar any human being ever smoked, at which he grins and says "Bon," lights it and sits down on a rock to smoke. I am not exaggerating in the least. The whole concern irresistibly reminds one of a scene in the opera. Time is of no value, nobody hurries, there is no stress or strain of mind or body, everybody is ready to stop and talk any length of time, unless it is some thin, nervous American who has only half a day to spare and is crazy because he can't get to the top of Mount Blanc and back in that time. Every one speaks a little of every civilized language, and no one much of any. And yet it is about impossible to go wrong because every car has its destination printed on it in big letters.

The hillsides are covered with chalets and the sound of the tinkling goat bells is on every side. Anything more unlike the go and drive of America can not be imagined. I do not want to leave, and yet we must get on to Geneva tomorrow.

We shall sail on the 8th of September on the Canada, instead of the 22d, as originally designed, my coming home being hastened by the necessity of going to see my father as soon as possible. I have heard from Quincy only once, but shall probably find letters in Paris on our return there. Although I have enjoyed my stay in Europe, I shall not be sorry to see Quincy once more and get at my work.

Most sincerely yours,
E. C. BUTLER.

LATEST!

3 O'Clock.

Wretchedness In Santiago.

Santiago, Aug. 22.—All admit and have admitted that the Spaniard has been a good enemy, and a good fighter, and the Americans who took off their hats to the Spanish officers on the 17th of July did so with true homage to brave men. As the pitiful lines of Spanish prisoners stagger through the streets of this city, feebly stepping out of the way of pedestrians, looking fearfully at rattling carts and in sad contrast to our strong men in brown, the Americans who see them are inclined again to uncover their heads, prompted by the same feeling of homage to brave men.

A white-haired officer, with stars and bands on his sleeves, but so very weak and pale that he looked more like a skeleton than a man, walked down the wharf, supported by his wife, who was as much in need of support as himself. Over a loose board they tripped and fell. There were two young children in the party who cried almost continually. Finally they all got on board to spend 10 days on a filthy, horrible troopship. There are many women going thus, wives of officers who cannot pay for a passage. These Spanish troopships bid fair to rival old slavers in the misery and suffering that will be confined within their sides on the voyage back to Spain. Our own soldiers were sick,

President Quite Satisfied.

Washington, Aug. 22.—While some of the war authorities have been inclined to the opinion that the articles of capitulation, necessarily, temporarily and naturally somewhat elastic in their phraseology, might be construed to mean the surrender of Spanish control over the entire Philippine group, the prevalent opinion now is that they mean precisely what they say, and that the surrender includes only the city of Manila and its immediate surroundings, or "suburbs" as it is expressed in the articles. The president is quite satisfied with the terms as made by General Merritt and Admiral Dewey. Their instructions afforded them considerable latitude for individuality of action, the president feeling confident that they would secure the best possible terms in the circumstances. That they have done so, he is certain.

It is pointed out that the terms of the capitulation can have but little effect upon the action of the Paris peace commission in any event. The protocol, as signed by the accredited representatives of the governments of the United States and Spain, provides for the cessation of the city, bay and harbor of Manila to the United States, and leaves to the peace commission to determine the disposition and government of the Philippine islands. Whether therefore Spain is to retain her sovereignty over the islands is a question to be decided by the commission. The action of the commission is circumscribed by the provisions of the protocol, while the terms of the capitulation of Manila, it is suggested, can have very little more serious effect upon the commission's work than those of the surrender of Santiago.

Mobile Not Overcrowded.

Washington, Aug. 22.—Some complaint reached the war department concerning the sanitary conditions on the Mobile, which arrived at Montauk Point a few days ago from Santiago. The department communicated with General Shafter on the subject and in response received the following explanation from him: "Referring to your telegram about overcrowding the Mobile, her captain reported that he could carry 3000 men, and that he could carry 2000 comfortably; therefore did not consider a few less than 1700 as too many. Ship was carefully inspected by a board of officers, and Dr. Ives, a member of the board, states it was not overcrowded. Accommodations for officers were, however, somewhat deficient. The large number of deaths can probably be accounted for by the fact that this brigade took nearly all their sick with them; greatest care has been taken in this respect. Transports have been loaded with from 200 to 300 men less than the same ship brought down."

For a New Hierarchy.

Vienna, Aug. 22.—A local paper publishes a dispatch from Rome to the effect that the vatican will immediately open negotiations with the United States for the appointment of a new hierarchy in the Spanish colonies which come into the possession of America. It is anticipated that an arrangement will be made similar to that made after the annexation of Mexican territory by the republic. There the Spanish clergy were gradually superseded by priests of other nationalities, chiefly by Frenchmen. The latter were found to be better suited to the purpose than English or Irish priests, as they more readily acquired a knowledge of the Spanish language and secured the confidence of the inhabitants. It is thought probable that a similar course will be adopted in Cuba, Porto Rico and perhaps eventually in the Philippines.

Quiet In Manila.

London, Aug. 22.—The Manila correspondent of the Daily Telegraph says: "General Merritt has proclaimed a government of military occupation. The news of the armistice arrived on the 16th. It is feared that the Americans may restore the Philippines to Spain and thus re-inaugurate a fresh period of tyranny, extortion and rebellion. The Spanish guarantees for freedom of the press and religion and for just administration are useless unless under foreign supervision. The Americans found $800,000 in the Spanish treasury. Foreign opinion is loud in praise of the action of the American commanders in excluding armed rebels from the city. There is good reason to believe that their firmness saved Manila from pillage. A week ago there appeared to be a possibility of collision with the rebels, but there is no danger now. Everything is quiet."

Naval Reserve Welcomed.

Detroit, Aug. 22.—Sunday the citizens welcomed home the Michigan naval reserves who served throughout the war on the Yosemite. On alighting from the train they were met by one of the largest crowds ever seen in Detroit. The Fessenden fired a salute of welcome, all the steamers on the river and the locomotive whistles chiming in with shrill blasts. Amid the cheers of thousands, the reserves and a military escort paraded through the principal streets. It was a veritable triumphal procession.

Favors an Unamerican Policy.

Pittsburg, Aug. 22.—The Rev. John T. Murphy, president of the Holy Ghost college of this city, rather takes issue with Archbishop Ireland who, in an interview, practically said that the Catholic church in Cuba, Porto Rico and the Philippines was thoroughly established and needed no aid outside of itself. Father Murphy expresses the belief that the United States will find it wise to adopt a liberal policy toward the islanders and assume all the church obligations that obtain between Spain and her colonies—in other words, endow the churches and provide for their maintenance, as has been done for the past 400 years.

Mr. Murphy says: "England, the greatest successful colonizing power since the fall of the Roman empire, found it the wisest policy to accept the conditions as she found them and allow the people of conquered territory all the rights they enjoyed before. She did it in Canada, India and all of her other colonies. Other powers have failed of success because they tried to force new customs upon people whose government they had overthrown."

HOUGHS NECK.

Even the car men on the Houghs Neck line were surprised at the crowds at Houghs Neck Sunday. When a motorman arrived at 5 P. M. he wanted to know, "Where are you all going?' But they had been and had enjoyed themselves, and were ready to go home. The three cars run to Quincy at this hour would not carry all who were at the starting point, although 60 or more were packed into each. Two and three cars were run on every trip in the afternoon.

Fensmere beach was the great attraction and there was considerable life around the swimming pool. A band concert was given, afternoon and evening, interspersed with vocal numbers Hundreds of shore dinners were served at the Fensmere pavilion, and table d'hote dinners at Fensmere hotel, and some enjoyed boating and bathing.

But the Fensmere did not have all the people. It was a good day for all the hotels. The pavilion at the Great Hill house served a large number of dinners, and there were parties at Pierce's, Harvey's, the Brockton cafe and the Randolph house.

Wasted Powder.

It is not often that Henry H. Faxon gets caught, and has the joke turned on himself, but he does occasionally as was the case last Wednesday evening at the ball of Hose 5, at Houghs Neck.

Everybody knows that Mr. Faxon's hobby is temperance, and that he never lets an opporunity pass to make a convert. One of his objects of visiting the ball was to help the boys out, and the other was to see that there was no alcoholic stimulants about. He arrived early and entering the hall, took a seat beside two nice looking gentlemen whom he soon engaged in conversation. He told them that he was the Faxon the newspapers talked so much about, and that one of the worst curses to mankind was strong drink. He also expressed his opinion in his usual forcible manner of those who engaged in the liquor business. The gentlemen gave Mr. Faxon their names as Day and Tracy and outwardly agreed perfectly with all Henry said. This tickled the old man in the right spot, and becoming confidential, he informed them that he sometimes wrote temperance bombshells for the newspapers, and that he had some copies at his office which if they liked he would send them. They thanked him pleasantly and said that they should be glad to read some of his compositions at leisure moments during business hours.

Thus they parted and the next morning true to his word, Uncle Sam's mail carried a large bundles of newspaper tracts to the two gentlemen, and it was not until after the mail had departed that he was informed by a newspaper man that the two gentlemen with whom he had conversed the night before were two of Boston's well-known wholesale and retail liquor dealers, who were spending the summer months at Houghs Neck, and that the tracts he had sent them were probably resting unopened in the waste basket. Henry acknowledged that the joke was on him, but he did not ask the reporter to "take something."

Just Returned.

W. T. Parker and family of Winthrop avenue have just returned from two weeks' vacation which they spent at Westboro, Mass., near Lake Chauncy.

Mr. Parker spent part of the time bass fishing, and met with very good success for this season, landing fifteen very good bass. Mr. Parker's little five-year old son, Clarence, brought to the boat a bass that would be pleasing to a much older fisherman.

The little fellow said, with his eye full of joy. "Papa, I have got a dandy this time," and he was right.

CLASSIFIED ADVERTISEMENTS.

NEWS IN BRIEF.

Dr. John B. Wallace of Worcester committed suicide in Providence by swallowing poison.

Patrick Lynch of Millbury, Mass., 72 years old, committed suicide by hanging himself to the limb of a tree in a field.

Edward Sheedy, a lineman for the Haverhill Telephone company, committed suicide by drowning in the Merrimack river.

The board of regents of the Kansas state agricultural college has appointed to the chair of English Dr. D. H. J. Ward of Dover, N. H.

The almost tropical heat in Paris yesterday increased, and there were many deaths and sunstrokes reported. The air was absolutely stagnant.

The plant of the High Falls Sulphite Pulp and Mining company in Pyrites, N. Y., was destroyed by fire Sunday morning. The cause is unknown. The loss is placed at $300,000, and there was an insurance of $50,000.

A diamond robbery was reported to the Narragansett Pier police yesterday by Mrs. J. O. Bonnell of Youngstown, O., a guest at one of the hotels. The jewels were solitaires set in rings, and are valued at several hundred dollars.

The ships belonging to Admiral Sampson's fleet received thousands of callers Sunday. The crowds which visited the war vessels were second only to those which greeted them during their progress up the North river Saturday. It is estimated that fully 125,000 people visited the island during the day.

The men of almost every one of the volunteer regiments in camp in San Francisco are circulating petitions to the secretary of war, requesting that they be mustered out of the service. There are very few of the officers by whom this movement is approved, and efforts are being made to suppress it.

Sunday the pope held a reception in honor of his saint's day. Many prelates, nobles and representatives of Catholic associations were in attendance. His holiness appeared to be in good health and spirits, and, in spite of the length of the reception, which lasted an hour and a half, showed no signs of fatigue. He was the recipient of a large number of gifts.

SOMETHING YOU WANT.

Fresh Vegetables.

We Receive Them Every Day.

All Kinds in Their Season

L. M. PRATT & CO.,
25 School Street.

Always a good assortment at our branch store, 105 Water street.

DEEP GAME OR BLUNDER

Germany's Policy as to the Philippines Puzzling.

The Erratic Emperor Surprises Diplomats.

Thought to Be Expectant of Some Sort of Recognition From Somebody.

London, Aug. 22.—There is complete mystification in diplomatic circles over Germany's policy in the Philippines. Opinion is divided as to whether the emperor is playing a very deep game or making the stupidest possible blunder. It is recognized by all who have even the most superficial knowledge of the American temperament that Germany is adopting the surest means to insure the permanent retention of the entire Philippines by the United States. It is therefore suspected by those who credit the emperor with great astuteness in diplomacy that this is his real object, but with what ulterior profit to Germany nobody has yet suggested.

EMPEROR WILLIAM.

On the other hand, the larger number of the diplomatic body believe that the emperor is so densely ignorant of America and the Americans as to imagine that he will gain a reward in the shape of some sort of conciliatory concession if he makes himself a constant but not too irritating factor in the situation. The latter role has been profitable in the Turkey-Greece embroglio, and indeed it is usually a good one to play in any European diplomatic quarrel by a country which is not directly concerned and is only an intermeddler. If this is the true explanation of the German attitude, it will not be long before Berlin will discover that it has made the biggest diplomatic blunder of recent years from the point of view of German interests.

The Berlin press is strenuously protesting that Germany, in the whole Philippine business, is the victim of wicked English plots to stir up bad blood between the United States and the kaiser's government. It protests that English correspondents and English agents in Hong Kong and English emissaries everywhere are persistently misconstruing German actions and misrepresenting German opinion. It reiterates also that the co-operation of the Associated press has been secured for poisoning the American mind with falsehoods about the fatherland. There is no doubt that there is great popular indignation in Germany over this campaign of misrepresentation, of which, the people declare, they are the undeserving victims.

An officer of the foreign office who is in a position to speak upon the highest authority, said: "The criticisms of Captain General Augustin's transfer to the Kaiserin Augusta are due to a complete misunderstanding of Germany's attitude. Our only object was to protect our commercial interests, which we believe to be as safe under the United States government as the Spanish. Perhaps the questions as to the control of the Philippines concern the United States and Spain alone. Germany has no intention of intervening and no reason for doing so. It is difficult to haul down a flag once victoriously raised. Our war vessels were sent to Manila merely because they were not required for the moment at Kiao Chou bay. It is not possible that this could be thought to indicate an unfriendly attitude. The presence of our ships has given Germans an opportunity to appreciate achievements which cannot but augment the good feeling that has always existed between the United States and German navies."

Enjoyed a Burlesque.

Portsmouth, Aug. 22.—Fully 3000 people witnessed the burlesque bullfight at Camp Long Sunday afternoon from small boats and steamers. The 1600 Spaniards formed in a circle near the shore and there enjoyed their favorite pastime.

Paymaster Dies has just completed the payment of the sailors, using $35,000, and the Spaniards are anxious to obtain the privilege of spending it. The price of souvenirs has been raised as a result of their scarcity, and today Spanish officers' buttons are bringing $5 each, and sailors' hatbands are not to be had at any price.

Extinguisher Exploded.

Calais, Me., Aug. 22.—During a fire in a barber's shop a fire extinguisher exploded in the hands of Assistant Engineer Lee, inflicting terrible wounds about the face and jaw. His condition is considered critical.

Tomorrow's Almanac and Forecast.

Sun rises—4:59; sets, 6:33.
Moon sets—9:17 p. m.
High water—3 a. m.; 3:15 p. m.

The weather in New England will continue fair till Tuesday, when partly cloudy to cloudy skies are indicated, and local showers may occur in the afternoon or at night. The temperature will rise slowly with moist westerly winds.

TAKEN LITERALLY.

I'd gone that night to learn Sue's mind—
Joe Beekly wuz the reason.
A rival's good at times, I find,
To make us force a season.
I'd dallied for a year till Joe
Set jealousy a-burnin,
An then I wrote I'd call to know
Jest how she viewed my yearnin,
An in the letter that I sent,
Although a sorry scholler,
I paid her many a compliment,
Sech as the ones that foller,
"I've heard in songs your voice arise
An seen the flowers springin,
An often, lookin in your eyes,
I've heard the mockbirds singin!"

But when I called she seemed more shy
Fer some cause or another
An tried, I thought, as time flew by,
My fondest hopes to smother.
"Dear Sue, be mine!" I said at last
An edged a little nigher,
But not one word—her eyes downcast
Or lookin in the fire,
An then she raised her eyes ag'in
An said, my bosom thrillin:
"You say you've heard, by lookin in
My eyes, the mockbirds trillin.
Why should I speak, then? Seems to me
That you're a curious man, sir,
For if you look once more, you see,
Why can't you hear my answer!"
—Will T. Hale in Chicago Times-Herald.

THE PUBLIC HOUSE.

"A fine public house," said Blanco Watson, the humorist.

"Yes," I replied, looking at the building we were approaching, "but a strange position—away from the high-road, and surrounded by villas."

"A very strange position. We will rest in the public house, and I will tell you how it came to be built in such a very strange position."

I smiled and followed him into the saloon bar. We sat at one of the tables and were silent for a time, he thinking and I watching him.

"The story begins," he said presently, "with a burglary committed by a certain Bill Jones one night long ago.

"Bill was a young member of his profession. Hitherto he had not attempted anything very big, but continued success in small things had made him bold. On this night he broke into the country house of a well known actress, in the hope of carrying off her jewels.

"He succeeded in getting the jewels and was leaving with them when he found that the slight noise he had made had attracted attention. A servant girl met him at a turn of the stairway and began to shriek. He rushed by her and to the window through which he had entered. As he passed through it again he heard doors being opened and knew that the house was fully aroused."

"I understand," I said. "Bill escaped. The actress employed a detective. The detective built this public house in an out of the way place, hoping that Bill, as an out of the way young man, would call in one day for a drink. Curiously enough, Bill did."

Blanco Watson frowned.

"This is an intellectual story," he said. "It does not depend on coincidences.

"I will continue. Bill avoided the first pursuit by a long run across country, and then walked toward his home, not daring to use the railway. He kept to the byroads as much as possible, and at the close of the next day had reached the neighborhood of London.

"A spade lying inside a field gate suggested to him the advisability of hiding the jewels until he had arranged for their sale. After making sure that he was not observed he entered the field and picked up the spade. A tree of peculiar growth stood just beyond him. In the manner of fiction, he counted 20 steps due north from the tree and then dug a deep hole, placed the jewels in it and filled it up again.

"He arrived home safely that night, but was arrested in the morning. The servant girl had given an accurate description of him to the police, and they had recognized it.

"In due course he was tried. The evidence against him was very strong. The servant girl swore that he was the man she met on the stairs. Some of the villagers swore that they had seen him near the house previous to the burglary. He was found guilty and sentenced to seven years' penal servitude.

"Bill behaved very well in prison and at the end of five years was released on a ticket of leave. He decided to wait until the ticket had expired and then to get the jewels and leave the country. But a day or two after his release he walked out to look at the field.

"There was no field. During the five years he had been in prison the estate of which the field was part had been built upon. He wandered about the houses in despair. But as he turned a corner he saw something which suggested hope. Behind some railings was a tree of curious growth.

"It was the tree 20 steps due north of which he had buried the jewels. He recognized it immediately and ran toward it. Again he was in despair. A yard or two north of the tree was a chapel, and the jewels were under the chapel. He leaned against the railings, covering his face with his hands.

"It happened presently that the head deacon of the chapel, a kindly old man, came down the road. He saw Bill standing like one in trouble and stopped and asked what was the matter and whether he could help.

"For a few moments Bill did not know what to reply, but then he spoke well. He said that once he had been a burglar, but that he had learned in prison that burglary is wrong; that now he was trying to live an honest life, but that as he had no friends it was not easy.

"The old man was touched. He had found Bill leaning against the chapel railings, and Bill had said that he had no friends. Was it not his duty as head deacon of the chapel to be a friend to Bill? Clearly it was.

"He took Bill home with him. He was a bachelor, and there was no one to restrain his benevolence. They had supper and talked together. The deacon found Bill intelligent and fairly well educated and offered him employment. He was a builder in the neighborhood, he explained, and had a vacancy in the works. Bill gratefully accepted the offer and began his new career on the following Monday.

"Months passed. Bill had changed wonderfully. He had forgotten his old habits and learned new ones. The deacon was delighted. Not only was Bill the best of his workmen, but he was the most regular attendant at the chapel.

"Bill longed for the jewels, and he worked hard because he knew that money would help him to get them. He attended the chapel because while there he was near the jewels, the seat he had taken being just 20 steps due north from the tree. At first he had meditated digging down through the floor one night, but the chances of detection were great and he had given up the idea.

"Years passed. The deacon had become an invalid, and Bill practically managed his business. He was an important man at the chapel, too, and was often intrusted with a collection box. One day the deacon died. Soon afterward it was known that having no near relatives he had left his property to his friend William Jones."

"I see," I exclaimed. "Bill"—

Blanco Watson shook his head.

"Bill was Bill no longer," he said. "He had become a man of wealth. At the next election of deacons he was one of the successful candidates. In future we must refer to him as Mr. Jones and not as Bill.

"Mr. Jones was a most energetic deacon. He introduced new members, and he persuaded old ones to attend more regularly. He started a young men's literary society and a series of Saturday entertainments. He made the chapel the most popular in the district, and then, at a New Year's business meeting, he struck boldly for the jewels.

"The chapel was too small, he said in the course of an eloquent speech. They must erect another on a larger site. There was but one such site in the neighborhood. They must secure it before others did. He himself would undertake the building operations, charging only what they cost him. He would also purchase the old chapel. The net expenditure need not be very great.

"The proposal was well received, and a committee, with Mr. Jones as chairman, was appointed to consider the details. Their report was very favorable, and at another business meeting it was decided to carry out the proposal.

"The necessary funds were subscribed or guaranteed. Contracts were made with Mr. Jones. In the spring of that year the building operations were commenced, and by the autumn they were finished. The congregation removed to the new chapel. Mr. Jones purchased the old one at a high price and entered into possession.

"And then," I said, "I suppose he got the jewels?"

Blanco Watson laughed.

"No," he said, "he did not. He broke up the floor himself, counted the steps due north from the tree again and dug. He did not find the jewels. He counted the steps again and dug deeper. He did not find them. Then he tried other places; but, although he kept on until he had tried everywhere beneath the floor, he never found the jewels."

"Why, what had become of them?"

"I cannot say. It is possible that when the foundation was being laid a workman had discovered and appropriated them. Again it is possible that there were two trees of similarly curious growth, and that the one outside the chapel was not the one Mr. Jones first saw. Again"—

"And what has the story to do with the public house? But I can guess."

"Of course you can. Mr. Jones was very angry with the chapel members. He considered that by false pretenses they had led him into buying the old chapel dearly and building the new one cheaply. He resigned his deaconship and then sought a way to be revenged on them. He found one. On the site of the old chapel he built a public house—this public house in which we have sat so long."—Edgar Turner in Sketch.

Cautious Praise.

Mr. Orchardson, the famous English artist, has lately given the public an insight into his experiences with golf—that mysterious game, so fascinating to the initiated, of which the charm is so incomprehensible to the outsider.

It is but recently that Mr. Orchardson, who is past middle life although in the prime of healthful vigor, has transferred his affections from hunting and tennis, his former favorite sports, to the national game of his country—for he is a Scotchman. He played his first game of golf at St. Andrews.

"I remember," he says, "I had the queerest, most solemn looking caddie imaginable. I made a fearful mess of it at first, and the little chap looked on without a word. At last, when I had finished the round, he looked up at me in the funniest way and simply said, 'It's nae use playin golf unless ye lairn it as a laddie.'

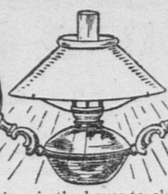

"But I must tell you that the next day I had this same caddie, and I got on much better. I was almost annoyed with him for not praising me, for he was as silent as on the day before. But when we finished, he turned to me and said, as if resuming our last conversation, 'Aweel, A' dinna ken.'"

Being a Scot himself, the artist was therefore satisfied with what he doubtless interpreted as a handsome apology and hearty encouragement.

Gladstone as a Linguist.

A remarkable illustration of the scope of Mr. Gladstone's power as a linguist was given many years ago when he addressed an assembly on the island of Corfu in modern Greek, a little later spoke to an assembly in Florence in Italian, a few days later conversed with ease in German with Bismarck, soon afterward responded in fluent French to a toast at a banquet in Paris, and then crossed the channel to deliver a five hours' speech in parliament on the budget.

LATEST WAR BULLETINS On Page Three.

TO BECOME CIVILIANS.

How Mustering Out of Volunteers Will Take Place.

Men to Be Examined Before Doffing Uniforms.

To Guard Government's Interests, as Well as to Protect Soldiers.

Washington, Aug. 23.—The following are the more important features of an order issued Monday afternoon and relating to the mustering out of 100,000 volunteers:

Only officers of the regular army will be detailed by the war department to muster out troops.

To avoid expense to the government and hardships and annoyances to individuals concerned by unavoidable delays that will occur in the final payment of officers and enlisted men absent from their commands on muster out, commanding officers will make every effort to effect the return of all absentees and detachments prior to muster out of the organization.

The supply department of the army will continue to furnish organizations with needful supplies until date of final payment and discharge.

All persons borne on the muster-in and on other muster rolls, and all who have joined or belonged to the organization at any time since its muster-in, must be accounted for on the muster-out roll, which is required to be a complete record of all the officers and men who ever belonged to the organization.

Discharge certificates will be prepared for every officer and man present and absent, except absent officers and men held in service by proper authority, and deserters. The certificates will be delivered to the regimental and company commanders.

The discharge from the United States volunteer service in the case of all absentees (except in special cases) will take effect on the date of muster-out of the organization.

In the case of enlisted men absent, who, on account of sickness, are unable to join their commands, the discharge certificates, with carefully prepared descriptive lists of account of pay and clothing, giving the address of the soldier, will be given to the mustering officer for transmission with the muster-out rolls to the adjutant general of the army and the soldier will be officially notified to apply by letter to the paymaster general of the army for final payment.

Officers absent from any cause will be furnished discharge certificates (unless specially held to service), and will be notified to apply to the paymaster general for certificates of non-indebtedness and settlement of their accounts.

As a rule the muster-out of organizations and their final payment will take place at the state or regimental rendezvous, except when otherwise ordered by the war department. The preparation and completion of the muster-out rolls, returns and papers, and the inspection and transfer of public property to the officers of the supply departments of the army, except as hereinafter provided, will take place before the organization is ordered to its state. The only property that will be allowed to be retained until muster-out, unless otherwise ordered, is the rifles, cartridge belts, cups, canteens, meat cans, knives, forks and spoons, necessary medical supplies and tent equipage, the colors, and the regimental and company records.

The supply departments concerned will arrange through the chief commissary and chief quartermaster of the department within which the state rendezvous is located for meals, camp ground, shelter, transportation and quartermaster's supplies for the time of the encampment of the organization at the state or regimental rendezvous.

As soon as the muster-out rolls have been fully and satisfactorily completed, the mustering officer at the place of departure will fill in the date of the muster-out as of a date 10 days later, the probable time necessarily required to transfer the organization to its state rendezvous, the making of the physical examination of officers and men, etc.

As soon after the arrival of the organization at its state rendezvous as possible the physical examination of all officers and men will be made before muster out and payment to facilitate the settlement of pension claims that may be made on account of disability incurred in the United States service, and to protect the rights of persons who may be entitled to the benefits of the pension laws, as well as to guard the interests of the government.

Naval Parade the Thing.

Washington, Aug. 23.—Orders have been issued for a fleet of six warships to proceed from Hampton roads to Boston for repairs. They are the Detroit, Helena, Topeka, Wilmington, Castine and Marietta. All but the Wilmington are at Hampton roads, having just arrived from Key West, and on the arrival of the Wilmington the start will be made for Boston. It is expected that Boston will be reached the latter part of the week.

Spain's Latest List.

Washington, Aug. 23.—The state department received a call yesterday from the secretary of the French embassy who bore a notification from the Spanish government of the military commissioners for Cuba and Porto Rico. Under the peace protocol each government was to name its military commissioners within 10 days, their meeting to begin within 20 days. The 10 days were up Monday, and accordingly Spain gave the official notice of the appointments. They are as follows: For Cuba, Major General Gonzales Parrado, Rear Admiral Pastor Landero, Marquis Montero; for Porto Rico, Major General Ortega Diaz, Commodore Vallerine Carnasco, Judge Advocate Leon.

The foregoing list differs from some of the lists given in press dispatches, which have included Admiral Montijo, General Blanco, General Macias and other officers. Considerable significance attaches to the naming of Marquis Montero on the Cuban commission, as it indicates a purpose on the part of Spain to go into the future government of Cuba. He is the only commissioner, Spanish or American, taken from civil life. He is secretary of the treasury of the Cuban autonomist cabinet, and all his interests are connected with the government of Cuba rather than with the military question of the Spanish evacuation of Cuba. He is named, it is believed, in order to carry out Spain's desire to have an understanding as to the future government of the island, he being intimately familiar with the questions of the civil administration of Cuba. As secretary of the Cuban treasury he is also familiar with question affecting the Cuban debt.

No Review Intended.

Washington, Aug. 23.—The navy department is receiving many inquiries as to whether the collection of so many warships at Hampton roads will result in a naval review there. In reply it is said that no review is contemplated, as the assembling of the ships at that point is purely for administrative reasons. In the main the vessels are the small ones of the auxilary fleet. They are to be inspected to determine what repairs are needed, and what ones can be disposed of to advantage. The big battleships and cruisers now at New York are not to go to Hampton roads, according to present plans. Commodore Remey, who was in command of the naval base at Key West, will now take command of the base at Hampton roads. He is enroute from Key West on the Lancaster. Rear Admiral Howell will continue in command of this squadron of the North Atlantic fleet, Commodore Remy's command applying more particularly to the naval base.

Design For Dewey's Sword.

Washington, Aug. 23.—The design for the memorial sword the government is to present to Rear Admiral Dewey, according to an act of congress, was finally determined upon yesterday by the committee having the subject in charge, consisting of Acting Secretary Allen, Senator Lodge of Massachusetts and Professor Oliver of the United States naval academy. A great many designs had been submitted, some of them showing great artistic beauty. The one selected was submitted by Tiffany & Co., of New York. The design is less ornate than some of the others. Its marked characteristic is its simple and solid elegance.

The hilt of the sword, as originally submitted, snowed an eagle's head, but this was changed to a plain and solid, but highly traced, gold handle. The blade is "damasciened," being subjected to that process by which the famous damascus blades were made. One side of the blade bears the inscription: "The gift of the nation to Rear Admiral George Dewey, U. S. N., in memory of the victory at Manila bay, May 1, 1898."

The scabbard is of dark blue damasciened metal, with tracery of gold. One of the most marked features of the original design was at the end of the scabbard, where in miniature a crown, presumably the Spanish crown, was being run through by this Dewey sword. The committee rejected this suggestive feature, and instead of the pierced crown there are substituted two dolphins.

To Entertain the Commissioners.

Washington, Aug. 23.—In view of the early meeting at Paris of the Spanish-American peace commissioners, arrangements are already under way for the entertainment of this distinguished body. It is understood that the commissioners will be the guests of the French government, and while a formal invitation has not yet been extended, there is reason to believe one will come in due time, and that the commissioners will receive every courtesy and attention which the French government can bestow. The meeting of the commission will be held at the French foreign office, in the historic hall of the ambassadors. It was there that the famous congress of Paris met in 1856. The salon is probably the most elegant apartment in all Europe, being hung with gobelin tapestries and decorated with lavish frescoes and works of art. Near the salon are private chambers suitable for committee rooms and for the meetings of the commissioners of the respective governments.

The Old Cry of Want.

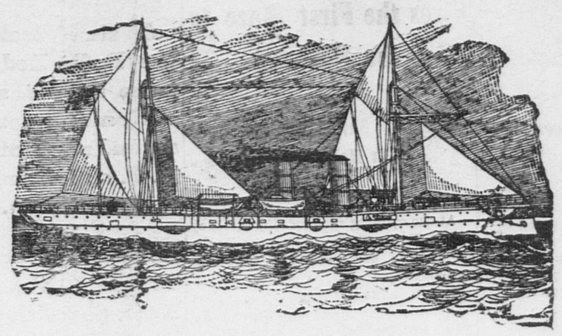

Ponce, Porto Rico, Aug. 23.—The editor of the San Juan Correspondence is here. He reports that Governor General Macias is pushing preparations for the evacuation of the island. The obstacles in the harbor of San Juan are being cleared away, and a ship loaded with dynamite has been removed. General Macias will return to Spain in a few days, leaving the details of the evacuation to his subordinates.

General Henry's men are badly in need of provisions. The garrison here says it is impossible to transport supplies over the mountain trail, and it has been arranged to send them to Arecibo, an open port. The Sixth Massachusetts and the Sixth Illinois regiments are without shoes.

General Miles left Monday for New Orleans. Congressman Wadsworth accompanied him. Major Biddle, Captain Fullington and Captain Hall will convey the royal Spanish ensign captured at Camo, the only one taken on the island, to Washington, and present it to President McKinley with General Wilson's compliments.

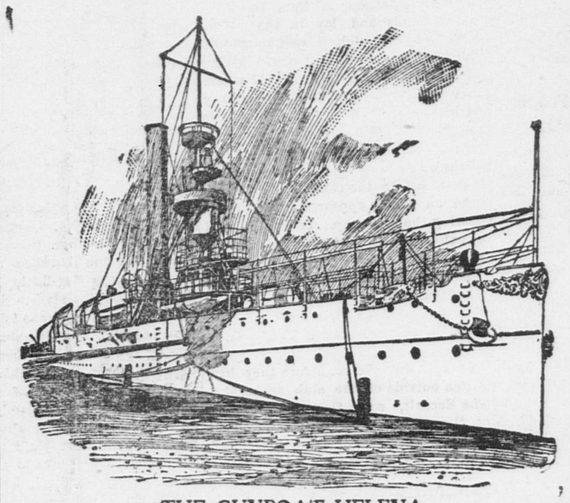

Lieutenant Hobson will leave New York today on the Seguranca for Santiago, where he will superintend the raising of the Spanish warships. Monday he made final arrangements with the makers of the air bags, which will be sent to him by instalments. There will be nearly 200 of them, each having a lifting capacity of from 1200 to 1500 tons.

WITH FLEET COMING TO BOSTON.

THE CRUISER DETROIT.

The Detroit carries nine 5 inch rapid fire guns, six 6 pounders, two 1 pounders and one gatling gun. She develops 5,227 horsepower and has a speed of 18.7 knots. Her displacement is 2,089 tons, and she cost $612,500.

THE GUNBOAT HELENA.

The Helena is a 13 knot gunboat. She has 1,600 horsepower, and her displacement is 1,392 tons. She cost $280,000. Eight 4 inch rapid fire guns and ten guns of lesser caliber compose her armament.

NEGROES AND CUBANS.

Both a Great Source of Trouble In Santiago City.

Colored Troopers Are Thieves and Brawlers.

Insurgents Raised Their Flag Over the Municipal Building.

Santiago, Aug. 23.—On Friday night at San Luis, a negro sentinel of the Eighth Illinois battalion, which is garrisoning the town, was shot by Cubans. The Cubans attempted to pass the sentry, when the latter challenged them. As they failed to understand the challenge, they were fired upon, one of them being injured. The crowd returned the fire, killing the sentinel.

The citizens of San Luis complain of the action of the undisciplined negroes, charging them with thefts, brawling and one criminal assault. General Lawton has sent one of his staff officers to investigate the trouble. General Shafter visited the town to investigate the alleged outrages by the military. He expressed discust at the undisciplined condition of the Eighth Illinois regiment.

Saturday the Cuban authorities raised a Cuban flag over the municipal building. General Wood ordered the flag to be lowered. The San Carlos club and several merchants also raised Cuban flags. Colonel Hood was asked for protection from the American soldiers. On account of several flags being raised several stores were threatened, and guards of soldiers were placed about two of them. Bad feeling exists between the soldiers and the Cubans.

Four crematories have been established for the burning of garbage. The city's sanitary condition is considerably improved. Seven hundred Cubans are employed in street cleaning. The order prohibiting the sale of beer has done much to lessen the number of arrests and the disorderly conduct.

Sunday morning Clara Barton, on the Red Cross society's ship, Clinton, sailed for Havana, leaving 1100 tons of medical supplies an dfood for distribution among the Cubans. There was a great crowd at the wharf to witness Miss Barton's departure, and demonstrations of gratitude were made on all sides.

On the breaking up of General Wheeler's camp on the Caney road Friday the tents and general equipment of the division headquarters were left in charge of the quartermaster's department. During the night the Cubans stealthily confiscated all the tents, stores, arms and personal effects of the soldiers. There is no clue to the robbers. On Saturday General Lawton ordered the ammunition and arms to be brought into town; but it was too late. Everything was gone. General Kent's brigade, stationed three miles from Santiago, also lost tents, and the soldiers marched into town barefooted, their shoes and everything having been stolen, the Cubans equipping themselves with arms, tents and provisions of the Americans. They are continually stalking about the camps, and constant vigilance is necessary.

There are 488 patients in the hospital at Siboney, and the authorities urge their immediate removal. Climatic debility is as bad as the fever. The doctors say that delay in moving the patients will menace their lives. The death rate is high.

General Shafter recommends that all the Mauser rifles and the ammunition for the same be shipped to some arsenal in the north with as little delay as possible to prevent rust. There are several millions of this ammunition and probably 10,000 or 12,000 stands of these arms. Of course a large number of those turned in were Remington and other inferior weapons. The surrender at Barracoa shows a total of 23,726 surrendered, a little less than 2000 of them being guerillas and volunteers, leaving about 21,000 to be shipped.

NEWS IN BRIEF.

Samuel S. Munroe, a driver, died at the Providence hospital last night from the effects of injuries received in a runaway accident.

The following fourth-class postmasters were appointed yesterday: In Charlestown, N. H., F. H. Perry; East Grafton, N. H., G. B. Kimball.

T. Dominy, a brakeman on the Fitchburg railroad, fell from a train in Fitchburg and was killed by being run over. He was 22 years of age, and leaves a widow.

The Fillmore County bank of Preston, Minn., has failed. The cashier assigns as the reason that he has lost heavily in wheat operations. The deposits are about $50,000.

The pope, upon hearing of Prince Bismarck's death, is credited with saying: "It is strange that my poor little body shows more resisting power than that of the giant of this century."

High temperatures prevailed Monday from the Rocky mountains to the Atlantic coast, except in the lake regions. Omaha and Concordia report 100 degrees; North Platte, 98 degrees; St. Paul, Des Moines, Dodge City, Palestine and Little Rock, 96.

Ambrose Tibbetts of Columbia, Me., committed suicide owing, it is alleged, to domestic trouble. He had placed the muzzle of a rifle against his breast and fired by pressing the trigger with a stick. He was 55 years of age, and leaves a widow and two children.

The opposition parties in Spain, supported by the press and public opinion, are urging the government to resist the American pretensions in the Philippines. The belief is general that Germany, Russia and France will oppose America's annexing any considerable portion of the archipelago.

Dyeing and Cleansing Establishment.
Gentlemen's clothing dyed, cleansed by steam, pressed, and repaired; also Ladies' Cloaks and Gloves, Ladies Sacques altered and sleeves remodeled. Satisfaction guaranteed. All we ask is a trial. J. FLYNN, Proprietor, 18 Copeland St., near Brewer's Corner, West Quincy, Mass.
Quincy, Aug. 22. 6t

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL
is the Manager, and the store is right over here at number 20 Franklin street.

DISFRANCHISED.

Over One Half of the Property Holders Cannot Vote.

The statistician of the Ledger has made the following study of the Assessors' figures of 1898, 1897 and 1893 which discloses many interesting facts.

The acreage of Quincy is growing less, the Assessors taxing four less acres this year than last year, and 1358 acres less than five years ago.

Quincy property is considered a good investment by non-residents. In 1893 only 905 non-residents were assessed for Quincy property, while this year there are 1523, a gain of about sixty per cent in five years.

The average valuation of the land of the city is low; only a fraction over three cents per foot, or $13.30 per acre.

There are 281 more property taxpayers this year than a year ago and 1079 more than five years ago; a gain of 24 per cent. in five years.

Of the 6,126 polls, only 1460 are assessed for property. In 1893 there were more poll taxpayers who had property, viz. 1791 in a total of 5533. This year there are 4666 assessed for a poll only, whereas five years ago there were 3742 assessed for a poll only.

Since only 1,460 of the poll taxpayers (largely voters) have property, it is a fact that less than a third of the voters have property. Again over 4,100 of the 5,524 property taxpayers have no vote. The number of non-residents is given as 1523, so that 2,577 of the resident property taxpayers have no vote. This is over one-half of the 4,001 resident property taxpayers and very nearly half of all the resident and non-resident property taxpayers—5,524.

In many cases the disfranchised property holders are wives of voters, but often they are widows, maiden ladies, and minors. The number of horses is on the decrease each year, there being 88 less than last year and 196 less than five years ago. However there is one for every twenty persons.

The number of cows is more than last year but 17 less than in 1893.

That half a house in Quincy is not half finished or a small affair, but a house which sits on the Quincy and Milton boundary, a part in each town.

This year $2515 22 less is raised on personal estate but $10,149.85 more on real estate.

The value of the new buildings in Quincy built in five years is $1,768,615, while the Assessors have assessed the land for $1,438,535 more than in 1893.

During the last year 236 houses were built; in the last five years, 840; in ten years, 1718.

A Healthy City.

Quincy with its increased population has had many less deaths than last year for the same number of months.

In 1897 there were 190 deaths up to July 1, while in the six months this year there were but 148. To Aug. 1, there were 173 this year to 209 last year. On a population of 25,000 the death rate was less than twelve per 1,000.

—Post Office inspector Evans says special delivery letters are more likely o be stolen than other letters.

MARRIED.

THE CUP RACE

Serious Accident to the Recruit.

Gives the First Race to the Duchess.

Challenger Sailed a Fast Race With Hole in Sail.

At the opening race for the Quincy Yacht Club's Challenge Cup the Duchess of Lynn defeated the Recruit over seventeen minutes over a nine-knot course, leeward and return. The course was from the Yacht club float to the Red Dolphin off Seal Rocks, Hull, around twice.

The judges steamer the Athlete, steamed up to the Point and towed down the Duchess, the Recruit going down under her own sail.

In the forenoon the Revenue Cutter "Dallas" came in from the Nantasket Roads and lay in the West Gut. At one o'clock ex-Commodore and Mrs. Shaw and Secretary Whiting boarded her in the "Athetete," where they were received at the gangway with appropriate honors. After the reception Mrs. Shaw presented Captain Clark with a magnificent bouquet of roses and pinks.

Just before the starting gun was fired an officer appeared from Quincy bearing the $500 cup. It was placed on exhibtiion in the locker room of the club house.

At 1.55 o'clock the preparatory gun was fired. At two o'clock they were off before a strong S. W. with double reefs in for Seal Rocks. They started about even.

Spinnakers were set before they had gotten outside of the club anchorage. The Recruit, with Henry M. Faxon, at the stick, slowly forged ahead of the Duchess. When she rounded Seal Rocks she had a lead of 22 seconds.

The work to the windward was the critical test for the boats. Both boats pointed up well, but it seemed as though the Duchess was pointing a trifle higher than her rival.

On rounding the flag float on the first time around, the Recruit had increased her lead to 1 minute and 7 seconds.

On the run down to Seal Rocks she continued to increase it until after the Dolphin was rounded. When in shaking out a reef her sail was badly torn.

All of the points had been loosened except the last one on the end of the boom when a puff came, ripping the sail diagonally. That accident settled the race.

But the Duchess did not get far before she also had her sail torn by a similar accident. But the Duchess continued to gain, notwithstanding she was annoyed by a small naphtha launch which hung onto her around a larger part of the course.

The summary:

Duchess, Chas. Hayden,	2 00	25
Recruit, F. B. Rice,	2 17	30

Judges—William A. Estes of Lynn, A. G. McVey of Boston and J. S. Whiting.

Lewiston's First Moonlight.

To those looking for a pleasant evening's outing there is nothing more charming and enjoyable than a moonlight excursion. When the attractions of a band concert and dancing on board are added the pleasure is greatly enhanced, but the steamer Lewison does even better than this. Saturday evening, Aug. 27, the steamer Lewiston will leave Commercial wharf, 96 Atlantic avenue, for a grand moonlight excursion in the bay, and in addition to the band and dancing, Prof. Barton's Gigantic Vaudeville Company will entertain the guests. In addition a gold watch will be given to the best lady dancer, for which all may compete.

Refreshments of all kinds may be secured on board, including clam chowder and other "shore" delicacies. Tickets are extremely reasonable—only 50 cents for the round trip, and as the number is limited those desirous of improving the opportunity to enjoy themselves should secure tickets in advance. The day trips of this steamer are extremely popular, and while this is the first moonlight trip of the season it promises to be well patronized.

Wollaston Post Office.

Letters remaining uncalled for August 20: Mr. Edward Montgomery, Mr. Lawrence Balton, William Lord, Mrs. D. Manning.

Russia has the largest military expenses, $260,000,000 a year. Britain follows next with $190,000,000, France with $180,000,000, Germany with $130,000,000, Austria $90,000,000 Italy $605,000,000.

EXTRA!

At six o'clock tonight the Daily Ledger will issue an extra edition with an account of the second race for $500 Q. Y. C. cup being sailed this afternoon.

For sale only at Souther's, the Houghs Neck postoffice, and at the Ledger office.

THE RACE TODAY.

It Will Probably be Over the Triangle.

The course today is over the triangle either No. 5 or No. 6, one being the reverse of the other. Course No. 5 is: Arcoss the line between the Judges' stand and the flag-float, leaving the flag-float on the starboard passing between Sheep and Grape islands to red spar buoy No. 2 in Hingham channel, leaving it on the port; thence passing between sheep and Bumkin island to Q. Y. C. barrel buoy off government wharf at Peddock's island, leaving it on the port; thence leaving Q. Y. C. barrel buoy on Harry's Rocks on the starboard to and across the starting line, leaving the flagfloat on the port and repeat. Distance 12 knots.

SAIL REPAIRED.

The damaged sail of the Recruit was repaired by a night gang at Lawley's last night, and this morning was in readiness for today's race.

THE BOATS OFF.

Houghs Neck, 2.05 P. M.—The boats were off promptly on time. The interest is greater than on the opening day.

Before six o'clock yesterday skipper Faxon of the Recruit had the Cleopatra sail on the defender, and gave his crew an hour's work. The sail filled remarkably well.

CONDITIONS FAVORABLE.

Houghs Neck, 1 P. M.—The conditions are favorable for a grand race today. The wind southwest, and nearly as strong as yesterday.

☞ See Ledger extras at 6 P. M. at Quincy and Houghs Neck.

If the armies of Europe should march at an eight-mile gait, five abreast, 15 inches apart, it would require nine and one-half days for them to pass a given point.

YOU
WRONG
YOURSELF

If you think you are making the most of your opportunities and do not advertise liberally in the Quincy Daily Ledger, which reaches most of the families of Quincy, Wollaston Atlantic, Norfolk Downs, Quincy Point, Quincy Neck, South and West Quincy. It also circulates in Weymouth, Braintree and Milton.

JOHN
WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

LAST DAY OF AUGUST

The Date of the Houghs Neck Illumination.

The committees on the annual illumination at Houghs Neck have organized and are hard at work to make the illumination this year the grandest of all. With the aid of the Fensmere beach attractions this promises to be realized. There will be all the usual features with many more, including band concerts, base ball, water carnival, etc., etc. Punch and Judy who have been missed by the children for two years, will be there. The water, base ball and a blindfold dory race will be great sport. Free ice cream and cake and a sail will be a treat for children.

The committees:

Executive,—John Cavanagh, chairman; A. H. Taber, secretary; W. W. Wilcox, treasurer; J. L. Harvey, James Cavanagh, Henry Pierce, B. H. Bartlett, B. F. Macomber, William Costello, W. H. Cavanagh, William Slawnwhite, A. Braley, Frank Morse, John Milton.

Sailing Parties—T. Downey, Jr., chairman; W. H. Shaw, A. F. Reed, Frank Morse.

Aquatic Sports—A. A. Meyer, chairman; Arthur Downey, Walter Harrison, George Gavin, W. H. Shaw, Arthur Cavanagh.

Field Sports—A. H. Taber, chairman; H. Darrow, Bert Carlisle, E. O'Toole, D. Coveney, Bert Harvey.

Fire Works—A. H. Taber, chairman; A. H. Dunham.

Band Concert and Amusements—A. A. Meyers, chairman; T. Downey, Jr.

General Illumination—Walter Packard, chairman; W. H. Taylor, W. H. Cavanagh, W. H. Shaw, John Day.

The Lobster Case.

The Pawsey lobsters case will come into the Quincy Court tomorrow, when George Pawsey of Rock Island will be charged with having in his possession 25 short lobsters, that were under ten and one-half inches. If found guilty the fine will be $5 per lobster or $125.

The Boston Post this morning has a sensational story of the seizure, in which ex Congressman Atwood is made to figure as the chief guest. Mr. Atwood was hardly that and he arrived so late that he saw nothing of the seizure. Mayor Sears and others are handled rather roughly in the article, and insinuations made which are far from the truth and reflect unjustly on all. The seizure was made very quietly and no remonstrance was offered, and the officers departed.

Officer Hunt says he has heard since that he is to lose his job, etc., but he has interviewed Edward A. Brackett, the commissioner of fish and game, and he feels safe. Mr. Brackett told him the officers did right, and the only criticism he had to offer was that they did not seize all the lobsters.

Aiding Working Boys.

The outdoor festival in the Charles River Park, Saturday, in aid of the Working Boys' Home, promises to be unique in the series of midsummer entertainments. These annual occasions in behalf of so worthy a charity have come to be fixtures in the cycle of the season's outings, and the park lends itself admirably to the purposes of the committee. The fun begins at 1 P. M. and continues till 10 o'clock, when the finale will be a fine display of fireworks. The programme includes a fine card of vaudeville artists, bicycle racing by the leading New England riders, etc. All Harvard bridge cars pass the entrance to the park.

TODAY'S COURT.

James Fegan of West Quincy for drunkenness, plead guilty and was fined $5. For assault on Officer Lyons the court found probable cause and held him in $500 for the grand jury.

August Carlson of Quincy for drunkenness paid a fine of $5. For disturbing the peace he was held in $500.

The principal case was a liquor case from Braintree in which William Carpenter was charged with keeping a liquor nuisance. Lawyer McAnarney appeared for the government and C. C. Mellen, Esq., for the defendant. A large number of witnesses were present and nearly all admitted that gambling and drinking was indulged in until three or four o'clock Sunday morning, August 7. The court ruled that evidence was not sufficient to convict for liquor nuisance and ordered discharge, but another charge may be entered.

The witnesses were: James F. Coneton, Herbert Hollingshead, Eugene Jackson, Frank Clause, Charles Pace, Pat LeVangie and William LeVangie.

Now that the interest in the war is waning, the close struggle of the Bostons for first place the National game is engrossing attention.

The longest distance that a shot has been fired is a few yards more than 15 miles, which was the range of Krupp's 130-ton steel gun, firing a shot weighing 2,600 pounds.

—The Society of Mayflower Descendants will convene at Plymouth, Tuesday, Sept 6.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Hot today.

Fred Newcomb of Co. K was at home Monday on short furlough.

Mr. Jesse Newcomb sold one of his yachts Monday to his brother Henry.

The Revere Yacht club had its annual sail to Peddock's island on Sunday.

A party of eight girl bicycle riders from Atlantic took a run to Nantasket Monday.

Mrs. Alfred Jelenick of Botolph street has returned from an extended visit in Vermont.

A good deal of crushed stone is being carried away from Quincy Neck in scows this summer.

John Carey of this city, a fireman on the Catskill, visited home Monday, the first time since May.

Mrs. Lester M. Pratt and Burleigh E. Pratt of Franklin street are at Monson, Maine, for a few weeks.

The marriage of a young girl at Squantum to an equally young man of South Boston is reported.

Mrs. P Brady and son Arthur of Brockton are visiting Mrs. M. W. Gerry of Old Colony street.

Rev. W. S. Key formerly of Wollaston was one of the Unitarian preachers on Boston Common on Sunday.

The advertisements of the Boston Branch grocery are now changed each insertion. Watch them for specialties.

Miss Marguerite Keeney has returned to her home in New London, Conn., after an extended visit with her aunt, Mrs. L. A. Pratt of Squantum.

Bicycles are getting to be quite handy articles to own. Strips of lumber were fastened to one this morning, which went whirling down Washington street.

Miss Annie Brady Miss Katie McCluskey and Miss Lizzie Earley of Brockton, were the guests of Miss Mamie Sullivan of Linden street on Sunday.

Extra Ledger tonight before six o'clock with the cup race. For sale only at Souther's news stand, the Houghs Neck post-office and at the Ledger office.

Applications for the next regular Civil Service examination for letter carries and clerks can be had at the Quincy post-office, and must be filed on or before Sept. 1st, 1898.

J. L. Rogers of Foster street is to break up housekeeping and move to Brookline. He offers his attractive furniture at auction next Monday, F. F. Crane being the auctioneer.

Mr. Joseph Ryan of East Weymouth has opened a first class barber shop in the place recently occupied by John Raymond at No. 6 1-2 Washington street, and will be glad to share in the patronage of Quincy people.

Letters from the Atlantic boys who are still at Cuba were received by their parents and friends on Monday and although many hardships have been endured, they are all well and anxiously awaiting word to leave for home.

The South Boston fellows who were in court for ball laying on Sunday at Atlantic, had to pay $2 each to get bailed out of lockup Sunday evening and other expenses, so that it was a lesson to them and others not to break the Sabbath.

The Champion Q. & B. base ball team are to play a game of ball at Houghs Neck the 31st of August against the strong Jordan Marsh team of Boston for a purse of $50. This will undoubtedly be the strongest game ever played in Houghs Neck.

A meeting in the interests of Thomas Blanchard of Stoughton for County Commissioner was held in Boston on Saturday. He seeks a renomination. Henry H. Faxon dropped in on the meeting uninvited and business was postponed until he departed.

The anunal grand concert and harvest festival in aid of St. Frances church, will be held on Monday evening the 29th, at the Casino, Houghs Neck. Talent from Quincy and the Neck insures a fine concert. After the concert dancing will be enjoyed until midnight.

Miss Ella May Thurber of 257 Washington street celebrate her ninth birthday on Thursday of last week and it was a very enjoyable occasion for the little people. Among those present were: Emeline Newcomb, James Hayden, Harry Redding, Harold Hayden, Eurin Hayden, Carlton McVerd, Walter Mead, Pearl Hayden, Sherman Hayden, Morton Smith, Beatrice Nash, Eddie Nash, Julie Hayden, Willie Hayden, Florie Smith, Lucy Smith, David Melvin, Ray Smith, Estella Porter, Viola Hayden, Winthrop Hayden, Sidney Bean, Eleanor Crane, Etta French, Josie French, Charlie French, Florence Bryant, Ella May Melvin, Eleanor Thurber.

Work.

Take a woman who has her own housework to do week in and week out, and it's pretty monotonous. The cooking alone is hard enough, especially in hot weather.

This store is here to save you much of this labor. We have many things that make "meal-getting" easier in hot weather. Cooked Meats, Dried Beef, and Canned Goods, that require no cooking.

Thin Sliced Dried Beef is very nice and nutritious—15 cents for a half pound can.

The Popular brand Canned Salmon makes a hearty meal and a good one —12 cents a can.

BOSTON BRANCH GROCERY,
Durgin & Merrill's Block, - Quincy.

WORMS IN CHILDREN.

Hundreds of children have worms, but their parents doctor them for nearly everything else. The best Worm Remedy made, and likewise the best Remedy for all the complaints of children, such as Feverishness, Costiveness, Indigestion, Sour Stomach, etc., is

TRUE'S Pin Worm ELIXIR

Its efficacy in such troubles—and likewise for all stomach troubles of adults—has never been equalled. It has been a household remedy for 46 years. Purely vegetable and harmless. Price 35 cents. Ask your Druggist for it. DR. J. F. TRUE & CO., Auburn, Me.

Book on "Children" free to mothers. For Tape Worm we have a special treatment. Write for book.

If You Have a House to Let,

IT WAS MOVING DAY.

Co. K Now Occupies its Proper Position.

Camp Dalton.
Tuesday Aug. 23.

The State cavalry will come to camp no Saturday for eight days' instruction. The boys of the Fifth are anxiously awaiting their as it will break the monotony. The grounds are being prepared for the reception and a detail is expected here tomorrow to pitch the tents.

The postponed moving day arrived yesterday.

At 9.30 the work began. The regiment was put into heavy marching order. Then all equipment was piled in the field, and the same order was used in lowering the tents as was used before. Every one was kept busy until noon, when dinner was eaten. After a short recess the work was commenced again. At 2.30 the tents were raised gain in their new positions. By four o'clock everything was in perfect order.

The camp is considerably changed as it now occupies just twice the area it did before. The Company streets are a great deal wider and in a great many respects the change is beneficial.

Under the new order of things it will be easier to drain the ground.

The long march which was expected was not given, as in the opinion of Col. Whitney, there would be work enough in moving camp.

Co. K now occupies its proper position on the right of the second battalion. K street is now the fifth street from the entrance. Six companies face one way and six the other, the division being used as an officers' promenade.

The effects of pay day are still prevalent in camp. There were so many absentees that it was found impossible to court martial them all on their return, so Lieut. Col. Weaver deals out justice to them all single handed. Parties of the offenders can be seen busily at work in all parts of the field under guard, working out their sentences. The sentence is usually a small fine and a few days at hard work.

This ought to be a lesson to some.

There were twenty absent from one Company one day. The money burns the pockets.

Co. K's Quincy friends did not forget them last week. A supply of bread and butter, a barrel of sweet corn and three boxes of apples, were received and you may rest assured, did not go to waste.

The all absorbing topic now is, will the Fifth be mustered out or remain for garrison duty. Every one is guessing, but no one is able to tell. It will probably be known in a week's time. No matter what comes they are ready to obey all orders. If they are to go home they have done their duty, as it is no fault of theirs that they did not get to the front. They were willing and anxious, but still it is Massachusetts' gain if her sons are able to remain at home, as they are perhaps needed now that the war is practically settled.

Your humble servant is on deck again. MACK.

Echoes of the War.

A squadron of war ships will arrive in Boston Thursday or Friday, and a naval and land parade are among the probabilities.

Admiral Schley is among the sick.

Efforts are being made among friends of the Second Massachusetts to get them mustered out.

Capt. Sigsbee with the Maine at Havana, and more recently with the St. Paul, has been advanced three numbers for "extraordinary heroism."

The Sixth Massachusetts in Porto Rico are reported to be without shoes.

Clara Barton will leave Santiago on Sunday for Havana.

The Eighth Massachusetts moves today from Chickamauga to Lexington, Ky. About 200 of the regiment are excused from duty because of sickness, but only 40 are said to be "actually sick."

The Tenth Detachment of the U. S V. Signal Corps from Boston is again united and are at Camp Wheeler, Huntsville, Ala.

The bodies of Maj. Grady and Maj. O'Connors of the Ninth Massachusetts are expected to reach Boston from Santiago on Friday.

The Olivette is expected in Boston today with sick soldiers, including members of the Second and Ninth Massachusetts.

LATEST!

3 O'Clock.

Both Sons Sacrificed.

New York, Aug. 23.—In the death list of the Mobile, which landed many sick and weary soldiers at Montauk Point last Friday, appears the entry: "Second Lieutenant Harry J. Vesper, Second Massachusetts, buried at sea." In connection with Lieutenant Vesper's death there is a story of patriotism and self-sacrifice that is probably without an equal in the annals of the Santiago campaign.

In May, 1861, Owen R. Vesper, 18 years old, of South Royalton, Vt., enlisted as a private in company F, Third Vermont infantry. The regiment went to the front in July of the same year, and in the following September Vesper's father enlisted in the same command so that he might share the hardships and duties of his only son. In June, 1862, the regiment was with the army of the Potomac in the Chickahominy swamps of Virginia, where the father was stricken with chronic diarrhoea, and died at Harrison's Landing, Va., about a month later.

The son retained his health and became one of the best soldiers in the regiment, brave almost to recklessness, never missing a day's duty or a battle, and re-enlisting as a veteran volunteer in December, 1863, to serve until the close of the war. After his discharge he married, and with his wife went to Springfield, Mass., where for a number of years he was employed at the arsenal as a guard. There his children, two boys, were born.

When his boys grew up to manhood several years ago, true to the martial instinct inherited from their father, both enlisted in the Second Massachusetts. This company, it will be remembered, played a prominent part in the fighting in front of Santiago. On Aug. 10, the death list of General Shafter's report contained the name of the younger son, Private Paul Vesper, who had died of acute diarrhoea. The father went to Montauk Point to meet his other son, only to find that he too had died.

"Compelled Them to Surrender."

New York, Aug. 23.—General Calixto Garcia has sent his first official statement concerning the Cuban operations at Santiago to the Cuban junta in this city. The messenger bearing General Garcia's statement arrived Monday, and counsel for the junta gave out a translation of the statement. It contains little that is new, and there is no evidence that the insurgents suffered materially in the assistance they gave the American army.

In reciting the fatal move of the Spanish fleet, Garcia writes: "Admiral Cervera, with his officers and seamen, about 600, escaped by landing west of Santiago, but the Cuban forces on the coast compelled them to surrender to Colonel Joseph Candelario Cebreco, who afterwards delivered them to the American navy, against a receipt."

There is nothing in the statement indicative of resentment of the course followed at the surrender of Santiago, Garcia saying: "As General Miles has not given me orders to co-operate in any further operations, I retire with my forces to their respective territories."

Merritt and Aguinaldo.

London, Aug. 23.—The Hong Kong correspondent of The Mail says: "General Merritt and Aguinaldo have agreed that the latter shall govern outside of Manila for the present. No insurgent will be allowed inside of the city with arms.

"A British surveying party met with a hostile reception on Saturday between Deep bay and Tai-Moshan, near here. A thousand natives, beating gongs and shouting, "Foreign devils," closed the gates against them. Two Maxim guns and 70 blue-jackets were ordered out, and the natives were given 10 minutes to open the gates. They promptly complied with the demand."

Twelve Hundred Patients.

New York, Aug. 23.—There are now in the hospitals at Camp Wikoff, Montauk Point, upwards of 1200 men. Of these about 900 are in the hospital and annex; 300 are in the hospital in the detention camp. The total number of typhoid cases is set at 220. Some of the typhoid patients are being daily removed to New Haven. In a day or so the remaining typhoid patients will be taken to New York and Boston. Frank Norton, company L, Second Massachusetts, died yesterday in the general hospital.

The Second Massachusetts volunteers are still held in the detention camp. The men, who were in a sad plight when they came ashore, have improved but little. It may be weeks before some of them in the harbor are able to get around. These men have been well provided for by their friends in Massachusetts, who have sent a boatload of delicacies and various things for the soldiers.

Illness of Schley.

Bridgeport, Conn., Aug. 23.—Admiral Schley is confined to his summer home in Westport by illness, and no one except his attendants is allowed to see him, or have any conversation with him. The illness is pronounced a fever, the character of which is not yet known.

Boston Opinion.

Boston, Aug. 23.—The Journal "is not unmindful of the practical difficulties which even now stand in the way of a genuine reciprocity agreement, but it believes that a well-grounded understanding can be reached which will be of very great advantage to New England manufacturers and merchants."

The Advertiser remarks: "When the people of Massachusetts, for example, find that the supplies which they have raised in abundance have not been delivered to the troops, although the latter were in great need, they are not satisfied with mere generalities or statistics of railroad or steamship transportation as a reply."

The Post says: "It is a smart, valiant and effective little squadron that is coming into Boston harbor, bearing its share of the laurels of the war, and the city will be proud to do honor to these vessels, their commanders and their men."

The flags to be hoisted at one time in signaling at sea never exceed four. It is an interesting arithmetical fact that, with 18 various colored flags, and never more than four at a time, no fewer than 78,642 signals can be given.

A Painter's Conscience.

In the course of some reminiscences of Sir Edward Burne-Jones a correspondent of The Westminster Gazette remarks: Those who are not "offended" by the paradoxes of Charles Lamb would have delighted in Burne-Jones' play of humor and imagination. Let me justify my reference to Charles Lamb.

I once returned to Burne-Jones some books which he had lent me 30 years before, writing to him to the effect that if it was base to keep borrowed books so long it was heroic to return them after such long possession as might well breed the sense of ownership. In reply he said:

"The return of those books has simply staggered me. It has also pained me, for it seems to raise the standard of morality in these matters and perhaps to sting the susceptible consciences of book borrowers. I have many borrowed books on my shelves. I would rather the owners should die than that I should have to think about these things and return them. I have two costly volumes that were lent to me before that little incident of ours, which, you may remember, was in Red Lion square. I hope the owner is no more, for I simply will not give them up. And you have made me uneasy and have helped to turn an amiable rascal into a confirmed villain. Your affectionate NED."

Slang Puzzled Him.

Edouard Remenyi, the great violinist, used to say that some of the hardest studying he ever did in his life began after an experience he had in Detroit.

"On my first tour of this country," he delighted in telling, "I worked unceasingly to acquire a knowledge of the language and got on fairly well. But the slang that I found so prevalent baffled me more than anything else. I gave a performance in Detroit one night and met with a reception that warmed my heart toward her people. Among other things, this appeared in one of the papers next morning: 'Here an ugly, little, bowlegged chap, whose clothes hung loosely about his ungainly person, waddled to the footlights. But, sakes alive, how he did play the fiddle!'

"Now, I couldn't make out what that 'sakes alive' meant, so I timidly approached a gentlemanly citizen, told him of my inability to grasp the meaning of the slang, and asked him if the expression was intended to be complimentary.

"He kindly read it and replied, 'Well, I should snicker.'

"I was more bewildered than ever, and from that time on made the study of slang one of my chief occupations."—Detroit Free Press.

A Forgetful Bishop.

An English bishop, noted for the shortness of his memory, was one day waiting at a station for a train. Being in good time, his lordship was indulging in a solitary trot up and down the platform. While thus engaged, he came in contact with a young officer whose face seemed familiar to him. Meeting him again, he said "Good morning."

At the next renconter the bishop stopped, saying, "How is your father?" The gallant soldier replied, "He has been dead for many years." The bishop tried again with the query, "How is your mother?" "Well," said the officer, smiling, "I think she must be all right, or you would have heard had she been indisposed."

The bishop walked away, but his curiosity was greatly aroused. Seeing the station master, he at once asked him if he could enlighten him as to who the young officer was with whom he had been conversing. "Oh," replied the station master, "why, your lordship, that's the Duke of Connaught."—Household Words.

A Brave Briton.

When the attack was made on Sidon, during the war with Syria, it became necessary for the British troops to advance across a long, unprotected bridge, in the face of a battery of six guns, which completely commanded the approach. The men were unwilling to expose themselves to certain death, when Arthur Cumming, carefully dressed in full uniform, stepped forward to the middle of the bridge. It was immediately swept by the fire of the battery. When the smoke had rolled away, there stood Cumming intact, carefully brushing the dust from his boots, after which he stood erect, fixed a single glass in his eye and looked back at the men. This was too much, and they captured that bridge and battery with a whoop.

His Compliment.

A few weeks back a wedding breakfast was given by a substantial farmer blessed with five daughters, the eldest of whom was the bride. A neighbor, a young farmer, who was honored with an invitation, thinking no doubt that he ought to say something complimentary upon the event, addressed the bridegroom thus:

"Well, you have got the pick of the batch."

The faces of the four unmarried ones were a study.—London Fun.

The Sapper and the Sentry.

While stationed at Gibraltar I overheard, says a "regiment" story teller, the following colloquy between an infantryman doing sentry go and a sapper out with his sweetheart:

Sentry (who sees sapper coming)—Halt! Who goes there?

Sapper (trying to look big)—Engineer and his lady.

Sentry—Advance, sapper and servant girl. All's well.—London Globe.

Drenching Her Conceit.

Helen—He thinks the world of me. And such nice things he says of me! He said last evening that I was a dream.

Harriet—A dream may be beautiful when one is under its influence, but one forgets a dream so quickly when one wakes up, you know.—Boston Transcript.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store, regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. TO LET.

If you have a vacant tenement, advertise the fact in the Daily Ledger. We are confident it will be let within two months, and to substantiate the claim, we will advertise it

FREE

after two months. To take advantage of this offer payment must be made before the expiration of the two months. A four-line space until your house is let will cost only $5 at the outside. You cannot afford on these terms to let the house continue vacant.

Sending Out the Bonds.

Washington, Aug. 23.—Up to last Saturday night the number of subscribers to whom allotments of the new bonds had been sent was 106,588, representing $50,204,340 in bonds. The work thus far has been on bonds of $500 and under, and of these about one-half have been delivered. Beginning today large shipments of $1000 bonds will be made in connection with those of the lower denominations, and it is expected that the entire issue of $200,000,000 will have been delivered early in October.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

Make Home Attractive.

This may be done at our store at a cost that will surprise you. In years gone by it required a fortune to furnish a home, even comfortably, but now ordinary circumstances will permit of luxurious furnishings. This fact will be revealed to you upon visiting our store. . . . . .

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead."

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

Lowered the Hawaiian Flag.

San Francisco, Aug. 23.—Precisely at eight minutes to 12 o'clock Aug. 12, the Hawaiian flag descended from the flagstaff on all the government buildings in Honolulu, and at exactly five minutes to the same hour, the stars and stripes floated on the tropical breezes from every official flagstaff.

The ceremony was a most impressive one. To hear the strains of "Hawaii Ponoi" for the last time as a national anthem; to hear the bugle blow taps as the Hawaiian ensign sank from its position, and to notice the emotion of many who had been born under it and had lived their lives under it, was solemn; but then came the bugle call for the raising of old glory, and the strains of "Star Spangled Banner" broke forth as that banner was unfurled to the breeze. When the cheers broke forth, eyes that had been dim for a few minutes became bright when the stars and stripes blew out.

The picture presented in and around the executive building was most striking. In the grounds and around all the approaches were crowds of on-lookers of varied nationalities. Notably remarkable was the number of Hawaiians.

Carried Too Far.

"Lie down on the stars and stripes? Never!" cried the patriotic girl who was offered a hammock draped with a flag. The use of the flag for decoration is often carried too far. It can't be expected that everybody will rise every time Old Glory is mentioned, but it is not fair to lie down on what so proudly we hailed at the twilight's last gleaming.—Boston Transcript.

Bamboo Furniture.

Bamboo couches, piazza benches, chairs, tables, dressing cases, desks, etc., are shown in the oriental shops in bewildering variety this season.

Papa's Business.

"What does your father do, little girl?" asked the new teacher.

"He is a conflagration ejector," said the little girl from Boston.

"A what?"

"He puts fires out."—Philadelphia North American.

TEDDY'S STAR RISES.

Strong Probability of His Nomination For Governor.

Platt Said to Be Agreeable to the Choice.

Rough Riders' Idol Willing to Carry the Republican Standard.

New York, Aug. 23.—The trend of political events indicates that the Republicans have about decided that Colonel Theodore A. Roosevelt is their strongest candidate for governor. One thing has been settled: Roosevelt will not decline the nomination if it comes to him freely through the delegates at the Saratoga convention and is not forced upon them.

Secretary of State John Palmer is authority for this statement. He visited Colonel Roosevelt at the latter's country home at Cove Neck, near Oyster Bay, L. I., and after a long talk with the rough riders' colonel, Secretary Palmer announced that Roosevelt was the man beyond a doubt.

"I firmly believe the nomination will be offered to Colonel Roosevelt. He will only accept it if it comes from his own party. He will take no independent nomination," concluded Palmer.

It is generally conceded that Mr. Platt will not make strong opposition to Roosevelt's candidacy. The Republican leader, it is said, has become convinced that the success of the party is at stake this fall, and it is no time to haggle.

One outgrowth of the revival of the Roosevelt boom is the inclination on the part of Tammany to have a soldier candidate in the field. William Astor Chanler's name was heard repeatedly yesterday in connection with gubernatorial honors. Chanler's availability will be discussed by Senators Hill and Murphy and Richard Croker when they meet here the latter part of this week.

NEARLY BEATEN TWICE.

Bostons Lost the First Game and Were Tied In the Second.

Boston, Aug. 23.—Before 12,000 people, the largest crowd of the season, the champions lost the first game with Cincinnati yesterday, and, according to agreement, terminated the second contest after seven innings had been played, with the score a tie, five runs apiece. Both games were aggravating exhibitions of how everything will favor one team at the expense of the other some days, coupled with poor judgment on the part of the Boston players and hard luck at critical times, and the Cincinnatis bore testimony to the fact that they were heartily glad to call the second game off at the time agreed upon beforehand, although Captain Duffy ordered his men to the field to play it out.

Nichols, after winning 10 straight games, lost his first game. He pitched superbly, and it was due more to erratic work on the part of his confrères than by any shortcomings of his own. Boston lost the first game through Hamilton in the first inning, when he was caught off second with none out, by several pop flies which dropped near enough to Hamilton and Stafford to have been caught, by one slow decision by Tom Brown in the third inning, and by muffs of Hamilton and Stafford. Score of second game:

Bostons.	AB	R	1B	PO	A	E

Totals	30	5	10	21	6	4

Bostons .....1 0 0 2 0 2 0—5
Cincinnatis .....0 0 2 0 1 0 2—5

Earned runs—Boston, 1; Cincinnatis, 3. Two-base hits—Hamilton, Collins, Smith, Irwin, Corcoran, Miller. Home run—McPhee. Double plays—Corcoran, McPhee and Beckley. First base on balls—By Lewis, 3; by Dwyer, 1. Umpires—Gaffney and Brown. Time—1:36.

In the first game with the Pittsburgs Monday the senators played like a fat man's club. Several times they had a chance to win, but lost through lack of head work. Killen's pitching was good and Anderson caught a difficult fly. The second game was called in order to allow the visitors to catch the train, with the score 3 to 2 in favor of the miners.

For three innings Cuppy of the Clevelands had the giants guessing. In the fourth and fifth, however, they got on to his curves and knocked him off the slab. Wilson was substituted and proved effective. After the game George Davis sprained his leg badly. He will not be able to accompany the New York team west. Score: 11 to 4.

The Philadelphias defeated the Louisvilles in a terrific hitting game. The two teams made a total of 33 hits for 50 bases. Clark and Dexter of the Kentucky club were removed from the game for disputing a decision. Score: 18 to 9.

The Springfield team bunched hits in the first and eighth innings and won easily, 7 to 1. A fumble by Pappalau was all that stood between the Syracuses and a whitewash.

The St. Louises were not in their last game of the series with the orioles. Hughes held them down to three hits, while Sudhoff was touched up hard and often. Score: 6 to 1.

The Providences scored a run on four called balls and a two-bagger by Canavan in the first half of the opening inning yesterday. Then the Wilkesbarres went to bat, and Evans was touched up for two clean hits and a bunt that passed for a hit by the first three men. Two bases on balls sent in two runs, a combination steal produced the third one, and the fourth was scored on a long fly to right field. After that neither side could get a run.

SUNSHINE NEEDED.

An Excess of Moisture In Southern Part of New England.

Boston, Aug. 23.—In Maine and parts of New Hampshire and Vermont the weather the past week was fairly good, permitting a renewal of farm work, harvesting, haying and plowing; but for the remainder of the district cloudy weather, with showers, and warm, sultry atmosphere predominated. The conditions were excellent for the progress of all crops, which have made rapid, and in many sections, phenomenal advancement. The excessive moisture and showers, where they prevailed, seriously delayed the grain harvest, thus resulting in some damage. Fruit, potatoes and vines suffered to some extent. Sunshine was deficient in all sections, and is needed.

Reports, without exception, are favorable to an excellent crop of corn, the only danger being an early frost. Sweet corn is reported a week in advance of the average season in Vermont, and in some sections the yield will be the largest in 10 years. Oats, barley and wheat are generally good crops.

There is still some grass to harvest in all sections of New England. The larger portion of it, however, is in the southern states, where the wet weather has delayed haying. Mowing meadows and rowen are generally reported in good condition. The latter, owing to the large crops of hay that has been secured, is not of the usual importance.

Fall apples of good quality are quite plentiful. The winter varieties, while improved, are dropping badly and will fall far short of an average crop. Grapes are uneven. Peaches continue to rot and are not promising. Plums will probably be a fair crop. Cranberries have been damaged by sun scald and by insects. The crop is rapidly maturing.

The cloudy, moist weather and showers have not been very favorable to vegetables. There is more complaint of rust and blight in potatoes than in preceding reports. Tomatoes and vines are being injured. Notwithstanding the general complaint there seems to be little apprehension of extensive damage.

Tobacco apparently continues in satisfactory condition. In some sections the harvest is well advanced, while in others it is just beginning.

The News of Beantown.

Boston, Aug. 23.—The first vessel of the new auxiliary navy was formally placed out of commission Monday, her crew discharged and the craft and property formally transferred to the yard authorities by her commanding officer.

Mary E. McCarty, 2 years old, was knocked down, run over and instantly killed by a wagon while attempting to cross a street in the Charlestown district. The teamster was taken to the police station pending an investigation.

John Little, whose home is supposed to be at Salem, fell from a brewery wagon and struck upon his head, sustaining injuries which resulted in his death an hour later.

Lizzie Barsky was charged yesterday with murder in causing the death of her infant, and was remanded until Wednesday. The infant's body was found in the house in which the woman worked, and the head in another house.

Ellen Quinn of Somerville threw herself into the Charles river from the Harvard bridge yesterday, but was rescued by the draw-tender in an unconscious condition. She died at a hospital a few hours later. She had been in ill health.

Mayor Quincy, in an interview relative to the reception to be tendered the squadron of naval vessels ordered to this port, said that he would confer with the navy department for particulars, and upon receiving them he would recommend what action should be taken for the reception.

Have Filed a Protest.

Boston, Aug. 23.—Officers of the Democratic state committee have filed a protest with the executive council against the confirmation of Henry V. Cunningham of this city to be a member of the ballot law commission. Mr. Cunningham has been a member of the commission since the statute establishing it was passed. His term expired a few weeks ago, and he was renominated by the governor. Before the governor made the renomination, an opinion on the case was asked of the attorney general, who replied that if Cunningham voted for the Democratic candidate for governor last year, George F. Williams, he was eligible for the position.

Mr. Cunningham, in answer to an inquiry from the governor, stated that while he was not affiliated with the national Democratic party, he was, and always had been, a Democrat. Upon this statement the governor made the renomination. Members of the state committee, however, do not believe that Mr. Cunningham voted for Mr. Williams, and are desirous of putting the question to him point blank.

Question of Identity.

New York, Aug. 23.—Barge office officials are greatly puzzled over the refusal of Michael Losinzky of Brooklyn to accept as his wife a woman who arrived from Hamburg. The woman insists that she really is his wife.

When Losinzky met the woman at the office he was at first skeptical. He said his wife had a mole on her wrist, and when the woman pulled up her sleeve and showed the mole he took her home. Later, however, he reappeared with the woman, declaring she was an imposter. He said his wife had a large birthmark on her body which was missing on this woman.

No amount of argument can make him change his mind. He acknowledges that this woman resembles his wife. She has the mole, but not the birthmark, and the husband declares that he will accept no woman as his wife who cannot produce the birthmark he refers to. Unless the woman can prove her claim she will be deported.

Tomorrow's Almanac and Forecast.

Sun rises—5; sets, 6:32.
Moon sets—10:03 p. m.
High tide—3:45 a. m.; 4:15 p. m.

The indications now are for a continuance of high temperature through Wednesday, probably rising to near 90 degrees during the day, except on the coast, where sea breezes may occur; excepting that scattered local thunder showers are probable during the late afternoon or evening, the weather promises to continue fair with southwesterly winds Wednesday and probably Thursday.

A more pitiful sight than a mother and her child, both captives and shackled in a dungeon, could not well be imagined. There are thousands of mothers and their babes who lie shackled by disease in the dungeon of death.

Without knowing it, or having the faintest comprehension of it, the fault lies with the mother. Too many women enter upon the responsibilities of wifehood and motherhood while suffering from weakness and disease of the delicate and important organs that make wifehood and motherhood possible. A woman who suffers in this way cannot be a capable wife and a competent mother. Before entering upon the duties and responsibilities of these positions, she should see to it that her health, both general and local, is thoroughly restored. Dr. Pierce's Favorite Prescription is the best of all medicines for this purpose. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It promotes regularity of the functions, allays irritation and inflammation, heals ulceration, checks unnatural and exhausting drains and soothes pain. It tones and builds up the shattered nerves. It turns the dangers and pains of maternity into safety and ease. It is a medicine that is intended for this one purpose only and is good for no other. Dealers sell it and no honest dealer will suggest a substitute.

"Dr. Pierce's Favorite Prescription did me so much good that to-day I am well again and stronger than I have been for years," writes Mrs. Alex. Lockie, of Wise, Isabella Co., Mich. "I have a baby one year old and as fat and healthy as one could wish to see. I took two bottles of Favorite Prescription.' I keep Dr. Pierce's Pleasant Pellets in the house all the time. My family take no other kind of pills."

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,

Adams Building, Quincy.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead."

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

LATEST WAR BULLETINS On Page Three.

GEN. MILES TALKS OUT

Thinks He Should Have Been In Charge In Santiago.

Entitled to It by His Position as Commander.

Telegrams Were Garbled or Suppressed by the War Department.

Kansas City, Aug. 24.—The Kansas City Star printed a letter from its correspondent with the army in Porto Rico, dated Ponce, Aug. 11, which began by quoting Major General Miles: "'After I arrived in Santiago with reinforcements for General Shafter, and while I was conducting the surrender negotiations, Adjutant General Corbin sent a secret dispatch to General Shafter, assuring him that my coming made no difference in his command; that I did not go to supersede him. This dispatch I did not see.'

"In explanation of what he meant, he continued: 'I no more superseded General Shafter than a colonel supersedes a captain. If a captain was sent ahead with a company of soldiers and was later on joined by his colonel with the rest of the regiment, the colonel would not supersede the captain; he would simply take command of the entire force, as I did at Santiago. That this was recognized by the war department is shown by all the subsequent proceedings, for the dispatches from there in regard to the surrender all came to me, and General Shafter was not mentioned.

"'I have been commanding general of the army of the United States since Mr. Cleveland appointed me such, three years ago, and I have heard nothing to lead me to believe I have been relieved of the responsibility. The dispatches to and from Santiago all show this, but they were very much mutilated and garbled in Washington when given to the public. Words and messages were left out, which changed the meaning and significance of the messages, and several important ones, which would have thrown a clearer light upon the situation, were entirely suppressed.

"'The whole affair of the surrender of General Toral was simple. He agreed to surrender, was given time to secure approval from General Blanco and then from Madrid, without being asked to do so, surrendered his entire corps, or about twice as many soldiers as were in Santiago. This amused me considerably, and surprised me as well, but I took the surrender of the corps as though I had exacted it.'

"Newspapers which reach here from the United States show that considerable discussion is now going on as to the credit for moving the Santiago army from Cuba back to the United States. Secretary Alger claims, it appears, that he originated the idea, and had already made the necessary arrangements before the appeal sent from the commanding officers at Santiago reached Washington. On file in General Miles' headquarters is a copy of a cablegram sent by General Miles to Secretary Alger July 21. This cable was suppressed by the secretary in Washington, and no attention was paid to the recommendation of General Miles, which outlines the plan now followed by the war department, but for which others are claiming credit."

General Garcia Accused.

Havana, Aug. 24.—It is reported that General Calixto Garcia, after entering Gibara, assaulted the custom house administrator, slapping his face, and afterward ordered a negro to beat him with a machete. It is also said that General Garcia demanded money from the Gibara merchants. The merchants refused to comply with his demand, whereupon he ordered that they should pay double the amount of his first exaction. General Garcia also ordered the arrest of over 100 Spanish residents, who were liberated after the arrival of the Infanta Isabel. The commander of the Nashville said he had no troops ashore, but that he would not allow the inhabitants to be ill-treated.

It is reported that General Garcia resigned on the 19th inst. and that his command was taken over by Leader Feria. It was also said that Garcia was about to leave Gibara. Nothing is known, however, in official circles regarding the report. A person who is in a position to be well informed says he believes the report, but insurgent sympathizers deny it.

Last Hope of Spaniards.

Madrid, Aug. 24.—All the papers announce the reassembling of the cortes between the 6th and 10th of September. The Liberal says: "Parliament is the last hope of the people. If it does not arouse the nation from its lethargy, does not know how to sever with a firm hand the ties which bind Spain to so many dead things and array all Spaniards in a solid body, the organization of the future will fall, like all others, into irreparable discredit, and it will end by losing the little influence over the destinies of the country it has."

The government hopes to close the cortes again before the peace commission assembles in Paris. The suspension of the guarantees will be partially raised, allowing public meetings to be held for municipal elections.

The papers advocate making use of Spain's undeveloped mineral wealth for the country's financial recovery.

Would Crush Democracy.

London, Aug. 24.—Henry Labouchere, in Truth, says that a large standing army would be necessary if the United States were to embark on a spirited policy of annexation. "This army," he declares, "would soon crush out democracy at home; and in the end some popular general would feel it his duty to save society by making himself such a president as the constitution never contemplated.

"The old world," he continues, "in its dealings with the new assumes an attitude of condescension as ridiculous as it is unwarranted. One of the salient features of the late war was the manly, honest, generous and chivalrous conduct of the United States government, forces and people from the beginning to the end of the campaign. It is only just to express the general feeling of admiration which the new chivalry has created throughout Europe."

What Duffield Said.

Boston, Aug. 24.—In an interview with a Journal representative at York Harbor, Me., General Duffield, who commanded the First brigade, third division, of General Shafter's army at Santiago, said: "General Shafter underestimated the fighting qualities of the Spaniards, and his loss in battle was greater than he had expected, I think. His campaign was quick, decisive and successful, and had he waited and moved slowly, the men would have gotten sick just the same, and with a thus broken army it is doubtful if the campaign would have been a success. The haste of the advance was responsible for the loss, and the lack of medical and other supplies. Still the loss is no greater than it would have been from sickness anyway, and if the blow had not been sharp and quick, breaking up the Spanish morale, we might have not taken Santiago yet."

GENERAL W. W. DUFFIELD.

When an inquiry was presented about the sickness, especially in the Ninth Massachusetts, he continued: "I think the brigade suffered because of quick transportation to a southern climate, where the humidity was very great, before having become sufficiently hardened. The men were northern fellows and new to the business. They had been in the service only since May 8, and the Camp Alger work was not sufficient preparation. Still the fact that the regulars have also suffered terribly would tend to confute that idea."

Hansbrough Gives Views.

Washington, Aug. 24.—Senator Hansbrough of North Dakota had a conference with the president in behalf of Grigsby's rough riders, who are anxious to be kept in service and sent to either Cuba or Porto Rico. The senator learned that it had been decided to muster out all the volunteer cavalry, but that it may be possible for cavalrymen wishing to remain in service to be dismounted and kept as infantrymen.

Senator Hansbrough authorized an interview in which he said: "I have been surprised on meeting prominent business men in the east in the last 30 days to find almost unanimity of feeling in holding the Philippines. At first I supposed it was merely the outcome of enthusiasm over the success of our arms and a desire to keep the flag wherever it has been planted; but I find the sentiment in favor of territorial expansion is growing. I doubt, however, if people who are evincing enthusiasm over this question at present have stopped to consider that to retain control of the Philippines contemplates a standing army of perhaps 40,000 to 50,000 men, 7000 miles away from home, with enormous expense for construction

"The serious part of it to my mind is that, if we do not take the Philippines, the several foreign powers now seeking control will undertake to plant themselves in the island, and the whole eastern question, so called, will be transferred to and for some time revolve about the Philippine islands. I presume that some amicable arrangement could be entered into on the part of the United States with the foreign nations which are reaching out for power in the new territory whereby a joint protectorate could be agreed to, giving France, England, Germany and Russia the same privileges that we will ask."

Had Heads Out.

Philadelphia, Aug. 24.—Two privates of battery K, Seventh United States artillery, were instantly killed and two others seriously injured by having their heads crushed against the iron girders of a bridge on the Pennsylvania railroad. The dead are Victor Tenney of St. Louis and William Chichester, aged 21 of Jersey City. The injured are Harry Pulaski and Peter Burns.

General Augustin Injured.

London, Aug. 24.—The Singapore correspondent of The Mail telegraphs that General Augustin had his arm broken while on his way from Hong Kong to Singapore, during the progress of a typhoon. Augustin will proceed to Spain in a German mail boat.

EXTRA!

At six o'clock tonight the Daily Ledger will issue an extra edition with an account of the third race for $500 Q. Y. C. cup being sailed this afternoon.

For sale only at Souther's, the Houghs Neck postoffice, and at the Ledger office.

NEWS IN BRIEF.

The sixty-fifth annual convention of the Universalists of Vermont and Quebec opened in Stowe, Vt., yesterday.

As regards the disposition of the Philippine islands, German diplomats do not believe that the United States intends to keep all the islands.

Samuel Thrasher, 19 years old, private secretary to Mayor Cobb of Newton, Mass., was drowned in the Charles river Tuesday afternoon.

General Shafter reports the death of Major Bowen, surgeon of the Second Massachusetts regiment, and Andrew Little of company G of the same command.

Rev. Oliver J. Cowles, an aged minister of Derby, Conn., was stricken with heart disease while riding his wheel in Buffalo. When assistance reached him he was dead.

The Vermont convention of the Catholic Order of Foresters was held in St. Johnsbury, with a representation of 5 courts. The membership showing is 3061, a gain of 500 over last year.

After an absence of over 10 years, a representative Canadian cricket team visited New York yesterday. They opened with a victory over the Staten Islands by a score of 244 to 152.

The store and stock of H. J. Lamar & Sons of Macon, Ga., who conducted one of the largest drug stores in that state, was totally destroyed by fire yesterday. Loss, $105,000; insurance, $85,000.

A terrible thunder storm swept the whole Jutland, Denmark, peninsula yesterday. Many buildings were struck by lightning, six persons were killed and 39 farm buildings and 13 houses burned.

Lightning struck a large barn on the farm of Charles E. Alexander of Guilford, Vt., and the fire which resulted not only consumed it, but spread to a number of others. The loss is estimated at $4000.

William W. Knight, aged 37, was drowned in the Nashua river above East Pepperell, Mass., while bathing. He had just rescued two other bathers from danger in an unconscious condition, when he sank exhausted. He was formerly a newspaper man of Worcester.

There are yet to arrive from Santiago the First, Third and Seventh regiments of regulars, the Thirty-third Michigan, the First Illinois, and the District of Columbia regiments. All are reported to be on the way. General Shafter is expected by Saturday or Sunday.

The state convention of the Catholic Order of Foresters in Maine and New Hampshire was held in Nashua yesterday. The ballot resulted in the re-election of Chief Ranger H. T. Lidoux, Nashua; Vice Ranger G. Marier; Secretray W. Paquette, and Treasurer L. V. Manseau.

Coincident with the West Indian sugar conference to assemble in Barbadoes Sept. 3, for the purpose of protesting against a sacrifice of the colonies, Jamaica is preparing a plebiscite to the British parliament requesting permission to endeavor to arrange for annexation to the United States.

The receiver of the National Granite State bank of Exeter, N. H., has declared a final dividend of 11 6-10 percent, to the depositors of that institution. Two dividends of 20 percent each were previously declared. The bank was wrecked by the embezzlement of Warren Putnam, ex-president, who is now in prison.

FAILURE OF HARVEST.

Crops In Russian Provinces Prove Almost Worthless.

Grave Prospects of a Disastrous Famine.

Landowners Obliged to Ask the Government For Assistance.

St. Petersburg, Aug. 24.—Great uneasiness is felt over the repetition of last year's failure of the harvest. In seven districts of the province of Kazan and largely in the provinces of Samara, Saratoff, Simbirsk, Viatka and Perm, the crops are almost worthless. Even the landed gentry are beginning to ask the government for relief, and the prospects of a famine are most grave.

The ministers of the interior and of finance are sending out agents to make inquiries and to purchase corn. It is reported that in some districts the peasantry are breaking into the communal granaries and helping themselves.

Treaty of Alliance.

London, Aug. 24.—The Madrid correspondent of The Times says: "One paper here declares boldly, on the authority of an anonymus diplomatist, that, owing to Mr. Hanotaux's exertions, a treaty of alliance has been signed between Spain, France and Russia with the object of counteracting the Anglo-German interference in Morocco. Other papers mention the matter, but without affirming that the treaty has been actually signed.

GABRIEL HANOTAUX.

"The idea of a permanent rapproachement between France and Spain is certainly in the air, and may in time assume practical importance. It had its origin in France's role in the peace negotiations and reports of friction with England over Spain's military activity in the neighborhood of Gibraltar. Many patriotic Spaniards, who apprehend further sacrifices during the forthcoming peace negotiations, regard the suggestion of a French alliance with much favor, especially as French help would be very useful also in the great work of financial and economic reorganization which Spain must undertake directly peace is concluded.

"At the same time it must be noted that the protocol signed under French auspices has produced a deal of popular dissatisfaction, because, while making the loss of the Antilles irrevocable, it may also result in the loss of the Philippines. It remains to be seen whether France will render effective assistance."

Typhoid In Ireland.

Belfast, Aug. 24.—The typhoid epidemic here is growing rapidly. Six hundred cases have been reported in three weeks, and every hospital is filled to overflowing.

The News of Beantown.

Boston, Aug. 24.—Fanny Hartwell, matron of the Somerville hospital, is suing Dr. Carroll for $10,000 for defamation of character in alleging that she was unfit to hold her position. The charge was dismissed after an investigation.

Little Hyman Feinburg died in a hospital yesterday afternoon from the effects of a fall from a window of the third story of his house.

Mayor Quincy has offered, in behalf of the city, sufficient space on Long island, Boston harbor, as a camp for the Ninth Massachusetts regiment. The offer is likely to be accepted.

An official investigation based upon charges made in connection with money matters is taking place on board the receiving ship Wabash. The man under investigation is Paymaster's Clerk Edward Cronin, a resident of Arlington, who has held that position about seven years. The charges are brought by Percy H. Russell, a provision man doing business in Charlestown, who alleges that he has been systematically "bled" by Cronin while supplying the enlisted men of the ship with provisions.

Pythians Under Fire.

Indianapolis, Aug. 24.—Next to the parade the most important event in connection with the assembling of the supreme lodge of Pythians was the meeting in the hall of the house of representatives. Welcoming addresses were made by Governor Mount and Mayor Taggert. In the executive session Keeper of Records and Seal White said that the officers of the supreme lodge had been attacked, and charges made against them which should be investigated. If these charges were true, then the men were not fit for their positions. If the charges were not true, the man or men who had made them were not fit to be Pythians or members of the supreme lodge. A committee of investigation was chosen.

New Advertisements Today.

J. F. Dow—Notice.
Boston Bargain Store.—Grand sale.

Good Afternoon.

The Record is rather dictatorial. Here is one of its comments complete: "Disband the 5th Regt." Why?

It is pleasing to see the Globe take the stand that it does, relative to drinking fountains.

The Globe says: "The fact that the new chilled water fountains in Boston interfere to some extent with the sale of drinks ought not to prevent their being placed. The public has right superior to those of individuals."

There are a great many who do not drink liquors, and they also draw the line at soda and tonics.

NINE SKELETONS.

Found by Water Department in Street at Houghs Neck.

For some time there has been a suspicion that there was a skeleton in the closet at Houghs Neck, and Dame Rumor has gossiped, but it took the Water Deparment to unearth it.

While a gang was at work on Shannon street, Tuesday afternoon, laying a water pipe from Sea street to the rear of the Manet bakery they came upon human bones, very near the surface. They were down only about eighteen inches but the grade of the street had been previously lowered so that they had once been buried deeper.

In a small space not over three by five feet they found nine skeletons there being that number of skulls. Chief of Police Litchfield and Medical Examiner Gilbert were summoned. After a brief examination the bones were thrown into a box and taken to the rooms of Undertaker Hall.

The strange burial is what excites curiosity, as the bodies seem to have been thorwn in a heap any way. How long they had been there can only be surmised, as bones keep different lengths of time, in different soils.

The bones are those of full grown persons, and in some cases of very large men. Some of the skulls had perfect sets of teeth.

Dr. Jones of the Board of Health and others have viewed the bones, but the mystery is not solved.

Sold for $1,500.

R. W. Robbs of Beacon Park has recognized the speed of the bay horse recently owned and driven by H. F. Doble of West Quincy. Gilbert is standard and registered, and is said to be the fastest green horse brought to New England for a long time. He is extremely fast and has easily made 2.10. H. F. Doble received $1,500.

NOTICE. A mistake in my business cards. I do not treat people for Rheumatism, or any other diseases. DR. J. A. DOW.
Quincy, Aug. 24. 2t

Quincy Savings Bank.

An Act requiring Savings Banks and Institutions for Savings to call in their books of deposit to be verified.

[Chapter 317, Section 47, Acts of 1894.]

During the year eighteen hundred and ninety-five, and every third year thereafter every such corporation shall call in the books of deposit of their depositors for verification, under rules to be prescribed by their respective boards of investment, duly approved by the board of commissioners of savings banks.

In compliance with the requirements of the above Act, depositors are requested to present their books for verification within the months of July and August of the current year.

CLARENCE BURGIN,
Treasurer.
Quincy June 13, 1898. tf to Sept. 1-MW-1

ONE FOR RECRUIT

Won Second Race for Cup Upon Her Merits.

The Duchess Led Only at One of the Turns.

Recruit Time Was 10 Minutes, 32 Seconds Ahead.

At Tuesday's race for the Q. Y. C. Challenge Cup, the Recruit defeated the Duchess by over ten minutes over a 12 knot course.

In the forenoon the conditions for the race were decidedly unfavorable. There was no air stirring. At noon a light puff was seen coming in from under the lee of Strawberry Hill. By one o'clock it had increased to a respectable easterly breeze. As this race was to be over the triangle, one-third of which should be windward work the judges decided to send the boats off for the Hingham Channel buoy No. 2, thus making the first by a windward one then it would be a reach to the Peddock's island buoy and thence sheets started for home.

At two o'clock the boats were off for the Hingham Channel buoy. The Recruit under the skilful handling of Skipper Faxon crossed the line 29 seconds ahead of the Duchess. Both boats pointed towards Strawberry Hill. The Recruit began to pull away from the Duchess when those on the Judges' boat "Athlete" saw that the wind up the river had hauled to the southwest which bid fair to give the Duchess an advantage as she was nearer the buoy and also materially change the condition of the windward work on the triangle.

In a few minutes the wind around the Duchess began to veer and her nose was pointed right for the buoy. The Recruit was not so fortunate in this new slant of wind and had to make one or two hitches before she could round it. The Duchess was around it seven seconds ahead of the Quincy boat.

Then came the run to Peddock's. It didn't take the Recruit but a very few minutes to overhaul the Duchess and pass her, leaving her 1 minute and 22 seconds behind at Peddock's and increasing it to 2 minutes 32 seconds at the flagfloat.

Both boats then stood off for Hingham Channel with the Recruit rapidly hauling away from her opponent. She made the two knot run to this buoy in less than nine minutes, which is remarkably fast travelling for a small boat.

On rounding the Hingham buoy the second time, she was 4 minutes, 10 seconds ahead, and this was increased to 6 minutes 18 seconds, at Peddock's.

The summary:

Recruit, F. B. Rice,	2 11 06
Duchess, Chas. Hayden,	2 21 38

SPLASHES.

Harold Faxon's little performance off the bowsprit of the Recruit yesterday afternoon added materially to the gayety of the water sports.

The entertainment by the Oxford Musical club of Salem at the club house last evening attracted a large crowd of members and guests. The entertainment was of the highest order.

It would not be at all surprising if the Royse St. Lawrence Y. C. of Montreal and the Nahant Dory club of Nahant should challenge for the cup next spring, official information to that effect having been received by the officers of the club.

The impromptu water sports under the charge of Walter Harrison and Charlie Beals, furnished a good deal of amusement to the large crowds on the club house verandas.

Mr. A. G. McVey the yachting editor of the Herald stated to the writer yesterday, that the crowds which attended the races was about three times the size of the crowd at the Seawanhaha races at Montreal. Quincy is a great yachting center.

The naptha launch nuisance continued yesterday, much to the chagrin of the members of the Q. Y. C. and the annoyance of the contesting boats.

The life saving launch from the City Point station does good work patrolling the course from start to finish.

WEYMOUTH.

Miss Wenonah L. Nash, Miss Alice L. Newcomb, Miss Florence T. Newcomb and Miss Florence B. Niles of Weymouth are spending two weeks of their vacation at Egypt under the chaperonage of Mrs. Wilson Webb.

Mr. and Mrs. John Carter from Vermont are making a visit with Mrs. Betsey Prouty.

Mrs. Catherine Pratt and Mrs. Josephine Rea have gone to Silver Lake.

Mr. and Mrs. Augustus Hunt of Boston are the guests of his brother, Mr. Francis Hunt.

A RUBBER TODAY.

But Not the Deciding Race for the Cup.

The outlook this morning at the club house is for a strong southwest wind. As today's course is to windward or leeward and return if this air holds, it means a run to the Red Dolphin off Hull and a beat back. This will be the critical day of the race. If the Recruit can defeat the Duchess in today's race, the cup will undoubtedly remain in Quincy barring accident.

PAIGE A CANDIDATE.

A Boston Alderman Would Go to Congress.

The Tenth district has another candate and one who appears to have stepped in at the right time to receive considerable Republican support. It is Milton C. Paige of South Boston, one of the present board of aldermen of Boston, who has written the following letter:

"For some months past it has been known that I am a candidate for congress in the 10th district. It seems now proper that I should publicly announce my candidacy and state my position.

"I believe the aspiration to be a member of congress to be not only legitimate and proper, but even commendable and I therefore have no hesitation in declaring that such is my ambition and desire. I am, moreover, perfectly confident, basing my judgment upon experience, that if I am nominated I shall certainly be elected. It is important in the coming election that a candidate should be nominated by the Republicans who will not provoke the candidacy of an independent or bolter, as have both of the other candidates for this nomination—Mr. Atwood, because of his record, and Mr. Barrows, because of the doubt as to his party loyalty.

"It is conceded that the position of the Democratic candidate in the next congressional campaign will be stronger than it was two years ago, and that the Republican party will have to be united in order to win. I am assured that my nomination will not divide the party.

"I am a life-long Republican, devoted to the principles of the party, and if elected to congress shall vote with my party associates upon every question involving principle or politics.

"I have lived in the district for many years and believe myself to be thoroughly familiar with the needs of the various sections; and, if I am elected, my one object shall be to serve the whole district faithfully, with credit to myself and my party.

"At a later day I intend to formulate more in detail my views upon the various matters with which the next congress will have to deal, and to submit them frankly and fully to the voters of the district. There is nothing in my political record I have the slightest desire to conceal; and, being a candidate for their suffrages, I have no opinions or beliefs upon public questions to which the people of the district are not entitled.

Those Republicans who are satisfied with the record of our present congressman as a party man will vote for him at the caucuses; those who want to be represented in congress by Mr. Atwood will vote for him; those who favor the election of a man whose party loyalty is beyond question, I shall ask to vote for me. I shall indeed make every honorable effort to persuade them that it is for the interest of the party and the district that I should be nominated; and I believe that, if I am nominated I shall be elected."

What Happened to Jones.

The 58th season of the Boston Museum began last week with George H. Broadhurst's farce "What Happened to Jones," as the attraction. The comedy made an instantaneous hit and was received with much favor by large audiences and commendatory criticisms from the Boston Press. It is said of it that it was a novelty from the fact that it was found to be a very funny farce without any suggestion of coarseness, a fault very prevalent these days in like performances.

The company is said to be a very efficient one. It is headed by George C. Boniface, Jr. who has made many friends among Boston theatre goers by his impersonation of Jones, the cheeky drummer, who sells hymn books in the dead towns and playing-cards in the live ones. Among others in the company are Anna Belmont, Katheryn Osterman, and Helen Bell, three beautiful young ladies who are seen in the characters of Cissy, Marjorie and Minerva, respectively. "What Happened to Jones" will continue to delight the patrons of the Museum during the present week.

Rolland Reed's annual engagement at the Boston Museum will begin August 29. As in former seasons, Mr. Reed will appear there for a period of two weeks. This popular and distinguished comedian will observe his rule of giving to the public a new play each year. The title of his comedy offering for this fall is "A Distinguished Guest."

DIED.

LEGAL—In Quincy, at Sailors' Snug Harbor, August 23, Mr. Otto Legal, aged 91 years.
TORREY—In Braintree, August 23, Ralph Austin, son of Mr. W. Austin and Mrs. Josephine Torrey, aged 1 year, 3 months and 16 days.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Another hot day.

Ninety degres at noon and growing warmer.

Some lumber has arrived for the new city stables.

Tomorrow will be the last Thursday of August.

The repairs on the Willard school are nearly completed.

Two thunder showers in one night is enough and to spare.

At least one more race will be necessary after today for the cup perhaps two or three.

Charles H. Brooks is on his vacation and has gone to Amsden, Skeedam or some such place somewhere.

Mr. Warren Higgins has gone to Dublin, N. H., to work on William Amory's new residence.

After the shower last night toads could be counted by the dozens hopping across the side walks about town.

The lobster case did not come into court today, but Mr. Pawsey has been summoned for tomorrow morning.

It is rumored that a club in Boston is to purchase the Amory estate on Braintree Hill for a summer club house.

Mr. and Mrs. T. B. Pollard of Quincy Point have returned from a months' visit in Connecticut and among the Berkshire hills.

There is a movement on foot to erect a drinking fountain in the square at East Milton and several granite firms have been asked to submit design.

Mr. John Nutting, an old and faithful employe of the Granite Railway company, has just recovered from an attack of rheumatism, and returned to his duties.

Extra Ledger tonight before six o'clock with the cup race. For sale only at Souther's news stand, the Houghs Neck post-office and at the Ledger office.

The printing for the Houghs Neck illumination is being done in Quincy this year, and the committee will have the hearty support of the Patriot and Daily Ledger.

Miss Grace Salls of Auburn, Me., daughter of Dr. Salls, who some years ago was a citizen of Quincy, is visiting Mr. and Mrs. J. L. Whiton at Quincy Point, for a few weeks.

Mr. Joseph Hayden of Sargent's lane, at Quincy Neck, lost a valuable cow last night, worth about $75. She was giving 16 quarts per day. Milk fever was the cause of her death.

Miss Bertha Tower of Howard street, Quincy Neck, was just 16 years old yesterday, and gave a birthday party last night to about fifteen boys and girls. Refreshments and ice cream were served.

Fire, smoke and water sales are always great places for bargains but that of the Wollaston Bazaar goods at Hancock Hall, Quincy, next week, promises to be the best opportunity yet. The stock is large.

Representatives of the Massachusetts State Highway Commission were in the city this week, and with Commissioner Knowlton viewed the portion of Washington street, at Quincy Point which the State will build.

It is a great year for marriages in Quincy, and these figures also contradict the persistent rumors of hard times. For the six months ending July 1, there were 85 marriages in 1897, and 99 in 1898. The record up to Aug. 1 was: 105 in 1897 and 115 in 1898.

In last week's Patriot mention was made of the number of lights of glass that had been broken in the Willard school building during the vacation season, and an interview with the glazier who has just reset them reveals the fact that more than 80 lights were broken. Such vandalism should cease.

A. H. Taber of Quincy, who has been a summer resident of Bell street at Houghs Neck, holds the responsible position this year of secretary of the Illumination committee. But Mr. Taber is equal to the occasion as he has had considerable experience in the management of sports, base ball and entertainments.

The Merrimac Budget reports the death of a former resident of Atlantic, her maiden name being Lettie Duggan. Mrs. Latetia O'Brine died at the Boston City Hospital, Monday, August 15, aged 38 years. She had been ill for some time with Bright's disease but was formerly housekeeper for the late Father Hickey. She was a lady very highly respected, and her many friends were pained to learn of her death. The remains were brought to Merrimac and the funeral was held from the Church of the Nativity, Wednesday.

—The tax rate of Clinton is 18.20.

FIRE, FIRE, FIRE!
$20,000 worth of
DRY GOODS, BOOTS & SHOES
TO BE SOLD AT
HANCOCK HALL, QUINCY.
Sale commences MONDAY, Aug. 29th,
9.00 A. M.

LATEST!

3 O'Clock.

Making an Investigation.

New York, Aug. 24.—Secretary of War Alger arrived yesterday from Washington on his way to Camp Wikoff, L. I. When seen by a reporter, he said he made up his mind last Monday night to visit the soldiers and make a personal investigation of adverse criticisms. He called on President McKinley and was excused from attendance on the cabinet.

"I will start the first thing tomorrow morning for Camp Wikoff," said Mr. Alger, "and will stay one, two or three days if necessary to make a complete investigation of the facts. If I can make one soldier a little more comfortable, I will feel repaid for the trouble of the trip."

Garcia's Statement Untrue.

Washington, Aug. 24.—Admiral Sampson said, concerning Garcia's claim that Cervera surrendered to the Cubans and was turned over to the navy, that it could not be true. There were no Cubans about except a few on shore. Cervera was taken off his flagship by the Gloucester, and afterwards was conveyed to the Iowa.

Admiral Schley's Illness.

Washington, Aug. 24.—The navy department received a dispatch from Rear Admiral Schley's wife yesterday, saying that in her opinion his illness was not serious and that he probably would be around in a few days. With this reassurance there is felt to be no occasion for substituting another name for that of the rear admiral on the Porte Rican military commission, unless his illness should become more grave.

AT CAMP DALTON.

The most exciting thing at camp Tuesday is told by a Boston papers as follows:

One Man Against Eight.

South Framingham, Mass., Aug. 24.—Gus Lezingsdale, a private in company K, Fifth regiment, was committed to the guardhouse yesterday for drunkenness. In the afternoon he was taken out for a walk with two guards, and when a short distance from the guard somebody spoke to him in such a manner that he became nearly frantic with rage. It took eight men nearly 15 minutes to subdue and handcuff him before he could be taken back.

HOUGHS NECK.

Mr. and Mrs. Frank Smith of Stoughton are at the beach for a few weeks' outing.

Mr. Harry Mead of Stoughon has accepted a position at the Neck for the summer.

☞Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

ANGEL OF THE CONCHO.

A New York Girl Who Nursed the Sick Soldiers Coming Home From Santiago.

Miss Adele Gardiner was apparently the angel of the Concho, which recently arrived at New York with its load of sick and dying American soldiers who were stricken in the trenches near Santiago. This young woman is rich, is reckoned among the Gotham Four Hundred and has shown the courage to perform deeds as heroic as any upon the battlefield. Without rest and assisted only by Miss Alice Babcock and Miss Petersen, she cared for 160 soldiers who were ill of typhoid and malarial fevers. She prepared the dead for burial at sea and cried when the bodies were slipped over the rail. Her interest in her duties did not flag.

MISS ADELE GARDINER.

Women Competing With Men.

Relations of the sexes are being modified, says an English magazine, by the association of men and women in study and sport. The genuine sportswoman scorns any concession on the ground of sex. If she is competing with men, it must be on equal terms, and she will do her best, taking a beating, if the fates so ordain, in a true sporting spirit. The same feeling is also shown in the educational world. An examination was proceeding recently at one of the medical schools, and tea was served during the interval to the examiners. Two ladies who were awaiting the ordeal were asked to join in the refreshments. One accepted the courtesy with gratitude, but the other, more modern in her manner of thinking, declined because the men were not also favored.

Society Women as Milliners.

The millinery and dressmaking firm which is to be opened next winter under the auspices of two women in the smart set has created quite a stir in society, as these two young matrons were thought to be above the needs of working for a living. One is Mrs. Hone, daughter of the late John Hoey. She is one of the best dressed women in New York, and her husband is a member of the Knickerbocker club. Mrs. Belmont Purdy, the other, has always been in the front rank of metropolitan society. She is separated from her husband, who is a cousin of the Belmonts.—New York Cor. Pittsburg Dispatch.

Woman's Right to Work.

Fraulein Marie Heller has recently opened an employment bureau for women in Berlin. She read a paper there recently on "The Right of the Modern Woman to Work." She prophesied that the woman who was a jack of all trades and good at none would find herself unable to earn a living in the near future and dwelt with emphasis on the necessity of early professional training. To give force to her pet theory Fraulein Heller quoted Bismarck's declaration in the reichstag, "I recognize unconditionally the right to labor and shall enforce it as long as I remain in this place."

A Woman's Encyclopedia.

The women of Germany have found out simultaneously with English women the need for an encyclopedia that concerns itself solely with the doings of women. They are bringing out their "Frauenlexikon" very shortly. Miss Simon, who some two years back came over to England to study economics, sends the news that for some time past she has been a colleague of Frau Schewerin and that she has taken under her particular care that part of the "Frauenlexikon" dealing with the working-woman's movement and questions affecting it.—London Chronicle.

A Generous Southern Woman.

The generous act of a southern woman toward a soldier from Maine will not soon be forgotten at Camp Thomas. A Chattanooga matron, hearing that a man in the camp was dangerously ill with typhoid fever, but had a perfect terror of being taken to the hospital, had him sent to her home and nursed him herself. The prospects for his recovery are good, and kind hearted Mrs. Sharp has sent word to the army surgeons that her house is open to two or three more patients.—Woman's Journal.

A Woman "Barker."

In the Grand street shopping district a nice old lady is a familiar fixture. She stands before the show window of a millinery establishment where gorgeous headgear for east side belles is displayed with prices tagged in big figures. Waving her fan toward the display, she repeats all day long these four words: "Look at the prices! Look at the prices!" And every person passing on her side of the street looks.—New York Letter.

Broad Minded Charity.

Seldom is such broad minded charity shown as in the will of the late Miss Anne Garton of Southport. She has bequeathed £1,000 each to the schools in connection with the parish church of St. Helen's and that of Southport, and to the schools of the Roman Catholic church in those towns exactly the same sum; truly uncommon unsectarian liberality. Women are generally too keen partisans in such matters.—Black and White.

A Historic Wreck.

"In the harbor of Santiago de Cuba," says Maturin M. Ballou in Due South, "a sunken wreck is pointed out, partially visible at low tide, not far from the shore. Only the ribs and stanchions are still held together by the stout keel timbers and lower sheathing. This wreck has lain here unheeded for years, yet what a story these old timbers might tell had they only a tongue with which to give voice to their experience—literally the experience of ages."

Reference is made to the remains of the old St. Paul, one of the ships of the great Spanish armada that Philip II sent to England in 1588, being one of the very few of that famous flotilla that escaped destruction at the time. What a historical memento is the old wreck! After a checkered career, in which this ancient craft had breasted the waves of innumerable seas and withstood the storms of nearly three centuries, she was burned to the water's edge here in the harbor of Santiago a few years since and sunk, where her remains now lie, covered with slime and barnacles—a striking emblem of the nation whose flag she once proudly bore.—New York Tribune.

The "Wicked" Lonsdale.

At a meeting of the Poor Clergy Relief society in London a story was told of Bishop Waldegrave of Carlisle and "wicked" Lord Lonsdale. The bishop rode well, and on his going up to Lowther castle Lord Lonsdale admired his horse and his management of it. The bishop pleaded the cause of a clergyman passing rich on £40 a year, whose well educated wife took in tourists' washing to add to their scanty income.

Lord Lonsdale said: "Everybody looks on me as a very sinful man, beyond all possible hope of salvation. You have spoken to me as a gentleman; you have spoken to me like a good servant of the great head of the church; you have spoken to me encouragingly about the salvation of even my poor soul; you have pleaded the cause very nobly for that young clergyman. Here is my checkbook. Put down what you like, and I will sign it."

The bishop said, "No; that is a matter between God and you."

Lord Lonsdale gave the bishop a check for £10,000 and afterward two further checks for £20,000 for poor clergy of the diocese of Carlisle.

The Power of Modern Shells.

A 12 inch rifle is 38 feet long, with 4 feet external diameter at the breech, and weighs 48 tons. Its 850 pound shot, driven by a 430 pound charge of brown prismatic powder, leaves the muzzle with a velocity exceeding 1,400 miles per hour and would reach a target at its effective range of 5½ miles in 24 seconds, while it would take the report of its discharge 27 seconds to traverse the same distance. At a range of 1½ miles this shot would perforate 19 inches of solid steel.

The 250 pound projectile of the 8 inch rifle will penetrate a foot of armor at the range of a mile. The six 4 inch rapid fire guns within the superstructure each deliver eight 40 pound projectiles in a minute, while the twenty 6 pounders distributed over the vessel can be relied upon to clear an enemy's decks or to disable torpedo boats by maintaining a terrific hail of explosive shell, capable of destroying any unarmored position. The final offensive resources of the citadel are the four torpedo tubes, each prepared to launch automatic and dirigible destroyers containing 150 pounds of gun cotton.—Chautauquan.

Not Infallible.

Harriet Martineau, the English author, was shrewd and practical and had what men are pleased to call a "masculine intellect." But she was not always correct in her deductions, a fact illustrated by the following anecdote, told in her "Memoirs," by Sir Charles Murray, who was then the English consul general in Egypt:

One afternoon we met at the villa of my old friend, S. W. Larking, on the banks of the Mahamoudieh canal. In the course of our stroll through the garden we came to a small gate, the pattern of which was new to Miss Martineau, who was walking in front.

She stopped, and looking at the gate in an attitude of intense admiration exclaimed:

"How truly oriental! What wonderful taste these easterns have in design!"

She went on, and as Larking and I followed through the gate he whispered to me, "I got it out last week from Birmingham."

Where Hearing Ceases.

Lord Rayleigh, in a lecture, said that experiments had shown that a vibration of sound having an amplitude of less than one-twelve-millionth of a centimeter could still affect the sense of hearing.

Such a vibration would be so short that it would have to be enlarged 100 times before the most powerful microscope could render it visible, supposing that it were susceptible of being seen at all.

Old people, he said, do not hear high notes which are audible to young persons, and there is reason to believe that babies hear notes which are inaudible to their elders.—London Mail.

That Grand Air.

"Papa, I want a pug dog. They's so 'ristocratic lookin."

"Bobby, what do you mean by aristocratic looking?"

"W'y, they looks like they'd git hoppin mad if they had ter git a'quainted with anybody."—Brooklyn Life.

It is estimated that there are no fewer than 70,000,000 Europeans who wear wooden shoes. Basswood is ordinarily employed for sabots, but willow is the best material.

In 15 years Russia has sent 624,000 persons to Siberia, fully 100,000 relatives of prisoners having accompanied the exiles of their own free will.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store, regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. We are bound to carry over no summer Suits, Hats nor Furnishings. That is why on Aug. 19 we open with what will always be remembered as the most bona fide bargain sale that Quincy has ever seen.

Read the following prices and ask yourself if you can afford to stay away and let others reap all the benefits:

Neckwear.

One lot Silk Bow Ties sold for 25c. For this sale . . . . . **6c.**

Wash Ties sold for 10c. For this sale . . . . . **3c.**

Silk Tecks sold for 25c. For this Sale . . . . . **12½c.**

Over 300 Ties in all styles, sold usually for 50c. and 75c. . . **39c.**

Hats.

All our $3.00 Soft and Stiff Hats, **$2.25**

All our $2.50 and $2.00 Hats . . **$1.48**

A fine Derby in latest style, 3 different shades, worth $1.50, now **73c.**

PORTO RICO LETTER.

W. H. Dunn of Quincy Writes on Board Cincinnati.

U. S. S. Cincinnati,
Arroyo, Porto Rico,
Aug. 9, 1898.

Aug. 1, Cincinnati, Gloucester, St. Louis and St. Paul left Ponce for Arroyo forty miles away, and captured the city without firing a gun. Lighters and the Cincinnati steam launches were at once got, and the landing of the troops of the St. Paul and St. Louis started.

Aug. 2—Two more transports arrived here today, and the work of landing troops is proceeding well.

Aug. 3—Cincinnati and St. Louis began to shell the hills around the city of Guayamo at 3 P. M. About a dozen shells being fired from each ship.

Aug 4—Army moved on the city of Guayamo, and took it with only three men wounded. About four hundred Spanish were captured.

Aug. 7—Left for Cape San Juan at 6 P. M.

Aug. 8—Arrived at Cape San Juan at 8 A. M., and started to coal ship. Amphitrite and Leyden are here. Sent twenty-five blue jackets from the Amphitrite to relight the light at light-house.

At 1.30 P. M. an attack was made by the Spanish on the light-house. The Cincinnati and Amphitrite started their search lights and stormed the hills around the lighthouse.

At 11 P. M. everything was quiet, as the Spanish took to their heels.

At 4 P. M. the Marine Guard, under Lieut. J. A. Lejuine of the Cincinnati, went to the assistance of those at the light-house. Landing on the beach we formed skirmish line and started for the hills. We saw nothing of any Spaniards on the way.

Arrived at lighthouse about 5.30 A. M. Found the men all well and not much alarmed over the night attack. Work at once started to put the women and children on the Leyden, and they were taken to Ponce.

The boys got a few good hens and corn for their trouble, not seeing any thing else to catch. The men said at the light-house about fifty Spaniards were seen at daylight returning to the city of Fajaido. Well most likely leave tonight for San Juan.

W. W. DUNN.

Grand Musical Outing.

The third annual outing of the Old Stoughton Musical Society will be held in Highland Park, Avon, on Tuesday next, Aug. 30. The park is reached by the Brockton street railway, and it is expected that the attendance to this musical outing will tax the transportation facilities of the road. The hours of song will commence at 1 P. M., and continue two hours. Promptness at the hour named is desirable. Take with you the Society's Centennial Collection and the Peace Jubilee book of 1872. If the day is pleasant, it will be the grandest outing of the year, and will be enjoyed by young and old, there being so many attractions, including two stage performances and concert by Martland's Band of Brockton. Let no one stay at home on that day, because it is a free musical holiday for everybody.

TO LET.

If you have a vacant tenement, advertise the fact in the Daily Ledger. We are confident it will be let within two months, and to substantiate the claim, we will advertise it

FREE

after two months. To take advantage of this offer payment must be made before the expiration of the two months. A four-line space until your house is let will cost only $5 at the outside. You cannot afford on these terms to let the house continue vacant.

CLASSIFIED ADVERTISEMENTS.

Advertisements in this column inserted at the following rates:

Four lines, or less, one day, - - 25 cents.
" " three days, - - - 50 cents.
" " one week, - - - - 75 cents.

Additional lines will be charged for pro rata. Seven words equal a line. Long term rates furnished on application.

The National Game.

Buffalo, Aug. 24.—The champion Bostons of the National league were outplayed by the Buffalos yesterday, the beaneaters trying two pitchers. The locals played great ball, while the visitors played in a listless manner. A big crowd witnessed the game. The score was 14 to 7.

At a conference of A. H. Soden, F. H. Robison and John T. Brush of the board of arbitration of the National league, it was decided to ask the board of directors to rescind its action on the Holmes-Freedman case.

Rank errors by Pickett and Callopy, latest additions to the Springfields, enabled the Syracuses to win the game in the seventh inning. Malarkey and Heming were about equally effective.

Up to the fifth inning the Pittsburg-Cleveland game was one of the best seen in Pittsburg this season. After that Tannehill lost control of the ball, sent four men to base on balls and was hit hard, the Clevelands winning, 6 to 3.

Samuel Wise, captain of the Buffalo Baseball club, charged with violating the law by playing ball Sunday, was acquitted by a jury.

The baseball outlook in Ottawa is anything but bright. The club has not been paying, and the management has not made enough money to pay the players. The players threatened to revolt unless the money that was owing to them was paid at once. President Powers succeeded in straightening out matters, and the players were paid their back salary.

Fall River Officer Killed.

Fall River, Aug. 24.—Officer Louis Gormley was shot accidentally and killed last evening by a brother officer, Frank Pierce. The two men, with Captain Edson, were chasing Thomas Stratton, for whom they had a warrant, charging him with non-support. Stratton ran into a field, with the two officers hard after him, while Edson went another way to head him off. All three of the officers had revolvers in their hands, and Captain Edson had already discharged his in the air.

Gormley was just ahead of Pierce, when he stumbled and fell. Pierce fell on top of him. On striking the ground, the revolver in Pierce's hand exploded, and the bullet passed through Gormley's body, near the heart. The unfortunate man lived about five minutes.

Gormley was 30 years of age, unmarried, and lived with his parents. Stratton escaped in the darkness.

There are indications that curtailment by individual corporations in Fall River is likely to prove more extensive than by an ironclad agreement, and a large stoppage of spindles is probable during the next month. The effect of this is shown by an increased demand for goods, and sales of 100,000 pieces are reported to have been made Monday.

☞ Book of electric car trips for sale at this office at ten cents each. Buy one and take an outing. tf

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

IN THE HISTORIC CITY.

Meeting of Arbitrators to Settle Disputed Questions.

An English Lord Is Selected For Chairman.

Senator Fairbanks Speaks For His Colleagues at a Reception.

Quebec. Aug. 24.—The ice is broken; the somewhat rigid British formalities of preliminary organization are past, the committees have become acquainted and the body of international arbitrators is now ready for the hard work before it. The ceremonies of organization took place in the parliament buildings yesterday, and while they were characterized by a considerable degree of dignity, the utmost degree of friendliness was manifest in every word and movement, and an amicable adjustment of all questions is predicted by both the American and British commissioners.

LORD HERSCHELL.

At noon the commissioners met in private session in the legislative assembly, all of the commissioners excepting Congressman Dingley and Sir James Winter being present. After the formal exchange of credentials, Senator Fairbanks, as chairman of the American delegation, named Lord Herschell of England as permanent president of the joint commission. After the work of organization was finished, the commissioners proceeded to the legislative council chamber, where a public reception was tendered them by Mayor S. N. Parent and the city council of Quebec.

"This is the spot," said the mayor, "chosen by Cartier and Champlain as the cradle of our nation, and since that time there is hardly any event of national importance which has not been associated with this center of activity, so long coveted, and alternately held under the sway of France and England. In the bloody strifes which have besmeared so many lands, there is hardly a strategical point which has been fought for with more heroic efforts, and every stone of this walled city—nay, may I say, even the dust of the streets tells the tales of gigantic struggles. At every turn one expects to meet the ghosts of Champlain and Kirk, of Frontenac and Phipps, of Montcalm and Wolfe, of Carleton, Montgomery and Arnold. Thus after having been at the inception, the cradle, and during the period of war the fortress and the bulwark, we cherish the ambition of remaining the center where shall be discussed and settled the questions of vital importance for the present or future welfare of our people."

Senator Fairbanks replied as follows: "Your worship, the American commissioners, in whose behalf I have the honor to speak, are deeply sensible to the high tribute of an address from the venerable and historical city of Quebec, and we take pleasure in expressing to you our gratitude therefor. This spot is full of historic memories. The soil has been enriched by English, American and French blood; it has been made glorious by the deeds of heroes, deeds which are our common heritage. The stories of Montcalm, Wolfe and Montgomery we endure when that noble shaft dedicated in commemoration of Wolfe and Montcalm has faded from memory. Let us hope that this goodly city shall know no future strife, save the wholesome and elevating contests which are the rich fruits of peace."

The Unexpected Happened.

New York, Aug. 24.—Fifteen thousand people witnessed Martimas, at the long odds of 40 to 1, win the great futurity stakes at Sheepshead bay yesterday, High Degree coming in second, while the public choices were nowhere. The day was excessively hot. The horses, the starter said, were well behaved, and so he proceeded to administer fines ad libitum and set down for a week four of the jockeys, including Sloan, the idol of so many racegoers. There were 20 breaks before the 25 racers could be got away in decent order.

All the boys worked like demons to get to the front, for the judges' stand was in sight and a straight course was ahead. When the last furlong pole was reached little Maher saw Martimas rush by on the firm, hard footing against the rail, while the tired filly under him, High Degree, was stepping in the deep dust, and Autumn, Mr. Clay and Dr. Eichburg, with Sloan on the latter finishing in his best style, were trying to wrest the second place away from him. Although he could not catch the Canadian in front, who won easily by a couple of lengths, Maher could and did get the second money by half a length.

Prince Albert's Injury.

London, Aug. 24.—The Lancet, referring to the recent injury of the knee of the Prince of Wales, discourages the fear that the prince will be permanently lame, and says: The present condition of the prince's knee argues well for the future mobility of the joint. The royal yacht left Cowes yesterday for a channel trip, during which she will visit several towns, where the doctors propose carriage exercise. Four sailors have been drilled carefully as bearers to carry his royal highness ashore without jarring him.

FROM SHIP TO HOSPITAL.

Two Hundred of the American Braves Brought Here For Treatment.

Boston, Aug. 24.—It was a warm and kindly welcome that Boston gave to the 200 sick soldiers, brought to the city yesterday, on the government transport, No. 11, formerly the Olivette, well known in New England waters. With everything that forethought, careful planning and systematic work could do for their comfort were mingled wild enthusiasm and cheers of welcome that almost brought back a faint flush of color to the cheeks of some of the fearfully sick soldiers as they were carried from the transport and taken to the hospitals.

Mothers were there to meet their sons, and the scenes were truly pathetic. The soldiers themselves were brave enough, but the sight of the thin face of her darling boy was oftimes too much for mother. "There's Charley!" exclaimed an excited woman to her escort, and she waved her handkerchief with vigor. "Charley" was standing on the upper deck, and his eyes roved along the line of figures on the wharf, and finally caught sight of the excited woman. Then he waved a dirty handkerchief in return, but there was little of the vigor of the original salute in it. "He sees me!" exclaimed the woman, and then with an exclamation, "How thin he is," she began to cry.

The thousands who were unable to gain admission to the sheds at the wharf saw little of these touching scenes, and they were therefore all ready for more shouting and cheering. As the sharp clang, clang of the ambulance bell gave orders to clear the way the great crowd fell back. There is generally silence when one of these ominous vehicles hurries along our streets. Not so with these, for they were freighted with heroes from the battle fields of Cuba, and the people converted them into triumphal cars. They couldn't see the poor fellow lying on the stretcher inside, but they knew a brave boy was there, and were bound not to let him pass unheeded. A continual cheer followed the ambulances.

More Than a Million.

Washington, Aug. 24.—In the forthcoming report of the commissioner of pensions, H. Clay Evans, it will be shown that on June 30, 1897, there were on the rolls of the pension bureau 976,014 pensioners. To this must be added 6852 original claims granted but not recorded, and 762 restorations which were not entered at the time on the books. Commissioner Evans granted 63,648 original claims during the past year and restored 4089 pensioners to the benefits of pensions. The pensioners now aggregate 1,040,346. More pensions were granted last year than any time from 1869 up to 1880.

There is absolutely no means of even approximating what the claims will be under the recent war. The pension office has done nothing with the claims that have been filed up to this time. They do not aggregate 100, and for the most part are claims of widows and next of kin for the soldier boys who fell before Santiago. Before a claim can be perfected it must contain the full record of the soldier's service, and this information has not yet been complied by the war department. When this is done the claims will be speedily taken up. The majority of the claims will be for wounds and sickness, the latter leaving the soldier more or less disabled. No additional legislation will be required to deal with the cases arising from this war. The present laws, the authorities say, cover all that is necessary, and claims will be adjudicated on the same lines as those of the rebellion.

Mad From Cigarets.

New York, Aug. 24.—David Hassett, 26 years old and the son of a rich resident of Greenpoint, L. I., had everything worth living for, but he destroyed his health by smoking cigarets.. On board his yacht, Madeline, he started from Greenpoint last Thursday, meaning to make a cruise of several days. He continued to smoke cigarets from the moment he awoke in the morning to the moment when sleep overtook him at night.

The yacht was off Newport when its owner began to rave and destroy everything within sight. The skipper found that he had a maniac to deal with. All the handsome cabin furnishings were smashed, and Hassett turned the yacht into bedlam. In response to signals of distress an artilleryman put out to the Madeline, and after a desperate struggle he made the young yachtsman a prisoner. Yesterday he was returned under escort to the home of his father.

Sentiment Favors Paine.

Boston, Aug. 24.—A meeting of the executive committee of the Democratic state committee was held yesterday to talk over the preliminaries for the convention. A sub-committee will see on what days halls can be secured in Boston, Worcester and Springfield. The convention will be held in one of the last two named cities. Secretary McNary said that there is a strong demand from the western part of the state for Springfield, though he believed the choice has been veering in favor of Worcester.

The convention will probably be held during the first week of October. There is a strong sentiment in favor of the nomination of Robert Treat Paine, Jr., for governor, the understanding being that Mr. Williams is not inclined to take another nomination.

Convicted After Five Trials.

Memphis, Aug. 24.—The fifth trial of A. K. Ward, charged with forging notes to the amount of nearly a quarter of a million dollars, has resulted in a verdict of guilty, and the defendant was sentenced to three years' imprisonment in the penitentiary. All the previous attempts to convict Ward had resulted in mistrials. A new trial is asked for.

Short Freights Collide.

Boston, Aug. 24.—A Herald special from Island Pond, Vt., says that two short freights on the Grand Trunk came together head on near Waterville, Que., last night. Both locomotives were demolished and many of the cars were derailed. Both engineers were injured and Albert Laroche, a fireman, was killed.

Tomorrow's Almanac and Forecast.

Sun rises—5:01; sets, 6:30.
Moon sets—11 p. m.
High water—4:45 a. m.; 5 p. m.

Clearing weather is indicated for New England, and the fair conditions are likely to continue through Thursday and perhaps Friday. Cooler Thursday with westerly winds and less moisture.

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,
Adams Building, Quincy.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

SANTIAGO HARDSIPS.

Bay State Colonel Says That They Were Awful.

Heavy Loss Averted by the Sufferers' Pluck.

Glad to Embark on a Pest Ship In Order to Get Back North.

Montauk, Aug. 25.—The only regimental commander in the entire first brigade, second division of the First army corps, who is able to assume active charge of his regiment—this is the record of Colonel Clark of the Second Massachusetts volunteers, who is today on the rapid road to healthful recovery under the stimulating breezes of Camp Wikoff. Even though he is personally supervising the routine work of his men, yet the colonel of the gallant Second is anything but a well man. He has just passed the last test of the regimental surgeon, who at first thought the leader of the Second was due for an attack of yellow fever.

In explaining the causes of the great amount of sickness among the soldiers, Colonel Clark stated that while in Cuba his entire regiment was placed in the thickest of the fray and the foulest of localities. "The only thing that makes me wonder is that we have as many left as we have. I never experienced such hardships in my life before, and both Major Whipple and myself are veterans of the civil war. Our men were simply imbued with the bravest of hearts, indomitable courage and pluck, or they would never have held out as long as they did."

When Colonel Clark was about to board the transport he was told by the surgeon who made the final examination that he was on the verge of yellow fever. The colonel replied that if he had yellow fever every man in his regiment had the same ailment.

"We may have had a touch of every disease known to science," said the commander, "but we were all ready to swear we were well enough to stand the trip north. To have left us down there another 10 days would have killed over half our men, and we would have been willing to travel in the most horrible pest ships just so that we reached dear old America. When we first caught sight of Cape Hatteras you should have heard the way the boys cheered; even the poor fellows who had been hardly able to raise their heads staggered to the rail and joined feebly in the shout of joy."

Courtmartial For Miles.

Washington, Aug. 25.—If the commanding general of the army really said what he was alleged to have said by the Porto Rican correspondent of the Kansas City Star it is impossible to prevent an investigation of the war department, and it is difficult to see how a courtmartial can be avoided.

By implication General Miles charges the secretary of war with being privy to a conspiracy to injure him. His attack on General Corbin is not so vague. The most serious reflections are made on that officer. Secretary Alger was out of town yesterday, and therefore no statement could be obtained from him, but General Corbin, when asked for an expression of opinion, said: "I have seen what purports to be an interview with General Miles. I do not believe he used the terms accredited to him. He is too old and too discreet an officer and too good a man to indulge in such criticism."

Federal Transports to Run.

Washington, Aug. 25.—Assistant Secretary Meiklejohn of the war department contemplates the establishment of a line of transports from New York to Havana, Santiago and Ponce. It is expected that the new route will be ready for operation in two weeks. Havana will not be on the route at present, but as son as that port is open the line will touch there. Operations would begin at once, but the transports are now being used for carrying troops. The line will be utilized for transporting supplies of the quartermaster's, commissar, and surgeon general's departments, as well as such other freights as may be needed at the points occupied by the United States forces. Mails will be carried also by these transports to and from the new American possessions. New York instead of Tampa has been selected because of the severe quarantine at Tampa against yellow fever.

The First to Leave.

Washington, Aug. 25.—Orders have been issued for the mustering out of the following regiments: First Vermont, First Maine, Fifty-second Iowa, Sixth Pennsylvania, Second New York, Second Nebraska, One Hundred and Fifty-seventh Indiana, all volunteer infantry; also batteries A, B, C and D, Ohio light artillery; First Illinois volunteer cavalry, batteries A and B, Georgia light artillery; Twenty-eighth Indiana light battery and the New York and Pennsylvania cavalry troops now in Porto Rico.

Long Praises the Advisory Board.

Washington, Aug. 25.—The following letter was addressed by Secretary Long to the president of the war board, Admiral Sicard, in recognition of its services:

My Dear Admiral—In view of the practical ending of the war with Spain and the well-earned relief from further duty to which the naval war board is now entitled, I cannot, though absent from the department, forbear to express to you and through you to your associates on the board, Commodore Crowninshield and Captain Mahan (retired), the very high appreciation which the department has of the services it has rendered since the war began. That its members have been faithful and diligent in the highest measure goes without saying, for they are animated by the high professional spirit which distinguishes the navy and which they have themselves done much to stimulate; but from my personal knowledge and observation, I desire to add to this, that equally marked have been the intelligence, the wise judgment, the comprehensive forethought and the unfailing competency to meet every exigency which have distinguished their deliberations and action. May it not be said that not one error has been made? Proper control by the department has been exercised over all movements in the field, and yet at the same time commanding officers have been duly left to exercise discretion, and have never been hampered in their work. I do not know how your work, as members of that important board, could have been better done, or where in the arena of the war you could have rendered better service or deserved more honor.

Jackies to Be Relieved.

Washington, Aug. 25.—Within the next week all the men called from various states to man ships of the auxiliary navy will be on their way home, with the possible exception of those on the four monitors around Boston. The department is deluged with inquiries as to how soon these naval militiamen can return home. The letters come not only from relatives, but from business firms, which say that as the war is over they want their clerks to return to duty. These influences have been aided by pressure from senators and congressmen, and the department feels some satisfaction in stating that all the men will be released by Sept. 1 except those on the monitors, who are mainly from Maine and Massachusetts, delay in their cases being due to the necessity of sending tugs to convoy the monitors to the League island navy yard, Philadelphia, where the crews will be let go.

Wants Americans Well Treated.

Havana, Aug. 25.—The steamer Baracoa has arrived at Sagua with a cargo of provisions. She has not, however, begun to discharge, as she is awaiting a decision as to whether she will have to pay duties on the cargo, having paid at Santiago $15,700 for what she has on board.

The commanding general in the Sancti Spiritus district reports that two American soldiers of the column operating with Maximo Gomez have presented themselves to him, being ill. They were immediately sent to the hospital. General Blanco has ordered that all Americans who present themselves be well treated; that assistance be given them, and that they be treated with all consideration. The sick at the hospital, General Blanco's order says, must be treated with solicitude and kindness.

Will Repel by Arms.

Madrid, Aug. 25.—The minister of war, Lieutenant General Correa, when asked what instructions had been given General Blanco in regard to opposing the insurgents in Cuba, replied that he had ordered the captains general of Cuba and the Philippines to act in accord with the Americans, and if the Americans should prove unable to make the insurgents respect the armistice, then the instructions were to repel by arms any attack upon the Spaniards.

On the Road to Health.

Boston, Aug. 25.—Those of the 200 soldiers who arrived on the Olivette Tuesday, and who were taken to the various hospitals are doing well. The improvement of a day has been wonderful, and bears testimony to the wisdom of hurrying the troops to the north with all possible speed. Said a state official, who had made a tour of the hospitals: "There should be no hesitancy about sending the Second and Ninth home as soon as possible. With judicious treatment there is no better place on earth for the boys."

The health-giving breezes of New England, the luxury of a real bed with fresh and spotless linen, the trained attention of nurses, the skill of learned physicians, the benefits of the bath, and the supply of wholesome, nourishing food have all played their part in the transforming of the weakened, fever-racked bodies. It was ample reward for every effort made to see the look of returning health, the smile of contentment and gratitude, and the delight of comfort after the taxing rigors of the tropical campaign.

Voted to Join the Army.

South Framingham, Aug. 25.—A vote was taken in the camp of the Fifth regiment yesterday on the question of remaining in service after discharge. About 75 percent voted to join the regular army. The result of the vote is to be sent to Washington, and it is understood that influence will be brought to bear to have the men go into active service.

The vote was polled in quite a novel fashion in order that it would represent the actual opinion of the men. Colonel Whitney and Sergeant Major Buechner instructed each company in the form of ballot. Slips of paper were distributed to each man, who wrote yes or no on one, depositing it in a box. Finally the boxes were collected and the vote canvassed. The result of 75 percent is a little under the estimate of the favorable vote anticipated. It was placed at 80 percent. The officers are yet to vote, but 90 percent are expected to favor garrison duty.

Hanna on Expansion.

St. Paul, Aug. 25.—Senator M. A. Hanna of Ohio arrived in the city last evening from the Yellowstone park. Speaking of the annexation question he said: "The Philippines is a problem we cannot solve in a hurry. We, of course, must retain a coaling station there, but I do not think it likely we shall want more than Manila and its harbor. Cuba is another problem. I never was much of a Cuban, and am not prepared to commit myself as to the policy we should pursue there. We propose to establish a stable government in that island, but what constitutes a stable government has not yet been defined. I think, however, Cuba will be an evolution, and in about 20 years it will be so thoroughly Americanized that there will be no question as to what a stable government means."

EXTRA!

At six o'clock tonight the Daily Ledger will issue an extra edition with an account of the fourth race for $500 Q. Y. C. cup being sailed this afternoon.

Alger's Course Commended.

Providence, R. I., Aug. 25.—The Third Rhode Island Heavy Artillery Veteran association of this city, at its annual reunion at Rocky Point, passed resolutions commending Secretary of War Alger for his management of his department during the war, and made arrangements to have a copy of the resolutions forwarded to him. This is the first of the many associations of the state to take such action at their reunions.

Fatal Ending of a Scuffle.

New York, Aug. 25.—Two privates of the Seventy-first New York regiment, M. D. Kane and Christopher Jurgenson, were killed while skylarking near Westbury, L. I. They belonged to the battalion which was expected to go south, but which got no further than Camp Black. The battalion left the camp Wednesday morning to join the main body of the Seventy-first at Montauk. The two men were in the baggage car, and one tried to take possession of a piece of watermelon held by the other. In a friendly scuffle both fell from the car and were cut to pieces.

Boston Opinion.

Boston, Aug. 25.—The Journal says: "The candid and thoughtful press is beginning to realize the folly of banging away at poor old Secretary Alger for all the shortcomings of the war department. He has made a convenient scapegoat."

In the opinion of The Advertiser, "Rear Admiral Sampson's defense of General Garcia from the libels and slanders which it has lately become the fashion of too many Americans in and out of the public service, in and out of newspaper editorial chairs, to heap upon that brave old warrior for Cuban liberty, is altogether admirable."

The Post remarks: "If we can assure an honest government for the Philippines, we give them peace. And when this is accomplished, their destiny will work itself out on natural lines."

The News of Beantown.

Boston, Aug. 25.—The death of Frank M. Ames, president of the Lampson Consolidated Store Service company, in Pemaquid, Me., was announced last night. Mr. Ames had served in the legislature from Canton, and in 1884 was a delegate to the Republican convention in Chicago.

George F. Corkery of Charlestown, 8 years old, was drowned while bathing.

C. H. Frye, the fifth victim of the Sharon railroad accident, died last night.

A woman, who gave her name as Minnie Harrison, 26 years old, jumped into the Charles river at the Warren bridge at 12:15 o'clock this morning, and was rescued by Drawtender Pollard. Pollard's quick action in launching his boat and reaching the woman saved her life, for the tide was running out very swiftly at this point and would have carried her away.

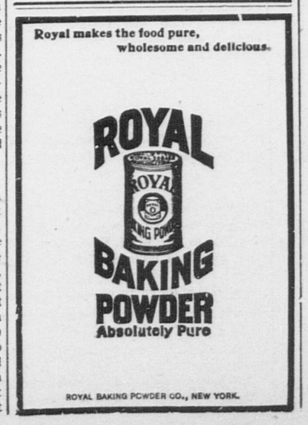

James Williams & Co., chamber furniture manufacturers, suffered a loss by fire last night of $2000. One of the ladder trucks responding to the alarm struck an electric light pole. The iron pole struck Driver Ross of the truck, rendering him unconscious, while the horses ran for quite a distance before they were stopped.

Tomorrow's Almanac and Forecast.

Sun rises—5:02; sets, 6:28.
Moon sets—11:53 p. m.
High tide—5:45 a. m.; 6:15 p. m.

At present the conditions point to fair weather in New England Friday and Saturday, except that local showers are possible, most likely Friday morning; light variable winds; continued warm.

Royal makes the food pure, wholesome and delicious.

WOULD BE DEATHBLOW

Loss of Luzon So Regarded by the Spanish People.

President's Alleged Wishes Viewed Unfavorably.

Growth of Sentiment Recommending the Sale of the Philippines.

London, Aug. 25.—A dispatch to The Standard from Madrid, by way of France, says: "A very unfavorable impression has been caused in Madrid by telegrams attributing to President McKinley the intention of instructing the peace commissioners to insist upon the cession of Luzon, that American commerce should have the same footing as Spanish in the Philippines, and that Spain should pledge itself that none of the Spanish colonies should be ceded to European powers. If such are the intentions of the United States government, the negotiations are sure to be laborious, even if an understanding is ever arrived at.

"The Spaniards consider the cession of Luzon, their best and most important island, to be a deathblow to their prestige and sovereignty in those regions, and that this would be irretrievably weakened and crippled by the presence of Americans in the heart of their colonies.

"Commercial equality with the United States in the archipelagoes would annul the only advantage and compensation which they might have expected to derive for the cost and sacrifices which have been necessary to maintain their rule in that region. The separation of church and state would be more unpalatable to most Spaniards, and would create grave difficulties in their relations with the vatican and the church, let alone the powerful religious orders in Spain, which are always disposed to side with the pretender against the present dynasty.

"Last, but not least, any pledge to refrain from ceding any part to the powers would displease many statesmen and people of all classes, who are daily more and more inclined to advocate the sale of the Spanish archipelago to the highest bidder, and especially to continental powers most likely to be in a position to arrest the growth of American political and commercial influence in the far east. Nothing could be better calculated, than the pretentions attributed to America, to develop in Spain the visibly growing desire to cede all connection with the Philippines, and thus oblige the United States government to assume the burden of responsibilities of their government, which would likely create a conflict with European powers and tending, in any case, to entail for the United States more trouble and sacrifices in men and money even than the occupation and pacification of Cuba Even the lower and middle classes seem to think this, and thus in both directions Spain would amply make America pay for the wrongs inflicted."

In a 'Frisco Prison.

San Francisco, Aug. 25.—Mrs. D. A. Botkin, who is accused of causing the death of Mrs. J. P. Dunning and Mrs. J. D. Deane of Dover, Del., is now in the city prison here, having been brought from Stockton Mrs. Botkin declines absolutely to talk to newspaper reporters, but to the chief of police she protested her innocence.

What the police regard as an important piece of evidence was made public in Stockton. Frank Gatrell, a salesman in a candy store, says that about three weeks ago a woman came into the store and asked for a "4-bit box" of candy, saying she had some candy that she desired to put in the box with some of the store candy. Gatrell gave her a box which did not have the firm name on it. The candy which she put in looked old to him, and it scarcely half filled the box. He says he did not observe the lady closely, and he can only describe her by saying that she was of medium height and build.

The Favorite Won.

Asbury Park, N. J., Aug. 25.—Fully 8000 people witnessed the races in this city under the auspices of the American Cycle Racing association. The one mile L. A. W. championship professional brought out a field of the most noted crack riders, including Bald, Cooper, Major Taylor, Stevens, Eaton and Gardiner. Bald was the favorite, and by hard riding he succeeded in winning his heat, and later captured the final by a superhuman spurt on the stretch. The race between Michael and Lefferson was the event of the day. It was Lefferson's first middle distance paced race, and he acquitted himself with honors, although he was defeated. Michael's exhibition was a grand one and disclosed most conclusively the staying powers of the famous rider.

Hurricane In Syracuse.

Syracuse, Aug. 25.—Wednesday afternoon this city was visited by a hurricane which did thousands of dollars worth of damage. The roofs of four factories were blown off. Three men employed at the powder house of the Lakeside Railroad company were badly injured by a wall of the building falling, and one of them may die. Another man is believed to have been fatally injured by being blown from the roof of Fiske's factory. Part of the roof of the Church of the Assumption was blown off.

Millionaire Huntington.

Saratoga, Aug. 25.—A rumor has reached here to the effect that C. P. Huntington has been shot at his camp, known as Pine Knot, on Racquette lake, Adirondacks. The storm of Tuesday prostrated telegraphic communication, and Pine Knot cannot be reached.

MAY DECIDE IT.

Fourth Race Today in the Cup Series.

The outlook this moning at the Q. Y. C. house was for another good day for the cup races, with a stray S. W wind.

The triangle will be sailed over today. Allowing that the wind holds from the S. W. the boats will be sent to the Hingham buoy first, then to Peddock's, thence home. Twice around.

HOUGHS NECK.

Mr. Joseph H. Alden invited a number of his friends from Quincy and surrounding towns to spend a social evening at French's cottage, Houghs Neck, on Wednesday. A very pleasant evening was spent and the time passed quickly. Dancing was enjoyed by music from a hurdy-gurdy until 10.30. Then there were some fine selection on the violin by Mr. Ernest Curtis. Collation was served and the party broke up wishing they might spend many more such evenings. Among those present were: Miss Mary Tannett, Roxbury; Miss Daisy Emery, Roxbury, Miss Bertha Upham, Stoughton; Miss Hattie Cushman, Canton; Miss Bertha Richards of Quincy, Miss Warren, Fall River; Mr. William Tannett, Roxbury; Mr. Ernest Curtis, Canton; Mr. Frank C. Walsh, Mr. Arthur Peverley, Mr. Joseph Alden, Mr. George Hardwick, Mr. James Moorehead, of Quincy.

Boy Capsized.

As the Addie, a large sloop yacht, sailed by Harry Moebes of Boston, came up to the Q. Y. C., near Spear's stand anchorage at Houghs Neck, a small boat that was towing astern with a boy who had been in swimming, capsized. The boy hung to the bottom of the boat for a few minutes and then began to scream for help. The lifeboat, W. C. Harrison "Helene" and J. L. Harvey and other boats went out and rescued him.

A CREAT RACE.

The Recruit of Quincy Gets a Second Leg.

There Was too Much Wind for the Duchess.

And She Finished Nearly Thirteen Minutes Behind.

The Recruit sailed another great race for the Q. Y. C. cup on Wednesday defeating the Duchess by nearly 13 minutes.

The wind blew from the S. S. W. all of the afternoon. It was strong at the start and stronger at the finish.

The course was to the leeward and return,—to the Peddock's buoy twice around. Distance nine knots.

The preparatory gun was fired at 2.55 and the starting gun at 3 o'clock. The Recruit went over the line 11 seconds ahead of the Duchess. On the run to the Peddock's buoy, the Duchess held on to the Recruit. Both boats broke out their spinnakers soon after crossing the line. The run to Peddock's buoy was made by the Recruit in 14 minutes and 53 seconds, and by the Duchess in 15 minutes and 19 seconds, giving the Recruit a lead of 1 minute and 26 seconds.

After rounding the buoy the windward work began. The Recruit then commenced to pull rapidly away from the Duchess, until rounding the stakefloat she had increased her lead to 2 minutes and 58 seconds.

From there on it was simply a walk over for her around the rest of the course, although at the turning of the Peddock's buoy on next around she had increased her lead by 10 seconds.

By this time the wind had freshened up, making both boats back wind with their mainsails. The Recruit stood up to it like a church spire, but it was too much for the Duchess, so that she ran into the bite off Peddock's island and stuck in a couple of reefs and snapped on a storm jib. This delayed her about four minutes.

The Recruit then pulled ahead leaving the Duchess far astern.

The summary:

	Elapsed Time.
Recruit, F. B. Rice,	1 29 00
Duchess, Chas. Hayden,	1 41 54

This gave the Recruit two legs for the cup and the Duchess one.

A Nuisance.

The attention of the Board of Health should be called at once to the condition of affairs on the west side of Copeland street, in West Quincy, not a thousand feet from the Willard school.

Here will be found a cesspool about the size of a barrel into which all the waste from two families is supposed to go. It has long since overflowed and the vilest of vile filth is allowed to spread itself over the surface of the back yard and garden where tomatoes are growing and chickens run at wil.

In these enlightened days it is a wonder that such a place is allowed to exist within fifty feet of a main street. The heath of the neighborhood demands an immediate remedy.

Houghs Neck Fire.

The alarm for fire from Houghs Neck on Wednesday evening was for a blaze in J. L. Harvey's place, caused by a lamp falling. Bystanders had the flames practically out before Hose 5 arrived. The members of this company did good work. Mr. Harvey's loss will be principally from water. Quite a little excitement was caused by the supposition that Mr. Harvey's little child was upstairs in the burning building. Mrs. Harvey was overcome and removed to a nearby place. The child, however, was in no danger.

TODAY'S COURT.

George Pawsey of Quincy for having in possession short lobsters, plead guilty and was fined $125.

F. J. Peterson of Dorchester, a pedlar, for larceny in a building; case continued to Aug. 29.

Charles H. Pierce of Boston, for drunkenness at Quincy, $5.

Michael Haggarty for drunkenness at Quincy was fined $5.

John F. Leet and Patrick Gardner of Brackett street, Quincy, were arraigned for assault and battery. Leet was discharged and Gardner fined $5.

John Smith of Boston for drunkenness at Quincy, $5.

William H. Nelson of Boston, the keeper of an intelligence office, for disturbing the peace at Quincy, was defended by Judge Tirrell, and discharged.

☞ The entire stock of Mr. Sherman of Wollaston that went through the recent fire has been sold to Mr. W. H. Brasee and will be placed on sale in Hancock Hall next Monday morning. Our advertising columns will give you an idea of the enormous bargains offered.

MARRIED.

REED—COLE—In Quincy, August 24, by Rev. Edward Norton, Mr. Richard Reed, Jr., to Miss Ellen Cole, both of Quincy.

AT CAMP DALTON.

Visitors May Be Excluded After Monday.

Camp Dalton,
Thursday, Aug. 25.

Yesterday was like the many that have preceded it, hot and sultry. The moving of the first of the week has caused considerable work for the boys in grading and leveling out the new grounds.

The heavy rain of Tuesday night did no damage although for a while it looked as though the tents would go before the high wind. The sun dried up the ground in the morning, however, and everything was as usual.

The destiny of the Fifth is still the topic, and quite a little anxiety is felt by both men and officers, as to what will become of them. They are all anxious to know whether they are to go home or do garrison duty.

The government has expressed a desire to know how the boys stand on this matter, and in consequence the Colonel received a message from Gov. Wolcott requesting him to allow his men to vote on the question. Each company was furnished with small bits of paper and were requested to vote either, (1) Yes, to remain in the service for garrison duty, or (2) No, to be mustered out.

The votes were cast in a bucket, in charge a sergeant and two privates and after all had voted they were counted.

The complete report has not been given out as yet, but it stands at present about half and half. It was all in the hands of the enlisted men, as some might think the vote was influenced by the officers if handled by them. Each soldier seems to have a different idea of garrison duty, and perhaps it would have been a good idea to have had it explained to them before voting.

This vote will probably have no influence on the future of the regiment, as it will be used or not as the government says. It makes no difference what becomes of the Fifth regiment the fact still remains that it is the A No. 1 Regiment of Massachusetts, and all wish the suspense was over.

Some changes have been made in the hospital department. Before this there were two sick calls daily. One at 7.15 A. M. and one at 5 P. M., and it was sometimes impossible to find a surgeon between times. Under the new order a surgeon is on duty at all times and no time is lost in treating emergency cases. This is a great deal better as it is not always convenient to be sick at just certain times in the day.

A storm similar to the one of the night before swept across the sky at six o'clock last evening, and threatened for a time to prevent the usual dress parade, but it did not break. It was very dark, however, and it was almost impossible to see the troops as they passed in review. A hard shower broke just as the Company streets were reached.

The canteen changes hands today. It has been run by the Chaplain, but in the future will be under the supervision of Lieut. Col. Weaver. The causes of this change are not known.

Next week Camp Dalton will be pretty near filled to overflowing, as ground is being staked off for tents for the invalids of the Ninth and Second Massachusetts regiments.

The Horse Guards will arrive Saturday. It is not definitely known when the other troops will arrive. There is a rumor in camp circles that visitors will not be allowed in camp after Monday, but the Ledger readers and friends of Co. K will know through these columns when the time comes.

There still are a few absent without leave but most of them are being rounded up. This month's pay rolls are being made out and will be forwarded the first of the month so as to insure another pay day soon.

Lieut. Whitney of Co. K is commander of the guard today.

A detail of fifteen privates from the regiment, under command of Sergt. Mohan of Co. K, went to Worcester to attend the burial services of a sergeant of the Ninth regiment

Private Randall lost a Quincy fire-department badge on the grounds yesterday, but fortunately it was found by a member of the company and was returned to him.

"Major Dennison," instructor of Co. K is learning some new tactics.

Private McPhee wanted to cast the whole vote yesterday but was prevented just in time. MACK.

Volunteer Aid Work.

The local branch of the Volunteer Aid Association sent Wednesday a box of canned goods and delicacies into headquarters, thence to be forwarded to the sick and wounded boys at Fortress Monroe.

The box was valued at $7.

Have also received from Maple lodge, $313. Knights and Ladies of Honor, $5. From Mrs. Edith Wolfe, $5; by contributions: Mrs. Solan Doggett, $1; Mrs. Charles A. Spear, $1; and a friend, $1.

—The Perkins Jubilee Singers will be at the Nantasket chutes all next week.

OUR NEW YORK LETTER.

An American Girl's Narrow Escape—An Attractive Place—She Was Nearly Starved.

[Special Correspondence.]

Various stories of the marriages of German officers and American girls that reach this country have placed such unions in an unfortunate light, but the recent experiences of a New York girl have caused her friends here to congratulate her on an escape which, embarrassing as it was at first, has doubtless proved the most fortunate event of the situation. She was living in a German city that contains the largest American colony in Germany and she became engaged to a lieutenant in one of the Prussian regiments stationed there. He was of an old German family and the prospect of his marriage to the girl was regarded with great favor by his family as well as her own. The engagement was announced after a long courtship, and no similar alliance ever promised to result more satisfactorily. Every preliminary to the marriage, which was to take place in Europe, had been arranged. All that remained was the payment to the administration of the army of "cautions geld" the sum demanded by the army in order that the officer's family may not become a charge upon the government. When German officers marry Americans, this sum is paid by the bride's family, and this present case formed no exception to that well established rule.

The check for the sum, which had been deposited in a Berlin bank, was handed to the expectant bridegroom a few weeks before the date fixed for the marriage. His mother-in-law elect gave it to him. A few hours later he left his betrothed, and from that time neither she nor any of her family has ever laid eyes on him. Investigation showed that he had got the money before he went out of Germany, leaving his family, his regiment and everything but the money, which in this case amounted to $17,000. Nothing was ever heard from him, and the friends of the young woman continued their congratulations to her, although not just in the same spirit they were begun. The young woman in the case promptly put an end to all efforts to find the lieutenant. She was quite as charming and attractive as the majority of girls who marry German officers, but the man was an exception to the rule even of those officers who talk of the possibility of a "reiche Amerikaenerin" as a wife in a way that makes it difficult for the average American to control himself.

An Attractive Place.

One of the most popular places in New York, although it is rarely noticed in the newspapers, is the aquarium, which occupies the old Castle Garden in the Battery. Here between 10 a. m. and 4 p. m. there is a constant stream of men, women and children passing in procession before the countless specimens of the fish tribe from almost every quarter of the globe. It seems a pity that the hours the aquarium is kept open are so short. Thousands of people who might otherwise be glad to visit the collection are prevented from doing so by reason of the limited time. No stranger to the city should fail to visit this attractive place. There is no other fish collection equal to it in this country, except perhaps the one in Washington.

Additions are constantly made to the Castle Garden aquarium, and every once in awhile something especially attractive is brought in. This makes it interesting for those who are frequent visitors.

Whatever may be the evils of the "paternalism" that provides these places of entertainment for the people at the expense of the city treasury there is certainly no other investment of public funds that yields so large a dividend of public pleasure and instruction, except, of course, the money that is spent on the public schools. The aquarium, the Art and Natural History museums, the parks, the playgrounds for children, the free baths, the recreation piers, roofed over and opened as breathing places for the inhabitants of the crowded tenement houses, the botanical and zoological gardens that are to be, and the great public library which only awaits the official action of the board of estimate serve to make life in the city broader, happier and safer. The city money that is put into them is as well spent as if put into aqueducts and docks.

A Descendant of Boone Nearly Starved.

The great-granddaughter of Daniel Boone was saved from being cast into the streets. Miss Grace Boone is the daughter of Anna Boyle Boone, the authoress, and has a brother in the volunteer army. He was her sole means of support. She had been endeavoring to secure work, even of a menial sort, but was unsuccessful. She was unable to pay her room rent of $1.25 and would have been dispossessed had not her case been made known to the society that looks after those deprived of support by the war. When rescued, she was almost starved, and she is only one among the many similarly situated in this great center of sunshine and shadow.

Good Times Expected.

A tour of the financial district brings out the cheerful fact that the big investment companies are more than pleased over the trade outlook. Every one of them figures upon financial success, founded upon solid figures. Never since the close of the civil war, they say, have so many industrial enterprises been projected, and the boom, they believe, will be solid and enduring. One could fire off a shotgun in Wall street without hitting a bear. They bob up occasionally, but, to use the slang of the floor, "they won't stand the gaff."

Meals at Cut Rates.

A well groomed man who would not yield up his address was arrested at the Waldorf-Astoria because he could not settle a $10 check. The magistrate before whom he was taken fined him $2, which he paid. This is a new way to obtain a swell meal at cut rates.

JOSEPH RUSSELL.

Work.

Take a woman who has her own housework to do week in and week out, and it's pretty monotonous. The cooking alone is hard enough, especially in hot weather.

This store is here to save you much of this labor. We have many things that make "meal-getting" easier in hot weather. Cooked Meats, Dried Beef, and Canned Goods, that require no cooking.

Thin Sliced Dried Beef is very nice and nutritious—15 cents for a half pound can.

The Popular brand Canned Salmon makes a hearty meal and a good one —12 cents a can.

Harmonious colors and artistic combinations, which cannot fail to be restful and pleasing to the eye. We offer for inspection a most satisfactory variety of wall paper.

HENRY L. KINCAIDE & CO.,
HOUSE FURNISHERS,
Hancock Street, - Quincy.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Mrs. Ann Duggan of Hancock street is quite ill.

Councilman Walter P. Hill of Ward Six entertained a few friends Wednesday evening at a house warming.

Master Daniel McNeil of Dorchester is spending part of his vacation with Master Carlton McNeil of Quincy.

Invitations are out for the clambake of the Sewer Department of the city on Saturday afternoon, at Pawsey's.

A moonlight sail and hop will be given by the Wollaston yacht club on Saturday evening. Music by Mr. William Wilson of Quincy.

The steam roller is breaking up Willard street and getting ready for the crushed stone that is to come from the quarry of Doble & Lamb.

It was a fraction of a degree warmer at 12 today than yesterday, but at one had dropped from 90 to 84, and the afternoon promises to be showery.

It is Papa Chase today, a daughter being born last night to Mr. W. L. Chase, the new proprietor of Hodges' bakery, who lives on Bigelow street.

Extra Ledger tonight before six o'clock with the cup race. For sale only at Souther's news stand, the Houghs Neck post-office and at the Ledger office.

The heavy shower on Wednesday morning did considerable damage in Alantic, Mr. B. F. Thomas of Billings street is minus his chimney, and several trees suffered loss of limbs.

The Misses Bassett of Walker street, have returned from a month's tour at Rockport, having a most delightful vacation, and bring with them a good coat of genuine Cape Ann complexion.

John R. Graham, president of the Quincy & Boston street railway, is one of the committee of arrangements for the annual convention of American Street Railway Association in Boston, Sept. 6-9.

Many of our yachtsmen of Wollaston showed their interest in the Quincy Yacht club challenge cup races by sailing around to Houghs Neck this week, that they might get an unobstructed view at all points of sailing. Of course their sympathies all lean toward the Recruit.

The citizens of West Quincy are pleased with the work that is being done upon the streets in that part of the city. Edge stones have been put in on Crescent street from Cross street to Willard on both sides, and on one side of Willard street from the depot to Rogers street.

The present hot wave has been inducive to bring to Wollaston beach daily, a large number of bathers to enjoy a dip in the cooling salt water. At one time Wednesday afternoon sixty-three lovers of old Neptune were counted enjoying the heathful influence of a frolic in the water.

A white tar has been invented. The beauty of this substance is that under no climatic condition will it become soft, so that in caulking the decks of ships it will probably take the place of pitch altogether.

NOTICE!

NOTICE is hereby given that I have this day withdrawn from the co-partnership heretofore existing between William H. Doble and myself, under the firm name and style of "The Purity Dried Fruit Cleansing Company." The said co-partnership has heretofore carried on the business of packing and selling dried fruit, and has had a place of business at Quincy, Mass.

HERBERT F. DOBLE.

Quincy, Aug. 25, 1898. 3t 25 1 8

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

TRUE'S PIN WORM ELIXIR

In use 46 years. 35c. Ask your Druggist for it.

Dr. J. F. TRUE & CO., Auburn, Me.

THE PEACEMAKER.

It is a beautiful morning in early summer—a morning to make one friends with all the world. Even the street beggars have to make an effort to look as doleful as usual, but if Jack Ransom's face reflects his mind he is certainly out of harmony with the day.

He walks moodily along, his eyes on the ground, trying to remember how their quarrel began. He has no difficulty in remembering how it ended. He wishes he hadn't been so hasty in what he said, but Helen has certainly misunderstood his meaning, and she wouldn't see him when he called last night. He hadn't realized until then that she was really angry with him. He thinks, a little resentfully, that she might at least have given him a chance to explain. Well, he will write to her, and with this determination he straightens himself and looks up to find he has almost reached the park, and Helen and her little niece, Marjory, had entered it just ahead of him. As he hastens his steps he hears Marjory chattering away as usual. She is evidently worrying her "dear auntie" with some of her numerous questions.

"Auntie, where do angels come from?"

Helen's reply doesn't quite reach him.

"Well, auntie, are there any little baby angels in heaven?"

Auntie apparently says yes.

"And do they grow up to be papa angels and mamma angels?"

"I don't know, dear."

"But, auntie, how do they get their dresses on over their wings?"

Helen laughs. "I'm afraid I cannot tell you, Marjory."

"Ah, dear," with a sigh. "I wish I could go up to heaven and see how they do it."

Jack had been hesitating for the last few moments, not being sure of his reception, when Marjory, catching Helen's hand, swings herself around, thereby coming face to face with Jack.

"Oh, Jack, where did you come from?" going over to the enemy.

He smiles down on her and then steps forward, with an elaborate bow.

"Good morning, Helen."

"Good morning, Mr. Ransom," icily. "May I have the pleasure?"

"I doubt if it will be a great pleasure to you," without any visible melting.

He assures her, with as much ease as he can command, that it cannot fail to be, and then endeavors to bring the conversation to some pleasant neutral ground, but soon finds he is making little headway. Her part of the conversation is confined principally to monosyllables. After struggling awhile he turns to Marjory for help.

"Marjory, what would you do if an angel was angry with you?"

"An angel up in heaven?"

"No, Marjory, she still inhabits this earth."

"Poor Jack," with great sympathy, "did you do something naughty?" glancing from him to her "auntie," who, it seems to her, isn't as much interested in Jack as she ought to be.

"She thinks I did, but I didn't."

"Then I wouldn't do anything," declares Marjory.

"Oh, but I want to do something so she will forgive me anyway," with a glance at Helen, but Helen is busy just then "viewing the landscape o'er."

Marjory is a little puzzled to know why he should want to be forgiven when he hadn't done anything.

"You know, Marjory, she thinks I have, so what shall I do?"

"Well," says Marjory, "when I am naughty and auntie won't forgive me, why, I hug and kiss her lots and cry a great deal very loud, and then she does," with great complacency.

"I should like to do one or all of those things if she would only let me," with a laughing glance at Helen, which she returns with a withering look and some remark about "crocodile tears."

His angel is indeed deeply offended.

"I'm afraid, Marjory, that she would not let me, but," bending down and kissing her, "you kiss her for me and ask her please to forgive me. Tell her I'll never, never do it again, and, Marjory, keep your arms around her neck until she says she will."

For some minutes they had been sitting on one of the rustic seats in a secluded part of the park. So Marjory, having in her shrewd way decided who the "angel" is, soon has her arms around Helen's neck, rather to the detriment of her hair and hat, kissing her vehemently and begging her to forgive him. Helen, touched by the child's earnestness, smiles in spite of herself, which gives Jack courage to take her hand and draw her gently toward him.

Marjory, quite elated, dances around them for a moment and then stops. Things are not quite right yet, according to her ideas, so she hastens to express them.

"When auntie forgives me, she always kisses me."

"Helen, dear," he whispers, bending over her.

Slowly she raises her face to meet the laughing, yet tender, look in his eyes, and then—kisses him.—Mabel Wood in Boston Post.

She Was Called.

It was in the train, and he was trying to read. There was the usual variety of passengers, and among them a lady with a very sprightly little girl who had blue eyes, a head of glistening gold and an inquisitorial tongue. She plied him with questions and toyed with his watch chain.

The mother, who was a widow, fairly beamed upon him. He was becoming nervous and turning to the mother said, "Madam, what do you call this sweet little darling?"

The widow smiled enchantingly and replied with a sigh, "Ethel."

"Please call her then."

It was said quietly enough, but for a few moments the other passengers half hoped there would be an accident or something to relieve the tension.—Pearson's Weekly.

How General Burt Was Tricked.

One day when General Andrew S. Burt was lieutenant colonel of the Seventeenth United States infantry Captain Charles A. Booth, then a lieutenant, met him on the rifle range.

Lieutenant Booth was shooting, and he "called" each shot as he fired, without waiting for the markers to signal the result.

"You're a pretty good guesser," said the colonel. "Why don't you admit you're guessing where those shots land?"

"I'll bet you a box of cigars," said the junior officer, "that I can call 20 shots in succession."

"Taken," said the old warrior.

Lieutenant Booth fired.

"Miss," he announced, and a red flag from the target told that this was correct.

Another shot.

"Miss," he declared. A third shot. "Miss again," he said. Fourth shot. "Fourth miss," announced Booth. Another shot. "Miss," again sang out the lieutenant.

"Hold on there," put in Colonel Burt. "What are you trying to do? I thought you were going to fire at the target."

"I'm trying to win my box of cigars," said Lieutenant Booth.

"Don't fire any more," said the colonel. "They're yours."—Chicago Journal.

An Invincible.

When Alcibiades was told that his countrymen had passed sentence of death upon him for being at the head of a conspiracy to overthrow the religious and political constitution of Athens, he said, "I will show them I still live." He obtained from Sparta assurance of personal safety and went hither. He delighted and charmed the Spartans, as he had the Athenians in his earlier years He adopted their customs and dress and was the strictest Spartan of them all. He wore his hair short, bathed in the icy waters of the Eurotas and ate their black broth and barley bread. They believed that he had been misrepresented. In truth, as Plutarch said, "he changed color more quickly than a chameleon." In Sparta he was grave, temperate and fond of physical exercise; in Ionia he was easy going, luxurious and merry, in Thrace he was drunken, in Thessaly he was devoted to horsemanship, and in the court of the Persian satraps he surpassed Tissaphernes himself in magnificence. As Sparta was to be the prize of the Athenian victory he showed the people their danger, advising them to begin active operations against that city. No better advice could have been given them, and they profited by it.

Manilla Hemp.

Every engineer knows what manilla hemp is, but few are aware that it is the product of a species of banana which is cultivated in certain localities in the Philippine islands. The plant, called by the natives "abaca," throws up a cluster of sheating leaf stalks to a height of 20 or 30 feet, which spread out at the top into a crown of huge undivided leaves. When it is 3 years old, it is cut down and the stalks are torn into strips. These strips, while still fresh, are drawn between a knife and a wooden block, and the soft cellulose matter is removed. The fiber is then hung up to dry in the open air until it is fit for use. Each stalk gives about a pound of fiber, and two natives will turn out about 25 pounds a day. The inside fiber, which is thin and weak, is used by the natives for making articles of dress. The familiar manilla rope is made from the fiber of the outer layer, which is hard and strong. The whole supply of manilla hemp practically comes from the Philippines, and the United States consumes 41 per cent of it.

Picturesque Description of Arizona.

We live in a land of high mountains, high collars and high taxes, low valleys, low neck dresses and low wages, big, crooked rivers and big, crooked statesmen, big lakes, big drunks, big pumpkins, big men with pumpkin heads, silver streams that gambol in the mountains and pious politicians who gamble in the night, roaring cataracts and roaring orators, fast trains, fast horses, fast young men, roses that bloom the year round and beautiful girls with rosebud mouths, sharp lawyers, sharp financiers and sharp toe shoes, noisy children, fertile plains that lie like a sheet of water and thousands of newspapers that lie like thunder.—Yuma Sentinel.

A Zulu Rain Charm.

The Zulus employ a rain charm which is very remarkable considering their usual fierceness and cruelty. They catch a bird, and after the tribal wizard has consecrated it and made it a "heaven bird" they throw it into a pool of water.

In spite of their own indifference to the sufferings of animals they believe that the sky, which they conceive to be a personality, will be full of woe at the death of the bird and drop sympathetic tribute in showers of rain.

Free Passes.

The legislative free pass is still universal in France. Every member of the chamber of deputies has free traveling on any railroad in the country and is furnished with a medal of identification to make sure that he gets his privileges. In the matter of pay they are better off than the British members of parliament, though their indemnity of $5 a day is small beside the $5,000 a year of the United States congressman.

A Noise.

Mrs. Hicks (shopping)—Hark! Didn't I hear something smash?

Hicks—Good heavens, you have good ears. It was only me going broke.—Harlem Life.

When She Takes Her Time.

"Is your wife a rapid reader?"

"Yes, unless I'm waiting for the paper."—Chicago Record.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. We are bound to carry over no summer Suits, Hats nor Furnishings. That is why on Aug. 19 we open with what will always be remembered as the most bona fide bargain sale that Quincy has ever seen.

Read the following prices and ask yourself if you can afford to stay away and let others reap all the benefits:

Threatened to Close a Mine.

Hazleton, Pa., Aug. 25.—Seven hundred men, employed at the strippings of the Lehigh and Wilkesbarre Coal company, went out on strike yesterday, and those who did not strike were told by the company officials to go home until the grievances which caused the difficulty are adjusted. The inauguration of the strike is said to be due to the alleged unjust discharge of two laborers. The company officials state that the men were incompetent. Last night Superintendent Richards posted a notice at the collieries to the effect that if the men are not at work today the mines will be shut down for the balance of the year.

The strikers had a meeting and decided to return to work today. President Duffy of the United Mine Workers authorizes the announcement that the discharged man will be reinstated.

Swept by a Furious Storm.

Utica, Aug. 25.—As the result of a furious storm which swept over the region north of Utica yesterday afternoon over $300,000 worth of damage was done to property. In Dearfield $10,000 damage was done to farm property, and every bridge on the highway east and west of the place was carried away by the swollen streams.

The Adirondack and Black River division of the Rome, Watertown and Ogdensburg railroad suffered severely from the cloudburst. In one place a washout 200 feet long occurred, while a railroad bridge near Trenton is reported to have been carried away. Between Remsen and Herkimer four bridges were carried away.

Hot In the Metropolis.

New York, Aug. 25.—It was the hottest Aug. 24 on record. The highest temperature at the office of the weather bureau was 88 degrees at 4 o'clock. The temperature at the street level was 96 degrees for more than an hour. Not until 8 o'clock did New York's sweltering millions receive a temporary respite, a light thunderstorm passing over the city. The highest temperature on Aug. 24 last year was 72 degrees and the preceding year, while the terrible heat plague was scourging New York, the highest was 76 degrees. Heat prostration slips began to pour into police headquarters early in the morning, and there was no letup until midnight. Horses fell in all parts of the city.

Asked to Reconsider.

New York, Aug. 25.—The national board of arbitration of the National league did not meet yesterday. President Young is ill, and he sent his son, who is secretary of the board, to act in his place. Of those interested only Mr. Robinson of the Cleveland club was present, and he and Mr. Young talked the situation over. It was decided to send a dispatch to the various members of the board of directors of the league asking them to reconsider their decision in the New York-Baltimore case in regard to the suspension of Holmes of the Baltimores.

Helping a Bond Concern.

Lawrence, Aug. 25.—Owing to the fact that the Lowell, Lawrence and Haverhill Street Railway company has published notices to the effect that by Sept. 15 every employe shall file a bond of $300, the expense of the same to be borne by the men, it has leaked out that the men, 100 in number, have threatened to strike. The men claim an injustice has been done them, and that they have been given to understand that failure to file a bond is equal to discharge. The only bond allowed is that of a Baltimore concern.

Accident at a Crossing.

Petersburg, Va., Aug. 25.—There was a horrible accident at a crossing known as Grossman's, a short distance from this city. J. P. Condrey, a prosperous farmer of Chesterfield county, was returning home with his wife and little son in a buggy, and when he reached the crossing the young horse he was driving became unmanageable and carried the party upon the track immediately in front of a train. The occupants of the buggy were instantly killed.

LETTER FROM GARCIA.

The Cuban General Makes Report of His Movements.

Successes Achieved and Supplies Captured.

He Proves the Good Samaritan For Sick and Wounded Spaniards.

New York, Aug. 25.—The following report from General García has been received by the Cuban junta, being dated Gibara, Aug. 3: "On the 16th of July I held the last conference with the American, General Shafter. He informed me that the American troops had captured Santiago de Cuba. Aware that my troops were no longer needed in that vicinity, while they were needed very much in other places still occupied by the enemy, I so informed General Shafter. He asked me to delay my departure two or three days, which I did, starting on the 20th toward Holguin by way of Jiguani. I am at present with my general headquarters in the town of Gibara, where I arrived on the 30th of July.

"On the 29th, while encamped in San Pedro Cacocun, I learned that General Luque had evacuated this town and that General Louis de Feria with the troops under him had occupied it. The Spanish left in the hospitals over 60 sick and wounded, whom I have provided with beef. There is perfect order in the town, new municipal authorities have been elected and everything is working regularly. The United States steamship, Nashville, was in the harbor when I entered. I requested its commander to ask his government to open this port to foreign commerce, or with the United States at least, for there is great scarcity of provisions. The Spaniards took everything they could.

"General Luque is in Holquin with 12,000 men and 24 cannon, and I am trying to force him out, although I can only count on 4000 men and four cannon with which to fight him. Volunteers and guerillas are daily joining; about 1500 have already joined us, and if it continues the Spanish army will soon be dissolved.

"Mayari, Fray Benito and Jandiaga are garrisoned by our army. The first of these towns was evacuated on the 22nd of July, leaving 100 sick and wounded, that we are caring for, in the hospitals. When the Spaniards left Mayari we defeated them, capturing their convoy, consisting of 30 rifles, 150,000 Remington and Mauser cartridges, two cannon with ammunition for them, and provisions and clothing. They suffered severe losses, not many arriving at Holguin.

"I have received propositions for the surrender of Manzanillo under conditions which I have refused to accept. Very soon all of my department will be free from the dominion of Spain."

NEWS IN BRIEF.

Patrick Moran, Lawrence weaver, died last night from the effects of the heat. He was stricken at his work.

Newspapers published in both the English and Spanish languages have already appeared in Manila.

Andrew Fay, aged 23 years, a law student in Lowell, was drowned while bathing at Old Orchard beach.

Henry Gage of Los Angeles was nominated for governor of California by acclamation by the Republican convention.

Last night the farm buildings of Arthur Deering of Saco, Me., were struck by lightning and burned. The loss is $5000.

Judge Robert Motton, who was for 10 years judge of the city and civil courts in Halifax, died in Providence. He had been an invalid for a long time.

The exhuming of the body of George W. Otis, who died last spring, and was buried on his farm in Farmington, N. H., has caused much excitement in that town. It is alleged that he met a violent death by poison.

Mrs. Harbour, wife of Jefferson L. Harbour, assistant editor of The Youth's Companion, Boston, was thrown from a carriage in Peterboro, N. H., and run over by a heavy vehicle, her injuries being so serious that death is feared.

The Fire Island, N. Y., beach for about 10 miles is covered with wreckage, consisting of parts of trunks, boxes, bedding and wire mattresses. There are no marks, but it is thought to be from off some of the United States transport vessels.

The strike at the Brainerd, Shaler & Hall company's quarry in Portland, Conn., was settled by the 150 strikers accepting the offer of the company of 16½ cents an hour. The men demanded 19 cents, and had been out on strike for about two months.

Notices were posted yesterday by the Merchants Manufacturing company of Fall River of a two weeks' shutdown, commencing Monday morning. This will stop 125,000 spindles and cause the idleness of 1350 employes, whose weekly pay will amount to $8000.

After a two days' session the Republican state convention ended its labors in St. Louis last night. The most important work of the convention was the turning down of Chauncey Ives Filley, who for 25 years, off and on, had been chairman of the state committee.

The military authorities in San Francisco have received instructions countermanding previous orders to send a large body of soldiers to Honolulu. No more troops will leave the United States until further notice, and the three steamers, which were to have left early next week, will not go, at least not as transports.

The effort to get a new plan of party organization in Ohio failed of adoption at the Democratic convention, but it was given another chance by such reference as will bring it up next year. The new organization seems to satisfy those working for the nomination of Paul J. Sorg for governor next year, and it is not displeasing to the McLean, Brice or other elements. The campaign this year will be made on the Hanna issue.

DEFEATED IN CHICAGO.

Champions Unable to Gauge the Deceptions of the Western Pitcher.

Chicago, Aug. 25.—Chicago's ball players defeated the Boston team yesterday, 2 to 1. The game had considerable snap, which was hightened by the light hitting and a consequent small score. The closeness of the match was due to nearly equal batting, with the shade of luck on Chicago's side, but the champions are such an awful tough lot to down that not until the last man was out could any one stop to figure on the small plays that swayed the result. One of importance was Yeager's soak in the eye, which was also a base hit, and another was an elusive fly which Hamilton barely reached and couldn't grasp. Yeager was counted out after his mishap, and when he was revived Duffy had taken his corner. Score:

The St. Louises have returned home from the eastern trip to find the treasury depleted. President Muckenfuss, who is also the receiver of the club, states that there is no money at hand to pay the overdue salaries of the players. The players have agreed to wait till after Sunday's game in hopes of a large attendance.

Rain stopped the Louisville-Philadelphia game in the first half of the sixth inning, with the colonels in the lead. Both pitchers were batted hard.

Fast work at the bat and on the bases enabled the Providences to score five runs on five hits early in the game yesterday. Braun, with splendid fielding support, held the visitors down to four hits and two runs. Up to the eighth inning the Syracuses were unable to send a man as far as first base only twice, and then they were doubled. Three singles in the ninth gave them two runs. Score: 6 to 2.

The Clevelands played at home Wednesday for the first time in seven weeks, and a small crowd saw the game with the New Yorks. Seymour's looseness in the first inning gave the home team the game. Rain stopped the play at the end of the sixth.

The Brooklyns won from the Pittsburgs in a game that was very tame and had not a distinguishing feature.

The St. Louis team won a slugging match from the Washingtons. Weyhing started to pitch, but was taken out after the browns had secured several runs and hits. Donovan, who succeeded, was also hit hard. Score: 14 to 5.

Big Fire In New York.

New York, Aug. 25.—The explosion of an ammonia tank, used in the making of artificial ice, set fire at an early hour this morning to Jacob Hoffman's brewery, a 5-story brick structure. The flames spread rapidly, and the Central Bottling company's plant, of which A. Wolff is the proprietor, soon caught fire. Within a very short time the entire block surrounded by Third avenue, Fifty-fourth and Fifty-fifth streets seemed to be doomed. The surrounding tenements, all filled with sleeping people, next ignited, and the bewildered tenants began to pour out into the streets by the hundred.

Alarm after alarm was turned in by the police and the earlier arrivals of firemen until four alarms had sounded and 18 engines and five hook and ladder trucks were on the scene. As a precaution several ambulances were called from Bellevue and other hospitals. Thrilling rescues of frightened men, women and children were made by the firemen.

At 2:30 a. m. the fire was under control. The loss is roughly estimated at $300,000. While there is no knowledge of loss of life it is not improbable that there were some fatalities. The night watchman could not be found, and it is believed that he may have been killed by the explosion.

Will Teach Spanish.

Chicago, Aug. 25.—Spanish will be added to the list of studies in the Chicago schools if Dr. Andrews, the new superintendent, has his way. He also favors the annexation of the Philippines. Dr. Andrews says that when Cuba, Porto Rico and the Philippines come under the control of this government rich fields for business enterprises will be opened to the young men of Chicago. For that reason he considers it fully as essential now to teach the Spanish language as German and French.

Sons of St. George.

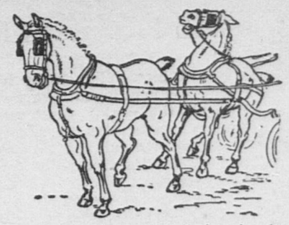

Westerly, Aug. 25.—The grand lodge of the Sons of St. George for Rhode Island was in semi-annual session here yesterday. After the usual business the election of officers resulted as follows: President, Thomas Turner; vice president, George W. Burgess; secretary, Herbert Broadhead; treasurer, George Smales; messenger, William Chadwick; trustee, John W. Battye.

Led by Three Laps.

New Bedford, Aug. 25.—C. S. Bolting of Providence defeated Frederick Beauregard of Fall River at the Buttonwood cycle track last evening in a 25-mile paced race. Bolting led his opponent by three laps at the finish. Superior pacing was a factor in the victory, but no records were broken. The time was 52:36 4-5.

A Terrible Disaster.

London, Aug. 25.—A dispatch from Vienna to The News says that 300 miners were drowned by the flooding of the Kasimir coal mine at Niconce, Silesia, three days ago.

A horse in the lead pulls in vain when the wheel horse lays back in the breeching. A man's body is a good deal like a team of horses, and must work harmoniously. The head may want to work, and strive ever so hard to work, but if the body is balky and sick the head will make no progress.

The man who is out of condition physically may as well give up trying to work mentally. He will not be able to do good work, or satisfactory work, and in the endeavor to do so will only do himself further harm. The reason that men have nervous exhaustion and prostration is that they try to work the brain when the body is balky. The right thing for a man to do when he finds he is out of sorts physically is to give the mind a little rest, and promptly resort to the right remedy for his physical ailments. Dr. Pierce's Golden Medical Discovery is the best of all medicines for a balky body. When the head aches, the appetite is poor, the sleep is restless, the nerves are shaky and both body and brain suffer from dullness and lassitude, it is time to resort to this great remedy. It restores the appetite, corrects all disorders of the digestion, makes assimilation perfect, invigorates the liver and purifies and nourishes the blood. It is the great blood-maker and flesh-builder. It is the best of nerve tonics and restoratives. It makes both body and brain alert and active. Medicine dealers have nothing "just as good."

"I suffered five years with an ulcer and the doctor here could not do me any good," writes Mr. John Jenkins, of Haywood, Madison Co., Va. "I took twelve bottles of Dr. Pierce's Golden Medical Discovery and I am well. I would have been in my grave if it had not been for your medicine."

For constipation and indigestion, Dr. Pierce's Pleasant Pellets are the most natural and perfect cure ever devised. They act gently but surely, and effect a *permanent cure.*

ISLES OF SHOALS.
FARE, 75c. ROUND TRIP.
MAJOR CLARK'S ORCHESTRA

Leaves Commercial Wharf every day, weather permitting, at 10 A. M.

Special rates to parties.

Quincy and Boston Electric Street Railway.

[Subject to change without notice.]

On and after Friday, July 8, cars will be run on the different routes as follows:

Quincy and Houghs Neck.

Leave QUINCY CENTRE at 5.20 A. M., and every half hour until 8.50 P. M., then 9.50 and 10.30.

Returning, leave HOUGHS NECK at 5.45 A. M., and every half hour until 8.45 P. M., then 9.20, 10.20, 11.20.

Quincy and Neponset.

Leave CITY SQUARE for Neponset at 5.50, A. M., and every 15 minutes until 10.35 P. M., then 11.10, last car.

Leave NEPONSET for Quincy at 6.15 A. M and every 15 minutes until 11 P. M., then 11.25 last car.

All cars leaving Neponset on the hour or half hour go through to Nantasket Beach, beginning at 7 A. M. until 9.30 P. M.

Cars leaving Quincy at 5 minutes past the hour go via Norfolk Downs, and leave Neponset at 30 minutes past via Downs.

Cars leaving Neponset 15 minutes of and 15 minutes past the hour go via Wollaston, to Weymouth Landing and all cars leaving Quincy at 10 minutes of and 20 minutes past the hour go via Wollaston to Neponset.

Quincy and East Weymouth.

Leave CITY SQUARE (10 minutes later from Quincy Point and 22 minutes later from North Weymouth)—5.45, 6.20, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.20, 10.50, 11.20, 11.50 A. M.; 12.20, 12.50, 1.20, 1.50, 2.20, 2.50, 3.20, 3.50, 4.20, 4.50, 5.20, (5.30 to East Weymouth car house), 5.50, 6.20, 6.30, 6.50, 7.20, 7.50, 8.20, 8.50, 9.20, 9.50, 10.50 P. M., (11.50 Wednesday and Saturday to Thomas' Corner only.)

Leave EAST WEYMOUTH (20 minutes later from North Weymouth and 30 minutes later from Quincy Point)—6, 6.30, 7, 7.30, 8, 8.30, 9, 9.30 10, 10.30, 11, 11.30 A. M.; 12, 12.30, 1, 1.30, 2, 2.30, 3, 3.30, 4, 4.30, 5, 5.30, 6, 6.30, 7, 7.30, 8 8.30, 9, 9.30, 10, 10.30, 11.30 P. M.

Quincy and East Milton.

Leave CITY SQUARE, 5.55, 6.25, then every 5 minutes of and 25 minutes past the hour until 9.25 P. M., then at 10.50 P. M.

Leave EAST MILTON 6.25, 6.55 A. M., then every 5 minutes of and 25 minutes past the hour until 9.50 P. M., then 10.20 and 11.20 P. M.

Quincy and Holbrook.

Leave QUINCY for Holbrook at 6.10 and 6.40 A. M., and every half hour until 9.40 P. M., then 10.10 P. M. to South Braintree only, except on Wednesday and Saturday, when car at 10.50 runs through to Holbrook.

☞ Cars for Hingham and Nantasket leave Quincy at 7.20 A. M., and every half hour until 8.50 P. M., then 9.20 and 9.50 to Hingham only.

☞ Cars leave Weymouth Landing for Quincy and Neponset via Wollaston at 6.25 A.M. and every half hour until 10.25 P. M.; last car 11.20.

☞ Cars for Weymouth Landing leave Quincy at 6.05 A. M. and every half hour until 10.05 P. M.; last car 10.50.

SUNDAYS.

Cars leave City Square, Quincy, for E. Weymouth and West Quincy on the hour and half hour.

Sunday time same as week days on other lines.

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,

Adams Building, Quincy.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

TO HAVE DELICACIES.

Sick Soldiers In Montauk to Have Better Fare.

Chief Quartermaster Is Overruled by Alger.

Secretary Making Things Hum For the Welfare of the Men.

New York, Aug. 26.—General Alger is working a quiet but very effectual change in the conditions prevailing at the camp. General Wheeler had a complaint to make to the secretary. When the general was in Washington he received instructions to issue extra rations to the sick and weak and give them what they wanted and needed regardless of their being on the ration list. This order was given verbally by President McKinley. General Wheeler came here and started in on a generous course outlined by the president, but was promptly held up by the quartermaster's department. He told General Alger about it, and now the camp quartermaster's department is busy ordering direct, without the intervention of Washington, a regular supply of soups, eggs and delicacies for the sick.

At the general hospital the secretary found that the negro troopers doing police duty had not been as thorough as they might have been, and yesterday they had extra work to do under his direction. In two hours not a trace of disorder remained. The next thing to strike the secretary as wrong was soggy spots near the hospital. He called Dr. Brown's attention to them and directed that they be filled up. They were dangerous to health, the secretary said.

In passing the tents General Alger stopped frequently to speak to sick soldiers. He invariably asked about the sick soldier and where he fought. A corporal of the Eighteenth infantry, who could just keep on his legs, met and recognized the secretary, and at once came to salute. The secretary had evidently noticed the lack of this in others. He took off his hat and asked the corporal's name. It was given, and the secretary complimented him on remembering a soldier's duty despite his illness, and granted the man a furlough then and there.

One of the most important things done by the secretary during the day was the issuance of an order to the Second Massachusetts volunteers, which brought joy to them. It was that all who were able to make the journey should proceed to Springfield, and there be furloughed for 30 days. At the expiration of that time, barring further orders, the regiment is to assemble and be mustered out. There was no further need of holding the volunteers, the secretary said. He indicated that in rapid succession he would issue similar orders to the other volunteer regiments recuperating at Camp Wikoff. The Second Massachusetts may go to Boston on the Badger, or one of the unarmed transports may be used. The Badger is now under orders to proceed to Boston.

During the day General Alger granted furloughs right and left to men who deserved them and who were fortunate enough to come under his notice. In a day or so if he remains he may call for a list of those who have been in the hospital and furlough them all.

The men who came on the Yale were landed yesterday, the sick going to the detention hospital. General Young is sick from overwork. When the Mohawk came in she reported 130 sick. When she came to unload it was found that 200 of the men were ill. These men are all of the Eighth Ohio. The Harvard, with over 600 men of the Thirty-third Michigan volunteers, arrived and anchored. She signalled that she had 33 sick, but no contagious cases on board.

Trouble In Store For Sagasta.

London, Aug. 26.—The Madrid correspondent of The Standard says: "Nothing can better illustrate the country's weariness and disillusion than the small excitement caused by the return of the repatriated troops. Of the 225,000 men who left Spain for the Antilles since March, 1885, 50,000 have perished in Cuba, 73,000 have been sent home invalided, and the remainder are returning to be disbanded after receiving a portion of their nine months' arrears of pay. This clever stroke of policy on the part of the government will, it is thought, avert the danger that otherwise might have existed of the discontented army being made the tools of political or military intriguers and Carlists.

"The Carlist and Republican papers and opposition organs of every shade openly show delight at the convocation of the cortes. It is their firm belief that the days of the Liberal government are numbered. They also announce that the opposition considers that its hour of reckoning has come. The opposition will not allow the government to close the session quickly, as Sagasta fancies or may desire. His opponents, they add, are determined to discuss all the acts of the cabinet before and during the war, and there will be prolonged debate."

Miles' Immediate Return.

Ponce, Porto Rico, Aug. 26.—A transport from Charleston arrived yesterday, bringing Mrs. General Miles and her daughter, the wife of Colonel Rice. General Miles' plans contemplate an immediate return to the United States.

It has been decided to send the Fourth Pennsylvania, the Third Wisconsin and the Third Illinois volunteers home without delay. Sickness among the troops is on the increase. There are 600 men now in hospital quarters.

Army Surgeons Derelict.

Washington, Aug. 26.—Acting Secretary Meikeljohn of the war department has sent an order by wire to every military hospital in the country, calling attention of the surgeons in charge to the order of Aug. 10, which allowed the expenditure of 60 cents per day per man for the purchase of delicacies for the sick soldiers. He directed that this amount, and as much more as was necessary for the comfort of the sick, be expended in making the troops comfortable and in getting for them such things as might be necessary in the matter of food. Mr. Meikeljohn did this when he received information from the hospital at Fort Myer that not a cent of this fund had been expended.

It is probable that many surgeons in charge of hospitals are ignorant of the existence of the order, and it is understood at the department that there are other points where it has not been observed. The 60 cents a day under the order are to be turned into a general fund. The opinion expressed at the department is that many surgeons have been very derelict in their duty.

Illness of Captain Clark.

Philadelphia, Aug. 26.—Captain Clark of the Oregon was carried through this city yesterday on his way to New York, where he is to be treated for dysentery. Twice when the captain was recognized on the litter upon which he was borne he was heartily cheered by crowds which quickly collected. In the Broad street station of the Pennsylvania railroad

CAPTAIN CHARLES E. CLARK.

an impromptu ovation was tendered the hero of the 15,000-mile voyage "around the horn," to which he was too weak to respond. Shortly after the St. Louis was docked Captain Clark was taken on a stretcher from the vessel to a carriage.

Frye on the Commission.

Washington, Aug. 26.—The first meeting of a majority of the American peace commissioners took place yesterday, when Secretary Day was joined by Senators Davis and Frye. Prior to this, the senatorial membership of the commission had had a conference of two hours with the president. Secretary Day was not present at the White House meeting, so that after getting the views of the president the senators went to the state department and for an hour and a quarter remained closeted with Secretary Day. As a result of the meeting it can be stated with positiveness that Messrs. Day, Davis and Frye are members of the peace commission. It is understood that the remaining two members have been selected and will be announced by Saturday. The general plans of the commission as to proceeding to Paris were talked over and an understanding was reached that the start be made between Sept. 15 and 20.

Vessel Carries Rations.

Washington, Aug. 26.—In accordance with the determination of the administration the Comal sailed from Tampa to Havana yesterday with 1,000,000 rations for distribution to the starving people of Cuba. These rations will be distributed by Lieutenant A. D. Niskern under the direction of Captain Lotus Niles of the artillery, in conformity with the orders of the president and secretary of war. Supplies will be furnished to other provinces in the island under the direction of officers of the army as emergency may demand.

Two Fires In Brockton.

Brockton, Mass., Aug. 26.—A fire last night burned the large stable of Elmer Packard. Five horses lost their lives and another was injured so badly that he was afterwards shot. Several tons of hay were consumed. The loss was about $3000; fully covered by insurance.

Another fire was discovered on Main street shortly afterwards, but was extinguished before much damage was done. Just previous to this latter discovery, a man was seen to run away from the scene. It is supposed that an incendiary is again at work in this vicinity.

Connecticut Man Beheaded.

Hartford, Aug. 26.—James Ready, aged 36, was killed by a train on the valley division of the consolidated road last evening. His head was severed from the body and carried some distance before the train was stopped.

Tomorrow's Almanac and Forecast.

Sun rises—5:03; sets, 6:27.
Moon sets—12:08 p. m.
High tide—7 a. m.; 7:15 p. m.

The indications for New England are fair weather through Saturday and Sunday, except that light local showers are possible by Saturday afternoon. The temperature will be slightly lower tonight and Saturday morning, with less moisture in the air; variable winds.

Storm Damage In Vermont.

Brattleboro, Aug. 26.—Reports of the storm of Wednesday night indicate that it was unusually severe in the outlying country districts. Several buildings in Wilmington were struck by lightning and damaged; the barns of Fred Johnson at Dover, Warren Sheldon at Rawsonville, and Fred Stevens at Windham were burned. Crops were levelled and trees blown down. The aggregate of loss is very large.

THE STARVING CUBANS

Thousands of Them Reported In Need of Food.

Red Cross Supplies Relieving Much Distress.

Vessel Leaves Florida With a Load of Necessaries For Sufferers.

New York, Aug. 26.—G. W. Hyatt, the Red Cross agent at Key West, who was a prominent Havana merchant, has been engaged in sending small relief expeditions to various points on the Cuban coast. Relative to this work he writes to Stephen E. Barton as follows: "I am happy to inform you that the last two expeditions of food I sent to Cuba, one to Cardenas and one to the coast above Sagua La Grande, arrived safely and were delivered to the hungry women and children, to their great delight. A part of that sent to the shores near Cardenas was carried on men's backs nearly to Matanzas and distributed to the hungry. My men doing this work have returned here and are begging for more food. The Matanzas, Havana and Pinar Del Rio provinces are suffering horribly. Notwithstanding you have so much work to do in the different volunteer camps in the United States, I most sincerely hope that the Cuban relief committee will not forget that there are many thousands in Cuba who are starving. If this meets your approval I propose to send a small amount of provisions (say two or three tons) to Havana by the Mascot, or other way of conveyance to be immediately distributed.

"Work in Cuba can be carried on with perfect safety; at least I am only too anxious to try it, and with the least possible delay. I am surrounded constantly by persons begging for relief for their families in Cuba. Communication is now an every day occurrence. Can anything be done to aid some of the most worthy Cuban families to return to Havana? Some have property there and can go and live in their own houses; others have friends and relatives; but no one has a cent with which to get to Havana, and they are now living on the charity distributed by the Red Cross."

Bay State Red Men.

Boston, Aug. 26.—At the council of Red Men Thursday, the recommendations of the great sachem were adopted as follows: That the state be divided into districts containing not less than five tribes; that a great exemplifier be appointed, with a salary; that only the great sachem have power to grant dispensations, and that charters be granted to bodies already instituted. It was voted that all soldiers be kept in good standing and be entitled to all benefits.

The great chiefs elected for the coming year are: Prophet, Charles A. Weaver of Worcester; sachem, A. E. Steele of Northampton; senior sagamore, W. A. Jordan of Wollaston; junior sagamore, F. M. Collester of Winchester; chief of records, J. P. Gardner of Danvers; great keeper of wampum, Fred Doble of Amesbury.

Central American Confederation.

Managua, Nicaragua, Aug. 26.—The convention which has been arranged in formulating a constitution for the United States of Central America, embracing Salvador, Honduras and Nicaragua, has concluded its work. Commissioners were appointed to convene at Amapola, Honduras, on the first of November next. These commissioners will supplant the diet of the greater republic of Central America and will assume provisional federal powers. They will make preparations for the election on Dec. 1 of a president, senators, representatives and federal judges for terms of four years, and for the installation in office of those elected on March 1, 1899. The federal district includes more than 3000 square miles on the Pacific coast. The constitution has not been submitted to a vote of the people.

To Take a Vacation.

Washington, Aug. 26.—President McKinley will leave here Sunday morning on a special train. Mrs. McKinley will be with him, and have a small party of friends as guests. The train en route to Somerset, Pa., will make a short stop at Middletown, Pa., where the president has planned to stop about half an hour, or long enough to look over the camp. He will proceed to his brother's home to remain over Sunday. Beyond that point his plans are not finally settled. He has promised to make a visit to Camp Wikoff at Montauk Point when the condition of the troops will permit them to march in review, and it is possible that he may go there next week.

Royal makes the food pure, wholesome and delicious

ROYAL BAKING POWDER CO., NEW YORK.

FIREMEN HURT.

Blaze In Boston Last Night Attended by Serious Injuries.

Boston, Aug. 26.—While fighting what appeared to be but a trivial fire on the third floor of the building at 90 and 92 Arch street, occupied by Kent & Co., glovemakers, at 9:45 o'clock last night, 23 firemen were badly injured and burned by a hot air explosion and were removed to the different hospitals. While none of the injured fire fighters is in a dangerous condition, yet the injuries are of an extremely painful nature, many of the men being incapacitated for duty for at least a week.

The firemen had great difficulty in locating the blaze until it finally burst from the windows of the third floor, occupied by Kent & Co. One hose line was carried up the ladder to a fire-escape on the fourth floor, while three more lines were taken up the stairway to the third floor. The firemen in the building had just burst open the door from the hallway into Kent & Co.'s shop, when the smoke and flames thus liberated came out with a rush and a roar which shook the building.

All the firemen were hurled down the stairs to the second floor, but not before the flames had surged around them, and had followed them part way down. The men lay in a confused heap on the second floor for a minute or two before their comrades below realized what had taken place, or had heard their cries. The work taking out the suffering firemen commenced quickly, and all the ambulances in the city were summoned to the scene. The men were hastily treated and then sent to the different hospitals.

While the unfortunate firemen inside the building were being burned and blown about, some of their comrades on the outside were in fully as much danger of being burned to death. Four of them had gained a fire-escape with a line of hose, when the fire burst from a window below and attacked the ladder on which were five other firemen. The latter hastily slid to the street, leaving the other four men huddled at the end of the escape, with the flames pouring upward within a few feet of them, and the ladder, their only means of escape, rapidly being consumed. Fortunately a stream of water was turned on just in time to save the ladder, and several more streams soon drove the flames back into the building, where they were, shortly after, finally extinguished. So sweeping were the injuries among the men that one entire engine company had to be remanned. Lieutenant Adams had his eye fearfully cut by falling glass and will lose the sight.

The property loss to Kent & Co. was about $5000, while Asa R. Minard, engraver and printer, on the fourth floor, and the Pullen Lunch company on the street floor were damaged by smoke and water, the entire loss being about $5000.

Hoar For Ambassador.

Washington, Aug. 26.—If George F. Hoar will consent to accept an appointment as ambassador at the court of St. James, the appointment will probably be made. The president is seriously thinking of asking the senior Massachusetts senator to take the place which will soon be vacated by Ambassador Hay, and he is restrained only by his great reluctance to remove the senator from the position he now holds.

The president is thinking also of making Whitelaw Reid a member of the peace commission, and it is understood that this selection will be made.

Police Had to Interfere.

Brooklyn, Aug. 26.—Some of the most remarkable and disgraceful scenes that have ever been witnessed at a ring side took place during the boxing contests which occurred last night at the rooms of the Greenwood club. The police were compelled to interfere in all of the bouts, and for the first time since the passage of the Horton law, one of the contestants, Alexander Scott, is lying unconscious, and fears are entertained that he may not recover. His opponent was Thomas Butler.

NEWS IN BRIEF.

Mrs. George Marsh of Northampton was killed by a train while walking on the railroad track. She was given ample warning, but did not hear it.

Much comment has been caused in Madrid by the fact that the telegram giving details of the capitulation of Manila was signed by General Cejeire instead of General Jaudenes.

The strike that has been in progress at the works of the Hoe Press company in New York has been settled. Six hundred of the striking machinists will return to work Monday morning at the old rates.

The treasury department is sending out bonds to subscribers to the amount of $3,500,000 daily. The aggregate so far delivered is $58,833,320. The average number of war revenue stamps issued during July was 22,775,527 daily.

The Rhode Island division, L. A. W., held its annual field day at Crescent park, Providence, yesterday. The one mile state L. A. W. championship was won by Scholze of Pawtucket. Lawson won the five-mile state championship.

The American annexation movement, commenced on Monday in Manchester, Jamaica, is rapidly spreading and finding general acceptance as the only visible alternative to ruin. The promoters of the movement are pushing it vigorously.

The hospital ship Bay State sailed yesterday morning from Santiago for Montauk Point, having on board 100 sick of the Second and Ninth Massachusetts regiments. One death occurred before sailing. General Shafter has formally turned his command over to General Lawton and sailed with his staff today on the Mexico.

Sir John Bramston, former assistant under secretary of state for the colonies, and at one time attorney general for Queensland, and Admiral Erskine, commander-in-chief of the British squadron on the North American and West Indian stations, have been appointed commissioners to investigate the French treaty rights in Newfoundland.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL
is the Manager, and the store is right over here at number 20 Franklin street.

CUP RACE EXTRA.

As our presses will be busy from two to three hours this afternoon printing the PATRIOT, it may be impossible to issue an extra LEDGER with the result of the CUP RACE this afternoon, but if the race is finished before 6 P. M. we will make an attempt to give the news. It is likely to be the deciding race, but should the Duchess win, another race will be held tomorrow. Watch the bulletin.

Good Afternoon

The finest bit of seamanship shown in the races for the Quincy cup was the exhibition yesterday of windward work from the government wharf buoy off Peddock's island to the line, by Capt. H. M. Faxon of the Recruit, the first time round the course, making the trip in one hitch to windward to the Dutchess two, and out-pointing and out-footing her all the way. Capt. Faxon's skilful handling of the stick was much admired on Thursday.

The leading editorial of "Stone" for August is encouraging to our granite manufacturers and the city. We give it in full: "Our advices from the monument branch of the stone trade indicate an improved condition of business. The demand is good, and the percentage is in favor of a relatively higher grade of work than during several years past. This is a symptom that money is becoming plentiful, and confidence in expending it much firmer, because people invest in such things as memorials only when they have money to spare and have faith in what the future promises for acquiring more of it. The monument business is a fair barometer of commercial conditions, and at present there is no doubt that it is more active than for several years.

House Warming.

Notwithstanding the threatening weather Wednesday evening, a large party of the intimate friends of Councilman and Mrs. Walter P. Hill were entertained in a most cordial manner at their new home on Clive street, Atlantic. After a thorough inspection of the house by the guests, they were pleasantly entertained by violin solos by Mr. Fred Kolb, piano solos by Miss Erminia Kolb, Miss Bertha Cherrington, Miss Gassett, tenor solos by Mr. William Gassett and contralto solos by Miss Bessie L. Drew. Light refreshments were served during the evening by Misses Florence and Ethel Hill, sisters of the host. Among those present were: Mr. and Mrs. Charles E. Cherrington, Mr and Mrs. Elijah G. Hall, Mr. and Mrs. Henry Von Emden, Mrs. and Mrs. William G. Gassett, Mr. and Mrs. L. A. Bassett, Mr. and Mrs. George W. Hill, Mrs. R. H. Wilde, Mrs. W. F. Cummings, Mrs. S. M. Bennett, Miss Laura Hall, Miss Bertha Cherrington, Miss Corinna Wilde, Miss L. Drew, Miss Mabel Drew, Miss Marcia Wilder, Miss Susie M. Hall, Miss Ermina Koib, Miss Millie Gassett, Miss Florence Gray, Miss Louise Kolk, Miss Florence M. Hill, Miss Ethel G. Hill, Mr. Stephen E. Bennett, Mr. Fred Kolb, Miss Maud Gray. Regrets were received from many who were unable to attend, including Mayor Sears.

BEHIND THE GUN.

But the Prettiest Race in These Waters.

First One Yacht and Then the Other in Lead.

Recruit Finally Beat Duchess 1 Minute, 8 Seconds.

The prettiest race that was ever fought over a Quincy Yacht club course was the one which was sailed for the cup by the Recruit and Duchess on Thursday afternoon. It was a triangular course,—to the Hingham buoy, thence to Peddock's island, thence to stake float, around twice. Distance 12 knots' time limit, three and one half hours.

It was a duel of expert skippers,—Henry Faxon at the Recruit's stick and Charles Mower at the Duchess. It was a lesson in Association tactics from the start to the finish. There were bluffs and counter bluffs, some times they worked and sometimes they didn't. It was a race where every second counted. On Wednesday there were minutes to spare. Yesterday at one time the Recruit would be ahead, then it would be the Duchess. Then there would be skilful maneouverings for the windward place. Sometimes the Recruit would be on the starboard tack and come about and put the Duchess into a hole. All the way over the course the boats, except at the finish were within a few hundred feet of each other. It was the most skilful tiller duel ever seen in these waters, and the pity of it was that it was all for naught, the time of the race being up at 6.30, and the Recruit crossing the line at 6-31-32, just 1 minute and 32 seconds too late.

There was a good S. W. breeze all of the forenoon, but at noon a shower began to pile up in the west. At one o'clock a gentle rain set in. This did not deter the skippers of the Recruit and Duchess from coming down the river from their moorings on time. By half past two the shower had gone over, leaving an easterly wind, rather light, but strong enough to make good windward work for the boats over to the Hingham buoy.

Two Quincy boys sailed on the Duchess,—Walter Hersey and John Endicott.

At 3 o'clock the boats were off; the Recruit having a 10-second lead over her opponent. The Duchess, which is a flyer in light air ovehauled her in a few minutes and passed her. The time at the Hingham buoy:

Duchess	3-35-04
Recruit	3-36-34

After rounding that mark, spinnakers were set and the run to Peddocks began. The Recruit cut down the Duchess lead, the wind having freshened, but the Duchess got around the buoy first. The time:

Duchess	3-56-30
Recruit	3-56-40

Then came the working to the club house, the wind having shifted a couple of points toward the south. The Recruit and Duchess both hugged the Peddock's shore.

The time at the club house

Recruit	4-19-17
Duchess	4-20-19

To the Hingham buoy the Recruit continued to pull ahead. Time:—

Recruit	4-57-57
Duchess	4-40-01

Then the wind began to lighten and this of course was nuts for the Duchess crowd. The time at the Peddock's buoy:

Duchess	5-07 47
Recruit	5-09-33

For an hour both boats hung within 300 feet of this buoy. There was a calm. At about six o'clock a breath of air came from the eastward and began to push the yachts along. First one boat would be ahead and then the other. After considerable coaxing the West Gut was reached. This held both boats up. By skilful tiller manipulation the Recruit suddenly shot ahead. After standing out of the tide over towards Sheep island she reached for home, closely followed by the Duchess.

Notwithstanding the limit had expired, the judges took the time of the boats as they crossed the line.

Recruit	6-31-32
Duchess	6-32-40

The sail will be today at three o'clock over the same triangle.

The Hull Yacht Club's annual water sports will take place off the clubhouse Saturday at 3 P. M. The programme includes canoe race, swimming race, tub race, horse race, water baseball relay swimming race, blindfold dory race, yacht crew gig race (four-oared) and obstacle race. There will be an illumination of cottages, clubhouse and yachts in the evening, and a dance at the clubhouse.

FOR BLASTING.

Liquid Air May be Used in Our Quarries.

The explosive qualities of liquid air when mixed with an organic substance were strikingly shown in the experiments described recently in these columns. According to the Scientific American Supplement, this quality may possibly be utilized commercially, experiments in this direction having been described by Professor Ewing in a paper before the Society of Arts, London, on March 2d: "When liquid air enriched by the evaporation of a large part of its nitrogen, is mixed with powdered charcoal, it forms an explosive comparable in powder to dynamite, and which, like dynamite, can be made to go off violently by using a detonator. To make the explosive, the liquid containing about 40 to 50 per cent. of oxygen is poured on fragments of wood charcoal 2 to 4 cubic millimeters (.0001 to .0002 cubic inch) in size. These are kept from scattering under the ebulition of the liquid by mixing them into a sort of sponge with about one-third of their weight of cotton wool. The liquid which remains is of course, richer in oxygen than that which is originally applied, and, when the mixture is allowed to stand long, all the liquid evaporates and the explosive powder disappears. It must, therefore, be mixed at or near the place where it is to be used. But the cotton wadding, impregnated with coarse charcoal powder, can take up more than enough of the liquid to supply oxygen for its complete, combustion, and when put quickly into thick insultating cases of paper, it retains its full explosive power for 5 or 10 minutes. After an interval, which ranges from 15 to 30 minutes, according to the size of the cartrige, all explosive power is lost. Experiments were made with this explosive on the parade ground at Munich, and a practical test on a large scale has gone on for some months in a charcoal mine at Pensburg not far from Munich. The trials there were continued from July to October of last year, and are claimed to have given very satisfactory results. The chief advantage of the explosive is its cheapness, the coast being simply that of the power used in liquidifying the air. Even the fact that after a short time the mixture ceases to be capable of exploding may be urged as a recommendation in one respect, for if a detonator hangs fire, there is no danger of the charge going off accidentally some time after the explosion is due nor is there any danger of its being purloined or used for criminal purposes.

Arnold Aboretum.

A bit of the tropics may be found at the Arnold Aboretum of the Metropolitan Park system near the South-street entrance, where the ponds are. Although many of the flowers at the Arboretum are on the wane, these little sheets of water are now a-bloom with loveliness. More than forty varieties of plants find their homes there. About the pond nearest the entrance flourishes in a pink profusion the hibiscus, close to it the wild rice rears its delicate strands and sets off the flaming cardinal flower nearby. On the pond itself may be seen waterlilies of many varieties, the great yellow, pink and red hybrids, and there, too, blooms in all its gorgeous beauty the fragrant Egyptian lotus. Here and there are scattered the little water poppies, and on the borders of the pond may be found great clumps of cattails, jewel weed and verbenas. Farther up the path the Arboretum is ablaze with sunflowers of many varieties, and if this exhibition is not as beautiful as the one of roses a short time ago, nevertheless it is an attractive feature of the landscape

Persecution.

Editors of the Daily Ledger:

Will you kindly permit a few lines in your columns to inform the townspeople of the state of affairs at Houghs Neck this season, in regard to the fire company. The old company having resigned their office, the new company of 10 members was formed and appointed by Chief Packard. Since their appointment was made, a system of petty partisanship and unjust criticisms such as entering the engine house and ringing the alarm, setting bonfires, and in one instance, throwing a lighted lantern on the roof of the engine house at midnight, and other dangerous and disgusting acts connived at and supported by the ex-members and their friends until the residents and tenants are almost terrorized. The business at the beach is in jeopardy. The people who pay to secure protection from fire should know the extent to which these persecutions are carried on, and should know that the men they appointed as firemen are being threatened with dire punishment for doing what to them is their duty. TAXPAYER.

—Editor R. S. Barrows, one of the smartable men of Jamaica Plain, is a candidate for the legislature.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Only 80 degrees at noon today.

Labor day a week from next Monday.

The First church is being painted inside.

The School Committee will meet next week.

Reduced prices on shirts waists and wrappers at Miss Hubbard's.

There will be a crowd at Hancock hall at 9 A. M., on Monday.

An interesting letter from Camp Hobson will appear in Saturday's Ledger.

Will it be short lobsters or short of lobsters at the clambake of the Sewer Department?

The Goslin defeated the Jilt and Chinook in the knockabout race at Hull Thursday.

Houghs Neck is the newsy part of the city this week and it is not all confined to the cup races.

Mrs. G. C. Ela and family and Mrs. F. C. Howe of Wollaston are in Livermore Falls, Me., for two weeks.

Alderman Paige should work his points to get an invitation to the banquet of the Sewer Department.

The Board of Health will look out promptly for that nuisance at West Quincy reported in Thursday's Ledger.

An alligator about 2 foot long was found under a barn in the rear of the Adams building Wednesday. He is on exhibition in Cape Cod fish market.

Miss Elizabeth Clarke of Roxbury for many years a resident of Quincy is visiting her cousin, Mrs. Joel S. Young, of Newcomb square.

N. B. Furnald, of the Society for the Prevention of Cruelty to Animals, killed a horse belonging to Jacob Sorgman, a junk peddler, on Thursday.

The missing of a train by a Houghs Neck car on Tuesday evening cost the Quincy Yacht club five dollars. The Oxford Musical club of Salem missed the last train for Salem through a failure to connect at Quincy and had to put up at a Boston hotel at the club's expense.

The Wolaston Auxiliary to the M. V. A. A., has suspended work until further notice. Since the last published account of their work, 26 hospital shirts and 73 comforts bags have been made, 54 of the latter were forwarded through the kindness of the Rev. E. S. Tobey to members of Co. K., who lacked them. Mention should be made of the "faithful few," who stood by to the last in the work and the generosity of Mr. Woodward of the Norfolk Downs Laundry, in laundering shirts free of charge.

Pretty Hard Eating.

Speaking of lobsters recalls a story: There was an old fellow, a good deal of a bore, who used to occasionally worm himself into dinner, where his conversation was not always timely, and not seldom intrusive. One day Blossom had received from New York some very large, fine lobsters, and had served them up to one or two of his friends sitting at his favorite end of the table. Among them came in also our obtrusionist. He had the misfortune to lose all his teeth, except a long eyetooth, that stood sentiel at the corner of his cavernous mouth.

"What is them red things, Blossom?"

"Lobsters," replied the host. "Did you never see a lobster before? They are the finest eating in the world. Try a leg."

Here he gave him a huge claw, and told him to "go to work upon that."

He put one end of it in his mouth and began to mumble it over without making any very great progress.

"How do you like it?" said Blossom who with his friends were ready to split their sides with laughing. They had helped themselves to some other dish, and were waiting for their portion of lobster.

"Can't teli yet," said the other. "How do you eat that thing, anyhow?"

"Oh! eat it right down" said Blossom; "never mind the bones."

By this time the man with his one sharp tooth had succeeded in drilling a hole through to the meat. Having established a suction, as Blossom saw, he asked him again:

"Well, how do you like it now?"

"Wal," he replied, "It's pretty hard eating, but I kinder like the pith on't."

It didn't need the roar that followed this to satisfy the victim that the pith of the whole matter was that he had been badly "sold."

The Herald has slated Senator Hoar for ambassador to England, Secretary Long for the Senate, and Assistant Secretary Allen for Secretary of the Navy. That would please Massachusetts.

Spain's wretched showing in agricultural pursuits is said by the British consul at Cadiz to be due to the use of primitive implements of the time of Julius Caesar.

Mortgagee's Sale.

PURSUANT to the power of sale contained in a certain mortgage deed given by John Wolf of Quincy, in the county of Norfolk and Commonwealth of Massachusetts, dated January 1st, 1895, and recorded with Norfolk Deeds, libro 732, folio 543, and assigned to Charles P. Grimmer, by assignment dated July 30, 1896, recorded with said deeds, libro 766, folio 619, for breach of the conditions of said mortgage deed and for the purpose of foreclosing the same, will be sold at public auction on the premises, on WEDNESDAY, the fourteenth day of September, 1898, at two o'clock in the afternoon, all and singular the premises described in said mortgage deed, and thereby conveyed and therein described as follows:

"A certain lot of land containing 19,900 square feet, more or less, with all the buildings thereon, situated in said Quincy and bounded and described as follows, viz.: Northerly on West street, seventy (70) feet; easterly on land of Edward V. Trask, three hundred (300) feet; southerly on land of the same, seventy five (75) feet; westerly partly on land of one Schneider and partly on land of said Trask, two hundred and fifty (250) feet. Being the same premises conveyed to me by Edward V. Trask, by his deed dated May 23, 1887, and recorded with Norfolk Deeds in Lib. 591, Fol. 551, and the same now subject to a mortgage given by me to A. E. Studley for sixteen hundred dollars, by my deed dated August 8, 1887, and recorded as above in Lib. 594, Fol. 477." Said premises will be sold subject to the above-named mortgage of sixteen hundred dollars and interest thereon, all unpaid taxes, assessments, liens and reservations thereon, if any.

Two hundred dollars ($200) will be required to be paid in cash by the purchaser at the time and place of sale. Other terms will be stated at sale.

CHARLES P. GRIMMER,
Assignee and present holder of said Mortgage.
34 West St., Boston, Aug. 15, 1898.

ON A LONG MARCH.

Fifth Regiment Has an Eventful Day.

Camp Dalton,
Friday, Aug. 26.

Yesterday was a very eventful day for the Fifth Regiment. The night before Dame Rumor had a march in store for the boys, and this time it proved true. After inspection in the morning the order came to prepare. Brown trousers, leggings, blue shirts and campaign hats was the order of dress. Canteens were filled with lunch, consisting of pressed ham and hard tack was carried in haversacks. The start was made at 10.45 with the prospects of bad weather, but after a few rumblings of thunder, and enough rain to lay the dust, the sun came out and remained until sundown.

The line of march led through South Framingham, Sherborn to Brush hill, a distance of about six miles. Crowds of people lined the road through the populated sections, and cooling drinks, fruit and food were passed to the boys as they marched along. At Sherborn a halt was made at the Woman's prison, and the band played several selections.

The destination was reached at abont 1.30 P. M. Here a rest was taken until four o'clock. The boys stacked arms and with the freedom of a large field started in to rest or enjoy themselves.

Upon the return the inmates of the prison were lined up in front of their institution and were enabled to view "the finest regiment in the United States."

A noticeable feature of this part of the march was that there was no disturbance of any sort in the ranks, and a more soldierly, gentlemanly lot of men would be hard to find.

From Sherborn on the return trip a change route was made and West Natick was taken in. Here an incident which can not be forgotten happened. An old veteran of the Civil war stood in front of his cobbler shop with his apron on, and an old army musket held at present arms, until the whole body had passed by. Every one will remember him and his patriotic exhibition.

Camp was reached at seven o'clock. A great many visitors were on hand to greet the boys who as they marched through the gate and on to the field looked more liked a body of veterans of several years under a broiling sun. Every head was erect and every one was in perfect step, and from appearances it would not have been known but what they had only marched a mile or two.

The ambulance followed in the rear but it only contained three men who had just been discharged from the hospital, and were unable to stand the march with their more healthy comrades.

Co. K did its best, and it was remarked all along the route that it was the finest and hardiest looking company in line.

A cooling drink of iced milk and oat meal was ready in K street upon their arrival.

Then the men quickly fell in for their evening meal, and received a surprise in the shape of an old fashioned dinner of boiled corned beef, turnips carrots, cabbage, potatoes, beets and coffee with fresh biscuits. The only fault found was that it tasted so good that too much was eaten. A bath and a good night's sleep was all it took to remove all traces of a hard march.

The canteen was moved yesterday to a position midway between the first and second mess halls just in the rear of the Colonel's tent. A large counter now runs all around the tent and the tables and chairs have been removed.

In this way the help have more room and better service is obtained.

Lieut. Whitney of K Co. acted as officer of the day during the absence of the regiment yesterday.

Sergt. Crane received a wrist watch yesterday, and although it does not bother him as much as Randall's still it keeps him busy.

Mrs. Phillips of Wollaston, wife of Sergt. Phillips, is stopping in South Framingham, and will remain for some time.

Tents were today raised for the cavalry who are to arrive this week. Considerable baggage has already come.

RACING AGAIN.

Unless the Recruit Wins, Another Will be Necessary.

The outlook today is for one of the best races of the whole series. The wind this morning is W. by N. clear and cool with excellent chances of its holding all day from that quarter. In that event the first leg of the triangle will be to the Peddock's buoy.

Fined Twenty Dollars.

Another poor horse succumbered to over-driving at Houghs Neck yesterday. The animal was driven by John F. Duran, a fruit dealer, and he not only had a full load of fruit aboard but four companions. When the team entered Coddington street from City Square it was noticed by an officer that he was all of a lather and likely to give out. Upon the hill near the cemetery the horse stopped and refused to budge and a car load of people were moved to pity at the treatment of the men. They got the horse in motion somehow and was next heard from near the Henry Littlefield farm, where the animal laid down exhausted. About 2 o'clock Constable Furnald took the horse under his care, but he died before morning. The driver was fined $20 in court today.

Firemen's Muster.

The Randolph Veteran Firemen's Association has appointed the following commitee: Henry F. Rooney, Joseph H. Foster, Daniel D. Dennehy, Edward F. Meaney and Luke Mulligan to make arrangements for a muster to be held at Highland Park ball grounds on the afternoon of Sept. 17.

Invitations have been sent to the following companies: Hancocks and Protectors, Brockton; Washington, Brookville; King Phillip, Rockland; Conqueror, South Weymouth; Union, East Braintree; Butcher Boys, South Braintree; Constitution, Hingham.

The committee have arranged for three prizes, $100, $50 and $25. The entrance of the engines will be free, an admission being charged each person at the gate. The entries must be made on or before Sept. 15, to Henry F. Rooney.

Echoes of the War.

The Second Massachusetts is expected at Springfield today.

The War Department has ordered one million rations to be sent to the reconcentrados in Havana.

It is reported that two Maryland girls are to wed Spanish officers who fought under Cervera.

The Second Massachusetts went to the front with 74 men and 3 officers. At roll call Thursday the response was: Company A, 54 men; company B, 48 men; company C, 18 men; company D, 54 men; company E, 25 men; company F, 40 men; company G, 39 men; company H, 34 men; company I, 44 men; company K, 39 men; company L, 34 men; company M, 36 men.

Blanco has issued a valedictory to his dear country of Cuba, advising them to be quiet, and submissive, to the United States..

The Hospital ship Bay State is bringing 101 sick soldiers to Boston.

The Ninth Massachusetts left Santiago Wednesday.

The revenue cutters have been ordered back to their old duties as before the war.

TODAY'S COURT.

Walter F. McLaren of Holbrook for larceny of fruit, continued to Sept. 1.

Cecelia Bemis of Quincy for adultery, continued to Aug. 27.

Michael Haggerty of Quincy, for adultery, contined to Aug. 27.

John F. Duran of Somerville, a peddler, for overdriving a horse to Houghs Neck was fined $20.

Joseph Mable of Quincy for drunkenness, second offence, $7.

Edward G. Fay of Scituate, for drunkenness at Quincy was fined $5.

William Johnson of Randolph for drunkenness, second case, was fined $7.

TO LET.

If you have a vacant tenement, advertise the fact in the Daily Ledger. We are confident it will be let within two months, and to substantiate the claim, we will advertise it

FREE

after two months. To take advantage of this offer payment must be made before the expiration of the two months. A four-line space until your house is let will cost only $5 at the outside. You cannot afford on these terms to let the house continue vacant.

Good Things and Cheap Things.

An American writer, well versed in the ways of women, proposes to bring out a work on popular fallacies. One heading is to be "The Folly of Buying Good Things, and That Cheap Things Are Dear at Any Price." Fashions change so quickly that the writer advocates that it is sheer folly to save up in order to buy one good article instead of investing in cheaper items calculated to last just as long as the fashion will. She urges, as a proof of the wisdom of her theories, that if a gown of expensive material proves unbecoming it has to be worn to the bitter end, whereas a less expensive material could be replaced. This is all very well, but it is not so much the material in our day we pay for as the style, and either the dressmaker or milliner who can bring out at a moderate price the very best class of dressmaking or millinery, made of not too expensive materials, has a fortune awaiting her in these days of rapid changes. Garments that last forever do not meet the wants of the moment. Freshness and variety are what we most need.

American Singers.

In Mme. Marchesi's opera class of ten members for this year there are five American women, from whom much is expected. The Baroness de Reibtnitz of Boston, who is one of them, is the daughter of Mr. Schlesinger, the composer. She has been singing in musicals and concerts in London. Another, Miss Sally Akers of New York, has been heard often at many social functions in Boston. She has been a pupil of Marchesi for two years. Miss Lucy Stephenson of Baltimore expects to sing leading parts in modern operas, and Miss Munschoff from Omaha, after two years' instruction, sang in a concert tour in Germany, but has now returned to finish her musical education. Miss Blanche Sylvana of Philadelphia is being trained for concert work, her forte being German and French songs.—Boston Letter.

The Spirit of the Hour.

A new frame for the picture of the soldier boy may be made at home with a yard each of red, white and blue ribbon, No. 3. Only a glass the size of the picture is required, and ribbon wound around the edges as a frame, interwoven at the corner on the back, hold the photograph in place, and the whole is very pretty on a small easel.

It is quite the fad for the pretty girl to be photographed in a drapery formed by the stars and stripes. This makes her a verifable Columbia and is especially effective if tinted in water colors. As a mascot for her sweetheart in the army or navy it cannot be equaled and is calculated to keep his enthusiasm for the cause right up to the topmost pitch of courage.

Danger In Massage.

A woman who declares that she knows is authority for the statement that a fine growth of hair will eventually appear on the countenance of the woman who seeks beauty in the oiled and perfumed fingers of the masseuse. The latest victim is a stage beauty, who is undergoing the process of electrolysis to remove a visible growth of mustache which threatened to destroy her reputation as a type of American femininity good to look upon. The lily and the rose bloom on the features of the systematically massaged girl evidently nurtures a terrible thorn. — New York Letter.

Recognized Now.

The shops are making preparations for a winter demand of heavy high boots. The dealers say they think that the rainy day dress has passed from the fad into the fact stage and is to be considered respectfully. This must be good tidings for the women who have toiled to bring about the recognition of the dignity of the shorter skirt in time of need. It is interesting, however, that the fashionable shoe dealers who have taken up high heavy shoes for women do not call them "sensible." Their adjective is "mannish." They say they get it from the women themselves.

Empress' Literary Work Delayed.

Owing to the ill health of the empress of Austria, which has been causing anxiety among her friends, she has been obliged to abandon for the present her intention of translating Shakespeare's dramas into modern Greek, a pleasurable task which she had set herself. It is hoped that a rest at Bad Neuheim will soon effect a cure and that her majesty will at no distant date be sufficiently restored to health to attack the arduous though interesting work of translation.

They Are Farmers.

Lady Stella and Lady Dorothea Hope, Lord Hopeton's sisters, have taken a small farm near Edenbridge, in Kent, England, and are starting in farming on their own account. Their special line is the breeding and training of ponies. Both young women are capital "whips" and drive a miniature team of four Shetland ponies. They are also expert veterinarians, and when any of their stock is ill they care for it with good results.

Two on a Chain.

The London Daily News the other day chronicled this incident: "A fashionably dressed lady, attired in white, with a large hat and carrying a varicolored 'en-tout-cas,' was to be seen walking down Parliament street yesterday afternoon with a thin chain around her waist, to the end of the chain being attached a small live monkey, which was holding on to her hip as best it could."

London Lady Photographers.

A few ladies in London have had the enterprise to start in business as photographers. Besides Miss Hughes, there are Mrs. Cameron, Miss Davidson, Mrs. Kate Pragnell, the Misses Gray and some others. Their success might embolden others to begin. The enterprise, however, requires not only courage, but capital.

Political Calender.

The Republican State Committee has issued the following calender, which will be of interest to local politicians :

September 27, 28—On one ot these two dates the republicans of every city and town must hold caucuses for choice of delegates to the State, congressional, councillor, senatorial and county conventions, and except as in hereafter provided, for delegates to representative conventions, and for nomination of candidates for the general court.

September 30—Last day for appointing election officers in cities.

October 1—Last day for assessment in Boston.

October 4, 5—On one of these two dates caucuses for choice of delegates to a representative district convention or for nomination of candidates for the general court may be held.

October 6—10 A. M. Republican State convention at Music Hall, Boston. Registration opens in Boston in the several wards from 6 P. M. to 10 P. M.

October 8—Last day for registrars of voters in every city and town except Boston, to post in each voting precinct preliminary alphabetical list of voters. Last day for designating polling places.

October 10—Last day for holding conventions for nominating candidates to be voted for at large throughout the State, but certificates of nomination of candidates must be filed at the office of the secretary of State by 5 P. M.*

October 13—Earliest day for holding representative conventions.

October 15—Last day for appointing election officers in towns.

October 17—Nomination papers for candidates to be voted for at large throughout the State must be filed at the office of the Secretary of State by 5 P. M.*

October 18—Last day for petitioning for the appointment of supervisors of elections.

October 19—Registration closes in Boston at 10 P. M. Last day for registration in all cities. Upon this day every registry of voters must be kept open from 12 o'clock noon (in Boston from 9 A. M.) until 10 P. M.

October 20—Last day for holding conventions for nominating candidates for State officers not voted for at large throughout the State, but certificates of such nominations must be filed at the office of the secretary of State by 5 P. M.*

October 21—Nomination papers of candidates not voted for at large throughout the State must be filed at the office of the secretary of State by 5 P. M.*

October 25—Last day for filing complaint against incorrect and illegal registration in cities.

October 29—Registration in towns closes at 10 P. M.

November 1—Last day for filing vacancies among election officers.

November 4—Last day for filing complaint against incorrect and illegal registration in towns.

November 8—State election.

*Ojections to nominations must be made within the 72 hours after the last hour for filing nomination papers.

Real Estate Sales.

Seventeen more sales of real estate in Quincy were recorded at the Dedham registry the last week, more than in Weymouth, Braintree, Holbrook, Milton and Hyde Park, together, viz :

Geo. W. Gilbert to Wm. B. Saunders, $3,500.

Henry K. Rowe et al to Chas. J. Anderson, $1.

Gustave B. Bates to Edwd. Norton, $1.

Frank A. Noyes by mtgee. to Arthur D. McClellan, $1,500.

Wm. E. Harmon tr. to Edwd. D. Hale, $1.

Edwd. D. Hale to Freeman W. Grant, $1.

James B. Case tr. to Grace E. Whitten, $1,040.

Edwd. Bryant to Robt. D. Holt, $1.

The News of Beantown.

Boston, Aug. 26.—Lieutenant William Tiffany of Roosevelt's rough riders died yesterday at the Parker House. He was landed on Tuesday from the Olivette. Death was due to typhoid fever, and he sank rapidly after being removed from the ship. Lieutenant Tiffany was 29 years of age, and a member of a number of clubs in New York.

John W. Miller, 5 years old, was drowned while playing about the wharves in East Boston.

Schooner J. H. G. Perkins of Rockland, Captain Spencer, arrived in the harbor yesterday with her cargo of lime on fire. The vessel has been sealed up in the hope of smothering the flames.

After a prolonged session the council of the American Association for the Advancement of Science elected Professor Edward Orton president for 1899. It also fixed upon Columbus, O., as the next place for holding the annual convention. Professor Orton is the state geologist for Ohio, and was born at Deposit, N. Y., March 9, 1829.

Two more sick soldiers were added yesterday to the list of those being treated at the Massachusetts general hospital. One is Daniel M. Garey of Marblehead, company C, Eighth Massachusetts volunteers. He is suffering with heart and head trouble. The other man is Louis Linderman of St. Louis, bandman in the Twenty-second infantry. All the patients at the hospital are doing well.

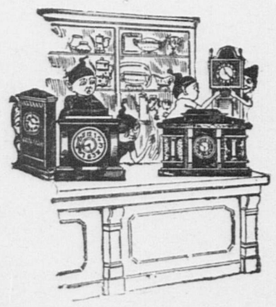

After Quay's Scalp.

Philadelphia, Aug. 26.—The Republican Business Men's league of Pennsylvania held a meeting in this city, and adopted initiative measures in the league's effort to prevent the re-election of Senator M. S. Quay, whose term will expire March 3, 1899. Resolutions were adopted reciting that the machinery of the Republican party in the state is controlled and used by the leaders for selfish and improper ends, and that "only the personal defeat of Senator Quay can destroy his machine."

Giants Wrestled.

Atlantic City, Aug. 26.—While wrestling for the championship belt turned over to Richard K. Fox by Ernest Rober, Herkalides, the "terrible Greek," and the strong Jap, Takezwa, became involved in such a struggle that the former was rendered unconscious. When the match was stopped the Greek was black in the face and was in spasms.

TAYLOR'S PRIDE HURT.

Not Given Prominence Enough In the Official Reports.

Feels That Injustice Was Done the Indiana.

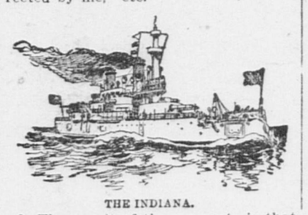

Destruction of Two of the Spanish Vessels Due to Its Gunfire.

Washington, Aug. 26.—Captain H. C. Taylor of the Indiana has a grievance. He considers that an invidious distinction against his vessel was made in the accounts of the engagement with Admiral Cervera's fleet submitted to the naval department, and he has sought redress. The following correspondence with Admiral Sampson explains the situation:

United States Ship Indiana, Guantanamo Bay, Cuba, Aug. 6, 1898.

Admiral—The report of Commodore Schley on the battle of July 3, as published, gives credit in the seventh paragraph to four ships and mentions by name their captains, Philip, Evans, Clark, Cook, and adds: "The dense smoke of the combat shut out from my view the Indiana and Gloucester, but as these vessels were closer to your flagship no doubt their part in the conflict was under your immediate observation."

2—In your report as published you make but slight mention of the Indiana, stating that "the Iowa and Indiana, having done good work, and not having the speed of the other ships, were directed by me," etc.

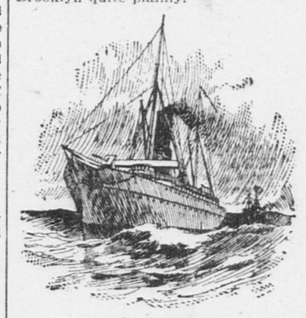

THE INDIANA.

3—The result of these reports is that the captains of all the vessels of the line of battle except the Indiana have received personal mention in the official report before the department, while the two smaller vessels had distinctive mention either from the commander-in-chief, or from the second in command.

4—If the official record should be referred to in future it will appear from its general tone that the Indiana was less deserving than all of her consorts. Leaving out my personal interests in the matter, it is right that I should consider the officers and crew of the ship, and I speak for them as well as for myself when I submit to you, admiral, that the above combination of the report will place the ship, in the opinion of the department and the country, markedly below the vessels of your squadron. I respectfully submit, sir, that this is injustice to the Indiana and her officers and crew.

5—I can say, without disparagement of any other vessels, that during the first hour of the fight, the Indiana's gun fire contributed to the destruction of the Oquendo and Teresa more than that of any vessel of our squadron except one, and equalled hers. I do not know why the second in command failed to observe the Indiana during this period of our hottest fight; I saw the Brooklyn quite plainly.

THE GLOUCESTER.

6—An examination of the reports with reference to the Indiana will, I believe, convince you, sir, that they produce the effect of putting the Indiana below all other vessels of the squadron. If it be your opinion, sir, that this is the case and that all the vessels from the Brooklyn to the Vixen rendered service as much more valuable than the Indiana, as the published report of the commander-in-chief and the second in command taken together would indicate, then I must accept it for myself and the ship; if, on the contrary, that be not your opinion, I urge respectfully that such steps be taken to remedy this injustice as may seem wise to you.

Very respectfully,
H. C. Taylor,
Captain United States Navy.

Sampson's Reply.

United States Ship New York, Guantanamo Bay, Cuba, Aug. 8, 1898.

Sir—I am greatly obliged that you have called my attention to what appears to have been an injustice to your ship, officers and crew for the part which they took in the action of July 3, and also for the very proper manner in which you have presented it. I think, however, that you will agree with me that, in submitting such a report to the secretary of the navy, where so many officers are vitally interested and justly proud of their ship, it is no easy task to do so without apparently bestowing praise unjustly. It requires very careful consideration of the report from every point of view to avoid misunderstanding.

2—The position of ships of the squadron must be carefully considered to fully appreciate what it was possible for each vessel to accomplish under the circumstances in which she was placed. Those that were to the westward of the escaping enemy were certainly better placed for stopping the enemy, and also better placed for delivering their fire than the vessels to the eastward, which was the blockading station of the Indiana.

3—No distribution of the fleet could completely predict and provide against every variation of such a sortie, nor do I consider that any commanding officer deserved credit or blame because the ship under his command was faster or slower than any other ship, or carried heavier or lighter battery; but rather that the commanding officer was blameworthy when he failed to put his ship in the proper place for destroying the enemy just in proportion to the advantage which he possessed in speed, battery or position over his neighbors.

4—Each commanding officer, in my opinion, was personally responsible for the good use which he made of the tools with which he had to work. I certainly did not intend to criticise you, nor to bestow less credit upon the Indiana than was bestowed upon any other ship of the squadron.

5—The fact that the commanding officer of the Indiana was signalled to return to blockade at the mouth of the harbor after she had so gallantly contributed to the destruction of the Spanish ships was only a necessary precaution which the commander-in-chief felt obliged to take to prevent disaster to the large number of transports which were left in that vicinity when the fleet started in pursuit of the enemy. There were still some armed vessels remaining in the harbor of Santiago—at least two, and we did not know then how many more—which could have come out in the absence of the fleet and produced great havoc among the troopships, which were defenseless in the absence of an armed vessel.

6—This explanation, together with your letter, will be sent to the department with the request that it may be attached to and form a part of the original report.

Very respectfully,
W. T. Sampson,
Rear Admiral, United States Navy.
Commander in Chief, United States Naval Force, North Atlantic Station.

COULDN'T HIT CALLAHAN.

Another Pitcher of the Chicagos Who Puzzled the Bostons.

Chicago, Aug. 26.—"Select," shouted the arch-crank with the megaphone voice, "you had a better bunch than this down in Omaha." This suggestion to the Boston manager at the ball game yesterday followed the burial of Willis, and the first ball pitched by Lewis, which went so wild that a runner scored from third. The champions were deep in the hole with the score of 6 to 1 weighting them down, and the game not half ended.

Chicago had them going after the third inning, and a crowd of unusual size for the middle of the week boisterously checked off the score from all over the field. This was Willis' third bad start here. Callahan was equipped to pitch against Nichols himself. His support was perfect up to the ninth, when McCormick made an excusable error, the traces of which were wiped out in a double play. Score:

Chicagoes.	AB	R	1B	PO	A	E
Ryan, l. f.	5	2	2	2	0	0
Green, r. f.	4	0	1	5	0	0
McCormick, 3 b.	4	0	1	2	4	0
Dahlen, s. s.	4	1	1	2	4	0
Everett, 1 b.	3	1	0	10	0	0
Lange, c. f.	3	0	1	1	0	0
Connor, 2 b.	4	1	1	2	1	0
Chance, c.	4	1	1	2	2	0
Callahan, p.	4	3	3	1	1	0
Totals	35	9	11	27	12	0

Bostons.	AB	R	1B	PO	A	E

Lewis, p.	2	0	1	1	1	0
Totals	32	2	7	24	12	3

Chicagoes .....0 0 2 4 1 1 0 1 —9
Bostons .....0 0 0 1 0 0 0 1 0—2

Earned runs—Chicagoes, 5; Bostons, 2. Left on bases—Chicagoes, 6; Bostons, 3. Two-base hits—Ryan, Lewis. Three-base hits—Ryan, Callahan, 2. Sacrifice hit—Lange. Balk—Willis. Stolen bases—Green, McCormick, Lange, Hamilton. Double play—Dahlen, Connor and Everett. Struck out—By Callahan, 1; by Willis, 2. Passed ball—Bergen. Base on balls—Off Willis, 1; off Lewis, 1. Wild pitch—Lewis. Hit by ball—Green. Time—1:40. Umpires—McDonald and O'Day.

The Washingtons lost a dull, listless game in St. Louis. Weyhing was hit hard, and he received miserable support. Sudhoff was also hit hard.

Powell of the Clevelands was in great form Thursday. He held the New Yorks down to one hit and shut them out. The game was characterized by sharp work on both sides.

Maul of the Baltimores was a puzzle for the Cincinnatis, while Breitenstein and Damman were hit hard. Score: 14 to 1.

The Louisvilles and the Phillies played two games yesterday. The Quakers won the first game by good batting. The Louisville team made enough runs in the first inning to win the second game, which was called on account of darkness.

The Springfields defeated the Ottawas in a quick, snappy game in spite of the fact that Doescher gave Ottawa a run in the seventh inning by an erroneous decision. Score: 4 to 3.

Dunn of the Brooklyns was knocked out in the second inning, and the Pittsburgs made one run off his sussessor, winning, however, by 5 to 1.

A majority of the board of directors of the National league have wired President Young authority to re-consider the former action and to annul Holmes' suspension. This was done, and proper notices were sent to the interested parties. The only action now to be taken to close the case is for the Baltimore manager to request payment of the fine in lieu of the gate receipts from the forfeited game in New York.

The Providence-Syracuse game was characterized by a wrangle which resulted in the umpire awarding it to the Rhode Island team, Captain Smith refusing to go on, though urged by the club's owner.

Mr. Bayard Ill.

Dedham, Mass., Aug. 26.—Thomas F. Bayard, former ambassador to England, who is ill at the home of his daughter, Mrs. S. D. Warren, at Karlstein, is reported to be in a more serious state, as the result of the changeable weather and heat. Considerable anxiety is felt over his condition, which, however, is not yet critical.

The Magic of a Word.

A party of gentlemen but recently returned from a metropolitan city tell a new story on the leisurely bellboy. They were stopping at a big hotel, and on the first evening of their visit were seized with a mighty thirst, but which they believed plain ice water would assuage. One of them stepped to the bell-push. It was one of those new fangled things built on the principle of a dollar typewriter. You turn the hand around the dial till it points to what you want, then you press the button, and the business office is supposed to do the rest. The instrument was caused to register ice water a number of times in the regions below, but there was no response. The thirst kept on increasing and the gentlemen got hot in the collar. One of them spoke of going down and challenging the clerk and the bellboys to a boxing match.

"No, don't do that," remarked one of the gentlemen. "Just watch me—I'll bet I'll get 'em."

He pranced over to the bell, yanked the crank around to "champagne" and let it drive. In an incredibly short time there was a knock at the door, and the boy stuck his head in.

"Champagne, gentlemen?"

"No, just bring us some plain, everyday, common water with ice in it. We rang for champagne just to catch you napping. Now get a move on you."—Galveston News.

Shore Cargoes Shifted.

"Once in awhile we read," said Mr. Bozzle, "that the ship So-and-so or the steamer So-and-so has returned to port, or has arrived perhaps with 'a decided list; cargo shifted.' Sometimes we see a land craft, a truck, with cargo shifted—a big pile of boxes, towering high, shaken over to one side or the other by continued jolting along on the side of the street on the slope.

"A load thus shifted can't be shaken back by running along on the opposite slope of the road. It is like a stick of wood that has been bent and kept bent till the grain is set. Whatever you do with it the crook stays in.

"If care is exercised in turning corners and in navigating generally, the shifted load can usually be carried to its destination as it is without upsetting, though it may work harder. The experienced truckman knows just what can be done with it, and whether it has shifted as far as it will go, and all that. If it is so badly shifted as to make the operation of the truck difficult or dangerous, he hauls to one side by the curb and anchors—that is to say, he halts and unloads the shifted top courses of his cargo and then reloads and makes everything trim and secure and sets out again."—New York Sun.

Practical, but Cold Blooded.

I have a friend here in town, a young business woman, whose common sense is enough to make one's blood run cold at times. I went to see her new flat a few days ago, and I was delighted with a cushioned divan in one corner of her sitting room. It was, as many divans that belong to young business women are, a box with a hinged lid, but as it had handles on it and was bound with iron bands and was altogether so much stronger and more desirable than divan boxes usually are, I asked her where she bought it.

"I didn't buy it," said she. "It was given to me. You know the woman where I boarded last year came into a lot of money through the death of her grandfather. The old gentleman died in Florida, and the remains were sent here. They were in a mahogany coffin, and the coffin—well"—and she kicked the divan with her heels—"the coffin was in this. I didn't see any reason for letting the box go to waste, and it makes a lovely couch. Don't you think so?"

And of course it does, but then—after all, it's well to be practical like that.—Washington Post.

Little Marble Imported Now.

The importation of marble to the United States has almost ceased. It is only now and then that a cargo arrives at this port, while a few years ago a fleet of sailing vessels brought many cargoes annually from the famous Carrara quarries in Italy to Philadelphia. Marble buildings seem to be becoming things of the past, and the tombstone makers find little demand for marble tombs, slabs or monuments. Granite has taken the place of marble everywhere, even in the cemeteries, where marble shafts and slabs were formerly the only proper things. Granite, unlike marble, does not require very frequent cleaning and looks well without being touched up for years. It also admits of a high polish and does not show the marks of rust by contact with metal, as marble does.—Philadelphia Record.

At the School Picnic.

Lady Helper (to small boy)—Will you have some more bread and butter?

Small Boy—No fear when there's kike about.

Lady Helper (trying to be kind)—Cake? Certainly! Will you have plum or seed?

Small Boy—Plum, in course. D'ye tike me for a canary?—London Punch.

Pride.

"No, George, don't ask me. I can't go down the fire escape with all those people looking."

"You must. You'll be burned to death if you stay here."

"I can't help it, George. I wouldn't go down that ladder for all the world. These shoes I have on are two sizes too big for me."—Cleveland Plain Dealer.

An Economical Man.

Doctor—I left you a dozen pills and told you to take one every two hours, and yet there are 11 left. You didn't obey my orders.

Patient—Yes, I did, doctor. I took the same pill every time. There wasn't any use in wasting a new pill as long as I couldn't swallow the first one.—Vim.

ALL DAY OCEAN EXCURSION

STEAMER LEWISTON,

ALONG THE NORTH SHORE

— TO —

ISLES OF SHOALS.

FARE, 75c. ROUND TRIP.

MAJOR CLARK'S ORCHESTRA

Leaves Commercial Wharf every day, weather permitting, at 10 A. M.

Special rates to parties.

A hurdy gurdy and games pleased the little ones during the afternoon, after which refreshments were served. Master Hayden was the recipient of numerous presents from his friends and playmates, of whom the following were present: Viola Hayden, Pearl Hayden, Helen Fitzpatrick, Julia Hayden, Ella May Melville, Etta Thurber, Elmore Thurber, Estella Porter, Winifred Hayden, Clarence Federhen, Sherman Hayden, Thomas Conrad, Irvin Hayden, Harold Hayden, Carlton McNeil, Willie Cain, Willie Hayden, Daniel McNeil, David Melville, Bertie Spencer, Mrs. Laura Brock, Mrs. A. A. Hayden, Mrs. Fred Borden, Mrs. Herbert Hayden, Mrs. May Porter, Mrs. George Thurber, Mrs. Walter Hayden.

* * *

Miss Ada I. Wills of this city left for Council Bluff, Ia., Thursday to visit her brother Mr. J. H. Wills formerly of this city.

HOUGHS NECK.

Mrs. J. H. Neill and sons and Mrs. G. W. Wyman and sons of Medford, are spending their vacation at the beach.

Mrs Frank E. Hill and daughters of Brockton are to spend the next two weeks here.

Mrs. Joseph Crowther of Milford is at Houghs Neck.

Miss Minnie Gilmour has returned to her home at West Medford after a pleasant stop the Aurora cottage.

James Bucknam has returned to his home in Avon.

Mrs. Jennie T. Tibbetts of Mansfied with her son Ernest, is spending two weeks at the beach.

Loring G. Littlefield and family have returned to their home in Avon.

Keith's Theatre.

The week of August 29 the programme at Keith's will include the customary number of comedy, acrobatic, juggling, dancing and singing specialities for which this amusement resort is famous. Leo Dervalto will furnish the principal novelty, ascending to the flies on a spiral incline while standing on a revolving ball, and making the descent in the same manner. The act looks very risky but Mr. Dervalto seems to enjoy his work. McInryre and Heath, the popular blackface comedians, will appear in another of their laughable sketches of southern life; Lavender and Tomson, in a juvenile sketch; the Symphoney Players will perform a new programme of popular music, with a change of soloist, and there will be several interesting pictures in the biograph.

TODAY'S COURT.

Jennie Newton of Houghs Neck for drunkenness, was released.

The adultery cases against Michael Haggerty and Cecelia Bemis of Quincy were heard this morning, the defendants being represented by Lawyer McAnarny and the government by Lawyer Pattee.

THE ILLUMINATION.

Houghs Neck Gala Day to Surpass All Others.

Another meeting of the illumination committees at Houghs Neck was held last evening, and the indications are that the annual gala day on Wednesday next will surpass all previous efforts. The only hitch is on subscriptions, but the time has been short and the Subscription committee has not been able to see quite a number of the cottagers. It is hoped that no one will wait to be invited, but that all will realize that the money is needed to carry out successfully the long and entertaining programme arranged, and that the response will be prompt, cheerful and generous. The fireworks in particular cost money and the expenditure and display will depend upon the subscriptions.

The programme will include sailing parties from 10 to 2, ice cream from 11 to 2, field sports near the corner of Bell street and Centre road, water sports in Silver springs at 3 P. M. Punch and Judy shows from 11 to 5, concerts afternoon and evening by the National Guard band, base ball for a purse of $20 at 3.30 between the Jordan Marsh & Co. club and the Tubular Rivet & Stud A. A., fireworks and a general illumination in the evening.

The Executive and Subscription committees, which were mixed on the flyers, are:

Executive Committee,—John Cavanagh, chairman; A. H. Taber, secretary; W. W. Wilcox, treasurer; A. A. Meyers, W. H. Shaw, T. Downey, Jr., and A. H. Dunham.

Subscription Committee.—A. Dunham, chairman; J. L. Harvey, James Cavanagh, Henry Pierce, B. H. Bartlett, B. F. Macomber, William Costello, W. H. Cavanagh, William Slawnwhite, A. Braley, Frank Morse, John Milton.

A DIFFERENCE.

Co. K. Boys Envy the Cavalry Their Comforts.

Camp Dalton,
Saturday, Aug. 27.

The boys of the Fifth were a little stiff and lame after their march of Thursday. After a little exercise, however, yesterday, all of it had passed away.

The pay rolls were completed and signed yesterday. This time it will be for one month which will amount to $15.60 for privates. Relations and friends to whom the pay given by the State was signed, received their amount this week. This money in a great many cases comes in handy as it comes regularly. It helps a great deal.

The sergeants and cooks of the Horse Guards arrived yesterday and were busy all day getting things in shape for the arrival of the troops today.

There is a vast difference between the two camps. In the Volunteers you see bare floors, no chests, shelves, or boxes, and everything plain. In the cavalry you see chests, mattresses, boxes and shelves galore.

The cavalry boys not being accustomed to the rough style of living would be badly used up were they to come down to hard pan at once. They will all be in camp by 12 o'clock today.

The general health of the regiment is good. There are a few slight colds caused by the great changes in weather.

It is impossible to find out anything definite regarding the future of the Fifth, as the War department is in such an unsettled state that it presumably has not time to think of a well equipped and well cared for regiment up north here. Every one seems to be as anxious as the boys themselves, and want the suspense to end soon.

Major Morrison has charge of the court and from the sizes of some of the fines, it don't seem probable that as many will run away next pay day.

Corporal Mathews of Co. K has been appointed as substitute Hospital steward and puts in two days a week under the eyes of the surgeons. He is fast acquiring a knowledge of the business and is now called "Dr." by the boys.

Evening parade was held before supper last evening, as for the past few nights it has been dark earlier than usual. The boys will have more time to themselves hereafter under this rule. MACK.

WEYMOUTH.

The First Universalist church has extended a call to Rev. Mr. Marvin of Roxbury.

—The tax rate of Plymouth is $17.20.

NOBODY COMPLAINED.

Line of Defense Adopted by the War Bureau People.

Decline to Be Held Accountable For Situation.

Fearful That Stories of Suffering May Discredit the Army.

Washington, Aug. 27.—Notwithstanding the columns which have appeared in the press, Adjutant General Corbin says that no complaint has reached the war department from major general, brigadier general, colonel or men of the army regarding want, or destitution, or lack of supplies for the care of the troops. No demand has been made for supplies other than the regular requisitions for troops in the routine way. General Corbin declined to be interviewed on the subject of the many stories afloat regarding the mismanagement of the war, saying that the facts will come out in due time and the people will see for themselves what was done.

The whole department is greatly stirred over the newspaper accounts of what has been going on. Apparently each head of a bureau believes that an investigation of the subject will vindicate him and his department. The officers say that the reports have been exaggerated, but if there has been suffering further than the incidents of war naturally would bring about, the fault has not been with the department.

One of the complaints made was in regard to the Eighth New York in Chickamauga. It is stated that General Boynton, in command at Chickamauga, has been ordered to make a thorough and complete investigation of the hospitals at that place, to ascertain how the men have fared, and report all the facts. If there has been any shortcoming, he is instructed to ascertain who is responsible and to include the names of those found faulty in his report.

Officers at the war department deprecate the manner in which complaints have been made, on the ground that the whole matter will discredit the American army and have a bad effect on discipline. The soldiers, they say, will be made to believe that they have been badly treated; that they are being imposed upon, and at some juncture it may result in mutiny and insubordination, for the reason that the troops, in case of some order which seems especially hard, will take matters into their own hands, claiming the people are with them. It is claimed that if the stories are all true it will indicate that the American army is of really little account and cannot bear hardship.

"War is a tragedy from one end to the other," said a prominent officer of the department. "There were some people who thought it was a picnic, and that the trip to Cuba was to be a holiday time. No man who knew anything about the climate, difficulties and the trials which would have to be undergone felt that way. They expected hardship, expected that the troops would enter the portals of danger and death, and would have to face bullets and fever. It is only wonderful that we have got off so easily. Our losses are less than was expected when the war began."

Alger Found No Justification.

New York, Aug. 27.—After Secretary Alger had declared his inability to see any justification for the talk about the situation at Montauk, he was asked: "How do you account for the confusion and lack of facilities at Camp Wikoff?"

To this General Alger replied: "Did you ever go into camp with 100 or even 50 men? If so, you know there is much confusion with that number of men. What do you suppose it must be then with thousands? To a person who knows but little about soldiering there may appear to be much confusion and privation, but it is only what is to be expected in roughing it. On many occasions I myself have been in camp and have encountered these things. I found many soldiers lying with nothing but a blanket between them and the ground. Still there were thousands of bags in camp. I asked the men why they did not fill the bags with straw, of which there was a large quantity in camp, and so make beds for themselves. They said they had not thought of such a thing."

"Then," the secretary was asked again, "you cannot see that there is justification in the complaints which have been made?"

"None," he replied. "If there was any lack of medicines or necessary supplies, the blame would be on those whose duty it was to order these things. The first day I went through the detention hospital and later the general hospital, and I talked with nearly every man who was awake. I said to all of them, 'Boys, is there anything you want?' They all answered: 'Nothing; we are quite comfortable.' A few of the men had no cots, but this was soon remedied. There are some few sick men, but there is no yellow fever. There is some typhoid. I saw some men there as yellow as any paint you ever saw, and nothing remained of them but skin and bones."

Talking of the Chickamauga camp, Secretary Alger said affairs were not in perfect condition there, but to the best of his knowledge the only men now there are those who are too ill to be moved. "Camp Wikoff," continued Secretary Alger, "is the most beautiful place I have ever seen; the air is the finest that was ever breathed. It is like being at sea, only you don't get the rocking. President McKinley telegraphed me today that he would come to Camp Wikoff at any time convenient to the camp officers. That will probably be next week."

Concluding, he said: "Of course I do not claim that Camp Wikoff is the Fifth Avenue hotel, or the Waldorf, but the men are as comfortable as they can be made, and as for supplies there will be plenty of everything."

Hero of Manila.

New York, Aug. 27.—When Admiral Dewey sank the Spanish fleet at Manila the American Mail Steamship company was building four steamships for service between New York and Cuba. It was decided that the largest vessel be named the Admiral Dewey in honor of the hero of Manila. President R. A. C. Smith of the company has received the following cable from Admiral Dewey: "Please accept my hearty thanks for the great honor paid me and my best wishes for the success of your steamer."

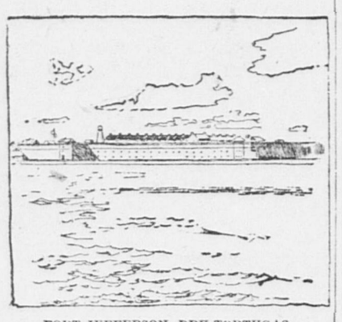

Now It's Pneumonia.

New York, Aug. 26.—The grounding of the auxiliary cruiser, Prairie, created some excitement in the camp at Montauk yesterday. At first it was believed she was in a bad way and that those on board were in danger. Later, when news came that she was in no danger, things quieted down. The rough riders were ordered to sent a detail to the scene of the wreck, and the way the troopers went out of camp showed what manner of men they are. Rough riders who had been dragging themselves about the camp seemingly hardly able to get around, mounted and wanted to form a part of the detail. Those selected to go went off toward Amagansett like a whirlwind. As they swung out of the camp they were going at the very highest speed their horses were capable of and they could not have gone faster nor in better style if their own lives depended upon it. The men who went were those least sick and who had been longing for something more exciting to do than the rounding up of horses, camp patrol and police work.

A lot more hospital supplies were received last night and are being distributed. Cots are also on the way. They are badly needed. Pneumonia is just now believed to be the camp's greatest danger.

Hard to Diagnose Yellow Fever.

Washington, Aug. 27.—Dr. Wyman surgeon general of the marine hospital service, has received official information that a case of suspected yellow fever exists at the artillery post in Fort Point, near Galveston. A difference of opinion as to whether the case is yellow fever exists among the physicians, the marine hospital surgeon believing it is, and the Galveston health officer taking a contrary view. The strictest isolation of the case will be enforced until the true character of the disease is disclosed.

FORT JEFFERSON, DRY TORTUGAS.

A telegram from Dry Tortugas states that the Vivina, just arrived there from Havana, has four suspicious cases of yellow fever on board. The vessel has been quarantined. These isolated cases, Dr. Wyman says, are easily handled, and he expresses no fear that the disease will spread. The utmost precautions are being taken in all directions to prevent yellow fever getting a foothold in the United States.

All Looked Tired.

Boston, Aug. 27.—The first section of the train bearing the main portion of the First Maine regiment arrived in this city from Chickamauga yesterday afternoon. The other sections followed quickly. After the soldiers had been fed, their train started for Maine.

All the men looked tired and worn with the long trip from the south, a greater portion of which was made amid torrid conditions. The regiment left Camp Thomas at 6 o'clock Tuesday morning, and, with the temperature at 102, marched 14 miles to Ringold, where the cars were taken. Instead of coming directly north, a long detour was made through Atlanta, Augusta and South Carolina. There was an exasperating delay of six hours in New York, and another at New Haven.

Germany Talks Bluntly.

Washington, Aug. 27.—Ex-Secretary Sherman has created a great deal of comment by stating that the persons responsible for the mismanagement of the army at Santiago should be impeached. In his interview he said: "I do not see how there can be any mistake or misrepresentation as to the condition of affairs among our soldiers in Santiago or in the camps. The official reports, the statements of responsible officers and of the men who suffered in that campaign are all to the same effect, that there was horrible suffering and great loss of life resulting from inadequate provision for the care of the sick and wounded, and that suitable food was not provided for those whose condition of health would not admit of their eating army rations. They were short of medicines and suitable food, and did not have surgeons enough to perform the service which the condition of the army demanded."

An Efficient Government.

London, Aug. 27.—The Manila correspondent of The Times says: "The military government is working efficiently in all departments. Local business is being actively resumed, the waterworks is in operation and the Pasig river is open. Stringent measures have been taken to insure the sanitation of the citadel, which is crowded with prisoners. The abominably filthy condition of the Spanish barracks is a menace to the general health, which at present, however, is excellent. Among the American troops there have been only 71 deaths from illness since landing. Twenty-three thousand stands of arms, 10,000,000 cartridges and an immense quantity of large ammunition have been surrendered with nearly 15,000 prisoners."

The Peace Commission.

London, Aug. 27.—The Times this morning, referring editorially to the American peace commission, says: "The commission is strong in personnel and in policy, and must be taken to represent President McKinley's concurrence in the inclination of the Republican party towards a policy of colonial expansion. The nomination of Mr. White may be due to the president's resolve not to ignore the interests and susceptibilities of the church of Rome in the final settlement of the Philippines.

"If it be true that President McKinley is, as he seems to be, resolved to hold something more than Manila, the logic of the situation will probably lead him in the end to the occupation of the whole archipelago. However, bereft of Manila the Philippines would obviously be nothing but a costly burden which Spain would soon probably attempt to relieve herself of in a manner little acceptable to the United States, especially looking to the immense war bills Spain has to pay and the absolute necessity for retrenchment."

Complaint of Spaniards.

London, Aug. 28.—The Madrid correspondent of The Daily Mail says the officers and soldiers who have returned from Santiago bitterly accuse the Americans of unfulfilled promises made at the time of the capitulation of Santiago. The Americans, they say, forced the Spanish troops to encamp on a spot where hundreds of corpses of the Spanish defenders of El Caney were buried. The rains almost unearthed the bodies, the stench from which produced an epidemic. The Americans, the Spaniards assert, kept the latter without food, and the officers received only tinned sardines. Most of them returned seriously ill from the effects of prolonged hunger.

Kites Went High.

Blue Hill, Mass., Aug. 27.—The world's record for high kite flight was broken at Mr. Rotch's observatory by Messrs. Clayton and Furguson, who dispatched a tandem of kites into the air, until the highest one reached an altitude of 12,124 feet above the sea level, a height 277 feet greater than any kite has reached heretofore.

The top kite was of the Lamson ribbed pattern, and had an area of 71 square feet. The other kites were the modified Hardgrave box variety, and had a combined area of 149 square feet. All the kites were fitted with self-regulating, elastic bridles to prevent the kites exerting a dangerous pull. Five miles of line, weighing 75 pounds, were let out, while the weight of the kites, recording instruments, and secondary line was 37 pounds, making a total of 112 pounds lifted into the air.

The ascent was begun at 11 o'clock, and the highest point was reached at 4:15 p. m. At the highest point, the temperature was 38 degrees, and the wind velocity 32 miles an hour. At the ground, at the same time, the temperature was 75, and the wind velocity 32 miles an hour. The highest wind velocity was 40 miles an hour, at a height of 11,000 feet. The wind on the ground at this time was from the west, while at the highest point reached by the kites it was southwest.

Reprieve For a Murderer.

Norfolk, Aug. 27.—John Anderson, who was to have been hanged Friday for the murder of Mate Saunders of the Olive Pecker on the high seas in 1897, has been granted another lease of life by Judge Waddill of the United States district court. P. J. Morris and Hugh C. Miller, without the knowledge of Anderson, applied for a writ of habeas corpus with the object of staying the execution. Morris was originally Anderson's attorney, but District Judge Hughes refused to appoint him because he represented some of the accused with Anderson. The contention was that Judge Hughes erred in not allowing Anderson to select his own counsel. Judge Waddill denied the application, but an appeal to the supreme court was granted to be heard Oct. 12.

Anderson was in his cell with his spiritual advisers, ready to march to the gallows, when someone shouted from the window that the judge had granted a stay. Anderson broke down and expressed regret that the end would be delayed.

The News of Beantown.

Boston, Aug. 27.—Myra Childs, a Boston and Albany brakeman, had his skull fractured while uncoupling cars and died in a hospital. He lived in Framingham, and left a widow and one child.

Patrick Mahoney, aged 6 years, was crushed to death under an ice cart.

The injured firemen are reported in about the same condition, except four, who were allowed to leave the hospital and go home.

There were two more deaths yesterday among the sick soldiers, who were landed last Tuesday, making, with Lieutenant Tiffany, four in all, since the steamer arrived. Arthur M. Messiter of the Seventy-first New York died at the city hospital, and an hour later William Parish of company C, Twentieth infantry, died at the Massachusetts general hospital from the Cuban fever. Parish came from Muncie, Ind.

Two Boys Hurt.

Pawtucket, Aug. 27.—Charles Evans of South Attleboro and George Whipple of this city, aged 18 and 17 years respectively, were injured by the fall of an elevator in the building occupied by the Atwood-Crawford company. They had loaded the elevator quite heavily in the basement and started for the upper floors. When nearing the third story one of the boys accidentally placed a stick in the running gear, breaking several teeth, which caused the elevator to go to the basement at a rapid speed. The flesh was torn of Evans' left arm and Whipple sustained a sprained ankle.

Keeping Things Dark.

Quebec, Aug. 27.—The story of the arbitration commissioners' proceedings yesterday is the same as the story of Thursday, the same as the story of each day's proceedings will be if their plan of silence is carried out. They are at work. They say they are making progress. They declare that developments thus far indicate that the questions which they have undertaken to settle eventually will be settled, and that better and more equitable relations than ever will finally exist between the United States and Canada.

Miners Burned Badly.

Danville, Ills., Aug. 27.—A. H. Bonnett's mine took fire yesterday while 18 men were in the mine. Many of them were badly burned, and some will die. The men were taken out through an air shaft. About 25,000 tons of coal ready to be hoisted were burned, together with the main shaft, and a number of mules and horses. The mine is practically ruined.

Beaten by a Horse.

Worcester, Aug. 27.—The cycle races here were attended by about 1000 persons yesterday. The feature of the meet was a mile race, best two in three, between J. J. Casey, a local professional, and the stallion, Benton M, 2:10. The horse won in two straight heats.

SHOTS SAVED WOMAN

But They Brought About Her Husband's Death.

Nephew of the Fugitive Was Her Protector.

Discharged a Rifle With No Intention of Inflicting Injury.

Plymouth, Aug. 27.—Word reached here last night of the death in a Boston hospital of James Watson, a farmer and boat builder, who lived on Clark's island. The cause of his taking off was wounds inflicted, apparently without intent, by J. F. Bolton, Jr., a Boston draughtsman, whose wife was Watson's aunt.

Young Bolton and his mother, who is a sister of Mrs. Watson, were visiting on the island, which lies in the bay about three miles from Plymouth, at a house only a short distance from the Watsons. Watson arrived home at noon, and told his wife to get him some breakfast. Mrs. Watson, who was in bed at the time, asked him to wait a moment. The reply seemed to enrage him, for he dragged her from the bed to the floor and jumped on her, threatening all the time to kill her. He was so violent that the woman finally rushed from the house, calling for help. Watson grabbed a club and started after her across the field with the apparent determination of carrying out his threat to end her life.

Mrs. Bolton heard her sister's cries and called to Joseph, saying: "James is trying to kill Aunt Marion." Bolton picked up a 22-caliber rifle which was in the house, fired two shots at Watson, not, however, as he said afterwards, with the intention of hitting him, but merely to stop or frighten him. One of the bullets struck Watson in the thigh, while the other entered the abdomen. Watson fell, but recovered himself and was able to reach his own home without assistance. Bolton, directly after the shooting, came across to Plymouth for medical aid, and took Dr. Hull, the medical examiner, back to the island. Dr. Hull decided that the wounds were of a most serious character and ordered Watson to Boston for treatment.

The wounded man was carried to the train in a catboat, and on the way over he told Dr. Hull that it was his own temper that caused the whole affair, and that Bolton was a good boy.

The police learned of the shooting late in the afternoon and Chief Goddard went to the island and arrested Bolton. The young man was very composed, and went to the police station with the officers without showing any emotion. Considerable sympathy is expressed for him, as he is quite well known here.

Watson was 60 years old, and bore the reputation of a man with a bad temper. He was a brother of Captain Nat Watson, the well-known yacht skipper.

Knockout Drops to Her Mother.

Boston, Aug. 27.—Mabel Beatty is a pretty and progressive miss, who resides on Kneeland street with her widowed mother. Her mother has strict ideas as to the proper hours for girls to keep, and insists on Mabel being at home not later than 10 o'clock. Thursday night Mabel had an engagement for 12 o'clock, the keeping of which was incompatible with her mother's rule; so Mabel gave her mother knockout drops and kept the engagement.

The engagement led her to a house of questionable repute, which is sometimes visited by station four officers. Thursday night was one of those selected for the purpose, and Mabel and her companion were given a ride to the Lagrange street station. There Mabel weepingly beseeched the officers to send for her mother.

In court the story of Mabel's strategy in escaping from her mother and her arrest was brought out. She claimed she was ignorant of the character of the house in which she was arrested. Judge Adams took pity on her mother, and placed the case on probation.

Did Weeks Tell the Truth?

Boston, Aug. 27.—In the Brookline municipal court yesterday an inquest was begun into the killing of John O'Sullivan, who was shot Saturday night in the stable of Dr. H. R. Steadman, on South street, by Special Officer Frederick Weeks.

Assistant District Attorney R. O. Shultz brought out considerable testimony, which gave the case a somewhat different light than when it first became public. The marks on the face of Weeks, which were at first supposed to have been caused by the knife found in the hand of the dead man, proved upon testimony to be merely scratches, and some doubts were entertained as to any of the marks on Weeks' body being caused by the knife.

Rift In Fall River's Cloud.

Fall River, Aug. 27.—Cloth is firm at 2 cents, with business good on both odds and regulars. Against a weekly production of 260,000 pieces were the sales this week of between 350,000 and 400,000 pieces, mostly for September and October. These evidences, coupled with the curtailment movement, look to an early reduction and possible wiping out of the surplus, following which prices would be expected to improve, which might mean a rise in wages and realization of dividends.

They Exchanged Wives.

Boston, Aug. 27.—Judge Adams had one queer case before him yesterday in the municipal court—one of swapping wives. The male defendants, Neapolitans named Spivano and Otto, came here a few months ago with two women whom they called their wives and took up a residence on North street. A week ago Otto told a countryman they had exchanged wives, and the arrest of the quartet followed. They were sent to the grand jury.

A Pacing Wonder.

Cortland, N. Y., Aug. 27.—Marion Mills, a guideless pacing mare, stumbled and fell on the track of the Cortland County agricultural society Friday, and is believed to have concussion of the brain. She was unable to move after falling, and it is believed she will not recover.

Make Home Attractive.

This may be done at our store at a cost that will surprise you. In years gone by it required a fortune to furnish a home, even comfortably, but now ordinary circumstances will permit of luxurious furnishings. This fact will be revealed to you upon visiting our store. . . . . .

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead."

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

HANCOCK STREET, - - QUINCY.

THE SPORTING WORLD.

John C. Irwin of Jersey Shore, Pa., is an enthusiastic wheelman and named his boy Bicycle John. The boy is 2½ years old and is known as the Mite. When the Mite grew large enough to fall out of his crib and make voyages of discovery on his hands and knees, his farseeing father designed a bicycle for him in lieu of a baby carriage. When the Mite is not training on it, his father can carry it on his watch chain for a charm. Here are the dimensions: Wheels, 12 inches in diameter; tires, 1½ inches; weight, 7 ounces; frame,

BICYCLE JOHN IRWIN.

9 inches; barrel hubs turned from solid bar steel; head, 1 inch tubing; rear forks, lower three-eighths of an inch; upper three-quarters of an inch; steering head, 2½ inches; tread, 2 inches; handle bars, 9 inches between centers; total weight, 6 pounds.

It is a strictly up to date wheel except as to size. It cost $75 and was necessarily made to order. It took four months to construct it, as special tubing, tools, bearings, etc., were necessary. It is geared to 28, and the mechanism is as perfect as that of a Swiss chronometer.

Two months ago the Mite began his track work. He is quick witted and very apt. Indeed he took to cycling as most youngsters do to mud pie making. The little fellow already has something of a track record at home, and Jimmy Michael shows much interest in his welfare.

Cyclists' Sore Throat.

"After a 'spin' along a more or less dusty road the cyclist sometimes experiences a dry and subsequently sore and inflamed throat," says the London Lancet. "Headache and depression often follow, and the symptoms generally simulate poisoning of some kind. When the bacteriology of road dust is considered, these effects are hardly to be wondered at. Hundreds of millions of bacteria, according to the nature of the locality, are found in a gram weight of dust, and the species isolated have included well known pathogenic organisms. Indeed there can be no reason for doubting the infective power of dust when it is known that among the microbes encountered in it are the microbes of pus, malignant œdema, tetanus, tubercle and septicæmia. The mischief to riders as well as to pedestrians would probably be largely averted if, as nature intended, the respirations were rigidly confined to the nasal passages and the mouth kept comfortably though firmly shut. As investigators have shown, the microbes in the air seldom pass beyond the extreme end of the nasal passage, and consequently never to the pharynx or bronchial surfaces. A useful precaution, therefore, in addition to exclusively breathing through the nostrils, would be to douche the nasal cavity after a dusty run or walk with a weak and slightly warm solution of some harmless antiseptic."

Fascinating Flies.

As frequently happens, fancy flies for salmon fishing in Scotland and England often prove to be killing bait for muskellunge and black bass. One of the latest importations in that line is a spinner made of mother of pearl, with a full fledged salmon fly on a triple hook behind it. This bait has only recently been introduced into this country, but has proved most remarkably successful on its first trial with black bass. Whether it is something new to the fish or whether they have just taken a fancy to its brightness and capricious mode of traveling through the water is something that those who have tried it cannot tell. All they know is that it has proved quite deadly and has taken fish when nothing else seemed to tempt them.—New York Commercial Advertiser.

Cycling In Russia.

Despite the restrictions which surround the Russian bicycle riders, they are enthusiastic wheelmen. Nobody can ride a wheel in Russia without first obtaining a certificate of proficiency issued by some professor of the art of riding. A person receiving one of these certificates also gets a registered number, which must be conspicuously displayed on the wheel. This is to enable the police to identify the rider in case of violation of the law. Attached to the permit is a photograph of the person to whom it was granted.

Cleveland Baseball Club.

The fate of the Cleveland Baseball club's franchise will be decided at the fall meeting of the National league. The League is compelled to act in the case of the Cleveland club, since that city no longer supports the game, and this has caused a general transfer of nearly every game scheduled to be played in Cleveland during the remainder of the season.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. We are bound to carry over no summer Suits, Hats nor Furnishings. That is why on Aug. 19 we open with what will always be remembered as the most bona fide bargain sale that Quincy has ever seen.

Read the following prices and ask yourself if you can afford to stay away and let others reap all the benefits:

Neckwear.

One lot Silk Bow Ties sold for 25c. For this sale . . . . . **6c.**

Wash Ties sold for 10c. For this sale . . . . . **3c.**

Silk Tecks sold for 25c. For this Sale . . . . . **12½c.**

Over 300 Ties in all styles, sold usually for 50c. and 75c. . . **39c.**

Hats.

All our $3.00 Soft and Stiff Hats, **$2.25**

All our $2.50 and $2.00 Hats . . **$1.48**

A fine Derby in latest style, 3 different shades, worth $1.50, now **73c.**

One lot Men's and Boys' Caps, were 50c., now . . . . . **29c.**

All our 25c. Caps, **19c.**

Over 200 Straw Hats for almost one-half usual selling price.

Shirts.

Now is the time for the women buyers to lay in a stock for the men folks at the most unheard of prices.

White Laundered Shirts, the best in the country for 50c., for this sale, **35c.**

3 for $1.00. No more than 3 to each person.

One lot Fancy Negligee Shirts, collar attached . . . . . **38c.**

All our 75c. Shirts reduced to . . **50c.**

All our $1.25 and $1.00 white Shirts and colored Negligee Shirts . . **79c.**

SUSPENDERS worth 35c., for this sale **19c**

The great can't-rip-em **Overall** in all styles . . . . **39c.**

Four ply **Linen Collars** 3 for **30c.** **11c.**

Men's Hose sold for 15c. reduced to . . . . . **11c.**

Boys' Long Hose sold for 15c., now . . . . . **8c.**

GENERAL WHEELER AND COLONEL ROOSEVELT RIDING INTO CAMP AT MONTAUK POINT, L. I. FROM HARPER'S WEEKLY

Reproduced from *Harper's Weekly*. By Permission. Copyright, 1898, by Harper & Brothers.

Perhaps the most interesting feature of the war to the average reader are the camps which are now being formed composed of the troops that have seen service. Of these camps, Camp Wykoff is the most interesting and the largest. The troops that have seen active service around Santiago are arriving there as fast as the transports can bring them from Cuba. The camp itself is situated in an ideal spot for such a purpose. It is at the eastern extremity of Long Island, on a point called Montauk, which breaks out into the Atlantic Ocean, and for a distance of about ten mile is a rolling country, entirely free from trees and covered with turf. A narrow strip of sand joins it to the mainland.

This entire point has been given over to form a camp for about 30,000 men. The hospital tents, the detention camps (where those suspected of contagious fever are confined), and the headquarters of the different generals are all marked with appropriate flags, so that any one viewing the place from the hills can point out the different parts of the whole camp quite plainly. Here day by day men are arriving from Cuba—men who have become famous in the Santiago campaign and many of those we have been reading about from day to day may be seen riding or walking about in their war-stained uniforms.

One of the most picturesque and interesting sights was the landing, a few days ago, of the famous First Volunteer Cavalry, known as the "Rough Riders," and when they came through with Colonel Theodore Roosevelt at their head, and General Wheeler, the commander of the cavalry division, with them, the enthusiasm of those who were gathered there was extraordinary.

The illustration which we print this week, and which is reproduced in Harper's Weekly, shows Colonel Roosevelt and General Wheeler at the head of their troops, being escorted by General Young, who was in command at Camp Wykoff at the time, of the particular hill where they have since formed their camp.

FRUIT AND FLOWERS

THE MEMORIAL ROSE.

It Blooms Profusely In July and Continues In Flower Through the Fall.

Much praise is bestowed on the dainty little Rosa wichuriana, or Memorial rose, by Vick's Monthly. It is told that the natural manner of growth is creeping and if allowed to have its own way it will quickly cover a large space, throwing out roots at frequent intervals, thus providing a much larger amount of nourishment according to the size of the plant than any other rose. It came from Japan, and, like all plants which come to us from that strange country, it has great merit and attractiveness. The leaves are very small, of a handsome green, and shine as if varnished. Here they are partially evergreen and are entirely so in many places where considerable freezing may be expected.

The flowers are of the form and size of the wild rose, creamy white in color, with an unusual number of golden yellow stamens, which give an added beauty to the flower. The fragrance is exquisite, having something of the violet odor and reminding one of the fragrance of the Banksia roses. Instead of blooming in June with the other hardy roses this little gem begins to bloom in July, giving a great profusion of flowers during that month and providing an occasional one through the remainder of the summer and fall. The roses are followed by brilliant red heps that remain on the plant till spring.

This rose is especially adapted for cemetery planting, and two or three good plants will completely cover a grave in one season, either on the bare earth or over the sod. Little trimming or clipping is needed the first season, but the branches need to be trained in the right direction and pegged down occasionally. After the first year the plants will need considerable pruning to keep them from running all over the lot. It is so hardy that it lives unprotected almost anywhere and starts into rapid growth early in spring.

The vines can be trained to grow upright if desired, and a vine grown in that way is a beautiful sight. As the branches are slender they need a firm support for about three feet from the ground, and then the shoots can be allowed to follow their own sweet will. In this again the trailing habit shows itself, and the branches droop gracefully in all directions. When in bloom, a more beautiful sight cannot be imagined than the graceful swaying vines, thickly covered with foliage and gemmed with the dainty flowers.

Leaf Curl of the Peach.

Leaf curl of the peach occurred in various sections of the country this season to some extent. It is believed to coincide usually with cool and rainy weather during April, May and early June. The tree affected may appear to recover quickly, but may also carry the fungus over in its tissues to the next season, when weather favorable to its development will cause another attack. A kindred disease is plum "pockets" or "bladders."

Professor Selby of Ohio reports that this leaf curl is caused by a minute parasite, the leaf curl fungus (Exoascus deformans), which attacks both leaves and new shoots. The leaves attacked by

LEAF AFFECTED BY CURL.

the fungus are thickened and much distorted; the twigs are thickened and enlarged. There is great variety in the distortion caused by leaf curl fungus. Small areas of the leaves are often much arched and yellowish or reddish in color. The affected areas have usually a paler color.

Professor Selby has found that two applications of bordeaux in a season favorable to leaf curl will sufficiently prevent the disease to enable the tree to carry a crop of fruit without very great dropping, and that thorough spraying the preceding season is even more effective in the prevention of leaf curl than during the season of its occurrence.

A Good General Fertilizer.

"For a good, general, well proved fertilizer for all kinds of fruits give us the old fashioned mixture of flour of bone and unleached wood ashes," says a New England Homestead correspondent. "This makes a perfect fertilizer, furnishing nitrogen, potash and phosphoric acid. It produces fruit rather than excessive growth of wood and foliage, and what is more gives fruits of highest quality and most palatable. I get good color and good flavor from this fertilizer. The proportions may be varied to suit different needs. I would recommend two tons of wood ashes and one-half ton of bonemeal per acre, the mixture to be applied broadcast and thoroughly harrowed or cultivated into the soil. It is a great mistake in manuring trees to apply around the trunks. Cover the entire surface so as to find feeding roots."

Good Afternoon.

As next Thursday morning's Q. Y. C. Cup race will be the sail-off of a tie it will be the most interesting of the series. At these races there has been an immense turn out of society people. These races have done more to stimulate the interest in yachting in Boston harbor than anything in that sport that has ever taken place.

It has placed our club in the first rank of yachting clubs throughout the country and given it an immense prestige. But it is only by excercising the greatest care that this position can be maintained.

A MISHAP

Made the Cup Race a Tie.

The Recruit Dismasted on Home Stretch.

And the Duchess Won Her Second Race.

Yesterday's race proved nothing, the Recruit carrying away her mast off Sheep Island, so that the Duchess had practically a walk over.

The wind was from the west and the puffs were spiteful. As this was a resail of Thursday's race the triangle was again used but this time the clubs by mutual agreement under Article VII sailed over it once instead of twice making a distance of 6 knots.

Before the preparatory gun was fired the Recruit stood in two reefs and the Duchess three, which makes a close reefed mainsail for her. The wind in the mean time was piping up.

At three o'clock the starting gun was fired, the Recruit crossing the line 10 seconds ahead of the Duchess for the Peddock buoy, rounding it 1 m., 40 sec. ahead of the Duchess.

Then came the reach to the Hingham buoy, the Recruit turning that 3 m., 24 sec., ahead.

The windward work came then This was the rubber, the Duchess close reefed mainsail showing to good advantage, making her point up closer and apparently picking up slightly on the Recruit.

When off Sheep island the Recruit's mast suddenly snapped off about 10 feet above the deck and left her drifting helplessly in the trough of the sea. The U. S. life saving launch was at her side in a couple of minutes and had a line out to her and in fact started on the homeward tow before the Judges boat arrived.

The Duchess kept on and finished at 4 01.26.

RACE SUMMARY.

START.

Recruit	Dismasted	

This makes each boat the winner of two races. The sail off will be next Thursday at 10.30 A. M.

From the Peddocks to the Hingham buoy, 2 knots, the Recruit went at the rate of 14 miles an hour.

—The crowding of out of town merchants into New York city to buy goods is a pleasing harbinger of good times to come when peace is assured. Already the different trade centres of the country report unusual activity and a growing demand for all kinds of "store goods."—Boston Beacon.

By L. L.P. ATWOOD, Real Estate Auctioneer 31 State Street, Boston.

Grand Opening Sale

— OF —

200 Choice House Lots

— AT —

SQUANTUM PARK.

On LABOR DAY, Monday, Sept. 5,

commencing at 2 P. M., will be offered some of the choicest building lots ever shown near Boston. The land is high and overlooks Dorchester bay on the west, with magnificent views of the city of Boston, Milton hills and Boston harbor. Squantum park is only 3 miles from the State House and is reached by trains on the Old Colony R. R to Atlantic station; 87 trains a day, of which 37 are express, 11 minutes' ride, 8-cent fare, connecting with electric cars direct to Squantum park, or take steamer every half hour from Marine park to Squantum park, or take electrics from Boston and suburbs to Neponset bridge, where the Quincy & Boston electrics connect for Squantum park. The high elevation of the tract we shall offer commands fine views of the surrounding country and ocean of a magnitude that baffles description here. It being the only remaining tract within easy access of Boston, of a high order of excellence not already on the market, and would long ago have been occupied had the owners elected to subdivide it; this fact is highly important to the contemplating purchaser, as the opening sale of a new tract never reaches prices easily obtainable upon further development. If you are looking for a home or land for investment, why not come out to this grand opening sale? Take 11.30, 12.30 or 1.30 express trains at the O. C. R. R., Kneeland St, Boston, for Atlantic. Band concert, refreshments from 12 to 2 o'clock at my auction tents on the land. Sale positive, rain or shine, commencing at 2 P. M. Four auctioneers and 15 attendants will make a good time in disposing of the 200 lots. Don't miss this sale. One or more of my clerks will be on the land, or at my branch office at the Squantum Inn every day from 1 to 8 P. M.

Aug. 27-7t sep3-1w

Bound for Denver.

Mr. George W. Prescott will leave on Tuesday next for Denver, Col., to attend the National Editorial Convention to be held in that city on the 6, 7, 8 and 9 of September. Delegates are expected from every state in the Union. Those from Massachusetts have chartered the large Wagner car Tamer, for the entire trip, from Boston to Denver and return.

The party will consist in part of the following ladies and gentlemen: Capt. C. C. Doten and wife of Plymouth; J. S. Smith and wife, Rockland; Dr. Puffer, Brockton; George W. Prescott and daughters, Quincy; R. S. Barrows and daughters, Jamaica Plain; A. C. Dowse and wife, Boston; Ernest H. Pierce and wife, and Mr. Emerson, Revere; C. A. Loring and wife, Malden; Dr. W. F. Jarvis and wife, Waltham; Albert Vittum and wife, Beverly; W. E. Trombly and wife, Reading; John Scott and wife, Peterboro, N. H., J. M. S. Hunter, wife and daughter, Farmington, Maine.

The delegates will leave Boston on Tuesday evening next at 7 o'clock on the Fitchburg railroad arriving in Chicago on Thursday morning at 7.10 where they will meet other delegates from the Northern and Middle States. A special train with delegates will leave at 3 o'clock the same afternoon for Omaha, arriving in that city the next morning, where they will stop two days and visit the Exposition. The car will be side tracked at 24th street, near the north entrance to the grounds.

On Sunday morning at 9 o'clock, the delegates will start for Lincoln, Nebraska, where they will stop several hours, as the guests of the city. They will leave Lincoln the same afternoon stopping at Hastings for supper, arriving in Denver the next morning.

The headquarters for the Association will be at the Albany Hotel. The Brown Palace, Winsor, and St. James have also been engaged for delegates and ladies, while stopping in Denver. All are first class and everything will be done to make it pleasant for the editors, while in the city. Addresses of welcome will be made by Gov. Adams of Colorado and Mayor McMurray of Denver on Monday; also an informal reception by citizens. On other days there will be business sessions, receptions, banquets, theatres and trolley runs about the city.

On Saturday, Sept. 11, by invitation of the citizens the delegates and ladies will enjoy a trip "Around the Horn" visiting Fort Collins, Greeley and Boulder. Returning to Denver in the evening. On the following day they will go around the Loop to Idaho Springs, Georgetown and Silver Plume and run during the night to Rocky Ford. On Tuesday they will spend the forenoon at Rocky Ford enjoying "Melon Day," and in the afternoon will go to Colorado Springs.

Tuesday will be spent at Colorado Springs, Manitou, Cheyenne Canon, Garden of the Gods, Caves, and Pike's Peak, going to the top on the Cog wheel railway.

Wednesday will be spent at Cripple Creek, Anaconda, Elkton and Victor, viewing the most wonderful mining camps in the world. Riding up Gold Mountain and Bull Hill on Cripple Creek motor to the top of mountain, 11,000 feet above sea level—about twice as high as Mount Washington. On Thursday at Glenwood Springs and Grand Junction. The rest of the trip will have to be told at another time.

—It is said that Colonel John Hay, our ambassador to England, during the two days following Schley's victory, shook hands with over 4,000 people who came to congratulate him on his country's triumph.

MARRIED.

CALLAHAN—McDONOUGH—In Boston, August 21, by Rev. S. F. Brannon, Mr. Michael Joseph Callahan of Quincy, to Miss Annie Frances McDonough of South Boston.

JOYCE—CARROLL—In Dedham, August 25, by Rev. E. W. Virgin of the Methodist Episcopal church, Mr. George Frederick Joyce the principal of the Dedham High School to Miss Carrie Alden Carroll, first assistant in the High School.

DIED.

TORREY—In Braintree, August 23, Ralph Austin, son of Mr. W. Austin and Mrs. Josephine Torrey, aged 1 year, 3 months and 16 days.

Stock for Sale.

100 Shares of stock in a Boston company that has paid a 10 per cent. dividend the past 12 years. Will be sold at par, $100 a share. Good chance for any one wishing a good income. Address P. O. Box 25, Atlantic.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Another grand day
Has the hot spell been broken.

Band concert this evening in City Square.

The public schools will open a week from next Tuesday.

The Councilmen find the sewer assessment problem a knotty one.

Clambake of the Sewer Department this afternoon at Pawsey's.

Children about to enter school should be vaccinated. It is required.

Only 74 degrees this noon, the coolest day since Thursday, Aug. 11.

Kites were flown from Blue hill yesterday to a height of over 12,000 feet.

Tax Collector Baker is looking sharply after the poll taxes this year.

Master Harry Redding has a new wheel.

An examination for admission to the High school will be held next Saturday.

There is a large library of good books for sale at the auction of J. L. Rogers of Foster street, next Monday.

The Glover Bros. have sold the yacht Stella Manning to Mr. A. Moody of Winthrop.

The fire at J. L. Harveys at Hough Neck was not caused by an explosion as rumored, but by the lamp dropping.

There is a rumor that the lessees of the grove at Quincy Point are to have the management of the Monatiquot hotel next year.

Letters from Camp Hobson, and Key West, and also two communications are crowded out today, and will appear Monday.

The training class in connection with the public schools will be continued this year and will be organized Wednesday, Sept. 7.

The Patriot was at the line yesterday and scooped all other papers on the cup race, printing the news before 5 P. M.

Mrs. Ann Seaver, who has lived at 78 Washington street for many years, will move to Dorchester next week, where she will reside with her son.

Another interesting letter from Allie Williams has been received, and will appear the first of the week. He acknowledges the receipt of Daily Ledgers.

The news of the death of Mrs. Ann Duggan of Hancock street, Atlantic, will be a shock to her many friends, for althongh she has been sick for quite a while, her death was wholly unexpected. She was in quite advanced age.

The Greenleaf Private school begins its 27th year on Monday, Sept 12. It is an excellent preparatory school for boys and girls, and for the high reputation it gives its pupils. Those desiring to begin this term should apply at once.

The services all day Sunday at the Methodist church will be conducted by the missonary students. These enthusiastic young men are not on a money raising campaign, but solely for the purpose of enlightening the public concerning the missionary field.

The Summer Kindergarten at the John Hancock and Gridley Bryant schools close with this week, after successful sessions of eight weeks. Especial thanks are due Mr. Stearns and Mr. Hinnegan, janitors, for their unvarying courtesy and generous and efficient services.

The Rev. Robert Westly Peach has returned from his vacation and will preach in the First Presbyterian church, Water street, at both services tomorrow. He is greatly improved in health by his sojourn on the Hudson and at Northfieldd.

At the annual meeting and banquet of the Past Sachems Association of Massachusetts, I. O. R. M., held at the United States Hotel, a few evenings ago, Mr. William A. Jordan of Wollaston was elected secretary and treasurer. Dr. Charles S. Adams of Wollaston was one of the guests.

Now that the Squantum Inn is a success, and Squantum is "in it" so to speak, having electric connection with Quincy and Boston, and boat service to Marine Park, there is an increased demand for shore lots at this delightful spot. On Labor Day, Sept. 5, will be an opportunity, however, as 20 choice lots are to be offered at auction. They are advertised today.

—The distribution of the Jay Gould millions, which will shortly take place in accordance with the will of the founder of the fortune since the youngest member of the family is now on the eve of attaining his majority, will witness the division of a gigantic inheritance. What possibilities of good there are before the Gould heirs if all are moved by the same benevolent impulses as Miss Helen Gould.

By FRANK F. CRANE, - Auctioneer. Office, 4 Chestnut St., Quincy.

ALBERT J. BOWERS'

OPTICIAN

ADAMS BUILDING OVER POST OFFICE

QUINCY MASS.

Absent Minded.

He was a professor of chemistry and one day he entered a grocery store with his baby on one arm and a kerosene can in his hands. Setting the can down carefully on the counter, he said quietly:

"Sit there a moment, dear," and holding the baby out to the dazed clerk, he said:—"a gallon of kerosene in this, please."

There are many little things that we probably overlook that would help us to win your confidence, but we are not so "absent minded" as the professor was. Whenever we make a mistake we want to right the wrong at once—that is why we say "your money back if you want it."

Now for Preserving Time! We would like to sell you the sugar and jelly glasses, and preserve jars and rubber rings you will want. The quality in each is the very best.

Conductor Dignon is enjoying a week's vacation.

Contractor Gage finished his work on the Hitormissit club grounds the early part of the week.

On Tuesday afternoon the little son of Mr. and Mrs. W. A. Torrey died after an illness of but a few days

Richard Adams, a former resident of South Braintree, was in town as the guest of Harry Snow, the first of the week.

Willie H. Stoddard, the popular conductor on the Randolph street railway, returned to his duties Monday, after a two weeks' vacation.

Mrs. Charles F. Mellen, Mrs. Will A. Sampson, Mrs. Charles A. Hobart and Mrs. H. Warren Hobart are the committee of arrangements of the Amana Rebekah lodge, D. of R., which will hold their annual picnic at Ponkapoag Pond, Canton, on Wednesday next.

The members of Hose Company, No. 2, were out for practice Wednesday evening. They ran from their house on Franklin street to Williams & Kneeland's shoe factory, and ran out two lines of hose in 8 minutes. The practice was under the charge of Capt. King and the quick run was due to Driver Thayer.

The prayer meeting Sunday evening, Aug. 28, will be the monthly Consecration meeting. A collection for the society will be taken up. Topic, "With your might," Eccl. 9:1 ; John 4:27-35. Leader, Miss E. Mabel Plumer.

The members of the Braintree Brass Band at last had a fair night on Thursday to give their concert. A large crowd was present from Braintree, Randolph, Holbrook and Quincy. The band was encored several times for their fine work.

Mr. Elias Holbrook who was run over by a bicycle last week has nearly recovered from the effects of the shakeup.

David McAndrew the famous foot ball player at Dartmouth, will coach the foot ball team at Bowdoin College this year.

Miss Mary O'Brien of Common street is spending a couple of weeks at Wilton, N. H., with a party of young ladies from Dorchester.

Mr. and Mrs. Walter McKean are at Milford, N. H. Mr. McKean is in rather poor health and it is hoped that the change will do him good.

The handsome Irish setter belonging to Mr. Amos Woodworth, was killed by an electric car on Monday night. The animal was very intelligent and a favorite among the neighbors.

The Fore River Engine works has shut down for two weeks.

The total commitment of taxes this year is $86,024.51. Rate, $18.20 on one thousand.

Mr. A. O. Clark, chairman of our board of Selectmen, took in the sights at Nantucket on Wednesday.

Mr. Albert Hobart made a misstep while visiting at Plymouth recently, and fell receiving several bruises.

Mr. and Mrs. I. W. Horne returned on Thursday and will move into their new house on Mount Vernon avenue Monday.

Mr. James T. Weeks and family returned from the beach on Sunday, and on Monday Mr. Weeks was taken sick and has since been confined to his home.

If the Union Firemen's Association goes to the Weymouth fair, the boys will make a grand hustle for a prize and they will not come far from getting one.

Braintree is full of musical people and has some enthusiastic musicians, but never before did any society get an organ that was bigger than the church. It is said that owing to a misunderstanding, or mistake of some kind, that the beautiful organ purchased for the new Union church at at Braintree will not go in the place built for it, and that a change must be made.

Miss Josephine R. Fowle of Arlington who has been assistant in the Monatiquot school has resigned, on account of ill health, and her place will be taken by Miss West of East Braintree. Miss West is a graduate of Thayer Academy and Vassar College, and is qualified for the position.

While changing cars on her way home from Highland Park last night, Mrs. W. A. McKean caught her thumb in the handle, or guard, on the side of the car, in such a way as to break it. It was dressed by Dr. H. L. Dearing and is doing nicely.

That delectable and piquant fruit variously known as the shaddock and the grape was first made known to Western palates by a certain Captain Shaddock, who was in the East Indian trade. Why the Flordia fruit growers should have named it the grape frnit is a mystery we have never seen explained.

PEOPLE OF THE DAY.

John Hay, who succeeds to the portfolio of state upon the retirement of Secretary Day, is pretty generally known to the newspaper readers of the country. As one of President Lincoln's secretaries he became acquainted with public life back in the sixties. As United States embassador to the court of St. James under President McKinley he has played an important part in the diplomatic and social movements that have marked England's manifestations of friendship for the United States during the trouble with Spain. He has held various places in the diplomatic service during the past 35 years.

JOHN HAY.

Mr. Hay has also an established place in literature, although his productions outside of newspaper work have not been many. His Pike County ballads, of which "Jim Bludso" and "Little Breeches" are the best known, brought him renown. He has held important posts in the field of journalism, having been at one time editor in chief of the New York Tribune.

John Hay was born in Salem, Ind., in October, 1838. After graduating from Brown university he took up the study and practice of law in Springfield, Ills. It was here he made the acquaintance of Abraham Lincoln, with whom he went to Washington as secretary in 1861.

To Wed Ex-Mayor Strong's Son.

Rumor has it that Captain Putnam Bradlee Strong, son of ex-Mayor Strong of New York, is soon to lead to the altar Princess Kaiulani of Hawaii. Captain Strong was for some time during the present summer stopping in Honolulu, and his attentions to the princess were very marked, but he has recently gone to Manila to assume a place upon the staff of Major General Merritt.

PRINCESS KAIULANI.

Princess Victoria Kaiulani is a niece of former Queen Liliuokalani, whose reign of two years over Hawaii closed Jan. 17, 1893. The princess' father was A. S. Cleghorn, a prominent English resident in the Hawaiian Islands. Her mother was the Princess Miriam Likelike, sister of Liliuokalani and former King Kalakaua. Her age is 22.

Carrier Pigeons For Wilhelmina.

The most interesting use to which carrier pigeons have ever been put will be on the occasion of the coronation of the young Queen Wilhelmina of Holland. To Amsterdam on that day no fewer than 6,000 homing pigeons, collected from every portion of the Low Countries, will be deposited in the public square at the rear of the famous Ryx museum, and at a prearranged moment, when the young sovereign drives into the square to be acclaimed by her loving subjects, the birds will receive their freedom and will carry to every part of Holland the tidings that the coronation of Queen Wilhelmina is an accomplished fact.

A Rich Widow's Friendly Lawsuit.

A friendly suit was begun recently in the supreme court of New York by Mrs. Mary Goelet, widow of Ogden Goelet, to determine the exact legal construction of her husband's will. Mrs. Goelet was left an annuity of $150,000 a year in lieu of dowry in the estate. She desires the court to decide whether in case the income from the real estate set aside to pay her annuity be insufficient for that purpose she will be paid from other property. No matter which way the legal cat jumps this widow will never know the meaning of the word want.

Autograph, but No Button.

A little Portland (Me.) boy, 11 years old, wrote Admiral Cervera asking for a button and the admiral's autograph. He was made happy by receiving the following note from the Spanish admiral:

ANNAPOLIS, July 30.

MY DEAR SIR—I have received your letter, and as I saved absolutely none of my clothes, as I had to go ashore swimming, I cannot send you a button as you desire. My autograph you will have in the signature to this letter. I remain, most sincerely, your servant, who kisses your hand, PASQUAL CERVERA.

Whisper the Secret.

Mrs. Ormiston Chant, the social reformer, says the crown princess of Greece told her that the worst enemy Greece had was her brother, the German emperor.

YOUTHS' DEPARTMENT.

Kitten and Pelican as Playmates—Fun For the Elephant—A Tower of Strength.

Behind a big, old fashioned house in a large city there lived a large pelican. The bird was allowed the liberty of the yard, around which he would walk sedately. He could not fly far, and he had lived there so long that he seemed content to stay.

One day when the pelican was taking his morning exercise a little kitten from a neighbor's yard came strolling along the fence. When the first saw the big bird, her eyes opened in wonder, her tail grew big and her hair stood out. But presently, as the pelican did not hurt her, she became used to him, and jumped down into the yard to investigate.

Now, whether the pelican happened to be in a lively mood and wanted a game of play with somebody or whether he remembered the way his father used to catch fish by throwing them up in the air and catching them again while he was a little nestling and lived in a tree beside a river I don't know. But the pelican picked up the little kitten, and, giving it a toss in the air, opened its huge mouth as if to catch it as it came down.

Puss seemed to think it was rather good fun. With a quick motion she turned over and came to the ground on her feet. Then she scampered around Mr. Pelican's legs, nearly upsetting him. He turned, made another grab at the little cat, and gave her another toss. Down came Kitty again, landing safely on the grass, not at all frightened at this new rough companion. She seemed to enter into the sport of the thing and stood still to be tossed as if she liked it.

The pelican got tired first. His master came out of the house with a good dinner of fish for him. He picked up a fish, gave it a toss and caught and swallowed it. Puss, who was looking on with open eyes, came in for a share of the pelican's dinner, and they have been the best of friends ever since.—Eva Lovett in Our Animal Friends.

Elephant Had Fun With Him.

A young traveler and sportsman who had just returned from a hunting and exploring trip through Africa has lived to tell how it feels to play football with an enraged elephant for the center rush on one side and yourself as the whole team and the football on the other. "Round Lake Stephanie," he writes, "we had some excellent sport, and it was here that I was hurt by a wounded elephant. My escape was nothing less than miraculous. The great beast, mad with rage, was charging me, when at the critical moment my gun failed and I had to turn and run, but the elephant soon caught me, and, going on his knees, tried to pin me to the ground with his tusks. Failing in this, he caught me with his trunk and flung me round under his body, with the idea of crushing me to death. How I escaped I do not know, as I was in this situation for half an hour. At the end of that time the great brute got up, and, kicking a piece of wood which he doubtless took to be my dead body, made off to his retreat. Curiously enough, I had no bones broken."

A Tower of Strength.

Our inland fishermen usually are satisfied with catching a finny prize that can be hidden in the ample interior of an ordinary market basket, but people who fish in salt water are inclined to sneer at such "small fry." They are apt to fish for man eating sharks, using a few pounds of pork for a bait and spiking it on a steel hook half an inch thick and a foot or more in length. One of the most striking examples of this sort of fishing was furnished near Chetolah, N. Y., recently. A steam yacht owned by Mr. A. J. Wise appeared in port with a swordfish 13 feet 10 inches long that had been captured by the skipper. After the fish was hooked the line was fastened to the boat's gig, from which the skipper was fishing, and the giant fish towed boat and all for six miles before becoming exhausted. It required the strength of five sailors to hoist the fish into the yacht after it was killed, for the monster creature weighed 625 pounds.

Wrote Alike.

A fly had fallen into the ink well of a certain author who writes a very bad and a very inky hand. The writer's little boy rescued the unhappy insect and dropped him on a piece of paper. After watching him intently for awhile he called to his mother, "Here's a fly, mamma, that writes just like papa."—Current Literature.

Long Words.

The longest word in the English language is "proantitransubstantiationist," a jointed word of 28 letters. "Transubstantiationableness" is the next longest.

Mamma's P'ecious Dirl.

Dess you wonders who I am,
Wiv my pitty s'oes
An my 'ittle hat tied on
So it tannot lose,
An my jess 'at mamma made.
See my ring? It's pearl!
Dot a lot of fings, betause
I'm mamma's p'ecious dirl.

Doughin down to Sadie's house—
Mamma said I tould;
Said I must tome home at six
An be awsel dood.
Sadie's dot some rabbits an
A white mouse an a 'quir'l—
Won't none of 'em bite me, tause
I'm mamma's p'ecious dirl.

Dot a woolly sheep at home
What tan holler "Bah!"
When you 'queeze 'im, an a doll
What tan say "Mam-ma!"
Dot anuzzer wiv blue eyes
An a dolden turl,
An a whole big lot of toys
For mamma's p'ecious dirl.

'Fore I doughs to s'eep at night
Wiv mamma up 'tairs
She kneels down right by the bed
An heips me say my p'ayers,
Askin Dod to b'ess me well
As all 'at's in the worl,
But den I dess he would, betause
I'm mamma's p'ecious dirl!

—James Courtney Challiss in Chicago Record.

MILTON.

Miss Mary McKay is spending her vacation at Martha's Vineyard.

Eugene Gallagher is on his vacation this week.

Mr. John Kendrick and family have returned from Boothbay, Maine.

Mr. Richard Folsom has returned from Boothbay, Maine.

The Episcopal Mission at East Milton, held its first picnic at New Downer Landing on Thursday. Sports for the day were a game of base ball, tug of war, etc.

Mr. Thomas Graham of Beacon street, Boston, was the guest of Mr. C. Graham of Granite place.

Mrs. Choate and daughter are spending two weeks at Provincetown.

Mr. William Flanaghan is spending two weeks at Old Orchard Beech

Mr. Arthur Clapp and family are spending three weeks at Houghs Neck.

WHEN ALL THE WORLD IS YOUNG.

When all the world is young, lad,
And all the trees are green
And every goose a swan, lad,
And every lass a queen,
Then hey for boot and horse, lad,
And around the world away!
Young blood must have its course, lad,
And every dog his day.

When all the world is old, lad,
And all the trees are brown
And all the sports are stale, lad,
And all the wheels run down,
Creep home and take your place there,
The spent and maimed among.
God grant you find one face there
You loved when all was young!
—Charles Kingsley.

DURELL'S MISSION.

Rev. Icabod Durell carefully stroked his quill pen and adjusted his glasses more evenly on his nose and proceeded to write out his sermon, in which he was pointing out the error of allowing merely temporal things to interfere with those of eternal significance. Icabod was a plain, earnest man, who worked faithfully at the problems of a parish in colonial Virginia, which were much like those of every parish everywhere, only that he had come into closer touch with his people than have many ministers before and since his day.

Icabod bit his pen in hope of inspiration, but his thoughts would turn from his theme to one of the younger men in whom he was deeply interested and of whom lately he had seen but little, and he found it difficult to select texts in Genesis and Revelation exactly to illustrate his point. So he sat at his square mahogany table absorbed in thought and drew the plume of his quill pen back and forth in a reflective way across his nose.

James Hopkins came in through the open door and patiently waited for the parson to finish the sentence which he was writing. This Icabod finally accomplished and became aware of Hopkins, standing near.

"I didn't hear you," he said, apologizing.

"No matter," answered Hopkins, and both men sat down beside the big, book laden table.

"Parson, I'm in trouble," Hopkins began, "and I want your help."

"Anything I can do," said Icabod, "you know I will."

Hopkins hesitated. Then he took the plunge. "It's about Sally Daves. I suppose you'll laugh at me for coming," and he fumbled the hat in his hand, "but I can't make her listen to me, and I don't know what to do. She promised to marry me, and now she says that she never will."

The parson waited for him to go on, but Hopkins seemed to have finished all he had to say.

"And you want me to speak to her?" Icabod inquired, looking at his embarrassed caller with some amusement.

"Yes," said Hopkins, "and I want you to make her marry me. You could do it. You know I'd be a good husband, and you could talk about it—and explain things," he ended rather vaguely.

Icabod was silent. He considered a moment.

"Well, James," he answered, "I'll speak to Sally Daves for you, but she has many men to choose from, you know that, and I'm but a poor pleader. Still I'll try."

Hopkins looked appreciative and offered the parson a pinch of snuff. Then he rose, and the two men shook hands, and Hopkins went out into the summer world.

Icabod looked after him with some complacency. So it was this that had been keeping him away. He would straighten out matters with Sally Daves. The girl was a fool not to keep a man like Hopkins if once she had the luck to get him. Meantime there was his sermon, so he went back to the table and again gently rubbed his nose with his feathered pen and tried once more to get the drift of his argument.

The next afternoon Icabod rode over to the Daves plantation, where he found two of his younger brethren enjoying themselves in Miss Sally's company. With patience and long suffering he waited until they reluctantly had gone, and then he proceeded at once to deliver his message.

"And he's a worthy man, and you should be ashamed to treat him to whom you're betrothed in such a fashion," he ended.

Sally listened attentively and arranged her neckerchief.

"It's no different from the way I have treated the others," she answered at last, with no attempt to seem impressed with her own faults. "If James Hopkins would come a-wooing, let him bespeak himself and not go bothering the parson."

"It's no such great bother," replied Icabod candidly, with the air of one who waives the point merely of quantity, "only you don't seem to understand what your actions mean to James Hopkins. He's no man to be forever chasing after a woman. There are many girls in the county who'd be glad of him."

"They're welcome to him, and you may tell James Hopkins the same and give him my best good wishes," replied Sally, with all sweetness.

So the interview ended. It seemed to Icabod useless to discuss the subject further. He had done his duty, and it was nearing supper time, so he took his leave and rode away, amused and rather sorry and wondering which of the other young men was to marry the prettiest girl in the parish. Her picture came back to him as she had stood on the low piazza, one arm resting against the vine covered post, the sunshine playing on her fair hair, which had blown a little over her brown eyes, so filled with mischief. She certainly was the prettiest maiden in the parish, Icabod thought; mere candor compelled the admission, and he wondered if the tea cakes would be overdone, and accordingly applied his riding stick and hurried on toward the parsonage.

During the Sunday mooning, Hopkins came to see the parson, and when he learned the result of the interview he was much disappointed.

"Didn't she tell you why?" he asked, looking dubiously at Icabod.

"I don't believe she has any reason," Icabod answered. "Perhaps she needs to be coaxed. Go to see her yourself, man, and don't come bothering me about it."

So the next day Hopkins rode over to the Daves' plantation and again presented himself with some doubt, it is true, as to the wisdom of his coming. Sally was not to be coaxed, and the interview was short and much to the point.

"And have I a reason?" Sally asked sharply. "And haven't I told you these 20 times that I don't love you? As if that weren't reason enough!"

"You like somebody else," retorted Hopkins. "Probably you've been making promises to Ed Clark, now."

"And belike I may have, though I don't remember them," answered Sally, with no sign of resentment.

"Won't you tell me why?" again demanded Hopkins.

"No," said Sally, standing very straight and looking as severe as so fair a girl could. "No, James Hopkins, I will not tell you my reason."

Hopkins rode away in gathering wrath, and he decided once more to seek the interference of the church.

Icabod listened patiently to his tale, and then told him kindly but firmly that in view of his many duties he simply could not undertake the care of parochial lovemaking.

"But she won't tell me why," Hopkins persisted. "I'd feel better about it if I only knew her reason. I've asked her time and again, and she only makes fun of me. Won't you ask her that much? Please now, just as a friend of us both."

Icabod hesitated. It was such a bother. "Yes, I'll ask her," he said, at the same time feeling angry with himself for saying that he would.

The next afternoon found Icabod riding slowly along the shady summer lanes toward the Daves' plantation and wondering the while why a woman couldn't be frank and outspoken in such matters and save her kindly disposed friends so much needless labor.

As he came near the house he saw Sally sitting on the low piazza, her workbasket beside her, bending over some bit of sewing in her hand, a picture framed in the green vines which grew over the porch, and Icabod couldn't find it in his heart to blame Hopkins.

Sally saw him and stood up, dropping her work about her in pretty confusion.

"Thank you, father's not so sick we should be bothering you," she said, coming down the first step to greet him.

"I didn't know he was sick at all," answered Icabod in honest surprise.

"He's a little sick," said Sally. "He's gone over to the river meadow now, but I couldn't think what else could bring you again so soon. Not but that you're always welcome," she added, seeing Icabod's evident embarrassment.

He dismounted and sat down on the broad piazza bench. He might as well get through with his fool's errand and be done with it, so he said:

"I've come on behalf of Hopkins."

Sally smiled in enjoyment of the situation, but she kept silent.

Evidently she wouldn't help him, so Icabod continued, "He wants me to ask you why you won't marry him."

Sally hesitated and stroked her work with her needle.

"Do you think I ought to tell him, parson?" she asked.

"Yes, I do," said Icabod, with parochial firmness.

"Will you promise to tell him if I explain my reason to you?" Sally asked, looking squarely at Icabod.

"Yes," he answered, feeling much relieved and smiling back encouragement at the fair girl before him.

"Well," said Sally thoughtfully, "I think I'd be willing to tell you my reason, but, you see, it's not wholly my own. Suppose we leave it this way. I will think about it and I will send you word what I decide, and we won't talk about it any more, please," she ended, rising.

Icabod judged that he was expected to go, and so he took his leave. His visit was most unsatisfactory, but he had done what he could and he was glad the business was ended, so far as he was concerned. He was sorry for Hopkins, poor chap, but perhaps he would be satisfied with Sally's reason. No doubt it was a good one, for the girl seemed very sensible, and so Icabod rode back very contentedly to the parsonage.

The next morning as Icabod was writing at his big table Sally's little black boy brought him this note:

REVEREND SIR—I would be frank in this business. I purpose to marry somebody else. See II Samuel, twelfth chapter, verse 7. With respect, I am y'r obed't SALLY DAVES.

Icabod opened his Bible to the second book of Samuel, the twelfth chapter, and ran his finger down to the seventh verse and read, "And Nathan said unto David, 'Thou art the man,'" and then Icabod sat vacantly looking at the table for a long time.

"Miss Sally told me to fetch an answer," said the little black boy at his elbow.

"Tell your mistress that I will bring it over myself," said Icabod.—Boston Transcript.

His Saving Grace.

"I may not like work," said the tramp, "but there is one thing I don't do."

"What's that?"

"Fritter away my money in idleness, as the newspapers say."—Philadelphia North American.

We're Made of Dust.

He—I could kiss the dust you walk on.

She—What's the matter with the dust that does the walking?—London Fun.

WOMAN'S WORLD.

SHE IS RICH, BEAUTIFUL AND A ROYAL FAVORITE.

Fad For Motto Hangings—Ibsen Champions "Woman's Cause"—How Women Help Their Business—Has Distinguished Herself—Paying For the Temple.

One of the most brilliant figures in London society during the past season was the dark eyed, dark haired daughter of Lady Cadogan, who is now the wife of a rich English banker, Sir Samuel Scott. Marrying a man of great fortune, this charming young woman was enormously wealthy in her own right, since in the United Kingdom there are few families possessing vaster riches

LADY MARGARET SCOTT.

than the Cadogans. With beauty, high birth and an enormous income it was hardly to be wondered at that this favorite of fortune should take a leading position in not only brilliant, but royal society. Of her the Princess of Wales is especially fond, and her name almost invariably appears in the list of those guests whom the princess may desire invited to the private houses where royalty is to be entertained.

Fad For Motto Hangings.

The motto hanging curtain or portiere is the latest fancy among the guild of needle workers. To make it the woman who knows her business procures a number of lengths of two inch ribbon in her favorite colors or varying shades thereof, and upon these ribbons she induces her friends to inscribe their autographs, together with the date of inditing, the motto or watchword which is supposed to rule and dominate their life and character and any other fragments of similar nature liked.

The lettering is done in sepia, oil colors, colored or even black ink, according to taste. Sepia looks especially well upon yellow, golden brown or certain shades of green; black ink is striking upon scarlet or blue; purple writing fluid is lovely upon lavender or other pansy tones. If the maker of the portiere is doubtful concerning the ability of her friends to do the lettering artistically, she merely asks them to write upon slips of white paper and herself copies the legends thus obtained upon the ribbons. In rare cases the names are embroidered instead of written.

When ready for making up, the ribbons—varying from 6 to 10 feet in length—are attached to and suspended from a wider ribbon as long as the portiere is to be wide and upon which is emblazoned the name, motto and other particulars concerning the fair owner. Fringed, scalloped or pointed ends of similar or the same ribbon, a line of painting or embroidery may serve to conceal the method of joining. Once attached, the loose ends of ribbon are arranged according to the location of the motto. If this is near the top or bottom of the ribbons, the portiere is connected midway; if passing along most of the length, the waving ribbons are allowed to hang free. "Rainbow" portieres of this order are much liked.

A glorious bit of color and a delightful souvenir hanging is the result, however they are fastened. "Purple and gold and the glory thereof" are as nothing compared to the color scheme and beauty of a really well made and artistically arranged "motto portiere."—Chicago Times-Herald.

Ibsen Champions "Woman's Cause."

As a guest at Christiania of the Norwegian Woman's association Dr. Ibsen, who was entertained as the poet champion of "the woman's cause," delivered a noteworthy speech. He had been, he said, more poet and less social philosopher than people in general were inclined to think, and so, while he thanked the association for the toast, he must disclaim the honor imputed to him of having consciously striven in the woman's cause.

"I am not even clear in my own mind as to what the woman's cause really is. For me there is only a human cause, and those who read my books with attention will appreciate this. My task has been to depict mankind. If in this I have to some extent succeeded, then readers will be able to read into the picture their own impressions and their own ideas. People ascribe this and that to the poet, but they are wrong. For not only those who write, but those also who read are the poets. The reader indeed is often more poetic than the poet himself.

"I have always felt it to be the noblest task to raise the status of the country and the people. For this two factors are specially necessary. It behooves the mothers by constant and strenuous endeavor to arouse a conscious feeling of civilization and of discipline. Until this feeling is present in mankind it is not possible to further elevate people. The women must solve the problem of humanity."

How Women Help Their Business.

"The fact is that women are the best sort of missionaries," said a representative of the Merchants' association yesterday, "and as our object is to spread the knowledge of our city's superiority in the way of bargains, styles, roof gardens, theaters and parks we persuaded the railroads to extend the reduced rates to the families of our merchant members.

"Each woman attends her church sewing society, her mothers' meeting and afternoon teas at home, and there she tells every other woman of the wonders of New York. Naturally the other women decide to come next season and prevail upon their husbands to join the association and buy their goods in New York. In this way we find that the women are helping us continually."

The out of town merchant has learned that men cannot buy for women, and if he wishes to please his customers and sell his goods they must be bought by women.

A wholesale bargain house manager says it is his experience that women are not so reckless in their purchases as men. They insist, politely, of course, on getting their money's worth and know what they want. In that way much money and time are saved. Naturally a woman knows what women want.—New York Tribune.

Has Distinguished Herself.

Grace Espy Patton, a Pennsylvania woman who moved with her parents to Colorado when 10 years of age, is now superintendent of public instruction and ex officio state librarian of Colorado. Miss Patton has been in office a year and a half. She is now 32 years of age and has distinguished herself in the fulfillment of her varied duties. The department of public instruction in most western states carries with it many diverse duties. Colorado is no exception, and Miss Patton is a member of the state land board, the state board of examiners and the state board of education.

After graduating from the State Agricultural college she was called to the chair of English and sociology in that institution, where she taught for 12 years. This experience has helped her to make her administration of great benefit to the school interests of the state. The establishment of school libraries, the extension of kindergarten work and the general introduction of manual training have received special attention. School decorations are also one of the ablest reforms. In appearance Miss Patton is attractive. She has a slender, girlish figure, but her carriage is dignified and her face reveals a woman of unusual thinking ability. Her brown eyes are her chief beauty, and her power to charm wins everybody.—New York Sun.

Paying For the Temple.

Mrs. Matilda B. Carse, president of the board of temple trustees of the Woman's temple of Chicago, in referring to the action taken at a recent meeting of the executive committee of the National Woman's Christian Temperance union, said:

"The recommendation of the committee that the local Woman's Christian Temperance Union societies discontinue any further effort to pay for the temple on account of the slow progress which has been made in collecting money was a most unfortunate decision and is not upheld by the rank and file of the society. The temple trustees are an incorporated and independent body and have not the slightest idea of abandoning the project of making the temple Miss Willard's memorial. Miss Willard's last words on her deathbed in regard to the temple were: 'Oh, if I could be of help! Oh, that some one would help me in my extremity, so that success might come to the temple!' More plans than ever have been set on foot by the temple trustees to pay for the beautiful building, and some large subscriptions have been received within a week. The chain letter sent out by the Young People's Christian Temperance union is proving a great success."

Worshiped For Her Knowledge.

Dr. Hu King Eng, the Chinese girl who graduated from the Philadelphia Woman's Medical college, is now practicing in southern China and is known in her own locality as the "miracle lady" because of some of her "marvelous cures."

Among the nobility of China she has performed several noteworthy cures of eye trouble. The Chinese worship her as a god by reason of her various successful operations. Much of her practice lies among the families of the first rank.

With Marguerite Wang, another distinguished China woman, Dr. Hu is going to London to represent the Chinese women at the medical convention. She will report, among other improvements, the noticeable progress made against the custom of foot binding. A rule has been made that no Chinese girl can enter the mission schools unless her feet are unbound. At first the girls' parents were unwilling to let their children attend school under these conditions, but now the schools are filled with girls with natural sized feet. Hu King Eng is not the only Chinese woman that has been educated in America and gone back home to work for the good of her people.

How to Fry Cabbage.

This is a nice way of using cold boiled cabbage left from dinner and if there is a sufficient quantity will make a nice luncheon dish. Cut the cabbage into half inch pieces, put a tablespoonful of butter into a frying pan and fry a light brown, turning frequently. Equal quantities of cabbage and potatoes are nice fried in the same manner.

How to Make Milk Lemonade.

In half a pint of boiling water dissolve rather more than a quarter of a pound of loaf sugar and mix in this half a gill of unsweetened lemon juice, half a gill of sherry and, finally and gradually, a gill and a half of fresh cold milk. Mix well, strain and set on ice till required.

NOTHING BETTER,

UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, you can get them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

Mortgagee's Sale.

PURSUANT to the power of sale contained in a certain mortgage deed given by John Wolf of Quincy, in the county of Norfolk and Commonwealth of Massachusetts, dated January 1, 1895, and recorded with Norfolk Deeds, libro 732, folio 543, and assigned to Charles P. Grimmer, by assignment dated July 30, 1896, recorded with said deeds, libro 766, folio 619, for breach of the conditions of said mortgage deed and for the purpose of foreclosing the same, will be sold at public auction on the premises, on WEDNESDAY, the fourteenth day of September, 1898, at two o'clock in the afternoon, all and singular the premises described in said mortgage deed, and thereby conveyed and therein described as follows:

"A certain lot of land containing 19,900 square feet, more or less, with all the buildings thereon, situated in said Quincy and bounded and described as follows, viz.: Northerly on West street, seventy (70) feet; easterly on land of Edward V. Trask, three hundred (300) feet; southerly on land of the same, seventy-five (75) feet; westerly partly on land of one Schneider and partly on land of said Trask, two hundred and fifty (250) feet. Being the same premises conveyed to me by Edward V. Trask, by his deed dated May 23, 1887, and recorded with Norfolk Deeds in Lib. 591, Fol. 551, and the same now subject to a mortgage given by me to E. E. Stadley for sixteen hundred dollars, by my deed dated August 8, 1887, and recorded as above in Lib. 594, Fol. 477." Said premises will be sold subject to the above-named mortgage of sixteen hundred dollars and interest thereon, all unpaid taxes, assessments, liens and encumbrances thereon, if any.

Two hundred dollars ($200) will be required to be paid in cash by the purchaser at the time and place of sale. Other terms will be stated at sale.

CHARLES P. GRIMMER,
Assignee and present holder of said Mortgage.

THE POINT OF RUPTURE

English Exasperation Over Duplicity of the Chinese.

Heathens Warned of the Penalty of Persistence.

Naval Demonstration to Sustain the "Sphere of Influence."

London, Aug. 27.—The Pekin correspondent of The Daily Mail says: "The situation has suddenly become acute. The relations between the foreign office and Sir Claude Macdonald, the British ambassador, are strained to the point of rupture. The official has intimated that failure by China to observe Great Britain's wishes will be accepted as a casus belli.

"In support of Sir Claude Macdonald the fleet has been concentrated at Wei-Hai-Wei and Hankow, and all the warships under 5000 tons have been mobilized in the Yang Tse river. The naval demonstration is directed solely against China, as it is semi-officially stated that the existing relations with Russia are cordial. Lord Salisbury has abandoned the policy of the open door, substituting for it a policy of spheres of influence.

"Diplomatic conferences have been of constant occurrence within the last few days. Lord Salisbury insists upon the recognition by the other powers interested in China of the boundaries of Great Britain's sphere of influence. In the same instrument where Great Britain recognizes Russia's position in Manchuria, Russia is required to acknowledge the paramouncy of England in the Yang Tse valley and guarantee that our territorial requirements shall be permanently respected.

"Great Britain is willing to drop her protest in respect to the New Chwang railway; but Russia is required to cancel her agreement with China that the country having the largest financial interest should arbitrate in disputes connected with the Pekin-Hankow railway. The negotiations are confined to Pekin. The British ambassadors at St. Petersburg and Pekin are in close communication."

Violent Scenes Reported.

London, Aug. 27.—A special dispatch from Shanghai says: "Violent scenes are reported to have occurred between Sir Claude Macdonald, the British minister, and Mr. Pavloff, the Russian charge of affairs, owing to the latter's commanding the foreign office to break its agreement with the Hong Kong bank under pain of the czar's strong displeasure. The Chinese are inclined to obey Pavloff, seeing that the British confine themselves to verbal protests.

"The position is now worse than ever. All the Russian ships have returned to Port Arthur, while the British vessels are assembling at Wei-Hai-Wei and Chefoo. Extreme activity prevails ashore at Port Arthur. The action of the Russians at New Chwang indicates an intention on their part to remain there in strong force whether they build the Tien Tsin railway or not."

Compromise Arrived At.

London, Aug. 27.—The Copenhagen correspondent of The Mail asserts that he is in a position to confirm the statement he recently made, that a compromise had been arrived at between England and Russia in accordance with which Russia gets her way on the railway questions and England gets concessions in other directions. "The relations between England and Russia," the correspondent says, "are very satisfactory, the Russian concessions fully meeting English wishes."

NEWS IN BRIEF.

The following fourth-class postmasters were appointed yesterday: E. M. Alken, Guilford, Vt.; R. W. Putnam, Putnamsville, Vt.

J. A. Theirault, charged in London with stealing $475 from the department of agriculture in Quebec, was committed for extradition.

The Japanese commercial world is being torn to its core by the discovery of enormous frauds in the management of the Tokio Warehouse company.

The statement published to the effect that 600 men have died at Camp Thomas since its establishment is erroneous. The number is a little more than 500.

Yesterday the president selected Whitelaw Reid and Justice White to serve with Judge Day and Senators Frye and Davis on the peace commission.

Mayor Hoyt of Marlboro, Mass., has asked for the resignation of City Marshal Curtis, stating that he has prepared charges against him, the tenor of which is not made public.

Six persons, one of whom, Martha E. Belcher, may die, were injured in the explosion of nearly a ton of fireworks in the manufacturing plant of George W. Parker of Minneapolis.

Isaac Mason of Worcester, grand chief of the Massachusetts grand lodge of Good Samaritans, died last night. He was born a slave in Maryland, but escaped in 1849 and came north.

The fishing schooner, Actress, of Boston, Captain Aves, with a crew of eight, capsized and sank, 25 miles southwest of Gay Head yesterday afternoon. All the crew were saved with their personal effects. The boat was capsized by the hauling of a seine.

It will be practically impossible to maintain the Third army corps at Huntsville, Tenn., where it has been ordered to proceed from Chickagauga. The indications are that the corps will be sent to Anniston, Ala., a place said to be admirably adapted for a large body of troops.

The battleship Oregon was menaced by fire Friday morning. The blaze started in the main bunker of the vessel as she lay in the Brooklyn navy yard. Smoke was discovered pouring out of the bunker next to the forecastle, and an alarm was given. The crew responded at once. The work of putting out the fire occupied more than an hour.

OVERCOME IN CHICAGO.

Ball Players From Boston Suffer From a Bad Spell.

Chicago, Aug. 27.—Three straight from the champions is the record of the trip, though as it is, Chicago has finished the schedule of 14 games with only five won. Nichols pitches invariably with speed and judgment, but somehow he is generally nosed out in Chicago. He had the shade over Thornton in this case, but two errors decided the game in one inning.

The score was 3 to 2, and that there was any score is only due to safe hitting. The one clean run was Boston's and on that the excitement hinged. It came in the ninth. Stahl, yielding to the coaching of the tireless Duffy, led off in the ninth with a single. The next two batters hit high in the air to left. Still Duffy did not despair. Nichols saved a game in Boston with a long hit, and it was his turn. His style of hit was not scientific, but he got away with it by making a hard poke, and the ball dropped a little way beyond Ryan's reach. Hamilton and his long bat made the early goers pause on the top landing in the stand. A fair base hit would tie the score, but it did not show. Hamilton sent a grounder across the diamond which Dahlen choked to death. Score:

Chicagoes .....0 0 3 0 0 0 0 0 0—3
Bostons .....0 0 0 0 0 0 1 0 1—2

Earned runs—Boston, 1. Left on bases—Chicagoes, 2; Bostons, 8. Two-base hit—Nichols. Double plays—Dahlen, Connor and Everett; Connor, Dahlen and Everett; Long and Collins. Struck out—By Thornton, 1; by Nichols, 3. Base on balls—Off Thornton, 1; off Nichols, 2. Time—1:40. Umpires—O'Day and McDonald.

Cunningham kept the Phillies' hits scattered, while the Louisvilles touched Orth up rather lively, and won, 5 to 3.

The series which was to have been played in Cleveland next week with the Bostons has been transferred to Boston. The outcasts go from home to play the Brooklyn team in Rochester, thence to Boston and from there to Cincinnati.

The Clevelands were unable to bat when men were on bases yesterday, while the New Yorks touched up Wilson smartly, and won, 8 to 1.

The Providences made a winning finish against the Syracuses yesterday after the New York team had apparently won the game at the start. Bunched and timely hitting and daring base-running in the seventh and eighth innings turned the tide of battle. Score: 10 to 6.

The Springfields batted Gannon of the Ottawas for 14 hits and 23 bases in five innings yesterday, piling up 16 runs. Horton relieved him in order to finish the game before dark.

Hart of the Pittsburgs did not give a hit until the seventh inning, but the five lucky hits that followed netted enough runs to win the game for the Brooklyns, 3 to 2.

The Baltimores could not hit Hill of the Cincinnatis, and were beaten as badly as they beat Thursday. Both McJames and Nops were wild. Score: 10 to 0.

Taylor of the St. Louis team was hit hard by the Washingtons, and the players gave him poor support. The senators' heavy slugging won the game.

Knights and Sisters.

Indianapolis, Aug. 27.—The supreme lodge of the Knights of Pythias adjourned last evening after having elected the following officers: Chancellor, Thomas G. Sample, Allegheny, Pa.; vice chancellor, Ogden H. Feathers, Wisconsin. The other officers will be elected today. The question of reducing the per diem of the supreme representatives to $3 a day and allowing them mileage at 3 cents came up again, and by an almost unanimous vote it was decided to put the figures back to the original $5 a day and 5 cents a mile.

The Rathbone Sisters elected the following officers: Chief, Jeanette B. S. Heubert, Kansas City; manager, Hattie Ryder, Indianapolis; mistress of records and correspondence, Mrs. M. D. Woods, Kansas City; mistress of finance, Mrs. Alexine Levay, Illinois; guard, Miss Maggie Hewitt, Portland, Me.

The order, after a spirited controversy, adopted an insurance feature similar to the endowment rank of the Knights of Pythias. The Sisters also voted to affiliate with the National Council of Women, and elected Ida M. Weaver of Boise City a delegate to attend the meeting in Omaha in October.

Continuance of Favorable Features.

New York, Aug. 27.—Business conditions in the main reflect the continuance of most of the favorable features hitherto dominating the trade situation in the more favored sections of the country. Unfavorable elements in the situation, as noted by Bradstreet's, are the reports of arrested or smaller than expected trade at eastern markets, more particularly in textile lines, lowered quotations and apparently less active demand from abroad for our cereal products and reduced prices paid for the south's great staple, raw cotton.

Business failures in the United States this week number 172, against 195 last week, and compared with 210 in this week a year ago. Bank clearings aggregate $1,249,609,000, smaller than those of last week by nearly 2 percent, but larger than those of the corresponding week a year ago by 19 percent.

Tomorrow's Almanac and Forecast.

Though it promises to be somewhat warmer again during the early part of the week, cooler and pleasant temperatures now seem certain to continue through Sunday, with fair, clear weather and light variable winds.

Sun rises—5:04; sets, 6:25.
Moon sets—1:22 a. m.
High tide—7:45 a. m.; 8:15 p. m.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 28. Comment by Rev. S. H. Doyle.

TOPIC.—"With your might."—Eccl. ix, 10; John iv, 27-35.

"Whatsoever thy hand findeth to do, do it with thy might, for there is no work nor device nor knowledge nor wisdom in the grave whither thou goest" (Eccl. ix, 10).

This exhortation of the wise man suggests to us what we are to do with our might and a reason why we are to do it.

1. What we are to do with our might, "Whatsoever thy hand findeth to do." We are to do what lies to our hands, what we have the opportunity and the ability to do. "Whatsoever" is both limited and comprehensive. It limits us to our abilities and opportunities. The impossible may be possible to God, but God does not expect impossibilities of man. But He does expect us to do what we have the opportunity to do. To dream of great impossibilities will not excuse us for neglecting or refusing to do the possible duties of life. "Whatsoever" is also comprehensive. It includes the duties of the schoolroom, the home, the business world, the work of God's kingdom and the work of developing the spiritual life of the man.

2. Why we are to do the work of life with our might. Because there is no opportunity to do it in the grave. This is the day of our opportunity. The night is coming when no man can work. If the work of life is done at all, it must be done now. This is a sad and melancholy reason for doing the work of life and for doing it well. Christ in John iv, 34, gives a much loftier reason. "My meat," He says, "is to do the will of Him that sent Me and to finish His work." It is God's will that we should do the work of life with our might. In so doing we are assisting in the work of God. Christians find another motive for doing the work of life with their might in the love of Christ, not so much their love for Christ as Christ's love for them. "The love of Christ constraineth me," says Paul, and the love of Christ should so constrain us as to make it impossible for us to do anything else than with our might, with all the power and energy of our being to perform the work and duties of life in all its relations. The work of life is worthy of the best we have to give. Success cannot be achieved under any other banner than "with our might." God expects and demands our best. Can we refuse to give it?

Bible Readings.—Deut. vi, 5; Zech. iv, 6; Math. xxv, 14-30; Luke xiii, 24; John ix, 4; x, 37, 38; I Cor. ix, 25-27; x, 31; xv, 58; Eph. iii, 14-21; vi, 10; Col. i, 9-11; iii, 17; I Pet. iv, 7-11; Rev. ii, 10.

The Test of Patriotism.

The real test of men and nations comes in quiet days. If then they are faithful, they are fit for sudden alarms and trying strain. If after the excitement has died out the soldiers are at home again, the ships put off their battle color and sail on peaceful errands up and down the highways of the sea—if then we as a people are ready to devote ourselves to the nation's highest good, these lives of brave men and these broken homes will not be too large a price to pay for the ends attained. But if patriotism dies with the excitement, if we are puffed up, not sobered, by the responsibilities that follow after victory, then our triumph will be of little avail either for ourselves or others. It is in peace that men prepare for war, and self devotion now will be of small avail unless it lives in quiet days as well as in excitement, unless the sense of duty that by the witness of the honor that we pay the dead befits the battle becomes the rule of home and mart, of social life and political activity as well. —Congregationalist.

The Vice of Unrest.

Unrest is not modern. It is as ancient as the carnal mind. Carnal unrest cannot be removed by resting from work. We cannot rest from worry till we are cleansed from carnality. Too many are too lazy now to need any exhortation to rest from work, even under the plausible guise of devoting working time to worship. We may pray too little, we may worry too much, but we can hardly work too much. Dr. Adam Clarke said that the old proverb about having too many irons in the fire was an abominable old lie. Have all in it—shovel, tongs and poker.—Christian Standard.

Church Attendance.

Is church attendance on the decline? So say some papers, and so say some preachers who happen to see the dark side of things in their own parishes. The question may be answered both ways. In some large cities it may be on the decline; in others on the increase. In some sections of our large cities it is falling off; in others it is growing. In congregations where the gospel is not preached in truth and in earnestness it declines; in congregations where the pastor delivers his gospel message as if it were sent direct from God it grows. —Lutheran.

Cheerfully Made.

A war of which no one can see the end is not to be undertaken lightly. But if war comes its sacrifices must be cheerfully made, its burdens patiently carried, and those who are responsible for its conduct be supported loyally and generously.—Christian Register.

The Best Life.

A Christian should be a striking likeness of Jesus Christ. You have read lives of Christ, beautifully and eloquently written, but the best life of Christ is His living biography, written out in the words and actions of His people.—Episcopal Recorder.

It Never Stops.

We sleep, but the loom of life never stops, and the pattern which was weaving when the sun went down is weaving when it comes up tomorrow.—Presbyterian Journal.

Two hearts can make a love affair, but it takes three, at least, to make a home, and one of them must be that of a baby. The young married couples that start out in life with the idea that children are nuisances, and that they do not want and will not have them, are the kind that you read about every day in the newspapers—in the divorce column. A home without children is not a home. God and Nature never intended that there should be a place called home that did not resound with the patter of childish footsteps.

There are tens of thousands of homes that are childless because of the ill-health of the wife and would-be mother. There are tens of thousands of other homes childless because the little ones have died almost as soon as they were born. In both cases Dr. Pierce's Favorite Prescription is a sovereign remedy. It acts directly on the delicate and important organs that make wifehood and motherhood possible. It makes them well, strong, vigorous, virile, and elastic. It does away with the dangers of maternity. It banishes the usual discomforts of the expectant period and makes baby's advent easy and almost painless. It insures the little new comer's health and an ample supply of nourishment. The prospective mother prepares herself for maternity by taking the "Favorite Prescription" and gives her child a fair start in life by giving it a strong and well developed body. Thousands of homes that were childless, to-day echo with babies' laughter, and bless this great medicine. Thousands of women who were weak, nervous, despondent invalids, are to-day happy, healthy wives and mothers because of this medicine. Medicine dealers sell it.

Constipation kills slowly—but it kills. Dr. Pierce's Pleasant Pellets cure it.

Political Calendar.

The Republican State Committee has issued the following calender, which will be of interest to local politicians:

September 27, 28—On one of these two dates the republicans of every city and town must hold caucuses for choice of delegates to the State, congressional, councillor, senatorial and county conventions, and except as in hereafter provided, for delegates to representative conventions, and for nomination of candidates for the general court.

September 30—Last day for appointing election officers in cities.

October 1—Last day for assessment in Boston.

October 4, 5—On one of these two dates caucuses for choice of delegates to a representative district convention or for nomination of candidates for the general court may be held.

October 6—10 A. M. Republican State convention at Music Hall, Boston. Registration opens in Boston in the several wards from 6 P. M. to 10 P. M.

October 8—Last day for registrars of voters in every city and town except Boston, to post in each voting precinct preliminary alphabetical list of voters. Last day for designating polling places.

October 10—Last day for holding conventions for nominating candidates to be voted for at large throughout the State, but certificates of nomination of candidates must be filed at the office of the secretary of State by 5 P. M.*

October 13—Earliest day for holding representative conventions.

October 15—Last day for appointing election officers in towns.

October 17—Nomination papers for candidates to be voted for at large throughout the State must be filed at the office of the Secretary of State by 5 P. M.*

October 18—Last day for petitioning for the appointment of supervisors of elections.

October 19—Registration closes in Boston at 10 P. M. Last day for registration in all cities. Upon this day every registry of voters must be kept open from 12 o'clock noon (in Boston from 9 A. M.) until 10 P. M.

October 20—Last day for holding conventions for nominating candidates for State officers not voted for at large throughout the State, but certificates of such nominations must be filed at the office of the secretary of State by 5 P. M.*

October 21—Nomination papers of candidates not voted for at large throughout the State must be filed at the office of the secretary of State by 5 P. M.*

October 25—Last day for filing complaint against incorrect and illegal registration in cities.

October 29—Registration in towns closes at 10 P. M.

November 1—Last day for filing vacancies among election officers.

November 4—Last day for filing complaint against incorrect and illegal registration in towns.

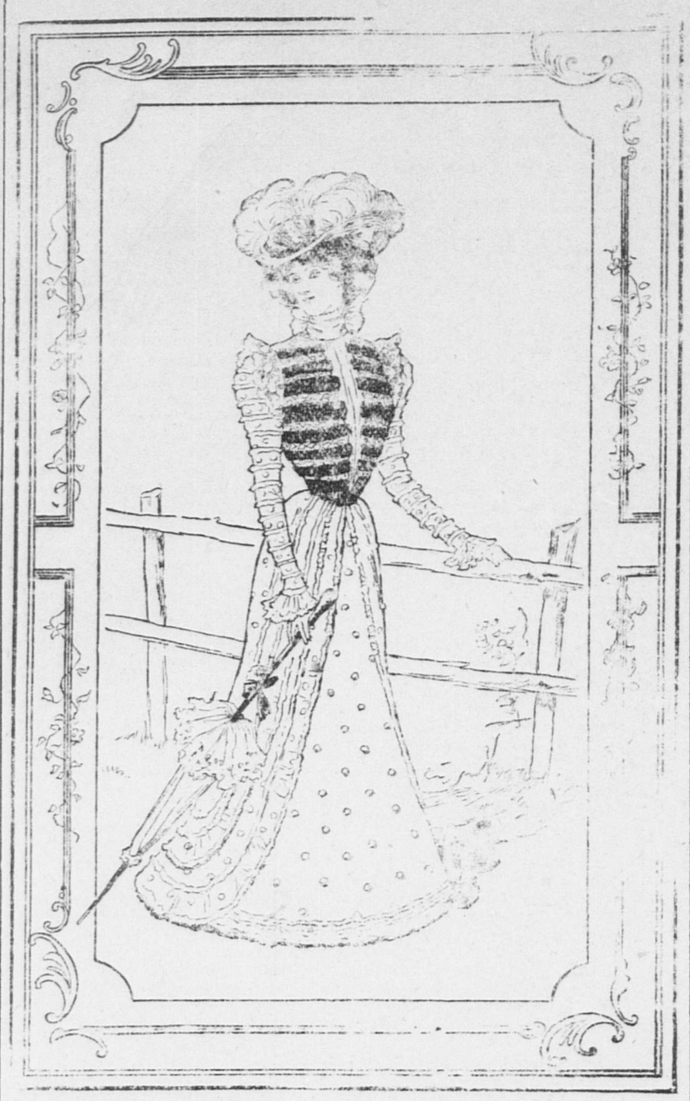

November 8—State election.

*Ojections to nominations must be made within the 72 hours after the last hour for filing nomination papers.

The late Sultan of Morocco used bicycles as instrumeuts of torture for any of the ladies of his harem who had had the misfortune to offend him. The unfortunate women were placed on the machines and compelled to ride round a marked track in the palace gardens. Naturally, they fell repeatedly to the ground, their sudden descent causing the sultan the greatest amusement. When they had rolled in the dust a dozen times the punishment was complete.

Iron bolts exposed to the action of rain water in bridges over the Thames have, in 25 years, been eaten away from an original diameter of five-eighths to one of five-sixteenths of an inch, which is a reduction in area of cross section of 75 per cent. Pres. Cochrane of the British institution of mechanical engineers thinks this largely due to sulphurous acid, as well as carbonic acid, washed out of the air by rain.

OUR WEEKLY FASHION PLATE.

EMBROIDERED MOUSSELINE DE SOIE GOWN FROM HARPER'S BAZAR

Gowns of embroidered mousseline de soie have been extremely fashionable this summer, and, as they always are made up on silk linings, will be quite warm enough for autumn wear. These gowns are too dainty as well as too elaborate for general use, and are only suitable to be worn in afternoon and evening. The smart costume shown in our illustration, taken from Harper's Bazar, is made of mousseline de soie embroidered with a chenille polka dot. The skirt in bell shape is trimmed with scant ruffles of the material, with a satin ruche at either edge; these ruffles are close together at the waist, but broaden out at the foot of the skirt, and go entirely around it at the back; across the front breadth there are three rows of the ruching.

The waist is very odd in design, made of heavy white lace and trimmed with straps of corded black satin, the bands of different sizes broader at the bust than at the neck or waist; thd belt, however, made also of the corded satin, is quite wide. The vest, stock-collar, and large bow at the back of the collar are made of plain white mousseline de soie. The sleeves are tight-fitting, and strapped with satin ruches from the shoulder to the wrist, with epaulettes of the heavy lace to match the body of the waist, while at the wrist are ruffles of finer lace.

The hat worn with this costume is of fine pale yellow straw trimmed with long ostrich plumes, and directly in front a rosette of black satin ribbon; under the brim, quite far back at the left side, is another satin rosette.

Castle Square Theatre.

For the coming week's attraction at the Castle Square Theatre the management has selected one of the best of Henry J. Byron's comedies "Partners for Life" which has held its favor with American and English audiences for over a quarter of a century. The play has a most interesting and amusing plot dealing largely with the embarrassing love affairs of Tom Gilroy, a young London Barrister. The cast announced is as follows:

Mr. Horace Mervyn, a country gentleman, J. L. Seeley; Tom Gilroy, his cousin of the bar, J. H. Gilmour; Muggles, his confidential servant. James C. Barrows; Sir Archibald Drelincourt, a philanthropist, Lindsay Morison; Major Billiter, on half pay, W. C. Masson; Ernest, Mervyn's nephew, Tony Cummings; Coppinger, from the colonies, N. H. Fowler: Emily Mervyn, a young cousin, Mary Sanders; Fanny Smith, her old schoolfellow, Frances Drake; Miss Priscilla, Mervyn's sister, Rose Morison; Darbyshire, her maid, Marian A. Chapman.

This play ends the production of the Summer season at the Castle Square Theatre, a season that has been one unbroken success, and one that has proved a source of keen enjoyment to thousands of those who remain in the city during the hot weather.

Boston Museum.

Roland Reed will begin his twelfth annual engagement at the Boston Museum, Monday evening next, August 29th, and as has been his custom for a number of years will present a new play. This season the piece selected is an adaptation from the German by Sydney-Rosenfeld, and called "A Distinguished Guest." Mr. Rosenfeld, on his recent tour through Europe, saw the play in Vienna, where it has been running for nearly a year. In localizing it, for its scene is laid in the United States, Mr. Rosenfeld has retained all the original humor of the German version, and has, of course, added much on his own account. The play affords Mr Reed the opportunity of appearing in a most unique role, a character entirely different from anything he has ever enacted, and one which gives great scope for his well known ability as a comedian. The story is most interesting and entertaining, and the complications provoke no end of laughter. The characters apart from that of Mr. Reed's are cleverly drawn and are of distinct types, and well fitted to his exceedingly strong company. Mr. Reed's engagement is for two weeks only, and the comedy will be given both weeks. Matinees will be given Wednesday and Saturday and a special matinee on Monday, Sept. 5th, Labor Day.

Blanco has issued a valedictory to his dear country of Cuba, advising them to be quiet, and submissive, to the United States.

SUNDAY SERVICES.

11th SUNDAY AFTER TRINITY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when possible. Let all churches be represented—Eds.]

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

Houghs Neck
ILLUMINATION
AND GALA DAY.

The 11th Annual Illumination and Gala Day of

Houghs Neck, Manet Beach, Great Hill, Fensmere Beach and Rock Island,

WEDNESDAY, AUGUST 31, 1898,

ALL DAY AND EVENING.

The co-operation of all the cottagers, business men and visitors is earnestly desired by the Committee to make this Illumination **the best one yet.**

It can be done if all will take hold and work for the general good. The committee have decided to retain most of the best features of former occasions, including:

BAND CONCERT,

Afternoon and Evening.

The Children's Festival with Free Ice Cream and Cake, and a Free Sail for all the Little Ones and Ladies.

A Grand Base Ball Game

FOR A SUITABLE PURSE.

Punch and Judy will make their appearance this year after a two years' absence.

GRAND DISPLAY OF FIREWORKS IN THE EVENING.

Several novel and interesting features will be added this year, including a

GRAND WATER CARNIVAL

in the afternoon, which will be in charge of a Special Committee, and will include races and general Aquatic sports, and if possible a game of WATER BASE BALL and a BLIND-FOLD DORY RACE, two interesting features which, it is believed will prove very interesting.

FOLLOWING IS A LIST OF THE COMMITTEES:

EXECUTIVE,—John Cavanagh, Chairman; A. H. Taber, Sec'y; W. W. Wilcox, Treas.; A. A. Meyers, W. H. Shaw, T. Downey, Jr., and A. H. Dunham.

SUBSCRIPTION,—A. Dunham, Chairman; J. L. Harvey, James Cavanagh, Henry Pierce, B. H. Bartlett, B. F. Macomber, Wm. Costello, W. H. Cavanagh, Wm. Slaunwhite, A. Braley, Frank Morse, John Milton.

SAILING PARTIES,—T. Downey, Jr., Chairman; W. H. Shaw, A. F. Reed, Frank Morse.

AQUATIC SPORTS,—A. A. Meyer, Chairman; Arthur Downey, Walter Harrison, George Gavin, W. H. Shaw, Arthur Cavanagh.

FIELD SPORTS,—A. H. Taber, Chairman: H. Darrow, Bert Carlisle, E. O'Toole, D. Coveney, Bert Harvey.

FIREWORKS,—A. H. Taber, Chairman; A. H. Dunham.

ICE CREAM AND CAKE,—J. Cavanagh, Chairman, who will be assisted by an able corps of ladies.

BAND CONCERT AND AMUSEMENTS,—A. A. Meyer, Chairman; T. Downey, Jr.

GENERAL ILLUMINATION,—Walter Packard, Chairman; W. H. Taylor, W. H. Cavanagh, W. H. Shaw, John Day.

Now let everyone lend a hand and make the annual illumination one long to be remembered.

A member of the Subscription Committee will call upon each store-keeper and cottager at an early date and will provide tickets for the sailing party and refreshments if desired to all who subscribe.

Full and complete programmes of all events will be issued as soon as the sub-committees can perfect their plans.

Cottagers and store-keepers are requested to light lanterns promptly at 7.30 P. M.

Ample police and fire protection will be provided to insure order and safety, but all are cautioned to have a good supply of water ready at hand.

COME ONE! **EVERYBODY WELCOME.** COME ALL!

If Stormy the Illumination wil be held the next pleasant day.

Aug. 27-1t

September Suggestions.

As September approaches we think of how to fix the house up to make it cosy for winter. A new carpet on a floor will change the whole appearance of a room. Some rooms only need a mat or two and other rooms need a handsome rug or art square to add warmth or richness.

It is easy to select one for any place after inspecting our assortment.

HENRY L. KINCAIDE & CO.,

SPAIN IS STILL AT WAR

Why Sagasta Proposes to Gag the Deputies.

No Debate Until Peace Is Concluded.

Requests For Documents Not to Be Acceded to For the Present.

Madrid, Aug. 29.—The premier is quoted in the course of an interview as having made important statements, declaring that it was the government's intention to repress the discussion of war topics in the cortes. He said that as soon as the cortes met, the government would submit a bill authorizing peace negotiations, and next a measure relating to the suspension of the constitutional guarantees. Although Sagasta did not state the nature of this measure, it is supposed that it will provide for the continuation of the suspension.

"The government," said the premier, 'will not discuss in any form the questions of peace and war. Indeed, the deputies would be entirely lacking in the material necessary for a discussion. The debate could not be based on concrete, positive facts, founded on indisputable documents, since the necessary information has not yet arrived. I believe that no discussion of the surrender of Santiago and Manila will occur, nor of the destruction of the Spanish fleet unless trustworthy data and exact proofs are to hand. Moreover, no discussion is permissible of matters at present under consideration by the supreme councils of war and marine. Mistakes or blunders may have been committed, but thus far we have not sufficient material to judge.

"Another reason why questions of peace and war should not be discussed is that diplomatic negotiations are now being carried on; and a debate on these subjects might be provocative of undesirable complications. It must not be said that peace is signed and discussion is now allowable. Peace is not signed. Spain is still at war with the United States. The two nations have merely concluded a suspension of hostilities in order to negotiate peace. These negotiations may be brought to a successful issue; but it might happen that hostilities will be recommenced.

"That is why I think the cortes will only be able to dicuss strictly necessary questions—that is, to make itself acquainted with the situation of the interests now at stake, which are so important for the nation, but not to engage in debate which would assume such proportions as to infringe upon the discretion which the gravity of the case requires of the cortes.

"Should they ask to have presented the documents containing the surrender of Santiago and Manila and the destruction of the fleet now in the government's possession, the government would not accede to the request. These papers are in the hands of the supreme councils, which alone, before the preclamation of peace, can conduct inquiries and establish responsibilities. The inquiries may result in acquittals or severe sentences; even the capital penalty."

Robledo, the Weylerite leader, declares that he will strongly oppose Sagasta's plan of suppressing debates in the cortes. If the government refuses to divulge official documents on the war, he says he will utilize reliable press reports.

Other opposition leaders are of the same mind.

Cuban bonds are buoyant owing to the belief that powerful European pressure, both diplomatic and financial, will be brought to bear to compel America to oblige Cuba herself to recognize some of the Cuban issues.

What Mr. Alger Says.

Washington, Aug. 29.—Secretary Alger defends the administration of his department. He places the blame for the horrible condition of camps on the shoulders of the officers in charge of those camps. The secretary says that neither he, the surgeon general, nor the commissary general should be held responsible and that it is an outrage to blame them. He declares that they have filled every requisition that has been made, and every necessity or luxury that has been asked for has been granted.

The secretary hopes that congress will investigate all the charges made. He would order an investigation himself, but fears the people would say that it was made by interested persons. He was indignant at the charges made against him, saying: "We have an army of 250,000 in the field, scattered from Manila to Porto Rico, and yet the press of the country seems to think that the secretary of war should locate every camp and dig every sink for the men. It is ridiculous."

Boynton Found Nothing.

Washington, Aug. 29.——A few days ago Secretary Alger issued an order to General H. V. Boynton, now at Chickamauga park, to make a thorough and searching investigation of all the hospitals in Camp Thomas and to report instantly any lack of attention to the inmates, any inefficiency in the medical offices or any need of supplies of whatever kind. General Boynton's attention was directed to the sensational charges made by one Dr. Terry against the conduct of the hospitals at Camp Thomas, and he was urged to make a prompt report of the exact conditions as he should find them. Sunday night the following telegram was received by Adjutant General Corbin: "Have completed investigation of hospitals under secretary's orders. Result exceedingly favorable in all essential features. The facts effectually dispose of all recent sensational adverse criticisms, etc." The results of the investigation afforded the officials of the war department great satisfaction.

Camp Meade All Right.

Middletown, Pa., Aug. 29.—The health of Camp Meade is splendid, there being less than 20 cases in the general hospital. With the exception of 15 cases of typhoid fever none is serious. The typhoid cases are being treated by the female nurses at the Red Cross hospital. Eighty patients from the two Missouri regiments were taken away from here in a Missouri hospital train, which was met at Harrisburg with 50 more patients from the Camp Alger hospitals.

Troops Homeward Bound.

Santiago de Cuba, Aug. 29.—The Roumanian left for Montauk Point this morning with 650 sick men of the Seventy-first New York, Second and Ninth Massachusetts, the Second regulars, the Tenth cavalry and the Sixteenth and Twenty-first regiments. The condition of the men is extremely bad, the disappointment over the delays in getting them away having greatly affected their spirits. Ambulances were found to be necessary to convey most of them to the steamer.

Three transports went to Guantanamo, Baracoa and Sagua for the Spanish prisoners there. The condition of these men is distressing, and it is probable that death will claim nearly half of them before they reach Spain. Their condition is the result of hard living and the prevailing fever. The rations and medical aid sent from Santiago were practically too late.

Upon the arrival of a Spanish major recently it was discovered by accident that he had several trunks filled with silver jewelry, valuable articles and money, evidently the result of looting the houses of residents during the confusion attendant upon the El Caney exodus. Large amounts of money were carried away by Spanish officers. At one house where eight Spanish officers were living there was received a large trunk which contained two bushels of silver and gold, which represented about $20,000. The soldiers have only received a small sum from our government for tobacco and other small necessities.

Two Soldiers Sacrificed.

Birmingham, Aug. 29.—Two enlisted men of the Sixty-ninth New York volunteers were instantly killed, one was fatally injured and six were seriously hurt in a wreck which occurred on the Louisville and Nashville near here last night. The killed are: Peter Farley, company G, New York city; Peter Glennan, quartermaster sergeant, company G, a nephew of Colonel John Duffy. The fatally injured is Sergeant Manning.

The train was carrying the Sixty-ninth to a new camp in Huntsville, Ala. It left Fernandina, Fla., at 1 o'clock Saturday afternoon, three or four hours after the time set for its departure. It was going at a high rate of speed when the engine and tender jumped the track, derailing five cars, which rolled down a steep embankment. The soldiers claim that the train was running too fast around a curve.

Fall River's Greeting to Jackies.

Fall River, Aug. 29.—The Prairie, with a portion of the Massachusetts naval brigade on board, including over 60 from this city, came up the bay Sunday afternoon, and anchored below the wharves just at sunset. She was immediately surrounded by a flotilla of small boats, and the young men on board were heartily cheered. The Prairie had not been at anchor many minutes before a number of boats put off for the shore with over 70 liberty men.

A tremendous crowd greeted the young sailors as they stepped ashore, and, notwithstanding the Sabbath, a procession was at once formed and marched through the principal streets, with tremendous cheering on all sides, while redfire glared all over the city. At the city hall a short address was made by the mayor, and then they all dispersed to their homes, the New Bedford men taking electric cars direct to that city.

They Died In Cuba.

Boston, Aug. 29.—The bodies of Majors Grady and O'Connor, Corporal Lane and Private Carey, late of the Ninth Massachusetts regiment, laid in state all day Sunday beneath the crape canopies of the east armory, while over 25,000 people of all classes filed slowly by, with many a sigh and oftentimes tear for the men who fought and died in far away Cuba. On the caskets, and, in fact, banked on all sides was a profusion of flowers such as is seldom seen in this city, and the entire display is said to have cost nearly $15,000. All but O'Connor were buried today.

Rough Rider's Suicide.

New York, Aug. 29.—Private Harry Duval of the rough riders committed suicide Sunday by shooting himself in the temple at Camp Wikoff, Montauk Point, L. I. The shooting took place in the guardhouse, where he was under arrest. Duval had been absent from camp for 13 days without leave of absence, and feared to face the court-martial. He enlisted from Arizona and was considered an excellent trooper. He will be given a military funeral by his comrades.

Berlin, N. H., Aug. 29.—The blowing out of a valve in the digester at a mill of the International Paper company yesterday fatally scalded Martin Lydeon and severely injured Peter Materson. Lydeon was carried home, where he died a few hours later. He leaves a wife and four children. Materson will recover.

Tomorrow's Almanac and Forecast.

Sun rises—5:06; sets, 6:22.
Moon sets—3:57 a. m.
High water—10 a. m.; 10:15 p. m.

The weather Tuesday seems certain to continue fair and pleasant. It will be warmer, probably, with temperature near or above 80 degrees, and continue warm for several days, though at this time no extreme heat is indicated. Southerly winds will prevail except where sea breezes may occur.

A SPASM OF MORALITY

Sabbath Observance as It Operated In Cleveland.

Doors of the News, Cigar and Candy Stores Closed.

General Dispensing of Intoxicants Conducted Behind Screens.

Cleveland, Aug. 29.—Cleveland had a spasm of a very peculiar kind of morality yesterday. Nearly every cigar store, news stand and candy store was closed, most of the druggists sold nothing but medicines on prescription, and restaurant keepers refused to sell cigars. Yet the saloon keepers as usual, with little pretense of keeping closed, did a rushing business through side doors behind screens. The cause is the resentment of the few merchant tailors and clothiers whose clerks a short time ago induced the Retail Salesmen's union to cause the arrest of those clothiers who kept their stores open on Sunday mornings, thereby depriving their employes of part of their weekly day of rest.

This movement spread to the butchers and the grocers, and then the aggrieved clothing dealers, no more than a dozen in number, decided to make the Sunday labor law obnoxious by compelling its rigid enforcement upon everybody. They hired an attorney, who caused the arrest of a few cigar dealers and newsstand keepers last week. Then he announced that all such places would be watched, and those who violated the law would be arrested. The Cigarmakers' union volunteered to help make the law obnoxious by sending spotters out. The result is that nearly all of those whose business comes under the provisions of the old law closed their places as a matter of precaution. It is announced, however, by the constables engaged in the work that about 40 warrants will be issued.

Six Are Dead.

Ware, Mass., Aug. 29.—With the death of John Scott, 6 years old, the list of fatalities of an accident at Whiting's crossing, where a train dashed into a barge Saturday night, is increased to six. The names of the dead are: George Whiting, 50; Jesse Whiting, 18; Sadie Whiting, 20; Albert Rich, 16; George Whiting, Jr., 13, and John Scott, 6.

According to the account of the accident by a survivor there was no warning of the coming train. Nobody heard the whistle or the bell, and the shock of the engine threw the occupants of the barge right over a fence into a field. There is a gong at the crossing, and a flagmen is stationed there nearly all day, but it has been his custom to leave just after the mail train, which precedes the local, or "scoot" train—the one that struck the barge—goes by. It is said that the gong has not been in working order for sometime. The crossing has long been looked upon as a dangerous spot, if left without safeguards, as the road and tracks come together near a curve, and also from the fact that the approaches of the road are bad.

Mr. Whiting, who drove the barge, purposely waited until after the time when the "scoot" train was due, but the train was late. In speaking of the accident, Engineer Parker said that the whistle was blown and the bell rung before the train reached the crossing.

Irish Secret Societies.

Milford, Mass., Aug. 29.—Father Cuddihy, whose 67 years' service ranks him as the oldest Catholic priest in the United States, spoke Sunday against the Irish secret societies in a sermon reviewing the last century of Ireland's history, the progress of liberty in that country and in Poland, and of education in the United States.

"Daniel O'Connell," said he, "did more for the emancipation of the Irish people than all the physical force men put together. The young men here should call their societies after O'Connell rather than after Emmet, as he did more for their forefathers. Whatever emancipation Ireland got came from the time O'Connell got Catholic emancipation, which gave representation for parliament, and through that other things followed. Ireland is so situatel that it will be almost impossible to free it by force. More rights can be got from England by agitation than by force of arms. The Catholics should discard Wolfe Tone, discard Emmet, discard Fitzgerald and such and adopt men like O'Connell. You will never gain any advantage by brute force or recourse to arms.

SECOND PLACE.

By Winning Two Games Cincinnati Takes the Lead From Boston.

Boston, Aug. 29.—Boston is in second place in the league race today, Cincinnati having taken the lead by winning two games from the Pittsburgs yesterday. As it stands, it is anybody's race, Cincinnati being but four points ahead of the Bostons, who lead the nine from Baltimore by but one point—as close a race as has been witnessed at any time during the past few seasons. Boston's drop is not only due to the superior playing of the Cincinnatis the past week, but to the poor ball put up by Selee's men on the western trip.

The club returns to Boston on Wednesday, the games scheduled for Cleveland having been transferred to this city. The transfer is due to the poor support given the Cleveland club at home, and if playing at home counts for anything the Bostons should make a better showing.

The National league standing is as follows: Cincinnatis, 637; Bostons, 633; Baltimores, 632; Clevelands, 591; Chicagoes, 563; New Yorks, 560; Philadelphias, 472; Pittsburgs, 467; Louisvilles, 293; Brooklyns, 287; Washingtons, 364; St. Louises, 281.

The Clevelands have won 22 out of 25 games with the Washingtons, Louisvilles and St. Louises.

The Montreals and Wilkesbarres are having it nip and tuck in the Eastern league, and Toronto is by no means a bad third. The Springfields had a glorious chance to profit at the expense of the Syracuses and Providences at the expense of the Wilkesbarres, but the visiting aggregation proved to be too fast.

The Brooklyns have been retired three times with but one hit this season, once with no hits, once with two hits, twice with three hits and four times with four hits.

Saturday's winners were the Chicagoes, Clevelands, Pittsburgs, Cincinnatis, Baltimores and Louisvilles.

Two lucky drives in a sun field with men on bases, rapped out by Morse and Knight, scored runs enough for the Ottawas to win the game at Rocky Point Sunday. It was a pitching battle, in which Evans of the Providences had hard luck in having a couple of fly balls get safe with men on bases when they would ordinarily have been caught and the side retired.

Arthur Irwin will probably handle the Washington team next season.

The Louisvilles defeated the Washingtons yesterday in a slow and uninteresting game, 5 to 3. Anderson's fielding was the only feature.

The Baltimores took two games from the St. Louis club Sunday. Gannon, a local twirler, pitched the first game and had the Baltimores guessing for a while. He received poor support. Manager Hurst umpired in the second game owing to the illness of Emslie.

Luck was with the Brooklyns yesterday. Powell, the Clevelands' pitcher, was given seven new balls during the course of the game, while the opposing pitcher did not get one. The Clevelands made a great effort to win in the ninth, and scored three runs on a double, a base on balls and two singles.

The Cincinnatis again took the lead in the league race by beating the Pittsburgs two games. The first was a walkover, while the second the Pittsburgs would have won but for costly errors.

A large crowd saw the Chicagoes regain fifth place yesterday in a poorly played game. Doheny of the New Yorks was very wild, hitting two men, passing seven to first (five of them scoring), was batted hard and most miserably supported. Callahan was hit hard in two innings only.

At present it looks as if the Brooklyns would finish eleventh, leaving the last place for the St. Louises. The tailenders, like the Chicagoes, have had lots of hard luck in the injuries to players, and it has set them back considerably, but at best the team was not of the calibre to cope with first class teams.

Makers of the Queer.

Washington, Aug. 29.—Chief Wilkie of the secret service has been notified of the arrest in Chicago of Bartholemew Awallone, who had in his possession counterfeit notes on the bank of Italy. He had advertised for an active young man to assist him in passing these notes among the Italians of Chicago and was consequently arrested. The notes are printed from wood, on a poor quality of paper, and were arranged with a cigar advertisement between the two notes printed on the same sheet. He said that they were intended for advertising purposes, but by cutting the sheet properly the advertisement could be removed and the notes then assumed the appearance of the genuine. The workmanship on the notes is very poor.

Five men, who are said to belong to a gang that has been passing quantities of spurious coin for some time, are locked up in New York. Their names are John Cranitch, Henry Flanning, Max Pilgard, Alfred Day and Edward McCarthy. The specific charge against the prisoners is making and passing counterfeit 25-cent pieces, but it is said they have made and passed coins of other denominations.

A Conflict Expected.

London, Aug. 29.—A special dispatch from Shanghai says it is stated there that the Chinese minister at St. Petersburg has reported to his government that in his opinion the China question will precipitate a conflict between Great Britain and Russia. This state of affairs, he says, is owing to the British ambassador presenting a note at St. Petersburg of such a peremptory nature, demanding freedom of enterprise in regions where Russian influence is supposed to predominate, that Count Muravieff cannot accept it. The Chinese minister, indeed, expects that a conflict will certainly break out before the end of the year.

The Boat Capsized.

Rockland, Me., Aug. 29.—Edward B. Bryant of Camden was drowned by the capsizing of a boat while returning to his home from the islands. He was in company with two other men, who were saved. Bryant leaves a widow.

Grand Opening Sale
— OF —
200 Choice House Lots
— AT —
SQUANTUM PARK.
On LABOR DAY, Monday, Sept. 5,
commencing at 2 P. M., will be offered some of the choicest building lots ever shown near Boston. The land is high and overlooks Dorchester bay on the west, with magnificent views of the city of Boston, Milton hills and Boston harbor. Squantum park is only 3 miles from the State House and is reached by trains on the Old Colony R. R to Atlantic station; 87 trains a day, of which 37 are express, 11 minutes' ride, 8-cent fare, connecting with electric cars direct to Squantum park, or take steamer every half hour from Marine park to Squantum park, or take electrics from Boston and suburbs to Neponset bridge, where the Quincy & Boston electrics connect for Squantum park. The high elevation of the tract we shall offer commands fine views of the surrounding country and ocean of a magnitude that baffles description here. It being the only remaining tract within easy access of Boston, of a high order of excellence not already on the market, and would long ago have been occupied had the owners elected to subdivide it; this fact is highly important to the contemplating purchaser, as the opening sale of a new tract never reaches prices easily obtainable upon further development. If you are looking for a home or land for investment, why not come out to this grand opening sale? Take 11.30, 12.30 or 1.30 express trains at the O. C. R. R., Kneeland St, Boston, for Atlantic. Band concert, refreshments from 12 to 2 o'clock at my auction tents on the land. Sale positive, rain or shine, commencing at 2 P. M. Four auctioneers and 15 attendants will make a good ime in disposing of the 200 lots. Don't miss this sale. One or more of my clerks will be on the land, or at my branch office at the Squantum Inn every day from 1 to 8 P. M.
Aug. 27-7t sep3-1w

Special of Council.
A special meeting of the City Council has been called by Mayor Sears for Thursday evening, Sept. 1. Among the matters to come before the meeting will be the drawing of jurors and to take some action relative to an appropriation for maintenance of the Sewer system.

Flag Day at Honolulu.
Capt. F. A. Dow of Quincy Point sends the Ledger a copy of the "The Pacific Commercial Advertiser," published at Honolulu, Hawaiian Islands. It is of the date of Aug. 13, and is a souvenir number of twelve pages, with an account of the celebration attending the change of flag with pictures of President McKinley, Sanford C. Dole, Harold M. Sewall, Admiral Joseph N. Miller, and Walter Murray Gibson, and the statue of Kamehameha I. There is an historical chronology of annexation in 45 paragraphs, a sketch of the first ruler in Hawaii, sketches of the flag of Hawaii, and "Old Glory," and a long sketch of Honolulu as it appears to the eyes of visiting Americans.

Moonlight Sail and Hop.
The popularity of the moonlight sails and hops given by the Wollaston Yacht club was shown by the large gathering of members and invited guests at the club house Saturday night last. Sailing was indulged in by those preferring that pleasure to dancing, while others remained in the hall and kept Mr. Wilson busy at the piano. By ten o'clock all boats were tied up for the night and the merry parties had joined those on shore in dancing.
Among the strangers present were Mr. and Mrs. J. L. Perkins of Roxbury; Miss Mary Brown, teacher in one of the public schools of Quincy; and Miss Amanda Crouch, clerk in the Brockton post-office. Informal moonlight sails and other pleasures will be indulged in the present week.

The Hustler First.
The fourth handicap of the Q. Y. C. was sailed off the club house on Saturday afternoon with a good wholesail breeze from the W. N. W. The starting gun was fired at 3.30 o'clock. The Dorothy was the first boat to cross the line. The Hustler soon gained the lead and held it throughout the race, coming in first on elapsed time, as well as on corrected time. This gives her practically a cinch on the silver cup. Her percentage is 350; Chatham, 250; Dorothy, 200; Thisbe, 150; and Kitty, 100.
The summary:

Name and owner.	Corrected time h. m. s.
Hustler, C. C. Collins,	1 23 47
Dorothy, F. F. Crane,	1 24 03
Chatham, George H. Carey,	1 26 32
Thisbe, H. W. Robbins,	1 29 53
Vision, E. H. Doane,	1 30 29
Kitty, J. A. Evans,	1 38 33

Judges—Secretary Whitney and Mr. Geo. W. Jones.

The fire sale opened today at Hancock hall.

Stock for Sale.
100 Shares of stock in a Boston company that has paid a 10 per cent. dividend the past 12 years. Will be sold at par, $100 a share. Good chance for any one wishing a good income. Address P. O. Box 25, Atlantic.
Aug. 27. 6t

GRAND CLAMBAKE.

Many City Officials at Sewer Department Outing.

The Sewer department of the city held a grand clambake on Saturday afternoon at Pawsey's Rock Island farm, which was greatly enjoyed by a large party, numbering over one hundred. The guests included Mayor Sears, City Clerk Cleaves, Tax Collector Baker, Commissioner Knowlton, Dr. Jones of the Board of Health, Sewer Commissioners Shea and Jones, Engineer Branch of the Sewer department, ex-Sentor J. F. Merill, ex-Chief Engineer P. J. Williams, ex-Postmaster Burke, Supt. B. J. Weeks of the street railway and others. The bake included all the good things such as clams, lobsters, cicken, and corn which was, served steaming hot. When it was announced that the bake was ready no second invitation was required, and for an hour or more everybody was kept busy.

After everybody had their fill of the good things some sports were inaugurated to settle the dinner. First came a tug of war between teams captained by M. E. Shea and W. D. Burns. Shea's team won the first two heats and was awarded the cake.

A game of ball was then started between nines captained by Dr. Jones and W. T. Shea. During the fifth innings the ball was knocked into the swamp and lost. This necessitated the calling of the game, the score being 21 to 11 for Shea's nine.

Aside from the sports there was fancy dancing by William McGann, who is said to be 84 years of age, John Dadey and Peter Walsh. Music for the dancing was furnished by John Henry on a flute.

All this served to make the afternoon pass in a pleasant manner, and it was the universal opinion that this, the first outing, should be continued annually.

AT CAMP DALTON.

The Fifth Excluded from the Cavalry Quarters.

Camp Dalton,
Monday, Aug. 29.

Today the 1st battalion composed of companies A, L, E and G, is off as an escort at the funeral of Maj. Grady. It is under command of Lieut. Col. Weaver.

Saturday was a very pleasant and a busy day in camp. The Saturday inspections are getting more and more strict and woe be unto him who has not everything in perfect shape. Co. K in its new position on the right of the 2d battalion is the first to be inspected. This change brings the inspection one hour earlier or at eight o'clock instead of nine.

Some of the boys were up long before reveille polishing brasses and cleaning guns. Every gun, pair of shoes, tent, mess kit, drinking dipper, button and belt are thoroughly inspected and on that occasion Saturday morning the only fault found with Co. K, was with one gun. This is a good record and Major Morrison highly complimented the boys on the fact. At 3 o'clock Saturday morning, Troop A of the Cavalry arrived on the grounds. A little the worse for wear, as the night was so black that it was impossible to keep the horses in the road at times. Several horses received severe bruises on the march.

At noon Troops F and D arrived.

After dinner a heavy guard was mounted to keep visitors and the Fifth boys out of their camp until settled.

Their appearance is very good although they are not tough and hardened like the boys of the Fifth. They will put in a steady week of drill which will no doubt do them good. This year they do their own cooking, but they don't eat any of "Armour's prize" salt junk.

Saturday evening the dress parade was given at 5-45, the cavalry taking no part. There were large numbers of visitors present and a fine parade was given. Everyone did his best with head erect and the long swinging step of the trained soldiers.

The canteen is running wide open again in its new position. It is a change for the better as their is better opportunity to keep it clean. Permanent help have been put in and dressed in white duck they present a natty appearance. Capt. Clare being a practical plumber, put in a drain and connected the place with the water pipe

It was deemed necessary to erect an extra tent in connection. This was put up to the left, and chairs and tables placed under its shelter. Two men are kept busy taking care of this extra tent. In all ways the change has been for the best.

Private Faxon of Co. K did so well with the base drum on the march Thursday that he will probably be transferred to the band. There is some rivalry for this position but Randall will win.
MACK.

Marion Mills, the guidless pacer who has been seen at the Brockton fair fell on Friday last on a Rochester course and died Saturday.

WAS FIRED UPON.

Allie Williams Writes of a New Experience.

Allie Williams of Wollaston writes his father under date of Aug. 9 the following from Key West.

Key West, Aug. 9, 1898.

Just received your letter written July 22d also two bundles of Ledgers and other papers, and two little books. I will have Quincy news and a lot of it to read now.

The last letter I wrote to you was on August the 5th. The Woodbury took it. We had orders to look out for an 11-inch battery on our patrol. That night at 9.30 we saw an object down the beach. We put in after it and found it was an old hulk that we had passed many times.

On Saturday, Aug 6, at 7 A. M., I was in my state room, when I heard firing and the call to quarters. I rushed on deck and stood by the guns. I had never heard a good sized shot talk before. The way they whizzed over us was fun. We pulled off shore a little and my gun and the after gun pumped into them. We could not see them. Could only see where they were. They fired but ten shots after we opened on them. We were within one hundred yards of shore, and being so near saved us. Their line shots were all right but their elevation was all wrong. Every shot went over us. We steamed passed them in the afternoon but found no life there.

At 3 P. M. went to the flagship and reported short of coal and were then ordered to Key West. I had the first watch that night. At 11.30 P. M. I sighted a sail two points to starboard, reported it and bore down for it and found that it was the "Minana" a barkentine from Prince Edward Island. We spoke her and her captain said that she was for Triper, Liverpool. Our captain ordered her to heave to. I called the lieutenant, and helped lower the port boat half way waiting for the officer. I went on the bridge with the captain. We heard the boatswain's mate talking about who was going to board her. I guess the captain thought it about time for some one to board, so he said "jump in Al!" and we pulled over and boarded and found her all right. She had a cargo of log wood.

3 A. M. My watch below. We passed another vessel but she never stopped for us and went right across our bow. I guess that she was all right. She spoke but we never could have caught her in a chase (we couldn't catch a cold). Arrived at Key West at 8 A. M. on Sunday the 7th and laid in the stream. Yesterday we pulled into the wharf. Had no liberty ashore but three went ashore last night, and the captain saw them up town and drove them aboard and had them put in double irons. The carpenters are putting a six-pounder aft. I don't see what good it will do if the war is over as we may go out of commission, but expect no such good news as this ship ever going any where.

I don't know what will be done with us, we may go back to Cuba I will write again as soon as I have a chance.
ALLIE WILLIAMS.

Won by F. M. Coe.

In giving a report of the great bicycle race at Norwood Saturday last, we find the following in a Boston paper which will be of interest to many Quincy people.

In one of the hottest 10-mile road races ever run in Massachusetts, F. M. Coe of Atlantic finished first of 155 starters, half a wheel ahead of second man, J. Cartwright the Natick flyer. The course record established by L. N. Walleston, was lowered ten seconds by A. W. Chamberlain of Roxbury, who took first time prize and sixth position. Seldom has a faster ten miles been run over Massachusetts roads. The men were strung out in bunches ten seconds apart, which made the first part of the race exceedingly lively till the low mark men had worked up into the bunch.

The finish between Coe and Cartwright for first position and the racing wheel that went with it, was the prettiest of the year. The two, who had clung together almost from the start, were wheel and wheel 100 yards from the tape. They fought hard down the straight, until just as the tape was reached, Coe gave one dig and pushed his front wheel over a foot in the lead.

H. W. McCabe of Quincy and W. J. Cornell of Wollaston started in the race but dropped out on account of accidents.

Coe has always been considered a very strong man on the road and to come in first in such a large field of crack riders shows that he must have pluck and a cool head. His prize was a high grade "White Flyer" and a Keating wheel carried him to his victory.

Coe is captain of the Beacon club, Boston, and a large delegation from that club were present to give him a royal reception when he crossed the tape a winner.

The Lynn Yacht club will have an open race on Labor Day off Bass Point.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Miss Helen Sibley of Wollaston is at Wenham.

Mrs. Auna Blaisdell is taking a much needed rest at Gardner.

Mrs. Ellen M. Miller has gone to Sharon for her health.

Mrs. George Monk is enjoying the sea breezes at Brant Rock.

Mrs. Warren Arnold is rusticating at Onset Bay for a few weeks.

Miss Lizzie Gibson entertained Miss Davis of Cambrdge, Sunday.

Mr. James B. Pollock of New York is spending his vacation in this city.

The bay at Quincy Point, called Fore River, was full of small sail boats yesterday.

Bicycle riders were crossing the Quincy Point bridge yesterday in military file.

Rev. and Mrs. Preston Gurney of Wollaston have returned from their outing in Maine.

The engagement is announced of Miss Gertrude Gould of Newcomb street and Mr. James Barnes of Elm place.

Masters George and Mryon Stebbins came home last week from a two months' visit in Woodstock, Conn.

A beautiful day Sunday. The wind changed to the east in the afternoon making it cool for trolley car rides.

Mrs. John A. Pratt and son, Walter, are to move today from Granite street to Washington street, Quincy Point.

Lovers of flowers should call at the residence of N. B. Furnald and see his large display of astors and marigolds.

A large delegation from this city it going to Highland Park tomorrow, to the outing of the Stoughton Musical society.

Mr. and Mrs. A. E. Linnell and family have returned from South Orleans where they have been for the past month.

P. J. Cray of West Quincy, who has done considerable umpiring in the New England league, is umpiring in the Eastern league.

Col. W. B. White has gone on a month's tour to New Mexico. The employes of the firm wish he may have a successful trip.

The leading yachts in their class in average percentage in open races are: Meemer, Hermes, Bud, Privateer, Duche, Katydid and Jilt.

The Wollaston Golf club visited Lowell Saturday and played a return match with the Vesper Country club. The home team won 13 to 4.

Eben Stanwood was captain of the Manchesters which won the aquatic base ball match with the Beverly Farms team at Manchester, Aug. 25.

A hole has been cut through the wall under the main stairway leading from Commissioner Knowlton's room for a safe for the Sewer department business.

The Chinook was fifth by corrected time in the large class of Raceabouts at Marblehead on Saturday, the Jilt, Sintram, Spendrift and Fancy outsailing her.

Several young people of Quincy enjoyed the gala day of the Hull Yacht club on Saturday. The sports were a great success, and the ball in the evening was largely attended.

Saturday was a good day all around, and most all the merchants in town felt the benefit of the clear cool day. At the concert crowds were in attendance, and all cars going in different directions were crowded until the last piece on the programme was finished.

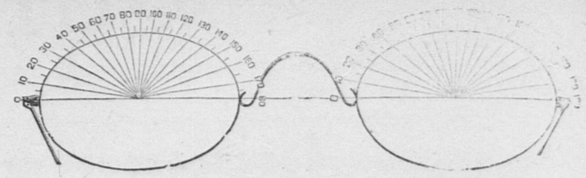

The National Guard band assisted by a vocal soloist gave another open air concert in City Square Saturday night, the attendance being the largest of any given thus far this year. The weather came up cool and many went home before the concert was finished.

A little son of Mr. Fortune of Taylor street, Wollaston, while playing on the second floor of an unfinished house on Saturday afternoon slipped and fell to the floor below. He was removed to Dr. Adams' office. No bones were broken, but he was badly shaken up.

Mr. and Mrs. Alva Polk and son Hadley, have returned from Wiscassett, Sheepscott Bay, Maine. Mrs. Polk took her bicycle along with her, but after a very brief ride on the day of her arrival at Wiscassett, she had the silent steed carefully packed away in the hay mow and there it remained for two months until she left for home. Mrs. Polk is very fond of riding the bicycle, but not in Wiscassett, Maine. The roads (?) please don't mention them.

DIED.

DUGGAN—In Atlantic, Aug. 27, Mrs. Ann Gilligan Duggan, widow of John A. Duggan.
WALLIN—In Quincy, Aug. 27, Mr. John A. Wallin of 18 Kidder street, aged 48 years, 3 months and 25 days.
HAYDEN—In Braintree, Aug. 27, Mr. Edward B. Hayden, aged 66 years and 4 days.

ASTIGMATISM
Causes most of the distressing headaches. Properly fitted glasses will correct the error and remove the pain. Consult
WILLIAMS,
Member of the New England Association of Opticians,

Impregnable Difficulties.

Editors of the Daily Ledger:

The terrible suffering which our brave soldiers have gone through excite the deepest pity. The papers are full of complaints charging the officials with neglect and incompetency. There is no doubt but what there was terrible privation; there is no doubt whether it was not due in large part, to the enormous difficulties which always attend the forwarding of supples, rather than to the incompetency of the officials, who have been so repeatedly criticised.

There is one significant fact apparent throughout all the complaints; to wit, that in every instance the one who so bitterly complains is a volunteer and not a regular, who are more familiar with the difficulty of forwarding supplies, and hence less anxious to criticise, as they know from personal observation or experience what the actual difficulties of forwarding the necessary supplies are.

It would be interesting if some of our veterans of the Civil war would write the Ledger and inform the readers if the same scarcity of food and hospital supplies did not exist during the Rebellion, and whether it was not as much due to utter impossibility, as to neglect or incompetency.

The regulars are inured to the hardships of actual warfare, and familiar with the difficulty of forwarding rations and supplies to the front in the front in the face of a climate and transportation facilities such as existed in Cuba, hence they bear the sad but inevitable privations of war without complaint.

It seems to the writer that much the same state of affairs must have existed in the Civil war, and that the authorities have been blamed in most instances, for not surmounting difficulties which were simply impregnable.

SHAMROCK.

A Naval Cadet.

Miss S. H. Hussey was pleasantly surprised on Sunday to receive a visit from her nephew, William Hussey of New York who is a naval cadet. He is with the auxiliary cruiser Badger, now at Boston. The Badger did patrol duty on the New England coast early in the war, and then went south. She was at Key West July 1, and on the Forth of July was on the blockade before Havana, and assisted in the destruction of the Alfonso XII, was later on the blockade of Puerto Principe, and still later before Santiago, being the flagship of the Eastern squrdron Aug. 13 to 16. The Badger brought Michigan Voluntees to Montank Point.

Sans Souci.

The Sans Souci presented a strong bill thi week. Arthur Dunn and Mamie Gilroy, the little comedian and the petite soubrette, in their comical sketch, "The Actress and the Bellboy," kept the audience in roars of laughter. The appearance of Richard Harlow in the gorgeous gowns of the "Daisy Queen of Spain" was the signal for tremendous rounds of applause, and it must be confessed that he never made a more brilliant appearance.

The programme for the coming week is more promising than ever, headed as it is by John C. Rice and Sally Cohen in the delightful melange of singing, dancing, music and comedy entitled "Our Honeymoon." Other big features are Al H. Wilson, the great Dutch comedian; the Darling sisters, singing and dancing girls; Harding and Ah Sid, the Chinese laundry acrobats; Fanny Bloodgood, merry soubrette; Mlle. Olive, Clements and Marshall with their cute pickaninny, who were such an immense hit, that they are retained for another week.

Quincy Post Office.

Letters remaining uncalled for August 29:

F. P. Alexander, C. E. Bosquet, John Brown Aug. Carlson, R. E. Cushing, Rinalto Carunschi, Arthur C. Dennis, Austin Dennis, J. H. Erickson, Hermon Honola, Fidelis Macdonald, G. Macchi.

Miss Minnie G. Matherson of East Weymouth and Mr. James Miller of Magantic, Canada, were united in marriage August 22, at the residence of the bride's father Chas. H. Mathewson at East Weymouth. Rev. Daniel Evans of the Congregational church officiated. Mr. and Mrs. Miller will reside in Arlington.

Mr. and M. C. A. Randall of East Weymouth are receiving congratulations on the birth of a girl.

Mrs. Peter W. French and daughter Bessie of East Weymouth are touring along the coast of Maine.

Extensive repairs are being made on the Athens school, North Weymouth, preparatory to the fall term, by C. H. Chubbuck, carpenter.

Mr. Walter Pratt has bought out the grocery store owned by Mrs. Ellen Pratt.

A lawn party was held at Mr. John Inkley's last Thursday night, August 25. A very pleasant evening was spent. A very dainty lunch was served.

TODAY'S COURT.

Edward Dwyer was sent to the House of Correction for thirty days for drunkenness at Weymouth.

Charles Foy was fined $5 for drunkenness at Milton.

John E. Shatzel was arraigned for assault on John Hannon at Quincy. The case was placed on file.

The continued cases of Joseph W. Whitcomb and Levi Budreau for drunkenness at Quincy were called and they paid a fine of $5 each.

The continued case of F. J. Peterson, Jr., for the larceny of a horse from Charles T. Cresser at Milton was heard. He was found not guilty and was discharged.

The continued cases of Bengt. S. Wallin and Charles A. W. Ehainkein, for violation of the liquor law at Quincy, were called, and were again continued until Saturday.

—"Attention, Comrades!" The Fitchburg R. R. is the low rate line to Cincinnati and the Annual Encampment of the G. A. R.

With the Regular Army.

The following letter was received by Mr. John G. Cahill of East Weymouth from his brother, William P. Cahill who is serving in the 7th U. S. I. at Camp Hobson, Lithia Springs, Ga.

Camp Hobson, Lithia, Springs, Ga.
Aug. 22, 1898.

I presume you feel a little put out with me for not writing you before this late day. My excuse is that stamps are scarce and I had but a small supply, and was obliged to wait for money to buy more. Well John, what did you think when you heard that I had joined the army? Did you think I had "don gone" a full fledged fool? If you thought so, you hit it just about right.

Now that the war is over we won't see any fighting unless we have to fight the Cubans. We may be sent to Cuba to take the place of the poor sick fellows who are being sent home. I hope we will be sent there for then we will at least get something better to eat than we get here. We will be in barracks and that will be an improvement over sleeping in tents and laying around on the ground.

We thought first that when the war was over that we would be discharged but we are in the regular army and may have to serve out our term of three years.

This is a long way from home, John, and you cannot imagine how eagerly we watch the mails for letters and papers. Jim wrote that he would send me a box of things, so if you have any good books or story papers you will confer a great favor by sending them along in the same box. To receive a box or package means a great deal to us.

We had a pleasant time coming down here. We stopped over eight hours in Washington visited the capitol, White House and saw what we could of the city itself and then took the train for a 650 mile ride arriving here on Sunday about 5.30 P. M.

We did not get our suits or guns for two weeks and before receiving them we looked like hoboes, such as you see marching up from Bradley's occasionally.

We drill twice a day, an hour and a half each time, and the rest of the time we lay around and get lazy. I don't know just how I will act if I ever get home, I won't be able to sleep in a decent bed, it will be too soft a thing for my constitution. And as for eating, why I don't believe I will ever stop when once I get started in good earnest. The stuff you people throw away is better than what we get to eat here.

But I have made up my mind that so long as I am in it, I will accept what is put before me and not kick.

W. P. CAHILL.

Echoes of the War.

In Spain they say peace is by no means certain.

It is estimated that 25,000 people paid their respects to Majs. Grady and O'Connor, Corp. Lane and Private Cary at the East Armory, Boston.

There are about 80 deaths a day at Santiago.

The auxiliary cruiser Prairie arrived at Fall River Sunday with a portion of the Massachusetts Naval Brigade aboard.

Good Swimming.

Benjamin F. Thomas and Allie Colburn, two young men of this city, swam on Thursday afternoon last, from the point off the National Sailors' Home across the bay to Mr. Burkhart's at Squantum. The distance is estimated at four miles. A rowboat accompanied the swimmers so as to rescue them in case of cramps, etc.

—Springfield this year has a tax rate of $13.80, with a valuation of $64,446,260.

Terrifying Negroes In Texas.

Dallas, Aug. 29.—A reign of terror exists all over northern Texas among the negroes. They are flocking to Dallas for protection. The whitecaps in Denton, Rockwell, Grayson, Kaufman, Fannin, and other counties are to blame. Outrages have been perpetrated in numerous places during the last 30 days, including whipping and shooting negroes for various criminal offenses and blowing up of half a dozen or more houses with dynamite.

The negro districts and suburbs of Dallas are crowded with strangers. Chief of Police Cornwell says there are nearly 2000 strange negroes here. The police and sheriff's departments find this race problem a difficult situation to solve. Robberies are increasing, but the officers believe most of them are the work of white thieves, who reason that the crimes will be charged to the strange negroes.

Some farmers say that many of the whitecap notices are posted by designing negroes who have lived long in certain places and desire to create a panic among their race so as to make a scarcity of cotton pickers, and thus advance the price of picking.

Was Sitting on the Track.

Bangor, Aug. 29.—Last night an electric car of the Bangor, Orono and Old-town railway ran over Edward S. Dore of this city, a blacksmith, aged about 50 years, who was sitting on the track, killing him almost instantly. He was seated in the shadow of a tree and the motorman did not see him until the car struck him. Dore's back was broken, his left arm badly mangled and several deep cuts were made on his head. He was a veteran, and leaves a son and three young girls, his wife having recently died.

Shot Caused Death.

Kineo, Me., Aug. 29.—Paul Peter, whose sanity is questioned, shot John Smart during a quarrel Saturday, causing a wound from which the injured man died Sunday. It is said that the men had been drinking, while Peters claims that Smart and another guide named Bridge had abused him all day Saturday. Both men avoided each other as much as possible, but late in the day they met in the guides' house, and, after a few words, the shot was fired.

Unlid zi g the C inese.

London, Aug. 29.—A dispatch to The Daily Mail from Shanghai says it is reported there that the Russians at New Chwang are trying to compel native owners of land to sell their holdings at absurdly low prices; and that in consequence of this the Chinese are on the verge of an anti-Russian outbreak. The local mandarins are, so to speak, between the cross fires of the Russians and natives, and are helpless.

The Great Ink-ubator

For Hatching Out Business Is the Daily Ledger.

AN IDEAL CONDITION.

That of Europe Abandoning the Policy of Militarism.

Russia's Ruler In an Extraordinary Role.

Pleads For the Release of the People From an Oppressive Burden.

London, Aug. 29.—Czar Nicholas of Russia has prepared a proposition for an international conference for the purpose of securing a real and lasting peace among the powers, and the termination of the progressive increase in armament. It has been conveyed in a note from Count Muravieff, the Russian foreign minister, to the foreign diplomats in St. Petersberg. The document is likely to produce a sensation throughout Enrope, and coming from such a quarter and with such evident sincerity of purpose, is likely to have important effects. There is no doubt that with Russia taking the lead in such a step, Germany, France and the other nations will be ready to follow.

COUNT MURAVIEFF.

The text of the note follows: "The maintenance of general peace and the possible reduction of the excessive armaments which weigh upon all nations present themselves in existing conditions to the whole world as an ideal toward which the endeavors of all governments should be directed. The humanitarian and magnanimous ideas of his majesty, the emperor, my august master, have been won over to this view in the conviction that this lofty aim is in conformity with the most essential interests and legitimate views of all the powers; and the imperial government thinks the present moment would be very favorable to seeking the means.

"Interrational discussion is the most effectual means of ensuring all people's benefit—a real, durable peace, above all, putting an end to the progressive development of the present armaments. In the course of the last 20 years the longing for general appeasement has grown especially pronounced in the consciences of civilized nations; and the preservation of peace has been put forward as an object of international policy. It is in its name that great states have concluded among themselves powerful alliances. It is the better to guarantee peace that they have developed in proportions hitherto unprecendented their military forces and still continue to increase them, without shrinking from any sacrifice. Nevertheless, all these efforts have not yet been able to bring about the beneficent result desired—pacification.

"The financial charges following the upward march strike at the very root of public prosperity. The intellectual and physical strength of the nations' labor and capital is mostly diverted from its natural application and unproductively consumed. Hundreds of millions are devoted to acquiring terrible engines of destruction, which, though today regarded as the last work of science, are destined tomorrow to lose all their value in consequence of some fresh discovery in the same field. National culture, economic progress and the production of wealth are either paralyzed or checked in development. Moreover, in proportion as the armaments of each power increase, they less and less fulfill the object the governments have set before themselves.

"The economic crisis, due in great part to the system of unlimited armaments, and the continual danger which lies in this massing of war material are transforming the armed peace of our days into a crushing burden which the peoples have more and more difficulty in bearing. It appears evident that if this state of things were to be prolonged, it would inevitably lead to the very cataclysm it is desired to avert, and the horrors whereof make every thinking being shudder in advance.

"To put an end to these incessant arming off the calamities which are threataments and to seek the means of wardening the whole world—such is the supreme duty today imposed upon all states. Filled with this idea, his majesty has been pleased to command me to propose to all the governments whose representatives you are accredited to the imperial court, the assembling of a conference which shall occupy itself with this grave problem. This conference will be, by the help of God, a happy pr age for the century which is about to open. It would converge into one powerful focus the efforts of all states sincerely seeking to make the great conception of universal peace triumph over the elements of trouble and discord, and it would, at the same time, cement their agreement by a corporate consecration of the principles of equity and right whereon rest the security of states and the welfare of peoples."

Opinions of London Papers.

London, Aug. 29.—The Graphic says of the proposal: 'It would be idle to attempt to ignore the many and grave difficulties standing in the way of the attainment of the czar's wishes, but it cannot be possible to doubt the sincerity of the magnanimous proposal."

The Times says: "If Russia, which has also a great, but still undeveloped industrial future before her, is becoming fully convinced, as we in England long have been, that her resources are better devoted to the beneficent arts of peace than to the destructive uneconomic energies of war, Englishmen, as essentially a peace loving people, can only hail the czar's pronouncement with the utmost cordiality as glad tidings of great joy, which, whatever may be the practical issue, does cast honor upon that sovereign's generous and lofty spirit and humanity. The difficulties are great, but nothing can henceforth deprive the czar of having brought peace and disarmament into the sphere of practical politics."

The Standard says: "In England at least respect and sympathy will be felt for the proposal. It is a conception well worthy of the young sovereign. It is painfully obvious that there are enormous difficulties to be overcome which it is possible the czar, in his ardor and humane enthusiasm, has not maturely considered. It is a vision which has occurred to many minds, but has always had to be dismissed as a mere dream. The nations are not likely to cast away the sword unless they have better warrant than paper protocols and conventions. Moreover, the moment does not seem altogether propitious. New armed nations are arising in Asia and America whom it might not be easy to convince of the safety and desirability of abandoning the enterprises on which they have embarked with so much energy."

The News of Beantown.

Boston, Aug. 29.—Annie Conley is at the Massachusetts general hospital, suffering from serious burns about the arms, limbs and body. Later Sunday her husband was taken into custody, and the police started an investigation to ascertain the cause of the woman's injuries. Both Conley and his wife, while admitting that they had a quarrel, claimed that a lamp exploded and set fire to Mrs. Conley's clothing. A search of the premises brought to light a club, smeared with blood, while there was no sign of any lamp having exploded.

The body of an unknown man was found in a vacant lot in Cambridge Sunday morning. A deep wound in the throat and a common jackknife clutched in the right hand showed that the man had taken his own life.

"Minnie Nina," 25 years old, a snake charmer, whose name off the stage is Mrs. Frank Travers, was bitten by a rattlesnake which she was handling Sunday at a place of amusement on Washington street, and died after six hours' of agony. She visited the place to look over a new lot of snakes, and while she was handling the reptiles, one of them viciously struck at her, and succeeded in fixing its fangs in her right thigh.

Ten persons were thrown into the cold waters of the lower harbor and had a narrow escape from drowning as a result of the collision of the Juanita of the Merchants and Miners' line and the sloop yacht Wahneta. Two of the yachting party were seriously injured.

President In Pennsylvania.

Somerset, Pa., Aug. 29.—President McKinley came to Somerset to pass a restful Sunday, and he certainly accomplished that purpose. The weather was delightful, and the president took advantage of it. He rose early, and passed an hour walking about the town with his brother. Here and there he met an old acquaintance and stopped for a short talk. The president's determination to attend the morning service at the Methodist Episcopal church became known early. At the close of the benediction, the president left the church with his brother, walking directly to the latter's home.

A few minutes later, the president, Mrs. McKinley and Mr. and Mrs. Abner McKinley entered the latter's carriage and passed sometime in a drive to the country.

While the president was sitting on the porch, an aged German, who probably retains some favorable impression of pomp of the fatherland, was driving past. Noticing the president, he pulled his horse up suddenly and said loud enough to be heard a square away: "Why, Mr. President, you don't look like the rulers in the old country. You don't wear a crown, and you dress just like other men."

Stabbing In Providence.

Providence, Aug. 29.—During a discussion between Neapolitans and Sicilians last night Geraldo Lunadizzi, 27 years old, was probably fatally cut and Michael Rossi was painfully injured by an Italian, who is still at large. The men had quarreled over some subject not known. Of the men who saw the trouble, not one will acknowledge knowing the name of the assailant.

While half a dozen men were talking together, one suddenly pulled a knife and stabbed Lunadizzi in the abdomen. The others also piled on the injured man until Rossi, who boarded in the house where Lunadizzi lives, went to his rescue. Then the man turned on Rossi and cut him in the back. After that he ran through an entry and made his escape.

The neighborhood is one where several murders and serious affrays have occurred in past years. The police are searching the city for the assailant, with apparently small chances of immediate success.

NEWS IN BRIEF.

Three more members of the First Maine volunteer regiment died at the hospital in Portland.

The aspect of affairs between Chili and Argentina in connection with the boundary dispute is greatly improved.

Official returns show that the Choctaw-Chickasaw agreement was ratified by the two nations at the election by a large majority.

Theodore Moran, 18 years old, was drowned in East Greenwich, R. I. He was riding a horse in the water and was thrown over the animal's head.

No agreement has yet been reached with Aguinaldo of the Philippines upon any subject, although circumstantial rumors are current that everything has been settled to the mutual satisfaction of those concerned.

The funeral of Lieutenant William Tiffany of the rough riders took place in Newport this morning, the body being removed from Boston. The services were conducted by Rev. George William Douglass, D. D., of Grace church, New York, in the absence of Bishop Potter.

Always a good assortment at our branch store, 105 Water street.

Quincy, June 18.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

C. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

TELEGRAPHIC.

3 O'CLOCK.

MILES VS. OFFICIALS.

Another Contribution to Controversial Literature.

Case For the Commanding General Made Stronger.

Dispatches Produced to Support His Contention.

Was Recognized as the War Department's Chief Representative.

Kansas City, Aug. 30.—Monday The Star printed interesting telegrams that passed between the war department and Generals Miles and Shafter on the points at issue between them, as described in an article from the pen of J. D. Whelpley, the paper's correspondent in Porto Rico. The second contribution to the controversy is designed to meet the charge that the interview was a fake.

"Doubt is expressed by some," says Mr. Whelpley, "as to whether General Miles ever said the things I credit him with. Others suggest he may have said them in confidence which was betrayed. I feel confident," continued the correspondent, "that General Miles will stand by the interview referred to. My interview was not confidential. I went to him as a newspaper reporter for the avowed and expressed purpose of securing an interview. There was no reservation from publication in the conversation. This is proven by his refusal to answer some questions which he otherwise would have answered. There was no hint of confidence. In this instance, however, no question of veracity need arise. General Miles himself, even if he so desired, could not conceal the proof of all he said. It is written on the records of the war department, and it needs only a clearing away of inconsequential matter to tell the story clearly and in full.

The article says in part: "It needs only a glance at the official records of the war department to show each of these charges to be true, and to throw much additional light on the situation. That he was in command of the entire army when he was in Washington is of course evident. That he did not resign this supreme command when he went to Tampa, and that it was he who was treating with the Cubans for cooperation in Cuba, is shown by the numerous telegrams exchanged with General Garcia. The war department recognized Miles as chief when he was in Tampa, for June 12 a telegram was sent to him from Washington, which began: 'The following extract of a telegram from Admiral Sampson to the secretary of the navy is repeated for your information,' etc. No man who was at Tampa when General Miles arrived from Washington ever will doubt his supremacy, because all others, including General Shafter, became at once mere creatures at his beck and call. When General Shafter went to Cuba and General Miles returned to Washington, the latter did not resign his control of the situation, but on the contrary, kept in close touch as possible by wire with the movements of Shafter's command.

"July 4 General Shafter sent the following dispatch, addressed to the adjutant general: 'There seems to be no reasonable doubt that General Pando succeeded in entering Santiago last night with his force, said to be about 5000 men. This puts a different aspect on affairs, and, while we can probably maintain ourselves, it would be at the cost of very considerable fighting and loss. General Lawton reports that General Garcia, who was to block the entrance of Pando, informed him at 10 o'clock last night that Pando had passed in on Cebra road. Lawton says he cannot compel General Garcia to obey my instructions to place themselves in any position where they will have to fight, and that if we intend to reduce Santiago we will have to depend alone upon our own troops, and that we will require twice the number we now have. I sent a message to Admiral Sampson asking if he proposed entering the harbor, so as to give us his assistance. Commodore Watson replies that he does not know Admiral Sampson's intentions since the destruction of the Spanish squadron, but does not himself think the fleet should try to go into the harbor of Santiago. This, under the circumstances, is not very encouraging.'

"It was this situation which determined General Miles to go to Cuba. The day he sailed with reinforcements, July 7, he sent the following dispatch from Washington: 'Shafter, Santiago: Take every precaution against surprise, and be on the lookout that the enemy does not turn your right flank and come in on the line of your communications. Reinforcements are being sent forward as rapidly as possible, but you will have to be the judge of the position you are to hold until reinforcements can reach you.'

"General Miles sailed for Cuba. On July 11 at noon he reported his safe arrival to the war department, and at once assumed charge, reporting to the secretary of war. All of the subsequent business of the surrender was entirely in his hands, as shown by the fact that the war department communicated with him direct, not even mentioning Shafter's name in the numerous dispatches. The following dispatch is an excellent example: 'Major General Miles: You may accept surrender by granting paroles to officers and men, the officers retaining their side arms. The officers and men after parole will be permitted to return to Spain, the United States assisting. If not accepted, then assault, unless in your judgment an assault would fail. Consult with Sampson and pursue such course as to the assault as you jointly agree upon. Matters should be settled promptly.

"'R. A. Alger, Secretary of War.'

"This dispatch recognized Miles as commander and gave him authority to act. Shafter was entirely ignored. In the face of this situation, Secretary Alger, through General Corbin, sent a dispatch to General Shafter, assuring him that General Miles did not come to Cuba to supersede Shafter in any way. This dispatch General Miles refers to as 'secret,' for he says he did not know it had been sent, not being notified from Washington, and General Shafter saying nothing about it. After the surrender, General Miles still retained control. He authorized Shafter to appoint peace commissioners, and, judging from Shafter's report that all was over, he instructed him as to the disposition of the troops."

"July 15 General Shafter wired General Miles that the surrender was not as complete as he thought, and said: 'Please do not go away with the reinforcements, as I may need them.' Miles promptly replied by wire from Baiquiri that the surrender 'is complete' and the Spaniards 'must surrender.'

"On July 16, General Shafter wired General Miles that the surrender was finally complete and General Miles replied as follows: 'The commanding general is very much gratified to hear that the surrender is complete. He directs that you telegraph anything of importance and the condition of your command daily.' General Miles then reported the condition of affairs to the secretary of war, with whom he had been in conference.

"In one of his telegrams to General Miles Secretary Alger says: 'As soon as Santiago falls, the troops must all be put in camp as comfortable as they can be made and remain, I suppose, until the fever has had its run.' General Miles did not agree with Alger, for on July 21, in a letter, the general commanding urged the return of the army to the United States as soon as possible.

"July 17, after the surrender was complete, General Shafter wired as follows to General Miles: "Letters and orders in reference to movement of camp received and will be carried out. No one is more anxious to get away from here than myself. It seems from your orders given me that you regard my forces as a part of your command. Nothing would give me greater pleasure than serving you, general, and I shall comply with all your requests and directions; but I was told by the secretary that you were not to supersede me in command here.'

"General Miles very promptly replied as follows: 'Have no desire and have carfully avoided any appearance of superseding you. Your command is a part of the United States army, which I have the honor to command, having been duly assigned thereto and directed by the president to go wherever I thought my presence required and give such general directions as I thought best concerning military matters, and especially directed to go to Santiago for a specific purpose. You will also notice that the orders of the secretary of war, of July 13 left the matter to my discretion. I should regret that any event should cause either yourself or any part of your command to cease to be a part of mine.'

"In view of the situation as revealed by the above telegrams, the following statement contained in the New York Herald of recent date is quoted: 'If my cablegrams to Major General Shafter informing him that Major General Miles was not sent to supersede him in supreme command of the troops in the field at Santiago de Cuba prevented the storming of the city on the day of its surrender, thus resulting in the saving of lives, which otherwise would have been lost in the attack, then I am repaid for sending it a thousand fold. My cablegram to General Shafter was simply due to my desire to assure him that I intended to be absolutely fair. Before his departure from Washington, General Miles and I had talked the matter over, and he started for Cuba, knowing that he was not in any way to interfere with the operations which were under the control of General Shafter. That there could be no doubt whatever, I cabled General Shafter, informing him that General Miles had left for Cuba with instructions not to in any manner supersede him as commander of the troops in the field at Santiago de Cuba, and, as I have said, if my message prevented a battle on the morning of the day the city surrendered, then I am repaid a thousandfold.' Surplus After Expenses.

Washington, Aug. 30.—Adjutant General Corbin has received the following telegram from General Shafter, under date of Santiago: "I have today transferred all business relating to customs to Major General Lawton. There has been collected, with the exception of a small amount in July, $102,093. Salaries of officials and all expenses including street cleaning, city officials, police, etc., have been paid to date, leaving over $90,000 in the treasury. The expenses of the customs house have been cut down from $40,000 per annum to $28,000, and that in time can be materially reduced. These collections are all made under the minimum tariff, including a large reduction in tonnage. The economy and celerity which have characterized the business of the customs house have been brought about in a great measure under the supervision and good management of Donaldson."

Big Day For Boston.

Washington, Aug. 30.—Boston will be treated Friday morning to the most magnificent marine spectacle ever witnessed in its harbor. It will be in the form of a naval parade, the details of which were completed at the navy department. They exceed even the fine program which had been previously arranged. The ships will rendezvous in Provincetown.

Surgeon Without a Heart.

Cleveland, Aug. 30.—The train bearing 260 sick soldiers of the Eighth New York regiment of volunteer infantry reached Cleveland last night in charge of Captain Lindhein, an assistant surgeon. There was a crowd of at least 2000 in waiting, including the ladies of the Cleveland war relief board with delicacies and the members of the staffs of nurses and physicians of the Union street and Lakeside hospitals. The intention was to take any of the soldiers who were in a dangerous condition to the hospitals. The ladies at once served milk, chicken broth, eggnogg and food to the sick men, the nurses washed some of the bedridden boys and made them more comfortable, and the doctors passed through the train examining the men.

The physicians found several typhoid fever cases in which the temperature had passed the danger point, and they asked for permission to take the patients to the hospitals. The temperature of one man was 105 degrees. Captain Lindhein refused. The ladies added their pleadings, as did Captain Tillson of the army recruiting office in this city, who has been a regular army officer for 24 years. Lindhein positively refused to let any of the soldiers go, however, despite the stern warning that some of the men would probably die on the train within a few hours. The feeling of the men on the train against Lindhein is very bitter. A few of the sick soldiers wandered through the cars delirious from the effects of fever and the big doses of quinine they had been given.

Hobson at Santiago.

Santiago, Aug. 30.—The Seguaranca arrived yesterday, bringing Lieutenant Hobson, who will superintend the efforts to float the sunken Spanish cruisers, Cristobal Colon and Maria Teresa. Lieutenant Hobson had a reception from General Lawton, with whom he will be quartered while in Santiago. The Seguranca brought also Captain Leigh and 40 of the signal service corps, who will relieve Colonel Greene. Work will be begun at once on the military telephone and telegraph lines along the coast of eastern Cuba. The Seguranca brought a cargo of fresh beef.

A whole battalion of the Fifth regiment, brought by the Knickerbocker from Tampa, has been placed in the hospital vacated by the Spaniards, yellow fever having appeared. The Knickerbocker has been quarantined. She touched a small Cuban port on her way from the United States and was not inspected at Tampa. Seven cases of the fever have developed.

A large quantity of government supplies, left here by the commissary department, will be distributed among the poor. General Wood said yesterday: "It seems impossible that such destitution could exist after the work of the Red Cross society, the government officers and inspectors; but I find extreme distress in the lower quarters of the city, and am giving orders to have all cases relieved upon a medical certificate of necessity. Large quantities are being distributed."

Disposed to Be Harsh.

London, Aug. 30.—A dispatch to a news agency from Manila says: "The friction between the Americans and the natives requires exceptional ability to avoid total alienation. I find that several high American officials of mediocre education are utterly unacquainted with oriental ideas, and are unable to understand the primitive races. Most of the Americans are deficient in patience, and numerous misunderstandings intensify the friction. I believe the Americans intend to be harsh.

"The American censor absolutely prohibits the sending of a single word about the Cavite incident, and threatens to expel any correspondent who mentions it. The affair began in a drunken American shooting, and native sentries tried to arrest him. In consequence of the melee four natives and one American were killed, and it is now generally misreported as being a deliberate inauguration of hostilities. General Merritt has returned their arms to the natives who fired upon the Americans. The natives assert that Aquinaldo forced General Merritt to liberate them and return their weapons. The Americans condemn General Merritt's course."

The same correspondent cables that the Americans are only "partly patrolling the town. The residential suburbs are full of armed insurgents, and several vendettas have been reported. The inhabitants are greatly alarmed. There was firing in the streets of San Miguel last night. The insurgent troops Sunday attended mass, fully armed, and patrolled the principal residential suburbs."

PROGRAMME

11th ANNUAL

ILLUMINATION & GALA DAY

... AT ...

Houghs Neck, Manet Beach, Great Hill, Fensmere Beach and Rock Island,

WEDNESDAY, Aug. 31, 1898.

(If Stormy, First Pleasant Day.)

ALL DAY AND EVENING.

Sailing Parties.

The day's festivities will begin at 10 A. M. with the Sailing Parties, which will last till about 2 P. M. The committee have secured the steam yacht Athlete, Capt. Norcross. The Q. Y. C. have kindly allowed the use of their float.

Ice Cream and Cake.

Ice Cream and Cake will be served in Cavanagh's Hall, beginning at 11 A. M. and continue until 2 P. M. The committee respectfully requests that a loaf of cake be sent to the above hall between 8 and 10 A. M. from each cottager. Remember children love cake.

FIELD SPORTS.

COMMITTEE,—A. H. Taber, Chairman; Bert Carlisle, D. Coveney, Bert Harvey, E. O'Toole, H. Darrow.

These sports will be held in a field near the corner of Bell St. and Centre Road, and will consist of:

100-yd. Dash, Potato Race (10 potatoes) Pie Eating Contest, Shoe Race, Egg Race, Hop Step and Jump, 1-2 Mile Race, Three-Legged Race, Sack Race, Greased Pole. Field sports to begin at 1 P. M. sharp. Each boy must furnish his own equipments. Entries must be made to Bert Harvey. Two suitable cash prices will be given for each event.

WATER SPORTS

at 3.00 in Silver Springs at Fensmere Beach. This amusement will consist of the following, for which cash prizes will be given: Fancy Swimming, Tub Race, Wheelbarrow Race, Blindfold Dory Race, Walk the Greased Pole, Swimming Race, Water Base Ball..

COMMITTEE,—A. A. Meyer, Chairman; Arthur Downey, Walter Harrison, Geo. Gavin, W. H. Shaw, Arthur Cavanagh.

BASE BALL.

An interesting game of ball will be played between the Jordan, Marsh & Co. of Boston and the Tubular Rivet and Stud Co. of Quincy for a purse of $20. A private purse has also been hung up which will insure a game which all should see.

FIREWORKS.

Commencing soon after dark a fine exhibition of pyrotechnics will be given on Rocky Point Island in Silver Springs at Fensmere Beach. The sloping sides of Great Hill will afford an excellent place for those who desire to witness it.

☞ Punch and Judy will amuse the children from 11 till 5 P. M. in a nice shady place. The children (and some older ones too) will surely find the spot.

☞ The NATIONAL GUARD BAND will give afternoon and evening concerts at different places on the Beach.

☞ All cottagers and store keepers are requested to light lanterns promptly at 7.30 P. M.

EXECUTIVE COMMITTEE,—John Cavanagh, Pres.; A. H. Taber, Sec'y; W. W. Wilcox, Treas.; A. A. Meyer, A. H. Dunham, T. Downey, Jr., W. H. Shaw, W. H. Cavanagh. 30-1t

September Suggestions.

As September approaches we think of how to fix the house up to make it cosy for winter. A new carpet on a floor will change the whole appearance of a room. Some rooms only need a mat or two and other rooms need a handsome rug or art square to add warmth or richness.

It is easy to select one for any place after inspecting our assortment.

Grand Opening Sale

— OF —

200 Choice House Lots

— AT —

SQUANTUM PARK.

On LABOR DAY, Monday, Sept. 5,

commencing at 2 P. M., will be offered some of the choicest building lots ever shown near Boston. The land is high and overlooks Dorchester bay on the west, with magnificent views of the city of Boston, Milton hills and Boston harbor. Squantum park is only 3 miles from the State House and is reached by trains on the Old Colony R. R to Atlantic station; 87 trains a day, of which 37 are express, 11 minutes' ride, 8-cent fare, connecting with electric cars direct to Squantum park, or take steamer every half hour from Marine park to Squantum park, or take electrics from Boston and suburbs to Neponset bridge, where the Quincy & Boston electrics connect for Squantum park. The high elevation of the tract we shall offer commands fine views of the surrounding country and ocean of a magnitude that baffles description here. It being the only remaining tract within easy access of Boston, of a high order of excellence not already on the market, and would long ago have been occupied had the owners elected to subdivide it; this fact is highly important to the contemplating purchaser, as the opening sale of a new tract never reaches prices easily obtainable upon further development. If you are looking for a home or land for investment, why not come out to this grand opening sale? Take 11.30, 12.30 or 1.30 express trains at the O. C. R. R., Kneeland St, Boston, for Atlantic. Band concert, refreshments from 12 to 2 o'clock at my auction tents on the land. Sale positive, rain or shine, commencing at 2 P. M. Four auctioneers and 15 attendants will make a good ime in disposing of the 200 lots. Don't miss this sale. One or more of my clerks will be on the land, or at my branch office at the Squantum Inn every day from 1 to 8 P. M.

Aug. 27-7t sep3-1w

Good Afternoon.

Alderman Paige appears to be the rising star in the Tenth Congressional district. Congressman Barrows has not come up to requirements of his Republican supporters and the nomination seems likely to slip away from him.

Senator Cook of Milford, recognized as one of the leaders in the last legislature, was chairman of the Committee on Liquor Laws of which Representative Newcomb of this city was House chairman. Mr. Cook is also editor of an influential daily paper in Milford, and we noticed the following editorial in the Saturday issue which we are pleased to give publicity:

"We hear it stated that Senator Flint of East Weymouth, who has so ably and faithfuly represented his district the past two years, being a leading member, is not a candidate for another term. If this is the fact, then a good man for his successor would be Representative T. H. Newcomb of Quincy, who is a faithful, conscientious legislator, with impulses and convictions in the right direction."

All After the Bargains

The grand fire, smoke and water sale, which opened at Hancock hall Monday morning, proved to be a bonanza for bargain hunters, for bargains there were by the thousand. Because of liberal advertising the hall was thronged all day long and the 35 clerks were kept on the jump all day. At 11 o'clock the counters had been almost cleared of goods and it became necessary to close the doors until 2 o'clock that more goods might be placed thereon, for it was utterly impossible to replenish the counters while the crowd was purchasing. At 5 o'clock the counters had again been cleared and it was necessary to close the doors until 7 o'clock. Where all the people came from is a question, but the Ledger has a wide circulation and they came from everywhere. There seemed to be no let up in the rush, for as one departed with his or her armful of bundles another entered the hall. It was necessary to lock the doors early in the evening. Many of the goods are but little damaged and are easily worth more than asked for them. The sale will be continued until the large stock is sold. The receipts on Monday at the great sale were nearly $1,000.

John, John, Come Quick.

The following story comes from Lawrence: Mr. Smith, a widower, was left with children, and Mrs. Jones was left a widow with a like number of little ones. Mr. Smith and Mrs. Jones sympathized with each other to such an extent that they got married, thus bringing the two families of children together. In the course of time three or four children was the result of this union.

One day when the nine or ten hopefuls were playing together in the yard, a misunderstanding came up among them, a quarrel was the result. The former Mrs. Jones ran to the door and seeing the brood of the latest issue getting the worst of the battle, ran into the house and called to her husband, "John! John! come quick! Your children and my children are knocking the stuffing out of our children."

Wollaston Post Office.

LAND VALUES

A Transcript From the Books of the Assessors.

Number of Feet in Each Lot and Valuation Thereof.

Also the Amount of Each Person's Tax Bill for 1898.

Something new in the publication of the taxpayers of the city is attempted this year by the Daily Ledger. There is considerable interest in the assessed value of land in the city, which is claimed to be high in some cases and low in others. So the Ledger has supplemented the amount of the tax bill in each ward with the value of each lot of land for which the person is taxed, giving in each case the number of square feet or acreage.

All tax payers will be interested at once, although their own lot may not appear until near the end of the list, because they will learn the amount of their neighbor's tax bill, the number of feet in their lots, and whether in the judgment of the assessors it is worth as much or more.

In the list today will be found one of the most valuable lots of land in the State, the Mount Wollaston farm, which is not assessed for a few thousand dollars as many have imagined, but for a round $100,000. Most of the land of the city is now assessed by the square foot, but in some large tracts it is still assessed by the acre.

In some parts of the city there is land that is assessed for $30 or less per acre, or less than $5 per house lot, while there is land that is assessed for over $1 per foot or $50,000 per acre. Many will be interested to learn just where the difference comes in, but the list below, to be continued daily, tells the story.

In the same line as the name of the person is given the amount of the tax bill in the ward. Some persons have property in two or three or more wards. In the second line is given: (1), the number of feet assessed; (2) the street where located, in some cases not as full and explicit as in the Assessors books, and (3), the assessed value of the lot. The value of every lot of land is published, small as well as large. In some instances persons pay only a personal tax, but this publication does not attempt to show how the personal property is assessed, or the value of houses and buildings.

Readers will carefully note that in many instances the decimal is used instead of the fraction in giving the number of acres in a lot; that is 5.75 acres instead of 5¾ acres.

WARD ONE.

Adams, Annie, Est. $115 20

(To be continued.)

You should save a file of the Ledger while this list is being printed. We cannot supply back numbers of the paper at 2 cents per copy, but have established this rate: Papers one week old, 5 cents; papers one month old, 10 cents; papers one year old, 25 cents.

ONE MORE DEAD.

Another Quincy Boy Dies in Service of His Country.

West Quincy is in mourning today over the news of the death of John A. Boyd, a private in Co. E Ninth Mass. Vols. Private Boyd was 19 years of age, and a son of Capt. William Boyd, a veteran of the Civil war, and enlisted as a recruit in the Ninth regiment some two months ago.

When war with Spain was declared young Boyd, imbued with the spirit of patriotism started to enlist in Co. K. Learning that the Fifth regiment was not to be called out, and desiring to see service, he enlisted in Co E. of the Ninth, and was sent to a camp just outside of Washington, where he has since been.

A week or ten days ago he was taken ill with typhoid fever, that disease that has taken off so many of Uncle Sam's brave boys. The young man failed to improve and his parents were notified by the Volunteer Aid Association. Upon the receipt of the news, Capt. Boyd left Sunday night for his son's bedside.

Before he reached there, however, his son had passed away, for Monday another telegram was received from the Volunteer Aid Association announcing the death of Private Boyd at Fort Myers, Aug. 26.

This morning another telegram was received from Capt. Boyd announcing that he was on his way home with his son's body, and that they would arrive sometime tonight.

Arrangements for the funeral have not as yet been made, but it is probable that the young man will be buried with military honors and that detachments from the Ninth regiment or Co. K of the Fifth, or possibly both will be detailed to do escort duty.

The young man was very well and favorably known in West Quincy where he has always resided. He was a graduate of the Quincy schools. Since leaving school he has been employed in Boston.

Mourned by Many.

Mrs. Ann Duggan, one of the oldest and most respected residents of Atlantic, passed away at her home on Hancock street Saturday morning after an illness of a short duration. Although her sickness was known, her death was entirely unexpected and was a shock to her many friends. She was loved and respected by all who knew her, and by her death they will lose a kind and loving friend. The deceased leaves four sons and one daughter to mourn her absence, beside a host of sorrowing friends. The funeral was held from the Sacred Heart church, Monday morning at 9 A. M., and a requiem high mass was celebrated. The Rev. Frs. Frigugliette, Cuffe and Johnstone officiating. A special choir was hired for the mass and the singing was very well rendered. The funeral was one of the largest ever held from the church, for it was filled to its utmost capacity with relatives and friends, who came to pay their last tribute to the deceased. The flowers were costly and elegant, which helped to show their high esteem for her. The interment was in West Quincy.

—The tax rate of Fall River is $17.80, an increase of 60 cents. The valuation decreased $374,227.50 during the year, the mills being valued lower.

☞ Buy a ten-cent book of trolley trips at this office if you are contemplating one or two days' outing on the electrics. They are worth double the price asked, their trips are so well mapped out. tf

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

Mrs. D. A. Bruce is on a visit to her old home in Montreal.

Sewer pipe is being laid on Franklin, Pearl and Water streets.

Williams says properly fitted glasses will often prevent headache.

Misses Cassie and Georgie Thayer have returned from a visit to Munson, Me.

Miss Susie L. Gragg of Crescent street is visiting friends at Savin Hill

Miss Mamie Pratt of Cohasset is the guest of Mrs. Jared Thomas, Atlantic street.

Miss Cora Gragg and Mr. C. E. Wright have returned from a visit to the Cape.

Miss Anna Goodridge and Miss Irma Tilton leave today for a brief visit to North Scituate beach.

Perry Lawton is now prepared to sell desirable land at Quincy Point in large or small lots.

Atlantic people are still wondering if they will ever ride to Quincy on the electrics for one fare.

Mr. and Mrs. Edward Bullard and Mr. and Mrs. A. C. Roberts spent Sunday at Cottage City.

The elevation of the lots at Squantum Park to be sold on Labor day make them very desirable.

The Attorney General has ruled that the 50-cent war assessment of the A. O. U. W., was clearly illegal.

A telephone exchange for Braintree, Randolph and Holbrook is to be established at South Braintree.

Master Harvey Dewson of New York is the guest of his grandmother Mrs. A. G. Davis of Crescent street.

Mr. Albert Roberts and family of Waltham have been the guests of Mrs. A. C. Roberts of Crescent street.

Mr. and Mrs. George G. Saville have returned from a very pleasant trip "Down East" on the yacht Nautilus.

Mrs. W. G. Hammond of Billings street is once more with her friends in Atlantic, having been away for some weeks.

The family of Mr. James F. Churchill of Atlantic, has returned from Maine where they have been for many weeks.

Mrs. W. B. Glover entertained a number of her lady friends on her spacious piazza on Thursday afternoon, Aug. 25.

The Rev. Mr. Whitaker of the Memorial church, Atlantic, will be welcomed by his parishioners next Sunday, after a two months' vacation.

Mrs. Oscar Hoxie and children of of Brooklyn, N. Y., have returned home after a month's visit to Mrs. Hoxie's parents, ex-Councilman Shackley.

Edward L. Goodridge has been appointed a division chief marshal of the grand Odd Fellows parade in Boston, Sept. 21. He expects to have over 1,000 men in his division.

The Quincy & Boston street railway is putting its Houghs Neck line in good shape so that it can safely handle all comers on the day of the illumination, which is attracting more than usual interest.

Miss Edith H. Wilder, formerly teacher of Latin and Greek in the Woodward Institute, has resigned her position in the Newton High school, in order to accept a position as teacher of Latin and Greek in the Girls' Latin school, Boston.

The Quincy Quarry Co. forwarded on freight extra 55 on Saturday the heaviest car-load, with one exception, in its history. The car was loaded with 2,200 New York paving, weighing 65,650 lbs., the capacity of the car being 70,000 lbs.

The long bicycle trip taken Sunday by ten young men did not pan out quite as well as they expected. The objective point of the trip was Providence, R. I., which they reached all right. On the road home when a few miles from Walpole some of the wheels broke down. They then walked to Walpole intending to take the train but when they arrived the train had gone. Those whose wheels were smashed remained all night, and the others started for Quincy where they arrived in the vicinity of midnight.

Lewis Tabb, a son of Mr. John Tabb of Wollaston, was severely hurt on Monday morning by being thrown from his bicycle. Young Tabb was making a quarter of a mile record around the square. Just as he came by Miller's store on Brook street a small dog ran into the wheel pitching Tabb over the handle bar and on to the granite curb. His face was badly cut up. He was picked up and taken into Seymour's bicycle store from whence he was taken to Dr. Adams' office, where the wounds were dressed

A Child

can buy here to as good advantage as its parent. We give our best service, our best goods and our low prices to all alike. Should anything the child gets not be entirely satisfactory, we will gladly exchange it or give "money back."

A single package of "Gold Dust" Washing Powder holds four pounds. It whitens the clothes wonderfully without harming them. It is an honest washing powder that will save you time, money and hard work—20 cents a package. A 5c. cake of Fairy Soap given free with every package.

NOW THEY SHIVER.

Camp Dalton Boys Would Like Their Overcoats.

Camp Dalton,
Tuesday, Aug. 30.

A great many visitors were drawn to camp on Sunday by the cavalry which has added new interest to the grounds. No one was allowed inside the cavalry lines unless vouched for by an officer. The troopers are chafing under the rigid discipline which is a great deal harder on them this year than previously. This is probably on account of their close proximity to the Fifth Regiment of Volunteers. They also claim their food is not what it ought to be.

Their first parade was given Sunday evening and was very good, considering its being the first time for a large number of the men and horses.

No duty except what was absolutely necessary, was performed by the Fifth, it being their day of rest.

There is no confusion in drills as the troops use one end of the field and the Fifth the other.

Yesterday the 1st Battalion went to Boston to attend the funeral of Major Grady and to act as escort to the cemetery. The Battalion was in charge of Lieut. Col. Weaver. The day being cool the boys enjoyed the march.

During the absence of the 1st battalion the 2d and 3d went on another route march. This time it was to the west, a distance of three miles. The route led through a rich country section and was enjoyed immensely. A halt was made on the noted Nevins estate. This is as fine a place as is to be found in Massachusetts.

It borders on Basin No 1 of the Boston water supply. Besides this, it has several large ponds of its own.

The return was made through Framingham. In the absence of the band the boys made their own music, singing and whistling. The start was made at 2 o'clock and camp was reached at 4.30. Total distance travelled being six miles. The trip was made in light marching order. No dress parade was given in the evening.

Corp. Hermanson's squad seems to have a monopoly on the orderlies. Thus far the squad has captured the honor fourteen times. Private Thunstrum seven times, Gunderson four, Carlson two and Swanson once. This beats the record for the regiment.

Co. K boys are all right and not a day passes but they win praise from those in authority for the manner in which they perform their duties.

The order preventing citizens from visiting the grounds does not apply to the regular camp but just to the cavalry camp.

The cool weather of the past few nights has been the cause of not a few jokes concerning overcoats, which have not as yet been issued. A party of one hundred marched through the camp the other evening calling for theirs. One of the party would halt them and ask what they wanted. They would all answer, "overcoats." Then the question would be put, "When?" They would answer, "Now," Then the whole party would shiver very loud. They halted in front of the Colonel's tent, but he took no part in it. They were dispersed by the officer of the day. All you can hear now is "shiver." MACK.

Houghs Neck Gala Day.

Tomorrow will be the big day at Houghs Neck, the gala day of the season. The arrangements for the grand annual illumination surpass all the preceding years and there will be a continuous round of pleasure from 10 A. M. until 10 P. M. The programme in full is advertised on the first page today and includes sailing parties, a feast for the children, field sports, water sports, base ball, Punch & Judy shows, band concerts, fireworks and a general illumination of the cottages. The Quincy & Boston street railway with its large number of new cars is better equipped than ever to transport the large number who will go down in the evening. All the hotels have secured extra help and will be prepared to serve promptly the best shore dinners in New England. Don't miss the sports and the illumination!

Echoes of the War.

Orders have been issued for mustering out the Ninth Massachusetts, which includes four Quincy boys: James P. Clark, Edward S. Ago, Edward Bowlen and Patrick Quill.

John Boyd, whose death is reported today was in this regiment.

The Battleship Massachusetts will be in the squadron which will visit Boston on Friday.

The War department denies that Camp Wikoff will be abandoned.

Col. Roosevelt received an ovation at Newport yesterday.

The Oregon, Indiana and Brooklyn may be sent to Manila.

The hospital ship Bay State is expected at Boston today, and if not held up at quarantine will dock at Lewis wharf.

THE DAIY EVENTS.

The Bostons are again in the lead.

Bright moonlight nights to ride the wheel.

Lieut. Spear of Co. K was in town Sunday.

H. L. Kincaide & Co.'s new advertisements are timely.

Miss Bertha Nichols of Botolph street is visiting relatives in Lawrence.

The Adams school building has been very much improved by a coat of paint.

Mr. C. H. Farrington of Charles street has been confined to his home with a broken ankle.

New shares of the Quincy & Boston and Braintree street railway will be sold at auction on Saturday.

That monkey was attracting a crowd last night. It amused the children to see him kiss a doll in a carriage.

The Knights of Columbus are to have their annual field day of sports on Labor day at Readville trotting park.

Household furniture of John O. Larson at 47 Granite street, will be sold at auction by F. F. Crane on Saturday.

Mr. Frank Badger with wife and two daughters, returned last evening after an extended cruise on the boat Agilis.

John H. Whitehead, manager of the Tubular Rivet & Stud A. A. team of Wollaston, is looking for games for Labor day.

F. F. Crane reports the sale of the Mary A. Abbott estate on Washington street, Quincy Point, to Miss Nellie F. Nightingale.

Auctioneer Johnson will sell the estate of Charles Smith on Nelson street on Saturday, and the estate of John Dorherty on South Walnut street on Labor day.

Mr. Charles Blanchard of Mount Pleasant, Roxbury, is enjoying a two weeks' vacation at home on Washington street. He goes to Providence, R. I., today for a trip.

Auctioneer Crane had a largely attended sale of household furniture yesterday at the residence of Mr. J. L. Rogers on Foster street. There was a sharp demand for some old Paul Revere silver ware.

TODAY'S COURT.

The continued case of Leon W. Mann for the larceny of wood at Randolph was heard and continued a week to enable him to raise his fine.

The continued case of Francis Roach, for threatening assault on Officer John A. O'Brien at Quincy, was heard, and he was put under bonds to keep the peace.

Lloyd Hoey, William Dolan and Isaac Lemasney, three Houghs Neck youths, were arraigned in the judges room for disturbing the peace. The court accepted their plea of nolo and they were discharged upon payment of costs.

The continued cases of Michael Haggerty and Celia Bemis for adultery at Quincy were called and they were held in $400 for the grand jury.

Fred Leavitt was fined $20 for trespass at Milton, and larceny of vegetables to the amount of $1.12.

The continued case of Jane and Frederick C. Dwyer, for assault at Quincy, was called and they were discharged.

Frederick Heft was arraigned for trespass at Milton. Case continued two months.

DIED.

BOYD—At Fort Myers, Washington, August 29, Private John A. Boyd of Quincy, Mass., a private of Co. E, Ninth Massachusetts Volunteers, aged 19 years. Burial at Quincy, probably on Wednesday.

What nobler, better ambition can a young couple have than to live loving, helpful lives, and then, in a green old age, look back over a life that has been mutually self-sacrificing, useful and successful? The one great stumbling-block that stands between most married couples and this ideal married career is ill-health. If both husband and wife would take proper care of their health, there would be more hale, hearty and happy old people in the world. If, when a man suffers from the little ills of life, he will resort to Dr. Pierce's Golden Medical Discovery, the chances are that he will avoid the big and fatal illnesses. This great medicine gives a man a healthy hunger, facilitates the flow of digestive juices, invigorates the liver, purifies and enriches the blood and builds firm, muscular, healthy flesh tissue.

It is an old saying that women are hard to kill. There is some truth in this, as far as the majority of illnesses are concerned. There is one class of disorders, however, that quickly undermine any woman's general health. No woman can retain her strength who suffers from weakness and disease of the delicate and important organs that make wifehood and motherhood possible. Dr. Pierce's Favorite Prescription is an unfailing cure for all disorders of this description. It acts directly on the sensitive organs concerned, in a natural, soothing way. It makes them strong, healthy and vigorous. It prepares them to bear the burdens of maternity. It is the greatest of nerve tonics. The woman who uses it will bear healthy, happy children, and live to a ripe old age.

Dr. Pierce's Pleasant Pellets regulate and invigorate the stomach, liver and bowels. By all medicine dealers.

GRAND EMPTYING OUT SALE!

We Begin it FRIDAY, August 19.

It is a grand sale. A most colossal effort to clean out and close out every dime's worth of Spring and Summer Clothing, Hats and Furnishings in our store regardless of cost or former selling price.

Everything reduced to cost and some things to be sold as low as one-fourth of cost. We want no profit—empty shelves, empty counters, empty show cases will be our gain. We are bound to carry over no summer Suits, Hats nor Furnishings. That is why on Aug. 19 we open with what will always be remembered as the most bona fide bargain sale that Quincy has ever seen.

Read the following prices and ask yourself if you can afford to stay away and let others reap all the benefits:

Glorious Welcome Home.

New York, Aug. 30.—New York opened her big heart Monday to give a fitting welcome to her returning heroes of the army. They returned to their native city with their ranks not as full as when they marched away to face the fevers of Cuba and the bullets of the Spaniards, and those who came back were in far too many cases worn and gaunt and haggard, but back they came and the city took them to itself again, showering honors upon them and not forgetting those who lie in the soil of Cuba and who return no more.

It seemed as if the whole city must have turned out to welcome the returning Seventy-first regiment.

The route of the parade seemed to be through a three-sided tunnel of stars and stripes. They flew above the soldiers' heads and flanked them on either side from windows and roofs. Scarcely a building along the whole line was undecorated, while some of them looked as if built of flags and bunting. There were not wanting inscriptions of welcome on many buildings, and some of the friends of the soldiers exhibited placards calling them by name. The line of march was through a lane of humanity 10 and 12 deep on either side—old men, young men, girls, matrons, babies in arms and the inevitable small boy in regiments. Police were stationed all along the line, with an occasional bicycle policeman to run errands, but there were not enough policemen after all, and if the crowds had not been so good natured there would have been serious trouble.

Order on Furloughs.

Washington, Aug. 30.—General orders, relating to the mustering out of the volunteers and the granting of furloughs, were promulgated yesterday. To those officers and men who have served outside the limits of the United States, leaves of absence and furloughs for 60 days will be granted respectively; while to those who have not served outside of the country the leaves of absence and furloughs will be limited to 30 days.

Dewey Didn't Care to Go.

Washington, Aug. 30.—General Merritt is to go to Paris to give the peace commission the benefit of his experience in the Philippines. The original plan had been to send Admiral Dewey for that purpose, but this was changed upon representations from the admiral that he could be of greater service in Manila than in Paris.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

NICHOLAS' CIRCULAR.

Fruition of the Idea Is Treated as Impossible.

English Bishops Loudly Praise the Czar.

Naval Disarmament Would Be Dangerous to Great Britain.

London, Aug. 30.—The papers are filled with discussions, comments and opinions as to the circular of the Emperor Nicholas. The most world shaking event could hardly have produced such a crop as this suggestion, the fruition of which is regarded on all sides as an absolute impossibility. This being holiday season, it is difficult to obtain the opinions of public men on the subject. The religious world, however, loudly welcomes and praises the czar's initiative. Numerous bishops have already publicly expressed their views in that sense.

Among statesmen interviewed, Lord Kimberly, the Liberal leader, declined to express a hasty opinion beyond saying that the proposal was one of the utmost importance.

The Marquis of Ripon said "I heartily wish the proposal all success."

Sir Charles Dilke, Radical member of parliament, remarked: "The Russian peace footing of nearly a million regulars exceeds the peace footing of Germany, Austria and Italy combined. Thus it has been in Russia's power to reduce the land forces by diminishing her own in connection with a similar action on the part of Germany. French public opinion is not prepared for dis-

SIR CHARLES DILKE.

armament, which would mean, as things stand now, an acceptance of the Alsace-Lorraine situation. Any formal plan would involve subsequent breaches of faith; but if Germany and Russia will cease increasing their forces, we can follow without a formal agreement."

Lord Frederick Roberts of Kandahar, commander of the forces in Ireland, said in reply to a request for his opinion: "It will be most satisfactory if such a proposal can be carried out."

The Earl of Crewe calls the czar's suggestion a "historical utterance," and earnestly hopes that Great Britain will not object to a conference.

It is understood that a special messenger was sent from St. Petersburg recently with full explaration of the czar's proposal. Naturally all persons and societies connected with peace and arbitration movements are jubilant.

The pope wired his congratulations to Emperor Nicholas immediately and offered every assistance in his power to promote the proposed conference.

The Attitude of France.

London, Aug. 30.—What is noticeable in European comment is the fact that everything is held to pivot on the action of France. Mr. DeBlowitz, the Paris correspondent of The Times, puts the matter pithily. He says: "It is practically impossible that France could have been consulted beforehand, because an absolutely primary condition of her sanction would be that Alsace-Lorraine should cease to belong to Germany. Bismarck once said to me: 'There are three of us who made the German empire. The German nation would hang all three if we offered of our own free will to give back Alsace-Lorraine to France.' It may likewise be said of those who are at the head of France today, and who were not responsible for the loss of Alsace-Lorraine, that they would all be hanged, in spite of the apparent indifference of the nation, were they to accept a definite abandonment of Alsace-Lorraine.

"People ask themselves bitterly what is the nature of this singular alliance, if it is possible for one of the allies to spring upon the world such a surprise without consulting the partner to the alliance. It is a surprising enigma and all the more extraordinary, as at present, so far as the importance of its armament is concerned, France is the most formidable continental power. Its new gun is superior to anything hitherto seen; and this weapon is on the point of being adopted throughout the whole artillery. The fact is of public notoriety, and the czar is the last person to be ignorant of it.

"At no moment could the idea of disarmament be advanced more inopportunely, I would even almost say more perfidiously, for France is called upon to arrest her enthusiasm, to paralyze her efforts and to make vain her fresh sacrifices by this invitation to halt in an onward movement of incomparable perfection in armament."

Turning Point In History.

St. Petersburg, Aug. 30.—The newspapers here declare that the czar's manifesto will probably constitute a turning point in history.

One of them says: "It stands to reason that the disarmament question cannot be solved without a previous removal of the cause for the armaments. The conference must accurately determine the respective pretensions of the rations and propose means for a peaceful arrangement, and it may come to pass that at the close of the 19th century a liquidation may be effected of the international policies which are so prolific in troubles and dangers."

Another remarks: "All true friends of peace are naturally on the side of Russia; but it is impossible to guarantee that some of the western cabinets will not raise objections, prompted by the fact that the armed peace which has existed since 1871 is the main source of their international strength."

One of the Czar's Dreams.

London, Aug. 30.—Dr. Emil Reich, the eminent Hungarian historian, and British counsel in the Venezuelan arbitration, expressed the belief that the czar's idea was visionary. He said: "This scheme for universal peace is one of the czar's dreams. It is also a feint. Count Muravieff, the Russian minister for foreign affairs, hopes thereby to get a free hand in the development of Russian schemes in Manchuria.

"Suppose France disarmed. Her population is now 40,000,000 against Germany's 52,000,000. In 10 years Germany would have largely added to her lead in population, and France could not display an army nearly as large as her rival's.

"Sweden and Norway and Italy would like to disarm, and might do so with impunity; but for the rest of Europe, it is impossible. You must fight, unless the present political conditions undergo an early change."

Booth Profoundly Thankful.

London, Aug. 30.—General William Booth of the Salvation army sent the following telegram to Emperor Nicholas: "May it please your majesty: I have received with profound thankfulness to God the news of your imperial majesty's wise, beneficent and Christ-like proposal in favor of universal peace. I cannot refrain from assuring you of the admiration of multitudes of salvationists in all parts of the world, whose prayers will ascend to almighty God for your majesty and for the triumphs of those principles of peace and righteousness after which they are ever striving and which are moving you to seek the true welfare of all nations. This great act of good will and must forever add to the honor of your majesty's name and reign and country."

PROSPEROUS SEASON.

About Two Weeks Required to Mature Corn and Potatoes.

Boston, Aug. 30.—Vegetation is reported as most thrifty. Growing crops of all kinds are vigorous and advancing rapidly. Meadows and pastures are as green as in June. The excessive moisture and high temperature have retarded haying and grain harvest, and have also been conducive to rot in potatoes, beans and late grain. The damp weather has been unfavorable to tobacco cutting and curing, and has delayed farm pursuits generally. It will, however, furnish bountiful and excellent fall feed, and stock will begin the winter season in excellent condition. Plowing for fall and winter grain is now in progress in sections where soil is not too wet. Ten days to a fortnight are needed to mature corn, potatoes, cure tobacco, and finish, as whole, a prosperous season.

Haying is still in progress in many sections, but for the larger part it is the second crop, or hungarian grass. While the weather has been too wet considerable has been accomplished, and now the crop is practically secured. The crop of rowen is large and the quality generally excellent. Grass and pasture lands are in good condition, and are thus prepared for a severe winter without danger of great injury.

High winds accompanying local storms have caused more or less damage to apples, peaches, pears and plums. Early apples are reported quite plentiful in many parts of the district. The winter crop is light, but generally in improved condition. Reports are mostly unfavorable to peaches, stating that in numerous orchards they are prematurely ripening and the fruit is inferior. Cranberries are less promising on account of damage from sun scald and insects. From present outlook the crop will be less than the average yield.

Complaint of rot and rust in potatoes is received from all sections. Nevertheless, there seems little likelihood of the yield or quality of the tubers being seriously affected. The crop is being dug in many sections, especially in the southern part of the district. Vines are reported in fine condition. Cucumbers for pickling are especially abundant. Tomatoes are very plentiful, but the weather conditions have not favored ripening of the fruit. Garden vegetables of excellent quality are still abundant.

Tobacco continues in good condition. Cutting and curing are in progress and in some sections the crop is one half secured.

NEWS IN BRIEF.

Malieto a Laoupepa, King of Samoa, died, Aug. 22, of typhoid fever.

The Los Angeles Soap company's plant was destroyed by fire. Loss, $100,000.

Admiral Dewey has informed the navy department that he has an abundance of supplies for the present needs of his squadron.

Owing to the brief time left him before leaving for America, Colonel Hay has been compelled to decline an invitation from the lord mayor of London to a farewell banquet.

What appeared to be an infernal machine was left at the office of the New York Journal yesterday. As it had a suspicious look, the package was handed over to the police.

Captain Charles E. Clark, formerly commander of the Oregon, when discharged from further treatment at the hospital in New York, will be granted three months' leave of absence.

Robert McCutcheon, aged 50, was caught between a carrier cable and a sprocket in the boiler house of the Burgess sulphite mill in Berlin, N. H., and killed. He belonged in Canada, and leaves two sons.

All negotiations between the American Wire and Steel company and the striking employes in Cleveland have been declared off. The strikers have again taken up the battle and say they will fight to the bitter end.

The conditions in the hospitals at Camp Thomas are rapidly improving. At least half of the sick have been sent away, and arrangements are being made to send hundreds of others. The surgeons and nurses are able to give good attention to all, and a decided change for the better is everywhere noticeable.

WAS DECIDED ON LEADS

A Clean and Clever Exhibition of Glove Work.

Bostons Again First In the League Race.

Won the Game From the Pvttsburgs, While the Pork People Lost.

New York, Aug. 30.—"Kid" McPartland of this city got a well-earned decision over Jack Daly of Wilmington, after fighting 25 clean rounds before the Greater New York Athletic club last night. The last time the men met, Daly got the decision on a foul in the 17th round, and since that time McPartland has always claimed that he had Daly whipped then. He insisted that on their next meeting he would demonstrate his superiority over the Delaware man, and he did this very effectively when the opportunity presented itself.

Both men were in splendid form, and showed that they had trained carefully when they stripped in the ring. The bout was devoid of foul work, and was one of the cleanest and cleverest exhibitions ever given under the Horton law. There was little to choose between the men at the end of the go, but as McPartland had done more leading than his opponent, the referee's decision in his favor was fair.

Daly's friends lost a lot of money on the result, and a few bets were made in the early part of the fight at 2 to 1 on the Delaware pugilist. At no stage of the contest were these odds warranted, and it was evident at the end of the 12th round that the fight would go to the limit.

AGAIN TO THE FORE.

Champions Return to First Place by Winning In Pittsburg.

Pittsburg, Aug. 30.—One of the finest ball games ever seen here was won Monday by the champions from Boston. The contest was not so very brilliant on the part of the home team, but the work of the visitors was certainly the best that has been seen here this season. Their hard luck last week has spurred them up, and they stated yesterday that they would never stop now until they had a good lead over the Cincinnatis and their other rivals.

About 1500 people saw Long, Duffy and Stahl play ball as it has not been played here for a long time. Stahl's work in right field was simply sensational, for he caught foul flies that looked impossible to get hold of. Duffy, too, did wonderful work in the fly-catching line. Long stopped base hits and threw men out at first in a way that really startled everybody. Lewis pitched one of his best games, and his support was such that would cheer any good pitcher to victory.

Tannehill, the terror of the Bostons, on the rubber for the locals, was a mark for them in one inning only; but that was sufficient, for at that stage they made seven runs and made six of their hits. Score:

Totals	39	8	12	27	11	1

Pittsburgs	0	1	0	0	0	0	0	1	0	—2
Bostons	1	0	0	7	0	0	0	0	0	—8

Earned runs—Bostons, 2; Pittsburgs, 1. Two-base hits—Clark, Lewis, Bergen. Three-base hit—O'Brien. Sacrifice hit—Long. Stolen bases—Lowe, Bergen, Duffy, Donovan. Double play—Long, Lowe and Yeager. First base on balls—Off Tannehill, 1; off Lewis, 1. Hit by pitched ball—Donovan. Struck out—By Lewis, 4. Wild pitch—Lewis. Time—1:55. Umpires—Lynch and Andrews.

Canavan's homer with two out and two on bases in the 12th inning produced a victory for the Providences over the Ottawas yesterday. It was a pitching battle between Jim Sullivan and Horton. In the entire 12 innings not a base on balls was given, and there was not a battery error of any sort on either side. Trying situations were numerous, and the game was intensely exciting and interesting.

The Chicagoes' winning streak was checked by Rusie's grand pitching for the New Yorks. Thornton was also in great form, and both teams put up a perfect fielding game.

The Cincinnatis gained what seemed to be a winning lead in the eighth, but the Phillies pounded Damman in the ninth and won, 8 to 7.

The Louisvilles took the third straight game from the Washingtons yesterday. Dineen was touched up rather lively.

The Brooklyns had a batting streak yesterday, and found Jones and Wilson of the Clevelands with equal facility. Errors were numerous and costly. Score: 13 to 7.

The Buffaloes outplayed the Springfields in every particular yesterday. Gray of the winners gave four bases on balls in succession in the sixth, but there were two out before, and Gray recovered control in time.

Tomorrow's Almanac and Forecast.

Unsettled conditions have appeared in the west which promise considerable cloudiness Wednesday, though as yet there is little indication of rain more than that local thunderstorms may occur. It will probably be somewhat warmer, with winds generally southerly. Sun rises—5:08; sets, 6:20. Moon rises—Evening. High water—10:45 a. m.; 11:15 p. m.

DR. RALPH M. FOGG,

DENTIST.

Teeth extracted absolutely without pain by the use of the

"BOSTON VEGETABLE VAPOR."

It is claimed that, while it has the required properties of ether, chloroform, nitrous oxide gas, it lacks the disagreeable and dangerous qualities of these drugs. It is certainly a boon to suffering humanity to be relieved of the nausea too often following the administering of sedatives of the old school.—Boston Transcript.

Teeth made and repaired on Gold or Rubber base. Teeth Filling a specialty.

Office in French's Building, five doors south of Post Office, Quincy, Wednesdays. Hours, 9 A. M. to 5 P. M. July18-1y Nov8-1yo

E. S. BECKFORD,

Electrician.

Wiring and Fitting for Incandescent, Motors, Dynamos, Bells, etc.

GRANITE STREET, Near the Bridge, QUINCY

Feb. 1. 1y

Quincy and Boston Electric Street Railway.

A Safe Guide

To follow is to follow the crowd. The public are not often wrong in their judgment of stores—especially shoe stores.

You pay nothing for reputation in shoe buying here, for we believe in reasonable profits.

We give you the biggest stock of desirable shoes to select from at the lowest possible prices for reliable goods.

GEO. W. JONES,
Adams Building, Quincy.

NOTHING BETTER,
UNCLE SAM'S NAVY

Now commands the respect of the world, and we are all proud of the defenders of the Nation's Honor. To give the people of Quincy a good idea of the grand battleships, we have ordered a large supply of portfolios, giving magnificent views of the ships, crews, etc.

With each purchase made at our store we will give a portfolio check to the value of the purchase. When you have $4.00 worth of these checks, return them and get a portfolio. Continue in this way until you have the set complete. Call and see these magnificent portfolios.

3 O'CLOCK.

TO GET AT THE BOTTOM

General Wheeler to Investigate the Wickoff Scandals.

Wants Whys and Wherefores of Things.

Commander Trying to Expurge Horrors From the Camp.

Montauk Point, Aug. 31.—General Joe Wheeler has ordered General Adelbert Ames, chief of staff on General Kent's staff, to conduct an investigation. He is given almost autocratic power. General Wheeler has told him to get at the bottom of all the things which have been complained of. The subjects General Ames is to investigate are: Why the general condition of the camp is so poor; why the conditions exist; who is responsible; why troops were sent to the camp before it was ready to receive them; why, since there was but one railroad leading into the camp, boats were not used to carry men and provisions from New York city; why needed medicines were not ordered, or, if they were ordered, why they were not distributed; why the hospitals are crowded; why transports were allowed to lie in the harbor without supplies and relief being sent out to them.

General Wheeler said, regarding the charges made by Secretary of War Alger, that the real condition of the camp had been suppressed during his visit: "I do not believe that General Alger made that statement. At any rate, it would be manifestly improper for me to reply to any criticisms made by the secretary of war through the public press."

General Wheeler is apparently doing all that one man can do to expurge the horrors from the camp. Many of the regular army officers are not only bull-headed but they are brutal, and persist in following the cursed red tape of the government to the bitter end. They will not abate a jot in their prerogatives, even at General Wheeler's suggestion. A thousand lives will probably depend upon the action of the government with regard to this camp.

In view of the fever epidemic which Dr. Senn regards as inevitable, orders have been given to clean the camp. It will be impossible, however, to do away with the drainage in the cup-like swamps between the various hills. The physicians throughout the camp are wondering if the government will hold the troops here against all warnings, allowing them to die like sheep, without taking measures to prevent such a state of things by breaking up the camp and sending the soldiers to the different army posts throughout the west.

Much of the distress has been caused by the carelessness and culpable ignorance of the contract surgeons. They order medicine and expect it delivered after the fashion of thedepartment stores instead of sending after it themselves. The same state of affairs prevails in regard to provisions. One of the cavalry companies had nothing to eat but hardtack and coffee. The commissary had ordered provisions, but had neglected to send for them. The delinquent officer was severely scored by General Wheeler.

Dr. Nicholas Senn, assistant surgeon general of the United States and chief of the operating staff at Camp Wikoff, said that if the troops are kept here in this camp another month they will all be dead or sick with typhoid fever. "I do not say this without having carefully considered the situation," he continued. "I have studied the camp and I have been in a position to know the condition of the men and to know what has been the trouble. In justice to the camp, I want to say that almost none of the sickness among the soldiers up to the present time and none of the deaths have been due to the conditions which prevail here or have in the past. Sickness has been almost entirely limited to fevers contracted in the south, and the death rate would have been much more than now had the men remained in the south instead of being brought here. The change of climate lessened the effects of the fevers, and improved the condition of the men. As a consequence, the only sickness which can be attributed to this camp is dysentery, or lesser troubles, which may have been caused by the change of diet or water."

There is dissatisfaction in the camp of the rough riders. They are not satisfied with the terms of their muster out. They want to be treated as are the remainder of the volunteers. The present plan is to muster them out as soon as possible and without the usual furlough. They say they want to be treated like the others, and want to be given 60 days furlough at full pay, and then be mustered out, and sent home at the usual mileage and ratio allowance. They claim they are entitled to this as much as any of the troops. As the war department officials thought they were showing the rough riders a favor in treating them as planned, they will probably be surprised at the dissatisfaction. The condition of this regiment is now excellent owing to the generosity of citizens, the care of physicians and the watchfulness of their commanding officers. The regulars, officers and men, are also dissatisfied, and want to be sent back to garrison posts and stations at once.

Had a Purpose.

Washington, Aug. 31.—It is believed here that General Miles, in getting himself interviewed concerning the Santiago campaign and in allowing his criticisms of his superiors in the war department to be published, deliberately purposed to invite a court of inquiry, which should show, if possible, who was responsible for the horrors and mistakes at Santiago and later. General Miles, it is thought, saw the cloud of investigation on the horizon, and came to the conclusion that it should be directed in the public mind against somebody else than himself. If there should be a court of inquiry, everything in regard to the Santiago campaign would probably become public property. The president is very much disturbed, and before he left Washington had in mind an investigation of all the charges of maladministration and to cause a dressing of the ships in a dressing.

"Yes," said Secretary Alger, "I have seen his alleged statement, but all I can say is that I do not believe that any officer of the army, in his sane moments, would have talked as General Miles is said to have talked."

Men Literally Starving.

New York, Aug. 31.—A committee of the Merchants' association, charged with the distribution of supplies at Camp Wikoff, says in its report: "There are shockingly sick men in the regiment who are not in the hospitals and who had not, until some charitably disposed people came to their aid, received anything but army rations. Those rations are good enough for well men in active service, but they are not such as sick men can eat and digest.

"It is not too much to say that these men are literally starving, and their wants are only relieved to the extent of the provisions received through charitably disposed persons. Last Saturday Mr. Astor's yacht, the Nourmchal, came into the harbor at Montauk, having on board three tons of delicacies, which we induced them to distribute to the regulars."

"A Perfect Hydrophobia."

Albany, Aug. 31.—Governor Black was asked by an Associated Press reporter as to the conditions as he found them in the camps of the New York regiments as well as those at division hospitals. The governor said there appeared to be a "perfect hydrophobia" among newspapers over the condition of the soldiers; that the press bristled with such phrases as "hollow eyed and starving" in articles descriptive of the troops. He gave it as his opinion that the matter was exaggerated, "manufactured in newspaper offices and the outcome and result of unjournalistic knavery."

Governor Black said: "My impression of the camp of the New York troops at Chickamauga is not half as bad as I expected it would be. The unfavorable condition of the camp and hospitals has beyond a doubt been very greatly exaggerated by the newspapers. The division hospital in which the sick soldiers of the Ninth New York infantry are quartered is certainly in a very bad condition. The present state of this hospital ought never to have been permitted to exist and should be corrected at once. I think that the troops at Chickamauga park should have been moved long before any sickness broke out in the ranks."

The case of Private Nunn of the ambulance corps, who was transferred from the Ninth New York, was reported to the governor by Captain O'Connor of that regiment, and forwarded by the governor to Washington, for investigation. Captain O'Connor's statement was that he had found the body of Nunn lying in a division hospital two days after death, invested by maggots, that an autopsy had been held and that no preparation had been made for the care or interment of the body up to the time found by O'Connor. The affair has created a stir, and it will result in the trial of Captain O'Connor by court-martial.

Soldiers' Brains Affected.

Amesbury, Mass., Aug. 31.—James E. McDonald, steward of the City of Macon, which was used by the government as a transport during the war, and which brought back the Seventeenth United States infantry from Santiago, is at his home on a short vacation. He believes that fully 100 men of the Seventeenth regiment hereafter will be mentally unbalanced. The suffering of the soldiers on board the transport was pitiable in the extreme. The men one moment would appear rational, and the next minute they would be crawling around the deck on their hands and knees. They seemed to be suffering from hunger, and he believes that starvation is the only cause that can be assigned for their condition.

Rewards For the Deserving.

Washington, Aug. 31.—The acting secretary of the navy has appointed a board composed of officers of the highest rank to consider and report upon all cases of officers deserving of reward for specially meritorious services during the war with Spain, other than those officers whose services have been already recognized by promotion. There has been unfavorable comment in regard to the promotions already made on the ground that they really acted as a form of degradation in the case of deserving officers who have been actually reduced in their grade through the advancement of others. It is hoped that the work of the special board will do away with all cause of complaint in the case of the officers yet to be advanced in grade, or otherwise rewarded for their war services.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

Patients Well Cared For.

Washington, Aug. 31.—The surgeon in charge of the hospital at Fort McPherson, Atlanta, reports to the surgeon general that the 600 patients there are being well cared for. He has 71 female nurses, and plenty of ice, milk and other things, and a fund of $2000 to expend for anything that may be needed. Any reports of starving, he says, must have come from a typhoid convalescent, who was not allowed all he wanted to eat by surgeon's orders in order to prevent a severe relapse.

Reception to the Fleet.

Boston, Aug. 31.—The preliminary steps for a suitable reception to the fleet of warships which is expected here during the latter part of the week were taken yesterday by the aldermen, who appointed a committee to arrange for the affair on behalf of the city. Governor Wolcott has been notified of the coming of the ships, but Mayor Quincy has not received any word to the same effect. He will, nevertheless, entertain the officers of the fleet after their arrival, probably on Monday. An attempt will be made to have the day when the ships arrive a general holiday.

The ships will rendezvous at Provincetown Thursday, coming across the bay Friday or Saturday, probably the latter day. As the tide is high about noon on Saturday, this will probably be about the time the ships will steam up the harbor. Owing to the limited water space in Boston harbor, it will be impossible for the ships to do more than file up through the channel in column formation, and perhaps take a turn in the stream near the navy yard, before they come to their anchorage. Even this simple program, however, will be enough to line the shore with cheering humanity, the harbor such as has probably never been seen here before.

Showed Yankee Grit.

Boston, Aug. 31.—In an interview last night, Dr. Burrill, who had charge of the trip to and from Santiago, told the story of the trip to and from Santiago. "General Wood was ill in bed," he said, "but he was kind enough to get up and come down to see us, although his temperature was very high. He told us we could get some of the sick Massachusetts men away if we were very cautious. We found the Second regiment had started for home, but a number of their men were left behind in the hospital. Some of the officers said they were infected with yellow fever and we could not have them. The condition of the sick men of the Ninth was pitiable. We made up our minds that they had to come out whether we got yellow fever or not, or else they would die. So we arranged a system by which we took these men into a tent, stripped them, gave them a bath and new clothes, and sent them on board ship. We worked fast, and the men were delivered on board the Bay State at an average of less than seven minutes to the man. Of these patients, about 45 percent were critically ill, and I expected to lose one-fifth of them on the way north. We were fortunate enough to lose but three. The rest of the men began to improve, and about 20 cases are serious."

Brief Stop In Canton.

Cleveland, Aug. 31.—While President McKinley very much desired to pay more than a brief visit to his old home in Canton, he finds the duties of his office are such that he will be obliged to cut his visit there to a mere call. The president will spend a couple of days in Camp Wikoff so as to inform himself as to the condition of affairs and the truth of the reports that have been circulated, from personal observation and contact with the men. The members of the party will remain in this city until Thursday morning, when they will leave for Canton.

Big preparations have been made to receive the president and Mrs. McKinley there by their old friends and neighbors, and the people of Canton in general. It was the intention to make the occasion a civic jubilee. All this, however, will now be reduced in a measure from the fact that President McKinley and party will be in Canton only for two or three hours and then will take a train for New York.

A conference of great importance was held at Colonel Herricks' home last night. President McKinley, Secretary Day and Justice White were the conferees. It was admitted that the conversation had to do with the appointment of the peace commission offered by the president to Justice White, but it was announced that no definite conclusion had been reached, although hope was expressed that Justice White would see his way clear to accept the appointment.

The News of Beantown.

Boston, Aug. 31.—An assault which may possibly result fatally occurred in a house shortly before 11 o'clock last night. John Linehan, a lodger in the house, is at the city hospital with a depression of the skull on the brain. In settling a grudge, four persons threw Linehan down stairs.

Lieutenant Colonel Weaver of the Fifth Massachusets volunteers, at Camp Dalton, came to this city and mustered Lieutenant Colonel Logan as colonel of the Ninth regiment under his commission recently issued.

A sad sequel to the burial of Major Grady of the Ninth regiment Monday comes in the death of his young orderly, Michael M. Burke of East Boston, who passed away from typhoid fever.

The supreme court decides that the city of Boston, or the treasurer of the city, is the proper custodian for the fund created by Benjamin Franklin.

Grand Opening Sale

—OF—

200 Choice House Lots

—AT—

SQUANTUM PARK.

On LABOR DAY, Monday, Sept. 5,

commencing at 2 P. M., will be offered some of the choicest building lots ever shown near Boston. The land is high and overlooks Dorchester bay on the west, with magnificent views of the city of Boston, Milton hills and Boston harbor. Squantum park is only 3 miles from the State House and is reached by trains on the Old Colony R. R to Atlantic station; 87 trains a day, of which 37 are express, 11 minutes' ride, 8-cent fare, connecting with electric cars direct to Squantum park, or take steamer every half hour from Marine park to Squantum park, or take electrics from Boston and suburbs to Neponset bridge, where the Quincy & Boston electrics connect for Squantum park. The high elevation of the tract we shall offer commands fine views of the surrounding country and ocean of a magnitude that baffles description here. It being the only remaining tract within easy access of Boston, of a high order of excellence not already on the market, and would long ago have been occupied had the owners elected to subdivide it; this fact is highly important to the contemplating purchaser, as the opening sale of a new tract never reaches prices easily obtainable upon further development. If you are looking for a home or land for investment, why not come out to this grand opening sale? Take 11.30, 12.30 or 1.30 express trains at the O. C. R. R., Kneeland St, Boston, for Atlantic. Band concert, refreshments from 12 to 2 o'clock at my auction tents on the land. Sale positive, rain or shine, commencing at 2 P. M. Four auctioneers and 15 attendants will make a good ime in disposing of the 200 lots. Don't miss this sale. One or more of my clerks will be on the land, or at my branch office at the Squantum Inn every day from 1 to 8 P. M.

Aug. 27-7t sep3-1w

MILITARY FUNERAL.

Detail of Volunteers, G. A. R. and Other Societies.

The body of Private John A. Boyd of Co. E, Ninth Massachusetts regiment, U. S. V. who died Monday at Fort Myer, Virginia, of typhoid fever, arrived in Quincy at 6 o'clock Tuesday night and was taken in charge by Undertaker Hall. Capt. Boyd, the young man's father, accompanied the remains and was almost heart-broken over his son's death. Later in the evening the remains were taken to his home on Cross street, which he left but a few weeks ago a picture of health.

Arrangements have been made for the funeral which will be held Thursday morning at 9.30 but whether the services will be held from St. John's or St. Mary's church had not been settled this morning. The members of Paul Revere Post 88, G. A. R., and the St. Mary's C. T. A. society will attend the services, and it is proabble that a firing squad of C. K will also be present to do esort duty. Friends of he family have gone to Camp Dalton today to interview Col. Whitney.

Mayor Sears and Councilman McGrath have interested themselves in the case. The Mayor saw Governor Wolcott this morning and had a very pleasant conference and His Excellency heartily approves of giving all honors possible to the dead heroes. Pri. Boyd, however, was a United States Volunteer and it is for the War Department to make a detail. Mayor Sears will probably appoint officials of the city to represent the city and President Pinkham of the City Council may do likewise.

The remains were encased in a hermetically sealed casket, and it is doubtful if they will be seen, which is much to be regretted.

Wanted—A Name.

The New York, New Haven & Hartford railroad is managed by men of ample brain power, as is evidenced in many ways, says the Hartford Courant. It is the common opinion that the railroad industry has drawn to it the most talent of all the occupations. Now why do not these able and brainy people put a few of their heads together and give the public some suitable name for the new and wonderful scheme of locomotion that they have put into use and that is so much appreciated. People now call it the "third rail." But that is a very unsatisfactory title and confuses visitors from a distance, who have no idea what it can describe. The "third rail" is one of several types of the trolley. But if you speak of the "trolley" today everybody asumes that you refer to the sort used for street cars. Really a trolley is something that "trolls" or travels and the iron shoe that "trolls" along on the surface of the third rail is as much a trolley as is the overhead gear that takes all the name. The street car, method ought not to be called trolley, but it has usurped the entire right to the term. The so called third rail ought to have something for a name that will be suggestive and distinguishable, and the public ought to be educated to use some other expression from this interesting process.

BILLHEADS

AT PATRIOT OFFICE.

SCHOOL MEETING.

The Committee Preparing for Opening of the Schools.

The regular meeting of the School Committee was held Tuesday evening, Messrs. Breed and Pierce being absent.

A request was received from Mr. C. A. Hunt that his two daughters be permitted to attend the High school at the opening of the school term. Mr. Hunt is building a house in Quincy which will not be completed until after the opening of schools so that he can not become a resident in time. Referred to the chairman of the High school subcommittee and the Superintendent.

The question of transfers at the Willard, Gridley Bryant and John Hancock schools was referred to the committee of those schools.

The matter of better defining the school bounds at the junction of Adams and Whitwell streets was referred to the sub-committees of the schools interested.

The matter of additional salary for the teacher of the overflow room at the Coddington school was refered to the Committee on Finance.

It was voted that the Commissioner of Public Works be requested to remove a section of the partitions in the basement of the Willard school.

The matter of additional help at the High school was refered to the subcommittee of that school.

The following janitors were elected: High, S. B. Turner; Adams, George I. Linton; Gridley Bryant, John Hinnegan; Coddington, E. S. Brown; John Hancock, J. E. Maxim; Lincoln, Geo. O. Shirley; Massachusetts Fields, J. W. Dorety; Quincy, Thos. A. R. Gould; Washington, W. C. Caldwell; Willard, Francis Welsh.

The financial report to date was as follows:

	Appropriation.	Expended.	Balance
Salaries,	$73,643	$43,891.38	$29,754.62
Fuel,	5,400	800.80	4,599.20
Janitors,	6,154	3,599.09	2,554.91
Transportation,	1,000	530.10	469.90
Books, Supplies, etc.,	7,550	4,180.52	3 369.48
Evening Schools,	1,250	494.03	755.97
	$95,000	$53,495.92	$41,504.08

WEYMOUTH.

Mr. Watson of East Braintree will return with his family from Vermont in time for the opening of the public schools.

As next Monday is Labor Day, Weymouth schools will not open until Tuesday, September 6.

Rev. H. S. Snyder came back from his vacation on Long Island in time for the Sabbath services on the 28th of August.

The alcove for the organ in the new Union Congregational church has to be enlarged on account of the purchase of a larger instrument than was at first anticipated.

The Rev. Mr. Baker of East Braintree preached an inspiring and excellent sermon last Sabbath. His subject was, "Growth in Grace and Knowledge." His audience was large and appreciative. He is the pasior of the Methodist church.

The Boys' Brigade at this place are to be addressed next Sunday evening by the Rev. Mr. Snyder.

It is hoped that all the Sunday school scholars of the Union church will rally for their first Sabbath lesson after a vacation in Pythian hall.

TODAY'S COURT.

Angelo Sartoni was arraigned for the larceny of paving blocks at Quincy. Case continued until Sept. 10.

The continued case of Patrick Scully for threatening assault on Fred S. Huntington at Quincy. The complaint was ordered dismissed.

SCHOOL DEPARTMENT.

CITY OF QUINCY.

IMPORTANT NOTICES.

ALL the public schools will begin the new year TUESDAY, Sept. 6, 1898.

All Teachers and Assistants will meet at 4 o'clock in the High School hall.

At this meeting all Principals will report attendance of pupils by grade.

The Training Class will be organized in the High School at 2 o'clock, Wednesday, Sept. 7, 1898.

"All pupils who enter the public schools of Quincy after Jan. 1, 1898, must furnish proper certificates of vaccination, which shall be kept on file in the school which the pupils attend."

No pupil will be received at the High School without the Certificate of the Superintendent.

All pupils of the High School who wish to take examinations in subjects in which they failed to pass last year, may do so at the school building, Saturday, Sept. 3, at 8.30 A. M.

The Head-Master of the High School, Mr. Tupper, will meet parents and pupils at his office in the building, Saturday morning at 9 o'clock, Sept. 3, and Monday afternoon at 4 o'clock, Sept. 5, to answer any questions regarding courses of study and electives.

The classes of '99, 1900 and 1901 of the High School will assemble at 8.15 A. M. Tuesday. The class of 1902 (the entering class) will not meet until 11 A. M.

Anyone wishing to board Teachers or Trainers should send his address to the Superintendent.

H. W. LULL, Supt.
Quincy, August 31, 1898. It

R. R. IMPROVEMENTS

Electricity a Factor—Metal Sleepers, etc.

Editors of the Daily Ledger:

Perhaps to no other point of observation has the attention of the modern inventor been so closely directed in the past few years as it has to the improvement in the mode of travel, and the wonderful power of electricity, shown by late developments, makes improvement in this direction a comparatively easy matter.

Although no definite steps have as yet been taken, several of the great railroads of the United State are seriously considering some very startling innovations. No railroad in the world holds a more prominent place than does the Pennsylvania, which, with its various connetions will transport its patrons from any point in the United States to any other point in the civilized world where there are railway or steamship facilities. It makes connections from Boston via the New York, New Haven and Hartford R. R. and running out from New York connects with the finest line of road extending south to the gulf, north to Manitoba and west to the Pacific ocean over such magnificent systems as the "Southern"—covering Washington to New Orleans; "Chesapeake and Ohio," Washington to Cincinnati and points west. The "Big Four," covering Cleveland, Cincinnati, Chicago and St. Louis. The "Great Northern," the "Northern Pacific;" "Vandalia" and many others and it is the Pennsylvania railrod that is now among the first to take up a few new items of improvment which will add considerably to the luxury of travel for which this great network of railways now holds the first place.

There is today little doubt as to the motive power of the future; steam will give place to electricity and in some cases to compressed air. The present and most important consideration taken up by the great railway companies is that of electricity as a motive power and the Pennsylvania Company talk of making the experiment between New York and Washington and if it is as successful as is claimed it will be adopted throughout the entire system.

Another innovation is the use of a metal "sleeper" in the roadbed, so built upon heavy springs as to make any vibration almost imperceptible and affording such a smooth road that the most delicate women and invalids may travel without any sense of illness that now sometime attends a trip through the swaying motion of the cars.

Other improvements in view are compartment coaches so arranged that couples and families may be as privately situated as in a room in their own homes. These compartments, will be supplied with all the conveniences of a modern hotel; with electric buttons and instructions as to how to summon porter, ice water, dining car waiter, etc., etc.

Sleeping berths will be in each section, arranged like a folding bed and so easily handled that the occupants can manage them at any time. All coaches will be of the vestibule pattern excepting those designated as "extras" which will be built on a plan similar to the Engish railway carriage. The appointments of these coaches will be elegant in every particular and travel as comfortable as the ingenuity of man can make it. Toilets and washrooms will be of the most improved plumbing and there will be an abundance of combs, brushes, towels and whisk brooms.

The greatest thing to be said about all this is that the cost of traveling will not be any more than at present. The only extra expense will be the bath, one of which will be fitted up in each first class coach on long distance trips. A charge of 75 cents or $1 each will be made for the use of bath, which will be supplied with every convenience known to the plumber's skill.

W. A. B.

New Juvenile Books.

E. P. Dutton & Co's fall announcements include over forty new juvenile books. The most conspicuous among them are Colonel H. R. Gordon's "Tecumseh, Chief of the Shawanoes;" "The Counterpane Fairy," by Katharine Pyle; "Poor Sallie and Her Christmas," and other stories by Mary D. Brine; "An Amateur Fireman," by James Otis; a story of Custer's last rally, entitled "The Master of Strong Hearts," by Elbridge S. Brooks; a tale of the fourteenth century by Mary Halsey Miller, entitled "Raoul and Iron Hand;" "Brayling Towers," and "Hermy," by Mrs. Molesworth; "Nic Revel; or, a white slave's adventures in Alligator Land," by George Manville Fenn: "For Cross or Crescent" (the days of Richard, the lion-hearted) by Gordon Stables; "Life on the Ocean Wave; or, the cruise of the good ship Boreas," by the same author; "Under the Laburnums," by Emma Marshall, and several new stories and novels by John Strange Winter and others.

THE DAILY EVENTS.

The Local Brevities of the City of Presidents.

The last day of August.

A holiday next Monday.

To school next Tuesday.

Supt. Lull returned to town Tuesday.

Miss Elizabeth Dunbar is spending her vacation at Point Allerton.

The City Council Committee on Ordinances met Tuesday evening.

The list of land values in the Ledger is already attracting interest.

A fence is being built around the John Federhen estate at Quincy Point.

The Unitarian church will not open until the second Sunday in September.

Tax Collector Baker's office has been connected with the City Hall telephone system.

The illumination at Houghs Neck will be fully reported in tomorrow's Ledger.

The Wollaston Trap club will hold a shoot on Labor day forenoon at nine o'clock.

Quincy is largely represented every day this week at the trotting at Readville park.

The city was flooded Tuesday with newspapers booming Alderman Paige for Congress.

Bridge street, Butler road, Merrymount road and Thayer street, are receiving a coat of gravel dressing.

It is a curiosity to see a vessel at Quincy Neck. There is a sloop loading stone in Bent's Creek off Howard street.

The curbing for the concrete sidewalk on Hancock street between Russell park and Butler road is being placed in position.

Mr. George Starbuck of Bourndale, Cape Cod, was in town Tuesday, on short visit. He formerly lived at Quincy Neck.

General Secretary and Mrs. William F. Hoehn have returned from their visit to New Jersey among the hills of Morristown.

Paul Revere Post, G. A. R., will attend the funeral of Pri. John A. Boyd, Co. E., Ninth Massachusetts Regiment, U. S. V.

The Recruit-Duchess race will be sailed tomorrow forenoon at 10.30 o'clock, and will be fully reported in tomorrow's Ledger.

Mrs. Daniel Flowers and children of Newcomb place, have gone to Charlottetown, P. E I., where they intend to reside in the future.

The street railway has completed arrangements to handle the large crowds expected to visit Houghs Neck this afternoon and evening. Half hour cars will be run in both directions and plenty of cars will be ready to accommodate all who wish to ride.

Beginning tomorrow, Sept. 1, the rooms of the Young Men's Christian Association in the old Court building will again be opened to members and the public. They have been completely renovated and will be described at a later date in the columns of the Ledger. The opening reception will be held about October first.

The sad intelligence was received at Wollaston on Tuesday of the death of Mrs. George P. Merrifield (Miss Ella Godfrey) at her home at Helena, Ark. Mrs. Merrifield was the only daughter of Mr. and Mrs. Washington H. Godfrey of Wollaston. She was a woman with a singularly sweet disposition. Her death will bring sadness to a large circle of friends.

A Great Monument.

Faneuil Hall Market, or Quincy Market as it was formerly called, to distinguish it from the one in the more historic building near by, was seventy-two years old Friday. To the enterprise and forethought of Mayor Quincy, the elder, the public are indebted for its inception, and it stands as a great monument to his wisdom while mayor of the city. It was built in 1825, and it was dedicated on Aug. 26. There was no railroad between Boston and Quincy then, so the great stone pillars that are at the entrance had to be hauled from the quarries at Quincy by yokes of oxen. The building is 535 feet long and 50 feet wide, and more then 1200 men are employed in it.—Transcript.

BORN.

DORRING—In Norfolk Downs, Aug. 29, a son to Mr. and Mrs. George Dorring.

DIED.

CHESLEY—In Quincy, August 30, Mrs. Susan K., widow of Mr. William Chesley, aged 88 years and 3 days.

BOYD—At Fort Myers, Washington, August 29, Private John A. Boyd of Quincy, Mass., a private of Co. E, Ninth Massachusetts Volunteers, aged 19 years. Burial at Quincy, Thursday.

HARLOW—In Park Rapids, Minn., June 26, Rev. Henry Harlow, formerly pastor at the West Quincy M. E. church 1878-79, aged 36 years.

A Golden Opportunity.

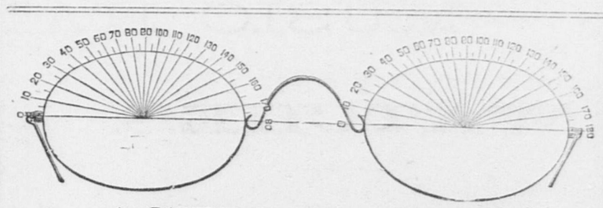

It is time for the children to begin their music lessons again. They will be more willing to practice on a beautiful new piano than on an old one. We can give bargains in pianos never before offered. Moreover, we can give terms so easy that it is within the power of all to have a magnificent piano in the home.

Mushroom Plumbers.

There are mushrooms that are delightful. There are toadstools that will "kill you dead"

There are plumbers that undestand their business and have been established for years. They are safe to deal with, but beware of the mushroom plumber who today is, and tomorrow is not.

Plumbing a house is a serious matter and you should not be caught napping by employing inexperienced or faking workmen.

G. B. BATES

has had twenty-five years of practical experience, which is the best credential you can find, and your interests so far as plumbing and house-heating are concerned, will be safe in his hands.

Come, Mary,

Let's go over to the Quincy Second-Hand Variety Store and see if we can't find just what we want. You say you need some more kitchen goods and a few chairs, a carpet for the chamber, some glassware and various other things, and when I was there last week I saw my cousin get a lot of goods for almost nothing. He told me that sometimes he could find new goods at less than half price. These are hard times, Mary, and we must buy where the dollar goes farthest.

WALTER P. PINEL

is the Manager, and the store is right over here at number 20 Franklin street.

YOU

WRONG

YOURSELF

If you think you are making the most of your opportunities and do not advertise liberally in the Quincy Daily Ledger, which reaches most of the families of Quincy, Wollaston Atlantic, Norfolk Downs, Quincy Point, Quincy Neck, South and West Quincy. It also circulates in Weymouth, Braintree and Milton.

JOHN

WANAMAKER,

The millionaire of Philadelphia, who made his fortune by store advertising, says "I never in my life used such a thing as a poster, or hand bill, or dodger. My plan for 20 years has been to buy so much space in a newspaper and fill it up as I want it."

LAND VALUES

A Transcript From the Books of the Assessors.

Number of Feet in Each Lot and Valuation Thereof.

Also the Amount of Each Person's Tax Bill for 1898.

Something new in the publication of the taxpayers of the city is attempted this year by the Daily Ledger. There is considerable interest in the assessed value of land in the city, which is claimed to be high in some cases and low in others. So the Ledger has supplemented the amount of the tax bill in each ward with the value of each lot of land for which the person is taxed, giving in each case the number of square feet or acreage.

(To be continued.)

You should save a file of the Ledger while this list is being printed. We cannot supply back numbers of the paper at 2 cents per copy, but have established this rate: Papers one week old, 5 cents; papers one month old, 10 cents; papers one year old, 25 cents.

Literary Notes.

The complete novel in the September issue of Lippincott's is "The Touch of a Vanquished Hand," by the late Miss M. G. McClelland. Its action occurs mainly in Virginia, and partly in eastern New York during the French and Indian war of 1755. "The Cromwell Case," by James Raymond Perry, deals with the unravelling of a supposed murder, Henry Holcomb Bennett, in "A Charge in the Dark," describes an experience of the National Guard which resembled actual war. The "Grandpap" of Anna Vernon Dorsey's tale was a colored boy, on whom cares and labors too heavy for his years were laid.

A new book of stories for children is given readers who found so much charm in Mr. Kenneth Graham's "Golden Age." This last is by Mrs. Murray Hickson, a newcomer in this department of literature, and her work, as evinced in the dainty volume "Concerning Teddy," is published by M. F. Mansfield & Co., New York.

May Divide Samoan Group.

Washington, Aug. 31.—Official reports to the state department show that the Samoan government is the most expensive and unsatisfactory of any in the world, taking into consideration the population of the Samoan group. In the capital city, Apia, there is maintained a tripartite government at vast proportionate expense, while the reports show that 32 rate-payers are obliged to bear the entire cost. For some years back the existing arrangement for the government of the Samoan group has been satisfactory to none of the three governments, yet it has been continued for the reason that nothing better could be suggested that would be acceptable to the three nations. Now there are indications that at least one of the parties is coming around to what was a favorite plan of settlement of the state department, namely, a disruption of the present government and an absolute division of the islands of the group between the United States, Great Britain and Germany. The principal object of our government has been to retain possession of a coaling or a full naval station in the islands.

Woman With a Conscience.

Philadelphia, Aug. 31.—Charles Woodward and Mrs. C. L. Ames, otherwise known as Clara L. Charters and Letitia C. Perkins, whom the Boston detectives have been seeking since last April, are locked up here. They are alleged to be a pair of clever check forgers. The woman surrendered Woodward to clear her conscience. Later she was arrested, and both are now in custody.

They are wanted in Boston to answer to the passing of a forged check for $100 on William S. Butler & Co. Warrants have been issued, and as soon as the local authorities have finished with the prisoners they will be turned over to the Boston police.

Resorted to Lead.

Vicksburg, Miss., Aug. 31.—Charles A. Scott, editor of The Bollivar County Democrat, and Captain C. E. Wright of the Vicksburg Dispatch met on the "field of honor" yesterday and exchanged two shots each. The duelists were lined for a third shot when officers appeared on the scene and stopped the battle. The duel grew out of an editorial controversy on the failure of the Rosedale bank.

Bicycle Championship.

Baltimore, Aug. 31.—The following is the score in the national championship: Bald, 149; McFarland, 117; Major Taylor, 115; Kimble, 107; Cooper, 97; Arthur Gardiner, 77; Freeman, 59; O. L. Stevens, 46; Mertons, 18; John Fisher, 14; Jay Eaton, 10; Tom Butler, 9; Bowler, 7; Fred Sims, 5.

—Some years ago Chicago bought from a Maine granite quarry a number of massive pillars for its old City Hall at a cost of $2500 each. When the Windy city built a new municipal hall it offered these pillars for sale, and now they have been purchased by the Polish-speaking Catholics of Milwaukee for the front of the new St. Josaphat's Church. The price paid is but a fifth of the original cost of the columns.

—Chicago loses no time but already is arranging for a national peace festival to be held soon after the close of the war.

THE DAILY EVENTS.

Cloudy and muggy.

The Woodward Institute will open Wenesday, Sept. 14.

The Democarts will use the Australian ballot at their caucuses this fall.

Joosph W. McrGath, of the U. S. S. Bache has been home for a brief furlough.

Wales ice cream company is now located in its new quarters on Washington street.

Supt. Lull has an important notice in th issue relative to the opening of the public schools.

The Republican City Committee has decided to hold the State caucuses Wednesday Sept. 28.

Early Sunday morning twelve panes of glass were broken in one of the windows of the First church by the fall of the sash. New panes have been put in today.

John Odom, who enlisted with the Eighth Massachusetts regiment, U. S. V., is at ohme on a furlough, to recuperate. He has not sick, but is run down and has lost flesh.

The concert at St. Francis church by the sea at Houghs Neck on Monday evening was largely attended and a very enjoyable entertainment. There were solos by Miss Annie Roche, Miss Mary E. Elcock, Miss Helen B. Brennan, Miss Frances Sulivan, Mrs. J. J. O'Callahan, Mrr. Daniel Padula and Mr. John Phelan, and a reading by Miss Nellie Coffey.

FIFTH RETAINED.

Word Received from the War Department.

Camp Dalton,
Wednesday, Aug. 31.

There is rejoicing among many of the Fifth at the news today, that the Fifth is not to oe mustered out. They feel that it is a recogition of their good work, and they are in hopes they may yet go out of the confines of the United States.

Yesterday was an ideal day for field life. It was the most comfortable day yet experienced here. In the morning the usual drills took place but the afternoon was devoted to cleaning up for today's inspection which is to be the regular monthly inspection. Everything was removed from the tents and the floors scrubbed. Haversacks were washed and mess kits polished. Guns were thoroughly cleaned and all clothing brushed. If anything is found in bad shape it will be the owner's fault as plenty of time was given.

The regiment will be marched into the field in heavy marching order and everything will be opened and inspected. No passes were issued yesterday as everyone was expected to be on hand for this occasion.

As the Fifth did not use the drill ground in the afternoon the cavalry took advantage of their absence and went through a series of fine movements. There is a noticeable difference every day in their work as the men and horses get broke in.

There are thirty-one prisoners in the guard house and these are being used to repair the roads about camp. Their life is not an inviting one as they are constantly under the eyes of an officer and an army guard. Their hours are quite long and every one is anxiously waiting the time when they can rejoin their company.

Another march is contemplated for tomorrow. These marches are enjoyed by every one and go a long way toward breaking the monotony of the routine of every day camp life.

The boys are beginning too feel the pinch of the lack of money again and pay day can not come too soon. It is expected about the 15th.

The non-commissioned officers and first class privates are receiving instructions several times a week from the surgeon in aiding the wounded and treating all emergency cases. This may be very useful in more ways than one and the men will no doubt profit by it. "Doctor" is becoming a popular name in camp.

A very poor quality of salt junk has been issued to the Regiment of late, called bacon. A complaint was made and a board of which Capt. Kincaide was a member was organized to examine into the matter. They at once condemned it, and immediate steps were at once taken to rectify the matter.

Ten passes will be issued today in all companies instead of five.

A fine dress parade was given last evening. As each company passed the cavalry camp they were given a hearty cheer.

Lieut. Spear of Co. K is commander of the guard today. MACK.

—The Boston Courier says the summer resorts everywhere are at the very height of their season, and a prosperous season it is proving in every way. Some of the mountain hotels never registered so many guests before.

English Lady Cyclists.

The Duchess of Sutherland has declared herself in favor of the "divided" cycling dress. She rides in the country a diamond framed machine, which of course involves a divided garment as a necessity, and, though she wears a skirt only separated into two down the back, she does not hesitate to say that she thinks knickers and a straight cut coat would be a better and more sensible costume for country wear. Her sister, Lady Warwick, by the way, has been protesting against the idea that she is a most enthusiastic cyclist. She avers that she rides chiefly when she wants to get somewhere to see after some business more quickly and more readily than she can do by waiting till a horse is put in, and indeed she is a very busy woman. Her energies seem inexhaustible. Recently she made a speech to a geological class, largely composed of working colliers, and pointed out to them the interest of understanding the earth in which they toil, excusing herself for her presence by the explanation that she is a colliery proprietor.—Black and White.

An Old Favorite.

Miss Fanny Crosby, the blind poet, is best known through the thousands of hymns she has written, yet her secular poems and cantatas if collected would fill a number of books. Among these are "Never Forget the Dear Ones" and "Music In the Air." The royalty on "Rosalie, the Prairie Flower," alone amounted to nearly $3,000. She has assumed such a variety of pen names that many of her most popular songs have never been credited to her. Miss Crosby lives in Brooklyn, N. Y., and still writes with enthusiasm. She is described as "merry and simple as a child in her manner." A few weeks ago she wrote some songs for Sankey to sing to our troops at Tampa.—Boston Woman's Journal.

The Knack of Summer Entertaining.

Elaborateness is neither fitness nor art in summer entertaining, and it should be put aside, with heavy draperies and other impediments, to breezy ease or freedom. One more word about hot weather luncheons. Do not have your flowers too profuse. Do not oversalt anything, as it induces thirst, and do not forget that the trickle of ice is sweetest of hot weather music. Use it, cracked, under olives, and around tomatoes if they be served alone. Shave it and fill tumblers for tea, grape juice or other cold beverages. Indeed introduce it wherever possible. — Ella Morris Kretschmar in Woman's Home Companion.

Does Credit to Womanhood.

Miss M. E. Lowndes, an English writer, has just published an admirable biography of Montaigne far surpassing in scholarship, appreciation and accuracy any previous volume on the subject. A work so interesting, so satisfactory and complete should have the sex of its author clearly defined, and Miss Lowndes ought not to disguise it under initials. This is important for the encouragement and support of other women as well as for the convenience of reviewers and librarians. So appreciative, thorough and intelligent a work does credit not only to the author, but to womanhood.—Woman's Journal.

Hats Off!

The masculine young woman who creates a sensation in the theater by doffing her alpine or sailor hat and placing it, man fashion, in the rack beneath the seat is perhaps responsible for a fad to be observed now on trolley cars, steamboats and trains. It is no unusual sight to see the feminine traveler with hat removed, apparently enjoying her emancipation from the vexing problem, "Is my hat on straight?" Theater goers are hoping that the custom will continue throughout the season usually made hideous by the theater hat.—New York Letter.

Women's Good Work.

The Woman's Civic Federation of Elizabeth, N. J., has incorporated a branch society for the prevention of cruelty to children. This federation is engaged in a very large work of assisting indigent people to become self supporting. It has published a report severely condemning the pawnbrokers of the city for charging 10 per cent for loans. The federation gives out work to poor women who can sew and then sells the garments at cost price to other poor women who cannot.

Will Fill Important Place.

Miss Lizzie Marie Pierce will take the place of Miss Florence Lauterbach next year on the teaching staff of the woman's law class of the New York university. She will deliver the second course of lectures on "Domestic Relations" and "Wills and Inheritance" to the evening class. Miss Pierce is a graduate of the New York Normal college, a LL. B. from the university and an attorney and counselor at law. She has had valuable experience in educational work.

The crown princess of Greece, who is a trained nurse, is making a thorough investigation of the German hospital methods. She intends also to make a tour of the English hospitals with a view to having a number of up to date hospitals erected in her own country immediately upon her return.

Marshalltown, Ia., has a flourishing library association, organized six years ago by the Marshalltown Woman's club. Several of the federated clubs of Marshalltown, of which there are ten, buy annually four shares of the library stock at $5 a share.

German physicians are still opposed to letting women heal the sick. At the recent conference of the German Medical association, numbering over 15,000 members, a motion against encouraging women to study medicine was adopted unanimously.

TEETH EXTRACTED.

No Pain or Danger.

Safer than vapor. Money paid for extracting goes towards teeth to be inserted. I am the only dentist in the city using the Painless Preparation for Extraction.

September Suggestions.

As September approaches we think of how to fix the house up to make it cosy for winter. A new carpet on a floor will change the whole appearance of a room. Some rooms only need a mat or two and other rooms need a handsome rug or art square to add warmth or richness.

It is easy to select one for any place after inspecting our assortment.

GEN. WEYLER'S POLICY

Oppressor of Cuba Appears In the Role of Savior.

Proposes to Be Independent of All Parties.

Reorganization of Spain's Military Strength One of His Objects.

London, Aug. 31.—General Weyler, according to a special dispatch from Madrid, has outlined his future policy. He proposes to be independent both of the government and of the opposition, "always aiming to preserve the country and to recognize the army." He expresses the belief that the Carlists have plenty of money, some of which, he alleges, comes from France, and he declares the united Republicans have no personal animus against the queen, their only object being to "adopt a firm international stand, one result of which would be to check in some measure England's ambitions." General Weyler's statement was made to a committee of the Weyler club.

GENERAL WEYLER

It is represented that the general is returning to politics in response to many appeals from Spain and abroad, and it is added that he will attend the sessions of the cortes and expound his views as to the cause of the war disasters. The substance of General Weyler's declaration to the delegation of the Weyler club is as follows: The general intends to advocate a sweeping policy of rehabilitation of the government. He will refuse to aid in temporary measures, and will propose a military dictatorship for the reorganization of the army and navy. Their honor, he remarked, has been lost, as well as the Antilles, owing solely to military deficiencies.

General Weyler expressed the belief that the present cabinet will be succeeded by a military dictatorship or by a Silvila ministry. He added that he did not desire a change in the form of government, but he pointed out that the Carlists have an excellent organization. He urged Spain to abandon her attitude of international neutrality in order to be prepared to oppose Great Britain when the latter, desiring to enlarge her sphere of action in Gibraltar, demands the Sierra Carbonera, Melilla, or adjacent Spanish possessions. The general deemed it better to lose the Philippine islands, the importance of which he did not appreciate, than territory around Gibraltar. In conclusion, General Weyler deplored the loss of the Antilles for the sake of the Spaniards who resided in the islands and on account of the national commerce.

General Weyler, presiding last evening over the Weyler club, alluded to the "disasters Spain has suffered and must retrieve." He complained that the press censorship would "prevent the fixing of the responsibility, which politicians are trying to throw on the army and navy," and he promised that he would speak plainly and place himself forthwith "at the head of the people in their struggle for the salvation of the country."

NEWS IN BRIEF.

Thomas Tillary, 14 years old, had a fit while standing on a bridge in Taunton, and, falling into the water, was drowned.

The will of Albert A. Munger of Chicago makes a bequest to the following charitable institutions: Women's and children's charitable hospital, $50,000; foundlings' home, $50,000; home for incurables, $50,000; half orphan asylum, $5000.

The British cruiser Cleopatra, belonging to the training squadron, has arrived in Copenhagen with the crew of a Norwegian schooner, which she reports having sunk in collision. The Cleopatra put 18 blue-jackets on board the schooner in an effort to save that vessel, but she foundered so suddenly that six of the blue-jackets were drowned.

John Lasicago is wanted in Torrington, Conn., on a charge of alleged manslaughter as a result of the death of John Grihoolsky. The latter died Sunday, and a post mortem examination revealed evidences of two blows which might have caused death. The victim had been involved in a quarrel with Lasicago.

A delegation left Omaha today for Washington to present formally the invitations to President McKinley and others to be present at the peace jubilee to be celebrated on the exposition grounds Oct. 10 to 15 inclusive. Invitations will be given to the entire diplomatic corps, as well as the cabinet and others in authority.

Theodore C. Search, president of the National Association of Manufacturers, has sent to the president on behalf of the organization, a letter thanking him for his direction of affairs during the war and extending to him the association's sincere expression of confidence in his dealing with the questions growing out of the clash of arms.

Joseph Lerou of Montreal was arrested in Portland by Detective La Mouche of Montreal for alleged embezzlement of $600, and although he could not have been extradited for the offense, the prisoner evidently decided to avoid trouble, so gave the detective $491, which was all he had in his possession, and was then released from custody.

EARNED ONE RUN.

Boston's Ball Club Made Eight In the Pittsburg Game.

Pittsburg, Aug. 31.—Only once during the nine innings yesterday did the Bostons fear a Pittsburg man crossing the plate, and that was in the fourth inning, when O'Brien led off with a three-bagger. He was out at the plate trying to score on a grounder. The next two men went out in order, and after that there was never any prospect of a run.

The support of Nichols was brilliant. Collins played marvellous ball, and all hands played like champions, not making an error of any kind, nor anything like one. The home team was crippled by the absence of Ely, who is sick. O'Brien at short did wonderfully bad work. He made errors that were peaches in their class. His work seemed to demoralize all hands, for they played like the veriest amateurs that ever went on a diamond. Score:

Pittsburgs.	AB	R	1B	PO	A	E
Donovan, r. f.	4	0	1	1	0	0

Nichols, p.	5	1	1	0	1	0
Totals	44	8	14	27	17	0

Bostons .....0 1 1 2 3 0 0 1 0—8

Earned run—Bostons, 1. Two-base hit—Yeager. Three-base hit—O'Brien. Stolen bases—Hamilton, Long, Duffy, Yeager. Double play—Long, Lowe and Yeager. First base on balls—Off Hart, 4; off Nichols, 2. Struck out—By Hart, 2; by Nichols, 2. Passed ball—Schriver. Time—1:35. Umpires—Lynch and Andrews.

With anything deserving the name of support, Hemming of the Springfields would have shut the Buffalos out without a single hit or run. The New Yorkers won, 6 to 2.

Dowling pitched great ball for the Louisvilles, and the Baltimores were defeated in a finely played game.

The Chicagoes took yesterday's game in the ninth inning. The New Yorks' only show to score was thrown away on a close decision, when Hartman attempted to stretch his triple into a home run.

The Phillies again walloped the crippled Cincinnatis yesterday. Three of Ewing's five pitchers are disabled, and for this reason Dwyer, who pitched on Sunday, was forced in yesterday. Score: 9 to 1.

W. W. Kerr has purchased from J. L. Auton of Chicago the controlling interest in the Pittsburg club. Kerr sold the interest to Auton last November, but the latter is engaged in mining in the west and has no time now for baseball. Mr. Kerr says the club will be strengthened and Manager Watkins will be retained.

The Providences again defeated the Ottawas in a close game. It was another pitching battle in which Harper held the Providences down to four single hits, while the Ottawas found Egan for five singles, two doubles and a homer. Harper's passes on called balls helped to even matters.

Recovery In Doubt.

New York, Aug. 31.—Elizabeth Stahl, 35 years old, was arrested last night on suspicion of knowing something about the assault on James Clary, a member of the Seventy-first regiment, whose recovery is considered doubtful. Just before daybreak, a citizen notified a policeman that a dead soldier was in the middle of the street. The officer investigated, but could not find anyone who would tell how the affair occurred. When an employe of the street department reached the spot he said that he saw a woman, young and pretty, kneeling by the soldier's side and wiping the blood from his head with a handkerchief. The young woman said the soldier had been thrown from a trolley car because of a remark he made to a woman passenger. The volunteer nurse refused to give her name or address, and as the crowd increased, she disappeared.

Rescue of Two Fishermen.

New Haven, Aug. 31.—The Thistle of St. John came into port yesterday, having on board two fishermen picked up from a small boat off Highland light, Mass. The fishermen are Thomas Fortune, aged 29 years, and Joseph Croft, 33, both of Newfoundland, and they belong to the crew of the Boston fishing schooner Arthur Binney, which sailed from Boston Aug. 15 for the fishing banks. After securing bait at Newburyport on Tuesday last, she sailed for the fishing grounds, and men were sent out in dories to set the trawls. They were 70 miles southeast of Highland light when a dense fog set in, and the schooner was unable to find the dory. The little boat drifted about for three days and was finally picked up by the Thistle. The men were exhausted, having been without food except raw fish from Wednesday until Friday.

Maine Citizen Fails.

Bath, Aug. 31.—Galen C. Moses, one of the best known of Bath's citizens, has assigned. This action is said to be caused by alleged financial difficulties of the Bath Gas and Electric company, and the Richards Paper company of South Gardiner, with both of which concerns Mr. Moses is closely connected by business dealings, and the paper of which he is said to have extensively endorsed. Both concerns have announced their assignment. No amounts are named in the assignment papers, but the amount is very large, approximately, thought to be over $200,000.

A few years ago Mr. Moses gave Bath a public library costing $15,000, and gave $35,000 towards the Y. M. C. A., of which he is president.

Tomorrow's Almanac and Forecast.

Sun rises—5:09; sets, 6:18.
Moon rises—6:33 p. m.
High water—11:20 a. m.; 12 p. m.

Fair and generally clear weather promises to continue for several days longer; the temperature will continue high the greater portion of the week, at least, rising to between 80 and 90 degrees during the day, with winds from west and southwest.

DISMAY OF THE FRENCH

Mystified by the New Attitude of Their Russian Ally.

A Feeling That Czar Nicholas Is Perfidious.

Leading Englishmen Unreservedly Approve Plan For Disarmament.

London, Aug. 31.—John Morley, Liberal member of parliament, and former chief secretary for Ireland, Sir John Lubbock, the distinguished scientist, and other men of position in the political and scientific world have expressed their approval of the czar's plan of a general disarmament.

The Paris correspondent of The Times still insists that Mr. Faure and the French ministers knew nothing beforehand, and that the czar's proposal has plunged the entire official world into terrible embarrassment and almost into stupefaction. "Everybody," says Mr. De Blowitz, "is asking with dismay what it means. It is a sad awakening for France, and her papers are making an immense effort to restrain their feelings in the face of what is regarded as Russian perfidy."

M. DE BLOWITZ.

The Daily Graphic, in its comments, says that Lord Salisbury in 1888 communicated to Emperor William a memorandum showing the tremendous cost of armed Europe. The emperor was so impressed that he privately intimated his intention to summon a disarmament congress. The semi-official German press ventilated the idea, with the result that so much animosity was revealed on the part of France that the kaiser abandoned the project.

The St. Petersburg correspondent of The Times says: "Count Muravieff, the Russian foreign minister, declares that the idea originated entirely with Emperor Nicholas. There is much scepticism in diplomatic circles as to any practical results from a conference; and it is admitted on all sides that the circular came as the greatest surprise."

The St. Petersburg correspondent of The Daily Mail says: "The proposal is a victory for Mr. De Witte, the Russian minister of finance, over Count Muravieff, the former having warned Emperor Nicholas that if Muravieff's provocative policy toward England were continued, Russia would soon become bankrupt. Mr. De Witte advised disarmament as a peace policy, to enable him to carry his plans for a gold standard in Russia and a rehabilitation of Russian finance."

Trade Union Congress.

Bristol, Aug. 31.—At the trade union congress yesterday Mr. Duncan, one of the American delegates, referring to the "growing political understanding between England and the United States," asked why American and British workers should not co-operate to defy the introduction from any other nation of "anything calculated to be unfair to the interests of the working classes."

Mr. Lloyd, another American delegate, said he would never rest satisfied until they had a "parliament of the world's workers, where international industrial questions could be discussed."

Germany Is Willing.

Berlin, Aug. 31.—An official organ, believed to be inspired by Prince Von Hohenlohe, the imperial chancellor, declares the willingness of Emperor William and Germany to accept the invitation to attend the congress as proposed by the Russian emperor.

Murder and Suicide.

London Depot, Ky., Aug. 31.—Advices were received here from Anneville, Jackson county, 20 miles from this place, to the effect that Judge Levin Johnson of the Jackson court had murdered his wife and then committed suicide. Judge Johnson had driven his wife from home by brutal treatment, forcing her to seek refuge in her mother's home. While under the influence of liquor, Johnson armed himself with a Winchester, went to his wife's abode and shot her through the neck. He then blew the top of his head off with the weapon.

Report a Canard.

Ottawa, Aug. 31.—A report was published in many United States newspapers recently that some 3000 Americans were starving on the Teslin trail between Telegraph creek and Teslin lake. The United States government asked the Canadian government to investigate the matter. This has been done, and a report has been received here that there are only 1500 people altogether on the trail and that they are well supplied with provisions. There is therefore no foundation for the report.

Two Scoundrels Wounded.

Brunswick, Ga., Aug. 31.—Section Foreman Hartman, his wife and sister were insulted by a party of soldiers near their home last night. They were watching the First Ohio regiment go through Huntsville, when some of the privates made coarse remarks to them. They retreated to their home, and the soldiers followed. Two of the soldiers fired at Hartman. Hartman and the women returned the fire, wounding two soldiers, one seriously.
